ADMINISTRATIVE LEAVE LETTER

County of Santa Clara
Employee Services Agency
County Government Center, East Wing
70 West Hedding Street, 4th Floor
San Jose, California 95110-1705
(408) 299-5900 FAX 903-0579

September 25, 2006

TO: Agency/Department Heads
    Executive Managers

FROM: Luke Leung
      Deputy County Executive

SUBJECT: ADMINISTRATIVE LEAVE

Most CEMA represented employees are designated by the County as “exempt” employees under the Fair Labor Standards Act (FLSA). There are currently nine classifications that are designated as “non-exempt” by the County. Please see the attached list which will be updated periodically. Other than these nine classifications, CEMA employees are salaried employees who are expected to work the number of hours necessary to fulfill the duties of the position without overtime pay. Depending on the circumstances, CEMA employees may work more or less than forty (40) hours in any particular week.

Recognizing the above, FLSA-exempt CEMA employees may be granted time off without charge to any leave bank under “administrative leave” if the manager determines that service delivery and performance of job functions will not be impaired because of the absence from work. Such time off should not be calculated on an hour-for-hour basis in relation to excess hours worked.

Administrative time off must be:
- Scheduled in advance when possible
- Approved as administrative leave by the manager, and
- Normally taken in increments of less than one day.

An employee need not state a reason for requesting the time off. Either it is or it is not appropriate to grant the time off under the circumstances outlined above. An employee can make the request and use the administrative time off for any purpose without the necessity to state a reason.

For a full day’s absence under “administrative leave” an executive manager’s approval is required. Approved requests should be maintained for periodic audit by the Internal Audit Division. While discretionary for less than a full day’s absence, full day increments of administrative leave must be reported in the payroll system.

Should there be any questions related to this policy please contact the Office of Labor Relations at 408-299-5820.

Attachment

c: Tom Starkey, CEMA Business Representative
   Randy Johnsen, CEMA Business Representative

Board of Supervisors: Donald F. Gage, Plinio Alvarado, Pete McHugh, James T. Beall, Jr., Liz Kniss
County Executive: Peter Kriha, Jr.

New language is underlined.
Deleted language is struck through.
List of job classifications represented by County Employees Management Association (CEMA) that are designated by the County of Santa Clara as "Non-Exempt" under the Fair Labor Standards Act (FLSA)

Prepared by ESA-Labor Relations 9-25-06
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John P. Mills, Director, Employee Services Agency
SUBJECT: Salary Ordinance Amendment related to the Tentative Agreement with CEMA

RECOMMENDED ACTION
Adoption of Salary Ordinance No. NS-5.20.107 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adjusting salaries for classifications represented by the County Employees Management Association, Operating Engineers Local No. 3, American Federation of Labor - Congress of Industrial Organizations providing for two three-percent general wage increases and various salary realignments.

- Introduce, waive reading, and preliminarily adopt on April 7, 2020.
- Adopt (Final) on April 21, 2020.

Please see Legislative File #100967.

LINKS:
- Linked To: 100967 : Approve Tentative Agreement with the County Employees Management Association, Operating Engineers Local No. 3, American Federation of Labor - Congress of Industrial Organizations for a Successor Labor Agreement for period April 6, 2020 through June 23, 2024, including equivalent applicable terms for unrepresented confidential administrative employees and related coded and uncoded classifications.

ORDINANCE NO. NS-5.20.107

AN ORDINANCE AMENDING SANTA CLARA COUNTY ORDINANCE
NO. NS-5.20 RELATING TO THE COMPENSATION OF EMPLOYEES
The Board of Supervisors of the County of Santa Clara ordains as follows:

SECTION 1:

Notwithstanding the provisions of NS-5.20, the salaries for all classifications represented by County Employees Management Association (CEMA), including unrepresented extra help employees working in classifications represented by CEMA, shall be increased by 3%. This increase shall not apply to employees working in CEMA Nursing classifications or employees in unrepresented Confidential Administrative classifications.

SECTION 2:

Notwithstanding the provisions of NS-5.20, the salaries for the classifications listed in Attachment A shall receive an additional realignment as noted.

SECTION 3:

Notwithstanding the provisions of NS-5.20, the salaries for all classifications represented by County Employees Management Association (CEMA), including unrepresented extra help employees and all employees in unrepresented Confidential Administrative classifications, with the exception of classifications which are tied to other County bargaining units, shall be increased by 3%.

SECTION 4:

This Ordinance shall take effect April 21, 2020. Section 1 and 2 of this Ordinance shall be implemented on May 4, 2020. Section 3 of this Ordinance shall be implemented on June 15, 2020.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on __________________ by the following vote:

AYES: Supervisors,
NOES: Supervisors,
ABSENT: Supervisors,

____________________________________
Cindy Chavez, President
Board of Supervisors

Signed and Certified that a copy of this document has been delivered by electronic or other means to the President, Board of Supervisors.

Attest:

____________________________________
Megan Doyle
Clerk of the Board of Supervisors

JPF-4/7/2020

Form Approved by County Counsel 10/07
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John P. Mills, Director, Employee Services Agency
SUBJECT: Approve Tentative Agreement with the Probation Peace Officers' Union, Local 1587, AFSCME

RECOMMENDED ACTION
Approve Tentative Agreement with the Santa Clara County Probation Peace Officers' Union, Local 1587, American Federation of State, County, and Municipal Employees for a Successor Labor Agreement for period May 4, 2020 through October 27, 2024.

FISCAL IMPLICATIONS
The Tentative Agreement provides for a three percent (3%) general wage increase for 1587-represented employees upon implementation of the successor labor contract. The Tentative Agreement also provides for a three percent (3%) general wage increase in each succeeding contract year for the remaining four years of the successor labor contract. The cost to implement the general wage increase for employees in classifications represented by 1587 in Fiscal Year 2020 is approximately $722,236, and the annualized cost is approximately $2,929,069.

The Tentative Agreement also provides for a reduction in the employee’s contribution to the Employer’s CalPERS share. 1587-represented employees in the PEPRA CalPERS retirement tier will receive a three percent (3%) reduction in their contribution of PERSable wages to the Employer’s CalPERS share upon implementation of the successor labor contract; these same employees will receive an additional reduction of two percent (2%) in Fiscal Year 2021. The cost to implement this reduction for Fiscal Year 2020 is approximately $128,698, and the annualized cost is approximately $521,940.

The Tentative Agreement also provides for a salary realignment of eighty-three one-hundredths of a percent (0.83%) for 1587-represented classifications. The cost to implement the salary realignment for Fiscal Year 2020 is approximately $199,819, and the annualized cost is approximately $810,376.
The Tentative Agreement also provides for a one-time, non-PERSable, lump-sum contract signing bonus. The cost to implement the one-time, non-PERSable, lump-sum contract signing bonus for Fiscal Year 2020 is approximately $869,754, and there are no associated annualized costs.

The total cost to implement the Tentative Agreement for 1587 for Fiscal Year 2020 is approximately $1,920,507, and the annualized cost is approximately $4,261,384.

**CONTRACT HISTORY**

Not applicable.

**REASONS FOR RECOMMENDATION**

The terms and conditions of the preceding labor contract between the County and 1587, effective from November 10, 2014 through October 20, 2019, have expired. The recommended action is needed to implement the Tentative Agreement for a successor labor contract effective from May 4, 2020 through October 27, 2024.

**CHILD IMPACT**

The recommended action will have no/neutral impact on children and youth.

**SENIOR IMPACT**

The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

Representatives from the County began negotiating with representatives from 1587, pursuant to direction provided by the Board of Supervisors in Closed Session, on October 2, 2019. On March 26, 2020, negotiations between the County and 1587 resulted in a Tentative Agreement for a five-year labor agreement from May 4, 2020 through October 27, 2024. 1587 submitted the Tentative Agreement to their membership for ratification. The County anticipates that 1587 representatives will inform the County that the Tentative Agreement has been ratified by the membership by March 30, 2020. The following are highlights of the Tentative Agreement:
* Term of Agreement - May 4, 2020 through October 27, 2024;
* 3% general wage increase in each contract year;
* 0.83% salary realignment for 1587-represented classifications;
* One-time, non-PERSable, lump-sum contract signing bonus;
* Reduce PEPRA employee contribution to Employer’s CalPERS share for a total of 5%;
* Employees will contribute $15.00 per pay period to OPEB;
* Discuss the feasibility of adding a Retiree Health Reimbursement Account;
* Increase bilingual differential to $180 per month;
* Include a Subject Matter Expert training differential of 2.34%;
* Eliminate the “first day sick” provision.

**CONSEQUENCES OF NEGATIVE ACTION**

The County will be unable to implement the Tentative Agreement reached with 1587.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board of Supervisors is requested to send MinuteTraq notification of completed processing to Jennifer, Paredes-Fricano, Employee Services Agency, Human Resources Department.

Summary of Changes
to the
Memorandum of Understanding
between the
County of Santa Clara
and
Santa Clara County Probation Peace Officers' Union, Local 1587, AFSCME
November 10, 2014, through October 20, 2019
As modified herein and extended through October 27, 2024

All provisions of the County of Santa Clara and Santa Clara County Probation Peace Officers' Union, Local 1587, AFSCME, effective November 10, 2014 – October 20, 2019, shall be in effect, to include those provisions noted in this summary of changes, upon ratification of the extension agreement by the Board of Supervisors. Please use the 2014–2019 contract, along with this summary of changes, until the new May 4, 2020 – October 27, 2024 MOU is available.

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement is entered into by the County of Santa Clara (hereinafter referred to as the County) and the Santa Clara County Probation Peace Officers Union, Local 1587, AFSCME, AFL-CIO (hereinafter referred to as the Union.) This Memorandum of Agreement incorporates by this reference all appendices attached.
ARTICLE 1 - RECOGNITION

County recognizes the Union as the exclusive bargaining representative for all employees in coded and uncoded classifications within the Probation Employees Unit as listed below:

  Group Counselor I
  Group Counselor II
  Senior Group Counselor
  Supervising Group Counselor
  Deputy Probation Officer I
  Deputy Probation Officer II
  Deputy Probation Officer III
  Supervising Probation Officer

For the purpose of this Agreement, an employee shall be defined as a person employed in a coded or uncoded classification in a bargaining unit covered by this Agreement.

Employees in an uncoded classification shall be subject only to the following articles/sections of the MOA:

Article 1 - Recognition
Article 2 - No Discrimination
Article 3.2 - Notification of Union Coverage
Section 3.3 - Dues Deduction
Section 7.6 - Pay Checks
Section 7.7 - Automatic Check Deposit
Section 8.2 - Overtime

Article 18 - Conflict of Interest
Article 23 - Savings Clause

~ 2 ~
The department will issue any required uniform items or required safety equipment to employees in an uncoded classification to wear/carry while on duty.

The department will pay a differential of two dollars and fifty cents ($2.50) per hour to employees in an uncoded classification who are assigned by management to the same work schedules described in Section 8.6 a) - Night Shift Differential.
Section 3.3 - Dues Deductions

a) Maintenance
Employees covered by this Agreement who have authorized Union dues deductions as of January 8, 2014, shall continue to have such deductions made by the County during the term of this Agreement, except that such employees may terminate such dues deductions during the last ten (10) working days in the month of September 2014 pursuant to paragraph (c) of this Section.

b) Deduction
As allowed by law, the County shall deduct from the employees paycheck and transmit to the Union, dues and amounts for any other service, program, or committee provided or sponsored by the Union.

Condition of Employment
Each person employed during the term of this Agreement shall at the time of employment and as a condition of employment execute an authorization for the payroll deduction of Union dues or of a service fee equivalent to Union dues on a form provided by the Union and shall continue said authorization in effect except that such employee may terminate such dues deductions pursuant to paragraph (c) of this Section.

c) Revocation
An employee who desires to terminate his/her authorization for Union dues or service fees shall notify the Union, County Controller by mail of his/her revocation (1) within the last ten (10) working days in the month of November or (2) within the first ten (10) working days following the date of first employment whichever applies.

The Union County shall promptly forward a copy of the letter of revocation to the County Union.
An employee who revokes his/her deductions during the month of November shall have the deduction removed on the first pay period in January.

An employee who revokes his/her deduction within ten (10) working days following the date of first employment shall have the deduction removed following receipt of the notification by the County.

Section 3.4 – Union Notices and Activities

Bulletin Boards

a) Names and Addresses of Covered Employees

The County shall supply the Union with a biweekly listing run of names and addresses and classifications of work of for all employees, including new hires, within the representation unit. Addresses shall not be supplied of those employees who request the County in writing to not provide such information. A copy of such request shall be forwarded to the Union. Such notice shall be supplied to the Union at cost.
ARTICLE 4 – OFFICIAL REPRESENTATIVES AND STEWARDS

Section 4.1 – Official Representatives

b) Release Time

The County agrees to provide release time, provided a notification is given insofar as possible, upon request for the following purposes:

1. Attendance at meetings with Management either at the departmental or County-wide level.

2. Attendance at meetings of the Board of Supervisors on matters within the scope of representation.

3. Attendance or testimony at meetings of the County Personnel Board on matters within the scope of representation.

Section 4.2 – Stewards

a) Notification of Official Representatives

Section 4.3 – Grievance Related Release Time

b) Employee Release – Grievance Related

If an employee has a grievance and wishes to discuss it on County time with a Union representative, the employee shall request release time from the immediate supervisor, insofar as possible. The employee be allowed the opportunity within a reasonable amount of time to verify if a Union representative is present and available. If a Union representative is available, the employee shall request release time from the immediate supervisor prior to leaving the work area. Employees will not discuss grievances with Stewards or Union Representatives on County time without release by the supervisor. The employee will provide the Union representative’s name and work location of the representative, time left, date of release and time returned to the appropriate supervisor. Any such request shall not be unreasonably denied or
withheld. Any other authorized release time, such as meetings on a regular basis with the appointing authority or his/her designated representatives, shall be under separate agreement with the appropriate department or departments.

ARTICLE 6- PERSONNEL ACTIONS

Section 6.2 - Personnel Files
The County shall maintain a personnel file for each employee. The department may also maintain a personnel file for each employee. Employees shall have the right to review each of their personnel files or authorize review by their representative. No adverse material will be inserted into any employee personnel file without prior notice to the employee. Employees may cause to be placed in their personnel files responses to adverse material inserted therein and a reasonable amount of correspondence originating from other sources directly related to their job performance.

Materials relating to disciplinary actions recommended but not taken, or disciplinary actions overturned on appeal, shall not be retained in an employee's personnel file (physical or electronic).

Materials relating to suspensions which become final will be removed after three (3) years. If no other suspensions have occurred during the three (3) year period except those involving charges as listed in Merit System Rules A25-301(a)(4) Brutality in the performance of duties, and (b)(2) Guilty of immoral conduct or a criminal act. The Union and the County, either as part of the settlement of an appealed discipline case, or otherwise by mutual agreement, may agree to have disciplinary information retained in a personnel file for a period shorter than three (3) years.

Section 6.3 - Recommended Disciplinary Action - Permanent Classified
The County may take disciplinary action for cause against any permanent classified employee by suspension, demotion or discharge by notifying the employee in writing. The notice of recommended disciplinary action and any attachments to the recommended-disciplinary-action
letter, including any IA Report (redacted, if appropriate) must be served on the employee in person or by certified mail, by or electronic mail. The notice shall not be included in the employee's personnel file. A copy of said notice and any attachments to the recommended disciplinary-action letter, including any IA Report (redacted, if appropriate) shall be sent to the Union, and shall include:

Section 6.5 – Evaluations/Performance Feedback
The Union and the County agree to meet within 180 days of May 4, 2020, to discuss the performance evaluation process.

ARTICLE 7 – PAY

Section 7.1 – Salaries
The parties agree that the rates of pay established by this Agreement fully comply with the provisions of Section 709 of the County Charter. The Union agrees to cooperate with the County should the salaries established by the Agreement be challenged as not in conformity with Section 709.

a) Traffic Hearing Officer Differential
Incumbents of Supervising Probation Officer positions who are assigned and perform the duties of Traffic Hearing Officer shall receive a differential of approximately eleven percent (11%) above the employees’ salary range.

a) Subject Matter Expert (SME) Differential

Eligible employees who are designated as a SME shall receive a differential of 2.34% above their base salary upon meeting the following requirements, completion of a cumulative total of at least 500 hours of State mandated/Department approved training and no less than 20 years of service as a Peace Officer with the County of Santa Clara. The employee must have a signed SME agreement on file.

b) General Wage Increase for Structural Changes:
Effective May 4, 2020, by the union of this agreement, employees covered under this agreement shall receive a pay increase of approximately three percent (3.0%).

Effective pay period October 26, 2015 to October 23, 2020, employees covered under this agreement shall receive a pay increase of approximately three percent (3.0%).

Effective pay period October 24, 2016 to November 1, 2021, employees covered under this agreement shall receive a pay increase of approximately three percent (3.0%).

Effective pay period October 23, 2017 to October 31, 2022, employees covered under this agreement shall receive a pay increase of approximately three percent (3.0%).

Effective pay period October 22, 2018 to October 30, 2023, employees covered under this agreement shall receive a pay increase of approximately one and three percent (3.0%).

c) Self Funded Raise

6.766% Effective February 3, 2014, the Classic and PEPRA members received a total wage increase of 8.766% (2% general wage increase and 6.766% self-funded wage increase).

d) PERS Contribution Amounts

For Classic PERS Member (Classic Member) Employees

The classic member shall pay the entire 9% PERS member share contribution (7% is a new contribution plus the existing 2% contribution). Total employee-paid contribution for PERS is 9%. In return for the new contribution of 7% and the elimination of Employer Paid Member Contribution (EPMC), the County will provide an equivalent self-funded wage increase, which is 6.766%, effective February 3, 2014. This shall not apply to extra help employees.
Effective February 3, 2014, the classic member will receive a total wage increase 8.766% (2% general wage increase and 6.766% self-funded wage increase).

New PERS Member (PEPRA Member) Employees

Effective May 4, 2020 the PEPRA Member shall receive a 3% reduction to the portion of their PERS contribution rate that represents earlier self-funded wage increases, from 7.0% to 4.0%. This 4.0% is a fixed amount which will not fluctuate. The remainder of the PERS contribution rate for PEPRA Safety employees shall be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013. Currently this rate, the “half the normal rate”, is 11.250%. This percentage amount may fluctuate as set forth immediately above.

Effective pay period 20/23 (October 19, 2020) PEPRA Safety employees shall receive a 2% reduction to the portion of their PERS contribution rate that represents earlier self-funded wage increases, from 4.0% to 2.0%. This 2.0% is a fixed amount which will not fluctuate. The remainder of the PERS contribution rate for PEPRA Safety employees shall be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013. Currently this rate, the “half the normal rate”, is 11.250%. This percentage amount may fluctuate as set forth immediately above.

During the remainder of the term of the MOA, PEPRA Safety employees shall continue to contribute 2.0% to this portion of the PERS contribution rate that represents earlier self-funded wage increases. The remainder of their PERS contribution rate for PEPRA Safety employees shall be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013.

The PEPRA Member shall pay 7% towards the employer share, in addition to the required PEPRA contribution (at least 50% of normal costs). In return for the new contribution of 7% on the...
employer share, the County will provide an equivalent self-funded wage increase, which is 6.766%, effective February 3, 2014. This shall not apply to extra help employees.

Effective February 3, 2014, the PEPRA member will receive a total wage increase 8.766% (2% general wage increase and 6.766% self-funded wage increase).

e) Realignments

1) Probation Officer Series:

Effective pay period 15/15 July 6, 2015 May 4, 2020, employees covered under this agreement individuals employed in the Probation Officer series shall receive a wage realignment of approximately two percent (2.0%) zero point eighty three percent (0.83%).

Effective pay period 16/15 July 4, 2016 individuals employed in the Probation Officer series shall receive a wage realignment of approximately two percent (2.0%).

Effective pay period 17/15 July 3, 2017 individuals employed in the Probation Officer series shall receive a wage realignment of approximately one percent (1.0%).

2) Group Counselor Series Realignment Review:

Commencing no later than July 1, 2016 the County will conduct a wage realignment review limited to the Group Counselor series.

The County and Local 1587 agree that the wage realignment review process outcome shall be governed by the procedures set forth in the side letter and shall not set precedent for future wage realignment negotiations. Downward realignments are prohibited under this agreement. Neither the provisions of this side letter or results of the realignment process are subject to the grievance procedure.
The wage realignment, if any, will be effective on pay period 16/23 October 24, 2016.

Effective October 24, 2016 the shift differentials shall be increased to $2.65 per hour for the swing shift and to $3.30 per hour for the night shift. This increase will be implemented concurrent with completion of the Group Counselor series realignment review and Board action on ESA recommendation. The cost of the increased differentials shall be considered by the County in determining the final amount of the realignment, if any. In no case, will these or any other differentials be used by the County as criteria in the realignment review in Section 7.1 d) 2.

f) Lump Sum Bonus:
Effective May 4, 2020, current employees at time of signing of the successor contract who are in Local 1587-represented classifications shall receive a one-time, non-PERSable, lump-sum contract signing bonus prorated for code status.

Local 1587-represented employees will be categorized into three tiers based on their base salary falling between the minimum and maximum amount of the tier. Local 1587-represented employees will receive the one-time, non-PERSable, lump sum bonus based on the tier that corresponds to their hourly rate. The three tiers will be as follows:

<table>
<thead>
<tr>
<th>Tier</th>
<th>Minimum-Maximum</th>
<th>Bonus</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tier One</td>
<td>$34.95-$45.53</td>
<td>$1,108</td>
</tr>
<tr>
<td>Tier Two</td>
<td>$45.54-$56.11</td>
<td>$1,482</td>
</tr>
<tr>
<td>Tier Three</td>
<td>$56.12-$66.70</td>
<td>$1,677</td>
</tr>
</tbody>
</table>

The one-time, non-PERSable, lump sum bonus will be subject to the customary withholdings and deductions and will be paid in compliance with the Public Employees Pension Reform Act of 2013.

Section 7.6 - Paychecks
The County agrees to provide paychecks for night employees by 12:01 a.m. on payday. Cash advance by the Controller Department to cover shortage errors in employee's paycheck, shall be provided to employees within two (2) working days after notification of discrepancy. This provision is to cover only those
discrepancies above one hundred dollars ($100.00). The Finance Agency will issue an Emergency Warrant to cover shortage errors greater than one hundred dollars ($100.00) net, when verified and presented by the Probation Department’s Payroll within three business days of original paycheck issuance. The Emergency Warrant will be issued within three business days. If an error is presented after three business days of the original paycheck issuance, a payroll adjustment will be processed and the employee will receive payment on the following regular check.

When a net one hundred dollars ($100.00) or more overpayment(s) error occurs, the employee will repay the overpayment in the same amount and within the same number of pay periods in which the error occurred. In cases that necessitate pay back of overpayments totaling more than $200.00, the pay back schedule shall be subject to the meet and confer process.

ARTICLE 8 - HOURS OF WORK, OVERTIME, PREMIUM PAY

Section 8.5 - Call-Back Pay
If overtime work does not immediately follow or precede the regular work shift, a minimum of four (4) hours call-back time shall be credited the employee. Call-back pay is subject to all provisions of Article 8, Section 8.2, Overtime Work.

This section shall not apply to employees who have agreed to work less than four (4) hours.

Section 8.6 - Night Shift Differential
a) "Night Shift" means an assigned schedule of work hours of which not less than one-half (1/2) the total number of hours, plus one (1) hour, are worked after 5:00 p.m. and before 8:00 a.m. A premium for night shift of two dollars and fifty cents ($2.50) an hour shall be paid to all County employees who are assigned a night shift, irrespective of classification, pay level, overtime status, holiday work, or other wage variations. Effective May 4, 2020, the shift differential shall be increased to $3.50 per hour. The shift differential shall be
payable to employees for each hour worked after 2:00 pm if at least four (4) hours of regularly assigned schedule of contiguous work hours are worked from 2:00 pm through 7:00 am. The shift differential shall be paid irrespective of classification, pay level, overtime status, holiday work, or other wage variations.

b) Training While Regularly Scheduled on Night Shift Officers—An employee who is regularly scheduled to work between the hours of 2:00 pm and 7:00 am the night shift and receives a shift differential shall not lose his/her night shift differential when temporarily assigned to the day shift in order to attend departmental required training perform as an instructor or attend a department mandated training, for courses such as defensive tactic training, CPR training and Victim Awareness.

c) Effective October 24, 2016 the shift differentials shall be increased to $2.65 per hour for the swing shift and to $3.30 per hour for the night shift. The swing shift differential shall be payable to employees for each hour worked after 3:00pm if at least four (4) hours of an regularly assigned schedule of contiguous work hours are worked from 3:00pm through 11:00pm. The night shift differential shall be payable to employees for each hour worked after 11:00pm if at least four (4) hours of an regularly assigned schedule of contiguous work hours are worked from 11:00pm through 7:00am. The shift differentials shall be paid irrespective of classification, pay level, overtime status, holiday work, or other wage variations.

Section 8.9 – Flexible Work Hours
The flexible work-hours program shall continue during the term of this Agreement pursuant to the guidelines as follows:

A “Flexible working schedule” is one which provides a “Flexible” period at the beginning and end of each working day that permits each employee with supervisory approval to have daily schedules on an individual basis
providing the total contracted hours for the prescribed accounting period are met.

a) The objective of flextime is to provide the opportunity to redistribute work hours and allow more individual control over the hours worked. It does not change the number of hours to be worked each week.

b) Flextime was established to give employees the maximum latitude in establishing their schedule. This system eliminates all unnecessary constraints and leaves only those that are necessary due to law, organization, client service, union policy or the need to provide minimum coverage to meet the needs of the Department. Regularly scheduled hours, including flex hours, shall not be altered to avoid the payment of overtime unless it is authorized by another provision within this memorandum of agreement.

The Department is authorized to change the schedule and alter regularly scheduled hours for the employees in the Group Counselor series in order to accommodate five 8-hour training courses, per training year, without the Department incurring any overtime payment obligation, unless the employee works overtime hours as defined in Section 8.2(b). These trainings shall be comprised of four (4) 8-hour Department mandated training courses and the option to attend one (1) 8-hour elective training course.

4 Post O.S.T positions must be covered by employees in the appropriate classifications.

Section 8.10 – Bilingual Pay
The County shall approve payments of one hundred and eighty ($180.00) sixty dollars ($160.00) per month to a bilingual employee whose abilities have been determined by the Director of Personnel as qualifying to fill positions requiring bilingual speaking and/or writing ability. Bilingual skill payments will be made when:
ARTICLE 9 – DEPARTMENT ISSUED ATTIRE

Section 9.2 – Officer Safety Equipment
The County shall provide all peace officers with a badge, handcuff, handcuff key, and a handcuff holder, flashlight, flashlight holder and safety gloves. Officers conducting field work/transportation After being assigned to a field supervision position (Probation Officers as well as Group Counselors assigned to EMP and TASC) peace officers shall receive a gender specific ballistic vest, a cellular phone and access to a radio. Group Counselors shall be provided a duty belt and keepers. shall be provided bulletproof vests and radios or cell phones. O.C. spray shall continue to be provided to employees in accordance with Departmental policy. Equipment shall continue to be provided to employees in accordance with Departmental policy. Safety equipment provided shall be worn/carried by employees in accordance with Departmental policy.

ARTICLE 11 – SCHEDULED TIME OFF

Section 11.2 – Sick Leave
a) First Day Usage
For each approved absence due to personal illness or any other reason (applies to all leaves for which sick leave was formerly used), an amount equal to one (1) full shift (eight hours, ten hours, twelve hours, etc.) shall be charged to the STO bank or if the STO bank is exhausted to leave without pay. Absences due to verified personal illness beyond the amount equal to one (1) full shift shall be charged to the sick leave bank. Such sick leave bank usage must be approved by management.

Effective Pay Period 1, December 23, 2013, to allow more flexibility in the use of an employee’s accrued leave banks while maintaining the eligibility for cash out, the following terms shall apply:

Prior Contract History:
Four days (32 hours) of sick leave were converted into the STO accrual leaving employees to accrue 8 days (64 hours) of sick leave instead of 12 days (96 hours). These additional four days of STO were
integrated into the STO yearly accrual rate (Section 11.1 b).

During each payroll calendar year employees may use up to a maximum of 32 hours of STO for absences due to personal illness or any other absences which are chargeable to sick leave in accordance with the following terms:

- For the purpose of first day usage, a day is defined as 8 hours.
- For employees who work less than full time, the first day STO and the requirement of 32 hours of STO usage would be prorated.
- The first 8 hours of such absences shall be charged to STO.
- Employees working longer shifts have the option of using STO or sick leave for the remainder of the shift.
- If the STO bank is exhausted, the first 8 hours shall be Leave Without Pay.
- Such absences beyond the first 8 hours shall be charged to sick leave unless the employee requests to use STO up to a maximum of 32 hours.
- After using 32 hours of STO for such absences within each payroll calendar year, subsequent absences shall be charged to sick leave including the first day.
- For the purpose of this section 11.2.b, absences chargeable to sick leave include but are not limited to family care usage and bereavement leave.
- For employees who are hired into the bargaining unit after the beginning of the payroll calendar year, the requirement to use 32 hours of STO shall not be prorated.

Notwithstanding the above, an employee who experiences a continuation of a verified personal illness or that of a member of the immediate family, within fourteen (14) calendar days of her/his original return to work, may charge the renewed
absence directly to accumulated sick leave balance subject to any restrictions in Section 11.2 d).

**Leave Without Pay**
The option of using leave without pay shall not be available to any County employee where Federal law prohibits leave without pay.

c) **Family Care Usage**
An employee is entitled to use one-half (1/2) of his/her annual accrued leave in order to care for a sick or injured member of the employee's immediate family requiring care. The initial period of time granted, up to one full day, must be charged to the STO bank unless the employee has used 32 hours of STO for absences outlined in Section 11.2 c), in which case the leave is charged to the sick leave, not STO. "Immediate family" shall mean the child, parent, grandmother, grandfather, spouse, or registered domestic partner of the employee; the mother, father, grandmother, grandfather of the employee’s spouse or registered domestic partner; and the employee’s son-in-law, daughter-in-law, brother, sister, or any other person living in the immediate household of the employee.

d) **Bereavement Leave**
Leaves of absence with pay shall be granted employees in order that they may discharge the customary obligations arising from the death of a member of their immediate family. "Immediate family" shall mean the child, parent, grandmother, grandfather, spouse, or registered domestic partner of the employee; the mother, father, grandmother, grandfather of the employee’s spouse or registered domestic partner; and the employee’s son-in-law, daughter-in-law, brother, sister, or any other person living in the immediate household of the employee. Up to five (5) days with pay shall be granted. The first two (2) days shall not be charged to any leave balance. If necessary, the third, day, shall be charged to the STO bank unless the employee has used 32 hours for absences as outlined in 11.2 b); in which case the leave is charged to the sick leave bank, not STO. The fourth and fifth days shall be charged to the sick leave bank unless the employee request to use STO.
e) **Medical and Dental Appointments**

Until December 23, 2013, an employee shall be allowed on an annual basis to charge up to twenty-four (24) hours directly to the sick leave bank for the purpose of medical and dental appointments.

f) **STO Cash Out**

For the period between December 24, 2012 through December 22, 2013, employees who use no sick leave for a period of one year beginning pay period (pay period 1 through 26, or 27 as the case may be) during the term of this Agreement shall be allowed to cash out forty (40) hours of STO with an option to cash out an additional forty (40) hours of STO.

Eligible employees shall submit their request to ESA Human Resources during the month of January following the pay year for which STO is claimed, and (or January for the second year, or January for the third year) and payment shall be made during the month of February.

Effective December 23, 2013 December 17, 2018, employees who use no more than 16 hours of sick leave for a period of one year beginning pay period 194/01 December 17 23, 2018 through pay period, 194/26 December 15 2014 and each December to December period thereafter during the term of this agreement, shall be allowed to cash out forty (40) hours of STO. Those employees who use no sick leave during that period have an option to cash out an additional 40 hours of STO (for a total of 80 hours). Eligible employees shall submit their request to ESA Human Resources during the month of January and payment shall be made during the month of February.

Sick leave charged for any purpose (i.e., bereavement leave) is used to determine STO cash out eligibility.

**Section 11.3 – Sick Leave Conversion**

If an employee on vacation becomes ill, he/she may convert STO time to sick leave with pay. Sick leave usage under
this section will be governed by Section 11.2 c), (First Day Usage).

ARTICLE 12 - LEAVE PROVISIONS

Section 12.6 - Educational Leave and Tuition Reimbursement

C) Reimbursement
Total reimbursement for each employee participating in this program will not exceed seven hundred fifty ($750) one thousand dollars ($1,000) per fiscal year. Mileage and subsistence will not be authorized unless the training is required of the employee. Within the above limit, employees shall receive full immediate reimbursement for tuition and other required costs (including textbooks) upon presentation of a receipt showing such payment has been made.

ARTICLE 13 - BENEFIT PROGRAMS

b) Medical Benefits for Retirees

1. Employee Contribution Toward Retiree Medical Obligation Unfunded Liability
Effective October 13, 2014 May 4, 2020, all coded employees shall contribute on a biweekly basis an amount to ten dollars ($10.00) fifteen dollars ($15.00) of the lowest cost early retiree premium. Effective October 26, 2015, all coded employees shall contribute on a biweekly basis twelve dollars ($12.00) of the lowest cost early retiree premium. Such contributions are to be made on an after-tax basis and employees shall have no vested right to the contributions made by the employees. Such contributions shall be used by the County exclusively to offset a portion of the County’s annual required contribution amount to the California Employers Retirement Benefit Trust established for the express purpose of meeting the County’s other post-employment benefits
(OPEB) obligations and shall not be used for any other purpose.

i) Retiree Health Reimbursement Account
During the month of July 2022, the County and the Union agree to open discussions on a Retiree Health Reimbursement Account or equivalent shall occur except on mutual agreement.

ARTICLE 14 – RETIREMENT

The County will continue the Safety Retirement contract with the Public Employees Retirement System (PERS) for the term of this Agreement.

Public Employees Retirement System
Definition for “Classic PERS Member” (Classic Member) and “New PERS Member” (PEPRA Member) in PERS: As a result of the Public Employee Pension Reform Act (PEPRA), Classic PERS Member safety employee shall refer to an employee who is eligible for and is placed in the 3% at age 50 retirement tier. “New PERS Member” (PEPRA Member) safety employee shall refer to an employee who is eligible for and placed in the 2.7% at age 57 retirement plan.

a) Classic Member
Effective February 3, 2014, the Classic Member shall pay the entire 9% PERS Member share contribution (7% is a new contribution plus the existing 2% contribution). Total Classic Member paid contribution for PERS is 9%.

In return for the new contribution of 7% and the elimination of Employer Paid Member Contribution (EPMC), the County will provide an equivalent self-funded wage increase, which is 6.766%, effective February 3, 2014. This shall not apply to extra help employees.

b) PEPRA Member
Effective February 3, 2014, the PEPRA Member shall pay 7% towards the employer share of PERS, in addition to the PEPRA Member’s required PEPRA contribution (at least 50% of normal costs).
In return for the new contribution of 7% on the employer share, the County will provide an equivalent self-funded wage increase, which is 6.766%, effective February 3, 2014. This shall not apply to extra help employees.

The County payment of the employee's contribution to PERS shall be shown as the "effective wage" and shall be used for such purposes as recruitment, salary comparisons, prevailing wages etc.
ARTICLE 17 – GRIEVANCE PROCEDURE

b) Step 2.

If the aggrieved continues to be dissatisfied, he/she may, within fifteen (15) working days after receipt of the first step decision, present a written presentation to be directed to the County Executive's designated representative indicating the aggrieved wishes (1) the County Executive's designated representative to review and decide the merits of the case; or whether, (2) the aggrieved wishes the grievance to be referred to an impartial arbitrator. At this step a meeting shall be held if requested by either party. The County and the Union agree to mutually agree upon or jointly select a panel of nine (9) arbitrators from names provided by the State Conciliation Service. For the term of this agreement the panel shall consist of:

1. Barry Winograd
2. Catherine Harris
3. Richard Anthony
4. C.Allen Poole
5. John Kagel
6. Kathleen Thomson
7. Alexander Cohn
8. Morris Davis
9. Carol Vendrillo

Article 26- TERM OF AGREEMENT

This Agreement shall become effective only upon approval by the Board of Supervisors and for the classifications listed in Article 1 upon the ratification by the Union, and shall remain in full effect to and including October 26, 2019 October 27, 2024 and from year to year thereafter; provided, however, that either party may serve written notice on the other at least sixty (60) days prior to October 26, 2019 October 2024 or any subsequent October, of its desire to terminate this Agreement or amend any provision thereof.

DATE: April 7, 2020
TO: Board of Supervisors
FROM: John P. Mills, Director, Employee Services Agency
SUBJECT: Salary Ordinance Amendment related to the Tentative Agreement with 1587

RECOMMENDED ACTION
Adoption of Salary Ordinance No. NS-5.20.108 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adjusting salaries for classifications represented by the Santa Clara County Probation Peace Officers' Union, Local 1587, American Federation of State, County, and Municipal Employees, providing for a three-percent general wage increase and a 0.83 percent realignment.

• Introduce, waive reading, and preliminarily adopt on April 7, 2020.
• Adopt (Final) on April 21, 2020.

Please see Legislative File #100981.

• Linked To: 100981 : Approve Tentative Agreement with the Santa Clara County Probation Peace Officers' Union, Local 1587, American Federation of State, County, and Municipal Employees for a Successor Labor Agreement for period May 4, 2020 through October 27, 2024.

ATTACHMENTS:
• NS-5.20.108 - ESA - 1587 Wage Increases (PDF)
ORDINANCE NO. NS-5.20.108

AN ORDINANCE AMENDING SANTA CLARA COUNTY ORDINANCE NO. NS-5.20 RELATING TO THE COMPENSATION OF EMPLOYEES
The Board of Supervisors of the County of Santa Clara ordains as follows:

SECTION 1:

Notwithstanding the provisions of NS-5.20, the salaries for all classifications represented by Santa Clara County Probation Peace Officers’ Union, AFSCME – Local 1587, including extra help and classifications in SEIU Local 521 where the salaries are tied by labor contract to Santa Clara County Probation Peace Officers’ Union, AFSCME – Local 1587, shall be increased by 3%.

SECTION 2:

Notwithstanding the provisions of NS-5.20, the salaries for the classifications represented by Santa Clara County Probation Peace Officers’ Union, AFSCME – Local 1587, including extra help and classifications in SEIU Local 521 where the salaries are tied by labor contract to Santa Clara County Probation Peace Officers’ Union, AFSCME – Local 1587, shall receive an additional 0.83% realignment.

SECTION 3:

This Ordinance shall take effect April 21, 2020. This Ordinance shall be implemented on May 4, 2020.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on ____________________ by the following vote:

AYES: Supervisors,

NOES: Supervisors,

ABSENT: Supervisors,

_______________________________
Cindy Chavez, President
Board of Supervisors

Signed and Certified that a copy of this document has been delivered by electronic or other means to the President, Board of Supervisors.

DATE: April 7, 2020
TO: Board of Supervisors
FROM: Miguel Marquez, Chief Operating Officer
SUBJECT: Pay Equity Strategic Plan Update

RECOMMENDED ACTION
Held from January 28, 2020 (Item No. 25): Receive report relating to progress on the development and implementation of a Pay Equity Strategic Plan for the County of Santa Clara.

FISCAL IMPLICATIONS
There are no fiscal implications associated with receipt of this report; however, implementation of the proposed workplan will have unknown costs and will require a commitment of staff and other resources. The one-time cost to engage a consultant to conduct a pay equity study and develop a strategic plan for pay equity is approximately $150,000 to $200,000 and would require the use of discretionary resources. This would necessitate an ongoing corresponding reduction in General Fund expenditures.

REASONS FOR RECOMMENDATION
At its October 8, 2019 (Item No. 29) meeting, the Board received a report in response to an August 13, 2019 (Item No. 13) referral, brought forward by Supervisors Chavez and Cortese, directing Administration to prepare a proposal for the development and implementation of a County of Santa Clara Pay Equity Strategic Plan. The Board further directed Administration to include information relating to any special services needed from an outside consultant, including additional research relating to pay disparity in jobs that are traditionally staffed by a particular gender as part of a Countywide pay equity study. Below is a report on that effort, along with an attached chart that outlines the progress Administration has made on the specific activities outlined in the workplan presented to the Board in October 2019. The update includes some adjustments to the timeline based on first quarter learnings, as well as some implementation delays due to the redeployment of staff to address operational impacts related to work stoppages in the Fall of 2019.

Continued Coordination of Pay Equity Body of Work
As reported to the Board in October 2019, Administration has designated the Chief Operating Officer (COO) to coordinate work that is focused on pay equity across the County. Since the last report, staff convened individual meetings with leaders in departments working on pay equity, including the Employee Services Agency (ESA), County Counsel, and the Office of Women’s Policy (OWP). Following that initial information gathering, the COO has established regular pay equity coordination meetings with senior staff and executive leaders from County Counsel, the Equal Opportunity Department (EOD), ESA, and OWP. This group has been focused on: (1) conducting a thorough review of pay equity studies in the public sector to learn about approaches, outcomes and recommendations; (2) considering the data elements and legal safeguards needed for a pay equity dashboard that share but protect data and the confidentiality of records; and (3) developing desired qualifications and a scope of work for a consultant to include a comprehensive strategic plan for analyzing and addressing workforce equity.

1. **Pay Equity in the Public Sector**

In May of 2016, the California State Auditor issued a report on County pay practices as requested by the Joint Legislative Audit Committee, presenting data and findings from four counties in particular: Fresno, Los Angeles, Orange, and Santa Clara. This report gathered wage data and personnel hiring practice information for fiscal years 2010-11 through 2014-15 and can be used not only as a template for the current pay equity study but also as a baseline for comparison. At that time, the pay gap in Santa Clara County was less than that of the comparison counties, with females earning between 87 and 88 percent on average of male employees. Santa Clara County was also the exception in being the only county with more women than men in the top three salary ranges – most notably due to highly compensated individuals employed in health care positions (nurses and physicians). However, while women represented 60 percent of the workforce at that time, men still earned the higher average of total compensation in 52 percent of the job classification groups.

Beyond the California state audit report, 14 other jurisdictions at the city, county and state level have published pay equity studies that were reviewed to examine public sector approaches to analyzing and achieving parity. The majority shared a robust investigation on both gender and racial/ethnic compensation data, with some focusing on gender only, and many found little gap within similar job classifications groups but rather between different job classification groups. For example, the State of New Mexico found that of 484 classification groups, 41 percent reflected gender wage parity; Leon County, Florida found relatively equal gender balance for employees in “like positions”; Multnomah County, Oregon found nearly equal pay for different racial groups in most jobs, when adjusted for tenure; and the State of Connecticut found the most parity in the category of officials and.

2 [State of New Mexico. “Fair and Equal Pay in the Classified Service: Report to Governor Michelle Lujan Grisham.” (Sep 2019)]
3 [Board of County Commissioners, Leon County, Florida. “FY 2019 Budget Workshop.” (June 2018)]
4 [Multnomah County Auditor. “Multnomah County Pay Equity Audit.” (2015)]
administrators. However, all jurisdictions uncovered specific areas that require further investigation and action. For example, the State of Oregon\textsuperscript{6} found that in its financial administration and general control job groups, men were predicted to earn $844 more per month than females; the City of San Diego\textsuperscript{7} found that overtime use was a major fact in driving many of the adjusted earnings gaps; and the City of Seattle, Washington\textsuperscript{8} found that a higher percentage of male police officers were receiving premium pay than female police officers.

As mentioned previously, Santa Clara County data from the state audit report demonstrated that despite women being in the majority of County employees, men still earned more on average. Data across industries show that many differences in pay equity along gender and racial/ethnic lines can be largely explained by adverse “job sorting,” the tendency of different demographic groups to be employed in different lines of work. For example, in both the City of San Diego\textsuperscript{9} and the City of Spokane, Washington\textsuperscript{10} the gender earnings gap is largely driven by sworn Police and Firefighter personnel, who are heavily male and are compensated significantly more than the average City employee. Multnomah County, Oregon\textsuperscript{11} also found significant disparity in County employee pay, with only 32 percent of women earning more than $32 per hour compared to 54 percent of men, and 45 percent of white employees working in the highest paying jobs compared to 19 percent of Hispanic employees. Many of the reports found in this literature review highlighted a similar pattern – while there are rarely signs of systemic discrimination in hiring, compensation or promotion of employees, there does exist an underutilization by women and minorities in a number of specific, higher paying job categories that crosscut virtually all jurisdictions, such as public safety (fire and correctional), medical professionals, information technology and public works. To highlight the significance of this issue, the City of Seattle\textsuperscript{12} conducted a specific analysis to remove those largely high-paying, male-dominated departments and found the percentage of females in the rest of the workforce to jump from 37 percent to 46 percent and the unadjusted gender pay gap to narrow from 89.7 percent to 98.2 percent.

In addition to job sorting, studies also show that differences in average earnings can be attributed to part-time work. In the City of Seattle,\textsuperscript{13} 22 percent of women versus of 12.4 percent of men were working part-time; in the City of San Diego,\textsuperscript{14} 71 percent of half or three-quarter time workers are female; and the California State Auditor\textsuperscript{15} found that part-time versus full-time employment was the single most significant factor in gender pay disparities among the 46 job classifications reviewed in the four selected counties. For these reasons, many of the recommendations issued through these 14 reports are largely similar and fall into

<th>Examples of Recommendations from Prior Studies</th>
</tr>
</thead>
</table>
| Promote and Expand Flexible Workplace Policies and Increase Workplace Satisfaction | Consider how to increase part-time arrangements, position-sharing or telecommuting for a larger number of positions  
Provide on-site or subsidized childcare and a nursing lounge  
Survey employees to gauge perceptions of the workplace climate and areas for improvement  
Create multi-year Workplace Climate plans that include specific deliverables on how divisions and departments will improve the job environment  
Develop/maintain exit interview program and conduct a follow-up review of the specific reasons why employees are leaving |
| Audit and Streamline Hiring Practices and Processes | Simplify job descriptions and ensure an equitable balance of gender inclusive terms exists (e.g., competent, not “guru”)  
Create an applicant screening process that is gender and race neutral  
Conduct anonymous surveys of test takers to discern areas to improve upon  
Review the guidelines for step assignment for each job to determine if they have sufficient structure  
Limit salary negotiation in initial salary offers  
Conduct a more detailed review of the employee job groups that are identified with underutilization for women and people of color |
| Increase and Enhance Advancement Opportunities for Women and People of Color | Ensure leadership opportunities and other departmental efforts around professional development or leadership training are being offered to a diverse audience  
Examine whether promotional opportunities and pay increases are awarded fairly  
Actively recruit and retain women and people of color for Exempt and Managerial positions  
Create professional development opportunities such as mentorship programs, training programs, and career progression assessments, |
especially for jobs with underutilization
Provide salary negotiation workshops.\(^{16}\)

| Collect, Investigate and Monitor Data | Consider establishing a systematic schedule and procedure for departments and divisions to report on the status of their self-assessments and action plans
Track the number of step exception (in-grade appointment) requests each year and analyze whether there are significant gender or race/ethnicity differences in the percentage of instances in which those exceptions are granted
Monitor the progression of employees throughout their careers
Reduce reliance on overtime to meet staffing requirements, especially within highly utilized areas, and evaluate whether opportunities for overtime are equally accessible across employee groups
Investigate further instances of disparity in specific classifications as well as part-time employee positions
Consider entering employee education levels into Human Resources (HR) system in order to facilitate more robust earnings gap analysis and improve overall strategic human capital management
Conduct comparative performance reviews
Examine the promotion process |

| Strengthen and Prioritize Recruitment for a Diverse Workforce | Consider job advertisements in media not previously used and that target underrepresented groups
Use recruiting materials reflective of a diverse workforce and market jobs in a way that attracts a diverse workforce, particularly for higher paid titles
Perform outreach to diverse communities for inclusion on Boards and Commissions
Build a recruitment plan with local colleges and community organizations to increase diversity
Continue hiring Human Resources professionals to service agencies and assist in increasing diversity and equity efforts
Ensure that all hiring managers and recruiters are familiar with best practices in recruitment and selection and operate with an equity and |

\(^{16}\) OWP is working with the American Association of University Women (AAUW) and their Equal Pay Collaborative to host 3 workshops on AAUW’s Work Smart salary negotiation toolkit and purchase licenses for online download. For more [https://www.aauw.org/article/work-smart-aims-to-train/](https://www.aauw.org/article/work-smart-aims-to-train/)
While the County of Santa Clara has already implemented a number of those items recommended by other public sector entities, this current pay equity study will focus on specific recommendations including those related to certain job classifications, wage analysis including starting salaries and step increases, as well as policies and practices in the County that focus on closing the wage gap. As such, Administration is considering these existing recommendations and approaches through the activities of the workgroup, the development of the dashboard, and implementation of a strategic plan.

2. Pay Equity Dashboard

The Board’s original adopted recommendations regarding pay equity included the development of an online dashboard to track and geographically display data on pay equity, including demographics of the County’s workforce. In the preliminary workplan presented in October 2019, Administration indicated that this dashboard could be part of the scope of work for an external consultant. However, Administration has now determined that Technology Services and Solutions (TSS) has the internal capacity to develop an accessible and user-friendly dashboard, which can be updated periodically, and has begun conversations with TSS and ESA to that end. These conversations have included the participation of the Human Resources Payroll system (HaRP) team, part of TSS, and research conducted previously on similar dashboards in other jurisdictions are informing the design of the dashboard. The Pay Equity Coordination Workgroup has considered several questions regarding the specific data elements needed for this project and is exploring capability for building a platform that will be able to show, at a minimum, hourly rate and/or salary comparisons by gender and race/ethnicity for each job classification. Building on data that already exists in the HaRP system, such as starting salaries for those hired into the same classification, will provide a starting point for analysis to determine whether there is a gap between genders.

3. Strategic Plan to Achieve Pay Equity

The Board also directed the development of a strategic plan to provide a roadmap for the County’s efforts to achieve pay equity as an employer, contractor, and regulator. While only three of the 14 public sector studies reviewed involved a contracted consultant, Administration believes that a consultant with deep familiarity with public employers, merit systems, and unionized workforces would be particularly necessary for the creation of an actionable Pay Equity Strategic Plan. This Strategic Plan could use the demographic and wage data collected and analyzed in the above-mentioned state audit report as a baseline, creating the opportunity to present trends and outcomes over time. This plan will build on the findings of the previous study to monitor progress on implementation of recommendations, as well as build on the current study to identify areas for the County to continue to improve its pay equity policies and practices. There are a number of recommendations that have been made to public sector employers that may also be applicable to Santa Clara County.
Based on those recommendations outlined previously, Administration will be seeking a consultant, in particular, to advise on: hiring policies and practices, pay supplements and additions to base pay (for example, distribution of overtime), special pay circumstances, specialized recruiting for diversification of specific job classifications, starting salaries for identical classifications, and cost impact modeling for the implementation of these recommendations. Administration will also work to ensure that the scope of work and qualifications for the consultant are aligned with the County’s ongoing emphasis on racial equity, including incorporating the tools from the County’s ongoing participation in the Government Alliance on Race and Equity (GARE). In addition, ESA has submitted a budget request for a Diversity, Equity, and Inclusion (DEI) Program Manager to scrutinize the recruitment process through the DEI lens on an ongoing basis, including job postings, application forms, examinations, and interviews; and to identify any unconscious bias, raise awareness of how unconscious bias may impact the various processes, and introduce improvements to reduce or eliminate any impacts. ESA’s DEI Program will interface with the Countywide GARE effort and serve as a focal point for implementation of the recommendations of the County’s Pay Equity Strategic Plan as developed by the consultant.

A draft scope of work and qualifications is attached to this report for the Board’s review and feedback. Administration is working with County Counsel to search for a consultant with appropriate experience and will contract with an identified consultant once the scope of work is finalized and if a budget allocation is approved by the Board.

**CHILD IMPACT**
The recommended action will have no/neutral impact on children and youth.

**SENIOR IMPACT**
The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**
The recommended action will have no/neutral sustainability implications.

**BACKGROUND**
The overall gender wage gap is decreasing each year. The Economic Policy Institute reports that on average, women are paid 23 percent less than men. Equal Pay Day symbolizes how far into the year most women must work to earn what men earned in the previous year. For the United States, this year’s Equal Pay Day falls on March 31, 2020, which is the earliest that it has occurred in decades. While closing the gap is the result of a multitude of factors including women higher education levels for women, legislative actions and policies are a significant factor in creating equitable incomes, and there is more work to be done to realize pay equity.

On September 15, 2015 (Item No. 9), the Board issued a referral requesting that the County Executive and County Counsel prepare a pay equity policy and/or ordinance to address the

17 https://www.pay-equity.org/day.html.
County’s role as an employer and contractor; to assist the Office of Women’s Policy and Commission on the Status of Women on the completion of a countywide pay equity study; to assess County policies and practices relating to hiring, pay, and promotion and their implications for pay equity; to propose an online demographics pay-equity dashboard; and to develop a plan to rectify any pay inequities identified.

After several reports to the Finance and Government Operations Committee (FGOC) and the Children, Seniors, and Families Committee in 2016 and 2017, Administration and County Counsel presented to the Board, at its March 14, 2017 (Item No. 17) meeting, a pay-equity report and a set of recommendations to promote (1) pay equity in County policies and practices related to employee hiring, pay, and promotion; (2) pay equity in County contracting; and (3) pay and gender equity in the unincorporated County. The Board adopted all of Administration’s recommendations, including the requirement of an annual pay equity report to the Board.

The first annual pay equity report was reviewed by the Board at its April 17, 2018 (Item No. 24) meeting. The second annual pay equity report was submitted to the April 23, 2019 (Item No. 28) Board meeting. At that meeting, the Board requested that the annual report be provided to FGOC for further consideration, which was completed on June 13, 2019 (Item No. 7). The FGOC committee agreed to develop a referral directing Administration to develop a Pay Equity Strategic Plan, which the Board adopted at its August 13, 2019 (Item No. 13) meeting.

Prior Board discussions and the August 13, 2019 referral noted that the County has already made great strides to address pay equity issues in many areas, including:

- Revisions to Board Policy 3.7 on Workforce Diversity;
- Tracking of pay equity complaints by EOD;
- A prohibition on soliciting prior salary in determining new starting salaries, which preceded the California Legislature enacting a similar prohibition;
- Updates to Board Policy 5.5.5.4 to allow disqualification of potential contractors based on pay equity violations;
- Development of a business license program with pay equity implications;
- Changes to the Executive Leadership Master Salary Ordinance to promote pay equity and improve upward mobility and support for pregnant and parenting executives;
- Implicit bias training for hiring managers and executive leadership; and
- Numerous other efforts and initiatives to implement best practices, policies, and procedures to better ensure pay equity throughout the County workforce.

The Board’s August 13, 2019 referral directed Administration to develop a strategic plan focused on pay equity both as it relates to the County’s progress as an employer, and the County’s various mechanisms to encourage and enforce pay equity principles with contractors, vendors, and other outside entities. Other goals articulated by the Board included the development of an online demographics dashboard with data for County staff, as well as
the designation of a lead, senior person in the County to coordinate this body of work. Administration presented a preliminary workplan to the Board at its October 8, 2019 (Item No. 13) meeting. This is a quarterly progress report on that workplan.

CONSEQUENCES OF NEGATIVE ACTION

The Board would not receive the report.

</table>
A. SERVICE DESCRIPTION AND EXPECTED OUTCOME (Scope of Work):

The County of Santa Clara is soliciting a pay equity consultant to review County aggregate pay and hiring data, with a focus on identifying and understanding any disparities in pay based on sex or gender. This includes available aggregate data on the LGBTQ+ workforce. The study will also include a focus on trends that may demonstrate occupational segregation by sex or gender.

This study will focus on pay equity to identify any gender pay gaps and trends in the County of Santa Clara (“County”) workforce. After the study concludes, the consultant will develop a “Pay Equity Strategic Plan” for the County, which will be tailored based on the study’s findings. The consultant will gather data, analyze trends, and provide aggregate information to inform recommendations and implementation of pay equity practices throughout the workforce.

Phase 1: Conduct a pay equity study with specific focus on:

- Hiring policies and practices, including analyzing existing policies and practices
- Applicant information, to the extent data is available
- Review select job specifications for review of limiting qualifications and opportunities to increase transferrable skills and experience
- Special pay circumstances, including starting salary step
- Pay supplements and additions to base pay (for example, distribution of overtime)
- Analysis of occupational segregation
- Available aggregate data on LGBTQ+ employees and wage trends

Phase 2: Develop a Pay Equity Strategic Plan for the County, including:

- Overarching recommendations and strategic direction for the County’s approach to pay equity, with a focus on sex, gender, and the LGBTQ+ workforce
- Specific recommendations on changes, if any, in job postings (including extra help positions), hiring panels, starting salary negotiation practices, and related concrete actions required to close any identified potential wage gap
- Identified opportunities for alignment with existing County initiatives, including the Government Alliance on Race and Equity (GARE) and diversity, equity, and inclusion (DEI) work within the Employee Services Agency (ESA)
- Specialized recruiting tools for diversification of applicant pools for specific job classifications
- A prioritized implementation plan for the recommendations from the pay equity study, including timelines, resources needed, cost impact modeling, and tools for tracking progress
- Recommendations for the County’s workforce demographics online dashboard
- Methods to review progress and maintain ongoing analysis of pay equity in the County
B. QUALIFICATIONS

The consultant will have broad expertise in crafting, implementing, and analyzing pay equity studies, and creating and tracking strategic implementation plans, including:

- Experience advising public sector employers, particularly local and County governments
- Familiarity with Government agency merit systems, including classified positions, unclassified positions, and extra help categories of employment, or similar
- Knowledge and experience of unionized workforces, including multiple unions with diverse occupations represented, and the role of unions in negotiating wages, benefits, and other terms and conditions of employment
- Proven track record analyzing current pay trends across the region and Country and advising on “best practice” next steps to achieve greater pay equity
- Past success developing strategic and implementation plans for achieving pay equity
- Past success drafting reports and recommendations, meeting with stakeholders, and presenting findings in public meetings
- Use of race equity lens in analyzing pay equity data
- Experience working with large, complex, and diverse organizations
- Understanding of legal and privacy safeguards, including utilizing systems for protection of data that meet County requirements
DATE: April 7, 2020

TO: Board of Supervisors

FROM: Ky Le, Director, Office of Supportive Housing

SUBJECT: Funding for COVID-19 Regional Response Fund

RECOMMENDED ACTION

Under advisement from March 24, 2020 (Item No. 7): Approve Request for Appropriation Modification No. 187 - $2,000,000 transferring funds from the General Fund Contingency Reserve to the Office of Supportive Housing budget relating to allocating funds to the COVID-19 Coronavirus Regional Response Fund. (4/5 Vote)

FISCAL IMPLICATIONS

The recommended action would have an impact on the general fund as $2,000,000 would be loaned from the County General Fund to the Office of Supportive Housing budget. On March 24, 2020 (Item No. 7), the Board directed the Administration to take all necessary actions to expeditiously allocate $2,000,000 to the COVID-19 Coronavirus Regional Response Fund. These expenses may be eligible for reimbursement through state or federal aid.

The original budget for the Fiscal Year (FY) 2019-20 General Fund Contingency Reserve was $164,105,457. Board policy 4.3 states that the contingency reserve should be 5% of general revenues net of pass-through revenue. Since the use of contingency reserve impacts compliance with this policy, the midyear budget analysis included a $6,905,228 replenishment of this reserve. The balance of this reserve as of March 24, 2020 was $159,979,680 indicating that $4,125,777 has been allocated for other purposes. There may be additional pending actions that will impact this balance once they are approved and processed.

REASONS FOR RECOMMENDATION

Under advisement from the March 24, 2020 Board of Supervisors meeting (Item No. 7), the recommended action will provide financial resources to assist in the local response to the COVID-19 public health crisis. The recommended action approves an appropriation modification to increase expenditures in the Office of Supportive Housing budget.
The Silicon Valley Community Foundation has created a COVID-19 Coronavirus Regional Response Fund that will provide housing/shelter, food, clothing, and financial assistance. The recommended action provides funding directly to Destination Home Silicon Valley (DHSV) as the lead partner organization representing Santa Clara County.

Through actions on December 4, 2018 (Item No. 61) and January 29, 2019 (Item No. 58), the Board approved an Agreement with Destination Home Silicon Valley (DHSV) to pilot a countywide homelessness prevention system. On March 31, 2020, per resolution number BOS-2020-19 and consistent with Board direction, the Administration executed the Third Amendment to DHSV agreement through the Director of Emergency Services. The OSH will be utilizing this existing agreement to provide the aforementioned services related to COVID-19.

**CHILD IMPACT**
The recommended action will have a positive impact on children and youth in families who are at risk of homelessness.

**SENIOR IMPACT**
The recommended action will have a positive impact on seniors. Over the course of the contract period, the program will prevent homelessness for households, including those with seniors.

**SUSTAINABILITY IMPLICATIONS**
The recommended action will have no/neutral sustainability implications.

**BACKGROUND**
On March 24, 2020 (Item No. 70) the Board directed the Administration to take all necessary actions to expeditiously allocate $2,000,000 to the Silicon Valley Community Foundation to support the Santa Clara County COVID-19 Coronavirus Regional Response Fund. The effort supports lead organizations representing each of the ten Bay Area counties. DHSV is the lead organization for Santa Clara County.

**CONSEQUENCES OF NEGATIVE ACTION**
The County would not be able to provide homelessness prevention services during the current public health crisis.

**STEPS FOLLOWING APPROVAL**
The Clerk of the Board is requested to notify Consuelo Hernandez and Swona Sun in the Office of Supportive Housing and Gladys Cabagbag in the Office of the County Executive.

SUBJECT: Report on Safe Parking Programs

RECOMMENDED ACTION

Under advisement from February 25, 2020 (Item No. 15): Receive report from the Office of Supportive Housing relating to Safe Parking Programs, including the Amigos de Guadalupe Posada Project – Silicon Valley site.

FISCAL IMPLICATIONS

There are no fiscal implications associated with receiving this informational report.

COMMITTEE RECOMMENDATIONS

At the joint Finance and Government Operations Committee and Children, Seniors, and Families Committee meeting on March 26, 2020 (Item No. 6), the Committee recommended that this report be received by the Board of Supervisors (Board).

REASONS FOR RECOMMENDATION

Under advisement from the February 25, 2020 Board of Supervisors meeting (Item No. 15) this report summarizes Safe Parking program information as requested by the Board. The Administration is preparing a more detailed report and recommendations related to Safe Parking for the Board’s meeting on April 21, 2020. In addition to responding the Board’s direction regarding the Amigos de Guadalupe Posada Project – Silicon Valley site, the Administration’s report in April would respond to the Board’s previous referral about Safe Parking programs (January 14, 2020, Item No. 14).

In addition to providing the Board with more detailed information (e.g., permanent housing outcomes) about current Safe Parking programs, the report would:

- Summarize the Administration’s efforts to expand or increase Safe Parking programs and/or sites;
- Outline lessons learned from Safe Parking programs, some of which have been operating as pilot programs; and,
• Make recommendations on how to incorporate the lessons learned into a new competitive procurement for Safe Parking programs.

Safe Parking programs provide unhoused people who sleep in their vehicles with a designated place to park while they sleep. The goal of safe parking programs is to help participants improve their safety and stability, remain compliant with local laws, have access to basic restroom facilities, and get support to resolve their immediate housing crisis.

There are 12 known safe parking locations with a total of 174 safe parking spots in seven cities countywide. Safe parking programs are funded by the County, cities, and private funding sources. All safe parking programs offer toilets and other on-site amenities. Many offer some level of case management or supportive services. Oversight at each site varies, ranging from volunteers periodically patrolling sites to paid staff being onsite during operating hours. Attachment A provides a summary of safe parking programs, including number of spaces, services and site provisions, and program costs and funding sources.

**CHILD IMPACT**

The recommended action will have no/neutral impact on children and youth.

**SENIOR IMPACT**

The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

At the February 25, 2020 Board of Supervisors meeting, the Board approved a referral from Supervisor Cortese directing Administration to return with a one-time budget augmentation of $70,000 to the Office of Supportive Housing for the Amigos de Guadalupe Posada Project – Silicon Valley site. The motion included bringing the item to the Finance and Government Operations Committee for review, and to include information on the following:

• To what degree is case management already funded at the safe parking sites countywide?

• Who funds which services?

• What are the needs for additional case management?

**CONSEQUENCES OF NEGATIVE ACTION**

The Board would not receive the report.

**STEPS FOLLOWING APPROVAL**

Please notify Hilary Barroga in the Office of Supportive Housing.

DATE: April 7, 2020
TO: Board of Supervisors
FROM: Jeffrey V. Smith, County Executive
SUBJECT: COVID-19 Emergency Response Funding

RECOMMENDED ACTION
Approve Request for Appropriation Modification No. 189 - $20,000,000 transferring funds from the General Fund Contingency Reserve to the Office of the County Executive, Office of Emergency Management budget, relating to emergency response funding for Coronavirus (COVID-19). (4/5 Vote)

FISCAL IMPLICATIONS
Approval of the recommended action would have a $20,000,000 impact on the General Fund. The Controller-Treasurer’s Office has established financial tracking mechanisms related to the County’s response to the COVID-19 pandemic and the County will actively seek reimbursement of costs from new and existing sources of funds at both the state and federal levels.

The original budget for the Fiscal Year (FY) 2019-20 General Fund Contingency Reserve was $164,105,457. Board policy 4.3 states that the contingency reserve should be 5% of general revenues net of pass-through revenue. Since the use of contingency reserve impacts compliance with this policy, the midyear budget analysis included a $6,905,228 replenishment of this reserve. The balance of this reserve as of March 24, 2020 was $159,979,680 indicating that $4,125,777 has been allocated for other purposes. There may be additional pending actions that will impact this balance once they are approved and processed.

REASONS FOR RECOMMENDATION
Board Policy 4.3 allows for the use of the Contingency Reserve on a one-time basis when the County is affected by unforeseen events that require the allocation of funds.

The County of Santa Clara is responding to an unprecedented challenge with the spread of a novel coronavirus (COVID-19). As of March 30, 2020, the Centers for Disease Control and Prevention (CDC) reported 140,904 cases and 2,405 deaths in the United States. The County of Santa Clara reported 848 cases (202 new cases) and 28 deaths.
Due to the lack of federal coordination, states and local entities are competing to purchase critical supplies, such as medical devices and personal protective equipment. The County needs to act quickly to procure goods and services to effectively respond to the COVID-19 pandemic and protect the community.

CHILD IMPACT
The recommended action will have positive impact on children by improving the County’s ability to treat infected children, their parents and caregivers.

SENIOR IMPACT
The recommended action will have positive impact on seniors by improving the County’s ability to treat infected seniors who are at higher risk of complications from the COVID-19 disease.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
COVID-19 was first detected in Wuhan, China in December 2019. The CDC considers the virus to be a very serious public health threat, in part because much remains unknown. The number of reported cases of COVID-19 has escalated dramatically over a short period of time, and the World Health Organization has declared the outbreak to be a global health emergency.

The County had its first confirmed case of COVID-19 on January 31, 2020. The Director of Emergency Services and the Health Officer of the County proclaimed a local emergency on February 3, 2020, as authorized by Government Code section 8630 and Santa Clara County Ordinance Code Section A8-9, and based on conditions of extreme peril and the imminent and proximate threat to public health relating to COVID-19. The Board of Supervisors ratified the local emergency and local health emergency on February 10, 2020.

On March 5, 2020, the Director of Emergency Services suspended enforcement of certain ordinances, rules, regulations, and policies of the County of Santa Clara relating to the procurement of goods or services under the authority set forth in Santa Clara County Ordinance Code section A8-16. The order allows the County to timely and proactively respond to changing conditions relating to COVID-19. The Board of Supervisors ratified the Order on March 10, 2020.

On March 16, 2020, the County of Santa Clara (along with several other bay area counties) issued a legal order directing residents to shelter at home, which was extended and is expected to last until at least May 3, 2020. The order was followed by an indefinite Executive Order from Governor Newsom, which directs all Californians to stay home except as necessary to maintain or access critical systems and services.

The County has activated its Emergency Operations Center and its Medical Health Joint Operations Center to manage its response to this crisis. These are staffed continuously by personnel who have been diverted from their normal job duties and Administration expects...
this to continue for an extended period of time. Staff in these operations centers are coordinating the County’s response to this crisis with state and federal agencies.

The county has also activated its Continuity of Operations Plan to ensure essential services are provided throughout this crisis. The County has closed all nonessential services.

**CONSEQUENCES OF NEGATIVE ACTION**

The Office of Emergency Services would have insufficient funding to appropriately respond to the COVID-19 pandemic.

---

As per the request for appropriation modification, County of Santa Clara has requested the following modifications to their budget for Fiscal Year 2020. The requested changes include the transfer of funds from the Special Department Expense to the Fund Balance, totaling 0.00. This request is part of the COVID-19 Emergency Response Funding, and is being submitted as part of Form ID# 24621 and 24625 for the Fiscal Year 2020.
100948

DATE: April 7, 2020
TO: Board of Supervisors
FROM: Shannon Bushey, Registrar of Voters
SUBJECT: Voter's Choice Act Implementation Grant

RECOMMENDED ACTION
Adopt Resolution delegating authority to the County Executive, or designee, to negotiate, execute, amend, or terminate all documents relating to applying for and accepting the reimbursement funds available under the Voter’s Choice Act (VCA) Implementation Grant with the California Secretary of State in an amount not to exceed $1,464,671 for period April 7, 2020 through December 30, 2020, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on December 30, 2020.

FISCAL IMPLICATIONS
The California Secretary of State will reimburse the County a maximum of $1,464,671 for VCA implementation efforts. The revenue associated with the grant Agreement will offset costs associated with the County’s transition to the VCA election model, including the acquisition of modernized voting equipment and public outreach materials.

CONTRACT HISTORY
The County has entered into numerous Help America Vote Act (HAVA) grant agreements with the California Secretary of State (SOS) since 2003. Past HAVA grant agreements provided funding to the County for such projects as modernizing voting technologies, enhancing cyber security, and supporting polling place accessibility. Additionally, the County has received other State grants through the California SOS, with the most recent agreement, the Voting System Replacement Agreement, being approved by the Board on January 28, 2020.

The VCA Implementation Grant Agreement provides the County with both State and Federal HAVA funds from the U.S. Election Assistance Commission (EAC). State funds, in the amount of $131,475, expire on June 30, 2020 and shall only be used for outreach activities as specified in Exhibit A, Section 1, paragraph b of the grant agreement. Federal funding, accounting for the remaining $1,333,196, expires on December 30, 2020 and can be used for
all permissible activities outlined in Exhibit A, Section 1 of the grant agreement. If any future funding becomes available, ROV will submit a new legislative file to accept the funding.

**REASONS FOR RECOMMENDATION**

The California SOS is offering reimbursement for the following VCA implementation expenses: (1) modernization of equipment and infrastructure; (2) advertising, printing, translation, and design of education and outreach materials; and (3) purchase of mobile vote centers.

ROV is requesting Board of Supervisors’ approval of the grant contract and to approve delegation of authority to submit for reimbursement under the contract to defray costs associated with the County’s VCA implementation. The reimbursement will allow the department to allocate funding to additional priorities, including those related to the upcoming November 2020 Presidential Election.

To claim reimbursement for expenses and activities permissible under the terms of the amended Agreement, the County must submit an appropriately signed agreement package to the Secretary of State by June 1, 2020.

**CHILD IMPACT**

This action will have no/neutral impact on children and youth.

**SENIOR IMPACT**

This action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

This action will have no/neutral sustainability implications.

**BACKGROUND**

On April 9, 2019, the Board of Supervisors approved the County’s implementation of the VCA election model. To support VCA implementation, the County entered into agreements with Dominion Voting Systems for the provisioning of a new state-certified voting system and ballot on demand systems and KNOWiNK for the provisioning of electronic poll books.

In addition to acquiring modernized voting equipment, the ROV has conducted a robust public education and outreach campaign to inform residents of the County’s transition to the VCA election model. The campaign includes advertising through social media, newspaper, television, and radio outlets; the dissemination of VCA information to registered voters through direct mailers; and the translation of VCA outreach materials. Costs associated with ROV’s VCA public education and outreach campaign amount to approximately $2,000,000.

**CONSEQUENCES OF NEGATIVE ACTION**

Without signature and submittal of the agreement, ROV will not be reimbursed for $1,464,671 to modernize equipment and infrastructure and conduct VCA-related education and outreach activities, creating a financial impact that would reduce the amount available for additional priorities relating to the implementation of VCA.
STEPS FOLLOWING APPROVAL

The Clerk of the Board of Supervisors is requested to forward the approval to Shannon Bushey, Registrar of Voters, to submit to the California SOS. Pursuant to the approved delegation of authority, the County Executive, or designee, will submit documentation of actual expenses for VCA implementation to the California SOS to request reimbursement of funds pursuant to the contract.

- DOA Resolution to accept HAVA Funding 3-27-20  (PDF)
General Terms and Conditions (GTC 04/2017)

EXHIBIT C

1. **APPROVAL:** This Agreement is of no force or effect until signed by both parties and approved by the Department of General Services, if required. Contractor may not commence performance until such approval has been obtained.

2. **AMENDMENT:** No amendment or variation of the terms of this Agreement shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or Agreement not incorporated in the Agreement is binding on any of the parties.

3. **ASSIGNMENT:** This Agreement is not assignable by the Contractor, either in whole or in part, without the consent of the State in the form of a formal written amendment.

4. **AUDIT:** Contractor agrees that the awarding department, the Department of General Services, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. Contractor agrees to maintain such records for possible audit for a minimum of three (3) years after final payment, unless a longer period of records retention is stipulated. Contractor agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Contractor agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Agreement. (Gov. Code §8546.7, Pub. Contract Code §10115 et seq., CCR Title 2, Section 1896).

5. **INDEMNIFICATION:** Contractor agrees to indemnify, defend and save harmless the State, its officers, agents and employees from any and all claims and losses accruing or resulting to any and all contractors, subcontractors, suppliers, laborers, and any other person, firm or corporation furnishing or supplying work services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims and losses accruing or resulting to any person, firm or corporation who may be injured or damaged by Contractor in the performance of this Agreement.

6. **DISPUTES:** Contractor shall continue with the responsibilities under this Agreement during any dispute.

7. **TERMINATION FOR CAUSE:** The State may terminate this Agreement and be relieved of any payments should the Contractor fail to perform the requirements of this Agreement at the time and in the manner herein provided. In the event of such termination the State may proceed with the work in any manner deemed proper by the State. All costs to the State shall be deducted from any sum due the Contractor under this Agreement and the balance, if any, shall be paid to the Contractor upon demand.
8. **INDEPENDENT CONTRACTOR**: Contractor, and the agents and employees of Contractor, in the performance of this Agreement, shall act in an independent capacity and not as officers or employees or agents of the State.

9. **RECYCLING CERTIFICATION**: The Contractor shall certify in writing under penalty of perjury, the minimum, if not exact, percentage of post-consumer material as defined in the Public Contract Code Section 12200, in products, materials, goods, or supplies offered or sold to the State regardless of whether the product meets the requirements of Public Contract Code Section 12209. With respect to printer or duplication cartridges that comply with the requirements of Section 12156(e), the certification required by this subdivision shall specify that the cartridges so comply (Pub. Contract Code §12205).

10. **NON-DISCRIMINATION CLAUSE**: During the performance of this Agreement, Contractor and its subcontractors shall not deny the contract's benefits to any person on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status, nor shall they discriminate unlawfully against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. Contractor shall insure that the evaluation and treatment of employees and applicants for employment are free of such discrimination. Contractor and subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Gov. Code §12900 et seq.), the regulations promulgated thereunder (Cal. Code Regs., tit. 2, §11000 et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (Gov. Code §§11135-11139.5), and the regulations or standards adopted by the awarding state agency to implement such article. Contractor shall permit access by representatives of the Department of Fair Employment and Housing and the awarding state agency upon reasonable notice at any time during the normal business hours, but in no case less than 24 hours’ notice, to such of its books, records, accounts, and all other sources of information and its facilities as said Department or Agency shall require to ascertain compliance with this clause. Contractor and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. (See Cal. Code Regs., tit. 2, §11105.)

Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under the Agreement.

11. **CERTIFICATION CLAUSES**: The CONTRACTOR CERTIFICATION CLAUSES contained in the document CCC 04/2017 are hereby incorporated by reference and made a part of this Agreement by this reference as if attached hereto.

12. **TIMELINESS**: Time is of the essence in this Agreement.
13. **COMPENSATION:** The consideration to be paid Contractor, as provided herein, shall be in compensation for all of Contractor's expenses incurred in the performance hereof, including travel, per diem, and taxes, unless otherwise expressly so provided.

14. **GOVERNING LAW:** This contract is governed by and shall be interpreted in accordance with the laws of the State of California.

15. **ANTITRUST CLAIMS:** The Contractor by signing this agreement hereby certifies that if these services or goods are obtained by means of a competitive bid, the Contractor shall comply with the requirements of the Government Codes Sections set out below.

a. The Government Code Chapter on Antitrust claims contains the following definitions:

   1) "Public purchase" means a purchase by means of competitive bids of goods, services, or materials by the State or any of its political subdivisions or public agencies on whose behalf the Attorney General may bring an action pursuant to subdivision (c) of Section 16750 of the Business and Professions Code.

   2) "Public purchasing body" means the State or the subdivision or agency making a public purchase. Government Code Section 4550.

b. In submitting a bid to a public purchasing body, the bidder offers and agrees that if the bid is accepted, it will assign to the purchasing body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by the bidder for sale to the purchasing body pursuant to the bid. Such assignment shall be made and become effective at the time the purchasing body tenders final payment to the bidder. Government Code Section 4552.

c. If an awarding body or public purchasing body receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under this chapter, the assignor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the public body any portion of the recovery, including treble damages, attributable to overcharges that were paid by the assignor but were not paid by the public body as part of the bid price, less the expenses incurred in obtaining that portion of the recovery. Government Code Section 4553.

d. Upon demand in writing by the assignor, the assignee shall, within one year from such demand, reassign the cause of action assigned under this part if the assignor has been or may have been injured by the violation of law for which the cause of action arose and (a) the assignee has not been injured thereby, or (b) the assignee declines to file a court action for the cause of action. See Government Code Section 4554.
16. CHILD SUPPORT COMPLIANCE ACT: For any Agreement in excess of $100,000, the contractor acknowledges in accordance with Public Contract Code 7110, that:

   a. The contractor recognizes the importance of child and family support obligations and shall fully comply with all applicable state and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and

   b. The contractor, to the best of its knowledge is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department.

17. UNENFORCEABLE PROVISION: In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.

18. PRIORITY HIRING CONSIDERATIONS: If this Contract includes services in excess of $200,000, the Contractor shall give priority consideration in filling vacancies in positions funded by the Contract to qualified recipients of aid under Welfare and Institutions Code Section 11200 in accordance with Pub. Contract Code §10353.

19. SMALL BUSINESS PARTICIPATION AND DVBE PARTICIPATION REPORTING REQUIREMENTS:

   a. If for this Contract Contractor made a commitment to achieve small business participation, then Contractor must within 60 days of receiving final payment under this Contract (or within such other time period as may be specified elsewhere in this Contract) report to the awarding department the actual percentage of small business participation that was achieved. (Govt. Code § 14841.)

   b. If for this Contract Contractor made a commitment to achieve disabled veteran business enterprise (DVBE) participation, then Contractor must within 60 days of receiving final payment under this Contract (or within such other time period as may be specified elsewhere in this Contract) certify in a report to the awarding department: (1) the total amount the prime Contractor received under the Contract; (2) the name and address of the DVBE(s) that participated in the performance of the Contract; (3) the amount each DVBE received from the prime Contractor; (4) that all payments under the Contract have been made to the DVBE; and (5) the actual percentage of DVBE participation that was achieved. A person or entity that knowingly provides false information shall be subject to a civil penalty for each violation. (Mil. & Vets. Code § 999.5(d); Govt. Code § 14841.)
20. **LOSS LEADER:** If this contract involves the furnishing of equipment, materials, or supplies then the following statement is incorporated: It is unlawful for any person engaged in business within this state to sell or use any article or product as a “loss leader” as defined in Section 17030 of the Business and Professions Code. (PCC 10344(e).)

Subject: Agreement Number 19S10063 (VCA Implementation)

Please complete the following item(s) and return to the address stated below within ten (10) business days:

- **STD. 213, Standard Agreement with attached Exhibits.** Please acquire the appropriate original signature on the first page of the STD. 213, and the additional three single STD. 213's and return to the address below. **Please Note:** Fax, photocopies and signature stamps are not acceptable. Therefore, please make sure the STD. 213's have been originally signed. A fully executed copy will be returned to you once the contract execution has been completed. **Please return the originally signed agreement package to the following address:**

  Attn: Contract Services Unit
  Secretary of State
  1500 11th Street, Room 460
  Sacramento, CA 95814

  *IMPORTANT: If the signed agreement package is not returned on or before June 1, 2020, this agreement may not be executed.*

- STD. 213A, Standard Agreement Amendment. Please acquire the appropriate signature for the first page of the STD. 213A and the additional three single STD. 213A's and return. Fax and Photocopies are not acceptable. A fully executed copy will be returned to you.

- Executed copy for your records.

- STD. 204 Payee Data Record (STD. 204) - Complete and return.

- CCC 04/2017 Contractor Certification Clause - Complete and return.

- Along with the above referenced STD. 213 contract package, please submit a copy of the resolution, order, motion, or ordinance of your local governing body (whichever is applicable for your County office), which by law has granted the authority to enter into the proposed contract, authorizing execution of the agreement. **Please Note:** This agreement provides for State AND HAVA (Federal) funds to be used for reimbursement to the county. Therefore, IF the resolution, order, motion, or ordinance of your local governing body (whichever is applicable for your County office) requires references to contract specific information, that information must be in accordance with the respective agreement. Documents containing inconsistent or incorrect information will not be accepted.
EXHIBIT A
(Standard Agreement)

SCOPE OF WORK

The purpose of this Agreement is to provide Santa Clara County with state and federal Help America Vote Act (HAVA) funds provided by the U.S. Election Assistance Commission (EAC) for county efforts to implement the Voter’s Choice Act (VCA).

1) General Uses
Provided that the county has notified the Secretary of State of its intention to execute this contract, any funds received shall be used by Santa Clara County for reimbursement of expenses related to implementation of the VCA incurred after January 1, 2019 and prior to December 30, 2020 for the HAVA funds, and prior to June 30, 2020 for the State funds (see attached Exhibit B-1 – Funding Detail), for one or more of the following purposes, except as otherwise provided:

a) Equipment and Infrastructure

i) New voting systems that have been certified or conditionally approved pursuant to the California Voting Systems Standards (CVSS).
ii) Electronic poll books certified by the Secretary of State.
iii) Ballot on demand systems certified by the Secretary of State.
iv) Vote by mail ballot drop boxes that comply with any applicable regulations adopted by the Secretary of State, including California Code of Regulations (CCR) Title 2, Division 7, Chapter 3, sections 20130-20138.
v) Remote accessible vote by mail systems certified or conditionally approved by the Secretary of State.
vii) Telecommunication technologies to facilitate electronic connection, for the purpose of voter registration, between polling places, vote centers, and the office of the county elections official or the Secretary of State’s office.
viii) Vote by mail ballot sorting and processing equipment.
viii) Mail tracking technology.

b) Advertisement, Printing, Translation, and Design of Education and Outreach Materials.

i) Development, production, translation, and transcription into Braille, audio, or CD/DVD format, of materials to be printed or posted online to educate or inform voters concerning the VCA;
ii) Development of translations into languages mandated by Elections Code Section 14201, and/or section 201 of the Federal Voting Rights Act;
iii) Procurement of services to assist voters with language needs at vote centers and through the toll-free hotline;
vii) Development of a website to educate voters on the VCA;
v) Public advertising of information on the VCA, including advertising on social media, newspapers, television, and radio;
vii) Mailers to disseminate information to registered voters on the VCA;
EXHIBIT A
(Standard Agreement)

vii) Printing of education materials such as flyers and posters;
viii) Translation of advertisements, mailers and education materials related to the VCA;
ix) Development of accessible advertisements, mailers and education and outreach materials related to the VCA.
x) Contracting services for Voter's Choice Act related education and outreach activities when the following requirements are fulfilled:

(1) The service provider shall deliver itemized invoices to the county elections official that outline the cost of each item, and the date when each service was completed.

(2) Services provided by this vendor shall only be related to Voter's Choice Act education and outreach activities.

c) Mobile Vote Centers

i) County may purchase mobile vote centers for use in their county. These mobile vote centers shall meet the minimum requirements below:
   (1) The mobile voting unit shall be able to close entirely.
   (2) The mobile voting unit shall have the ability to comply with public access requirements of the Americans with Disabilities Act (ADA). Resource for ADA Compliance is located at www.usdoj.gov/crt/ada.
   (3) The mobile voting unit shall have an easy set-up with minimum time for completion with minimal or no tools required.
   (4) If the mobile vote center is purchased new, the mobile voting unit shall have a minimum of a one-year warranty.
   (5) The mobile voting unit shall have adequate interior lighting.
   (6) The mobile voting unit shall have a power generator capable of providing power to run the necessary electrical equipment for the vote center.

ii) Mobile Vote Centers can only be purchased when a collection of tools, techniques, and best practices to reduce vulnerability in technology applications, systems, infrastructure, firmware, and other areas for the vehicle has been completed.

iii) Any wrap or signage must be informational in nature and cannot directly encourage voter registration or include 'get out the vote' messaging.

iv) The seller shall follow any Federal and California State laws applicable to the use and transport of trailers to resolve any structural needs not listed above.

v) If any requirement is deemed infeasible or does not follow Federal and California State guidelines, the seller shall identify it, explain why it is not feasible or is prohibited by law, and suggest alternative that are as close as possible to the request.

vi) The mobile vote centers are to be used for federal elections only. If used for statewide (nonfederal), county, or local elections the county is required to have in place appropriate record keeping of such use and allocate costs accordingly.

vii) Rental of vehicles specifically to tow mobile vote center to and from voting location.
EXHIBIT A
(Standard Agreement)

2) Expenditure Guidelines
If the county fails to implement the VCA during the 2020 election cycle after they have been reimbursed for expenses pursuant to this agreement made in relation to implementing the VCA, then the county shall reimburse the state any funds paid to them. Such funds shall be reimbursed by the county no later than 90 days after Election Day.

3) Items Presumed to not be Reimbursable
The following is a partial list of items presumed to not be reimbursable. This list is not inclusive of all items that are not reimbursable. The list is provided only for the purpose of providing guidance. The Secretary of state shall be the sole determiner of whether an expenditure is reimbursable or not.

   a) Catering, food, or beverages.
   b) General purpose equipment, including but not limited to, office equipment and furnishings, modular furniture, telephone networks and component parts that are not for the explicit use of facilitating electronic connections, and reproduction and printing equipment that is not a component of a voting system, ballot on demand system, or electronic poll book system.
   c) Facility rental, unless this is for the siting of vote centers.
   d) General office supplies.
   e) Gas (except travel reimbursements).
   f) Parking fees (unless travel reimbursements).
   g) Gifts, tags, pins, buttons, shirts or other promotional items for poll workers.
   h) Invitations.
   i) The cost of purchasing any real property.
   j) Light bulbs.
   k) Staff salaries of County employees not conducting one of the activities allowable.

4) Project Contacts
The program representatives during the term of the Agreement will be:

   a. For County: Shannon Bushey (408) 299-8683

   b. For Secretary of State: Roberto Rizo, Staff Analyst, Policy and Planning (916) 695-1640 OR rrizo@sos.ca.gov
EXHIBIT B
(Standard Agreement)

BUDGET DETAIL AND PAYMENT PROVISIONS

1. Invoicing and Payment

A. For services satisfactorily rendered, and upon receipt and approval of the invoices submitted with supporting documentation, the State agrees to compensate the Contractor for actual expenditures incurred in accordance with the rates specified herein, which is attached hereto and made a part of this Agreement.

B. Invoices shall include the Agreement Number and shall be submitted in triplicate not more frequently than monthly in arrears to:

Office of Secretary of State
Attention: Accounts Payable
P.O. Box 944260
Sacramento, CA 94244-2600

Invoices may be submitted via email to AccountsPayable@sos.ca.gov. Please contact Accounts Payable at (916) 653-9165 for any further questions regarding invoices.

2. Budget Contingency Clause

A. It is mutually agreed that if the Budget Act or a HAVA Spending Plan or Spending Plan amendment of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, the State shall have no liability to pay any funds whatsoever to Contractor or to furnish any other considerations under this Agreement and Contractor shall not be obligated to perform any provisions of this Agreement.

B. If funding for any fiscal year is reduced or deleted by the Budget Act or a HAVA Spending Plan or Spending Plan amendment for purposes of this program, the State shall have the option to either cancel this Agreement with no liability occurring to the State, or offer an agreement amendment to Contractor to reflect the reduced amount.

3. Federal Funds

A. It is mutually understood between the parties that this contract may have been written for the mutual benefit of both parties before ascertaining the availability of congressional appropriation of funds, to avoid program and fiscal delays that would occur if the contract were executed after that determination was made.

B. This contract is valid and enforceable only if the United State Government makes sufficient funds available to the state. In addition, this contract is subject to any additional restrictions, limitations, or conditions enacted by the Congress or to any statute enacted by the Congress that may affect the provisions, terms, or funding of this contract in any manner.

C. The parties mutually agree that if the Congress does not appropriate sufficient funds for the program, this contract shall be amended to reflect any reduction in funds.

D. The County has the option to invalidate the contract under the 30-day cancellation clause or to amend the contract to reflect any reduction in funds.
EXHIBIT B
(Standard Agreement)

4. Maximum Amount of State and HAVA Funds to be Provided to County Under this Program

County shall not receive, pursuant to this Agreement, more than $1,464,671.00, in the aggregate. See attached Exhibit B-1 - Funding Detail for further information regarding the breakdown of the funds. With respect to the HAVA Funds, the County’s share is the county’s remaining balance of the original appropriation authorized in 2005.

5. Failure to Properly Claim Maximum Amount of HAVA Funds

Notwithstanding any provision of Agreement, County shall be entitled to receive only those amounts for fully supported and appropriate claims which are properly submitted, pursuant to the provisions of Agreement and all applicable state and federal laws, regulations, and procedures.

6. Basis of Claims

Subject to the provisions of Paragraph 8 below related to the applicability of OMB Circular A-87, all claims for HAVA funds under this program must be based on invoices submitted by County. All invoices or agreements that are the subject of any claims must relate directly to expenditures authorized pursuant to Section 1) General Uses of Exhibit A “Scope of Work”.

7. Processing of Claims

The Secretary of State shall establish the criteria and processes for submitting claims under this Program. Such criteria shall include requirements that all claims:

1. Contain a face sheet that summarizes each expenditure made by the categories set forth in Paragraph 1 of Exhibit A “Scope of Work”;

2. Include the total amount of the claim;

3. Include a copy of the contract with the contractor if the contractor’s invoice does not describe the activities undertaken in such a manner that the State can determine whether the activities comply with the provisions of this Agreement.

8. Application of OMB Circular A-87

OMB Circular A-87 (“Cost Principles for State, Local and Indian Tribal Governments”), incorporated herein by reference, to the extent applicable, shall govern with respect to all aspects of this program. The provisions of OMB Circular A-87 may be found at https://www.whitehouse.gov/omb/information-for-agencies/circulars/.

9. Retroactive Payments

Counties may claim reimbursement for expenses and activities permissible under the terms of this Agreement in accordance with the dates identified in the table provided in Exhibit B-1 – Funding Detail.

10. Payments of Claims

The Secretary of State shall advise the County of the status of the claim processing within 30 (thirty) days of receipt of the claim. Payments made by the State with respect to any claim shall be sent directly by the State Controller’s office to the County.
EXHIBIT B
(Standard Agreement)

11. **Deadline for Submitting Claims**

   The deadline for submitting any claim under this program is 60 days after the termination date of this Agreement.

12. **Multiple Claims**

   County can submit multiple claims for funds authorized above, within the aggregate limit established for County.

13. **Documentation to be Submitted**

   Each claim shall include a cover page that identifies the activity or service in Exhibit A and a summary sheet that includes the dollar amount associated with each activity or service for which funds are being sought. Each claim shall also include originals or true copies of all invoices, agreements, or other documentation that support the claim presented in the same order as shown on the accompanying summary sheet, including all documentation required by OMB Circular A-87. The provisions of OMB Circular A-87 may be found at [https://www.whitehouse.gov/omb/information-for-agencies/circulars/](https://www.whitehouse.gov/omb/information-for-agencies/circulars/).

14. **Order of Processing**

   Claims shall be processed by the Secretary of State in order of receipt.

15. **Work Outside of the Scope of Work**

   Contractors are not permitted to perform work, or be paid for work, outside the documented scope of work.
FUNDING DETAIL

The allotted contract amount shall not exceed a total contract budget of $1,464,671.00 as shown below. State funding can only be used for outreach activities as allowed in Exhibit A – Scope of Work, Section 1) General Uses, paragraph b. Federal HAVA funds can be used for all allowable activities described in Exhibit A, Section 1) General Uses.

GENERAL TERMS AND CONDITIONS

PLEASE NOTE: This page will not be included with the final agreement. The General Terms and Conditions (GTC 04/2017) will be included in the agreement by reference to Internet site: https://www.dgs.ca.gov/OLS/Resources/Page-Content/Office-of-Legal-Services-Resources-List-Folder/Standard-Contract-Language#@ViewBag.JumpTo
EXHIBIT D
(Standard Agreement)

SPECIAL TERMS AND CONDITIONS

A. AUDITING

1. Receipt of HAVA funds by a county indicates agreement to establish a dedicated HAVA account for these funds. Therefore, any payment received by County pursuant to this program shall be deposited in a separate, segregated account and any payment made by County related to this program shall be paid from that account whether or not the County has paid the vendors for services rendered before submitting invoices to the State.

2. Any recipient of federal funds to meet the Help America Vote Act requirements agrees to be audited pursuant to federal and state law. Accordingly, all documents and electronic files must be produced upon request by the auditors. CFDA Number for this contract is 39.011. The audit may include a review of all books, papers, accounts, documents, or other records of County as they relate to any HAVA funds. County shall also provide access to all employees having knowledge of the HAVA funds program to assist the auditor. County shall provide a copy of any document, paper, or electronic record requested by the auditor;

3. OMB Circular A-133 ("Audits of States, Local Governments, and Non-Profit Organizations"), and OMB Circular A-87, incorporated herein by reference, shall govern with respect to all aspects of this program. The provisions of these circulars may be found at https://www.whitehouse.gov/omb/information-for-agencies/circulars/;

4. County shall maintain records in a manner that:
   a. Accurately reflects fiscal transactions with necessary controls and safeguards;
   b. Provides complete audit trails, based whenever possible on original documents (purchase orders, receipts, progress payments, invoices, timesheets, cancelled warrants, warrant numbers, etc.);
   c. Provides accounting data so the costs can readily be determined throughout Agreement period.

5. Records shall be maintained for three years after expiration of Agreement and for at least one year following any audit or final disposition of any disputed audit finding;

6. If the final disposition of any disputed audit finding is determined to be a disallowed cost that the Secretary of State has paid the County, the County shall return to the Secretary of State an amount equal to the disallowance.

7. County shall permit periodic site visits by the Secretary of State or the Secretary of State’s designee or designees to determine if any HAVA funds are being used or have been used in compliance with Agreement and all applicable laws;

8. Upon request, county shall report to the Secretary of State at least once every 90 (ninety) days until all funds received have been expended, on the status of HAVA funds received, in a manner determined by the Secretary of State.

B. GENERAL PROVISIONS

1. The program is conditioned on State receiving reimbursement from the federal government pursuant to HAVA Section 101.
EXHIBIT D
(Standard Agreement)

2. HAVA funds can only be used for the purposes for which the HAVA funds are made;

3. No portion of any HAVA funds shall be used for partisan political purposes. All contractors providing services are required to sign an agreement, please see Exhibit E Item 1, to abide by the Secretary of States’ policy to refrain from engaging in political activities that call into question the impartiality of the Secretary of State’s Office. County is to submit agreement signed by each employee of contractor’s firm who worked for County pursuant to this Agreement with the County’s first invoice.

4. The provisions of the federal Hatch Act shall apply to employees working for state and local entities receiving HAVA funds. The Hatch Act may be reviewed at https://osc.govServices/Pages/HatchAct.aspx;

5. Any interest earned by County on money received pursuant to this Agreement must be reported in writing to the Secretary of State within 30 days of expiration of this Agreement. All interest must be used by the County for the purposes of implementing activities allowable under this Agreement;

6. Failure by any eligible County to execute a contract within 90 days of the date on which this contract is made available shall constitute an express desire to forego funds;

7. Funds not claimed by County within 90 days of the end date of this contract, or any funds claimed by a county that are not approved for county use by the Secretary of State within 180 days of the end date of this contract, shall be reallocated and may only be used to meet Section 101 of HAVA;

8. If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the State shall have the option to either cancel Agreement with no liability occurring to the State, or offer an Agreement amendment to County to reflect any reduced amount;

9. Agreement is subject to any restrictions, limitations or conditions enacted or promulgated by the United States Government, or any agency thereof, that may affect the provisions, terms or funding of Agreement in any manner;

10. Pursuant to federal policy, Agreement may be terminated by the State with 30-day written notice to County;

11. County warrants by execution of Agreement, that no person or selling agency has been employed or retained to solicit or secure this contract upon agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by County for the purpose of securing business. For breach or violation of this warranty, the State shall, in addition to other remedies provided by law, have the right to annul this contract without liability, paying only for the value of the work actually performed, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee;

12. Nothing contained in Agreement or otherwise, shall create any contractual relation between the State and any subcontractor or vendor, and no subcontractor shall relieve County of its responsibilities and obligations hereunder. County agrees to be as fully responsible to State for the. acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by County. County’s obligation to pay its subcontractors is an independent obligation from the State’s obligation to make payments to County. As a result, State shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor or vendor of County;
EXHIBIT D
(Standard Agreement)

13. Pursuant to federal law, by signing this agreement or execution of this purchase order the Contractor certifies under the penalty of perjury that the contracting entity is not excluded or ineligible from federal assistance programs and thereby is not on the federal government's list of suspended or debarred entities.

14. Pursuant to federal law, as a component of the procurement process, the Contractor must review the federal government's list of debarred and suspended vendors and ensure no contract award is provided to a vendor on this list. This list may be viewed at www.epis.gov.

15. Upon request, county agrees to provide the Secretary of State with a summary report on its activities under this agreement following each election for which funds are expended that includes: the method used to determine the need for funding an eligible activity, including the reliance on an advisory committee or advisory groups, surveys or any other methodology used to assess the need for the eligible activity; the activity performed and funded; the amount of funding expended; the category or categories of need being met; and any performance metric or assessment of the quality of the activity, including unsolicited public comment, advisory committee or advisory group comment, public comment solicited through surveys and on-site assessments conducted by the County, its agents or others.
ADDITIONAL PROVISIONS

Secretary of State Policy Regarding Political Activity in the Workplace

SECRETARY OF STATE POLICY REGARDING POLITICAL ACTIVITY IN THE WORKPLACE

The Secretary of State is the state's chief elections officer. It is, therefore, imperative that staff in the Secretary of State's Office, and those who contract with the Secretary of State's Office, refrain from engaging in any political activity that might call into question the office's impartiality with respect to handling election issues. Accordingly, the policy of the Secretary of State's Office with respect to political activity in the workplace, a copy of which will be given to every employee in the Secretary of State's office and incorporated as an attachment to contracts with the Secretary of State's Office, is as follows:

1) No employee of or contractor with the Secretary of State's Office shall engage in political campaign-related activities on state-compensated or federal-compensated time, except as required by official duties, such as answering inquiries from the public. In those cases where the contractor with the Secretary of State's Office is a county, the term "contractor" shall apply only to county elections office employees, county employees redirected to work temporarily for the county elections office, or any person, firm, company or business that provides reimbursable election-related services to a county elections office in furtherance of a contract. This prohibition shall not apply while an employee is on approved vacation or approved annual leave. This prohibition shall not apply to activities engaged in during the personal time of an employee.

2) No employee of or contractor with the Secretary of State's Office shall use any state property in connection with political campaign activities. It is strictly prohibited to schedule political campaign-related meetings or to conduct political campaign-related meetings in state office space, even if after normal working hours.

3) No employee of or contractor with the Secretary of State's Office shall use his or her official status with the Secretary of State's Office to influence political campaign-related activities or to confer support for or indicate opposition to a candidate or measure at any level of government.

4) No employee of or contractor with the Secretary of State's Office may be involved with political campaign-related telephone calls, letters, meetings or other political campaign-related activities on state-compensated or federal-compensated time. Requests by employees to switch to alternative work schedules, such as 4-10-40 or 9-8-80 work weeks, or to take vacation in order to accommodate political campaign-related activities or to attend political campaign functions, will be judged in the same manner and on the same basis as any other requests of this nature (i.e., existing needs of the office and discretion of the division chiefs).

5) The receipt or delivery of political campaign contributions or photocopies thereof on state property is strictly prohibited, as is the use of office time or state resources (e.g., intra-office mail or fax machines) to solicit or transmit political campaign contributions.

6) No employee of or contractor with the Secretary of State's Office may authorize any person to use his or her affiliation with the Secretary of State's Office in an attempt to suggest that the employee's or contractor's support or opposition to a nomination or an election for office or a ballot measure is of an "official," as distinguished from private, character.

7) No employee of or contractor with the Secretary of State's Office may display political campaign-related buttons, posters, or similar materials in areas visible to individuals who are in public areas of the Secretary of State's Office; nor may an employee of or contractor with the Secretary of State's Office display political campaign-related posters or other materials on windows facing out of the state office building.
EXHIBIT E  
(Standard Agreement)

8) No employee of or contractor with the Secretary of State’s Office may use official authority or influence for the purpose of interfering with or attempting to affect the results of an election or a nomination for any public office.

9) No employee of or contractor with the Secretary of State’s Office may directly or indirectly coerce or solicit contributions from subordinates in support of or in opposition to an election or nomination for office or a ballot measure.

10) An employee who is paid either partially or fully with federal funds, including the Help America Vote Act of 2002 (HAVA), is subject to the provisions of the federal Hatch Act, and is, therefore, prohibited from being a candidate for public office in a partisan election, as defined in the federal Hatch Act. However, any employee who is to be paid either partially or fully with funds pursuant to HAVA, shall first be consulted about the proposed funding and be informed about the prohibitions of the federal Hatch Act. The employee, whenever possible, shall be given the opportunity to engage in employment that does not involve HAVA funding.

11) Provisions limiting participation in political campaign-related activities as provided for in this policy statement shall be included in every contract with the Secretary of State’s Office.

If you have questions concerning these restrictions, please refer them to the Secretary of State Office contact person listed in Exhibit A – SCOPE OF WORK.

RESOLUTION NO. __________

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA DELEGATING AUTHORITY TO THE COUNTY EXECUTIVE OR DESIGNEE RELATING TO GRANTS AVAILABLE UNDER THE HELP AMERICA VOTE ACT OF 2002 AND ADDITIONAL STATE FUNDING WITH THE CALIFORNIA SECRETARY OF STATE

WHEREAS, the Help America Vote Act of 2002 ("HAVA") has been enacted to improve election administration;

WHEREAS, the California Secretary of State ("SOS") has been delegated the responsibility for the distribution of HAVA funding and oversight over HAVA-funded projects in California;

WHEREAS, additional HAVA and State funding of $1,464,671 has been made available to the County of Santa Clara to cover implementation expenses of the Voter's Choice Act related to modernizing voting equipment and infrastructure; advertising, printing, translation, and design of education and outreach materials; and purchase of mobile vote centers; and,

WHEREAS, because of the deadlines for grant applications that the SOS often imposes, delegation of authority is necessary in order to permit the County of Santa Clara to successfully apply for and accept HAVA and State funds.

Resolution Delegating Authority regarding Amended Voting System Modernization Grant

Page 1 of 2
NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the County of Santa Clara, State of California, that the County Executive, or designee, shall be delegated authority to negotiate, execute, amend, or terminate all documents related to applying for and accepting HAVA and State Grants with the California Secretary of State in an amount not to exceed $1,464,671 for period April 7, 2020 through December 30, 2020, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on ______________________, by the following vote:

AYES:
NOES:
ABSENT:
ABSTAIN:

CINDY CHAVEZ, President
Board of Supervisors

Signed and certified that a copy of this document has been delivered by electronic or other means to the President, Board of Supervisors.

ATTEST:

MEGAN DOYLE
Clerk of the Board of Supervisors

APPROVED AS TO FORM AND LEGALITY:

DOUGLAS M. PRESS
Assistant County Counsel
DATE: April 7, 2020  
TO: Board of Supervisors  
FROM: Shannon Bushey, Registrar of Voters  
SUBJECT: Transfer of Funds to Support New Technologies  

RECOMMENDED ACTION  
Approve Request for Appropriation Modification No. 182 - $1,800,000 transferring funds within the Registrar of Voters budget, relating to the implementation of electronic pollbooks.  

FISCAL IMPLICATIONS  
The funds are already available in ROV’s equipment budget line item. Funds are being reclassified to the services and supplies line item as non-capitalized, low value assets.  

REASONS FOR RECOMMENDATION  
ROV concluded a request for proposals for Knowink electronic pollbooks and the agreement was signed on August 30, 2019. ROV is seeking re-appropriations for electronic pollbooks of $1,800,000 as broken down below:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

CHILD IMPACT  
This action will have no/neutral impact on children.

SENIOR IMPACT  
This action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS  
This action will have no/neutral sustainability implications.

BACKGROUND  
Board of Supervisors: Mike Wasserman, Cindy Chavez, Dave Cortese, Susan Ellenberg, S. Joseph Simitian  
County Executive: Jeffrey V. Smith
As part of the Fiscal Year 2015-2016 budget process, the Board of Supervisors approved a total of $2,650,000 in funding for the purchase of electronic poll book software and equipment. The total amount included $2,500,000 in one-time funding, as well as $150,000 in ongoing funding. The $2,500,000 in one-time funds had been rolled over for 2016-2017, 2017-2018, and again for 2018-2019.

**CONSEQUENCES OF NEGATIVE ACTION**

Without the appropriation modification, ROV would not be able to pay the vendor for the electronic pollbooks.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board of Supervisors shall notify Shannon Bushey and Vanessa Hamm in the Office of the Registrar of Voters.

RECOMMENDED ACTION
Receive monthly status report on items referred to Administration.

CHILD IMPACT
The recommended action will have no/neutral impact on children and youth.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
The attached matrix has been devised to reflect key information in a summary form so Board members can determine the status of a requested item quickly from month to month. The attached matrix includes the following information:
1. Date of Referral.
2. Meeting the Referral was Issued.
3. Agenda Item at the Time of Referral.
4. Board Member Referring the Item.
5. Department Developing the Response to the Referral.
6. Number Assigned to the Referral Item.
7. A Brief Description of the Referral Item.
8. The Status of the Referral Item.

DATE: April 7, 2020

TO: Board of Supervisors

FROM: Ky Le, Director, Office of Supportive Housing

SUBJECT: State of California COVID-19 Emergency Homeless Funding

RECOMMENDED ACTION

Consider recommendations relating to COVID-19 Emergency Homeless Funding from the State of California.

Possible action:

a. Approve delegation of authority to the County Executive, or designee, to negotiate, execute, amend, or terminate a funding agreement or agreements with the State of California relating to COVID-19 Emergency Homeless Funding allocated to the County of Santa Clara, in an amount not to exceed $1,740,251 and a contract term that starts no earlier than April 7, 2020, and ends no later than June 30, 2021, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on June 30, 2021.

b. Approve delegation of authority to the County Executive, or designee, to negotiate, execute, amend, or terminate a funding agreement or agreements with the State of California relating to COVID-19 Emergency Homeless Funding allocated to the Santa Clara County Continuum of Care, in an amount not to exceed $1,891,522 and a contract term that starts no earlier than April 7, 2020, and ends no later than June 30, 2021, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on June 30, 2021.

FISCAL IMPLICATIONS

The recommended actions would have no impact on the County General Fund. The recommended actions would enable the County to receive approximately $3.6 million in grant revenue from the State of California’s COVID-19 Emergency Homeless Funding, a one-time block grant enabling local jurisdictions to address immediate needs of homeless individuals and families during the COVID-19 epidemic.
If awarded, the County would receive funds from two separate allocations. By formula, the State has allocated $1,740,251 to the County of Santa Clara, and $1,891,522 to the Santa Clara County Continuum of Care (CoC). The CoC’s funds are administered by the County, the Administrative Entity for the CoC. COVID-19 Emergency Homeless Funding grants do not have a matching requirement. The State would make funds available to the County in April 2020, disbursed as a single payment for each award. All grant funds must be encumbered by June 30, 2020.

**REASONS FOR RECOMMENDATION**

The recommended actions would allow the Administration to enter into agreements with the State to accept and expend emergency grant funds to assist in the local response to the COVID-19 outbreak and protect the health and safety of people experiencing homelessness. The Administration intends to use the funds for temporary shelter/housing and services and will return to the Board on April 21, 2020 to provide a more detailed spending plan and service agreements as needed.

*Reason for request of Delegation of Authority*

Although delegations of authority are discouraged except under certain circumstances, the requested delegations are necessary. The COVID-19 Emergency Funding is intended for vital investments into COVID-19 prevention and containment efforts and is available immediately. Additionally, the State has provided a short turnaround for the funding and has given the Administration 30 days to respond to the award notification and execute a standard agreement. The delegations of authority would allow the Administration to enter into agreements and receive the new funding swiftly.

**CHILD IMPACT**

The recommended action will have positive impact on children and youth who are experiencing or at-risk of homelessness.

**SENIOR IMPACT**

The recommended action will have positive impact on seniors who are experiencing or at-risk of homelessness.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

On March 16, 2020, the California State Legislature took emergency action and passed Senate Bill (SB) 89, providing $500 million immediately to assist in the response to the COVID-19 epidemic. The Governor signed SB 89 on March 17, 2020. The State has allocated $100 million in local grant awards to help protect the health and safety of people
experiencing homelessness. Specifically, the awards are intended for investments into COVID-19 prevention and containment efforts including, but not limited to, emergency shelter operations, shelter capacity, isolation capacity, street outreach, transportation, and staffing.

The State utilized allocation formulas from previously awarded Homeless Housing, Assistance, and Prevention (HHAP) program grants for the emergency awards. COVID-19 Emergency Homeless Funding is divided into three categories of eligible applicants: Counties, CoCs, and large cities (with populations over 300,000). The grant allocations are determined using a formula, based on the eligible applicant’s proportional share of the state’s total homeless population, based on the U.S. Department of Housing and Urban Development’s (HUD) official 2019 Point-in-Time count.

Like HHAP funds, the COVID-19 Emergency Homeless Funding is administered by the State’s Homeless Coordinating and Financing Council (HCFC). The Administration has submitted HHAP grant applications totaling approximately $22 million for the County and CoC allocations.

**CONSEQUENCES OF NEGATIVE ACTION**

If the delegations of authority are not approved, the Administration would return to the Board for approval to enter into an agreement with the State in order to access the COVID-19 Emergency Homeless Funding; however, any delays in submitting the application would result in delays in receiving funding.

**STEPS FOLLOWING APPROVAL**

Upon approval, please notify Ben Kong and Kathryn Kaminski in the Office of Supportive Housing via email. The Administration is requesting expedited processing by April 8, 2020, as the COVID-19 Emergency Funding grant application is due to the State by April 23, 2020.
DATE:        April 7, 2020

TO:          Board of Supervisors

FROM:        Ky Le, Director, Office of Supportive Housing

SUBJECT:     HUD CoC Program Grant Agreements

RECOMMENDED ACTION

Consider recommendations relating to U.S. Department of Housing and Urban Development Continuum of Care program grants.

Possible action:

a. Approve delegation of authority to the County Executive, or designee, to submit Grant Application to U.S. Department of Housing and Urban Development relating to grant funding for up to 25 Continuum of Care grants funding permanent supportive housing, rapid rehousing, joint transitional housing-rapid rehousing programs for people experiencing homelessness, as well as supportive housing system infrastructure, via the Notice of Funding Availability for the 2020 Continuum of Care Program Competition in an amount not to exceed $29,901,867 for one-year grants with varying grant periods that begin in 2021 and end in 2022. Delegation of authority shall expire on December 31, 2022.

b. Approve delegation of authority to the County Executive, or designee, to negotiate, execute, amend, or terminate up to 25 grant agreements with U.S. Department of Housing and Urban Development relating to renewal grant funding providing permanent supportive housing and rapid rehousing programs for people experiencing homelessness, as well as supportive housing system infrastructure, in a total amount not to exceed $31,594,105 or one-year contract terms that start on various dates in 2021, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on December 31, 2022.

FISCAL IMPLICATIONS

The recommended actions would enable the County to renew all of the grants awarded in The U.S Department of Housing and Urban Development’s (HUD) 2019 Notice of Funding Availability (NOFA) and submit applications for up to 25 renewal or new grants, including a
planning grant, in response to the 2020 NOFA. As part of the 2020 NOFA, organizations in Santa Clara County may apply for up to $5,000,000 in new grant funding.

All HUD Continuum of Care (CoC) grants have a 25 percent match requirement. There would be no fiscal impact for the renewal grants because the revenues and match requirements are included in the Office of Supportive Housing’s (OSH) budget. However, if HUD increases funding as part of the renewal grants or awards the County new grants, the Administration would return to the Board with an appropriation modification request.

CONTRACT HISTORY
The contract history is different for each grant. The County started receiving HUD CoC grants in 2008 as the result of a transfer from a nonprofit organization. Since then, the County has added CoC grants through new project applications or transfers from other organizations. In the 2020 NOFA CoC Program competition, the County will be eligible to apply for renewal of 20 grants. Some grants would be renewed for the first time and other grants would have been renewed 10 or more times.

REASONS FOR RECOMMENDATION
The recommended actions would enable the County to: 1) apply for renewal and new grants through HUD’s 2020 CoC NOFA, and 2) execute renewal and new grant agreements awarded though the 2020 CoC NOFA Program Competition.

Since 2012, the County has established a leadership role in improving and expanding the system of housing, services, and temporary shelter for homeless individuals and families. The County’s leadership helped to more than double the amount of HUD CoC funding that Santa Clara County organizations receive. In 2012, Santa Clara County organizations received about $10.43 million in HUD CoC funding; during the 2019 NOFA, Santa Clara County organizations were awarded over $28 million in HUD CoC funding. At the same time, the County has become the primary recipient of the HUD CoC grants. The County currently receives 20 of the 31 HUD CoC grants in Santa Clara County. As a direct grantee, the County’s 20 grant awards in the 2019 NOFA total $24.9 million.

Annually, the County must renew and execute agreements for existing grants. Through the renewal process, the County continues existing programs and maintains ongoing sources of revenue. Annually, the County may also apply for and would have to execute agreements for new grants. New grants, if awarded, would become an ongoing source of revenue in future years to expand or enhance our supportive housing system.

Through the proposed recommended actions, the Administration seeks to streamline the grant renewal and new grant application process by reducing the number of times that the Board would have to consider recommendations relating to HUD CoC grants. The content of individual CoC grant agreements with HUD are substantively the same. In addition, the recommended actions would enable the County and HUD to quickly enter into CoC grant agreements without any disruption of services. The County receives grant agreements at various times throughout the year even though the services associated with renewed grants are in continuous operation. If agreements are not executed quickly, there could be delays in requesting CoC grant funds from HUD.
Delegations of Authority

While delegations of authority are discouraged except under certain circumstances, the delegations of authority included in the possible actions are necessary for expedient processing of CoC grants to prevent disruption in services.

The first delegation of authority requested, relating to the submission of new and renewal grant applications in the 2020 HUD CoC Program Competition, will allow OSH to respond in a timely way to the NOFA. Although HUD’s CoC Program holds an annual funding competition, the actual NOFA is released on varying dates from year to year, resulting in an unpredictable annual timeline for submission of grants. This delegation will streamline the CoC grant application process, allowing OSH to be responsive to the NOFA competition and submit grant applications without delays.

The second delegation of authority, relating to the execution of grant agreements if awarded in the 2020 HUD CoC Program competition, would allow the County and HUD to quickly enter into grant agreements without any disruption of services. Because HUD does not have a strict timeline for the CoC Program NOFA, it is impossible for the County to predict when grant agreements would be ready for execution. It is not uncommon for agreements to be executed after the project start date, depending on how quickly HUD announces awards and processes grant agreements. In addition, while these grant agreements are typically eligible to be included in the annual Master Contracts List, because each of the grants have different start and end dates, grants awarded in one NOFA competition typically start in two different fiscal years, making it challenging to track. This delegation would improve administrative efficiency by making it possible for the OSH to process all the grant agreements in a similar way following the next HUD CoC Program NOFA.

CHILD IMPACT

The recommended action would have a positive impact on children and youth who are part of households experiencing homelessness because the programming that would be funded by these grants includes funding for permanent housing for families and youth experiencing homelessness.

SENIOR IMPACT

The recommended action would have a positive impact on seniors who are part of households experiencing homelessness because the programming that would be funded by these grants includes funding for permanent housing for people experiencing homelessness.

SUSTAINABILITY IMPLICATIONS

The recommended action will have no/neutral sustainability implications.

BACKGROUND

Each year, HUD’s CoC program initiates a grant renewal and application process called the Notice of Funding Availability (NOFA). The 2019 NOFA allowed Santa Clara County agencies to renew approximately $25.4 million in existing grants. The renewal process involves individual grantees, the network of homeless service providers, and the County in its role as the “Collaborative Applicant.” Collectively, these stakeholders form the Santa Clara
County CoC. Periodically, HUD makes additional funds available for “bonus projects.” In addition, the CoC may choose to reallocate funds that were available for renewal projects (i.e., existing grants) to new projects.

**HUD CoC 2019 Notice of Funding Availability (NOFA)**

The 2019 NOFA was announced in early-July 2019 and all renewal, new, and bonus projects had to be submitted to HUD by September 30, 2019. In the 2019 NOFA competition, HUD made $1.2 million in Permanent Housing Bonus funds available in Santa Clara County for new projects. In the 2019 NOFA, HUD also made available $866,104 to Santa Clara County for Domestic Violence Bonus funding. Project applicants could apply for Domestic Violence Bonus Projects to serve survivors of domestic violence, dating violence, sexual assault, and stalking.

The County’s grant applications scored well in the local priority competition required by HUD, resulting in four newly awarded projects, including an award for the 2019 Domestic Violence Bonus Funding. In total, HUD (preliminarily) awarded 19 of the County’s 21 project applications, including 15 renewal grants and four new projects. Combined, the County’s (preliminary) award totals $24,901,867 in HUD CoC funds. In total, the grants awarded in the 2019 NOFA competition require a total match of $6,172,447, all of which would be met through services or other rental assistance programs that are included as part of the Office of Supportive Housing’s (OSH) FY 2020 Adopted Budget.

The County’s new projects were conditionally awarded in mid-January 2020, and all but the CoC Planning grant would be eligible for annual renewal, thus increasing our county’s share of HUD CoC program funds on an ongoing basis. The table in Attachment A lists the 2019 NOFA renewal and new grant awards, along with the number of households to be served, required match, and County’s first operating year.

According to HUD’s website ([https://www.hudexchange.info/coc/](https://www.hudexchange.info/coc/)), the CoC Program is designed to:

- Promote community-wide commitment to the goal of ending homelessness;
- Provide funding for efforts by non-profit providers, and State and local governments to quickly rehouse homeless individuals and families while minimizing the trauma and dislocation caused to homeless individuals, families, and communities by homelessness;
- Promote access to and effect utilization of mainstream programs by homeless individuals and families; and
- Optimize self-sufficiency among individuals and families experiencing homelessness.

**CONSEQUENCES OF NEGATIVE ACTION**

If the delegation of authority to apply for grants is not approved, the County would not be able to submit applications for these grants and maintain this funding as part of the County budget, or OSH would have to return to the Board to seek authority to submit grant applications after the NOFA is released. While other community organizations could apply for these funds, it is unlikely that community-based organizations could identify the
resources needed to meet the match requirement for this much grant funding in one NOFA cycle.

If the delegation of authority related to execution of new and renewal agreements is not approved, the OSH would need to bring the agreements back to the Board of Supervisors for approval as they are made available by HUD or the OSH would not be able to enter into the grant agreements.

**STEPS FOLLOWING APPROVAL**

Following approval, please notify Kathryn Kaminski (kathryn.kaminski@hhs.sccgov.org) and Ben Kong (ben.kong@hhs.sccgov.org) in the Office of Supportive Housing.

**2019 NOFA Awards**

- **Total Households:** 1,231
- **Total Award Total:** $24,901,867
- **Total Award Match:** $6,172,447
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Ky Le, Director, Office of Supportive Housing
SUBJECT: Fifth Amendment to Agreement with HomeBase for CoC Training and Technical Assistance

RECOMMENDED ACTION
Approve Fifth Amendment to Agreement with HomeBase relating to providing technical assistance for U.S. Department of Housing and Urban Development policy and grant management increasing the maximum contract amount by $100,739 from $2,887,519 to $2,988,258, with no change to the term of the agreement, that has been reviewed and approved by County Counsel as to form and legality.

FISCAL IMPLICATIONS
The recommended action would not have a new impact of the County’s General Fund. The Office of Supportive Housing’s (OSH) Adopted Budget for Fiscal Year (FY) 2019-20 includes revenue and expense to support planning and progress toward implementation of the Community Plan to End Homelessness, and includes sufficient appropriation for this Amendment.

CONTRACT HISTORY
This is the Fifth Amendment to the Agreement. The Board approved the County to enter into Agreement with HomeBase on June 7, 2016 (Item No. 75), after a competitive procurement process. The Agreement was first amended by the Board on May 9, 2017 (Item No. 45) to increase funding and add tasks within the scope of work for FY 2017-18. The Second Amendment to the Agreement was approved by the Board on June 19, 2018 (Item No. 118) to increase funding and add tasks within the scope of work for FY 2018-19. The Third Amendment to the Agreement was approved by the Board on February 12, 2019 (Item No. 52) to increase funding to implement a one-time targeted homeless survey in the Delmas Park, Washington-Guadalupe, and Gardner neighborhoods of San José. The Fourth Amendment to the Agreement was approved by the Board on June 4, 2019 (Item No. 79) to increase funding to expand support of the Continuum of Care’s (CoC) planning and progress toward the implementation of the community plan to end homelessness.
REASONS FOR RECOMMENDATION

In 2014, the Santa Clara County CoC and Destination: Home led a community process to develop the *Community Plan to End Homelessness in Santa Clara County (2015-2020)* (Community Plan). The Community Plan was adopted by the County, most other jurisdictions, and several key stakeholders of the Supportive Housing System. As the timeframe for the first Community Plan comes to an end, the Santa Clara County CoC has started the process to develop the next community plan. This process has included extensive community engagement. The amendment to the Agreement would allow HomeBase to increase its support to OSH, which leads the Santa Clara County CoC, toward implementation of the community plan to end homelessness.

In addition, the amendment to the Agreement would allow HomeBase to support OSH with implementation of the Housing Problem Solving initiative, including development of policies and procedures, training curriculum development, and training coordination for over 300 staff at community-based agencies.

CHILD IMPACT

The recommended action will have no/neutral impact on children.

SENIOR IMPACT

The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS

The recommended action will have no/neutral sustainability implications.

BACKGROUND

The County has an existing contract with HomeBase to support the CoC’s planning and progress toward meeting community goals, conducting data and system analyses, gathering input from community, and producing reports. The additional support for the implementation of the community plan to end homelessness and the implementation of the Housing Problem Solving initiative falls within the scope of services of the County’s agreement with HomeBase.

CONSEQUENCES OF NEGATIVE ACTION

If the recommended action is not approved, the Administration would need to procure another provider to assist with training and coordination of the Housing Problem Solving initiative, causing delays in system-wide implementation.

STEPS FOLLOWING APPROVAL

Following approval, please notify Kathryn Kaminski (kathryn.kaminski@hhs.sccgov.org) in the Office of Supportive Housing and Lingxia Meng (lingxia.meng@ceo.sccgov.org) in the Office of the County Executive.

Parties to Agreement

Legal notices and invoices pertaining to this Agreement shall be sent to the appropriate contact person listed below. Notices shall be in writing and served either by personal delivery or sent by certified or registered mail, postage prepaid, addressed as follows. Notice shall be deemed effective on the date that the notice is personally delivered or, if mailed, three (3) days after deposit in the mail. Either party may designate a different person and/or address for the receipt of notices by sending written notice to the other party, which shall not require an amendment to this Agreement.

Contractor

Contractor Name (As Displayed In SAP): HomeBase
Contact Person: Nikka Rapkin
Street Address *: 870 Market Street, Suite 1228
City, State, Zip *: San Francisco, CA 94102
Telephone Number *: 415-788-7961 * 303
Email Address *: nikka@homebaseccc.org
SCC Vendor Number (As Assigned In SAP): 1005751

Form Effective as of July 2019
Reason(s) for Amending the Service Agreement

Amend Term of Agreement

Or see Attachment ______ as incorporated by this reference

✔ Amend Contract Specifics

Note: A new Agreement should be created if the Scope of Services is significantly modified or expanded.

Attachment A-4 is hereby replaced in its entirety by Attachment A-5 to reflect revised and updated scope of work.

Or see Attachment A-5 as incorporated by this reference

Amend Maximum Financial Obligation

A. Maximum Financial Obligation prior to this Amendment: (Same as on page 1) $ 2,887,519

B. Amount of increase or decrease: (Explain below) $ 100,739

C. Revised Maximum Financial Obligation: (A +/- B will equal C) $ 2,988,258

Explanation of increase / decrease (include new payment terms if applicable):

Or see Attachment A-5 as incorporated by this reference
This is an amendment to an existing agreement

✓ Amend Standard Provisions

Or see Attachment ______ as incorporated by this reference
Or Section VI. Standard Provisions is replaced in its entirety by Attachment **B**

Other (please explain below)

Or see Attachment ______ as incorporated by this reference

**Contract History**

| Total financial obligation from prior fiscal year(s): | $ |
| Financial obligation in current fiscal year: | $ |
| Cumulative total of all agreements with this Contractor within Budget Unit for same type of services (including this amendment): | $ 2,988,258 |

**Insurance**

✔ Insurance does not require changes

Insurance Exhibit is replaced by Exhibit B ________ attached and incorporated by this reference.
SECTION V: CONTRACT SPECIFICS

This attachment replaces Attachment A-4 in its entirety.

A. SERVICE DESCRIPTION AND EXPECTED OUTCOME (SCOPE OF SERVICE)

1. YEAR-ROUND CONTINUUM OF CARE (CoC) TECHNICAL ASSISTANCE AND SUPPORT
   a. Provide technical assistance, facilitation and consulting services to County staff, the CoC Board, the CoC Board’s Executive Committee, and other groups (as authorized by the County) to support the CoC’s planning and progress toward meeting community goals.
   b. Provide on-call technical assistance, support and expertise to CoC staff regarding U.S. Department of Housing and Urban Development (HUD) and other requirements, best practices, and other related issues.
   c. Operate and maintain all CoC bulk email communication, including up to 15 email distribution lists.
   d. Upon request, track and analyze Federal funding available for homelessness and affordable housing, including those sources received by the County and CoC stakeholders, as well as other sources, for the purpose of understanding how funds are utilized locally and to ensure such funds are coordinated and targeted to areas of greatest need.
   e. Prepare a State of Homelessness report supporting understanding of the supportive housing system, describing the issues and causes of homelessness, discussing innovative programs and partnerships, and highlighting housing development (July 1, 2017 to June 30, 2018 only).
   f. Support the community in planning for, preparing, and submitting an application for the federal Youth Homelessness Demonstration Project, including engagement of youth with lived experience (July 1, 2017 to June 30, 2019 only).
   g. Gather feedback from persons who are experiencing or have experienced homelessness through facilitation of the Lived Experience Advisory Board (LEAB).
   h. Prepare for and facilitate the Youth and Families Workgroup.
   i. Conduct a specialized survey of individuals experiencing homelessness in the Gardner, Washington-Guadalupe, and Delmas Park neighborhoods and prepare a brief report (July 1, 2018 to June 30, 2019 only).
   j. Develop local policies and curriculum materials related to Housing Problem Solving based on Cleveland Mediation Center model and manage training process and scheduling to support implementation of Housing Problem Solving program (July 1, 2019 to June 30, 2021).

2. ANNUAL APPLICATION FOR HUD CoC PROGRAM FUNDS
   The annual McKinney-Vento CoC Program funding competition is a major consolidated funding application made up of the required CoC Application – a comprehensive statement of the community’s progress in and strategies for reducing and ending homelessness – and Project Applications the community has evaluated and prioritized.
   a. CoC Notice of Funding Availability (NOFA) Preparation
      1) Chair the CoC’s NOFA Committee, including developing and coordinating implementation of an annual work plan, in order to fulfill the committee’s purpose of...
making recommendations to the CoC Board on the local project prioritization process.

2) Prepare the NOFA Committee’s recommendations regarding the local process and scoring tools for presentation to the CoC Board.

3) Provide technical assistance and support to CoC staff regarding the annual application.

4) Provide support to CoC staff in completing the annual Grant Inventory Worksheet.

5) Assist the CoC with planning for CoC Program-related activities to be completed by the County and other contractors, including, but not limited to: Housing Inventory Count, Point-in-time Count, coordinated assessment, and performance management.

b. CoC NOFA Local Process Management

1) Prepare, with input from CoC staff, a detailed timeline for the CoC’s local process, including pre-NOFA release and post-NOFA release activities, through the time of application submission. The detailed timeline should identify activities and responsible parties.

2) Analyze the annual NOFA and prepare a written summary, highlighting changes from prior years.

3) Monitor the release of annual NOFA award results and send notice to CoC staff.

4) Provide annual NOFA scoring analysis of the CoC’s application when the results are released and identify areas for improvement.

5) Facilitate the local competition/review and project prioritization process, including training the application review panel, preparing materials, developing scoring tools with the NOFA Committee, facilitating decision making, and supporting the appeals process.

c. CoC Application Preparation

1) Collect all data needed for the completion of the CoC Application portion of the Consolidated Application for HUD CoC Program funding.

2) Work with CoC staff, the Homeless Management Information System (HMIS) System Administrator, and funded agencies to identify existing information on the homeless population, needs, system capacity, funding, discharge planning, and mainstream participation as the application requires. Gather information from local contacts.

3) Work with key stakeholders, including CoC Board and staff, on strategic planning and performance reporting as required by the application. This may include:
   (a) Developing or refining strategic plans, including establishing numerical targets, setting action steps, and identifying people to lead action step implementation, and
   (b) Reviewing submitted performance outcome information for accuracy.

4) Prepare all CoC Application narratives and attachments, including:
   (a) Providing a draft CoC Application for CoC staff to review,
   (b) Incorporating feedback received,
   (c) Briefing CoC staff on the electronic submission requirements, and
   (d) Compiling the CoC Consolidated Application for submission to HUD by the CoC Quality Improvement Manager.

d. Project Application Review and Preparation
1) Provide technical assistance related to NOFA release to project applicants:
   (a) Prepare training materials and conduct an applicant training/technical assistance workshop for all prospective applicants to assist with the preparation of their project application.
   (b) Provide on-call one-on-one detailed consultation on HUD and application requirements to all applicants during the NOFA process to ensure accurate and timely submission of their project applications.
   (c) Review project applications for compliance with HUD requirements and request applicant edits as appropriate.
2) Provide planning and support to prospective new project applicants as needed.
3) Analyze project performance in support of the local competition/review and prioritization process.

3. TRAINING AND TECHNICAL ASSISTANCE FOR CoC COMPLIANCE AND DEVELOPMENT
   a. Develop and implement an annual work plan for providing training and technical assistance on Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009 (HEARTH) legislation, regulations, HUD guidance on the CoC Program and other related areas, performance enhancement, and best practices.
   b. Complete annual technical assistance reviews of each CoC-funded agency and OSH subrecipient, with a single site visit assistance session per agency, as well as a report, email and phone follow-up support.
   c. Deliver CoC training – focusing on the needs of administrative, fiscal, compliance, and direct service staff – such that CoC Program grant recipients are trained and updated on regulations and best practices for implementing and managing CoC Program grants, and CoC stakeholders are engaged in systems development.
   d. Create New CoC Staff Bootcamp, a six-hour CoC start up training, and present to new agency staff annually (July 1, 2018 to June 30, 2020 only).
   e. Present Rapid Rehousing Institute, two 4-hour workshops for rapid rehousing providers to improve outcomes in rapid rehousing programs, annually (July 1, 2018 to June 30, 2020 only).

4. STAFF SUPPORT FOR COMMUNITY PLAN TO END HOMELESSNESS IMPLEMENTATION
   a. Track and analyze plan progress toward goals and produce semi-annual written reports (July 1, 2016 to June 30, 2017 only).
   b. Make operational policy recommendations based on plan progress analysis to CoC staff and the CoC board related to plan implementation.
   c. Assist staff with preparation for and delivery of the annual Community Plan to End Homelessness Community Update (July 1, 2016 to June 30, 2017 only).
   d. Prepare a State of Homelessness report supporting understanding of the supportive housing
system, describing the issues and causes of homelessness, discussing innovative programs and partnerships, and highlighting housing development and present the report at community meetings upon request (July 1, 2018 to June 30, 2021 only).

e. Facilitate process to create a new strategic plan, including preparing materials for and leading meetings of strategic planning committee, undertaking stakeholder engagement, completing research and data analysis, and preparing draft and final versions of the strategic plan (July 1, 2019 to June 30, 2020 only).

f. Complete other projects at the direction of CoC staff.

5. **STAFF SUPPORT FOR CONTINUUM OF CARE GRANTS ADMINISTRATION (April 1, 2017- June 30, 2019)**

a. Provide on-site staff support at Office of Supportive Housing’s (OSH) offices for 8 hours/week from April 1, 2017 to June 30, 2020. HomeBase staff will provide content expertise to OSH staff and leadership, participate in strategic sessions, build staff and department capacity, and provide direct homeless system-related and CoC programmatic technical assistance for OSH staff, undertaking research and analysis as necessary to support these tasks. Staff will also research and develop materials to support CoC workgroups and community-wide publications (e.g., State of Homelessness Report).

b. Conduct annual programmatic compliance monitoring of each HUD CoC-funded project administered by OSH on key topics as determined by a comprehensive risk assessment. Monitoring will include a desk review of each project’s materials and files, an on-site monitoring visit, creation of a report setting forth findings and conclusions, and follow up with each project to ameliorate compliance issues identified through monitoring (July 1, 2016 to June 30, 2019 only).

c. Provide ongoing oversight of and support for each HUD CoC-funded project administered by OSH, including conducting bi-monthly file audits (July 1, 2016 to June 30, 2019 only)

d. Build capacity through technical assistance and training for OSH staff related to compliance monitoring processes and content knowledge related to subtasks 5b and 5c (immediately above) (July 1, 2018 to June 30, 2020 only).

b. **DELIVERABLES, MILESTONES, & TIMELINE FOR PERFORMANCE**

1. **YEAR-ROUND CoC TECHNICAL ASSISTANCE AND SUPPORT**

a. Attendance at and/or facilitation of multiple monthly meetings

b. 15 electronic mailing lists for the duration of the contract

c. On-call technical assistance as needed

d. Ending Homelessness: The State of Supportive Housing System Report (July 1, 2017 to June 30, 2018 only).

e. Submission of the Youth Homelessness Demonstration Project NOFA application according to HUD’s deadline (July 1, 2017 to June 30, 2019 only).

f. Brief report about populations experiencing homelessness in the Gardner, Washington-Guadalupe, and Delmas Park neighborhoods (July 1, 2018 to June 30, 2019 only).

g. Support for training and implementation of Housing Problem Solving (July 1, 2019 to June 30, 2021).
2. **ANNUAL APPLICATION FOR HUD CoC PROGRAM FUNDS**
   a. Local process and priority scoring recommendations for the CoC Board via CoC NOFA Committee facilitation; NOFA Committee work to start in or around January annually, dependent on anticipated HUD CoC NOFA release date
   b. Management of CoC Board-approved local process annually, timing dependent on NOFA Committee work and anticipated HUD CoC NOFA release date
   c. HUD CoC Program NOFA Project Applications reviewed and ready to submit according to HUD’s annual deadline
   d. Submission of CoC’s application in response to the HUD CoC Program NOFA, timing dependent on HUD’s annual deadline
   e. Submission of the Youth Homelessness Demonstration Project NOFA application according to HUD’s deadline (July 1, 2016 to June 30, 2017 only).

3. **TRAINING AND TECHNICAL ASSISTANCE FOR CoC COMPLIANCE AND DEVELOPMENT**
   a. Annual Training and Technical Assistance Work Plan, due annually in July, with mid-year adjustments made in agreement with the County
   b. Annual Technical Assistance Site Visits with each CoC grantee and County subrecipient at a time of year agreed upon with the County
   c. At least ten (10) workshops annually, schedule to be agreed upon with the County
   d. At least one CoC start-up training each year (July 1, 2018 to June 30, 2020 only).
   e. At least two 4-hour workshops for rapid rehousing providers each year (July 1, 2018 to June 30, 2020 only).

4. **STAFF SUPPORT FOR COMMUNITY PLAN TO END HOMELESSNESS (CPTEH) IMPLEMENTATION**
   a. Semi-annual community reports on progress of the CPTEH, timing agreed upon with the County (July 1, 2016 to June 30, 2017 only).
   b. Mid-year update to the CoC each year at the CoC’s July membership meeting (July 1, 2016 to June 30, 2017 only).
   c. Annual Community Update meeting in conjunction with the CoC’s January membership meeting (July 1, 2016 to June 30, 2017 only).
   d. Ending Homelessness: The State of Supportive Housing System Report (July 1, 2018 to June 30, 2021 only).
   e. Presentation to community/stakeholder meeting regarding the State of Supportive Housing System Report (July 1, 2018 to June 30, 2021 only).
   f. Strategic plan to end homelessness completed by April 1, 2020 (July 1, 2019 to June 30, 2020 only).

5. **STAFF SUPPORT FOR CONTINUUM OF CARE GRANTS ADMINISTRATION (April 1, 2017- June 30, 2020)**
   a. 8 hours/week from April 1, 2017 to June 30, 2020 on site technical assistance at OSH
   b. Annual monitoring of each OSH-administered CoC project OSH identifies for monitoring in 2017-2018 and 2018-2019 fiscal years (July 1, 2016 to June 30, 2019 only)
   c. Bi-monthly file audits of each OSH-administered CoC project (July 1, 2016 to June 30, 2019 only)
   d. Training and capacity building for OSH staff (July 1, 2018 to June 30, 2020 only).
C. PERFORMANCE STANDARDS

Goals
1. Support the County’s work to end homelessness by submitting the annual application in response to the NOFA for HUD CoC Program funding and by providing support for CoC operations.

2. Improve the County’s and the CoC’s abilities to comply with current HEARTH and HUD Continuum of Care regulations directly and indirectly related to their grant awards.

1. Invoices shall be submitted to the OSH Contract Monitor by the 15th day of the month following the month on which services were rendered, or the first business day thereafter, using a template approved by the County. A template will be provided at the Contractor’s request.

2. June 30th of each year is the end of the County’s fiscal year. An estimate for each June invoice should be submitted on the following dates: June 22, 2020 and June 21, 2021. Each July invoice should be submitted by the County’s fiscal year end accounts payable deadline, which is usually on the second Friday of July.

3. Contractor will invoice the County for actual costs within the budget established herein. Subcontractors and travel shall be billed at actual cost and in accordance with County policy.

4. Contractor must submit accounting records, such as a detailed general ledger report, with each invoice for actual expenses reflecting the charges invoiced to the County.

5. County Administration has the authority to make minor budget adjustments that do not increase nor decrease the total amount of this agreement, and further, that do not alter the agreed-to service description and expected outcome (scope of service). Minor budget adjustments must not exceed 40% of the total amount of this agreement and must be approved by the Contractor, County Agency/Department Manager (Contract Monitor), and the County Agency/Department Fiscal Officer. The budget adjustment must be submitted on a budget template, or in MS Excel format, and must be signed by all approvers and attached to the contract.

*Fully loaded hourly rate for each staff person includes salary, fringe benefits (including Employer Payroll Taxes, Workers’ Compensation Insurance, and employer share of health insurance costs and retirement benefits), and indirect/overhead costs as per our Federally-approved Rate Agreement for Non-profit Organizations and Federally-approved indirect cost rate.

The annual amount available is subject to appropriation of resources in the annual budget approved by the Board of Supervisors.
SECTION VI: STANDARD PROVISIONS

A. ENTIRE AGREEMENT
This Agreement and its Appendices (if any) constitutes the final, complete and exclusive statement of the terms of the agreement between the parties. It incorporates and supersedes all the agreements, covenants and understandings between the parties concerning the subject matter hereof, and all such agreements, covenants and understandings have been merged into this Agreement. No prior or contemporaneous agreement or understanding, verbal or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Agreement.

B. AMENDMENTS
This agreement may only be amended by a written instrument signed by the parties.

C. CONFLICTS OF INTEREST
Contractor shall comply, and require its subcontractors to comply, with all applicable (i) requirements governing avoidance of impermissible client conflicts; and (ii) federal, state and local conflict of interest laws and regulations including, without limitation, California Government Code section 1090 et. seq., the California Political Reform Act (California Government Code section 87100 et. seq.) and the regulations of the Fair Political Practices Commission concerning disclosure and disqualification (2 California Code of Regulations section 18700 et. seq.). Failure to do so constitutes a material breach of this Agreement and is grounds for immediate termination of this Agreement by the County.

In accepting this Agreement, Contractor covenants that it presently has no interest, and will not acquire any interest, direct or indirect, financial or otherwise, which would conflict in any manner or degree with the performance of this Agreement. Contractor further covenants that, in the performance of this Agreement, it will not employ any contractor or person having such an interest. Contractor, including but not limited to contractor’s employees and subcontractors, may be subject to the disclosure and disqualification provisions of the California Political Reform Act of 1974 (the “Act”), that (1) requires such persons to disclose economic interests that may foreseeably be materially affected by the work performed under this Agreement, and (2) prohibits such persons from making or participating in making decisions that will foreseeably financially affect such interests.

If the disclosure provisions of the Political Reform Act are applicable to any individual providing service under this Agreement, Contractor shall, upon execution of this Agreement, provide the County with the names, description of individual duties to be performed, and email addresses of all individuals, including but not limited to Contractor’s employees, agents and subcontractors,
that could be substantively involved in “making a governmental decision” or “serving in a staff capacity and in that capacity participating in making governmental decisions or performing duties that would be performed by an individual in a designated position,” (2 CCR 18701(a)(2)), as part of Contractor’s service to the County under this Agreement. Contractor shall immediately notify the County of the names and email addresses of any additional individuals later assigned to provide such service to the County under this Agreement in such a capacity. Contractor shall immediately notify the County of the names of individuals working in such a capacity who, during the course of the Agreement, end their service to the County.

If the disclosure provisions of the Political Reform Act are applicable to any individual providing service under this Agreement, Contractor shall ensure that all such individuals identified pursuant to this section understand that they are subject to the Act and shall conform to all requirements of the Act and other laws and regulations listed in subsection (A) including, as required, filing of Statements of Economic Interests within 30 days of commencing service pursuant to this Agreement, annually by April 1, and within 30 days of their termination of service pursuant to this Agreement.

D. GOVERNING LAW, VENUE
This Agreement has been executed and delivered in, and shall be construed and enforced in accordance with, the laws of the State of California. Proper venue for legal action regarding this Agreement shall be in the County of Santa Clara.

E. ASSIGNMENT
No assignment of this Agreement or of the rights and obligations hereunder shall be valid without the prior written consent of the other party.

F. ASSIGNMENT OF CLAYTON ACT, CARTWRIGHT ACT CLAIMS
Contractor assigns to the County all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by the Contractor for sale to the County pursuant to this Agreement.

G. WAIVER
No delay or failure to require performance of any provision of this Agreement shall constitute a waiver of that provision as to that or any other instance. Any waiver granted by a party shall be in writing and shall apply to the specific instance expressly stated.

H. COMPLIANCE WITH ALL LAWS, INCLUDING NONDISCRIMINATION, EQUAL OPPORTUNITY, AND WAGE THEFT PREVENTION
(1) Compliance with All Laws. Contractor shall comply with all applicable Federal, State, and local laws, regulations, rules, and policies (collectively, “Laws”), including but not limited to the non-discrimination, equal opportunity, and wage and hour Laws referenced in the paragraphs below.

(2) Compliance with Non-Discrimination and Equal Opportunity Laws: Contractor shall comply with all applicable Laws concerning nondiscrimination and equal opportunity in employment and contracting, including but not limited to the following: Santa Clara County’s policies for contractors on nondiscrimination and equal opportunity; Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; the Age Discrimination in Employment Act of 1967; the Rehabilitation Act of 1973 (Sections 503 and 504); the Equal Pay Act of 1963; California Fair Employment and Housing Act (Gov. Code § 12900 et seq.); California Labor Code sections 1101, 1102, and 1197.5; and the Genetic Information Nondiscrimination Act of 2008. In addition to the foregoing, Contractor shall not discriminate against any subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political belief, organizational affiliation, or marital status in the recruitment, selection for training (including but not limited to apprenticeship), hiring, employment, assignment, promotion, layoff, rates of pay or other forms of compensation. Nor shall Contractor discriminate in the provision of services provided under this contract because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status.

(3) Compliance with Wage and Hour Laws: Contractor shall comply with all applicable wage and hour Laws, which may include but are not limited to, the Federal Fair Labor Standards Act, the California Labor Code, and, if applicable, any local minimum wage, prevailing wage, or living wage Laws.

(4) Definitions: For purposes of this Subsection H, the following definitions shall apply. A “Final Judgment” shall mean a judgment, decision, determination, or order (a) which is issued by a court of law, an investigatory government agency authorized by law to enforce an applicable Law, an arbiter, or arbitration panel and (b) for which all appeals have been exhausted or the time period to appeal has expired. For pay equity Laws, relevant investigatory government agencies include the federal Equal Employment Opportunity Commission, the California Division of Labor Standards Enforcement, and the California Department of Fair Employment and Housing. Violation of a pay equity Law shall mean unlawful discrimination in compensation on the basis of an individual’s sex, gender, gender identity, gender expression, sexual orientation, race, color, ethnicity, or national origin under Title VII of the Civil Rights Act of 1964 as amended, the Equal Pay Act of 1963, California Fair Employment and Housing Act, or
California Labor Code section 1197.5, as applicable. For wage and hour laws, relevant investigatory government agencies include the federal Department of Labor, the California Division of Labor Standards Enforcement, and the City of San Jose’s Office of Equality Assurance.

(5) Prior Judgments, Decisions or Orders against Contractor: By signing this Agreement, Contractor affirms that it has disclosed any final judgments that (A) were issued in the five years prior to executing this Agreement by a court, an investigatory government agency, arbiter, or arbitration panel and (B) found that Contractor violated an applicable wage and hour law or pay equity law. Contractor further affirms that it has satisfied and complied with – or has reached Agreement with the County regarding the manner in which it will satisfy any such final judgments.

(6) Violations of Wage and Hour Laws or Pay Equity Laws During Term of Contract: If at any time during the term of this Agreement, Contractor receives a Final Judgment rendered against it for violation of an applicable wage and hour Law or pay equity Law, then Contractor shall promptly satisfy and comply with any such Final Judgment. Contractor shall inform the Office of the County Executive-Office of Countywide Contracting Management (OCCM) of any relevant Final Judgment against it within 30 days of the Final Judgment becoming final or of learning of the Final Judgment, whichever is later. Contractor shall also provide any documentary evidence of compliance with the Final Judgment within 5 days of satisfying the Final Judgment. Any notice required by this paragraph shall be addressed to the Office of the County Executive-OCCM at 70 W. Hedding Street, East Wing, 11th Floor, San José, CA 95110. Notice provisions in this paragraph are separate from any other notice provisions in this Agreement and, accordingly, only notice provided to the Office of the County Executive-OCCM satisfies the notice requirements in this paragraph.

(7) Access to Records Concerning Compliance with Pay Equity Laws: In addition to and notwithstanding any other provision of this Agreement concerning access to Contractor’s records, Contractor shall permit the County and/or its authorized representatives to audit and review records related to compliance with applicable pay equity Laws. Upon the County’s request, Contractor shall provide the County with access to any and all facilities and records, including but not limited to financial and employee records, that are related to the purpose of this Subsection H, except where prohibited by federal or state laws, regulations or rules. County’s access to such records and facilities shall be permitted at any time during Contractor’s normal business hours upon no less than 10 business days’ advance notice.

(8) Pay Equity Notification: Contractor shall (1) at least once in the first year of this Agreement and annually thereafter, provide each of its employees working in California and each person applying to Contractor for a job in
California (collectively, “Employees and Job Applicants”) with an electronic or paper copy of all applicable pay equity Laws or (2) throughout the term of this Agreement, continuously post an electronic copy of all applicable pay equity Laws inconspicuous places accessible to all of Contractor’s Employees and Job Applicants.

(9) Material Breach: Failure to comply with any part of this Subsection H shall constitute a material breach of this Agreement. In the event of such a breach, the County, in its discretion, exercise any or all remedies available under this Agreement and at law. County may, among other things, take any or all of the following actions:
(i) Suspend or terminate any or all parts of this Agreement.
(ii) Withhold payment to Contractor until full satisfaction of a Final Judgment concerning violation of an applicable wage and hour Law or pay equity Law.
(iii) Offer Contractor an opportunity to cure the breach.

(10) Subcontractors: Contractor shall impose all of the requirements set forth in this Subsection H on any subcontractors permitted to perform work under this Agreement. This includes ensuring that any subcontractor receiving a Final Judgment for violation of an applicable Law promptly satisfies and complies with such Final Judgment.

I. TERMINATION
The County may, by written notice to Contractor, terminate all or part of this Agreement at any time for the convenience of the County. The notice shall specify the effective date and the scope of the termination. In the event of termination, Contractor shall deliver to County all documents prepared pursuant to the Agreement, whether complete or incomplete. Contractor may retain a copy for its records. Upon receipt of the documents, Contractor shall be compensated based on the completion of services provided, as solely and reasonably determined by County.

J. BUDGET CONTINGENCY
This Agreement is contingent upon the appropriation of sufficient funding by the County for the services covered by this Agreement. If funding is reduced or deleted by the County for the services covered by this Agreement, the County has the option to either terminate this Agreement with no liability occurring to the County or to offer an amendment to this Agreement indicating the reduced amount.

K. COUNTY NO-SMOKING POLICY
Contractor and its employees, agents and subcontractors, shall comply with the County’s No-Smoking Policy, as set forth in the Board of Supervisors Policy Manual section 3.47 (as amended from time to time), which prohibits smoking: (1) at the Santa Clara Valley Medical Center Campus and all County-owned and operated health facilities, (2) within 30 feet surrounding County-owned buildings
and leased buildings where the County is the sole occupant, and (3) in all County vehicles.

L. FOOD AND BEVERAGES STANDARDS
Except in the event of an emergency or medical necessity, the following nutritional standards shall apply to any foods and/or beverages purchased by Contractor with County funds for County-sponsored meetings or events.

If food is to be provided, healthier food options shall be offered. “Healthier food options” include (1) fruits, vegetables, whole grains, and low fat and low calorie foods; (2) minimally processed foods without added sugar and with low sodium; (3) foods prepared using healthy cooking techniques; and (4) foods with less than 0.5 grams of trans fat per serving. Whenever possible, Contractor shall (1) offer seasonal and local produce; (2) serve fruit instead of sugary, high calorie desserts; (3) attempt to accommodate special, dietary and cultural needs; and (4) post nutritional information and/or a list of ingredients for items served. If meals are to be provided, a vegetarian option shall be provided, and the Contractor should consider providing a vegan option.

If pre-packaged snack foods are provided, the items shall contain: (1) no more than 35% of calories from fat, unless the snack food items consist solely of nuts or seeds; (2) no more than 10% of calories from saturated fat; (3) zero trans-fat; (4) no more than 35% of total weight from sugar and caloric sweeteners, except for fruits and vegetables with no added sweeteners or fats; and (5) no more than 360 mg of sodium per serving.

If beverages are to be provided, beverages that meet the County’s nutritional criteria are (1) water with no caloric sweeteners; (2) unsweetened coffee or tea, provided that sugar and sugar substitutes may be provided as condiments; (3) unsweetened, unflavored, reduced fat (either nonfat or 1% low fat) dairy milk; (4) plant-derived milk (e.g., soy milk, rice milk, and almond milk) with no more than 130 calories per 8 ounce serving; (5) 100% fruit or vegetable juice (limited to a maximum of 8 ounces per container); and (6) other low-calorie beverages (including tea and/or diet soda) that do not exceed 40 calories per 8 ounce serving. Sugar-sweetened beverages shall not be provided.

M. CONTRACTING PRINCIPLES
All entities that contract with the County to provide services where the contract value is $100,000 or more per budget unit per fiscal year and/or as otherwise directed by the Board, shall be fiscally responsible entities and shall treat their employees fairly. To ensure compliance with these contracting principles, all contractors shall: (1) comply with all applicable federal, state and local rules, regulations and laws; (2) maintain financial records, and make those records available upon request; (3) provide to the County copies of any financial audits that have been completed during the term of the contract; (4) upon the County’s request, provide the County reasonable access, through representatives of the
Contractor, to facilities, financial and employee records that are related to the purpose of the contract, except where prohibited by federal or state laws, regulations or rules.

N. CALIFORNIA PUBLIC RECORDS ACT
The County is a public agency subject to the disclosure requirements of the California Public Records Act ("CPRA"). If Contractor’s proprietary information is contained in documents or information submitted to County, and Contractor claims that such information falls within one or more CPRA exemptions, Contractor must clearly mark such information “CONFIDENTIAL AND PROPRIETARY,” and identify the specific lines containing the information. In the event of a request for such information, the County will make best efforts to provide notice to Contractor prior to such disclosure. If Contractor contends that any documents are exempt from the CPRA and wishes to prevent disclosure, it is required to obtain a protective order, injunctive relief or other appropriate remedy from a court of law in Santa Clara County before the County is required to respond to the CPRA request. If Contractor fails to obtain such remedy within the time the County is required to respond to the CPRA request, County may disclose the requested information.

Contractor further agrees that it shall defend, indemnify and hold County harmless against any claim, action or litigation (including but not limited to all judgments, costs, fees, and attorney’s fees) that may result from denial by County of a CPRA request for information arising from any representation, or any action (or inaction), by the Contractor.

O. THIRD PARTY BENEFICIARIES
This agreement does not, and is not intended to, confer any rights or remedies upon any person or entity other than the parties.

P. INTELLECTUAL PROPERTY RIGHTS
Ownership: County shall own all right, title and interest in and to the Deliverables. For purposes of this Agreement, the term “Deliverables” shall mean any documentation and deliverables created by Contractor during the performance of services that are identified in this Agreement. Contractor hereby assigns to the County all rights, title and interest in and to any and all intellectual property whether or not patentable or registrable under patent, copyright, trademark or similar statutes, made or conceived or reduced to practice or learned by Contractor, either alone or jointly with others, during the period of Contractor’s agreement with the County or result from the use of premises leased, owned or contracted for by the County.

Contractor acknowledges that all original works of authorship which are made by Contractor (either solely or jointly with others) within the scope of this Agreement and which are protectable by copyright are “works made for hire,” as that term is defined in the United States Copyright Act (17 U.S.C. Section 101),
and shall belong solely to County. Contractor agrees that the County will be the copyright owner in all copyrightable works of every kind and description created or delivered by Contractor, either solely or jointly with others, in connection with any agreement with the County.

Q. INTELLECTUAL PROPERTY INDEMNITY
Contractor represents and warrants for the benefit of the County and its users that, to its knowledge, as of the effective date of this Agreement, Contractor is the exclusive owner of all rights, title and interest in the Deliverables and/or services provided pursuant to this Agreement. Contractor shall defend, indemnify and hold the County harmless against any claim, action or litigation (including but not limited to all judgments, costs, fees, and reasonable attorney’s fees) by a third party alleging the Deliverables and/or services provided pursuant to this Agreement infringe upon any intellectual property rights of third parties. This indemnity and duty to defend is in addition to and does not supersede the requirements stated in VII of this agreement.

R. OWNERSHIP RIGHTS TO MATERIALS/RESTRICTIONS ON USE
All materials obtained, developed or prepared by Contractor in the course of performing services hereunder, including but not limited to videotapes, audio recordings, still photographs, ads or brochures, and the derivative works, patent, copyright, trademark, trade secret or other proprietary rights associated therewith (collectively “Deliverables”), shall be the sole and exclusive property of the County. To the extent Contractor owns or claims ownership rights to said Deliverables, Contractor hereby expressly assigns all said rights, title, and interest in and to the Deliverables to the County pursuant to the terms and conditions of this Agreement and at no additional cost. The County has the exclusive royalty-free irrevocable right to duplicate, publish or otherwise use for any purpose, all materials prepared under this Agreement. If Contractor wishes to use the materials prepared hereunder for any purpose including but not limited to promotional, educational or commercial purposes, the Contractor shall obtain prior written authorization from the County, which consent may be withheld by the County in its sole discretion. Contractor acknowledges that all original works of authorship which are made by Contractor (solely or jointly with others) within the scope of this Agreement and which are protectable by copyright are “works made for hire,” as that term is defined in the United States Copyright Act (17 U.S.C., Section 101), and shall belong solely to County. Contractor agrees that the County will be the copyright owner in all copyrightable works of every kind and description created or developed by Contractor, solely or jointly with others, in connection with any agreement with the County. If requested to, and at no further expense to the County, Contractor will execute in writing any acknowledgments or assignments of copyright ownership of such copyrightable works as may be appropriate for preservation of the worldwide ownership in the County and its nominees of such copyrights. This section shall apply to the extent not otherwise provided under this agreement.
S. COUNTY DATA

(1) Definitions: “County Data” shall mean data and information received by Contractor from County. County Data includes any information or data that is transported across a County network, or that resides in a County-owned information system, or on a network or system under the control and management of a contractor for use by County. “County Confidential Information” shall include all material, non-public information (including material, non-public County Data) appearing in any form (including, without limitation, written, oral or displayed), that is disclosed, directly or indirectly, through any means of communication by County, its agents or employees, to Contractor, its agents or employees, or any of its affiliates or representatives.

(2) Contractor shall not acquire any ownership interest in County Data (including County Confidential Information). As between Contractor and County, all County Confidential Information and/or County Data shall remain the property of the County. Contractor shall not, without County’s written permission, use or disclose County Data (including County Confidential Information) other than in the performance of its obligations under this Agreement.

(3) Contractor shall be responsible for establishing and maintaining an information security program that is designed to ensure the security and confidentiality of County Data, protect against any anticipated threats or hazards to the security or integrity of County Data, and protect against unauthorized access to or use of County Data that could result in substantial harm or inconvenience to County or any end users. Upon termination or expiration of this Agreement, Contractor shall seek and follow County’s direction regarding the proper disposition of County Data.

(4) Contractor shall take appropriate action to address any incident of unauthorized access to County Data, including addressing and/or remedying the issue that resulted in such unauthorized access, and notifying County by phone or in writing within 24 hours of any incident of unauthorized access to County Data, or any other breach in Contractor’s security that materially affects County or end users. If the initial notification is by phone, Contractor shall provide a written notice within 5 days of the incident. Contractor shall be responsible for ensuring compliance by its officers, employees, agents, and subcontractors with the confidentiality, privacy, and information security requirements of this Agreement. Should County Confidential Information and/or legally protected County Data be divulged to unauthorized third parties, Contractor shall comply with all applicable federal and state laws and regulations, including but not limited to California Civil Code sections 1798.29 and 1798.82 at Contractor’s sole expense. Contractor shall not charge County for any expenses associated with Contractor’s compliance with these obligations.

(5) Contractor shall defend, indemnify and hold County harmless against any claim, liability, loss, injury or damage arising out of, or in connection with, the
Unauthorized use, access, and/or disclosure of information by Contractor and/or its agents, employees or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the County.

T. PAYMENT TERM [NOT APPLICABLE TO COMMUNITY BASED ORGANIZATIONS – Describe payment terms for CBO’s in Section V. (D) PAYMENT SCHEDULE]
The parties agree that the payment term shall be the term selected below and payment shall be due in accordance with the selected payment term. For example, if Contractor selects 2.25% 10 Net 45 as the payment term, payment shall be due 10 days from the date the County approves the invoice, instead of 45 days, and the County shall take a discount of 2.25% of the total amount of the invoice. Payment is deemed to have been made on the date the County mails the warrant or initiates the electronic fund transfer.

- 2.25% 10 Net 45 (provides 35 days of cash acceleration)
- 2.00% 15 Net 45 (provides 30 days of cash acceleration)
- 1.75% 20 Net 45 (provides 25 days of cash acceleration)
- 1.33% 25 Net 45 (provides 20 days of cash acceleration)
- 1.00% 30 Net 45 (provides 15 days of cash acceleration)

Note: Payment term will default to “Net 45 (full payment)”, if no other term was selected.

Notwithstanding the option selected above, the parties agree that at any time during the contract term, either party may initiate an early payment discount on an invoice-by-invoice basis utilizing the Dynamic Discounting functionality of the Ariba Network. Contractor must have a registered account on the Ariba Network to utilize this functionality.

U. CONTRACT EXECUTION
Unless otherwise prohibited by law or County policy, the parties agree that an electronic copy of a signed contract, or an electronically signed contract, has the same force and legal effect as a contract executed with an original ink signature. The term “electronic copy of a signed contract” refers to a transmission by facsimile, electronic mail, or other electronic means of a copy of an original signed contract in a portable document format. The term “electronically signed contract” means a contract that is executed by applying an electronic signature using technology approved by the County.

V. LIVING WAGE (IF APPLICABLE)
Unless otherwise exempted or prohibited by law or County policy, where applicable, Contractors that contract with the County to provide Direct Services developed pursuant to a formal Request for Proposals process, as defined in County of Santa Clara Ordinance Code Division B36 (“Division B36”) and Board Policy section 5.5.5.5 (“Living Wage Policy”), and their subcontractors, where the contract value is $100,000 or more (“Direct Services Contract”), must
comply with Division B36 and the Living Wage Policy and compensate their employees in accordance with Division B36 and the Living Wage Policy. Compliance and compensation for purposes of this provision includes, but is not limited to, components relating to fair compensation, earned sick leave, paid jury duty, fair workweek, worker retention, fair chance hiring, targeted hiring, local hiring, protection from retaliation, and labor peace. If Contractor and/or a subcontractor violates this provision, the Board of Supervisors or its designee may, at its sole discretion, take responsive actions including, but not limited to, the following:
(a) Suspend, modify, or terminate the Direct Services Contract.
(b) Require the Contractor and/or Subcontractor to comply with an appropriate remediation plan developed by the County.
(c) Waive all or part of Division B36 or the Living Wage Policy.

This provision shall not be construed to limit an employee's rights to bring any legal action for violation of the employee's rights under Division B36 or any other applicable law. Further, this provision does not confer any rights upon any person or entity other than the Board of Supervisors or its designee to bring any action seeking the cancellation or suspension of a County contract. By entering into this contract, Contractor certifies that it is currently complying with Division B36 and the Living Wage Policy with respect to applicable contracts and warrants that it will continue to comply with Division B36 and the Living Wage Policy with respect to applicable contracts.
DATE: April 7, 2020

TO: Board of Supervisors

FROM: Jeffrey F. Rosen, District Attorney

SUBJECT: Insurance Fraud Grants Supplemental Funding

RECOMMENDED ACTION

Approve Request for Appropriation Modification No. 166 - $38,753 increasing revenue and expenditures in the Office of the District Attorney budget, relating to insurance fraud program grant agreements. (4/5 Vote)

FISCAL IMPLICATIONS

The recommended action has no effect on the General Fund. Additional grant revenues of $38,753 are being recognized, and additional Object 2 and 4 expenditures are recommended to further the program services authorized by the grant.

CONTRACT HISTORY

The Office has entered into grant agreements with CDI since 1992, associated with funding from four different grant programs. This action affects two of those: Organized Automobile Fraud Activity Interdiction (Urban) and Workers’ Compensation Insurance Fraud (Workers’ Comp).

REASONS FOR RECOMMENDATION

The California Department of Insurance (CDI) has identified funds available from the FY 2018-2019 fund balance in the two affected grant funds, and is distributing those funds to participating counties. Santa Clara County’s distribution includes $17,299 for the Urban grant and $21,454 for the Workers’ Comp grant.

These funds can be used for equipment, vehicle maintenance costs, and investigative costs related to these two grants.

CDI requires amended resolutions to allow the District Attorney, as the chief executive of the implementing agency, to sign the amended grant agreements. For this reason, new resolutions reflecting the amended dollar amounts of the grants are provided in linked legislative files for the Board’s approval.

CHILD IMPACT
The recommended action will have no/neutral impact on children.

**SENIOR IMPACT**
The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**
The recommended action will have no/neutral sustainability implications.

**CONSEQUENCES OF NEGATIVE ACTION**
The District Attorney’s Office will be unable to accept the additional grant funds provided by the CDI.

**STEPS FOLLOWING APPROVAL**
The Clerk of the Board will notify Peter Jensen when the necessary documentation is complete.

RESOLUTION NO. __________________

RESOLUTION OF THE
BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA
DELEGATING AUTHORITY TO THE DISTRICT ATTORNEY, OR
DESIGNEE, TO NEGOTIATE, EXECUTE, AMEND, OR TERMINATE
THE ORGANIZED AUTOMOBILE FRAUD ACTIVITY INTERDICTION
PROGRAM FOR FY 2019-20

WHEREAS, The County of Santa Clara Board of Supervisors desires to undertake a certain project designated Organized Automobile Fraud Activity Interdiction Program to be funded from funds made available through the California Department of Insurance (CDI); and

WHEREAS, CDI has allocated an additional $17,299 to the County of Santa Clara for the Fiscal Year 2019-20 for the Organized Automobile Fraud Activity Interdiction Program; and,

WHEREAS, the funds received from CDI will be used to support the staffing of the District Attorney’s Insurance Fraud Unit.

NOW, THEREFORE BE IT RESOLVED, that the Board of Supervisors of the County of Santa Clara delegates authority to the District Attorney or designee to enter an amendment to the Organized Automobile Fraud Activity Interdiction Program Grant Agreement for FY 2019-20 with CDI to provide investigation and prosecution services for the period from July 1, 2019 through June 30, 2020, to reflect a revised amount not to exceed $1,493,712, following approval by County Counsel as to form and legality. The delegation of authority shall expire on June 30, 2020;

BE IT FURTHER RESOLVED, that the Board of Supervisors understands that any liability arising out of the performance of the applicable Grant Award Agreement, including civil court actions for damages, shall be the responsibility of the grant recipient and understands that the State of California and the California Department of Insurance disclaim responsibility for any such liability; and

//
//
//
//
//
BE IT FURTHER RESOLVED, that grant funds received hereunder must not be used to supplant expenditures controlled by this body.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on ________________ by the following vote:

Board of Supervisors

Signed and certified that a copy of this document has been delivered by electronic or other means to the President, Board of Supervisors.

MEGAN DOYLE
Clerk of the Board of Supervisors

APPROVED AS TO FORM AND LEGALITY:

LESLEY PAK
Deputy County Counsel
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Alan Minato, Director, Finance Agency
SUBJECT: Gavilan Joint Community College District 2019-20 Series B Tax and Revenue Anticipation Notes

RECOMMENDED ACTION
Adopt Resolution providing for the issuance and sale of the Gavilan Joint Community College District 2019-2020 Series B Tax and Revenue Anticipation Notes (TRANs) in an amount not to exceed $4,500,000.

FISCAL IMPLICATIONS
There is no fiscal impact to the County of Santa Clara (the “County”). The County incurs no financial liability from this financing, and neither the faith and credit nor the taxing power of the County is pledged in any way in connection with the TRANs financing.

REASONS FOR RECOMMENDATION
The proceeds from this issue will be used by the Gavilan Joint Community College District (the “District”) to meet its cash flow requirements for Fiscal Year 2019-20. The TRANs are obligations of the District. Funds, when collected, will be placed in separate repayment accounts.

A copy of the District resolution and related documents are on file with the Finance Agency.

CHILD IMPACT
The recommended action will have no/neutral impact on children.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.
BACKGROUND

Under State law, the County Board of Supervisors is the appropriate entity to approve individual school district TRANs issuances. The approval of this resolution also approves the attached form of Note Purchase Contract. The proceeds of the issuance will be deposited into the County Treasury until expended. The County will issue the TRANs on behalf of the District and the Finance Agency will assist the District with the financing. The County acts as the paying agent for this issue and makes the appropriate pledges and payments.

The TRANs are being purchased by BBVA Mortgage Corporation, an Alabama corporation, and the County resolution approves the form of purchase contract for the TRANs and authorizes the Director of Finance to execute the contract.

CONSEQUENCES OF NEGATIVE ACTION

The issuance of the TRANs for the District will be delayed.

STEPS FOLLOWING APPROVAL

One copy of the approved resolution from MinuteTraq to: Stradling Yocca Carlson & Rauth, 44 Montgomery Street, Suite 4200, San Francisco, CA 94104 c/o Kimberly N. Westberry

RESOLUTION NO. 1050

RESOLUTION OF THE BOARD OF TRUSTEES OF THE GAVILAN JOINT COMMUNITY COLLEGE DISTRICT AUTHORIZING THE ISSUANCE OF 2019-20 SERIES B TAX AND REVENUE ANTICIPATION NOTES

WHEREAS, pursuant to Government Code Sections 53850 et seq. (the “Act”) contained in Article 7.6 thereof, entitled “Temporary Borrowing” on or after the first day of any fiscal year (being July 1), a community college district may borrow money by issuing notes for any purpose for which the community college district is authorized to use and expend moneys, including but not limited to, current expenses, capital expenditures, investment and reinvestment, and the discharge of any obligation or indebtedness of the community college district; and

WHEREAS, Section 53853 of the Act provides that for a community college district that has been accorded fiscal accountability status pursuant to Section 42650 of the Education Code, such notes shall be issued pursuant to a resolution adopted by the legislative body of such community college district; and

WHEREAS, the Gavilan Joint Community College District (the “District”) currently holds such fiscal accountability status; and

WHEREAS, the California School Cash Reserve Program Authority (the “Authority”) issued $82,195,000 of its 2019-2020 Bonds, Series B (“Series B Bonds”) pursuant to an Original Indenture, dated as of July 1, 2019, as supplemented by a First Supplemental Indenture, dated as of July 1, 2019, each by and between the Authority and U.S. Bank National Association, as trustee proceeds of the Series purchased a certain 2019-20 Tax and Revenue Anticipation Notes (the “July 2019 Notes”) from the District in the amount of $5,980,000; and

WHEREAS, the District has pledged as security for the payment of the principal of and interest on the July 2019 Notes an amount equal to (i) fifty percent (50%) of the principal of the July 2019 Notes from the first Unrestricted Revenues (defined herein) received by the District in the month ending January, 2020 and (ii) fifty percent (50%) of the principal of and interest due on the July 2019 Notes from the first Unrestricted Revenues (defined herein) received by the District in the month ending April, 2020; and

WHEREAS, the Board of Trustees (the “Board”) desires to authorize the borrowing of not-to-exceed Four Million Five Hundred Thousand Dollars ($4,500,000), at an interest rate not to exceed the maximum rate allowed by law, through the issuance of the District’s 2019-20 Tax and Revenue Anticipation Notes, Series B (the “Notes”); and

WHEREAS, such Notes may be made payable no later than thirteen months after the date of delivery thereof; and

WHEREAS, pursuant to Section 53856 of the Act, the District may pledge to the payment of the Notes any taxes, income, revenue (including but not limited to, revenue from State and federal governments), cash receipts or other moneys of the District, including moneys deposited in inactive or term deposits (but excepting moneys encumbered for a special purpose); and this Resolution specifies that certain of such revenues which will be received by the District for the General Fund thereof shall be pledged for the payment of the Notes; and
WHEREAS, the Notes shall be a general obligation of the District, and, to the extent not paid from the Unrestricted Revenues (defined herein) pledged for the payment thereof, shall be paid with interest thereon from any other moneys of the District lawfully available therefor, as required by Section 53857 of the Act, and shall not in any way be payable from County moneys; and

WHEREAS, the Notes shall be in denominations of $5,000 principal amount, or integral multiples thereof as permitted by Section 53854 of the Act; and the Note shall further be issued on a date to be designated pursuant to the Note Purchase Contract (as defined herein), and shall be in the form and executed in the manner prescribed in this Resolution, all as permitted and required by Section 53853 of the Act; and

WHEREAS, the Board has found and determined that said $4,500,000 maximum principal amount of Notes to be issued by the District in fiscal year 2019-20, when added to the interest payable thereon and the principal and interest payable on the July 2019 Notes does not exceed eighty-five percent (85%) of the estimated amount of the uncollected taxes, income, revenue (including but not limited to revenue from state and federal governments), cash receipts and other moneys of the District which will be available for Fiscal Year 2019-20, as required by Section 53858 of the Act; and

NOW, THEREFORE, THE BOARD OF TRUSTEES OF THE GAVILAN JOINT COMMUNITY COLLEGE DISTRICT HEREBY FINDS AND RESOLVES AS FOLLOWS:

Section 1. Authorization of Issuance of Notes; Terms Thereof; Paying Agent. The Board authorizes the issuance of an amount not-to-exceed $4,500,000 principal amount of Notes under Sections 53850 et seq. of the Act, designated “Gavilan Joint Community College District, Santa Clara County, State of California, 2019-20 Tax and Revenue Anticipation Notes, Series B.” The Notes shall be issued in one or more series of federally taxable or tax-exempt Notes, with appropriate series designation, numbered from 1 consecutively upward in order of issuance, and in the denominations of $5,000 principal amount or integral multiples thereof (or such other integral multiple as may be provided in the Note Purchase Contract). The Notes shall be dated the date of delivery thereof; shall mature (with or without option of prior redemption, as set forth in the Note Purchase Contract defined herein) on a day (or days, if more than one series of Notes is issued) in which banks in New York or California are open for business and no later than thirteen months after the date of issuance; and shall bear interest, payable monthly and computed on a 30-day month/360-day year basis, at the per annum rate or rates set forth in the Note Purchase Contract relating for the Notes (the “Note Purchase Contract”), between the District and Compass Bank d/b/a BBVA Compass (the “Purchaser”) but not in excess of the maximum interest rate allowed by law; except, however, the interest rate shall be at a rate of 5% over the stated rate in the Note Purchase Contract, for periods when interest payments are not received within 10 days of their due dates.

The principal amount of the Notes issued pursuant hereto, when added to the interest payable thereon, shall not exceed eighty-five percent (85%) of the estimated amount of uncollected taxes, income, revenue, cash receipts and other moneys of the District which will be available for the payment of the July 2019 Notes and the Notes, and interest thereon.

Both the principal of and interest on the Notes shall be payable, only upon surrender thereof, in lawful money of the United States of America to the Registered Owner of the Note as named on the Registrar maintained by U.S. Bank National Association, acting as paying agent and registrar for the
Notes (the “Paying Agent”). For purposes of the Notes, the Paying Agent shall be deemed to be a “fiscal agent” within the meaning of Government Code Section 53601. This Board hereby approves the payment of the reasonable fees and expenses of the Paying Agent as they shall become due and payable.

Section 2. Form of Notes. The Notes shall be issued in registered form, without coupons, and shall be substantially in the form and substance set forth in Exhibit A attached hereto and by reference incorporated herein, the blanks in said form to be filled in with appropriate words and figures. The Notes shall be initially registered in the name of the Purchaser, and shall be evidenced by one or more note certificates, in the full principal amount of the Notes. Registered ownership may not thereafter be transferred except as set forth herein. There shall be attached to each Note, the legal opinion of Stradling Yocca Carlson & Rauth, a Professional Corporation, respecting the validity of said Notes.

Section 3. Transfer and Exchange of Notes. The registration of any Note may, in accordance with its terms, be transferred, upon the registration books kept by the Paying Agent for such purpose, by the person in whose name it is registered, in person or by a duly authorized attorney, upon surrender of such Note for cancellation, accompanied by delivery of a written instrument of transfer, duly executed in a form approved by the Paying Agent.

Whenever any Note or Notes shall be surrendered for registration or transfer, the Paying Agent shall execute and deliver a new Note or Notes, for a like aggregate principal amount. The Paying Agent shall require the Owner (as defined herein) of the Notes requesting such registration of transfer to pay any tax or other governmental charge required to be paid with respect to such transfer. The District may require the Owner requesting such registration of transfer to pay such additional reasonable charge as may be necessary to cover customary expenses incurred and fees charged by the Paying Agent with respect to such registration of transfer.

Notes may be exchanged at the principal office of the Paying Agent for a like aggregate principal amount of Notes in other authorized denominations. The Paying Agent shall require the payment by the Note Owner requesting such exchange of any tax or other governmental charge required to be paid with respect to such exchange. The District may require the Owner requesting such exchange to pay such additional reasonable charge as may be necessary to cover customary expenses incurred and fees charged by the Paying Agent or the District with respect to such exchange.

Notwithstanding anything herein to contrary, the Notes may only be transferred in Authorized Denominations and must be in compliance with the securities laws of the United States of America; and to (i) an affiliate of the Registered Owner, (ii) a trust or other custodial arrangement established by the Registered Owner or one of its affiliates, the owners of the beneficial interests in which are limited to “qualified institutional buyers” as defined in Rule 144A promulgated under the Securities Act of 1933, as amended, or (iii) a Person that is a qualified institutional buyer and a commercial bank having capital and surplus, determined as of the date of any transfer, of $5,000,000,000 or more. The persons and entities identified in clauses (i) and (ii) of the foregoing sentence shall be referred to as the “Eligible Transferee(s).” Notwithstanding the foregoing, if the principal amount of the outstanding Notes is less than $250,000, the Notes may not be transferred to any Eligible Transferee without the prior written consent of the District.

Section 4. Deposit of Note Proceeds; No Arbitrage. The moneys so borrowed shall be deposited in the General Fund of the District. The District hereby covenants that it will make no use of the proceeds of the Notes that would cause the Notes to be “arbitrage bonds” under Section 148 of the Code; and, to that end, so long as any of the Notes are outstanding, the District, and all of its officers
Section 5. Payment of Notes.

(A) Source of Payment. The principal amount of the Notes, together with the interest thereon, shall be payable from taxes, income, revenue (including but not limited to revenue from state and federal governments), cash receipts and other moneys including moneys deposited in inactive or term deposits (but excepting certain moneys encumbered for a special purpose), as provided in Section 53856 of the Act, and which are generally available for the payment of current expenses and other obligations of the District (collectively, the “Unrestricted Revenues”).

To the extent the Notes mature during the fiscal year succeeding fiscal year 2019-20, the Notes shall be payable only from Unrestricted Revenues which are received in or accrued to fiscal year 2019-20, and such accrued revenues are hereby determined to be accrued to the District’s 2019-20 fiscal year, and are further determined to be lawfully available to pay the principal of and interest on the Notes.

The Notes shall be a general obligation of the District, and to the extent the Notes are not paid from the Unrestricted Revenues pledged to the repayment thereof described herein, the Notes shall be paid with interest thereon from any other moneys of the District lawfully available therefor, as provided herein and by law.

(B) Pledged Revenues. As security for the payment of the principal of and interest on the Notes, the District hereby pledges such Unrestricted Revenues as may be identified in the Purchase Contract (such pledged amounts being hereinafter called the “Pledged Revenues”). The Pledged Revenues shall be deposited by the District into the Repayment Fund (defined herein) on the date or dates specified in the Note Purchase Contract.

The principal of the Notes and the interest thereon shall be a first lien and charge against and shall be payable from the first moneys received by the District from such Pledged Revenues, as provided by law.

In the event that there are insufficient Unrestricted Revenues received by the District to permit the deposit into the Repayment Fund, of the full amount of Pledged Revenues to be deposited from such Unrestricted Revenues, then the amount of any deficiency shall be satisfied and made up from any other moneys of the District lawfully available for repayment of the Notes and the interest thereon.

(C) Covenant Regarding Additional Short-term Borrowing. The District hereby covenants and warrants that, while provision for the payment of principal and interest on the Notes has not been made, the District will not request the County Treasurer-Tax Collector (the “Treasurer”) to make temporary transfers of funds in the custody of the Treasurer to meet any obligations of the District during the 2019-20 fiscal year pursuant to the authority of Article XVI, Section 6 of the Constitution of the State of California or any other legal authority.

(D) Deposit of Pledged Revenues in Repayment Fund. The Pledged Revenues shall be held in a special fund hereby authorized to be created for the District and held by the County and designated as the “Gavilan Joint Community College District, 2019-20 Tax and Revenue Anticipation Packet Pg. 1045

Attachment: District Resolution (100890 : Gavilan Joint Community College District 2019-20 Series B Tax and Revenue Anticipation Notes)
Notes Series B Repayment Fund” (herein called the “Repayment Fund”), and such Pledged Revenues shall be applied as directed in this Resolution. The Treasurer shall direct the moneys in the Repayment Fund to be invested as provided in Section 4(E) below. Any moneys accounted for in the Repayment Fund shall be for the benefit of the owners of the Notes, and until the Notes and all interest thereon are paid or until provision has been made for the payment of the Notes at maturity with interest to maturity, the moneys in the Repayment Fund shall be applied only for the purposes for which the Repayment Fund is created. xxx

(E) Disbursement and Investment of Moneys in Repayment Fund. From the date this Resolution takes effect, all Pledged Revenues shall, when received, be accounted for in the Repayment Fund. After such date as the amount of Pledged Revenues accounted for in the Repayment Fund shall be sufficient to pay in full the principal of and interest on the Notes, when due, any moneys in excess of such amount remaining in or accruing to the Repayment Fund shall be transferred to the general fund of the District upon the request of the District. On the maturity date of the Notes, the moneys in the Repayment Fund shall be used, to the extent necessary, to pay the principal of and interest on the Notes.

Moneys accounted for in the Repayment Fund shall be invested by the County in any one or more investments generally permitted for investment by community college districts under the laws of the State of California, consistent with the investment policy of the County and this Resolution; provided, however, that no such investments shall have a maturity date later than the maturity date of the Notes.

Section 6. Execution of Notes. The Notes shall be signed by the President of this Board, or other members of this Board authorized to sign on behalf of the President, by manual or by facsimile signature, and countersigned by the Clerk of or Secretary to this Board, or the designee thereof, by manual or facsimile signature, and said officers are authorized to cause the blank spaces thereof to be filled in as may be appropriate. The District also authorizes the Paying Agent to manually authenticate the Notes. No Note shall be valid or obligatory for any purpose or shall be entitled to any security or benefit hereunder unless and until the certificate of authentication printed on the Note is signed by the Paying Agent as authenticating agent. Authentication by the Paying Agent shall be conclusive evidence that the Note so authenticated has been duly issued, signed and delivered under this Resolution and is entitled to the security and benefit of this Resolution.

During any period that the Purchaser is the owner of the Notes, the Notes shall not be (i) assigned a rating by any credit rating agency, (ii) registered with The Depository Trust Company or any other securities depository, (iii) offered pursuant to any type of offering document or official statement or (iv) assigned a CUSIP number by Standard & Poor’s CUSIP Service.

Section 7. Approval of Note Purchase Contract. The Board hereby approves the sale of the Notes at a negotiated sale. The form of Note Purchase Contract for the Notes, by and between the District and the Purchaser, substantially in the form on file with the Secretary to the Board, is hereby approved. The Authorized Officers, each alone, are hereby authorized to execute and deliver the Note Purchase Contract, with such changes therein, deletions therefrom and modifications thereeto as the Authorized Officer executing the same shall approve, such approval to be conclusively evidenced by his or her execution and delivery thereof; provided, however, that the maximum interest rate on the Notes shall not exceed that authorized by law and that the Purchaser’s fee shall not exceed 0.5% of the par amount of the Notes. The Authorized Officers are hereby further authorized to determine the maximum principal amount of Notes to be specified in the Note Purchase Contract, up to $4,500,000 and to enter into and execute the Note Purchase Contract with the Purchaser, if the conditions set forth in this Resolution are satisfied.
Section 8. Delivery of Notes. All actions heretofore taken by the officers and agents of the Board, including the Authorized Officers or their designees, with respect to the Notes are hereby approved, confirmed and ratified, and the officers of the Board, including the Authorized Officers, are hereby authorized and directed to do any and all things and take any and all actions which they, or any of them, may deem necessary or advisable in order to consummate the lawful issuance and delivery of the Notes in accordance with this Resolution.

Section 9. Proceeds of Notes Conditionally Pledged; Investment of Note Proceeds. Notwithstanding anything to the contrary contained herein, the proceeds of the Notes shall, prior to their expenditure by the District, be pledged to the payment of the Notes in the event and to the extent sufficient Pledged Revenues of the District and other legally available revenues are not deposited into the Repayment Fund. Proceeds of the Notes shall be invested by the County in any one or more investments generally permitted for investment by community college under the laws of the State of California, consistent with the investment policy of the County and this Resolution.

Section 10. Temporary Notes. The Notes may be initially issued in temporary form exchangeable for definitive Notes when ready for delivery. The temporary Notes may be printed, lithographed or typewritten, shall be of such denominations as may be determined by the District, and may contain such reference to any of the provisions of this Resolution as may be appropriate. Every temporary Note shall be executed by the District upon the same conditions and in substantially the same manner as the definitive Notes. If the Paying Agent issues temporary Notes, the Paying shall execute and furnish definitive Notes without delay, and thereupon the temporary Notes shall be surrendered for cancellation, in exchange therefor at the principal office of the Paying Agent, and the Paying Agent shall deliver in exchange for such temporary Notes an equal aggregate principal amount of definitive Notes of authorized denominations. Until so exchanged, the temporary Notes shall be entitled to the same benefits pursuant to this Resolution as definitive Notes executed and delivered hereunder.

Section 11. Mutilated, Lost or Destroyed Notes. If any Note shall become mutilated, the Paying Agent, at the expense of the registered owner of said Note, shall execute and deliver a new Note of like maturity and principal amount in exchange and substitution for the Note so mutilated, but only upon surrender to the Paying Agent of the Note so mutilated. Every mutilated Note so surrendered to the Paying Agent shall be canceled by it and delivered to, or upon the order of, the District. If any Note shall be lost, destroyed or stolen, evidence of such loss, destruction or theft may be submitted to the Paying Agent and, if such evidence be satisfactory thereto and indemnity satisfactory to it shall be given, the Paying Agent, at the expense of the registered owner, shall execute and deliver a new Note of like maturity and principal amount in lieu of and in substitution for the Note so lost, destroyed or stolen. The Paying Agent may require payment of a sum not exceeding the actual cost of preparing each new Note issued under this Section 14 and of the expenses which may be incurred thereby. Any Note issued under the provisions of this Section 14 in lieu of any Note alleged to be lost, destroyed or stolen shall constitute an original additional contractual obligation on the part of the District whether or not the Note so alleged to be lost, destroyed or stolen be at any time enforceable by anyone, and shall be equally and proportionately entitled to the benefits of this Resolution with all other Notes issued pursuant to this Resolution.
Section 12. Further Actions Authorized.

(A) Stradling Yocca Carlson & Rauth, a Professional Corporation, is hereby designated as Bond Counsel to the District, Dale Scott & Company is hereby appointed as Financial Advisor to the District, in connection with the Notes.

(B) Officers of the Board and District officials and staff are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents, including a Placement Agent Agreement, which they may deem necessary or advisable in order to proceed with the issuance of the Notes and otherwise carry out, give effect to and comply with the terms and intent of this Resolution. Such actions heretofore taken by such officers, officials and staff are hereby ratified, confirmed and approved.

(C) The provisions of this resolution as they relate to the terms of the Notes may be amended by the Note Purchase Contract.
PASSED AND ADOPTED by the Board of Trustees of the Gavilan Joint Community College District this 10th day of March, 2020, by the following vote:

6 AYES: E. Diaz, M. Dover, I. Gonzalez, L. Perry, R. Perez, and J. Wallace

SECRETARY’S CERTIFICATE

I, Kathleen Rose, Secretary to the Board of Trustees of the Gavilan Joint Community College, hereby certify as follows:

The following is a full, true and correct copy of a resolution duly adopted at a regular meeting of the Board of Trustees of said District duly and legally held at the special meeting place thereof on March 10, 2020, of which meeting all of the members of the Board of Trustees of said District had due notice and at which a quorum was present.

I have carefully compared the same with the original minutes of said meeting on file and of record in the Superintendent’s office and the foregoing is a full, true and correct copy of the original regulation adopted at said meeting and entered in said minutes.

Said resolution has not been amended, modified or rescinded since the date of its adoption, and the same is now in full force and effect.

Dated: March __, 2020

By: _____________________________
   Secretary to the Board of Trustees
   Gavilan Joint Community College District
THIS NOTE HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933. THIS NOTE IS SUBJECT TO RESTRICTIONS ON TRANSFERABILITY AND MAY ONLY BE TRANSFERRED IN ACCORDANCE WITH THE PROVISIONS OF THE NOTE RESOLUTION AND THE NOTE PURCHASE AGREEMENT, AS DEFINED HEREIN.

EXHIBIT A
FORM OF NOTE

GAVILAN JOINT COMMUNITY COLLEGE DISTRICT
SANTA CLARA COUNTY, STATE OF CALIFORNIA
2019-20 TAX AND REVENUE ANTICIPATION NOTE, SERIES B

Rate of Interest: __________________
Note Date: __________, 2020
Maturity Date: __________, 2020
CUSIP: __________________

REGISTERED OWNER: COMPASS BANK

PRINCIPAL AMOUNT: _______________ DOLLARS

FOR VALUE RECEIVED, the Gavilan Joint Community College District (the “District”), Santa Clara County, State of California, acknowledges itself indebted to and promises to pay the Registered Owner identified above, or registered assigns, at the corporate trust office of the Paying Agent, the Principal Amount specified above in lawful money of the United States of America, on the Maturity Date specified above, together with interest thereon at the Rate of Interest per annum set forth above (computed on the basis of a 360-day year of twelve 30-day months), in like lawful money of the United States of America from the Note Date specified above until payment in full of said principal sum; provided, however, the Rate of Interest shall be adjusted to a rate of 5% over the specified Rate of Interest, for any period when interest payments are not received within 10 days of their due dates. Both the principal of and interest on this Note shall be payable only upon surrender of this Note as the same shall fall due; provided, however, no interest shall be payable for any period after maturity during which the Registered Owner fails to properly present this Note for payment.

It is hereby certified, recited and declared that this Note is one of an authorized issue of Notes in the aggregate principal amount of _______________ Dollars ($) all of like date, tenor and effect, made, executed and given pursuant to and by authority of a resolution of the Board of Trustees of the District duly passed and adopted on March 10, 2020, under and by authority of Government Code Article 7.6 (commencing with Section 53850) of Chapter 4, Part 1, Division 2, Title 5, and that all acts, conditions and things required to exist, happen and be performed precedent to and in the issuance of this Note have existed, happened and been performed in regular and due time, form and manner as required by law, and that this Note, together with all other indebtedness and obligations of the District, does not exceed any limit prescribed by the Constitution or statutes of the State of California.

The principal amount of the Notes, together with the interest thereon, shall be payable from taxes, income, revenue (including, but not limited to, revenue from state and federal governments), cash receipts and other moneys including moneys deposited in inactive or term deposits (but excepting certain moneys
encumbered for a special purpose), received in or accrued to fiscal year 2019-20, and which are generally available for the payment of current expenses and other obligations of the District (the “Unrestricted Revenues”). As security for the payment of the principal of and interest on the Notes, the District pledges all of the Unrestricted Revenues received in the month ending June 30, 2020 through the Maturity Date.

This Note is transferable by the Registered Owner hereof in person or by his or her attorney duly authorized in writing at the corporate trust office of the Paying Agent, in San Francisco, California, but only in the manner, subject to the limitations and upon payment of the charges provided in the Resolution, and upon surrender and cancellation of this Note except that this Note shall not be transferred or exchanged later than the 15th day prior to the maturity date hereof. Upon such transfer a new Note or Notes of authorized denominations and for the same aggregate principal amount will be issued to the transferees in exchange herefor.

Notwithstanding anything herein to contrary, this Note may only be transferred in Authorized Denominations and must be in compliance with the securities laws of the United States of America; and to (i) an affiliate of the Registered Owner, (ii) a trust or other custodial arrangement established by the Registered Owner or one of its affiliates, the owners of the beneficial interests in which are limited to “qualified institutional buyers” as defined in Rule 144A promulgated under the Securities Act of 1933, as amended, or (iii) a Person that is a qualified institutional buyer and a commercial bank having capital and surplus, determined as of the date of any transfer, of $5,000,000 or more. The persons and entities identified in clauses (i) and (ii) of the foregoing sentence shall be referred to as the “Eligible Transferee(s).” Notwithstanding the foregoing, if the principal amount of this Note is less than $250,000, this Note may not be transferred to any Eligible Transferee without the prior written consent of the District.

The District and the Paying Agent may deem and treat the Registered Owner hereof as the absolute owner hereof for the purpose of receiving payment of or on account of principal hereof and interest due hereon and for all other purposes, and neither the District nor the Paying Agent shall be affected by any notice to the contrary.

The District shall, furnish or cause to be furnished to the Registered Owner, at the District’s expense (i) the audited financial statements of the District within 210 days of the end of the District’s fiscal year (running from July 1 of each year through June 30 of the following year), (ii) the final annual operating budget of the District for each fiscal year within 30 days of the commencement of each fiscal year, and (iii) such other information respecting the District, the operations, affairs and financial condition of the District as the Registered Owner may from time to time reasonably request. Any audited financial statements furnished to the Registered Owner shall be prepared in accordance with generally accepted accounting principles, consistently applied, and shall fairly present the District’s financial condition as of the date of the statements. Initially, the District shall provide such documents directly to the Registered Owner. Such documents may be filed on the Electronic Municipal Market Access (“EMMA”) website maintained by the Municipal Securities Rulemaking Board and located at www.emma.msrb.org. Such documents may be contained in, or otherwise made part of, any other filings required to be made by the District to the EMMA website pursuant to Rule 15c2-12 promulgated under the Securities Exchange Act of 1934.

The District shall provide to the Registered Owner:

(a) immediate notice by telephone, promptly confirmed in writing, of any event, action or failure to take any action which constitutes a default under the Resolution, together with a detailed statement by an authorized representative of the steps being taken by the District to cure the effect of such default;
(b) prompt written notice of any action, suit or proceeding or any investigation, inquiry or similar proceeding by or before any court or other governmental authority, domestic or foreign, against the District or the Pledged Revenues which involve claims equal to or in excess of $250,000 or that seeks injunctive relief; and

(c) prompt written notice of any Material Litigation, Material Adverse Effect or any investigation, inquiry or similar proceeding by any Governmental Authority with respect to any matter that relates to or could materially impact Pledged Revenues.

For purposes of the preceding paragraph, the following definitions shall apply to the capitalized terms.

“Governmental Authority” means any governmental or quasi-governmental entity, including any court, department, commission, board, bureau, agency, administration, central bank, service, district or other instrumentality of any governmental entity or other entity exercising executive, legislative, judicial, taxing, regulatory, fiscal, monetary or administrative powers or functions of or pertaining to government, or any arbitrator, mediator or other person with authority to bind a party at law.

“Material Adverse Effect” means an event or occurrence which adversely affects in a material manner (a) the assets, liabilities, condition (financial or otherwise), business, facilities or operations of the District, (b) the ability of the District to carry out its business in the manner conducted as of the date of the Resolution or to meet or perform its obligations under the Resolution on a timely basis, or the (c) the validity or enforceability of the Resolution.

“Material Litigation” means any action, suit, proceeding, inquiry or investigation against the District in any court or before any arbitrator of any kind or before or by any Governmental Authority, of which the District has notice or knowledge and which, (i) if determined adversely to the District, may have a Material Adverse Effect, (ii) seeks to restrain or enjoin any of the transactions contemplated by the Resolution and the Note Purchase Contract, or (iii) may adversely affect (A) the exclusion of interest on the Notes from gross income for federal income tax purposes or the exemption of such interest for state income tax purposes or (B) the ability of the District to perform its obligations under the Resolution.

Until the District and the Paying Agent are otherwise notified in writing by the Registered Owner, all principal and interest payments with respect to this Note shall be made by wire transfer using the following wiring instructions:

RESOLUTION NO. __________

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA PROVIDING FOR THE ISSUANCE OF GAVILAN JOINT COMMUNITY COLLEGE DISTRICT, SANTA CLARA COUNTY, STATE OF CALIFORNIA, 2019-20 SERIES B TAX AND REVENUE ANTICIPATION NOTES IN AN AMOUNT NOT TO EXCEED $4,500,000

WHEREAS, pursuant to Section 53850 et seq. of the Government Code of the State of California (the "Act") contained in Article 7.6 thereof, entitled "Temporary Borrowing" that provides for temporary borrowing by certain local agencies, on or after the first day of any fiscal year (being July 1), a community college district may borrow money by issuing notes for any purpose for which the community college district is authorized to use and expend moneys, including but not limited to current expenses, capital expenditures, investment and reinvestment and the discharge of any obligation or indebtedness of the community college district; and

WHEREAS, Section 53853 of the Act requires that such notes must be issued in the name of the District by the board of supervisors of the County of Santa Clara (the "County"), the county superintendent of which has jurisdiction over the community college district, as soon as possible following the receipt of a resolution of the governing board of the community college district requesting the borrowing; and

WHEREAS, the California School Cash Reserve Program Authority (the "Authority") issued $82,195,000 of its 2019-2020 Bonds, Series B ("Series B Bonds") pursuant to an Original Indenture, dated as of July 1, 2019, as supplemented by a First Supplemental Indenture, dated as of July 1, 2019, each by and between the Authority and U.S. Bank National Association, as trustee. The proceeds of the Series B Bonds were used to purchase certain 2019-20 Tax and Revenue Anticipation Notes (the "July 2019 Notes") from the District in the amount of $5,980,000; and

WHEREAS, the District has pledged as security for the payment of the principal of and interest on the July 2019 Notes an amount equal to (i) fifty percent (50%) of the principal of the July 2019 Notes from the first Unrestricted Revenues (defined herein) received by the District in the month ending January, 2020 and (ii) fifty percent (50%) of the principal of and interest due on the July 2019 Notes from the first Unrestricted Revenues (defined herein) received by the District in the month ending April, 2020; and

WHEREAS, the County Superintendent of Santa Clara County Office of Education (the "County Superintendent") has jurisdiction over the Gavilan Joint Community College District (the "District"), and this Board of Supervisors of the County (the "County Board") has received a resolution of the Board of Trustees of the District (the "District Board"), being the governing board of the District, dated March 10, 2020, entitled "RESOLUTION OF THE BOARD OF TRUSTEES OF THE GAVILAN JOINT COMMUNITY COLLEGE DISTRICT AUTHORIZING THE ISSUANCE OF 2019-20 SERIES B TAX AND REVENUE ANTICIPATION NOTES FOR SAID DISTRICT AND REQUESTING THE BOARD OF SUPERVISORS OF SANTA CLARA COUNTY TO ISSUE SAID NOTES" (the "District Resolution") which District Resolution requests the borrowing of not exceeding Four Million Five Hundred Thousand Dollars ($4,500,000) at an interest rate not to exceed the maximum rate allowed by law, through the issuance by the County...
Board of 2019-20 Tax and Revenue Anticipation Notes, Series B (the “Notes”) in the name of the District; and

WHEREAS, such Notes are payable on such date that is not later than thirteen months after the date of issue, and such Notes shall be payable only from the District’s revenue received in or accrued to the fiscal year 2019-20 in which the Notes are to be issued; and

WHEREAS, pursuant to Section 53856 of the Act, the District may pledge any taxes, income, revenue, cash receipts or other moneys, including moneys deposited in inactive or term deposits (but excepting certain moneys encumbered for a special purpose); and the District Resolution specifies that certain unrestricted revenues that will be received by the District for the General Fund of the District during or allocable to fiscal year 2019-20 shall be pledged for the payment of the Notes; and

WHEREAS, the Notes shall be a general obligation of the District, and to the extent not paid from the taxes, income, revenue, cash receipts and other moneys of the District pledged for the payment thereof shall be paid with interest thereon from any other moneys of the District lawfully available therefor, as required by Section 53857 of the Act, and shall not in any way be payable from County moneys or assets; and

WHEREAS, the Notes shall be in denominations of $5,000 or integral multiples thereof, as permitted by Section 53854 of the Act; shall be issued on a date provided in the Contract of Purchase (hereinafter referred to) therefor, as permitted by Section 53853 of the Act; and shall be in the form and executed in the manner prescribed in the District Resolution and herein, as required by Section 53853 of the Act; and

WHEREAS, the District has found and determined that said $4,500,000 maximum principal amount of Notes to be issued by the County Board in fiscal year 2019-20, when added to the interest payable thereon and the principal and interest payable on the July 2019 Notes does not exceed eighty-five percent (85%) of the estimated amount of the uncollected taxes, income, revenue (including but not limited to revenue from state and federal governments), cash receipts and other moneys of the District which will be available for Fiscal Year 2019-20, as required by Section 53858 of the Act; and

WHEREAS, the District has determined that the Notes will not be outstanding after a period ending thirteen months after the date on which such Notes are issued, as will be set forth in the Contract of Purchase, and will not be issued in an amount greater than the maximum anticipated cumulative cash flow deficit to be financed by the anticipated tax or other revenue sources for the period for which such taxes or other revenues are anticipated and during which such Notes are outstanding, all as provided in Section 1.103-14(c) of the Income Tax Regulations of the United States Treasury;

NOW, THEREFORE, the Board of Supervisors of the County of Santa Clara, State of California hereby resolves as follows:

Section 1. Authorization of Issuance of Notes; Terms Thereof; Paying Agent. As required by law, the County Board hereby determines to and shall issue in the name of the District, an amount not-to-exceed $4,500,000 principal amount of Notes under Sections 53850 et seq. of the Act, designated “Gavilan Joint Community College District, Santa Clara County, State of California,
2019-20 Tax and Revenue Anticipation Notes, Series B” (the “Notes”). The Notes shall be issued in one or more series of federally taxable or tax-exempt Notes, with appropriate series designation, numbered from 1 consecutively upward in order of issuance, and in the denominations of $5,000 principal amount or integral multiples thereof (or such other integral multiple as may be provided in the Note Purchase Contract (defined herein)). The Notes shall be dated the date of delivery thereof; shall mature, with or without option of prior redemption, as set forth in the Note Purchase Contract (defined herein) on a day (or days, if more than one series of Notes is issued) in which banks in New York or California are open for business and no later than thirteen months after the date of issuance; and shall bear interest, payable monthly and computed on a 30-day month/360-day year basis, at the per annum rate or rates set forth in the Note Purchase Contract relating for the Notes (the “Note Purchase Contract”), between the District and BBVA Mortgage Corporation, an Alabama corporation (the “Purchaser”) but not in excess of the maximum interest rate allowed by law; except, however, the interest rate shall be at a rate of 5% over the stated rate in the Note Purchase Contract, for periods when interest payments are not received within 10 days of their due dates.

The principal amount of the Notes issued pursuant hereto, when added to the interest payable thereon, shall not exceed eighty-five percent (85%) of the estimated amount of uncollected taxes, income, revenue, cash receipts and other moneys of the District which will be available for the payment of the July 2019 Notes and the Notes, and interest thereon.

Both the principal of and interest on the Notes shall be payable, only upon surrender thereof, in lawful money of the United States of America at the office of the Director of Finance of the County (the “Director of Finance”), who is hereby designated to be the paying agent for the Notes (in such capacity, the “Paying Agent”). The Director of Finance is authorized to contract with any third party to perform the services of Paying Agent hereunder. For purposes of the Notes, the Paying Agent shall be deemed to be a “fiscal agent” within the meaning of Section 53601 of the Government Code of the State of California. This Board hereby approves the payment of the reasonable fees and expenses of the Paying Agent as they shall become due and payable.

Section 2. Form of Notes. The Notes shall be issued in registered form, without coupons, and shall be substantially in the form and substance set forth in Exhibit A attached hereto and by reference incorporated herein, the blanks in said form to be filled in with appropriate words and figures. The Notes shall be initially registered in the name of the Purchaser, and shall be evidenced by one or more note certificates, in the full principal amount of the Notes. Registered ownership may not thereafter be transferred except as set forth herein. There shall be attached to each Note, the legal opinion of Stradling Yocca Carlson & Rauth, a Professional Corporation, respecting the validity of said Notes.

Section 3. Transfer and Exchange of Notes. The registration of any Note may, in accordance with its terms, be transferred, upon the registration books kept by the Paying Agent for such purpose, by the person in whose name it is registered, in person or by a duly authorized attorney, upon surrender of such Note for cancellation, accompanied by delivery of a written instrument of transfer, duly executed in a form approved by the Paying Agent.

Whenever any Note or Notes shall be surrendered for registration or transfer, the Paying Agent shall execute and deliver a new Note or Notes, for a like aggregate principal amount. The Paying Agent shall require the Owner (as defined herein) of the Notes requesting such registration of transfer to pay any tax or other governmental charge required to be paid with respect to such transfer. The County may require the Owner requesting such registration of transfer to pay such additional
reasonable charge as may be necessary to cover customary expenses incurred and fees charged by the Paying Agent with respect to such registration of transfer.

Notes may be exchanged at the principal office of the Paying Agent for a like aggregate principal amount of Notes in other authorized denominations. The Paying Agent shall require the payment by the Note Owner requesting such exchange of any tax or other governmental charge required to be paid with respect to such exchange. The County may require the Owner requesting such exchange to pay such additional reasonable charge as may be necessary to cover customary expenses incurred and fees charged by the Paying Agent or the County with respect to such exchange.

Notwithstanding anything herein to contrary, the Notes may only be transferred in Authorized Denominations and must be in compliance with the securities laws of the United States of America; and to (i) an affiliate of the Registered Owner, (ii) a trust or other custodial arrangement established by the Registered Owner or one of its affiliates, the owners of the beneficial interests in which are limited to “qualified institutional buyers” as defined in Rule 144A promulgated under the Securities Act of 1933, as amended, or (iii) a Person that is a qualified institutional buyer and a commercial bank having capital and surplus, determined as of the date of any transfer, of $5,000,000,000 or more. The persons and entities identified in clauses (i) and (ii) of the foregoing sentence shall be referred to as the “Eligible Transferees.” Notwithstanding the foregoing, if the principal amount of the outstanding Notes is less than $250,000, the Notes may not be transferred to any Eligible Transferee without the prior written consent of the District.

Section 4. Deposit and Investment of Note Proceeds; No Arbitrage. The moneys so borrowed shall be deposited with the District into a segregated account within the General Fund of the District (the “Proceeds Fund”) and shall be pledged to the payment of the Notes to the extent sufficient Pledged Revenues (as defined below) and other legally available Revenues are not deposited into the Repayment Fund (as defined below). The District has covenanted that it will make no use of the proceeds of the Notes that would cause the Notes to be “arbitrage bonds” under Section 148 of the Code; and, to that end, so long as any of the Notes are outstanding, the District, and all of its officers having custody or control of such proceeds, shall comply with all requirements of said section, including restrictions on the use and investment of proceeds of the Notes and the rebate of a portion of investment earnings on certain amounts, including proceeds of the Notes, if required, to the Federal government, and of the Income Tax Regulations of the United States Treasury promulgated thereunder or under any predecessor provisions, to the extent that such regulations are, at the time, applicable and in effect, so that the Notes will not be “arbitrage bonds.”

Section 5. Payment of Notes.

(A) Source of Payment. The principal amount of the Notes, together with the interest thereon, shall be payable from taxes, income, revenue (including but not limited to revenue from state and federal governments), cash receipts and other moneys including moneys deposited in inactive or term deposits (but excepting certain moneys encumbered for a special purpose), as provided in Section 53856 of the Act, and which are generally available for the payment of current expenses and other obligations of the District (collectively, the “Unrestricted Revenues”).

To the extent the Notes mature during the fiscal year succeeding fiscal year 2019-20, the Notes shall be payable only from Unrestricted Revenues which are received in or accrued to fiscal year 2019-20, and such accrued revenues are hereby determined to be accrued to the District’s 2019-
20 fiscal year, and are further determined to be lawfully available to pay the principal of and interest on the Notes.

Notwithstanding anything to the contrary contained herein or in any document mentioned herein or related to the Notes, the County shall not have any monetary liability or any other liability hereunder or by reason hereof or in connection with the transactions contemplated hereby and the Notes shall be payable solely from the moneys of the District available therefor as set forth in this Section and in Section 4 of the District Resolution. Further, the County shall have no responsibility for or liability as a result of the use of the proceeds of the sale of the Notes.

(B) **Pledged Revenues.** Except as otherwise provided in the Notes or the Note Purchase Contract, as security for the payment of the principal of and interest on the Notes, the District hereby pledges such Unrestricted Revenues in an amount equal to one-third of the principal amount of the Notes from the unrestricted revenues received by the District in the month ending May 31, 2020; plus an amount equal to one-third of the principal amount of the Notes from the unrestricted revenues received by the District in the month ending June 30, 2020; plus an amount equal to one-third of the principal amount of the Notes from the unrestricted revenues received by the District in the month ending July 31, 2020; plus an amount sufficient to pay interest on the Notes through maturity and any deficiency in the amount required to be deposited during any prior month, from unrestricted revenues received by the District in the month ending July 31, 2020 (such pledged amounts being hereinafter called the "Pledged Revenues"). The Pledged Revenues shall be deposited by the District into the Repayment Fund (defined herein) on the date or dates specified in the Note Purchase Contract.

The principal of the Notes and the interest thereon shall be a first lien and charge against and shall be payable from the first moneys received by the District from such Pledged Revenues, as provided by law.

In the event that there are insufficient Unrestricted Revenues received by the District to permit the deposit into the Repayment Fund, of the full amount of Pledged Revenues to be deposited from such Unrestricted Revenues, then the amount of any deficiency shall be satisfied and made up from any other moneys of the District lawfully available for repayment of the Notes and the interest thereon.

(C) **Covenant Regarding Additional Short-term Borrowing.** The District has covenanted and warranted that it will not request the Director of Finance to make temporary transfers of funds in the custody of the Director of Finance to meet any obligations of the District during the 2019-20 fiscal year pursuant to the authority of Article XVI, Section 6 of the Constitution of the State of California or any other legal authority.

(D) **Deposit of Pledged Revenues.** The Pledged Revenues shall be held (in accordance with the District Resolution) in a special fund designated as the “Gavilan Joint Community College District, 2019-20 Tax and Revenue Anticipation Notes Series B Repayment Fund” (herein called the “Repayment Fund”) and applied as directed in this Resolution. Any moneys placed in the Repayment Fund shall be for the benefit of the holders of the Notes, and until the Notes and all interest thereon are paid or until provision has been made for the payment of the Notes at maturity with interest to maturity, the moneys in the Repayment Fund shall be applied only for the purposes for which the Repayment Fund is created.
(E) Disbursement and Investment of Moneys in Repayment Fund. From the date this Resolution takes effect, all Pledged Revenues shall, when received, be deposited with the County and accounted for in the Repayment Fund. After such date as the amount of Pledged Revenues deposited for in the Repayment Fund shall be sufficient to pay in full the principal of and interest on the Notes, when due, any moneys in excess of such amount remaining in or accruing to the Repayment Fund shall be transferred to the General Fund of the District upon the request of the District. On the maturity date of the Notes, the moneys in the Repayment Fund shall be used, to the extent necessary, to pay the principal of and interest on the Notes and any excess remaining in the Repayment Fund after payment of Notes shall be transferred to the District.

Moneys in the Repayment Fund shall be invested in accordance with the District Resolution, at the request of the District in investment securities or other investments permitted by applicable California law, as it is now in effect and as it may be amended, modified or supplemented from time to time, including investments authorized by Section 11 hereof; to the extent that moneys invested or held by the County are subject to arbitrage rebate, neither the County nor any officer or employee of the County shall assume hereunder or under the provisions of any rebate certificate any duty or obligation to make the actual calculations of arbitrage rebate liability of the District, or to pay any such rebate or any penalties in regard thereto if the District miscalculates or fails to pay or cause such rebate or such penalties to be paid.

Section 6. Execution of Notes. The President of the Board of Supervisors of the County of Santa Clara, or a designated deputy thereof, is hereby authorized to sign the Notes manually or by facsimile signature; the Director of Finance of the County is hereby authorized to sign the Notes manually or by facsimile signature and the Clerk of the County Board (the “Clerk”) is hereby authorized to countersign the Notes manually or by facsimile signature, provided that at least one of the foregoing shall sign manually, and said Clerk is hereby authorized to affix the seal of the County thereto by facsimile impression thereof, and said officers are hereby authorized to cause the blank spaces thereof to be filled in as may be appropriate.

During any period that the Purchaser is the owner of the Notes, the Notes shall not be (i) registered or otherwise qualified for sale under the “Blue Sky” laws, (ii) assigned a rating by any credit rating agency, (iii) registered with The Depository Trust Company or any other securities depository, (iv) offered pursuant to any type of offering document or official statement or (v) assigned a CUSIP number by Standard & Poor’s CUSIP Service.

Section 7. Approval of Contract of Purchase. The Notes shall be sold at negotiated sale. The form of Contract of Purchase for the Notes, by and among the County, the District and the Purchaser, substantially in the form on file with the Clerk of the Board, is hereby approved. The President or a designated deputy thereof and the Director of Finance of the County are hereby authorized to execute and deliver the Contract of Purchase, and the Vice President, Administrative Services, the Associate Vice President, Business & Security Services, or other Authorized Officers, or their designees, of the District are hereby requested to acknowledge such Contract of Purchase, if necessary, but with such changes therein, deletions therefrom and modifications thereto as the President (or designated County official) may approve, such approval to be conclusively evidenced by his or her execution and delivery thereof; provided, however, that the maximum interest rate on the Notes shall not exceed that authorized by law and that the Purchaser’s fee shall not exceed 0.5% of the par amount of the Notes. The President, an authorized deputy thereof, or the Director of Finance are hereby further authorized to determine the maximum principal amount of Notes to be specified in the Contract of Purchase, up to $4,500,000 and to enter into and execute the Contract of
Purchase with the Purchaser, if the conditions set forth in the District Resolution and this Resolution are satisfied.

Section 8. Delivery of Notes. The proper officers of the County Board are hereby authorized and directed to deliver the Notes to the Purchaser in accordance herewith and with the Contract of Purchase. All actions heretofore taken by the officers and agents of the County Board with respect to the sale and issuance of the Notes are hereby approved, confirmed and ratified, and the officers of the County Board are hereby authorized and directed, for and in the name and on behalf of the County Board, to do any and all things and take any and all actions and execute and deliver any and all certificates, agreements and other documents, which they, or any of them, may deem necessary or advisable in order to consummate the lawful issuance and delivery of the Notes in accordance with this Resolution.

Section 9. Further Actions Authorized. It is hereby covenanted that the County, and its appropriate officials, have duly taken all proceedings necessary to be taken by them, and will take any additional proceedings necessary to be taken by them, for the levy, collection and enforcement of the secured property taxes pledged under the District Resolution in accordance with the law and for carrying out the provisions of the District Resolution and of this Resolution.

Section 10. Authorization to Invest Moneys held by the County on Behalf of the District. All moneys held on behalf of the District by the County in the Proceeds Fund and Repayment Fund, if not invested, shall be held in time or demand deposits as public funds and shall be secured at all times by bonds or other obligations which are authorized by law as security for public deposits, of a market value at least equal to the amount required by law.

Moneys held by the County on behalf of the District in the Proceeds Fund and Repayment Fund shall be invested by the County at the discretion of the Director of Finance in any one or more investments generally permitted to community college districts under the laws of the State of California, consistent with the investment policy of the County and this Resolution (the “Permitted Investments”). The Permitted Investments shall specifically include: (a) the County Pooled Investment Fund maintained by the Director of Finance and (b) at the request of the District, (i) the Local Agency Investment Fund maintained by the Treasurer of the State of California; (ii) other investments permitted under section 53601 of the California Government Code; and (iii) investment agreements with financial institutions with senior unsecured credit ratings in one of the two highest rating categories (without regard to any refinement or gradation of such rating category by a plus or minus or a numeral) from one or more nationally recognized statistical rating organization then rating the Notes. In regard to any investments requested by the District specified in clauses (b)(i), (b)(ii) or (b)(iii) above, the County may decline the request of the District upon any reasonable basis, including, specifically, any concerns of the County regarding the legality, structure or appropriateness of the investment vehicle generally or the process proposed for the bidding or the execution of the investment. Consent by the County to a request by the District to use any investments requested by the District specified in clauses (b)(i), (b)(ii) or (b)(iii) above shall in no way imply any endorsement by the County of such investment and the County assumes no liability for the results of such investment or of the provider thereof.

Interest earning derived from the investment of amounts invested by the County on behalf of the District in the Proceeds Fund and Repayment Fund shall be retained therein and used for the purposes of such fund.
Section 11. **Other Actions.** (A) Officers of the Board and County officials and staff are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they may deem necessary or advisable in order to proceed with the issuance of the Notes and otherwise carry out, give effect to and comply with the terms and intent of this Resolution. Such actions heretofore taken by such officers, officials and staff are hereby ratified, confirmed and approved.

(B) Notwithstanding any other provision herein, the provisions of this Resolution may be amended by the Note Purchase Contract.
Section 12. All the recitals in this Resolution above are true and correct and this County Board so finds, determines and represents.

REGISTERED OWNER: BBVA MORTGAGE CORPORATION, AN ALABAMA CORPORATION

PRINCIPAL AMOUNT: ___________________________ DOLLARS

FOR VALUE RECEIVED, the Gavilan Joint Community College District (the "District"), Santa Clara County, State of California, acknowledges itself indebted to and promises to pay the Registered Owner identified above, or registered assigns, at the office of the Director of Finance of the Santa Clara County, the Principal Amount specified above in lawful money of the United States of America, on the Maturity Date specified above, together with interest thereon at the Rate of Interest per annum set forth above (computed on the basis of a 360-day year of twelve 30-day months), in like lawful money of the United States of America from the Note Date specified above until payment in full of said principal sum; provided, however, the Rate of Interest shall be adjusted to a rate of 5% over the specified Rate of Interest, for any period when interest payments are not received within 10 days of their due dates. Both the principal of and interest on this Note shall be payable only upon surrender of this Note as the same shall fall due; provided, however, no interest shall be payable for any period after maturity during which the Registered Owner fails to properly present this Note for payment.

It is hereby certified, recited and declared that this Note is one of an authorized issue of Notes in the aggregate principal amount of ________________________ Dollars ($__________________ ) all of like date, tenor and effect, made, executed and given pursuant to and by authority of a resolution of the Board of Supervisors of Santa Clara County duly passed and adopted on April 7, 2020 and a Resolution of the Board of Trustees of the District duly passed and adopted on March 10, 2020 under and by authority of Government Code Article 7.6 (commencing with Section 53850) of Chapter 4, Part 1, Division 2, Title 5, and that all acts, conditions and things required to exist, happen and be performed precedent to and in the issuance of this Note have existed, happened and been performed in regular and due time, form and manner as required by law, and that this Note, together with all other indebtedness and obligations of the District, does not exceed any limit prescribed by the Constitution or statutes of the State of California.

The principal amount of the Notes, together with the interest thereon, shall be payable from taxes, income, revenue (including, but not limited to, revenue from state and federal governments), cash receipts
and other moneys including moneys deposited in inactive or term deposits (but excepting certain moneys encumbered for a special purpose), received in or accrued to fiscal year 2019-20, and which are generally available for the payment of current expenses and other obligations of the District (the “Unrestricted Revenues”). As security for the payment of the principal of and interest on the Notes the District has pledged an amount equal to one-third of the principal of and interest due on the Notes from the first Unrestricted Revenues received by the District in the months ending May 31, 2020, June 30, 2020 and July 31, 2020, respectively (such pledged amounts being hereinafter called the “Pledged Revenues”). The principal of the Notes and the interest thereon shall constitute a first lien and charge on such Pledged Revenues, and shall be payable therefrom, and to the extent not so paid shall be paid from any other moneys of the District lawfully available therefor.

This Note is transferable by the Registered Owner hereof in person or by his or her attorney duly authorized in writing at the office of the Paying Agent in San Francisco, California but only in the manner, subject to the limitations and upon payment of the charges provided in the Resolution, and upon surrender and cancellation of this Note except that this Note shall not be transferred or exchanged later than the 15th day prior to the maturity date hereof. Upon such transfer a new Note or Notes of authorized denominations and for the same aggregate principal amount will be issued to the transferees in exchange herefor.

The County, the District and the Paying Agent may deem and treat the Registered Owner hereof as the absolute owner hereof for the purpose of receiving payment of or on account of principal hereof and interest due hereon and for all other purposes, and neither the District nor the Paying Agent shall be affected by any notice to the contrary.

The District shall, furnish or cause to be furnished to the Registered Owner, at the District’s expense (i) the audited financial statements of the District within 210 days of the end of the District’s fiscal year (running from July 1 of each year through June 30 of the following year), (ii) the final annual operating budget of the District for each fiscal year within 30 days of the commencement of each fiscal year, and (iii) such other information respecting the District, and the operations, affairs and financial condition of the District as the Registered Owner may from time to time reasonably request. Any audited financial statements furnished to the Registered Owner shall be prepared in accordance with generally accepted accounting principles, consistently applied, and shall fairly present the District’s financial condition as of the date of the statements. Initially, the District shall provide such documents directly to the Registered Owner. Such documents may be filed on the Electronic Municipal Market Access (“EMMA”) website maintained by the Municipal Securities Rulemaking Board and located at www.cmma.msrb.org. Such documents may be contained in, or otherwise made part of, any other filings required to be made by the District to the EMMA website pursuant to Rule 15c2-12 promulgated under the Securities Exchange Act of 1934.

The District shall provide to the Registered Owner:

(a) immediate notice by telephone, promptly confirmed in writing, of any event, action or failure to take any action which constitutes a default under the Resolution, together with a detailed statement by an authorized representative of the steps being taken by the District to cure the effect of such default;

(b) prompt written notice of any action, suit or proceeding or any investigation, inquiry or similar proceeding by or before any court or other governmental authority, domestic or foreign, against the District or the Pledged Revenues which involve claims equal to or in excess of $250,000 or that seeks injunctive relief; and
(c) prompt written notice of any Material Litigation, Material Adverse Effect or any investigation, inquiry or similar proceeding by any Governmental Authority with respect to any matter that relates to or could materially impact Pledged Revenues.

For purposes of the preceding paragraph, the following definitions shall apply to the capitalized terms.

“Governmental Authority” means any governmental or quasi-governmental entity, including any court, department, commission, board, bureau, agency, administration, central bank, service, district or other instrumentality of any governmental entity or other entity exercising executive, legislative, judicial, taxing, regulatory, fiscal, monetary or administrative powers or functions of or pertaining to government, or any arbitrator, mediator or other person with authority to bind a party at law.

“Material Adverse Effect” means an event or occurrence which adversely affects in a material manner (a) the assets, liabilities, condition (financial or otherwise), business, facilities or operations of the District, (b) the ability of the District to carry out its business in the manner conducted as of the date of the Resolution or to meet or perform its obligations under the Resolution on a timely basis, or the (c) the validity or enforceability of the Resolution.

“Material Litigation” means any action, suit, proceeding, inquiry or investigation against the District in any court or before any arbitrator of any kind or before or by any Governmental Authority, of which the District has notice or knowledge and which, (i) if determined adversely to the District, may have a Material Adverse Effect, (ii) seeks to restrain or enjoin any of the transactions contemplated by the Resolutions and the Note Purchase Contract, or (iii) may adversely affect (A) the exclusion of interest on the Notes from gross income for federal income tax purposes or the exemption of such interest for state income tax purposes or (B) the ability of the District to perform its obligations under the Resolutions.

Until the District and the Paying Agent are otherwise notified in writing by the Registered Owner, all principal and interest payments with respect to this Note shall be made by wire transfer using the following wiring instructions:

GAVILAN JOINT COMMUNITY COLLEGE DISTRICT
(Santa Clara County, State of California)
2019-20 Tax and Revenue Anticipation Notes, Series B

NOTE PURCHASE CONTRACT

________, 2020

[Finance Agency
70 W. Hedding Street, 6th Floor, East Wing
San Jose, California 95110]

Gavilan Joint Community College District
5055 Santa Teresa Boulevard
Gilroy, California 95020

The undersigned, Compass Bank (the “Purchaser”), offers to enter into the following contract (this “Note Purchase Contract”) with the County of Santa Clara, California (the “County”) and Gavilan Joint Community College District (the “District”), which, upon acceptance of this offer thereby will be binding upon the County, the District and the Purchaser. This offer is made subject to acceptance of this Note Purchase Contract by the County and the District on or before 11:59 p.m., California time, on the date hereof, and, if this Note Purchase Contract is not so accepted, will be subject to withdrawal by the Purchaser upon notice delivered to the County and the District.

1. Purchase and Sale of the Notes. Upon the terms, conditions and basis of the representations, warranties and agreements set forth herein, the Purchaser hereby agrees to purchase from the District, and the District agrees to sell to the Purchaser, all (but not less than all) of the Gavilan Joint Community College District (Santa Clara County, State of California) 2019-20 Tax and Revenue Anticipation Notes, Series B, in the aggregate principal amount of $________ (the “Notes”).

Inasmuch as this purchase and sale represents a negotiated transaction, the County and the District acknowledge and agrees that: (i) the transaction contemplated by this Note Purchase Contract is an arm’s-length commercial transaction between the County, the District and the Purchaser, in which the Purchaser is acting solely as a principal and is not acting as a municipal advisor, financial advisor or fiduciary to the County or the District; (ii) the Purchaser has not assumed a fiduciary responsibility to the County or the District with respect to the transaction contemplated hereby and the discussions, undertakings and procedures leading thereto (irrespective of whether or not the Purchaser has provided other services or is currently providing other services to the District on other matters); (iii) the Purchaser is acting solely in its capacity as an Purchaser for its own account; (iv) the only obligations the Purchaser has to the County or the District with respect to the transaction contemplated hereby are expressly set forth in this Note Purchase Contract; and (v) the County and the District has consulted with its own legal, accounting, tax, financial and other advisors to the extent it deemed appropriate.
The Notes shall be dated the date of initial execution and delivery, shall mature on July 31, 2020, and shall bear interest at the rate of ___% per annum (with a yield to maturity of ___%). The aggregate purchase price to be paid by the Purchaser for the Notes is hereby agreed to be $________.

The Notes shall be executed and delivered under and in accordance with the provisions of this Note Purchase Contract and the Resolutions (defined herein). The Notes shall be in fully registered form, registered in the name of the Purchaser; the Notes shall initially be in an authorized denomination equal to the principal amount of the Notes.

2. **The Notes.** The Notes shall be issued and secured pursuant to the provisions authorizing resolution adopted by the Board of Trustees of the District on March 10, 2020 (the “District Resolution”) and the resolution adopted by Board of Supervisors of the County on April 7, 2020 (the “County Resolution”, and together with the District Resolution, the “Resolutions”), and Article 7.6, Chapter 4, Part 1, Division 2, Title 5, commencing with Section 53850 et seq., of the California Government Code (the “Act”). The Paying Agent for the Notes, pursuant to the Resolution, shall be U.S. Bank National Association.

Pursuant to Section 53854 of the Act, the Notes shall be payable from taxes, income, revenue (including but not limited to revenue from state and federal governments), cash receipts and other moneys (including moneys deposited in inactive or term deposits, but excepting certain moneys encumbered for a special purpose), and generally available for payment of current expenses and other obligations thereof (collectively, the “Unrestricted Revenues”).

The Notes shall be delivered and secured under the Resolution. The principal and interest evidenced by the Notes shall be payable as provided in the Resolution. All capitalized items not defined herein shall have the meanings set forth in the Resolution.

**Establishment of Issue Price.** The Purchaser agrees to assist the District in establishing the issue price of the Notes and shall execute and deliver to the District at Closing an “issue price” or similar certificates substantially in the form attached hereto as Appendix B, with such modifications as may be appropriate or necessary, in the reasonable judgment of the Purchaser, the District and Stradling Yocca Carlson & Rauth, a Professional Corporation (“Bond Counsel”), to accurately reflect, as applicable, the initial issue price of the Notes. All actions to be taken by the District under this section to establish the issue price of the Notes may be taken on behalf of the District by the District’s municipal advisor identified herein and any notice or report to be provided to the District may be provided to the District’s municipal advisor.

3. **Reserved.**

4. **Closing.** At 9:00 a.m., California time, on April __, 2020, or at such earlier or later time or date as shall be agreed by the District and the Purchaser (such time and date being herein referred to as the “Closing Date” or the “Closing”), the District will deliver to the Purchaser, the Notes in the form of one or more fully registered Notes (which may be typewritten) duly executed in accordance with the Resolution, and will deliver or cause to be delivered to the offices of Bond Counsel (or such other location as may be designated by the Purchaser), the other documents herein mentioned.
It shall be a condition to the obligation of the Purchaser to purchase, to accept delivery of and to pay for the Notes, that the entire aggregate principal amount of the Notes shall be sold and delivered at the Closing. The Purchaser will accept such delivery and pay the purchase price of the Notes as set forth in Section 1 herein by wire transfer in immediately available funds.

5. **Representations, Warranties and Agreements of the District.** The District represents, warrants and agrees as follows:

(a) the District is, and will be at the Closing Date, a duly organized, validly existing and operating community college district pursuant to the laws of the State of California (the “State”) with full power and authority to issue the Notes and to observe and perform the covenants and agreements set forth in the Resolution and this Note Purchase Contract;

(b) by official action thereof, prior to or concurrently with the acceptance hereof, the District (i) adopted the Resolution, and authorized and approved the execution and delivery of this Note Purchase Contract, and the performance of its obligations contained in the Notes, the Resolution, and this Note Purchase Contract, and (ii) the Resolution is in full force and effect and has not been amended or supplemented as of the date hereof, and the District further covenants that it will advise the Purchaser promptly of any proposal to amend or supplement the Resolution;

(c) the adoption of the Resolution and the execution and delivery of this Note Purchase Contract, and the Notes, and compliance with the provisions on the District’s part contained herein and therein, do not and will not conflict with or constitute a breach of or default under any law, administrative regulation, judgment, decree, statute, indenture, mortgage, deed of trust, bond, note, resolution, agreement or other instrument to which the District is a party or by which the District or, to its knowledge, any of its properties are bound, nor will any such execution, delivery, adoption or compliance result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any of the properties or assets of the District which materially adversely affects the security for the Notes under the terms of any such law, administrative regulation, judgment, decree, statute, indenture, mortgage, deed of trust bond, note, resolution, agreement or other instrument, except as provided in the Resolution;

(d) no consent, approval, authorization, order, filing, registration, qualification, election or referendum, of or by any court or governmental agency or public body whatsoever is required, or is required and has not been taken or obtained, in connection with the issuance, delivery or sale of the Notes or the consummation of the other transactions effected or contemplated herein or hereby;

(e) there is no action, suit, proceeding, inquiry, or investigation, at law or in equity, before or by any court, governmental agency, public board or body, pending or, to the knowledge of the District, threatened against the District: (i) in any way affecting the existence of the District or in any way challenging the respective powers of the several offices or of the titles of the officials of the District to such offices; or (ii) seeking to restrain, prohibit or enjoin the sale, issuance or delivery of any of the Notes, the application of the proceeds of the sale of the Notes or the collection of revenues or assets of the District pledged or to be pledged or
available to pay the principal of and interest on the Notes, or the pledge thereof, or in any way contesting the powers of the District or its authority with respect to the Notes, the Resolution or this Note Purchase Contract or in any way contesting or affecting the validity or enforceability of the Notes; or (iii) in which a final adverse decision could (a) materially adversely affect the operations of the District or the consummation of the transactions contemplated by this Note Purchase Contract or the Resolution, (b) declare this Note Purchase Contract to be invalid or unenforceable in whole or in material part, or (c) adversely affect the exclusion of the interest paid on the Notes from gross income for federal income tax purposes and the exemption of such interest from California personal income taxation;

(f) the District has complied with the Internal Revenue Code of 1986, as amended, with respect to the Notes;

(g) the terms and provisions of this Note Purchase Contract comply in all material respects with the requirements of the Resolution, and each of the Note Purchase Contract, assuming due authorization, execution and delivery by the other party thereto, and the Notes when duly authorized and delivered, will constitute a valid and binding obligation of the District, enforceable in accordance with its terms, subject to limitations on such enforceability imposed by bankruptcy, insolvency, reorganization, moratorium or other laws relating to or affecting generally the enforcement of creditors’ rights and except as such enforcement may be subject to the application of equitable principles and the exercise of judicial discretion in appropriate cases if equitable remedies are sought and by the limitations on legal remedies against public agencies in the State of California;

(h) the District is not in violation or breach of or default under any applicable law or administrative rule or regulation of the United States or any state thereof having jurisdiction over the District or its properties, or of any department, division, agency or instrumentality of any state thereof, or any applicable court judgment or administrative decree or order, or any lease, note, resolution, indenture, contract, agreement or other instrument to which the District is a party or is otherwise (to its knowledge) subject or bound, or to which any of its property is otherwise subject, which in any way materially affects the issuance of the Notes or the validity thereof, this Note Purchase Contract or the Resolution, or materially adversely affects the ability of the District to perform any of its obligations under any thereof;

(i) The District will punctually pay or cause to be paid the principal of and interest on the Notes in strict conformity with the terms of the Resolution, this Note Purchase Contract and the Notes and it will faithfully observe and perform all of the conditions, covenants and requirements of the Notes and the Resolution. The District will cause the monies to be deposited in the Gavilan Joint Community College District, 2019-20 Tax and Revenue Anticipation Notes, Series B Repayment Fund (the “Repayment Fund) when received until the amount on deposit in the Repayment Fund is equal to the principal of and interest due on the Notes.

(j) any certificate signed by an authorized officer of the District and delivered to the Purchaser shall be deemed a representation and warranty by the District, but not by the person signing the same;
(k) the District will furnish such information, execute such instruments and take such other action as the Purchaser may reasonably request in connection with the purchase and holding of the Notes; and

(l) except as has been disclosed to the Purchaser, there has been no change in the financial condition of the District since June 30, 2019, that will in the reasonable opinion of the District materially impair its ability to perform its obligations under the Resolution and the Notes.

6. **Representations, Warranties and Agreements of the Purchaser.** The Purchaser represents to and agrees with the District that, as of the date hereof and as of the date of the Closing:

   (a) the Purchaser is duly authorized to execute this Note Purchase Contract and to take any action under the Note Purchase Contract required to be taken by it;

   (b) the Purchaser has, and has had, no financial advisory relationship, as that term is defined in California Government Code Section 53590(c), with the District with respect to the Notes, and no investment firm controlling, controlled by or under common control with the Purchaser has or has had any such financial advisory relationship; and

   (c) the Purchaser has independently investigated and confirmed the financial condition of the District, and has had opportunity to request and be provided with any information it thought necessary to approve the financing.

7. **Conditions to Closing.** The Purchaser has entered into this Note Purchase Contract in reliance upon the representations, warranties and covenants of District contained in the Resolution and to be contained in the documents and instruments to be delivered at the Closing (hereinafter referred to collectively as the “Delivery Certificates”) and upon the performance by the District of its obligations hereunder and under the Resolution (collectively, the “Documents”), both as of the date hereof and as of the Closing Date. Accordingly, the Purchaser’s obligation under this Note Purchase Contract to purchase, to accept delivery of and to pay for the Notes shall be subject to the performance by the District of its obligations to be performed hereunder and under the Documents at or prior to the Closing and shall also be subject to the following conditions, including the delivery by the District of such documents as are contemplated hereby in form and substance satisfactory to Bond Counsel:

   (a) The representations and warranties of the District contained herein and in the Delivery Certificates shall be true, complete and correct in all material respects as of the date thereof, and the representations and warranties of the District contained in the Resolution shall be true, complete and correct in all material respects on the date hereof and on and as of the date of the Closing, as if made on the date of the Closing. The District shall inform the Purchaser prior to the Closing if it has actual knowledge that any of the representations and warranties contained herein, in the Resolution or in the Delivery Certificates has become false or misleading.
(b) At the time of the Closing, all official action of the District relating to the Resolution shall be in full force and effect and shall not have been revoked, amended, modified or supplemented.

(c) The Purchaser shall have the right to terminate the Purchaser’s obligation under this Note Purchase Contract to purchase, to accept delivery of and to pay for the Notes by notifying the District of its election to do so if, after the execution hereof and prior to the Closing, the market price or marketability of the Notes, or the ability of the Purchaser to enforce contracts for the sale of the Notes, in the reasonable opinion of the Purchaser, has been or will be materially and adversely affected by the occurrence of any of the following:

(1) legislation enacted by Congress, or passed by either House thereof, or favorably reported for passage thereto by any Committee of such House to which such legislation has been referred for consideration, or by the legislature of the State, or introduced in the Congress or recommended for passage by the President of the United States, or a decision rendered by a court of the United States or the State or by the United States Tax Court, or an order, ruling, regulation (final, temporary or proposed) or official statement issued or made:

(i) by or on behalf of the United States Treasury Department, or by or on behalf of the Internal Revenue Service, with the purpose or effect, directly or indirectly, of changing, directly or indirectly, the federal income tax consequences or State tax consequences of interest on the Notes or of obligations of the general character of the Notes in the hands of the holders thereof; or

(ii) by or on behalf of the SEC or any other governmental agency having jurisdiction over the subject matter thereof, to the effect that the Notes, or obligations of the general character of the Notes, are not exempt from registration under the Securities Act of 1933, as amended;

(2) any outbreak or escalation of hostilities affecting the United States, the declaration by the United States of a national emergency or war, or engagement in or material escalation of major military hostilities by the United States or the occurrence of any other national emergency, or (ii) any other calamity or crisis relating to the effective operation of the government or the financial community in the United States, or (iii) a downgrade of the sovereign debt rating of the United States by any major credit rating agency or payment default on United States Treasury obligations;

(3) the declaration of a general banking moratorium by Federal, New York State or State authorities having appropriate jurisdiction, or the general suspension of trading on any national securities exchange or fixing of minimum or maximum prices for trading or maximum ranges for prices for securities on any national securities exchange, whether by virtue of a determination by that exchange or by order of the SEC or any other governmental authority having
jurisdiction or a material disruption in commercial banking or securities settlement or clearance services;

(4) the imposition by the New York Stock Exchange, other national securities exchange, or any governmental authority, of any material restrictions not now in force with respect to the Notes, or obligations of the general character of the Notes, or securities generally, or the material increase of any such restrictions now in force, including those relating to the extension of credit by, or the charge to the net capital requirements of, the Purchaser;

(5) an order, decree or injunction of any court of competent jurisdiction, or order, filing, regulation or official statement by the SEC, or any other governmental agency having jurisdiction over the subject matter thereof, issued or made to the effect that the issuance, offering or sale of obligations of the general character of the Notes (including any related underlying obligations), or the issuance, offering or sale of the Notes, as contemplated hereby, is or would be in violation of the federal securities laws, as amended and then in effect;

(6) there shall have occurred or any notice shall have been given of any intended downgrading, suspension, withdrawal, or negative change in credit watch status by any national rating service to the outstanding indebtedness of the District;

(7) the occurrence, since the date hereof, of any materially adverse change in the affairs or financial condition of the District;

(8) the suspension by the SEC of trading in any outstanding securities of the District;

(9) any state Blue Sky or securities commission, or other governmental agency or body, shall have withheld registration, exemption or clearance of the offering of the Notes as described herein, or issued a stop order or similar ruling relating thereto;

(10) any amendment shall have been made to the federal or State Constitution or action by any federal or State court, legislative body, regulatory body, or other authority materially adversely affecting the tax status of the District, its property, income securities (or interest thereon) or the validity or enforceability of the levy of taxes to pay principal of and interest on the Notes;

(11) the purchase of and payment for the Notes by the Purchaser on the terms and conditions herein provided shall be prohibited by any applicable law, governmental authority, board, agency or commission; or

(d) At or prior to the Closing, the Purchaser shall have received the following documents:

(1) Reserved.
(2) A certified copy of the Resolution.

(3) The unqualified approving opinion, dated the Closing Date and addressed to the District, of Bond Counsel, together with a letter to the Purchaser stating that the Purchaser is entitled to rely on such approving opinion.

(4) A supplemental opinion, dated the Closing Date and addressed to the District and the Purchaser, of Bond Counsel, substantially to the effect that:

   (i) the Notes are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Resolution is exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended; and

   (ii) this Note Purchase Contract has been duly authorized, executed and delivered by the District and, assuming due authorization, execution and delivery by all the other party thereto, constitutes a legal, valid and binding agreement of the District enforceable in accordance with its terms, except as enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other laws relating to or affecting generally the enforcement of creditors’ rights and except as such enforcement may be subject to the application of equitable principles and the exercise of judicial discretion in appropriate cases if equitable remedies are sought and by the limitations on legal remedies against public agencies in the State of California.

(5) A certificate of the District, dated the Closing Date and signed by an authorized officer of the District, substantially to the effect that:

   (i) the representations and warranties of the District contained in this Note Purchase Contract are true and correct in all material respects on and as of the date of the Closing as if made on the date of the Closing;

   (ii) none of the proceedings or authority for the execution and delivery of the Note by the District has been repealed modified, amended, revoked or rescinded; and

(6) A certificate of the District executed by an authorized officer of the District, in form and substance acceptable to Bond Counsel, dated as of the Closing Date, setting forth facts, estimates and circumstances concerning the use or application of the proceeds of the Notes, and stating in effect that on the basis of such facts, estimates and circumstances in existence on the date of the Closing, it is not expected that the proceeds of such Notes will be used in a manner that would cause such Notes to be “arbitrage bonds” within the meaning of Section 148(a) of the Internal Revenue Code of 1986, as amended (the “Code”) and the regulations promulgated thereunder or under the statutory predecessor of the Code.

(7) Evidence satisfactory to the Purchaser that the federal tax information Form 8038-G has been prepared for the District;
(8) A copy of the Notice of Sale required to be delivered to the California Debt and Investment Advisory Commission ("CDIAC") pursuant to Section 8855(k) of the California Government Code.

(9) The opinion, dated the Closing Date, of counsel to the District in substantially the form attached hereto as Exhibit C.

(10) A certificate of the Paying Agent, signed by a duly authorized officer of the Paying Agent, to the effect that, no litigation is pending or, to the best of the Paying Agent’s knowledge, threatened (either in state or federal courts) (A) seeking to restrain or enjoin the delivery by the Paying Agent of any of the Notes, or (B) in any way contesting or affecting any authority of the Paying Agent for the delivery of the Notes or the validity or enforceability of the Notes or any agreement with the Paying Agent.

(11) Such legal opinions, certificates, proceedings, instruments and other documents as Bond Counsel may reasonably request to evidence (i) compliance by the District with legal requirements, (ii) the truth and accuracy, as of the time of Closing, of the representations of the District herein contained or as contained in the Delivery Certificates, (iii) the due performance or satisfaction by the District at or prior to such time of all agreements then required to be performed and all conditions then required to be satisfied by the District;

All of the opinions, letters, certificates, instruments and other documents mentioned in this Note Purchase Contract shall be deemed to be in compliance with the provisions hereof if, and only if, they are in form and substance satisfactory to the Purchaser.

If the District shall be unable to satisfy the conditions to the obligation of the Purchaser to purchase, to accept delivery of and to pay for the Notes contained in this Note Purchase Contract, or if the obligation of the Purchaser to purchase, to accept delivery of and to pay for the Notes shall be terminated for any reason permitted by this Note Purchase Contract, this Note Purchase Contract shall terminate and neither the Purchaser nor the District shall be under further obligation hereunder, and except that the respective obligations of the District and the Purchaser set forth in Section 11 hereof shall continue in full force and effect.

8. Expenses. (a) Upon the delivery of the Notes to and payment thereof from the Purchaser, the District shall pay solely from the proceeds of the Notes, all expenses incident to the issuance of the Notes, including, but not limited to (i) the cost of preparing the definitive Notes, and (ii) the fees and disbursements of the District’s Bond Counsel, the District’s financial advisor, the Paying Agent, the Purchaser’s Counsel, and any other experts or consultants, and the fees of the California Debt and Investment Advisory Commission. The District shall pay for expenses incurred on behalf of District employees which are directly related to the offering of the Notes, including, but not limited to, meals, transportation and lodging of those employees. The District hereby instructs the Purchaser to wire a portion of the purchase price for the Notes, in an amount equal to $_______, to U.S. Bank National Association, as fiscal agent, for the payment of costs of issuance of the Notes.
(b) The District acknowledges that it has had the opportunity to evaluate and consider the fees and expenses being incurred in connection with the issuance of the Notes.

9. **Notices.** Any notice or other communication to be given to the District under this Note Purchase Contract may be given by delivering the same in writing if to the District, to Gavilan Joint Community College District, 5055 Santa Teresa Boulevard, Gilroy, California 95020; and any notice or other communication to be given to the Purchaser under this Note Purchase Contract may be given by delivering the same in writing to Compass Bank, 402 West Broadway, 23rd Floor, San Diego, California 92101, attention: Rick Martinez and to Compass Bank, 8333 Douglas Avenue, 2nd Floor Dallas, Texas 75225 Attention: LDFCPublicFinance.

10. **Parties In Interest.** This Note Purchase Contract is made solely for the benefit of the District and the Purchaser, and no other person shall acquire or have any right hereunder or by virtue hereof. All of the representations, warranties and agreements of the District contained in this Note Purchase Contract and the Resolution shall remain operative and in full force and effect regardless of (i) any investigations made by or on behalf of the Purchaser, (ii) delivery of any payment for the Notes pursuant to this Note Purchase Contract and (iii) any termination of this Note Purchase Contract.

11. **Entire Agreement.** This Note Purchase Contract embodies the entire agreement and understanding between the parties relating to the subject matter hereof and supersedes all prior agreements and understandings related to such subject matter, and it is agreed that there are no terms, understandings, representations or warranties, express or implied, other than those set forth herein.

12. **Execution.** This Note Purchase Contract shall become effective upon the execution of the acceptance hereof by a duly authorized signatory of the District, which acceptance hereof shall be indicated on the signature page hereof, and shall be valid and enforceable as of the time of such acceptance. This Note Purchase Contract may be executed by facsimile transmission and in several counterparts, each of which shall be regarded as an original and all of which shall constitute one and the same document.

[REMAINDER OF PAGE LEFT BLANK]
13. **Governing Law.** This Note Purchase Contract shall be governed by and construed in accordance with the laws of the State of California.

Very truly yours,

CERTIFICATE OF THE PURCHASER

The undersigned, on behalf of Compass Bank ("Compass") hereby certifies as set forth below with respect to the sale and issuance of the above-captioned obligations (the "Notes").

1. Purchase of the Notes. On the date of this certificate, the Purchaser is purchasing the Notes for the amount of $________. The Purchaser is not acting as an Underwriter with respect to the Notes. The Purchaser has no present intention to sell, reoffer, or otherwise dispose of the Notes (or any portion of the Notes or any interest in the Notes). The Purchaser has not contracted with any person pursuant to a written agreement to have such person participate in the initial sale of the Notes and the Purchaser has not agreed with the District pursuant to a written agreement to sell the Notes to persons other than the Purchaser or a related party to the Purchaser.

2. Defined Terms.

(a) District means the Gavilan Joint Community College District.

(b) Public means any person (including an individual, trust, estate, partnership, association, company, or corporation) other than an Underwriter or a related party. The term “related party” for purposes of this certificate generally means any two or more persons who have greater than 50 percent common ownership, directly or indirectly.

(c) Underwriter means (i) any person that agrees pursuant to a written contract with the District (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Notes to the Public, and (ii) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (i) of this paragraph to participate in the initial sale of the Notes to the Public (including a member of a selling group or a party to a retail distribution agreement participating in the initial sale of the Notes to the Public).

[REMAINDER OF PAGE LEFT BLANK]
The representations set forth in this certificate are limited to factual matters only. Nothing in this certificate represents the Purchaser’s interpretation of any laws, including specifically Sections 103 and 148 of the Internal Revenue Code of 1986, as amended, and the Treasury Regulations thereunder. The undersigned understands that the foregoing information will be relied upon by the Issuer with respect to certain of the representations set forth in the Tax Certificate and with respect to compliance with the federal income tax rules affecting the Notes, and by Stradling Yocca Carlson & Rauth, a Professional Corporation in connection with rendering its opinion that the interest on the Notes is excluded from gross income for federal income tax purposes, the preparation of the Internal Revenue Service Form 8038-G, and other federal income tax advice that it may give to the Issuer from time to time relating to the Notes.

EXHIBIT C

FORM OF OPINION OF COUNSEL TO THE DISTRICT

Board of Trustees
Gavilan Joint Community College District
Gilroy, California

Compass Bank d/b/a BBVA Compass
402 West Broadway, 23rd Floor
San Diego, California 92101

Ladies and Gentlemen:

We have acted as counsel to the Gavilan Joint Community College District (the “District”) in connection with the issuance of the District’s 2019-20 Tax and Revenue Anticipation Notes (the “Notes”), and in such capacity are familiar with all the facts and circumstances in connection with that certain resolution of the District (the “Resolution”), adopted by the Board of Trustees of the District (the “Governing Board”) authorizing the borrowing of funds for fiscal year 2019-20 by means of the issuance of the Notes. Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Note Purchase Contract for the Notes, entered into by and between the District and Compass Bank d/b/a BBVA Compass, as Purchaser (the “Note Purchase Contract”).

We have examined and relied upon such records, documents, certificates, and other matters as are in our judgment necessary to enable us to render the opinions expressed herein. Based on the foregoing, and with regard to California law and the federal laws of the United States of America, we are of the opinion as of the date hereof that:

1. The District is a duly organized, validly existing and operating community college district pursuant to the laws of the State of California.

2. The Resolution was duly adopted at a meeting of the governing body of the District which was called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting at the time of adoption.

3. To the best of our knowledge, without independent investigation, and in sole reliance on a signed certificate of the District to such effect, there is no litigation against the District of any nature pending or threatened to restrain or enjoin the issuance, sale, execution or delivery of the Notes, or any of the proceedings taken with respect to the issuance and sale of the
Notes, the application of moneys to the payment of the Notes or in any manner questioning the proceedings and authority under which the Notes were authorized or affecting the validity of the Notes or the title of officials of the District who have acted with respect to the proceedings for the issuance and sale of the Notes to their respective offices.

4. To the best of our knowledge, without independent investigation, and in sole reliance on a signed certificate of the District to such effect, the issuance of the Notes does not and will not conflict with or constitute on the part of the District a material breach of, or a default under any instrument to which the District is subject or by which it is bound.

5. The District has full right and lawful authority to adopt the Resolution and execute and deliver the Note Purchase Contract and, the Note Purchase Contract has been duly authorized, executed, and delivered by the District and the Resolution and the Note Purchase Contract are legal, valid, and binding obligations of the District, enforceable in accordance with their respective terms, except as such enforcement may be limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws relating to or limiting creditors’ rights generally and by the principles of equity if equitable remedies are sought.
EXHIBIT D

FORM OF OPINION OF COUNTY COUNSEL

1. The County is a political subdivision duly organized and validly existing under the laws of the State of California.

2. The County Resolution was duly adopted at a meeting of the Board of Supervisors of the County which was called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting at the time of adoption.

3. The County Resolution and the Note Purchase Contract have been duly executed and remain in effect and valid, binding and enforceable against the County except as limited by bankruptcy, moratorium, reorganization, insolvency or other laws affecting creditors; rights generally or by the exercise of judicial discretion in accordance with general principles of equity or otherwise in appropriate cases.

4. To the best of our knowledge, there is no litigation against the County of any nature pending or threatened to restrain or enjoin the issuance, sale, execution or delivery of the Notes, or any of the proceedings taken with respect to the issuance and sale of the Notes, the application of moneys to the payment of the Notes or in any manner questioning the proceedings and authority under which the Notes were authorized or affecting the validity of the Notes or the title of officials of the County who have acted with respect to the proceedings for the issuance and sale of the Notes to their respective offices.

5. The issuance of the Notes does not and will not conflict with or constitute on the part of the District a material breach of, or a default under any instrument, to which the County is subject or by which it is bound.
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Cindy Chavez, Supervisor
SUBJECT: Commendations for 2019 Crisis Intervention Teams (CIT) Officers of the Year

RECOMMENDED ACTION

Adopt Commendations for Santa Clara County law enforcement officers who have served Santa Clara County and represented their agencies in an exceptional and exemplary manner in the application of the philosophy and practices of Crisis Intervention Team (CIT), and recognizing them as the 2019 Crisis Intervention Team (CIT) Officers of the Year. (Chavez)

City of Mountain View Police Department, Detective Angel Espitia; City of Los Altos Police Department, Officer Anthony Fantozzi; City of Palo Alto Police Department, Agent Brad Young; City of Palo Alto Police Department, Officer Charlie Tannous; County of Santa Clara Office of the Sheriff, Deputy Christopher Vorpahl; City of Milpitas Police Department, Officer Clint Jackman; City of Santa Clara Police Department, Officer David Britton; City of Palo Alto Police Department, Sergeant David Lee; County of Santa Clara Office of the Sheriff, Deputy Frederick Da Silva; City of Palo Alto Police Department, Detective George Pons; City of Palo Alto Police Department, Officer Ian Johnson; California Highway Patrol, Officer Jayson Doumas; County of Santa Clara Office of the Sheriff, Deputy Jesse Sanders; City of Los Altos Police Department, Officer Kelli Janda; Los Gatos-Monte Sereno Police Department, Officer Logan Howard; City of Palo Alto Police Department, Agt. Marianna Villaescuesa; City of Campbell Police Department, Officer Mark Cutler; City of Sunnyvale Department of Public Safety, Public Safety Officer Nelson Williams; City of Palo Alto Police Department, Sergeant Nic Martinez; Los Gatos-Monte Sereno Police Department, Corporal Richard Campbell; City of Palo Alto Police Department, Officer Rob Longwell and City of Palo Alto Police Department, Business Analyst Simon Williams

ATTACHMENTS:
- CIT Officers of the Year 2019 signed (PDF)
WHEREAS, Crisis Intervention Teams (CIT) have become the national model for an enlightened, professional law enforcement response to the needs of people in behavioral health crisis;

WHEREAS, the National Alliance on Mental Illness (NAMI) and the California Commission on Peace Officer Standards and Training (POST) estimate that between 9% and 15% of law enforcement calls for service are related to a person in mental health crisis;

WHEREAS, Crisis Intervention Teams have been proven to: reduce injuries to both law enforcement officers and people in mental health crisis, reduce unnecessary incarcerations and hospital admissions, increase access to services for those with mental health challenges and their families, and reduce the stigma associated with mental health;

WHEREAS, in order to improve the capacity of Santa Clara County law enforcement officers to respond to the needs of people in mental health crisis, the San José Police Department implemented California's first CIT training program in 1998;

WHEREAS, in order to increase the rate of CIT training in the county, the County of Santa Clara Office of the Sheriff, in conjunction with the County of Santa Clara Behavioral Health Services Department initiated our county's second CIT program in 2009;

WHEREAS, on a daily basis our county's CIT officers and dispatchers impact the lives and futures of numerous people in mental health crisis in our communities.

NOW, THEREFORE, BE IT RESOLVED that the following Santa Clara County law enforcement officer, who has served our County and represented her agency in an exceptional and exemplary manner in the application of the philosophy and practices of CIT, is hereby recognized as one of the 2019 CIT Officers of the Year:

City of Mountain View Police Department
Detective Angel Espitia

PASSED AND ADOPTED, by the Board of Supervisors, County of Santa Clara, State of California, on this Seventh day of April, Two Thousand and Twenty by unanimous vote.

WHEREAS, Crisis Intervention Teams (CIT) have become the national model for an enlightened, professional law enforcement response to the needs of people in behavioral health crisis;

WHEREAS, the National Alliance on Mental Illness (NAMI) and the California Commission on Peace Officer Standards and Training (POST) estimate that between 9% and 15% of law enforcement calls for service are related to a person in mental health crisis;

WHEREAS, Crisis Intervention Teams have been proven to: reduce injuries to both law enforcement officers and people in mental health crisis, reduce unnecessary incarcerations and hospital admissions, increase access to services for those with mental health challenges and their families, and reduce the stigma associated with mental health;

WHEREAS, in order to improve the capacity of Santa Clara County law enforcement officers to respond to the needs of people in mental health crisis, the San José Police Department implemented California's first CIT training program in 1998;

WHEREAS, in order to increase the rate of CIT training in the county, the County of Santa Clara Office of the Sheriff, in conjunction with the County of Santa Clara Behavioral Health Services Department initiated our county's second CIT program in 2009;

WHEREAS, on a daily basis our county's CIT officers and dispatchers impact the lives and futures of numerous people in mental health crisis in our communities.

NOW, THEREFORE, BE IT RESOLVED that the following Santa Clara County law enforcement officer, who has served our County and represented his agency in an exceptional and exemplary manner in the application of the philosophy and practices of CIT, is hereby recognized as one of the 2019 CIT Officers of the Year:

City of Sunnyvale Department of Public Safety
Public Safety Officer Nelson Williams

PASSED AND ADOPTED, by the Board of Supervisors, County of Santa Clara, State of California, on this Seventh day of April, Two Thousand and Twenty by unanimous vote.

SUBJECT: Proclamation of April 2020 as Sexual Assault Awareness Month

RECOMMENDED ACTION

Adopt Proclamation declaring April 2020 as "Sexual Assault Awareness Month" in Santa Clara County. (Chavez)

ATTACHMENTS:

- Sexual Assault Awareness Month 2020 signed (PDF)
WHEREAS, rape, sexual assault, and sexual harassment harm our community, and statistics show that one in five women and one in 71 men will be raped at some point in their lives and that one in three women and one in six men experience some form of contact sexual violence in their lifetime;

WHEREAS, the County of Santa Clara believes that every victim of sexual assault should receive timely, effective, and comprehensive services, and has made significant investments to address sexual assault, including the creation of the Office of Gender-Based Violence Prevention in Fall 2019;

WHEREAS, the County of Santa Clara has expanded the availability of Sexual Assault Forensic Exams (SAFE) at Santa Clara Valley Medical Center to include clinics in Gilroy and Palo Alto to better serve residents throughout the county while reducing the process time for rape kits to an unprecedented 30 days;

WHEREAS, the Sexual Assault Response Team (SART) is comprised of multi-disciplinary county departments and service providers and developed the first Sexual Assault Protocol for Santa Clara County in 2019; and

WHEREAS, the YWCA Silicon Valley and Community Solutions are the only two state-certified rape crisis center service providers for Santa Clara County and in 2019 the County of Santa Clara began funding these state-mandated services to ensure that all survivors of sexual assault can access confidential rape crisis advocates in the community.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the County of Santa Clara does hereby proclaim April 2020 as

Sexual Assault Awareness Month

in Santa Clara County and encourages the support of all efforts throughout the County to raise awareness and create a community that is free of all forms of gender-based violence.

PASSED AND ADOPTED, by the Board of Supervisors, County of Santa Clara, State of California, on this Seventh Day of April, Two Thousand and Twenty by unanimous vote.

FROM: Robert Menicocci, Social Services Agency Director
SUBJECT: Child Abuse Awareness and Prevention Month

RECOMMENDED ACTION
Adopt Proclamation declaring April 2020 as "Child Abuse Awareness and Prevention Month" in Santa Clara County. (Chavez)

FISCAL IMPLICATIONS
There are no fiscal implications associated with the recommended action.

CHILD IMPACT
The recommended action will have a positive impact on children and youth and their families through the Safe and Stable Families indicator by bringing awareness of child abuse and prevention to the community and urging participation in supporting and strengthening families, modeling healthy relationships, and reporting suspected child abuse.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
Children’s lives are shaped by their experiences, including what happens in their environment and the types of relationships they have with parents, teachers, and other caregivers. Children who experience abuse, neglect, and other adverse childhood experiences are at increased risk for negative health consequences and certain chronic diseases as adults. Child neglect and emotional abuse, especially in the form of emotional deprivation, can have a devastating impact on a child's healthy development. Safe, stable, nurturing relationships and environments are essential to preventing child abuse and neglect.

Child abuse and neglect affect not just the child, but the family, the community, and society at large. Child abuse is a core, underlying factor to the many ongoing struggles of this
community, such as school dropout rates, homelessness, high incarceration, and health concerns.

The Bill of Rights for Children and Youth adopted by the Board of Supervisors on February 9, 2010 (Item No. 8) declared that every child and youth have a right to:

- A healthy mind, body and spirit that enables them to maximize their potential.
- Develop a healthy attachment to a parent, guardian, or caregiver and an ongoing relationship with a caring and supporting adult.
- Have their essential needs met – nutritious food, shelter, clothing, healthcare, and accessible transportation.
- A safe and healthy environment, including homes, schools, neighborhoods and communities.
- Training in life skills that will prepare them to live independently, be self-sufficient and contribute to their community.
- Employment opportunities with protections from unfair labor practices.
- Freedom from mistreatment, abuse and neglect.
- A voice in matters that affect them.
- A sense of hope for their future.

**CONSEQUENCES OF NEGATIVE ACTION**

April 2020 would not be recognized as “Child Abuse Awareness and Prevention Month” in Santa Clara County.

**ATTACHMENTS:**

- April 2020 Child Abuse Awareness and Prevention Proclamation  (PDF)
PROCLAMATION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA DECLARING APRIL 2020 AS CHILD ABUSE AWARENESS AND PREVENTION MONTH

WHEREAS, childhood is a formative time, and abuse and neglect have devastating long-term effects on young lives that transcend into adulthood; and

WHEREAS, there were 5,830 verified cases of child abuse in the Bay Area last year, the equivalent of one report approximately every nine minutes; and

WHEREAS, child abuse is a core underlying factor to many of the ongoing struggles of this community, such as high rates of school dropout, homelessness, incarceration, and chronic health issues; and

WHEREAS, the best way to prevent child abuse is by surrounding children with healthy parental, family and community-based relationships that are physically and emotionally safe, respectful, kind, and never violent or abusive; and

WHEREAS, Santa Clara County envisions a community where healthy relationships are modeled in every home, family, neighborhood, school, and workplace; and

WHEREAS, the leaders and residents of Santa Clara County affirm that children and youth have a right to be free from mistreatment, abuse and neglect as pledged in the Bill of Rights for Children and Youth adopted by the Santa Clara County Board of Supervisors on February 9, 2010; and

WHEREAS, Santa Clara County urges all persons, community agencies, faith groups, schools, and businesses to increase their participation in supporting and strengthening families, model healthy relationships, and report suspected child abuse.

NOW THEREFORE, BE IT RESOLVED, that the Board of Supervisors of the County of Santa Clara does hereby proclaim April 2020, as

CHILD ABUSE AWARENESS AND PREVENTION MONTH.

Passed and Adopted, by the Board of Supervisors, County of Santa Clara, State of California on this Sixth Day of April, Two Thousand and Twenty by unanimous vote.

APPROVED AS TO FORM AND LEGALITY:

Javier Serrano
Deputy County Counsel

Proclamation re April 2020
as Child Abuse Awareness and
Prevention Month
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Heather Plamondon, Communications Director
SUBJECT: Proclamation for 2020 Communications Dispatcher Week

RECOMMENDED ACTION
Adopt Proclamation declaring the week of April 12 through 18, 2020 as "Communications Dispatcher Week" in Santa Clara County. (County Communications Department)

REASONS FOR RECOMMENDATION
Every year during the second full week of April, telecommunications personnel in the public safety community are honored.

BACKGROUND
In past years the Board of Supervisors has proclaimed “Communications Dispatchers Week” in Santa Clara County to coincide with “National Public Safety Telecommunicators Week,” which is celebrated annually to recognize the dedication and importance of personnel who handle 9-1-1 and other emergency calls for assistance. Traditionally, the proclamation plaque is received by two County Communications dispatchers selected as the previous year’s “Dispatcher of the Year” honorees.

STEPS FOLLOWING APPROVAL
The Clerk of the Board will notify Trisha Adcock, Communications Deputy Director when the proclamation is ready for pick up.

ATTACHMENTS:
- Proclamation 2020 Dispatchers Week (PDF)
PROCLAMATION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA DECLARING THE WEEK OF APRIL 12 THROUGH 18, 2020 AS “COMMUNICATIONS DISPATCHERS WEEK”

WHEREAS, the Santa Clara County Public Safety Communications Dispatchers play an essential role in protecting the public’s life and property by quickly answering and evaluating hundreds of emergency calls daily and dispatching the appropriate emergency response from law enforcement agencies, fire departments and emergency medical transport providers within our community; and

WHEREAS, the Santa Clara County Public Safety Communications Dispatchers provide equal access to emergency services to all callers, including those who do not speak English or are hearing impaired; and

WHEREAS, the Santa Clara County Public Safety Communications Dispatchers efficiently coordinate emergency services for both man-made and natural disasters to ensure the health and safety of our community; and

WHEREAS, the Santa Clara County Public Safety Communications Dispatchers have maintained accreditation by the National Academies of Emergency Dispatch since 2002 for the Santa Clara County Communications Department as a “Center of Excellence” in providing callers reporting medical emergencies with appropriate physician-approved medical instruction while help is on the way.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Supervisors of the County of Santa Clara does hereby proclaim the week of April 12 through 18, 2020 as

COMMUNICATIONS DISPATCHERS WEEK

PASSED AND ADOPTED, by the Board of Supervisors, County of Santa Clara, State of California on this Sixth Day of April, Two Thousand and Twenty by unanimous vote.

APPROVED AS TO FORM AND LEGALITY:

NANCY CLARK
Deputy County Counsel
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Imre Kabai, Acting Chief Information Officer
SUBJECT: Retirement Commendation for Elizabeth (Lisa) Cruz

RECOMMENDED ACTION
Adopt Commendation for Elizabeth (Lisa) Cruz in recognition of her 21 years of service to the County of Santa Clara. (Technology Services and Solutions Department)

REASONS FOR RECOMMENDATION
Lisa Cruz has been a long-time contributor to the County of Santa Clara and retired in December 2019 after 21 years of dedicated service. Details of her public service are outlined in the attached commendation.

STEPS FOLLOWING APPROVAL
The Clerk of the Board shall contact Elizabeth Constantino and Edward Suess-Hassman from the Technology Services and Solutions Department, to arrange pick-up of one executed copy of the framed commendation which will then be presented to the employee by the Department at a later date.

ATTACHMENTS:
- signed commendation (PDF)
RETIREE COMMENDATION

WHEREAS, Elizabeth (Lisa) Cruz dedicated 21 years of service to the County of Santa Clara; and during that time demonstrated professionalism, commitment, and leadership through her service to the multiple County departments and the County of Santa Clara; and

WHEREAS, Lisa began her career with the County in 1990 as an Advanced Clerk Typist in the Department of Family and Children’s Services within the Social Services Department working her way up to an Eligibility Worker II and a Help Desk Specialist within the Social Services Agency; and

WHEREAS, Lisa then moved to the Santa Clara Valley Medical Center in 2006 taking a position in the Information Technology (IT) area, serving as an Information Systems Technician II and III; and

WHEREAS, in 2013, Lisa was promoted to the level of Information Systems Analyst II and in 2017 to Information Systems Manager I and retired in December 2019 as an IT Supervisor in the Technology Services and Solutions Department; and

WHEREAS, Lisa has demonstrated exceptional leadership qualities, leading the Health & Hospitals Systems Service Desk team with integrity, compassion and commitment to deliver the highest quality IT services to Valley Medical Center’s medical and non-medical staff; and

WHEREAS, Lisa exhibited leadership and a commitment to doing the right thing and to bringing out the best in others, fostering a compassionate, collaborative and propitious culture to the Technology Services and Solutions Department and the County of Santa Clara;

NOW, THEREFORE, BE IT RESOLVED, that the Board of Supervisors of the County of Santa Clara does hereby honor and commend

ELIZABETH (LISA) CRUZ

for her 21 years of dedicated and untiring service to the people of Santa Clara County and extends best wishes to Lisa Cruz in all her future endeavors.

PASSED AND ADOPTED, by the Board of Supervisors County of Santa Clara, State of California on this sixthday of April, Two Thousand and Twenty by unanimous vote.

APPROVED AS TO FORM AND LEGALITY:

Uvas Canyon/Mt. Madonna
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Jacqueline R. Onciano, Director, Dept. of Planning and Development
SUBJECT: Fourth Amendment to Agreement with Metropolitan Planning Group

RECOMMENDED ACTION
Approve Fourth Amendment to Agreement with Metropolitan Planning Group relating to planning/land use management and review consultant services to process Stanford Community Plan amendments, increasing the maximum contract amount by $129,888 from $1,276,952 to $1,406,840 and extending the agreement for a 12-month period through March 31, 2021, that has been reviewed and approved by County Counsel as to form and legality.

FISCAL IMPLICATIONS
There is no new net impact to the County General Fund as a result of this action. The Amendment to complete the updates to the Stanford University Community Plan will be funded by the Department’s increased appropriations for contracts through the Fiscal Year (FY) 2019-20 Mid-Year Budget Review approved by the Board on February 11, 2020. Stanford University will not be invoiced for any portion of this Amendment.

CONTRACT HISTORY
On April 17, 2018, the Board approved a single source agreement with Metropolitan Planning Group (M-Group) for planning/land use review consultant services relating to Stanford University’s proposed General Use Permit (GUP), including updates to the Stanford University Community Plan, in the amount of $350,000 for the period April 17, 2018 through June 30, 2019. (Please refer to linked Legislative File 90818 for further information regarding this Agreement.)

On December 18, 2018, the Board approved the First Amendment to the Agreement with M-Group relating to planning/land use review consultant services to process the Stanford GUP increasing the maximum contract amount by $439,032. The First Amendment included an
expanded Scope of Work due to the complexity of the Stanford GUP and a term extension from June 30, 2019 through December 31, 2019. (Please refer to linked Legislative File 94527 for further information regarding the First Amendment to the M-Group Agreement.)

On August 27, 2019, the Board approved the Second Amendment to the Agreement with M-Group for planning/land use review consultant services to process the Stanford GUP increasing the maximum contract amount by $487,920 due to more robust community engagement, public hearing, and response to comments processes than anticipated. (Please refer to linked Legislative File 98013 for further information regarding the Second Amendment to the M-Group Agreement.)

On December 17, 2019 the Board approved the Third Amendment to the Agreement with M-Group for planning/land use management and review consultant services to process Stanford Community Plan amendments, extending the agreement for a six-month period through June 30, 2020. (Please refer to linked Legislative File 99605 for further information regarding the Third Amendment to the M-Group Agreement.)

**REASONS FOR RECOMMENDATION**

The Department requests to amend the terms and funding of the Agreement with M-Group to allow M-Group to complete amendments to the Stanford University Community Plan (SCP or “Community Plan”), which were originally prepared in tandem with conditions of approval for a General Use Permit application submitted in November 2016 by Stanford University. On November 1, 2019, Stanford University withdrew this GUP application; processing of the SCP amendments ceased at that time.

The Community Plan is a component of the County General Plan that provides oversight policies for development on the Stanford campus. The proposed SCP amendments included updates to the Community Plan that are applicable to development under the existing General Use Permit (2000 GUP) as well as future modifications to the GUP.

On February 11, 2020, the Board of Supervisors approved a Referral (Supervisors Simitian and Chavez; please refer to linked Legislative File 100343) to the Administration requesting to move forward with specified items related to implementation and update of the Community Plan and 1985 Land Use Agreement. The Referral requests the Administration complete the updates to the SCP, and evaluate designation of a future school site, extension of the Academic Growth Boundary, and other changes as originally proposed in the processing of the GUP application. Additionally, the Board directed the Administration to evaluate measures to address graduate student affordability and complete a Municipal Services study that includes an evaluation of childcare and other municipal services needed at Stanford University, as outlined in the current SCP (https://www.sccgov.org/sites/dpd/DocsForms/Documents/SU_CP.pdf).
The Department and M-Group have developed a scope of work to complete the SCP amendments, and execution of the Fourth Amendment to the M-Group Agreement would allow this effort to resume. As the principal project management consultant throughout the recent GUP process, a continued engagement with M-Group would result in the highest level of history, familiarity, and continuity associated with amending the Community Plan.

The Department is currently evaluating additional consulting services needed to complete the graduate student affordability and Municipal Services studies and will return to the Board in the future with subsequent consultant agreements and requested funding to support this work. The Department will also report to the Housing, Land Use, Environment and Transportation (HLUET) Committee quarterly on the progress of these studies and overall SCP updates, as requested in the February 11, 2020 Referral.

**CHILD IMPACT**
The recommended action will have no/neutral impact on children and youth.

**SENIOR IMPACT**
The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**
The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

In November 2016, Stanford University applied for the recently withdrawn GUP, to replace the 2000 GUP. Together with the Stanford Community Plan, the since-withdrawn GUP would have governed maximum campus development until approximately 2035.

In April 2018, the Board approved the original Agreement with M-Group and approved the First Amendment to the Agreement in December 2018. In June 2019, during the third Planning Commission meeting on the Stanford GUP, the Planning Commission unanimously approved forwarding the Administration’s recommendations for conditionally approving a new GUP and related Community Plan amendments. During the same meeting, the Planning Commission also denied the recommendation of Stanford’s Development Agreement (DA) application, as DA negotiations had been suspended in April 2019.
In August 2019, the Board approved the Second Amendment to the Agreement as the community engagement process intensified leading up to the Board public hearing process in the fall of 2019. After a September 24, 2019 Board study session and public hearings on October 8 and October 22, 2019 considering the GUP and related approvals, Stanford University withdrew its GUP application on November 1, 2019.

In December 2019, the Board approved the Third Amendment to the Agreement, extending the contract term to enable the Department to bring back a funding request and scope of work to resume work on the unfinished Community Plan amendments, to be funded by the County and not Stanford University.

**CONSEQUENCES OF NEGATIVE ACTION**

If the Recommended Action is not approved, the Department would not be able to move forward with the project management and community engagement services for the Stanford Community Plan amendments.

**STEPS FOLLOWING APPROVAL**

Upon priority processing, the Office of the Clerk of the Board is requested to notify Rob Eastwood and Bhama Ashok in the Department of Planning and Development.

Parties to Agreement

Legal notices and invoices pertaining to this Agreement shall be sent to the appropriate contact person listed below. Notices shall be in writing and served either by personal delivery or sent by certified or registered mail, postage prepaid, addressed as follows. Notice shall be deemed effective on the date that the notice is personally delivered or, if mailed, three (3) days after deposit in the mail. Either party may designate a different person and/or address for the receipt of notices by sending written notice to the other party, which shall not require an amendment to this Agreement.

between April 2018 and November 2019, M-Group supported the County in project planning management services, in processing Stanford University's General Use Permit (GUP), whose application was submitted in late 2016. In connection with the GUP's 2019 Planning Commission and Board of Supervisors public hearings, amendments to the Stanford Community Plan were considered as timely and necessary, with Board action anticipated as part of the Board's action on the GUP. When Stanford University withdrew the GUP application in November 2019, the work on updating the Stanford Community Plan was left incomplete. In February 2020, the Board referred the Administration to resume Community Plan updates as the first phase of a broader update to the County's General Plan. The Board had previously considered the benefits of a continued engagement with M-Group, which played an instrumental role in the research, analysis, and public presentation of potential Community Plan amendments during the GUP process. Stanford University will not be invoiced for any portion of this Amendment.

Additional Scope of Services:
Updates to the Stanford University Community Plan for the County of Santa Clara

Metropolitan Planning Group (M-Group) shall provide the following services, outlined below, to continue assisting the County of Santa Clara ("County") with preparing updates to the Stanford University Community Plan ("Stanford Community Plan" or SCP) for Board of Supervisors consideration. The County requests the continued consulting services of M-Group in the policy planning and community engagement process for the first comprehensive update of the SCP since its development in 2000.

This scope of services will provide project management and expert processing of the Stanford Community Plan update project. The tasks and deliverables of this project are described below, followed by the fee schedule and rate sheet.

Task 1: Project Management

The M-Group Project Manager will manage the project to effectively and efficiently achieve the desired outcome while meeting pre-determined milestones by utilizing the following tasks:

- Establish an effective working relationship with County staff and other project consultants;
- Coordination between County staff and environmental consultant;
- Lead for processing with established timelines;
- Facilitate and coordinate project meetings;
- Maintain an organized and complete project file to be retained by the County;
- Provide updates to the responsible County contact staff;
- Be responsive to County requests for information and project updates;
- Ensure overall quality of work;
- Effectively manage subconsultants as necessary; and
- Seek guidance from County staff or Counsel as needed.

This task includes time for administration and coordination with other consultants, as needed, for specialized studies including Childcare, Graduate Student Housing, and Municipal Services. Additional budget would be requested for any subconsultants necessitated by the above analyses.

Deliverables:

- Meeting agendas and minutes for coordination meetings
Task 2: Project Initiation

M-Group will determine essential updates to the Stanford Community Plan, establish a project schedule with critical milestones, and attend project coordination meetings.

Deliverables:
- Outline of SCP updates
- Project schedule

Task 3: Project Processing

The Project Manager shall process the SCP update in compliance with applicable codes, including the County’s General Plan, Ordinance code requirements, policies, guidelines, plans, related documents, and state and federal laws as they apply to general plan updates. M-Group will diligently apply these rules, regulations, and procedures.

Task 4: Public Outreach

The Project Manager, with assistance from other M-Group team members, shall organize and implement all County-led community engagement efforts including coordination with the relevant Board of Supervisors Office, as necessary. This effort may include community meetings, focus groups, presentations to community groups, coordination with other jurisdictions’ elected officials and/or staff, and online noticing. M-Group will respond to public inquiries regarding the project via telephone, email, or meetings when necessary. M-Group will organize public comments, and coordinate responses when necessary.

Deliverables:
- Community meeting presentations, agendas, and sign-in sheets
- Public notices

Task 5: Preparation of SCP Chapters

M-Group shall prepare the updated Stanford Community Plan Chapters. This preparation shall include Drafts for County Administration to review, revisions of the Administration-reviewed draft, revisions based on public review, and preparation of the final SCP. Changes will include updating background text, figures, and policies/implementations, as needed.

Deliverables:
- Admin Draft SCP Chapters
- Public Review Draft SCP Chapters
- Final SCP Chapters
Task 6: CEQA/Environmental Review

The Project Manager shall assess the project in compliance with the California Environmental Quality Act (CEQA). The Project Manager will coordinate the effort to oversee the County-contracted EIR Consultants and coordinate the effort to make any needed revisions to the environmental document(s). The Project Manager shall coordinate inter-staff meetings with relevant County staff, coordinate any applicable CEQA noticing, assist with collecting and organizing community comments, and manage the process in the preparation of the response to comments and final environmental document(s). This shall require very close coordination with both County staff and the consultant teams.

Deliverables:

- Meeting agendas and minutes for coordination meetings

Task 7: Study Sessions and Public Hearings

M-Group shall utilize the County’s internal report processing protocols to initiate and prepare reports, including all applicable attachments. M-Group shall draft staff reports following the County’s templates. The team will follow guidance and instruction from the County contact on format and report-related procedures. The Project Manager shall proactively monitor report review progress and adhere to report timelines, as directed. M-Group shall be responsible for preparing PowerPoint presentations and submitting for review to the County contact in advance of the meeting. The Project Manager shall attend all County meetings as required and anticipate attending Planning Commission; Housing, Land Use, Environment and Transportation Committee (HLUET); and Board of Supervisors meetings.

Deliverables:

- Planning Commission Study Session Staff Report and Presentation
- Planning Commission Public Hearing Staff Report and Presentation
- Board of Supervisors Study Session Staff Report and Presentation
- Board of Supervisors Public Hearing Staff Report and Presentation

DATE: April 7, 2020
TO: Board of Supervisors
FROM: Don Rocha, Director, Parks and Recreation Department
SUBJECT: Amendments to Parks Department Pay Station Program

RECOMMENDED ACTION
Consider recommendations relating to the pay station program in Santa Clara County Parks.

Possible action:

a. Approve Second Amendment to Agreement with Caracal Enterprises, LLC, dba VenTek International, relating to providing pay station services in County parks increasing the maximum contract amount by $250,000 from $700,000 to $950,000, and extending the agreement for a 24-month period through June 30, 2022, that has been reviewed and approved by County Counsel as to form and legality. An exception to Board of Supervisors Policy 5.4.5.4, Length of Term of Contracts, has been approved by the Office of Countywide Contracting Management.

b. Approve Fourth Amendment to Agreement with Urban Park Concessionaires relating to providing service and maintenance of automated pay stations in County parks increasing the maximum contract amount by $500,000 from $1,948,360 to $2,448,360, and extending the agreement for a 24-month period through June 30, 2022, that has been reviewed and approved by County Counsel as to form and legality. An exception to Board of Supervisors Policy 5.4.5.4, Length of Term of Contracts, has been approved by the Office of Countywide Contracting Management.

COMMITTEE RECOMMENDATIONS
Not applicable.

FISCAL IMPLICATIONS
Costs are fully covered by the Parks and Recreation Department’s Operating fund. Expenses incurred in FY2021 and FY2022 will be budgeted and funded from the County of Santa Clara Parks and Recreation Department (“Parks” or “Department”) Park Charter Fund.
CONTRACT HISTORY

History with Caracal Enterprises, LLC, dba VenTek International (“VenTek”)

At the January 11, 2011 meeting of the Board of Supervisors (Item No. 62), the Board approved a Lease Purchase / Agreement with VenTek, a pay station manufacturer, for the procurement of the new pay stations in County parks. The agreement provided for the procurement, programming, data processing, and extended warranty provisions in a price list for services and supplies. The agreement also provided a purchase option for the pay stations. After an initial beta-testing period, the Department exercised the option to purchase the pay stations in 2012. The Board approved a contract with a not to exceed amount of $556,000 for the period January 12, 2011 through June 30, 2018.

At the June 19, 2018 meeting of the Board of Supervisors (Item No. 163), the Board approved Amendment 1 to increase the Maximum Compensation Limit (MCL) from $556,000 to $700,000, and extend the term of the agreement to June 30, 2020, Legislative File No. 89692.

History with Urban Park Concessionaires (“UPC”)

At the November 8, 2011 meeting of the Board of Supervisors (Item No. 48), the Board approved an agreement with UPC to provide service and maintenance of the automated pay stations in County parks for a not to exceed amount of $661,752 for the period December 1, 2011 through November 30, 2014. The agreement provided a renewal option for one 24-month period in an amount not to exceed $458,902 with a total Maximum Compensation Limit (MCL) of $1,120,654 from December 1, 2014 through November 30, 2016. The Board also approved delegation of authority to the Director of Parks to execute an option to extend the agreement following approval by County Counsel as to form and legality and approval by the Office of the County Executive.

On May 18, 2014, the Department exercised the option and administratively extended the term of agreement through November 30, 2016 with Amendment 1, which the Board considered on April 12, 2016.

At the April 12, 2016 meeting of the Board of Supervisors (Item No. 86), the Board approved Amendment 2 to the agreement, extending the term of the contract through June 30, 2018, to align with the expiration date of the County's Lease Purchase / Agreement with VenTek, and increasing the MCL by $356,250 from $1,120,654 to $1,476,904.

At the June 19, 2018 meeting of the Board of Supervisors (Item No. 163), the Board approved Amendment 3 increasing the MCL by $471,456 from $1,476,904 to $1,948,360, and extending the term of the agreement through June 30, 2020, Legislative File No. 89692.

REASONS FOR RECOMMENDATION

Exception to Board Policy Relating to Maximum Five-Year Contract Terms

Pursuant to Board Policy 5.4.5.4, exceptions to the maximum five-year term of contracts must be approved by Office of Countywide Contracting Management (“OCCM”) Attached to this Legislative File are copies of OCCM’s approval of the exceptions for both agreements.
The Department requested the exceptions to the five-year term of contracts as the pay stations are still operational and are anticipated to remain serviceable for several years after the June 30, 2020 expiration dates of both agreements. The Department wishes to continue using the pay stations to generate revenue from park entrances, boating, camping, and annual pass fees.

**Reasons for Approval of Amendments**

The Department recommends concurrently extending the contract terms with VenTek and UPC for 24-months through June 30, 2022 because it is beneficial financially and in the best interest of the County. It is imperative that the term of the agreement with VenTek match the term of the agreement with UPC to maintain the level of service provided to park visitors.

In order for the pay stations to remain functional, the Department requires the services of both VenTek and UPC. The VenTek hardware, software, and warranty is proprietary. No other company can provide the ongoing warranty, accompanying services, and technical support to maintain the pay stations. While VenTek provides the necessary data hosting, transaction processing, internet connectivity, and warranties for the pay stations, UPC services and maintains the pay stations. The existing service providers are performing to the satisfaction of the Department. Several reasons necessitate amendment of the contracts:

First, due to current uncertainties relating to the Department’s fee collection program, replacing the service providers at this time is not an efficient use of County resources and could result in a disruption of service.

Second, the Department is in the process of procuring a new reservation system which will need to correlate closely to any changes in the fee collection/pay station program. In addition, the Department also evaluated fee collection options, capabilities of new technology, and pricing strategies following the recommendations of a consultant-led vehicle entry analysis, pricing and cost recovery plan. The Department needs to understand the full impacts of the change in the reservations system and the requirements of any changes in pricing strategy to determine the direction of future fee collection methods.

Third, the Department is in a process to issue a Request for Proposal ("RFP") for both the pay station services and the pay station equipment/fee collection system. This extension will provide the Department sufficient time to issue the RFP, complete the competitive procurement process, negotiate the contract(s) for needed services and equipment, and allow time for the ease of transfer from the old to the new fee collection system.

Extending the agreements through June 2022 will allow the Department to understand the capabilities and constraints of a reservations system, and requirements of the pricing strategy. This will enable the Department to implement the new pay station/fee collection system and allow a seamless transition from the current pay stations to a new fee collection without any disruption in service.

**CHILD IMPACT**

The recommended action will have no/neutral impact on children and youth.

**SENIOR IMPACT**

The recommended action will have no/neutral impact on seniors.
SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
The Department owns 19 pay stations, which are used to collect park user fees in County parks. Parks purchased the pay stations in 2012 after an initial lease. The Department collects approximately 30% of park user fees through the pay stations. More than one million dollars ($1,001,908) was collected through the pay stations in FY2019. Approximately 35% of annual pass purchases, 75% of vehicle entry fees, and 35% of boat launch fees were collected through the pay stations. The pay stations are the primary method of fee collection at several County parks, accounting for 84% of the fees collected for park use at Lexington Reservoir and 77% of the fees collected at Santa Teresa.

In 2016, the Department completed an analysis related to revenue collection strategies including fee collection and pricing differential. The analysis outlined recommended alternative payment systems or deployment of newer fee collection technologies. The Department is currently in the process of procuring a new reservation system, which would ideally correspond to the pay stations and/or other type of technology which may be obtained in the future. Additionally, the Department is in the process of testing differential pricing according to the capabilities of the pay stations and the existing reservation system to understand the impact on park visitors and fiscal sustainability.

Since the reservations system and any changes in pricing strategies relate directly to the pay station program, it is in the best interest of the County to continue with the existing pay stations until the new reservations system is fully implemented and the potential pricing strategies can be vetted.

CONSEQUENCES OF NEGATIVE ACTION
Failure to approve this action may result in a loss of revenue to the Department and an interruption in the continuity of service at the pay stations.

STEPS FOLLOWING APPROVAL
Upon processing:

1. Notify Metka Valh, Parks and Recreation Department.

2. Send a copy of the executed Amendment to the VenTek Agreement to the following:
   VenTek International
   1260 Holm Road, Suite A
   Petaluma, CA 94954
   Attn: Contracts Administrator, Lori Dinatale

3. Send a copy of the executed Amendment to the UPC Agreement to the following:
   Urban Park Concessionaires
   2220 Boynton Ave Suite C
Fairfield, CA 94533
Attn: Contracts Administrator, Kris Koeberer

**SECTION III**

Mark appropriate box for Contract's Signature Authority

- [ ] Board of Supervisors
- [ ] Delegated to Department Head or designee
- [ ] Director of Procurement

Revision Date: January 2020
## SECTION IV

Pursuant to Board Policy 5.4.5.4, EXCEPTIONS to the maximum 5-year term limit for Professional Services are listed below. Select the appropriate exception(s).

1. When the funding source for a contract provides that the contract term must exceed five years. Such funding sources may include the State or Federal government or an outside funding source (private or foundation grant).
2. When the County "piggybacks" on another jurisdiction's contract that is more than five years or that is subsequently extended for more than the initial five-year term.
3. When a specific law, code or regulation requires that a particular type of contract include certain contract terms(s) that exceed 5 years. Please provide a specific citation below.
4. Contracts for goods, which includes equipment, that have a lifespan that exceeds five years and the benefits to the County of exceeding a five-year term outweigh the benefits of creating and executing a new contract after five years.
5. Contracts for technology software or hardware that have a lifespan exceeding five years and the benefits to the County of exceeding a five-year term outweigh the benefits of creating and executing a new contract after five years.
6. Proprietary maintenance contracts.
7. Contracts for project-specific professional services where the length of the project is expected to exceed five years.
8. Revenue contracts.
9. Contracts with other governmental entities.
10. When an Agency/Department is otherwise able to justify that it is in the County's best interest to exceed the maximum 5-year term requirement. For example, an Agency/Department is able to demonstrate that the financial and/or programmatic impact on the County would be significant if the contract term does not exceed the maximum 5-year term requirement [Specific rationale must be provided in Section V, below].

## SECTION IV continued

Provide BRIEF but CONCISE details to validate the EXCEPTION(S) selected above

The County of Santa Clara Parks and Recreation Department ("Department") purchased the pay stations in 2012 from Caracal Enterprises LLC dba VenTek International ("VenTek") after an initial lease. Currently, the Department owns 19 pay stations, which are used to collect park user fees in the County parks. The life span of the pay stations is longer than the term of the agreement. The pay stations are still operational and the Department wishes to continue using them to generate revenue from park entrances, boating, camping, and annual pass fees until a new system in place. The VenTek's hardware, software, and warranty is proprietary. No other company can provide the ongoing warranty, accompanying services, and technical support to maintain the pay stations.

The Department is in a process of procuring a new reservation system, which will need to correlate closely to any changes in the fee collection/pay station program. Additionally, the Department has evaluated fee collection options, capabilities of new technology, and pricing strategies following the recommendations of a consultant-led vehicle entry analysis and pricing and cost recovery plan. The Department needs to understand the full impacts of the change in the reservations system and the requirements of any changes in pricing strategy to determine the direction of future fee collection methods.

The Department therefore seeks to extend the agreement for 24 months, through June 30, 2022. This extension will allow the Department a sufficient time to issue RFP, complete the competitive procurement process for a new pay station/fee collection system, negotiate a contract for needed services/equipment, and for the ease of transfer from the old to a new fee collection system.
SECTION V

If relying upon Exception (10), the OCCM or the Director of Procurement, as applicable, has discretion to approve a contract term for more than five years. Provide a narrative explanation below:

A. BACKGROUND (Describe the good or service procured)

The Department procured VenTek services through an open competitive process in 2011 to provide pay stations, warranties, and related technical support services. Though the Lease/Purchase Agreement the Department purchased the pay stations in 2012 after an initial lease. VenTek’s services include: transaction processing, PCI-compliant electronic payment processing, pay station programming, data communication connectivity, data storage and retrieval, assess to remote management web application software, software upgrades, extended warranties, and ongoing technical support. The Department owns 19 pay stations.

The Department collects approximately 30% of park user fees through the pay stations. More than one million dollars ($1,001,908) was collected through the pay stations in Fiscal Year 2019. Approximately 35% of annual pass purchases, 75% of vehicle entry fees, and 35% of boat launch fees were collected through the pay stations. The pay stations are the primary method of fee collection at several County parks, accounting for 84% of the fees collected for park use at Lexington and 77% of the fees collected for Santa Teresa for instance.

The Department is in a process to issue a Request for Proposal (RFP) for both the pay station services and the pay station equipment. This extension will allow the Department sufficient time to issue RFP, complete the procurement process, negotiate the contract for needed services and equipment and provide time for ease of transfer from old to the new fee collection services.

B. CONTRACT HISTORY, if applicable. (How was the contract awarded? What were the events that occurred prior to the end of the contract term?)

1) The Lease/Purchase Agreement with VenTek International was approved by the Board of Supervisors on January 11, 2011, following a competitive process.

2) The County elected to exercise the option to purchase the pay stations on April 27, 2012. The contract term was from January 12, 2011 through June 30, 2018.

3) The Agreement was amended (Amendment #1) by the County Board of Supervisors on June 19, 2018 through June 30, 2020.
C. REASONS FOR CONTRACT TERM EXTENSION

The current agreement with extended service and warranty provisions will expire on June 30, 2020. The Department-owned pay stations will continue to remain functional and will meet the needs of collecting park user fees beyond the current contract end date. The contract extension will provide for the extended warranty, technical support, and related services.

In 2016, the Department completed an analysis related to revenue collection strategies including fee collection and pricing differential. The analysis outlined recommended alternative payment systems or deployment of newer fee collection technologies. The Department is currently in a process of procuring a new reservation system, which would ideally correspond to the pay stations and/or other type of technology that may be obtained in the future. Additionally, the Department is in the process of testing differential pricing according to the capabilities of the pay stations and the existing reservation system to understand the impact on park visitors and fiscal sustainability.

Since the reservations system and any changes in pricing strategies relate directly to the pay station program, it is in the best interest of the County to continue with the existing pay stations until the new reservations system is fully implemented and the potential pricing strategies can be vetted.

Extending the agreement through June 2022 will allow the Department to understand the capabilities and constraints of the reservations system and requirements of the pricing strategy and to implement the new pay station/fee collection system. In addition, it will allow the Department a seamless transition from the current pay stations to a new fee collection without any disruption to the customers.

D. RECOMMENDATION PLAN TO CURE ISSUE(S) (If applicable)

The Department is in a process to issue RFP for the Fee Collection/Equipment and Services that will incorporate the changes and will include replacing the existing pay stations with newer technology or implementing different methods of fee collection. The RFP will be issued in April/May 2020. The corresponding MAL No. 867 was received and approved by the Board on October 18, 2019.

The Department also posted on November 27, 2019, the Scope of Work on the Industry Comments website Form ID # PRK-11272019-202, which closed on December 14, 2019. No comments were received.

Attachment: VenTek Beyond 5 Year Contract Term Approval (100299: Amendments to Parks Department Pay Station Program)
SECOND AMENDMENT
TO LEASE PURCHASE AGREEMENT
BY AND BETWEEN
THE COUNTY OF SANTA CLARA AND
CARACAL ENTERPRISES LLC (DBA, VENTEK INTERNATIONAL)
FOR AUTOMATED PAY STATIONS IN COUNTY PARKS

This Second Amendment is entered into by and between the COUNTY OF SANTA CLARA, a political subdivision of the State of California (“COUNTY”) and CARACAL ENTERPRISES, LLC, dba VENTEK International, a Delaware limited liability company (“VENTEK”), with its principal place of business located at 1260 Holm Road, Suite A, Petaluma, California 94954, and amends that certain Lease Purchase Agreement (“AGREEMENT”) entered into by and between the COUNTY and VENTEK on January 11, 2011, as amended on June 19, 2018. The COUNTY and VENTEK are each a “Party” and collectively the “Parties” to this Second Amendment.

WHEREAS, the AGREEMENT provides that VENTEK will provide Express and Extended Warranty, Online Connectivity Service, and Data Hosting Services for the pay stations from December 1, 2011 through June 30, 2020 (the “TERM”), for an amount not to exceed $700,000;

WHEREAS, the AGREEMENT provides that VENTEK shall perform certain services and provide certain deliverables, as more fully described in the AGREEMENT terms and conditions; and,

WHEREAS, the Parties mutually desire to amend the AGREEMENT in order to extend the TERM by an additional 24 months, update the warranty fees and terms, and add certain contract terms to reflect new COUNTY requirements and policies.

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree to the foregoing and as follows:

I. AMENDMENTS.

A. Section 2.4 (Definitions) is amended and replaced with the following (all sub-sections of section 2.4 including sub-section 2.4.1. and 2.4.2. shall remain unchanged):

2.4. The “TERM” of this AGREEMENT shall be from January 11, 2011 through June 30, 2022, unless the AGREEMENT is terminated sooner, as provided below.

B. Section 7.1.2 (Express and Extended Warranty) is amended and replaced with the following language:

7.1.2. At the option of the COUNTY, and as exercised in or any subsequent years of this AGREEMENT, VENTEK will provide an Extended Warranty of the express warranty described in Section 7.1 on an annual basis for the nineteen (19) PAY STATIONS, at the guaranteed rates below:

<table>
<thead>
<tr>
<th>Warranty Fee</th>
<th>Warranty Period</th>

</thead>
<tbody>
<tr>
<td>$0</td>
<td>1/11/2011-4/30/2012</td>
</tr>
<tr>
<td>$16,200</td>
<td>5/1/2012-4/30/2013</td>
</tr>
</tbody>
</table>
C. Section 24 is amended and replaced with the following:

24.0 Maximum Compensation Limit. The maximum contract amount payable under this AGREEMENT for the entire TERM is NINE HUNDRED FIFTY THOUSAND DOLLARS ($950,000).

D. Sections 23.4 – 23.4.3.1 are amended and replaced with the following language:

23.4.1. “COUNTY Data” shall mean data and information received by VENTEK from COUNTY. COUNTY Data includes any information or data that is transported across a COUNTY network, or that resides in a COUNTY-owned information system, or on a network or system under the control and management of a contractor for use by COUNTY. “COUNTY Confidential Information” shall include all material, non-public information (including material, non-public COUNTY Data) appearing in any form (including, without limitation, written, oral or displayed), that is disclosed, directly or indirectly, through any means of communication by COUNTY, its agents or employees, to VENTEK, its agents or employees, or any of its affiliates or representatives.

23.4.2. VENTEK shall not acquire any ownership interest in COUNTY Data (including COUNTY Confidential Information). As between VENTEK and COUNTY, all COUNTY Confidential Information and/or COUNTY Data shall remain the property of the COUNTY. VENTEK shall not, without COUNTY’s written permission, use or disclose COUNTY Data (including COUNTY Confidential Information) other than in the performance of its obligations under this AGREEMENT.

23.4.3. VENTEK shall defend, indemnify and hold COUNTY harmless against any claim, liability, loss, injury or damage arising out of, or in connection with, the unauthorized use, access, and/or disclosure of information by VENTEK and/or its agents, employees, or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the COUNTY.

23.4.3.1 VENTEK shall be responsible for establishing and maintaining an information security program that is designed to ensure the security and confidentiality of COUNTY Data, protect against any anticipated threats or hazards to the security or integrity of COUNTY Data, and protect against unauthorized access to or use of COUNTY Data that could result in substantial harm or inconvenience to COUNTY or any end users. Upon termination or expiration of this Agreement,
VENTEK shall seek and follow COUNTY’s direction regarding the proper disposition of COUNTY Data.

23.4.3.2. VENTEK shall take appropriate action to address any incident of unauthorized access to COUNTY Data, including addressing and/or remediying the issue that resulted in such unauthorized access, and notifying COUNTY by phone or inwriting within 24 hours of any incident of unauthorized access to COUNTY Data, or any other breach in VENTEK’s security that materially affects COUNTY or end users. If the initial notification is by phone, VENTEK shall provide a written notice within 5 days of the incident. VENTEK shall be responsible for ensuring compliance by its officers, employees, agents, and subcontractors with the confidentiality, privacy, and information security requirements of this AGREEMENT. Should COUNTY Confidential Information and/or legally protected COUNTY Data be divulged to unauthorized third parties, VENTEK shall comply with all applicable federal and state laws and regulations, including but not limited to California Civil Code sections 1798.29 and 1798.82 at VENTEK’s sole expense. VENTEK shall not charge COUNTY for any expenses associated with VENTEK’s compliance with these obligations.

F. Section 23.6 (California Public Records Act) is replaced in its entirety with the following language:

The COUNTY is a public agency subject to the disclosure requirements of the California Public Records Act (“CPRA”). If VENTEK’s proprietary information is contained in documents or information submitted to COUNTY, and VENTEK claims that such information falls within one or more CPRA exemptions, VENTEK must clearly mark such information “CONFIDENTIAL AND PROPRIETARY,” and identify the specific lines containing the information. In the event of a request for such information, the COUNTY will make best efforts to provide notice to VENTEK prior to such disclosure. If VENTEK contends that any documents are exempt from the CPRA and wishes to prevent disclosure, it is required to obtain a protective order, injunctive relief or other appropriate remedy from a court of law in Santa Clara County before the COUNTY is required to respond to the CPRA request. If VENTEK fails to obtain such remedy within the time the COUNTY is required to respond to the CPRA request, COUNTY may disclose the requested information.

VENTEK further agrees that it shall defend, indemnify and hold COUNTY harmless against any claim, action or litigation (including but not limited to all judgments, costs, fees, and attorney’s fees) that may result from denial by COUNTY of a CPRA request for information arising from any representation, or any action (or inaction), by VENTEK.

G. Sections 23.15 through 23.19 are added to the AGREEMENT:

23.15. Governing Law, Venue.
This AGREEMENT has been executed and delivered in, and shall be construed and enforced in accordance with, the laws of the State of California. Proper venue
for legal action regarding this AGREEMENT shall be in the County of Santa Clara.

23.16. **Assignment.**
No assignment of this AGREEMENT or of the rights and obligations hereunder shall be valid without the prior written consent of the other Party.

23.17. **Assignment of Clayton Act, Cartwright Act Claims.**
VENTEK assigns to the COUNTY all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by VENTEK for sale to the COUNTY pursuant to this AGREEMENT.

23.18. **Waiver.**
No delay or failure to require performance of any provision of this AGREEMENT shall constitute a waiver of that provision as to that or any other instance. Any waiver granted by a Party shall be in writing and shall apply to the specific instance expressly stated.

23.19. **Indemnification.**
VENTEK shall indemnify, defend, and hold harmless the COUNTY, its officers, agents, and employees, from any claim, liability, loss, injury, or damage, arising out of or in connection with, performance of this AGREEMENT by VENTEK and/or its agents, employees, or subcontractors, excepting only loss, injury, or damage caused by the sole gross negligence or willful misconduct of personnel employed by the COUNTY. It is the intent of the Parties to this AGREEMENT to provide the broadest possible coverage for the COUNTY. VENTEK shall reimburse the COUNTY for all costs, attorneys’ fees, expenses, and liabilities incurred with respect to any litigation in which VENTEK is obligated to indemnify, defend, and hold harmless the COUNTY under this AGREEMENT.

III. **COMPENSATION.** Except as expressly stated herein above, nothing in this Second Amendment authorizes or approves an increase in the compensation limit set out in the AGREEMENT.

IV. **DEFINITIONS.** Capitalized terms used in this Second Amendment without definition shall have the same meaning ascribed to such terms in the AGREEMENT.

V. **ENTIRE AGREEMENT; AMENDMENT.** Except as modified by this Second Amendment, all other terms, conditions, and stipulations of the AGREEMENT remain in full force and effect. The AGREEMENT, as amended herein, constitutes the full and complete agreement and understanding by and between the Parties relative to the subject matter of the AGREEMENT and shall supersede all prior communications, representations, and understandings or agreements, if any, whether oral or written, concerning the same subject matter and may not be modified or amended in whole or in part, except by a written instrument executed by all Parties hereto. Any prior or contemporaneous oral or written representations
relating to the same subject matter is hereby revoked and extinguished by the AGREEMENT, as amended herein.

VI. CONSTRUCTION. This Second Amendment shall not be construed more strongly against either Party regardless of who is more responsible for its preparation.

VII. SIGNING AUTHORITY. By signing below, each signatory for a Party warrants and represents that he/she executed this Second Amendment in his/her authorized capacity, that he/she has the authority to bind the entity or person for whom he/she signs to contractual obligations and that, by his/her signature, the entity or person on behalf of which he/she acted executed this Second Amendment.
IN WITNESS WHEREOF, this Second Amendment is effective as of the last date signed by all the Parties herein below (“Effective Date”).

## SECTION III

Mark appropriate box for Contract's Signature Authority

- [ ] Board of Supervisors
- [ ] Delegated to Department Head or designee
- [ ] Director of Procurement

Rev. Date: January 2020
SECTI2N IV
Pursuant to Board Policy 5.4..5.4, EXCEPTIONS to the maximum 5-year term limit lor Professional Services are listed below. Select the appropriate exception(s).

1. When the funding source for a contract provides that the contract term must exceed five years. Such funding sources may include the State or Federal government or an outside funding source (private or foundation grant).

2. When the County "piggybacks" on another jurisdiction's contract that is more than five years or that is subsequently extended for more than the initial five-year term.

3. When a specific law, code or regulation requires that a particular type of contract include certain contract terms(s) that exceed 5 years. Please provide a specific citation below.

4. Contracts for goods, which includes equipment, that have a lifespan that exceeds five years and the benefits to the County of exceeding a five-year term outweigh the benefits of creating and executing a new contract after five years.

5. Contracts for technology software or hardware that have a lifespan exceeding five years and the benefits to the County of exceeding a five-year term outweigh the benefits of creating and executing a new contract after five years.

6. Proprietary maintenance contracts.

7. Contracts for project-specific professional services where the length of the project is expected to exceed five years.

8. Revenue contracts.

9. Contracts with other governmental entities.

10. When an Agency/Department is otherwise able to justify that it is in the County's best interest to exceed the maximum 5-year term requirement. For example, an Agency/Department is able to demonstrate that the financial and/or programmatic impact on the County would be significant if the contract term does not exceed the maximum 5-year term requirement. [Specific rationale must be provided in Section V, below.]

SECTION IV continued
Provide BRIEF but CONCISE details to validate the EXCEPTION(S) selected above

The Department purchased the pay stations in 2012 after an initial lease. The pay stations are still operational and the Department wishes to continue using them to generate revenue from park entrances, boating, camping, and annual pass fees.

The Department has a Service Agreement ("Agreement") with Urban Park Concessionaires ("UPC") to service the pay stations. The Department seeks to extend the agreement with UPC for 24 months, through June 30, 2022. Additionally, the Department is concurrently seeking to extend the agreement with the pay station manufacturer, VenTek International, through June 30, 2022 for the necessary data hosting, transaction processing, internet connectivity, and warranties for the pay stations to remain functional. It is imperative that the term of the Agreement with UPC match the term of the agreement with VenTek International to maintain the level of service provided to park visitors.

In addition, the Department is in the process of procuring a new reservation system which will need to correlate closely to any changes in the pay station program. The Department has evaluated fee collection options, capabilities of new technology, and pricing strategies following the recommendations of a consultant-led vehicle entry analysis and pricing and cost recovery plan. The Department needs to understand the full impacts of the change in the reservations system and the requirements of any changes in pricing strategy to determine the direction of future fee collection methods.

The Department therefore seeks to extend the agreement for 24 months, through June 30, 2022. This extension will allow the Department sufficient time to issue RFP, complete competitive procurement process for a new pay station/fee collection system, negotiate a contract for needed services/equipment and provide time for the ease of transfer from the old to a new fee collection system.
SECTION V

If relying upon Exception (10), the OCCM or the Director of Procurement, as applicable, has discretion to approve a contract term for more than five years. Provide a narrative explanation below:

A. BACKGROUND (Describe the good or service procured)

The Department procured UPC services through an open competitive process in 2011 for servicing VenTek International pay stations in the park setting. UPC provides fee collection services and maintains the Department-owned pay stations. The services include collection and accounting of revenue, credit card and bank statement reconciliation, and preparation of reports that meet the Department's accounting needs.

The UPC provided services and maintenance require a specialized knowledge related to cleaning, repairing or replacing bill acceptors, credit card readers, receipt rolls, coin hoppers, solar panels, and associated electrical and programming on the pay stations.

The Department owns 19 pay stations, which are used to collect park user fees in the County parks. The Department collects approximately 30% of park user fees through the pay stations. More than one million dollars ($1,001,908) was collected through the pay stations in Fiscal Year 2019. Approximately 35% of annual pass purchases, 75% of vehicle entry fees, and 35% of boat launch fees were collected through the pay stations. The pay stations are the primary method of fee collection at several County parks, accounting for 84% of the fees collected for park use at Lexington and 77% of the fees collected for Santa Teresa for instance.

B. CONTRACT HISTORY, if applicable. (How was the contract awarded? What were the events that occurred prior to the end of the contract term?)

The UPC Service Agreement was approved by the Board of Supervisors (BOS) on November 8, 2011 following a competitive process. The Agreement was amended three times:
1) Amendment #1 May 18, 2014;
2) Amendment #2 April 12, 2016;
3) Amendment #3 June 19, 2018 to align with the expiration date of the County's Lease Purchase Agreement with the manufacturer of the pay stations.
C. REASONS FOR CONTRACT TERM EXTENSION

The current Agreement with UPC will expire on June 30, 2020. The Department-owned pay stations will continue to remain functional and will meet the needs of collecting park use fees beyond the current contract end date. The contract extension will provide the needed fee collection services and pay station maintenance.

In 2016, the Department completed an analysis related to revenue collection strategies including fee collection and pricing differential. The analysis outlined alternative payment systems or deployment of newer fee collection technologies. The Department is currently in a process of procuring a new reservation system, which would ideally correspond to the pay stations and/or other type of technology that may be obtained in the future. Additionally, the Department is in the process of testing differential pricing according to the capabilities of the pay stations and the existing reservation system to understand the impact on park visitors and fiscal sustainability.

Since the reservations system and any changes in pricing strategies relate directly to the pay station program, it is in the best interest of the County to continue with the existing pay station program until the new reservations system is fully implemented. The UPC is performing to the satisfaction of the Department.

Extending the agreement through June 2022 will allow the Department to understand the capabilities, constraints of the reservations system, and requirements of the pricing strategy. In addition, this will allow the Department a seamless transition from the current pay stations to a new fee collection without any disruption to the customers.

D. RECOMMENDATION PLAN TO CURE ISSUE(S) (If applicable)

The Department is in a process to issue RFP for the Fee Collection/Equipment and Services that will incorporate the changes and will include replacing the existing pay stations with newer technology or implementing different methods of fee collection.

The RFP will be issued in April/May 2020. The corresponding MAL No. 867 was received and approved by the Board on October 18, 2019.

The Department also posted on November 27, 2019, the Scope of Work on the Industry Comments website Form ID # PRK-11272019-202, which closed on December 14, 2019. No comments were received.

FOURTH AMENDMENT
TO SERVICE AGREEMENT
BY AND BETWEEN

THE COUNTY OF SANTA CLARA AND URBAN PARK CONCESSIONAIRES FOR SERVICING PAY STATIONS IN COUNTY PARKS

This Fourth Amendment is entered into by and between the COUNTY OF SANTA CLARA, a political subdivision of the State of California ("COUNTY") and URBAN PARK CONCESSIONAIRES, a California corporation ("URBAN PARK” or “UPC”), with its principal place of business located at 2150 Main Street, Suite #7, Red Bluff, California 96080, and amends that certain Service Agreement ("AGREEMENT") entered into by and between the COUNTY and URBAN PARK on December 1, 2011. The AGREEMENT was previously amended on May 18, 2014 ("First Amendment"), on April 12, 2016 ("Second Amendment"), and on June 19, 2018 ("Third Amendment"). The COUNTY and UPC are each a “Party” and collectively the “Parties” to this Fourth Amendment.

WHEREAS, the AGREEMENT, as previously amended, provides that URBAN PARK will service PAY STATIONS in COUNTY Parks from December 1, 2011 through June 30, 2020 (the “TERM”), for an amount not to exceed $1,948,360; and

WHEREAS, during the TERM, the AGREEMENT provides that URBAN PARK shall perform certain services and provide certain deliverables, as more fully described in the AGREEMENT terms and conditions; and,

WHEREAS, the Parties mutually desire to amend the AGREEMENT in order to extend the TERM by an additional 24 months, update the Service Fees, and add certain contract terms to reflect new COUNTY requirements and policies.

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree to the foregoing and as follows:

I. AMENDMENTS.

A. Section 3.1 of Section 3 (Term of AGREEMENT) is amended and replaced with the following language (all sub-sections of section 3.1, including sub-sections 3.1.1 and 3.1.2, shall remain unchanged):

The TERM of this AGREEMENT shall be from December 1, 2011 through June 30, 2022, unless the AGREEMENT is terminated sooner as provided elsewhere in this AGREEMENT.

B. Sub-Section 7.1 of Section 7.0 (Service Fees) of the AGREEMENT is amended and replaced with the following:

The maximum compensation payable under this AGREEMENT for the entire TERM is TWO MILLION FOUR HUNDRED FORTY EIGHT THOUSAND THREE HUNDRED SIXTY DOLLARS ($2,448,360).
C. Section 15.3 (Data Security and Ownership) is amended and replaced with the following language:

15.3 County Data.

15.3.1. “COUNTY Data” shall mean data and information received by URBAN PARK from COUNTY. COUNTY Data includes any information or data that is transported across a COUNTY network, or that resides in a COUNTY-owned information system, or on a network or system under the control and management of a contractor for use by COUNTY. “COUNTY Confidential Information” shall include all material, non-public information (including material, non-public COUNTY Data) appearing in any form (including, without limitation, written, oral or displayed), that is disclosed, directly or indirectly, through any means of communication by COUNTY, its agents or employees, to URBAN PARK, its agents or employees, or any of its affiliates or representatives.

15.3.2. URBAN PARK shall not acquire any ownership interest in COUNTY Data (including COUNTY Confidential Information). As between URBAN PARK and COUNTY, all COUNTY Confidential Information and/or COUNTY Data shall remain the property of the COUNTY. URBAN PARK shall not, without COUNTY’s written permission, use or disclose COUNTY Data (including COUNTY Confidential Information) other than in the performance of its obligations under this AGREEMENT.

15.3.3. URBAN PARK shall be responsible for establishing and maintaining an information security program that is designed to ensure the security and confidentiality of COUNTY Data, protect against any anticipated threats or hazards to the security or integrity of COUNTY Data, and protect against unauthorized access to or use of COUNTY Data that could result in substantial harm or inconvenience to COUNTY or any end users. Upon termination or expiration of this Agreement, URBAN PARK shall seek and follow COUNTY’s direction regarding the proper disposition of COUNTY Data.

15.3.4. URBAN PARK shall take appropriate action to address any incident of unauthorized access to COUNTY Data, including addressing and/or remediying the issue that resulted in such unauthorized access, and notifying COUNTY by phone or in writing within 24 hours of any incident of unauthorized access to COUNTY Data, or any other breach in URBAN PARK’s security that materially affects COUNTY or end users. If the initial notification is by phone, URBAN PARK shall provide a written notice within 5 days of the incident. URBAN PARK shall be responsible for ensuring compliance by its officers, employees, agents, and subcontractors with the confidentiality, privacy, and information security requirements of this AGREEMENT. Should COUNTY Confidential Information and/or legally protected COUNTY Data be divulged to unauthorized third parties, URBAN PARK shall comply with all applicable federal and state laws and regulations, including but not limited to California Civil Code sections 1798.29 and 1798.82 at URBAN PARK’s sole expense. URBAN PARK shall not charge COUNTY for any expenses associated with URBAN PARK’s compliance with these obligations.
15.3.5. URBAN PARK shall defend, indemnify and hold COUNTY harmless against any claim, liability, loss, injury or damage arising out of, or in connection with, the unauthorized use, access, and/or disclosure of information by URBAN PARK and/or its agents, employees, or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the COUNTY.

D. Section 15.5 (California Public Records Act) is amended and replaced with the following language:

15.5 California Public Records Act.

The COUNTY is a public agency subject to the disclosure requirements of the California Public Records Act (“CPRA”). If URBAN PARK’s proprietary information is contained in documents or information submitted to COUNTY, and Contractor claims that such information falls within one or more CPRA exemptions, Contractor must clearly mark such information “CONFIDENTIAL AND PROPRIETARY,” and identify the specific lines containing the information. In the event of a request for such information, the COUNTY will make best efforts to provide notice to Contractor prior to such disclosure. If Contractor contends that any documents are exempt from the CPRA and wishes to prevent disclosure, it is required to obtain a protective order, injunctive relief or other appropriate remedy from a court of law in Santa Clara County before the COUNTY is required to respond to the CPRA request. If Contractor fails to obtain such remedy within the time the COUNTY is required to respond to the CPRA request, COUNTY may disclose the requested information.

Contractor further agrees that it shall defend, indemnify and hold COUNTY harmless against any claim, action or litigation (including but not limited to all judgments, costs, fees, and attorney’s fees) that may result from denial by COUNTY of a CPRA request for information arising from any representation, or any action (or inaction), by the Contractor.

E. Sections 15.14 – 15.18 are added as follows:

15.14 Governing Law, Venue.

This AGREEMENT has been executed and delivered in, and shall be construed and enforced in accordance with, the laws of the State of California. Proper venue for legal action regarding this AGREEMENT shall be in the County of Santa Clara.

15.15 Assignment.

No assignment of this AGREEMENT or of the rights and obligations hereunder shall be valid without the prior written consent of the other Party.

URBAN PARK assigns to the COUNTY all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of
goods, materials, or services by URBAN PARK for sale to the COUNTY pursuant to this AGREEMENT.

15.17. Waiver.
No delay or failure to require performance of any provision of this AGREEMENT shall constitute a waiver of that provision as to that or any other instance. Any waiver granted by a Party shall be in writing and shall apply to the specific instance expressly stated.

15.18 Indemnification.
URBAN PARK shall indemnify, defend, and hold harmless the COUNTY, its officers, agents, and employees, from any claim, liability, loss, injury, or damage, arising out of or in connection with, performance of this AGREEMENT by URBAN PARK and/or its agents, employees, or subcontractors, excepting only loss, injury, or damage caused by the sole gross negligence or willful misconduct of personnel employed by the COUNTY. It is the intent of the Parties to this AGREEMENT to provide the broadest possible coverage for the COUNTY. URBAN PARK shall reimburse the COUNTY for all costs, attorneys’ fees, expenses, and liabilities incurred with respect to any litigation in which URBAN PARK is obligated to indemnify, defend, and hold harmless the COUNTY under this AGREEMENT.

II. DEFINITIONS. Capitalized terms used in this Fourth Amendment without definition shall have the same meaning ascribed to such terms in the AGREEMENT.

III. ENTIRE AGREEMENT; AMENDMENT. Except as modified by this Fourth Amendment, all other terms, conditions, and stipulations of the AGREEMENT remain in full force and effect. The AGREEMENT, as amended herein, constitutes the full and complete agreement and understanding by and between the Parties relative to the subject matter of the AGREEMENT and shall supersede all prior communications, representations, and understandings or agreements, if any, whether oral or written, concerning the same subject matter and may not be modified or amended in whole or in part, except by a written instrument executed by all Parties hereto. Any prior or contemporaneous oral or written representations relating to the same subject matter is hereby revoked and extinguished by the AGREEMENT, as amended herein.

IV. CONSTRUCTION. This Fourth Amendment shall not be construed more strongly against either Party regardless of who is more responsible for its preparation.

V. SIGNING WARRANTY. By signing below, each signatory for a Party warrants and represents that he/she executed this Fourth Amendment in his/her authorized capacity, that he/she has the authority to bind the entity or person for whom he/she signs to contractual obligations and that, by his/her signature, the entity or person on behalf of which he/she acted executed this Fourth Amendment.

//
//
IN WITNESS WHEREOF, the Parties have executed this Fourth Amendment effective as of the
last date signed by all the Parties as shown below (“Effective Date”).

TONY LOPRESTI
Deputy County Counsel
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Jeffrey D Draper, Director, Facilities and Fleet
SUBJECT: Report on Emergency Procurement at Jails and Crime Lab

RECOMMENDED ACTION
Receive report from the Facilities and Fleet Department relating to Emergency Procurement to replace the deaerator tank and boilers at the Elmwood Correctional Facility, the Main Jail Intake Gate, and the Crime Lab Exhaust Fan.

FISCAL IMPLICATIONS
Funds for the replacement of the deaerator tank, hot water boilers, and intake gate were available in the FAF budget.

REASONS FOR RECOMMENDATION
Hot Water Boilers at Elmwood
On March 3, 2020, FAF Building Operations Division (BOD) determined two hot water boilers at Elmwood were not functioning properly. BOD contacted San Jose Boiler Works, who already had the required security clearances to work at Elmwood, and they responded immediately. They confirmed that both tanks were not reparable and needed to be replaced to immediately to restore the hot water system’s service to support comfort heating and domestic hot water services. An Emergency Procurement Request was authorized to remove the old boilers and replace them with two new units.

Pursuant to Board Policy section 5.14.3 and County Ordinance Code statute 34-82, FAF is required to report emergency procurement expenses to the Board. The estimated total cost of the replacement/installation of the boilers is $60,000.

Deaerator Tank at Elmwood
On March 8, 2020, BOD determined the deaerator tank that feeds chemically treated water to the Elmwood kitchen was leaking. BOD again contacted San Jose Boiler Works to assist with repairs. San Jose Boiler recommended replacement instead of repair as the unit’s outer shell had rusted through. To ensure this critical system was restored as quickly as possible an Emergency Procurement Request was authorized to remove and replace the unit.
Pursuant to Board Policy section 5.14.3 and County Ordinance Code statute 34-82, FAF is required to report emergency procurement expenses to the Board. The estimated total cost of the replacement/installation of the deaerator tank is $144,000.

**Intake Gate at Main Jail**

On March 13, 2020 the intake gate at the Main Jail failed. Having a secure and functional intake gate is essential to Main Jail safety and security. BOD contacted Vortex Industries, Inc, who held required security clearances to work at the Main Jail. Vortex determined the curtain and channel for the roll-up gate were damaged beyond repair and they needed to be replaced. To ensure normal operations were restored as soon as practicable, an Emergency Procurement Request was authorized to replace the roll-up unit.

Pursuant to Board Policy section 5.14.3 and County Ordinance Code statute 34-82, FAF is required to report emergency procurement expenses to the Board. The estimated total cost of the replacement/installation of the new intake gate is $93,000.

**Crime Lab Exhaust Fan**

On March 17, 2020 BOD was notified that the Exhaust Fan in the Crime Lab was not functioning. The exhaust fan is critical for crime lab operations, as it ensures that the air pressure in the laboratory rooms remains in balance. BOD contacted One Source Engineering, and they confirmed a variable frequency drive on the exhaust fan had burned up and needed to be replaced. To ensure that the normal operation of the exhaust fan would be restored as soon as possible an Emergency Procurement Request was authorized to replace it.

Pursuant to Board Policy section 5.14.3 and County Ordinance Code statute 34-82, FAF is required to report emergency procurement expense to the Board. The estimated total cost of the replacement of the exhaust fan is $8,000.

**CHILD IMPACT**

This action will have no/neutral impact on children and youth.

**SENIOR IMPACT**

This action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

This action will have no/neutral sustainability implications.

**CONSEQUENCES OF NEGATIVE ACTION**

The report would not be received at this time.
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Jeffrey D Draper, Director, Facilities and Fleet
SUBJECT: Advertise for JOC-FAF-2020-01 and JOC-FAF-2020-02

RECOMMENDED ACTION
Consider recommendations relating to Facilities and Fleet Department (FAF) Job Order Contracts (JOCs).
Possible action:

a. Approve the Project, adopt Project Manual, authorize advertisement of Contract Documents for JOC-FAF-2020-01, and direct the Clerk of the Board to open bids on Thursday, May 7, 2020 at 2:00 p.m. in the Office of the Clerk of the Board of Supervisors.

b. Approve the Project, adopt Project Manual, authorize advertisement of Contract Documents for JOC-FAF-2020-02, and direct the Clerk of the Board to open bids on Thursday, May 14, 2020 at 2:00 p.m. in the Office of the Clerk of the Board of Supervisors.

c. Authorize the County Executive, or designee to make clarifications and/or changes, and issue addenda as necessary to the Project Manual and Contract Documents, and/or the advertisement, including the timing of receipt of bids.

FISCAL IMPLICATIONS
Work that may be accomplished using these JOCs would be resourced using Board of Supervisors’ (Board) approved programs and departmental budgets.

REASONS FOR RECOMMENDATION
FAF currently has three JOCs, but one has reached its capacity and the other two’s remaining capacity is insufficient to meet planned and anticipated Backlog Projects (planned building systems replacement), pop-up reimbursable projects, and unplanned emergency repairs. Each of the proposed contracts binds the County to a minimum of $50,000 in contracted work with a maximum contract value of each JOC agreement of roughly $5,000,000 per Public Contract Code Section 20128.5.
Consistent with Board Policy Manual Section 5.7.5.4, each JOC requires the execution of a Project Labor Agreement/Targeted Hiring Agreement (PLA/THA) for any individual project job order issued under the proposed contracts with an engineer’s estimate exceeding $2,000,000. This contract language is consistent with previous versions of JOC agreements, but the Administration is following up on the Finance and Government Operations Committee’s request relating to building trades concerns regarding job order contracting to ensure there is an appropriate application of labor standards.

Of note, FAF has been working with County Counsel to finalize the language for the first best value selection of the Job Order Contract. That work is still in progress and all are working as fast as possible to present the new approach to the Board of Supervisors for their consideration.

**CHILD IMPACT**

This action positively impacts Every Child Safe, Every Child Healthy, Every Child Successful in Learning and Every Child Successful in Life indicators. JOC contracts enable the County to maintain and repair facilities that provide services to children in an efficient and timely manner.

**SENIOR IMPACT**

This action positively impacts seniors. JOC contracts enable the County to maintain and repair facilities that provide services to seniors in an efficient and timely manner.

**SUSTAINABILITY IMPLICATIONS**

This action would have positive sustainability implications. JOC contracts enable the County to execute energy and sustainability related projects in an efficient and timely manner, thereby enhancing the effort to conserve resources and support a sustainable community.

**BACKGROUND**

JOCs are annual contracts that are permitted under the California Public Contract Code to allow local agencies to procure competitively bid maintenance and repair and minor remodel work on a significantly expedited basis rather than using traditional informal and formal bidding procedures. The work, including inspection and acceptance of individual job orders, is performed in the same manner as traditional construction projects. Another advantage is the built-in incentive for construction contractors to perform quality and timely work to receive additional job orders, the issuance of which is at the sole discretion of the County.

The JOC program has been a successful contracting tool for County departments that repair and maintain facilities because of its flexibility and streamlined ordering process.

**CONSEQUENCES OF NEGATIVE ACTION**

The contract documents and JOC advertisement would not be approved at this time.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board will open bids for JOC-FAF-2020-01, at 2:00 p.m. on May 7, 2020 and JOC-FAF-2020-02, at 2:00 p.m. on May 14, 2020 in the Office of the Clerk of the Board and report the results to Kim Huynh and Gerry Zimmerman of FAF.

END OF DOCUMENT 00010
ARTICLE 1 — JOB ORDER CONTRACT – JOC-FAF-2020-01

ARTICLE 2 — NOTICE IS HEREBY GIVEN that sealed Bids will be accepted by the Clerk of the Board of Supervisors of the County of Santa Clara, State of California, in the office of the Clerk of the Board of Supervisors, 10th Floor, East Wing of the County Government Center, 70 West Hedding Street, San Jose, CA, 95110 no later than 2:00 p.m., on May 7, 2020 for Job Order Contract JOC-FAF-2020-01.

ARTICLE 3 —

3.1 THE WORK

The Work will be located at various County facilities within the geographical boundaries of Santa Clara County, in accordance with Bid Documents on file for the Work in the Office of the Clerk of the Board of Supervisors. The contract will be awarded to the successful lowest bidder. Only one (1) bid per Contractor may be submitted.

3.1.1 The Work will consist of:

.1 The Job Order Contract (JOC) is an indefinite quantity contract pursuant to which the Contractor will perform an ongoing variety of individual Projects, consisting of specific construction tasks, at different locations throughout the County. This Contract is for construction work and related services to be performed within a designated area of the County. However, if the need arises, the Owner reserves the right to require the Contractor to work at any location or facility under the jurisdiction of the Owner. The scope of this JOC Contract is for general construction, repair, remodel and other repetitive related work to be performed for the County of Santa Clara Facilities and Fleet Department. The County has published a Construction Task Catalog® (CTC) containing a series of construction tasks with preset Unit Prices. The CTC was developed using experienced labor and high quality materials. All Unit Prices are based on local labor, material and equipment prices including the current prevailing wages and are for the direct cost of construction. The Contractor will bid two sets of two Adjustment Factors to be applied to the Unit Prices. The first set of Adjustment Factors is for performing work in General Facilities and the second for Detention Facilities. Each set of Adjustment Factors will include Adjustment Factors for performing work during Normal Working Hours and a second Adjustment Factor for performing work during Other Than Normal Working Hours. The price of an individual project will be determined by multiplying the preset Unit Prices and the appropriate quantities by the appropriate Adjustment Factor. These Adjustment Factors shall apply to every Pre-priced Task in the Construction Task Catalog®. This Contract will be awarded to the lowest, responsive, responsible bidder. The Other than Normal Working Hours Adjustment Factor must be equal to or greater than the Normal Working Hours Adjustment Factor.

.2 The scope of Work for the Contract will be determined by the Detailed Scopes of Work issued in connection with individual Job Orders. The Contractor is required to complete each Detailed Scope of Work for the Job Order Price within the Job Order Completion Time. The scope of work, for each project will be explained to the Contractor at a Joint Scope Meeting. The County will provide a Request for Job Order Proposal and Detailed Scope of Work to the Contractor. The Contractor will be required to review the Detailed Scope of Work and develop a Job Order Proposal for the Project including a Job Order Price Proposal using appropriate tasks, quantities and the applicable Adjustment Factor, as well as drawings, sketches, a list of subcontractors and suppliers, construction schedule, and other requested documentation. The Job Order Price shall equal the value of the approved Job Order Price Proposal. The value of the Job Order Price Proposal shall be calculated by summing the total of the calculation for each Pre-priced Task (Unit Price \times quantity \times Adjustment Factor) plus the value of all Non Pre-priced Tasks.
The County will review the Contractor’s Proposal in detail and if found to be reasonable and acceptable, a Job Order may be issued. The agreed upon price will be fixed price for the performance of the Detailed Scope of Work.

A Job Order will reference the Detailed Scope of Work and set forth the Job Order Completion Time, and the Job Order Price. The Job Order Price shall be a lump sum, fixed price for the completion of the Detailed Scope of Work. A separate Job Order will be issued for each Project. Extra work, credits, and deletions will be contained in a Supplemental Job Order.

3.2 MINIMUM AND MAXIMUM CONTRACT VALUES

The Minimum Contract Value is $50,000.00 for JOC-FAF-2020-01.

3.2.1 The Contractor has the opportunity to perform Job Orders totaling at least $50,000 during the Contract term. The Maximum Contract Value is $5,000,000.

3.2.2 The Contractor will not be issued Job Orders which in total exceed the Maximum Contract Value. The County does not guarantee the Contractor will receive this volume of Work.

3.3 CONTRACT TIME

3.3.1 The contract term commences on the effective date of the Job Order Contract Notice to Proceed issued by the County.

3.3.2 The term of the Job Order Contract will be either for one year or when issued Job Orders totaling the Maximum Contract Value have been completed, whichever occurs first. All Job Orders must be issued but not necessarily completed within one calendar year of the commencement date of the Contract.

3.3.3 Each Job Order will specify a Job Order Completion Time as stated on the Job Order Notice to Proceed.

3.3.4 All Job Orders issued during the term of this Contract shall be valid and in effect notwithstanding that the Detailed Scope of Work may be performed, payments may be made, and the guarantee period may continue, after such period has expired. All terms and conditions of the Contract apply to each Job Order.

3.4 LIQUIDATED DAMAGES

3.4.1 Agreed Amount of Damages: It is understood and agreed by both parties to the Contract that in case all the Work specified or indicated in the Contract Documents is not completed within the specified limits of the Job Order Completion Time, or within such time limits as extended, damages will be sustained by the County in the event of and by reason of such delay. It is, and will be, impractical and extremely difficult to determine the actual damage which the County will sustain by reason of the delay. It is therefore agreed that the Contractor will pay, at a minimum, to the County the sum of money stipulated per day in the Job Order for each day’s delay in completing the work beyond the time prescribed.

3.4.2 Application of Liquidated Damages and the value of liquidated damages will be determined by the County on a Job Order by Job Order basis. Each Request for Proposal will state whether Liquidated Damages will be applied to an individual Job Order. A typical range for Liquidated Damages is, but not limited to, $50-$3,000.

3.4.3 Owner may withhold Liquidated Damages from payments to the Contractor as such damages
accrue, or, at Owner’s discretion, withhold Liquidated Damages from any payments due or that become due pursuant to the Contract, including Retention and final payment (pursuant to California Government Code §53069.85). A credit Supplemental Job Order shall be executed to assess liquidated damages.

3.5 BIDS MUST BE ADDRESSSED TO: The Clerk of the Board of Supervisors of the County of Santa Clara, 70 West Hedding St. East Wing, 10th Floor, San Jose CA 95110 and bear the Project name and Project number as they appear on the cover of the Project Manual.

3.6 BIDDER’S SECURITY

3.6.1 Each Bid must be accompanied by cash, a certified or cashier’s check, or a bond in the sum of not less than ten percent (10%) of the Maximum Contract Value.

3.6.2 The check or bond must be made payable to “The County of Santa Clara.”

3.7 BID RESULTS

3.7.1 The Deputy Director will post the results of the Bid following the opening of the Bids and verification of bid amounts at the Department’s offices, via e-mail to all bidders.

3.8 ERRORS OR DISCREPANCIES IN THE BIDS

3.8.1 The Board of Supervisors reserves the right to reject any and all Bids and to waive any errors or discrepancies in the Bids.

ARTICLE 4 — OTHER NOTICES

4.1 CONTRACTOR’S LICENSING REQUIREMENT

4.1.1 Pursuant to Document 00200.3, “Compliance with Contractor’s License Law”, the Contractor must possess a ‘B’ Contractor’s License.

4.1.2 The Contractor must possess the required classification of Contractor’s License at the time the Bid is submitted (per Business and Professions Code §7028.15). If federal funds are involved in this Project, the Contractor must possess the required classification of Contractor’s License at the time of the Contract Award (per Public Contract Code §20103.5).

4.2 FEDERAL AND GRANT REQUIREMENTS

4.2.1 A Job Order funded by federal or grant monies may mandate specific additional requirements such as, DBE participation, Buy America, Drug Free Work Place Policy, Federal Minimum Wage Rates, etc. Contractor must comply with any applicable mandated requirements.

4.3 PREVAILING WAGE REQUIREMENT

4.3.1 Pursuant to Document 00 73 43 ("Labor and Wage Rate Requirements"), all workers employed in the Work is subject to payment of not less than prevailing wages under California Labor Code Section 1770 et seq.

The rates are available on the State of California Department of Industrial Relations website at California Department of Industrial Relations Home Page.

http://www.dir.ca.gov/DLSR/PWD/index.htm

4.3.2 The work is subject to compliance monitoring and enforcement by the Department of Industrial Relations. All contractors must be registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5 in order to submit a Bid. All subcontractors must also be registered with the Department of Industrial Relations. No contractor or subcontractor may be awarded a contract for public work on a public works project unless registered with the
Department of Industrial Relations. Additional information regarding prevailing wage requirements is available on the State of California Department of Industrial Relations Web Site: www.dir.ca.gov.

4.3.3 In submitting a Bid, Contractor represents and warrants that it is registered with the Department of Industrial Relations. Contractor further represents and warrants that it shall maintain its registration with the Department of Industrial Relations throughout the course of the Work. Contractor is responsible for verifying that each Subcontractor, including any Subcontractor not listed on the Bid proposal for the Project, is registered with the Department of Industrial Relations at the time the Subcontractor performs Work on the Project. If any Subcontractor is not registered at the time the Subcontractor is to commence Work, Contractor shall require the Subcontractor to register and may not permit the Subcontractor to commence Work until the Subcontractor’s registration is complete.

4.3.4 The Labor Commissioner’s Office, also called the Division of Labor Standards Enforcement (DLSE), is part of the California Department of Industrial Relations. The Public Works Unit of the Labor Commissioner’s Office actively monitors public works projects and may investigate asserted violations. Any member of the public can report an alleged violation of the State’s labor laws on a public works project to the Labor Commissioner’s website: www.dir.ca.gov/dlse/HowToFilePWComplaint.htm. The Labor Commissioner’s Office in the County of Santa Clara can also provide instruction on how to file a complaint and where a violation should be reported. The Labor Commissioner’s Office in the County of Santa Clara is located at the following address:

Division of Labor Standards Enforcement (DLSE)
100 Paseo de San Antonio, Room 120
San Jose, CA 95113
(408) 277-1266

4.3.5 Contractor must comply with all applicable requirements of Division 2, Part 7, Chapter 1 of the California Labor Code.

4.4 PROJECT LABOR AGREEMENT (PLA)

4.4.1 Any single Job Order that has a construction cost of two million dollars ($2,000,000) or more shall be subject to the provisions of the current County of Santa Clara PLA policy.

4.5 BONDS AND INSURANCE

4.5.1 The successful Bidder must deliver signed Contract Bonds (payment bond and performance bond), and all required insurance documents to the Clerk of the Board of Supervisors for acceptance before Owner will issue a Notice to Proceed with the Contract.

4.5.2 No Contract exists until all Contract Bonds and insurance documents have been accepted by the Owner.

4.6 PRESERVATION OF CULTURAL RESOURCES

4.6.1 If Job Order Work site, as stated in the Detailed Scope of Work is deemed “Archaeologically Sensitive”, the provisions in Document 00700.10.5, “Preservation of Cultural Resources”, will apply.

4.7 COMPUTER, SOFTWARE, AND COMMUNICATION EQUIPMENT REQUIREMENTS

4.7.1 There are specific computer, software and communication equipment requirements in this
4.8 RETENTION FROM PAYMENTS DURING CONTRACT TIME

4.9 AVAILABILITY OF BID DOCUMENTS

4.9.1 Bid Documents will become available on April 13, 2020.

4.9.2 Bid Documents consist of the Construction Task Catalog® and Technical Specifications (only on CD Rom), electronic copy of the Master Project Manual available on the BidSync website.

4.10 MANDATORY PRE-BID CONFERENCE

4.10.1 A MANDATORY Pre-Bid Conference will be held on April 24, 2020– 9:00 AM at the County of Santa Clara FAF Department, Building Operations Division, 1555 Berger Drive, Building #3, San Jose, CA 95112. Failure to attend and sign in will cause forfeiture of bidding rights.

4.10.2 Bidders should become thoroughly familiar with the terms and conditions of the Bid Documents and local conditions affecting the performance and costs of the Work before attending this conference.

4.11 PROJECT MANAGER

4.11.1 The County’s Project Manager for this Project is Kim Huynh at phone number 1-408-993-4532. Kim.Huynh@faf.sccgov.org.

4.12 OWNER’S AUTHORIZED REPRESENTATIVE

4.12.1 The Owner’s Authorized Representative for this Bid, who has authority to Approve Addenda is, the Director of Facilities and Fleet.

4.13 OWNER’S CONSULTANT

The Owner selected The Gordian Group’s (Gordian) Job Order Contracting (JOC) Solution (Gordian JOC SolutionTM) for their JOC program. The Gordian JOC Solution includes Gordian’s proprietary eGordian® JOC Applications and Construction Task Catalog®, which shall be used by the Contractor to prepare and submit Job Order Proposals, subcontractor lists, and other requirements specified by the Owner. The Contractor shall be required to execute Gordian’s JOC System License and Fee Agreement, and pay a 1% JOC System License Fee to obtain access to the Gordian JOC Solution.

4.14 BID PERIOD CLARIFICATIONS AND ADDENDA

4.14.1 Contractor must submit all requests for clarification, or interpretation of the Bid Documents in writing at least seven (7) calendar days before the deadline for receipt of Bids.

4.14.2 The Owner’s Authorized Representative may issue written Addenda as appropriate for clarification or other reasons during the bidding period.

4.14.3 Addenda will be mailed or delivered to each person included on the Owner’s plan holders list for the Project.

4.14.4 Owner is not responsible for any explanation or interpretation of the Bid Documents not communicated to Bidders in an Addendum.

4.14.5 Unless otherwise clarified in an Addendum, resolution of supposed discrepancies, conflicts, omissions or errors in the Bid Documents are governed by Document 00700.1.6, “Conflicts in the Contract Documents.”

Contract, Document 00800 “Supplemental Conditions” 2.1.1 & 2.2.17.
4.15 MANUFACTURER CERTIFICATION AND APPROVAL OF CONTRACTOR

4.15.1 For equipment installation and maintenance work, the County reserves the right to require Contractor to submit written approval from the equipment manufacturer affirming that the Contractor is certified and approved for such work. Contractor must submit such certification and approval documentation to the Owner’s Project Manager for approval and acceptance.

4.16 FACILITIES SECURITY AND ACCESS POLICIES

4.16.1 Contractor will adhere to all applicable County secured facility, tool control, and escort policies.

4.16.2 Specific site policies will be supplied on a Job Order basis.

4.17 WORKMANSHIP

All Workers performing trade or craft work shall be Journeyman level or Apprentice level under direct Journeyman Supervision to the specific trade or craft that the Work requires.

ARTICLE 1 — GENERAL

1.1 Bidder must examine these Instructions To Bidders carefully and respond to all requirements and conditions.

1.2 Bidders must be aware of the requirements of all codes referenced in the Bid Documents.

ARTICLE 2 — COMPETENCE OF BIDDERS

2.1 Bidders must meet all qualification requirements contained in the Bid Documents.

2.2 Bidder(s) may be required to furnish evidence satisfactory to Owner that the Bidder and its proposed Subcontractors have sufficient means and experience in the type of Work required to assure satisfactory completion of all the requirements of the Contract Documents.

ARTICLE 3 — COMPLIANCE WITH CONTRACTOR’S LICENSE LAWS

3.1 Bidder’s attention is directed to the provisions of Chapter 9 of Division 3 (§7000 et seq.) of the California Business and Professions Code (“The Contractors’ State License Law”), and §3300 of the California Public Contract Code. The Contractor must possess the required classification of Contractor’s License at the time the Bid is submitted (per Business and Professions Code §7028.15). If federal funds are involved in this project, the Contractor must possess the required classification of Contractor’s License at the time of the Contract Award (per Public Contract Code Section 20103.5).

3.2 If a Bidder does not possess the required Contractor’s License at the time a Bid is submitted, in accordance with Business and Professions Code §7028.15, the Bid will be considered non responsive and will be rejected by the Owner. The Owner may require forfeiture of the Bidder’s Bond.

3.3 Joint venture Bidders must possess a joint venture license. Each party to a joint venture must be properly licensed for the Work of this Project.

ARTICLE 4 — PRIOR DISQUALIFICATION

4.1 Bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed or otherwise prevented from Bidding on, or completing a federal, state or local project because of a violation of a law or a safety regulation.

4.2 The Owner will review the circumstances presented in the Bid Form Certification. The County will determine if acceptance of the Bid is in its best interest.

ARTICLE 5 — EXAMINATION OF BID DOCUMENTS

5.1 The Bidder must carefully examine the Bid Documents.

5.2 The submission of a Bid will be conclusive evidence that the Bidder has investigated and is fully aware of the conditions and difficulties that may be encountered including the availability of labor and materials to be provided, of the character and quality of Work to be performed, and of the requirements of all Bid Documents.

5.3 No information derived from the Contract Documents will relieve Contractor from any risk or from properly fulfilling all the terms of the Contract.

5.4 Failure by Bidder to educate itself with available information will not relieve Bidder from responsibility for estimating properly the difficulty or cost of successfully performing the Work.

5.5 Bidders are required to inform themselves fully of the conditions relating to the construction and labor under which the Work will be or is now performed, and, so far as possible, the successful Bidder must employ such means and methods in carrying out its Work as will not cause any interruption or interference with any other contractor.

ARTICLE 6 — DISCREPANCIES, CONFLICTS, OMISSIONS, OR ERRORS

6.1 If any person contemplating submitting a Bid is in doubt as to the intended meaning of any part of the Bid Documents, or finds discrepancies in, or omissions in the Bid Documents, that person must
submit a written request for an interpretation or correction thereof at least seven (7) calendar Days before the deadline for receipt of Bids.

6.2 Inquiries must be addressed to the Project Manager identified in the Notice to Bidders.

6.3 Any request received fewer than seven (7) calendar Days before the said deadline may not be answered. The person submitting the request will be responsible for its prompt delivery.

6.4 Any interpretation or correction of the Bid Documents will be made only by Addendum, which will become part of the Bid Documents, and will be mailed or delivered to each person included on the Owner’s plan holders list for the Project.

6.5 Owner is not responsible for any explanation or interpretation of the Bid Documents not communicated to Bidders in an Addendum. If no Addenda are issued relating to supposed discrepancy, conflict, omissions or errors in figuring the Work, the supposed discrepancies, conflicts, or omissions are governed by Document 00700.1.6, “Conflicts in the Contract Documents.”

ARTICLE 7 — BIDDER’S SECURITY

7.1 Each Bid must be accompanied by cash, a certified or cashier’s check, or an original Bidders Bond in an amount not less than ten percent (10%) of the Maximum Contract Value indicated in the Notice to Bidders.

7.2 A Bid will be considered non-responsive if not accompanied by proper Bidder’s Security.

7.3 The original Bid Bond must be provided by an admitted Surety insurer, authorized to issue Surety bonds in the State of California, and it must execute the Bid Bond.

7.4 Bonds and checks must be made payable to “The County of Santa Clara”.

7.5 All bonds must be provided on the forms included with the Bid Documents or the Bid will be considered non-responsive.

ARTICLE 8 — BID FORM

8.1 Prospective Bidders are furnished Bid Forms (Document 00410). The Bid Form contains a schedule of items requesting Adjustment Factors.

8.2 The Adjustment Factors multiplied by the Tasks in the Construction Task Catalog must include full compensation for Providing all labor, materials, services, tools, equipment and whatever else is required to perform all Work in accordance with the requirements of the Work.

8.3 All Unit Prices listed in the Construction Task Catalog® are priced at a net value of 1.0000. The Adjustment Factors shall be an increase or decrease to all the Unit Prices listed in the Construction Task Catalog®. For example, 1.1000 would be a 10% increase to the Unit Prices and 0.9500 would be a 5% decrease to the Unit Prices. Bidders who submit separate Adjustment Factors for separate Unit Prices will be considered non-responsive and their bid will be rejected.

8.4 All Bids must be submitted on the forms furnished by the Owner. A Bid not submitted on the forms furnished by the Owner will be considered non-responsive.

8.5 Completing the Bid Form:

.1 Bidder’s name must be the same as listed on Bidder’s California State Contractor’s license.

.2 Bid price(s) must be in the manner required by the Bid Form.

.3 Bid Form must be signed by Bidder or duly authorized representative.

.a If Bidder is an individual, name must be stated.

.b If Bidder is a partnership, name of the partnership must be stated and one or more partners must sign the Bid Form.

.c If Bidder is a corporation, name of the corporation must be stated, the state of incorporation must be listed, the title of the person with authority to sign and bind the
corporation, must be stated, and the corporate seal must be affixed.
.
Bidder’s business and mailing address must be stated.

8.6 Required Listing of Proposed Subcontractors:
.
.1 Bidders shall list the name, the location of the place of business, and the California contractor license number and public works contractor registration number of each Subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or a Subcontractor licensed by the State of California who, under subcontract to the prime contractor, specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (½%) of the prime contractor’s total bid or, in the case of bids or offers for the construction of streets or highways, including bridges, in excess of one-half of one percent (½%) of the prime contractor’s total bid or ten thousand dollars ($10,000), whichever is greater.
.
.2 Failure(s) to meet listing requirements is cause for Bid to be rejected as non-responsive.
.
.3 Bidders’ attention is directed to the provisions of the Subletting and Subcontracting Fair Practices Act, beginning with Public Contract Code §4100, related to penalties for use of unauthorized Subcontractors or by making unauthorized substitutions.

ARTICLE 9 - CONTRACTING PRINCIPLES

9.1 Pursuant to the Resolution on Contracting Principles adopted by the Board of Supervisors on October 28, 1997, all Bidders are required to sign and submit with their Bid a completed “Contracting Principles Declaration of Contractor/Bidder” form, which has been included in the Bid forms.
.
9.2 The successful Bidder must, during the Contract Time.
.
.1 Comply with all applicable federal, state, and local rules, regulations and laws.
.
.2 Maintain financial records adequate to verify that the County funds paid pursuant to the Contract were used for purposes consistent with the terms of the Contract.
.
It is the policy of the Board that all entities that contract with the County to provide services where the contract value is $100,000 or more per budget unit per fiscal year and/or as otherwise directed by the Board, must be fiscally responsible entities and must treat their employees fairly.
.
To ensure compliance with these contracting principles, all contractors must: (1) comply with all applicable federal, state and local rules, regulations and laws; (2) maintain financial records, and make those records available upon request; (3) provide to the County copies of any financial audits that have been completed during the term of the contract; (4) upon the County’s request, provide the County reasonable access, through representatives of the Contractor, to facilities, financial and employee records that are related to the purpose of the contract, except where prohibited by federal or state laws, regulations or rules.
.
The factors the County considers in determining compliance with its contracting principles include, but are not limited to: wage levels, pay ranges, benefits for all positions and job classifications, medical insurance for employees, annual rate of staff turnover, number of hours of training for each position in subject areas directly related to the contract, number of legal complaints issued by an enforcement agency against the contractor for alleged violations of applicable federal, state or local rules, regulations or laws and the number of citations, court findings or administrative findings for violations of applicable federal, state or local rules, regulations or laws related to treatment of employees or the contractor’s fiscal condition, and any collective bargaining agreements or personnel policies covering the contractor’s employees.
ARTICLE 10 - SUBMISSION OF BID FORMS

10.1 Bid Forms must be completed in ink, completely filled out, the adjustment factor must be taken to the 4th decimal place (example: 1.XXXX), and submitted on the Bid Form furnished as part of the Bid Documents. Faxed Bids or modifications will not be considered by Owner.

10.2 It is the sole responsibility of the Bidder to ensure that its Bid is received at the proper time and at the proper location. Bids received after the time fixed for receiving them will not be considered.

10.3 Late Bids will be returned by the Owner to the Bidder unopened.

10.4 Each Bid must be addressed to The Clerk of the Board of Supervisors of the County of Santa Clara, 70 West Hedding St. East Wing, 10th Floor, San Jose CA 95110, and must be delivered to the Clerk of the Board of Supervisors no later than the date and time set for the opening of Bids in the published Notice to Bidders.

10.5 Each Bid must be in its own envelope. Each Bid must be enclosed in a sealed envelope bearing the title of the Project, the name of the Bidder and the date and time of the opening. Failure to do so may result in a premature opening of, or failure to open, such Bid. Bid Forms improperly marked may be disregarded.

ARTICLE 11 - WITHDRAWAL OF BID FORMS

11.1 Any Bid may be withdrawn at any time before the time fixed in the Notice to Bidders for the opening of Bids only by written request of the Bidder or a duly authorized representative.

11.2 Withdrawal of a Bid does not prejudice the right of the Bidder to file a new Bid at any time prior to the time fixed for receiving Bids in the Notice to Bidders.

11.3 Whether or not Bids are opened exactly at the time stated in the Notice to Bidders, a Bid will not be accepted after the time stated.

11.4 After the opening of Bids, Bids may only be withdrawn in accordance with the provisions of Public Contract Code §5100-5107.

ARTICLE 12 - PUBLIC OPENING OF BIDS

12.1 Bids will be opened and read publicly at the time and place indicated in the Notice to Bidders. Bidders or their authorized agents are invited to be present.

ARTICLE 13 - REJECTION OF IRREGULAR BIDS

13.1 The Owner may reject any Bid if there appears to be any alteration of the Bid Form, any addition or condition not called for, or any incompleteness, erasure or irregularity of any kind.

13.2 Bids not completed in ink will be rejected.

13.3 If the Bid amount or other material information is changed by the Bidder, the change must be initialed.

ARTICLE 14 - COMPETITIVE BIDDING

14.1 More than one Bid from an individual, firm, partnership, corporation, or combination thereof, as a principal, under the same or different names will not be considered. Reasonable basis for believing that any individual, firm, partnership, corporation, or combination thereof is a principal in more than one Bid for the Work contemplated may cause the rejection of all Bids in which such individual, firm, partnership, corporation, or combination thereof is a principal.

14.2 If there is a reason for believing that collusion exists among the Bidders, any or all Bids may be rejected.

14.3 A person, firm, or corporation submitting a sub-bid to a Bidder, or who quoted prices on materials to a Bidder, is not thereby disqualified from submitting a sub-bid or quoting prices to other Bidders or from
being a principal Bidder for the same Work.

14.4 Bids in which unit prices obviously are unbalanced may be rejected.

14.5 Bidders are put on notice that any collusive agreement fixing the prices to be Bid so as to control or affect Awarding of the Contract is in violation of competitive bidding requirements of the Public Contract Code and may render void any Contract let under such circumstances.

ARTICLE 15 - SUBSTITUTION OF ALTERNATIVE MATERIALS, ARTICLES, OR EQUIPMENT

15.1 Bids must be based upon use of items named in the Bid Documents.

15.2 In certain cases, specific items have been named because of operational or maintenance considerations; approval of proposed equals should not be assumed.

15.3 Pursuant to Public Contract Code §3400, alternative material(s), article(s), or equipment that are of equal quality and of required characteristics for the purpose intended may be proposed, prior to the issuance of a Job Order, provided the Bidder complies with the following requirements:

1. The proposal will not be considered unless the submittal is accompanied by complete information and descriptive data necessary to determine equality of offered material(s), article(s) or equipment.

2. Samples must be submitted when requested by the Owner.

3. Burden of proof as to comparative quality, suitability, and performance of offered material(s), article(s), or equipment is the responsibility of the Bidder submitting the proposal.

4. Requests for approval must comply with the requirements of Section 01630, “Product Substitution Procedures.”

5. Owner’s Authorized Representative is the sole judge as to such matters. In the event Owner’s Authorized Representative rejects the use of such Alternative(s) submitted, the Contractor must furnish one of the particular Named Products originally specified in the Documents.

ARTICLE 16 - RETURN OF BIDDER’S SECURITY

16.1 If Owner does not accept the Bid within the period of Days after the Bid opening stated in Document 00410 - Bid Form, Owner will return Bidder's Security to all Bidders.

16.2 If the Bidder to whom the Contract is Awarded executes and delivers to Owner all the required documents, Owner will return Bidder’s Security to all Bidders in accordance with the Public Contract Code Section 20129.

ARTICLE 17 - RELIEF OF BIDDERS

17.1 Attention is directed to the provisions of California Public Contract Code §5100 through §5107 that set forth the criteria and procedures for relief of Bidders, and for authorizing Contract Award to another Bidder.

ARTICLE 18 - AWARD OF CONTRACT

18.1 The Contract(s), if awarded, will be to that responsible Bidder submitting the lowest responsive Bid, subject to Owner’s right to reject any or all Bids and to waive any informality or irregularity in the Bids or in the bidding procedures.

18.2 Subject to California Public Contract Code Sections 5100 through 5107, no Bidder may withdraw its Bid for the period of Days stated in Document 00410, “Bid Form,” after the date set for the opening thereof, and the Bid will be subject to acceptance by Owner throughout this period.

18.3 The time period within which Award of Contract may be made is subject to an extension of such further period as may be agreed upon in writing between the Owner and the apparent lowest responsive responsible Bidder.
18.4 No Contract is formed until all Contract Bonds in the form provided in the Project Manual, Document 00611 (Performance Bond Form) and Document 00612 (Payment Bond Form), and insurance documents have been accepted by Owner; the Contractor submits the signed Contractor’s Worker’s Compensation Certification; and the Agreement is signed by Owner.

ARTICLE 19 - CONTRACT BONDS

19.1 The successful Bidder (hereinafter “Contractor”) must pay all Contract Bond premiums, costs thereof, and incidental thereto.

19.2 Each Contract Bond must be in the form provided in the Project Manual, Document 00611 (Performance Bond Form) and Document 00612 (Payment Bond Form), and signed by both Contractor and the Sureties.

19.3 As a condition to Owner signing the Agreement, the successful Bidder must file with Owner on the approved forms, the two surety bonds in the amounts and for the purposes noted below, duly executed by a Surety company meeting the requirements of Article 20 herein.

19.4 The successful Bidder shall provide a payment bond for public works in the form provided in the Project Manual, Document 00612 (Payment Bond Form), in an amount of one hundred percent (100%) of the Maximum Contract Value and shall inure to the benefit of persons performing labor or furnishing materials in connection with the Work. This bond must be maintained in full force and effect until all Work is completed and Accepted by Owner, and until all claims for materials and labor have been paid.

19.5 The successful Bidder shall provide a performance bond in the form provided in the Project Manual, Document 00611 (Performance Bond Form), in an amount of one hundred percent (100%) of the Maximum Contract Value and must be so conditioned as to ensure the faithful performance by Contractor of all Work. It shall also include the replacing, or making acceptable, of any defective materials or faulty workmanship during the Guarantee period(s).

19.6 If any Surety or Sureties are deemed unsatisfactory at any time by Owner, Owner will notify Contractor, and Contractor must forthwith substitute a new Surety or Sureties satisfactory to Owner. No further payment from Owner to Contractor will be deemed due or made until the replacement Sureties qualify and are accepted by Owner.

19.7 All changes to the Maximum Contract Value, Contract Time, or Contract Documents may be made without securing the consent of the Surety or Sureties on the Contract Bonds.

19.8 Sureties must be California admitted Sureties. (See Insurance and Bond Requirements set forth in Document 00700.11, “Indemnification and Insurance”)

ARTICLE 20 - INSURANCE

20.1 Contractor will be required to furnish to Owner, concurrently with execution of the Agreement, insurance documents evidencing coverage as required by Document 00700.11, “Indemnification and Insurance.”

20.2 If the Contractor provides incidental architectural or engineering design services, the County’s insurance and indemnification requirements will be required.

ARTICLE 21 - EXECUTION OF CONTRACT AGREEMENT

21.1 The form of Agreement which the successful Bidder, as Contractor, must execute, and the form of Contract Bonds and insurance coverage that it must provide are included in the Bid Documents and must be carefully examined by each Bidder. All Contract Bonds, policies or certificates of insurance, and insurance policy endorsements must be delivered with or before the delivery of the signed Agreement form, and must be acceptable to Owner.

21.2 The Bidder to whom the Contract is Awarded by Owner must, within seven (7) calendar Days after the Notice of Award, sign and deliver the following documents to the Owner’s Project Manager: Kim Huynh, 2310 N. First St., Suite 200, San Jose CA San Jose CA 95131.

00200-7
1. Two (2) originals of the signed Agreement form furnished by Owner in the Bid Documents. (Document 00500, “Agreement”)

2. One (1) original and two (2) copies of the Performance Bond. (Document 00611, “Performance Bond Form”)

3. One (1) original and two (2) copies of the Payment Bond for Public Works. (Document 00612, “Payment Bond Form”)

4. Policies of insurance, insurance certificates and endorsements as required by the Bid Documents.

5. Workers Comp. Certificate

21.3 Should Contractor begin Work in advance of the start date for the Work, as stated in the Notice to Proceed, the Work will be considered as having been done at Contractor’s risk as a volunteer.

ARTICLE 22 - FAILURE TO EXECUTE CONTRACT AGREEMENT

22.1 Failure of the successful Bidder to execute the Agreement in the form satisfactory to Owner is just cause for the annulment of the Award and the forfeiture of the Bidder’s Security.

22.2 Failure of the successful Bidder to sign and return the Agreement within seven (7) calendar Days after notification of Award by the Owner constitutes failure to execute the Agreement.

22.3 Failure to return required Contract Bonds and insurance documents within seven (7) calendar Days after notification of Award by the Owner constitutes failure to execute the Agreement.

22.4 If the Bidder to whom the Contract is awarded does not file the documents required by the Bid Documents, files unsatisfactory documents, or refuses to enter into a Contract within the specified time, the Bidder is liable for any difference by which the cost of procuring the Work exceeds the amount of its Bid. The Bidder’s Security may be used to offset such difference.

ARTICLE 23 - NO ORAL AGREEMENTS

23.1 No conversation with any officer, employee, agent or Consultant of Owner, either before, during, or after the execution of the Agreement, affects or modifies any terms or obligations contained in the Contract Documents, nor entitle Contractor to any adjustment in the Contract Time or Contract Sum whatsoever.

ARTICLE 24 - BID PROTEST

24.1 Protest Regarding the Legal Sufficiency of Procurement Documents and Process. Any protest (including supporting documentation) relating to the legal sufficiency of the procurement documents or the procurement process must be emailed or hand-delivered or otherwise sent so that it is received by the Owner’s Project Manager identified in the procurement documents no later than 5 p.m. of the tenth (10th) calendar day after the release of the solicitation on Bidsync. Any protests not received by the deadline or sent to any person other than the Owner’s Project Manager may be rejected or dismissed by the County at the County’s sole discretion. Such protest must be in writing and state the specific legal authority establishing the deficiency in the procurement documents or procurement process. Any bidder who fails to submit a timely protest subject to this provision shall be deemed to have waived any such protest. The County may respond by any appropriate means, including, without limitation, by issuing an addendum, issuing a letter to the protestor, or by canceling the procurement.

24.2 Protest Regarding Award

The Owner’s Project Manager will send an email or otherwise provide an announcement to all bidders informing each of the bid(s) that was/were selected or deemed to be a finalist. A bidder whose bid was not selected or not deemed to be a finalist may file a written protest within five (5) business days of the date of such communication.
Any protest must be in writing. The following must be written on the cover or subject line of the protest: “Protest Relating to [SOLICITATION NUMBER].” The written protest and all supporting documentation must be emailed, hand-delivered or otherwise sent to the Owner’s Project Manager so that it is received no later than 5 p.m. of the fifth business day after the email or announcement notifying bidders of the County’s selection or tentative decision. Any protests not received by the deadline or sent to any person other than the Owner’s Project Manager may be rejected or dismissed by the County at the County’s sole discretion.

1. Contents of Protest. The written protest must contain the following information: (1) the name, street address, electronic mail address, and telephone and facsimile number of the protester; (2) signature of the protester or its representative; (3) clearly-stated grounds for the protest and supporting information that forms the basis of the Protest (including the specific portions of the Bid Documents and/or Bid and/or applicable law or regulation that were not complied with); (4) copies of any relevant documents; and (5) the form of relief requested. Protests should be concise and logically arranged. The protester may not present any additional grounds or arguments for protest after submission unless requested by the County. All protest documents shall be public records.

2. Grounds for Protest. Protests may only be based on one or more of the following grounds, and must be supported by evidence and/or credible allegations as follows:

   a. The protester believes there was an error made by County officials or evaluation team members such as a failure to award in accordance with specific portions of the Bid Documents and/or in compliance with applicable law or regulation. A difference of opinion regarding the scoring or points to be awarded to a proposal in any or all categories does not constitute an error for protest purposes.

   b. The protestor believes there was misconduct or impropriety by County officials or evaluation team members.

   c. The protestor believes there was abuse of discretion or process by County officials or evaluation team members.

3. Protest Resolution Process. The Director of the issuing department will review a timely protest and shall forward the same, along with his or her recommendation (if any), to an independent review officer (IRO). The Protestor shall be provided the Department’s response to the protest (if any) and an opportunity to respond to it within 5 business days. Thereafter, the IRO shall respond on behalf of the County. The IRO may, consistent with applicable law, use all available resources and information, including soliciting information from, and revealing information to, any entities or sources in its attempt to informally resolve the protest. The IRO may also contact the protester or Agency/Department, or conduct a hearing.

4. IRO Decision. The IRO will issue a written decision to the protester and the Department within 20 business days of receiving a protest. However, the time for decision may be extended by the IRO.

24.3 Protest Remedies. The remedies available pursuant to these procedures may include, but are not limited to, the reevaluation or the cancellation of a solicitation. However, no remedy may require the County to execute a contract with any entity, which authority is solely reserved for the Board of Supervisors or an official with appropriate delegated authority.
Bid Form must be completed in ink & changes must be initialed.

FROM: Name of Bidder

Name: _________________________________________________________

Mailing Address: ______________________________________________________________

Phone: (    ) ____________________ Fax: (    ) ____________________ Email ________________

Address: ______________________________________________________________

TO: The County of Santa Clara, herein called Owner:

Pursuant to and in compliance with your Notice to Bidders and the Contract Documents relating to the
JOC-FAF-2020-01, the undersigned Bidder, having become thoroughly familiar with the terms and conditions
of the Contract Documents and with local conditions affecting the performance and the costs of the Work,
hereby proposes and agrees to fully perform authorized Work within the time(s) stated and in strict
accordance with the Contract Documents and each Job Order, including providing any and all labor and
materials, and performing all the work required to construct and to complete said Work in accordance with
the requirements of the Contract Documents, for the following Adjustment Factors:

BID SCHEDULE:

General Facilities Normal Working Hours: Work performed during Normal Working Hours, in General
Facilities, in the quantities specified in individual Job Orders for the Unit Price sum specified in the
Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

General Facilities Other than Normal Working Hours*: Work performed during Other Than Normal
Working Hours, in General Facilities, in the quantities specified in individual Job Orders for the Unit Price
sum specified in the Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

Detention Facilities** Normal Working Hours: Work performed during Normal Working Hours, in
Detention Facilities, in the quantities specified in individual Job Orders for the Unit Price sum specified in
the Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

Detention Facilities Other than Normal Working Hours: Work performed during Other Than Normal
Working Hours, in Detention Facilities, in the quantities specified in individual Job Orders for the Unit Price
sum specified in the Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

* Bids will be rejected as non-responsive if the ‘Other than Normal Working Hours’ Adjustment Factors are
not equal to or greater than the ‘Normal Working Hours’ Adjustment Factors.

** Bids will be rejected as non-responsive if the Detention Facilities Adjustment Factors are not equal to or
greater than the General Facilities Adjustment Factors. Detention Facilities Adjustment Factors apply
when Work is performed within a secured area of Department of Corrections Main Jail North/South,
Elmwood Correctional Facility, and Juvenile Hall. General Facilities Adjustment Factors apply for all other
locations.
Award Criteria Figure Formula

Award Criteria Figure Formula percentages are for Bid purposes only. The County is not obligated to issue Job Orders in the stated percentages. Carry out all Lines to the 4th decimal place.

BID FORM

BID FORM

Document 00410
Page 3 of 10

(Bid Form must be completed in ink & changes must be initialed.)

BASIS FOR AWARD OF CONTRACT

1. The Contracts will be Awarded to the “Responsible Bidder” submitting the lowest responsive Bid (as may be corrected in accordance with paragraph 7 below) and per Article 18 - Award of Contract, in the Instructions to Bidders. “Responsible Bidder” (per Public Contract Code §1103) is a Bidder who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity, and experience to satisfactorily perform the public works contract.

2. Owner reserves the right to reject this Bid.

3. This Bid must remain open and not be withdrawn for a period of ninety (90) calendar Days from the date prescribed for its opening.

4. If written notice of the acceptance of this Bid is mailed or delivered personally to the undersigned within ninety (90) calendar Days after the date set for the opening of this Bid, or at any time thereafter before withdrawn, the undersigned Bidder must execute and deliver the Agreement to Owner in accordance with this Bid as accepted, and must furnish and deliver to Owner the Performance Bond, Payment Bond for Public Works, Certification of Worker’s Compensation, and Proof of Insurance Coverage as required in the Bid Documents, all within seven (7) calendar Days after the date of Notice of Award furnished by the Clerk of the Board of Supervisors.

5. Contract Bonds and Insurance must be satisfactory to, and on forms acceptable to Owner.

6. Notice of acceptance of Bonds and Insurance or a request for additional information may be addressed to the Bidder at the address shown on Page 1 of Document 00410, “Bid Form.”

7. Wherever in this Bid an amount is stated in both words and figures, in case of discrepancy between words and figures, the words shall prevail. If a discrepancy exists between the Adjustment Factors and the Award Criteria Figure (summation of weighted Adjustment Factors) the Adjustment Factors will prevail. The Owner will correct and revise the total Award Criteria Figure accordingly.

8. Bidder certifies that it has thoroughly read and understands the Bid Documents and Addenda. Bidder hereby incorporates by reference the Bid Documents and Addenda as though set out in full, and all provisions of the Notice to Bidders published by Owner pertaining to the Work described in this Bid.

BIDDER’S SECURITY & ADDENDA

1. Accompanying this Bid proposal is ____________ (insert words "cash," "cashier's check," "certified check," or "Bidder's Bond" as the case may be) in an amount equal to $50,000.00, which is ten percent (10%) of the Maximum Contract Value, $5,000,000.00.

2. Bidder acknowledges receipt of the following Addenda to the Bid Documents:

   (   ) NO Addenda received

   (   ) Addenda received as follows:

<table>
<thead>
<tr>
<th>Addendum Number</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>

the party making the foregoing Bid. The Bid is not made in the interest of, or on behalf of, any
undisclosed person, partnership, company, association, organization, or corporation. The Bid is
genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited
any other bidder to put in a false or sham Bid. The bidder has not directly or indirectly colluded,
conspired, connived, or agreed with any Bidder or anyone else to put in a sham Bid, or to refrain
from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement,
communication, or conference with anyone to fix the Bid price of the Bidder or any other Bidder, or
to fix any overhead, profit, or cost element of the Bid price, or of that of any other Bidder. All
statements contained in the Bid are true. The Bidder has not, directly or indirectly, submitted his or
her bid price or any breakdown thereof, or the contents thereof, or divulged information or data
relative thereto, to any corporation, partnership, company, association, organization, bid
depository, or to any member or agent thereof to effectuate a collusive or sham Bid, and has not
paid, and will not pay, any person or entity for such purpose.

7. TRENCH AND EXCAVATION WORKER PROTECTION (TRENCH SAFETY)

Bidder hereby affirms that Bidder understands and will comply with the applicable provisions of the
California Occupational Safety and Health Act of 1973, the California State Labor Code Sections
6705 and 6707. If trench/excavation work is required in a Job Order, the Contractor must identify

Signature  Date
8. CONTRACTING PRINCIPLES DECLARATION OF CONTRACTOR/BIDDER

The Contract that may be Awarded will be a Type I Service Contract pursuant to the Board of Supervisor’s Resolution on Contracting Principles adopted on October 28, 1997.

Type I Category: “II. Definitions C.2. Construction or other work required by law to be contracted out.”

Explanation: The work required by these Contract Documents is construction work and pursuant to Public Contract Code §20121 must be contracted out.

The Board resolution on Contracting Principles has two (2) specific requirements related to Type I Service contracts:

1) All Type 1 contracts must contain a contract provision specifying that the contractor shall comply with all applicable federal, state and local rules, regulations and laws. (See 00700.31, “Compliance With Laws and Regulations”)

2) All Type 1 contracts must contain a contract provision specifying that the contractor shall maintain financial records that would be adequate to show that County funds were used for purposes consistent with the terms of the service contract. (See 00700.31, “Compliance With Laws and Regulations”)

I am authorized to complete this form on behalf of:

_______________________________________________
Name of Contractor

I have reviewed and understand the requirements of Document 00700.31, “Compliance With Laws and Regulations.”

STOP NOTICE INFORMATION

PROJECT NAME: ___________________________________________ NO.: __________

COUNTY PROJECT MANAGER __________________________________________

COUNTY DEPARTMENT: _______________________________________________

CONTRACTOR’S NAME _______________________________________________

CONTRACTOR’S ADDRESS _____________________________________________

Reference: California Civil Code, Division 4, Part 6, Title 3

The following is furnished for the information of contractors, Subcontractors and suppliers of labor, materials, equipment, and services under County Public Works contracts, and is not intended as legal advice. Advice of legal counsel should be obtained to ensure compliance with legal requirements relating to public works stop notices.

WHERE TO FILE: All original stop notices and preliminary-20-day notices (if required by California Civil Code §9300) must be filed with the County of Santa Clara, Clerk of the Board of Supervisors, located at 70 West Hedding Street, 10th Floor, East Wing, San Jose, CA 95110.

STOP NOTICE CONTENTS: See California Civil Code §8100 and following and §9352. Written notice, signed and verified by the claimant and including information such as the kind of labor, equipment, materials or services provided or agreed to be provided by the claimant; the name of the person/entity to or for whom the same was done or provided; the amount in value of that already done or provided and an estimate of the total amount to be provided. Blank Stop Notice forms are commercially available.

WHO MAY SERVE STOP NOTICE: See California Civil Code § 9100. All persons who have not been paid in full and who have provided work for a public works contract for a work of improvement, if the work is authorized by a direct contractor, subcontractor, architect, project manager, or other person having charge of all or part of the public works contract; laborers; and persons described in Section 4107.7 of the Public Contract Code.

HOW THE STOP NOTICE IS SERVED: See California Code §8100 and following and §9354. Served by personal service, registered mail, or certified mail.

TIME FOR SERVICE: See California Civil Code §9356. Stop notices must be served before the expiration of: 30 days after recording of a Notice of Completion (sometimes called a Notice of Acceptance) or Notice of Cessation, if such notice is recorded. If no Notice of Completion or Notice of Cessation is recorded, 90 days after actual completion or cessation.

NOTICE OF COMPLETION: See California Civil Code §9362. Provided that a stop notice claimant has paid to the Clerk of the Board of Supervisors the sum of $10.00 at the time of filing a stop notice, the Clerk shall provide that claimant with notice of the filing of a Notice of Completion or Cessation, or completion by acceptance or cessation, by personal service, or registered or certified mail.

RELEASE OF STOP NOTICE: See California Civil Code §8120 and following, §9400 and following, and §9364. A stop notice can be released if the original contractor files a corporate surety bond with the Clerk of the Board of Supervisors, in the amount of one hundred twenty-five (125%) of the stop notice claim.
Alternatively, the original contractor may file an affidavit pursuant to California Civil Code §9400-02, stating objections to the validity of the stop notice. A counter affidavit may be filed by the claimant pursuant to §9406 and a summary legal proceeding may be held pursuant to §9408 and following, to determine the validity of the stop notice. If no counter affidavit is filed, the stop notice funds shall be released. Alternatively, the Stop Notice claimant may file a Release in a form which substantially complies with California Civil Code §8132-38.

STOP NOTICE LAWSUIT: See California Civil Code §9500-10. These sections provide that a stop notice is perfected only by the filing of a lawsuit. A lawsuit must be filed no sooner than 10 days after service of a stop notice and no later than 90 days after the expiration of the time for filing stop notices. Notice of suit must be given to the Clerk of the Board of Supervisors within 5 days after commencement. The Court has the discretionary right to dismiss the lawsuit if it is not brought to trial within 2 years.

I HEREBY ACKNOWLEDGE THAT I HAVE RECEIVED AND READ THE ABOVE STOP NOTICE INFORMATION AND IF I AM AWARDED THIS CONTRACT, I AGREE TO INCLUDE A COPY OF THIS PAGE IN ALL SUBCONTRACTS AND CONTRACTS FOR LABOR, MATERIALS, EQUIPMENT AND SERVICES THAT I ENTER INTO FOR THIS PROJECT:

BIDDER’S BOND for JOC-FAF-2020-01

WHEREAS, we, ____________________________________________________________ as Principal,
and _____________________________________________________________________ as Surety,

are held and firmly bound unto the County of Santa Clara, a political subdivision of the State of California
(hereinafter called “County”) in the penal sum of $450,000, which is ten percent (10%) of the Maximum Contract
Value, $4,500,000 of the Principal above named, submitted by said Principal to County for the Work described
below, for the payment of which sum in lawful money of the United States, well and truly to be made, we bind
ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by this agreement.

WHEREAS, the said Principal is submitting a Bid to the County of Santa Clara for certain construction specifically
described as follows,

Job Order Contracting JOC-FAF-2020-01

for which Bids are to be opened on _______________________________, 20____.

THE CONDITION OF THIS OBLIGATION IS that if the Bid submitted by the said Principal is accepted and the
Contract awarded to said Principal within the time periods required in Bid, and if the Principal duly executes the
required Agreement, provides the required Construction Performance Bond, Construction Labor and Material
Payment Bond, insurance certificates, Guarantee, and all other endorsements, forms, and documents, in the form
and time periods required by the Bid, then this obligation shall be void, otherwise to remain in full force and effect.

Surety for value received, hereby stipulates and agrees that no change, extension of time, alterations, or
addition to the terms of the Contract on the call for Bids, or to the Work to be performed thereunder, or the
specifications accompanying the same, shall in any way affect its obligation under this Bond, and it does,
hereby, waive notice of any such change, extension of time, alteration, or addition to the terms of specifications.
In the event suit is brought upon this Bond by the County of Santa Clara and County prevails before an
adjudicatory body, Surety shall pay all costs incurred by the County of Santa Clara in such suit, including a
reasonable attorney’s fee to be fixed by the adjudicating body.
BIDDER’S BOND (CONT’D)

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this _____________ day of ____________________________, 20______.

Original, Corporate seals of Principal and Surety must be attached.

END OF DOCUMENT 00430
AGREEMENT

This is an agreement ("Agreement") between the County of Santa Clara, ("Owner") and

__________________________ ("Contractor").

Owner and Contractor agree as follows:

ARTICLE 1 – SCOPE OF WORK

Contractor must provide all of the materials and perform all of the Work authorized in Job Orders in accordance with the Contract Documents for Project [JOC NUMBER].

ARTICLE 2 - CONTRACT SUM:

As full compensation for furnishing all materials and performing all the Work that may be authorized in Job Orders pursuant to this Agreement until its Acceptance by Owner; for all risks of every description connected with the Work; and for all expenses incurred by or in consequence of the suspension of discontinuance of Work thereof, in the manner and according to the Contract Documents, Owner will compensate the Contractor for the Detailed Scope of Work called for in each Job Order issued pursuant to this Contract for the Unit Prices set forth in the Construction Task Catalog® in accordance with the Contractor’s Adjustment Factors stated on the Bid Schedule, which are as follows:

<table>
<thead>
<tr>
<th>General Facilities</th>
<th>Normal Working Hours Adjustment Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>6:00 am to 6:00 pm Monday to Friday, except Owner Holidays</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>General Facilities</th>
<th>Other than Normal Working Hours Adjustment Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hours outside Normal Working Hours including all day Saturday, Sunday and County Holidays</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Detention Facilities</th>
<th>Normal Working Hours Adjustment Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>6:00 am to 6:00 pm Monday to Friday, except Owner Holidays</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Detention Facilities</th>
<th>Other than Normal Working Hours Adjustment Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hours outside Normal Working Hours including all day Saturday, Sunday and County Holidays</td>
<td></td>
</tr>
</tbody>
</table>

The Minimum Contract Value is $50,000. The Contractor has the opportunity to receive Job Orders totaling at least $50,000 during the Contract term. The Maximum Contract Value is $4,500,000.00. At no time may the sum of the outstanding Job Orders exceed the amount of the Payment Bond and Performance Bond. A Job Order is outstanding until the County has accepted the Project described in the Job Order by execution of a Notice of Completion. The Contractor will not be issued Job Orders which in total exceed the Maximum Contract Value. Owner does not guarantee a minimum amount of work will be ordered under this Contract. Owner is not legally authorized to pay for any work that results in an amount in excess of the Maximum Contract Value, and any work performed by Contractor that is in excess of the Maximum Contract Value is at no time may the sum of the outstanding Job Orders exceed the amount of the Payment Bond and Performance Bond.
Value is done at Contractor’s own expense and Contractor shall not be compensated for the amount in excess of the Maximum Contract Value. At the discretion of the Owner/County and if deemed to be in public interest, the Maximum Contract Value may be increased by up to the sum authorized by Public Contract Code Section 20128.5.

Contractor shall maintain current and accurate accounting records, using Generally Accepted Accounting Principles, of all Job Orders pending and completed under this Contract. Contractor shall notify Owner in writing and in accordance with the notice provisions of this Contract when Job Orders cumulatively total seventy-five percent (75%) of the Maximum Contract Value. Failure to provide such notice will constitute a material breach of this Contract, and Owner may terminate this Contract immediately. If Contractor fails to provide notice as required under this provision, Owner shall withhold, as a penalty for failure to comply with this provision, $25,000 from funds otherwise payable to the Contractor for every thirty (30) days or portion thereof on a pro rata basis that elapses after the seventy-five percent (75%) of the Maximum Contract Value threshold is reached without notice from the Contractor, until such notice is provided and effective. Contractor shall be liable to Owner for such amounts, and Owner may pursue any remedies it deems necessary, including legal action, to collect such amounts.

Contractor shall ensure that at no time may the sum of the outstanding Job Orders exceed the amount of the Payment Bond and Performance Bond. A Job Order is outstanding until the County has accepted the Project described in the Job Order by execution of a Notice of Completion. Failure to ensure that the sum of outstanding Job Orders do not exceed the amount of the Payment Bond and Performance Bond is a material breach of this Contract and Owner may terminate this Contract immediately and with no liability for work done in violation of this provision.

ARTICLE 3 - CONTRACT DOCUMENTS:

All rights and obligations of Owner and Contractor are fully set forth and described in the Contract Documents. The Contract Documents are incorporated herein by reference as though set forth in full.

Formation of a Contract between the parties requires accomplishment of the following: (1) execution of this Agreement by Contractor; (2) submission by Contractor and acceptance by Owner of the required Contract Bonds, Contractor's certification regarding Worker's Compensation, and insurance coverages and documents; (3) execution of this Agreement by Owner. No Contract is formed until these three elements have been accomplished to the satisfaction of the Owner.

ARTICLE 4 – WORKER’S COMPENSATION:

By my signature hereunder, as Contractor, I certify that I am aware of the provisions of §3700 of the Labor Code which require every employer to be insured against liability for worker’s compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of the Work of this Contract.

ARTICLE 5 – CONTRACT TIME:

Following acceptance of Contract Bonds, Contractor’s certification regarding Worker’s Compensation (Document 00621, “Contractor’s Certification Regarding Worker’s Compensation”), insurance coverages and documents, and execution of this Agreement by both parties, Owner’s Authorized Representative will provide an executed copy of this Job Order Contract.

The term of this Job Order Contract commences on the effective date of the executed contract issued by the County of Santa Clara.

The term of this Job Order Contract is either for one year or when issued Job Orders totaling the Maximum Contract Value have been completed, whichever occurs first. All Job Orders must be issued, but not necessarily completed within one calendar year of the commencement date of the Contract.
A separate Job Order Notice to Proceed will be issued for each Job Order. Each Job Order will specify a time limit for completion as stated on the Job Order Notice to Proceed. The Work must be fully completed within the Contract Time(s) set forth in the Job Order.

ARTICLE 6 - CONTRACTOR’S LICENSE:

Contractors are required by law to be licensed and regulated by the Contractor’s State License Board. Any questions concerning contractor licensing must be referred to the Registrar of the Contractor’s State License Board at 1020 "N" Street, Sacramento, CA 95814.

ARTICLE 7 – COUNTY’S MANDATORY POLICY PROVISIONS:

7.01 Food and Beverage Standards

Except in the event of an emergency or medical necessity, the following nutritional standards shall apply to any foods and/or beverages purchased by Contractor with County funds for County-sponsored meetings or events.

If food is to be provided, healthier food options shall be offered. “Healthier food options” include (1) fruits, vegetables, whole grains, and low fat and low calorie foods; (2) minimally processed foods without added sugar and with low sodium; (3) foods prepared using healthy cooking techniques; and (4) foods with less than 0.5 grams of trans fat per serving. Whenever possible, Contractor shall (1) offer seasonal and local produce; (2) serve fruit instead of sugary, high calorie desserts; (3) attempt to accommodate special, dietary and cultural needs; and (4) post nutritional information and/or a list of ingredients for items served. If meals are to be provided, a vegetarian option shall be provided, and the Contractor should consider providing a vegan option. If pre-packaged snack foods are provided, the items shall contain: (1) no more than 35% of calories from fat, unless the snack food items consist solely of nuts or seeds; (2) no more than 10% of calories from saturated fat; (3) zero trans fat; (4) no more than 35% of total weight from sugar and caloric sweeteners, except for fruits and vegetables with no added sweeteners or fats; and (5) no more than 360 mg of sodium per serving.

If beverages are to be provided, beverages that meet the County’s nutritional criteria are (1) water with no caloric sweeteners; (2) unsweetened coffee or tea, provided that sugar and sugar substitutes may be provided as condiments; (3) unsweetened, unflavored, reduced fat (either nonfat or 1% low fat) dairy milk; (4) plant-derived milk (e.g., soy milk, rice milk, and almond milk) with no more than 130 calories per 8 ounce serving; (5) 100% fruit or vegetable juice (limited to a maximum of 8 ounces per container); and (6) other low-calorie beverages (including tea and/or diet soda) that do not exceed 40 calories per 8 ounce serving. Sugar-sweetened beverages shall not be provided.

7.02 No Smoking

Contractor and its employees, agents and subcontractors, shall comply with the County’s No-Smoking Policy, as set forth in the Board of Supervisors Policy Manual section 3.47 (as amended from time to time), which prohibits smoking: (1) at the Santa Clara Valley Medical Center Campus and all County-owned and operated health facilities, (2) within 30 feet surrounding County-owned buildings and leased buildings where the County is the sole occupant, and (3) in all County vehicles.

7.03 Compliance With All Laws, Including Nondiscrimination, Equal Opportunity, and Wage Theft Prevention
(1) Compliance with All Laws. Contractor shall comply with all applicable Federal, State, and local laws, regulations, rules, and policies (collectively, “Laws”), including but not limited to the non-discrimination, equal opportunity, and wage and hour Laws referenced in the paragraphs below.

(2) Compliance with Non-Discrimination and Equal Opportunity Laws: Contractor shall comply with all applicable Laws concerning nondiscrimination and equal opportunity in employment and contracting, including but not limited to the following: Santa Clara County’s policies for contractors on nondiscrimination and equal opportunity; Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; the Age Discrimination in Employment Act of 1967; the Rehabilitation Act of 1973 (Sections 503 and 504); the Equal Pay Act of 1963; California Fair Employment and Housing Act (Gov. Code § 12900 et seq.); California Labor Code sections 1101, 1102, and 1197.5; and the Genetic Information Nondiscrimination Act of 2008. In addition to the foregoing, Contractor shall not discriminate against any subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political belief, organizational affiliation, or marital status in the recruitment, selection for training (including but not limited to apprenticeship), hiring, employment, assignment, promotion, layoff, rates of pay or other forms of compensation. Nor shall Contractor discriminate in the provision of services provided under this contract because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status.

(3) Compliance with Wage and Hour Laws: Contractor shall comply with all applicable wage and hour Laws, which may include but are not limited to, the Federal Fair Labor Standards Act, the California Labor Code, and, if applicable, any local minimum wage, prevailing wage, or living wage Laws.

(4) Definitions: For purposes of this Section 9.03, the following definitions shall apply. A “Final Judgment” shall mean a judgment, decision, determination, or order (a) which is issued by a court of law, an investigatory government agency authorized by law to enforce an applicable Law, an arbiter, or arbitration panel and (b) for which all appeals have been exhausted or the time period to appeal has expired. For pay equity Laws, relevant investigatory government agencies include the federal Equal Employment Opportunity Commission, the California Division of Labor Standards Enforcement, and the California Department of Fair Employment and Housing. Violation of a pay equity Law shall mean unlawful discrimination in compensation on the basis of an individual’s sex, gender, gender identity, gender expression, sexual orientation, race, color, ethnicity, or national origin under Title VII of the Civil Rights Act of 1964 as amended, the Equal Pay Act of 1963, California Fair Employment and Housing Act, or California Labor Code section 1197.5, as applicable. For wage and hour Laws, relevant investigatory government agencies include the federal Department of Labor, the California Division of Labor Standards Enforcement, and the City of San Jose’s Office of Equality Assurance.

(5) Prior Judgments, Decisions or Orders against Contractor: By signing this Agreement, Contractor affirms that it has disclosed any final judgments that (A) were issued in the five years prior to executing this Agreement by a court, an investigatory government agency, arbiter, or arbitration panel and (B) found that Contractor violated an applicable wage and hour law or pay equity law. Contractor further affirms that it has satisfied and complied with – or has reached Agreement with the County regarding the manner in which it will satisfy – any such final judgments.

(6) Violations of Wage and Hour Laws or Pay Equity Laws During Term of Contract: If at any time during the term of this Agreement, Contractor receives a Final Judgment rendered against it for violation of an applicable wage and hour Law or pay equity Law, then Contractor shall promptly satisfy
and comply with any such Final Judgment. Contractor shall inform the Office of the County Executive-Office of Countywide Contracting Management (OCCM) of any relevant Final Judgment against it within 30 days of the Final Judgment becoming final or of learning of the Final Judgment, whichever is later. Contractor shall also provide any documentary evidence of compliance with the Final Judgment within 5 days of satisfying the Final Judgment. Any notice required by this paragraph shall be addressed to the Office of the County Executive-OCCM at 70 W. Hedding Street, East Wing, 11th Floor, San José, CA 95110. Notice provisions in this paragraph are separate from any other notice provisions in this Agreement and, accordingly, only notice provided to the Office of the County Executive-OCCM satisfies the notice requirements in this paragraph.

(7) Access to Records Concerning Compliance with Pay Equity Laws: In addition to and notwithstanding any other provision of this Agreement concerning access to Contractor’s records, Contractor shall permit the County and/or its authorized representatives to audit and review records related to compliance with applicable pay equity Laws. Upon the County’s request, Contractor shall provide the County with access to any and all facilities and records, including but not limited to financial and employee records, that are related to the purpose of this Subsection H, except where prohibited by federal or state laws, regulations or rules. County’s access to such records and facilities shall be permitted at any time during Contractor’s normal business hours upon no less than 10 business days’ advance notice.

(8) Pay Equity Notification: Contractor shall (1) at least once in the first year of this Agreement and annually thereafter, provide each of its employees working in California and each person applying to Contractor for a job in California (collectively, “Employees and Job Applicants”) with an electronic or paper copy of all applicable pay equity Laws or (2) throughout the term of this Agreement, continuously post an electronic copy of all applicable pay equity Laws in conspicuous places accessible to all of Contractor’s Employees and Job Applicants.

(9) Material Breach: Failure to comply with any part of this Subsection H shall constitute a material breach of this Agreement. In the event of such a breach, the County may, in its discretion, exercise any or all remedies available under this Agreement and at law. County may, among other things, take any or all of the following actions:

(i) Suspend or terminate any or all parts of this Agreement.
(ii) Withhold payment to Contractor until full satisfaction of a Final Judgment concerning violation of an applicable wage and hour Law or pay equity Law.
(iii) Offer Contractor an opportunity to cure the breach.

(10) Subcontractors: Contractor shall impose all of the requirements set forth in this Subsection H on any subcontractors permitted to perform work under this Agreement. This includes ensuring that any subcontractor receiving a Final Judgment for violation of an applicable Law promptly satisfies and complies with such Final Judgment.

7.04 Living Wage

Unless otherwise exempted or prohibited by law or County policy, Contractors that contract with the County to provide Direct Services, as defined in County of Santa Clara Ordinance Code Division B36 (“Division B36”) and Board Policy section 5.5.5.5 (“Living Wage Policy”), and their subcontractors, where the contract value is $100,000 or more, must comply with Division B36 and the Living Wage Policy and compensate their employees in accordance with Division B36 and the Living Wage Policy.
Compliance and compensation for purposes of this provision includes, but is not limited to, components relating to fair compensation, earned sick leave, paid jury duty, fair workweek, worker retention, fair chance hiring, targeted hiring, local hiring, protection from retaliation, and labor peace. If Contractor and/or a subcontractor violates this provision, the Board of Supervisors or its designee may, at its sole discretion, take responsive actions including, but not limited to, the following:

i. Suspend, modify, or terminate the Direct Services Contract.
ii. Require the Contractor and/or Subcontractor to comply with an appropriate remediation plan developed by the County.
iii. Waive all or part of Division B36 or the Living Wage Policy.

This provision shall not be construed to limit an employee's rights to bring any legal action for violation of the employee's rights under Division B36 or any other applicable law. Further, this provision does not confer any rights upon any person or entity other than the Board of Supervisors or its designee to bring any action seeking the cancellation or suspension of a County contract. By entering into this contract, Contractor certifies that it is currently complying with Division B36 and the Living Wage Policy with respect to applicable contracts, and warrants that it will continue to comply with Division B36 and the Living Wage Policy with respect to applicable contracts.

ARTICLE 8 – CONTRACTOR’S/OWNER’S REPRESENTATIVES:

The Owner’s Authorized Representative during construction of this Project is the Project Manager listed on the Project Title Page, or designee, who has authority to approve change orders, payment requests, and other documents.

Notice to the Owner’s Authorized Representative under the Contract Documents shall be sent to:

County of Santa Clara – Facilities and Fleet
Attn.: [NAME], Contract Administrator
2310 N. First Street, Suite 200
San Jose, CA  95131

Tel. 408-[PHONE] / Fax 408-993-4777
Email: [EMAIL]

Notice to Contractor shall be send to Contractor’s Authorized Representative to:

[CONTRACTOR NAME]
Attn.: [CONTRACTOR REPRESENTATIVE NAME]
[ADDRESS]

Tel. [PHONE NUMBER] / Fax [FAX NUMBER]
Email: [EMAIL]

ARTICLE 11–COUNTERPARTS; ELECTRONIC/DIGITAL SIGNATURES:

This Agreement and any amendments hereto may each be executed in counterparts, and all of such
counterparts so executed together shall be deemed to constitute one and the same agreement, and each such counterpart shall be deemed to be an original provided all of the parties have fully executed the Agreement or amendment. Unless otherwise prohibited by law or County policy, and provided all parties have first executed the Agreement or amendment, the parties agree and intend that an electronic copy of the signed Agreement or amendment has the same force and legal effect as if the Agreement or amendment had been executed with an original ink signature. The term "electronic copy of the signed Agreement or amendment" refers to a transmission of a copy of an original ink-signed Agreement or amendment by facsimile, electronic mail (email), or other electronic or digital means in a portable document format. The term "electronically signed Agreement or amendment" means an Agreement or amendment that is fully executed by all parties each applying an electronic signature. An “electronic signature” means an electronic or digital sound, symbol, or process attached to or logically associated with an electronic or digital record (e.g., DocuSign) and executed or adopted by a person with the intent to sign the electronic record. The parties each represent, warrant and agree that the signatures, whether an ink-signed original or electronically signed Agreement or amendment, by their respective signatories are intended to authenticate such signatures and to give rise to a valid, enforceable, and fully effective agreement when so executed by all the parties. The parties further agree if a party has evidenced its signature by forwarding an electronic copy of a signed Agreement or amendment, it will confirm that signature by forwarding to the other party within ten (10) days an ink-signed original of the Agreement or amendment but the failure to so forward an ink-signed original will not affect in any way the validity or enforceability of the Agreement or amendment.
IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the date signed by the Board of Supervisors.

Deputy County Counsel

END OF DOCUMENT 00500
This Escrow Agreement is made and entered into by and between:

THE COUNTY OF SANTA CLARA whose address is 70 W. Hedding St., San Jose, CA 95110 hereinafter called "Owner", and

____________________________ whose address is____________________________ hereinafter called "Contractor", and

____________________________ whose address is____________________________ hereinafter called "Escrow Agent".

For the consideration hereinafter set forth, Owner, Contractor, and Escrow Agent agree as follows:

1. Pursuant to §22300 of the Public Contract Code of the State of California, Contractor has the option to deposit securities with Escrow Agent as a substitute for retention earnings required to be withheld by Owner pursuant to the Construction contract entered into between the Owner and Contractor for __________________ in the amount of $________________ dated ________________ (hereinafter referred to as the "Contract"). Alternatively, on written request of the contractor, the Owner shall make payment of the retention earnings directly to the Escrow Agent. When the Contractor deposits the securities as a substitute for Contract earnings, the Escrow Agent shall notify the Owner within 10 days of the deposit. The market value of the securities at the time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the Contract between the Owner and Contractor. Securities shall be held in the name of __________________ and shall be designated the Contractor as the beneficial Owner.

2. Owner shall make progress payments to Contractor for those funds which otherwise would be withheld from progress payments pursuant to the Contract provisions, provided that Escrow Agent holds securities in the form and amount specified above.

3. When the Owner makes payment of retentions earned directly to the Escrow Agent, the Escrow Agent shall hold them for the benefit of Contractor until the time that the escrow created under this contract is terminated. The Contractor may direct the investment of the payments into securities. All terms and conditions of this Escrow Agreement and the rights and responsibilities of the parties shall be equally applicable and binding when the Owner pays the Escrow Agent directly.

4. Contractor shall be responsible for paying all fees for the expenses incurred by Escrow Agent in administering the Escrow Account and all expenses of the Owner. The Owner, Contractor, and Escrow Agent shall determine these expenses and payment terms.

5. The interest earned on the securities or money market accounts held in escrow and all interest earned on that interest shall be for the sole account of Contractor and shall be subject to withdrawal by Contractor at any time and from time to time without notice to Owner.

6. Contractor shall have the right to withdraw all or any part of the principal in the Escrow Account only by written notice to Escrow Agent accompanied by written authorization from Owner to Escrow Agent that Owner consents to the withdrawal of the amount sought to be withdrawn by Contractor.

7. Owner shall have a right to draw upon the securities in the event of default by Contractor. Upon seven days written notice to Escrow Agent from Owner of the default, Escrow Agent shall immediately convert the securities to cash and shall distribute the cash as instructed by Owner.

8. Upon receipt of written notification from Owner certifying that the Contract is final and complete, and that Contractor has complied with all requirements and procedures applicable to the Contract, Escrow Agent shall release to Contractor all securities and interest on deposit less escrow fees and charges of the Escrow Account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payment of all fees and charges.
ESCROW AGREEMENT (CONT'D)

9. Escrow Agent shall rely on the written notifications from the Owner and the Contractor pursuant to Sections (5) through (8), inclusive, of this Escrow Agreement, and the Owner and the Contractor shall hold Escrow Agent harmless from Escrow Agent's release and disbursement of securities and interest as set forth above.

10. The names of the persons who are authorized to give written notice or to receive written notice on behalf of Owner, Contractor and Escrow Agent in connection with the foregoing, and exemplars of their respective signatures are as follows:

On behalf of Owner:

Signature
Name
Title
Address

On behalf of Contractor:

END OF DOCUMENT 00550

00550-2
WHEREAS, the Board of Supervisors of the County of Santa Clara, State of California, and hereinafter designated as "Principal" have entered into an Agreement for the furnishing of all materials, labor, services and equipment necessary, convenient and proper to perform work under:

Job Order Contracting JOC-FAF-2020-01

pursuant to the said Agreement dated _________________, 20__, and all of the documents attached thereto and incorporated by reference, becoming a part of said Agreement, forming the contract for the job orders described therein ("Contract"), are hereby referred to and made a part hereof; and,

WHEREAS, said Principal is required according to the terms of said Contract and applicable California State law, to furnish a Bond for the faithful Performance of said Contract.

NOW, THEREFORE, we, the Principal and ________________________________________________as Surety, are held and firmly bound unto the County of Santa Clara in the penal sum of:

Five Million Dollars ($5,000,000.), lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents, referred to hereinafter as the Penal Sum.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, its subcontractors, heirs, executors, administrators, successors or assigns, shall promptly and faithfully perform the covenants, conditions, and agreements in the Contract during the original term and any extensions thereof as may be granted by Owner, with or without notice to Surety, and during the period of any guarantees or warranties required under the Contract, and shall also promptly and faithfully perform all the covenants, conditions, and agreements of any and all alterations of the Contract made as therein provided, notice of which alterations to Surety being hereby waived, on Principal’s part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall defend, indemnify and hold harmless Owner, its officers, agents, and employees, as stipulated in the Contract, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

No extension of time, change, alteration, addition or deletion to the Contract, or to the work to be performed thereunder, or work or actions by Owner to mitigate the damages resulting from any breach in performance by Principal, or work or actions to protect the work or property, shall in any way release or exonerate Surety on this Bond or in any way affect the obligations of this Bond, and the Surety hereby waives notice of any such change, extension of time, change, alteration, modification, addition or deletion, work, or actions.

Whenever Principal shall be and declared by Owner in default under the Contract, Surety shall promptly remedy the default, or shall promptly, and in no event later than forty-five (45) days from receipt of such notice or thirty days (30) days following the effective date of a termination of Principal’s right to proceed with the work, elect and commence performance of one of the following options:

A. Undertake performance and completion of the Contract, through its agents or independent contractors (but having qualifications and experience meeting Contract requirements in the reasonable judgment of the Owner), to perform and complete the Contract in accordance with its terms and conditions and to pay and perform all obligations of Principal under the Contract, including without limitation, all obligations with respect to warranties, guarantees, indemnities, and the payment of liquidated damages; or

B. Obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and, upon determination by Owner of the lowest responsible bidder, arrange for a contract between such bidder and Owner and make available as work progresses (even though there should be a default or a succession

00611 - 1
of defaults under the contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the balance of the contract sum remaining on the date of effectiveness of such termination, and to pay and perform all obligations of Principal under the Contract, including, without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.

Surety’s total obligations hereunder shall not exceed the amount set forth above as the Penal Sum. The term “balance of the contract sum,” as used in the above paragraph, shall mean the total amount payable by Owner to the Principal under the Contract and any amendments thereto, less the amount paid by Owner to Principal.

Surety’s obligations hereunder are independent of the obligations of any other surety for the performance of the Contract, and suit may be brought against Surety and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing Owner’s rights against the others.

Surety may not use Contractor to complete the Contract absent Owner’s Consent. Owner shall have the right in its sole discretion to continue the work of the Contract, following a default and/or termination, as necessary to prevent risks of personal injury, property damage or delay to the Project pending Surety’s election described above.

No right of action shall accrue on this bond to or for the use of any person or corporation other than Owner or its successors or assigns.

Surety shall join in any proceedings brought under the Contract upon Owner’s demand, and shall be bound by any judgment. Correspondence or claims relating to this bond shall be sent to Surety at the address set forth below. Notices and elections may be sent by overnight mail, confirmed by email, in addition to methods required by Contract.

In the event suit is brought upon this Bond by the County of Santa Clara and judgment is recovered, Surety shall pay all costs incurred by the County of Santa Clara in such suit, including a reasonable attorney’s fee to be fixed by the adjudicatory body in accordance with applicable law.

The Surety, by the execution of this Bond, represents and warrants that this Bond has also been duly executed by the Principal with proper authority, and the Surety hereby waives any defense which it might have by reason of any failure by the Principal to execute or properly execute this Bond.
PERFORMANCE BOND (CONT'D)

IN WITNESS WHEREOF two identical counterparts of this instrument, each of which shall for all purposes be deemed an original thereof, have been duly executed by the Principal and Surety above named on the __________ day of ________________________________, 20____.

END OF DOCUMENT 00611
PAYMENT BOND FOR PUBLIC WORKS

WHEREAS, the Board of Supervisors of the County of Santa Clara, State of California, and hereinafter designated as "Principal" have entered into an Agreement for the furnishing of all materials, labor, services and equipment necessary, convenient and proper to complete work under:

Job Order Contracting JOC-FAF-2020-01

pursuant to the said Agreement dated ______________________, 20____, and all of the documents attached thereto and incorporated by reference, becoming a part of said Agreement, are hereby referred to and made a part hereof; and,

WHEREAS, said Principal is required by Title 1, Chapter 4 (commencing at §8152) and Title 3, Chapter 5 (commencing at §9550), of Part 6 of Division 4, of the California Civil Code to furnish a Bond in connection with said Agreement.

NOW THEREFORE, we, the Principal and _________________________________________________ as Surety, are held and firmly bound unto the County of Santa Clara in the penal sum of:

Five Million Dollars ($5,000,000.), lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators and successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT if said Principal, its subcontractors, heirs, executors, administrators, successors or assigns shall fail to pay any of the persons named in §9100 of the California Civil Code, any amounts due under the Unemployment Insurance Code with respect to work or labor performed by any such claimant, any prevailing wages due and penalties incurred pursuant to Sections 1774, 1775, 1813 and 1815 of the California Labor Code, any amounts required to be deducted or withheld from the wages of employees of the Principal and its subcontractors for payment to the United States Government and/or to the State Franchise Tax Board with respect to such work and labor, the Surety will pay for the same, in an amount not exceeding the total sum herein above specified, and also, in case suit is brought upon this Bond, a reasonable attorney's fee to be fixed by the court. This Bond shall inure to the benefit of any of the persons named in Section 9100 of the California Civil Code, so as to give the right of action to such persons or their assigns in any suit brought upon this Bond.

It is further stipulated and agreed that the Surety on this Bond shall not be exonerated or released from the obligation of this Bond by any change, extension of time for performance, addition, deletion, alteration, or modification in, to, or any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described or pertaining to or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or attempted rescission of the contract, agreement, or Bond, nor by any conditions precedent or subsequent in the Bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the Bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the Bond, and that this Bond be construed most strongly against the Surety and in favor of all persons for whose benefit such Bond is given, and under no circumstances shall the Surety be released from its obligations hereunder by reason of any breach of contract between the County of Santa Clara and said Principal or on the part of any obligee named in such Bond, but the sole conditions of recovery shall be that claimant is a person described in §9100 of the California Civil Code and has not been paid the full amount of its claim, and that Surety does hereby waive notice of any such change, extension of time, addition, deletion, alteration, or modification herein mentioned.
PAYMENT BOND FOR PUBLIC WORKS (CONT'D)

The Surety, by the execution of this Bond, represents and warrants that this Bond has also been duly executed by the Principal with proper authority, and the Surety hereby waives any defense which it might have by reason of any failure by the Principal to execute or properly execute this Bond.

IN WITNESS WHEREOF two identical counterparts of this instrument each of which shall for all purposes be deemed an original thereof, have been duly executed by the Principal and Surety above named on the ______ day of __________________, 20____.

END OF DOCUMENT 00612
Contractor's Certification Regarding Worker's Compensation

Contract with the County of Santa Clara for the
construction of: PROJECT TITLE: JOC-FAF-2020-01

PROJECT NO.: _____________________________

Labor Code §3700:

"Every employer, except the State, and all political subdivisions or institutions thereof, shall secure the payment of compensation in one or more of the following ways:

(a) By being insured against liability to pay compensation by one or more insurers, duly authorized to write compensation insurance in this State.

(b) By securing from the Director of Industrial Relations a certificate on consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to employees."

I am aware of the provisions of §3700 of the Labor Code that require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance. In accordance with the provisions of that code, I will comply with such provisions before commencing the performance of the Work of this Contract.

END OF TABLE OF ARTICLES
1.1 ABBREVIATIONS: References in the General Conditions are sometimes referred to only by corresponding abbreviation. Not all abbreviations are listed and not all listed abbreviations are used. Unless otherwise specifically defined in the General Conditions, when the following abbreviations are used, the intent and meaning will be interpreted as follows:

1.1.1 A/E – Design Professional
1.1.2 CM – Construction Project Manager
1.1.3 DFOW - Definable Feature of Work
1.1.4 FAF – The Facilities and Fleet Department of the County of Santa Clara
1.1.5 LDs – Liquidated Damages
1.1.6 NTP – Notice To Proceed
1.1.7 OAR – Owner’s Authorized Representative
1.1.8 PE – Design Professional
1.1.9 QC – Quality Control
1.1.10 RFI – Request For Information
1.1.11 SOV – Schedule Of Values

1.2 DEFINITIONS: Wherever in the Bidding Requirements, Contracting Requirements (except Document 00850, “Indemnification and Insurance Requirements”), or General Requirements the following terms, or pronouns in place of them are used, the intent and meaning will be interpreted as follows:

1.2.1 Acceptance - The formal acceptance by the County of the Completion of the entire Work of the Job Order, which to Owner’s knowledge has been performed in accordance with the requirements of the Contract Documents and all Approved modifications thereof.
1.2.2 Addendum - A written change to the Bid Documents issued before the time fixed for the opening of Bids.
1.2.3 Additional Detailed Instructions - Detailed written and/or graphic instructions issued by the Owner to the Contractor to explain the Work more fully. Such instructions become part of the requirements of the Contract Documents without changing the requirements of the Contract Documents.
1.2.4 Agreement - The written and signed document known as Document 00500, “Agreement.” (Sometimes also referred to as Contract Agreement or Contract.)
1.2.5 Alternative - Refer to Approved Equal and Substitution
1.2.6 Approved, Directed, Ordered, or Required - Whenever these words or their derivatives are used, it is the intent, unless otherwise clearly stated, that written approval, acceptance, or direction by the Owner’s Authorized Representative or Owner’s Project Manager is required.
1.2.7 Approved Equal - Material, equipment, or method accepted by the Owner’s Authorized Representative for use in the Work, as being acceptable as an equivalent in essential attributes to the material, equipment, or method specified in the Contract Documents.
1.2.8 Architect of Record – See Design Professional of Record
1.2.9 Award Date - Date of action taken by the Board of Supervisors accepting Contractor’s Bid and authorizing its Chairperson to execute the Agreement. (Sometimes also referred to as Award.)
1.2.10 Bid Alternate – Additive and/or deductive Bid items identified as such on the Bid Form.
1.2.11 **Bid** - The offer of a Bidder to perform the Work pursuant to a completed prescribed Bid Form, properly executed and guaranteed, and timely submitted.

1.2.12 **Bidder** - Any individual, firm, partnership, corporation, or combination thereof, submitting a Bid for the Work contemplated, acting directly or through a duly authorized representative.

1.2.13 **Bid Documents** - The documents approved by the Board of Supervisors to advertise for construction of the Project, including but not limited to the Introductory Information, Bidding Requirements, Notice to Bidders (Document 00100), Bid Form (Document 00410), Agreement Form (Document 00500), Bidder’s Bond Form (Document 00430), the Performance Bond Form (Document 00611), the Payment Bond Form for Public Works (Document 00612), and the Sample Escrow Agreement for Security Deposits in Lieu of Retention (Document 00550), plus the Project Manual, General Requirements, General Conditions, Construction Task Catalog, Task Specifications, Specification Division 1 (General Requirements), and any Addenda or written modification to any of the foregoing. The Bid Documents do not include documents listed, included, or referenced "For Information Only" including but not limited to geotechnical reports, asbestos surveys, and other pre-design reports.

1.2.14 **Bid Form** - The approved form upon which Owner requires a formal Bid be prepared and submitted for the Work.

1.2.15 **Bidder’s Security** - The cash, cashier’s check, certified check, or Bidder’s bond accompanying the Bid submitted by the Bidder as a guaranty that the Bidder will enter into a Contract with Owner for the performance of the Work of the Contract is Awarded to the Bidder.

1.2.16 **Board of Supervisors** - The Board of Supervisors of the County of Santa Clara.

1.2.17 Reserved

1.2.18 Reserved

1.2.19 **Claim** - A separate unresolved Dispute by the Contractor for: (A) a Contract Time extension, (B) payment of money or damages arising from Work done by, or on behalf of, the Contractor pursuant to the contract for a public work and payment of which is not otherwise expressly provided for or the claimant is not otherwise entitled to, or (C) an amount the payment of which is disputed by the Owner.

1.2.20 **Complete Submittal** – A group of individual Submittals, each meeting the requirements of the Contract Documents, encompassing all the Work included in a Definable Feature of Work (DFOW), and submitted to the Owner as a single Submittal package.

1.2.21 **Completion** - Acceptance of the Work by Owner.

1.2.22 **Construction Project Manager (CM)** - A consultant firm or such other individual or entity as Owner may designate to Contractor in writing, retained by Owner to perform project management services.

1.2.23 **Consultants** - Architects, Engineers, Construction Project Managers and other professionals engaged to provide the Owner with professional services for the Project.

1.2.24 **Contract** - The written Agreement on the Owner’s form encompassing the performance of the Work and the furnishing of labor, materials, tools, and equipment in the construction of the Work. Synonymous with "Agreement", and "Contract Agreement".

1.2.25 **Contract Bonds** - The Performance Bond and the Payment Bond for Public Works.

1.2.26 **Contract Documents** - The Bid Documents, Request for Job Order Proposals, Job Orders, all Additional Detailed Instructions, Field Modifications, and Approved Supplemental Job Orders.
1.2.27 **Contractor** - The person or persons, firm, partnership, corporation, or combination thereof, private or municipal, or the legal representatives thereof, that entered into the Contract with Owner. (Sometimes also referred to as “Prime Contractor” or “Original Contractor”)

1.2.28 **Contractor’s Authorized Representative** – The Contractor’s authorized representative who has the authority to represent and act for Contractor.

1.2.29 **Contractor’s Labor Force** – A person or persons employed with and directly compensated by the Contractor as evidenced by certified payroll, worker’s compensation, insurance, and other indicia of employment.

1.2.30 **Reserved**

1.2.31 **Cost Breakdown** - A document submitted by the Contractor to the Owner reflecting the portions of the Job Order Price allotted for the various parts of the Work. (Sometimes also referred to as “Schedule of Values”)

1.2.32 **County** – The County of Santa Clara, a political subdivision of the State of California.

1.2.33 **Critical Path** – All references in the Contract Documents to the Critical Path mean the longest path of dependent activities within the current updated version of the Official Progress Schedule that determine when the Work of the Project will be complete.

1.2.34 **Date of Acceptance** - The date of Acceptance by the Board of Supervisors of Contract Completion.

1.2.35 **Day(s)** - Calendar days unless otherwise designated.

1.2.36 **Deficiency List** - A written list of deficiencies in the completed Work. Also sometimes referred to as “Punch List.”

1.2.37 **Definable Feature of Work (DFOW)** - A Work task that is separate and distinct from other Work tasks and has common control requirements and work crews.

1.2.38 **Design Professional** - The term “Design Professional” means a person licensed in California; as an architect pursuant to Chapter 3 (commencing with §5500) of Division 3 of the Business and Professions Code, registered as a professional engineer pursuant to Chapter 7 (commencing with §6700) of Division 3 of the Business and Professions Code, or licensed as a land surveyor pursuant to Chapter 15 (commencing with §8700) of Division 3 of the Business and Professions Code (Also sometimes referred to as “Architect/Engineer”, “A/E”, “Professional Engineer”, “PE”, “Design Consultant”, and/or “Consultant”).

1.2.39 **Design Professional of Record** – The term “Design Professional of Record” means the Design Professional in responsible charge of the design services or portions of the design services in connection with the Project.

1.2.40 **Direct Labor** – Labor required to complete the Work and performed onsite as evidenced by certified payroll or other relevant documentation.

1.2.41 **Director** - The term “Director” means the Director of the County’s FAF Department.

1.2.42 **Dispute** - A written disagreement submitted by the Contractor seeking adjustment of Contract terms, payment of money, extension of Contract Time or other relief with respect to the terms of the Contract. A Dispute is not a Claim.

1.2.43 **Drawings** - The graphic and pictorial portions of the Contract Documents, illustrating the design, character, location, and dimensions of the Work to be performed, generally including but not limited to, elevations, sections, details, schedules, General Notes, specific notes, and diagrams. Synonymous with “Drawings”, “Contract Drawings”, and “Plans”.

00700-7
1.2.44 Emergency – A sudden, unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services.

1.2.45 Fabricated - Specifically assembled or made out of selected materials to meet Project specific design requirements.

1.2.46 Field Modification - A written instruction, clarification or additional information issued by the Owner’s Project Manager to Contractor that does not change the Job Order Completion Time or Job Order Price but becomes part of the requirements of the Contract Documents.

1.2.47 Final Inspection – The inspection performed by the Owner and its Consultants after the Contractor has certified that the entire Work of the Project is complete.

1.2.48 Force Account - The method of performing Work by or on behalf of Contractor on a time, materials and equipment basis.

1.2.49 General Notes - The written instructions, provisions, conditions or other requirements appearing on the Drawings, and so identified thereon, which pertain to the performance of the Work.

1.2.50 Governing Body - The Board of Supervisors of the County of Santa Clara.

1.2.51 Governmental Agencies - Whenever, in the Contract Documents, reference is made to any governmental agency or officer, such reference will be deemed made to any agency or officer acting in accordance with law to the power, duties, jurisdiction, and authority of the agency or officer mentioned.

1.2.52 Facilities and Fleet Department (FAF) – The Facilities and Fleet Department of the County of Santa Clara.

1.2.53 Guarantee - A promise or assurance given by one party to a second party that a third party's obligations will be fulfilled (i.e., Contractor agrees to guaranty the Work performed by one of its Subcontractors to the Owner). (Also sometimes referred to as Warranty/Guarantee)

1.2.54 Inspector - The person assigned by Owner to inspect the Work. (Also sometimes referred to as Project Inspector or Owner’s Inspector.)

1.2.55 Install - Synonymous with “Provide” for the purposes of this Contract.

1.2.56 Job Order Document - The County's signature document requiring the Contractor to complete the Detailed Scope of Work within the Job Order Completion Time for the Job Order Price and authorizing such Work and the approved cost. A project may consist of one or more Job Orders.

1.2.57 Job Order Completion Time - The time within which the Contractor must complete the Detailed Scope of Work.

1.2.58 Job Order Contract Notice to Proceed - The written notice issued by Owner’s Authorized Representative to Contractor whereby the Contractor is notified of the official Job Order Contract start date, after which Work may be issued to the Contractor in the form of individual authorized Job Orders.

1.2.59 Job Order Price - The value of the approved Job Order Price Proposal and the amount the Contractor will be paid for completing a Job Order.

1.2.60 Labor Hours – The Direct Labor cost of a Job Order determined by adding (i) the labor cost component of all pre-priced unit tasks, and (ii) labor costs of non-prepriced Work, including subcontracts.
1.2.61 **Laboratory** - Any laboratory authorized or accepted by Owner to test materials and Work involved in the Contract.

1.2.62 **Liquidated Damages** - The amount prescribed in the Contract Documents to be paid to Owner or to be deducted from any payments due or to become due Contractor for each Day’s delay in completing the whole or any specified portion of the Work, beyond the time(s) allowed in the Contract Documents Approved Work Schedule plus Approved time extensions.

1.2.63 **Reserved.**

1.2.64 **Reserved**

1.2.65 **Maximum Contract Value** - The maximum value of Job Orders that the Contractor may receive under this Contract.

1.2.66 **Minimum Contract Value** - The minimum value of Job Orders that the Contractor is guaranteed the opportunity to perform under this Contract.

1.2.67 **Named Products** - Products identified in the Contract Documents by Manufacturer's product name. Named Products may include Manufacturer's make or model number or other designation.

1.2.68 **Notice of Award** - The letter from the Clerk of the Board of Supervisors notifying Contractor that the Board of Supervisors accepted Contractor's Bid and authorized the President to execute the Agreement.

1.2.69 **Notice of Completion** - A document executed by the County and filed with the County Recorder, signifying that a Job Order has been Completed and Accepted.

1.2.70 **Notice to Bidders** - The Document inviting sealed Bids for the Work. (Document 00100, “Notice to Bidders”)

1.2.71 **Official Progress Schedule** - The Contractor's Progress Schedule and all revisions and updates thereto, accepted by the Owner and attached to the Job Order.

1.2.72 **Or Equal** - Refer to Approved Equal

1.2.73 **Owner** - The County of Santa Clara

1.2.74 **Order** - Refer to Approved, Directed, Ordered, or Required

1.2.75 **Owner’s Authorized Representative** - The person named in the Notice to Bidders whose authority includes but is not limited to the authority to approve Addenda, Change Orders, and Payment Requests.

1.2.76 **Plans** - See Drawings

1.2.77 **Preconstruction Submittals** - Submittals requiring Owner’s acceptance before Contractor may proceed with the installation of Work or the procurement of the materials and/or equipment covered by the Submittal.

1.2.78 **Project** - The entire public improvement proposed by Owner to be constructed in whole or in part pursuant to the requirements a Job Order or Job Orders and the Contract Documents, including any phasing or other requirements

1.2.79 **Product Data** - Illustrations, Manufacturer’s literature, standard schedules, performance charts, instructions, brochures, diagrams and other information submitted by the Contractor to illustrate materials or equipment for some portion of the Work. Product Data are not considered Contract Documents.

1.2.80 **Project Manager** - The person identified in the Notice to Bidders as the Project Manager or subsequently designated by Owner’s Authorized Representative to manage the Contract and/or the Project. (Also sometimes referred to as Owner’s Project Manager)
1.2.81 **Project Manual** - The written volume(s) assembled for the Work, including the Introductory Information, Bidding Requirements, Contracting Requirements, General Requirements, Construction Task Catalog, Technical Specifications, and other written or graphic material as may be listed in the Project Manual Table of Contents, including any Addenda and Approved revisions by Owner.

1.2.82 **Project Site** - Space available to Contractor for performance of the Work, either exclusively or in conjunction with others performing other work as part of the Project. May refer to one or more Project Sites.

1.2.83 **Provide** - Synonymous with “Install” for the purposes of this Contract: All labor, materials, equipment, supervision and whatever else is necessary to supply and incorporate a specified item into the Work in compliance with the requirements of the Contract Documents.

1.2.84 **Punch List** - A written list of deficiencies in the completed Work. (Also sometimes referred to as “Deficiency List.”)

1.2.85 **Record Documents** - A set of the Contract Documents including Drawings and Project Manual updated on a continuous basis to indicate conditions encountered and the final configuration of a Project as it was constructed. Record Documents include any change or clarification to the Contract Documents and dimensional information showing the actual locations of Installed components of the Work. (Also known as “As-Builts” or “As-Built Documents”)

1.2.86 **Request for Information (RFI)** - A written request by the Contractor for information or clarification regarding the requirements of the Contract Documents. Requests For Information must be numbered sequentially and presented in a format furnished or accepted by the Owner’s Project Manager. The Owner’s response to an RFI is considered an Additional Detailed Instruction and does not change the requirements of the Contract Documents, Job Order Completion Time, Contract Time, or Job Order Price.

1.2.87 **Retention** - A defined percentage of the Contract Sum held by the Owner pending Completion of the Work, or any portion of the Work.

1.2.88 **Samples** - Physical examples that illustrate materials, equipment or workmanship and establish standards by which the Work will be evaluated.

1.2.89 **Shop Drawings** - Drawings, diagrams, schedules, and other data specially issued for the Work by the Contractor or a Subcontractor, Sub-Subcontractor, and Suppliers to demonstrate and/or illustrate the way by which the Contractor proposes to conform to the information given and the design concept expressed in the Contract Documents for some specific portion of the Work. Shop Drawings are not considered Contract Documents.

1.2.90 **Specifications** - The written directions, provisions and requirements pertaining to the materials to be provided and to the method and manner of performing the work, equipment, systems and standards, including any Addenda and Approved revisions by Owner. (Also sometimes referred to as “Technical Specifications” or “Specs.”)

1.2.91 **State** - The State of California.

1.2.92 **Subcontractor** - A contractor, within the meaning of the provisions of Chapter 9 (commencing with § 7000) of Division 3 of the Business and Professions Code, who contracts directly with the Contractor to perform any Work of the Project. The term Subcontractor is referred to throughout the Contract Documents as if singular in number and means a Subcontractor or its authorized representative.

1.2.93 **Sub-subcontractor** - A contractor, within the meaning of the provisions of Chapter 9 (commencing with § 7000) of Division 3 of the Business and Professions Code, that has a direct or indirect contract with a Subcontractor to perform any Work of the Project. The
term Sub-subcontractor is referred to throughout the Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative thereof.

1.2.94 **Submittal** - Data or items required by the Contract Documents to be submitted by the Contractor to the Owner. Submittals demonstrate the method, materials, plan, or sequence the Contractor proposes to use to conform to the design concept expressed in the requirements of the Contract Documents. Submittals include but are not limited to Shop Drawings, Coordination Drawings, layouts, Progress Schedules, Substitution requests, Samples, mockups, catalogs, Product Data and literature, equipment data sheets, maintenance and operating data. Unless otherwise stated in the Contract Documents, Submittals are not considered Contract Documents.

1.2.95 **Substitution** - A material and/or process offered by the Contractor in lieu of the specified material and/or process, and accepted by the Owner’s Authorized Representative in writing as being equivalent (equal) to the specified material and/or process. (Also sometimes referred to as Product Substitution)

1.2.96 **Supplier** - A person or organization contracting with Contractor, a Subcontractor or a Sub-subcontractor to supply materials and/or equipment for the Work.

1.2.97 **Surety** - A company that provides Contractor’s bonds for bidding, performance and payment and is admitted as a surety insurer as defined in §995.120(a) of the California Code of Civil Procedure.

1.2.98 **Total Float Time** - The time difference between the earliest start date and the latest start date, or between the earliest finish date and the latest finish date, of Project activities. (Also sometimes referred to as “slack time” or “Total Float” or “Float”)

1.2.99 **Warranty** - A Contractor’s, Subcontractor’s, Manufacturer’s or material Supplier’s promise or assurance, written or otherwise, that it’s Products and services provided meet industry (implied) or contractual (the requirements of the Contract Documents) standards of performance. (Also sometimes referred to as Warranty/Guarantee.)

1.2.100 **Work** - That which is constructed or done pursuant to the requirements of the Contract Documents to accomplish the Project including but not limited to the furnishing of all labor, materials, use of tools and equipment.

**ADDITIONAL DEFINITIONS CAN BE FOUND IN THE SUPPLEMENTAL GENERAL CONDITIONS ARTICLE 1.**

1.3 **REPRESENTATIONS, CORRELATION AND INTENT**

1.3.1 By entering into the Agreement, Contractor represents it is familiar with the Project Site conditions including the availability of labor and materials in the local geographic area where the Work is to be performed and has correlated personal observations with requirements of the Contract Documents.

1.3.2 The Contract Documents are complementary, and what is required by any one is as binding as though required by all. The intent of the Contract Documents is to include all labor, materials, equipment, and all other items necessary for the proper execution and completion of the entire Work. Unless otherwise specifically noted, Contractor must Provide and pay for all labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and all other facilities and services necessary for the proper execution and completion of the Work.

1.3.3 Work not explicitly depicted or mentioned in any portion of the Contract Documents is nevertheless required if it is consistent therewith and is reasonably inferable therefrom as being necessary to produce the intended results. Words and abbreviations having well known technical, trade or industry meanings are herein in accordance with such recognized meanings.
1.3.4 The organization of the Project Manual into Articles, Parts, Sub-Parts, Divisions, Sections, and Paragraphs and the arrangement of Drawings do not control Contractor in dividing the Work among Subcontractors or Suppliers or in establishing the extent of Work to be performed by any Subcontractor or trade.

1.3.5 The Contract Documents prescribe the details for the construction and completion of the Work that Contractor undertakes to perform in accordance with the terms of the Contract.

1.3.6 Scale Drawings, full-sized Drawings and Project Manual are intended to be complementary and to agree.

1.3.7 Owner, whose decision is final, will clarify questions regarding the interpretation of the Contract Documents.

1.3.8 Any Work called for by the Drawings and not mentioned in the Project Manual, or vice versa, is to be Provided as though fully set forth by both.

1.3.9 Where not specifically stated otherwise, all Work and materials necessary for each unit or item of Work, including special construction for any specific brand or shape of materials called for, even though only briefly mentioned or indicated, must be Provided and Installed fully and completely as part of the Work of this Contract.

1.3.10 In the event of any difference, discrepancy, inconsistency, error, omission, or other apparent conflict within the Contract Documents and/or with actual field conditions, Contractor must immediately notify Owner in writing, requesting clarification. If Contractor is aware the Work is affected and proceeds with the Work without instructions from Owner, Contractor must make good any resultant damage or defects.

1.3.11 Contractor must not assume that one element in the Contract Documents has preference over another, except as provided in Document 00700.1.6, “Conflicts in the Contract Documents.” In the event that two or more Products or methods are specified for a particular application, Contractor must furnish the most suitable quality or method, as determined by Owner.

1.3.12 When standards of the Federal Government, trade societies, trade associations, or similar commercial standards are referred to in the Contract Documents by specific date of issue, these standards, including amendments or supplements, will be considered as part of the Contract Documents. When such references do not bear date of issue, the current published edition, including amendments or supplements, at the date of the first Notice to Bidders will be considered as part of the Contract Documents.

1.3.13 Contractor is responsible for the complete and proper execution of the Work as described in, and as reasonably implied by, the Contract Documents. Contractor is solely responsible for ensuring that all Subcontractors, Suppliers, Manufacturers, etc., working with any portion of the Contract Documents are fully aware that all the Contract Documents apply to their Work, although the other portions of the Contract Documents may not be fully reproduced or repeated therein.

1.3.14 Contractor must be skilled and experienced in the understanding and use of construction documents. Contractor must carefully review the Contract Documents for this Project and must carefully examine the Project Site of the Work before Bidding. Unless Contractor has otherwise informed Owner in writing before Bidding, Contractor warrants that it found all Contract Documents free of ambiguities and sufficient for Bidding and construction purposes, and that from its own observations, Contractor has satisfied itself as to the nature and locations of the Work, the character, quality and quantities of materials and labor required, the difficulties likely to be encountered, and all other items that may affect its performance.

1.3.15 Contractor, having assured itself of the adequacy of the Bid Documents and the accuracy of its Bid, agrees to execute the Work within the Job Order Completion Time(s) and Job
Order Price established in the Contract Documents. Contractor further understands that construction will likely involve some clarifications and changes to the Bid Documents and modifications in Contractor’s planned work procedures. These are expected conditions of construction, and Contractor has anticipated them and provided for them in its Bid.

1.3.16 The Drawings, Project Manual and other Contract Documents issued by Owner and copies furnished to the Contractor, are for use solely with respect to the Work of this Project. They are not to be used by the Contractor or any Subcontractor, Sub-Subcontractor or Supplier on other projects, nor for additions to this Project outside the scope of the Work without the specific written consent of Owner. The Contractor, Subcontractors, Sub-Subcontractors and Suppliers are granted permission to use and reproduce applicable portions of the Drawings, Project Manual and other Contract Documents issued by Owner appropriate to, and for use in, the execution of their work pursuant to the requirements of the Contract Documents.

1.3.17 Paragraphs titled “Section Includes” are not intended to “scope” the Section nor imply a trade responsibility, but serve merely as a listing of significant items in the Section to allow the reader to quickly assess the Section content. Similarly, Paragraphs titled “Related Sections” or “Related Requirements” or “Related Documents” are not intended to coordinate the Contractor’s work, but merely indicate where certain other significant items that may be related to the Work of the Section are specified.

1.3.18 Unless otherwise indicated, highlighted, emboldened, italicized, or underlined text is not indented to imply special significance but serves merely as an aid to the reader to distinguish or quickly reference selected text.

1.3.19 By submitting a Bid, Contractor represents to the Owner that Contractor has verified the availability of Named Products and the Named Products including sole source Products are currently available.

1.4 ORGANIZATION OF PROJECT MANUAL

   .a The Project Manual is organized in general compliance with the Construction Specifications Institute (CSI) MasterFormat.

1.5 CAPITALIZATION AND CAPTIONS

1.5.1 Terms capitalized in the Introductory Information, Bidding Requirements, Contracting Requirements, and Division 1 (General Requirements) include those that are:

   .1 Specifically defined; or
   .2 Titles and captions of Documents or numbered Articles, Parts, Sub-Parts, Sections, or Paragraphs; or
   .3 Titles of other documents.

1.5.2 The titles and captions of the Documents, Articles, Parts, Sub-Parts, Sections, or Paragraphs are for convenience only and will not be deemed relevant in resolving any question of interpretation or construction of any such Documents, Articles, Parts, Sub-Parts, Sections, or Paragraphs.

1.6 CONFLICTS IN THE CONTRACT DOCUMENTS

1.6.1 See Supplemental General Conditions

1.6.2 Resolution of conflicts in the Contract Documents

   .1 In case of conflict between the Job Order Drawings and Job Order Technical Specifications, the Drawings will govern in matters of quantity, the Project Manual in matters of quality. In the case of conflict within the Drawings, the following will govern:

   .a Schedules, when identified as such, will govern over all other portions of the
Drawings.

.b Specific notes will govern over General Notes, all other notes, and all other portions of the Drawings, except schedules described in the preceding clause.

c Figured dimensions will have precedence over undimensioned items.

d Larger scale Drawings will govern over smaller scale Drawings (for example, ¼" = 1'-0" governs over 1/8" = 1'-0").

e Detail Drawings govern over standard plates included in the Project Manual.

1.6.3 Omissions

.1 If the Contract Documents are not complete as to any minor detail or required construction system or with regard to the manner of combining or installing of parts, materials, or equipment, but there exists accepted trade standard for good and workmanlike construction, such detail will be deemed to have been included by the requirements of the Contract Documents in accordance with such standard.

1.7 REQUESTS FOR INFORMATION

1.7.1 Requests for Information (RFI): If the Contractor discovers conflicts, omissions, or errors in the Contract Documents, or has any questions concerning interpretation or needs clarification of Contract Documents, the Contractor must immediately submit to the Owner, in writing, an RFI that complies with the following requirements:

.1 All RFIs, whether by the Contractor, a Subcontractor or Supplier at any tier, must be submitted by the Contractor to the Owner.

.2 RFIs must be numbered sequentially and be presented in the format furnished by or acceptable to the Owner's Project Manager.

.3 The Contractor must clearly and concisely set forth the issue for which interpretation or clarification is sought, indicating details or other pertinent items involved, and state why a response is required.

.4 Each RFI must be limited to one issue requiring response from the Owner.

.5 In each RFI the Contractor must set forth its own interpretation or understanding of the requirements, along with reasons why it has reached such an understanding.

.6 RFIs must be submitted in a timely manner in order that they may be adequately researched and answered before the response affects any Critical Path Activity of the Work.

.7 All RFIs must be submitted by the Contractor to the Owner before 3:00p.m. RFIs received after 3:00p.m. will be date stamped as received the following workday.

.8 Responses to RFIs will be issued by the Owner's Project Manager within 14 Days unless the Owner notifies the Contractor in writing that a response will take longer. The 14 Day response time will begin when the RFI is received and date stamped as received by the Owner.

.9 RFI responses will not change any requirement of the Contract Documents.

.10 Should the Contractor contend that a response to a RFI causes a change to the requirements of the Contract Documents, the Contractor must, before proceeding, give written notice to the Owner indicating that the Contractor considers the response to the RFI to be a change to the requirements of the Contract Documents. Failure to give such written notice within seven (7) Days of receipt of the Owner’s response to the RFI waives the Contractor’s right to seek an adjustment in the Job Order Completion Time or Job Order Price according to Document 00700 - Article 6, “Changes in the Work”, for costs or time incurred in connection with the Work.
described in the RFI.

1.8 ADDITIONAL DETAILED INSTRUCTIONS

1.8.1 Owner may furnish additional detailed written and/or graphic instructions to explain the Work more fully, and such instructions become a part of the requirements of the Contract Documents. Should Additional Detailed Instructions, in the opinion of the Contractor, constitute Work in excess of the requirements of the Contract Documents, the Contractor must submit written notice to the Owner within seven (7) Days following receipt of such instructions, and in any event prior to commencement of the Work thereon. If in the Owner's judgment the Additional Detailed Instructions constitute Work in excess of the requirements of the Contract Documents, the Additional Detailed Instructions will be revised or the extra Work will be added by Change Order.

END ARTICLE 1
ARTICLE 2 — ADMINISTRATION OF THE CONTRACT

2.1 AUTHORITY OF OWNER’S AUTHORIZED REPRESENTATIVE

2.1.1 Owner’s Authorized Representative will decide all questions regarding the interpretation and fulfillment of the Contract, the prosecution, progress, quality and acceptability of Work and materials; will implement and enforce decisions by issuing Orders, Directives, instructions and notices, and will Approve all changes in Job Order Price and Job Order Completion Time.

2.2 INFORMATION AND/OR SERVICES FURNISHED BY OWNER

2.2.1 Information and/or services required of Owner will be furnished by Owner in accordance with the Contract Documents.

2.2.2 The Owner will furnish the Contractor with copies of the Project Manuals as specified in the Bid Documents.

2.3 ADMINISTRATION OF THE CONTRACT

2.3.1 The Owner will administer the Contract during construction and during the Warranty/Guarantee period.

2.3.2 Changes to the Contract may be accomplished after execution of the Contract and without invalidating the Contract, by Change Order.

2.3.3 Unless otherwise specified in the Contract Documents, the Owner will not control the construction means, methods, techniques, sequences, procedures, safety precautions and programs in connection with the Work.

2.3.4 The Owner is not responsible for the Contractor’s failure to carry out the Work in accordance with the requirements of the Contract Documents.

2.3.5 The Owner is not responsible for acts, errors, or omissions of the Contractor, a Subcontractor, Sub-subcontractor or anyone directly or indirectly employed by any of them, or of any other persons performing portions of the Work.

2.3.6 Unless otherwise specified in the Contract Documents or when the Owner’s Project Manager has specifically authorized direct communications with its Consultants, Contractor communications by and with the Owner’s Consultants must be through the Owner’s Project Manager.

2.3.7 Subcontractors, Sub-Subcontractors and Supplier communications with the Owner or its Consultants must be through the Contractor.

2.3.8 Unless otherwise specified in the Contract Documents or when the Owner’s Project Manager has specifically authorized direct communications with other contractors working at the Project Site, Communications by and with separate contractors must be through the Owner’s Project Manager.

2.3.9 If the Owner observes Work that appears non-compliant with the requirements of the Contract Documents, the Owner has the authority to reject the Work.

2.3.10 Whenever Owner considers it necessary or advisable for implementation of the intent of the Contract Documents, Owner may require additional inspection or testing of the Work, whether or not such Work is Fabricated, Installed or completed.

2.3.11 The Owner will review Contractor’s submitted Shop Drawings, Product Data, and Samples, but only for the limited purpose of checking for conformance with information provided and the design concept expressed in the Contract Documents. Review of Submittals is not conducted for determining the accuracy and completeness of other details, such as dimensions and quantities, nor for substantiating instructions for installation or performance of equipment or systems, all of which are and remain the

00700-16
responsibility of the Contractor.

2.3.12 Owner, Owner’s Consultants, and Inspector as appropriate, will conduct periodic quality assurance inspections to determine the Contractor’s compliance with their QC Program and with the requirements of the Contract Documents.

2.3.13 Unless otherwise stated in the Contract Documents, Contractor must sequentially number all Contractor correspondence to the Owner in a format acceptable to the Owner’s Project Manager.

2.4 BREACHES, DEFAULTS AND TERMINATION FOR CAUSE

2.4.1 If Contractor fails to begin delivery of material and equipment, to commence Work or a designated portion of the Work within the time specified, to maintain the rate of delivery of material, to execute the Work or designated portion of the Work in the manner and at the specified location(s), or fails to maintain a work program which will ensure Owner’s interest, or, if Contractor is not carrying out the intent of the Contract, Owner’s written notice may be served upon Contractor and Surety on its faithful performance bond demanding satisfactory compliance with the requirements of the Contract Documents.

2.4.2 If the Owner deems that the Contractor has persistently or repeatedly refused or failed to supply an adequate workforce, or material of proper quality, or otherwise refuses or fails to submit a proposal in response to a Request for Job Order Proposal, prosecute the Work, or any separable part thereof, with such diligence as will ensure its completion within the Job Order Completion Time(s) specified in the Job Order or authorized extension thereof, or if Contractor should fail to make prompt payment to Subcontractors or Suppliers, or persistently disregards laws, ordinances, or Owner’s written Directions, or fails to comply with self performance requirements, or has failed in any other respect to prosecute the Work with the diligence and resources required by the Contract Documents, the Owner may, after providing at least 7 Days prior written notice to the Contractor identifying the defaults to be remedied, and the Contractor’s continued failure to remedy the default(s):

.1 provide any such labor and/or materials required to perform the Work or designated portion of the Work and deduct the cost from any money due or to become due to the Contractor; or

.2 if the Owner considers that the default(s) constitute sufficient basis for such action, provide the Contractor and the Contractor’s Sureties with an additional 7 Days written notice, that if the defaults are not remedied, the Contractor’s control of the Work or designated portion of the Work will be terminated.

2.4.3 Should Owner exercise its rights to terminate Contractor’s control of the Work or designated portion of the Work as noted in this Document 00700.2.4, “Breaches, Defaults, and Termination for Cause”, Owner may, without prejudice to any other rights or remedies of Owner and subject to any rights or obligations of the Surety:

.1 terminate Contractor’s control of the Work or designated portion of the Work;

.2 take possession of the Project Site or designated portion of the site and all or any of the Contractor’s materials, equipment, tools, appliances, and construction equipment and machinery owned by the Contractor as may be on the site and necessary for the performance of the Work or designated portion of the Work;

.3 accept assignment of any and/or all Subcontractor, Supplier, and/or rental agreements; and/or

.4 complete the Work or designated portion of the Work by whatever reasonable method(s) Owner may deem expedient and appropriate.

2.4.4 If Owner terminates the Contractor’s control of the Work or portion of the Work for
reasons provided in this Document 00700.2.4, “Breaches, Defaults, and Termination for Cause”, the Contractor will not be entitled to receive any further payments until the entire Work or designated portion of the Work is completed and Accepted. Contractor and its Sureties are liable to Owner for any additional cost of completing the Work or designated portion of the Work, including compensation for additional managerial, administrative and consulting services, plus the assessment of Liquidated Damages assessed pursuant to Document 00700.7.3, “Liquidated Damages.”

2.4.5 If the costs incurred by Owner as the result of termination of Contractor’s control of the Work or a portion of the Work pursuant to this Document Job Order Price Sum, the Contractor must pay the difference to Owner.

2.4.6 Upon Completion and Acceptance of the entire Work, Contractor is entitled to the return of all unused materials and its equipment, tools, and appliances, except that Contractor will have no Claim on account of usual and ordinary depreciation, loss, wear and tear.

2.4.7 If Owner terminates Contractor’s control of the Work for cause, and if it is later determined that the termination was wrongful, such default termination will automatically be converted to and be treated as a termination for convenience. In such event, Contractor will be entitled to receive only the amounts payable pursuant to Document 00700.2.5, “Termination for Owner’s Convenience”, and Contractor specifically waives any Claim for any other amounts or damages, including, but not limited to, any Claim for consequential damages or lost profits.

2.5 TERMINATION FOR OWNER’S CONVENIENCE

2.5.1 Owner reserves its right to terminate this Contract or any part thereof for Owner’s sole convenience, upon written notice to Contractor. In the event of such termination, the Contractor must immediately suspend all Work hereunder and must immediately cause any and all of its Subcontractors, Sub-Subcontractors and Suppliers to cease work. The Contractor will not be paid for any work performed or costs incurred that reasonably could have been avoided.

2.5.2 The Contractor will be paid in accordance with the provisions of Document 00700.8, "Payments”, except that the amount due the Contractor will be based upon the Owner’s estimate of the Work completed, or acceptable materials provided but not used, to the date of suspension of the Work, less any amounts required to be withheld pursuant to Document 00700.8, "Payments”, and less any prior payment(s) made to, or on the account of the Contractor.

2.6 CONTRACTOR’S RIGHT TO SUSPEND, STOP, OR TERMINATE THE WORK

2.6.1 Contractor may upon fifteen (15) Days’ written notice to Owner, stop Work or terminate the Contract and recover from Owner payment for all Work executed to date of termination if:

1. The Work is stopped pursuant to an order of any court or other public authority for a period of three (3) months, through no act or fault of Contractor or of anyone employed by Contractor; or,

2. Owner, without justification or good cause, fails to pay Contractor within sixty (60) Days after a complete payment application has been received and Approved by Owner’s Authorized Representative.

2.6.2 Work stoppage or termination by Contractor in accordance with this Document 00700.2.6, "Contractor’s Right to Suspend, Stop, or Terminate Work", does not excuse or relieve Contractor from any of its obligations pertaining to Work in place or completed.
2.6.3 The provisions of this Document 00700.2.6, “Contractor’s Right to Suspend, Stop, or Terminate Work”, are in addition to all other rights and remedies available to Contractor by law.

2.6.4 Contractor does not have the right to suspend the Work without Owner’s written approval, and must resume Work promptly when notified by Owner.

2.7 SUSPENSION BY OWNER FOR CONVENIENCE

2.7.1 Owner may, without invalidating the Job Order, may order changes in the Work by altering, adding to or deducting from the Work issuing a Supplemental Job Order, which may suspend, delay or interrupt all or any part of the Work for such periods of time as Owner may determine to be appropriate for Owner’s convenience or any other reason.

2.7.2 Contractor must immediately comply with Owner’s written Order to suspend, delay or interrupt Work or any part thereof.

2.7.3 If it should become necessary to suspend Work for an indefinite period:

.1 Contractor must store all materials in such manner that they will not be or become an obstruction;

.2 Contractor must take every precaution to prevent damage or deterioration of the Work performed;

.3 Contractor must provide suitable drainage and erect temporary structures where necessary to protect the Work;

.4 Contractor must take all prudent measures to mitigate costs associated with suspension of the Work.

2.8 ASSIGNMENT

2.8.1 The Contractor binds the Contractor, the Contractor's partners, successors, assigns and legal representatives to Owner in respect to covenants, agreements and obligations contained in the Contract Documents. Contractor must not assign the Contract as a whole or in part without written consent of the Owner. If Contractor makes such an assignment without Owner’s written consent, Contractor will remain legally responsible for all Contractor's obligations in the Contract Documents.

2.8.2 No assignment by the Contractor will be valid unless it contains a provision that the funds to be paid to the assignee pursuant to the assignments are subject to prior claims for payment for services rendered or material supplied for performance of the Work called for pursuant to the Contract Documents in favor of all persons, firms, or corporations rendering such services or supplying such materials.

2.8.3 Owner will not consent to an assignment that would relieve the Contractor or the Contractor's Surety(s) of their responsibilities pursuant to the Contract.

2.8.4 Subcontracts, purchase orders, and rental agreements entered into by Contractor must contain provisions permitting assignment to Owner, and providing for termination pursuant to the terms of this Agreement. To the extent that Owner elects to take legal assignment, the Contractor must execute and deliver all documents and take all such steps, including the legal assignment of such contracts and exercise other contractual rights of the Contractor, as Owner may require for the purpose of fully vesting in Owner the rights and benefits of the Contractor pursuant to such contracts.

2.8.5 The Contractor may assign moneys due or to become due pursuant to the Contract, through an amendment to the Contract. Any assignment of moneys earned by the Contractor is subject to all proper withholdings and Retention in favor of Owner provided for in the Contract Documents. All moneys withheld, whether assigned or not, are subject to being used by Owner to the extent permitted by law, for the Completion of the Work in
the event that the Contractor is in default of the Contract.

2.9 NOTICE

2.9.1 Any notice from one party to the other must be dated and signed by the party giving such notice or by a duly authorized representative of such party. No notice is effective for any purpose unless served in the following manner:

1. If the notice is provided to Owner, it must be by personal delivery to Owner’s Authorized Representative or by depositing the same in the United States mail, enclosed in a sealed envelope, addressed to the Owner’s Authorized Representative at the address identified in the Notice to Bidders, first class postage prepaid.

2. If the notice is provided to Contractor, it must be by personal delivery thereof to Contractor, or to Contractor’s Authorized Representative at the Project Site, or by depositing the same in the United States mail, enclosed in a sealed envelope, addressed to Contractor at its regular place of business or at such other address as may have been established for the conduct of the Work, first class postage prepaid.

3. If the notice is provided to the Surety or any other person, by personal delivery to such Surety or by depositing the same in the United States mail, enclosed in a sealed envelope, addressed to such Surety or person at the address of such Surety or person as stated in the Bond documents.

4. Deposit of notice in the United States mail will be deemed the date of receipt thereof.

2.10 AUDITS AND ACCESS TO RECORDS

2.10.1 The Contractor must maintain all books, records, documents, and other evidence directly pertinent to the performance of the Work in accordance with generally accepted accounting principles and practices consistently applied. The Contractor must also maintain all financial information and data used by the Contractor in the preparation or support of any cost submission, including the Contractor’s Bid estimate, any Change Order, Dispute, Claim, Pay Application, or other request for equitable adjustment. Owner and its representatives will have access upon 24 hours advanced written notice, at all times during normal business hours, to all Contractors books, summary reports, records, accounts, estimates, documents, detailed financial information, certified payroll records, and all other relevant information and documentation for the purposes of inspection, audit, and copying. The Contractor will, at no cost to Owner, provide proper facilities for such access, inspection and copying purposes.

2.10.2 Contractor agrees to include and make the requirements of Document 00700 - Sub-Part 2.10.1 applicable to all Subcontracts and Sub-subcontracts or purchase orders in excess of $10,000, at any tier.

2.10.3 Audits conducted pursuant to Document 00700 - Sub-Part 2.10.1 will be in accordance with general accepted auditing standards and established procedures and guidelines of the reviewing or audit agency.

2.10.4 The Contractor agrees to provide all information and reports resulting from access to records to Owner and other affected parties.

2.10.5 Records must be maintained and made available during the performance of the Work and for 3 years after Final Payment, and until final settlement of all Disputes, Claims, or litigation, whichever occurs later. In addition, those records which relate to any portion of this Contract, to any Change Order, to any Dispute, to any litigation, to the settlement of any Claim arising out of such performance, or to the cost or items to which an audit exception has been taken, must be maintained and made available until Final Payment or final resolution of such Dispute, litigation, Claim, or exception, whichever occurs later.

2.10.6 The right of access provisions of Document 00700 - Sub-Part 2.10.1 applies to all
financial records pertaining to this Contract:

.1 to the extent the records pertain directly to Contract performance;

.2 to the extent required for verification of the costs incurred where such costs are the basis for billings pursuant to this Contract including Change Orders;

.3 to the extent there is any indication of violation of the California False Claims statute or that fraud, gross abuse, or corrupt practices may be involved;

.4 if the Contract is terminated for default or convenience.

2.10.7 Access to records is not limited to the required retention periods. Owner’s Authorized Representative or designee will have access to records at any reasonable time for as long as the records are maintained.

2.11 GOVERNING LAW

2.11.1 This Contract will be interpreted and enforced in accordance with the laws of the State of California. Pursuant to California Code of Civil Procedure §394, proper venue for legal action arising out of this Agreement is in the County of Santa Clara. Both parties hereto agree that personal and subject matter jurisdiction is proper in Santa Clara County, California.

END ARTICLE 2
ARTICLE 3 — CONTRACTOR’S RESPONSIBILITIES

3.1 GENERAL RESPONSIBILITIES

3.1.1 Contractor must supervise and direct the Work, using its best skill and attention.

3.1.2 Contractor is solely responsible for all construction means, methods, techniques, operations, sequences and procedures, and for coordinating all portions of the Work.

3.1.3 The Contractor shall assign a full-time person as its representative for this Contract. This person shall be acceptable to the Owner and shall have a cell phone at which he or she can be reached at all times.

3.1.4 The Contractor shall also have at all times an Office Manager and a Superintendent assigned to this Contract. Additional staff will be provided depending on the volume of work. For each Job Order issued, the Contractor shall identify the Superintendent responsible for that Job Order. The Superintendent shall be reachable 24 hours a day, seven days a week. If the named Superintendent is not available because of illness or vacation or the like, the Contractor shall notify the Owner of a substitute Superintendent. At all times, the Contractor shall provide at least one Superintendent for every four Job Orders. Whenever, in the sole discretion of the Owner, the Contractor is not providing a sufficient level of supervision, the Owner may direct the Contractor to increase the level of supervision for any or all projects, including but not limited to the right to direct the Contractor to assign a full time, dedicated Superintendent for any project; submit daily management, inspection, activity, and planning reports; substitute subcontractors; submit daily photographs of the work in place and the work areas prepared for the next day’s work; and develop a site specific quality control program, all at no cost to the Owner. In the event the Owner’s personnel are required to provide direction or supervision of the work in the field because the Contractor has not provided sufficient supervision, the Contractor shall reimburse the Owner $75 per hour for such effort.

3.1.5 Contractor will not be relieved from its obligations to perform the Work in accordance with the requirements of the Contract Documents, either by the activities or duties of Owner or Owner’s Consultants in their administration of the Contract, or by inspections, tests, acceptance, or approvals required or performed by persons other than Contractor.

3.1.6 Contractor must at all times enforce good order and discipline among its employees and must not employ on the Work anyone not skilled in the task assigned.

3.1.7 Contractor warrants to Owner that all materials and equipment provided pursuant to the Contract are new unless otherwise specified, and that all Work is of good quality, free from faults and defects and in conformance with the requirements of the Contract Documents. All Work not conforming to these requirements, including substitutions not properly accepted and authorized by Owner’s Authorized Representative may be considered defective. Upon request at any time, Contractor must furnish evidence, satisfactory to Owner, demonstrating the quality of installed materials and equipment.

3.1.8 Unless otherwise provided in the Contract Documents, the Contractor must provide and pay for all labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

3.1.9 Contractor has charge and care of all Work and all materials to be used therein (including materials for which Contractor has received partial payment or materials which have been furnished by Owner) until Acceptance of the Work. Contractor bears the risk of injury, loss, or damage to any part thereof by the action of the elements or from any other cause, whether arising from the performance or nonperformance of the Work, except as otherwise expressly provided.
3.1.10 Contractor must rebuild, repair, restore, and make good all injuries, losses, or damages to any portion of the Work or the materials by any cause before Completion and Acceptance.

3.1.11 Contractor must provide suitable drainage and erect such temporary structures as are necessary to protect the Work or materials from damage. Suspension of the Work from any cause whatever will not relieve Contractor of responsibility for the Work and materials as herein specified.

3.1.12 Contractor must properly store materials which have been partially paid for by Owner or which have been furnished by Owner. Such storage by Contractor is on behalf of Owner who shall at all times be entitled to the possession of such materials. Contractor must promptly return such materials to the Project Site when requested. Contractor must not dispose of any of the materials so stored except upon Owner’s written authorization.

3.2 REVIEW OF CONTRACT DOCUMENTS AND FIELD CONDITIONS BY THE CONTRACTOR

3.2.1 The Contractor must carefully study and compare the requirements of the Contract Documents with each other and must advise the Owner, in writing, of any errors, inconsistencies or omissions discovered. If the Contractor performs any Work knowing it involves a recognized error, inconsistency or omission in the requirements of the Contract Documents, without such notice to the Owner, the Contractor assumes responsibility for such performance and will bear the cost for correction.

3.2.2 The Contractor must take field measurements and verify field conditions and must compare such field measurements, conditions and other related information known to the Contractor with the requirements of the Contract Documents before beginning the Work.

3.2.3 In accordance with Public Contract Code §7104, Public Work involving digging trenches or other excavations that extend deeper than four (4) feet below the surface, the Contractor must promptly, and before such conditions are disturbed, notify the Owner in writing of:

1. Material that the Contractor believes may be material that is hazardous waste, as defined in §25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with applicable laws.

2. Subsurface or latent physical conditions at the site differing from those indicated.

3. Unknown physical conditions at the site of any unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in Work of the character provided for in the Contract Documents.

3.2.4 In response to Contractor’s written notice as required by Public Contract Code §7104:

1. Owner will promptly investigate the conditions, and if Owner finds that such conditions materially differ, or involve hazardous waste, and cause an increase or decrease in the Contractor’s cost of, or the time required for, performance of any part of the Work, a Change Order will be issued in accordance with Document 00700.6, “Changes in the Work.”

2. In the event that a Dispute arises between the Owner and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor’s cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any completion date(s) provided for by the Contract Documents, but shall proceed with all Work to be performed under the Contract. The Contractor will retain any and all rights provided either by Contract or by law that pertain to the resolution of Disputes and protests between the contracting parties.

3.3 DOCUMENTS AND SAMPLES AT THE PROJECT SITE

3.3.1 The Contractor must maintain at the Project Site one (1) copy of the Record Documents including but not limited to Drawings, Project Manual, Addenda, Change Orders,
Requests for Information, Field Modifications, and Additional Detailed Instructions.

3.3.2 The Contractor must maintain the Record Documents in good and current condition and post all changes and clarifications to the Contract Documents on a daily basis as they occur.

3.3.3 The Contractor must mark the record Drawings to record actual field dimensions of installed Work.

3.3.4 The Contractor must maintain a record Project Manual in good order and indicate by marking in the appropriate section of the Project Manual, the selected product or material that was approved for incorporation in the Work.

3.3.5 At least one (1) copy of all Owner accepted Shop Drawings, Product Data, Samples and similar Submittals must be maintained at the Project Site in good and current condition and made available to Owner upon request.

3.3.6 The Contractor and each Subcontractor must prepare and maintain Daily Reports to document the progress of the Work. Daily Reports must be in a format proscribed or approved by the Owner’s Project Manager and completely filled out on a daily basis. One (1) copy of each daily report must be submitted to Owner’s Project Manager the following workday or as otherwise Directed by the Owner’s Project Manager. The corresponding activity numbers from the Official Progress Schedule must identify Work activities on the Daily Reports. It is the responsibility of the Contractor to gather all daily reports and submit to Owner's Project Manager as one package.

3.3.7 The Contractor and each Subcontractor must prepare and maintain incident reports to document unusual occurrences including but not limited to breaches of on-site security, altercations, vehicle or construction equipment accidents, and complaints from neighbors, etc. Incident reports must be in a format prescribed or approved by the Owner’s Project Manager, completely filled out at or about the time of the occurrence of the incident. Three (3) copies of the incident report must be submitted to Owner’s Project Manager within 24 hours of the incident. Information related to follow-up investigation(s) of the incident must be submitted to the Owner’s Project Manager upon request.

3.3.8 The Contractor and each Subcontractor must prepare accident reports to document all reportable accidents at the Project Site. Accident reports must be in a format prescribed or approved by the Owner’s Project Manager, completely filled out at or about the time of the occurrence of the accident. Three (3) copies of the accident report must be submitted to Owner’s Project Manager within 24 hours of the accident. Information related to follow-up investigation(s) of the accident must be submitted to the Owner’s Project Manager upon request.

3.3.9 The Contractor must arrange for the review or selection of any heavy or large material (or color) samples to be made at vendor shops or facilities and, after being suitably tested and accepted, must arrange for samples of the selected material (or colors) to be maintained at the job-site in a secure location for use during construction to verify the acceptability of materials and/or work.

3.4 ACCESS TO WORK

3.4.1 The Contractor must provide Owner continuous access to the Work.

3.5 USE OF PROJECT SITE

3.5.1 Contractor must confine operations at the Project Site to areas permitted by law, ordinances, permits and the Contract Documents, and must not unreasonably encumber the Project Site with any materials, equipment, temporary structures, or temporary measures.
3.5.2 Contractor’s employees, or others subject to the Contractor’s control, are not permitted to reside on the Project Site in temporary living facilities.

3.6 WORKPLACE ENVIRONMENT

3.6.1 The use or possession of alcohol, weapons, or illegal controlled substances by the Contractor, or others subject to the Contractor’s control, on County property is prohibited.

3.6.2 The Contractor must ensure and maintain a workplace environment free of personal harassment and intimidation.

3.6.3 Conduct that creates an intimidating, hostile, or offensive workplace environment is prohibited. Such conduct includes, but is not limited to, the following:

.1 Verbal harassment, e.g., epithets, derogatory comments or slurs;

.2 Physical harassment, e.g., assault, impeding or blocking movement, gestures, or any physical interference with normal work or movement;

.3 Visual forms of harassment, e.g., derogatory posters, letters, poems, graffiti, cartoons, or drawings.

3.6.4 Unwelcome and unwanted sexual advances constitute sexual harassment that is prohibited. For example, requests for sexual favors and verbal or physical conduct of a sexual nature are prohibited.

3.6.5 Compliance With All Laws, Including Nondiscrimination, Equal Opportunity, and Wage Theft Prevention

.1 Compliance with All Laws. Contractor shall comply with all applicable Federal, State, and local laws, regulations, rules, and policies (collectively, "Laws"), including but not limited to the non-discrimination, equal opportunity, and wage and hour Laws referenced in the paragraphs below.

.2 Compliance with Non-Discrimination and Equal Opportunity Laws: Contractor shall comply with all applicable Laws concerning nondiscrimination and equal opportunity in employment and contracting, including but not limited to the following: Santa Clara County’s policies for contractors on nondiscrimination and equal opportunity; Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; the Age Discrimination in Employment Act of 1967; the Rehabilitation Act of 1973 (Sections 503 and 504); the Equal Pay Act of 1963; California Fair Employment and Housing Act (Gov. Code § 12900 et seq.); California Labor Code sections 1101, 1102, and 1197.5; and the Genetic Information Nondiscrimination Act of 2008. In addition to the foregoing, Contractor shall not discriminate against any subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political belief, organizational affiliation, or marital status in the recruitment, selection for training (including but not limited to apprenticeship), hiring, employment, assignment, promotion, layoff, rates of pay or other forms of compensation. Nor shall Contractor discriminate in the provision of services provided under this contract because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status.

.3 Compliance with Wage and Hour Laws: Contractor shall comply with all applicable wage and hour Laws, which may include but are not limited to, the Federal Fair Labor Standards Act, the California Labor Code, and, if applicable, any local minimum wage, prevailing wage, or living wage Laws.
4 Definitions: For purposes of this Subsection, the following definitions shall apply. A “Final Judgment” shall mean a judgment, decision, determination, or order (a) which is issued by a court of law, an investigatory government agency authorized by law to enforce an applicable Law, an arbiter, or arbitration panel and (b) for which all appeals have been exhausted or the time period to appeal has expired. For pay equity Laws, relevant investigatory government agencies include the federal Equal Employment Opportunity Commission, the California Division of Labor Standards Enforcement, and the California Department of Fair Employment and Housing. Violation of a pay equity Law shall mean unlawful discrimination in compensation on the basis of an individual’s sex, gender, gender identity, gender expression, sexual orientation, race, color, ethnicity, or national origin under Title VII of the Civil Rights Act of 1964 as amended, the Equal Pay Act of 1963, California Fair Employment and Housing Act, or California Labor Code section 1197.5, as applicable. For wage and hour Laws, relevant investigatory government agencies include the federal Department of Labor, the California Division of Labor Standards Enforcement, and the City of San Jose’s Office of Equality Assurance.

5 Prior Judgments, Decisions or Orders against Contractor: By signing this Agreement, Contractor affirms that it has disclosed any final judgments that (A) were issued in the five years prior to executing this Agreement by a court, an investigatory government agency, arbiter, or arbitration panel and (B) found that Contractor violated an applicable wage and hour law or pay equity law. Contractor further affirms that it has satisfied and complied with – or has reached Agreement with the County regarding the manner in which it will satisfy – any such final judgments.

6 Violations of Wage and Hour Laws or Pay Equity Laws During Term of Contract: If at any time during the term of this Agreement, Contractor receives a Final Judgment rendered against it for violation of an applicable wage and hour Law or pay equity Law, then Contractor shall promptly satisfy and comply with any such Final Judgment. Contractor shall inform the Office of the County Executive-Office of Countywide Contracting Management (OCCM) of any relevant Final Judgment against it within 30 days of the Final Judgment becoming final or of learning of the Final Judgment, whichever is later. Contractor shall also provide any documentary evidence of compliance with the Final Judgment within 5 days of satisfying the Final Judgment. Any notice required by this paragraph shall be addressed to the Office of the County Executive-OCCM at 70 W. Hedding Street, East Wing, 11th Floor, San José, CA 95110. Notice provisions in this paragraph are separate from any other notice provisions in this Agreement and, accordingly, only notice provided to the Office of the County Executive-OCCM satisfies the notice requirements in this paragraph.

7 Access to Records Concerning Compliance with Pay Equity Laws: In addition to and notwithstanding any other provision of this Agreement concerning access to Contractor’s records, Contractor shall permit the County and/or its authorized representatives to audit and review records related to compliance with applicable pay equity Laws. Upon the County’s request, Contractor shall provide the County with access to any and all facilities and records, including but not limited to financial and employee records, that are related to the purpose of this Subsection, except where prohibited by federal or state laws, regulations or rules. County’s access to such records and facilities shall be permitted at any time during Contractor’s normal business hours upon no less than 10 business days’ advance notice.

8 Pay Equity Notification: Contractor shall (1) at least once in the first year of this Agreement and annually thereafter, provide each of its employees working in California and each person applying to Contractor for a job in California (collectively, “Employees and Job Applicants”) with an electronic or paper copy of all applicable pay equity Laws or (2) throughout the term of this Agreement, continuously post an
electronic copy of all applicable pay equity Laws in conspicuous places accessible to all of Contractor’s Employees and Job Applicants.

.9 Material Breach: Failure to comply with any part of this subsection shall constitute a material breach of this Agreement. In the event of such a breach, the County may, in its discretion, exercise any or all remedies available under this Agreement and at law. County may, among other things, take any or all of the following actions:

(a) Suspend or terminate any or all parts of this Agreement.

(b) Withhold payment to Contractor until full satisfaction of a Final Judgment concerning violation of an applicable wage and hour Law or pay equity Law.

(c) Offer Contractor an opportunity to cure the breach.

.10 Subcontractors: Contractor shall impose all of the requirements set forth in this Subsection on any subcontractors permitted to perform work under this Agreement. This includes ensuring that any subcontractor receiving a Final Judgment for violation of an applicable Law promptly satisfies and complies with such Final Judgment.

3.6.6 It is the responsibility of the Contractor to:

.1 Inform its employees and Subcontractors that behavior that creates an intimidating, hostile, or offensive workplace environment is prohibited;

.2 Create a workplace environment that is free from harassment; and,

.3 Take corrective action to stop prohibited behavior/conduct.

3.6.7 If in the opinion of the Owner’s Authorized Representative, any employee of the Contractor or Contractor’s Subcontractors violate the prohibitions of this Document 00700.3.6, "Workplace Environment", Contractor must immediately remove that person or Subcontractor from the Project upon Owner’s request, and such person or Subcontractor must not be permitted to perform further Work on the Project Site.

3.6.8 No Smoking. Contractor and its employees, agents and subcontractors, shall comply with the County’s No-Smoking Policy, as set forth in the Board of Supervisors Policy Manual section 3.47 (as amended from time to time), which prohibits smoking: (1) at the Santa Clara Valley Medical Center Campus and all County-owned and operated health facilities, (2) within 30 feet surrounding County-owned buildings and leased buildings where the County is the sole occupant, and (3) in all County vehicles.

3.6.9 Food and Beverage Standards.

Except in the event of an emergency or medical necessity, the following nutritional standards shall apply to any foods and/or beverages purchased by Contractor with County funds for County-sponsored meetings or events.

If food is to be provided, healthier food options shall be offered. "Healthier food options" include (1) fruits, vegetables, whole grains, and low fat and low calorie foods; (2) minimally processed foods without added sugar and with low sodium; (3) foods prepared using healthy cooking techniques; and (4) foods with less than 0.5 grams of trans fat per serving. Whenever possible, Contractor shall (1) offer seasonal and local produce; (2) serve fruit instead of sugary, high calorie desserts; (3) attempt to accommodate special, dietary and cultural needs; and (4) post nutritional information and/or a list of ingredients for items served. If meals are to be provided, a vegetarian option shall be provided, and the Contractor should consider providing a vegan option. If pre-packaged snack foods are provided, the items shall contain: (1) no more than 35% of calories from fat, unless the snack food items consist solely of nuts or seeds; (2) no more than 10% of calories from saturated fat; (3) zero trans fat; (4) no more than 35% of total weight from sugar and caloric sweeteners, except for fruits and vegetables with no added sweeteners or fats; and (5) no more than 360 mg of sodium per serving.
If beverages are to be provided, beverages that meet the County's nutritional criteria are (1) water with no caloric sweeteners; (2) unsweetened coffee or tea, provided that sugar and sugar substitutes may be provided as condiments; (3) unsweetened, unflavored, reduced fat (either nonfat or 1% low fat) dairy milk; (4) plant-derived milk (e.g., soy milk, rice milk, and almond milk) with no more than 130 calories per 8 ounce serving; (5) 100% fruit or vegetable juice (limited to a maximum of 8 ounces per container); and (6) other low-calorie beverages (including tea and/or diet soda) that do not exceed 40 calories per 8 ounce serving. Sugar-sweetened beverages shall not be provided.

3.7 SUPERVISION

3.7.1 Prior to Contractor mobilization to the Project Site, Contractor must submit to the Owner in writing a letter naming the Contractor’s Authorized Representative who will have the authority to represent and act for Contractor at the Project Site. Communications provided to the Contractor’s Authorized Representative will be as binding as if provided directly to the Contractor.

3.7.2 When Contractor is comprised of two (2) or more persons, firms, partnerships, or corporations functioning as a joint venture, Contractor must submit a letter to the Owner, before starting Work, stating the name of one (1) authorized representative who has the authority to represent and act for Contractor.

3.7.3 Contractor’s Authorized Representative must be present at the Work site at all times while any Work is in progress. When Work is not in progress and during periods when Work is suspended, the Contractor’s Authorized Representative must nevertheless keep the Owner’s Project Manager advised of their whereabouts and the whereabouts of the Contractor’s site superintendents so that they may readily be reached and available for consultation at the Project Site at any time.

3.7.4 Prior to Contractor mobilization to the Project Site, Contractor must submit to the Owner the telephone and/or pager numbers at which the Contractor’s Authorized Representative can be reached at all times. In the event it is necessary for the Contractor’s Authorized Representative to be absent from the Project Site, the Contractor’s Authorized Representative will, except in the case of personal emergency, give written notice to the Owner’s Project Manager designating an acting representative. The absence must not exceed 48 hours without prior written approval of the Owner’s Project Manager.

3.7.5 The Contractor must supervise and direct the Work. The Contractor is responsible for, and has control of, construction means, methods, techniques, sequences, procedures, safety precautions and programs in connection with the Work, and for coordinating the Work unless otherwise noted or specified in the Contract Documents.

3.7.6 The Contractor is responsible for acts and omissions of the Contractor’s employees, Subcontractors, Sub-Subcontractors or Suppliers and their agents and employees, and other persons performing portions of the Work pursuant to a direct or indirect contract with the Contractor or at its direction.

3.7.7 If any person or Subcontractor working at the direction or subject to the control of the Contractor refuses or fails to carry out a properly given Order by the Owner’s Authorized Representative or is, in the Owner Representative’s opinion, incompetent, disorderly, or acting in an improper manner, Contractor must immediately remove that person or Subcontractor from the Project upon Owner's written request, and such person or Subcontractor must not be permitted to perform further Work on the Project.

3.8 DISRUPTION OF OWNER’S NORMAL OPERATIONS

3.8.1 Contractor must give timely advance notice to Owner of Work that is likely to be disruptive to Owner's normal operations at or near the Project Site. If Contractor does not so advise
Owner, Owner has the right to temporarily suspend Contractor’s Work or to require Contractor to modify its Work operations to eliminate any disruption, and Contractor is not entitled to any adjustment in the Job Order Price or Job Order Completion Time for any delay or additional costs associated therewith.

3.9 LABOR

3.9.1 Hours of Labor

.1 Eight hours labor constitutes a legal day’s work. Contractor shall forfeit as a penalty to Owner, $25.00 for each worker employed in the execution of the Contract by Contractor or any Subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day or forty (40) hours in any one calendar week in violation of the provisions of the California Labor Code, and in particular, §1810 through §1815 thereof, except that work performed by employees of Contractor or any Subcontractor in excess of eight (8) hours per day, or forty (40) hours during any one week, shall be permitted upon compensation for all hours worked in excess of eight (8) hours per day, or forty (40) hours per week, at not less than one and one-half (1-1/2) times the basic rate of pay, as provided in §1815.

3.9.2 Prevailing Wage

.1 The services to be performed pursuant to this Agreement are “public works” subject to California Labor Code Section 1771, et. seq. and the applicable implementing regulations. The General Prevailing Wage Rates issued by the California Department of Industrial Relations may be adjusted by the State during the term of this Agreement. Notwithstanding any other provisions of this Agreement, Contractor will not be entitled to any adjustment in compensation rates in the event there are adjustments to the General Prevailing Wage Rates.

.2 No Contractor or Subcontractor may perform work on the Project without being registered with the Department of Industrial Relations (DIR). Contractor shall maintain its registration with the DIR throughout the course of the Work. Contractor is responsible for verifying that each Subcontractor, including any Subcontractor not listed on its bid proposal, is registered with the DIR at the time the Subcontractor performs work on the Project. If any Subcontractor is not registered at the time the Subcontractor is to commence work, Contractor shall require the Subcontractor to register and may not permit the Subcontractor to commence work until the Subcontractor’s registration is complete.

.3 Contractor shall comply with California Labor Code §1775, whereby Contractor shall be assessed a penalty for each calendar day or portion thereof, for each worker paid less than the stipulated prevailing rates for such work or craft in which such worker is employed for any Work done pursuant to the Contract by Contractor or any Subcontractor in violation of the California Labor Code and in particular §1770 through §1780. In addition to said penalty and pursuant to §1775, Contractor shall pay each worker the difference between such stipulated prevailing wages and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage rate.

.4 Contractor and each Subcontractor must, pursuant to California Labor Code §1776, submit a certified weekly payroll within ten (10) Days after the Owner’s request for submission of certified weekly payroll records. The certified payroll must include the date of actual payment of wages for each worker employed on the Project and a breakdown of each payment including all fringe benefits included in such wage for each worker. The responsibility for compliance with California Labor Code §1776 is the responsibility of the prime Contractor.
.5 Contractor must submit two (2) copies of said payroll to Owner on the California Department of Industrial Relations standard Form A-1-131 “Public Works Payroll Reporting Form.” Other forms may be used provided they exactly duplicate the format, dimensions and wording of Form A-1-131.

.6 Pursuant to the provisions of California Labor Code §1770 and following, the California Department of Industrial Relations has ascertained the general prevailing rate of wages (which rate includes employer payments for health and welfare, vacation, pension, and similar purposes) applicable to the Work, for straight time, overtime, Saturday, Sunday, and Holiday work. The Holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of each craft, classification, or type of workers concerned. Said prevailing wage rates are on file in the Office of the Clerk of the Board of Supervisors, incorporated herein by reference, and copies of which are available to any interested party on request. The rates are also available on the State of California’s Department of Industrial Relations home page website at http://www.dir.ca.gov.

.7 If Contractor uses a craft or classification not shown on the prevailing wage determinations, Contractor may be required to pay the wage rate of that craft or classification most closely related to it, shown in the general determinations in effect when the Bids were received. Pursuant to California Labor Code §1773.2, Contractor shall prominently post a copy of such prevailing wages at each job site.

.8 Pursuant to Public Contract Code §6109, the Contractor shall not perform Work on this public works project with any Subcontractor who is ineligible to perform Work on a public works project pursuant to §1777.1 or §1777.7 of the Labor Code. Any contract on a public works project entered into between the Contractor and a debarred Subcontractor is void as a matter of law. A debarred Subcontractor may not receive any public money for performing Work as a Subcontractor on a public works contract, and any public money that may have been paid to a debarred Subcontractor by the Contractor on this Project shall be returned to the Owner. The Contractor shall be responsible for the payment of wages to workers of a debarred Subcontractor who has been allowed to work on the Project.

.9 Pursuant to Labor Code §1771.5.b.6, the Owner will withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment of prevailing wage has occurred.

3.9.3 Certified Payrolls

.1 Contractor must submit two (2) copies of certified weekly payrolls for the periods covered by each Progress Payment. Certified Payroll records must be submitted within ten (10) calendar days from the Progress Payment period end date.

.2 Pursuant to California Labor Code §1776, in the event that the contractor fails to comply within the 10-day submission period, the contractor must forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated.

.3 Pursuant to California Labor Code §1776, compliance with the requirements of California Labor Code §1776 is the responsibility of the prime Contractor.

3.9.4 Apprentices

.1 Contractor’s attention is directed to the provisions of §1777.5 and §1777.6 of the California Labor Code regarding the employment of apprentices by Contractor and any Subcontractors, and §1777.7 regarding penalties for noncompliance. Contractor and all Subcontractors shall comply with the requirements of said Sections in the employment of apprentices. Pursuant to §1777.5, the responsibility for compliance with the requirements of §1777.5 is the responsibility of the prime Contractor.
2. It is Owner’s policy to encourage the employment and training of apprentices on public works contracts in accordance with local apprenticeship standards.

3.9.5 Workers Travel & Subsistence Payments

.1 Contractor’s attention is directed to the provisions of California Labor Code §1773.8 that requires Contractor to make travel and subsistence payments in accordance with collective bargaining agreements applicable to each worker needed to execute the Work.

3.10 SATURDAY, SUNDAY, HOLIDAY, AND OVERTIME WORK

3.10.1 Unless otherwise specified in the Job Order no construction Work shall be done on Saturdays, Sundays or holidays recognized by the County government and no Work shall be performed outside of Normal Hours Of Work without the prior consent of the Owner’s Project Manager, unless required in the Contract Documents. Normal Working Hours are standard shift work between the hours of 7:00 A.M. – 5:00 P.M., Monday through Friday, excluding County holidays.

3.10.2 Whenever the Contractor intends to perform overtime work or work on Saturday, Sunday, or a legal holiday recognized by the County, the Contractor must request permission by giving written notice to the Owner’s Project Manager at least 2 workdays prior to performing the Work.

3.10.3 Unless specifically provided or required by the Contract Documents, Contractor shall receive no additional compensation for any overtime work (i.e., work in excess of: Eight (8) hours in any one Day; forty (40) hours in any one calendar week; or evening, night, legal holidays observed by Owner, or weekend work).

3.10.4 Prior to the start of such Work, when necessary, the Contractor must arrange with the Owner for the continuous or periodic inspection of the Work and tests of materials.

3.10.5 Should the Contractor find it necessary in order to complete the Work according to the Official Progress Schedule to perform certain of Contractor’s operations on Saturdays, Sundays, holidays or during other overtime hours, these operations will be performed as part of the Work included in the Job Order Price and do not constitute a basis for additional compensation. At the Owner’s option the Contractor may be required to compensate the Owner for inspection, testing, security, or management costs during Work performed outside of Normal Hours Of Work. Owner has the right and authority to deduct the cost of all such inspections, testing, security, or management costs from any payments due or that become due Contractor.

3.10.6 The Owner has the right to Order Contractor to perform Work outside Normal Hours Of Work. Owner will issue such Order in writing. If the Owner Orders the Contractor to perform Work outside Normal Hours Of Work, the Contractor must make all arrangements to supply an adequate Work force for the task to be accomplished and will be compensated for the premium portion of the wages paid, plus labor burdens applicable to the premium portion only of the wages paid. Contractor must submit copies of Contractor’s payrolls indicating the premium wages actually paid, and the Owner will issue a Change Order to reimburse the Contractor for Contractor’s actual costs only. The Owner will pay all extra expense of Owner’s inspection.

3.11 NORMAL HOURS OF WORK

3.11.1 Normal Hours Of Work for Contractor’s operations, which are located within city limits, must comply with city ordinances or requirements of the city. Contractor’s operations in the County’s unincorporated areas or areas which border a city, town or other county must comply with requirements of Santa Clara County or requirements adopted by other jurisdictions, whichever are more stringent. In case of conflict between the requirements
of a city, the County, and the requirements of the Contract Documents, the most restrictive requirements will govern.

3.12 ORDER OF WORK

3.12.1 Contractor must follow any sequence of operations required by the Contract Documents.

3.12.2 Full compensation for conforming to such requirements will be considered as included in the prices paid for the various Contract items of Work and no additional compensation will be allowed therefore.

3.13 CLEANUP

3.13.1 Contractor must continuously keep the Project Site and surrounding areas free from waste materials and/or rubbish caused by its operations or rubbish from any source that accumulates within the Project Site and any other area designated by the Owner’s Project Manager for use by the Contractor.

3.13.2 When cleanup is paid for as a separate Bid item, full compensation for such work must be included in the Bid price for cleanup.

3.13.3 When the Bid price is a lump sum, or there is no unit price item for cleanup, full compensation for cleanup will be considered to have been included in the various items of Work.

3.13.4 Contractor must, before certifying that the entire Work of the Project is complete and/or requesting Completion inspection, clean material storage sites and all ground occupied or affected in connection with the Work or designated portion of the Work, and must leave all parts of the Project in a neat and presentable condition satisfactory to Owner’s Project Manager.

3.13.5 Upon completion of the Work or any designated part thereof, Contractor must promptly remove all its waste materials, rubbish and debris, and all its tools, construction equipment, machinery and surplus materials from the Project area or the completed part.

3.13.6 If the Contractor fails to clean up as required by the Contract Documents, Owner may do so and the cost thereof will be charged to the Contractor and deducted from progress payments due or to become due to the Contractor.

3.14 DISPOSAL OF MATERIAL OUTSIDE PROJECT AREA

3.14.1 Contractor is responsible for making all arrangements and paying all costs for disposal of materials outside the Project area.

3.14.2 When any material is to be disposed of outside the Project area, at other than a public disposal site, Contractor must first obtain written permission from the property owner of the proposed disposal site. Before any material is disposed of on said site, Contractor must obtain written permission from the Owner to dispose of the material at the location designated in said permit.

3.14.3 Disposal of Hazardous Materials must comply with all legal requirements, including but not limited to containerization, labeling, manifesting, transportation, disposal site, and use of properly trained personnel. No later than 15 Days after Contractor’s request for Final Inspection, Contractor must submit copies of all Hazardous Waste Manifests signed by Toxic Substances Disposal Facilities (“TSDF’s”) and certificates of disposal, to prove that Contractor has legally disposed of such materials. Submit three (3) copies of each manifest.

3.15 HAZARDOUS MATERIALS

3.15.1 Contractor must comply with all Federal, State, County and local laws, statutes, ordinances and other regulations covering the use, storage, transportation and disposal of
any Hazardous Materials on the Project. Contractor must obtain all permits and pay all
fees and taxes for all services and materials required to perform the Project.

3.15.2 The term “Hazardous Materials” as used herein means any material that, because of its
quantity, concentration, or physical or chemical characteristics, poses a significant present
or potential hazard to human health and safety or to the environment if released into the
workplace of the environment.

3.15.3 Prior to starting Work, Contractor must submit to Owner three (3) copies of a list of all
Hazardous Materials expected to be used on the Project. Contractor must keep a copy of
the list at the Project Site. This list must include but not be limited to any cleaners,
solvents, paints or explosive charges used in the Work. Contractor must submit one (1)
copy of OSHA Form 20 – Material Safety Data Sheet (“MSDS”) for each material listed
and must advise every person at or near the Project Site of these materials, of proper
handling, and of proper action in case of accident or exposure.

3.15.4 Contractor must safely contain and store all its Hazardous Materials, and in the event of
spill or discharge, must immediately notify all required Federal, State, County and local
agencies including the fire department. Contractor must protect personnel from exposure
and provide treatment as necessary.

3.15.5 Contractor must immediately advise Owner of any potentially Hazardous Materials
encountered at the Project Site and must take all necessary action to prevent exposure of
personnel until the material is identified and proper action can be taken.

3.15.6 Contractor must not store or use any Hazardous Materials near air intakes or doors and
windows serving persons on or off the Project Site without proper protection and
safeguards to prevent exposure.

3.15.7 Contractor must exercise all required precautions and safeguards in the storage, use and
Materials”, relieves Contractor of responsibility for compliance with all applicable laws and
statutes, or other provisions of the Contract, particularly Contractor’s responsibility for
damage and preservation of life and property.

3.16 SAFE USE OF PESTICIDES

3.16.1 Contractor must comply with all Federal, State and County rules and regulations
governing pesticides that are required or used in performing Work. Contractor must
comply with the County’s Integrated Pest Management Ordinance.

3.16.2 The term pesticide includes, but is not limited to: herbicides, insecticides, fungicides,
rodenticides, germsicides, nematocides, bactericides, inhibitors, fumigants, defoliants,
desiccants, soil sterilants, repellents, and any substance or mixture of substances
intended for preventing, repelling, mitigating, or destroying weeds, insects, diseases,
rodents, or nematodes, and any substance or mixture of substances intended to use as a
plant regulator, defoliant, or desiccant.

3.16.3 Contractor must comply with Division B28 of the Santa Clara County Ordinance Code
relating to integrated pest management and pesticide use. Division B28 includes, but is
not limited to specific requirements for:
.1 restricted or prohibited use of certain pesticides
.2 record keeping
.3 reporting
.4 public notice and posting requirements

3.17 TRENCHING AND EXCAVATION
3.17.1 Contractor understands and will comply with the applicable provisions of the California Occupational Safety and Health Act of 1973 and the California Labor Code sections 6705 and 6707. If trenching or excavation work is required in a Job Order, Contractor must identify the Trench Safety Construction Task Catalog tasks in the Job Order Proposal.

3.17.2 Before any excavation, Contractor must, pursuant to California Government Code §4216 and Cal/OSHA 8CCR1540, outline the excavation in white paint (preferably chalk or water base), provide two workdays notice to Underground Service Alert (1-800-227-2600), obtain a locator number, and follow all necessary procedures to avoid underground facility damage.

3.17.3 Before any excavation five feet or more in depth:

.1 Contractors must, pursuant to California Labor Code §6705, submit to Owner specific plans showing details of provisions for worker protection from caving ground. This in no way relieves Contractor from the requirement of maintaining safety in all operations performed by Contractor or Subcontractors. Submit eight (8) copies of the plans.

.2 The detailed plans showing design of all shoring, bracing, sloping or other provisions shall be prepared at Contractor’s sole expense by a California registered Civil or Structural Engineer. Owner’s acceptance only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions, criteria, accuracy, completeness, suitability for use, implementation, or any other quality of the plans, which are solely the responsibility of Contractor and Contractor’s Engineer.

3.18 AIR POLLUTION CONTROL

3.18.1 Contractor and each Subcontractor must comply with all air pollution control rules, regulations, ordinances, statutes, and Project specific permit requirements of the Bay Area Air Pollution Control District and all other regulatory agencies that apply to any Work performed. If there is a conflict between the Bay Area Air Pollution Control District rules, regulations, ordinances, and statutes and the rules, regulations, ordinances, and statutes of other regulatory agencies, the most stringent shall govern.

3.18.2 Contractor must not discharge smoke, dust or any other air contaminants into the atmosphere in such quantity as will violate any regulations.

3.18.3 Contractor must minimize dust nuisances resulting from performance of the Work, both inside and outside the Project limits, by applying either water or dust palliative, or both.

3.19 WATER POLLUTION CONTROL

3.19.1 Contractor must comply with all Federal, State and local water pollution prevention and storm drain pollution prevention rules, regulations, ordinances, statutes, guidelines, and Project specific permit requirements.

3.19.2 If required by law, ordinance, regulation, code, permit or the requirements of the Contract Documents, Contractor must prepare a Project Specific Storm Water Pollution Prevention Program (SWPPP).

3.19.3 Contractor must exercise every reasonable precaution to protect storm drains, channels and all bodies of water from pollution, and must conduct and schedule operations so as to avoid or minimize muddying and silting of any waters. Contractor must construct whatever facilities are necessary or requested by Owner to provide prevention, control and abatement of water pollution.

3.19.4 No provision of the Contract Documents relieves Contractor of responsibility for compliance with California Fish and Game Code §5650 et seq, and §12015 et seq, and applicable regulations of the Regional Water Quality Control Board, Santa Clara County...
flood control and water district requirements, or other applicable statutes relating to prevention and removal of water pollution.

3.19.5 Compliance with water pollution requirements does not relieve Contractor from responsibility to comply with all provisions of the Contract Documents, particularly Contractor’s responsibilities for damage and preservation of property.

### 3.20 SOUND CONTROL

3.20.1 The Contractor must comply with all CAL OSHA requirements.

3.20.2 The Contractor must comply with all local sound control and noise level rules, regulations, and ordinances that apply to any Work performed pursuant to the requirements of the Contract Documents.

3.20.3 Each internal combustion engine, used for any purpose on the Project or related to the Project, must be equipped with a muffler of a type recommended by the Manufacturer. No internal combustion engine shall be operated on the Project without said muffler.

3.20.4 Noise level from and hours of Contractor’s operations, that are located within city limits, must comply with city ordinances or requirements. Contractor’s operations in the County’s unincorporated areas or areas which border a city, town or other county must comply with the noise level requirements per the Santa Clara County Ordinance Code or requirements adopted by other jurisdictions, whichever are more stringent. Contractor’s attention is directed to the current Santa Clara County Ordinance Code, section B11-194 2.6 “Construction/Demolition” for the maximum acceptable noise levels.

3.20.5 Noise level requirements apply to all equipment used in the Project including, but not limited to, trucks, transit mixers, or equipment that may or may not be owned by the Contractor. The use of loud sound signals must be avoided in favor of warning lights except those required by safety laws for the protection of personnel.

### 3.21 WORKER’S SANITARY PROVISIONS & USE OF OWNER’S FACILITIES

3.21.1 Contractor must conform to the rules and regulations for sanitary provisions established by the State, the County of Santa Clara, and any other applicable jurisdictions.

3.21.2 Contractor must provide and maintain toilets for use by its employees. These accommodations must be maintained in a neat and sanitary condition, and must comply with all applicable laws, ordinances and regulations pertaining to public health and sanitation.

3.21.3 Contractor’s personnel must not use Owner’s facilities without express written permission, which will be at Owner’s sole discretion. Such Owner’s facilities include but are not limited to toilet facilities, food service facilities (cafeteria and coffee shop), utilities services of any kind, carts, fire extinguishers, parking, storage space and any other facilities and services.

### 3.22 CUTTING AND PATCHING

3.22.1 Contractor is responsible for all cutting, fitting, or patching required to complete the Work or to make its parts fit together properly.

3.22.2 Contractor must not damage or endanger any portion of the Work, or the work of Owner or any separate contractors, by cutting, patching or otherwise altering any work.

3.22.3 Contractor must not cut or otherwise alter the work of Owner or any separate contractor except with the written consent of Owner and such separate contractor. Contractor must not unreasonably withhold from Owner or any separate contractor its consent to cutting or otherwise altering the Work.

3.22.4 Cutting and Patching by Others: The Contractor is responsible for any and all cutting, fitting and patching required to complete Contractor’s Work or join its Work with the work of others, except as otherwise specifically provided for in the Contract Documents.
3.23 TESTS AND INSPECTIONS

3.23.1 The Contractor must at all times permit Owner, its agents, officers, employees, Consultants and representatives to visit the Project Site and inspect the Work, including shops where Work is in preparation. This obligation includes maintaining proper facilities and safe access for such inspection. When the Contract Documents require a portion of the Work be tested, such portion of Work must not be covered up until inspected and accepted by Owner. The Contractor is solely responsible for notifying Owner where and when the Work will be ready for inspection and testing. Should any Work be covered without the required testing and acceptance, such Work must be uncovered and recovered at the Contractor’s expense.

3.23.2 If Owner determines that portions of the Work require additional testing, inspection or acceptance not included in the requirements of the Contract Documents, the Owner will instruct the Contractor, in writing, to make arrangements for additional testing, inspection or acceptance by an entity acceptable to the Owner, and the Contractor must give 48 hours written notice to Owner of where and when tests and inspections will be conducted so that Owner may observe the procedures. Owner will bear the costs except as provided in Document 00700 - Sub-Part 3.23.3.

3.23.3 If procedures for additional testing, inspection or acceptance required by Document 00700 - Sub-Part 3.23.2 reveal failure of a portion(s) of the Work to comply with the requirements of the Contract Documents, the Contractor will bear all costs made necessary by such failure(s) including those of repeated procedures and compensation for Owner’s services and expenses.

3.23.4 Certificates of testing, inspection, acceptance, or approval will, unless otherwise required by the Contract Documents, be secured by the Contractor and submitted to the Owner within two (2) Days after completion of each test, inspection, acceptance or approval.

3.23.5 The Contractor will not be relieved of its obligations to perform the Work in accordance with the requirements of the Contract Documents by tests, inspections, acceptance or approvals required or performed by persons other than the Contractor.

3.23.6 The Contractor is responsible for inspections of portions of its Work and the work of others already completed to determine that such portions are in proper condition to receive subsequent Work.

.1 If the Contractor determines that Work performed on the Project does not comply with the requirements of the Contract Documents, Contractor must repair or replace such defective Work at the Contractor’s sole expense.

.2 If Contractor determines that completed work of others is not in proper condition to receive its Work, Contractor must immediately notify the Owner in writing and must not proceed with the affected portion of its Work without Direction from the Owner.

3.24 OFFICIAL PROGRESS SCHEDULE

3.24.1 The Contractor and Owner have reviewed the Progress Schedule with the requirements of the Contract Documents. The Owner’s review and acceptance of the Contractor’s Progress Schedule was for compliance with the requirements of the Contract Documents only. Review and acceptance by the Owner of the Contractor’s Progress Schedule(s) does not mean approval of the sequence or duration of the tasks shown, and does not relieve the Contractor of any of the Contractor’s responsibility for the accuracy or feasibility of the Official Progress Schedule, or of the Contractor’s obligation to meet the date of final Project Completion. The Owner’s review and acceptance of the Contractor’s Progress Schedule does not expressly or impliedly warrant, acknowledge or admit the reasonableness of the logic, durations, cost, manpower or equipment loading indicated in the Official Progress Schedule.
3.25 CERTIFICATION BY CONTRACTOR OF RECYCLED CONTENT

3.25.1 The Contractor must certify in writing, under penalty of perjury, to Owner, the minimum, if not exact, percentage of recycled content, both post consumer material and secondary material, as defined in Public Contract Code §12169, and §12213, in materials, goods, or supplies offered or products used in the performance of the Contract, regardless of whether the product meets the required recycled percentage as defined in Public Contract Code §12161 and §12200. The Contractor may certify that the product contains zero recycled content.

3.25.2 The California Integrated Waste Management Board (CIWMB) requires all Cities and Counties to develop a Source Reduction and Recycling Program (SRRP) for all development projects such that solid waste intake to landfills is reduced. This project is included in the CIWMB/SRRP requirements; therefore, the Contractor is required to ensure that debris generated from demolition or construction activities is recycled or salvaged in accordance with all state and local CIWMB requirements.

3.26 SUBMITTALS

3.26.1 General

.1 Shop Drawings, Product Data, Samples and similar Submittals are not Contract Documents. Their purpose is to demonstrate those portions of the Work for which Submittals are required and the way the Contractor proposes to conform to the information provided and the design concept expressed in the Contract Documents.

.2 All Submittals are instruments of Contractor. By submitting Shop Drawings, Product Data, Samples and similar Submittals, Contractor represents that the Contractor has determined and verified materials, construction methods, field measurements and related field construction criteria, coordinated the Work of the Subcontractors, and has checked and coordinated the information contained within the Submittal with the requirements of the Contract Documents and other Submittals.

.3 Owner’s review of Submittals is for general compliance with the requirements of the Contract Documents. Contractor is solely responsible for all quantities, dimensions, weights, gauges, materials, Fabrication processes, construction methods, coordination with the Work of other trades, and construction safety precautions. Owner’s review does not relieve the Contractor of responsibility for errors and omissions in the Submittals or from responsibility for proper fitting and construction of the Work, nor from furnishing materials and Work required by Contract Documents that may not be indicated or shown on the Submittal(s).

.4 Owner’s review of Contractor’s Submittal(s) does not relieve Contractor of any responsibilities for the successful completion of the Work in conformity with the requirements of the Contract Documents. The Owner may reject any defective Work notwithstanding any review or previous acceptance of a Submittal associated with the Work.

.5 The Contractor is not relieved of the responsibility for any deviation from the requirements of the Contract Documents by Owner’s review of Submittals unless the Contractor has specifically informed Owner, in writing, of such deviation at the time of Submittal, and Owner has provided specific written consent to each specific deviation. Making notations on the Submittal of proposed deviation is not sufficient to satisfy this requirement. Each proposed deviation must be clearly noted on the Submittal and separately itemized and explained in writing in the transmittal accompanying the Submittal. For each Submittal, the Contractor must indicate that the Submittal contains “No Deviations” or itemize the proposed deviations on the transmittal accompanying the Submittal. This written list of deviations is in addition to any
indications or marks on the Shop Drawings, Product Data, Coordination Drawings, Samples, or other Submittals indicating the proposed deviations.

.6 No Work requiring Submittals shall be performed until Owner has accepted the pertinent Submittals. Where a Submittal is required, any related Work performed before the Owner’s review and acceptance of the Submittal will be at Contractor’s sole risk, expense and responsibility.

.7 All required Preconstruction Submittals must be submitted within the time stated in the Job Order or if no time is stated, within five (5) business days of the start date for the Work as stated in the Notice to Proceed. General acceptance of submittals by the Owner does not constitute specific Approval by the Owner’s Project Manager for deviation from date for Preconstruction Submittals. Contractor must make a specific request in writing for each proposed deviation and the Owner’s Project Manager must grant specific written Approval for each proposed deviation to the cut-off date.

.8 When certification of materials, systems or equipment is required by the Contract Documents, Design Professional and Owner are entitled to rely upon the accuracy and completeness of such certifications and the calculations and other professional analysis supporting the certifications.

.9 When descriptive catalog designations, including Manufacturer’s name, product brand name, or model number(s) are referred to in the Contract Documents, such designations shall be considered as being those found in industry publications of current issue at date of first Notice to Bidders.

.10 Contractor must allow sufficient time for reviews, revisions and resubmittals to avoid delays in the Work. No extension of the Job Order Completion Time will be authorized because of failure to transmit Complete Submittals enough in advance of the Work to permit processing within the timeframes allowed by Contract. Contractor is responsible for all costs of delays caused by Submittals that are tardy or are not Complete Submittals.

.11 Submittals not required by the Contract Documents will not be reviewed and will “Returned Without Action” or may be discarded.

.12 If a returned Submittal is required to be resubmitted more than once due to Contractor’s failure to comply the Submittal requirements, Contractor may be charged all costs associated with re-review of the Submittal. The charges may be deducted from progress payments due or to become due to the Contractor.

.13 Do not highlight pertinent Submittal information with markings that turn opaque when copied. Improperly highlighted Submittals may be returned to Contractor “Returned Without Action.”

3.26.2 Contractor’s Responsibilities

.1 Contractor must, at its own expense, provide for Owner’s review all Submittals required by the Contract Documents.

.2 If a Submittal deadline submission date is not stated in the Contract Documents for a specific Submittal or group of Submittals, make the Submittal or group of Submittals far enough in advance to avoid any Critical Path delay to the Official Progress Schedule.

.3 Before submission, Contractor must:

.a Determine and verify all field dimensions and conditions

.b Verify and correlate all dimensions in the Contract Documents with field dimensions and conditions
c. Verify materials, catalog numbers and similar data.

d. Coordinate Contractor’s Work with that of Subcontractors

e. Coordinate the Work of the Subcontractors Work with that of each other.

f. Review and coordinate all Subcontractors’ Submittals with the requirements of the Contract Documents

g. Review and coordinate all Submittals with Submittals previously accepted by the Owner

h. Coordinate as required with all public agencies involved.

i. Secure necessary approvals from public agencies and others and signify by stamp or other means that they have been secured.

j. Verify the feasibility of the construction methods

k. Coordinated the Submittal with Construction safety precautions

l. Review and coordinate all Contractor’s Submittals with the requirements of the Contract Documents

.4 Submittals must be provided to the Owner as Complete Submittal(s) for each Definable Feature of Work and must not be Submitted piecemeal. Owner has the right to withhold action on partial Submittals until the missing Submittal items are received, or return the partial Submittal to the Contractor “Returned Without Action.” At Owner’s sole discretion, the Owner may agree to review a Contractor’s partial Submittal. If the Owner agrees to review a Contractor’s partial Submittal, and the submittal is marked “No Exceptions Taken,” or “Make Corrections Noted” the Owner’s acceptance of the partial Submittal subject to its compatibility with future Submissions and additional partial Submissions for portions of the Work not covered in the reviewed partial Submission and does not constitute acceptance of the deletion of specified or required items not shown in the partial Submission.

.5 Coordinate submission of Submittals for related parts of the Work so the Submittals may be reviewed concurrently. Owner has the right to withhold action on a Submittal requiring coordination with other Submittals until related Submittals are received.

.6 Prior to Submission to the Owner, Contractor must certify all Submittals for compliance with the requirements of the Contract Documents. The Owner and Owner’s Consultants are entitled to rely upon the Contractor’s certification and the accuracy and completeness of the Contractor’s efforts supporting such certification.

.7 Contractor must resubmit Submittals as required until Owner’s acceptance is obtained.

.8 Contractor must make any required corrections and resubmit corrected Submittals until achieving acceptance.

.9 Unless otherwise specifically stated in the Contract Documents, Contractor must resubmit Submittals requiring resubmission within twenty-one (21) Days of return of Submittal by Owner.

.10 On resubmittals, clearly indicate all revisions, changes, and deviations from the original Submittal. This includes directing specific attention, in writing, to revisions other than those requested by the Owner on previous Submittals.

.11 Contractor must include answers to any questions or clarifications required by Subcontractors and/or Suppliers.

3.26.3 Submittal Copies
.1 Generally, the number of required copies of Submittals is established or summarized in the Job Order's Request for Proposal and Final Scope of Work.

3.26.4 Minimum Submittal Review Times

.1 Time for review shall commence on Owner's receipt of a Complete Submittal.

.2 Time for review shall end on Owner's return of Submittal.

.3 Unless otherwise specifically provided for in the Job Order Schedule, allow at least fourteen (14) Days for Owner's review and return following Owner receipt of a Complete Submittal.

.4 Allow additional time if processing must be delayed to permit coordination with subsequent Submittals. Owner will advise Contractor when a Submittal being processed must be delayed for coordination.

.5 Allow at least fourteen (14) Days for Owner's review and response to resubmittals.

3.26.5 Action & Distribution

.1 When “No Exceptions Taken” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents.

.2 When “Make Corrections Noted” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents and the corrections noted. The above two categories are considered as accepted Submittals. When other notations are indicated, Contractor is advised that no Work shall be Fabricated, Manufactured, or constructed, and Contractor must make a revised submission.

.4 Contractor must promptly distribute copies of the accepted Submittals to its Subcontractors, Suppliers, vendors, Fabricators and/or Manufacturers as applicable.

.5 Submittals received from sources other than through Contractor’s office will be “Returned Without Action” or may be discarded.

.6 Submittals that are not required by the Contract Documents may be returned to the Contractor “Returned Without Action” or may be discarded.

.7 Informational Submittals, on which Owner is not required to take action, will not be returned to the Contractor.

3.26.6 Use for Construction

.1 Use only final Submittals with mark(s) indicating acceptance by Owner or Designer of Record.

.2 No portion of Work requiring Submittals shall be commenced until Owner or Designer of Record, on the Owner's behalf, has accepted the Submittal.

.3 Contractor must Fabricate, construct and furnish all Work in accordance with the accepted Submittals.

.4 Contractor must immediately upon receipt from Owner, distribute Owner accepted Submittals to all parties concerned.

.5 Contractor must keep at least one (1) copy of each accepted Submittal at the job site.

3.27 SHOP DRAWINGS

3.27.1 Contractor must furnish Shop Drawings for temporary work and methods of construction such as formwork, falsework, and for other temporary work and methods of construction Contractor proposes to use.
3.27.2 Contractor must Furnish scaled drawings showing how the Work of all trades (HVAC, plumbing, fire protection, electrical, etc.) will coordinate to form a complete Installation, and where Work affects existing buildings or parts thereof, and/or existing utilities.

3.27.3 Present Shop Drawings in a clear and thorough manner. Identify details by reference to sheet and detail, schedule, and room numbers shown on Drawings.

3.28 RESERVED

3.29 SAMPLES

3.29.1 Contractor must submit without charge such Samples as may be required by the Contract Documents.

3.29.2 Unless a greater quantity is required else ware in the Contract Documents, three (3) of each required Sample must be Submitted.

3.29.3 Tags or labels shall be securely affixed to samples and contain as a minimum, the following information: Project Name, Contractor's Name, Contract Title and Number, Date, Transmittal Number, Product Manufacturer's or Fabricator's Name, trade name, lot style, color, model, etc., locations of use, and Contract Document reference.

3.29.4 Owner will retain one of each Sample.

3.29.5 Contractor must not use any materials or equipment for which Samples are required to be submitted until Owner has performed such Submittal review, save only at Contractor's risk and expense.

3.29.6 Owner's review of any Sample is only for the characteristics thereof or for the uses named in such review and no other. Owner's acceptance of any Sample is not a modification or change of any requirements of the Contract Documents. Upon Owner's acceptance of any Sample or material, no additional Sample of that material will be considered and no change in brand or make is permitted.

3.29.7 Where variation in color, pattern, texture or other characteristic is inherent in the material or product to be Provided, the Contractor must Submit at least 3 multiple units that show approximate limits of the variations. Installed items or materials exceeding the variation of the accepted samples are considered defective Work.

3.30 SUBSTITUTIONS

3.30.1 Whenever in the Contract Documents any material, product, thing, or service is indicated or specified by grade, patent, brand, trade or proprietary name, or by Manufacturer, such specifications shall be deemed to be followed by the term “Or Equal” unless the Contract Documents provide that use of the item specified is necessary in the public interest or to match other such items in use or to be used.

3.30.2 Reserved

3.30.3 If the material, product, thing, or service offered by Contractor is not, in the opinion of the Owner’s Authorized Representative, substantially equal or better than that specified, then Contractor must furnish that material, product, thing, or service specified or one that in the opinion of the Owner’s Authorized Representative is substantially equal or better in every respect.

3.30.4 The burden of proof as to the equality of any material, product, thing, or service Contractor proposes for Product Substitution is the responsibility of the Contractor.

3.30.5 The opinion of the Owner's Authorized Representative of the substantial equality or superiority of any material, product, thing, or service proposed for substitution will be based on but not be limited to consideration of such factors as: physical characteristics of...
weight, gauge, composition, hardness, toughness, ductility, durability, brittleness, etc., as compared to the specified item, or as delineated in the Contract Documents; dimensional compatibility with the materials it combines with to produce a unified design system; compatibility with products in use by Owner elsewhere; all aspects of finished appearance including form, texture and color, that may affect other design elements; performance, functionality, and ease and economy of maintenance and operation. Owner’s Authorized Representative will review and respond in writing to substitution submittals within fourteen (14) Days after receipt of all information Owner requires to make a final determination.

3.30.6 Owner will consider Job Order Proposals for substitution of materials, Products, things, or services only when such Job Order proposals are accompanied by full and complete technical data, and all other information requested by the Owner is submitted, in order to evaluate the proposed Product Substitution. Owner may require substantiating documents to prove quality, delivery time, and cost. Burden of proof as to comparative quality, suitability, and performance of offered materials, Products, things, or services is the responsibility of the Contractor. Owner’s Authorized Representative will be the sole judge as to such matters. In the event Owner’s Authorized Representative rejects the use of such Alternative(s) submitted, then one of the particular materials, Named Products, things, or services originally specified in the Contract Documents must be Provided.

3.30.7 Contractor is responsible for all design and engineering costs, Submittal and resubmittal costs, and costs of associated changes, for the review and acceptance of all proposed and accepted Product Substitutions. Costs incurred by Owner for additional Design Professional and/or CM services to process, design, engineer or adapt Product Substitutions may be deducted from payments to Contractor.

3.30.8 Installation of Substitutions

.1 Contractor must replace any substitution(s) installed without Owner’s consent with the specified item(s) at Contractor’s expense.

.2 Contractor must not proceed with any Product Substitution or change until Owner’s Authorized Representative has completed all reviews, made recommendations and granted consent.

.3 If Owner’s Authorized Representative accepts a Product Substitution, Contractor must make all changes in the Work including changes to Contract and Record Documents at no additional cost to Owner.

.4 If an accepted Product Substitution is more expensive than the specified material, process, or article Contractor must bear all additional costs of such material, process, or article so Provided.

.5 If mechanical, electrical, structural, or other changes are required for the Installation or fit of Alternative materials, articles, or equipment, or because of deviations from Contract Drawings and Specifications, such changes must not be made without written consent of the Owner's Authorized Representative, and must be made without additional cost to Owner.

3.31 COMPLIANCE WITH LAWS AND REGULATIONS

3.31.1 Contractor must keep informed of governmental regulations that may affect the Work. Contractor must observe and comply with, and must cause all agents, employees, Subcontractors and Suppliers to observe and comply with said regulations. Contractor shall hold harmless and indemnify Owner and all its officers, employees and consultants against any liability or claim arising from or based upon the violation of any such regulations by Contractor, its agents, employees, representatives or Subcontractors and Suppliers.
3.31.2 This Contract is a Type I Contract, subject to the Resolution of Contracting Principles adopted by the Board of Supervisors on October 28, 1997. Accordingly, the Contractor must comply with all of the following:

.1 Contractor must, during the term of this Contract, comply with all applicable federal, state and local rules, regulations, and laws.

.2 Contractors must maintain financial records adequate to show that County funds paid pursuant to the Contract were used for purposes consistent with the terms of the Contract. These records must be maintained during the term of this Contract and for a period of three (3) years from the termination of this Contract or until all Claims, if any, have been resolved, whichever period is longer, or longer if otherwise required pursuant to other provisions of this Contract.

3.31.3 The failure of the Contractor to comply with Document 00700 - Sub-Part 3.31.2 or any portion thereof may be considered a material breach of this Contract and may, at the option of the Owner, constitute a basis for the termination of the Contract. The Contractor will be furnished reasonable notice of any intended termination based on noncompliance with Document 00700 - Sub-Part 3.31.2, in accordance with Article 2.

3.32 TAXES, UTILITIES, PERMITS, AND FEES

3.32.1 Taxes: Contractor must pay any or all taxes imposed by Federal, State, or local governments, that were legally enacted as of the Bid date or subsequently enacted during the Contract Time, including but not limited to Federal excise tax and all State and local sales and use taxes. Owner will not furnish any tax exemption certificate or any document designed to exempt Contractor from payment of any tax on labor, services, materials, transportation, or any other items provided by Contractor pursuant to the Contract Documents.

3.32.2 Utilities: Unless otherwise stated in the Job Order, Contractor must arrange and pay for utility companies to provide and install permanent utility services and metering devices. Contractor must also pay for all utility usage charges until Owner’s Authorized Representative recommends final Acceptance of the Work to the Board of Supervisors.

3.32.3 Permits & Fees: Contractor must obtain and pay for all building permits, encroachment permits, and all other permits and governmental fees, licenses and inspections necessary for the proper execution and completion of the Work, unless otherwise provided in the Job Order.

.1 Contractors must give all necessary notices and comply with all laws, ordinances, rules, regulations and lawful Orders relating to the Work, and to the preservation of the public health and safety, unless otherwise Directed by Owner’s Project Manager.

.2 If Contractor performs any work contrary to such laws, ordinances, Orders, rules and regulations, Contractor shall bear all costs attributable thereto.

.3 Contractors will not be charged for any permit required by County ordinances and issued by the County of Santa Clara.

.4 Contractors will be reimbursed for the direct cost of any required permits through a Non-Prepriced item with no mark-up.

3.32.4 Royalties & License Fees: Contractor must pay all royalties and license fees, and must defend all suits or claims for infringement of any patent rights and save Owner and its Consultants on this Project harmless from loss on account thereof.

3.33 EQUAL OPPORTUNITY REQUIREMENTS

3.33.1 The County of Santa Clara is an equal opportunity employer. Contractor must comply with all applicable Federal, State, and local laws and regulations including Santa Clara County’s equal opportunity requirements. Such laws include but are not limited to the
following: Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; The Rehabilitation Act of 1973 (§503 and 504); California Fair Employment and Housing Act (Government Code §12900 et seq.); California Labor Code §1101 and §1102. Contractor must not discriminate against any Subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex/gender, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status in the recruitment, selection for training including apprenticeship, hiring, employment, utilization, promotion, layoff rates of pay or other forms of compensation.

3.34 PATENTS

3.34.1 Contractor must assume all costs arising from the use of patented materials, equipment, devices or processes used on or incorporated in the Work, and must indemnify and hold harmless Owner and Owner’s authorized representatives and Consultants, from all suits at law, or actions of every nature for, or on account of the use of any patented materials, equipment, devices or processes.

3.35 NON-WAIVER

3.35.1 Neither Acceptance of, nor payment for the Work or any part thereof, nor any extension of the Contract Time, nor any possession or use by Owner, will operate as a waiver of any of the provisions of the Contract, nor will a waiver of any breach of the Contract be held to be a waiver of any other or subsequent breach.

3.35.2 Conformance with any provisions in one part of the Contract Documents will not relieve Contractor from its responsibilities as set forth elsewhere in the Contract Documents.

3.36 UNFAIR BUSINESS PRACTICES CLAIMS

3.36.1 The Contractor’s attention is directed to the following provisions of the Public Contract Code §7103.5 and Government Code §4550 through §4554, which are applicable to the Contractor and its Subcontractors: In entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the Contractor or Subcontractor offers and agrees to assign to the awarding body all rights, title, and interest in and to all causes of action it may have pursuant to Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or pursuant to the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders Final Payment to the contractor, without further acknowledgment by the parties.

3.37 STANDARDS FOR WORK & MATERIALS

3.37.1 **Work**: The Work must comply with all governing codes, including standards referred to by such codes and the Contract Documents, except said requirements are considered as minimum. When the Contract Documents call for materials of higher quality or performance, or larger sizes or capacity than required by said codes or standards, the requirements of the Contract Documents take precedence. This requirement does not operate to allow deviations from minimum code requirements.

3.37.2 **Material**: Material specified by reference to the number, symbol or title or a specific standard, such as a commercial standard, a Federal specification, a trade association standard, or other similar standard, must comply with the requirements thereof.

3.37.3 **References**: Standards referred to, except as modified in the Contract Documents, have full force and effect as though printed in the Contract Documents. Standards are not repeated, because Contractor and its Subcontractor and Suppliers are expected to be familiar with requirements governing or applicable to their work.
3.37.4 Intent: The Work of this Contract includes the furnishing of all labor, materials, equipment, tools, supervision, services and all other items needed to complete all the Work in accordance with the requirements of the Contract Documents. The Work encompasses all materials, labor, etc., not specifically mentioned in nor depicted by the Contract Documents, but that can reasonably be inferred as being necessary for complete performance of the Work.

3.38 CONFORMITY WITH CONTRACT DOCUMENTS & ALLOWABLE DEVIATIONS

3.38.1 The Contract Documents show such information as reasonably needed to convey a comprehensive idea of the Work contemplated. All authorized alterations affecting the requirements and information in the Contract Documents must be in writing.

3.38.2 Work and materials must conform to the lines, grades, cross sections, dimensions and material requirements, including tolerances, shown on the Drawings or indicated in the Project Manual. Although measurement, sampling, and testing may be considered evidence as to such conformity, Owner’s Authorized Representative is the sole judge as to whether the Work or materials deviate from the requirements of the Contract Documents, and the decision of the Owner’s Authorized Representative as to any allowable deviation therefrom is final.

3.38.3 Contractor must follow any required sequence of operations set forth in the Contract Documents.

3.39 CONTROL OF MATERIALS

3.39.1 General Requirements

.1 Contractor must not purchase any materials, supplies, or equipment for the Work subject to any security interest or subject to a conditional sale or other agreement by which any interest therein or in any part thereof is retained by the seller or the Supplier.

.2 Contractor warrants free and clear title to all material, supplies, and equipment installed or incorporated in the Work and agrees upon Completion of the Work to deliver the premises, together with all improvements and appurtenances constructed or placed thereon by Contractor, to Owner free from any claims, liens or charges of any kind. Contractor nor any person, firm, or corporation furnishing materials, labor or services for any Work has the right to place a lien upon the premises or any improvement or appurtenances therein.

.3 Nothing contained herein shall defeat or impair the right of persons furnishing materials, labor or services covered by any bond provided by Contractor for their protection, or any rights pursuant to any law permitting such persons to look to funds due Contractor held by Owner.

.4 *The provisions of this Document 00700.3.39.1, “General Requirements”, must be inserted in all Subcontracts and material contracts* and notice of its provisions must be provided to all persons furnishing material for the Work when no formal contract is entered into for such material.

3.39.2 Source of Supply & Quality of Materials

.1 Contractor must furnish all materials required to complete the Work, except materials that are designated in the Contract Documents to be furnished by Owner, or furnished by Owner in the performance of extra Work.

.2 Contractor must incorporate in the Work only materials conforming to the requirements of the Contract Documents.

.3 All materials Provided must be new, except as may be specifically provided in the Contract Documents.
.4 Inspections and tests may be made by Owner or its designated representatives, but such inspections and tests shall not be considered as a guaranty of acceptance of such material nor of continued acceptance of material offered as similar to that which may have been inspected or tested.

.5 All Owner performed inspections and tests are for Owner's benefit and are not a substitute for Contractor's own quality control program.

3.39.3 Owner Furnished Items

.1 Owner Furnished Items will be available at the dates and at the locations designated in the Job Order.

.2 Contractor is responsible for all items furnished by Owner in Contractor's custody. Once Owner Furnished Items are furnished to Contractor, loss or damage from any cause whatsoever must be remedied by Contractor who will be liable for the cost of replacing Owner Furnished Items and such costs may be deducted from any monies due or to become due to Contractor.

3.39.4 Foreign Materials & Assemblies

.1 Contractor must deliver materials or assemblies which are Manufactured or Fabricated outside of the United States ("Foreign Materials & Assemblies") to a location in Santa Clara County unless otherwise Directed in the Contract Documents, where they must be retained for sufficient time to permit inspection, sampling, and testing.

.2 Contractor, at no cost to Owner, must supply all facilities and arrange for all testing required by Owner. All testing by Contractor is subject to witnessing by Owner.

.3 Contractor must furnish Owner a Certificate of Compliance from the Manufacturer or fabricator of any Foreign Materials or Assemblies in accordance with Document 00700.3.39.7, "Certificate of Compliance." In addition, Contractor must furnish certified mill test reports clearly identifiable to the lot of material where required in the Project Manual or otherwise requested by Owner.

.4 Use of steel Manufactured outside the United States is restricted to steel which can be positively identified as having been rolled at the heat for which certified mill tests can be produced.

.5 Where Manufactured materials requiring mill test reports or Fabricated assemblies involving the welding of steel for structural steel members or the casting and prestressing of precast prestressed concrete members are to be performed outside the United States, such Manufactured materials or Fabricated structural members shall be provided only from those foreign Manufacturers and Fabricators who have previously established, to Owner's satisfaction, that they have the experience, knowledge, trained personnel, quality controls, equipment, and other facilities required to produce the quality and quantity of Work required.

.6 At Owner's option, prequalification of the plant and Manufacturer or Fabricator will be established either by the submission of detailed written proof thereof or through in-plant inspection by representatives of the Owner, or both.

.7 Contractor must make written application to Owner for approval for foreign Fabrication at the earliest possible time but in no case later than with the Contractor's Job Order Proposal. The application must list the specific units or portion of Work that will be Fabricated outside of the United States.

.8 Reserved

.9 All documents pertaining to the Contract, including but not limited to, correspondence, Bid Documents, Shop Drawings, Product Data, Record Documents, Requests for
Information, and all other Submittals and data must be written in the English language and all numerical data must use the foot-pound-second system of measurement.

.10 Attention is directed to Document 00700.7.3, “Liquidated Damages.” Contractor is not entitled to an extension of Job Order Completion Time for acts or events occurring outside of the United States, and it is Contractor's responsibility to deliver Foreign Materials & Assemblies into the continental United States in sufficient time to permit timely receipt at the Project Site.

3.39.5 Defective Materials

.1 All materials that Owner has determined do not conform to the requirements of the Contract Documents will be rejected whether in place or not. Contractor must remove all rejected materials immediately from the Project Site, unless otherwise permitted by Owner's Project Manager. No rejected material, or repaired defective material, shall be used in the Work, without Owner's written acceptance.

.2 Upon Contractor's failure to comply promptly with any Order of Owner made pursuant to the provisions in this Document 00700.3.39.5, “Defective Materials”, Owner has the right and authority to cause the removal and replacement of rejected material and to deduct the cost thereof from any monies due or to become due to Contractor.

3.39.6 Inspection at Source of Supply

.1 Owner may inspect the production of any material, or the Manufacture of any product at the source of supply. Such inspection, however, will not be undertaken until Owner is assured of the cooperation and assistance of both Contractor and producer. Owner or its authorized representatives shall have free entry at all times to the parts of the plant Manufacturing or producing such materials. Adequate facilities must be provided free of charge to make the necessary inspections. Owner assumes no obligation to inspect materials at source of supply.

3.39.7 Certificate of Compliance

.1 Owner may permit the use of certain materials or assemblies before sampling and testing if accompanied by a Certificate of Compliance stating that the materials comply in all respects with the requirements of the Contract Documents. The Manufacturer of the material or assembly must sign the Certificate of Compliance. A Certificate of Compliance must be submitted with each lot of material delivered to the Project and the lot so certified must be clearly identified in the Certificate of Compliance.

.2 Owner may sample and test all materials used pursuant to a Certificate of Compliance at any time. The fact that material is used pursuant to a Certificate of Compliance does not relieve Contractor of responsibility for incorporating material in the Work which conforms to the requirements of the Contract Documents; and any such material not conforming to such requirements will be subject to rejection whether in place or not.

.3 Owner reserves the unrestricted right to refuse to permit the use of material pursuant to a Certificate of Compliance.

.4 Owner will set the form of the Certificate of Compliance and its disposition.

3.39.8 Testing

.1 Contractor must furnish without cost to Owner, adequate samples of all materials necessary for testing.

.2 Tests must be by a Laboratory accepted by Owner and paid for by Contractor.

.3 Contractor must pay all costs of all tests.

.4 If a test fails, Contractor must pay for subsequent tests until passage.
.5 The Laboratory must submit certified copies of all test reports directly to Owner and Contractor by 10 a.m. of the second workday after performing each test.

3.39.9 Property Rights in Materials

.1 Nothing in the Contract Documents shall be construed as vesting in Contractor any right of property ownership in the materials used in the Work after they have been attached or affixed to the Work or the soil, or after payment has been made for ninety percent (90%) of the value of materials delivered to the site of the Work, or stored subject to or within the control of Owner. All such materials become the property of Owner upon being so attached or affixed or upon payment of ninety percent (90%) of the value of material delivered to the Work site or stored subject to or within the Owner's control.

END ARTICLE 3
ARTICLE 4 — SUBCONTRACTORS

4.1 SUBLETTING AND SUBCONTRACTING

The Contractor must designate Subcontractors and the Subcontractor Value with each Job Order Proposal. The Contractor is required to post all Job Order Detailed Scopes of Work and associated subcontractor trade lists to the eGordian ‘Tools for Contractors and Subcontractors’ website within three working days of receiving a Request for Job Order Proposal and Detailed Scope of Work from the Owner.

4.1.1 The Contractor must adhere to the rules governing subcontracting as set forth in the Subletting and Subcontracting Fair Practices Act, commencing with Public Contract Code §4100 for Subcontractors listed as part of each Job Order Proposal. Subcontractor substitutions must be in accordance with provisions of the Subletting and Subcontracting Fair Practices Act, beginning with Public Contract Code §4100. Violations of this Act by the Contractor may subject the Contractor to penalties and disciplinary action pursuant to the Subletting and Subcontracting Fair Practices Act.

4.1.2 The Contractor is responsible for all Work performed pursuant to the requirements of the Contract Documents, including Work Subcontracted to others. All persons engaged in the Work of the Project are the responsibility of and subject to the control of the Contractor.

4.1.3 No Subcontractor will be recognized as such, and all persons engaged in the Work will be considered as employees of Contractor who is responsible for their work, which is subject to all the provisions of the Contract Documents.

4.1.4 When any Subcontractor fails to execute a portion of the Work in a manner satisfactory to Owner, the Contractor must remove such Subcontractor immediately upon written notice from Owner, and the Subcontractor must not again be employed on the Project.

4.1.5 Although the Project Manual is divided into Documents, Articles, Parts, Sub-Parts and Divisions, Sections, and Paragraphs it is not intended to provide a basis for the Bidding, assignment, or performance of the Work. Contractor is fully responsible for assigning the Work to the various Subcontractors, Suppliers and vendors that will be bidding or performing the Work. The Owner will not entertain requests to arbitrate disputes among Subcontractors or between the Contractor and Subcontractor(s) concerning responsibility for performing any part of the Work.

4.2 SUBCONTRACTUAL RELATIONS

4.2.1 By an appropriate agreement, Contractor shall require each Subcontractor and Supplier, to the extent of that Subcontractor’s or Supplier’s Work, to be bound to Contractor by the terms of the Contract, and to assume toward Contractor all the obligations and responsibilities which Contractor, by these Contract Documents, assumes toward Owner.

4.2.2 Said subcontracts and agreements must preserve and protect Owner’s rights pursuant to the Contract with respect to the Subcontractor’s or Suppliers Work so the subcontracting thereof will not prejudice such rights. Contractor must require each Subcontractor to enter into similar agreements with its Sub-subcontractors.

4.2.3 Contractor must make available to each proposed Subcontractor and Supplier, prior to execution of the subcontract or agreement, copies of the Contract Documents to which the Subcontractor or Supplier will be bound and, upon written request of the Subcontractor or Supplier, identify to the Subcontractor or Supplier any terms and conditions of the proposed subcontract or agreement that may be at variance with the Contract. Each Subcontractor must similarly make copies of all such Documents available to its proposed Sub-subcontractors.

4.3 CONTROL OF SUBCONTRACTORS

4.3.1 Contractor must:
.1 Schedule and coordinate the Work of all Subcontractors;

.2 Instruct all Subcontractors to consult with other Subcontractors to ascertain the locations of their various materials and to familiarize themselves with their own material locations, making such changes as required to obtain the best results;

.3 Instruct all Subcontractors to schedule their Work and cooperate with the other Subcontractors to avoid delays, interferences, and unnecessary work, to conform to the schedule of operations as indicated in the Official Progress Schedule, and make Installations when and where directed.

.4 Make all necessary changes, including removing and reinstalling of materials, at their sole expense if they fail to check with other Subcontractors, and their Installed Work is later found to interfere with Work of other Subcontractors.

.5 Follow up to ensure that all Subcontractors Install their Work when and where directed.

END ARTICLE 4
ARTICLE 5 — CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

5.1 OWNER’S RIGHT TO PERFORM CONSTRUCTION AND AWARD SEPARATE CONTRACTS

5.1.1 Owner has the right to perform work at any time related to the Project with its own forces and/or to Award separate contracts in connection with other portions of the Project or other work on the site pursuant to these or similar conditions of this Contract.

5.1.2 When separate contracts are Awarded for different portions of the project or other work on the site, the term contractor in the Contract Documents in each case means the contractor who executes each separate Owner/Contractor Agreement.

5.2 COOPERATION WITH OWNER’S FORCES AND OTHER CONTRACTORS EMPLOYED BY OWNER

5.2.1 Unless otherwise indicated in the Contract Documents, Owner will provide for the coordination of the work of Owner’s own forces and of each separate contractor with the Work of the Contractor, who must cooperate therewith as provided herein.

5.2.2 When Contractor and one or more other contractors are employed by Owner on related or adjacent work, Contractor must not cause any unnecessary delay or hindrance to the other contractors.

5.2.3 If the performance of the Work of this Contract is likely to be interfered with by the simultaneous performance of the work of some other separate contract or contracts, the Owner will decide which contractors or Contractor may proceed.

5.3 MUTUAL RESPONSIBILITY

5.3.1 The Contractor must cooperate fully with Owner and all separate contractors including utility companies with regard to the execution of their Work as follows:

.1 The Contractor must cooperate fully with Owner and all separate contractors with regard to introduction and storage of their materials and equipment.

.2 The Contractor must coordinate with Owner, all separate contractors, and all utility companies with regard to construction scheduling, sequence of operations and site access, all subject to approval of the Owner. Contractor must include activities in Contractor’s Progress Schedule for all on-site activities performed by utility companies.

.3 The Contractor must coordinate and accommodate the concurrent installation of inserts, hangers, blocking, and all other items or embeds to be installed by others within or upon the Contractor’s Work. The Contractor must coordinate and schedule the concurrent installation of these items in such a manner to cause no Critical Path delay to its Work or the work of others.

.4 The Contractor must include interface flags in its Progress Schedule, monitor the schedule and progress of each other contractor whose work affects its Work, and is responsible for giving timely written notice to Owner of potential problems or interface issues.

.5 The Contractor must properly connect the Work to the work of Owner or the separate contractors.

.6 The Contractor must inspect the work of Owner or other contractors affecting the Work and promptly report to the Owner in writing irregularities or defects in the separate work that render it unsuitable for reception or connection of the Work.

.7 Failure of the Contractor to inspect and report constitutes acceptance of the other work as fit and proper to receive the Work, except as to defects that may develop in the other work after execution of the Contractor’s Work.
5.4 DISPUTES BETWEEN SEPARATE CONTRACTORS

5.4.1 Contractor is responsible to the other contractors for all damage to the other contractors’ work, persons, or property caused by Contractor’s operations, and for any loss suffered by such other contractors caused by Contractor’s own unnecessary delays or failure to finish Work within the Job Order Completion Time(s) specified. Contractor must indemnify and hold harmless Owner for any damages and losses caused by Contractor in connection with this Document 00700.5, “Construction by Owner or by Separate Contractors.”

5.4.2 Should the Contractor cause damage to the work or property of any separate contractor on the Project, the Contractor must, upon due notice, resolve the claim directly with such other contractor. If such separate contractor initiates legal action or alternative dispute resolution (ADR) process, Owner will notify the Contractor who must defend Owner in such proceedings at the Contractor’s sole expense.

5.4.3 If a monetary obligation results from any lawsuit or ADR proceeding against the Owner, the Contractor is solely responsible for satisfying such obligation. In addition, the Contractor must pay Owner for all attorneys’ fees, and court costs as well as administrative, professional, consultant, inspection, testing and other consulting as service costs that Owner has incurred.

5.4.4 The Contractor must promptly remedy damage wrongfully caused by the Contractor to any completed or partially completed construction or to any property of Owner or separate contractors.

5.5 OWNER’S RIGHT TO CLEAN UP

5.5.1 If a disagreement or Dispute arises among the Contractor, separate contractors and/or Owner as to the responsibility pursuant to their respective contracts for maintaining the Project Site and surrounding areas free from waste materials and rubbish, Owner may clean up or cause to be cleaned up the waste, materials, and rubbish and allocate the costs among those responsible, and deduct each contractor’s share from progress payments due or to become due to each Contractor.

END ARTICLE 5
ARTICLE 6 — CHANGES IN THE WORK

6.1 GENERAL

6.1.1 Owner may at any time, without notice to the Sureties, by written Order, make changes in the Work within the general scope of the Job Order, including but not limited to additions, deletions or other revisions, and in the method and manner of performing the Work. Such changes will be Ordered in either of two ways, by:

.1 Field Modification, which is a written instruction, clarification or additional information communicated by Owner to Contractor Directing or Authorizing a minor adjustment in the Work or the requirements of the Contract Documents that does not change the Job Order Price or Job Order Completion Time; or by

.2 Supplemental Job Order, which is a written amendment to the Job Order, changing the Work, and/or the Contract Documents, and/or the Job Order Price, and/or the Job Order Completion Time, Approved by the Owner’s Authorized Representative.

6.1.2 The procedures for the issuance of such a Supplemental Job Order are the same as the procedures for the issuance of the original Job Order detailed in Supplementary General Conditions section 2.2. Any additions or deletions are therefore calculated by using the appropriate item in the Construction Task Catalog, times the quantity to be adjusted, times the appropriate Adjustment Factor. Time will be adjusted as appropriate for the Detailed Scope of Work.

6.1.3 Adjustment of Job Order Completion Time: There will be no adjustment of the Job Order Completion Time for changes that do not impact the Critical Path of the Official Progress Schedule. Contractor must document for the Owner how the change affected the Critical Path of the Official Progress Schedule and how the change increased (or decreased) the Job Order Completion Time to complete the Work.

6.1.4 Equipment on the Work

.1 The rental time to be paid for equipment already on the Project Site will be the time the equipment is in operation on the Work being performed, and in addition, will include the time required to move the equipment to the location of the Work and return it to the original location, except that moving time will not be paid for if the equipment is used at the Project Site for activities besides the Supplemental Job Order Work.

6.2 RESERVED

6.3 DELETED WORK

6.3.1 When Work is deleted, the Owner is entitled to a credit for the deleted Work.

6.3.2 The adjustment to the Job Order Price for deleted Work will be reflected in the Supplemental Job Order.

6.3.3 If Contractor has ordered acceptable material for the deleted Work before the date of notification of such deletion by Owner, and if orders for such material cannot be canceled, such material will be paid for by Owner at Contractor’s actual cost. In such case, the material paid for will become Owner’s property and Owner will pay the actual cost of any further handling. If the material is returnable to the vendor and if Owner so Directs, Contractor must return the material and Owner will pay the actual costs of returning the material, including reasonable and verifiable handling and restocking charges.

6.3.4 The actual costs or charges to be paid by Owner to Contractor for deleted Work will be computed in the same manner as the original Job Order with negative quantities.

6.4 DIFFERING SITE CONDITIONS
6.4.1 Contractor must immediately, and in any event no later than twenty-four (24) hours after discovery, and before such conditions are disturbed, notify Owner in writing of:

.1 Subsurface or latent physical conditions at the Project Site which Contractor asserts differ materially from those indicated in the Contract Documents; or

.2 Unknown physical conditions at the Project Site, of an unusual nature, which Contractor asserts differ materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Contract.

6.4.2 Owner will promptly investigate the conditions. If Owner finds that such conditions do materially differ and cause an increase or decrease in the Contractor’s cost of, or the time required for, performance of any part of the Work pursuant to this Contract, whether or not changed as a result of such conditions, an equitable adjustment will be made by the issuance of a Supplemental Job Order.

6.4.3 Contractor has no right to an adjustment in Job Order Price or the Job Order Completion Time pursuant to this Document 00700.6.4, “Differing Site Conditions”, unless Contractor submitted the notice required in Document 00700 - Sub-Part 6.4.1, except that Owner may extend the notification time upon Contractor’s written request in order to obtain additional relevant information.

6.4.4 Contractor has no right to an adjustment in Job Order Completion Time or Job Order Price after accepting Final Payment pursuant to this Contract.

6.5 RESERVED

6.6 CONTRACTOR’S ACCEPTANCE OF JOB ORDERS

6.6.1 Contractor’s written acceptance of a Job Order or Supplemental Job Order constitutes final and binding agreement to the provisions thereof and a waiver of all Claims in connection therewith, whether direct, indirect or consequential. A general statement that the Contractor reserves their right to Claim additional time and/or money at a future date for Work associated with the Job Order is not permitted.

6.7 RESERVED

6.8 RESERVED

END ARTICLE 6
ARTICLE 7 — TIME

7.1 JOB ORDER COMPLETION TIME

7.1.1 Time is of the essence of this Contract.

7.1.2 Contractor must complete the entire Work of the Job Order Project and designated portions thereof within the Job Order Completion Time(s) stated in the Job Order, or any authorized extension(s) thereof.

7.1.3 Failure of Contractor to include an element of the Work required for performance of this Contract in the Official Progress Schedule, or inaccuracy in the Official Progress Schedule, does not relieve Contractor from responsibility for accomplishing the Work within the Job Order Completion Time(s) designated in the Job Order and will not constitute grounds for delay in completion of the Work or designated portion on the Work.

7.1.4 The Contractor must provide an adequate workforce, materials of proper quality, and equipment to properly execute the Work and to ensure completion of each part of the Work in with in the Job Order Completion Time.

7.2 NOTICE TO PROCEED

7.2.1 Owner’s Notice to Proceed will state the first Day of the Contract Time.

7.2.2 Notwithstanding other provisions of the Contract Documents, Owner is not obligated to accept or to pay for Work Provided by the Contractor prior to the first Day of the Job Order Completion Time designated in the Job Order Contract Notice to Proceed, whether or not Owner has knowledge of the furnishing of such Work.

7.2.3 Reserved

7.2.4 The Contractor will not be allowed on the site of the Work until the Contractor’s Contract Bonds and insurance comply with requirements of the Contract Documents.

7.3 LIQUIDATED DAMAGES

7.3.1 All Work and designated portions of the Work must be completed and ready for full use by Owner on, or prior to, the Job Order Completion Time(s) for the Work or designated portions of the Work specified in the Job Order or any authorized extension thereof.

7.3.2 If Contractor fails to complete the Work or designated portions of the Work within the Job Order Completion Time(s) as agreed upon based on the Approved Work Schedule, or any authorized extension thereof, it is understood and agreed that Owner will suffer damage. When Liquidated Damages are specified in the Job Order, the parties agree that it is impractical and extremely difficult to determine the amount of actual damage, it is agreed that Contractor will pay as fixed and liquidated damages, and not as a penalty, the sums set forth in the Job Order for each and every calendar Day of delay until the Work is completed, and Contractor and its Sureties are liable for the amount thereof. If Liquidated Damages are not specified in the Job Order, Owner may collect actual damages from contractor for late performance of the work.

7.3.3 Contractor acknowledges that the Liquidated Damages amounts set forth in the Job Order constitute a reasonable estimate of the damages Owner will actually suffer every Day during which completion of the Work or designated portion of the Work is avoidably delayed beyond the expiration of the Job Order Completion Time(s) designated in the Contract Documents Approved Work Schedule.

7.3.4 Owner may withhold actual or Liquidated Damages (per Job Order) from payments due to Contractor as such damages accrue, or, at Owner’s discretion, withhold Liquidated Damages from any payments that may become due, including retention and Final Payment (pursuant to California Government Code §53069.85).
7.4 ACCELERATION

7.4.1 Owner reserves the right to Direct the Contractor to accelerate performance of the Work or any portion of the Work by Supplemental Job Order. No action or direction of Owner other than an express written Order to accelerate performance of the Work shall be construed by the Contractor to be direction to accelerate the Work.

7.4.2 If the Contractor believes that some action or inaction on the part of Owner constitutes an acceleration directive, the Contractor must immediately notify the Owner in writing that the Contractor considers the actions or inaction an acceleration directive. This written notification must detail the circumstances of the acceleration directive.

7.4.3 Contractor must keep Daily cost and other Project records related to the Owner’s acceleration Directive separate from other Project costs and records, and must submit a written Daily record of acceleration cost to Owner at the end of each Day.

7.4.4 Allowable labor costs are limited to overtime or shift premium costs. Allowable equipment costs are only the cost of added equipment mobilized to the site to accomplish the accelerated Work effort.

7.5 INSPECTIONS AND CERTIFICATION

7.5.1 When Contractor believes the Work is complete, Contractor must submit to the Owner two (2) copies of a written certification that the Work is complete and request inspection by the Owner.

7.5.2 Within 7 Days of receipt of the request, the Owner will determine if the Work is sufficiently complete to be inspected, and inspect the Work and prepare a list of deficiencies in the completed Work (Deficiency/Punch List.)

7.5.3 If the Owner determines that Work is not sufficiently complete to be inspected, the Owner will issue a notice to the Contractor stating the Work is not sufficiently complete to be inspected. When Contractor believes the Work is complete, Contractor must request another Inspection, which will be processed pursuant to Document 00700 - Sub-Part 7.5.2.

7.5.4 When the Work including correction of all deficiencies identified in the Owner’s Deficiency List is acceptable to the Owner, the Owner will send a letter acknowledging Completion to the Contractor. The Completion letter will identify the actual date of Completion.

7.5.5 Liquidated Damages for late completion of the Work will cease to accrue on the date of actual Completion identified in the Owner’s Completion letter. Such letter will not constitute Acceptance but will establish conformity with the requirements of the Contract Documents for the Work and will serve to establish the date for cessation of the accrual of the Liquidated Damages.

7.5.6 If Contractor requests a third inspection of Work that is still incomplete, Owner may charge Contractor for the cost of inspection, and may deduct the amount from payments due or that become due to Contractor.

7.6 DELAY AND TIME EXTENSIONS

7.6.1 The Owner will consider extensions to the Job Order Completion Time(s) for the following reasons only if they affect the Critical Path of the Official Progress Schedule.

1 Acts of God (as defined in public contract code §7105(b)(2)), or of the public enemy, acts of Government, acts of Owner, fires, floods, epidemics, quarantine restrictions, sanctioned strikes, freight embargoes, unusually severe weather, or delays of Subcontractors or Suppliers arising from unforeseeable causes beyond the control
and without the fault or negligence of both Contractor and such Subcontractors or Suppliers.

.2 Delays in progress due to an act of neglect by Owner only for the amount of delay time that occurs after Contractor has notified Owner in writing and the Owner has had a reasonable time to respond to the notification.

.3 An Approved Supplemental Job Order that by the issuance of this Supplemental Job Order designates a new Job Order Completion Time.

.4 Adjustments to the Contract Time(s) due to weather will be allowed only for unusually severe weather or resulting site conditions that affect the progress of activities on the Critical Path of the Official Progress Schedule.

.5 No Job Order Completion Time extension for rain will be allowed for any month until the number of Days of rain for that month as indicated below has been exceeded. Rainfall will be considered unusually severe only when the Days of rain (defined as more than one-tenth (1/10th) of an inch of rain per Day) in any month exceed the following number of Days of rain per month:

<table>
<thead>
<tr>
<th>Month</th>
<th>No. of Days</th>
</tr>
</thead>
<tbody>

</table>

.6 Contractor must exercise due diligence in protecting the Work and the Work site from the adverse impacts of weather by:

.a taking appropriate preventative actions before anticipated inclement weather to protect the Work and Work site from the potential adverse effects of the weather;

.b taking corrective action during the inclement weather to protect the Work and Work site from the actual and potential adverse effects of the inclement weather; and

.c taking correction action after the inclement weather to remedy, prevent, and/or mitigate the negative impacts of the adverse weather on the Work and the Work site.

7.6.2 Within twenty-four (24) hours from the beginning of any Critical Path delay to the Official Progress Schedule, Contractor must notify Owner in writing of the causes of delay.

7.6.3 Within fourteen (14) Days from the end of any Critical Path delay to the Official Progress Schedule, Contractor must submit two (2) hard copies and electronic data files on Compact Disks, of all supporting information to validate the impact of the delay on the Job Order Completion Time.

7.6.4 Owner will ascertain the facts and the extent of the delay and adjust the Job Order Completion Time(s) for completing the Work when, in Owner's judgment, the facts justify an adjustment. Owner's determination is final and conclusive.

7.6.5 Delay and Contractor's entitlement for delay will be determined as follows:
.1 The following definitions apply to Document 00700.7.6, “Delay and Time Extension”:

.a "**Excusable Delay**" means any delay in the Work caused by conditions beyond the control and without the fault or negligence of the Contractor.

.b "**Excusable Non-Compensable Delay**" means any Excusable Delay not solely the responsibility of the Contractor, such as, earthquake, fire, flood, cyclone, and inclement weather conditions that caused a delay of Work on the Critical Path. The financial inability of the Contractor or any Subcontractor, Sub-subcontractor or Supplier, or the default of any Subcontractor, Sub-subcontractor or Supplier is not a condition beyond the Contractor’s control. An Excusable Non-Compensable Delay may entitle the Contractor to an extension of the Job Order Completion Time, but will not entitle the Contractor to any adjustment of the Job Order Price.

.c "**Excusable Compensable Delay**" means any Excusable Delay caused by a delay of the Work on the Critical Path for which the Owner is solely responsible and which delay is unreasonable given the circumstances and not within the contemplation of the parties. An Excusable Compensable Delay may entitle the Contractor to an extension of the Job Order Completion Time and an adjustment of the Job Order Price.

.d "**Non-Excusable Delay**" means any delay in the Work resulting from causes within the control of the Contractor or due to the fault or negligence of the Contractor or its Subcontractors or Suppliers. A Non-excusable Delay shall not entitle the Contractor to an extension of the Job Order Completion Time or an adjustment of the Job Order Price.

.2 Whenever the Contractor foresees any delay in the prosecution of the Work, the Contractor must notify the Owner in writing of the potential delay. Such notification must specify with detail the cause asserted by the Contractor for the potential delay and provide a description of the anticipated effect of the potential delay on the most recent Updated Official Progress Schedule including identification of the activity numbers of the affected activities. Failure of the Contractor to submit such a notice within seven (7) Days after recognition of any incident or event giving rise to the potential delay will constitute a waiver by the Contractor of any request for extension of the Job Order Completion, and no extension of the Job Order Completion Time will be granted as a consequence of such delay.

.3 Within twenty-four (24) hours from the beginning of any Critical Path delay to the Official Progress Schedule, Contractor must submit written notice to the Owner of the delay. The notice must include identification of the affected activities, evidence of the cause of the delay, and within 14 Days of the end of the Critical Path delay, Contractor must submit a Time Impact Analysis per Document 00700.7.6.6, “Time Impact Analysis.”

.4 Owner has no obligation to consider any request for extension to the Job Order Completion Time(s) unless the Contractor satisfies the requirements set forth in the Contract Documents for providing notice of potential delay and submission of a Time Impact Analysis establishing the impact of the delay on the Critical Path of the Official Progress Schedule.

.5 Owner is not responsible to the Contractor for any constructive acceleration due to Contractor’s failure to comply with the submission and justification requirements of the Contract Documents for Job Order Completion Time extension requests. The Contractor’s failure to perform in accordance with the Official Progress Schedule shall not be excused because the Contractor has submitted Job Order Completion Time extension requests, unless and until Owner Approves such requests.

.6 Extension to the Job Order Completion Time(s) will not be allowed for delays on paths of activities containing Total Float Time per the latest Updated Official Progress
Schedule, providing such delay does not exceed the Total Float Time(s) on paths of activities on the latest Updated Official Progress Schedule.

.7 Any extension of Job Order Completion Time(s) granted the Contractor pursuant to this Document 00700.7, “Time”, does not constitute a waiver by Owner of, nor a release of the Contractor from, the Contractor’s obligation to perform the Work within the Job Order Completion Time(s) specified by the Contract Documents, as modified by the particular extension in question. Owner's decision to grant an extension of the Job Order Completion Time(s) due to one circumstance set forth in one request, shall not be construed as a grant of an extension for any other circumstance or the same circumstance occurring at some other time, and shall not be viewed by the Contractor as a precedent for any other request for extension of the Job Order Completion Time(s).

.8 If Owner Orders the Contractor to suspend Work pursuant to Document 00700.2, “Administration of the Contract”, the Contractor will not be entitled to any extension of the Job Order Completion Time(s), damages resulting from the suspension, unless the Contractor can establish that the suspension was Ordered without reasonable justification.

7.6.6 Time Impact Analysis

.1 The time impact analysis must provide information justifying the request for extension of the Job Order Completion Time(s) and stating the extent of the adjustment requested for the alleged delay. Time impact analysis must be in form and content acceptable to the Owner and include, but not be limited to, the following:

.a Time impact analyses must be based on analyzing the Official Progress Schedule in effect at the time the alleged delay or impact first occurred.

.b The Contractor must present fragmentary Critical Path Method (CPM) type network windows (fragnets) in time scaled precedent format, illustrating how Contractor proposes to incorporate the alleged delay into the Updated Official Progress Schedule in effect at the time the alleged delay or impact first occurred.

.c The Contractor must identify the activities that are proposed to be amended due to the alleged delay.

.d The Contractor must identify the preceding and succeeding activities in the Official Progress Schedule to which the fragnet(s) is to be connected.

7.6.7 Weather Delays

.1 Except for rain, if weather conditions are the basis for delays in the continuance or completion of the Work or any designated portion of the Work, Contractor must substantiate that the weather conditions were abnormal, based on the climatological data for the immediately preceding 10 year period, and could not have been reasonably anticipated.

.2 Rain will not be considered abnormal unless it results in precipitation that exceeds the maximum daily precipitation for the cumulative number of Days per month indicated in Document 00700 - Sub-Part 7.6.1.

.3 When the amount of rain is considered to be abnormal, extensions to the Job Order Completion Time(s) will be granted where the condition of the site, as determined by the Owner, is such that Contractor can perform no Work identified as Critical Path Work of the Official Progress Schedule.

7.6.8 Concurrent Delays
.1 If an *Excusable Non-Compensable Delay* and an *Excusable Compensable Delay* operate to concurrently delay completion of the Work, the maximum extension of the Job Order Completion Time will be the number of Days from the commencement of the first delay to the cessation of the delay which ends last. Any adjustment of the Job Order Price will be in accordance with Document 00700.6, “Changes in the Work”, and will be based only on the number of Days of *Excusable Compensable Delay*, less the duration of the concurrence.

.2 If a *Non-excusable Delay* operates to concurrently delay completion of the Work with an *Excusable Non-Compensable Delay*, the maximum extension of the Job Order Completion Time will be the number of Days of concurrent delay plus the non-concurrent portion of the *Excusable Non-Compensable Delay*. The entire delay is non-compensable.

.3 If a *Non-excusable Delay* operates to concurrently delay completion of the Work with an *Excusable Compensable Delay* the maximum extension of the Job Order Completion Time will be the number of Days of concurrent delay plus the non-concurrent portion of the *Excusable Compensable Delay*. Any adjustment of the Job Order Price will be in accordance with Document 00700.6, “Changes in the Work”, and will be based only on the non-concurrent portion of the *Excusable Compensable Delay*.

END ARTICLE 7
ARTICLE 8 — PAYMENTS

8.1 GENERAL

8.1.1 Unless otherwise expressly provided for, Contractor shall accept the Job Order Price provided in the Job Order as full payment for all Work.

8.1.2 Reserved

8.1.3 Payment will not be made for: materials wasted or disposed of in a manner not called for pursuant to the Contract; rejected material of any kind; material rejected after it has been placed; and material placed outside of the Work limits shown on the Drawings. No compensation will be made for disposing of rejected or excess material.

8.1.4 Whenever Owner performs any portion of the Work at Contractor's request, the cost thereof will be charged against Contractor, and may be deducted from any amount due or to become due from Owner.

8.1.5 Whenever immediate action is required to prevent impending injury, death, or property damage, and precautions which are Contractor's responsibility have not been taken, Owner may, after reasonable attempt to notify Contractor, cause such precautions to be taken and charge the cost thereof to Contractor, or may deduct such cost from any amount due or become due from Owner. Owner's action or inaction given such circumstances shall not be construed as relieving Contractor or it's Surety from any liability for such circumstances.

8.1.6 Payment does not relieve Contractor from its Contract obligations pursuant to the Contract; nor is such payment to be construed to be acceptance of any of the Work. Payment shall not be construed as the transfer of ownership of any equipment or materials to Owner. Responsibility of ownership shall remain with Contractor who is obligated to store, protect, repair, replace, rebuild or otherwise restore any fully or partially completed Work for which payment has been made; or replace any materials or equipment required to be Provided pursuant to the Contract which may be damaged, lost, stolen or otherwise degraded in any way before Acceptance of the Work, except as provided in Document 00700.13.1, “Use Before Acceptance.”

8.2 PROGRESS PAYMENTS

8.2.1 General: Contractor will be paid for the actual percentage of Work complete; however, in no event will the total payment exceed the total Job Order Price.

8.2.2 Reserved

8.2.3 Reserved

8.2.4 No payments will be made to Contractor until Contractor has met the requirements of Document 00700.3.24, “Official Progress Schedule.”

8.2.5 Before submitting an Application for Payment (Final or Partial) the Contractor shall reach an agreement with the Project Manager concerning the percentage complete of the Detailed Scope of Work and the dollar value for which the Application for Payment may be submitted.

8.2.6 The Owner will make one payment for all Job Orders that have a Job Order Completion Time of 45 days or less, or a Job Order Price of $25,000 or less. For all other Job Orders, the Owner may make partial, monthly payments based on a percentage of the work completed.

8.2.7 The Owner will establish the monthly pay period end dates. The Contractor must base their monthly progress payment period end dates on the dates established by the Owner.
8.2.8 Establishing the Work completed for each monthly request for payment is an estimate only, and no inaccuracy or error in said estimates operate to release Contractor or its Sureties from damages arising from such Work or from complying with each and every provision of the requirements of the Contract Documents. Owner has the right to correct any error made in any estimate for payment.

8.2.9 No such estimate or payment is required to be made when, in Owner’s judgment, the Work is not proceeding in accordance with the requirements of the Contract Documents, or when in Owner’s judgment the total value of the Work done since the last pay estimate amounts to less than $500.

8.2.10 Contractor is not entitled to have any payment made for Work performed so long as any lawful or proper Order concerning the Work or any portion thereof given by Owner to Contractor shall not have been followed.

8.3 RETENTION

8.3.1 Owner will retain five percent (5%) of the estimated value of the Work done, and five percent (5%) of the value of the materials procured and delivered but not yet used, or procured and stored in accordance with Section 01290, “Payment Procedures”, as part security for the fulfillment of the Contract requirements by Contractor, and will pay to Contractor, while carrying on the Work, the balance not retained, as aforesaid, after deducting therefrom all previous payments and all sums to be withheld or retained pursuant to the provisions of the Contract Documents or allowed or required by law. No such estimate or payment shall be construed to be an acceptance of any defective Work or improper materials.

8.3.2 Reserved

8.3.3 In addition to any remedy authorized by law, all or a portion of the Job Order Price due Contractor and considered necessary by the Owner to satisfy pending or reasonably anticipated suits or claims for damages, may be withheld by Owner until disposition has been made of such suits or claims.

8.4 TIMELY PROGRESS PAYMENTS & INTEREST

8.4.1 California Public Contract Code §20104.50 sets forth the Legislature’s intent for prompt payment to contractors and establishes the following procedures for timely progress payments and payment of interest:

.1 Any local agency which fails to make any progress payment within thirty (30) Days after receipt of an undisputed and properly submitted payment request from a contractor on a construction contract shall pay interest to the contractor equivalent to the legal rate set forth in subdivision (a) of §685.010 of the Code of Civil Procedure.

.2 Upon receipt of a payment request, each local agency shall act in accordance with the following:

.a Each payment request shall be reviewed by the local agency as soon as practicable after receipt for the purpose of determining that the payment request is a proper payment request.

.b Any payment request determined not to be a proper payment request suitable for payment shall be returned to the Contractor as soon as practicable, but not later than seven (7) Days, after receipt. A request returned pursuant to this paragraph shall be accompanied by a document setting forth in writing the reasons why the payment request is not proper.

.c The number of Days available to a local agency to make a payment without incurring interest pursuant to California Public Contract Code §20104.50 shall be
reduced by the number of Days by which a local agency exceeds the seven-Day return requirement.

d A "progress payment" includes all payment due contractors, except that portion of the Final Payment designated by the contract as retention earnings.

e A payment request shall be considered properly executed if funds are available for payment of the payment request, and payment is not delayed due to an audit inquiry by the financial officer of the local agency.

8.5 SECURITIES IN LIEU OF RETENTION

8.5.1 Attention is directed to Document 00700.8.3, "Retention", relating to the retention of funds during Contract performance, and to the requirements of California Public Contract Code §22300.

8.5.2 Contractor may substitute securities in lieu of the retention specified in Document 00700.8.3, "Retentions." At Contractor’s request and expense, securities equivalent to the amount retained shall be deposited with Owner, or with a State or Federally chartered bank as escrow agent, who shall pay such monies to Contractor upon satisfactory Completion of the Contract.

8.5.3 Securities eligible for substitution hereunder shall be limited to those listed in California Government Code §16430, or to bank or savings and loan certificates of deposit. Contractor must be the beneficial owner of any securities so substituted for monies retained, and shall receive any interest or income thereon.

8.5.4 Any Escrow Agreement entered into pursuant to this Document 00700.8.5, "Securities in Lieu of Retention", must be executed on the form furnished in the Bid Documents, Document 00550, "Escrow Agreement For Securities In Lieu Of Retention". If the Contractor elects to receive interest on monies withheld in retention by a public agency, or to deposit securities in lieu of retention, the Contractor must, at the request of any Subcontractor performing more than five percent of the Contractor’s total Bid, make that option available to the Subcontractor.

8.6 STOP NOTICES

8.6.1 Owner will comply with California Civil Code Title 15, Chapter 4, §3179 and following, regarding Stop Notices.

8.6.2 All Preliminary and Stop Notices must be sent to the County at the address stated in the Notice to Bidders, and in accordance with the “STOP NOTICE INFORMATION” sheet in the Bid Form (Document 00410).

8.7 PAYMENTS WITHHELD

8.7.1 Owner may withhold payment(s) in whole or in part to such extent as may be necessary to protect Owner from loss from but not limited to:

.1 Defective work not remedied;

.2 Third party claims filed or reasonable evidence indicating probable filing of such claims;

.3 Failure of Contractor to make payments properly to Subcontractors for labor, materials or equipment;

.4 Reasonable evidence that the Work cannot be completed for the unpaid balance of the Job Order Price, including any Liquidated Damages thereby due;

.5 Damage to Owner or another contractor, or to other work or property;

.6 Reasonable evidence that the Work will not be or had not been completed within the Job Order Completion Time;
.7 Failure to carry out the Work in accordance with the requirements of the Contract Documents, including failure to make required Submittals;

.8 Failure to submit certified weekly payrolls;

.9 Stop Notices filed, as more specifically provided in Document 00700.8.6, “Stop Notices”; Failure or refusal of Contractor to fully comply with the Contract requirements; or

.10 Costs to Owner resulting from failure of Contractor to complete the Work or designated portions of the Work within the Job Order Completion Time(s).

8.7.2 Whenever Owner withholds any monies otherwise due Contractor, Owner will furnish written notice of the amount withheld and the reasons therefore to Contractor.

END ARTICLE 8
ARTICLE 9 ― PROTESTS, DISPUTES & CLAIMS

9.1 GENERAL PROVISIONS

9.1.1 Compliance with the Dispute Resolution procedures provided for herein is a condition precedent to filing a Claim.

9.1.2 The parties may modify this Document and the procedures prescribed herein by written agreement executed by both parties. Owner's execution of any agreement to modify this Article 9 is void unless approved by County Counsel as to form and legality.

9.1.3 Each party shall bear their own costs of any kind or nature, including but not limited to attorneys’ fees, incurred in relation to the Dispute Resolution Process set forth in this Article 9. Contractor's costs incurred in seeking relief for Disputes and Claims are not recoverable from Owner.

9.1.4 CALCULATION OF ALL MONETARY AMOUNTS RELATING TO ALL DISPUTES AND CLAIMS (INCLUDING WITHOUT LIMITATION CLAIMS MADE UNDER PUBLIC CONTRACT CODE SECTION 9204) SHALL BE DONE IN THE SAME MANNER AS CHANGE ORDERS PER SECTION 01 26 00 (CONTRACT MODIFICATION PROCEDURES). NO SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES MAY BE CLAIMED, REQUESTED OR RECOVERED BY CONTRACTOR OR BY ANY SUBCONTRACTOR.

9.2 DISPUTE RESOLUTION PROCESS

9.2.1 “Dispute” means an alleged act, error, or omission of Owner, its agents or employees, or action, condition, or other situation that has occurred that Contractor alleges may entitle it to an adjustment of the Contract Price or Contract Time and which, in Contractor’s opinion, is beyond the scope of the Contractor’s Work required by the Contract Documents, and that Contractor asserts or believes it may assert is the responsibility of Owner. The term “Dispute” is intended to be construed broadly and include disagreements of all types.

9.2.2 Every Dispute shall be stated with specificity in writing and signed under penalty of perjury and presented to the Owner’s Project Manager in a “Notice of Dispute” within ten (10) Days from the date Contractor discovers or reasonably should discover the Dispute. Contractor shall provide this Notice of Dispute even if Contractor has not yet been damaged, delayed, or incurred extra cost when Contractor discovers, or reasonably should discover, the alleged act, error, omission, condition, or situation giving rise to the Dispute.

9.2.3 The Notice of Dispute shall be accompanied by all Documents substantiating Contractor’s position regarding the Dispute and shall:

.1 summarize the Dispute, including underlying facts, entitlement, schedule analysis, and quantum calculations;

.2 identify all of the issues, events, conditions, circumstances, and/or causes giving rise to the Dispute;

.3 provide a chronology of relevant events to date and correspondence;

.4 in the event that the Contractor seeks money in connection with the Dispute, provide an analysis of Dispute cost and all supporting Documentation of costs and any other damages claimed;

.5 in the event the Contractor asserts an effect on any schedule Milestones and/or Contract Time, include all pertinent scheduling data demonstrating the impact(s) on the Critical Path(s), Milestone(s), and or Contract Time in the Dispute, Contractor shall provide schedules and schedule analysis compliant with the Contract Documents,
including but not limited to Document 01 32 00 to justify time extension(s) (if requested);

.6 identify all pertinent dates and/or durations and all actual and/or anticipated effects on the Contract Price, Milestones, and/or Contract Time adjustments;

.7 include email digital photographs of the Dispute and provide Owner with contact information for all involved subcontractors and/or suppliers of any tier to facilitate the Owner’s review of Notice of Dispute;

.8 a detailed cost breakdown of the amounts the Contractor is seeking, including actual cost records demonstrating that those costs have actually been incurred. To the extent the alleged costs have not been incurred at the time the Dispute is submitted, actual cost records must be submitted on a current and ongoing basis not less than once a week during any period(s) costs are allegedly incurred. A cost record will be considered current if submitted within seven (7) days of the date the cost reflected in the record is allegedly incurred. At the direction of Owner, the alleged extra costs may be subject to further verification procedures (by way of example only and not by limitation, such as having an inspector verify the performance of alleged work on a daily basis); and,

.9 if the Contractor’s Dispute involves an alleged error or omission in the Contract Documents
   .a an affirmative representation under penalty of perjury by Contractor and any affected subcontractors and suppliers that the alleged error or omission was not discovered prior to submitting a proposal for the Work, and
   .b a detailed statement demonstrating that the alleged error or omission reasonably could not have been discovered.

9.2.4 Dispute Updates Required. If the unresolved Dispute or Claim persists longer than a single calendar month from the Notice of Dispute, then on the first day of each month, for each month until the Dispute is resolved, and any Work allegedly ascribed to the Dispute ceases, Contractor shall submit to Owner a Document titled “Dispute Update” that shall update and quantify all elements of the Dispute as completely as possible. Contractor’s failure to submit a Dispute Update or to quantify costs every month shall result in waiver of the Dispute for that month-long period. Dispute Updates stating that damages, total damages (direct and indirect), schedule impact and/or any time extension will be determined at a later date shall not comply with this subparagraph and shall result in Contractor waiving its claim(s) of damage(s) of any kind or nature during the period covered by the noncompliant Dispute Update.

9.2.5 Dispute Log. Contractor shall maintain a continuing “Dispute Log” that shall list all outstanding Disputes and their value and status, and provide such log to Owner monthly as a condition of its monthly payment application when such is due. Such log shall be deemed Contractor’s representation of any and all Disputes then outstanding. Any Dispute that Contractor fails to include on the Dispute Log shall be deemed either waived and/or abandoned.

9.2.6 Failure to include as part of a Notice of Dispute all relevant supporting Documentation shall be deemed to have assented that the Work lies within the scope of the Contract Documents and shall result in waiver, release, discharge and relinquishment of any right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price on account of any Documentation that was available to Contractor but not included as part of the Notice of Dispute. Contractor waives the right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price based on any Documentation that was available to Contractor at the time the Notice of Dispute was submitted but not provided until a later Dispute Update.
9.2.7 A timely Notice of Dispute is a condition precedent to Contractor seeking any further relief, including filing a Claim.

9.2.8 The Owner will review the Notice of Dispute and issue a written decision ("Decision on Dispute") to Contractor within thirty (30) Days from the date the Notice of Dispute and all supporting Documentation are received by Owner. The Owner has the option to meet with the Contractor or with any other party before issuing its Decision on Dispute.

9.2.9 If Owner does not issue a Decision on Dispute within thirty (30) Days after receipt of the Notice of Dispute (and all supporting Documentation), then the Owner will be deemed to have rejected the Contractor’s Dispute in its entirety, and if the Contractor intends to seek additional relief regarding the unresolved issues, the Contractor shall proceed with the Claims procedure below.

9.2.10 If the Owner’s Decision on Dispute completely resolves the Dispute, the Owner will prepare and process a Change Order, if applicable, or proceed in accordance with the resolution.

9.2.11 If the Owner’s Decision on Dispute provides that the Owner rejects the Dispute in whole or in part and the Contractor intends to seek additional relief regarding the unresolved issues of the Dispute, the Contractor shall proceed with the Claims procedure below.

9.2.12 Contractor shall require each Subcontractor (including any sub-Subcontractor and supplier) to comply with the Disputes procedure set forth in this Article 9 and to provide Contractor with timely notice and Documentation of all Disputes. Contractor shall present as its Disputes, all Subcontractor, sub-Subcontractor and supplier Disputes of any type, and prove them under the terms of the Contract Documents. Owner shall not be directly liable to any Subcontractor, any supplier, or any other person or organization, or to any surety for or employee or agent of any of them, for damages or extra costs of any type arising out of or resulting from the Project. If Contractor asserts or intends to assert “pass through” Disputes of Subcontractors, then Contractor shall provide all Documentation including Documentation of liquidating agreements, supporting such Disputes.

9.3 CLAIMS PROCEDURE (IN COMPLIANCE WITH PUBLIC CONTRACT CODE SECTION 9204(d)).

9.3.1 “Claim” refers to “claim” as defined in Public Contract Code Section 9204.

9.3.2 Every Claim shall be stated with specificity in writing and signed under penalty of perjury and presented to the Owner’s Project Manager within ten (10) calendar days from the Decision on Dispute.

9.3.3 It is the intent of this Document that all Claims filed after the Decision on Dispute shall be in compliance with Public Contract Code Section 9204.

9.3.4 Individual unresolved Disputes may be aggregated into one or more Claim(s).

9.3.5 In the following paragraphs the term “section” shall refer to this Article 9; the term “public entity” shall mean Owner.

9.3.6 Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed forty-five (45) days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

9.3.7 If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the forty-five (45) days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified
mail, return receipt requested, the public entity shall have up to three (3) days following the next duly publicly noticed meeting of the governing body after the forty-five (45)-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

9.3.8 If the claimant disputes the public entity’s written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within thirty (30) days for settlement of the dispute.

9.3.9 Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within sixty (60) days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within ten (10) business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

9.3.10 For purposes of this section, mediation includes any nonbinding process, such as neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

9.3.11 Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

9.3.12 Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity’s failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

9.3.13 Amounts not paid in a timely manner as required by the negotiations required under Public Contract Code Section 9204 shall bear interest at 7 percent per annum.

9.3.14 Contractor shall present as its Claims all subcontractor claims or supplier claims of any type or nature provided that the subcontractor or supplier claims comply with the Contract Documents. Owner shall not be directly liable to any Subcontractor, any supplier, or any other person or organization, or to any surety for or employee or agent of any of them, for damages or extra costs of any type arising out of or resulting from the Project. If Contractor asserts or intends to assert “pass through” Claims of Subcontractors, then Contractor shall provide all Documentation including liquidating agreements supporting such Claims.

9.3.15 The Claim shall be accompanied by all Documents substantiating Contractor’s position regarding the Claim and shall:
.1 summarize the Claim, including underlying facts, entitlement, schedule analysis, and quantum calculations;

.2 identify all of the issues, events, conditions, circumstances, and/or causes giving rise to the Claim;

.3 provide a chronology of relevant events to date and correspondence;

.4 in the event that the Contractor seeks money in connection with the Claim, provide an analysis of Claim cost and all supporting Documentation of costs and any other damages claimed;

.5 in the event the Contractor asserts an effect on any schedule Milestones and/or Contract Time in a Claim, Contractor shall include all pertinent scheduling data demonstrating the impact(s) on the Critical Path(s), Milestone(s), and/or Contract Time and shall provide schedules and schedule analysis compliant with the Contract Documents, including but not limited to Section 01 32 00, to justify time extension(s) (if requested);

.6 identify all pertinent dates and/or durations and all actual and/or anticipated effects on the Contract Price, Milestones, and/or Contract Time adjustments;

.7 include email digital photographs of the Claim and provide Owner with contact information for all involved subcontractors and/or suppliers of any tier to facilitate the Owner's review of the Claim;

.8 if the Contractor's Claim involves alleged extra work by the Contractor or its subcontractors, a detailed cost breakdown of the amounts the Contractor is seeking, including actual cost records demonstrating that those costs have actually been incurred. To the extent alleged costs have not yet been incurred at the time the Claim is submitted, actual cost records must be submitted on a current and ongoing basis not less than once a week during any period(s) costs are allegedly incurred. A cost record will be considered current if submitted within seven (7) days of the date the cost reflected in the record allegedly is incurred. At the direction of Owner, alleged extra costs may be subject to further verification procedures (by way of example only and not by limitation, such as having an inspector verify the performance of alleged work on a daily basis; and,

.9 if the Contractor's Claim involves an error or omission in the Contract Documents:

.a an affirmative representation under penalty of perjury by Contractor and any affected subcontractors and suppliers that the alleged error or omission was not discovered prior to submitting a proposal for the Work, and;

.b a detailed statement demonstrating that the error or omission reasonably could not have been discovered.

9.3.16 Failure to include as part of a Claim all relevant supporting Documentation shall be deemed to have assented that the Work lies within the scope of the Contract Documents and shall result in waiver, release, discharge and relinquishment of any right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price on account of any Documentation that was available to Contractor but not included as part of the Claim. Contractor waives the right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price based on any Documentation that was available to Contractor at the time the Claim was submitted but not provided until a later Claim Update (see Article 3.05.L).

9.3.17 Claim Updates Required. If the unresolved Claim persists longer than a single calendar month from the filing of the Claim, then on the first day of each month, for each month until the Claim, including any Work done related to the Claim ceases, Contractor shall submit to Owner a Document titled "Claim Update" that shall update and quantify all
elements of the Claim as completely as possible. Contractor’s failure to submit a Claim Update or to quantify costs every month shall result in waiver of the Dispute for that month-long period. Claim Updates stating that damages, total damages (direct and indirect), schedule impact and/or any time extension will be determined at a later date shall not comply with this subparagraph and shall result in Contractor waiving its claim(s) for damage(s) of any kind or nature during the period covered by the non-compliant Claim Update.

9.3.18 Claim Log. Contractor shall maintain a continuing “Claims Log” that shall list all outstanding Claims and their value and status, and provide such log to Owner monthly as a condition of its monthly payment application when such is due. Such log shall be deemed Contractor’s representation of any and all Claims then outstanding. Any Claim that Contractor fails to include on the Claims Log shall be deemed either waived and/or abandoned.

9.3.19 Each party shall bear their own costs of any kind or nature, including but not limited to attorneys’ fees, incurred in relation to the filing or otherwise seeking relief for a Claim made pursuant to Public Contract Code Section 9204.

9.4 INTERPRETATION AND EXECUTION.

9.4.1 Timely compliance with the procedures in this Article 9 for (1) Notice of Dispute and (2) Claim, which is then subject to the procedures in Public Contract Code Section 9204, constitutes a mandatory administrative remedy that Contractor must diligently pursue and exhaust. Failure to timely pursue any administrative remedy shall be deemed a waiver of additional proceedings including legal action. Compliance is mandatory and is a precondition to Contractor’s right to bring a legal action against Owner.

9.4.2 This Article 9 shall not be interpreted to supersede or limit any and all Contract notification procedures, procedures within the Contract Documents for administration of the Work, including but not limited to, procedures regarding changes to the Contract Documents, changes from conditions indicated in the Contract Documents, changes in the Contract Times, liquidated damages, differing site conditions and utility conflicts, testing and inspections, quality control completion and close out of the Contract. Rather, Contractor shall diligently pursue and comply with all such contract procedures.

9.4.3 Notwithstanding the pendency of contract administration procedures or disputes procedures set forth herein, Contractor shall at all times prosecute the Work in accordance with the Contract Documents as determined and directed by Owner. Contractor’s sole and exclusive remedy for Disputes and Claims shall be the procedures of this Article 9.

9.4.4 In any dispute resolution proceeding arising from the Contract Documents, including formal or informal proceedings for resolution of Disputes and/or Claims, the disputes shall be resolved by looking first to the terms of the Contract Documents. Only when the answer to the Dispute and/or Claim is not found in the Contract Documents, may the dispute be answered by reference to the more general prevailing laws. It is the intent of this provision to formalize the right of the parties, at all times, to rely on the terms of the Contract Documents.

9.4.5 Contractor shall consult with its own legal counsel regarding the requirements of the California Government Code and the California Public Contract Code and shall not request or purport to rely on legal interpretations from the Owner regarding these codes.

9.4.6 The time requirements set forth in this Document are subject to extension, in Owner’s sole discretion. No other feature or requirement of the Disputes and Claims procedures herein (and its Disputes and Claims waiver feature), may be waived or altered absent a written Change Order signed by both parties and approved as to form and legality by the Office of the County Counsel and as to form by legal counsel for the Contractor.
.1 All Contractor requests for an extension of time shall be made in advance of time periods expiring. If Contractor requests an extension of the time period to file the Notice of Dispute, then Contractor’s written request must include Contractor’s certification that Contractor has complied with all notification procedures under the contract that may apply (e.g., differing site conditions, time extension, change order requests), pursuant to which Contractor will provide Owner with contemporaneous notification of the work and cost that is equivalent to or exceeds the information required under this Document 00 73 83. Owner may not grant an extension without this certification.

9.5 SETTLEMENT EFFORTS AND MEDIATION

9.5.1 Mediation hereunder shall be subject to all confidentiality requirements of the California Evidence Code and mediation and settlement efforts shall be and remain confidential.

9.5.2 Any mediators appointed hereunder to mediate a Claim shall be limited in their scope to the Claim for which mediation is demanded.

9.5.3 Owner shall not be deemed to waive or alter any provision under this Document 00 73 83, if at Owner’s sole discretion, a Claim is administered in a manner not in accord with this Document 00 73 83. Under no circumstance may settlement negotiations or actions taken towards settlement of disputes or claims by either party be asserted as a waiver or impairment of rights, duties or obligations under the Contract Documents, including without limitation, the requirements of this Document 00 73 83. Owner may at all times assert and enforce all terms of this Document 00 73 83.

9.6 RESOLUTION OF CONTRACT CLAIMS

9.6.1 Upon failure of mediation under Public Contract Code Section 9204 or other statutory authority, in the Owner’s sole discretion, the parties shall use the Judicial Reference procedure as set forth b

9.6.2 The referee shall be a retired California state court judge. The parties shall not seek to appoint a referee that may be disqualified pursuant to California Code of Civil Procedure Section 641 or 641.2 without the prior written consent of both parties.

9.6.3 If the Parties are unable to agree to a referee within ten (10) calendar days, then the referee will be selected by the court in accordance with California Code of Civil Procedure Section 640(b).

9.6.4 The referee shall conduct the proceedings in accordance with the California Code of Civil Procedure, the State of California and Santa Clara County Rules of Court, and California Evidence Code, except as specifically agreed to by the Parties and approved by the referee.

9.6.5 The referee’s decision shall be decided under and in accordance with the law of the State of California, supported by substantial evidence and, in writing, contain the basis for the decision, findings of fact, and conclusions of law.

9.6.6 The decision of the referee shall be entered as a judgment in the court in accordance with the provisions of the California Code of Civil Procedure Sections 644 and 645. The decision of the referee shall be appealable to the same extent and in the same manner that such decision would be appealable if rendered by a judge of the superior court.

9.6.7 Costs of conducting Judicial Reference Proceeding.

.1 The cost of conducting a judicial reference proceeding shall be borne equally by the parties. The filing fee, witness fees, costs of discovery, or any other cost necessarily incurred by one party shall not be shared by any other party, except that the referee may allow the prevailing party to recover its costs and necessary disbursements, except attorneys’ fees, on the same basis as is allowed in civil actions. These costs
shall be taxed as in civil actions.

9.6.8 No party to this Agreement may recover its attorneys’ fees from the other.

9.7 ADDITIONAL PUBLIC CONTRACT CODE REQUIREMENTS

9.7.1 The provisions of Public Contract Code Section 20104 et seq. relating to the resolution of construction claims of three hundred seventy-five thousand dollars ($375,000.00) or less which arise between a contractor and a local agency are incorporated here by this reference.

END ARTICLE 9
ARTICLE 10 — PROTECTION OF PERSONS AND PROPERTY

10.4 SAFETY PROVISIONS

10.4.1 Contractor is solely and completely responsible for conditions of the job site, including safety of all persons and property during performance of work. This requirement applies continuously and is not limited to Normal Hours Of Work. No act, service, drawing or construction review, acceptance or other act by Owner, Inspector, Consultant or any other representative of Owner is intended to include review of the adequacy of Contractor’s safety measures at or near the Project Site, at any place of Fabrication, or anywhere else.

10.4.2 Contractor must take all necessary precautions on the Work for the safety of its workers, of Owner’s employees and the public, and must comply with all applicable Federal, State, and local safety laws and codes to prevent accidents or injury to persons on, about, or adjacent to where the Work is being performed.

10.4.3 Contractor must erect and properly maintain at all times, as required by the conditions and progress of the Work, all appropriate safeguards for the protection of workers and the public, and post danger signs warning against construction hazards, such as fire, toxics, pesticides, chemicals, odors, noise, vibration, equipment operations, obstructions, falling objects, falls and all other construction related hazards.

10.4.4 Contractor must designate a responsible member of its organization who will be present on the Project Site and who has the duty for prevention of accidents. Prior to starting Work, Contractor must submit a letter to the Owner providing the name and position of the person so designated.

10.5 CONFINED SPACE ENTRY PROGRAM

10.5.1 Contractor must comply with all State and Federal OSHA requirements, and all of Owner’s requirements regarding entry into confined spaces including but not limited to the following:

1. Before starting any Work, submit for Owners review and acceptance four (4) copies of a Confined Space Entry Program applying to all existing permit-required confined spaces identified by Owner in the Contract Documents, or defined by regulations, and any confined spaces identified or created by Contractor or Owner during the Job Order Completion Time. Owner has the right to identify additional spaces to be treated as confined spaces by Contractor at any time during the Job Order Completion Time, without changing the Job Order Price or Job Order Completion Time if such additional spaces were created by Contractor.

2. Maintain written records of all entries into confined spaces and all activities conducted in confined spaces.

3. Coordinate all entry operations with Owner when both Contractor’s personnel and Owner’s personnel will be working in or near a confined space in the Project area. Owner will endeavor to give Contractor at least twenty-four (24) hours advance notice of such entry except in unforeseen situations and emergencies.

4. Inform Owner in writing at the conclusion of entry operations regarding the permit space program followed and any hazards confronted or created in permit spaces during entry operations.

10.6 PUBLIC SAFETY AND CONVENIENCE

10.6.1 Contractor must provide for the safety of the public during construction and conduct its operations to minimize the amount of work posing potential hazards to the public.

10.6.2 Contractor must pave pedestrian openings through falsework or Provide full width continuous wood walks, and keep all walkways clear. Contractor must protect pedestrians
from falling objects and water runoff. Overhead protection for pedestrians must extend not less than four (4) feet beyond the edge of a structure.

10.6.3 Contractor's equipment must enter and leave the Project area via access routes designated or accepted in writing by Owner, and move in the direction of public traffic at all times. All movements on or across public traveled ways must not endanger public traffic.

10.6.4 Contractor must immediately remove any spillage, debris, dirt, or mud resulting from hauling operations along or across any public traveled way.

10.6.5 Contractor must minimize inconvenience or obstruction to the public. When Contractor's operations create a condition hazardous to the public, Contractor must furnish, erect, and maintain such Temporary Fencing, barricades, lights, signs, and other devices as are necessary for direction of the public or to avoid accidents, damage, or injury to the public. Contractor must furnish such flagmen and guards as are necessary to direct the public or to give adequate warning of any hazardous conditions.

10.7 PROTECTION AND RESTORATION OF PROPERTY

10.7.1 California Civil Code §832 provides requirements relating to notification of adjacent property owners (30 Day notification required) and protection of adjacent property when performing excavation that may adversely impact the lateral and subjacent support to adjoining land or structures. In addition to these requirements and any other requirements imposed by law, Contractor must shore up, brace, underpin, and protect as may be necessary, all foundations and other parts of all existing structures adjacent to and adjoining the site of the Work which are in any way affected by the excavations or other operations connected with the Work pursuant to this Contract. Whenever any notice is required to be furnished by Owner or Contractor to any adjoining or adjacent landowner or other party before commencement of any Work pursuant to this Contract, Contractor must provide such notice. Contractor must indemnify and hold Owner harmless from any damages for which Owner may become liable in consequence of such injury or damage to adjoining or adjacent structures and premises.

10.7.2 Contractor must immediately repair any damage, arising from or in consequence of the performance of the Contract, to improvements or property, whether above or below the ground, private or public, within or adjacent to the Project. If, in Owner's opinion, Owner's best interests require such repair to be made before execution of any part of the Work included in this Contract, Owner will so notify Contractor who will delay or discontinue the performance of that part of the Work until the necessary repair has been made. Such delay shall not be considered unavoidable, and no extension of the Job Order Completion Time shall be allowed.

10.7.3 When Ordered by Owner to make any such repair, Contractor must start work thereon within four (4) hours and must prosecute the same with diligence to completion. Upon Contractor's failure to comply with such Order, or upon Contractor's failure to make immediate Emergency repairs which are necessary in the best interests of Owner or the public, Owner may cause such repairs to be made and deduct the costs thereof from any money due, or that may become due Contractor.

10.7.4 In an Emergency affecting the safety of life or property, including adjoining property, Contractor is authorized to act at its discretion, without special instructions or authorization from Owner, to prevent such threatened loss or injury, and Contractor must act whether or not instructed by Owner. Contractor must maintain adequate protection against damage to life and property involved in Project and on property adjacent thereto until Acceptance and must Provide all necessary guards, barricades, night lights, facilities, tools, equipment, materials and other needed or required protective devices.
10.7.5 Contractor will until Acceptance maintain adequate protection of all its Work and work performed by others pursuant to the Contract Documents from damage, loss, or defacement. Contractor must repair or replace any such damage and remove any damaged or defaced material or equipment from the premises at no extra cost to Owner except as may be due directly to errors in the Contract Documents or caused by Owner.

10.7.6 The Contractor must ensure the limits of Work to be free of graffiti or other similar defacements during the entire Job Order Completion Time; if such defacement occurs, the Contractor must promptly remove, repair, or correct the affected area(s). The Contractor must protect all exposed finished surfaces within the limits of Work (both temporary and final), with anti-graffiti coatings, and maintain such protection continuously during the entire Job Order Completion Time.

10.8 PRESERVATION OF CULTURAL RESOURCES

10.8.1 Pursuant to the National Historic Preservation Act of 1966, State laws and County ordinances, the following procedures are implemented to ensure historic preservation and fair compensation to Contractor for construction delays that may occur due to cultural resources discoveries.

10.8.2 In the event potentially historical, architectural, archaeological or cultural resources (hereinafter "resources") are discovered during subsurface excavations at the Project Site, the following procedures apply:

10.8.3 Owner will issue a "Cultural Resources – Suspend Work Order" Directing Contractor to temporarily suspend all operations at the location of such potential resources.

10.8.4 Such "Cultural Resources – Suspend Work Order" will be effective until such time as a qualified Consultant can assess the value of such resources and make recommendations. Any "Cultural Resources – Suspend Work Order" will contain the following:

.1 A description of the potential resource, its location, and the area where Contractor's Work is suspended;

.2 A description of what part or all of Contractor's Work is suspended;

.3 Instructions regarding suspension of orders by Contractor for materials and services;

.4 Guidance regarding action to be taken by Subcontractors;

.5 Estimated duration of the temporary suspension.

10.8.5 If the Consultant determines that the potential find is indeed a cultural resource, Owner will, as expeditiously as possible, advise Contractor in writing of the action to be taken regarding the find, and the anticipated time frame and extent of any Work suspension.

10.8.6 Adjustment of Contract Time and Contract Sum

.1 If, in the Notice to Bidders, the Work site was deemed "Archaeologically Sensitive", then the Job Order Completion Time(s) includes four (4) weeks of temporary suspension for cultural resources finds and there will be no payment for such suspension or any inefficiencies related thereto, up to a maximum cumulative duration of four (4) weeks delay to the Critical Path(s) of the Official Progress Schedule. If such suspension occurs, the first four (4) weeks of the Critical Path delay will be treated as an **excusable non-compensable delay** and the Job Order Completion Time will be extended in accordance with Document 00700.7.6, "Delay and Time Extensions."

.2 If a cultural discovery at an Archaeologically Sensitive site results in a cumulative Critical Path delay that exceeds four (4) weeks, then Contractor will be entitled to an adjustment for the Critical Path delay in excess of four (4) weeks by the issuance of a Supplemental Job Order. The Critical Path delay in excess of four (4) weeks will be treated as an **excusable compensable delay** and the Job Order Completion Time
will be extended in accordance with Document 00700.7.6, “Delay and Time Extensions.”

.3 If a cultural resource discovery was unforeseen (i.e. if the Work site was not deemed "Archaeologically Sensitive" in the Notice to Bidders), Contractor may be entitled to an adjustment by Supplemental Job Order in accordance with Document 00700.7.6, “Delay and Time Extensions.”

.4 If, as a result of a temporary suspension, Owner agrees that Contractor sustains a loss which could not have been avoided by judicious handling of its forces or equipment, or by redirection of forces or equipment to perform other Work on the Contract, Contractor will be paid for idle time of equipment and labor by Force Account as provided in Document 00700.6.8, “Force Account Work.”

10.8.7 Documentation

.1 Beginning with the first Day of suspension, and for each following Day, Contractor must maintain detailed hourly records of the labor and equipment idled by such suspension, plus substantiation as to why such labor and equipment could not be used on other parts of the Work if such were the case. Such records must be of a form acceptable to Owner, signed by Contractor, and are subject to verification by Owner.

.2 Failure by Contractor to furnish the aforesaid records constitutes a waiver of Contractor's right to an adjustment in the Job Order Price.

END ARTICLE 10
ARTICLE 11 — INDEMNIFICATION AND INSURANCE

11.1 EXHIBIT B-1

11.1.1 Indemnification and Insurance requirements are set forth in Exhibit B-1, “INSURANCE REQUIREMENTS FOR CONSTRUCTION CONTRACTS.”

11.1.2 Exhibit B-1 is incorporated herein as though set forth in full.

11.1.3 Exhibit B-1 is located in Document 00850, “Indemnification and Insurance Requirements (Exhibit B-1)”

11.1.4 Contractor will be required to mail or fax all insurance documents evidencing coverage as required by 11.1.1 to the County of Santa Clara’s Insurance Tracking company.

Mail certificates to:
County of Santa Clara
Insurance Compliance
P.O. Box 100085-ZB
Duluth, GA 30096

Fax certificates to (517) 647-7900

END ARTICLE 11
ARTICLE 12 — UNCOVERING AND CORRECTION OF WORK

12.1 GENERAL

12.1.1 The Contractor must notify the Owner two (2) days prior to covering any Work.

12.1.2 If a portion of the Work is covered prior to Owner’s review, it must, if requested in writing by the Owner, be uncovered for Owner observation and replaced at the Contractor’s expense without change in the Job Order Completion Time.

12.2 CORRECTION OF WORK

12.2.1 The Contractor must promptly correct Work rejected by Owner or Work failing to conform to the requirements of the Contract Documents, whether or not Fabricated, Installed or completed. The Contractor bears the costs of correcting such rejected Work, including additional testing and inspections required and compensation for Owner services and expenses made necessary thereby. Contractor must submit three (3) copies of a Corrective Action Plan to the Owner by 10 a.m. of the third workday following receipt of a notice of non-conformance from the Owner.

12.2.2 Notwithstanding Document 00700 - Sub-Part 12.2.1, in the event of an Emergency constituting an immediate hazard to the health or safety of Owner’s employees, agents, representatives, property, or licensees, Owner may undertake, at the Contractor’s expense and without prior notice, all work necessary to correct such hazardous condition(s) when it was caused by work of the Contractor not being in accordance with requirements of the Contract Documents.

12.2.3 The Contractor must remove from the Project Site portions of the Work that are not in accordance with the requirements of the Contract Documents, and are neither corrected by the Contractor nor accepted by the Owner.

12.2.4 If the Contractor fails to correct nonconforming Work, as per Document 00700 - Sub-Part 12.2.1, or fails to remove nonconforming work, as per Document 00700 - Sub-Part 12.2.3, Owner may correct or remove the nonconforming Work per Document 00700 - Sub-Part 12.2.5.

12.2.5 If the Contractor does not submit a Corrective Action Plan or proceed with correction or removal of nonconforming Work, within such time fixed by the Contract Documents or written notice from Owner, Owner may remove and store the salvable materials, articles and/or equipment at the Contractor's expense. If the Contractor does not pay all costs of such removal and storage within 14 Days after written notice, Owner may, upon 14 additional Days written notice, sell such materials articles and/or equipment at an auction or private sale, and shall account for the proceeds thereof, after deducting costs and damages that would have been borne by the Contractor, including compensation for Owner services and expenses made necessary thereby. If the proceeds of a sale do not cover all costs that the Contractor would have borne, the Job Order Price will be reduced by the deficiency. If payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor must pay the difference to Owner.

12.2.6 The Contractor bears the cost of correcting destroyed or damaged Work, which is caused by the Contractor’s correction, or removal of Work that is not in accordance with requirements of the Contract Documents, including work performed by Owner or separate contractors that is damaged or destroyed by the Contractor during the Job Order Completion Time or Guarantee period.

12.2.7 Nothing contained in this Document 00700.12.2, “Correction of the Work”, establishes a period of limitation with respect to other obligations that the Contractor might have in the Contract Documents. Establishment of the Warranty/Guarantee period(s), as described in Document 00700.13.11, “Warranties & Guarantees”, relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the
obligation to comply with requirements of the Contract Documents may be sought to be
enforced, nor to the time within which proceedings may be commenced to establish the
Contractor's liability with respect to the Contractor's obligations other than specifically to
correct the Work.

12.3 ACCEPTANCE OF NONCONFORMING WORK

12.3.1 If Owner prefers to accept any or all of the Work that is not in accordance with
requirements of the Contract Documents, Owner may do so instead of requiring its
correction and/or removal, in which case the Job Order Price will be reduced as
appropriate and equitable. Such adjustment shall be effected whether or not Final
Payment to the Contractor has been made.

END ARTICLE 12
ARTICLE 13 — FINAL COMPLETION AND ACCEPTANCE

13.1 USE BEFORE ACCEPTANCE

13.1.1 Owner has the right to utilize or place into service any item of equipment or other usable portion of the Work before Acceptance of the entire Project. Whenever Owner plans to exercise said right, Owner will notify Contractor in writing, identifying the specific portion or portions of the Work to be so utilized or otherwise placed into service, hereinafter referred to as "Use Before Acceptance".

13.1.2 Until Owner issues such written notification, Contractor is responsible for all care and maintenance of all items or portions of the Work.

13.1.3 Upon Owner's issuance of written notice of Use Before Acceptance, Owner accepts responsibility for the protection and maintenance of all such items or portions of the Work described in the written notice, excepting any injury or damage resulting from Contractor's actions or negligence.

13.1.4 If, by reason of Owner's Use Before Acceptance, the premium for the Contractor's bodily injury and property damage insurance is increased, Owner will reimburse the Contractor for the additional amount necessarily incurred, allocable to the area and the period of Owner's occupancy, up to the Date of Acceptance of the Work.

13.1.5 Owner's Use Before Acceptance does not constitute Acceptance of the Work, or any portion of the Work, by Owner, nor will it relieve the Contractor of responsibility for correcting defective and/or Deficient Work or materials found at any time before Acceptance of the Work or during the Guarantee period after Owner's Acceptance. However, when the Project includes separate buildings, and one or more of the buildings is entirely occupied by Owner, then upon written request by the Contractor and by written consent from Owner, the Guarantee period on the building entirely occupied by Owner will commence to run from the date of Owner occupancy of such building or buildings.

13.1.6 Notwithstanding any Use Before Acceptance, Contractor retains full responsibility for fulfillment of all the requirements of the Contract Documents.

13.2 RESERVED

13.3 CONTRACTOR’S CERTIFICATION THAT ALL WORK OF THE PROJECT IS COMPLETE

13.3.1 When all Work is complete and after the Contractor has performed the final cleaning, Contractor must so certify to Owner's Project Manager and request a Preliminary Walk-Through Inspection.

13.4 PRELIMINARY WALK-THROUGH INSPECTION

13.4.1 Within seven (7) Days of receipt of Contractor's certification that all Work is complete, Owner's Project Inspector will make a Preliminary Walk-Through Inspection with Contractor to verify that the Project is complete and ready for Final Inspection.

13.4.2 If Owner's Project Manager determines that the Work is not complete, Contractor will be notified in writing. Contractor must complete the Work and re-initiate procedures for another Preliminary Walk-Through Inspection. At Owner's discretion, any costs to Owner for additional Preliminary Walk-through Inspections may be charged to the Contractor.

13.5 FINAL INSPECTION

13.5.1 The Final Inspection will occur within seven (7) Days of the Contractor's certification of final completion if the Owner’s Project Manager agrees with the Contractor’s certification.

13.5.2 If Owner’s Project Manager determines the completed Work is deficient, Contractor will be furnished with a Punchlist identifying the observed deficiencies in the completed Work. After all deficiencies have been corrected, Contractor must initiate procedures for another
Final Inspection. If Contractor requests more than two (2) Final Inspections, at Owner’s discretion, any costs to Owner for additional Final Inspections may be charged to the Contractor.

13.5.3 Contractor’s Progress Schedule must include activities for Final Inspection.

13.6 RECOMMENDATION FOR ACCEPTANCE

13.6.1 After Final Inspection, the Owner’s Authorized Representative will recommend that the Owner formally Accept the Work if the Contractor has satisfactorily:

.1 Corrected all deficiencies observed during the Final Inspection and no new deficiencies have been observed

.2 Submitted Record Documents (As-Builts)

.3 Submitted copies of all documents required by Document 00700.3.14, “Disposal of Materials Outside Project Area” and Document 00700.3.15, “Hazardous Materials”

.4 Submitted two (2) copies of satisfactory evidence to Owner that all payrolls, material bills and other indebtedness connected with said Work have been paid

.5 Submitted all other required contract deliverables.

13.7 ACCEPTANCE OF THE WORK

13.7.1 After the Owner’s formal Acceptance of the Work, the Owner will record a Notice of Completion.

13.7.2 Owner’s Acceptance establishes conformity with the Contract except for delays in completion, latent defects, fraud, or such gross errors as amount to fraud, willful misconduct, or gross negligence, and subject to any Guarantee and Warranty, express or implied.

13.7.3 Determinations by Owner’s Authorized Representative that the Work is complete or Acceptance evidenced by a recorded Notice of Completion does not bar any action by the Owner against the Contractor pursuant to Document 00700.13.11, “Warranties & Guarantees”

13.8 FINAL PAYMENT

13.8.1 Provided that Owner has recorded a Notice of Completion, thirty-five (35) Days after the date of recording of the Notice of Completion by the County Recorder, Owner’s Project Manager will forward a request for Final Payment for the Work done pursuant to the Contract to the County Controller for payment. Owner will withhold from Final Payment such amounts that are in Dispute between Owner and Contractor, amounts subject to offset/setoff, and all other amounts that must be withheld by law (such as Stop Notice sums.)

13.8.2 All estimates and payments made, including the final estimate and payment, are subject to correction and adjustment for clerical errors in the calculations involved in the determination of quantities and payments. Contractor and Owner agree to pay to the other any sum hereby due.

13.9 CONTRACTOR’S DUTIES AND RESPONSIBILITIES AFTER ACCEPTANCE

13.9.1 After Acceptance of the Work by the Board of Supervisors, Contractor is relieved of the duty of maintaining and protecting the entire Work, and Contractor is not required to perform any further Work thereon, except as otherwise required by law or the Contract Documents.

13.9.2 Contractor is relieved of responsibility for injury to persons or property or damage to the Work that occurs after Owner’s Acceptance, provided that such injury/damage is not in any way caused by Contractor.
13.9.3 Owner's Acceptance does not relieve Contractor of responsibility for faulty materials or workmanship or of complying with the requirements of Warranties and Guarantees.

13.10 RETENTION PROCEEDS, WITHHOLDING AND DISBURSEMENT

13.10.1 Pursuant to California Public Contract Code §7107, within sixty (60) Days after the date of “completion” of a Job Order, the retention withheld by Owner shall be released, subject to all withholds required and authorized by law including Stop Notice claims and Liquidated Damages (pursuant to California Government Code §53069.85). In the event of a Dispute between Owner and Contractor, Owner may withhold from the Final Payment an amount not to exceed one hundred fifty percent (150%) of the Disputed amount.

13.10.2 For purposes of release of retention, “completion” means any of the following:

.1 The occupation, beneficial use, and enjoyment of the entire Work, accompanied by cessation of labor on the work of improvement.

.2 The Acceptance by Owner of the Work.

.3 After the commencement of Work, a cessation of labor on the Work for a continuous period of one-hundred (100) Days or more, due to factors beyond Contractor's control.

.4 After the commencement of Work, a cessation of labor on the Work for a continuous period of thirty (30) Days or more, if Owner records a Notice Of Cessation or a Notice Of Completion with the County Recorder.

13.10.3 Subject to Document 00700 - Sub-Part 13.10.4 below, within seven (7) Days from the time that all or any portion of the retention proceeds are received by Contractor, Contractor must pay each of its Subcontractors from whom retention has been withheld, each Subcontractor's share of the retention received. However, if a retention payment received by Contractor is specifically designated for a particular Subcontractor, payment of the retention shall be made to the designated Subcontractor, if the payment is consistent with the terms of the Subcontract. [public contract code §7107(d)]

13.10.4 Contractor may withhold from a Subcontractor its portion of the retention proceeds if a bona fide dispute exists between the Subcontractor and Contractor. The amount withheld from the retention payment shall not exceed one hundred fifty percent (150%) of the estimated value of the disputed amount.

13.10.5 In the event that retention payments are not made within the time periods required by Public Contract Code §7107, Owner and Contractor withholding the unpaid amounts shall be subject to a charge of two percent (2%) per month on the improperly withheld amount, in lieu of any interest otherwise due. Additionally, in any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to attorney's fees and costs.

13.11 WARRANTIES & GUARANTEES

13.11.1 Neither the final Acceptance, nor payment, nor any provision in the Contract Documents relieves Contractor of responsibility for faulty materials or workmanship.

13.11.2 Contractor must Guarantee all workmanship and materials for a period of one year, or as specified in the Contract Documents, from and after the Date of Acceptance of the Work by Owner. Contractor may also be required to furnish a written Guarantee covering all or certain items of Work for varying periods of time from the Date of Acceptance of the Contract. The Work to be Guaranteed, the form, and the time limit of the Guarantee will be specified in the Contract Documents. Said Guarantee must be signed and submitted to Owner before Acceptance of the Work.

13.11.3 The Guarantee period begins at the Date of Acceptance. Contractor must repair or replace all defective Work, together with any other Work affected by the repair or replacement during said Guarantee period without expense whatsoever to Owner.
13.11.4 The aforesaid one-year Warranty/Guarantee period does not in any way limit or waive Owner's rights to legal recourse for latent construction defects, pursuant to California Civil Code of Procedure §337.15 nor for patent construction defects pursuant to §337.1.

13.11.5 Approximately ninety (90) Days before completion of the entire Work of the Project, Contractor must meet with Owner regarding Warranty/Guarantee requirements. Owner will establish communication procedures for notifying Contractor of Warranty defects, priorities regarding the type of defect, time required for Contractor response, and other details deemed necessary by Owner for execution of the Warranty/Guarantee.

13.11.6 In the event of Contractor's failure to comply with the requirements of any Warranty/Guarantee required by the Contract Documents within three (3) calendar Days after being notified in writing, Owner may proceed to have the defects repaired and made good at the expense of Contractor who must pay all costs and charges immediately upon demand.

13.12 RESERVED

END ARTICLE 13
ARTICLE 14 — MISCELLANEOUS PROVISIONS

14.1 CONTRACTOR'S USE OF COMPUTER SOFTWARE

14.1.1 The Owner selected The Gordian Group’s Job Order Contracting (JOC) system for the execution of the JOC program. The Gordian JOC system includes The Gordian Group’s proprietary eGordian® JOC information management applications, construction cost data and Construction Task Catalog® (collectively “Proprietary Information”), which shall be used by the Contractor to prepare and submit Job Order Proposals, subcontractor lists, and other requirements specified in the general conditions and as may be requested by the Owner. The Contractor shall be required to execute Gordian’s JOC System License and User Agreement, and shall pay a 1% JOC System License Fee on all work awarded to the JOC contractor by the Owner for access to the Gordian JOC system and Proprietary Information.

.1 Gordian hereby grants to the Contractor, and the Contractor hereby accepts from Gordian for the term of this Contract or Gordian’s Contract with the Owner, whichever is shorter, a non exclusive right, privilege, and license to Gordian’s proprietary JOC System and related proprietary materials (collectively referred to as “Proprietary Information”) to be used for the sole purpose of executing Contractor’s responsibilities to the Owner under this Contract. The Contractor hereby agrees that Proprietary Information shall include, but is not limited to, Gordian’s JOC Applications and support documentation, Construction Task Catalog®, training materials and other Gordian provided proprietary materials. In the event this Contract expires or terminates as provided herein, or Gordian’s Contract with the Owner expires or terminates, this JOC System License shall terminate and the Contractor shall return all Proprietary Information in its possession to Gordian.

.2 Gordian may terminate this License Agreement in the event of: (1) any breach of a material term of this Agreement by the Contractor which is not remedied within ten (10) days after written notice to the breaching party; or (2) the other party’s making an assignment for the benefit of its creditors, or the filing by or against such party of a petition under any bankruptcy or insolvency law, which is not discharged within thirty (30) days of such filing.

.3 The Contractor acknowledges that disclosure of Proprietary Information will result in irreparable harm to Gordian for which monetary damages would be an inadequate remedy and agrees that no such disclosure shall be made to anyone without first receiving the written consent of Gordian. The Contractor further acknowledges and agrees to respect the copyrights, registrations, trade secrets, and other proprietary rights of Gordian in the Proprietary Information during and after the term of this Contract and shall at all times maintain complete confidentiality with regard to the Proprietary Information provided to the Contractor.

.4 In the event of a conflict in terms and conditions between this JOC System License and any other terms and conditions of this Contract or any Job Order, Purchase Order or similar purchasing document issued to the Contractor by the Owner, this JOC System License shall take precedence.

14.2 RIGHTS IN LAND AND IMPROVEMENTS

14.2.1 Nothing in the Contract shall be construed as allowing Contractor to make any arrangements with any person to permit occupancy or use of any land, structure, or building within the physical limits of the Project for any purpose whatsoever, either with or without compensation, nor act in conflict with any agreement between Owner and any owner, former owner, or tenant of such land, structure, or building.
14.2.2 Contractor must not occupy Owner's property outside the Project limits as shown on the Plans or on maps available in Owner's offices, unless Contractor enters into a written agreement with Owner.

SUPPLEMENTAL GENERAL CONDITIONS

Table of Articles

1. General........................................................................................................................................... 2
2. Administration of the Contract........................................................................................................4

END OF TABLE OF ARTICLES
General
The following Supplemental General Conditions contain additions, changes, and deletions that supersede the General Conditions and apply only to the Job Order Contract.

ARTICLE 1 – GENERAL PROVISIONS

1.1 ABBREVIATIONS:
The following will be added to Section 1.1 ABBREVIATIONS:

1.1.1 JOC – Job Order Contract
1.1.2 JO – Job Order
1.1.3 DSW – Detailed Scope of Work
1.1.4 RFJP – Request for Job Order Proposal
1.1.5 CTC – Construction Task Catalog
1.1.6 NPP – Non-Prepriced

1.2 DEFINITIONS:
The Following Changes and Additions revise to Section 1.2 DEFINITIONS:

1.2.1 Adjustment Factor: The Contractor’s competitively bid price adjustment to the Unit Prices as published in the Construction Task Catalog. Contractors must bid four Adjustment Factors, one set for work to be accomplished during Normal Working and Other than Normal Working Hours for Non-Secured Facilities and one set for Normal Working and Other than Normal Working Hours for Secured Facilities. All Adjustment Factors are expressed as a multiplicative increase or decrease from the published prices in the Construction Task Catalog.

1.2.2 Award Criteria Figure: The composite Adjustment Factor, used to determine the low bid, as determined on the basis of the Award Criteria Figure Formula provided in the Bid Form.

1.2.3 Construction Task Catalog: A comprehensive listing of construction related specific repair or refurbishment tasks together with a specific unit of measurement and a Unit Price. (Also referred to as the ‘CTC’.)

1.2.4 Detention Facilities Adjustment Factors: Adjustment Factors that apply when Job Order Work is performed within a secured area of the Department of Corrections Main Jail North/South, Elmwood Correctional Facility, and Juvenile Probation and Juvenile Hall.

1.2.5 Detailed Scope of Work: The complete description of services to be provided by the Contractor pursuant to an individual Job Order. The Detailed Scope of Work will include documentation for a given project. Documentation may include a narrative description of the Work, partial design documents, or full design documents, depending on the complexity of the specific project. (Also referred to as ‘DSW’.)

1.2.6 General Facilities Adjustment Factors: Adjustment Factors that apply when Job Order Work is performed in all locations other than those defined by Detention Facilities Adjustment Factors.

1.2.7 Job Order: A document signed by the County that describes Work to be accomplished. The County has sole discretion to determine the number and scope of Job Orders issued. Each Job Order will include a Detailed Scope of Work, a firm fixed price, a time duration for the completion of the Work and any
special conditions that might apply to that specific Job Order, such as Liquidated Damages. (Also referred to as ‘Project’).

1.2.8 **Job Order Price Proposal:** A price proposal prepared by the Contractor that includes the Pre-priced Tasks, Non Pre-priced Tasks, quantities and appropriate Adjustment Factors required to complete the Detailed Scope of Work.

1.2.9 **Job Order Proposal:** The documents prepared by the Contractor stating a firm fixed price to perform a specific Detailed Scope of Work. The Job Order Proposal includes shop drawings and sketches, permits and submittals as necessary, a detailed Job Order Price Proposal comprised of line items from the Construction Task Catalog®, supporting documentation for any Non Pre-priced items, a construction schedule, a list of subcontractors, and other documentation as may be required by the County prior to the issuance of a Job Order. (Also referred to as Proposal).

1.2.10 **Job Order Plans:** The graphic and pictorial portions of the Job Order as defined in the Detailed Scope of Work, illustrating the design, character, location, and dimensions of the Work to be performed, generally including but not limited to, elevations, sections, details, schedules, General Notes, specific notes, and diagrams. Synonymous with “Drawings”, “Contract Drawings”, and “Plans”.

1.2.11 **Job Order (Task) Specifications:** Description of the manner of performing the Work, the quantities, qualities and types of materials to be furnished.

1.2.12 **Joint Scope Meeting:** Meeting at the project site attended by the County and the Contractor to jointly scope the Work before the Detailed Scope of Work is finalized.

1.2.13 **Non-Prepriced Tasks:** Units of Work that are not included in the Construction Task Catalog but which are within the general scope and intent of this Contract. (Also referred to as ‘NPP’).

1.2.14 **Normal Working Hours:** Standard Shift Work between the Hours of Work between 6:00 AM and 6:00 PM, Monday thru Friday.

1.2.15 **Other than Normal Working Hours:** Hours outside Normal Working Hours including all day Saturday, Sunday and County Holidays.

1.2.16 **Pre-priced Task** - A task described in, and for which a Unit Price is set forth in, the Construction Task Catalog®.

1.2.17 **Request for Job Order Proposal:** The County’s formal request for the Contractor to provide a Job Order Proposal for the Detailed Scope of Work referenced therein. (Also referred to as ‘RFJP’).

1.2.18 **Supplemental Job Order:** A written agreement entered into after the award of the initial Job Order that alters or amends the Job Order. Changes in the Work requested are accomplished by the issuance of a Supplemental Job Order. Changes involving extensions of Job Order Completion Time, and additive or deductive changes are accomplished by issuance of a Supplemental Job Order to the original Job Order.

1.2.19 **Task Specifications:** Description of the manner of performing the Work, the quantities, qualities and types of materials to be furnished.

1.2.20 **Unit Price:** The price published in the Construction Task Catalog® for a construction related specific repair or refurbishment task. The Unit Prices are fixed for the duration of the Contract. Each Unit Price is comprised of the Labor, Equipment and Materials costs to accomplish that specific task. Unit Prices for new Pre-priced Tasks can be established during the course of the Contract and
1.3 CONFLICTS IN THE CONTRACT DOCUMENTS

The following paragraph replaces Section 1.6.1 CONFLICTS IN THE CONTRACT DOCUMENTS:

The Contract Documents are intended to be complementary, and to describe and provide for a complete Work. The Following order of precedence governs the interpretation of the Contract Documents.

.1 Agreement
.2 Addenda (later takes precedence over earlier)
.3 Job Order (Including Detailed Scopes of Work and Requests for Proposal)
.4 Job Order plans
.5 Project Manual (IFB/RFP)
.6 Supplemental General Conditions
.7 Construction Task Catalog®
.8 The General Conditions and Requirements
.9 Technical Specifications
.10 Task Specifications

ARTICLE 2 — ADMINISTRATION OF THE CONTRACT

2.1 INFORMATION AND/OR SERVICES FURNISHED BY OWNER

The following paragraph is added as 2.2.3 to Section 2.2 INFORMATION AND/OR SERVICES FURNISHED BY OWNER:

County-furnished internet program will be provided to the Contractor for the posting of Job Order Scopes for subcontractors and the preparation of Job Order Price Proposals in response to County issued Request for Job Order Proposals. This program contains an electronic version (copy) of the Construction Task Catalog, which can be accessed on the Contractor’s computer system to locate and select desired items from the CTC. Once the desired items are selected, the software provides for selection of quantities and based on the selected quantities, extends and totals CTC costs for each Job Order price Proposal. The program permits introduction of Non-Prepriced Tasks and the application of the Adjustment Factors. The Program will also interface with the eGordian 'Tools for Contractors and Subcontractors' website. The installation and maintenance of the software is the responsibility of the County.
2.2 ADMINISTRATION OF THE CONTRACT

The following paragraphs are added to the end of Section 2.3 ADMINISTRATION OF THE CONTRACT:

2.3.1 All work is to be performed at Journeyman level for the trade required and as specified in the Job Order Contract Technical Specifications CSI 01 – 48 manuals found on the CD provided to the Contractor at the pre-bid meeting.

2.3.2 The scope of required Work will be determined by the Detailed Scopes of Work stated in each individual Job Order. All costs incurred with preparing Job Order Proposals are the sole responsibility of the Contractor.

2.3.3. Contractor will perform Work only as authorized by Job Orders issued by the County in accordance with the ‘Administration of Job Orders’. The Contractor must perform all Job Orders up to and including the Maximum Contract Value. The County must order at least the Minimum Contract Value.

2.3.4 The Contractor must provide all pricing, management, stamped or unstamped design drawings, shop drawings, documents, labor, materials, parts (to include system components), transportation, plant, supervision, and equipment needed to perform each Job Order. The Contractor must provide quality assurance as specified in strict accordance with the Contract.

2.3.5 In addition to the tasks and requirements stated in the Construction Task Catalog®, Technical Specifications CSI 01 through 48 and Task Specifications, the County may require Non Pre-priced Tasks incidental to work described in the Job Order. The parties will price these Non Pre-priced Tasks in accordance with the procedures set forth in the ‘Administration of Job Orders’.

2.3.6 Credits for Pre-priced and Non Pre-priced Tasks shall be calculated at the pre-set Unit Prices and multiplied by the appropriate Adjustment Factors. The result is that a credit for Tasks that have been deleted from the Detailed Scope of Work will be given at 100% of the value at which they were included in the original Job Order Price Proposal.

2.3.7 As Directed by the County the Contractor will provide incidental architectural or engineering design services in accordance with applicable State laws and the County’s insurance and indemnification requirements. All documents are subject to review and approval of the County. The County may require that design documents be prepared and provided in Computer Aided Design (CAD) format. Any cost for this work is included in the Contractor’s Adjustment Factor.

2.3.8 Each Job Order will be prepared under the direction of the County.

2.3.9 The Owner may award an individual Job Order to any selected Contractor. Selection of the Contractor and award of the Job Order will be in compliance with established Owner procedures and based on one or more of the following criteria:

1. Rotational selection among all Contractors, unless otherwise determined by the Owner.

2. Evaluation of past and current performance on Job Orders of a similar nature and type of work, project size, construction management challenges, schedule performance, design management requirements, etc.
3. Balancing of work load (Job Order dollar volume and construction backlog) among Contractors.
5. Price, as it relates to the Owner’s independent cost estimate
6. Contractor’s responsiveness to the Owner on Job Orders.
7. Other appropriate criteria as deemed in the best interest of the Owner.

2.1.10 County staff will notify the Contractor in writing of a Joint Scope Meeting to discuss a potential Job Order.

2.3.11 Prior to the Joint Scope Meeting, the County will provide the Contractor with all appropriate information and documentation, if any, pertaining to the potential Job Order. The Contractor and their primary trade(s) will participate in the Joint Scope Meeting and visit the proposed site with County staff. At the Joint Scope Meeting the following items will be discussed:

1. Job Order number and title
2. Existing site conditions
3. Presence of Hazardous Materials
4. Methods and alternatives for accomplishing work and value engineering
5. Definition and refinement of requirements
6. General Scope of Work
7. Requirements for stamped & unstamped design drawings, sketches, submittals, catalogue cuts, samples, shop drawings, etc.
8. Tentative construction schedule (bar chart or critical path method schedule)
9. Liquidated damages if appropriate
10. Preliminary quantity estimates
11. Staging areas, site access and protocol for admission
12. Special conditions regarding unique facility operations and hours of operation
13. Safety requirements
14. Special insurance requirements
15. Job Order Proposal due date

2.3.12 Making information available to Contractor is not to be construed in any way as a waiver of the aforesaid provisions, and Contractor must satisfy themselves through their own investigations as to conditions to be encountered.

2.3.13 Where investigation of subsurface conditions has been made by Owner in respect to foundation or other design, Contractor may inspect Owner's records of such investigation, including examination of samples and drill cores, if any.

2.3.14 When logs of test borings indicating a record of the data obtained by Owner's investigation of subsurface conditions are made available, said logs represent only the investigator's opinion as to the character of material encountered in test borings and are made available only for the convenience of bidders.

2.3.15 Investigation of subsurface conditions is made for the purpose of design, and Owner assumes no responsibility, whatsoever, in respect to the sufficiency of test borings, accuracy of the log of test borings, or other preliminary investigations, or in the interpretation thereof. There is no warranty or guarantee, express or implied, that the conditions indicated are representative of those existing throughout the Work, or any part of it, or that unforeseen conditions may not be encountered.

2.3.16 Upon completion of the joint scoping process, the County will issue a Request for
Job Order Proposal and a draft Detailed Scope of Work referencing any sketches, drawings, photographs, and specifications required to document accurately the work to be accomplished. The Contractor shall review the Detailed Scope of Work and request any required changes or modifications. When an acceptable Detailed Scope of Work has been prepared, the Owner will issue a Request for Proposal that will require the Contractor to prepare a Job Order Proposal. If Liquidated Damages will be applied to the Job Order, the County Representative will provide the appropriate information in the Request for Job Order Proposal or Detailed Scope of Work. The Detailed Scope of Work, unless modified by both the Contractor and the County, will be the basis on which the Contractor will develop its Job Order Proposal and the County will evaluate the Job Order Proposal. The Contractor does not have the right to refuse to perform any task or any work in connection with a particular Project.

The Job Order Price Proposal shall be based on and the CTC line items associated with the Detailed Scope of Work, the unit of measure and the accurate quantities. Failure to provide accurate Job Order Proposals based on this criteria and/or Non Pre-priced as defined, shall be cause for Non-compliance with the contract requirements.

2.3.17 The Contractor is required to post from eGordian® a Detailed Scope of Work and associated subcontractor trade list on the eGordian® website, http://www.egordian.com/ ‘Tools for Contractors and Subcontractors’, within three working days of the issuance of the Request for Job Order Proposal and Detailed Scope of Work.

2.3.18 Job Order Proposal Development
The Contractor will prepare Proposals in accordance with the following:

.1 Pre-priced Tasks: The Contractor will identify the task and quantities required from the Construction Task Catalog® (CTC). The Unit Price set forth in the CTC serves as the base price. The value of the Job Order Price Proposal shall be calculated by summing the total of the calculations for each Pre-priced Tasks (unit price x quantity x Adjustment Factor) plus the value of all Non Pre-priced Tasks.

.2 Non Pre-priced Tasks (NPP): Non Pre-priced Tasks, if any, must be separately identified in the Proposal. These tasks are not set forth in the Construction Task Catalog®. Information submitted in support of Non Pre-priced Tasks includes, but is not be limited to, the following:

.a Complete specifications and technical data, including task content, support drawings, task cost data, quality control and inspection requirements.
.b Work schedule.
.c Cost data will include a cost analysis report, establishing the basis for selecting the approach proposed for accomplishment of the task. Unless otherwise directed by the County, cost data will be submitted demonstrating that the Contractor sought and received three price quotes. The Owner may require additional quotes and bids if the suppliers or subcontractors are not acceptable or if the prices are not reasonable. The Contractor will provide an installed Unit Price (or demolition price if appropriate) which will include all costs required to accomplish the Non Pre-priced Task.
.d The final price submitted for Non Pre-priced Tasks which are performed by the Contractor will be according to the following formula:
Contractor Performed Duties

A = The number of hours for each labor classification and hourly rates
B = Equipment costs (other than small tools)
C = Three independent quotes for all materials

Total Cost for self-performed work = (A+B+C) x 4% Adjustment Factor (Only if A & B cannot be priced out of the CTC)

For Work performed by Subcontractors:

If the Work is to be subcontracted, the Contractor must submit three independent bids from Subcontractors. If three quotes or bids cannot be obtained, the Contractor will provide the reason in writing for the County’s approval as to why three quotes cannot be submitted.

D = Subcontractor Costs (supported by three quotes)

Total Costs of Non Pre-Priced Task = D x 4% Adjustment Factor

e Following approval by the County of a Non Pre-priced Task, the Non Pre-priced Task Unit Price will be entered into the computer data base and fixed as a permanent Pre-priced task which will no longer require price justification.

f The total extended price for the Non Pre-priced Task will be determined by multiplying the task Unit Price by the quantity required. The price offered in the Job Order Proposal will be determined by multiplying the total extended price by an Adjustment Factor of 1.00 (one).

g If a Pre-priced Task is present in the CTC, it must be used in the formulation of the Job Order Price Proposal. Immaterial differences between the proposed Work and description of a Pre-Priced Task are not a basis for classifying a Task as Non Pre-priced. Owner’s Project Manager’s determination as to whether a task is a Pre-priced Task or a Non Pre-priced Task is final, binding and conclusive upon the Contractor.

h Whenever, because of trade jurisdiction rules or small quantities, the cost of a minor task in the Job Order Price Proposal is less than the cost of the actual labor and material to perform such task, the Owner may permit the Contractor to be paid for such task as a Non Pre-priced Task, or use Pre-priced labor tasks and material component pricing to cover the actual costs incurred. Provided, however, that there is no other work for that trade on the Project or other work for that trade cannot be scheduled at the same time and the final charge does not exceed $1,000.

.3 The Contractor's Job Order Proposal must include support documentation to indicate that adequate engineering and planning for the Job Order has been done, and that the tasks proposed are reasonable for the Work to be performed. Documentation to be submitted with the Job Order Proposal must include, but not be limited to:

a. Job Order Price Proposal
b. Stamped & unstamped design drawings, calculations, specifications if required
c. Catalog cuts
d. Subcontractor and material supplier list
e. Construction schedule
f. Special Insurance
g. For special equipment a copy of the warranty document may be required.
h. Notification of Foreign Material (General Conditions 3.39.4)

Contractor's Job Order Proposal must be submitted by the date indicated on the RFJP. The time allowed for preparation of the Contractor's Job Order Proposal will depend on the complexity and urgency of the Job Order. On complex Job Orders, such as Job Orders requiring engineering/architectural drawings and approvals and permits, adequate time will be provided for preparation and submittal of the necessary documents and the Job Order Proposal. In urgent situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal may be required quickly.

2.2.19 Review of Job Order Proposal

.1 The County reserves the right to reject a Job Order Proposal for any reason. The County also reserves the right not to issue a Job Order if that is determined to be in the best interests of the County to do so or if the proposed cost exceeds the County's estimate. In these instances, the Contractor has no entitlement to reimbursement for Job Order Proposal preparation expenses including but not limited to the costs to attend the Joint Scope Meeting, review the Detailed Scope of Work, prepare a Job Order Proposal (including incidental architectural and engineering services), subcontractor costs, and the costs to review the Job Order Proposal with the Owner. The County may pursue the performance of any Work by other means.

.2 By submitting a Job Order Proposal to the County, the Contractor agrees to accomplish the Detailed Scope of Work in accordance with the Request for Proposal at the lump sum price submitted. It is the Contractor's responsibility to include all necessary Pre-priced and Non Pre-priced tasks and quantities in the Job Order Price Proposal prior to delivering it to the County.

.3 The County will evaluate the entire Job Order Proposal, including the correct tasks and quantities, and determine if the Contractor proposes to accomplish the Detailed Scope of Work in a manner acceptable to the County.

.4 The County will evaluate the entire Job Order Proposal, including the correct tasks and quantities, and determine if the Contractor proposes to accomplish the Detailed Scope of Work in a manner acceptable to the County.

2.2.20 Issuance of the Job Order

1. A Job Order signed by the County will be provided to the Contractor. Each Job Order will include a Detailed Scope of Work, a firm fixed price, a time duration for the completion of the Work, and any special
conditions that might apply to that specific Job Order, such as Liquidated Damages. After the County issues a Job Order the Contractor’s Detailed Job Order Price Proposal is of no significance. The Detailed Scope of Work becomes the Final Scope of Work. The Final Scope of Work defines the requirements of the Job Order. All provisions of this Contract are applicable to each Job Order. Job Orders will be written on an appropriate form.

2. The County may direct the Contractor to undertake and possibly complete urgent work prior to the issuance of a Job Order. The Contractor will be compensated in accordance with the provisions of this Contract. In such emergency situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal may be required quickly and the due date will be so indicated on the Request for Proposal or, as described below, the Contractor may be directed to begin work immediately with the paperwork to follow. The Contractor shall begin work as directed notwithstanding the absence of a fully developed Request for Proposal, Detailed Scope of Work, or Job Order. The Contractor shall be compensated for such work as if the work had been ordered under the standard procedures.

2.2.21 Unilateral Job Order.

If the Contractor has failed to submit a Job Order Proposal or the parties fail to reach an agreement, the County may issue a Unilateral Job Order. Compensation for the Work shall be in accordance with the CTC and terms and conditions of the Contract Documents. The Contractor must commence any work issued under a Unilateral Job Order in the time stated in the Job Order. Failure to commence Work may result in termination of this Contract for cause under 2.4.2. The issuance of a Unilateral Job Order will not prejudice any of the Contractor’s rights to make claims or appeal disputed matters.

2.2.22 Computer and Communications Equipment Requirements

The Contractor must maintain in an operational condition, a computer system capable of operating the software supplied by the County.
Using The Construction Task Catalog®

☐ Labor costs include time lost for normal work breaks, layout, measuring and cutting to fit, cleanup of regular construction debris, inspection, per compliance, job meetings and start-up.

EQUIPMENT COSTS:

☐ Equipment costs include all equipment required to accomplish the task including rigging and mobilization, except large equipment (e.g. crane, pile drivers, bulldozers, excavators, backhoes, bobcats etc.) which exclude mobilization.

☐ Equipment costs include all operating expenses such as fuel, electricity, lubricants, etc.

MATERIAL COSTS:

☐ Material costs include the cost of the material be installed and all incidentals and accessories integral to the installation.

☐ Material costs include manufacturer's and fabricator's shop drawings.

☐ Material costs for roofing, drywall, VCT, carpet, covering, ceiling tile, pipe, conduit, concrete, etc. include an allowance for waste. This list is intended to be all inclusive, but descriptive of types of construction materials that are typical and sold in standard lengths, sizes and weights.

Complete and In-Place Construction:

☐ Unit prices are for complete and in-place construction and include all labor, equipment and material required to complete the task as described in the CTC.

☐ Unit Prices include delivery, unloading and storage, materials, tools and equipment on-site; moving materials, tools and equipment from storage area truck up to 2 ½ stories (2 stories with an attic) within 125' to reach the site.
Using The Construction Task Catalog®

- Unit prices exclude moving material and equipment greater than 2 ½ stories and handling material and equipment more than 125’ (See 01661900).
- Unit prices for imported materials (aggregate, sand, soil, etc.) include delivery up to 15 miles from the closest approved source.
- Unit prices include all fasteners such as anchor bolts, lag bolts, screws, adhesive, wedge anchors, expansion bolts, roofing clips (excluding hurricane clips) that are required. Fasteners listed separately in the CTC are for use with Owner furnished material and equipment or relocating or reinstalling existing material and equipment.
- Unit prices exclude more substantial mounting material such as threaded rod or angle iron unless the task description states otherwise.
- Unit prices for doors and windows, duct work, plumbing fixtures, seamless floors, countertops, flashing, pitch pockets, skylights, curbs, roofing, etc. include sealant and caulking.
- Unit prices include testing, calibration, balancing and the like required to ensure proper installation, construction and performance (e.g. compaction test for backfill, balancing of heating ventilation and air conditioning, pneumatic or hydrostatic testing, soaping of joints, disinfection and flushing, others as required). Use of owner supplied materials, equipment or tying into existing equipment/piping may justify testing, balancing, etc.

Demolition:

- Unit prices for demolition include all labor, equipment and material required for the complete removal of the required items; clean-up of the area; and transferring down 2 ½ stories and within 125′ of the site into a truck or dumpster for debris or to a designated area for owner requested items.
- Unit prices for demolition exclude costs for hauling (See 01741900), dump fees (See 01741900), dumpsters (See 01741900), trash chutes (See 01741900), and handling materials more than 2 ½ stories or more than 125′ from the site (See 01661900), unless the task description states otherwise.
- If the item being demolished is attached to another item being removed and can be removed as one item, then that item shall not be priced as a separate demolition task, unless the component alone must be demolished to accomplish the task (e.g. demolition of pipe includes pipe fittings unless the fitting must be demolished separately to accomplish the task; demolition of a wood door includes hinges, hardware, closures, kick plates, etc.).
- The description "replace" includes the demolition of the existing item and the installation of the new item.
- The descriptions "remove and relocate" or "remove and reinstall" includes the removal, cleaning of item and installation of the existing item in either the same location or another location.
- The description "reinstall" includes the cleaning and installation of the existing item.
- Salvageable materials remain the property of the Owner and shall be turned over as directed when specified in the Job Order.

The Adjustment Factors Include:

BUSINESS COSTS:

- Overhead costs, including, unless specifically excluded in the Contract Documents, but not limited to:
  - home office overhead
  - insurance, bonds, and indemnification
  - project meetings, training, management and supervision
  - mobilization and close-out for the contract and each Job Order and
  - project office staff and equipment.
- Profit.
Using The Construction Task Catalog\

☑ Subcontractor’s overhead and profit.
☑ All taxes for which a waiver is not available including material sales tax and equipment rental.
☑ Employee or Subcontractor’s wage rates that exceed the prevailing wage rates.
☑ Fringe benefits, payroll taxes, worker’s compensation, insurance costs and any other payment mandated by law in connection with labor that exceeds the labor rate allowances.
☑ Cost of financing the work.
☑ Business risks such as the risk of a lower than expected volume of work, smaller than anticipated Job Orders, poor Subcontractor performance, and inflation or material cost fluctuations.

CONSTRUCTION RELATED COSTS:
☑ Services required to obtain filings and permits.
☑ Preparation and modification of proposals, sketches, drawings, submittals, as-built drawings, CADD drawings, microfilm, and other project records.
☑ Incidental engineering and architectural services.
☑ Office trailer and portable toilets for Contractor’s use.
☑ Construction vehicles such as pick-up trucks, utility trucks, vans, flat bed trucks, tractors, trailers, etc.
☑ Storage devices or items such as gang boxes and containers for Contractor’s tools, equipment and materials.
☑ Personnel safety equipment (hard hats, ropes, harness, etc.) and basic safety signage, railings, minor barricades, tape, roping, cable, markings, cones, etc.
☑ Meeting Owner security requirements.
☑ Excess waste including roofing, drywall, VCT, carpet, wall covering, ceiling tile, pipe, conduit, siding, concrete, etc. This list is not intended to be all inclusive, but descriptive of the types of construction materials that are typically sold in standard lengths, sizes and weights.

☑ Removing and returning Owner’s furniture; furnishings (chairs, tables, pictures, etc. excluding modular furniture, wall or ceiling attic or fastened devices or furnishings, safes or of furniture requiring disassembly).
☑ Protection of all surfaces including those not in scope of work from construction dust, debris damage during construction up until final acceptance. The methods of protection include plastic, paper, sealing doors or windows, etc. the Contractor’s responsibility.
☑ Daily clean-up.
☑ Final professional project clean-up.
☑ Costs resulting from inadequate supply of building materials, fuel, electricity, or skilled labor.
☑ Costs resulting from productivity loss.
☑ Working in extreme temperatures (below or above normal) or adverse conditions such as excess rain, wind, sleet or snow.
☑ Differences in project size; complexity and location.
☑ All costs for other than discreet items of work specifically required to complete a particular Job Order.

PRICE VARIATIONS:
☑ Contractors may find differences in labor, equipment and material costs due to certain economic factors. Variations in labor cost can result from labor efficiency, labor restrictions, working conditions and local work rules. Variations in material costs can also result from the quantity of material purchased, the existing relationship with suppliers, and because the materials have been discontinued or have become obsolete.
☑ While diligent effort is made to provide accurate and reliable up-to-date pricing, it is the responsibility of the Contractor to review and analyze the unit price and to calculate their Adjusted Fact accordingly, prior to bidding.

copyright © 2013 The Gordan Group, Inc.
GENERAL COSTS:

☒ This list is not exhaustive and is intended to provide general examples of cost items to be included in the Contractor's Adjustment Factor as defined in the Contract.

☒ The only compensation to be paid to a Contractor for the unit price tasks will be:

<table>
<thead>
<tr>
<th>Published Unit Price</th>
<th>X</th>
<th>Installation (or Demolition)</th>
<th>X</th>
<th>Appropriate Adjustment Factor</th>

<td>Quantity</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

☒ No additional payments of any kind whatsoever will be made. All costs not included in the unit prices must be part of the Adjustment Factors.

ASSEMBLIES:

☒ Assembly unit prices take precedence over individual component pricing.

TESTING:

☒ Contractor will be paid for testing existing material, as required by the technical specifications and as directed by the Owner (record tests) at the unit price for the appropriate task. The cost of process quality control testing routinely performed by the Contractor is included in the unit prices for the individual tasks.

MISCELLANEOUS:

☒ For the purpose of quantity discounts, quantities are calculated on a per project basis. The quantity discount applies to the total quantity so determined.

☒ Whenever there are alternative tasks that may be selected to complete work the Contractor shall select the most practical and economical tasks available (e.g. rental of equipment by weeks or months rather than days or painting by roller or spray rather than brush).

☒ Restricted Working Space is defined as any area with less than 3' vertical or horizontal clearance and includes areas such as crawl spaces, ceiling plenums where the grid is not removed, narrow piping tunnels, and equipment rooms where the space to install the new work is congested as a result of equipment and piping placement that meet these dimensional restrictions. A Restricted Working Space modifier is available for certain mechanical piping and piping accessories tasks and for certain electrical conduit and conduit accessories tasks. Only those tasks with a modifier for Restricted Working Space are eligible for a price adjustment, and then only if the modifier applies to the contemplated tasks. A non pre-priced task will not be allowed because of Restricted Working Space for any CTC task.

☒ Confined Working Space is defined according to the OSHA definition 29 CFR 1926.21(b)(6)(i): "Any space having limited means of egress, which is
subject to accumulation of toxic or flammable contaminants or has an oxygen deficient atmosphere, including, but not limited to, storage tanks, process vessels, bins, boilers, ventilation and exhaust duct, sewers, underground vaults, tunnels, pipelines and open top spaces more than 4 feet in depth such as pits and tubes." The Contractor shall conform to all OSHA and Owner requirements for working in Confined Working Spaces. Required ventilation and air monitoring equipment tasks shall be priced from the CTC.

Whenever a material, article or piece of equipment is identified in the CTC or in the specifications by reference to manufacturers' or vendors' names, trade names, catalogue numbers, or make, the identification is intended to establish a standard. Any material, article or equipment of another manufacturer or vendor which performs satisfactorily the duties imposed by the general design may be considered equally acceptable provided that, in the opinion of the Owner, the material, article or equipment so proposed is of equal quality, substance and function. The Contractor shall not provide, furnish or install any proposed material, article or equipment without the prior written approval of the Owner. The burden of proof and all costs related thereto concerning the "or equal" nature of the substitute item, whether approved or disapproved, shall be borne by the Contractor.

SPECIFICATIONS:

Specifications for tasks shall be interpreted as follows: All labor, material, equipment, spare parts, services, and work required by a specification shall be considered part of the unit price, unless the task description or technical specifications state otherwise.

UNIT OF MEASURE DEFINITIONS:

ACR – Acre, BAG – Bag, BBL – Barrel, BCY - B(\textsuperscript{3})
(In-place) Cubic Yards, BF - Board Foot, BOX - I (each), BTU - British Thermal Unit, C - One Hundred Cubic Feet, CCF - One Hundred Cubic Feet, CCY - Compact Cubic Yards, CF - Cubic Foot, CFM - Cubic Feet Per Minute, CL - Cubic Inch, CLF - One Hundred Lin Feet, CSF - One Hundred Square Feet, CSY - Hund Square Yards, CWT - Hundred Weight, CY - Cu Yard, CYM - Cubic Yard Mile, DAY - Day, DRM - Dr (each), EA - Each, FLR - Floor (Per Floor), FT - Ft, GAL - Gallon, GSF - Ground Square Foot, HR - Hr, HWT - Hundred Carton Weight, HYR - Half Year, I Inch, JOB - Job, LAN - Lane, LB - Pound, LC - Loose (Excavated) Cubic Yards, LF - Linear Foot, L - Linear Feet Per Day, LIT - Liter, LOT - Lot, MB - One Thousand Board Feet, MBH - One Thousand British Thermal Units, MCF - One Thousand Cubic Feet, MF3 - One Thousand Cubic Feet Per Min, MGL - One Thousand Gallons, MI – Mile, MLF - C Thousand Linear Feet, MO - Month, MSF - C Thousand Square Feet, MSY - One Thousand Squ Yards, MT - Metric Ton, MKT - Metric Ton Kilome M2 - Square Meter, M3K - Cubic Meter Kilometer, N – Note, OPN - Opening, OUT - Outlet or Output (each), OZ - Ounce, PKG - Package, PNT - Point, PR - P QT - Quart, ROL - Roll (each), ROM - Room, ROV Row, RSR - Riser (Per Rise), SEA - Seat, SET - S SF - Square Foot, SHT - Sheel, SI - Square Inch, ST Stop (each), SQ - Square or One Hundred Square Feet SY - Square Yard, SYI - Inches per Square Yard, TI - Tons per Mile, TON – Ton, TRK - Truck Load, U United Inch, UNT – Unit, VLF - Vertical Linear Foot, W – Week, YD – Yard, YR – Year
**MATERIAL WEIGHTS:**

**EARTHEEN MATERIAL**

- The following engineering values for establishing shrink/swell factors shall be used unless otherwise directed by the Owner.

**BULK FACTORS FOR DEMOLITION:**

- The following bulk factors shall be used to calculate the volume of demolished material to be transported from the site, unless otherwise directed by the Owner.
  - Asphalt = 1.25
  - Concrete = 1.40

**CONVERSIONS:**

- 1 Acre = 43,560 Square Feet = 4046.8 Square Meters
- 1 Board Foot = 12" x 12" x 1" = 144 Cubic Inches
- 1 Centimeter = 0.3937 Inches = 0.0328 Feet
- 1 Cubic Foot = 0.03704 Cubic Yards = 0.02832 Cubic Meters
**STANDARD GEOMETRY:**

**Circle**
- Circumference = \(2\pi \text{ radius} = \pi \text{ diameter}\)
- Area = \(\pi \text{ radius}^2 = \pi \left(\text{diameter}^2 / 4\right)\)

**Cylinder**
- Volume = \((\pi \text{ radius}^2)\text{height}\)
- Surface Area = \(2\pi \text{ radius}^2 + (2\pi \text{ radius})\text{height}\)

**Sphere**
- Volume = \((4\pi \text{ radius}^3) / 3\)
- Surface Area = \(4\pi \text{ radius}^2\)

\[\pi = 3.14159\]

**United Inch**
- The industry standard for measuring windows is the United Inch or UI. The UI is determined by adding the width and the height in inches

END DOCUMENT 00850
INSURANCE REQUIREMENTS FOR
CONSTRUCTION CONTRACTS

Indemnity

To the fullest extent allowed by law, the Contractor shall indemnify, defend, and hold harmless the County of Santa Clara (hereinafter "County"), its officers, agents and employees from any claim, liability, loss, injury or damage arising out of, or in connection with, performance of this Agreement by Contractor and/or its agents, employees or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the County. It is the intent of the parties to this Agreement to provide the broadest possible coverage for the County. The Contractor shall reimburse the County for all costs, attorneys' fees, expenses and liabilities incurred with respect to any litigation in which the Contractor contests its obligation to indemnify, defend and/or hold harmless the County under this Agreement and does not prevail in that contest.

Insurance

Without limiting the Contractor's indemnification of the County, the Contractor shall provide and maintain at its own expense, during the term of this Agreement, or as may be further required herein, the following insurance coverages and provisions:

A. Evidence of Coverage

Prior to commencement of this Agreement, the Contractor shall provide a Certificate of Insurance certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier must accompany the certificate. In addition, a certified copy of the policy or policies shall be provided by the Contractor upon request.

This verification of coverage shall be sent to the requesting County department, unless otherwise directed. The Contractor shall not receive a Notice to Proceed with the work under the Agreement until it has obtained all insurance required and such insurance has been approved by the County. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

B. Qualifying Insurers

1. All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-V, according to the current Best's Key Rating Guide or a company of equal financial stability that is approved by the County's Insurance Manager.
2. When surety bonds are required, they shall be issued by companies that meet the following minimum requirements:

   a. For projects in excess of $250,000:

      1. A California admitted surety with either a current A.M. Best rating of A IV or a current Standard and Poors (S&P) rating of A.

         OR

      2. An admitted surety insurer which complies with the provisions of the Code of Civil Procedure, Section 995.660*.

         OR

      3. In lieu of 1 & 2, a company of equal financial size and stability that is approved by the County's Insurance Manager.

   b. For projects under $250,000:

      1. A California admitted surety with either a current A.M. Best rating of B or a current Standard and Poors (S&P) rating of BB.

         OR

      2. An admitted surety insurer which complies with the provisions of the Code of Civil Procedure, Section 995.660*.

         OR

      3. In lieu of 1 & 2, a company of equal financial size and stability that is approved by the County's Insurance Manager.

* California Code of Civil Procedure Section 995.660 in summary, states that an admitted surety must provide: 1) the original, or a certified copy of instrument authorizing the person who executed the bond to do so, within 10 calendar days of receipt of a request to submit the instrument; 2) a certified copy of the Certificate of Authority issued by the Insurance Commissioner, within 10 calendar days of receipt of a request to submit the copy; 3) a certificate from County Clerk of Santa Clara County that Certificate of Authority has not been surrendered, revoked, canceled, annulled or suspended, within 10 calendar days of receipt of the certificate; 4) copies of the surety's most recent annual statement and quarterly statement filed with the Department of Insurance pursuant to Article 10, within 10 calendar days of receipt of a request to submit the statements.

C. Notice of Cancellation

All coverage as required herein shall not be canceled or changed so as to no longer meet the specified County insurance requirements without 30 days' prior written notice of such cancellation or change being delivered to the County of Santa Clara or their designated agent.
D. Insurance Required

1. Commercial General Liability Insurance - for bodily injury (including death) and property damage which provides limits as follows:
   a. Each occurrence - $1,000,000
   b. General aggregate - $2,000,000
   c. Products/Completed Operations aggregate ** - $2,000,000
   d. Personal Injury - $1,000,000

   A minimum of 50% of each of the aggregate limits must remain available at all times unless coverage is project specific.

2. General liability coverage shall include:
   a. Premises and Operations
   b. **Products/Completed Operations with limits of two million dollars ($2,000,000) per aggregate to be maintained for three (3) years following acceptance of the work by the County. For contracts whose maximum value is less than $80,000, Products/Completed Operations limits shall be one million dollars ($1,000,000) and two (2) years.
   c. Contractual Liability expressly including liability assumed under this Agreement. If the Contractor is working within fifty (50) feet of a railroad or light rail operation, any exclusion as to performance of operations within the vicinity of any railroad bridge, trestle, track, roadbed, tunnel, underpass or crossway shall be deleted, or a railroad protective policy provided.
   d. Personal Injury liability
   e. Owners' and Contractors' Protective liability
   f. Severability of interest
   g. Explosion, Collapse, and Underground Hazards (X, C and U)
   h. Broad Form Property Damage liability

3. General liability coverage shall include the following endorsements, copies of which shall be provided to the County:
   a. Additional Insured Endorsement, which shall read:
“County of Santa Clara, and members of the Board of Supervisors of the County of Santa Clara, and the officers, agents, and employees of the County of Santa Clara, individually and collectively, as additional insureds.”

Insurance afforded by the additional insured endorsement shall apply as primary insurance, and other insurance maintained by the County of Santa Clara, its officers, agents, and employees shall be excess only and not contributing with insurance provided under this policy. Public Entities may also be added to the additional insured endorsement as applicable and the contractor shall be notified by the contracting department of these requirements.

b. **Contractual Liability Endorsement:**

   Insurance afforded by this policy shall apply to liability assumed by the insured under written contract with the County of Santa Clara.

c. **X C & U (Explosion, Collapse and Underground) Endorsement:**

   Insurance afforded by this policy shall provide X, C and U Hazards coverage.

4. **Claims Made Coverage**

   If coverage is written on a claims made basis, the Certificate of Insurance shall clearly state so. In addition to coverage requirements above, such policy shall provide that:

   a. Policy retroactive date coincides with or precedes the Contractor’s start of work (including subsequent policies purchased as renewals or replacements).

   b. Contractor will make every effort to maintain similar insurance during the required extended period of coverage following project completion, including the requirement of adding all additional insureds.

   c. If insurance is terminated for any reason, Contractor agrees to purchase an extended reporting provision of at least two years to report claims arising from work performed in connection with this Agreement or Permit.

   d. Policy allows for reporting of circumstances or incidents that might give rise to future claims.
5. **Automobile Liability Insurance**

For bodily injury (including death) and property damage which provides total limits of not less than one million dollars ($1,000,000) combined single limit per occurrence applicable to all owned, non-owned and hired vehicles.

6. **Workers’ Compensation and Employer's Liability Insurance**
   
a. Statutory California Workers' Compensation coverage including broad form all-states coverage.

   b. Employer's Liability coverage for not less than one million dollars ($1,000,000) per occurrence.

7. **Contractors’ Equipment Insurance**

On an "all risk" basis covering equipment owned, leased, or used by the Contractor. If the total value of equipment is less than $100,000 Contractor may self-insure this exposure. If total equipment value is $100,000 or more, insurance is required. Such insurance shall include an insurer's waiver of subrogation in favor of the County. Contractor shall hold harmless the County for any loss or damage to the Contractor’s equipment. This coverage may be waived by the Insurance Manager, but the Contractor hereby releases and holds harmless the County for any loss or damages to its equipment.

8. **Builder’s Risk Insurance**

The County shall provide Builder’s Risk insurance (first party property insurance) on an all risk basis including flood with a limit of no less than the full replacement value of the work, and covering the work and all materials incorporated therein, and insuring the interests of the County, Contractor, and subcontractors. Insurance shall contain insurer's waiver of subrogation in favor of the Contractor and subcontractors. The Contractor shall be responsible for the first $50,000 of any loss. The County’s provision of Builder’s risk insurance is an economic convenience to the County, and does not change or revise the Contractor’s responsibility for the Work until County Acceptance, including but not limited to, losses that may exceed the insurance limits. Contractor may secure additional insurance, in Contractor’s sole and absolute discretion, and Contractor must include the cost of such insurance in Contractor’s bid.
E. Special Provisions

The following provisions shall apply to this Agreement:

1. The foregoing requirements as to the types and limits of insurance coverage to be maintained by the Contractor and any approval of said insurance by the County or its insurance consultant(s) are not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to this Agreement, including but not limited to the provisions concerning indemnification.

2. The County acknowledges that some insurance requirements contained in this Agreement may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by the Contractor under this Agreement. Any self-insurance shall be approved in writing by the County upon satisfactory evidence of financial capacity. Contractors obligation hereunder may be satisfied in whole or in part by adequately funded self-insurance programs or self-insurance retentions.

3. Should any of the work under this Agreement be sublet, the Contractor shall require each of its subcontractors of any tier to carry the aforementioned coverages, or Contractor may insure subcontractors under its own policies.

4. The County reserves the right to withhold payments to the Contractor in the event of material noncompliance with the insurance requirements outlined above.

F. Bond Requirements

1. Contract Bonds - Prior to execution of the Contract, Contractor shall file with the County on the approved forms, the two surety bonds in the amounts and for the purposes noted below, duly executed by a reputable surety company satisfactory to County, and Contractor shall pay all premiums and costs thereof and incidental thereto.

   Each bond shall be signed by both Contractor and the sureties.

   a) The "payment bond for public works" shall be in an amount of one hundred percent (100%) of the Contract price, as determined from the prices in the bid form, and shall insure to the benefit of persons performing labor or furnishing materials in connection with the work of the proposed Contract. This bond shall be maintained in full force and effect until all work under the Contract is completed and accepted by the County, and until all claims for materials and labor have been paid.

   b) The "performance bond" shall be in an amount of one hundred percent (100%) of the Contract price as determined from the prices in the bid form, and shall insure the faithful performance by Contractor of all work under
the Contract. It shall also insure the replacing of, or making acceptable, any defective materials or faulty workmanship.

Should any surety or sureties be deemed unsatisfactory at any time by the County notice will be given Contractor to that effect and Contractor shall forthwith substitute a new surety or sureties satisfactory to the County. No further payment shall be deemed due or will be made under the Contract until the new sureties qualify and are accepted by the County.

All alterations, time extensions, extra and additional work, and other changes authorized by the Specifications, or any part of the Contract, may be made without securing consent of the surety or sureties on the contract bonds.

2. Fidelity Bonds – Required only if contractor will be receiving advanced funds or payments. Before receiving compensation under this Agreement, Contractor will furnish County with evidence that all officials, employees, and agents handling or having access to funds received or disbursed under this Agreement, or authorized to sign or countersign checks, are covered by a BLANKET FIDELITY BOND in an amount of AT LEAST fifteen percent (15%) of the maximum financial obligation of the County cited herein. If such bond is canceled or reduced, Contractor will notify County immediately, and County may withhold further payment to Contractor until proper coverage has been obtained. Failure to give such notice may be cause for termination of this Agreement, at the option of County.

**PART 1 - GENERAL**

1.01 SUMMARY

A. This Section includes:
   1. Part 1 - General
      a. 1.01 - Summary
      b. 1.02 - Related Documents And Sections
      c. 1.03 – Definitions
      d. 1.04 – Cost Breakdown
      e. 1.05 – Payment for Materials On-hand
      f. 1.06 – Applications for Payment
      g. 1.07 - Payment Application Form and Submission
      h. 1.08 – Administrative Submittals Required With Payment Applications

2. Part 2 – Products (Not Used)

3. Part 3 – Execution (Not Used)

4. Part 4 – Forms
   a. Cost Breakdown Form 01290F-1

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.8, “Payments”

B. Section 01450, “Contractor’s Quality Control (QC) System”

C. Section 01320, “Contractor Progress Documentation”

1.03 DEFINITIONS

A. **Materials On Hand** - Acceptable materials procured and delivered to the Project Site and suitably protected but not yet used in the Project, and at sole discretion of the Owner’s Authorized Representative, acceptable materials stored at off-site locations. All off-site storage must be in secured facilities with insurance coverages acceptable to Owner. Contractor’s surety must consent in writing to Contractor’s request for payment for materials stored off-site.

1.04 COST BREAKDOWN

A. Coordinate preparation of the Cost Breakdown with preparation of the Contractor’s Baseline Schedule.
   1. Correlate line items in the Cost Breakdown with other required administrative forms and schedules including payment request forms.
   2. Submit the Cost Breakdown to the Owner as required in Section 01320, “Contractor Progress Documentation.”

B. The Cost Breakdown must differentiate costs of labor, materials, equipment, supplies, overhead (including general conditions costs), and profit. The Cost Breakdown must cover and be cross-referenced to the activities on the Official Progress Schedule. The Cost Breakdown will be used in coordination with the Official Progress Schedule and as a basis for progress payments.

C. Mobilization cost and payment thereof is governed by Document 00700.8.2.3, “Mobilization Costs.” Separate mobilization costs must not be shown on the Cost Breakdown.

D. Except as Directed by the Owner, Submittal activities, Shop Drawing activities, and other similar general conditions administrative or engineering activities must not be cost loaded.
E. Submit Cost Breakdown information, as appropriate, for each activity on the Official Progress Schedule. Costs must be broken down, organized, and formatted as shown on Cost Breakdown Form 01290F-1 at the end of Section 01290, “Payment Procedures.”

F. Each Subcontractor’s activities must be separately identified on Cost Breakdown Form 01290F-1. The sum of the labor, materials, equipment, overhead, and profit values for the Work of each Subcontractor identified on the Cost Breakdown Form must equal the value of the Subcontract between the Contractor and the Subcontractor indicated.

G. The sum of the values of the Contractor’s activities on Cost Breakdown Form plus the sum of the values of the Subcontractors activities on the Cost Breakdown Form 01290F-1 must equal the Contract Sum for the Project.

H. Overhead (including general requirements costs), and profit must be proportionally prorated over all cost loaded activities as a fixed percentage of the value of each activity.

I. A Cost Breakdown may be rejected if in Owner’s opinion any item is unbalanced.

1.05 PAYMENT FOR MATERIALS ON HAND

A. Materials On Hand must be collected together and separated from other materials and clearly identified as property of Owner and must be accessible to Owner at all reasonable times for examination or other legal purposes.

B. For Materials On Hand to be considered for payment Contractor must request payment for them on Owner furnished or Owner Approved forms including accompanying documentation as required by Owner. Contractor must submit an original and two (2) copies to Owner not later than two weeks prior to the end of the payment application period. All accompanying documentation required by the Owner including evidence of purchase (and warehouse receipt when required) must be attached to the original. The Contractor must certify in writing that the subject materials meet the requirements of the Contract Documents.

C. The Contractor must submit and the Owner must have accepted all shop drawings and submittals for the Materials On Hand prior to the Contractor’s request for payment for said Materials On Hand.

D. The provisions allowing payment for Materials On Hand are intended to be applied to large items of equipment and construction materials of special manufacture or order for the Project.

1.06 APPLICATIONS FOR PAYMENT

A. The cut-off date (last day) for each progress payment is the last day of the month or as otherwise Directed by the Owner.

B. The period of construction Work covered by each application for payment is the period beginning the first day of the payment application period and ending with the last day of the payment application period.

C. Before the end of each payment application period, Contractor and Owner’s Project Manager will jointly review Contractor’s estimate of items of Work completed and acceptable Materials On Hand for which Contractor is requesting a progress payment. The joint review (job walk) will occur at the Project site.

D. Prior to the joint review, Contractor must provide Owner with two (2) copies of a progress estimate worksheet showing each activity on the Official Progress Schedule that has been started but is not yet complete. The worksheet will be used during the joint review to document the actual physical percentage complete of each started but uncompleted activity.

E. After the joint review, Contractor must prepare on Owner furnished or Owner Approved forms, a formal request for payment. Two (2) copies the formal request for payment must be submitted to the Owner no later than one day after the end of the payment period.

F. With the submission of the formal request for payment, Contractor must provide two (2)
copies of an updated Cost Breakdown, showing the total value, percentage completed, and earned value of each item. The updated Cost Breakdown must be submitted to Owner on Owner-furnished or Owner Approved forms.

G. Payment will be due to Contractor thirty (30) Days after receipt by Owner of a properly prepared progress payment request from the Contractor. Returned and resubmitted progress payment requests must state resubmission date.

1.07 PAYMENT APPLICATION FORM AND SUBMISSION

A. Use forms as furnished or Approved by the Owner.

B. Complete every entry on form.

C. All amounts billed must be submitted as whole dollar amounts.

D. A person authorized to sign legal documents for Contractor must sign the formal payment application.

E. The Owner will return incomplete applications “Returned Without Action.”

F. Entries must match data on the Approved Cost Breakdown.

G. Include amounts of executed Change Orders as separate line items in the Cost Breakdown.

H. Submit the signed original and one (1) copy of each application for payment to the Owner by a method ensuring receipt by Owner within 24 hours.

I. Owner will release retention in accordance with article 8.3; Contractor should not invoice Owner for retention.

1.08 ADMINISTRATIVE SUBMITTALS COINCIDING WITH PAYMENT APPLICATIONS

A. Administrative actions and submittals that must coincide with submittal of each application for payment include the following:
   1. Certified Payroll (Must be submitted within 10 Days from payment period end date.)
   2. Updated (As-Built) Record Documents (Must be updated prior to payment period end date)
   3. Updated Official Progress Schedule (Must be submitted with request for Progress Payment)
   4. Earned Value statement based on Updated Official Progress Schedule and approved Cost Breakdown (Must be submitted with request for Progress Payment)
   5. Updated Procurement Status Log (Must be submitted with request for Progress Payment)
   6. Updated Submittal Log (Must be submitted with request for Progress Payment)
   7. Monthly Report (Must be submitted within 3 days from payment period end date.)

B. Final payment application
   1. Submit, on forms furnished or Approved by the Owner, two (2) copies of a final application for payment with supporting documentation not previously submitted and accepted, including, but not limited, to the following:
      a. Evidence of completion of Project closeout requirements.
      b. Evidence that claims have been settled.
      c. Other documents as required by the Owner.

SECTION 01310  
PROJECT MANAGEMENT AND COORDINATION

PART 1 - GENERAL  

1.01 SUMMARY  
A. This Section includes:  
   1. Part 1 – General  
      a. 1.01 – Summary  
      b. 1.02 - Related Documents And Sections  
      c. 1.03 – Project Manager / Superintendent Safety Training  
      d. 1.04 – Coordination  
      e. 1.05 – Pre-work Verification  
      f. 1.06 – Administrative Actions  
      g. 1.07 - Conservation  
   2. Part 2 – Products (Not Used)  
   3. Part 3 – Execution (Not Used)  
   4. Part 4 – Forms (Not Used)  

1.02 RELATED DOCUMENTS AND SECTIONS  
A. Document 00700.3, “Contractor’s Responsibilities”  
B. Section 01725, “Survey & Field Engineering” Section 01315, “Project Meetings”  
C. Section 01320, “Contractor Progress Documentation”  
D. Section 01450, “Contractor’s Quality Control (QC)”

1.03 PROJECT MANAGER / SUPERINTENDENT SAFETY TRAINING  
All Contractor Project Managers and on site Superintendents shall possess an OSHA 30 hr. Construction Safety, Outreach Training certificate that is not over 5 years old. Certificate shall be presented to the County before said Project Manager or Superintendent will be permitted to perform on this contract.

1.04 COORDINATION  
A. Contractor must not delegate Contractor’s responsibility for coordination of the Work to any Subcontractor.  
B. Contractor must provide a General Superintendent whose sole responsibility is administration of the Contractor’s Work and the coordination of the Work of the Contractor’s Subcontractors and suppliers.  
C. Contractor must provide administrative and supervisory personnel as needed or required for timely compliance with all administrative requirements of the Contract Documents and proper coordination of the performance of the Work.  
D. Contractor must ensure that each Subcontractor provides personnel as reasonably required for management and coordination of the Subcontractor’s Work and for coordination of the Subcontractor’s Work with the Work of the entire Project.  
E. Contractor must coordinate the Work to ensure efficient and orderly installation of each part of the Work of the entire Project including but not limited to:  
   1. Coordinating all aspects of the Work as required to provide the Owner with a complete and operable facility.  
   2. Coordinating the Work with the work of other contractors and entities to ensure efficient and orderly installation of each part of the Work of the entire Project.
3. Coordinating installation of different components and systems of the Work to ensure maximum accessibility for required maintenance, service, and repair.

4. Coordinating the Work included in different Sections of the Project Manual that depend on each other for proper installation, connection, and operation.

5. Coordinating the Work of all Subcontractors and suppliers.

6. Coordinating the Work in such a manner to avoid delays and permit proper and efficient installation of the Work by all Subcontractors.

7. Coordinating electrical/mechanical Work, particularly between general trades and mechanical/electrical trades, including the work of Owner and other contractors, so that sleeves, hangers, chases, openings, etc., required for pipe, conduit, and other installations of like character are duly and properly Provided and Installed as Work progresses.

8. Coordinating all cutting, fitting and patching that may be required to make the parts of the Work come together properly for the completed Project as shown or as reasonably implied by the Contract Documents.

9. Coordinating for future installation of work by others that is not included in the Contractor’s Work but is shown or specified in the Contract Documents.

10. Coordinating delivery of materials in accordance with the Official Progress Schedule.

11. Coordinating and cooperating in the timing and sequencing of Contractor’s Work with the work of other contractors or the Owner.

12. Sequencing the Work to obtain the best results where installation of one component of the Work depends on installation of other components, before or after its own installation.

13. Making adequate provisions to accommodate items scheduled for later installation by Contractor, Owner, or other contractors.

14. Checking the drawings of the Owner or other contractors for interferences with Contractor’s Work and promptly reporting to Owner, in writing, any potential interferences between the Contractor’s Work and the work of Owner or the work of other contractors.

15. Utilizing the Contract Documents and Owner accepted Submittals to check and coordinate the Work so that no interferences or conflicts between trades occur. This checking and coordination must be performed and completed before construction is commenced in each affected area and may require the preparation and submission of Coordination Drawings.

16. Furnishing to other contractors, whose work is fitted to Contractor’s Work, Record Documents, Coordination Drawings, details, and erection drawings giving full information regarding the Fabrication, assembly, and installation of Contractor’s Work.

17. Preparing memoranda for distribution to each party involved, outlining special procedures required for coordination. Include such items as required notices, reports, and list of attendees at meetings. Prepare similar memoranda for the Owner and separate contractors if coordination of their Work is required.

18. Resolving disputes between Subcontractors.

1.05 PRE-WORK VERIFICATION

A. Prior to starting a particular type or kind of Work:

1. Review all Contract Documents and other relevant data related to the type or kind of Work to be performed;

2. CheckOwner accepted Submittals and verify dimensions at Project Site;

3. Review manufacturers instructions applicable to conditions under which Work is to be installed;

4. Inspect areas, surfaces or construction receiving the Work.
5. Report to Owner in writing and concerns, issues, or problems observed during Contractor's Pre-Work verification.

B. Start of Work shall signify compliance with the above requirements and acceptance of previously placed construction or substrates as being in satisfactory condition to achieve proper installations and first quality workmanship as intended under these Contract Documents. Failure to so inspect and report to Owner shall constitute an acceptance of the previously placed construction or substrates.

1.06 ADMINISTRATIVE ACTIONS

A. Administrative actions include, but are not limited to, the following:
   1. Preparation, update, and revision of Contractor's Official Progress Schedule (See Section 01320, “Construction Progress Documentation”)
   2. Delivery and review of Submittals. (See Section 01330, “Submittal Procedures”)
   3. Project Meetings. (See Section 01315, “Project Meetings”)
   4. Project closeout activities. (See Section 01770, “Closeout Procedures”)

B. Coordinate timing of required administrative actions with construction activities and activities of Owner and other contractors to avoid conflicts and ensure orderly progress of the Work.

1.07 CONSERVATION

A. Coordinate Work to ensure that operations are carried out with consideration given to conservation of energy, water, and materials.

B. Salvage materials and equipment involved in performance of, but not actually incorporated into, the Work.

PART 2 - PRODUCTS (Not Used)
PART 3 - EXECUTION (Not Used)
PART 4 - FORMS (Not Used)

END OF SECTION 01310
SECTION 01315
PROJECT MEETINGS

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 - Related Documents
      c. 1.03 – Definitions
      d. 1.04 – Project Meetings
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS
A. Section 01320, “Construction Progress Documentation”
B. Section 01450, “Contractor’s Quality Control (QC) System”
C. Section 01500, “Temporary Facilities and Controls”
D. Section 01515, “Solid Waste Management and Recycling Plan”
E. Section 01770, “Closeout Procedures”
F. Section 01810, “General Commissioning Requirements”

1.03 DEFINITIONS
A. Decision/Action Tracking Report – A report prepared by the Contractor recording all actions, commitments, and decisions (items) made at various Project Meetings and conferences. At a minimum, the report must track the name of the person responsible for the item, a description of the required action or decision, the initiation date of the item, the due date for the item, actual completion date of the item, and the current status of the item. Copies of the Decision/Action tracking report must be provided to all attendees and two (2) copies must be submitted to the Owner within twenty-four (24) hours of the meetings.

1.04 PROJECT MEETINGS
A. General
   1. Contractor must inform participants of date and time of each meeting and preside at all required meetings throughout progress the Work unless otherwise Directed by Owner.
   2. Contractor must prepare agenda for all meetings and provide to all attendees prior to the meetings.
   3. Contractor must attend all meetings as required by the Contract Documents.
   4. Contractor must attend and/or conduct additional meetings as Directed by the Owner’s Project Manager.
   5. Contractor must conduct meetings and conferences at the Project Site in the Contractor’s on-site temporary job trailer, unless otherwise indicated or required by Owner.
   6. Contractor’s job trailer must contain a conference table and sufficient seating to accommodate eight (8) meeting participants.
   7. Contractor must prepare and distribute meeting minutes as required in individual sections of
the Project Manual.

8. Whether or not Contractor is responsible for the meeting minutes, Contractor must maintain notes from all meetings and conferences in the form of a Decision/Action Tracking Report.

B. Preconstruction Conference

1. The Owner will schedule and conduct a Preconstruction Conference before starting construction but no later than 21 Days after execution of the Agreement.

2. Conference will be held at Project Site or another convenient location designated by Owner.

3. Participants:
   a. Owner’s Project Manager (Mandatory Attendance Required)
   b. Designer of Record (Mandatory Attendance Required)
   c. Contractor’s Authorized Representative (Mandatory Attendance Required)
   d. Contractor’s QC Manager (Mandatory Attendance Required) (See Section 01450.1.08.A.2.r)
   e. Major Subcontractors (Mandatory Attendance Required)
   f. Testing Laboratory Representative (See Section 01430.1.08.G)
   g. Appropriate Manufacturers
   h. Appropriate Suppliers
   i. Other interested parties

4. All participants at the conference must be familiar with Project and authorized to conclude matters relating to the Work.

5. Agenda: Items of significance to be discussed at the meeting include:
   a. Introductions
   b. Notice To Proceed (NTP)
   c. Direction From The Owner
   d. Emergencies
   e. Required Notifications
   f. Contractor Quality Control (QC) System
   g. Testing and Inspection Laboratory
   h. Coordination
   i. Normal Hours Of Work
   j. Workplace Environment
   k. Use of Project Site
   l. Security
   m. Disruption of Owner’s Normal Operations
   n. Use Of Owner’s Facilities
   o. Temporary Facilities and Controls
   p. Accepting Material Deliveries
   q. General Correspondence
   r. Additional Detailed Instructions
s. Field Modifications
t. Requests For Information (RFI)
u. Change Orders
v. Progress Payments
w. Submittals (List of Owner’s Submittal reviewers) (Ref 01332.1.08.A)
x. Record Documents
y. Owner Furnished Contractor Installed (OFCI) Equipment
z. Procurement Issues
aa. Project Meetings
bb. Permits
c. Fire Marshal Issues
dd. Subcontractor Issues
e. Waste Management and Recycling Requirements
ff. Permanent Utilities
gg. Progress Cleaning
hh. Environmental Issues
ii. Schedule
jj. Liquidated Damages

6. The Owner will prepare meeting minutes of the Preconstruction Conference and distribute minutes to the attendees.

C. Schedule Orientation Meeting (See Section 01320.3.03, “Schedule Orientation Meeting”)

D. Solid Waste Management Plan Meeting (See Section 01515.1.05, “Solid Waste Management and Recycling Plan”)

E. Quality Control Meetings

1. Contractor must conduct and take minutes of all meetings required by Section 01450, "Contractor’s Quality Control (QC) System", including but not limited to:
   a. Coordination and Mutual Understanding Meeting (See Section 01450.1.10, "Coordination and Mutual Understanding Meeting")
   b. Recurring QC Meetings (See Section 01450.1.11, “QC Meetings”)
   c. Prepatory Phase Meetings (See Section 01450.1.12, “Three Phases of Control”)
   d. Work Phase Meetings ((See Section 01450.1.14, “QC Documentation”)

F. Progress Meetings

1. Owner’s Project Manager will establish a schedule of construction Progress Meetings. The frequency of these Progress Meetings shall be at the discretion of Owner’s Project Manager, and shall be no more often than once each week. Contractor must attend Progress Meetings at the times and locations scheduled. The progress meetings will be located at the Contractor’s on-site field office unless the Owner’s Project Manager approves an alternate location.

2. Attendees:
   a. Owner’s Project Manager
   b. Designer of Record
   c. Contractor Authorized Representative
d. QC Manager (See Section 01450.1.08.A.2.r)
e. Appropriate Subcontractor(s)
f. Appropriate Suppliers
g. Testing Laboratory Representative (See Section 01430.1.08.G)
h. Other entities concerned with current progress or involved in planning, coordination, or performance of future activities must be represented at these meetings.

3. Agenda:
   a. Review and update Contractor’s Decision/Action Tracking Report from previous Progress Meeting
   b. Schedule Review
      (1) Review progress since the last meeting
      (2) Compare current progress against Official Progress Schedule
      (3) Determine how construction behind schedule will be expedited
      (4) Discuss whether schedule revisions are required to ensure that current and subsequent activities will be completed within the Contract Time.
   c. Review present and future needs of each entity present, including the following:
      (1) Interface requirements
      (2) Sequence of operations
      (3) Status of Submittals
      (4) Status of key deliveries
      (5) Status of off-site fabrication
      (6) Site access issues
      (7) Site utilization
      (8) Temporary facilities and controls
      (9) Normal Hours of Work
   d. Progress cleaning
   e. Change Orders.

4. At a minimum, the Contractor must maintain notes for all Progress Meetings in the form of a Decision/Action Tracking Report. Copies of the Decision/Action tracking report must be provided to all attendees and two (2) copies must be submitted to the Owner within twenty-four (24) hours of the meetings.

5. Closeout Conference (See Section 01770.1.04, “Closeout Conference”)

G. Commissioning Meetings (See Section 01810, “General Commissioning Requirements”)

H. Demonstration and Training Meetings (See Section 01820, “Demonstration and Training”)

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

PART 4 - FORMS (Not Used)

END OF SECTION 01315
SECTION 01325
RECORD DOCUMENTS (As-builts)

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents and Sections
      c. 1.03 - Definitions
      d. 1.04 - Record Documents
      e. 1.05 - Concealed Work
      f. 1.06 – Maintenance of documents and samples
      g. 1.07 – Record Set
      h. 1.08 - Progress Payments
      i. 1.09 - Closeout and Acceptance of the Work
      j. 1.10 - Submittals
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.3.3, “Documents & Samples at the Project Site”
B. Document 00700.8.2, “Progress Payments”
C. Document 00700.13.6, "Recommendation for Acceptance"
D. Section 01290, “Payment Procedures”

1.03 DEFINITIONS
A. As-Builts - A set of the Contract Documents including Drawings and Project Manual updated on a continuous basis to indicate conditions encountered and the final configuration of a Project as it was constructed. As-Builts include any change or clarification to the Contract Documents and dimensional information showing the actual locations of Installed components of the Work. (Also known as “Record Documents” or “As-Built Documents”)
B. Record Set – Project Manual, Drawings, Addenda, Change Orders, Field Modifications, Requests for Information (RFI), Submittals, Product Data, Samples, Shop Drawings, Field Test and inspection records, and Coordination Drawings located at the Project Site.

1.04 RECORD DOCUMENTS
A. As-Builts Drawings
   1. Contractor must maintain at the Project Site at least one set of As-Built Drawings indicating the actual configuration of the Project as it is constructed.
   2. The Contractor must maintain the As-Built Drawings in good and current condition and post all changes and clarifications to the As-Built Documents on a daily basis.
   3. Contractor must handle the As-Built Drawings with great care, must not use the As-Built Drawings for any other purpose, and must keep them clean and readable.
   4. The As-Built Drawings must provide sufficient detail to make it possible to correctly and easily locate, identify, and establish sizes and routing of all piping and the like, as well...
as other features of concealed Work.

5. The As-Built Drawings must indicate, by appropriate notations in the As-Built Drawings, all modifications or changes made to the Drawings by Addenda, Change Order, RFI, or Field Modification.

6. If Work is installed differently from, or in a location other than that shown on the Drawings, or if Contractor finds existing conditions to be different than indicated on the Drawings, Contractor must accurately note such variations on the As-Builts Drawings in red pencil on a daily basis as the Work progresses.

7. Label each page of the field set of the As-Built Drawings, "As Built Record Drawings" in neat large printed letters in the lower right hand corner.

8. Contractor must post to the As-Built Drawings on a daily basis all:
   a. Addenda
   b. Changer Orders
   c. Field Modifications
   d. Requests for Information
   e. Approved Product Substitutions
   f. All other details and dimensions not on the Bid Documents

B. As-Built Project Manual

1. Contractor must post to the As-Built Project Manual on a daily basis:
   a. All modifications or changes made to the Project Manual by:
      (1) Addenda
      (2) Change Order
      (3) Field Modification
      (4) Request for Information (RFI)
      (5) Approved Product Substitutions
      (6) All other information not in the Bid Documents
   b. The Products selected and used in the Work of the Project
      (1) For each Product actually Provided and/or Installed, legibly mark each section of the Project Manual to record:
         a. Manufacturer
         b. Trade name
         c. Catalog number
         d. Supplier

1.05 CONCEALED WORK

A. The As-Built Documents must indicate the locations of underground Work and Work concealed inside any construction.

B. Do not conceal any Work until required information is recorded in the As-Built Documents.

C. The specific location of all turns, centerline, invert elevations and rates of fall in underground and concealed Work must be indicated.

D. Dimensions to column lines, walls or other prominent features must be used for proper
E. Legibly mark to record actual construction:
   1. Depths of various elements of foundation in relation to finish first floor datum.
   2. Horizontal and vertical locations of underground utilities and appurtenances, referenced to permanent surface improvements.
      a. Give sufficient horizontal and vertical dimensions to accurately trace route and invert of each concealed line or item.
      b. Accurately locate each capped, plugged or stubbed line.
   3. Location of internal utilities and appurtenances concealed in the Work, referenced to visible and accessible features of the structure.
      a. Give sufficient horizontal and vertical dimensions to accurately trace route and invert of each concealed line or item.
      b. Accurately locate each capped, plugged or stubbed line.

1.06 MAINTENANCE OF DOCUMENTS AND SAMPLES

A. Store As-Built Documents in Contractor's field office apart from documents used for construction.
B. Provide files and racks for storage of As-Built Documents.
C. File Record Set documents in accordance with CSI format.
D. Maintain all documents in a clean, dry, legible condition and in good order.
E. Do not use As-Built Documents for construction purposes.
F. Make As-Built and Record Set documents available at all times for inspection by Owner's Project Manager.

1.07 RECORD SET

A. Contractor must maintain at the Project Site at least one (1) copy of the Record Set including but not limited to:
   1. Project Manual (Bid Documents)
   2. Drawings (Bid Documents)
   3. Addenda
   4. Change Orders
   5. Field Modifications
   6. Requests for Information (RFI)
   7. Submittals
   8. Product Data
   9. Samples
   10. Shop Drawings
   11. Test and inspection records
   12. Coordination Drawings
   13. Approvals from Government Agencies and regulatory authorities
   14. All Correspondence
B. Record Product Data:
   1. Maintain one copy of each Owner accepted Product Data Submittal at the Project Site.
   2. Mark-up changes in actual Work in comparison with submitted information.
      a. Include both variations in product as delivered to Project Site and variations from
         manufacturer's instructions and recommendations for installation.
      b. Give particular attention to concealed products and portions of the Work which
         cannot otherwise be readily discerned at a later date by direct observation.
   3. Note Related Change Orders, if any.

1.08 PROGRESS PAYMENTS
A. The Inspector shall review the As-Built Documents prior to and as a condition of approving
   each progress payment.

1.09 CLOSEOUT AND ACCEPTANCE OF THE WORK
A. Contractor must transfer all entries from the As-Built Documents that were maintained at the
   Project Site to a complete set of Record Documents consisting of reproducible copies of the As-
   Built Drawings and hard copies of the As-Built Project Manual.
B. Contractor must mark the drawings "As-Built Record Drawings" and mark the As-Built Project
C. Contractor must sign each drawing in the final set of As-Built Drawings and sign the cover of the
   final As-Built Project Manual.
D. In accordance with Document 00700.13.6, “Recommendation for Acceptance”, the Work
   shall not be recommended for Acceptance until Owner’s Project Manager receives
   satisfactory Record Documents from Contractor.

1.10 SUBMITTALS
A. Submit four (4) copies of all Record Documents (As-Builts)
B. Accompany submittal with a transmittal letter, in duplicate, containing:
   1. Date
   2. Project title and number
   3. Contractor’s name and address
   4. Title and number of each Record Document (As-Built)
   5. Signature of QC Manager or Contractor’s Authorized Representative
C. Samples
   1. Within fourteen (14) Days of Contractors certification of completion and request for Final
      Inspection, Owner’s Project Manager will meet with Contractor at Project Site to
      determine which, if any, of submitted samples maintained by Contractor during progress
      of the Work shall be transmitted to Owner for record purposes.
   2. Comply with Owner's instructions for packaging, identification marking, and delivery to
      Owner's sample storage space.
D. Submit evidence of compliance with the requirements of Governing Agencies and regulatory
   authorities:
   1. Certificates of Inspection:
      a. Elevators
b. Fire Marshal

2. Other Certificates:
   a. Occupancy Certificate from local building department
   b. SWPPP Notice of Termination (NOT)

SUBMITTAL PROCEDURES

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents and Sections
      a. 1.03 - Definitions
      b. 1.04 - Scheduling
      c. 1.05 - Deviations
      d. 1.06 - Action Submittals
      e. 1.07 - Informational Submittals
      f. 1.08 - Identification
      g. 1.09 - Certification
      h. 1.10 - Packaging, Transmittal and Distribution
      i. 1.11 - Owner or Designer of Record’s Action
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.3.26, “Submittals”
B. Section 01310, “Project Management and Coordination”
C. Section 01320, “Contractor Progress Documentation”
D. Section 01332, “Submittal Log”
E. Section 01450, “Contractor’s Quality Control (QC) System”
F. Section 01810, “General Commissioning Requirements”

1.03 DEFINITIONS
A. **Action Submittals** - Submittals requiring Owner or Designer of Record’s written response.

B. **Informational Submittals** - Submittals not requiring Owner or Designer of Record’s written response. (Survey notes, QC Manager’s Daily Report, Laboratory test reports, etc.)

C. **Preconstruction Submittals** - Action Submittals and Informational Submittals requiring Owner’s acceptance before Contractor may proceed with the installation of Work or the procurement of the materials and/or equipment covered by the Submittal.

1.04 SCHEDULING
A. Schedule preparation and processing of Submittals in accordance with other sections of the Contract Documents and the specific Submittal deadlines and timeframes stated below.

   1. Unless otherwise specifically stated in the Contract Documents, or specifically Approved in writing by the Owner’s Project Manager, all Preconstruction Submittals are due no later than 45 Days from the Official Start Date stated in the Notice to Proceed. (See Document 00700.3.26.1.7) General acceptance of the Contractor’s Progress Schedule, Submittal Log, or other related submittals by the Owner does not constitute specific Approval by the Owner’s Project Manager for deviation from the 45 Day cut-off date for Preconstruction Submittals.
Contractor must make a specific request in writing for each proposed deviation and the Owner's Project Manager must grant specific written Approval for each proposed deviation to the cut-off date.

2. Unless a longer period is specifically stated in the Contract Documents, allow at least 21 Days for Owner's review and return of all Submittals and resubmittals. (See Document 00700.3.26.4, "Minimum Submittal Review Times" and Section 01320.3.13.B, "Submittal Log").

1.05 DEVIATIONS

A. Specifically identify each proposed deviation from the requirements of the Contract Documents.
   1. Only making notations on the Submittal is not sufficient to satisfy this requirement. (See also Document 00700.3.26.1.5)
   2. Each proposed deviation must be clearly highlighted, encircled, noted, or otherwise clearly identified on the Submittal and individually explained in writing in the transmittal accompanying the Submittal.
   3. Making notations on the Submittal without the attached written explanation will not relieve the Contractor of responsibility for deviation from the requirements of the Contract Documents.
   4. Unless specific deviations have been noted in writing by the Contractor and specifically accepted in writing by the Owner or Designer of Record, no deviations from the requirements of the Contract Documents are permitted.

B. If a Submittal contains no proposed deviation(s) from the requirements of the Contract Documents, the Contractor must indicate on the transmittal accompanying the Submittal that the Submittal contains "No Deviations" from the requirements of the Contract Documents.

1.06 ACTION SUBMITTALS

A. Prepare and submit Action Submittals required by individual sections of the Project Manual.

B. Refer to Section 01332, "Submittal Log", for the number of copies to be submitted.

C. Product Data
   1. Collect information into a single Complete Submittal for each Definable Feature of Work and type of product or equipment.
   2. If information must be specially prepared for Submittal because standard printed data are not suitable for use, submit as Shop Drawings, not as Product Data.
   3. Mark each copy of each Submittal to show which Products and options are applicable.
   4. Include the following information, as applicable:
      a. Manufacturer's written recommendations.
      b. Manufacturer's product specifications.
      c. Manufacturer's installation instructions.
      d. Standard color charts.
      e. Manufacturer's catalog cuts.
      f. Diagrams showing factory-installed wiring, controls and piping diagrams.
      g. Printed performance curves, performance characteristics and capacities.
      h. Operational range diagrams.
      i. Mill reports.
      j. Standard product operating and maintenance manuals.
k. Compliance with recognized trade association standards.

l. Compliance with recognized testing agency standards.

m. Application of testing agency labels and seals.

n. Notation of coordination requirements.

o. Show wiring, piping diagrams, controls.

D. Shop Drawings

1. Preparation: Include the following information, as applicable:
   a. Dimensions.
   b. Identification of Products.
   c. Fabrication and installation drawings.
   d. Roughing-in and setting diagrams.
   e. Wiring diagrams showing field-installed wiring, including power, signal, and control wiring.
   f. Shopwork manufacturing instructions.
   g. Templates and patterns.
   h. Schedules.
   i. Design calculations.
   j. Compliance with specified standards.
   k. Notation of coordination requirements.
   l. Notation of dimensions established by field measurement.
   m. Identify details by reference to Drawing and detail, schedule, or room numbers shown and specified.

2. Wiring Diagrams: Differentiate between manufacturer-installed and field-installed wiring.

3. Sheet Size: Except for templates, patterns, and similar full-size drawings, submit Shop Drawings on sheets at least 8-1/2" x 11" (215 by 280 mm) but no larger than 36" x 48" (914 mm x 1219 mm).

4. Contractor must review and coordinate all Subcontractors’ Shop Drawings before submission to Owner. If required or needed, Contractor must prepare and submit Coordination Drawings.

5. Submittals must be complete for each item of Work and must not be submitted piecemeal.

6. Present Shop Drawings in a clear and thorough manner. Identify details by reference to sheet and detail, schedule, and room numbers shown on Drawings.

E. Samples

1. Refer to Section 01332, “Submittal Log” and the Technical Specifications for the number of Samples to be submitted.

2. Each Sample must clearly note the manufacturer, trade name, product, lot style, color, model, etc., locations of use, and Contract Document reference.

F. Coordination Drawings (See also Section 01335, “Coordination Drawings”)
1. Contractor must prepare and submit drawings to demonstrate the coordination of methods, materials, equipment, plans, or sequence the Contractor proposes to use when:
   a. Coordination Drawings are specifically required by other sections of the Project Manual
   b. Limited space is available for installation of different components
   c. Coordination is required for installation of Products and materials Fabricated by separate entities
   d. The relationship of components is shown on separate Shop Drawings or Submittals.

2. Coordination Drawings must be submitted in the format required for Shop Drawings.

1.07 INFORMATIONAL SUBMITTALS

A. Prepare and submit Informational Submittals required by other section of the Project Manual.
   1. Number of Copies
      a. Refer to Section 01332, “Submittal Log”, for the number of copies to be submitted.
      b. Owner will not return copies.

B. Material Certificates: Prepare written statements on manufacturer's letterhead certifying that material complies with the requirements of the Contract Documents. An officer or other individual authorized to sign documents on behalf of that entity must sign certificates and certifications.

C. Material Test Reports: Prepare reports written by a qualified testing agency, on testing agency's standard form, indicating and interpreting test results of material for compliance with the requirements of the Contract Documents.

D. Preconstruction Test Reports: Prepare reports written by a qualified testing agency, on testing agency's standard form, indicating and interpreting results of tests performed before installation of product, for compliance with performance requirements.

E. Field Test Reports: Prepare reports written by a qualified testing agency, on testing agency's standard form, indicating and interpreting results of field tests performed either during installation of product or after product is installed in its final location, for compliance with the requirements of the Contract Documents.

F. Maintenance Data: Prepare written and graphic instructions and procedures for operation and normal maintenance of Products and equipment.
   1. Comply with requirements in Section 01770, “Closeout Procedures.”
   2. Comply with the requirements of Section 01782, "Operation and Maintenance Data"
   3. Comply with the requirements of the Technical Specifications.

G. Manufacturer's Instructions: Prepare written or published information that documents manufacturer's recommendations, guidelines, and procedures for installing or operating a product or equipment.
   1. Include name of product and name, address, and telephone number of manufacturer.
   2. Include the following, as applicable:
      a. Preparation of substrates.
      b. Required substrate tolerances.
      c. Sequence of installation or erection.
d. Required installation tolerances.

e. Required adjustments.

f. Recommendations for cleaning and protection.

**H. Manufacturer's Field Reports:** Prepare written information documenting factory-authorized service representative's tests and inspections. Include the following, as applicable:

1. Name, address, and telephone number of factory-authorized service representative making report.

2. Statement on condition of substrates and their acceptability for installation of product.

3. Statement that Products at Project Site comply with the requirements of the Contract Documents.

4. Summary of installation procedures being followed, whether they comply with requirements and, if not, what corrective action was taken.

5. Results of operational and other tests and a statement of whether observed performance complies with requirements.

6. Statement whether conditions, Products, and installation will affect Warranty/Guarantee.

7. Other required items indicated in individual sections of the Contract Documents.

**1.08 IDENTIFICATION**

A. Place a permanent label, or title block on each Submittal for identification.

1. The label or title block must include:

   a. Project name and number

   b. Date

   c. Name of Contractor

   d. Unique Submittal identifier, including revision number

   e. As appropriate:

      (1) Name of Subcontractor

      (2) Name of Supplier

      (3) Name of Manufacturer

      (4) Name of Fabricator

   f. Number and title of appropriate section of the Project Manual

   g. Drawing number and detail references, as appropriate

   h. Name of firm or entity that prepared each Submittal.

B. Contractor must provide a space approximately 3" x 3" on label or beside title block of each page of each Submittal to record review markings and action taken by Owner or Designer of Record.

C. Contractor must number all Submittals serially and continue in sequence. Resubmittals must have suffix letter A, B, C, etc. following the original Submittal number.

**1.09 CERTIFICATION** (See also Section 01450.1.15.C, “Submittal Certification”)

A. After Contractor’s review of each Submittal for compliance with the requirements of the Contract Documents: (See also Document 00700.3.26.2, “Contractor’s Responsibilities”)

1. Mark with certification stamp before submitting to Owner or Designer of Record.
2. Include Project name, Specification section, Contractor’s signature, and date of certification.

3. The Contractor’s Authorized Representative or QC Manager must wet sign and date the certification.

1.10 PACKAGING, TRANSMITTAL AND DISTRIBUTION

A. Packaging:
   1. Collect individual Submittals into a Complete Submittal for each Definable Feature of Work
   2. Individual Submittals and Complete Submittal must be adequately wrapped or packaged to prevent damage during delivery.
   3. All reproducible drawings must be rolled and not folded.

B. Transmittal
   1. Transmit each Complete Submittal using Contractor’s transmittal form.
      a. Owner and Designer of Record may discard Submittals received from sources other than Contractor.
      b. Owner and Designer of Record will not review Submittals that are not accompanied by Contractor’s transmittal and will return them “Returned Without Action.”
   2. On the transmittal, or a separate sheet attached to the transmittal prepared on Contractor's letterhead, record relevant information, requests for data, revisions, and each deviation from requirements of the Contract Documents, including minor variations and limitations.
   3. Transmittal Form: Provide the following information:
      a. Project name and location.
      b. Date.
      c. Destination (To:).
      d. Source (From:).
      e. Subcontractor’s, Supplier’s and/or manufacturer’s name, address, and telephone number.
      f. Submittal Distribution Group
      g. Submittal Type (Type 1 or Type 2)
      h. Reference to applicable sections or parts of the Contract Documents.
      i. Reference to the appropriate Definable Feature of Work
      j. Unique Submittal identifier, including revision number. Contractor must number all Submittals serially and continue in sequence. Resubmittals must have suffix letter A, B, C, etc. following the Submittal
      k. Product identification or Shop Drawing title, number, revision and date as applicable.
      l. Submittal and transmittal distribution record.
      m. Itemize each proposed deviation from the requirements of the Contract Documents. If a Submittal contains no proposed deviation(s), indicate that the Submittal contains “No Deviations.” Owner and Designer of Record may return Submittals “Returned Without Action” that do not list proposed deviations or state that Submittal contains “No Deviations” from the Contract Documents.
      n. Remarks.
o. Signature of transmitter.

C. Parallel Distribution of Submittals

1. Contractor is required to make parallel distribution of Submittals to multiple Submittal reviewers.
2. Refer to Section 01332, “Submittal Log”, for distribution of Submittals.
3. Contractor must, at its own expense, make parallel distribution of all Submittals.
4. Submittals must be concurrently transmitted to all parallel reviewers.

1.11 OWNER OR DESIGNER OF RECORD’S ACTION  (See also Document 00700.3.26.5, "Action and Distribution")

A. General

1. Owner will not review Submittals that do not bear the Contractor’s certification stamp and will return them “Returned Without Action.”

B. Action Submittals: Owner or Designer of Record will review each Submittal, make marks to indicate corrections or modifications required, and return it.

1. Owner or Designer of Record will stamp each submittal with an action stamp and will mark stamp appropriately to indicate action taken, as follows:

a. Final Unrestricted Release: When “No Exceptions Taken” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents. Final acceptance will depend on that compliance.

b. Final-but-Restricted-Release: When “Make Corrections Noted” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents and the corrections noted. Final acceptance will depend on that compliance.

c. When stamped “No Exceptions Taken” or “Make Corrections Noted” the Submittal is considered “acceptable.”

d. Returned for Resubmittal: Where the Submittal is marked “Revise and Resubmit,” do not proceed with the Work covered by the Submittal, including purchasing, Fabrication, delivery, or other activity for the product Submitted. Revise or prepare a new submittal according to the Owner’s or Designer of Record’s notations and corrections.

e. Rejected: Where the submittal is marked “Rejected,” do not proceed with the Work covered by the submittal, including purchasing, Fabrication, delivery, or other activity for the product Submitted. Prepare a new Submittal for a product that complies with the requirements of the Contract Documents.

f. Incomplete: Where the submittal is marked “Submit Additional Information,” do not proceed with the Work covered by the submittal. Prepare additional information requested, or required by the Contract Documents, that indicates compliance.

g. Returned Without Action: Where the submittal is marked “Returned Without Action,” it was not reviewed and Contractor must not proceed with the Work covered by the Submittal. Prepare a new Submittal that complies with the requirements of the Contract Documents.

C. Resubmittals: Contractor must make all required corrections and submit corrected resubmittals until achieving final acceptance.

D. Information Submittals: Information Submittals, on which Owner is not required to take action, will not be returned to the Contractor.
E. Submittals received from sources other than through Contractor's office will be "Returned Without Action" or may be discarded.

A. Document 00700.3.26, “Submittals”
B. Document 00700.3.28, “Coordination Drawings”
C. Section 01310, “Project Management and Coordination”
D. Section 01325, “Record Documents (As-Builts)”
E. Section 01330, “Submittal Procedures”
F. Section 01450, “Contractor’s Quality Control (QC) System”

1.03 DEFINITIONS
A. Coordination Drawing – Contractor prepared drawings submitted by Contractor to Owner to
demonstrate the coordination of methods, materials, equipment, systems, plans, or sequence
the Contractor proposes to use when limited space is available for installation of different
components, coordination is required for installation of Products and materials Fabricated by
separate entities, or the relationship of components is shown on separate Shop Drawings or
Submittals. Coordination Drawings are not considered Contract Documents.

1.04 INTENT
A. It is the intent of this Section to require the Contractor to prepare Coordination Drawings as
necessary or required to resolve potential installation and constructability problems prior to
Installation so that construction cost and schedule are not impacted.

1.05 SCHEDULING
A. Schedule preparation and processing of Coordination Drawings in accordance with the specific
Submittal deadlines and timeframes stated below.
   1. Unless otherwise specifically stated in the Contract Documents, or needed for proper
      coordination of the installation of early Work, all Coordination Drawing Submittals are due no
      later than 120 Days after the Start Date stated in the Notice to Proceed.
   B. Unless a longer period is specifically stated else ware in the Contract Documents, allow at least 21

1.06 COORDINATION DRAWINGS

A. Contractor must prepare and submit one (1) reproducible and eleven (11) copies of Coordination Drawings to demonstrate the coordination of methods, materials, equipment, plans, or sequence of Contractor proposes use when:

1. Coordination Drawings are specifically required
2. Limited space is available for installation of different components
3. Coordination is needed for installation of Products and materials Fabricated by separate entities
4. The relationship of components is shown on separate Shop Drawings or Submittals.

B. Coordination Drawings must be prepared and submitted for the following systems, equipment, and spaces:
   a. HVAC
   b. Plumbing
   c. Electrical
   d. Fire Sprinkler
   e. All Work above ceilings performed by separate entities that must interface or for which space provided is limited.

1.07 CONTRACTOR RESPONSIBILITIES

A. Oversee preparation of Coordination Drawings
B. Assign space priorities
C. Notify Owner in writing of unresolved conflicts or interferences found during preparation of Coordination Drawings.

1.08 COORDINATION DRAWING REQUIREMENTS

A. Coordination Drawings must include but are not necessarily limited to the following:
   1. Submit combined, comprehensive mechanical and electrical systems Coordination Drawings.
   2. Include ductwork, mechanical pipe, plumbing, electrical, sprinkler systems, and ceiling systems overlaid on structural frame.

B. Criteria:
   1. Size ductwork, mechanical pipe, plumbing, electrical, and sprinkler system components as shown on Drawings. Downsizing of Mechanical/Electrical (M/E) systems is not permitted.
   2. Show seismic restraints where required on systems.

C. Indicate how:
   1. Work will fit in the available space
   2. Work of the various trades or systems will Interface
   3. Contractor intends to sequence the Installation
1.09 NON-CONFORMING WORK
   A. Work not installed within designated coordination areas in compliance with the Owner accepted Coordination Drawings will be considered non-conforming Work subject to removal and replacement at no additional cost to Owner.

1.10 SUBMITTAL REQUIREMENTS
   A. Submit one (1) reproducible and eleven (11) copies of each Coordination Drawing.
   B. Comply with requirements of:
      1. Section 01330 – “Submittal Procedures”
      2. Section 01450, “Contractor’s Quality Control (QC) System”
   C. Signatures required on each sheet of Coordination Drawings:
      1. Coordination Drawing(s) must be signed and dated by Contractor and individual Subcontractors.
      2. By act of signature and submittal of the single combined Coordination Drawing(s), Contractor and each Subcontractor acknowledge that Work for which Contractor or said Subcontractor is responsible has been coordinated with the Work of Contractor and all other Subcontractors.

TESTING AND INSPECTION SERVICES

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED SECTIONS
A. Section 01450, “Contractor’s Quality Control (QC) System”
B. Section 01320.3.09, “Short Interval Schedule”

1.03 DEFINITIONS (Not Used)

1.04 QUALIFICATIONS
A. Testing and inspection agency must have a minimum 5 years continuing experience preceding date of these Contract Documents.
B. Testing and inspection agency must and be qualified in accordance Section 01450, “Contractor’s Quality Control (QC) System.”

1.05 TESTING EQUIPMENT
A. Testing equipment must be calibrated at intervals with devices of an accuracy traceable to either National Bureau of Standards or accepted values of natural physical constants.

1.06 INSPECTION AND TESTING PERSONNEL AND FACILITIES
A. Testing and Inspection Agency
   1. The Contractor must employ and pay for the services of an independent testing and inspection agency to perform the tests and inspections required herein except where noted otherwise.
   2. Employment of the testing and inspection agency shall in no way relieve the Contractor’s obligation to perform the Work as required in the Contract Documents.
B. Limitations of authority of the Testing and Inspection Agency
   1. Testing and Inspection Agency is not authorized to:
      a. Release, revoke, alter, or enlarge on the requirements of the Contract Documents
      b. Approve or accept any portion of the Work, or;
c. Perform any duties of the Contractor.

C. All Work must conform to the requirements of all applicable laws, codes, ordinances, and regulations.

D. Testing and Inspection Agency must perform tests and inspections as required by the Contract Documents.

E. Testing and Inspection Agency must prepare, cure, store, and transport Project samples to the Laboratory.

1.07 LABORATORY REPORTS

A. Within two (2) workdays after each inspection and test, submit twelve (12) copies of Laboratory report that include:

1. Date issued
2. Project title and number
3. Name of Inspector from Testing and Inspection Agency
4. Date and time of sampling or inspection
5. Identification of product and Project Manual section
6. Location in the Project
7. Type of inspection or test
8. Date of test
9. Results of tests
10. Conformance with Contract Documents
11. Whether original test or re-test
12. State/local permit number

B. Reports must be distributed to the following:

1. Owner’s Design Consultant (2 copies)
2. Construction Manager (1 copy)
3. General Contractor (2 copies)
4. Owner’s Project Manager (1 copy)
5. Additional Owner’s Consultant(s) (2 copy)

1.08 LABORATORY RESPONSIBILITIES

A. Provide qualified personnel at site.

B. Cooperate with Quality Control Manager in performance of services.

C. Perform specified inspecting, sampling, and testing of Products in accordance with specified standards.

D. Ascertain compliance of materials and mixes with requirements of Contract Documents.

E. Promptly notify Owner and Contractor of observed irregularities or non-conformance of Work or Products.

F. Perform additional inspection and testing required by Quality Control Manager.

G. Attend Preconstruction Meeting and progress meetings when requested.
1.09 CONTRACTOR'S RESPONSIBILITIES

A. Provide all Testing and Inspection Services required by the Contract Documents and additional tests as required by the Quality Control Manager.

B. Provide access to Work, including off-site manufacturer or fabricator's operations.

C. Provide required quantities of material samples to be tested.

D. Samples will be selected and taken by representative of Testing and Inspection Agency.

E. Furnish copies of product data and test reports as required.

F. Furnish incidental labor and facilities:
   1. To provide access to work to be tested;
   2. To obtain and handle samples at the Project Site, or at the source of the Product to be tested or inspected;
   3. To facilitate inspections and tests, and;
   4. For storage and curing of test samples at the Project Site.

G. Include in the weekly Short Interval Schedule (SIS) submission activities that identify upcoming testing and inspection requirements.

H. Schedule the tests and inspections required by the Contract Documents and applicable codes and regulations with the Quality Control Manager and the Testing and Inspection Agency, a minimum of 48 hours in advance.

I. Do not cover corrected Work until said Work has been re-tested and or re-inspected.

J. Contractor must pay costs for all Testing and Inspection required by the Contract Documents.

PART 2 - PRODUCTS (Not used)

PART 3 - EXECUTION (Not Used)

PART 4 - FORMS (Not Used)

END OF SECTION 01430
SECTION 01450
CONTRACTOR'S QUALITY CONTROL (QC) SYSTEM

PART 1 - GENERAL [OWNER'S PROJECT MANAGER & A/E TO COMPLETE SECTION 01450]

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents and Sections
      c. 1.03 - Definitions
      d. 1.04 - References
      e. 1.05 - Contractor's Quality Control (QC) System
      f. 1.06 - QC System Requirements
      g. 1.07 - QC System
      h. 1.08 - QC Organization
      i. 1.09 - QC Plan
      j. 1.10 - Coordination and Mutual Understanding Meeting
      k. 1.11 - QC Meetings
      l. 1.12 - Three Phases of Control
      m. 1.13 - Testing
      n. 1.14 - QC Documentation
      o. 1.15 - Certifications
      p. 1.16 - Milestone Completion Inspections
      q. 1.17 - Project Completion Inspection
      r. 1.18 - Notification of Non-Compliance
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms

1.03 DEFINITIONS
A. The following definitions as used in this Section mean:

1. Alternate QC Manager – The Owner accepted alternate QC Manager that performs the duties, responsibilities, and functions of the QC Manager when the QC Manager is absence from the Project Site.

2. Contractor's Daily Report – See Document 00700.3.3.6 and Section 01320.3.14, “Project Reports.”

3. Coordination and Mutual Understanding Meeting – A meeting occurring after Contractor’s submission of the QC Plan and before starting Work, at which the QC Manager presents the QC Program to the Owner.

4. Corrective Action Plan – A written document submitted by the QC Manager to the Owner stating the Contractor’s plan to correct an item of Work that fails to conform to the requirements of the Contract Documents. Three (3) copies of the Corrective Action Plans must be submitted with the Report of Test Results, inspection report, or Owner’s non-conformance notice no later than 10 a.m. the third workday after each failed test, inspection, or receipt by Contractor of a non-conformance notice from the Owner.

5. Phase I – The first (Preparatory) phase of the Three Phases of Control consisting of the actions required before beginning any work involving a Definable Feature of Work. (Also sometimes referred to as Preparatory Phase.)

6. Phase 2 - The second (work) phase of the Three Phases of Control consisting of the actions required to perform the work of a Definable Feature of Work. (Also sometimes referred to as Work Phase.)

7. Phase 3 - The third (follow-up) phase of the Three Phases of Control consisting of the actions required to follow-up on the Work performed. (Also sometimes referred to as Follow-up Phase.)

8. Preparatory Phase Checklist – A checklist prepared by the QC Manager, in a format furnished or accepted by the Owner, for each Definable Feature of Work in the Preparatory Phase.

9. Preparatory Phase Meeting – A meeting called by the QC Manager at least two (2) workdays before beginning Work on any Definable Feature of Work. The Owner’s Inspector, the QC Specialist and the Contractor’s supervisor responsible for the Definable Feature of Work must attend this meeting.

10. QC Documentation - The special QC Documentation requirements summarized in “Table 01450-1 - QC Documentation”

11. QC Meetings - Recurring QC meetings held at least once every two weeks at the Work site with Owner’s Project Manager, Contractor’s Project superintendent, QC Manager (if different from Contractor’s Project superintendent), and QC Specialist(s).

12. QC Manager – Contractor’s employee accepted by the Owner and responsible for managing Contractor's QC System.
13. QC Manager’s Daily QC Report – A written document prepared, certified, and submitted by the QC Manager in the format, containing the information, covering the period(s), and at the frequency required by Section 01450.1.14, “QC Documentation”.

14. QC Plan – Contractor’s written plan identifying all QC personnel, procedures, inspections, tests, instructions, reports, records, and schedules.

15. QC Program – Contractor’s Quality Management requirements for all on-site and off-site Work, including documentation, administration, and coordination of Contractor’s management, production and QC personnel.

16. QC Specialist – The Quality specialist at the Project Site, in addition to other specialized testing and inspection personnel, responsible for Quality Management of a specific or specialized area of Work.

17. QC Specialist’s Daily QC Report - A written document, in the same format as the QC Manager’s Daily QC Report, prepared and signed by the QC Specialist for each day the Work is performed in his/her area of responsibility.

18. QC System - The means by which Contractor ensures Quality.

19. Quality - Conformance to the requirements established by the Contract Documents

20. Quality Control (QC) - The Contractor's system in place during execution of the Work, to manage and control its own, and its Supplier’s and Subcontractor's activities to comply with the requirements of the Contract Documents.

22. Quality Management - Quality Control and assurance activities instituted to achieve the Quality Levels established by the Contract Documents.

23. Rework Items List - A written list of Work that does not comply with the requirements of the Contract Documents, maintained by the QC Manager, identifying the items of Work requiring correction, the date the item was originally discovered, the anticipated date for correction of the item, and the actual date of correction.

25. Submittal Log - A written list in a format furnished by or accepted by the Owner, indicating the status of all Submittals required by the Contract Documents, grouped by Definable Feature of Work (DFOW), and prepared and maintained by the QC Manager. (See Section 01320.3.13, “Submittal Log”, and Section 01332, “Submittal Log” for additional requirements)

26. Testing Plan and Log – A written document, prepared and maintained by the QC Manager, indicating all tests required by the Contract Documents, the entity responsible for performing the test, the date each test was conducted, the date test results were submitted to Owner, remarks, and containing the QC Managers certification that an accredited testing Laboratory was used.

27. Three Phases of Control - Phase I – Prepatory Phase; Phase 2 – Work Phase; and Phase III – Follow-up Phase.

28. Work Phase – Phase 1, Phase 2, or Phase 3.

29. Work Phase Checklist - The checklist prepared by the QC Manager, in a format furnished by or accepted by the Owner, for each Definable Feature of Work in the Work Phase.

1.04 REFERENCES
A. The publications listed below are part of the requirements of the Contract Documents to the extent referenced:

4. ASTM D 3740(1999; Rev C.) Minimum Requirements for Agencies Engaged in the Testing and/or Inspection of Soil and Rock as Used in Engineering Design and Construction
5. ASTM E 329(2000; Rev. A) Agencies Engaged in the Testing and/or Inspection of Materials Used in Construction

1.05 CONTRACTOR’S QUALITY CONTROL (QC) SYSTEM

A. Contractor’s QC System is the means by which Contractor ensures Quality.

B. Contractor must establish and maintain a QC System, performing sufficient inspections and tests of all items of Work, including Work of its Subcontractors and Suppliers, to ensure conformance with the requirements of the Contract Documents. Contractor's Quality Control measures must be adequate to cover all construction operations and must be correlated with the Official Progress Schedule.

C. Contractor’s QC System must include the inspections and tests required by the Contract Documents in addition to Contractor’s own inspections and tests necessary to control Quality. Contractor must maintain and submit to Owner adequate records of all inspections and tests, and must submit all test results on forms furnished or accepted by Owner.

D. Contractor must closely inspect all materials upon delivery, and all Work in progress for compliance with the requirements of the Contract Documents. Contractor must promptly reject and return all defective materials and rework any substandard Work without waiting for rejection by Owner.

E. Contractor must submit and Owner must accept Contractor’s Quality Control Plan (QC Plan) before starting any Work at the Project Site. Work will be permitted to start only after Owner reviews and accepts Contractor's QC Plan. The QC Plan must identify all QC personnel, procedures, inspections, tests, instructions, reports, records, schedules, etc.

1.06 QC SYSTEM REQUIREMENTS

A. The QC System, as defined herein, establishes specific minimum staffing, documentation, reporting, and procedural requirements that Contractor must implement and maintain throughout the Contract Time.

B. The following points are fundamental to the QC System:

1. Owner is not responsible for controlling the Quality of Contractor’s Work.
2. Contractor is responsible for implementing and maintaining specific minimum processes and measures for controlling the Quality of the Work.
3. The requirements of the Contract Documents establish the Quality Level.
4. Owner has the right to inspect the Work; Contractor has the obligation to inspect the Work.
5. Owner will review Contractor's QC System for compliance with the requirements of the Contract Documents.

6. The objective of Contractor's QC System is to prevent deficiencies in the Work.

7. Contractor must staff the Project with a QC Manager who is responsible for managing Contractor's QC System.

8. Contractor must employ specialized inspectors (QC Specialists) to assist the QC Manager. Contractor may obtain QC Specialists from outside testing and inspection firms. Their qualifications and duties are detailed in Section 01450.1.08, “QC Organization.” QC Specialists must report directly to the QC Manager and must be independent of Contractor's production organization.

9. Contractor must develop and submit twelve (12) copies of a QC Plan that complies with the requirements of Section 01450.1.09, “QC Plan.” The QC Plan must be submitted to, and be accepted by Owner before Contractor performs any Work on the Project Site.

1.07 QC SYSTEM

A. Contractor must establish and maintain a QC System as described herein. At a minimum, the QC System must consist of:

1. QC Organization
2. QC Plan
3. Initial Coordination and Mutual Understanding Meeting
4. Recurring QC Meetings
5. Three Phases of Control
6. Testing
7. QC Documentation
8. QC Manager's Certifications
9. Completion Inspections

B. The QC System must cover on-site and off-site Work and must be correlated with the Official Progress Schedule and Short Interval Schedules.

C. No on-site Work or testing shall be performed unless the QC Manager or Alternate QC Manager is at the Work site.

D. Owner reserves the right to require changes in the QC Plan and operations as necessary, including removal of personnel, to ensure the specified Quality of Work. Owner reserves the right to interview any member of Contractor's QC organization at any time to verify their submitted qualifications.

E. Contractor must notify Owner, in writing, of any proposed change to the QC Plan, including changes to QC Organization or personnel, a minimum of seven (7) Days prior to a proposed change. Proposed changes are subject to acceptance by Owner.

1.08 QC ORGANIZATION

A. QC Manager:

1. Provide a QC Manager at the Work site to implement and manage the QC program. Contractor's Project superintendent or Contractor's Authorized Representative may function as the QC Manager in addition to their other duties.
2. Within seven (7) days after Award, Contractor must submit for acceptance by the Owner, three (3) copies of an Appointment letter for the QC Manager. The Appointment letter must be accompanied by a detailed resume for the candidates documenting their relevant experience and providing at least three current references. The submittal may be certified by the Owner's Authorized Representative for compliance with the Requirements of the Contract Documents. Copies of the Owner accepted Authorization letter for the QC Manager and supporting information must be included in the Contractor's CQ Plan submittal.

3. Duties:
   a. Be on the Work site at all times during performance of Work, with complete authority to take any action necessary to ensure conformance with the requirements of the Contract Documents. In the event of the QC Manager's absence, the Alternate QC Manager must be present and have the same authority as the QC Manager.
   b. Implement and manage the Three Phases of Control for each Definable Feature of Work.
   c. Immediately stop any work that does not comply with requirements of the Contract Documents, and direct removal and replacement of any defective Work.
   d. Conduct daily inspections of Work performed to ensure compliance with requirements of the Contract Documents.
   e. Certify daily that all Work performed, on and off the construction site, conforms to requirements of the Contract Documents. Certify daily that all materials and equipment delivered or installed in the Work comply with the requirements of the Contract Documents. Report any deficiencies and corrective action planned and taken.
   f. Ensure that Contractor's QC Organization is adequately staffed with qualified personnel to perform all required inspections and tests.
   g. Supervise and coordinate the inspections and tests made by the QC Organization, including the tests and inspections of the Work of Subcontractors and Suppliers.
   h. Ensure that all required tests are performed and results are reported. Indicate whether test results do or do not conform to requirements of the Contract Documents. Submit Corrective Action Plan(s) for nonconforming items.
   i. Recommend removal of any person from the Project that consistently fails to perform Work properly.
   j. Report to Contractor's senior management the identity of any Subcontractor or Supplier who's Work consistently fails to meet the requirements of the Contract Documents.
   k. Attend the Coordination and Mutual Understanding Meeting and conduct all recurring QC Meetings.
   l. Submit one (1) copy of certified QC Manager's Daily QC Reports in the specified format.
   m. Certify all Submittals for conformance with the requirements of the Contract Documents.
   n. Certify each payment invoice.
   o. Certify completion prior to requesting Milestone Completion inspection.
   p. Certify completion prior to requesting Final Inspection.
q. At the Work site, perform daily maintenance and updating of the following:

(1) Submittal Log
(2) Testing Plan and Log
(3) Rework Items List
(4) Record Documents (as-built Drawings and Project Manual), marked to show any deviations made from the requirements of the Contract Documents and to indicate the actual materials and equipment incorporated in to the Work.
(5) Records Binder containing all Quality Control records.

r. Attend all key Project Meetings including Preconstruction Conference, Schedule Orientation Meeting, Progress Meetings, Commissioning Meetings, Demonstration and Training Meetings, and Closeout Conference.

4. Qualifications:

a. A minimum of 5 years experience as a superintendent, construction QC manager, construction project manager, construction project engineer, or construction manager on similar size and type of construction projects that included the major trades involved with this Project.

B. Alternate QC Manager Duties and Qualifications:

1. Designate an Alternate QC Manager to serve at the Project Site in the absence of the designated QC Manager. The qualification requirements for the Alternate QC Manager are the same as for the QC Manager.

2. Within seven (7) days after Award, Contactor must submit for acceptance by the Owner, three (3) copies of an Appointment letter for the Alternate QC Manager. Appointment letter must be accompanied by a detailed resumes for the candidate documenting their relevant experience and providing at least three current references. The submittal may be certified by the Owner's Authorized Representative for compliance with the Requirements of the Contract Documents. Copies of the Owner accepted Authorization letter for the Alternate QC Manager and supporting information must be included in the Contractor's CQ Plan submittal.

3. The designated QC Manager must not be absent from the Project Site for more two consecutive weeks at a time.

C. QC Specialist Duties and Qualifications:

1. As a minimum, provide a separate QC Specialist at the Project Site for the area of responsibility specified below.

2. The QC Specialist will assist and report directly to the QC Manager and must have no Project duties other than assigned Quality Control duties.

3. The QC Specialist must attend the Coordination and Mutual Understanding Meeting, be physically present at the construction site to perform the Three Phases of Control for Work in the assigned area of responsibility, at the frequency specified below and prepare required documentation.

4. The QC Specialist must submit a certified and dated QC Specialist’s Daily QC Report, for each day the Work is performed in his/her area of responsibility, in the same format as the QC Manager’s Daily QC Report. QC Specialist’s Daily QC Report must be submitted to the Owner on the next workday.

5. The QC Specialist position is in addition to other specialized testing and inspection personnel to be provided by Contractor, as identified in the Contract Documents, such as manufacturer's representatives, Testing Laboratory personnel, etc.
1.09 QC PLAN

A. Requirements:

1. Within fourteen (14) Days of the official Contract start date stated in the Notice to Proceed, submit twelve (12) copies of a draft QC Plan covering both on-site and off-site Work. The draft QC Plan must be bound in a 3-ring binder, the pages must be numbered sequentially, and the following information must be included:

a. Table of Contents listing the major sections identified with tabs in the following order:
   1. QC ORGANIZATION
   2. NAMES AND QUALIFICATIONS (Resumes)
   3. DUTIES, RESPONSIBILITIES AND AUTHORITY OF QC PERSONNEL
   4. APPOINTMENT LETTERS
   5. CONTRACTED ORGANIZATIONS
   6. INITIAL SUBMITTAL LOG INFORMATION
   7. TESTING LABORATORY INFORMATION
   8. TESTING PLAN AND LOG
   9. REWORK TRACKING PLAN
   10. LIST OF DEFINABLE FEATURES OF WORK

b. QC organizational chart, showing the relationship of the QC Manager to Contractor's organization and officers, the Contractor's Project superintendent, Project and QC staff, Subcontractors, testing firms, consultants, etc.

c. Names and qualifications, in resume format, for each person in the QC organization.

d. Description of duties, responsibilities and authorities of each person in the QC organization.

e. Appointment letters for the QC Manager and Alternate QC Manager signed by a company officer of Contractor.

f. Copy of letter of direction to QC Specialist from QC Manager outlining duties, authorities, and responsibilities.

g. List of subcontracted organizations such as testing firms, architects and engineers that will be employed by Contractor, and a description of the services they will provide.

h. Initial Submittal Log in a format furnished or accepted by Owner.

i. Testing Plan and Log in the format accepted by Owner, including all tests required by the Contract Documents, applicable Codes, and other tests deemed necessary by Contractor, identified by the document requiring the test, the frequency, and the person responsible for performing each test.

j. Testing Laboratory accreditation and capability information required by Section 01450.1.13, “Testing.”

k. Rework Tracking Plan and Rework Items List in the format accepted by the Owner, to identify, record, track and complete Rework items.

l. List of Definable Features of Work.
   1. A Definable Feature of Work (DFOW) is a task that is separate and distinct from other tasks and has common control requirements and work crews. Each
technical Specification Section could be considered a DFOW, but often there is more than one DFOW per Section and there may be more than one section per DFOW.

(2) This List of DFOW's must be cross-referenced to the activities on the Official Progress Schedule and the section references from the Project Manual. This DFOW list must include, but is not limited to, all Critical Path activities.

(3) DFOW's are used in the Three Phases of Control and for grouping Submittals in the Submittal Log.

Within twenty-eight (28) Days of the official Contract start date stated in the Notice to Proceed, submit twelve (12) copies of a final draft of the QC Plan covering both on-site and off-site Work for Owner's acceptance.

1.10 COORDINATION AND MUTUAL UNDERSTANDING MEETING

A. After submission of the final draft of the QC Plan and before starting Work, meet with Owner's Project Manager to present the QC Program.

B. Meeting attendees will be, as a minimum, Owner's Project Manager, Contractor's Authorized Representative, Contractor's superintendent, QC Manager (if different from Contractor's Authorized Representative or superintendent), Alternate QC Manager, and QC Specialist(s).

C. This Meeting is to develop a mutual understanding of QC Program requirements for all on-site and off-site Work, including documentation, administration, and coordination of Contractor's management, production and QC personnel.

D. At this meeting, Contractor must explain in detail how the Three Phases of Control will be implemented for each Definable Feature of Work.

E. The QC Manager must conduct the Coordination and Mutual Understanding Meeting, prepare and sign the meeting minutes, and provide copies to each attendee within 2 workdays after each Meeting.

F. If a new QC Manager is appointed at any time during the Contract Time, the Coordination and Mutual Understanding Meeting must be repeated.

1.11 QC MEETINGS

A. After Work begins, recurring QC Meetings will be held at least once every two weeks at the Work site with Owner's Project Manager, Contractor's Authorized Representative, Contractor's Project superintendent, QC Manager (if different from Project superintendent of Contractor's Authorized Representative), and QC Specialist(s).

1. QC meetings may coincide with other project meetings.

2. The QC Manager must conduct the QC Meetings, prepare and sign the meeting minutes, and provide copies of the minutes to each attendee and submit two (2) copies to the Owner within 2 workdays after each Meeting.

B. As a minimum, the following will be accomplished at each QC Meeting

1. Review status of problems recorded in the minutes of previous meeting.

2. Review Official Progress Schedule and status of Work
   a. Work or testing accomplished since last meeting
   b. Rework items identified since last meeting
   c. Rework items completed since last meeting

3. Review Submittal Log and status of Submittals
   a. Submittals reviewed and returned since last meeting

01450-9
b. Submittals required in near future

4. Review Work to be done in next 2 weeks and documentation required

5. Establish completion dates for Rework items

6. Update or revise the Official Progress Schedule and Short Interval Schedules to indicate the planned and actual dates of Preparatory Phase, Work Phase, and Follow-up Phase, including testing and inspections.

7. Discuss proposed construction and the approach to be used to ensure Quality Work.

8. Identify potential problems for each Definable Feature of Work.

9. Discuss status of off-site Work and testing.

11. Verify that each Checklist includes a breakdown of Quality checks that will be used when performing QC functions, inspections, and tests required by the Contract Documents.

12. Resolve QC and production problems
   a. Problems relating to correction of deficiencies.
   b. Problems relating to Requests for Information (RFI’s)

13. Address items that may require revising the QC Plan:
   a. Changes in procedures
   b. Changes in QC organization or personnel

1.12 THREE PHASES OF CONTROL

A. The QC Manager must implement and manage the following Three Phases of Control for each Definable Feature of on-site and off-site Work:

1. Phase I - Preparatory
   a. The Preparatory Phase consists of the actions required before beginning any Definable Feature of Work.
   b. The QC Manager must call a Preparatory Phase Meeting at least two (2) workdays before beginning Work on any Definable Feature of Work. The Owner’s Inspector, the QC Specialist and the Contractor’s supervisor responsible for the Definable Feature of Work must attend this meeting.
   c. Perform the following before beginning Work on each Definable Feature of Work:
      (1) Review and fill out the Preparatory Phase Checklist
      (2) Review applicable Project Manual section(s)
      (3) Review the Drawings
      (4) Verify that appropriate Submittals for materials and equipment have been certified by the QC Manager, submitted, and accepted by the Owner.
      (5) Verify receipt of factory test results, when required
      (6) Review the Testing Plan and Log, and ensure that provisions have been made to perform the required QC testing
(7) Examine the Work area to ensure that required preliminary Work has been completed.

(8) Examine the required materials, equipment and Sample Work to ensure that they are on hand and conform to Submittals accepted by Owner or Designer of Record.

(9) Discuss proposed construction, workmanship standards, tolerances, and the approach to be used to provide Quality construction by planning ahead and identifying potential problems for each Definable Feature of Work.

(10) Document the results of the Preparatory Phase actions in the QC Manager’s Daily QC Report and in the Preparatory Phase Checklist.

2. Phase 2 - The Work on each Definable Feature of Work
   a. The QC Manager must notify Owner’s Inspector at least 2 workdays before starting Work.
   b. Before starting work on a DFOW, the QC Manager must meet with the Project superintendent, the supervisor responsible for constructing the DFOW, and the QC Specialist if applicable, to perform the following:
      (1) Review and fill in the Work Phase Checklist
      (2) Establish the Quality of workmanship required
      (3) Identify and resolve potential conflicts with other Work
      (4) Ensure that testing is performed
   c. The QC Manager must observe the Work to ensure that it complies with the requirements of the Contract Documents.
   d. The QC Manager must document the results in the QC Manager’s Daily QC Report and submit the completed Work Phase Checklist to the Owner on the next workday.
   e. Repeat Phase 2 for each DFOW, for each new crew to Work on site, or when specified Quality Levels are not being met.

3. Phase 3 - Follow-Up (Performed Daily)
   a. The QC manager must perform the Follow-up Phase daily for each DFOW, or more frequently as necessary until completion, and must document the results in the QC Manager’s Daily QC Report, to:
      (1) Ensure that Work is in compliance with the requirements of the Contract Documents.
      (2) Maintain the Quality of workmanship required.
      (3) Ensure that the Approved Laboratory performs testing.
      (4) Ensure that rework items are being corrected.

B. Additional Preparatory and Work Phases
   1. The QC manager must conduct additional Preparatory and Work Phases for Definable Features of Work, if the Quality of on-going Work is unacceptable, if there are changes in the QC organization, if there are changes in on-site supervision or workers, if Work on a Definable Feature of Work is resumed after substantial period of inactivity, or if problems develop.

C. Notification Requirements for Three Phases of Control for Off-Site Work
1. Notify Owner's Inspector at least two weeks prior to the start of the Preparatory and Work Phases for off-site Work.

1.13 TESTING

A. Contractor must perform all sampling and testing required by the Contract Documents and set forth in the Testing Plan and Log.

B. Construction Materials Testing Laboratory Requirements:

1. Provide and pay for an independent construction materials testing Laboratory (or laboratories, as necessary) accredited by one of the laboratory accreditation authorities listed in below to perform sampling and testing required by the Contract Documents. The Laboratory's scope of accreditation must include the ASTM standards that apply to the specific testing fields listed below. This requirement applies to the specific Laboratory performing the actual testing, not just the "Corporate Office".

2. For testing laboratories that have obtained accreditation by an acceptable laboratory accreditation authority listed below, Contractor must submit to Owner eight (8) copies of the Certificate of Accreditation and Scope of Accreditation within seven (7) Days after the start date for the Work as stated in the Notice to Proceed. The scope of the Laboratory's accreditation must include the test methods required by the Contract Documents.

3. Testing laboratories that have not yet obtained accreditation by an acceptable laboratory accreditation authority listed below must:

   a. Within seven (7) Days after the start date for the Work as stated in the Notice to Proceed, submit for Owner's acceptance an acknowledgment letter from one of the acceptable laboratory accreditation authorities stating that the application for accreditation has been received and the accreditation process has started.

   b. Within seven (7) Days after the start date for the Work as stated in the Notice to Proceed, submit for Owner's acceptance, certified statements, signed by an official of the laboratory, attesting that the proposed laboratory meets or conforms to the ASTM standards appropriate to the testing field as listed below.

4. Acceptable Laboratory Accreditation Authorities are:

   a. National Voluntary Laboratory Accreditation Program (NVLAP) administered by the National Institute of Standards and Technology
   b. American Association of State Highway and Transportation Officials (AASHTO)
   c. ICBO Evaluation Service, Inc. (ICBO ES)
   d. American Association for Laboratory Accreditation (ASLA) program.

5. The ASTM Standards for specific testing fields are as follows:

   a. Construction materials: ASTM E 329
   b. Concrete and concrete aggregates: ASTM C 1077
   c. Steel, stainless steel, and related alloys: ASTM A 880

6. Within seven (7) Days after the start date for the Work as stated in the Notice to Proceed, submit eight (8) copies of the following capability information for each proposed laboratory:

   a. Organizational description
   b. List and resume(s) of personnel
c. List of equipment corresponding to each test noted in the Testing Log, and calibration certifications.

7. Include the above accreditation and capability information in the QC Plan.

C. Capability Verification by Owner:

1. Owner has the right to verify the adequacy of the proposed laboratory's personnel, equipment, procedures, techniques, and other items pertinent to testing with the requirements of the Contract Documents.

D. Reports of Test Results:

1. Action by testing individual or organization:
   a. Submit actual test results.
   b. Cite applicable requirements of the Contract Documents and the tests or analytical procedures that were used.
   c. State whether the item tested or analyzed conforms or fails to conform to specified requirements.
   d. Conspicuously stamp the cover sheet for each report in large red letters "CONFORMS" or "DOES NOT CONFORM" to the requirements of the Contract Documents, whichever is applicable.
   e. A testing Laboratory representative, licensed as a Professional Engineer in the State of California and authorized to sign certified test reports, must sign all Reports of Test Results.
   f. Submit test results directly to the Owner and Contractor by 10 a.m. of the second workday after performing each test.

E. Action by QC Manager

1. As tests are performed, record the results on the "Testing Plan and Log." Include the date each test was conducted, date the test results were submitted to Owner, remarks, and certification that an accredited testing Laboratory was used.

2. If an item fails to conform, notify Owner's Inspector immediately and submit a Corrective Action Plan for the item with a copy of the Report of Test Results.

3. Submit Corrective Action Plan by 10 a.m. of the third workday after each failed test.

4. Submit an updated copy of the "Testing Plan and Log" at each QC Meeting.

1.14 QC DOCUMENTATION

A. This section lists and describes the special QC Documentation required to show that materials, equipment, workmanship, fabrication, construction and operations comply with the requirements of the Contract Documents.

C. QC Manager's Daily QC Report:

1. The QC Manager must submit a certified QC Manager's Daily QC Report in the specified format. One (1) copy of each QC Manager's Daily QC Report must be submitted to Owner the following workday.
2. Reports are required for each day that Work is performed and for every seven consecutive calendar Days of no Work and on the last day of a no-work period. Account for each calendar day throughout the entire Contract Time.

3. Manager must prepare, sign and date each QC Manager's Daily QC Report, which must contain the following information:
   a. Date of report, report number, Contract Number and Title.
   b. For each of the Three Phases of Control:
      (1) Describe each item of Work performed each day, including on-site and off-site Work.
      (2) Reference Official Progress Schedule Activity number for each item of Work
      (3) Reference the Definable Feature of Work
      (4) Reference the Project Manual section(s).
      (5) Report results of Follow-up Phase inspections.
   c. Certify that Work for each Definable Feature of Work complies with the requirements of the Contract Documents and that required testing has been performed.
   d. Identify who performed the testing.
      (1) List each Rework item identified, but not corrected by close of business, along with its Official Progress Schedule Activity number.
      (2) List each Rework item corrected from the Rework Items List along with the corrective action taken and its Official Progress Schedule Activity Number.
   e. Include a "Remarks" section containing pertinent information including construction deficiencies encountered, QC problem areas, deviations from the QC Plan, QC meetings held, acknowledgement that Record Documents have been updated, directions received, corrective direction provided by the QC organization, and corrective actions taken by Contractor. For each remark provided, identify it by its corresponding Official Progress Schedule Activity Number.
   f. QC Manager's Daily QC Report certification, signature and date.

4. QC Manager's Daily QC Report Continuation Sheet: This sheet includes space for additional daily information. Continuation Sheets may be added as necessary and attached to the QC Manager's Daily QC Report.

D. Preparatory Phase Checklist:
   1. The QC Manager must prepare this Checklist for each Definable Feature of Work in the Preparatory Phase. Identify this Checklist by terminology consistent with the Official Progress Schedule. Attach this Checklist to the QC Manager's Daily QC Report of the same date.
      a. Enter Project Manual section, date of report, and Contract number
      b. Each Definable Feature of Work, Official Progress Schedule Activity number and format must match its entry in the Preparatory Phase section of the QC Manager's Daily QC Report
      c. Personnel Present: Report whether or not Owner's Inspector was notified. Report the names of attendees at Preparatory Phase Meeting, their position and company/organization
d. Submittals: Indicate if Submittals have been submitted (Yes/No checkboxes) and if not, indicate what has not been submitted. Are materials on hand (Yes/No checkboxes) and if not, report any missing items. Check delivered material and equipment against Submittals accepted by the Owner or Designer of Record and report the status.

e. Material Storage: Report if materials and equipment are stored properly (Yes/No checkboxes), and if not, the action taken.

f. Project Manual: Review and comment on the requirements of the Project Manual that describe the material, equipment, and procedures for accomplishing the Work, and clarify any differences.

g. Preliminary Work & Permits: Assure that Preliminary Work is in accordance with the requirements of the Contract Documents, and that all necessary permits are on file, and if not, report the action taken.

h. Testing: Identify who performs tests, the test location and frequency. Review the Testing Plan, report abnormalities, and if the test facilities have been Approved.

i. Meeting Comments: Respond to comments and remarks made during the Preparatory Phase Meeting that were not addressed in previous sections of this Checklist.

j. Other Items or Remarks: Note any other remarks or items that were a result of the Preparatory Phase.

k. The QC Manager must sign and date this Checklist.

E. Work Phase Checklist:

1. The QC Manager must prepare this Checklist for each Definable Feature of Work in the Work Phase. Identify this Checklist by Activity numbers from the Official Progress Schedule. Attach this Checklist to the QC Manager’s Daily QC Report of the same date.

   a. Enter Project Manual section, date of report, and Contract number.

   b. Each Definable Feature of Work, Official Progress Schedule Activity Number, and index number, entry and format must match its entry in the Work Phase section of the QC Manager’s Daily QC Report.

   c. Personnel Present: Report whether or not Owner’s Inspector was notified. Report the names of attendees at Work Phase meeting, their position and company/organization.

   d. Procedure Compliance: Comment on compliance with procedures identified at Preparatory Phase and actions taken to assure that Work is in accordance with the requirements of the Contract Documents and accepted Submittals.

   e. Preliminary Work: Assure preliminary Work is in compliance with the requirements of the Contract Documents and if not, what action is/was taken.

   f. Workmanship: Identify where initial Work is located; if a sample panel is required (Yes/No checkboxes); is the initial Work the sample (Yes/No checkboxes); and if Yes, describe the panel location and precautions taken to preserve the sample.

   g. Resolution: Comment on any differences and resolutions reached.

   h. Other: Note any other remarks or items resulting from the Work Phase.

   i. The QC Manager must sign and date this Checklist.

F. Rework Items List:
1. The QC Manager must maintain a list of Work that does not comply with the requirements of the Contract Documents (the Rework Items List), identifying what items need to be reworked, the date the item was originally discovered, the anticipated date for correction of the item, and the actual date of correction. There is no requirement to report a Rework item that is corrected the same day it is discovered.

2. Attach a copy of the "Rework Items List" to the last QC Manager’s Daily QC Report of each month and submit to the Owner. Contractor is responsible for including on this list all items needing rework including those identified by Owner’s Inspector.

G. QC Records Binders: Establish and maintain the following in a series of 3 ring binders. Binders must be divided and tabbed as indicated below. These binders must be readily available to Owner during all Normal Hours Of Work.

1. QC Plan
2. List of all Definable Features of Work
3. Initial Submittal Log and all updates
4. Testing Plan and Log and all updates
5. QC Meeting Minutes
6. Manufacturer's Certificates and Certificates of Compliance
7. Contractor's Daily Reports
8. QC Manager’s Daily QC Reports
9. QC Specialist’s Daily Reports
10. All reports of test results
11. All summaries of test results
12. All completed Preparatory and Work Phase Checklists, arranged by Project Manual section.
13. Any interim Milestone inspections, arranged by Milestone number from the Official Progress Schedule.
14. Copies of all Approved Change Orders, Field Modifications, and RFI responses, arranged in numerical order. Also include documentation that changed Work was accomplished.
15. Copies of all Rework Items Lists.
16. Copies of all Deficiency Lists (Punch Lists) issued by QC Staff, Contractor, or Subcontractors, and all Deficiency Lists issued by Owner.

H. Record Documents ('as-built' Drawings and ‘as-built’ Project Manual):

1. In addition to the requirements of Document 00700.3.3, “Documents and Samples at the Project Site”, the QC Manager must ensure that Record Documents are kept current on a daily basis and marked to show deviations from the requirements of the Contract Documents.

2. Ensure each deviation has been identified with the appropriate modifying documentation (e.g., Change Order #, Field Modification #, Request for Information #, etc.).

3. The QC Manager (or assigned QC Specialist) must initial each deviation and each revision.

4. Upon completion of the Work, the QC Manager must certify the accuracy of the Record Documents as required in Section 01450.1.15.G, “Record Document Certification.”
I. Records of Contractor’s Quality Control Plan and its implementation

1. Upon completion of the Work, submit three (3) copies of the records of Contractor’s Quality Control Plan and its Implementation must be Submitted to the Owner in a durable plastic binder approximately 9” x 12” in size with at least the following:
   a. Identification on, or readable through, the front cover stating the project name and nature of the document.
   b. Front index indicating the location of major categories of data in the binder.
   c. All test results (Code Compliance, Owner Specified and Contractor’s own).
   d. All inspection reports and records of required corrective measures.

1.15 CERTIFICATIONS

A. QC Manager’s Daily QC Report Certification

1. All signatures must be original and in “blue” ink. Stamped signatures are not acceptable.

2. QC Manager’s Daily QC Report Certification: Each QC Manager’s Daily QC Report must contain the following statement signed by the QC Manager:

   "On behalf of Contractor, / certify that this report is complete and correct, that equipment and material used, and Work performed during this reporting period are in compliance with the requirements of the Contract Documents to the best of my knowledge, except as noted in this Report.

   Certified by QC Manager__________________________, Date______ "
   (Signature)

B. QC Specialist’s Certification

1. QC Specialist’s Daily QC Report Certification: Each QC Specialist’s Daily QC Report must contain the following statement signed by the QC Specialist:

   "On behalf of Contractor, / certify that this report is complete and correct, that equipment and material used, and Work performed during this reporting period are in compliance with the requirements of the Contract Documents to the best of my knowledge, except as noted in this Report.

   Certified by QC Specialist__________________________, Date_______" (Signature)

C. Submittal Certification (GSA Procedure) (See Document 00700.3.26.2.3)

1. Except for the QC Manager and Alternate QC Manager Appointment letters which may be certified by the Contractor’s Authorized Representative, the QC Manager must stamp and sign each sheet of each Submittal with the following QC certifying statement (except that data submitted in bound volume or on one sheet printed on two sides may be stamped on the front of the first sheet only):

   "The (equipment) (material) (article) shown and marked in this Submittal is that proposed to be incorporated with Project Name (__________), Contract Number (__________), Project Manual Section (_________), has been checked and complies in all respects, except as specifically noted in writing on the Submittal and accompanying transmittal, with the requirements of the Contract Documents, is a Complete Submittal, has been coordinated with all other accepted Submittals, and can be properly installed in the allocated spaces.

   Certified by QC Manager__________________________, Date______ "
   (Signature)
D. Invoice Certification

1. Furnish the following certification with each payment request, signed by the QC Manager:

"The Work for which payment is requested, including Materials On Hand, is in compliance with the requirements of the Contract Documents. Record Documents ('as-built' Drawings and Project Manual) are current, accurate, and correctly show Work installed as of the date of the payment request.

Certified by QC Manager________________________, Date_________ “

(Signature)

E. Milestone Completion Certification

1. Prior to requesting Milestone completion inspection, the QC Manager must furnish the following Milestone Completion Certification to Owner:

"The Work of Milestone (#) has been completed, inspected, tested and is in full compliance with the requirements of the Contract Documents except for the minor deficiencies listed in the attached Deficiency List.

Certified by QC Manager__________________________, Date_________ “

(Signature)

2. The Deficiency List attached to the Milestone Completion Certification must list all known deficiencies in the Work of the Milestone. Unless specifically exempted in writing by Owner’s Project Manager, the Deficiency List must not include incomplete items of Work. Unless specifically exempted in writing by Owner’s Project Manager, the Milestone Completion Certification will be rejected if incomplete items of Work appear on the Deficiency List.

F. Project Completion Certification

1. Prior to requesting Final Inspection of the entire Work of the Project, the QC Manager must furnish the following Project Completion Certification to Owner:

"The entire Work of the Project has been completed, inspected, tested and is in full compliance with the requirements of the Contract Documents except for the minor deficiencies listed in the attached Deficiency List.

Certified by QC Manager___________________________, Date_________ “

(Signature)

2. The Deficiency List attached to the Project Completion Certification must list all known deficiencies in the Work. Unless specifically exempted in writing by Owner’s Project Manager, the Deficiency List must not include incomplete items of Work. Unless specifically exempted in writing by Owner’s Project Manager, the Project Completion Certification will be rejected if incomplete items of Work appear on the Deficiency List.

G. Record Document Certification

1. Accompanying submission of the final Record Documents, and prior to requesting Final Payment, the QC Manager must furnish the following Certification to Owner:

"The attached Record Documents ('as-built' Drawings and Project Manual) for (Contract Name and Number) were prepared in accordance with the requirements of the Contract Documents, are accurate and complete, and may be relied on by the Owner to locate completed Work.

Certified by QC Manager__________________________, Date_________ “

(Signature)
H. **Pre-functional Checklist Certification** (See Section 01810, “General Commissioning Requirements”) The QC Manager must furnish the following Certification to Owner when the pre-functional checklist activities are ready to be commenced:

"On behalf of Contractor, / certify that the Systems, equipment, and Pre-functional Checklists meet the requirements of Section 01810 and the pre-functional checklist activities are ready to be commenced."

Certified by QC Manager__________________________, Date___ _________

   (Signature)

I. **Functional Performance Testing Certification** (See Section 01810, “General Commissioning Requirements”)

1. The QC Manager must furnish the following Certification to Owner when the Systems and equipment are operational and ready for functional performance testing:

"On behalf of Contractor, / certify that the Systems and equipment are operational and are ready for functional performance testing."

Certified by QC Manager__________________________, Date___ _________

   (Signature)

1.16 **MILESTONE COMPLETION INSPECTIONS**

A. When Contractor believes the Work comprising a Milestone is complete, including final cleaning of the Work area associated with the Milestone, Contractor must submit to the Owner two (2) copies of a written certification that the Work of the Milestone is complete and request inspection by the Owner.

B. Within 7 Days of receipt of the Milestone Completion Certification, the Owner’s Project Manager will determine if the Work of the Milestone is sufficiently complete to be inspected. If the Owner’s Project Manager determines that Work of the Milestone is not sufficiently complete to be inspected, the Owner’s Project Manager will reject the Contractor’s Milestone Completion Certification and issue a notice to the Contractor so stating. Contract must then complete the Work of the Milestone and resubmit a new Milestone Completion Certification.

C. If the Owner’s Project Manager determines that the Work is sufficiently complete to be inspected, within 21 Days of the receipt of the Milestone Completion Certification, unless a longer period is specified elsewhere in the Contract Documents, Owner’s Project Manager will inspect the Work and prepare a list of deficiencies in the completed Work (Punch List.)

D. When all the deficiencies identified in the Owner’s Deficiency List are corrected, the Contractor must send a letter to the Owner requesting final verification of the correction of the items on the Deficiency List. If Owner’s Project Manager determines that the items on the Deficiency List have been satisfactorily corrected, Owner’s Authorized Representative will send a letter acknowledging Milestone Completion to the Contractor. The Milestone Completion letter will identify the actual date of Milestone Completion consistent with Owners final verification that the Work of the Milestone was complete and in full compliance with the requirements of the Contract Documents.

1.17 **PROJECT COMPLETION INSPECTION**

A. Contractor’s list of incomplete work.

1. Near the final completion of the entire Work of the Project, Contractor must conduct a detailed Project completion inspection of the Project, and submit a list of Incomplete Work with a schedule for final completion thereof to Owner’s Project Manager.

2. Within 60 Days after receipt of Contractor’s list of Incomplete Work and schedule for final completion, Owner’s Project Manager will determine appropriate dates for a Preliminary Walk-Through inspection and the Final Inspection. The Preliminary Walk-
Through and Final Inspection will not be conducted until the entire Work of the Project is complete.

B. Contractor’s Certification that the entire Work of the Project is complete.
   1. When all Work is complete and after the Contractor has performed the final cleaning of the entire Project Site and Work area, Contractor must so certify to Owner’s Project Manager and submit a request for a Preliminary Walk-Through Inspection.
   2. If the Contract Documents include a Milestone for the completion of the entire Work of the Project, the Milestone Completion Certification must be submitted concurrently with the Project Completion Certification.

C. Preliminary walk-through inspection.
   1. Within seven (7) Days of receipt of Contractor’s certification that the entire Work of the Project is complete, Owner’s Project Inspector will make a Preliminary Walk-Through Inspection with Contractor to verify that the Project is complete and ready for Final Inspection.
   2. If Owner’s Project Manager determines that the Work is not complete, Contractor will be notified in writing. Contractor must complete the Work and re-initiate procedures for another Preliminary Walk-Through Inspection. At Owner’s discretion, any costs to Owner for additional Preliminary Walk-through Inspections may be charged to the Contractor.

D. Final Inspection.
   1. The Final Inspection will occur within twenty-one (21) Days of the Contractor’s Project Completion Certification if the Owner’s Project Manager agrees with the Contractor’s certification.
   2. If Owner’s Project Manager determines the completed Work is deficient, Contractor will be furnished with a Punchlist identifying the observed deficiencies in the completed Work.
   3. After all deficiencies have been corrected, Contractor must initiate procedures for another Final Inspection. If Contractor requests more than two (2) Final Inspections, at Owner’s discretion, any costs to Owner for additional Final Inspections may be charged to the Contractor.

1.18 NOTIFICATION OF NONCOMPLIANCE
   A. If Owner notifies Contractor of any observed noncompliance with the foregoing requirements, Contractor must take immediate corrective action upon receipt of such notice. Such notice, when delivered to Contractor at the Project Site, is sufficient for the purpose of notification.
   B. If Contractor fails or refuses to promptly comply with any notice of noncompliance, Owner may, in addition to other remedies provided by law and/or the Contract Documents, issue an Order to the Contractor to suspend part or all of the Work until Contractor has taken satisfactory corrective action. No part of the cost or time expended by Contractor or its Subcontractors due to such Order to suspend Work shall be made the subject of a Dispute or Claim against Owner for extension of the Contract Time, Contract Sum, or for excess costs or damages of any kind.

END OF SECTION 01450
SECTION 01500
TEMPORARY FACILITIES AND CONTROLS

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents, Codes, and Standards
      c. 1.03 – Definitions
      d. 1.04 – Temporary Facilities and Controls
      e. 1.05 – Utilities
      f. 1.06 – Temporary Construction Facilities
      g. 1.07 – Temporary Controls
      h. 1.08 – Fire Protection
      i. 1.09 – Submittals
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms - Table 01500-001, "Permit-required Confined Spaces"

1.02 RELATED DOCUMENTS, CODES AND STANDARDS
A. Document 00700.3.5, "Use of Site"
B. Document 00700.3.6, "Workplace Environment"
C. Document 00700.3.13, "Cleanup"
D. Document 00700.3.14, "Disposal of Material Outside Project Area"
E. Document 00700.3.15, "Hazardous Materials"
F. Document 00700.3.16, "Safe Use of Pesticides"
G. Document 00700.3.17, "Trenching and Excavation"

J. Document 00700.3.20, "Sound Control"
K. Document 00700.3.21, "Worker’s Sanitary Provisions & Use of Owner’s Facilities"
L. Document 00700.10, "Protection of Persons and Property"
M. Document 00700.10.2.1, "Confined Space Entry Program"
N. California Fire Code - Article 87
O. National Fire Protection Association - Standard #1
P. Fire Marshal Standard Details & Specifications - SI-7

1.03 DEFINITIONS
A. **Hot Work** - Hot work includes any operations capable of initiating fires or explosions, including cutting, welding, brazing, soldering, grinding, thermal spraying, thawing pipe, torch applied roofing, or any other similar activity.

B. **Fire Marshal** – Office of the Fire Marshal, Santa Clara County

C. **SD&S No. SI-7** – Fire Marshal Standard Details & Specifications Number SI-7 (Construction Site Fire Safety)
D. **Temporary Fencing** - Temporary fencing Provided and Installed by Contractor as needed by Contractor to protect equipment, field office, stored items, Project Site, and Work until final demobilization.

### 1.04 TEMPORARY FACILITIES AND CONTROLS

A. Provide and pay for all temporary utilities, utility usage and service charges, utility meters, controls, and support facilities required for construction of the Project.

### 1.05 UTILITIES

**A. Electricity**

1. Electrical service including metering devices needed by the Contractor to perform the Work must be Provided and paid for by Contractor.
2. Arrange with utility company to provide service required for power and lighting, and pay all costs for service and for power used.
3. Install circuit and branch wiring with area distribution boxes located so that power and lighting is available throughout the construction by the use of construction-type power cords.
4. Provide adequate artificial lighting for all areas of Work in accordance with industry safety standards including OSHA requirements when natural light is not adequate for Work and for areas accessible to the public.
5. If additional temporary utility poles or electric extensions are deemed necessary by the Contractor to perform Contract Work, Contractor must submit three (3) copies of a plan showing the proposed temporary utility poles or electric extensions prior to installation. Contractor must pay for all additional temporary utility poles or electric extensions installed.

**B. Telephone Service**

1. Arrange with local telephone company to provide direct line telephone service at the construction site. (See Section 01500.1.08.A)
2. Minimum service required:
   a. One direct line instrument in Field Office.
3. Pay all costs for installation, maintenance and removal.
4. Prior to mobilization, Contractor must submit to Owner four (4) copies of a list containing all relevant personnel contact telephone numbers, including emergency contact numbers for nights, weekends, and holidays.

**C. Water Service**

1. Contractor must make arrangements and pay for all water and water metering devices required for construction purposes including landscape irrigation.
2. Contractor must not assume that water required for construction purposes will be available at the Project Site at the times and in the quantities required to support Contractors construction activities.

**D. Sanitary Facilities**

1. Contractor must Provide and pay for an appropriate number of sanitary facilities, in compliance with all laws and regulations, for use by Contractor and Owner’s personnel.
2. Regular service of the sanitary facilities must be maintained by the Contractor to keep a clean, healthy, and hygienically acceptable work environment.
3. Contractor must not use Owner’s Sanitary Facilities without prior written Approval of Owner’s Project Manager. (See Document 00700.3.21, “Worker’s Sanitary Provisions and Use of Owner’s Facilities”.)

**E. Waste Disposal**

1. Unless otherwise specifically stated in the Contract Documents, Contractor must
Provide and pay for all Waste Disposal.

2. Wastes must be properly handled, and stored in covered containers, and removed from the Project Site at least once each week.

3. Wood, cardboard, packing material, form lumber and similar combustible debris shall not be accumulated within buildings. Such debris, rubbish and waste material must be removed from buildings on a daily basis. (See SD&S No. SI-7)

1.06 TEMPORARY CONSTRUCTION FACILITIES

A. Field Office
   1. The Contractor must maintain an active Field Office on site.
   2. Contractor may bring a portable field office on site to support the Contractor’s Work.
   3. All project meetings will be held in the Contractor’s Field Office unless otherwise Directed by Owner’s Project Manager.

B. Advertising
   1. Advertising is not permitted, except that Contractor’s name may be placed on Contractor’s field office.

C. Temporary Fencing
   1. The Contractor must Install Temporary Fencing to protect equipment, field office, and stored items.
   2. Contractor must Provide and pay for Temporary Fencing to protect Project Site and Work areas as needed until final demobilization.

D. Storage Areas and Sheds
   1. Prior to mobilizing to the Project Site, Contractor must submit the intended location of the Contractor’s storage sheds and storage areas for Owner review and acceptance.
   2. Contractor must confine its apparatus, storage of materials, and construction operations to areas Approved by Owner’s Project Manager.
   3. Contractor must not unreasonably encumber the premises and roads with its materials and equipment.
   4. The Contractor must not store bulk quantities of fuel, oils, solvents or any other hazardous materials in storage tanks on-site.

E. Equipment Maintenance and Repair
   1. The Contractor must perform equipment maintenance activities in a designated area that is prepared to protect the ground surface from spills.
   2. The Contractor must collect, contain and properly dispose of all waste material (including waste oil, coolant, grease, and equipment parts) generated from these activities on a daily basis.
   3. Equipment service trucks must provide fuels and lubricants for construction equipment. Contractor must not store bulk quantities of fuel or oil in on-site storage tanks.

F. Vehicular Access
   1. All vehicles must be operated in a safe manner.
   2. Contractor’s equipment must enter and leave the Project area via access routes designated by Owner, and move in the direction of public traffic at all times. All movements on or across public traveled ways must not endanger public traffic.

G. Parking
   1. Parking for personal vehicles of Contractor’s personnel must be limited to designated areas specified or Approved by Owner’s Project Manager.
   2. Contractor must obtain and pay for GSA “parking permits” as needed or required.
   3. Personal vehicles must not be parked in the Work area.
4. Parking of construction equipment must be limited to designated areas specified or Approved by Owner.

5. All vehicles must be parked a minimum of 20 feet from new buildings under construction except construction vehicles may be temporarily parked for loading/unloading or other construction related operations as long as such vehicles are not left unattended at any time. (See Santa Clara Fire Marshall SD&S No. SI-7)

H. Progress Cleaning
   1. Contractor must maintain the Project Site in a clean and orderly condition at all times.
   2. The Contractor must maintain all Project areas free of waste materials, debris, dust, mud and rubbish caused by Contractor’s operations.
   3. Work and storage areas must be kept clean and free of rubbish on a daily basis.
   4. Contractor must immediately remove any spillage resulting from hauling operations along or across any public traveled way.
   5. Contractor must perform daily inspection of Project Site, Work areas, and public traveled ways to enforce the above requirements.

I. Concrete Washout Areas
   1. Concrete washout must be limited to designated areas specified or Approved by Owner.

J. Temporary Living Facilities
   1. Contractor’s employees, or others subject to the Contractor’s control, are not permitted to reside on the Project Site in temporary living facilities.

K. On-site Fabrication areas
   1. On-site Fabrication must be limited to designated areas specified or Approved by Owner.

L. Hoists, Temporary Elevators and Man-lifts
   1. Provide facilities for hoisting materials and employees.
   2. Do not permit employees to ride hoists that comply only with requirements for hoisting materials.
   3. Selection of type, size and number of facilities is the Contractor’s option.
   4. Provide properly trained operating personnel for equipment.
   5. Truck cranes and similar devices used for hoisting are considered equipment and not Temporary Construction Facilities.
   6. Permanent Elevators
      a. Use permanent elevators only with the express written permission of the Owner’s Project Manager.
      b. Contractor must not assume Owner will grant permission to use Permanent Elevators.
      c. If Owner grants permission to use Permanent Elevators, Contractor must comply with all conditions and restrictions associated with Owner’s permission for Contractor’s use of Permanent Elevators.

M. Scaffolding
   1. Furnish, erect and maintain all required scaffolding for the Work of this Project.
   2. Scaffolding and accessories must conform to all regulations governing such equipment.
   3. Maintain scaffolding in conformance with all applicable safety requirements.
   4. Immediately upon completion of use, remove all scaffolding and accessories from the Job Site.
   5. At the Contractor's option, individual Subcontractors may provide scaffolding for their Work; however, all scaffolding remains the responsibility of the Contractor.
N. Temporary Enclosures
   1. Provide temporary weather-tight enclosure of exterior walls for successive areas of
      building as work progresses, as necessary to provide acceptable working conditions, to
      provide weather protection for materials, allow for effective temporary heating, and to
      prevent entry of unauthorized persons.
   2. Provide temporary exterior doors with self-closing hardware and padlocks.
   3. Temporary Enclosures must be removable as necessary for Work and for handling of
      materials.

1.07 TEMPORARY CONTROLS

A. Temporary Barriers
   1. Contractor must Provide and maintain temporary barriers as needed to prevent
      unauthorized entry to Work areas.
   2. Contractor must Provide and maintain temporary barriers as needed to protect existing
      facilities and adjacent properties from damage.
   3. Contractor must Provide adequate measures to protect third party vehicular traffic from
      damage.
   4. Contractor must Provide adequate measures to protect third party foot traffic from
      injury.
   5. Install Temporary Barriers in a neat and reasonable uniform appearance, structurally
      adequate for required purposes.
   7. Relocate Temporary Barriers as required by progress of Construction.
   8. Contractor must remove Temporary Barriers when no longer needed, or at completion.

B. Protection of Work
   1. Contractor must protect installed Work and Provide special protection where needed or
      required by the Contract Documents.
   2. Contractor must Provide suitable drainage to protect the Project Site and the Work.
   3. Contractor must erect such temporary structures as are necessary to protect the Work,
      materials, and equipment from damage.
   4. Contractor must maintain staking, flagging, Temporary Fencing, and barrier fencing
      throughout the Contract Time as required for protecting the Work.

C. Protection of Existing Property
   1. Contractor must protect all existing utilities, landscape, fencing, equipment,
      furniture and all other existing structures and improvements within the Project area not
      specifically scheduled for demolition.
   2. To the extent permitted by law, any damage caused by the Contractor to existing
      utilities, facilities, equipment, furniture, fencing, and all other existing structures and
      improvements must be fully and immediately restored at the Contractor’s expense.

D. Protection of Pedestrians
   1. Contractor must pave pedestrian openings through falsework or Provide full width
      continuous wood walks, and keep all walkways clear.
   2. Contractor must protect pedestrians from falling objects and water runoff.
   3. Overhead protection for pedestrians must extend not less than four (4) feet beyond the
      edge of a structure.

E. Security
   1. The security of the Project Site, Work area, and stored materials is the Contractor’s
      responsibility during the entire Contract Time.
   2. Owner is not responsible for damage to or loss of Contractor's materials and equipment
left at the Project Site.

3. Contractor must repair, replace, or restore all existing facilities, equipment, furniture, and new Work damaged, destroyed, lost, stolen, or defaced due to vandalism or theft.

F. Traffic Control:
1. The Contractor must not stage vehicles or equipment on railroad tracks, private property, or on any public street unless expressly authorized in advance by the local jurisdiction or private property owners.
2. The Contractor must keep all surface areas (i.e., site roads, off-site streets, and parking areas) clear of dirt, mud, and debris and must clean such surfaces as needed, or as Directed by the Owner’s Project Manager.
3. Locate temporary roads, drives, walks and parking facilities to provide uninterrupted access to construction offices, Work and storage areas, and other areas as required for efficient execution of the Work.
4. Keep fire hydrants and water control valves free from obstruction and accessible for use.
5. Provide flagmen for traffic control as needed or required.
6. At completion of the Work, permanent roads and entranceways must be left in at least equal condition to that existing at the start of the Work, except as may be otherwise required by the Contract Documents.

G. Noise Control
1. Unless the Owner’s Authorized Representative grants a waiver in writing, Contractor must comply with all local noise ordinances, and must limit the Normal Hours Of Work accordingly. (See Document 00700.3.20, “Sound Control”)

H. Dust Control:
1. Contractor must minimize dust nuisances resulting from performance of the Work, both inside and outside the Project limits, by applying either water or dust palliative, or both. (See Document 00700.3.18, “Air Pollution Control”)

I. Surface Water Control:
1. Contractor must:
   a. Construct whatever temporary facilities are necessary to provide prevention, control and abatement of water pollution. (See Document 00700.3.19, “Water Pollution Control”)
   b. Control surface drainage water to prevent damage to the Work, Project Site or adjoining properties.
   c. Provide whatever temporary measures are needed or required including but not limited to berms, dikes, ditches, and drains to direct surface drainage away from excavations, trenches, pits, tunnels and other Work areas.
   d. Provide, operate and maintain equipment of adequate capacity to control surface water.
   e. Dispose of drainage water in a manner to prevent flooding, erosion, or other damage to any portion of the Work, Project Site or to adjoining areas.
   f. Plan and execute earthwork operations by methods which control surface drainage.
   g. Expose minimum amount of bare soil at any given time.
   h. Inspect earthwork daily for evidence of erosion and apply erosion control measures as needed or required.

2. Contractor must obtain and pay for any discharge permits required.

J. Trenching and Excavation
1. Before any excavation, Contractor must, pursuant to California Government Code
§4216 and Cal/OSHA 8CCR1540, outline the excavation in white paint (preferably chalk or water base), provide two workdays notice to Underground Service Alert (1-800-227-2600), obtain a locator number, and follow all necessary procedures to avoid underground facility damage.

2. Contractor must meet all regulatory requirements and Provide adequate temporary protection before, during, and after all Trenching and Excavation activities. (See Document 00700.3.17, "Trenching and Excavation").

K. Pesticide Use
   1. Contractor must comply with Division B28 of the Santa Clara County Ordinance Code relating to integrated pest management and pesticide use. (See Document 00700.3.16, “Safe Use of Pesticides”)

L. Compliance with Owner’s Policies, Ordinances, and Regulations
   1. Contractor must comply with Owner’s Policies, Ordinances, and Regulations regarding signs, advertising, barricades, danger signals, pesticide use, fires, smoking, security, noise, or other policies or regulations, and must require all persons employed on the Work to comply with all building or institutional regulations, and vehicle, street and highway codes while on the premises and roads relating to the Project Site.

M. Temporary Heat and Ventilation
   1. Provide temporary heat and ventilation in interior spaces prior to and when work is being performed.
   2. Maintain adequate environmental conditions to facilitate progress of the Work.
   3. Meet specified minimum conditions for the installation of materials.
   4. Protect materials and finishes from damage due to temperature or humidity.
   5. Provide adequate forced ventilation of enclosed areas for curing of installed materials, to disperse humidity, and to prevent hazardous accumulations of dust, fumes, vapors or gases.
   6. Portable heaters must be standard approved units complete with controls and meet the requirements of Section 01500.1.08.Q, “Temporary Heating Equipment.”
   7. Pay all costs of installation, maintenance, operation and removal, and for fuel consumed.

N. Confined Spaces
   1. Contractor must comply with all State and Federal OSHA requirements, and all of Owner’s requirements regarding entry into confined spaces including but not limited to the following:
      a. Before starting any Work, submit for Owners review and acceptance a confined space entry program applying to all existing permit-required confined spaces identified by Owner in the Contract Documents (see Table 01500-001, “Permit-required Confined Spaces”), or defined by regulations, and any confined spaces identified or created by Contractor or Owner during the Contract Time. Owner has the right to identify additional spaces to be treated as confined spaces by Contractor at any time during the Contract Time, without changing the Contract Sum or Contract Time if such additional spaces were created by Contractor.
      b. Maintain written records of all entries into confined spaces and all activities conducted in confined spaces.
      c. Coordinate all entry operations with Owner when both Contractor’s personnel and Owner’s personnel will be working in or near a confined space in the Project area. Owner will endeavor to give Contractor at least twenty-four (24) hours advance notice of such entry except in unforeseen situations and emergencies.
      d. Inform Owner in writing at the conclusion of entry operations regarding the permit space program followed and any hazards confronted or created in permit spaces
during entry operations.

1.08 FIRE PROTECTION (See SD&S No. SI-7)

A. Prior to performing any Work at the Project Site, Contractor must establish at the Project Site, methods, procedures, and equipment for emergency notification to the fire department via telephone. The street address of the construction site must be posted adjacent to the telephone, along with the public safety emergency telephone number(s).

B. Fire Department Access Roadways

1. The Project Site must be accessible by fire department apparatus by means of roadways having an all-weather driving surface of not less than 20 feet of unobstructed width.

2. The Fire Department Access Roadway must have the ability to withstand the live loads of fire apparatus, and have a minimum 15 feet of vertical clearance.

3. Dead-end Fire Department Access Roadway in excess of 150 feet in length must be Provided with turnarounds approved by the Fire Marshal.

4. If permanent Fire Department Access Roadways are not available during any part of the Contract Time, Contractor must Provide temporary Fire Department Access Roadways complying with the following requirements:
   a. The roadway must be approved by the Fire Marshal
   b. As a minimum, the roadway must consist of a compacted sub-base and six inches (6") of road base material (Class II aggregate base rock), both compacted to a minimum of ninety-five (95%).
   c. The perimeter edges of the roadway must be contained and delineated by curb and gutter or other method approved by the Fire Marshal.
   d. Surface drainage must be Provided.
   e. The integrity of the roadway must be maintained at all times.
   f. The Contractor must include activities in Contractor’s Progress Schedules for Fire Marshal approval and construction of the temporary Fire Department Access Roadway.

C. Fire Alarm Systems

1. Fire alarm systems must be maintained operational at all times during building alterations.

2. When an alteration requires modification to a portion of the fire alarm system, the portion of the system requiring Work must be isolated and the remainder of the system must be kept in service whenever practical.

3. When it is necessary to shut down an entire fire alarm system, Contractor must provide a fire watch or other mitigation approved by the Fire Marshal. The mitigation measures must remain active until the system is returned to full service.

D. Area Separation Walls

1. When area separation walls are required, the wall construction must be completed, with all openings protected, immediately after the building is sufficiently weather-protected at the location of the wall(s).

2. Contractor’s Progress Schedule must include specific activities showing the installation of area separation walls.

E. Fire Extinguishers

1. Portable fire extinguishers must be Provided and must be mounted on a wall or post at each usable stairway such that the travel distance to any extinguisher does not exceed 75 feet.

2. Mounting height to the top of the extinguisher must not exceed five feet (5’).
3. Extinguishers must have not less than a 2A1 OBC rating or as otherwise directed by the Fire Marshal.

4. The Contractor must ensure an adequate number of individuals are trained in the proper use of portable fire extinguishers.

F. Standpipes
   1. Where standpipes are required, the standpipes must be installed when the progress of construction is not more than 35 feet in height above the lowest level of the fire department access.
   2. The standpipe system must be extended as construction progresses to within one floor of the highest point of construction having secured decking or flooring.
   3. Contractor’s Progress Schedule must include specific activities showing the installation of standpipes.

G. Fire Hydrants
   1. If underground water mains and fire hydrants are required as part of the Work, they must be installed, completed, and in service prior to combustible construction materials accumulating on the Project Site.
   2. Contractor’s Progress Schedule must include specific activities showing the installation of water mains and fire hydrants.

H. Fire Sprinkler Systems
   1. If automatic fire sprinkler systems are required as part of the Work, the system must be placed in service as soon possible.
   2. Immediately upon the completion of sprinkler pipe installation on each floor level, the piping must be hydrostatically tested and inspected.
   3. After inspection and approval from the Fire Marshal, each floor level of sprinkler piping must be connected to the system supply riser and placed into service.
   4. Prior to installation of the permanent monitoring system, an exterior alarm bell may be installed and connected to a sprinkler water flow device to provide notification when the system is activated.
   5. For buildings equipped with fire sprinkler systems that are undergoing alterations, the sprinkler system(s) must remain in service at all times except when system modifications are necessary.
   6. Fire sprinkler systems undergoing modifications must be returned to service at the end of each workday unless otherwise approved by the Fire Marshal.
   7. The Contractor must check the sprinkler control valve(s) at the end of each workday to confirm the system has been restored to service.
   8. Contractor’s Progress Schedule must include specific activities showing the installation of Fire Sprinkler Systems including all sequencing restrictions identified in the requirements of the Contract Documents.

I. Exiting Requirements
   1. All new buildings under construction must have a least one unobstructed exit.
   2. For new multi-story buildings, each level above the first story must be provided with at least two usable exit stairs after the floor decking is installed. The stairways must be continuous and discharge to grade level.
   3. Stairways serving more than two floor levels must be enclosed (with openings adequately protected) after exterior walls/windows are in place.
   4. Exit stairs in new and existing, occupied buildings, must be lighted and maintained clear of debris and construction materials at all times. (Exception: For new multi-story buildings, one of the required exit stairs may be obstructed on not more than two (2) contiguous floor levels for the purposes of stairway construction; i.e., installation of...
5. Designated exterior assembly points must be established for all construction personnel to relocate to upon evacuation.

6. Contractor’s Progress Schedule must include specific activities showing the installation of exit stairs including all sequencing restrictions identified in the requirements of the Contract Documents.

J. Oily Rags
   1. Oily rags and similar material must be stored in metal or other approved containers equipped with tight-fitting covers.

K. Smoking
   1. Smoking is prohibited anywhere inside or on the roof of new buildings under construction or in the Work area of buildings undergoing alteration.
   2. A suitable number of "NO SMOKING" signs must be posted to ensure smoking is controlled.

L. Asphalt and Tar Kettles
   1. Asphalt kettles must not be located within 20 feet of any combustible material, combustible building surface or building opening.
   2. With the exception of thermostatically controlled kettles, an attendant must be within 100 feet of a kettle when the heat source is operating.
   3. Ladders or similar obstacles must not form a part of the route between the attendance and the kettle.
   4. Kettles must be equipped with tight-fitting covers.
   5. A minimum 20-B:C rated portable fire extinguisher must be located within 30 feet of each asphalt kettle when the heat source is operating.
   6. Minimum 20-B:C rated portable fire extinguishers also must be located on roofs during asphalt coating operations.

M. Compressed Gases
   1. Gas cylinders must be marked with the name of the contents.
   2. Gas cylinders must be stored upright and secured to prevent falling.
   3. When not in use, gas cylinder valve protective caps must be in place.
   4. Gas cylinders must be protected against physical damage.
   5. When stored, gas cylinders must be separated from each other based on their hazard classes.
   6. Combustible materials must be kept a minimum of 10 feet from gas containers.
   7. Gas cylinders must not be placed near elevators, unprotected platform edges or other areas where they would drop more than two feet (2').
   8. Gas cylinders must not be placed in areas where they may be damaged by falling objects.
   9. Ropes, chains or slings must not be used to suspend gas cylinders unless the cylinder was manufactured with appropriate lifting attachments.

N. Liquid Petroleum Gas Storage and Use
   1. Liquid petroleum gas (LP-Gas) storage and use must comply with the following:
      a. If not prohibited by other sections of the Contract Documents, propane containers may be used in buildings under construction or undergoing major renovation as a fuel source for temporary heating for curing concrete, drying plaster and similar applications in accordance with the following:
         (1) Heating elements (other than integral heater-container units) must be located at least 6 feet from any LP-Gas container.
(2) Integral heater container units specifically designed for the attachment of the
heater to the container, or to a supporting standard attached to the container,
may be used provided they are designed and installed so as to prevent direct
or radiant heat application to the LP-Gas container.

(3) Blower and radiant type units must not be directed toward any LP-Gas
container within 20 feet.

(4) Heat producing equipment must be installed with clearance to the
combustibles in accordance with the manufacturer's installation instructions.

(5) Cylinders must comply with DOT cylinder specifications and must be secured
in an upright position.

(6) Regulators must be approved for use with LP-Gas. Fittings must be designed
for at least 250-psig service pressure.

(7) Hoses must be designed for a working pressure of at least 350 psig (unless
limited to 5 psig) and shall be a maximum of 6 feet in length.

(8) Portable heaters must be equipped with an approved automatic device to shut
off the flow of gas to the main burner and to the pilot in the event of flame
extinguishment or combustion failure.

(9) Portable heaters with an input of more than 50,000 Btu/hr must be equipped
with either a pilot that must be "proved" before the main burner can be turned on,
or provided with an approved electronic ignition system.

b. In addition to the above, for LP-Gas storage/use in buildings undergoing alteration
and that are fully or partially occupied, the following shall also apply:

(1) Specific approval must be obtained from the Fire Marshal prior to bringing LP-
Gas containers onto the Project Site.

(2) The maximum water capacity of individual containers shall be 5-gallon water
capacity and the number of containers in the building shall not exceed the
number of workers assigned to using the LP-Gas.

(3) Containers having a water capacity greater than 2 1/2 lb. [1 quart] must not be
left unattended.

O. Hot Work

1. The use of Hot Work equipment must be in accordance with the following guidelines,
including a pre-site inspection, fire watch and post inspection procedures.

a. Pre-site Inspection: An inspection of the Hot Work site must be conducted by the
Contractor or his/her designee prior to Hot Work operations to ensure:

(1) the Hot Work site is clear of combustibles or that combustibles are
protected;

(2) exposed construction is of noncombustible materials or that combustible
materials are protected;

(3) openings are protected;

(4) there are no exposed combustibles on the opposite side of partitions, walls,
ceilings, floors, etc.;

(5) fire extinguishers are available, fully charged and operable; and

(6) fire watch personnel are assigned, equipped and trained.

b. Fire Watch: The sole duty of fire watch personnel must be to watch for the
occurrence of fire during and after Hot Work operations.

(1) Individuals designated to fire watch duty must have fire-extinguishing equipment
readily available and must be trained in the use of such equipment.

(2) Personnel assigned to fire watch must be responsible for extinguishing
spot fires and communicating an alarm.
(3) Hot Work conducted in areas with vertical and horizontal fire exposures that cannot be observed by a single individual must have additional personnel assigned to fire watches to ensure that all exposed areas are monitored.

c. Post Inspection: The fire watch must be maintained a minimum of 30 minutes after the conclusion of the Work to look out for leftover sparks, slag or smoldering combustibles.

P. Combustion Powered Equipment

1. Combustion powered equipment must be used in accordance with the following:
   a. Equipment must be located so that exhausts do not discharge against combustible materials.
   b. When possible, exhausts must be piped to the outside of the building.
   c. Equipment must not be refueled while in operation.
   d. Fuel for equipment must be stored in an approved area outside of the building.

Q. Temporary Heating Equipment (See Santa Clara Fire Marshall SD&S No. SI-7)

1. Temporary heaters, such as those that are liquid petroleum gas (LP-Gas) fueled, shall be listed and must be installed, used, and maintained in accordance with the manufacturers instructions.
2. Temporary heating devices must be secured properly and kept clear from combustible materials.
3. Refueling operations must be conducted in an approved manner.

R. Combustible Material Storage

1. Combustible construction materials must be stored a minimum of 20 feet from buildings under construction or undergoing remodel, except:
   a. Materials staged for installation on a floor level.
   b. When specifically approved by the Fire Marshal, materials may be stored in parking garages of Type I construction if the automatic fire sprinkler system is in service and vertical openings are protected.

S. Flammable and Combustible Liquids

1. Storage areas for flammable and combustible liquids must be kept free of weeds and extraneous combustible material. Open flames and smoking are prohibited in flammable or combustible liquid storage areas.
2. Tanks and containers must be marked with the name of the product and "FLAMMABLE KEEP FIRE AND FLAME AWAY." Tanks (containers in excess of 60 gallons) shall also be labeled, "KEEP 50 FEET FROM BUILDINGS."
3. Metal containers for Class I or II liquids must be in accordance with DOT requirements or must be of an approved design. Discharge devices must not cause an internal pressure on the container. Individual containers must not be interconnected and must be kept closed when not in use.
4. Secondary containment or a means of spill control, drainage control, and dike control is required for large containers (such as 55 gallon drums) and tanks as approved by the Fire Marshal.
5. Plans for the installation/use of any aboveground storage tank (containers greater than 60 gallons) must be submitted to the Owner and Fire Marshal for review and permit prior to procuring proposed tank.

T. Burning on the Project Site is prohibited.

1.09 SUBMITTALS

A. Contractor must submit the following items to the Owner for review and acceptance prior to mobilization:
1. Three (3) copies of a site map identifying the locations of:
   a. Contractor’s field office (See Section 01500.1.06.A)
   b. Storage sheds and storage areas (See Section 01500.1.06.D)
   c. Project Site access and egress points (See Document 00700.10.3.3)
   d. Fabrication areas (See. Section 01500.1.06.K)
   e. Equipment maintenance area (See Section 01500.1.06.E)
   f. Parking area for personal vehicles (See Section 01500.1.06.G)
   g. Parking and maintenance area(s) for construction equipment (See Section 01500.1.06.G)
   h. Temporary utility poles or electric extensions (See Section 01500.1.05.A.5)
   i. Concrete washout area(s) (See. Section 01500.1.06.I)
   j. Temporary and/or Construction Fencing location(s)

2. Eight (8) copies of a written description of what types of materials will be used as temporary barriers and protection and how they will be utilized. (See Section 01500.1.07, “Temporary Controls”)

3. Three (3) copies of a letter designating an authorized representative for the Contractor who will have the authority to represent and act for Contractor at the Project Site. (See Document 00700.3.7.1). Include the telephone and/or pager numbers at which the Contractor’s Authorized Representative can be reached at all times. (See Document 00700.3.7.4)

4. Four (4) copies of a confined space entry program applying to all existing permit-required confined spaces identified by Owner in the Contract Documents, or defined by regulations, and any confined spaces identified or created by Contractor or Owner during the Contract Time.

B. Contractor must submit one reproducible and eleven (11) copies of the following items for Owner and Fire Marshal review and acceptance:

1. Plans for the installation/use of any aboveground storage tank (containers greater than 60 gallons).

2. Plans for temporary Fire Department Access Roadways, if needed.

SOLID WASTE MANAGEMENT AND RECYCLING PLAN

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Sections
      c. 1.03 - Definitions
      d. 1.04 - Intent
      e. 1.05 - Submittals
      f. 1.06 - Recycling Requirements
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms
      a. Form 01515-F1 “Summary of Solid Waste Disposal and Diversion”

1.02 RELATED SECTIONS
A. Division 1 Section 01330, “Submittal Procedures”
B. Division 1 Section 01500, “Temporary Facilities and Controls”
C. Division 1 Section 01740, “Cleaning”

1.03 DEFINITIONS
A. Inert Fill - A permitted facility that accepts inert waste such as asphalt and concrete exclusively.
   1. Inert Solids/Inert Waste: Non-liquid solid waste including, but not limited to, soil and concrete, that does not contain hazardous waste or soluble pollutants at concentrations in excess of water-quality objectives established by a regional water board and does not contain significant quantities of decomposable solid waste.
B. Class III Landfill - A landfill that accepts non-hazardous waste such as household, commercial and industrial waste, including construction, remodeling, repair and demolition operations.
C. Construction and Demolition Waste - Includes solid wastes, such as building materials, packaging, rubbish, debris and rubble resulting from construction, remodeling, repair and demolition operations.
   1. Rubbish: Includes both combustible and noncombustible wastes, such as paper, boxes, glass, crockery, metal and lumber scrap, tin cans, and bones.
   2. Debris: Includes both combustible and noncombustible wastes, such as leaves and tree trimmings that result from construction or maintenance and repair work.
D. Chemical Waste - Includes petroleum products, bituminous materials, salts, acids, alkalis, herbicides, pesticides, organic chemicals and inorganic wastes.
E. Sanitary Wastes – Includes:
   1. Garbage: Refuse and scraps resulting from preparation, cooking, distribution or consumption of food.
   2. Sewage: Domestic sanitary sewage.

1.04 INTENT
A. Owner is committed to promoting efforts to have the Work performed in an environmentally sensitive manner.

B. To promote this effort the Contractor is required to:
   1. Make reasonable efforts to affect optimum control of solid wastes.
   2. Prepare and comply with a Project specific Solid Waste Management Plan.

1.05 SUBMITTALS

A. Submit the following according to the requirements of the Contract Documents:
   1. Solid Waste Management Plan
      a. No later than twenty-eight (28) Days after the start date for the Work stated in the Notice to Proceed, Contractor must schedule and conduct a meeting with Owner to discuss Contractor’s proposed Solid Waste Management Plan.
      b. No later than forty-five (45) Days after the start date for the Work stated in the Notice to Proceed, prepare and submit four (4) copies of a written and/or graphic Solid Waste Management Plan including, but not limited to, the following:
         (1) Permit or license and the location of the solid waste disposal area(s).
         (2) Procedures for Recycling/Re-Use Program.
      c. Revise and resubmit Solid Waste Management Plan as required by Owner.
   2. Review of the Contractor’s Solid Waste Management Plan will not relieve the Contractor of responsibility for adequate and continuing control of pollutants and other environmental protection measures.

B. No later than 15 Days after Contractor’s request for Final Inspection, Contractor must submit four (4) copies of a summary of solid waste generated by the Contractor’s operations.
   1. Submit on Form 01515-F1 or other form acceptable to Owner.
   2. Include manifests, weight tickets, receipts, and invoices specifically identifying the Project and waste material from:
      a. Recycling Centers.
      b. Class III Landfills.
      c. Inert Fills.

1.06 RECYCLING REQUIREMENTS

A. Recycling: Implement a recycling program that includes separate collection of waste materials of the following types:
   1. Concrete.
   2. Metal:
      a. Ferrous.
      b. Non-ferrous.
   3. Wood.
   4. Debris.
   5. Glass.
   6. Fluorescent light tubes
   7. Paper:
      a. Bond.
      b. Newsprint.
c. Cardboard and paper packaging materials.

8. Others as appropriate.

3. Part 3 – Execution (Not Used)
4. Part 4 – Forms (Not Used)

1.02 RELATED SECTIONS AND STANDARDS

A. Division 1 Section 01500, “Temporary Facilities and Controls”
B. California Fire Code - Article 87
C. National Fire Protection Association - Standard #1
D. Fire Marshal Standard Details & Specifications - SI-7

1.03 DEFINITIONS

A. Hot Work - Hot work includes any operations capable of initiating fires or explosions, including cutting, welding, brazing, soldering, grinding, thermal spraying, thawing pipe, torch applied roofing, or any other similar activity.
B. Fire Marshal – Office of the Fire Marshal, Santa Clara County
C. SD&S No. SI-7 – Fire Marshal Standard Details & Specifications Number SI-7 (Construction Site Fire Safety)

1.04 FIRE PROTECTION PLAN REQUIREMENTS

A. Contractor must prepare and submit a written Fire Protection Plan.
B. The written Fire Protection Plan must meet the requirements of the Contract Documents and be consistent with the fire safety precautions specified in SD&S No. SI-7.
C. At a minimum, the fire protection plan must include:

1. The name and contact phone number of the person(s) responsible for compliance with the Fire Protection Plan.
2. Procedures for:
   a. Reporting emergencies to the fire department.
   b. Emergency notification, evacuation and/or relocation of all persons in the building under construction and on the Project Site.
   c. Hot Work operations
   d. Management of hazardous materials
e. Removal of combustible debris
f. Maintenance of emergency access roads.

3. Floor plans identifying the locations of:
   a. Exits
   b. Exit stairs
   c. Exit routes
   d. Portable fire extinguishers.

4. Site plans identifying:
   a. Designated exterior assembly areas for each evacuation route.
   b. Fire apparatus access roadways
   c. On-site fire hydrants

1.05 **IMPLEMENTATION**

A. Contractor is responsible for implementation of the requirements and provisions of the approved Fire Protection Plan.

B. Contractor is responsible for communicating the requirements of the Fire Protection Plan to all Subcontractors and other personnel working at the Project Site.

1.06 **SUBMISSION**

A. Submit four (4) copies of a Fire Protection Plan.

B. Fire Marshal must approve the Fire Protection Plan prior to Contractor performing Work at the Project Site.

A. Section 01500.1.09.A.1.J, Site Map Submittal
B. Section 01500.1.06.C, “Temporary Fencing”

1.03 DEFINITIONS
A. Temporary Fencing - Temporary fencing Provided and Installed by Contractor as required by other Sections of the Contract Documents.
B. Construction Fencing - Temporary fencing to be Provided and Installed by Contractor for the duration of construction as required by this Section.

1.04 CONSTRUCTION FENCING
A. Prior to start of Work at the Project Site, install site enclosure fence with suitable locked entrance gates.
B. Locate as shown on Drawings or as Approved by Owner’s Project Manager.
C. Locate vehicular entrance gates in suitable relation to construction facilities and to avoid interference with traffic on public thoroughfares.
D. Locate pedestrian entrance gates as required to provide controlled personnel entry, in suitable relation to construction parking facilities.
E. Fencing Materials:
   1. No. 11 gauge, 2-inch mesh, 72-inch high galvanized chain link fabric with extension arms and 3b strands of galvanized barbed wire.
   2. Galvanized steel posts; 1-1/2 inch O.D. line posts and 2 inch O.D. corner posts.

1.02 RELATED DOCUMENTS (Not Used)
1.03 DEFINITIONS (Not Used)
1.04 GENERAL
A. Contractor personnel are prohibited from communicating with inmates.
B. All County facilities are “No Smoking” facilities.

1.05 HOSTAGE NEGOTIATION POLICY
A. The facility is a "NO HOSTAGE" area.
B. If Contractor personnel are taken hostage, the DOC will NOT negotiate for the release of an inmate based on the status of any hostage.
C. The Contractor is responsible to inform all Contractors' personnel working within the facility of
1.06 LOCKDOWN
   A. On occasion, the facility must be "Locked Down" for security reasons.
   B. If there is a security threat inside the facility, Contractor personnel may be ordered to leave
      the facility. In this eventuality, the all Contractor personnel must comply immediately.

1.07 RESTRICTED MATERIALS
   A. No firearms, narcotics, drugs, intoxicants, or other similar materials are permitted on the
      Project Site.
   B. Contractor personnel must not smoke inside the secure facility.
   C. Contractor personnel must not to bring cigarettes or other tobacco products into the facility.
      Inmates often attempt to gain access to them.

1.08 SECURITY CLEARANCE
   A. Prior to performing Work within secured facilities operated by Santa Clara County Department
      of Corrections (DOC), Contractor personnel are required to obtain Security Clearance.
   B. Contractor personnel may be required to submit to fingerprinting.

1.09 ACCESS TO SECURED FACILITY WORK AREA
   A. DOC staff will control all access to the Work area.
   B. All vehicles, equipment, supplies and persons are subject to a security check before entering
      or leaving the site. The process to enter or exit the facility normally takes from one (1) to fifteen (15)
      minutes depending on the time of day. The cost of lost time checking in and out is the responsibility
      of the Contractor.
   C. All Contractor personnel, equipment, supplies, and materials must use the East Gate
      entrance.
   D. Contractor personnel must have their identification ready when they arrive.
   E. The guard at the entry gate will issue a Contractor Badge in exchange for the individual’s
      driver’s license.
   F. Contractor personnel must report to the DOC Operations Office and check in with the
      Operations Officer.

1.10 WORK AREA SECURITY
   A. Almost anything is of value to an inmate. Items as simple as a nail or scrap of wire can be
      fashioned into a dangerous device that an inmate may use to damage property, attempt
      escape or even take a life. Contractor personnel must be aware of their surroundings at all times and
      be extra careful to keep all objects secured. Special precautions are required of the Contractor to
      prevent the contamination of the Work area with metal scraps and debris.
   B. Contractor must clear, clean, and lock the Work area at the end of each day.
   C. The Contractor must report to the DOC Operations Office immediately on discovery, of the
      loss of any tools, equipment, materials, or other items stored or used on the Project Site.
   D. Contractor's equipment must be rendered temporarily inoperative when not in use, by locking
      or other means.

1.11 FACILITY DISRUPTION
   A. Contractor must at all times conduct their operations so as not to interrupt or disrupt the
      functioning of the facility.
B. All Work that will or may affect the operation of the facility must be scheduled 72-hours in advance and be accepted in writing by the DOC Operations Office.

1.12 TOOL CONTROL
A. The quantity and type of tools taken by Contractor personnel into secured facilities is restricted.
B. The use of explosive powered tools, fasteners, and devices is prohibited unless Contractor obtains prior written permission from DOC Operations Office.
C. In addition to Contractor's general inventory and control procedures, DOC Operations Office may require Contractor to maintain special inventory and/or control procedures for:
   1. Sharp cutting instruments and tools, i.e., hacksaw blades, and files, etc.
   2. Ropes
   3. Ladders
   4. Volatiles, quick evaporating liquids and alcohol base thinners.
D. Contractor personnel must only bring the tools they actually need to perform work into the facility.
E. Tool control is Contractor's responsibility. Contractor must ensure their tools are properly secured at all times.
F. Contractor personnel are required to account for all tools and materials taken into secured facilities. The DOC Staff may, at any time, inventory Contractor's tools.
G. Rolling, lockable tool cabinet(s) are required within the secure facility. Tools must be kept in the locked toolbox whenever possible.
H. If Contractor personnel leave the Work Area at any time during the day, their tools must be secured in the locked tool cabinet.
I. Contractor must inspect Work Area for forgotten tools or material at the end of each day.
J. All tools must be stored at the close of Normal Hours of Work and locked in a place of security provided by the Contractor, as approved by DOC Operations Office.
K. All tools transported in vehicles must be secured within the vehicles.
L. Tools hanging from tool belts are not permitted.
M. Contractor personnel are prohibited from leaving unsecured tools in vehicles or anyplace where inmates can access them.
N. If Contractor discovers that a tool is missing, the loss must be immediately reported to the DOC Operations Office.

1.13 VEHICLE SECURITY
A. All persons must remove ignition keys from their vehicles when they are out of the vehicles.
B. Unattended vehicles must be locked at all times.
C. Contractor parking outside and within the secured facility is restricted.
D. Vehicles must only be parked in areas designated by DOC Staff.

1.14 SCHEDULING WORK
A. Contractor must inform DOC Operations Office of their planned Work schedule.
B. If a Contractor is unable to be on site as scheduled, Contractor must notify the DOC Operations Office indicating that the Contractor will be delayed or that the scheduled work for that day is cancelled. This notice is required no later than 30 minutes before the scheduled beginning of work.
1.15 SECURITY ESCORTS

A. Contractors are not permitted on-site when unescorted by DOC Operations staff.

B. Escorts are required for all Contractor personnel entering or leaving a secured construction area. C. The DOC Operations Office will furnish escorts to the Contractor.

C. Escorts will be furnished based on the schedule that is agreed upon by the Owner's Project Manager, DOC Operations Office, and the Contractor.

D. Any changes to the agreed upon escort schedule must be approved by the Owner's Project Manager, and DOC prior to the change taking effect.

E. Contractor personnel must contact the DOC Operations Office (957-5440) at least thirty (30) minutes prior to arriving at the facility entrance. The notification is required to coordinate the availability of the security escort with the actual arrival of the Contractor personnel at the facility.

F. Contractor personnel must work and take breaks during the times that the escorts are available.

1.16 NORMAL HOURS OF WORK

A. The Normal Hours Of Work within all DOC Facilities are:
   1. Monday through Friday
      a. 7:00 a.m. to 10:30 a.m.
      b. 10:30 a.m. to 11:30 a.m. -Lunch Break (no escort available)
      c. 11:30 a.m. to 4:30 p.m.
   2. Any work performed on holidays, weekends, or between the hours of 4:30 p.m. and 7:00 a.m. is considered to be work performed outside Normal Hours Of Work.

B. Weekend access is normally not available

C. Whenever the Contractor intends to perform work outside the Normal Hours Of Work, Contractor must request permission by giving written notice to the Owner's Project Manager and DOC Building Operations Manager at least seventy-two (72) hours prior to performing the Work. Requests to work outside Normal Hours Of Work must be approved by both the Owner's Project Manager and the DOC Building Operations Manager.

1.17 MATERIAL CONTROL

A. Material may be delivered to DOC Operations Office during Normal Hours Of Work.

B. Materials will be stored in areas designated by DOC Operations.

C. At the end of each workday, Contractor must clear the Work area(s) of debris, trash, rubbish, tools, materials, supplies and any other object that could be used as a weapon.

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.3.19, “Water Pollution Control”
B. Section 01330, “Submittal Procedures.”
C. Section 01450, “Contractor’s Quality Control (QC) System”

1.03 DEFINITIONS

A. NOI - Notice of Intent
B. SWPPP - Storm Water Pollution Prevention Plan
C. NOT - Notice of Termination

1.04 SWPPP REQUIREMENTS

A. The project will comply with the NPDES General Construction Activity Storm Water Permit administered by the Regional Water Quality Control Board.
B. Prior to construction grading for the proposed land uses, the Owner will file a “Notice of Intent” (NOI) to comply with the General Permit.
C. The Contractor must prepare and maintain for the entire construction period a Storm Water Pollution Prevention Plan (SWPPP) which addresses measures Contractor will implement to minimize and control construction and post-construction storm water runoff.
D. At a minimum, the following measures must be included in the SWPPP:
   1. Burlap bags filled with drain rock will be installed around storm drains to route sediment and other debris away from the drains.
   2. Earthmoving or other dust-producing activities will be suspended during periods of high winds.
   3. All exposed or disturbed soil surfaces will be watered at least twice daily to control dust.
   4. Stockpiles of soil or other materials that can be blown by the wind will be watered or covered.
   5. All trucks hauling soil, sand, and other loose materials will be covered and maintain at least two feet of freeboard.
   6. All paved access roads, parking areas, staging areas and residential streets adjacent to
the construction sites will be swept daily (with water sweepers).

E. Contractor must submit twelve (12) copies of the draft SWPPP to the Owner for review and acceptance prior to construction.

F. The certified SWPPP must be available at the Project Site and must be updated to reflect current site conditions.

G. When the construction phase is complete, Contractor must file a Notice of Termination (NOT) for the General Permit for Construction with the Regional Water Quality Control Board and applicable Governmental Agency. The NOT must document that all elements of the SWPPP have been executed, construction materials and waste have been properly disposed of, and a post-construction storm water management plan is in place as described in the SWPPP for the site. Submit three (3) copies of the NOT to the Owner.

1.05 SUBMITTALS

A. Submit the Storm Water Pollution Prevention Plan (SWPPP) in accordance with Section 01300, "Submittal Procedures."

B. Submit required copies of the Notice of Termination (NOT) to the Owner

B. Document 00700.3.26, “Submittals”
C. Document 00700.3.30, “Substitutions”
D. Division 1 Section 01330, “Submittal Procedures”
E. Division 1 Section 01630, “Product Substitution Procedures”

1.03 DEFINITIONS
A. **Products** - Items purchased for incorporating into the Work, whether purchased for Project or taken from previously purchased stock.
   1. The term "Product" includes the terms "material," "equipment," "system," and terms of similar intent.
   2. Product means New Products including material, machinery, components, equipment, fixtures, and systems forming the Work.
      a. Product does not include machinery and equipment used for preparation, fabrication, conveying and erection of the Work.
      b. Products may also include existing materials or components required for reuse.
B. **Named Products** - Products identified in the Contract Documents by Manufacturer's product name. Named Products may include Manufacturer's make or model number or other designation.
C. **New Products** - Items that have not previously been incorporated into another project or facility, except that products consisting of recycled-content materials are allowed, unless explicitly stated otherwise. Products salvaged or recycled from other projects are not considered New Products.
D. **Manufacturer's Warranty** - Preprinted written Warranty published by individual Manufacturer for a particular Product and specifically endorsed by Manufacturer to Owner.
1.04 PRODUCT DELIVERY, STORAGE, AND HANDLING

A. Delivery
   1. Deliver Products using means and methods that will prevent damage, deterioration, and loss, including theft.
   2. Schedule delivery to minimize long-term storage at Project Site and to prevent overcrowding of Project or Work areas.
   3. Coordinate delivery with installation time to ensure minimum holding time for items that are flammable, hazardous, easily damaged, or sensitive to deterioration, theft, and other losses.
   4. Deliver products to Project Site in an undamaged condition in Manufacturer's original sealed container or other packaging system, complete with labels and instructions for handling, storing, unpacking, protecting, and installing.
   5. Inspect products on delivery to ensure compliance with the Contract Documents and to ensure that Products are undamaged and properly protected.

B. Storage
   1. Store Products using means and methods that will prevent damage, deterioration, and loss, including theft.
   2. Comply with Manufacturer's written instructions for storage.
   3. Store Products to allow for inspection and measurement of quantity or counting of units.
   4. Store materials in a manner that will not endanger Project premises or personnel.
   5. Store Products that are subject to damage by the elements, under cover in a weather tight enclosure above ground, with ventilation adequate to prevent condensation.
   6. Comply with product Manufacturer's written instructions for temperature, humidity, ventilation, and weather-protection requirements for storage.
   7. Protect stored products from damage.
   8. For exterior storage of fabricated products, place on sloped supports above ground.
      a. Cover products subject to deterioration with impervious sheet covering and provide ventilation to avoid condensation.
      b. Store loose granular materials on solid surfaces in well-drained area; prevent mixing with foreign matter.

C. Handling
   1. Handle Products using means and methods that will prevent damage, deterioration, and loss, including theft.
   2. Comply with Manufacturer's written instructions for handling.
   3. Provide equipment and personnel to handle products by methods to prevent soiling or damage.

1.05 PACKAGING

A. Provide reusable or recyclable packaging for items delivered to the Project Site such as construction materials, operations and maintenance materials, furniture, equipment and other large objects.

B. For items over 75 pounds or larger than 120 cubic feet, polystyrene “peanuts” shall not be used with packaging.

C. Use products with natural or recycled content.
1. Plastic sheets or films will be allowed only if labeled with recycling symbol-indicating type of plastic.

2. Reusable Packaging: Items such as blankets, skids and crates must be returned to the manufacturer or transportation company for future reuse as packaging materials.

3. Recyclable Packaging: Items such as boxes, cardboard and paper that will be delivered to a recycling center after use.

D. Properly dispose of packaging materials and clean surrounding areas of packaging debris immediately after unpacking of Products.

PART 2 - PRODUCTS

2.01 UNAUTHORIZED PRODUCTS
A. Products required for Work must not contain asbestos or polychlorinated biphenyls (PCB).
B. If the Contract Documents name a Product, Provide the Named Product unless the Owner’s Authorized Representative, through the Substitution process, accepts an equal Product. (See Section 01630, “Product Substitution Procedures”)

2.02 PRODUCT AVAILABILITY
A. Prior to Bid, Contractor must verify that Named Products, including sole source Products can be obtained, delivered, and installed within the Time Period(s) stated in the Bid Documents.
B. Owner does not warrant that Named Products including sole source Products are available within the Time Period(s) required by the Bid Documents. Contractor must verify availability of Named Products before submitting a Bid.
C. By submitting a Bid, Contractor represents to the Owner that Contractor has verified the availability of Named Products, the Named Products including sole source Products are currently available, and the Work or designated portion of the Work can be completed within the Contract Time(s).

2.03 PRODUCT REQUIREMENTS
A. Provide Products that:
   1. Comply with the requirements of the Contract Documents
   2. Have been accepted by the Owner for incorporation into the Work
   3. Are undamaged
   4. Are new at time of installation, unless otherwise indicated in the Contract Documents.
B. Provide products complete with:
   1. Accessories
   2. Trim
   3. Finish
   4. Fasteners
   5. Gauges
   6. All other items needed for a complete installation.
C. Standard Products
   1. If available, and unless custom products or nonstandard options are specified, Provide standard products of types that have been produced and used successfully in similar situations on other projects.
D. Owner has the right to reject Products with Manufacturer’s Warranties that are in conflict with requirements of the Contract Documents.
E. Products required to be supplied in quantity must be interchangeable.
PART 3 - EXECUTION (Not Used)
PART 4 - FORMS (Not Used)

END OF SECTION 01600
SECTION 01630
PRODUCT SUBSTITUTION PROCEDURES

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents
      c. 1.03 Definitions (Not Used)
      d. 1.04 - General
      e. 1.05 - Submission Requirements
      f. 1.06 - Owner’s Action
   2. Part 2 – Products
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)
      a. Form 01630-F1 (Substitution Request Form)

1.02 RELATED DOCUMENTS
A. Document 00200.16, “Substitution of Alternative Materials, Articles, or Equipment”
B. Document 00700.3.30, “Substitutions”

1.03 DEFINITIONS (Not Used)

1.04 GENERAL
A. Owner’s Authorized Representative will consider proposals for Substitution of a service, product, material, process or article only when such proposals are:
   1. Submitted within the time periods stated in the Contract Documents
   2. Accompanied by full and complete technical data
   3. All supporting information requested by Owner’s Authorized Representative to substantiate or prove quality, delivery time, and cost are submitted
   4. Substitution request is accompanied by Substitution Request Form (Form 01630-F1) at the end of this Section 01630, “Product Substitution Procedures”, properly completed by Contractor, and properly certified by the Contractor’s Authorized Representative. If the Substitution request is a pass through request from a Subcontractor, both Contractor’s Authorized Representative and an officer of the Subcontractor must certify the Substitution requests.
B. The burden of proof as to the equality of any service, product, material, process or article Contractor proposes for Substitution rests with Contractor.
C. The Contractor must not order substitute services, products, materials, or articles without prior written acceptance of the Substitution by Owner’s Authorized Representative.
D. The Owner has the right to reject proposals due to insufficient information.
E. Contractor must certify that proposed Substitution meets or exceed all the requirements of the Contract Documents.
F. Contractor must assume responsibility for Owner’s additional costs related to the redesign and/or modifications to any parts of the Work and/or Contract Documents caused by the Substitutions.

G. Contractor’s Substitution requests that do not comply with the requirements of the Contract Documents may be returned to Contractor without review.

H. If Contractor’s Substitution request is returned without review or returned rejected, Contractor must furnish the originally specified items

1.05 SUBMISSION REQUIREMENTS

A. Limit each request to one proposed Product Substitution.

B. Submit three (3) copies of each request for Substitution.

C. Identify product or fabrication or installation method to be replaced including specification Section number and title and Drawing numbers and titles.

D. Include three (3) copies of completed and signed Substitution Request Form 01630-F1, furnished at the end of this Section 01630, “Product Substitution Procedures.”

E. Submit the following documentation:

1. Statement indicating why specified material or product cannot be provided.

2. Coordination information including:
   a. A list of changes or modifications needed to other parts of the Work that are necessary to accommodate proposed Substitution.
   b. A list of changes or modifications to work performed by Owner and/or separate contractors that are necessary to accommodate proposed Substitution.

3. Detailed comparison including:
   a. Comparison of significant qualities of proposed Substitution with those of the Work specified. Significant qualities include attributes such as performance, weight, size, durability, visual effect, and specific features and requirements indicated.

4. Drawings to same (or larger) scale as pertinent portions of Contract Documents, marked to show:
   a. How differences will be accommodated.
   b. Complete system/assembly as revised
   c. Difference(s) in size, configuration, connections, service, accessibility, or any other significant characteristics.

5. Contractor must show complete layout of system unless it is identical to the layout shown in the Contract Documents. Show unchanged portion to indicate clearances, etc. relative to changed portion.

6. Wherever applicable, include complete detail drawings of supports for all Substitute equipment and complete load calculations for adequacy of support prepared and signed by a California Registered Engineer.

7. Product Data, including drawings and descriptions of Products and fabrication and installation procedures.

8. Samples, where applicable or requested.
9. List of similar installations for completed projects with project names and addresses and names and addresses of Architects and Owners.

10. Material test reports from a qualified testing agency indicating and interpreting test results for compliance with requirements indicated.

11. Research/evaluation reports evidencing compliance with building codes in effect for Project from a model code organization acceptable to authorities having jurisdiction.

12. Evidence that proposed product provides specified Warranty

13. Cost information, including a proposal of change, if any, in the Contract Sum.

F. Submit a detailed comparison of Contractor's Progress Schedule with and without using proposed Substitution showing effect on the Contract Time(s).

G. If specified product cannot be provided within the Contract Time(s), include letter from Manufacturer, on Manufacturer's letterhead, stating the reason(s) for the lack of availability or delays in delivery.

H. Provide Contractor's certification that proposed Substitution complies with requirements in the Contract Documents and is appropriate for applications indicated.

I. Provide Contractor's waiver of rights to additional payment or time that may subsequently become necessary because of failure of proposed Substitution to produce indicated results.

1.06 OWNER'S ACTION

A. If necessary, Owner will request additional information or documentation within fourteen (14) Days of receipt of a request for Substitution.

B. Owner will notify Contractor of acceptance or rejection of proposed substitution within twenty-one (21) Days of receipt of request, or seven (7) Days of receipt of additional information or documentation, whichever is later.

Required point-by-point comparative data attached. □ Yes □ No

The supporting data attached consists of □ Drawings □ Product Data □ Samples □ Tests □ Reports □ Other
Proposed substitution affects other parts of Work: □ No □ If Yes, please explain: __________________________________________

Reason for not providing specified item: _______________________________________________________________
□ Savings □ Cost to Owner for accepting substitution: $_________________________

Proposed Substitution changes Contract Time. □ No □ Yes ______ Days

THE UNDERSIGNED CERTIFIES:

1. Proposed Substitution has been fully investigated and determined to be equal or superior in all respects to specified product.
2. Same Warranty will be provided for proposed Substitution as for specified product.
3. Same maintenance service and source of replacement parts, as applicable, is available.
4. Proposed Substitution will have no adverse effect on other trades and will not affect or delay progress as indicated on the current version of the Official Progress Schedule.
5. Cost and time data as stated above is complete and accurate.
6. Contractor and, if applicable, Subcontractor waives right to Claim for additional costs and time related to accepted Substitution, which may subsequently become apparent.
7. Proposed Substitution does not affect dimensions and functional clearances.
8. Coordination, installation, and changes in the Work as necessary for accepted Substitution have been or will be performed in all respects.

END OF SECTION 01630
SECTION 01640
OWNER FURNISHED CONTRACTOR INSTALLED (OFCI) ITEMS

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents And Sections
      c. 1.03 - Definitions
      d. 1.04 - OFCI Manager
      e. 1.05 - Purchase Orders
      f. 1.06 - OFCI Delivery Schedule
      g. 1.07 - Shipment Delivery
      h. 1.08 - Equipment Receiving Log
      i. 1.09 - Storage
      j. 1.10 - Inspection of Records
      k. 1.11 - Damaged Merchandise
   2. Part 2 – Products
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)
      a. SAMPLE FORM 01640-F1, “OFCI DELIVERY SCHEDULE”

1.02 RELATED DOCUMENTS AND SECTIONS
B. Section 01320.3.05, “Baseline Schedule”

1.03 DEFINITIONS
A. OFCI – Owner Furnished Contractor Installed
B. OFCI Manager – Contractor’s employee accepted by the Owner and responsible for managing all OFCI items.
C. OFCI Delivery Schedule – The OFCI Delivery Schedule prepared by the Contractor and submitted to the Owner in the format indicated in SAMPLE FORM 01640-F1 at the end of Section 01640.

1.04 OFCI MANAGER
A. Prior to starting Work, submit a letter to the Owner identifying on-site individual that will act as the Contractor’s OFCI Manager.
   1. This OFCI Manager will be responsible for:
      a. Furnishing information to the Owner’s Project Manager on desired delivery dates.
      b. Proper receipt and reporting of all shipments received.
      c. Proper storage and handling of OFCI items at all times.
   2. If the originally designated OFCI Manager is replaced, designate a new OFCI Manager and immediately submit written notification thereof to the Owner.
1.05 PURCHASE ORDERS
A. The Owner will furnish copies of purchase orders covering OFCI items.
   1. The nature of the procurement actions involved prevents the furnishing of a complete
      set of purchase orders immediately after the start of construction.
   2. Purchase Orders will be forwarded to Contractor at the time of issuance to the
      suppliers.
   3. Contractor must retain copies of Owner's Purchase Order(s) for the Contractor's control
      records.
   4. Purchase Orders for items subject to "phased" delivery will be accompanied by
      appropriate delivery lists.

1.06 OFCI DELIVERY SCHEDULE
A. Develop an OFCI Delivery Schedule including description and required delivery dates (see
   sample Schedule at the end of this Section) for OFCI items and reference all related Activity
   Numbers from the Contractor's Progress Schedule. Submit to Owner no later than thirty (30)
   Days after the start date for the Work identified in the Notice To Proceed (NTP). Submit three
   (3) paper copies and corresponding electronic data files on Compact Disks (CDs). The CDs
   must be permanently labeled to indicate the contents of the CD and include the submittal
   number and data date.
B. This OFCI Delivery Schedule must include each piece of OFCI equipment.
   1. For each item, complete the two dates required from the Contractor:
      a. "Delivery No Earlier Than" date
      b. "Delivery No Later Than" date.
C. Contractor must add PO #, date ordered information, and Activity Numbers from the Official
   Progress Schedule as the information is provided or becomes available.
D. This OFCI Delivery Schedule must be coordinated with the Owner accepted Official Progress
   Schedule
E. Each month, coordinate the OFCI Delivery Schedule with the Updated Official Progress
   Schedule.
   1. Review the equipment delivery schedule not less than once each month to determine
      whether the construction progress dictates any revisions.
      a. Notify Owner in writing of any changes found necessary.
      b. If, at any time, a delivery date for an OFCI item is missed, notify Owner
         immediately.

1.07 SHIPMENT DELIVERY
A. Upon receipt of a shipment of OFCI item(s), the Contractor's OFCI Manager must:
   1. Count the number of cartons to verify the quantity received corresponds with the freight
      bill.
      a. Clearly note any discrepancies on the original freight bill or delivery ticket.
   2. Prior to signing for anything, carefully examine the merchandise for obvious damage
      a. If such damage is observed, refuse the shipment.
      b. Upon refusal, notify the Owner, and give complete details.
   3. Open cartons or uncrate equipment to permit examination prior to departure of the
carrier.
   a. If the size of the shipment makes this impossible, release the driver and inspect the shipment for concealed damage not later than 24 hours after receipt.
   b. If it is determined concealed damage does exist, contact Owner immediately.

1.08 EQUIPMENT RECEIVING LOG
A. Keep an "Equipment Receiving Log," updated at all times, at the Job Site.
B. The “Equipment Receiving Log” must be in a format furnished or Approved by the Owner.

1.09 STORAGE
A. Store all OFCI items in a secure area either on-site or off-site.
   1. The area must be lockable and secure from vandalism or theft.
   2. It must be weatherproof and waterproof with adequate ventilation.
   3. Provide protection and security of OFCI items.
B. Provide Certificates of Insurance for all off-site storage areas in accordance with the requirements of the Contract Documents.

1.10 INSPECTION OF RECORDS
A. The Owner may inspect the Owner-furnished equipment records on a periodic basis during construction to assure that the data is maintained in an accurate and current condition.

1.11 DAMAGED MERCHANDISE
A. Exterior or Visible Damage:
   1. If container received shows exterior or visible damage, make a notation to that effect on the delivery ticket and have it signed by the delivery carrier and by personnel responsible for receiving the merchandise.
   2. Refuse acceptance of damaged merchandise.
B. Concealed Damage:
   1. If container received shows no evidence of damage, but upon examination of the contents thereof "concealed damage" is discovered, notify the Owner immediately and request an inspection.
C. F.O.B. (Freight on Board) Shipping Point:
   1. If the merchandise is damaged Contractor must:
      a. Request an inspection by the delivery carrier’s inspector. Do not destroy the original carton, box, etc.
      b. Notify the Owner of damaged merchandise and request replacement shipment.
      c. Submit the following to Owner, Attention: Owner’s Project Manager:
         (1) Inspection Report
         (2) Bill of Lading
         (3) Invoice
         (4) Freight Bill or Delivery Ticket
      d. Hold the damaged merchandise until instructions for its disposition are received from the Owner.
2. F.O.B. (Freight on Board) Destination:
   a. If the merchandise is damaged and the F.O.B. is “Destination,” then the complete and total liability is assumed by the Vendor from the point it is placed in the hands of the common carrier to the point of delivery. It is the Vendor’s responsibility to file a claim with the carrier to recover the loss of merchandise damaged.
   b. The Contractor must:
      (1) Request an inspection by the delivery carrier's inspector. Do not destroy the original carton, box, etc.
      (2) Notify the Vendor of damaged merchandise and obtain authorization from Owner and replace shipment.
      (3) Hold damaged merchandise until instructions for disposition are received from the Vendor.
      (4) Send the following original documents to the Vendor to assist in filing claim with carrier, retaining a copy for Contractor's records:
          a) Inspection Report
          b) Bill of Lading
          c) Freight Bill or Delivery Ticket

      a. 2.01 - Equipment
   3. Part 3 – Execution
      a. 3.01 - Survey
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.3.2, “Review of Contract Documents and Field Conditions by the Contractor”
B. Document 00700.3.26, “Submittals”
C. Section 01310, “Project Management and Coordination”
D. Section 01450, “Contractor’s Quality Control (QC) System”

1.03 DEFINITIONS
A. As used in this Section 01725, “Surveying and Field Engineering”, the following definitions apply:
   1. Approximate Location of Subsurface Installations – A strip of land not more than 24 inches on either side of the exterior surface of an Existing Subsurface Installation.
   2. Existing Subsurface Installation - Any existing underground pipeline, conduit, duct, wire, or other structure.
   3. Rearranged - Rearrangement includes relocation, removal, alteration or installation.

1.04 FIELD LAYOUT
A. Contractor is responsible for all investigations, coordination, techniques and determinations as may be necessary to properly fit, Install and complete the Work.
B. Data and information shown and indicated in the Contract Documents are as accurate as could be obtained but are not guaranteed.
C. Contractor must, before beginning any Work, compare actual Project Site conditions with the requirements of the Contract Documents, and verify all existing conditions and dimensions.
D. Verifications

1. As a minimum, Contractor must perform the following verifications:
   a. Field & Site Conditions
      (1) Contractor must carefully examine and compare all the Contract Documents
          relating to the Work with actual field conditions, so that all Work will be
          accommodated in the spaces provided. The general arrangement and
          location of the elements of the various systems are shown on the Drawings or
          specified. Final locations, levels, etc., are governed by actual material sizes
          used, by conditions encountered, and by the sequence in which the Work is
          performed.
      (2) Space conflicts and interferences must be resolved before any Work is
          installed.
   2. Dimensions
      a. Contractor, prior to performing any Work and as a part of the construction layout
         procedures, must check and verify all dimensions for accuracy, closing and clarity,
         and must immediately report any discrepancies to Owner for resolution before
         proceeding.
      b. No measurements shall be scaled from Drawings. Only dimensions appearing on
         Drawings will be used.
      c. Where manufacturer's diagrams, Shop Drawings, etc. give specific measurements
         of rough-in dimensions for materials or equipment and these dimensions are in
         conflict with dimensions indicated on Drawings, Contractor must immediately
         request clarifications from Owner.
      d. In case of apparent error, discrepancy, omission, conflict, or obscurity in the
         Contract Documents, or discrepant conditions encountered at the Project Site or
         between Submittals, Contractor must immediately refer the matter to Owner for
         interpretation and/or clarification.
   E. Contractor must Provide necessary lines, levels, locations, measurements and markers for all
      on the Work and be responsible for their accuracy.
   F. On building structures, Contractor must lay out on forms, walls, floors, and columns, the exact
      location of partitions as a guide to all trades.

1.05 LOCATIONS AND ELEVATIONS IN THE CONTRACT DRAWINGS
   A. Property lines, location lines, and elevations of components of the Work are shown on the Contract
      Drawings.
   B. Grade elevations shown for various parts of the Work are taken from a bench mark shown on the
      Contract Drawings, or if not shown, will be designated by the Owner in writing before starting Work.

1.06 SURVEY AND SITE WORK
   A. Contractor must perform all survey and site Work necessary to locate and layout the
      construction in plan and elevation.
   B. Contractor must set all stakes and marks necessary to establish the lines and grades
      required for the Project, and perform all survey work to layout all Work including batter
      boards, roads, parking lots, site utilities, and control lines.
   C. Contractor must protect and maintain marks, lines, benchmarks, monuments, etc. which have
      previously been installed and/or are required for construction and inspection purposes.
      Monuments or stakes that are disturbed or destroyed due to Contractor's negligence or failure
      to pursue the Work diligently must be re-established at Contractor's expense.

1.07 UNDERGROUND INFRASTRUCTURE, UTILITIES & OTHER FACILITIES
A. Attention is directed to California Government Code §4215 and §4216 concerning protection of underground infrastructure in public contracts.

B. Contractor must ascertain the exact location of all underground and concealed facilities in the Project area prior to doing any work that may damage such facilities or interfere with their service. As a minimum, at least forty-eight (48) hours before any such work is planned, Contractor must have a locating service survey the area. When shown on the Drawings, the locations of Existing Subsurface Installations are the Approximate Location of Subsurface Installations, and the accuracy or completeness of this information is not guaranteed. There may be Existing Subsurface Installations not known to Owner or located differently than indicated in the Contract Documents.

C. Contractor must protect from damage utilities and any other Existing Subsurface Installations that are to remain in place, be relocated, or otherwise Rearranged. As used herein, rearrangement includes relocation, removal, alteration or installation.

D. If Contractor discovers underground facilities not indicated in the Contract Documents, Contractor must immediately notify Owner in writing. Contractor must not disturb, disconnect or damage any existing facilities, unless specifically indicated in the Contract Documents to be relocated, removed, or otherwise revised. Should Contractor disturb, disconnect, or damage any existing facilities or utilities, Contractor will bear all expenses of whatever nature arising from such disturbance or the replacement or repair thereof.

E. The right is reserved to the owners of facilities or their authorized agents, to enter the Project with Owner’s approval to make such changes as are necessary to rearrange their facilities or to make necessary corrections or repairs to their properties. Contractor must cooperate with forces engaged in such work and must conduct operations in such a manner as to avoid any unnecessary delay or hindrance to the work being performed by such other forces.

F. Contractor must obtain authorization from the utility involved and notify Owner at least 72 hours in advance, when it is necessary to interrupt any existing utility service to make connections. Interruption in utility service must be of the shortest possible duration for the Work at hand and must be Approved in advance by Owner.

G. Where rearrangement of facilities is necessary, Contractor must coordinate its Work with such rearrangement, and Contractor must make all arrangements with the owner of such facilities for such coordination.

H. When ordered by Owner in writing, Contractor will rearrange any facility necessary to accomplish the Project and such work will be paid for as extra Work if it is not indicated in, or cannot reasonably be inferred from, the Contract Documents.

I. If Contractor desires to rearrange any utility or facility for its convenience in order to facilitate its construction operations, and if such rearrangement is in addition to, or different from any rearrangements indicated in the Contract Documents, Contractor must make all necessary arrangements with Owner and the owners of such utility or facility for such rearrangement and bear all expenses in connection therewith.

J. Where Owner determines that rearrangement of a utility or facility, the existence of which is not shown in the Contract Documents, is essential to accommodate the Project, Owner may rearrange such utility or facility by other forces.

K. Per Government Code §4215, Contractor will not be assessed Liquidated Damages for any delay in completing the Project when such delay is caused by the failure of a utility owner or the County to remove or relocate existing utilities that were the responsibility of the utility owner or County to remove or relocate.

1.08 PENETRATIONS

A. Contractor is responsible for all penetrations through walls, floors, beams, joists and other structural and non-structural elements of the Work for passage of pipes, conduits, ducts or other devices.
B. Contractor is responsible for coordinating all penetrations and securing Owner's approval for locations of all penetrations through structural floors, walls and supporting members.

C. Contractor must schedule and coordinate the Work of all trades to locate all required penetrations. Contractor must hire an independent testing agency at Contractor's expense, to locate reinforcing bars or imbedded items within concrete or masonry walls, floors, columns or beams, and to perform such other tests as may be necessary or Directed to attain required results.

1.09 QUALITY ASSURANCE

A. Surveys must be performed under the direction and with the review of a land surveyor licensed in the State of California.

B. All survey documentation must be signed and stamped by the licensed Land Surveyor in responsible charge of the work.

C. The Contractor must review all information to ensure it is technically accurate and complies with the requirements of this Section 01725, “Surveying and Field Engineering”, before providing to the Owner.

1.10 SUBMITTALS

A. Prior to performing any survey Work, submit eight (8) copies of the qualifications of the California Licensed land surveyor.

B. No later than 15 Days after Contractor's request for Final Inspection, Contractor must three (3) copies of Contractor's survey records to the Owner.

PART 2 - PRODUCTS

2.01 EQUIPMENT

A. The Contractor must provide necessary survey equipment and materials to obtain the required locations and elevations to the precision specified.

PART 3 - EXECUTION

3.01 SURVEY

A. Elevation surveys must be referenced to the County of Santa Clara datum, and must be performed to within one one-hundredth (0.01) of a foot (ft.), unless otherwise specified.

B. Location surveys must be referenced to the baseline and survey control points shown on the Contract Drawings. Locations must be provided to within one one-hundredth (0.01) of a foot (ft.), unless otherwise specified.

C. The Contractor's survey records must be made available and/or submitted to the Owner when requested by Owner.

PART 4 - FORMS (Not Used)

END OF SECTION 01725
SECTION 01731
CUTTING AND PATCHING

PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents And Sections
      c. 1.03 - Definitions
      d. 1.04 - General
      e. 1.05 - Interface with work of Others
      f. 1.06 - Submittals
      g. 1.07 - Quality Control
   2. Part 2 – Products
      a. 2.01 - Materials
   3. Part 3 – Execution
      a. 3.01 - Examination
      b. 3.02 - Preparation
      c. 3.03 - Cutting
      d. 3.04 - Patching
      e. 3.05 - Performance
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.3.22, “Cutting and Patching”
B. Section 01330, “Submittal Procedures.”
C. Section 01500.1.08.O, “Hot Work.”

1.03 DEFINITIONS

A. CUTTING-AND-PATCHING - Includes, but is not necessarily limited to, demolition and repair of nominally completed and previously existing work in order to accommodate coordination of Work, installation of Work, uncovering Work for access or inspection, and to obtain samples for testing or similar purposes. It also includes integral cutting and patching during manufacturing, fabricating, erecting, and installing processes for individual items of the Work.

B. HOT WORK - Hot work includes any operations capable of initiating fires or explosions, including cutting, welding, brazing, soldering, grinding, thermal spraying, thawing pipe, torch applied roofing, or any other similar activity.

1.04 GENERAL

A. Contractor is responsible for all cutting, fitting, or patching required to complete the Work and to make its parts fit together properly.
B. Contractor must rework and patch to match existing surfaces at removed or demolished items.
C. Patching must achieve security, strength, and weather protection, and must preserve continuity of existing fire ratings.
D. Patching must successfully duplicate undisturbed adjacent finishes, colors, textures, and profiles. Where there is disagreement as to whether duplication is successful or has been achieved to a reasonable degree, the Owner’s judgment shall be final.

1.05 INTERFACE WITH WORK OF OTHERS
A. The Contractor is responsible for any and all cutting, fitting and patching required to join its Work with the work of others, except as otherwise specifically stated for in the Contract Documents.
B. Contractor must not cut or otherwise alter the work of Owner or any separate contractor except with the written consent of Owner and such separate contractor.
C. Contractor must include interface flags in their Progress Schedule indicating points of interface of its Work with the work of others.

1.06 SUBMITTALS
A. Comply with requirements of Section 01330, “Submittal Procedures.”
B. Submit written request to Owner in advance of cutting or alteration that affects:
   1. Structural integrity of any element of Project.
   2. Integrity of weather exposed or moisture resistant element.
   3. Efficiency, maintenance, or safety of any operational element.
   5. Work of Owner or separate contractor.
   6. Include in request:
      a. Identification of Project.
      b. Location and description of affected work.
      c. Necessity for cutting or alteration.
      d. Description of proposed Work and Products to be used.
      e. Method for keeping existing utilities in service.
      f. Alternatives to cutting and patching.
      g. Date and time the Work will be executed.
      h. Anticipated results in terms of variations from originally completed Work.
      i. Where applicable include a description of circumstances which led to need for cutting and patching.
C. Review by Owner or Design Professional prior to proceeding with proposed cutting-and-patching does not negate Owner’s right to later require complete removal and replacement of Work found to be cut and patched in an unsatisfactory manner.
D. Where cutting and patching involves addition of reinforcement to structural elements, obtain details and engineering calculations prepared by California Registered Structural Engineer indicating how reinforcement is to be integrated with the original structure.
E. List utilities that will be disturbed or affected, including those that will be relocated and those that will be temporarily out of service. Indicate how long utility service will be disrupted.

1.07 QUALITY CONTROL
A. Requirements for Structural Work:
   1. Do not cut and patch structural Work in manner resulting in reduction of load-carrying capacity or load/deflection ratio.
2. Obtain Owner's written acceptance of Submittal before proceeding with cutting and patching of structural steel, structural concrete, foundation construction, basement or retaining walls, curtain walls, pressurized piping, vessels, and equipment.

B. Operational and Safety Limitations:
   1. Do not cut and patch operational elements or safety-related components in manner resulting in reduction of capacities to perform as intended or resulting in decreased operational life, increased maintenance, or decreased safety.
   2. Obtain Owner’s acceptance of Submittal before proceeding with cutting and patching primary operational systems and equipment; water, moisture, vapor, air, or smoke barriers; membranes and flashings; noise and vibration control elements and systems; control, communication, conveying, and electrical wiring systems; and similar categories.

PART 2 - PRODUCTS

2.01 MATERIALS
   A. For replacement of Work removed, use only materials that comply with the pertinent requirements of the Contract Documents. (Those required and accepted for original installation.)
   B. For any proposed change in materials, Submit request for Substitution as described in Section 01630, “Product Substitution Procedures.”

PART 3 - EXECUTION

3.01 EXAMINATION
   A. Examine existing conditions prior to commencing Work, including elements subject to damage or movement during fitting, cutting and patching.
   B. After uncovering existing Work, assess conditions affecting performance of work.

3.02 PREPARATION
   A. Provide temporary supports to ensure structural integrity of the Work.
   B. If Hot Work is involved, comply with the requirements of Section 01500.1.08.O, "Hot Work."
   C. Provide devices and methods to protect other portions of Project from damage.
   D. Provide protection from elements for areas that may be exposed by uncovering work.
   E. Avoid interference with use of adjoining areas or interruption of free passage to adjoining areas.
   F. Except as otherwise indicated, proceed with cutting and patching at earliest feasible time in each instance, and perform work promptly.

3.03 CUTTING
   A. Cut by methods least likely to damage retained and adjoining Work.
   B. Review proposed procedure with original installer where possible, and comply with installer's recommendations.
   C. Uncover work to install improperly sequenced work.
   D. Remove and replace defective or non-conforming work.
   E. Remove samples of installed work for testing when requested.
   F. Provide openings in the Work for penetration of mechanical and electrical work.
   G. Employ original installer or fabricator where possible to perform cutting for:
      1. Weather exposed and moisture resistant elements; or
      2. Visually exposed surfaces.
H. Cut rigid materials using masonry saw or core drill. Pneumatic tools not allowed without prior approval.

I. Comply with requirements of The Civil Drawings, where cutting and patching requires excavating and backfilling.

3.04 PATCHING

A. Execute patching to complement adjacent Work.

B. Fit Products together to integrate with other Work.

C. Avoid damage to other Work and provide appropriate surfaces to receive patching and finishing.

D. Employ original installer where possible to perform patching for weather exposed and moisture resistant elements, and visually exposed surfaces.

E. Restore patched areas with new Products in accordance with requirements of Contract Documents.

F. Fit patches tight to pipes, sleeves, ducts, conduit, and other penetrations through surfaces.

3.05 PERFORMANCE

A. Performing cutting or patching operations means acceptance of existing conditions by Contractor.

B. To avoid marring existing finished surfaces, cut or drill from the exposed or finished side into concealed surfaces.

C. By-pass utility services such as pipe or conduit, before cutting, where services are required to be removed, relocated or abandoned.
   1. Remove pipe or conduit in walls to be relocated, abandoned or removed.
   2. Cap, valve or plug, and seal the remaining portion of pipe or conduit to prevent entrance of moisture or other foreign matter after by-passing and removing.

D. Where feasible, inspect and test patched areas to demonstrate integrity of installation.

E. Remove and replace Work judged by Designer of Record to be visually unsatisfactory.

F. Perform cutting, fitting and patching in a manner to prevent damage to Contractor’s Work and work by others and to provide proper surfaces for the installation of materials, equipment, and repairs.

G. Do not cut nor alter structural members without prior written acceptance of Owner.

H. Adjust and fit Products to provide a neat installation.

I. Refinish cut and patched surfaces to match adjacent finish.
   1. For continuous surfaces, refinish to nearest intersection or natural break.
   2. For an assembly, refinish entire assembly.

J. Over patched wall or ceiling surfaces, refinish to nearest cut-off line for entire surface, such as intersection with adjacent wall or ceiling, beam, pilasters, or to nearest opening frame, unless otherwise indicated.

K. Refinished surfaces must not present a spotty, touched-up appearance.

1.03 DEFINITIONS (Not Used)

1.04 GENERAL CLEANUP RESPONSIBILITY
A. Contractor must keep the Work areas, Project Site, and surrounding areas free from waste materials, debris, and/or trash and rubbish caused by its operations.
B. In addition to trash and rubbish generated by Contractor’s operations, Contractor must keep the Work areas, Project Site, and surrounding areas free from trash and rubbish from any source that accumulates within the Work areas or Project Site or any other area designated by the Owner for use by Contractor.
C. The Contractor must keep all surface areas (i.e., site roads, off-site streets, and parking
areas) clear of dirt, mud, and debris and must clean such surfaces as required, as needed, or as Directed by the Owner’s Project Manager.

D. Contractor’s and Subcontractors’ tools, scaffolding and surplus materials must be neatly stored in designated storage areas when not in use.

E. Contractor must maintain the Project Site in a neat and orderly condition at all times.

1.05 IMMEDIATE CLEANUP ACTIVITIES

A. Properly dispose of packaging materials and clean surrounding areas of packing debris immediately after unpacking of Products, materials, equipment, or other packaged items.

B. Dispose of waste materials and clean surrounding areas used for worker breaks and lunch immediately after worker break or lunch. Contractor must Provide trash receptacles in break and lunch areas.

C. Contractor must immediately remove any spillage, dirt and mud, and/or debris resulting from Contractor’s hauling or other operations along or across any public traveled way or public area.

D. Remove debris and rubbish from pipe chases, plenums, down spouts, attics, crawl spaces, and other closed or remote spaces, prior to enclosing the space.

E. Broom and vacuum clean interior areas prior to start of surface finishing, and continue cleaning to eliminate dust.

1.06 DAILY CLEANUP ACTIVITIES

A. Wood, cardboard, packing material, form lumber and similar combustible debris must not be accumulated within buildings and such debris, rubbish and waste material must be removed from buildings on a daily basis.

B. Contractor must leave Work areas “broom clean”, or its equivalent, on a daily basis.

C. Contractor must remove (pick up and place in trash receptacles) rubbish from and about areas of Work and the Project Site on a daily basis.

D. Contractor must clean the Project Site entrance area(s) of mud, dirt, displaced gravel, and rubbish each day.

1.07 WEEKLY CLEANUP ACTIVITIES

A. Remove rubbish (pick up and place in trash receptacles) from and about the Project Construction Fencing line. This includes areas both inside and outside the of the Project Site along the Temporary and Construction Fencing and/or permanent perimeter fence line.

B. Place concrete debris in designated areas or remove from Project Site.

C. Stack unused shipping pallets in designated areas or remove from Project Site.

D. Repair, replace, or remove damaged and/or torn plastic sheeting used to protect stored materials, Products or Work.

E. Empty all trash receptacles

F. Remove accumulated waste from the Project Site and dispose of in a proper and lawful manner.

G. Organize and clean storage areas

1.08 OWNER’S RIGHT TO CLEAN UP

A. Deficient cleaning or disposal operations, as determined by the Owner’s Project Manager, must be immediately corrected by Contractor.
B. After proper written notice, in cases where Contractor does not correct deficient cleaning or disposal operations, Owner may remove or cause to have removed waste materials, debris, and/or trash and rubbish, etc., and reduce the Contract Sum by the cost thereof.

C. If a disagreement or arises between the Contractor and other separate contractors performing work at or adjacent to the Project Site, as to the responsibility pursuant to their respective contracts for maintaining the Project Site and surrounding areas free from waste materials, debris, and/or trash and rubbish, Owner may clean up or cause to be cleaned up the waste materials, debris, and/or trash and rubbish and allocate the costs among those responsible, and reduce the Contract Sum by Contractor's proportionate share of the cost thereof.

1.09 STORAGE AND DISPOSAL

A. Storage

1. Waste materials, trash, and rubbish must be stored in covered containers.

2. Storage containers must not be allowed to overflow due to excessive waste materials, trash, and rubbish being placed in the storage container.

3. Storage container lids must be unobstructed by waste materials, trash, and rubbish when they are in the closed position.

4. Storage container lids must be closed at all times except when waste materials, trash, and rubbish are being placed into or removed from the storage container.

5. Recyclable materials must be segregated before storage and stored in separate containers or areas.

B. Disposal

1. Under no circumstances shall rubbish or waste material be disposed of in fills or backfills on the Project Site.

2. Contractor is responsible for making all arrangements and paying all costs for disposal of waste materials, debris, and/or trash and rubbish.

3. Waste materials, debris, and/or trash and rubbish, must be removed from the Project Site at least once each week.

4. When any material is to be disposed of outside the Project area, at other than a public disposal or recycling facility, Contractor must first obtain a written permit from the property owner of the proposed disposal site, and furnish Owner said permit or a certified copy thereof together with a written release from the property owner absolving Owner from any and all responsibility in connection with the disposal of said material on said site.

5. Before any material is disposed of on said site, Contractor must obtain written permission from the Owner to dispose of the material at the location designated in said permit.

6. Disposal of Hazardous Materials must comply with all legal requirements, including but not limited to containerization, labeling, manifesting, transportation, disposal site, and use of properly trained personnel.

7. No later than 15 Days after Contractor's request for Final Inspection, Contractor must submit two (2) copies of all Hazardous Waste Manifests signed by Toxic Substances Disposal Facilities ("TSDF's") and certificates of disposal, to prove that Contractor has legally disposed of such materials.
8. Contractor must separate and recycle the following waste material types in accordance with Contractors Solid Waste Management Plan (See Section 01515, “Solid Waste Management and Recycling Plan”)
   a. Concrete
   b. Metal
      (1) Ferrous
      (2) Non-ferrous
   c. Wood
   d. Debris
   e. Glass
   f. Paper
      (1) Bond
      (2) Newsprint
      (3) Cardboard and paper packaging materials
   g. Others as appropriate.

1.10 SAND BLASTING
   A. Sand blasting shall be only used upon receipt of written permission of the Project Manager.
   B. Perform sand blasting by experienced mechanics using sound modulated power machinery designed for this use.
      1. Comply with all applicable regulatory agencies.
      2. Use blasting aggregate uniformly graded, free from all animal or vegetable material, and not larger than No. 30 grit.
      3. Air compressor must be capable of providing air at a pressure of 100-110 pounds at 210-300 cfm. Use blast nozzle of 5/16-inch orifice.
   C. Operation
      1. Sand blast by the “flash” method.
      2. Pass continuously over the surface, to provide a uniform cutting of the surface, without pitting or excessive erosion of the base material.
      3. Exercise care to prevent corners or sharp edges from being broken or unduly rounded.
      4. Used aggregate must not be reused.
      5. Protect installed work of others from damage by blast, rebound, or used aggregate.
      6. Cover and protect mechanical work, air intakes, and similar items, as well as finished surfaces.
   D. Replace damaged work.
   E. Secure and pay for necessary permits required by state and local authorities having jurisdiction.

1.11 FINAL CLEANING
   A. Milestone Completion Certification
      1. Contractor must, before requesting a Preliminary Walk-Through Inspection for Milestone Completion, perform a Final Cleaning of all Work areas associated with the Milestone.
   B. Project Completion Certification
1. Contractor must, before requesting a Preliminary Walk-Through Inspection for Final Inspection of the entire Work of the Project, perform a Final Cleaning of all Work areas and the Project Site including all areas associated with previously completed Milestones.

C. Final Cleaning Requirements

1. General
   a. Cleaning for specific items of Work is specified in Divisions 2 through 16.
   b. Comply with manufacturer's instructions for cleaning operations.
   c. Clean interior and exterior surfaces exposed to view
   d. Remove labels that are not required as permanent labels.
   e. Dust, dirt, stains, hand marks, paint spots, and like defects must be completely removed from surfaces.
   f. Metal surfaces must be cleaned, using only non-corrosive and non-abrasive materials.
   g. Remove debris and surface dust from limited-access spaces including roofs, plenums, shafts, trenches, equipment vaults, manholes, attics, and similar spaces.

2. Transparent Surfaces
   a. Clean all glass, interior and exterior, affected by Work of this Project; including removal of foreign material from glass.
   b. Polish transparent and glossy surfaces
   c. Clean transparent materials, including mirrors and window/door glass, to a polished condition, removing substances that are noticeable as vision-obscuring materials.
   d. Replace broken glass and damaged transparent materials.

3. Soft Surfaces
   a. Vacuum carpeted surfaces.
   b. Vacuum all other soft surfaces.

4. Hard Surfaces
   a. Clean exposed exterior and interior hard-surfaced finishes to a dirt-free condition, free of dust, stains, films, and similar noticeable distracting substances.
   b. Except as otherwise indicated, avoid disturbance of natural weathering of exterior surfaces.
   c. Restore reflective surfaces to original reflective condition.
   d. Clean concrete floors in unoccupied spaces broom clean.

5. Equipment and Fixtures
   a. Clean equipment and fixtures to sanitary condition
   b. Clean or replace filters of mechanical equipment.
   c. Wipe surfaces of equipment and fixtures clean, including elevator equipment and similar equipment
   d. Remove excess lubrication and other substances.
e. Clean plumbing fixtures to a sanitary condition, free of stains including those resulting from water exposure.

f. Clean food service equipment to a condition of sanitation ready and acceptable for intended food service use.

6. Roofs, gutters, downspouts and drainage systems.
   a. Clean roofs, gutters, downspouts and drainage systems.

7. Exterior Grounds
   a. Clean Project Site (yard and grounds), including landscape development areas, of litter, surplus materials, and foreign substances.
   b. Sweep and power wash paved areas to clean condition; remove stains, petro-chemical spills, and other foreign deposits.
   c. Rake grounds that are neither planted nor paved to a smooth, even-textured surface.

8. Lights and Lamps
   a. Clean light fixtures and lamps so as to function with full efficiency.

N. Section 01515, “Solid Waste Management and Recycling Plan”
O. Section 01740, “Cleaning”
1.03 DEFINITIONS

A. **Incomplete Work** – Work required by the Contract Documents that is not yet installed.

B. **Deficient Work** – Installed Work that does not meet all the requirements of the Contract Documents.

1.04 CLOSEOUT CONFERENCE

A. The Owner's Project Manager will schedule and Closeout Conference approximately 90 Days before scheduled completion of the entire Work of the Project.

B. Conference will be held at Project Site or another convenient location designated by Owner's Project Manager.

C. Attendees:
   1. Owner's Project Manager (Mandatory Attendance Required)
   2. Contractor's Authorized Representative (Mandatory Attendance Required)
   3. Contractor's QC Manager (Mandatory Attendance Required) (See Section 01450.1.08.A.2.r)
   4. Other interested parties

D. Agenda: Items of significance, as appropriate to the Project, to be discussed at the meeting include the following:
   1. Closeout process
   2. Closeout Submittals
   3. Final Cleaning
   4. Project completion certification
   5. Outstanding Change Orders
   6. Contractor Certifications
   7. Warranties/Guarantees
   8. Record Documents (As-Builts)
   9. QC Documents
   10. Spare Parts
   11. Keys
   12. Owner Fixture, Furniture, and Equipment (FF&E) Schedule
   13. Operation and Maintenance Manuals
   14. Building Commissioning
   15. Owner Training
   16. Certificate of Occupancy
   17. Recycled Content Certification
   18. Deficiency List Process (Punch List)
   19. Unresolved Disputes and Claims
   20. Early Release of Retention
   21. Final Payment
   22. Demobilization Schedule
23. Security

E. The Owner will prepare meeting minutes of the Closeout Conference and distribute minutes to the attendees.

F. Follow-up closeout meetings will occur at least monthly until Owner’s Authorized Representative recommends Acceptance of the Project to the Board of Supervisors.

G. At a minimum, the Contractor will maintain notes for the Closeout Conference and all follow-up closeout meetings in the form of a Decision/Action Tracking Report.

1.05 CONTRACTOR’S LIST OF INCOMPLETE WORK

A. Near the final completion of the entire Work of the Project, but not less than ninety (90) Days prior to anticipated date of Final Inspection, Contractor must conduct a detailed inspection of the Project, and submit a list of Incomplete Work with a schedule for final completion thereof to Owner’s Project Manager.

B. Within 60 Days after receipt of Contractor's list of Incomplete Work and schedule for final completion, Owner’s Project Manager will determine approximate dates for a Preliminary Walk-Through inspection and the Final Inspection. The Preliminary Walk-Through Inspection and Final Inspection will not be conducted until the entire Work of the Project is complete.

1.06 SPARE PARTS

A. All Spare Parts required by the Contract Documents must be submitted to the Owner at least ninety (90) Days before Contractor’s request for Final Inspection of the Work.

1.07 OPERATION AND MAINTENANCE DATA

A. All Operations and Maintenance (O&M) Data required by the Contract Documents must be submitted as follows:

1. Initial Submittal: Submit twelve (12) draft copies of each O&M manual at least sixty (60) Days before certifying completion of the entire Work of the Project.

2. Final Submittal: Submit twelve (12) copies of each O&M manual in final form no later than fifteen (15) Days after Contractor's certification that the entire Work of the Project is complete.

3. Corrected Final Submittal: Correct or modify each O&M manual to comply with Owner’s comments. Submit twelve (12) copies of each corrected Final Submittal within fifteen (15) Days of receipt of Owner's comments on the Final Submittal.

1.08 FINAL CLEANING

A. Contractor must, before requesting the Preliminary Walk-Through Inspection perform a Final Cleaning of all Work areas and the Project Site including all areas associated with previously completed Milestones.

1.09 CONTRACTOR’S CERTIFICATION THAT ALL WORK OF THE PROJECT IS COMPLETE

A. When the entire Work of the Project is complete and after the Contractor has performed the Final Cleaning, Contractor must so certify and request a Preliminary Walk-Through Inspection.

B. Contractor’s Certification must include a Contractor generated list of Deficient Work.

C. Unless specifically exempted in writing by Owner’s Project Manager, the Contractor’s Project Completion Certification will be rejected if Incomplete Work items appear on the Contractor’s list of Deficient Work.

1.10 PRELIMINARY WALK-THROUGH INSPECTION
A. Within seven (7) Days of receipt of Contractor’s certification that the entire Work of the Project is complete, Owner’s Project Inspector will make a Preliminary Walk-through Inspection with Contractor to verify that the Project is complete and ready for Final Inspection.

B. If Owner’s Project Manager determines that the Work is not complete, Contractor will be notified in writing. Contractor must complete the Work and re-initiate procedures for another Preliminary Walk-Through Inspection. At Owner’s discretion, any costs to Owner for additional Preliminary Walk-through Inspections may be charged to the Contractor.

1.11 FINAL INSPECTION

A. If the Owner’s Project Manager agrees with the Contractor’s certification, the Final Inspection will occur with twenty-one (21) Days of the Contractor’s certification of final completion of the entire Work of the Project.

B. If Owner’s Project Manager determines the completed Work is deficient, Contractor will be furnished with a Punchlist identifying the observed deficiencies in the completed Work. After all deficiencies have been corrected, Contractor must initiate procedures for another Final Inspection. If Contractor requests more than two (2) Final Inspections, at Owner’s discretion, any costs to Owner for additional Final Inspections may be charged to the Contractor.

1.12 PROJECT RECORDS

A. No later than 15 Days after Contractor’s request for Final Inspection, Contractor must submit all required Project Records, including but not limited to:

1. Copies of all Hazardous Waste Manifests signed by Toxic Substances Disposal Facilities (“TSDF’s”) and certificates of disposal (See Document 00700.3.14.3)

2. Contractor’s certification of the minimum, if not exact, percentage of recycled content used in the performance of the Work. (See Document 00700.3.25, “Certification by Contractor of Recycled Content”) Submit four (4) copies.

3. Summary of solid waste generated by the Contractor’s operations. (Form 01515-F1) (See Section 01515.1.05.B)

4. Record Documents (As-Builts) (See Section 01450.1.15.G, “Record Document Certification) (See Section 01325.1.07, “Record Set”) (See Document 00700.13.6, “Recommendation for Acceptance”)

5. Executed Contractor’s Warranty/Guarantee (See Document 00700.13.12, “Warranty/Guarantee Form”)

7. Copies of the Contractor’s survey records (See Section 01725.1.10.B, Survey Records)

1.13 FINAL PAYMENT APPLICATION (See Section 01290.1.08.B, Final Payment Application)

1. After all Project Records have been submitted, Contractor must submit two (2) copies of their Final Payment Application with supporting Project closeout documentation including, but not limited, to the following:

   a. Evidence of completion of Project closeout requirements.

   b. Evidence that claims have been settled.

   c. Other documents as required by the Owner.

1.14 RECOMMENDATION FOR ACCEPTANCE

A. Owner’s Authorized Representative will recommend that the Board of Supervisors formally Accept the Work if the Contractor has satisfactorily:

   1. Corrected all Deficient Work observed during the Final Inspection of the entire Work of
the Project.
2. Submitted all required Project Records
3. Submitted satisfactory evidence to Owner that all payrolls, material bills and other indebtedness connected with said Work have been paid
4. Submitted all other required Contract deliverables.

1.15 ACCEPTANCE OF THE WORK
A. Acceptance of the Work will be made by the Board of Supervisors only in regular session and only after the Owner's Authorized Representative has recommended Acceptance.
B. Depending on the Boards regular session schedule, Contractor’s compliance with the Project closeout timeframes and other factors, Acceptance by the Board may not occur for many months after the physical Work of the Project is completed.
C. Contractor must take special note that, unless otherwise stated in the Contract Documents, without regard to the dates(s) items of work were actually put into service, all Guarantees/Warranties will commence on the date of Acceptance of the entire Work of the Project by the County of Santa Clara Project Manager and a Notice of Completion is submitted and approved by the County Project Manager.
D. After the Project Manager’s acceptance of the entire Work, the County will record a Notice of Completion.

FINAL PAYMENT
A. Within thirty-five (35) Days after the date of recording of the Notice of Completion by the County Recorder, Owner's Project Manager will forward a request for Final Payment for the Work to the County Controller for payment.
B. Owner will withhold from Final Payment such amounts that are in Dispute between Owner and Contractor, amounts subject to offset/setoff, and all other amounts that must be withheld by law (such as Stop Notice sums.)

   4. Part 4 - Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS

A. Section 01810, "General Commissioning Requirements"

1.03 DEFINITIONS

A. O&M - Operations and Maintenance

B. O&M Documentation – O&M Documentation Directory, manuals, and Final Commissioning Report consisting of:
   1. O&M Documentation Directory
   2. Emergency Manual
   6. Final Commissioning Report

C. System - An organized collection of parts, equipment, or subsystems united by regular interaction.

D. Subsystem - A portion of a system with characteristics similar to a system.
1.04 REQUIRED O&M DOCUMENTATION

A. O&M Documentation Directory: Prepare a separately bound directory that provides an organized reference to all O&M Documentation.

B. Emergency Manual: Assemble a complete set of emergency information including procedures for use by emergency personnel and by Owner’s operating personnel for various types of emergencies.

D. Product Maintenance Manual: Assemble a complete set of maintenance data indication care and maintenance of each product, material, and finish incorporated into the Work.

F. Final Commissioning Report (See 01810.3.16, “Final Commissioning Report”)

1.05 SUBMITTALS

A. Initial Submittal: Submit twelve (12) draft copies of each manual at least sixty (60) Days before certifying completion of the entire Work of the Project.

B. Final Submittal: Submit twelve (12) copies of each manual in final form no later than fifteen (15) Days after Contractor's certification that the entire Work of the Project is complete.

C. Corrected Final Submittal: Correct or modify each manual to comply with Owner’s comments. Submit twelve (12) copies of each corrected Final Submittal within fifteen (15) Days of receipt of Owner's comments on the Final Submittal.

PART 2 - PRODUCTS

2.01 O&M DOCUMENTATION DIRECTORY

A. Organization: Include a section in the directory for each of the following:
   1. List of documents.
   2. List of systems.
   3. List of equipment.
   4. Table of contents.

B. List of Systems and Subsystems: List systems alphabetically. Include references to operation and maintenance manuals that contain information about each system.

C. List of Equipment: List equipment for each system, organized alphabetically by system. For pieces of equipment not part of system, list alphabetically in separate list.

D. Tables of Contents: Include a table of contents for each emergency, operation, and maintenance manual.

E. Identification: In the documentation directory and in each operation and maintenance manual, identify each system, subsystem, and piece of equipment with the same designation used in the Contract Documents. If no designation exists, assign a designation according to ASHRAE Guideline 4, “Preparation of Operating and Maintenance Documentation for Building Systems.”

2.02 EMERGENCY MANUALS

A. Include emergency information that must be immediately available during emergency situations to protect life and property and to minimize disruptions to building occupants.

B. Content: Organize manual into a separate section for each of the following:
1. Type of emergency.
2. Emergency instructions.
3. Emergency procedures.

C. Type of Emergency: Where applicable for each type of emergency indicated below, include instructions and procedures for each system, subsystem, piece of equipment, and component:
   1. Fire.
   2. Flood.
   3. Earthquake.
   4. Gas leak.
   5. Water leak.
   7. Water outage.
   8. System, subsystem, or equipment failure.
   9. Chemical release or spill.

D. Emergency Instructions: Describe and explain warnings, trouble indications, error messages, and similar codes and signals. Include responsibilities of Owner's operating personnel for notification of Installer, supplier, and manufacturer to maintain warranties.

E. Emergency Procedures: Include the following, as applicable:
   1. Instructions on stopping.
   2. Shutdown instructions for each type of emergency.
   3. Operating instructions for conditions outside normal operating limits.
   4. Required sequences for electric or electronic systems.
   5. Special operating instructions and procedures.

2.03 OPERATION MANUAL

A. Include information needed for daily operations and management of systems and equipment.

B. In addition to requirements in this Section, include operation data required in individual Technical Specification Sections and the following information:
   1. System, subsystem, and equipment descriptions.
   2. Performance and design criteria if Contractor is delegated design responsibility.
   3. Operating standards.
   4. Operating procedures.
   5. Operating logs.
   6. Wiring diagrams.
   7. Control diagrams.
   8. Piped system diagrams.
   9. Precautions against improper use.
   10. License requirements including inspection and renewal dates.
C. Descriptions: Include the following:
   1. Product name and model number.
   2. Manufacturer’s name.
   3. Equipment identification with serial number of each component.
   4. Equipment function.
   5. Operating characteristics.
   6. Limiting conditions.
   7. Performance curves.
   8. Engineering data and tests.
   9. Complete nomenclature and number of replacement parts.

D. Operating Procedures: Include the following, as applicable:
   1. Startup procedures.
   2. Equipment or system break-in procedures.
   3. Routine and normal operating instructions.
   4. Regulation and control procedures.
   5. Instructions on stopping.
   7. Seasonal and weekend operating instructions.
   8. Required sequences for electric or electronic systems.
   9. Special operating instructions and procedures.

E. Systems and Equipment Controls: Describe the sequence of operation, and diagram controls as installed.

F. Piped Systems: Diagram piping as installed and indicate color-coding where required for identification.

2.04 PRODUCT MAINTENANCE MANUAL

A. Content
   1. Organize manual into a separate section for each product, material, and finish.
   2. Include:
      a. Source information
      b. Product information
      c. Maintenance procedures
      d. Repair materials and sources
      e. Warranties and bonds, as described below.

B. Source Information
   1. List each product included in manual identified by product name and arranged to match manual’s table of contents.
   2. For each product, list name, address, and telephone number of Installer or supplier and maintenance service agent, and cross-reference Project Manual Section number and title.
C. Product Information: Include the following, as applicable:
   1. Product name and model number.
   2. Manufacturer's name.
   3. Color, pattern, and texture.
   5. Reordering information for specially manufactured products.

D. Maintenance Procedures: Include manufacturer's written recommendations and the following:
   1. Inspection procedures.
   2. Types of cleaning agents to be used and methods of cleaning.
   3. List of cleaning agents and methods of cleaning detrimental to product.
   4. Schedule for routine cleaning and maintenance.
   5. Repair instructions.

E. Repair Materials and Sources: Include lists of materials and local sources of materials and related services.

F. Warranties and Bonds
   1. Include copies of warranties and bonds and lists of circumstances and conditions that would affect validity of warranties or bonds.
   2. Include procedures to follow and required notifications for warranty claims.

2.05 SYSTEMS AND EQUIPMENT MAINTENANCE MANUAL

A. Content
   1. For each System, Subsystem, and piece of equipment not part of a system, include:
      a. Source information
      b. Manufacturers' maintenance documentation
      c. Maintenance procedures
      d. Maintenance and service schedules
      e. Replacement parts list and source information
      f. Maintenance service contracts
      g. Warranty and bond information

B. Source Information
   1. List each system, subsystem, and piece of equipment included in the manual, identified by product name and arranged to match manual's table of contents.
   2. For each product, list name, address, and telephone number of Installer or supplier and maintenance service agent, and cross-reference Project Manual Section number and title.

C. Manufacturers' Maintenance Documentation: Manufacturers' maintenance documentation including the following information for each component part or piece of equipment:
   1. Standard printed maintenance instructions and bulletins.
   2. Drawings, diagrams, and instructions required for maintenance, including disassembly and component removal, replacement, and assembly.
   3. Identification and nomenclature of parts and components.
4. List of items recommended to be stocked as spare parts.

D. Maintenance Procedures: Include the following information and items that detail essential maintenance procedures:
   1. Test and inspection instructions.
   2. Troubleshooting guide.
   3. Precautions against improper maintenance.
   4. Disassembly; component removal, repair, and replacement; and reassembly instructions.
   5. Aligning, adjusting, and checking instructions.
   6. Demonstration and training videotape, if available.

E. Maintenance and Service Schedules: Include service and lubrication requirements, list of required lubricants for equipment, and separate schedules for preventive and routine maintenance and service with standard time allotment.
   1. Scheduled Maintenance and Service: Tabulate actions for daily, weekly, monthly, quarterly, semiannual, and annual frequencies.
   2. Maintenance and Service Record: Include manufacturers' forms for recording maintenance.

F. Replacement Parts List and Source Information: Include lists of replacement and repair parts, with parts identified and cross-referenced to manufacturers' maintenance documentation and local sources of maintenance materials and related services.

G. Maintenance Service Contracts: Include copies of maintenance agreements with name and telephone number of service agent.

H. Warranties and Bonds: Include copies of warranties and bonds and lists of circumstances and conditions that would affect validity of warranties or bonds.
   1. Include procedures to follow and required notifications for warranty claims.

2.06 FINAL COMMISSIONING REPORT

A. The Contractor must prepare and submit a Final Commissioning Report summarizing all of the tasks, findings, and documenting the Commissioning process.

B. The report must address the actual performance of the building systems in reference to the requirements of the Contract Documents.

C. The report must include completed pre-functional inspection checklists, Functional Performance Testing records, diagnostic monitoring results, identified deficiencies, recommendations, and a summary of commissioning activities.

D. The Final Commissioning Report must be included as part of the O&M Documentation Final Submittal (See Section 01810.3.16, “Final Commissioning Report”)

PART 3 - EXECUTION

3.01 GENERAL

A. Organization
   1. Unless otherwise indicated, organize each manual into a separate section for each System and Subsystem, and a separate section for each piece of equipment not part of a system.
   2. Each manual must contain the following materials, in the order listed:
a. Title page.

b. Table of contents.

B. Title Page

1. Enclose title page in transparent plastic sleeve.

2. Include the following information:
   a. Subject matter included in manual.
   b. Name and address of Project.
   c. Name and address of City.
   d. Date of submittal.
   e. Name, address, and telephone number of Contractor.
   f. Name and address of Owner's Design Consultant.
   g. Cross-reference to related systems in other operation and maintenance manuals.

C. Table of Contents

1. List each product included in manual, identified by product name, indexed to the content of the volume, and cross-referenced to Section number in the Project Manual.

2. If operation or maintenance documentation requires more than one volume to accommodate data, include comprehensive table of contents for all volumes in each volume of the set.

D. Manual Contents

1. Organize into sets of manageable size.

2. Arrange contents alphabetically by system, subsystem, and equipment.

3. If possible, assemble instructions for subsystems, equipment, and components of one system into a single binder.

E. Binders

1. Heavy-duty, 3-ring, vinyl-covered, loose-leaf binders, in thickness necessary to accommodate contents, sized to hold 8-1/2-by-11-inch paper; with clear plastic sleeve on spine to hold label describing contents and with pockets inside covers to hold folded oversize sheets.
   a. If two or more binders are necessary to accommodate data of a system, organize data in each binder into groupings by subsystem and related components.
   b. Cross-reference other binders to provide essential information for proper operation or maintenance of equipment or system.
   c. Identify each binder on front and spine, with printed title "OPERATION AND MAINTENANCE MANUAL," Project title or name, and subject matter of contents. Indicate volume number for multiple-volume sets.

F. Dividers

1. Heavy-paper dividers with plastic-covered tabs for each section.

2. Mark each tab to indicate contents.

3. Include typed list of products and major components of equipment included in the section on each divider, cross-referenced to Project Manual Section number and title.
G. Protective Plastic Sleeves
   1. Transparent plastic sleeves designed to enclose diagnostic software diskettes for computerized electronic equipment.

H. Supplementary Text

I. Drawings
   1. Attach reinforced, punched binder tabs on drawings and bind with text.
   2. If oversize drawings are necessary, fold drawings to same size as text pages and use as foldouts.
   3. Do not place loose, oversize drawings in binder pockets.
   4. If drawings are too large to be used as foldouts, fold and place drawings in labeled envelopes and bind envelopes in rear of manual. At appropriate locations in manual, insert typewritten pages indicating drawing titles, descriptions of contents, and drawing locations.

3.02 MANUFACTURERS' DATA
   A. Manufacturers' standard printed data
      1. Include only sheets pertinent to product or component installed.
      2. Mark each sheet to identify each product or component incorporated into the Work.
      3. If data include more than one item in a tabular format, identify each item using appropriate references from the Contract Documents.
   B. Prepare supplementary text if manufacturers' standard printed data are not available and where the information is necessary for proper operation and maintenance of equipment or systems.
   C. Extraneous Data: Where contents of manuals include manufacturers' catalog pages, clearly indicate precise items included in this installation and delete, or otherwise clearly indicate, manufacturer's data with which this installation is not concerned.

3.03 DRAWINGS
   A. Prepare drawings supplementing manufacturers’ printed data to illustrate the relationship of component parts of equipment and systems and to illustrate control sequence and flow diagrams.
   B. Coordinate supplementary drawings with information contained in Record Drawings to ensure correct illustration of completed installation.
   C. Do not use original Record Documents as part of operation and maintenance manuals.

PART 4 - FORMS (Not Used)

END OF SECTION 01782
PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:

1. Part 1 – General
   a. 1.01 – Summary
   b. 1.02 - Related Documents and Sections
   c. 1.03 - Definitions
   d. 1.04 – General
   e. 1.05 – Systems/Equipment Requiring Commissioning
   f. 1.06 – Commissioning Team
   g. 1.07 – Commissioning Process
   h. 1.08 – Owner's Commissioning Consultant
   i. 1.09 – Contractor's Responsibilities
   j. 1.10 – Performance Period
   k. 1.11 – Training and Instruction
   l. 1.12 – Deferred and Seasonal Testing

2. Part 2 – Products
   a. 2.01 - Test Equipment
   b. 2.02 – Data Logging Equipment

3. Part 3 – Execution
   a. 3.01 – General
   b. 3.02 – Commissioning Plan
   c. 3.03 – Initial Scope Meeting
   d. 3.04 – Draft Commissioning Plan
   e. 3.05 – Final Commissioning Plan
   f. 3.06 – Pre-commissioning Inspection Checklist
   g. 3.07 – Pre-functional Inspection Checklist
   h. 3.08 – Functional Performance Testing
   i. 3.09 – Commissioning Acceptance Procedures
   j. 3.10 – Non-conformance
   k. 3.11 – Performance Period
   l. 3.12 – Operations & Maintenance Data
   m. 3.13 – Training and Instruction
   n. 3.14 – Requests for Information
   o. 3.15 – Final Commissioning Report

4. Part 4 - Forms
   a. Table 01810-01, "Systems/Equipment to be Commissioned"

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.7.5, "Milestone Inspections and Certification."
B. Section 01315, "Project Meetings."
C. Section 01320, "Construction Progress Documentation"
D. Section 01320.3.05.B.22, Performance Period Activities
E. Section 01330, "Submittal Procedures."
F. Section 01450, "Contractor’s Quality Control (QC) System"
G. Section 01782, "Operation and Maintenance Data"
H. Section 01820, "Demonstration and Training"

1.03 DEFINITIONS
A. The following definitions as used in this Section mean:

1. **Commissioning** - The process to demonstrate to the Owner that systems, equipment, mechanical, electrical, controls, and special systems function together properly to meet performance requirements and design intent as shown in a composite manner in the Contract Documents.

2. **Commissioning Plan** - The overall document prepared by the Contractor and accepted by the Owner, defining the overall commissioning process.

3. **Owner’s Commissioning Consultant (OCC)** - The Consultant hired directly by the Owner to represent the Owner throughout the commissioning process. The Owner’s Commissioning Consultant does not have the authority to direct start-up, testing, or commissioning activities, or authorize changes or modifications to the requirements of the Contract Documents.

4. **Subsystem** - A portion of a system with characteristics similar to a system.

5. **System(s)** - Group of components and equipment functioning as a unit or performing a common function. (i.e.: Chilled Water System: consisting of piping, valves, fittings, controls, chillers, expansion tanks, air relief, chemical treatment, pumps, etc.)

1.04 GENERAL
A. Commissioning is intended to achieve the following specific objectives:

1. Verify and document that equipment is installed and started pursuant to the requirements of the Contract Documents, Manufacturer’s recommendations, and to industry accepted minimum standards.

2. Verify and document that equipment and systems receive complete operational checkout by installing contractors.

3. Verify and document equipment and system performance.

4. Ensure that the Owner’s operating personnel are adequately trained on the operation and maintenance of building equipment and systems.

B. The commissioning process does not reduce the responsibility of the Contractor to perform and complete all Work in accordance with the requirements of the Contract Documents.

1.05 SYSTEMS/EQUIPMENT REQUIRING COMMISSIONING
A. The systems and equipment to be commissioned for this Project are identified in the Technical Specifications and summarized in Table 01810-01, "Systems/Equipment To Be Commissioned." If a specific System or item of equipment is required to be commissioned pursuant to the Technical Specifications but is omitted from Table 01810-01, "Systems/Equipment To Be Commissioned", the omitted System or item of equipment must be commissioned as though it was included in summary Table 01810-01.
B. Where the requirements of this Section 01810, "General Commissioning Requirements" conflict with the Technical Specifications (Divisions 2-16), the requirements of the Technical Specifications take precedence.

1.06 COMMISSIONING TEAM

A. It is the intent that all members of the Commissioning Team cooperate with each other to fulfill their individual responsibilities and support the overall Commissioning process.

B. The Commissioning Team consists of:
   1. Contractor
   2. Contractor's Commissioning Agent
   3. Subcontractors including Testing and Balancing (TAB) Subcontractor
   4. Owner's Commissioning Consultant
   5. Owner's Design Consultants and Representatives
   6. Owner's Building Operations Staff

1.07 COMMISSIONING PROCESS

A. The following activities describe the key tasks in the Commissioning process:
   1. Scoping Meeting: All members of the Commissioning Team that will be involved in the commissioning process meet to review the scope of Work, tasks, schedules, deliverables, and responsibilities for creation and implementation of the Commissioning Plan.
   2. Commissioning Plan: The Contractor prepares and submits the Commissioning Plan. (Performance Period Monitoring and Evaluation Plan may be submitted any time up to ninety (90) Days prior to the start of the Performance Period.)
   3. Submittals: Equipment and systems documentation including detailed start-up procedures are submitted to the Owner in compliance with Section 01330, "Submittal Procedures."
   4. Pre-commissioning Checklist: Contractor must prepare pre-commissioning to verify that systems or items of equipment are actually installed in accordance with the accepted Submittal(s).
   5. Pre-Functional Checklists: Contractor must prepare pre-functional checklist for each system and/or item of equipment to verify system set points, operating strategies, required component testing, correct rotation, damper positions, etc., prior to functional testing. The purpose of the checklist is to ensure that all systems and equipment are ready for continuous operation and final testing. The pre-functional checklists must incorporate Manufacturers start-up recommendations and system operational checkout requirements.
   6. Functional Performance Testing: Contractor must perform a full range of checks and tests to determine if components, sub-systems, systems, and interfaces between systems function in accordance with the requirements of the Contract Documents. In this context, "function" includes all modes and sequences of control operation, all interlocks and conditional control response, and all specified responses to emergency conditions.
   8. After successful Performance Period, Contractor must prepare and submit a Final Commissioning Report.
   9. Contractor prepares and submits corrected final O&M Manuals.
10. Contractor performs Demonstration and Training of Owner's personnel.

11. Deferred or Seasonal Testing. If approved in writing by the Owner's Authorized Representative, Contractor performs deferred or seasonal testing, as required.

B. Scheduling

1. Contractor must integrate all key commissioning activities into Contractor's Baseline Schedule submission. (See Section 01320, "Construction Progress Documentation")

2. Commissioning activities that must be included in the Contractor's Baseline Schedule submission include:
   a. Initial Commissioning Plan Scoping Meeting
   b. Submit Draft Commissioning Plan
   c. Review and Acceptance of Draft Commissioning Plan
   d. Submit Final Commissioning Plan
   e. Review and Acceptance of Final Commissioning Plan
   f. Contractor certification that pre-functional checklist activities are ready to be commenced.
   g. Pre-functional checkout
   h. Contractor certification that equipment and systems are operational and ready for functional performance testing.
   i. Functional performance testing
   j. Performance Period (30 calendar Days)
   k. Submit Final Commissioning Report
   l. Submit O&M Manuals (Initial, Final, and corrected Final)
   m. Owner Training
   n. Milestone Completion Certification

C. Commissioning Meetings

1. A Commissioning Plan Scope Meeting will occur within thirty (30) Days of the official start date for the Contract Time stated in the Notice To Proceed (NTP) issued by the Owner.

2. Weekly Commissioning meetings will be held beginning sixty (60) Days prior to any system or equipment start-up and will continue to be held through completion of the Performance Period.

3. Other meetings may be required and called by the Owner's Commissioning Consultant to resolve specific Commissioning issues.

4. Contractor must prepare and distribute minutes of all Commissioning meeting(s). (See also Section 01315, "Project Meetings.")

1.08 OWNER'S COMMISSIONING CONSULTANT

A. The role of the Owner's Commissioning Consultant (OCC) is to perform Quality Assurance activities for the Owner. The Contractor is responsible for all Quality Control activities associated with Commissioning the Work.

B. The Owner's Commissioning Consultant does not have the authority to modify, add to, or delete any of the requirements of the Contract Documents.

C. The Owner's Commissioning Consultant does not have the authority to direct start-up, testing, or commissioning activities.

D. The duties of the Owner's Commissioning Consultant are generally limited to:
1. Review of Contractor's:
   a. Commissioning Plan
   b. Equipment and Systems Submittals
   c. Contractor's Systems start-up plans and schedules
   d. Completed start-up and Functional Performance Testing documentation
   e. Test plans, procedures, and reports
   f. Final testing, adjusting, and balancing (TAB) reports
   g. O&M Documentation
   h. Training Plan and Documentation

2. Witness and verify satisfactory performance of:
   a. Equipment and component tests
   b. Systems and inter-systems functional performance tests.
   c. TAB activities

3. Site observation
   a. The Owner's Commissioning Consultant will periodically visit to the Project site to witness equipment and system installation.
   b. Conflicts or areas needing clarification will be documented in writing by the Owner's Commissioning Consultant and will be forwarded to the Contractor for response and if required, corrective action.

4. Commissioning meetings
   a. Require special Commissioning meetings
   b. Attendance at all Commissioning meetings

1.09 CONTRACTOR'S RESPONSIBILITIES

A. Coordinate and direct all Commissioning activities.
B. Attend Commissioning Plan Scoping Meeting and additional meetings, as required by Owner's Commissioning Consultant or the Contract Documents.
C. Prepare and submit twelve (12) copies of the Draft Commissioning Plan
D. Prepare and submit twelve (12) copies the Final Commissioning Plan
E. Include all key Commissioning activities in the Contractor's Baseline Schedule submission and submit updates and revisions to the Commissioning activities pursuant to the requirements of Section 01320, "Construction Progress Documentation."
F. Develop start-up plans
G. Ensure that the Work is performed according to the requirements of the Contract Documents and the accepted Commissioning Plan.
H. Notify Owner's Commissioning Consultant in writing when equipment and Systems are ready for pre-commissioning checklist activities.
I. Verify completion of pre-commissioning checklist activities
J. Certify in writing to Owner that pre-functional checklist activities are ready to be commenced.
K. Certify in writing that equipment and systems are operational and ready for Functional Performance Testing.
L. Prior to certification that equipment and systems are operational and ready for Functional Performance Testing, provide the Owner's Commissioning Consultant with copies of all completed pre-commissioning checklists, completed pre-functional checklists, Owner accepted Submittals, Requests for Information (RFIs), Field Modifications, and Changer Orders related to Systems and equipment to be tested.

M. Prepare O&M manuals, according to the requirements of Section 01782, "Operation and Maintenance Data", including updating original sequences of operation to as-built conditions.

N. Contractor is responsible for operation and performance of systems and equipment throughout the commissioning process.

O. Provide Owner training in accordance with Division 01820, "Demonstration and Training"

1.10 PERFORMANCE PERIOD

A. All Commissioned equipment and Systems must operate under normal operating conditions for a minimum duration of thirty (30) consecutive Days.

B. The performance period must occur after the completion of the Functional Performance Testing and before Contractor certifies the Work of the appropriate Milestone is complete.

C. The Contractor must develop a written Performance Period Monitoring and Evaluation Plan and include it in the Commissioning Plan.

1.11 TRAINING AND INSTRUCTION

A. Contractor must provide training in accordance with Section 01820, "Demonstration and Training" and as specified else where within the Technical Specifications.

1.12 DEFERRED AND SEASONAL TESTING

A. Unforeseen Conditions

1. If Functional Performance Testing of a specific item of equipment or System cannot be completed due to unforeseen conditions or circumstances, at the sole discretion of the Owner's Authorized Representative, functional testing may be delayed and conducted at any time up to the end of the Warranty/Guarantee period.

2. Owner's Authorized Representative must approve deferred testing in writing.

3. Deferred testing must be conducted during the time period identified in the Owner's written authorization allowing deferred testing.

B. Seasonal Testing

1. Seasonal variation in operations or control strategies may require additional testing during the opposite season to verify performance of the HVAC system and controls.

2. If Seasonal Testing is required by the Contract Documents, it must be identified in the Commissioning Plan.

3. With the written approval of the Owner's Authorized Representative, Seasonal Testing may be performed during the Warranty/Guarantee period.

PART 2 - PRODUCTS

2.01 TEST EQUIPMENT

A. All testing equipment, supplies, materials, power, water, gas, electrical load banks, filters, etc., required to perform startup and initial checkout and Functional Performance Testing must be provided and paid for by the Contractor.

B. All testing equipment must be of sufficient quality, accuracy, and capacity to test or measure System and/or equipment performance for conformance with the requirements of the Contract Documents.
2.02 DATA LOGGING EQUIPMENT

A. If needed, the Contractor must provide all data logging equipment and/or software required for recording data generated during the testing of the systems and/or equipment.

PART 3 - EXECUTION

3.01 GENERAL

A. Contractor must operate equipment and Systems and conduct all tests in presence of the Owner's Commissioning Consultant.

B. Contractor must notify the Owner's Commissioning Consultant, in writing, at least seven (7) Days prior to performing any Commissioning test.

C. Testing must be conducted under design operating conditions as defined within the Contract Documents or accepted Commissioning Plan.

D. In addition to the copies required by Section 01332, "Submittal Log", Contractor must submit two (2) additional copies of all test reports to the Owner's Commissioning Consultant within twenty-four (24) hours of conducting each test.

E. Functional Performance Testing must be completed and accepted by the Owner prior to commencing the thirty (30) calendar Day performance periods.

F. All elements of Systems must be tested to demonstrate that all systems satisfy all requirements of the Contract Documents.

G. Testing must be accomplished on hierarchical basis. Each piece of equipment must be tested for proper operation, followed by each subsystem, followed by entire system, followed by interfaces to other major systems.

3.02 COMMISSIONING PLAN

A. The Commissioning Plan will be prepared by the Contractor and will detail the implementation of the Commissioning process. It must include the requirements that each party involved in the commissioning process will have to accomplish, including sequence, acceptance criteria, scheduling, documentation requirements, and verification procedures.

B. Twelve (12) copies of the Draft Commissioning Plan must be submitted to the Owner no later than ninety (90) Days after initial Commissioning Plan Scoping Meeting.

C. The Commissioning Plan must include the following:
   1. General Building Information
   2. Identify project location & address
   3. Building type, occupancy and fire rating
   4. Building square footage & number of stories
   5. Project team member information:
      a. Company Name & Address
      b. Discipline
      c. Phone Number
      d. Fax
      e. Email
      f. Emergency 24/7 phone number
   6. Detailed responsibilities and/or deliverables for each member of the Commissioning Team.
7. Equipment & system list of items to be commissioned
8. Fire and Emergency Power Response Matrix
9. Fire Alarm Sequence Flow Chart/Diagram
10. Testing Plan, Approach, & Methodology
11. Test Methods
12. Coordination & Scheduling
13. Deficiencies Documentation
14. Acceptance
15. Testing elements defined
16. Shop Drawings that will be use during Commissioning.
17. Delivery checklists
18. Manufacturer's installation requirements
19. System sequences of operations
20. Detailed procedures for start-up and testing each listed piece of equipment and system.
21. Pre-commissioning checklists and system pre-functional checklists.
22. Detailed checklists for performance testing.
23. System & equipment integration matrix
24. Report forms that will be used.
25. Calibration data for test equipment to be used during the Commissioning process.
26. Performance Period Monitoring and Evaluation Plan
27. Seasonal or Deferred Testing
28. Other items as may be specified in Divisions 2 through 16.

D. The Commissioning Plan must include procedures for:
   1. Start-up
   2. Testing, adjusting, and balancing
   3. Verification of equipment and system performance.
   4. Verification of performance of subsystems (e.g. pumps, heat exchangers, and interconnecting piping).
   5. Verification of performance of the automatic controls in all seasonal and operational modes.
   6. Verification of the performance of the HVAC systems as a whole.
   7. Verification of the performance of all life safety devices and systems that interface with the HVAC systems.
   8. Verification of required continuous Operational testing periods for each system or item of equipment.
   9. Creation of corrective action plans for all noted deficiencies identified during the commissioning process.

3.03 INITIAL SCOPE MEETING

A. Initial Commissioning Plan Scope Meeting must take place within thirty (30) Days from the official start date for the Contract Time stated in the Notice to Proceed (NTP) letter to the Contractor.
B. Attendees:
   1. Owner’s Project Manager
   2. Owner’s Project Inspector (Mandatory Attendance Required)
   3. Owner’s Commissioning Consultant (Mandatory Attendance Required)
   4. Owner’s Design Consultant(s)
   5. Contractor’s Authorized Representative
   6. Contractor’s CQ Manager (Mandatory Attendance Required)
   7. Contractor’s Commissioning Agent (Mandatory Attendance Required)
   8. Appropriate Subcontractors
   9. Other Interested Parties

C. The agenda must include:
   1. Introductions
   2. Flow of documents
   3. Submittal data
   4. Shop Drawings, Coordination Drawings and single line diagrams
   5. Lines of reporting & communication
   6. Responsibilities
   7. Commissioning Plan requirements

3.04 DRAFT COMMISSIONING PLAN
A. The Contractor must develop a draft Commissioning Plan.
   1. Twelve (12) copies of the Draft Commissioning Plan must be submitted to the Owner no later than ninety (90) Days after initial Commissioning Plan Scoping Meeting.
   2. Within thirty (30) calendar Days of receipt, Owner will meet with the Contractor to discuss the Draft Commissioning Plan.

3.05 FINAL COMMISSIONING PLAN
A. Contractor must submit twelve (12) copies of a Final Commissioning Plan to the Owner no later than 240 calendar Days from the official start date for the Contract Time stated in the Notice to Proceed (NTP) letter to the Contractor.
B. Owner will review and return the Final Commissioning Plan submittal pursuant to Section 01330, "Submittal Procedures."

3.06 PRE-COMMISSIONING INSPECTION CHECKLIST
A. Contractor must prepare pre-commissioning checklists for each item of equipment and System to be Commissioned.
B. As a minimum, pre-commissioning checklists must include the following:
   1. Submittal Approvals
   2. Model (equipment nameplate and characteristics) verification
   3. Manufacture Installation Checklist
   4. System Checklist
   5. Deficiencies Documentation
6. Contractor Certification
7. Owner notification
8. Owner Acceptance

C. Each item in the checklist must have a date and initial line for the Contractor to indicate successful completion of the item. Only individuals who have completed or witnessed the line item task shall make initials or checks on the forms.

D. Contractor must identify all pre-commissioning items not successfully completed at the bottom of the checklist form or on an attached sheet. Four (4) copies of the completed checklist and any outstanding deficiencies must be submitted to the Owner within two (2) workdays of test completion.

3.07 PRE-FUNCTIONAL INSPECTION CHECKLIST

A. Contractor must prepare pre-functional inspection checklists for each item of equipment and system to be commissioned.

B. The pre-functional inspection checklists must contain sufficient detail to ensure that the systems/equipment are complete and operational, so that the functional performance testing can commence.

C. At a minimum, pre-functional inspection checklists must include the following:
   1. Installation checklist
   2. Manufacturer start-up and checkout procedures
   3. Fire and Emergency Power response matrix
   4. Fire Alarm Sequence Flow Chart/Diagram
   5. TAB Initial report
   6. Deficiencies Documentation
   7. Contractor Certification
   8. Owner Notification
   9. Acceptance

D. Each item in the checklist must have a date and initial line for the contractor to indicate successful completion of the item. Only individuals who have completed or witnessed the line item task shall make initials or checks on the forms.

E. Contractor must clearly list any items of pre-functional inspection not successfully completed at the bottom of the checklist form or on an attached sheet. Four (4) copies of the completed checklist and any outstanding deficiencies must be submitted to the Owner within two (2) workdays of test completion.

3.08 FUNCTIONAL PERFORMANCE TESTING

A. General
   1. The objective of Functional Performance Testing is to demonstrate that each system is operating according to the requirements of the Contract Documents.
   2. Functional Performance Testing comprises a full range of tests to verify that all components, equipment, Systems, and interfaces between Systems operate correctly. This includes all operating modes, interlocks, control sequences, and responses to emergency conditions.
   3. Tests must be performed on a complete system basis.
4. Contractor must operate systems and equipment throughout this testing and verification process.

5. Contractor must following the written test procedures in the accepted Commissioning Plan.

6. Contractor must direct, coordinate, and perform all testing procedures.

7. The Contractor must document all verification testing as it occurs.

8. The Owner's Commissioning Consultant must witness all Commissioning activities.

9. The Functional Performance Test checklist contained in the accepted Commissioning Plan must be used to document the results of the Functional Performance Testing process.

10. Each System must be operated through all modes of System operation (i.e., seasonal, occupied, unoccupied, warm-up, cool-down, power failure, fire alarm, etc.) including every individual interlock and conditional control logic, all control sequences, both full- and part-load conditions, and simulation of all abnormal conditions for which there is a specified system or controls response, e.g. warm-up and cool-down test shall be a performance test, test must be timed, HVAC equipment must change the space temperature by 10 degrees (60 degrees F to 70 degrees F and 80 degrees F to 70 degrees F).

11. Temporary upsets of Systems, such as distribution fault, control loss, set-point change, equilibrium upset, and component failure must be imposed at different operation loads to determine system stability and recovery time. All data must be logged and included in the O&M Documentation. (See Section 01782, "Operation and Maintenance Data")

B. Development of Test Procedures

1. The Contractor must develop specific test procedures and forms to verify and document proper operation of each piece of equipment and System.

2. The test procedures must be included in the Final Commissioning Plan and submitted to the Owner for review.

3. The Functional Performance Testing procedure forms developed by the Contractor must include the following information:
   a. System and equipment or component name(s).
   b. Equipment location and ID number.
   c. Date.
   d. Project name.
   e. Participating parties.
   f. Instructions for setting up the test, including special cautions, alarm limits, etc.
   g. Specific step-by-step procedures to execute the test.
   h. Acceptance criteria of proper performance with a Yes / No check box.
   i. A section for comments.
   j. Execution of Functional Performance Tests
   k. Test Methods

4. The Functional Performance Testing process must be accomplished for all equipment, Subsystems, Systems, and System interfaces, with a separate checklist for each to ensure that documentation specific to each is complete.

5. Functional Performance Testing and verification may be achieved by:
   a. Direct manipulation of System inputs (i.e., heating or cooling sensors)
b. Manipulation of System inputs with the building automation system (i.e., software override of sensor inputs)

c. Trend logs of System inputs and outputs using the building automation system

d. Short-term monitoring of System inputs and outputs using stand alone data loggers.

e. A combination of methods may be required to completely test the entire sequence of operations. The Owner's Design Consultant will determine which method, or combination, is most appropriate.

C. Setup

1. Each test procedure must be performed under conditions that simulate normal operating conditions as closely as possible.

2. Contractor must make all necessary System modifications to produce the specified conditions (flows, pressures, temperatures, etc) necessary to execute the test.

D. Sampling

1. Multiple identical pieces of non-life-safety or non-critical equipment may be functionally tested using a sampling strategy.

2. The sampling strategy is developed by the Contractor and accepted by the Owner's Design Consultant.

3. If, after three attempts at testing using the accepted sampling method, failures are still present, all remaining units must be individually tested.

E. Coordination

1. Equipment must not be "temporarily' started (for heating or cooling), until pre-functional checklist items and all Manufacturers' pre-start procedures are completed and moisture, dust and other environmental and building integrity issues will not interfere with the startup and/or operation and testing of the Systems and equipment.

2. Functional Performance Testing must not begin until pre-functional testing is completed for a given system.

3. The controls system and equipment it controls must not be functionally tested until all points have been calibrated and pre-functional checklists are completed.

4. When the functional performance of all individual systems has been proven, the interface or coordinated responses between systems must be checked. The systems involved may be within the overall HVAC Work or they may involve other Systems, such as emergency systems for fire and life safety.

5. If Contractors Work interfaces with Owner's existing systems, Contractor's Work will be first tested as independent building Systems followed by tests of Systems tied into Owners systems.

6. Each coordinated response between Systems must be demonstrated to the satisfaction of the Owner's Commissioning Consultant.

7. At completion of the each test, Contractor must return all affected building equipment and Systems to their pre-test conditions.

F. Occupied Facilities

1. Testing procedures must be conducted in a manner that will not compromise the Owner's ongoing operations.

2. If the Contractor is unsure of test procedure's effect on an operating System, or the test procedure may cause an existing System to stop operating, Contractor must make such test procedures known to the Owner during the development of the Commissioning Plan.
3. Owner may require testing that may interrupt or compromise the Owner’s existing Systems to be performed during non-peak operating periods.

4. Scheduling of such items will be at the sole discretion of the Owner.

G. Problem Solving

1. The Owner's Commissioning Consultant may offer suggestions for the Contractor to consider when resolving difficulties encountered during the Commissioning process. However, all suggestions offered by the Owner's Commissioning Consultant are not binding on the Contractor and the burden of responsibility to solve and correct deficiencies encountered during the Commissioning process is and remains the responsibility of the Contractor.

3.09 COMMISSIONING ACCEPTANCE PROCEDURES

A. Contractor must notify the Owner's Commissioning Consultant at least two weeks prior to starting Functional Performance Tests.

B. The Owner's Commissioning Consultant makes provisional acceptance of the Functional Performance Test after witnessing successful completion of the test.

C. The Owner's Commissioning Consultant recommends acceptance of each test to the Owner's Design Consultant.

D. The Owner’s Design Consultant accepts/rejects the System or item of equipment after reviewing Owner's Commissioning Consultant recommendation and all test results.

E. Contractor performs all Performance Period activities.

F. Upon successful completion of the Performance Period and all other required items, Contractor certifies the Work is complete in accordance with Document 00700.7.5, “Milestone Inspections and Certification.”

3.10 NON-CONFORMANCE

A. If acceptable performance is not achieved:

1. If there is no dispute on the deficiency and the responsibility to correct it:
   a. Contractor documents the deficiency and the adjustments or alterations required to correct it.
   b. Contractor corrects the deficiency and notifies the Owner's Commissioning Consultant that the equipment is ready to be retested.
   c. The Owner's Commissioning Consultant witnesses the re-test when it is performed.

2. If there is a dispute about a deficiency or who is responsible:
   a. The deficiency is documented and the Owner and Owner's Commissioning Consultant are notified in writing by Contractor of Contractor's position.
   b. Owner will furnish the Contractor with written clarification and/or Direction.
   c. Once the Owner furnishes the Contractor with an interpretation and/or Direction, Contractor must proceed with the Work.
   d. Contractor must notify the Owner and Owner's Commissioning Consultant when the equipment or is ready to be retested.

B. Every check or test for which acceptable performance was not achieved must be repeated after the necessary corrective measures have been completed until acceptable performance is achieved.
C. Owner's Commissioning Consultant must witness and sign-off on the correction of all performance deficiencies.

3.11 PERFORMANCE PERIOD
A. The Performance Period in this section applies to all commissioned equipment and Systems.
B. Upon successful completion of Owner-witnessed Functional Performance Tests, a Performance Period of thirty (30) consecutive calendar Days is required.
C. The Performance Period commences on first day following the last approved performance test and must be completed prior to Contractor's Milestone certification.
D. Contractor must include the Performance Period in the Contractor's Preliminary and Baseline Schedule submissions. These activities must occur after operational testing is completed and before Contractor certifies the Work of the Milestone is complete. (See Section 01320.3.05.B.22)
E. The Contractor must verify and document during the Performance Period, under normal conditions, the performance of the commissioned equipment, systems and related systems.
F. During the Performance Period, Contractor must operate and maintain equipment and Systems being verified.
G. The Contractor must review System and equipment performance during the Performance Period and correct problems as early as possible. All such corrections must be documented with date and time and copies of the documentation must be submitted to the Owner's Commissioning Consultant within 24 hours of correction.

3.12 PERFORMANCE PERIOD MONITORING AND EVALUATION PLAN
A. At least ninety (90) Days prior to the start of the Performance Period, the Contractor must submit to Owner a written Performance Period Monitoring and Evaluation Plan.
B. Contractor's Performance Period Monitoring and Evaluation Plan must:
   1. Identify Systems and equipment that will be monitored and evaluated
   2. Identify how specific issues and criteria for components and equipment will be monitored and evaluated, e.g. simultaneous heating and cooling, valve leak by, actuator and other control loop hunting, outdoor air functions, economizer functions, schedules, etc.
   3. Identify how indoor environmental conditions will be monitored and evaluated, e.g., space temperature, relative humidity, pressurization, air exchange, etc.
   4. Identify how inter-System interfaces will be monitored and evaluated.
   5. Propose for Owner's acceptance, required level of detailed documentation to verify compliance with acceptance criteria, e.g., sampling rate of trend logs, which points to graph together, graph type (time series, scatter plot) or tabular outputs needed, etc.
   6. Identify how the trend graphs will be developed, e.g. BAS or other means.
      a. At a minimum, each graphs must:
         (1) Be titled or annotated listing and describing the performance issue being displayed. Neatly by hand is acceptable.
         (2) Show the point identity of each graph line, with date, time, values and units clearly identifiable.
         (3) Y-axis must be scaled to provide as much resolution as possible and two Y-axes used for multiple points with large variances in their numerical ranges.
         (4) The time window will be narrowed to provide clear resolution, but wide enough to verify that compliance is not an anomaly in time. Use multiple time windows for the same issue as needed or requested by the Owner's Commissioning Consultant.
(5) Electronic data behind each graph must be archived so regraphing/reformatting can be accomplished or points used to add to another graph, etc.

(6) Contractor must set up trends in the BAS to ensure there will be no loss of data.
   b. Graph Data: Analyze data and adjust graphs by adding or deleting points, zooming in on a narrower time frame, etc., to clearly illustrate the issue.
   c. Record daily activities and conditions that may be useful in interpreting performance, e.g., weather, etc.

7. Identify how system alarms, system failures, equipment failures, software failure, software errors, will be monitored and corrected.

8. Identify how types of failure and types of alarms will be classified. This information must be presented in a table listing the issue type and number of occurrences. During the Performance Period, a copy of the table must be submitted to the Owner's Commissioning Consultant as requested.

9. Identify how all maintenance and adjustment operations will be documented.

C. Performance Period Report:
   1. Assemble the documentation from the Performance Period into a Performance Period Report and submit eight (8) copies to the Owner's within five (5) workdays of the end of the performance period.
   2. Include a summary listing all known areas that do not meet the acceptance criteria.
   3. Within seven (7) working Days after submission of the Performance Period Report, a review meeting with the Owner's Commissioning Consultant will be conducted. At the meeting the Performance Period report will be reviewed.

D. Retests:
   1. After review of the Performance Period Report, for issues where acceptance criteria were not met, corrective actions will be identified, retests will be scheduled, and additional Performance Periods will be established.
   2. If equipment or System operates so as to demonstrate continuing compliance with the Requirements of the Contract Documents, for a period of thirty (30) consecutive Days from commencement date of Performance Period, the equipment or system will be deemed to have satisfied the Performance Period requirement.

3.13 OPERATIONS & MAINTENANCE DATA
   A. The Contractor must compile O&M Documentation for each piece of equipment or System defined in Technical Specification (Divisions 2 through 17) in accordance with Section 01782, "Operation and Maintenance Data."

3.14 TRAINING AND INSTRUCTION
   A. Training and instruction of Owner's personnel is a part of the Commissioning process and essential for the proper operation of the equipment and Systems within the Project. The Contractor must coordinate with the Owner's Commissioning Consultant for the training of Owner's personnel. Detailed requirements for training and instruction are contained in other sections of the Contract Documents including, but not limited to, Section 01820, "Demonstration and Training," and the Technical Specifications (Divisions 2 through 17).

3.15 REQUESTS FOR INFORMATION
   A. In addition to the number of copies required by other sections of the Contract Documents, Contractor must submit two (2) additional copies of all RFI's that relate to Commissioned equipment and Systems directly to the Owner's Commissioning Consultant.
3.16 FINAL COMMISSIONING REPORT

A. The Contractor must prepare and submit twelve (12) copies of a Final Commissioning Report summarizing all of the tasks, findings, and documenting the Commissioning process.

B. The report must address the actual performance of the building systems in reference to the requirements of the Contract Documents.

C. The report must include completed pre-functional inspection checklists, Functional Performance Testing records, diagnostic monitoring results, identified deficiencies, recommendations, and a summary of commissioning activities.

D. The Final Commissioning Report must be included as part of the Operation and Maintenance Data (See Section 01782.2.07, “Final Commissioning Report”)

PART 4 - FORMS

TABLE 01810-01
SYSTEMS/EQUIPMENT TO BE COMMISSIONED

A. MECHANICAL

- Variable Frequency Drives
- Central Cooling Plant/Chilled Water Generation Systems
- Heating Plant/Heating Hot Water Generation Systems
- Field Erected Cooling Towers
- Central Steam generation plants
- Chemical water treatment systems
- Control air systems & dryers
- Fan Coil Units
- Air Conditioning Units
- Computer room cooling systems
- Rooftop Air Handling Units/Supply Air Systems
- Packaged Air Handling Units/Supply Air Systems
- Make-Up Air Handling Unit/Supply Air Systems
- Unit Ventilators
- Boilers
- Air Conditioning Unit/Supply Air System
- Cooling Towers
- Chillers
- Supply Fan Systems
- Exhaust Fan Systems
- CO2 monitoring and control Systems Eli Electric Unit Heaters
- Ventilation, Relief or Exhaust Fan Systems
- Variable Air Volume Terminal Units - Fan Powered Type (Series or Parallel)
- Variable Air Volume Terminal Units - Cooling Only
- Building Automation System (BAS) Direct Digital Control (DDC) System
□ Fuel system components and piping
□ FOG cooling systems
□ Other

B. PLUMBING SYSTEM
□ Electric Water Heaters
□ Gas Fired Water Heaters
□ Water Heater Circulation Pump
□ Plumbing Sump Pump
□ Plumbing Fixtures
□ Water pump Systems
□ Sewer Lift Stations systems
□ Water booster systems
□ Localized temperature booster systems
□ Fountain mechanical systems
□ Industrial waste systems
□ Landscape irrigation systems
□ Other

C. FIRE PROTECTION
□ Fire Protection Sprinkler System Inspector's Test Station
□ Fire Protection System Dry Pipe System
□ Fire Protection System Pre-action System
□ Fire protection air compressors and dryers
□ Fire alarm system & interface
□ Smoke alarm system & interface
□ Fire water pressure stations
□ CO2 systems
□ Clean agent extinguishing systems
□ Smoke evacuation System and Integration
□ Other

D. ELECTRICAL
□ Lighting Systems
□ Engine Generator systems
□ Switchgear
□ Vacuum Fault Interrupters
□ Electrical Metering, Monitoring, and Control Systems
□ Motors
□ Automatic Transfer Switches
☐ Medium Voltage Interrupter Switch
☐ Transformers
☐ Pad-Mounted Primary Switchgear
☐ Primary Power System Cabling
☐ Secondary Power System Cabling
☐ Power Distribution Unit
☐ Circuit Breaker Switchboards
☐ Breaker trip sequencing coordination study
☐ Ground fault systems
☐ Service Switchboard
☐ Circuit Breaker Branch Circuit Panel-boards
☐ Circuit Breaker Distribution Panel-board
☐ Motor Control Center
☐ Other

E. SPECIAL SYSTEMS
☐ UPS Systems
☐ UPS Battery Capacity Test
☐ Transit Voltage Surge Suppression (TVSS) Systems
☐ Fire Detection and Alarm System
☐ Security Access System
☐ Building Management Systems
☐ Video Surveillance System - Fixed Position Camera
☐ Video Surveillance System - Pan Tilt and Zoom Camera
☐ Closed circuit television (CCTV) systems
☐ Supervisory Control and Data Acquisition Systems
☐ Other

F. AUDIO VISUAL SYSTEMS
☐ Video Projection
☐ Video Monitor System
☐ Sound Systems
☐ Computer controls
☐ Paging system
☐ Switching / Source Selection Systems
☐ Other

G. CONVEYANCE SYSTEMS
☐ Elevators
☐ Traction Elevators & interfaces
□ Hydraulic Elevators & interfaces
□ Escalators
□ Moving Walks
□ Vertical Wheelchair Lifts & interfaces
□ Baggage Conveying & Dispensing Systems
□ Other

H. COMMUNICATIONS
□ Voice Paging
□ Telephone
□ Data Systems
□ Fiber Optic Systems
□ Radio and Wireless Systems
□ 800Mhz Radio System
□ Common User Terminal Equipment (CUTE)
□ Flight Information Display Systems (FIDS)
□ Station Call System
□ Other

END OF SECTION 01810
PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:
   1. Part 1 - General
      a. 1.01 - Summary
      b. 1.02 - Related Documents And Sections
      c. 1.03 -Definitions
      d. 1.04 - General
      e. 1.05 - Pre-instruction Conference
      f. 1.06 - Coordination
      g. 1.07 - Instruction Program
   2. Part 2 - Products (Not Used)
   3. Part 3 - Execution
      a. 3.01- Preparation
      b. 3.02- Instruction
      c. 3.03- Submittals
   4. Part 4 - Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS

A. Section 01810, "General Commissioning Requirements"

1.03 DEFINITIONS

A. **Training Facilitator** - A firm or individual experienced in training or educating maintenance personnel in a training program similar in content and extent to that indicated for this Project, and whose work has resulted in training or education with a record of successful learning performance.

B. **Instructor** - A factory-authorized service representative, experienced in operation and maintenance procedures and training.

1.04 GENERAL

A. Contractor must procure and pay for the services of a qualified Training Facilitator to prepare instruction program and training modules, to coordinate Instructors, and to coordinate between Contractor and Owner for number of participants, instruction times, and location.

B. Contractor must procure and pay for the services of qualified Instructors to instruct Owner’s personnel to adjust, operate, and maintain systems, subsystems, and equipment not part of a system.

C. Training requirements include:
   1. Demonstration of operation of systems, subsystems, and equipment.
   2. Training in operation and maintenance of systems, subsystems, and equipment.

1.05 PRE-INSTRUCTION CONFERENCE
A. Training Facilitator must schedule conduct a Pre-instruction Conference at the Project Site with:
   1. Owner’s Commissioning Consultant (Mandatory Attendance Required)
   2. Contractor’s Commissioning Agent (Mandatory Attendance Required)
   3. Owner’s Building Operations Staff (Mandatory Attendance Required)
   4. Contractor’s QC Manager (Mandatory Attendance Required)
   5. Owner’s Project Manager (Mandatory Attendance Required)
   6. Contractor’s Authorized Representative (Mandatory Attendance Required)

B. Review methods and procedures related to demonstration and training including, but not limited to, the following:
   1. Inspect and discuss locations and other facilities required for instruction.
   2. Review and finalize instruction schedule and verify availability of educational materials, instructors’ personnel, audiovisual equipment, and facilities needed to avoid delays.
   3. Review required content of instruction.
   4. For instruction that must occur outside, review weather and forecasted weather conditions and procedures to follow if conditions are unfavorable.

C. Training Facilitator must minutes of the meeting and distribute to all participants.

1.06 COORDINATION

A. Training Facilitator must coordinate instruction schedule with Owner's operations. Adjust schedule as required to minimize disrupting Owner's operations.

B. Training Facilitator must coordinate Instructors, including providing notification of dates, times, length of instruction time, and course content.

C. Training Facilitator must coordinate content of training modules with content of approved emergency, operation, and maintenance manuals. Do not submit instruction program until operation and maintenance data has been reviewed and approved by Owner.

1.07 INSTRUCTION PROGRAM

A. Program Structure: Training Facilitator must develop an instruction program that includes individual training modules for each system and equipment not part of a system, as required by individual Specification Sections, and as follows:
   1. Motorized doors, including [overhead coiling doors] [overhead coiling grilles] [and] [automatic entrance doors].
   2. Equipment, including [stage equipment] [projection screens] [loading dock equipment] [waste compactors] [food-service equipment] [residential appliances] [and] [laboratory fume hoods] <Insert type of equipment>.
   3. Fire-protection systems, including [fire alarm] [fire pumps] [and] [fire-extinguishing systems].
   4. Intrusion detection systems.
   5. Conveying systems, including [elevators] [wheelchair lifts] [escalators] [and] [cranes].
   6. Medical equipment, including medical gas equipment and piping.
   7. Laboratory equipment, including laboratory [air] [and] [vacuum] equipment and piping.
   8. Heat generation, including [boilers] [feed water equipment] [pumps] [steam distribution piping] [and] [water distribution piping].
9. Refrigeration systems, including [chillers] [cooling towers] [condensers] [pumps] [and] [distribution piping].

10. HVAC systems, including [air-handling equipment] [air distribution systems] [and] [terminal equipment and devices].

11. HVAC instrumentation and controls.

12. Electrical service and distribution, including [transformers] [switchboards] [panelboards] [uninterruptible power supplies] [and] [motor controls].

13. Packaged engine generators, including transfer switches.

14. Lighting equipment and controls.

15. Communication systems, including [intercommunication] [surveillance] [clocks and programming] [voice and data] [and] [television] equipment.

B. Training Modules: Training Facilitator must develop a learning objective and teaching outline for each module. Include a description of specific skills and knowledge that participant is expected to master. For each module, include instruction for the following:

1. Basis of System Design, Operational Requirements, and Criteria: Include the following:
   a. System, subsystem, and equipment descriptions.
   b. Performance and design criteria.
   c. Operating standards.
   d. Regulatory requirements.
   e. Equipment function.
   f. Operating characteristics.
   g. Limiting conditions.
   h. Performance curves.

C. Documentation: Review the following items in detail:
   1. Emergency manuals.
   2. Operations manuals.
   4. Project Record Documents.
   5. Identification systems.
   6. Warranties and bonds.
   7. Maintenance service agreements and similar continuing commitments.

D. Emergencies: Include the following, as applicable:
   1. Instructions on meaning of warnings, trouble indications, and error messages.
   2. Instructions on stopping.
   3. Shutdown instructions for each type of emergency.
   4. Operating instructions for conditions outside of normal operating limits.
   5. Sequences for electric or electronic systems.
   6. Special operating instructions and procedures.

E. Operations: Include the following, as applicable:
1. Startup procedures.
2. Equipment or system break-in procedures.
3. Routine and normal operating instructions.
4. Regulation and control procedures.
5. Control sequences.
7. Instructions on stopping.
10. Operating procedures for system, subsystem, or equipment failure.
11. Seasonal and weekend operating instructions.
12. Required sequences for electric or electronic systems.
13. Special operating instructions and procedures.

F. Adjustments: Include the following:
1. Alignments.
2. Checking adjustments.
3. Noise and vibration adjustments.
4. Economy and efficiency adjustments.

G. Troubleshooting: Include the following:
1. Diagnostic instructions.
2. Test and inspection procedures.

H. Maintenance: Include the following:
1. Inspection procedures.
2. Types of cleaning agents to be used and methods of cleaning.
3. List of cleaning agents and methods of cleaning detrimental to product.
4. Procedures for routine cleaning
5. Procedures for preventive maintenance.
7. Instruction on use of special tools.

I. Repairs: Include the following:
1. Diagnosis instructions.
2. Repair instructions.
3. Disassembly; component removal, repair, and replacement; and reassembly instructions.
4. Instructions for identifying parts and components.
5. Review of spare parts needed for operation and maintenance.

PART 2 - PRODUCTS (Not Used)
PART 3 - EXECUTION

3.01 PREPARATION

A. Assemble educational materials necessary for instruction, including documentation and training module.
B. Assemble training modules into a combined training manual.
C. Set up instructional equipment at instruction location.

3.02 INSTRUCTION

A. Contractor must provide Training Facilitator and Instructors
B. Owner will furnish personnel to describe:
   1. Basis of system design
   2. Operational requirements, criteria, and regulatory requirements.
   3. Owner's operational philosophy.
C. Owner will furnish Contractor with names and positions of participants
D. Scheduling
   1. Provide instruction at mutually agreed on times.
   2. For equipment that requires seasonal operation, provide similar instruction at start of each season.
   3. Schedule training with Owner at least twenty-one (21) Days in advance of the training.
E. Evaluation
   1. At conclusion of each training module, assess and document each participant's mastery of module by use of [oral] [written] [demonstration] performance-based test.
F. Demonstration and Training Videotape
   1. Record each training module separately.
   2. Include classroom instructions and demonstrations, board diagrams, and other visual aids, but not student practice.
   3. At beginning of each training module, record each chart containing learning objective and lesson outline.
G. Cleanup
   1. Collect used and leftover educational materials and [remove from Site] [give to Owner].
   2. Remove instructional equipment.
   3. Restore systems and equipment to condition existing before initial training use.

3.03 SUBMITTALS

A. Instruction Program
   1. At least six (6) weeks prior to scheduled training, submit four (4) copies of an outline of instructional program for demonstration and training, including a schedule of proposed dates, times, length of instruction time, and instructors' names for each training module.
   2. Include learning objective and outline for each training module.
B. At completion of training, submit four (4) copies of the complete training manual for Owner's use.
C. Qualification Data

1. Training Facilitator
   a. At least six weeks prior to training, submit four (4) copies of the qualifications of Training Facilitator
   b. Include lists of completed projects with project names and addresses, names and addresses of architects and Owners, and other information specified

2. Instructors
   a. At least six weeks prior to training, submit four (4) copies of the qualifications of all Instructors
   b. Include lists of completed projects with project names and addresses, names and addresses of architects and Owners, and other information specified

3. Cameraman
   a. At least six weeks prior to training, submit four (4) copies of the qualifications of Videotape cameraman
   b. Include lists of completed projects with project names and addresses, names and addresses of architects and Owners, and other information specified.
   c. Include list of Videotape equipment that will be used

D. Attendance Record: For each training module, submit four (4) copies of the list of participants and length of instruction time.

E. Evaluations: For each participant and for each training module, submit four (4) copies of the results and documentation of performance-based test.

F. Demonstration and Training Videotape: At end of each training module submit four (4) copies of the Demonstration and Training Videotape(s).

ARTICLE 1 — JOB ORDER CONTRACT – JOC-FAF-2020-02

ARTICLE 2 — NOTICE IS HEREBY GIVEN that sealed Bids will be accepted by the Clerk of the Board of Supervisors of the County of Santa Clara, State of California, in the office of the Clerk of the Board of Supervisors, 10th Floor, East Wing of the County Government Center, 70 West Hedding Street, San Jose, CA, 95110 no later than 2:00 p.m., on May 14, 2020 for Job Order Contract JOC-FAF-2020-02.

ARTICLE 3 —

3.1 THE WORK

The Work will be located at various County facilities within the geographical boundaries of Santa Clara County, in accordance with Bid Documents on file for the Work in the Office of the Clerk of the Board of Supervisors. The contract will be awarded to the successful lowest bidder. Only one (1) bid per Contractor may be submitted.

3.1.1 The Work will consist of:

.1 The Job Order Contract (JOC) is an indefinite quantity contract pursuant to which the Contractor will perform an ongoing variety of individual Projects, consisting of specific construction tasks, at different locations throughout the County. This Contract is for construction work and related services to be performed within a designated area of the County. However, if the need arises, the Owner reserves the right to require the Contractor to work at any location or facility under the jurisdiction of the Owner. The scope of this JOC Contract is for general construction, repair, remodel and other repetitive related work to be performed for the County of Santa Clara Facilities and Fleet Department. The County has published a Construction Task Catalog® (CTC) containing a series of construction tasks with preset Unit Prices. The CTC was developed using experienced labor and high quality materials. All Unit Prices are based on local labor, material and equipment prices including the current prevailing wages and are for the direct cost of construction. The Contractor will bid two sets of Adjustment Factors to be applied to the Unit Prices. The first set of Adjustment Factors is for performing work in General Facilities and the second for Detention Facilities. Each set of Adjustment Factors will include Adjustment Factors for performing work during Normal Working Hours and a second Adjustment Factor for performing work during Other Than Normal Working Hours. The price of an individual project will be determined by multiplying the preset Unit Prices and the appropriate quantities by the appropriate Adjustment Factor. These Adjustment Factors shall apply to every Pre-priced Task in the Construction Task Catalog®. This Contract will be awarded to the lowest, responsive, responsible bidder. The Other than Normal Working Hours Adjustment Factor must be equal to or greater than the Normal Working Hours Adjustment Factor.

.2 The scope of Work for the Contract will be determined by the Detailed Scopes of Work issued in connection with individual Job Orders. The Contractor is required to complete each Detailed Scope of Work for the Job Order Price within the Job Order Completion Time. The scope of work, for each project will be explained to the Contractor at a Joint Scope Meeting. The County will provide a Request for Job Order Proposal and Detailed Scope of Work to the Contractor. The Contractor will be required to review the Detailed Scope of Work and develop a Job Order Proposal for the Project including a Job Order Price Proposal using appropriate tasks, quantities and the applicable Adjustment Factor, as well as drawings, sketches, a list of subcontractors and suppliers, construction schedule, and other requested documentation. The Job Order Price shall equal the value of the approved Job Order Price Proposal. The value of the Job Order Price Proposal shall be calculated by summing the total of the calculation for each Pre-priced Task (Unit Price x quantity x Adjustment Factor) plus the value of all Non Pre-priced Tasks.
3.3 CONTRACT TIME

3.3.1 The contract term commences on the effective date of the Job Order Contract Notice to Proceed issued by the County.

3.3.2 The term of the Job Order Contract will be either for one year or when issued Job Orders totaling the Maximum Contract Value have been completed, whichever occurs first. All Job Orders must be issued but not necessarily completed within one calendar year of the commencement date of the Contract.

3.3.3 Each Job Order will specify a Job Order Completion Time as stated on the Job Order Notice to Proceed.

3.3.4 All Job Orders issued during the term of this Contract shall be valid and in effect notwithstanding that the Detailed Scope of Work may be performed, payments may be made, and the guarantee period may continue, after such period has expired. All terms and conditions of the Contract apply to each Job Order.

3.4 LIQUIDATED DAMAGES

3.4.1 Agreed Amount of Damages: It is understood and agreed by both parties to the Contract that in case all the Work specified or indicated in the Contract Documents is not completed within the specified limits of the Job Order Completion Time, or within such time limits as extended, damages will be sustained by the County in the event of and by reason of such delay. It is, and will be, impractical and extremely difficult to determine the actual damage which the County will sustain by reason of the delay. It is therefore agreed that the Contractor will pay, at a minimum, to the County the sum of money stipulated per day in the Job Order for each day’s delay in completing the work beyond the time prescribed.

3.4.2 Application of Liquidated Damages and the value of liquidated damages will be determined by the County on a Job Order by Job Order basis. Each Request for Proposal will state whether Liquidated Damages will be applied to an individual Job Order. A typical range for Liquidated Damages is, but not limited to, $50-$3,000.

3.4.3 Owner may withhold Liquidated Damages from payments to the Contractor as such damages
accrue, or, at Owner’s discretion, withhold Liquidated Damages from any payments due or that become due pursuant to the Contract, including Retention and final payment (pursuant to California Government Code §53069.85). A credit Supplemental Job Order shall be executed to assess liquidated damages.

3.5 BIDS MUST BE ADDRESSED TO: The Clerk of the Board of Supervisors of the County of Santa Clara, 70 West Hedding St. East Wing, 10th Floor, San Jose CA 95110 and bear the Project name and Project number as they appear on the cover of the Project Manual.

3.6 BIDDER’S SECURITY

3.6.1 Each Bid must be accompanied by cash, a certified or cashier’s check, or a bond in the sum of not less than ten percent (10%) of the Maximum Contract Value.

3.6.2 The check or bond must be made payable to “The County of Santa Clara.”

3.7 BID RESULTS

3.7.1 The Deputy Director will post the results of the Bid following the opening of the Bids and verification of bid amounts at the Department’s offices, via e-mail to all bidders.

3.8 ERRORS OR DISCREPANCIES IN THE BIDS

3.8.1 The Board of Supervisors reserves the right to reject any and all Bids and to waive any errors or discrepancies in the Bids.

ARTICLE 4 — OTHER NOTICES

4.1 CONTRACTOR’S LICENSING REQUIREMENT

4.1.1 Pursuant to Document 00200.3, “Compliance with Contractor’s License Law”, the Contractor must possess a ‘B’ Contractor’s License.

4.1.2 The Contractor must possess the required classification of Contractor’s License at the time the Bid is submitted (per Business and Professions Code §7028.15). If federal funds are involved in this Project, the Contractor must possess the required classification of Contractor’s License at the time of the Contract Award (per Public Contract Code §20103.5).

4.2 FEDERAL AND GRANT REQUIREMENTS

4.2.1 A Job Order funded by federal or grant monies may mandate specific additional requirements such as, DBE participation, Buy America, Drug Free Work Place Policy, Federal Minimum Wage Rates, etc. Contractor must comply with any applicable mandated requirements.

4.3 PREVAILING WAGE REQUIREMENT

4.3.1 Pursuant to Document 00 73 43 (“Labor and Wage Rate Requirements”), all workers employed in the Work is subject to payment of not less than prevailing wages under California Labor Code Section 1770 et seq.

The rates are available on the State of California Department of Industrial Relations website at California Department of Industrial Relations Home Page. http://www.dir.ca.gov/DLSR/PWD/index.htm

4.3.2 The work is subject to compliance monitoring and enforcement by the Department of Industrial Relations. All contractors must be registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5 in order to submit a Bid. All subcontractors must also be registered with the Department of Industrial Relations. No contractor or subcontractor may be awarded a contract for public work on a public works project unless registered with the
Department of Industrial Relations. Additional information regarding prevailing wage requirements is available on the State of California Department of Industrial Relations Web Site: www.dir.ca.gov.

4.3.3 In submitting a Bid, Contractor represents and warrants that it is registered with the Department of Industrial Relations. Contractor further represents and warrants that it shall maintain its registration with the Department of Industrial Relations throughout the course of the Work. Contractor is responsible for verifying that each Subcontractor, including any Subcontractor not listed on the Bid proposal for the Project, is registered with the Department of Industrial Relations at the time the Subcontractor performs Work on the Project. If any Subcontractor is not registered at the time the Subcontractor is to commence Work, Contractor shall require the Subcontractor to register and may not permit the Subcontractor to commence Work until the Subcontractor’s registration is complete.

4.3.4 The Labor Commissioner’s Office, also called the Division of Labor Standards Enforcement (DLSE), is part of the California Department of Industrial Relations. The Public Works Unit of the Labor Commissioner’s Office actively monitors public works projects and may investigate asserted violations. Any member of the public can report an alleged violation of the State’s labor laws on a public works project to the Labor Commissioner’s website: www.dir.ca.gov/dlse/HowToFilePWComplaint.htm. The Labor Commissioner’s Office in the County of Santa Clara can also provide instruction on how to file a complaint and where a violation should be reported. The Labor Commissioner’s Office in the County of Santa Clara is located at the following address:

Division of Labor Standards Enforcement (DLSE)
100 Paseo de San Antonio, Room 120
San Jose, CA 95113
(408) 277-1266

4.3.5 Contractor must comply with all applicable requirements of Division 2, Part 7, Chapter 1 of the California Labor Code.

4.4 PROJECT LABOR AGREEMENT (PLA)

4.4.1 Any single Job Order that has a construction cost of two million dollars ($2,000,000) or more shall be subject to the provisions of the current County of Santa Clara PLA policy.

4.5 BONDS AND INSURANCE

4.5.1 The successful Bidder must deliver signed Contract Bonds (payment bond and performance bond), and all required insurance documents to the Clerk of the Board of Supervisors for acceptance before Owner will issue a Notice to Proceed with the Contract.

4.5.2 No Contract exists until all Contract Bonds and insurance documents have been accepted by the Owner.

4.6 PRESERVATION OF CULTURAL RESOURCES

4.6.1 If Job Order Work site, as stated in the Detailed Scope of Work is deemed “Archaeologically Sensitive”, the provisions in Document 00700.10.5, “Preservation of Cultural Resources”, will apply.

4.7 COMPUTER, SOFTWARE, AND COMMUNICATION EQUIPMENT REQUIREMENTS

4.7.1 There are specific computer, software and communication equipment requirements in this
4.8 RETENTION FROM PAYMENTS DURING CONTRACT TIME

4.9 AVAILABILITY OF BID DOCUMENTS

4.9.1 Bid Documents will become available on April 13, 2020.

4.9.2 Bid Documents consist of the Construction Task Catalog® and Technical Specifications (only on CD Rom), electronic copy of the Master Project Manual available on the BidSync website.

4.10 MANDATORY PRE-BID CONFERENCE

4.10.1 A MANDATORY Pre-Bid Conference will be held on April 24, 2020– 9:00 AM at the County of Santa Clara FAF Department, Building Operations Division, 1555 Berger Drive, Building #3, San Jose, CA 95112. Failure to attend and sign in will cause forfeiture of bidding rights.

4.10.2 Bidders should become thoroughly familiar with the terms and conditions of the Bid Documents and local conditions affecting the performance and costs of the Work before attending this conference.

4.11 PROJECT MANAGER

4.11.1 The County’s Project Manager for this Project is Kim Huynh at phone number 1-408-993-4532. Kim.Huynh@faf.sccgov.org.

4.12 OWNER’S AUTHORIZED REPRESENTATIVE

4.12.1 The Owner’s Authorized Representative for this Bid, who has authority to Approve Addenda is, the Director of Facilities and Fleet.

4.13 OWNER’S CONSULTANT

The Owner selected The Gordian Group’s (Gordian) Job Order Contracting (JOC) Solution (Gordian JOC SolutionTM) for their JOC program. The Gordian JOC Solution includes Gordian’s proprietary eGordian® JOC Applications and Construction Task Catalog®, which shall be used by the Contractor to prepare and submit Job Order Proposals, subcontractor lists, and other requirements specified by the Owner. The Contractor shall be required to execute Gordian’s JOC System License and Fee Agreement, and pay a 1% JOC System License Fee to obtain access to the Gordian JOC Solution.

4.14 BID PERIOD CLARIFICATIONS AND ADDENDA

4.14.1 Contractor must submit all requests for clarification, or interpretation of the Bid Documents in writing at least seven (7) calendar days before the deadline for receipt of Bids.

4.14.2 The Owner’s Authorized Representative may issue written Addenda as appropriate for clarification or other reasons during the bidding period.

4.14.3 Addenda will be mailed or delivered to each person included on the Owner’s plan holders list for the Project.

4.14.4 Owner is not responsible for any explanation or interpretation of the Bid Documents not communicated to Bidders in an Addendum.

4.14.5 Unless otherwise clarified in an Addendum, resolution of supposed discrepancies, conflicts, omissions or errors in the Bid Documents are governed by Document 00700.1.6, “Conflicts in the Contract Documents.”
4.15 MANUFACTURER CERTIFICATION AND APPROVAL OF CONTRACTOR

4.15.1 For equipment installation and maintenance work, the County reserves the right to require Contractor to submit written approval from the equipment manufacturer affirming that the Contractor is certified and approved for such work. Contractor must submit such certification and approval documentation to the Owner’s Project Manager for approval and acceptance.

4.16 FACILITIES SECURITY AND ACCESS POLICIES

4.16.1 Contractor will adhere to all applicable County secured facility, tool control, and escort policies.

4.16.2 Specific site policies will be supplied on a Job Order basis.

4.17 WORKMANSHIP

All Workers performing trade or craft work shall be Journeyman level or Apprentice level under direct Journeyman Supervision to the specific trade or craft that the Work requires.

Signed and Certified that a copy of this document has been delivered by electronic or other means to the President, Board of Supervisors.

ATTEST:

ARTICLE 1 — GENERAL

1.1 Bidder must examine these Instructions To Bidders carefully and respond to all requirements and conditions.

1.2 Bidders must be aware of the requirements of all codes referenced in the Bid Documents.

ARTICLE 2 — COMPETENCE OF BIDDERS

2.1 Bidders must meet all qualification requirements contained in the Bid Documents.

2.2 Bidder(s) may be required to furnish evidence satisfactory to Owner that the Bidder and its proposed Subcontractors have sufficient means and experience in the type of Work required to assure satisfactory completion of all the requirements of the Contract Documents.

ARTICLE 3 — COMPLIANCE WITH CONTRACTOR’S LICENSE LAWS

3.1 Bidder's attention is directed to the provisions of Chapter 9 of Division 3 (§7000 et seq.) of the California Business and Professions Code ("The Contractors' State License Law"), and §3300 of the California Public Contract Code. The Contractor must possess the required classification of Contractor's License at the time the Bid is submitted (per Business and Professions Code §7028.15). If federal funds are involved in this project, the Contractor must possess the required classification of Contractor's License at the time of the Contract Award (per Public Contract Code Section 20103.5).

3.2 If a Bidder does not possess the required Contractor's License at the time a Bid is submitted, in accordance with Business and Professions Code §7028.15, the Bid will be considered non responsive and will be rejected by the Owner. The Owner may require forfeiture of the Bidder's Bond.

3.3 Joint venture Bidders must possess a joint venture license. Each party to a joint venture must be properly licensed for the Work of this Project.

ARTICLE 4 — PRIOR DISQUALIFICATION

4.1 Bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed or otherwise prevented from Bidding on, or completing a federal, state or local project because of a violation of a law or a safety regulation.

4.2 The Owner will review the circumstances presented in the Bid Form Certification. The County will determine if acceptance of the Bid is in its best interest.

ARTICLE 5 — EXAMINATION OF BID DOCUMENTS

5.1 The Bidder must carefully examine the Bid Documents.

5.2 The submission of a Bid will be conclusive evidence that the Bidder has investigated and is fully aware of the conditions and difficulties that may be encountered including the availability of labor and materials to be provided, of the character and quality of Work to be performed, and of the requirements of all Bid Documents.

5.3 No information derived from the Contract Documents will relieve Contractor from any risk or from properly fulfilling all the terms of the Contract.

5.4 Failure by Bidder to educate itself with available information will not relieve Bidder from responsibility for estimating properly the difficulty or cost of successfully performing the Work.

5.5 Bidders are required to inform themselves fully of the conditions relating to the construction and labor under which the Work will be or is now performed, and, so far as possible, the successful Bidder must employ such means and methods in carrying out its Work as will not cause any interruption or interference with any other contractor.

ARTICLE 6 — DISCREPANCIES, CONFLICTS, OMISSIONS, OR ERRORS

6.1 If any person contemplating submitting a Bid is in doubt as to the intended meaning of any part of the Bid Documents, or finds discrepancies in, or omissions in the Bid Documents, that person must
submit a written request for an interpretation or correction thereof at least seven (7) calendar Days before the deadline for receipt of Bids.

6.2 Inquiries must be addressed to the Project Manager identified in the Notice to Bidders.

6.3 Any request received fewer than seven (7) calendar Days before the said deadline may not be answered. The person submitting the request will be responsible for its prompt delivery.

6.4 Any interpretation or correction of the Bid Documents will be made only by Addendum, which will become part of the Bid Documents, and will be mailed or delivered to each person included on the Owner’s plan holders list for the Project.

6.5 Owner is not responsible for any explanation or interpretation of the Bid Documents not communicated to Bidders in an Addendum. If no Addenda are issued relating to supposed discrepancy, conflict, omissions or errors in figuring the Work, the supposed discrepancies, conflicts, or omissions are governed by Document 00700.1.6, “Conflicts in the Contract Documents.”

ARTICLE 7 — BIDDER’S SECURITY

7.1 Each Bid must be accompanied by cash, a certified or cashier’s check, or an original Bidders Bond in an amount not less than ten percent (10%) of the Maximum Contract Value indicated in the Notice to Bidders.

7.2 A Bid will be considered non-responsive if not accompanied by proper Bidder’s Security.

7.3 The original Bid Bond must be provided by an admitted Surety insurer, authorized to issue Surety bonds in the State of California, and it must execute the Bid Bond.

7.4 Bonds and checks must be made payable to “The County of Santa Clara”.

7.5 All bonds must be provided on the forms included with the Bid Documents or the Bid will be considered non-responsive.

ARTICLE 8 — BID FORM

8.1 Prospective Bidders are furnished Bid Forms (Document 00410). The Bid Form contains a schedule of items requesting Adjustment Factors.

8.2 The Adjustment Factors multiplied by the Tasks in the Construction Task Catalog must include full compensation for Providing all labor, materials, services, tools, equipment and whatever else is required to perform all Work in accordance with the requirements of the Work.

8.3 All Unit Prices listed in the Construction Task Catalog® are priced at a net value of 1.0000. The Adjustment Factors shall be an increase or decrease to all the Unit Prices listed in the Construction Task Catalog®. For example, 1.1000 would be a 10% increase to the Unit Prices and 0.9500 would be a 5% decrease to the Unit Prices. Bidders who submit separate Adjustment Factors for separate Unit Prices will be considered non-responsive and their bid will be rejected.

8.4 All Bids must be submitted on the forms furnished by the Owner. A Bid not submitted on the forms furnished by the Owner will be considered non-responsive.

8.5 Completing the Bid Form:

.1 Bidder’s name must be the same as listed on Bidder’s California State Contractor’s license.

.2 Bid price(s) must be in the manner required by the Bid Form.

.3 Bid Form must be signed by Bidder or duly authorized representative.

.a If Bidder is an individual, name must be stated.

.b If Bidder is a partnership, name of the partnership must be stated and one or more partners must sign the Bid Form.

.c If Bidder is a corporation, name of the corporation must be stated, the state of incorporation must be listed, the title of the person with authority to sign and bind the
corporation, must be stated, and the corporate seal must be affixed.

Bidder’s business and mailing address must be stated.

8.6 Required Listing of Proposed Subcontractors:

.1 Bidders shall list the name, the location of the place of business, and the California contractor license number and public works contractor registration number of each Subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or a Subcontractor licensed by the State of California who, under subcontract to the prime contractor, specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (½%) of the prime contractor’s total bid or, in the case of bids or offers for the construction of streets or highways, including bridges, in excess of one-half of one percent (½%) of the prime contractor’s total bid or ten thousand dollars ($10,000), whichever is greater.

.2 Failure(s) to meet listing requirements is cause for Bid to be rejected as non-responsive.

.3 Bidders’ attention is directed to the provisions of the Subletting and Subcontracting Fair Practices Act, beginning with Public Contract Code §4100, related to penalties for use of unauthorized Subcontractors or by making unauthorized substitutions.

ARTICLE 9 - CONTRACTING PRINCIPLES

9.1 Pursuant to the Resolution on Contracting Principles adopted by the Board of Supervisors on October 28, 1997, all Bidders are required to sign and submit with their Bid a completed “Contracting Principles Declaration of Contractor/Bidder” form, which has been included in the Bid forms.

9.2 The successful Bidder must, during the Contract Time.

.1 Comply with all applicable federal, state, and local rules, regulations and laws.

.2 Maintain financial records adequate to verify that the County funds paid pursuant to the Contract were used for purposes consistent with the terms of the Contract.

It is the policy of the Board that all entities that contract with the County to provide services where the contract value is $100,000 or more per budget unit per fiscal year and/or as otherwise directed by the Board, must be fiscally responsible entities and must treat their employees fairly.

To ensure compliance with these contracting principles, all contractors must: (1) comply with all applicable federal, state and local rules, regulations and laws; (2) maintain financial records, and make those records available upon request; (3) provide to the County copies of any financial audits that have been completed during the term of the contract; (4) upon the County’s request, provide the County reasonable access, through representatives of the Contractor, to facilities, financial and employee records that are related to the purpose of the contract, except where prohibited by federal or state laws, regulations or rules.

The factors the County considers in determining compliance with its contracting principles include, but are not limited to: wage levels, pay ranges, benefits for all positions and job classifications, medical insurance for employees, annual rate of staff turnover, number of hours of training for each position in subject areas directly related to the contract, number of legal complaints issued by an enforcement agency against the contractor for alleged violations of applicable federal, state or local rules, regulations or laws and the number of citations, court findings or administrative findings for violations of applicable federal, state or local rules, regulations or laws related to treatment of employees or the contractor’s fiscal condition, and any collective bargaining agreements or personnel policies covering the contractor’s employees.
ARTICLE 10 - SUBMISSION OF BID FORMS

10.1 Bid Forms must be completed in ink, completely filled out, the adjustment factor must be taken to the 4th decimal place (example: 1.XXXX), and submitted on the Bid Form furnished as part of the Bid Documents. Faxed Bids or modifications will not be considered by Owner.

10.2 It is the sole responsibility of the Bidder to ensure that its Bid is received at the proper time and at the proper location. Bids received after the time fixed for receiving them will not be considered.

10.3 Late Bids will be returned by the Owner to the Bidder unopened.

10.4 Each Bid must be addressed to The Clerk of the Board of Supervisors of the County of Santa Clara, 70 West Hedding St. East Wing, 10th Floor, San Jose CA 95110, and must be delivered to the Clerk of the Board of Supervisors no later than the date and time set for the opening of Bids in the published Notice to Bidders.

10.5 Each Bid must be in its own envelope. Each Bid must be enclosed in a sealed envelope bearing the title of the Project, the name of the Bidder and the date and time of the opening. Failure to do so may result in a premature opening of, or failure to open, such Bid. Bid Forms improperly marked may be disregarded.

ARTICLE 11 - WITHDRAWAL OF BID FORMS

11.1 Any Bid may be withdrawn at any time before the time fixed in the Notice to Bidders for the opening of Bids only by written request of the Bidder or a duly authorized representative.

11.2 Withdrawal of a Bid does not prejudice the right of the Bidder to file a new Bid at any time prior to the time fixed for receiving Bids in the Notice to Bidders.

11.3 Whether or not Bids are opened exactly at the time stated in the Notice to Bidders, a Bid will not be accepted after the time stated.

11.4 After the opening of Bids, Bids may only be withdrawn in accordance with the provisions of Public Contract Code §5100-5107.

ARTICLE 12 - PUBLIC OPENING OF BIDS

12.1 Bids will be opened and read publicly at the time and place indicated in the Notice to Bidders. Bidders or their authorized agents are invited to be present.

ARTICLE 13 - REJECTION OF IRREGULAR BIDS

13.1 The Owner may reject any Bid if there appears to be any alteration of the Bid Form, any addition or condition not called for, or any incompleteness, erasure or irregularity of any kind.

13.2 Bids not completed in ink will be rejected.

13.3 If the Bid amount or other material information is changed by the Bidder, the change must be initialed.

ARTICLE 14 - COMPETITIVE BIDDING

14.1 More than one Bid from an individual, firm, partnership, corporation, or combination thereof, as a principal, under the same or different names will not be considered. Reasonable basis for believing that any individual, firm, partnership, corporation, or combination thereof is a principal in more than one Bid for the Work contemplated may cause the rejection of all Bids in which such individual, firm, partnership, corporation, or combination thereof is a principal.

14.2 If there is a reason for believing that collusion exists among the Bidders, any or all Bids may be rejected.

14.3 A person, firm, or corporation submitting a sub-bid to a Bidder, or who quoted prices on materials to a Bidder, is not thereby disqualified from submitting a sub-bid or quoting prices to other Bidders or from
being a principal Bidder for the same Work.

14.4 Bids in which unit prices obviously are unbalanced may be rejected.

14.5 Bidders are put on notice that any collusive agreement fixing the prices to be Bid so as to control or affect Awarding of the Contract is in violation of competitive bidding requirements of the Public Contract Code and may render void any Contract let under such circumstances.

ARTICLE 15 - SUBSTITUTION OF ALTERNATIVE MATERIALS, ARTICLES, OR EQUIPMENT

15.1 Bids must be based upon use of items named in the Bid Documents.

15.2 In certain cases, specific items have been named because of operational or maintenance considerations; approval of proposed equals should not be assumed.

15.3 Pursuant to Public Contract Code §3400, alternative material(s), article(s), or equipment that are of equal quality and of required characteristics for the purpose intended may be proposed, prior to the issuance of a Job Order, provided the Bidder complies with the following requirements:

.1 The proposal will not be considered unless the submittal is accompanied by complete information and descriptive data necessary to determine equality of offered material(s), article(s) or equipment.

.2 Samples must be submitted when requested by the Owner.

.3 Burden of proof as to comparative quality, suitability, and performance of offered material(s), article(s), or equipment is the responsibility of the Bidder submitting the proposal.

.4 Requests for approval must comply with the requirements of Section 01630, “Product Substitution Procedures.”

.5 Owner’s Authorized Representative is the sole judge as to such matters. In the event Owner’s Authorized Representative rejects the use of such Alternative(s) submitted, the Contractor must furnish one of the particular Named Products originally specified in the Documents.

ARTICLE 16 - RETURN OF BIDDER’S SECURITY

16.1 If Owner does not accept the Bid within the period of Days after the Bid opening stated in Document 00410 - Bid Form, Owner will return Bidder’s Security to all Bidders.

16.2 If the Bidder to whom the Contract is Awarded executes and delivers to Owner all the required documents, Owner will return Bidder’s Security to all Bidders in accordance with the Public Contract Code Section 20129.

ARTICLE 17 - RELIEF OF BIDDERS

17.1 Attention is directed to the provisions of California Public Contract Code §5100 through §5107 that set forth the criteria and procedures for relief of Bidders, and for authorizing Contract Award to another Bidder.

ARTICLE 18 - AWARD OF CONTRACT

18.1 The Contract(s), if awarded, will be to that responsible Bidder submitting the lowest responsive Bid, subject to Owner's right to reject any or all Bids and to waive any informality or irregularity in the Bids or in the bidding procedures.

18.2 Subject to California Public Contract Code Sections 5100 through 5107, no Bidder may withdraw its Bid for the period of Days stated in Document 00410, “Bid Form,” after the date set for the opening thereof, and the Bid will be subject to acceptance by Owner throughout this period.

18.3 The time period within which Award of Contract may be made is subject to an extension of such further period as may be agreed upon in writing between the Owner and the apparent lowest responsive responsible Bidder.
18.4 No Contract is formed until all Contract Bonds in the form provided in the Project Manual, Document 00611 (Performance Bond Form) and Document 00612 (Payment Bond Form), and insurance documents have been accepted by Owner; the Contractor submits the signed Contractor’s Worker’s Compensation Certification; and the Agreement is signed by Owner.

ARTICLE 19 - CONTRACT BONDS

19.1 The successful Bidder (hereinafter “Contractor”) must pay all Contract Bond premiums, costs thereof, and incidental thereto.

19.2 Each Contract Bond must be in the form provided in the Project Manual, Document 00611 (Performance Bond Form) and Document 00612 (Payment Bond Form), and signed by both Contractor and the Sureties.

19.3 As a condition to Owner signing the Agreement, the successful Bidder must file with Owner on the approved forms, the two surety bonds in the amounts and for the purposes noted below, duly executed by a Surety company meeting the requirements of Article 20 herein.

19.4 The successful Bidder shall provide a payment bond for public works in the form provided in the Project Manual, Document 00612 (Payment Bond Form), in an amount of one hundred percent (100%) of the Maximum Contract Value and shall inure to the benefit of persons performing labor or furnishing materials in connection with the Work. This bond must be maintained in full force and effect until all Work is completed and Accepted by Owner, and until all claims for materials and labor have been paid.

19.5 The successful Bidder shall provide a performance bond in the form provided in the Project Manual, Document 00611 (Performance Bond Form), in an amount of one hundred percent (100%) of the Maximum Contract Value and must be so conditioned as to ensure the faithful performance by Contractor of all Work. It shall also include the replacing, or making acceptable, of any defective materials or faulty workmanship during the Guarantee period(s).

19.6 If any Surety or Sureties are deemed unsatisfactory at any time by Owner, Owner will notify Contractor, and Contractor must forthwith substitute a new Surety or Sureties satisfactory to Owner. No further payment from Owner to Contractor will be deemed due or made until the replacement Sureties qualify and are accepted by Owner.

19.7 All changes to the Maximum Contract Value, Contract Time, or Contract Documents may be made without securing the consent of the Surety or Sureties on the Contract Bonds.

19.8 Sureties must be California admitted Sureties. (See Insurance and Bond Requirements set forth in Document 00700.11, “Indemnification and Insurance”)

ARTICLE 20 - INSURANCE

20.1 Contractor will be required to furnish to Owner, concurrently with execution of the Agreement, insurance documents evidencing coverage as required by Document 00700.11, “Indemnification and Insurance.”

20.2 If the Contractor provides incidental architectural or engineering design services, the County’s insurance and indemnification requirements will be required.

ARTICLE 21 - EXECUTION OF CONTRACT AGREEMENT

21.1 The form of Agreement which the successful Bidder, as Contractor, must execute, and the form of Contract Bonds and insurance coverage that it must provide are included in the Bid Documents and must be carefully examined by each Bidder. All Contract Bonds, policies or certificates of insurance, and insurance policy endorsements must be delivered with or before the delivery of the signed Agreement form, and must be acceptable to Owner.

21.2 The Bidder to whom the Contract is Awarded by Owner must, within seven (7) calendar Days after the Notice of Award, sign and deliver the following documents to the Owner’s Project Manager: Kim Huynh, 2310 N. First St., Suite 200, San Jose CA San Jose CA 95131.
1. Two (2) originals of the signed Agreement form furnished by Owner in the Bid Documents. (Document 00500, “Agreement”)

2. One (1) original and two (2) copies of the Performance Bond. (Document 00611, “Performance Bond Form”)

3. One (1) original and two (2) copies of the Payment Bond for Public Works. (Document 00612, “Payment Bond Form”)

4. Policies of insurance, insurance certificates and endorsements as required by the Bid Documents.

5. Workers Comp. Certificate

21.3 Should Contractor begin Work in advance of the start date for the Work, as stated in the Notice to Proceed, the Work will be considered as having been done at Contractor’s risk as a volunteer.

ARTICLE 22 - FAILURE TO EXECUTE CONTRACT AGREEMENT

22.1 Failure of the successful Bidder to execute the Agreement in the form satisfactory to Owner is just cause for the annulment of the Award and the forfeiture of the Bidder's Security.

22.2 Failure of the successful Bidder to sign and return the Agreement within seven (7) calendar Days after notification of Award by the Owner constitutes failure to execute the Agreement.

22.3 Failure to return required Contract Bonds and insurance documents within seven (7) calendar Days after notification of Award by the Owner constitutes failure to execute the Agreement.

22.4 If the Bidder to whom the Contract is awarded does not file the documents required by the Bid Documents, files unsatisfactory documents, or refuses to enter into a Contract within the specified time, the Bidder is liable for any difference by which the cost of procuring the Work exceeds the amount of its Bid. The Bidder's Security may be used to offset such difference.

ARTICLE 23 - NO ORAL AGREEMENTS

23.1 No conversation with any officer, employee, agent or Consultant of Owner, either before, during, or after the execution of the Agreement, affects or modifies any terms or obligations contained in the Contract Documents, nor entitle Contractor to any adjustment in the Contract Time or Contract Sum whatsoever.

ARTICLE 24 - BID PROTEST

24.1 Protest Regarding the Legal Sufficiency of Procurement Documents and Process. Any protest (including supporting documentation) relating to the legal sufficiency of the procurement documents or the procurement process must be emailed or hand-delivered or otherwise sent so that it is received by the Owner's Project Manager identified in the procurement documents no later than 5 p.m. of the tenth (10th) calendar day after the release of the solicitation on Bidsync. Any protests not received by the deadline or sent to any person other than the Owner’s Project Manager may be rejected or dismissed by the County at the County's sole discretion. Such protest must be in writing and state the specific legal authority establishing the deficiency in the procurement documents or procurement process. Any bidder who fails to submit a timely protest subject to this provision shall be deemed to have waived any such protest. The County may respond by any appropriate means, including, without limitation, by issuing an addendum, issuing a letter to the protestor, or by canceling the procurement.

24.2 Protest Regarding Award

The Owner’s Project Manager will send an email or otherwise provide an announcement to all bidders informing each of the bid(s) that was/were selected or deemed to be a finalist. A bidder whose bid was not selected or not deemed to be a finalist may file a written protest within five (5) business days of the date of such communication.
Any protest must be in writing. The following must be written on the cover or subject line of the protest: “Protest Relating to [SOLICITATION NUMBER].” The written protest and all supporting documentation must be emailed, hand-delivered or otherwise sent to the Owner’s Project Manager so that it is received no later than 5 p.m. of the fifth business day after the email or announcement notifying bidders of the County’s selection or tentative decision. Any protests not received by the deadline or sent to any person other than the Owner’s Project Manager may be rejected or dismissed by the County at the County’s sole discretion.

1. Contents of Protest. The written protest must contain the following information: (1) the name, street address, electronic mail address, and telephone and facsimile number of the protester; (2) signature of the protester or its representative; (3) clearly-stated grounds for the protest and supporting information that forms the basis of the Protest (including the specific portions of the Bid Documents and/or Bid and/or applicable law or regulation that were not complied with); (4) copies of any relevant documents; and (5) the form of relief requested. Protests should be concise and logically arranged. The protester may not present any additional grounds or arguments for protest after submission unless requested by the County. All protest documents shall be public records.

2. Grounds for Protest. Protests may only be based on one or more of the following grounds, and must be supported by evidence and/or credible allegations as follows:

a. The protester believes there was an error made by County officials or evaluation team members such as a failure to award in accordance with specific portions of the Bid Documents and/or in compliance with applicable law or regulation. A difference of opinion regarding the scoring or points to be awarded to a proposal in any or all categories does not constitute an error for protest purposes.

b. The protester believes there was misconduct or impropriety by County officials or evaluation team members.

c. The protester believes there was abuse of discretion or process by County officials or evaluation team members.

3. Protest Resolution Process. The Director of the issuing department will review a timely protest and shall forward the same, along with his or her recommendation (if any), to an independent review officer (IRO). The Protestor shall be provided the Department’s response to the protest (if any) and an opportunity to respond to it within 5 business days. Thereafter, the IRO shall respond on behalf of the County. The IRO may, consistent with applicable law, use all available resources and information, including soliciting information from, and revealing information to, any entities or sources in its attempt to informally resolve the protest. The IRO may also contact the protester or Agency/Department, or conduct a hearing.

4. IRO Decision. The IRO will issue a written decision to the protester and the Department within 20 business days of receiving a protest. However, the time for decision may be extended by the IRO.

24.3 Protest Remedies. The remedies available pursuant to these procedures may include, but are not limited to, the reevaluation or the cancellation of a solicitation. However, no remedy may require the County to execute a contract with any entity, which authority is solely reserved for the Board of Supervisors or an official with appropriate delegated authority.

Address: __________________________________________________________________________________________

TO:   The County of Santa Clara, herein called Owner:

Pursuant to and in compliance with your Notice to Bidders and the Contract Documents relating to the JOC-FAF-2020-02, the undersigned Bidder, having become thoroughly familiar with the terms and conditions of the Contract Documents and with local conditions affecting the performance and the costs of the Work, hereby proposes and agrees to fully perform authorized Work within the time(s) stated and in strict accordance with the Contract Documents and each Job Order, including providing any and all labor and materials, and performing all the work required to construct and to complete said Work in accordance with the requirements of the Contract Documents, for the following Adjustment Factors:

**BID SCHEDULE:**

**General Facilities Normal Working Hours:** Work performed during Normal Working Hours, in General Facilities, in the quantities specified in individual Job Orders for the Unit Price sum specified in the Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

**General Facilities Other than Normal Working Hours***: Work performed during Other Than Normal Working Hours, in General Facilities, in the quantities specified in individual Job Orders for the Unit Price sum specified in the Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

**Detention Facilities** Normal Working Hours: Work performed during Normal Working Hours, in Detention Facilities, in the quantities specified in individual Job Orders for the Unit Price sum specified in the Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

**Detention Facilities Other than Normal Working Hours:** Work performed during Other Than Normal Working Hours, in Detention Facilities, in the quantities specified in individual Job Orders for the Unit Price sum specified in the Construction Task Catalog multiplied by the Adjustment Factor of:

_______________________________

* Bids will be rejected as non-responsive if the ‘Other than Normal Working Hours’ Adjustment Factors are not equal to or greater than the ‘Normal Working Hours’ Adjustment Factors.

** Bids will be rejected as non-responsive if the Detention Facilities Adjustment Factors are not equal to or greater than the General Facilities Adjustment Factors. Detention Facilities Adjustment Factors apply when Work is performed within a secured area of Department of Corrections Main Jail North/South, Elmwood Correctional Facility, and Juvenile Hall. General Facilities Adjustment Factors apply for all other locations.
Award Criteria Figure Formula

Award Criteria Figure Formula percentages are for Bid purposes only. The County is not obligated to issue Job Orders in the stated percentages. Carry out all Lines to the 4th decimal place.

BIDDING REQUIREMENTS

BID FORM

(Bid Form must be completed in ink & changes must be initialied.)

BASIS FOR AWARD OF CONTRACT

1. The Contracts will be Awarded to the “Responsible Bidder” submitting the lowest responsive Bid (as may be corrected in accordance with paragraph 7 below) and per Article 18 - Award of Contract, in the Instructions to Bidders. “Responsible Bidder” (per Public Contract Code §1103) is a Bidder who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity, and experience to satisfactorily perform the public works contract.

2. Owner reserves the right to reject this Bid.

3. This Bid must remain open and not be withdrawn for a period of ninety (90) calendar Days from the date prescribed for its opening.

4. If written notice of the acceptance of this Bid is mailed or delivered personally to the undersigned within ninety (90) calendar Days after the date set for the opening of this Bid, or at any time thereafter before withdrawn, the undersigned Bidder must execute and deliver the Agreement to Owner in accordance with this Bid as accepted, and must furnish and deliver to Owner the Performance Bond, Payment Bond for Public Works, Certification of Worker’s Compensation, and Proof of Insurance Coverage as required in the Bid Documents, all within seven (7) calendar Days after the date of Notice of Award furnished by the Clerk of the Board of Supervisors.

5. Contract Bonds and Insurance must be satisfactory to, and on forms acceptable to Owner.

6. Notice of acceptance of Bonds and Insurance or a request for additional information may be addressed to the Bidder at the address shown on Page 1 of Document 00410, “Bid Form.”

7. Wherever in this Bid an amount is stated in both words and figures, in case of discrepancy between words and figures, the words shall prevail. If a discrepancy exists between the Adjustment Factors and the Award Criteria Figure (summation of weighted Adjustment Factors) the Adjustment Factors will prevail. The Owner will correct and revise the total Award Criteria Figure accordingly.

8. Bidder certifies that it has thoroughly read and understands the Bid Documents and Addenda. Bidder hereby incorporates by reference the Bid Documents and Addenda as though set out in full, and all provisions of the Notice to Bidders published by Owner pertaining to the Work described in this Bid.

Signature                                                                                                                                       Date

00410-3
BIDDER’S SECURITY & ADDENDA

1. Accompanying this Bid proposal is _____________ (insert words "cash," "cashier's check," "certified check," or "Bidder's Bond" as the case may be) in an amount equal to $500,000.00, which is ten percent (10%) of the Maximum Contract Value, $5,000,000.00.

2. Bidder acknowledges receipt of the following Addenda to the Bid Documents:

   ( ) NO Addenda received

   ( ) Addenda received as follows:

<table>
<thead>
<tr>
<th>Addendum Number</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>______</td>
<td>______</td>
</tr>
<tr>
<td>______</td>
<td>______</td>
</tr>
<tr>

the party making the foregoing Bid. The Bid is not made in the interest of, or on behalf of, any
undisclosed person, partnership, company, association, organization, or corporation. The Bid is
genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited
any other bidder to put in a false or sham Bid. The bidder has not directly or indirectly colluded,
conspired, connived, or agreed with any Bidder or anyone else to put in a sham Bid, or to refrain
from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement,
communication, or conference with anyone to fix the Bid price of the Bidder or any other Bidder,
or to fix any overhead, profit, or cost element of the Bid price, or of that of any other Bidder. All
statements contained in the Bid are true. The Bidder has not, directly or indirectly, submitted his or
her bid price or any breakdown thereof, or the contents thereof, or divulged information or data
relative thereto, to any corporation, partnership, company, association, organization, bid
depository, or to any member or agent thereof to effectuate a collusive or sham Bid, and has not
paid, and will not pay, any person or entity for such purpose.

8. CONTRACTING PRINCIPLES DECLARATION OF CONTRACTOR/BIDDER

The Contract that may be Awarded will be a Type I Service Contract pursuant to the Board of Supervisor’s Resolution on Contracting Principles adopted on October 28, 1997.

Type I Category: “II. Definitions C.2. Construction or other work required by law to be contracted out.”

Explanation: The work required by these Contract Documents is construction work and pursuant to Public Contract Code §20121 must be contracted out.

The Board resolution on Contracting Principals has two (2) specific requirements related to Type I Service contracts:

1) All Type 1 contracts must contain a contract provision specifying that the contractor shall comply with all applicable federal, state and local rules, regulations and laws. (See 00700.31, “Compliance With Laws and Regulations”)

2) All Type 1 contracts must contain a contract provision specifying that the contractor shall maintain financial records that would be adequate to show that County funds were used for purposes consistent with the terms of the service contract. (See 00700.31, “Compliance With Laws and Regulations”)

I am authorized to complete this form on behalf of:

STOP NOTICE INFORMATION

PROJECT NAME: ___________________________________________ NO.: ___________

COUNTY PROJECT MANAGER: __________________________________________

COUNTY DEPARTMENT: _________________________________________________

CONTRACTOR’S NAME: ________________________________________________

CONTRACTOR’S ADDRESS: ______________________________________________

Reference: California Civil Code, Division 4, Part 6, Title 3

The following is furnished for the information of contractors, Subcontractors and suppliers of labor, materials, equipment, and services under County Public Works contracts, and is not intended as legal advice. Advice of legal counsel should be obtained to ensure compliance with legal requirements relating to public works stop notices.

WHERE TO FILE: All original stop notices and preliminary-20-day notices (if required by California Civil Code §9300) must be filed with the County of Santa Clara, Clerk of the Board of Supervisors, located at 70 West Hedding Street, 10th Floor, East Wing, San Jose, CA 95110.

STOP NOTICE CONTENTS: See California Civil Code §8100 and following and §9352. Written notice, signed and verified by the claimant and including information such as the kind of labor, equipment, materials or services provided or agreed to be provided by the claimant; the name of the person/entity to or for whom the same was done or provided; the amount in value of that already done or provided and an estimate of the total amount to be provided. Blank Stop Notice forms are commercially available.

WHO MAY SERVE STOP NOTICE: See California Civil Code §9100. All persons who have not been paid in full and who have provided work for a public works contract for a work of improvement, if the work is authorized by a direct contractor, subcontractor, architect, project manager, or other person having charge of all or part of the public works contract; laborers; and persons described in Section 4107.7 of the Public Contract Code.

HOW THE STOP NOTICE IS SERVED: See California Code §8100 and following and §9354. Served by personal service, registered mail, or certified mail.

TIME FOR SERVICE: See California Civil Code §9356. Stop notices must be served before the expiration of: 30 days after recording of a Notice of Completion (sometimes called a Notice of Acceptance) or Notice of Cessation, if such notice is recorded. If no Notice of Completion or Notice of Cessation is recorded, 90 days after actual completion or cessation.

NOTICE OF COMPLETION: See California Civil Code §9362. Provided that a stop notice claimant has paid to the Clerk of the Board of Supervisors the sum of $10.00 at the time of filing a stop notice, the Clerk shall provide that claimant with notice of the filing of a Notice of Completion or Cessation, or completion by acceptance or cessation, by personal service, or registered or certified mail.

RELEASE OF STOP NOTICE: See California Civil Code §8120 and following, §9400 and following, and §9364. A stop notice can be released if the original contractor files a corporate surety bond with the Clerk of the Board of Supervisors, in the amount of one hundred twenty-five (125%) of the stop notice claim.
Alternatively, the original contractor may file an affidavit pursuant to California Civil Code §9400-02, stating objections to the validity of the stop notice. A counter affidavit may be filed by the claimant pursuant to §9406 and a summary legal proceeding may be held pursuant to §9408 and following, to determine the validity of the stop notice. If no counter affidavit is filed, the stop notice funds shall be released. Alternatively, the Stop Notice claimant may file a Release in a form which substantially complies with California Civil Code §8132-38.

**STOP NOTICE LAWSUIT**: See California Civil Code §9500-10. These sections provide that a stop notice is perfected only by the filing of a lawsuit. A lawsuit must be filed no sooner than 10 days after service of a stop notice and **no later than 90 days after the expiration of the time for filing stop notices**. Notice of suit must be given to the Clerk of the Board of Supervisors within 5 days after commencement. The Court has the discretionary right to dismiss the lawsuit if it is not brought to trial within 2 years.

I HEREBY ACKNOWLEDGE THAT I HAVE RECEIVED AND READ THE ABOVE STOP NOTICE INFORMATION AND IF I AM AWARDED THIS CONTRACT, I AGREE TO INCLUDE A COPY OF THIS PAGE IN ALL SUBCONTRACTS AND CONTRACTS FOR LABOR, MATERIALS, EQUIPMENT AND SERVICES THAT I ENTER INTO FOR THIS PROJECT:

BIDDER'S BOND for JOC-FAF-2020-02

WHEREAS, we, _________________________________ as Principal,
and _________________________________ as Surety,

are held and firmly bound unto the County of Santa Clara, a political subdivision of the State of California (hereinafter called "County") in the penal sum of $450,000, which is ten percent (10%) of the Maximum Contract Value, $4,500,000 of the Principal above named, submitted by said Principal to County for the Work described below, for the payment of which sum in lawful money of the United States, well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by this agreement.

WHEREAS, the said Principal is submitting a Bid to the County of Santa Clara for certain construction specifically described as follows,

Job Order Contracting JOC-FAF-2020-02

for which Bids are to be opened on _________________________________, 20___.

THE CONDITION OF THIS OBLIGATION IS that if the Bid submitted by the said Principal is accepted and the Contract awarded to said Principal within the time periods required in Bid, and if the Principal duly executes the required Agreement, provides the required Construction Performance Bond, Construction Labor and Material Payment Bond, insurance certificates, Guarantee, and all other endorsements, forms, and documents, in the form and time periods required by the Bid, then this obligation shall be void, otherwise to remain in full force and effect.

Surety for value received, hereby stipulates and agrees that no change, extension of time, alterations, or addition to the terms of the Contract on the call for Bids, or to the Work to be performed thereunder, or the specifications accompanying the same, shall in any way affect its obligation under this Bond, and it does, hereby, waive notice of any such change, extension of time, alteration, or addition to the terms of specifications. In the event suit is brought upon this Bond by the County of Santa Clara and County prevails before an adjudicatory body, Surety shall pay all costs incurred by the County of Santa Clara in such suit, including a reasonable attorney's fee to be fixed by the adjudicating body.
BIDDER'S BOND (CONT'D)

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this _____________ day of __________________________________, 20______.

Original, Corporate seals of Principal and Surety must be attached.

END OF DOCUMENT 00430
AGREEMENT

This is an agreement ("Agreement") between the County of Santa Clara, ("Owner") and ______________ (“Contractor”).

Owner and Contractor agree as follows:

ARTICLE 1 – SCOPE OF WORK

Contractor must provide all of the materials and perform all of the Work authorized in Job Orders in accordance with the Contract Documents for Project [JOC NUMBER].

ARTICLE 2 - CONTRACT SUM:

As full compensation for furnishing all materials and performing all the Work that may be authorized in Job Orders pursuant to this Agreement until its Acceptance by Owner; for all risks of every description connected with the Work; and for all expenses incurred by or in consequence of the suspension of discontinuance of Work thereof, in the manner and according to the Contract Documents, Owner will compensate the Contractor for the Detailed Scope of Work called for in each Job Order issued pursuant to this Contract for the Unit Prices set forth in the Construction Task Catalog® in accordance with the Contractor’s Adjustment Factors stated on the Bid Schedule, which are as follows:

<table>
<thead>
<tr>
<th>General Facilities</th>
<th>Normal Working Hours Adjustment Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>6:00 am to 6:00 pm Monday to Friday, except Owner Holidays</td>
</tr>
<tr>
<td></td>
<td>Other than Normal Working Hours Adjustment Factor</td>
</tr>
<tr>
<td></td>
<td>Hours outside Normal Working Hours including all day Saturday, Sunday and County Holidays</td>
</tr>
<tr>
<td>Detention Facilities</td>
<td>Normal Working Hours Adjustment Factor</td>
</tr>
<tr>
<td></td>
<td>6:00 am to 6:00 pm Monday to Friday, except Owner Holidays</td>
</tr>
<tr>
<td>Detention Facilities</td>
<td>Other than Normal Working Hours Adjustment Factor</td>
</tr>
<tr>
<td></td>
<td>Hours outside Normal Working Hours including all day Saturday, Sunday and County Holidays</td>
</tr>
</tbody>
</table>

The Minimum Contract Value is $50,000. The Contractor has the opportunity to receive Job Orders totaling at least $50,000 during the Contract term. The Maximum Contract Value is $4,500,000.00. At no time may the sum of the outstanding Job Orders exceed the amount of the Payment Bond and Performance Bond. A Job Order is outstanding until the County has accepted the Project described in the Job Order by execution of a Notice of Completion. The Contractor will not be issued Job Orders which in total exceed the Maximum Contract Value. Owner does not guarantee a minimum amount of work will be ordered under this Contract. Owner is not legally authorized to pay for any work that results in an amount in excess of the Maximum Contract Value, and any work performed by Contractor that is in excess of the Maximum Contract Value is at the risk of the Contractor.
Value is done at Contractor’s own expense and Contractor shall not be compensated for the amount in excess of the Maximum Contract Value. At the discretion of the Owner/County and if deemed to be in public interest, the Maximum Contract Value may be increased by up to the sum authorized by Public Contract Code Section 20128.5.

Contractor shall maintain current and accurate accounting records, using Generally Accepted Accounting Principles, of all Job Orders pending and completed under this Contract. Contractor shall notify Owner in writing and in accordance with the notice provisions of this Contract when Job Orders cumulatively total seventy-five percent (75%) of the Maximum Contract Value. Failure to provide such notice will constitute a material breach of this Contract, and Owner may terminate this Contract immediately. If Contractor fails to provide notice as required under this provision, Owner shall withhold, as a penalty for failure to comply with this provision, $25,000 from funds otherwise payable to the Contractor for every thirty (30) days or portion thereof on a pro rata basis that elapses after the seventy-five percent (75%) of the Maximum Contract Value threshold is reached without notice from the Contractor, until such notice is provided and effective. Contractor shall be liable to Owner for such amounts, and Owner may pursue any remedies it deems necessary, including legal action, to collect such amounts.

Contractor shall ensure that at no time may the sum of the outstanding Job Orders exceed the amount of the Payment Bond and Performance Bond. A Job Order is outstanding until the County has accepted the Project described in the Job Order by execution of a Notice of Completion. Failure to ensure that the sum of outstanding Job Orders do not exceed the amount of the Payment Bond and Performance Bond is a material breach of this Contract and Owner may terminate this Contract immediately and with no liability for work done in violation of this provision.

ARTICLE 3 - CONTRACT DOCUMENTS:
All rights and obligations of Owner and Contractor are fully set forth and described in the Contract Documents. The Contract Documents are incorporated herein by reference as though set forth in full.

Formation of a Contract between the parties requires accomplishment of the following: (1) execution of this Agreement by Contractor; (2) submission by Contractor and acceptance by Owner of the required Contract Bonds, Contractor’s certification regarding Worker’s Compensation, and insurance coverages and documents; (3) execution of this Agreement by Owner. No Contract is formed until these three elements have been accomplished to the satisfaction of the Owner.

ARTICLE 4 – WORKER’S COMPENSATION:
By my signature hereunder, as Contractor, I certify that I am aware of the provisions of §3700 of the Labor Code which require every employer to be insured against liability for worker’s compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing the performance of the Work of this Contract.

ARTICLE 5 – CONTRACT TIME:
Following acceptance of Contract Bonds, Contractor’s certification regarding Worker’s Compensation (Document 00621, “Contractor’s Certification Regarding Worker’s Compensation”), insurance coverages and documents, and execution of this Agreement by both parties, Owner’s Authorized Representative will provide an executed copy of this Job Order Contract.

The term of this Job Order Contract commences on the effective date of the executed contract issued by the County of Santa Clara.

The term of this Job Order Contract is either for one year or when issued Job Orders totaling the Maximum Contract Value have been completed, whichever occurs first. All Job Orders must be issued, but not necessarily completed within one calendar year of the commencement date of the Contract.
A separate Job Order Notice to Proceed will be issued for each Job Order. Each Job Order will specify a time limit for completion as stated on the Job Order Notice to Proceed. The Work must be fully completed within the Contract Time(s) set forth in the Job Order.

ARTICLE 6 - CONTRACTOR’S LICENSE:

Contractors are required by law to be licensed and regulated by the Contractor’s State License Board. Any questions concerning contractor licensing must be referred to the Registrar of the Contractor’s State License Board at 1020 "N" Street, Sacramento, CA 95814.

ARTICLE 7 – COUNTY’S MANDATORY POLICY PROVISIONS:

7.01 Food and Beverage Standards

Except in the event of an emergency or medical necessity, the following nutritional standards shall apply to any foods and/or beverages purchased by Contractor with County funds for County-sponsored meetings or events.

If food is to be provided, healthier food options shall be offered. “Healthier food options” include (1) fruits, vegetables, whole grains, and low fat and low calorie foods; (2) minimally processed foods without added sugar and with low sodium; (3) foods prepared using healthy cooking techniques; and (4) foods with less than 0.5 grams of trans fat per serving. Whenever possible, Contractor shall (1) offer seasonal and local produce; (2) serve fruit instead of sugary, high calorie desserts; (3) attempt to accommodate special, dietary and cultural needs; and (4) post nutritional information and/or a list of ingredients for items served. If meals are to be provided, a vegetarian option shall be provided, and the Contractor should consider providing a vegan option. If pre-packaged snack foods are provided, the items shall contain: (1) no more than 35% of calories from fat, unless the snack food items consist solely of nuts or seeds; (2) no more than 10% of calories from saturated fat; (3) zero trans fat; (4) no more than 35% of total weight from sugar and caloric sweeteners, except for fruits and vegetables with no added sweeteners or fats; and (5) no more than 360 mg of sodium per serving.

If beverages are to be provided, beverages that meet the County’s nutritional criteria are (1) water with no caloric sweeteners; (2) unsweetened coffee or tea, provided that sugar and sugar substitutes may be provided as condiments; (3) unsweetened, unflavored, reduced fat (either nonfat or 1% low fat) dairy milk; (4) plant-derived milk (e.g., soy milk, rice milk, and almond milk) with no more than 130 calories per 8 ounce serving; (5) 100% fruit or vegetable juice (limited to a maximum of 8 ounces per container); and (6) other low-calorie beverages (including tea and/or diet soda) that do not exceed 40 calories per 8 ounce serving. Sugar-sweetened beverages shall not be provided.

7.02 No Smoking

Contractor and its employees, agents and subcontractors, shall comply with the County’s No-Smoking Policy, as set forth in the Board of Supervisors Policy Manual section 3.47 (as amended from time to time), which prohibits smoking: (1) at the Santa Clara Valley Medical Center Campus and all County-owned and operated health facilities, (2) within 30 feet surrounding County-owned buildings and leased buildings where the County is the sole occupant, and (3) in all County vehicles.

7.03 Compliance With All Laws, Including Nondiscrimination, Equal Opportunity, and Wage Theft Prevention
(1) Compliance with All Laws. Contractor shall comply with all applicable Federal, State, and local laws, regulations, rules, and policies (collectively, "Laws"), including but not limited to the non-discrimination, equal opportunity, and wage and hour Laws referenced in the paragraphs below.

(2) Compliance with Non-Discrimination and Equal Opportunity Laws: Contractor shall comply with all applicable Laws concerning nondiscrimination and equal opportunity in employment and contracting, including but not limited to the following: Santa Clara County’s policies for contractors on nondiscrimination and equal opportunity; Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; the Age Discrimination in Employment Act of 1967; the Rehabilitation Act of 1973 (Sections 503 and 504); the Equal Pay Act of 1963; California Fair Employment and Housing Act (Gov. Code § 12900 et seq.); California Labor Code sections 1101, 1102, and 1197.5; and the Genetic Information Nondiscrimination Act of 2008. In addition to the foregoing, Contractor shall not discriminate against any subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political belief, organizational affiliation, or marital status in the recruitment, selection for training (including but not limited to apprenticeship), hiring, employment, assignment, promotion, layoff, rates of pay or other forms of compensation. Nor shall Contractor discriminate in the provision of services provided under this contract because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status.

(3) Compliance with Wage and Hour Laws: Contractor shall comply with all applicable wage and hour Laws, which may include but are not limited to, the Federal Fair Labor Standards Act, the California Labor Code, and, if applicable, any local minimum wage, prevailing wage, or living wage Laws.

(4) Definitions: For purposes of this Section 9.03, the following definitions shall apply. A “Final Judgment” shall mean a judgment, decision, determination, or order (a) which is issued by a court of law, an investigatory government agency authorized by law to enforce an applicable Law, an arbiter, or arbitration panel and (b) for which all appeals have been exhausted or the time period to appeal has expired. For pay equity Laws, relevant investigatory government agencies include the federal Equal Employment Opportunity Commission, the California Division of Labor Standards Enforcement, and the California Department of Fair Employment and Housing. Violation of a pay equity Law shall mean unlawful discrimination in compensation on the basis of an individual’s sex, gender, gender identity, gender expression, sexual orientation, race, color, ethnicity, or national origin under Title VII of the Civil Rights Act of 1964 as amended, the Equal Pay Act of 1963, California Fair Employment and Housing Act, or California Labor Code section 1197.5, as applicable. For wage and hour Laws, relevant investigatory government agencies include the federal Department of Labor, the California Division of Labor Standards Enforcement, and the City of San Jose’s Office of Equality Assurance.

(5) Prior Judgments, Decisions or Orders against Contractor: By signing this Agreement, Contractor affirms that it has disclosed any final judgments that (A) were issued in the five years prior to executing this Agreement by a court, an investigatory government agency, arbiter, or arbitration panel and (B) found that Contractor violated an applicable wage and hour law or pay equity law. Contractor further affirms that it has satisfied and complied with – or has reached Agreement with the County regarding the manner in which it will satisfy – any such final judgments.

(6) Violations of Wage and Hour Laws or Pay Equity Laws During Term of Contract: If at any time during the term of this Agreement, Contractor receives a Final Judgment rendered against it for violation of an applicable wage and hour Law or pay equity Law, then Contractor shall promptly satisfy
and comply with any such Final Judgment. Contractor shall inform the Office of the County Executive-Office of Countywide Contracting Management (OCCM) of any relevant Final Judgment against it within 30 days of the Final Judgment becoming final or of learning of the Final Judgment, whichever is later. Contractor shall also provide any documentary evidence of compliance with the Final Judgment within 5 days of satisfying the Final Judgment. Any notice required by this paragraph shall be addressed to the Office of the County Executive-OCCM at 70 W. Hedding Street, East Wing, 11th Floor, San José, CA 95110. Notice provisions in this paragraph are separate from any other notice provisions in this Agreement and, accordingly, only notice provided to the Office of the County Executive-OCCM satisfies the notice requirements in this paragraph.

(7) Access to Records Concerning Compliance with Pay Equity Laws: In addition to and notwithstanding any other provision of this Agreement concerning access to Contractor’s records, Contractor shall permit the County and/or its authorized representatives to audit and review records related to compliance with applicable pay equity Laws. Upon the County’s request, Contractor shall provide the County with access to any and all facilities and records, including but not limited to financial and employee records, that are related to the purpose of this Subsection H, except where prohibited by federal or state laws, regulations or rules. County’s access to such records and facilities shall be permitted at any time during Contractor’s normal business hours upon no less than 10 business days’ advance notice.

(8) Pay Equity Notification: Contractor shall (1) at least once in the first year of this Agreement and annually thereafter, provide each of its employees working in California and each person applying to Contractor for a job in California (collectively, “Employees and Job Applicants”) with an electronic or paper copy of all applicable pay equity Laws or (2) throughout the term of this Agreement, continuously post an electronic copy of all applicable pay equity Laws in conspicuous places accessible to all of Contractor’s Employees and Job Applicants.

(9) Material Breach: Failure to comply with any part of this Subsection H shall constitute a material breach of this Agreement. In the event of such a breach, the County may, in its discretion, exercise any or all remedies available under this Agreement and at law. County may, among other things, take any or all of the following actions:

(i) Suspend or terminate any or all parts of this Agreement.
(ii) Withhold payment to Contractor until full satisfaction of a Final Judgment concerning violation of an applicable wage and hour Law or pay equity Law.
(iii) Offer Contractor an opportunity to cure the breach.

(10) Subcontractors: Contractor shall impose all of the requirements set forth in this Subsection H on any subcontractors permitted to perform work under this Agreement. This includes ensuring that any subcontractor receiving a Final Judgment for violation of an applicable Law promptly satisfies and complies with such Final Judgment.

7.04 Living Wage

Unless otherwise exempted or prohibited by law or County policy, Contractors that contract with the County to provide Direct Services, as defined in County of Santa Clara Ordinance Code Division B36 (“Division B36”) and Board Policy section 5.5.5.5 (“Living Wage Policy”), and their subcontractors, where the contract value is $100,000 or more, must comply with Division B36 and the Living Wage Policy and compensate their employees in accordance with Division B36 and the Living Wage Policy.
Compliance and compensation for purposes of this provision includes, but is not limited to, components relating to fair compensation, earned sick leave, paid jury duty, fair workweek, worker retention, fair chance hiring, targeted hiring, local hiring, protection from retaliation, and labor peace. If Contractor and/or a subcontractor violates this provision, the Board of Supervisors or its designee may, at its sole discretion, take responsive actions including, but not limited to, the following:

i. Suspend, modify, or terminate the Direct Services Contract.
ii. Require the Contractor and/or Subcontractor to comply with an appropriate remediation plan developed by the County.
iii. Waive all or part of Division B36 or the Living Wage Policy.

This provision shall not be construed to limit an employee's rights to bring any legal action for violation of the employee's rights under Division B36 or any other applicable law. Further, this provision does not confer any rights upon any person or entity other than the Board of Supervisors or its designee to bring any action seeking the cancellation or suspension of a County contract. By entering into this contract, Contractor certifies that it is currently complying with Division B36 and the Living Wage Policy with respect to applicable contracts, and warrants that it will continue to comply with Division B36 and the Living Wage Policy with respect to applicable contracts.

ARTICLE 8 – CONTRACTOR’S/OWNER’S REPRESENTATIVES:

The Owner’s Authorized Representative during construction of this Project is the Project Manager listed on the Project Title Page, or designee, who has authority to approve change orders, payment requests, and other documents.

Notice to the Owner’s Authorized Representative under the Contract Documents shall be sent to:

County of Santa Clara – Facilities and Fleet
Attn.: [NAME], Contract Administrator
2310 N. First Street, Suite 200
San Jose, CA  95131

Tel. 408-[PHONE] / Fax 408-993-4777
Email: [EMAIL]

Notice to Contractor shall be send to Contractor’s Authorized Representative to:

[CONTRACTOR NAME]
Attn.: [CONTRACTOR REPRESENTATIVE NAME]
[ADDRESS]

Tel. [PHONE NUMBER] / Fax [FAX NUMBER]
Email: [EMAIL]

ARTICLE 11–COUNTERPARTS; ELECTRONIC/DIGITAL SIGNATURES:

This Agreement and any amendments hereto may each be executed in counterparts, and all of such
counterparts so executed together shall be deemed to constitute one and the same agreement, and each such counterpart shall be deemed to be an original provided all of the parties have fully executed the Agreement or amendment. Unless otherwise prohibited by law or County policy, and provided all parties have first executed the Agreement or amendment, the parties agree and intend that an electronic copy of the signed Agreement or amendment has the same force and legal effect as if the Agreement or amendment had been executed with an original ink signature. The term "electronic copy of the signed Agreement or amendment" refers to a transmission of a copy of an original ink-signed Agreement or amendment by facsimile, electronic mail (email), or other electronic or digital means in a portable document format. The term "electronically signed Agreement or amendment" means an Agreement or amendment that is fully executed by all parties each applying an electronic signature. An “electronic signature” means an electronic or digital sound, symbol, or process attached to or logically associated with an electronic or digital record (e.g., DocuSign) and executed or adopted by a person with the intent to sign the electronic record. The parties each represent, warrant and agree that the signatures, whether an ink-signed original or electronically signed Agreement or amendment, by their respective signatories are intended to authenticate such signatures and to give rise to a valid, enforceable, and fully effective agreement when so executed by all the parties. The parties further agree if a party has evidenced its signature by forwarding an electronic copy of a signed Agreement or amendment, it will confirm that signature by forwarding to the other party within ten (10) days an ink-signed original of the Agreement or amendment but the failure to so forward an ink-signed original will not affect in any way the validity or enforceability of the Agreement or amendment.
IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the date signed by the Board of Supervisors.

ESCROW AGREEMENT FOR
SECURITY DEPOSITS IN LIEU OF RETENTION

This Escrow Agreement is made and entered into by and between:

THE COUNTY OF SANTA CLARA whose address is 70 W. Hedding St., San Jose, CA 95110
hereinafter called “Owner”, and

____________________________________ whose address is __________________________ hereinafter called
“Contractor”, and

____________________________________ whose address is __________________________ hereinafter called
“Escrow Agent”.

For the consideration hereinafter set forth, Owner, Contractor, and Escrow Agent agree as follows:

1. Pursuant to §22300 of the Public Contract Code of the State of California, Contractor has the option to deposit securities with Escrow Agent as a substitute for retention earnings required to be withheld by Owner pursuant to the Construction contract entered into between the Owner and Contractor for ___________________________________in the amount of $____________________ dated _______________ (hereinafter referred to as the “Contract”). Alternatively, on written request of the contractor, the Owner shall make payment of the retention earnings directly to the Escrow Agent. When the Contractor deposits the securities as a substitute for Contract earnings, the Escrow Agent shall notify the Owner within 10 days of the deposit. The market value of the securities at the time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the Contract between the Owner and Contractor. Securities shall be held in the name of ______________________________________ and shall be designated the Contractor as the beneficial Owner.

2. Owner shall make progress payments to Contractor for those funds which otherwise would be withheld from progress payments pursuant to the Contract provisions, provided that Escrow Agent holds securities in the form and amount specified above.

3. When the Owner makes payment of retentions earned directly to the Escrow Agent, the Escrow Agent shall hold them for the benefit of Contractor until the time that the escrow created under this contract is terminated. The Contractor may direct the investment of the payments into securities. All terms and conditions of this Escrow Agreement and the rights and responsibilities of the parties shall be equally applicable and binding when the Owner pays the Escrow Agent directly.

4. Contractor shall be responsible for paying all fees for the expenses incurred by Escrow Agent in administering the Escrow Account and all expenses of the Owner. The Owner, Contractor, and Escrow Agent shall determine these expenses and payment terms.

5. The interest earned on the securities or money market accounts held in escrow and all interest earned on that interest shall be for the sole account of Contractor and shall be subject to withdrawal by Contractor at any time and from time to time without notice to Owner.

6. Contractor shall have the right to withdraw all or any part of the principal in the Escrow Account only by written notice to Escrow Agent accompanied by written authorization from Owner to Escrow Agent that Owner consents to the withdrawal of the amount sought to be withdrawn by Contractor.

7. Owner shall have a right to draw upon the securities in the event of default by Contractor. Upon seven days written notice to Escrow Agent from Owner of the default, Escrow Agent shall immediately convert the securities to cash and shall distribute the cash as instructed by Owner.

8. Upon receipt of written notification from Owner certifying that the Contract is final and complete, and that Contractor has complied with all requirements and procedures applicable to the Contract, Escrow Agent shall release to Contractor all securities and interest on deposit less escrow fees and charges of the Escrow Account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payment of all fees and charges.
ESCROW AGREEMENT (CONT'D)

9. Escrow Agent shall rely on the written notifications from the Owner and the Contractor pursuant to Sections (5) through (8), inclusive, of this Escrow Agreement, and the Owner and the Contractor shall hold Escrow Agent harmless from Escrow Agent's release and disbursement of securities and interest as set forth above.

10. The names of the persons who are authorized to give written notice or to receive written notice on behalf of Owner, Contractor and Escrow Agent in connection with the foregoing, and exemplars of their respective signatures are as follows:

On behalf of Owner:

Signature

Name

Title

Address

On behalf of Contractor:

END OF DOCUMENT 00550
WHEREAS, the Board of Supervisors of the County of Santa Clara, State of California, and ___________________________________________________________________________________ hereinafter designated as "Principal" have entered into an Agreement for the furnishing of all materials, labor, services and equipment necessary, convenient and proper to perform work under:

Job Order Contracting JOC-FAF-2020-02

pursuant to the said Agreement dated ______________________, 20____, and all of the documents attached thereto and incorporated by reference, becoming a part of said Agreement, forming the contract for the job orders described therein ("Contract"), are hereby referred to and made a part hereof; and,

WHEREAS, said Principal is required according to the terms of said Contract and applicable California State law, to furnish a Bond for the faithful Performance of said Contract.

NOW, THEREFORE, we, the Principal and ________________________________________________ as Surety, are held and firmly bound unto the County of Santa Clara in the penal sum of: Five Million Dollars ($5,000,000.), lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents, referred to hereinafter as the Penal Sum.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, its subcontractors, heirs, executors, administrators, successors or assigns, shall promptly and faithfully perform the covenants, conditions, and agreements in the Contract during the original term and any extensions thereof as may be granted by Owner, with or without notice to Surety, and during the period of any guarantees or warranties required under the Contract, and shall also promptly and faithfully perform all the covenants, conditions, and agreements of any and all alterations of the Contract made as therein provided, notice of which alterations to Surety being hereby waived, on Principal's part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall defend, indemnify and hold harmless Owner, its officers, agents, and employees, as stipulated in the Contract, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

No extension of time, change, alteration, addition or deletion to the Contract, or to the work to be performed thereunder, or work or actions by Owner to mitigate the damages resulting from any breach in performance by Principal, or work or actions to protect the work or property, shall in any way release or exonerate Surety on this Bond or in any way affect the obligations of this Bond, and the Surety hereby waives notice of any such change, extension of time, change, alteration, modification, addition or deletion, work, or actions.

Whenever Principal shall be and declared by Owner in default under the Contract, Surety shall promptly remedy the default, or shall promptly, and in no event later than forty-five (45) days from receipt of such notice or thirty days (30) days following the effective date of a termination of Principal's right to proceed with the work, elect and commence performance of one of the following options:

A. Undertake performance and completion of the Contract, through its agents or independent contractors (but having qualifications and experience meeting Contract requirements in the reasonable judgment of the Owner), to perform and complete the Contract in accordance with its terms and conditions and to pay and perform all obligations of Principal under the Contract, including without limitation, all obligations with respect to warranties, guarantees, indemnities, and the payment of liquidated damages; or

B. Obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and, upon determination by Owner of the lowest responsible bidder, arrange for a contract between such bidder and Owner and make available as work progresses (even though there should be a default or a succession.
of defaults under the contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the balance of the contract sum remaining on the date of effectiveness of such termination, and to pay and perform all obligations of Principal under the Contract, including, without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.

Surety’s total obligations hereunder shall not exceed the amount set forth above as the Penal Sum. The term “balance of the contract sum,” as used in the above paragraph, shall mean the total amount payable by Owner to the Principal under the Contract and any amendments thereto, less the amount paid by Owner to Principal.

Surety’s obligations hereunder are independent of the obligations of any other surety for the performance of the Contract, and suit may be brought against Surety and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing Owner’s rights against the others.

Surety may not use Contractor to complete the Contract absent Owner’s Consent. Owner shall have the right in its sole discretion to continue the work of the Contract, following a default and/or termination, as necessary to prevent risks of personal injury, property damage or delay to the Project pending Surety’s election described above.

No right of action shall accrue on this bond to or for the use of any person or corporation other than Owner or its successors or assigns.

Surety shall join in any proceedings brought under the Contract upon Owner’s demand, and shall be bound by any judgment. Correspondence or claims relating to this bond shall be sent to Surety at the address set forth below. Notices and elections may be sent by overnight mail, confirmed by email, in addition to methods required by Contract.

In the event suit is brought upon this Bond by the County of Santa Clara and judgment is recovered, Surety shall pay all costs incurred by the County of Santa Clara in such suit, including a reasonable attorney’s fee to be fixed by the adjudicatory body in accordance with applicable law.

The Surety, by the execution of this Bond, represents and warrants that this Bond has also been duly executed by the Principal with proper authority, and the Surety hereby waives any defense which it might have by reason of any failure by the Principal to execute or properly execute this Bond.
IN WITNESS WHEREOF two identical counterparts of this instrument, each of which shall for all purposes be deemed an original thereof, have been duly executed by the Principal and Surety above named on the __________ day of ________________________________, 20____.

Original Corporate seals of Principal and Surety must be attached.

END OF DOCUMENT 00611
PAYMENT BOND FOR PUBLIC WORKS

WHEREAS, the Board of Supervisors of the County of Santa Clara, State of California, and hereinafter designated as "Principal" have entered into an Agreement for the furnishing of all materials, labor, services and equipment necessary, convenient and proper to complete work under:

Job Order Contracting JOC-FAF-2020-02

pursuant to the said Agreement dated ______________________, 20____, and all of the documents attached thereto and incorporated by reference, becoming a part of said Agreement, are hereby referred to and made a part hereof; and,

WHEREAS, said Principal is required by Title 1, Chapter 4 (commencing at §8152) and Title 3, Chapter 5 (commencing at §9550), of Part 6 of Division 4, of the California Civil Code to furnish a Bond in connection with said Agreement.

NOW THEREFORE, we, the Principal and _________________________________________________ as Surety, are held and firmly bound unto the County of Santa Clara in the penal sum of: Five Million Dollars ($5,000,000), lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators and successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT if said Principal, its subcontractors, heirs, executors, administrators, successors or assigns shall fail to pay any of the persons named in §9100 of the California Civil Code, any amounts due under the Unemployment Insurance Code with respect to work or labor performed by any such claimant, any prevailing wages due and penalties incurred pursuant to Sections 1774, 1775, 1813 and 1815 of the California Labor Code, any amounts required to be deducted or withheld from the wages of employees of the Principal and its subcontractors for payment to the United States Government and/or to the State Franchise Tax Board with respect to such work and labor, the Surety will pay for the same, in an amount not exceeding the total sum herein above specified, and also, in case suit is brought upon this Bond, a reasonable attorney's fee to be fixed by the court. This Bond shall inure to the benefit of any of the persons named in Section 9100 of the California Civil Code, so as to give the right of action to such persons or their assigns in any suit brought upon this Bond.

It is further stipulated and agreed that the Surety on this Bond shall not be exonerated or released from the obligation of this Bond by any change, extension of time for performance, addition, deletion, alteration, or modification in, to, or any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described or pertaining to or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or attempted rescission of the contract, agreement, or Bond, nor by any conditions precedent or subsequent in the Bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the Bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the Bond, and that this Bond be construed most strongly against the Surety and in favor of all persons for whose benefit such Bond is given, and under no circumstances shall the Surety be released from its obligations hereunder by reason of any breach of contract between the County of Santa Clara and said Principal or on the part of any obligee named in such Bond, but the sole conditions of recovery shall be that claimant is a person described in §9100 of the California Civil Code and has not been paid the full amount of its claim, and that Surety does hereby waive notice of any such change, extension of time, addition, deletion, alteration, or modification herein mentioned.
PAYMENT BOND FOR PUBLIC WORKS (CONT'D)

The Surety, by the execution of this Bond, represents and warrants that this Bond has also been duly executed by the Principal with proper authority, and the Surety hereby waives any defense which it might have by reason of any failure by the Principal to execute or properly execute this Bond.

IN WITNESS WHEREOF two identical counterparts of this instrument each of which shall for all purposes be deemed an original thereof, have been duly executed by the Principal and Surety above named on the __________ day of ___________________, 20__.

Contract with the County of Santa Clara for the
construction of: PROJECT TITLE: JOC-FAF-2020-02

PROJECT NO.: _________________________

Labor Code §3700:

"Every employer, except the State, and all political subdivisions or institutions thereof, shall secure the payment of compensation in one or more of the following ways:

(a) By being insured against liability to pay compensation by one or more insurers, duly authorized to write compensation insurance in this State.

(b) By securing from the Director of Industrial Relations a certificate on consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to employees."

I am aware of the provisions of §3700 of the Labor Code that require every employer to be insured against liability for Worker’s Compensation or to undertake self-insurance. In accordance with the provisions of that code, I will comply with such provisions before commencing the performance of the Work of this Contract.

**AUTHORIZED REPRESENTATIVE**
SANTA CLARA COUNTY SPECIAL ENDORSEMENT

Unless specifically excluded, the following endorsements are issued to, and form a part of, the policy number(s) shown below, and are effective on the date indicated at 12:01 a.m. Standard Time as stated in the policy.

a. Additional Insured Endorsement:

Insurance afforded by this policy shall also apply to the County of Santa Clara, and members of the Board of Supervisors of the County of Santa Clara, and the officers, agents, and employees of the County of Santa Clara, individually and collectively, as additional insureds. Such insurance shall also apply to any municipality in which the Work occurs and they shall be named on the policy as additional insured (if applicable).

b. Primary Insurance Endorsement:

Insurance afforded by the additional insured endorsement shall apply as primary insurance, and other insurance maintained by the County of Santa Clara, its officers, agents, and employees shall be excess only and not contributing with insurance provided under this policy.

c. Notice of Cancellation or Change of Coverage Endorsement:

Insurance afforded by this policy shall not be canceled or changed so as to no longer meet the specified County insurance requirements without 30 days' prior written notice of such cancellation or change being delivered to the County of Santa.

d. Contractual Liability Endorsement:

Insurance afforded by this policy shall apply to liability assumed by the insured under written contract with the County of Santa Clara.

e. X C & U (Explosion, Collapse and Underground) Endorsement:

Insurance afforded by this policy provides X, C and U Hazards coverage.

END OF TABLE OF ARTICLES
1.1 ABBREVIATIONS: References in the General Conditions are sometimes referred to only by corresponding abbreviation. Not all abbreviations are listed and not all listed abbreviations are used. Unless otherwise specifically defined in the General Conditions, when the following abbreviations are used, the intent and meaning will be interpreted as follows:

1.1.1 A/E – Design Professional
1.1.2 CM – Construction Project Manager
1.1.3 DFOW - Definable Feature of Work
1.1.4 FAF – The Facilities and Fleet Department of the County of Santa Clara
1.1.5 LDs – Liquidated Damages
1.1.6 NTP – Notice To Proceed
1.1.7 OAR – Owner’s Authorized Representative
1.1.8 PE – Design Professional
1.1.9 QC – Quality Control
1.1.10 RFI – Request For Information
1.1.11 SOV – Schedule Of Values

1.2 DEFINITIONS: Wherever in the Bidding Requirements, Contracting Requirements (except Document 00850, "Indemnification and Insurance Requirements"), or General Requirements the following terms, or pronouns in place of them are used, the intent and meaning will be interpreted as follows:

1.2.1 Acceptance - The formal acceptance by the County of the Completion of the entire Work of the Job Order, which to Owner’s knowledge has been performed in accordance with the requirements of the Contract Documents and all Approved modifications thereof.

1.2.2 Addendum - A written change to the Bid Documents issued before the time fixed for the opening of Bids.

1.2.3 Additional Detailed Instructions - Detailed written and/or graphic instructions issued by the Owner to the Contractor to explain the Work more fully. Such instructions become part of the requirements of the Contract Documents without changing the requirements of the Contract Documents.

1.2.4 Agreement - The written and signed document known as Document 00500, “Agreement.” (Sometimes also referred to as Contract Agreement or Contract.)

1.2.5 Alternative - Refer to Approved Equal and Substitution

1.2.6 Approved, Directed, Ordered, or Required - Whenever these words or their derivatives are used, it is the intent, unless otherwise clearly stated, that written approval, acceptance, or direction by the Owner’s Authorized Representative or Owner’s Project Manager is required.

1.2.7 Approved Equal - Material, equipment, or method accepted by the Owner’s Authorized Representative for use in the Work, as being acceptable as an equivalent in essential attributes to the material, equipment, or method specified in the Contract Documents.

1.2.8 Architect of Record – See Design Professional of Record

1.2.9 Award Date - Date of action taken by the Board of Supervisors accepting Contractor’s Bid and authorizing its Chairperson to execute the Agreement. (Sometimes also referred to as Award.)

1.2.10 Bid Alternate – Additive and/or deductive Bid items identified as such on the Bid Form.
1.2.11 **Bid** - The offer of a Bidder to perform the Work pursuant to a completed prescribed Bid Form, properly executed and guaranteed, and timely submitted.

1.2.12 **Bidder** - Any individual, firm, partnership, corporation, or combination thereof, submitting a Bid for the Work contemplated, acting directly or through a duly authorized representative.

1.2.13 **Bid Documents** - The documents approved by the Board of Supervisors to advertise for construction of the Project, including but not limited to the Introductory Information, Bidding Requirements, Notice to Bidders (Document 00100), Bid Form (Document 00410), Agreement Form (Document 00500), Bidder’s Bond Form (Document 00430), the Performance Bond Form (Document 00611), the Payment Bond Form for Public Works (Document 00612), and the Sample Escrow Agreement for Security Deposits in Lieu of Retention (Document 00550), plus the Project Manual, General Requirements, General Conditions, Construction Task Catalog, Task Specifications, Specification Division 1 (General Requirements), and any Addenda or written modification to any of the foregoing. The Bid Documents do not include documents listed, included, or referenced “For Information Only” including but not limited to geotechnical reports, asbestos surveys, and other pre-design reports.

1.2.14 **Bid Form** - The approved form upon which Owner requires a formal Bid be prepared and submitted for the Work.

1.2.15 **Bidder’s Security** - The cash, cashier’s check, certified check, or Bidder’s bond accompanying the Bid submitted by the Bidder as a guaranty that the Bidder will enter into a Contract with Owner for the performance of the Work of the Contract is Awarded to the Bidder.

1.2.16 **Board of Supervisors** - The Board of Supervisors of the County of Santa Clara.

1.2.17 **Reserved**

1.2.18 **Reserved**

1.2.19 **Claim** - A separate unresolved Dispute by the Contractor for: (A) a Contract Time extension, (B) payment of money or damages arising from Work done by, or on behalf of, the Contractor pursuant to the contract for a public work and payment of which is not otherwise expressly provided for or the claimant is not otherwise entitled to, or (C) an amount the payment of which is disputed by the Owner.

1.2.20 **Complete Submittal** – A group of individual Submittals, each meeting the requirements of the Contract Documents, encompassing all the Work included in a Definable Feature of Work (DFOW), and submitted to the Owner as a single Submittal package.

1.2.21 **Completion** - Acceptance of the Work by Owner.

1.2.22 **Construction Project Manager (CM)** - A consultant firm or such other individual or entity as Owner may designate to Contractor in writing, retained by Owner to perform project management services.

1.2.23 **Consultants** - Architects, Engineers, Construction Project Managers and other professionals engaged to provide the Owner with professional services for the Project.

1.2.24 **Contract** - The written Agreement on the Owner’s form encompassing the performance of the Work and the furnishing of labor, materials, tools, and equipment in the construction of the Work. Synonymous with “Agreement”, and “Contract Agreement”.

1.2.25 **Contract Bonds** - The Performance Bond and the Payment Bond for Public Works.

1.2.26 **Contract Documents** - The Bid Documents, Request for Job Order Proposals, Job Orders, all Additional Detailed Instructions, Field Modifications, and Approved Supplemental Job Orders.
1.2.27 **Contractor** - The person or persons, firm, partnership, corporation, or combination thereof, private or municipal, or the legal representatives thereof, that entered into the Contract with Owner. (Sometimes also referred to as “Prime Contractor” or “Original Contractor”)

1.2.28 **Contractor’s Authorized Representative** – The Contractor’s authorized representative who has the authority to represent and act for Contractor.

1.2.29 **Contractor’s Labor Force** – A person or persons employed with and directly compensated by the Contractor as evidenced by certified payroll, worker’s compensation, insurance, and other indicia of employment.

1.2.30 **Reserved**

1.2.31 **Cost Breakdown** - A document submitted by the Contractor to the Owner reflecting the portions of the Job Order Price allotted for the various parts of the Work. (Sometimes also referred to as “Schedule of Values”)

1.2.32 **County** – The County of Santa Clara, a political subdivision of the State of California.

1.2.33 **Critical Path** – All references in the Contract Documents to the Critical Path mean the longest path of dependent activities within the current updated version of the Official Progress Schedule that determine when the Work of the Project will be complete.

1.2.34 **Date of Acceptance** - The date of Acceptance by the Board of Supervisors of Contract Completion.

1.2.35 **Day(s)** - Calendar days unless otherwise designated.

1.2.36 **Deficiency List** - A written list of deficiencies in the completed Work. Also sometimes referred to as “Punch List.”

1.2.37 **Definable Feature of Work (DFOW)** - A Work task that is separate and distinct from other Work tasks and has common control requirements and work crews.

1.2.38 **Design Professional** - The term “Design Professional” means a person licensed in California; as an architect pursuant to Chapter 3 (commencing with §5500) of Division 3 of the Business and Professions Code, registered as a professional engineer pursuant to Chapter 7 (commencing with §6700) of Division 3 of the Business and Professions Code, or licensed as a land surveyor pursuant to Chapter 15 (commencing with §8700) of Division 3 of the Business and Professions Code (Also sometimes referred to as “Architect/Engineer”, “A/E”, “Professional Engineer”, “PE”, “Design Consultant”, and/or “Consultant”.)

1.2.39 **Design Professional of Record** – The term “Design Professional of Record” means the Design Professional in responsible charge of the design services or portions of the design services in connection with the Project.

1.2.40 **Direct Labor** – Labor required to complete the Work and performed onsite as evidenced by certified payroll or other relevant documentation.

1.2.41 **Director** - The term “Director” means the Director of the County’s FAF Department.

1.2.42 **Dispute** - A written disagreement submitted by the Contractor seeking adjustment of Contract terms, payment of money, extension of Contract Time or other relief with respect to the terms of the Contract. A Dispute is not a Claim.

1.2.43 **Drawings** - The graphic and pictorial portions of the Contract Documents, illustrating the design, character, location, and dimensions of the Work to be performed, generally including but not limited to, elevations, sections, details, schedules, General Notes, specific notes, and diagrams. Synonymous with “Drawings”, “Contract Drawings”, and “Plans”.

00700-7
1.2.44 **Emergency** – A sudden, unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services.

1.2.45 **Fabricated** - Specifically assembled or made out of selected materials to meet Project specific design requirements.

1.2.46 **Field Modification** - A written instruction, clarification or additional information issued by the Owner’s Project Manager to Contractor that does not change the Job Order Completion Time or Job Order Price but becomes part of the requirements of the Contract Documents.

1.2.47 **Final Inspection** – The inspection performed by the Owner and its Consultants after the Contractor has certified that the entire Work of the Project is complete.

1.2.48 **Force Account** - The method of performing Work by or on behalf of Contractor on a time, materials and equipment basis.

1.2.49 **General Notes** - The written instructions, provisions, conditions or other requirements appearing on the Drawings, and so identified thereon, which pertain to the performance of the Work.

1.2.50 **Governing Body** - The Board of Supervisors of the County of Santa Clara.

1.2.51 **Governmental Agencies** - Whenever, in the Contract Documents, reference is made to any governmental agency or officer, such reference will be deemed made to any agency or officer acting in accordance with law to the power, duties, jurisdiction, and authority of the agency or officer mentioned.

1.2.52 **Facilities and Fleet Department (FAF)** – The Facilities and Fleet Department of the County of Santa Clara.

1.2.53 **Guarantee** - A promise or assurance given by one party to a second party that a third party's obligations will be fulfilled (i.e., Contractor agrees to guaranty the Work performed by one of its Subcontractors to the Owner). (Also sometimes referred to as Warranty/Guarantee)

1.2.54 **Inspector** - The person assigned by Owner to inspect the Work. (Also sometimes referred to as Project Inspector or Owner’s Inspector.)

1.2.55 **Install** - Synonymous with “Provide” for the purposes of this Contract.

1.2.56 **Job Order Document** - The County’s signature document requiring the Contractor to complete the Detailed Scope of Work within the Job Order Completion Time for the Job Order Price and authorizing such Work and the approved cost. A project may consist of one or more Job Orders.

1.2.57 **Job Order Completion Time** - The time within which the Contractor must complete the Detailed Scope of Work.

1.2.58 **Job Order Contract Notice to Proceed** - The written notice issued by Owner’s Authorized Representative to Contractor whereby the Contractor is notified of the official Job Order Contract start date, after which Work may be issued to the Contractor in the form of individual authorized Job Orders.

1.2.59 **Job Order Price** - The value of the approved Job Order Price Proposal and the amount the Contractor will be paid for completing a Job Order.

1.2.60 **Labor Hours** – The Direct Labor cost of a Job Order determined by adding (i) the labor cost component of all pre-priced unit tasks, and (ii) labor costs of non-prepriced Work, including subcontracts.
1.2.61 **Laboratory** - Any laboratory authorized or accepted by Owner to test materials and Work involved in the Contract.

1.2.62 **Liquidated Damages** - The amount prescribed in the Contract Documents to be paid to Owner or to be deducted from any payments due or to become due Contractor for each Day's delay in completing the whole or any specified portion of the Work, beyond the time(s) allowed in the Contract Documents Approved Work Schedule plus Approved time extensions.

1.2.63 **Reserved.**

1.2.64 **Reserved**

1.2.65 **Maximum Contract Value** - The maximum value of Job Orders that the Contractor may receive under this Contract.

1.2.66 **Minimum Contract Value** - The minimum value of Job Orders that the Contractor is guaranteed the opportunity to perform under this Contract.

1.2.67 **Named Products** - Products identified in the Contract Documents by Manufacturer's product name. Named Products may include Manufacturer's make or model number or other designation.

1.2.68 **Notice of Award** - The letter from the Clerk of the Board of Supervisors notifying Contractor that the Board of Supervisors accepted Contractor's Bid and authorized the President to execute the Agreement.

1.2.69 **Notice of Completion** - A document executed by the County and filed with the County Recorder, signifying that a Job Order has been Completed and Accepted.

1.2.70 **Notice to Bidders** - The Document inviting sealed Bids for the Work. (Document 00100, "Notice to Bidders")

1.2.71 **Official Progress Schedule** - The Contractor's Progress Schedule and all revisions and updates thereto, accepted by the Owner and attached to the Job Order.

1.2.72 **Or Equal** - Refer to Approved Equal

1.2.73 **Owner** - The County of Santa Clara

1.2.74 **Order** - Refer to Approved, Directed, Ordered, or Required

1.2.75 **Owner's Authorized Representative** - The person named in the Notice to Bidders whose authority includes but is not limited to the authority to approve Addenda, Change Orders, and Payment Requests.

1.2.76 **Plans** - See Drawings

1.2.77 **Preconstruction Submittals** - Submittals requiring Owner's acceptance before Contractor may proceed with the installation of Work or the procurement of the materials and/or equipment covered by the Submittal.

1.2.78 **Project** - The entire public improvement proposed by Owner to be constructed in whole or in part pursuant to the requirements a Job Order or Job Orders and the Contract Documents, including any phasing or other requirements

1.2.79 **Product Data** - Illustrations, Manufacturer's literature, standard schedules, performance charts, instructions, brochures, diagrams and other information submitted by the Contractor to illustrate materials or equipment for some portion of the Work. Product Data are not considered Contract Documents.

1.2.80 **Project Manager** - The person identified in the Notice to Bidders as the Project Manager or subsequently designated by Owner's Authorized Representative to manage the Contract and/or the Project. (Also sometimes referred to as Owner's Project Manager)
1.2.81 **Project Manual** - The written volume(s) assembled for the Work, including the Introductory Information, Bidding Requirements, Contracting Requirements, General Requirements, Construction Task Catalog, Technical Specifications, and other written or graphic material as may be listed in the Project Manual Table of Contents, including any Addenda and Approved revisions by Owner.

1.2.82 **Project Site** - Space available to Contractor for performance of the Work, either exclusively or in conjunction with others performing other work as part of the Project. May refer to one or more Project Sites.

1.2.83 **Provide** - Synonymous with “Install” for the purposes of this Contract: All labor, materials, equipment, supervision and whatever else is necessary to supply and incorporate a specified item into the Work in compliance with the requirements of the Contract Documents.

1.2.84 **Punch List** - A written list of deficiencies in the completed Work. (Also sometimes referred to as “Deficiency List.”)

1.2.85 **Record Documents** - A set of the Contract Documents including Drawings and Project Manual updated on a continuous basis to indicate conditions encountered and the final configuration of a Project as it was constructed. Record Documents include any change or clarification to the Contract Documents and dimensional information showing the actual locations of Installed components of the Work. (Also known as “As-Builts” or “As-Built Documents”)

1.2.86 **Request for Information (RFI)** - A written request by the Contractor for information or clarification regarding the requirements of the Contract Documents. Requests For Information must be numbered sequentially and presented in a format furnished or accepted by the Owner’s Project Manager. The Owner’s response to an RFI is considered an Additional Detailed Instruction and does not change the requirements of the Contract Documents, Job Order Completion Time, Contract Time, or Job Order Price.

1.2.87 **Retention** - A defined percentage of the Contract Sum held by the Owner pending Completion of the Work, or any portion of the Work.

1.2.88 **Samples** - Physical examples that illustrate materials, equipment or workmanship and establish standards by which the Work will be evaluated.

1.2.89 **Shop Drawings** - Drawings, diagrams, schedules, and other data specially issued for the Work by the Contractor or a Subcontractor, Sub-Subcontractor, and Suppliers to demonstrate and/or illustrate the way by which the Contractor proposes to conform to the information given and the design concept expressed in the Contract Documents for some specific portion of the Work. Shop Drawings are not considered Contract Documents.

1.2.90 **Specifications** - The written directions, provisions and requirements pertaining to the materials to be provided and to the method and manner of performing the work, equipment, systems and standards, including any Addenda and Approved revisions by Owner. (Also sometimes referred to as “Technical Specifications” or “Specs.”)

1.2.91 **State** - The State of California.

1.2.92 **Subcontractor** - A contractor, within the meaning of the provisions of Chapter 9 (commencing with § 7000) of Division 3 of the Business and Professions Code, who contracts directly with the Contractor to perform any Work of the Project. The term Subcontractor is referred to throughout the Contract Documents as if singular in number and means a Subcontractor or its authorized representative.

1.2.93 **Sub-subcontractor** - A contractor, within the meaning of the provisions of Chapter 9 (commencing with § 7000) of Division 3 of the Business and Professions Code, that has a direct or indirect contract with a Subcontractor to perform any Work of the Project. The
term Sub-subcontractor is referred to throughout the Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative thereof.

1.2.94 **Submittal** - Data or items required by the Contract Documents to be submitted by the Contractor to the Owner. Submittals demonstrate the method, materials, plan, or sequence the Contractor proposes to use to conform to the design concept expressed in the requirements of the Contract Documents. Submittals include but are not limited to Shop Drawings, Coordination Drawings, layouts, Progress Schedules, Substitution requests, Samples, mockups, catalogs, Product Data and literature, equipment data sheets, maintenance and operating data. Unless otherwise stated in the Contract Documents, Submittals are not considered Contract Documents.

1.2.95 **Substitution** - A material and/or process offered by the Contractor in lieu of the specified material and/or process, and accepted by the Owner’s Authorized Representative in writing as being equivalent (equal) to the specified material and/or process. (Also sometimes referred to as Product Substitution)

1.2.96 **Supplier** - A person or organization contracting with Contractor, a Subcontractor or a Sub-subcontractor to supply materials and/or equipment for the Work.

1.2.97 **Surety** - A company that provides Contractor’s bonds for bidding, performance and payment and is admitted as a surety insurer as defined in §995.120(a) of the California Code of Civil Procedure.

1.2.98 **Total Float Time** - The time difference between the earliest start date and the latest start date, or between the earliest finish date and the latest finish date, of Project activities. (Also sometimes referred to as “slack time” or “Total Float” or “Float”)

1.2.99 **Warranty** - A Contractor’s, Subcontractor’s, Manufacturer’s or material Supplier’s promise or assurance, written or otherwise, that its Products and services provided meet industry (implied) or contractual (the requirements of the Contract Documents) standards of performance. (Also sometimes referred to as Warranty/Guarantee.)

1.2.100 **Work** - That which is constructed or done pursuant to the requirements of the Contract Documents to accomplish the Project including but not limited to the furnishing of all labor, materials, use of tools and equipment.

ADDITIONAL DEFINITIONS CAN BE FOUND IN THE SUPPLEMENTAL GENERAL CONDITIONS ARTICLE 1.

1.3 **REPRESENTATIONS, CORRELATION AND INTENT**

1.3.1 By entering into the Agreement, Contractor represents it is familiar with the Project Site conditions including the availability of labor and materials in the local geographic area where the Work is to be performed and has correlated personal observations with requirements of the Contract Documents.

1.3.2 The Contract Documents are complementary, and what is required by any one is as binding as though required by all. The intent of the Contract Documents is to include all labor, materials, equipment, and all other items necessary for the proper execution and completion of the entire Work. Unless otherwise specifically noted, Contractor must Provide and pay for all labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and all other facilities and services necessary for the proper execution and completion of the Work.

1.3.3 Work not explicitly depicted or mentioned in any portion of the Contract Documents is nevertheless required if it is consistent therewith and is reasonably inferable therefrom as being necessary to produce the intended results. Words and abbreviations having well known technical, trade or industry meanings are herein in accordance with such recognized meanings.
1.3.4 The organization of the Project Manual into Articles, Parts, Sub-Parts, Divisions, Sections, and Paragraphs and the arrangement of Drawings do not control Contractor in dividing the Work among Subcontractors or Suppliers or in establishing the extent of Work to be performed by any Subcontractor or trade.

1.3.5 The Contract Documents prescribe the details for the construction and completion of the Work that Contractor undertakes to perform in accordance with the terms of the Contract.

1.3.6 Scale Drawings, full-sized Drawings and Project Manual are intended to be complementary and to agree.

1.3.7 Owner, whose decision is final, will clarify questions regarding the interpretation of the Contract Documents.

1.3.8 Any Work called for by the Drawings and not mentioned in the Project Manual, or vice versa, is to be Provided as though fully set forth by both.

1.3.9 Where not specifically stated otherwise, all Work and materials necessary for each unit or item of Work, including special construction for any specific brand or shape of materials called for, even though only briefly mentioned or indicated, must be Provided and Installed fully and completely as part of the Work of this Contract.

1.3.10 In the event of any difference, discrepancy, inconsistency, error, omission, or other apparent conflict within the Contract Documents and/or with actual field conditions, Contractor must immediately notify Owner in writing, requesting clarification. If Contractor is aware the Work is affected and proceeds with the Work without instructions from Owner, Contractor must make good any resultant damage or defects.

1.3.11 Contractor must not assume that one element in the Contract Documents has preference over another, except as provided in Document 00700.1.6, “Conflicts in the Contract Documents.” In the event that two or more Products or methods are specified for a particular application, Contractor must furnish the most suitable quality or method, as determined by Owner.

1.3.12 When standards of the Federal Government, trade societies, trade associations, or similar commercial standards are referred to in the Contract Documents by specific date of issue, these standards, including amendments or supplements, will be considered as part of the Contract Documents. When such references do not bear date of issue, the current published edition, including amendments or supplements, at the date of the first Notice to Bidders will be considered as part of the Contract Documents.

1.3.13 Contractor is responsible for the complete and proper execution of the Work as described in, and as reasonably implied by, the Contract Documents. Contractor is solely responsible for ensuring that all Subcontractors, Suppliers, Manufacturers, etc., working with any portion of the Contract Documents are fully aware that all the Contract Documents apply to their Work, although the other portions of the Contract Documents may not be fully reproduced or repeated therein.

1.3.14 Contractor must be skilled and experienced in the understanding and use of construction documents. Contractor must carefully review the Contract Documents for this Project and must carefully examine the Project Site of the Work before Bidding. Unless Contractor has otherwise informed Owner in writing before Bidding, Contractor warrants that it found all Contract Documents free of ambiguities and sufficient for Bidding and construction purposes, and that from its own observations, Contractor has satisfied itself as to the nature and locations of the Work, the character, quality and quantities of materials and labor required, the difficulties likely to be encountered, and all other items that may affect its performance.

1.3.15 Contractor, having assured itself of the adequacy of the Bid Documents and the accuracy of its Bid, agrees to execute the Work within the Job Order Completion Time(s) and Job
Order Price established in the Contract Documents. Contractor further understands that construction will likely involve some clarifications and changes to the Bid Documents and modifications in Contractor’s planned work procedures. These are expected conditions of construction, and Contractor has anticipated them and provided for them in its Bid.

1.3.16 The Drawings, Project Manual and other Contract Documents issued by Owner and copies furnished to the Contractor, are for use solely with respect to the Work of this Project. They are not to be used by the Contractor or any Subcontractor, Sub-Subcontractor or Supplier on other projects, nor for additions to this Project outside the scope of the Work without the specific written consent of Owner. The Contractor, Subcontractors, Sub-Subcontractors and Suppliers are granted permission to use and reproduce applicable portions of the Drawings, Project Manual and other Contract Documents issued by Owner appropriate to, and for use in, the execution of their work pursuant to the requirements of the Contract Documents.

1.3.17 Paragraphs titled “Section Includes” are not intended to “scope” the Section nor imply a trade responsibility, but serve merely as a listing of significant items in the Section to allow the reader to quickly assess the Section content. Similarly, Paragraphs titled “Related Sections” or “Related Requirements” or “Related Documents” are not intended to coordinate the Contractor’s work, but merely indicate where certain other significant items that may be related to the Work of the Section are specified.

1.3.18 Unless otherwise indicated, highlighted, emboldened, italicized, or underlined text is not indented to imply special significance but serves merely as an aid to the reader to distinguish or quickly reference selected text.

1.3.19 By submitting a Bid, Contractor represents to the Owner that Contractor has verified the availability of Named Products and the Named Products including sole source Products are currently available.

1.4 ORGANIZATION OF PROJECT MANUAL

.a The Project Manual is organized in general compliance with the Construction Specifications Institute (CSI) MasterFormat.

1.5 CAPITALIZATION AND CAPTIONS

1.5.1 Terms capitalized in the Introductory Information, Bidding Requirements, Contracting Requirements, and Division 1(General Requirements) include those that are:

1 Specifically defined; or

2 Titles and captions of Documents or numbered Articles, Parts, Sub-Parts, Sections, or Paragraphs; or

3 Titles of other documents.

1.5.2 The titles and captions of the Documents, Articles, Parts, Sub-Parts, Sections, or Paragraphs are for convenience only and will not be deemed relevant in resolving any question of interpretation or construction of any such Documents, Articles, Parts, Sub-Parts, Sections, or Paragraphs.

1.6 CONFLICTS IN THE CONTRACT DOCUMENTS

1.6.1 See Supplemental General Conditions

1.6.2 Resolution of conflicts in the Contract Documents

1. In case of conflict between the Job Order Drawings and Job Order Technical Specifications, the Drawings will govern in matters of quantity, the Project Manual in matters of quality. In the case of conflict within the Drawings, the following will govern:

.a Schedules, when identified as such, will govern over all other portions of the
Drawings.

.b Specific notes will govern over General Notes, all other notes, and all other portions of the Drawings, except schedules described in the preceding clause.

c Figured dimensions will have precedence over undimensioned items.

d Larger scale Drawings will govern over smaller scale Drawings (for example, ¼" = 1'-0" governs over 1/8" = 1'-0").

e Detail Drawings govern over standard plates included in the Project Manual.

1.6.3 Omissions

.1 If the Contract Documents are not complete as to any minor detail or required construction system or with regard to the manner of combining or installing of parts, materials, or equipment, but there exists accepted trade standard for good and workmanlike construction, such detail will be deemed to have been included by the requirements of the Contract Documents in accordance with such standard.

1.7 REQUESTS FOR INFORMATION

1.7.1 Requests for Information (RFI): If the Contractor discovers conflicts, omissions, or errors in the Contract Documents, or has any questions concerning interpretation or needs clarification of Contract Documents, the Contractor must immediately submit to the Owner, in writing, an RFI that complies with the following requirements:

.1 All RFIs, whether by the Contractor, a Subcontractor or Supplier at any tier, must be submitted by the Contractor to the Owner.

.2 RFIs must be numbered sequentially and be presented in the format furnished by or acceptable to the Owner’s Project Manager.

.3 The Contractor must clearly and concisely set forth the issue for which interpretation or clarification is sought, indicating details or other pertinent items involved, and state why a response is required.

.4 Each RFI must be limited to one issue requiring response from the Owner.

.5 In each RFI the Contractor must set forth its own interpretation or understanding of the requirements, along with reasons why it has reached such an understanding.

.6 RFIs must be submitted in a timely manner in order that they may be adequately researched and answered before the response affects any Critical Path Activity of the Work.

.7 All RFIs must be submitted by the Contractor to the Owner before 3:00p.m. RFIs received after 3:00p.m. will be date stamped as received the following workday.

.8 Responses to RFIs will be issued by the Owner’s Project Manager within 14 Days unless the Owner notifies the Contractor in writing that a response will take longer. The 14 Day response time will begin when the RFI is received and date stamped as received by the Owner.

.9 RFI responses will not change any requirement of the Contract Documents.

.10 Should the Contractor contend that a response to a RFI causes a change to the requirements of the Contract Documents, the Contractor must, before proceeding, give written notice to the Owner indicating that the Contractor considers the response to the RFI to be a change to the requirements of the Contract Documents. Failure to give such written notice within seven (7) Days of receipt of the Owner’s response to the RFI waives the Contractor’s right to seek an adjustment in the Job Order Completion Time or Job Order Price according to Document 00700 - Article 6, “Changes in the Work”, for costs or time incurred in connection with the Work.
described in the RFI.

1.8 ADDITIONAL DETAILED INSTRUCTIONS

1.8.1 Owner may furnish additional detailed written and/or graphic instructions to explain the Work more fully, and such instructions become a part of the requirements of the Contract Documents. Should Additional Detailed Instructions, in the opinion of the Contractor, constitute Work in excess of the requirements of the Contract Documents, the Contractor must submit written notice to the Owner within seven (7) Days following receipt of such instructions, and in any event prior to commencement of the Work thereon. If in the Owner’s judgment the Additional Detailed Instructions constitute Work in excess of the requirements of the Contract Documents, the Additional Detailed Instructions will be revised or the extra Work will be added by Change Order.

END ARTICLE 1
ARTICLE 2 — ADMINISTRATION OF THE CONTRACT

2.1 AUTHORITY OF OWNER’S AUTHORIZED REPRESENTATIVE

2.1.1 Owner’s Authorized Representative will decide all questions regarding the interpretation and fulfillment of the Contract, the prosecution, progress, quality and acceptability of Work and materials; will implement and enforce decisions by issuing Orders, Directives, instructions and notices, and will Approve all changes in Job Order Price and Job Order Completion Time.

2.2 INFORMATION AND/OR SERVICES FURNISHED BY OWNER

2.2.1 Information and/or services required of Owner will be furnished by Owner in accordance with the Contract Documents.

2.2.2 The Owner will furnish the Contractor with copies of the Project Manuals as specified in the Bid Documents.

2.3 ADMINISTRATION OF THE CONTRACT

2.3.1 The Owner will administer the Contract during construction and during the Warranty/Guarantee period.

2.3.2 Changes to the Contract may be accomplished after execution of the Contract and without invalidating the Contract, by Change Order.

2.3.3 Unless otherwise specified in the Contract Documents, the Owner will not control the construction means, methods, techniques, sequences, procedures, safety precautions and programs in connection with the Work.

2.3.4 The Owner is not responsible for the Contractor’s failure to carry out the Work in accordance with the requirements of the Contract Documents.

2.3.5 The Owner is not responsible for acts, errors, or omissions of the Contractor, a Subcontractor, Sub-subcontractor or anyone directly or indirectly employed by any of them, or of any other persons performing portions of the Work.

2.3.6 Unless otherwise specified in the Contract Documents or when the Owner’s Project Manager has specifically authorized direct communications with its Consultants, Contractor communications by and with the Owner’s Consultants must be through the Owner’s Project Manager.

2.3.7 Subcontractors, Sub-Subcontractors and Supplier communications with the Owner or its Consultants must be through the Contractor.

2.3.8 Unless otherwise specified in the Contract Documents or when the Owner’s Project Manager has specifically authorized direct communications with other contractors working at the Project Site, Communications by and with separate contractors must be through the Owner’s Project Manager.

2.3.9 If the Owner observes Work that appears non-compliant with the requirements of the Contract Documents, the Owner has the authority to reject the Work.

2.3.10 Whenever Owner considers it necessary or advisable for implementation of the intent of the Contract Documents, Owner may require additional inspection or testing of the Work, whether or not such Work is Fabricated, Installed or completed.

2.3.11 The Owner will review Contractor’s submitted Shop Drawings, Product Data, and Samples, but only for the limited purpose of checking for conformance with information provided and the design concept expressed in the Contract Documents. Review of Submittals is not conducted for determining the accuracy and completeness of other details, such as dimensions and quantities, nor for substantiating instructions for installation or performance of equipment or systems, all of which are and remain the
responsibility of the Contractor.

2.3.12 Owner, Owner's Consultants, and Inspector as appropriate, will conduct periodic quality assurance inspections to determine the Contractor's compliance with their QC Program and with the requirements of the Contract Documents.

2.3.13 Unless otherwise stated in the Contract Documents, Contractor must sequentially number all Contractor correspondence to the Owner in a format acceptable to the Owner's Project Manager.

2.4 BREACHES, DEFAULTS AND TERMINATION FOR CAUSE

2.4.1 If Contractor fails to begin delivery of material and equipment, to commence Work or a designated portion of the Work within the time specified, to maintain the rate of delivery of material, to execute the Work or designated portion of the Work in the manner and at the specified location(s), or fails to maintain a work program which will ensure Owner's interest, or, if Contractor is not carrying out the intent of the Contract, Owner's written notice may be served upon Contractor and Surety on its faithful performance bond demanding satisfactory compliance with the requirements of the Contract Documents.

2.4.2 If the Owner deems that the Contractor has persistently or repeatedly refused or failed to supply an adequate workforce, or material of proper quality, or otherwise refuses or fails to submit a proposal in response to a Request for Job Order Proposal, prosecute the Work, or any separable part thereof, with such diligence as will ensure its completion within the Job Order Completion Time(s) specified in the Job Order or authorized extension thereof, or if Contractor should fail to make prompt payment to Subcontractors or Suppliers, or persistently disregards laws, ordinances, or Owner's written Directions, or fails to comply with self performance requirements, or has failed in any other respect to prosecute the Work with the diligence and resources required by the Contract Documents, the Owner may, after providing at least 7 Days prior written notice to the Contractor identifying the defaults to be remedied, and the Contractor's continued failure to remedy the default(s):

.1 provide any such labor and/or materials required to perform the Work or designated portion of the Work and deduct the cost from any money due or to become due to the Contractor; or

.2 if the Owner considers that the default(s) constitute sufficient basis for such action, provide the Contractor and the Contractor's Sureties with an additional 7 Days written notice, that if the defaults are not remedied, the Contractor’s control of the Work or designated portion of the Work will be terminated.

2.4.3 Should Owner exercise its rights to terminate Contractor’s control of the Work or designated portion of the Work as noted in this Document 00700.2.4, “Breaches, Defaults, and Termination for Cause”, Owner may, without prejudice to any other rights or remedies of Owner and subject to any rights or obligations of the Surety:

.1 terminate Contractor's control of the Work or designated portion of the Work;

.2 take possession of the Project Site or designated portion of the site and all or any of the Contractor’s materials, equipment, tools, appliances, and construction equipment and machinery owned by the Contractor as may be on the site and necessary for the performance of the Work or designated portion of the Work;

.3 accept assignment of any and/or all Subcontractor, Supplier, and/or rental agreements; and/or

.4 complete the Work or designated portion of the Work by whatever reasonable method(s) Owner may deem expedient and appropriate.

2.4.4 If Owner terminates the Contractor's control of the Work or portion of the Work for
reasons provided in this Document 00700.2.4, “Breaches, Defaults, and Termination for Cause”, the Contractor will not be entitled to receive any further payments until the entire Work or designated portion of the Work is completed and Accepted. Contractor and its Sureties are liable to Owner for any additional cost of completing the Work or designated portion of the Work, including compensation for additional managerial, administrative and consulting services, plus the assessment of Liquidated Damages assessed pursuant to Document 00700.7.3, “Liquidated Damages.”

2.4.5 If the costs incurred by Owner as the result of termination of Contractor’s control of the Work or a portion of the Work pursuant to this Document Job Order Price Sum, the Contractor must pay the difference to Owner.

2.4.6 Upon Completion and Acceptance of the entire Work, Contractor is entitled to the return of all unused materials and its equipment, tools, and appliances, except that Contractor will have no Claim on account of usual and ordinary depreciation, loss, wear and tear.

2.4.7 If Owner terminates Contractor’s control of the Work for cause, and if it is later determined that the termination was wrongful, such default termination will automatically be converted to and be treated as a termination for convenience. In such event, Contractor will be entitled to receive only the amounts payable pursuant to Document 00700.2.5, “Termination for Owner’s Convenience”, and Contractor specifically waives any Claim for any other amounts or damages, including, but not limited to, any Claim for consequential damages or lost profits.

2.5 TERMINATION FOR OWNER’S CONVENIENCE

2.5.1 Owner reserves its right to terminate this Contract or any part thereof for Owner’s sole convenience, upon written notice to Contractor. In the event of such termination, the Contractor must immediately suspend all Work hereunder and must immediately cause any and all of its Subcontractors, Sub-Subcontractors and Suppliers to cease work. The Contractor will not be paid for any work performed or costs incurred that reasonably could have been avoided.

2.5.2 The Contractor will be paid in accordance with the provisions of Document 00700.8, "Payments", except that the amount due the Contractor will be based upon the Owner’s estimate of the Work completed, or acceptable materials provided but not used, to the date of suspension of the Work, less any amounts required to be withheld pursuant to Document 00700.8, "Payments", and less any prior payment(s) made to, or on the account of the Contractor.

2.6 CONTRACTOR’S RIGHT TO SUSPEND, STOP, OR TERMINATE THE WORK

2.6.1 Contractor may upon fifteen (15) Days’ written notice to Owner, stop Work or terminate the Contract and recover from Owner payment for all Work executed to date of termination if:

.1 The Work is stopped pursuant to an order of any court or other public authority for a period of three (3) months, through no act or fault of Contractor or of anyone employed by Contractor; or,

.2 Owner, without justification or good cause, fails to pay Contractor within sixty (60) Days after a complete payment application has been received and Approved by Owner’s Authorized Representative.

2.6.2 Work stoppage or termination by Contractor in accordance with this Document 00700.2.6, "Contractor’s Right to Suspend, Stop, or Terminate Work", does not excuse or relieve Contractor from any of its obligations pertaining to Work in place or completed.
2.6.3 The provisions of this Document 00700.2.6, “Contractor’s Right to Suspend, Stop, or Terminate Work”, are in addition to all other rights and remedies available to Contractor by law.

2.6.4 Contractor does not have the right to suspend the Work without Owner’s written approval, and must resume Work promptly when notified by Owner.

2.7 SUSPENSION BY OWNER FOR CONVENIENCE

2.7.1 Owner may, without invalidating the Job Order, order changes in the Work by altering, adding to or deducting from the Work issuing a Supplemental Job Order, which may suspend, delay or interrupt all or any part of the Work for such periods of time as Owner may determine to be appropriate for Owner’s convenience or any other reason.

2.7.2 Contractor must immediately comply with Owner’s written Order to suspend, delay or interrupt Work or any part thereof.

2.7.3 If it should become necessary to suspend Work for an indefinite period:

1. Contractor must store all materials in such manner that they will not be or become an obstruction;

2. Contractor must take every precaution to prevent damage or deterioration of the Work performed;

3. Contractor must Provide suitable drainage and erect temporary structures where necessary to protect the Work;

4. Contractor must take all prudent measures to mitigate costs associated with suspension of the Work.

2.8 ASSIGNMENT

2.8.1 The Contractor binds the Contractor, the Contractor's partners, successors, assigns and legal representatives to Owner in respect to covenants, agreements and obligations contained in the Contract Documents. Contractor must not assign the Contract as a whole or in part without written consent of the Owner. If Contractor makes such an assignment without Owner’s written consent, Contractor will remain legally responsible for all Contractor’s obligations in the Contract Documents.

2.8.2 No assignment by the Contractor will be valid unless it contains a provision that the funds to be paid to the assignee pursuant to the assignments are subject to prior claims for payment for services rendered or material supplied for performance of the Work called for pursuant to the Contract Documents in favor of all persons, firms, or corporations rendering such services or supplying such materials.

2.8.3 Owner will not consent to an assignment that would relieve the Contractor or the Contractor’s Surety(s) of their responsibilities pursuant to the Contract.

2.8.4 Subcontracts, purchase orders, and rental agreements entered into by Contractor must contain provisions permitting assignment to Owner, and providing for termination pursuant to the terms of this Agreement. To the extent that Owner elects to take legal assignment, the Contractor must execute and deliver all documents and take all such steps, including the legal assignment of such contracts and exercise other contractual rights of the Contractor, as Owner may require for the purpose of fully vesting in Owner the rights and benefits of the Contractor pursuant to such contracts.

2.8.5 The Contractor may assign moneys due or to become due pursuant to the Contract, through an amendment to the Contract. Any assignment of moneys earned by the Contractor is subject to all proper withholdings and Retention in favor of Owner provided for in the Contract Documents. All moneys withheld, whether assigned or not, are subject to being used by Owner to the extent permitted by law, for the Completion of the Work in
the event that the Contractor is in default of the Contract.

2.9 NOTICE

2.9.1 Any notice from one party to the other must be dated and signed by the party giving such notice or by a duly authorized representative of such party. No notice is effective for any purpose unless served in the following manner:

1. If the notice is provided to Owner, it must be by personal delivery to Owner's Authorized Representative or by depositing the same in the United States mail, enclosed in a sealed envelope, addressed to the Owner's Authorized Representative at the address identified in the Notice to Bidders, first class postage prepaid.

2. If the notice is provided to Contractor, it must be by personal delivery thereof to Contractor, or to Contractor's Authorized Representative at the Project Site, or by depositing the same in the United States mail, enclosed in a sealed envelope, addressed to Contractor at its regular place of business or at such other address as may have been established for the conduct of the Work, first class postage prepaid.

3. If the notice is provided to the Surety or any other person, by personal delivery to such Surety or by depositing the same in the United States mail, enclosed in a sealed envelope, addressed to such Surety or person at the address of such Surety or person as stated in the Bond documents.

4. Deposit of notice in the United States mail will be deemed the date of receipt thereof.

2.10 AUDITS AND ACCESS TO RECORDS

2.10.1 The Contractor must maintain all books, records, documents, and other evidence directly pertinent to the performance of the Work in accordance with generally accepted accounting principles and practices consistently applied. The Contractor must also maintain all financial information and data used by the Contractor in the preparation or support of any cost submission, including the Contractor’s Bid estimate, any Change Order, Dispute, Claim, Pay Application, or other request for equitable adjustment. Owner and its representatives will have access upon 24 hours advanced written notice, at all times during normal business hours, to all Contractors books, summary reports, records, accounts, estimates, documents, detailed financial information, certified payroll records, and all other relevant information and documentation for the purposes of inspection, audit, and copying. The Contractor will, at no cost to Owner, provide proper facilities for such access, inspection and copying purposes.

2.10.2 Contractor agrees to include and make the requirements of Document 00700 - Sub-Part 2.10.1 applicable to all Subcontracts and Sub-subcontracts or purchase orders in excess of $10,000, at any tier.

2.10.3 Audits conducted pursuant to Document 00700 - Sub-Part 2.10.1 will be in accordance with general accepted auditing standards and established procedures and guidelines of the reviewing or audit agency.

2.10.4 The Contractor agrees to provide all information and reports resulting from access to records to Owner and other affected parties.

2.10.5 Records must be maintained and made available during the performance of the Work and for 3 years after Final Payment, and until final settlement of all Disputes, Claims, or litigation, whichever occurs later. In addition, those records which relate to any portion of this Contract, to any Change Order, to any Dispute, to any litigation, to the settlement of any Claim arising out of such performance, or to the cost or items to which an audit exception has been taken, must be maintained and made available until Final Payment or final resolution of such Dispute, litigation, Claim, or exception, whichever occurs later.

2.10.6 The right of access provisions of Document 00700 - Sub-Part 2.10.1 applies to all...
financial records pertaining to this Contract:

.1 to the extent the records pertain directly to Contract performance;

.2 to the extent required for verification of the costs incurred where such costs are the basis for billings pursuant to this Contract including Change Orders;

.3 to the extent there is any indication of violation of the California False Claims statute or that fraud, gross abuse, or corrupt practices may be involved;

.4 if the Contract is terminated for default or convenience.

2.10.7 Access to records is not limited to the required retention periods. Owner’s Authorized Representative or designee will have access to records at any reasonable time for as long as the records are maintained.

2.11 GOVERNING LAW

2.11.1 This Contract will be interpreted and enforced in accordance with the laws of the State of California. Pursuant to California Code of Civil Procedure §394, proper venue for legal action arising out of this Agreement is in the County of Santa Clara. Both parties hereto agree that personal and subject matter jurisdiction is proper in Santa Clara County, California.

END ARTICLE 2
ARTICLE 3 — CONTRACTOR’S RESPONSIBILITIES

3.1 GENERAL RESPONSIBILITIES

3.1.1 Contractor must supervise and direct the Work, using its best skill and attention.

3.1.2 Contractor is solely responsible for all construction means, methods, techniques, operations, sequences and procedures, and for coordinating all portions of the Work.

3.1.3 The Contractor shall assign a full-time person as its representative for this Contract. This person shall be acceptable to the Owner and shall have a cell phone at which he or she can be reached at all times.

3.1.4 The Contractor shall also have at all times an Office Manager and a Superintendent assigned to this Contract. Additional staff will be provided depending on the volume of work. For each Job Order issued, the Contractor shall identify the Superintendent responsible for that Job Order. The Superintendent shall be reachable 24 hours a day, seven days a week. If the named Superintendent is not available because of illness or vacation or the like, the Contractor shall notify the Owner of a substitute Superintendent. At all times, the Contractor shall provide at least one Superintendent for every four Job Orders. Whenever, in the sole discretion of the Owner, the Contractor is not providing a sufficient level of supervision, the Owner may direct the Contractor to increase the level of supervision for any or all projects, including but not limited to the right to direct the Contractor to assign a full time, dedicated Superintendent for any project; submit daily management, inspection, activity, and planning reports; substitute subcontractors; submit daily photographs of the work in place and the work areas prepared for the next day’s work; and develop a site specific quality control program, all at no cost to the Owner. In the event the Owner’s personnel are required to provide direction or supervision of the work in the field because the Contractor has not provided sufficient supervision, the Contractor shall reimburse the Owner $75 per hour for such effort.

3.1.5 Contractor will not be relieved from its obligations to perform the Work in accordance with the requirements of the Contract Documents, either by the activities or duties of Owner or Owner’s Consultants in their administration of the Contract, or by inspections, tests, acceptance, or approvals required or performed by persons other than Contractor.

3.1.6 Contractor must at all times enforce good order and discipline among its employees and must not employ on the Work anyone not skilled in the task assigned.

3.1.7 Contractor warrants to Owner that all materials and equipment provided pursuant to the Contract are new unless otherwise specified, and that all Work is of good quality, free from faults and defects and in conformance with the requirements of the Contract Documents. All Work not conforming to these requirements, including substitutions not properly accepted and authorized by Owner’s Authorized Representative may be considered defective. Upon request at any time, Contractor must furnish evidence, satisfactory to Owner, demonstrating the quality of installed materials and equipment.

3.1.8 Unless otherwise provided in the Contract Documents, the Contractor must provide and pay for all labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

3.1.9 Contractor has charge and care of all Work and all materials to be used therein (including materials for which Contractor has received partial payment or materials which have been furnished by Owner) until Acceptance of the Work. Contractor bears the risk of injury, loss, or damage to any part thereof by the action of the elements or from any other cause, whether arising from the performance or nonperformance of the Work, except as otherwise expressly provided.
3.1.10 Contractor must rebuild, repair, restore, and make good all injuries, losses, or damages to any portion of the Work or the materials by any cause before Completion and Acceptance.

3.1.11 Contractor must provide suitable drainage and erect such temporary structures as are necessary to protect the Work or materials from damage. Suspension of the Work from any cause whatever will not relieve Contractor of responsibility for the Work and materials as herein specified.

3.1.12 Contractor must properly store materials which have been partially paid for by Owner or which have been furnished by Owner. Such storage by Contractor is on behalf of Owner who shall at all times be entitled to the possession of such materials. Contractor must promptly return such materials to the Project Site when requested. Contractor must not dispose of any of the materials so stored except upon Owner’s written authorization.

3.2 REVIEW OF CONTRACT DOCUMENTS AND FIELD CONDITIONS BY THE CONTRACTOR

3.2.1 The Contractor must carefully study and compare the requirements of the Contract Documents with each other and must advise the Owner, in writing, of any errors, inconsistencies or omissions discovered. If the Contractor performs any Work knowing it involves a recognized error, inconsistency or omission in the requirements of the Contract Documents, without such notice to the Owner, the Contractor assumes responsibility for such performance and will bear the cost for correction.

3.2.2 The Contractor must take field measurements and verify field conditions and must compare such field measurements, conditions and other related information known to the Contractor with the requirements of the Contract Documents before beginning the Work.

3.2.3 In accordance with Public Contract Code §7104, Public Work involving digging trenches or other excavations that extend deeper than four (4) feet below the surface, the Contractor must promptly, and before such conditions are disturbed, notify the Owner in writing of:

.1 Material that the Contractor believes may be material that is hazardous waste, as defined in §25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with applicable laws.

.2 Subsurface or latent physical conditions at the site differing from those indicated.

.3 Unknown physical conditions at the site of any unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in Work of the character provided for in the Contract Documents.

3.2.4 In response to Contractor’s written notice as required by Public Contract Code §7104:

.1 Owner will promptly investigate the conditions, and if Owner finds that such conditions materially differ, or involve hazardous waste, and cause an increase or decrease in the Contractor’s cost of, or the time required for, performance of any part of the Work, a Change Order will be issued in accordance with Document 00700.6, “Changes in the Work.”

.2 In the event that a Dispute arises between the Owner and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor’s cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any completion date(s) provided for by the Contract Documents, but shall proceed with all Work to be performed under the Contract. The Contractor will retain any and all rights provided either by Contract or by law that pertain to the resolution of Disputes and protests between the contracting parties.

3.3 DOCUMENTS AND SAMPLES AT THE PROJECT SITE

3.3.1 The Contractor must maintain at the Project Site one (1) copy of the Record Documents including but not limited to Drawings, Project Manual, Addenda, Change Orders,
Requests for Information, Field Modifications, and Additional Detailed Instructions.

3.3.2 The Contractor must maintain the Record Documents in good and current condition and post all changes and clarifications to the Contract Documents on a daily basis as they occur.

3.3.3 The Contractor must mark the record Drawings to record actual field dimensions of installed Work.

3.3.4 The Contractor must maintain a record Project Manual in good order and indicate by marking in the appropriate section of the Project Manual, the selected product or material that was approved for incorporation in the Work.

3.3.5 At least one (1) copy of all Owner accepted Shop Drawings, Product Data, Samples and similar Submittals must be maintained at the Project Site in good and current condition and made available to Owner upon request.

3.3.6 The Contractor and each Subcontractor must prepare and maintain Daily Reports to document the progress of the Work. Daily Reports must be in a format prescribed or approved by the Owner’s Project Manager and completely filled out on a daily basis. One (1) copy of each daily report must be submitted to Owner’s Project Manager the following workday or as otherwise Directed by the Owner’s Project Manager. The corresponding activity numbers from the Official Progress Schedule must identify Work activities on the Daily Reports. It is the responsibility of the Contractor to gather all daily reports and submit to Owner’s Project Manager as one package.

3.3.7 The Contractor and each Subcontractor must prepare and maintain incident reports to document unusual occurrences including but not limited to breaches of on-site security, altercations, vehicle or construction equipment accidents, and complaints from neighbors, etc. Incident reports must be in a format prescribed or approved by the Owner’s Project Manager, completely filled out at or about the time of the occurrence of the incident. Three (3) copies of the incident report must be submitted to Owner’s Project Manager within 24 hours of the incident. Information related to follow-up investigation(s) of the incident must be submitted to the Owner’s Project Manager upon request.

3.3.8 The Contractor and each Subcontractor must prepare accident reports to document all reportable accidents at the Project Site. Accident reports must be in a format prescribed or approved by the Owner’s Project Manager, completely filled out at or about the time of the occurrence of the accident. Three (3) copies of the accident report must be submitted to Owner’s Project Manager within 24 hours of the accident. Information related to follow-up investigation(s) of the accident must be submitted to the Owner’s Project Manager upon request.

3.3.9 The Contractor must arrange for the review or selection of any heavy or large material (or color) samples to be made at vendor shops or facilities and, after being suitably tested and accepted, must arrange for samples of the selected material (or colors) to be maintained at the job-site in a secure location for use during construction to verify the acceptability of materials and/or work.

3.4 ACCESS TO WORK

3.4.1 The Contractor must provide Owner continuous access to the Work.

3.5 USE OF PROJECT SITE

3.5.1 Contractor must confine operations at the Project Site to areas permitted by law, ordinances, permits and the Contract Documents, and must not unreasonably encumber the Project Site with any materials, equipment, temporary structures, or temporary measures.
3.5.2 Contractor’s employees, or others subject to the Contractor’s control, are not permitted to reside on the Project Site in temporary living facilities.

3.6 WORKPLACE ENVIRONMENT

3.6.1 The use or possession of alcohol, weapons, or illegal controlled substances by the Contractor, or others subject to the Contractor’s control, on County property is prohibited.

3.6.2 The Contractor must ensure and maintain a workplace environment free of personal harassment and intimidation.

3.6.3 Conduct that creates an intimidating, hostile, or offensive workplace environment is prohibited. Such conduct includes, but is not limited to, the following:

.1 Verbal harassment, e.g., epithets, derogatory comments or slurs;

.2 Physical harassment, e.g., assault, impeding or blocking movement, gestures, or any physical interference with normal work or movement;

.3 Visual forms of harassment, e.g., derogatory posters, letters, poems, graffiti, cartoons, or drawings.

3.6.4 Unwelcome and unwanted sexual advances constitute sexual harassment that is prohibited. For example, requests for sexual favors and verbal or physical conduct of a sexual nature are prohibited.

3.6.5 Compliance With All Laws, Including Nondiscrimination, Equal Opportunity, and Wage Theft Prevention

.1 Compliance with All Laws. Contractor shall comply with all applicable Federal, State, and local laws, regulations, rules, and policies (collectively, “Laws”), including but not limited to the non-discrimination, equal opportunity, and wage and hour Laws referenced in the paragraphs below.

.2 Compliance with Non-Discrimination and Equal Opportunity Laws: Contractor shall comply with all applicable Laws concerning nondiscrimination and equal opportunity in employment and contracting, including but not limited to the following: Santa Clara County’s policies for contractors on nondiscrimination and equal opportunity; Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; the Age Discrimination in Employment Act of 1967; the Rehabilitation Act of 1973 (Sections 503 and 504); the Equal Pay Act of 1963; California Fair Employment and Housing Act (Gov. Code § 12900 et seq.); California Labor Code sections 1101, 1102, and 1197.5; and the Genetic Information Nondiscrimination Act of 2008. In addition to the foregoing, Contractor shall not discriminate against any subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political belief, organizational affiliation, or marital status in the recruitment, selection for training (including but not limited to apprenticeship), hiring, employment, assignment, promotion, layoff, rates of pay or other forms of compensation. Nor shall Contractor discriminate in the provision of services provided under this contract because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status.

.3 Compliance with Wage and Hour Laws: Contractor shall comply with all applicable wage and hour Laws, which may include but are not limited to, the Federal Fair Labor Standards Act, the California Labor Code, and, if applicable, any local minimum wage, prevailing wage, or living wage Laws.
.4 Definitions: For purposes of this Subsection, the following definitions shall apply. A “Final Judgment” shall mean a judgment, decision, determination, or order (a) which is issued by a court of law, an investigatory government agency authorized by law to enforce an applicable Law, an arbiter, or arbitration panel and (b) for which all appeals have been exhausted or the time period to appeal has expired. For pay equity Laws, relevant investigatory government agencies include the federal Equal Employment Opportunity Commission, the California Division of Labor Standards Enforcement, and the California Department of Fair Employment and Housing. Violation of a pay equity Law shall mean unlawful discrimination in compensation on the basis of an individual’s sex, gender, gender identity, gender expression, sexual orientation, race, color, ethnicity, or national origin under Title VII of the Civil Rights Act of 1964 as amended, the Equal Pay Act of 1963, California Fair Employment and Housing Act, or California Labor Code section 1197.5, as applicable. For wage and hour Laws, relevant investigatory government agencies include the federal Department of Labor, the California Division of Labor Standards Enforcement, and the City of San Jose’s Office of Equality Assurance.

.5 Prior Judgments, Decisions or Orders against Contractor: By signing this Agreement, Contractor affirms that it has disclosed any final judgments that (A) were issued in the five years prior to executing this Agreement by a court, an investigatory government agency, arbiter, or arbitration panel and (B) found that Contractor violated an applicable wage and hour law or pay equity law. Contractor further affirms that it has satisfied and complied with – or has reached Agreement with the County regarding the manner in which it will satisfy – any such final judgments.

.6 Violations of Wage and Hour Laws or Pay Equity Laws During Term of Contract: If at any time during the term of this Agreement, Contractor receives a Final Judgment rendered against it for violation of an applicable wage and hour Law or pay equity Law, then Contractor shall promptly satisfy and comply with any such Final Judgment. Contractor shall inform the Office of the County Executive-Office of Countywide Contracting Management (OCCM) of any relevant Final Judgment against it within 30 days of the Final Judgment becoming final or of learning of the Final Judgment, whichever is later. Contractor shall also provide any documentary evidence of compliance with the Final Judgment within 5 days of satisfying the Final Judgment. Any notice required by this paragraph shall be addressed to the Office of the County Executive-OCCM at 70 W. Hedding Street, East Wing, 11th Floor, San José, CA 95110. Notice provisions in this paragraph are separate from any other notice provisions in this Agreement and, accordingly, only notice provided to the Office of the County Executive-OCCM satisfies the notice requirements in this paragraph.

.7 Access to Records Concerning Compliance with Pay Equity Laws: In addition to and notwithstanding any other provision of this Agreement concerning access to Contractor’s records, Contractor shall permit the County and/or its authorized representatives to audit and review records related to compliance with applicable pay equity Laws. Upon the County’s request, Contractor shall provide the County with access to any and all facilities and records, including but not limited to financial and employee records, that are related to the purpose of this Subsection, except where prohibited by federal or state laws, regulations or rules. County’s access to such records and facilities shall be permitted at any time during Contractor’s normal business hours upon no less than 10 business days’ advance notice.

.8 Pay Equity Notification: Contractor shall (1) at least once in the first year of this Agreement and annually thereafter, provide each of its employees working in California and each person applying to Contractor for a job in California (collectively, “Employees and Job Applicants”) with an electronic or paper copy of all applicable pay equity Laws or (2) throughout the term of this Agreement, continuously post an
.9 Material Breach: Failure to comply with any part of this subsection shall constitute a material breach of this Agreement. In the event of such a breach, the County may, in its discretion, exercise any or all remedies available under this Agreement and at law. County may, among other things, take any or all of the following actions:

(a) Suspend or terminate any or all parts of this Agreement.

(b) Withhold payment to Contractor until full satisfaction of a Final Judgment concerning violation of an applicable wage and hour Law or pay equity Law.

(c) Offer Contractor an opportunity to cure the breach.

.10 Subcontractors: Contractor shall impose all of the requirements set forth in this Subsection on any subcontractors permitted to perform work under this Agreement. This includes ensuring that any subcontractor receiving a Final Judgment for violation of an applicable Law promptly satisfies and complies with such Final Judgment.

3.6.6 It is the responsibility of the Contractor to:

.1 Inform its employees and Subcontractors that behavior that creates an intimidating, hostile, or offensive workplace environment is prohibited;

.2 Create a workplace environment that is free from harassment; and,

.3 Take corrective action to stop prohibited behavior/conduct.

3.6.7 If in the opinion of the Owner’s Authorized Representative, any employee of the Contractor or Contractor’s Subcontractors violate the prohibitions of this Document 00700.3.6, "Workplace Environment", Contractor must immediately remove that person or Subcontractor from the Project upon Owner’s request, and such person or Subcontractor must not be permitted to perform further Work on the Project Site.

3.6.8 No Smoking. Contractor and its employees, agents and subcontractors, shall comply with the County’s No-Smoking Policy, as set forth in the Board of Supervisors Policy Manual section 3.47 (as amended from time to time), which prohibits smoking: (1) at the Santa Clara Valley Medical Center Campus and all County-owned and operated health facilities, (2) within 30 feet surrounding County-owned buildings and leased buildings where the County is the sole occupant, and (3) in all County vehicles.

3.6.9 Food and Beverage Standards.

Except in the event of an emergency or medical necessity, the following nutritional standards shall apply to any foods and/or beverages purchased by Contractor with County funds for County-sponsored meetings or events.

If food is to be provided, healthier food options shall be offered. "Healthier food options" include (1) fruits, vegetables, whole grains, and low fat and low calorie foods; (2) minimally processed foods without added sugar and with low sodium; (3) foods prepared using healthy cooking techniques; and (4) foods with less than 0.5 grams of trans fat per serving. Whenever possible, Contractor shall (1) offer seasonal and local produce; (2) serve fruit instead of sugary, high calorie desserts; (3) attempt to accommodate special, dietary and cultural needs; and (4) post nutritional information and/or a list of ingredients for items served. If meals are to be provided, a vegetarian option shall be provided, and the Contractor should consider providing a vegan option. If pre-packaged snack foods are provided, the items shall contain: (1) no more than 35% of calories from fat, unless the snack food items consist solely of nuts or seeds; (2) no more than 10% of calories from saturated fat; (3) zero trans fat; (4) no more than 35% of total weight from sugar and caloric sweeteners, except for fruits and vegetables with no added sweeteners or fats; and (5) no more than 360 mg of sodium per serving.
If beverages are to be provided, beverages that meet the County's nutritional criteria are (1) water with no caloric sweeteners; (2) unsweetened coffee or tea, provided that sugar and sugar substitutes may be provided as condiments; (3) unsweetened, unflavored, reduced fat (either nonfat or 1% low fat) dairy milk; (4) plant-derived milk (e.g., soy milk, rice milk, and almond milk) with no more than 130 calories per 8 ounce serving; (5) 100% fruit or vegetable juice (limited to a maximum of 8 ounces per container); and (6) other low-calorie beverages (including tea and/or diet soda) that do not exceed 40 calories per 8 ounce serving. Sugar-sweetened beverages shall not be provided.

3.7 SUPERVISION

3.7.1 Prior to Contractor mobilization to the Project Site, Contractor must submit to the Owner in writing a letter naming the Contractor’s Authorized Representative who will have the authority to represent and act for Contractor at the Project Site. Communications provided to the Contractor’s Authorized Representative will be as binding as if provided directly to the Contractor.

3.7.2 When Contractor is comprised of two (2) or more persons, firms, partnerships, or corporations functioning as a joint venture, Contractor must submit a letter to the Owner, before starting Work, stating the name of one (1) authorized representative who has the authority to represent and act for Contractor.

3.7.3 Contractor’s Authorized Representative must be present at the Work site at all times while any Work is in progress. When Work is not in progress and during periods when Work is suspended, the Contractor’s Authorized Representative must nevertheless keep the Owner’s Project Manager advised of their whereabouts and the whereabouts of the Contractor’s site superintendents so that they may readily be reached and available for consultation at the Project Site at any time.

3.7.4 Prior to Contractor mobilization to the Project Site, Contractor must submit to the Owner the telephone and/or pager numbers at which the Contractor’s Authorized Representative can be reached at all times. In the event it is necessary for the Contractor’s Authorized Representative to be absent from the Project Site, the Contractor’s Authorized Representative will, except in the case of personal emergency, give written notice to the Owner’s Project Manager designating an acting representative. The absence must not exceed 48 hours without prior written approval of the Owner’s Project Manager.

3.7.5 The Contractor must supervise and direct the Work. The Contractor is responsible for, and has control of, construction means, methods, techniques, sequences, procedures, safety precautions and programs in connection with the Work, and for coordinating the Work unless otherwise noted or specified in the Contract Documents.

3.7.6 The Contractor is responsible for acts and omissions of the Contractor’s employees, Subcontractors, Sub-Subcontractors or Suppliers and their agents and employees, and other persons performing portions of the Work pursuant to a direct or indirect contract with the Contractor or at its direction.

3.7.7 If any person or Subcontractor working at the direction or subject to the control of the Contractor refuses or fails to carry out a properly given Order by the Owner’s Authorized Representative or is, in the Owner Representative’s opinion, incompetent, disorderly, or acting in an improper manner, Contractor must immediately remove that person or Subcontractor from the Project upon Owner’s written request, and such person or Subcontractor must not be permitted to perform further Work on the Project.

3.8 DISRUPTION OF OWNER’S NORMAL OPERATIONS

3.8.1 Contractor must give timely advance notice to Owner of Work that is likely to be disruptive to Owner's normal operations at or near the Project Site. If Contractor does not so advise
Owner, Owner has the right to temporarily suspend Contractor's Work or to require Contractor to modify its Work operations to eliminate any disruption, and Contractor is not entitled to any adjustment in the Job Order Price or Job Order Completion Time for any delay or additional costs associated therewith.

3.9 LABOR

3.9.1 Hours of Labor

.1 Eight hours labor constitutes a legal day's work. Contractor shall forfeit as a penalty to Owner, $25.00 for each worker employed in the execution of the Contract by Contractor or any Subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day or forty (40) hours in any one calendar week in violation of the provisions of the California Labor Code, and in particular, §1810 through §1815 thereof, except that work performed by employees of Contractor or any Subcontractor in excess of eight (8) hours per day, or forty (40) hours during any one week, shall be permitted upon compensation for all hours worked in excess of eight (8) hours per day, or forty (40) hours per week, at not less than one and one-half (1-1/2) times the basic rate of pay, as provided in §1815.

3.9.2 Prevailing Wage

.1 The services to be performed pursuant to this Agreement are “public works” subject to California Labor Code Section 1771, et. seq. and the applicable implementing regulations. The General Prevailing Wage Rates issued by the California Department of Industrial Relations may be adjusted by the State during the term of this Agreement. Notwithstanding any other provisions of this Agreement, Contractor will not be entitled to any adjustment in compensation rates in the event there are adjustments to the General Prevailing Wage Rates.

.2 No Contractor or Subcontractor may perform work on the Project without being registered with the Department of Industrial Relations (DIR). Contractor shall maintain its registration with the DIR throughout the course of the Work. Contractor is responsible for verifying that each Subcontractor, including any Subcontractor not listed on its bid proposal, is registered with the DIR at the time the Subcontractor performs work on the Project. If any Subcontractor is not registered at the time the Subcontractor is to commence work, Contractor shall require the Subcontractor to register and may not permit the Subcontractor to commence work until the Subcontractor’s registration is complete.

.3 Contractor shall comply with California Labor Code §1775, whereby Contractor shall be assessed a penalty for each calendar day or portion thereof, for each worker paid less than the stipulated prevailing rates for such work or craft in which such worker is employed for any Work done pursuant to the Contract by Contractor or any Subcontractor in violation of the California Labor Code and in particular §1770 through §1780. In addition to said penalty and pursuant to §1775, Contractor shall pay each worker the difference between such stipulated prevailing wages and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage rate.

.4 Contractor and each Subcontractor must, pursuant to California Labor Code §1776, submit a certified weekly payroll within ten (10) Days after the Owner’s request for submission of certified weekly payroll records. The certified payroll must include the date of actual payment of wages for each worker employed on the Project and a breakdown of each payment including all fringe benefits included in such wage for each worker. The responsibility for compliance with California Labor Code §1776 is the responsibility of the prime Contractor.
.5 Contractor must submit two (2) copies of said payroll to Owner on the California Department of Industrial Relations standard Form A-1-131 “Public Works Payroll Reporting Form.” Other forms may be used provided they exactly duplicate the format, dimensions and wording of Form A-1-131.

.6 Pursuant to the provisions of California Labor Code §1770 and following, the California Department of Industrial Relations has ascertained the general prevailing rate of wages (which rate includes employer payments for health and welfare, vacation, pension, and similar purposes) applicable to the Work, for straight time, overtime, Saturday, Sunday, and Holiday work. The Holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of each craft, classification, or type of workers concerned. Said prevailing wage rates are on file in the Office of the Clerk of the Board of Supervisors, incorporated herein by reference, and copies of which are available to any interested party on request. The rates are also available on the State of California’s Department of Industrial Relations home page website at http://www.dir.ca.gov.

.7 If Contractor uses a craft or classification not shown on the prevailing wage determinations, Contractor may be required to pay the wage rate of that craft or classification most closely related to it, shown in the general determinations in effect when the Bids were received. Pursuant to California Labor Code §1773.2, Contractor shall prominently post a copy of such prevailing wages at each job site.

.8 Pursuant to Public Contract Code §6109, the Contractor shall not perform Work on this public works project with any Subcontractor who is ineligible to perform Work on a public works project pursuant to §1777.1 or §1777.7 of the Labor Code. Any contract on a public works project entered into between the Contractor and a debarred Subcontractor is void as a matter of law. A debarred Subcontractor may not receive any public money for performing Work as a Subcontractor on a public works contract, and any public money that may have been paid to a debarred Subcontractor by the Contractor on this Project shall be returned to the Owner. The Contractor shall be responsible for the payment of wages to workers of a debarred Subcontractor who has been allowed to work on the Project.

.9 Pursuant to Labor Code §1771.5.b.6, the Owner will withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment of prevailing wage has occurred.

3.9.3 Certified Payrolls

.1 Contractor must submit two (2) copies of certified weekly payrolls for the periods covered by each Progress Payment. Certified Payroll records must be submitted within ten (10) calendar days from the Progress Payment period end date.

.2 Pursuant to California Labor Code §1776, in the event that the contractor fails to comply within the 10-day submission period, the contractor must forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated.

.3 Pursuant to California Labor Code §1776, compliance with the requirements of California Labor Code §1776 is the responsibility of the prime Contractor.

3.9.4 Apprentices

.1 Contractor’s attention is directed to the provisions of §1777.5 and §1777.6 of the California Labor Code regarding the employment of apprentices by Contractor and any Subcontractors, and §1777.7 regarding penalties for noncompliance. Contractor and all Subcontractors shall comply with the requirements of said Sections in the employment of apprentices. Pursuant to §1777.5, the responsibility for compliance with the requirements of §1777.5 is the responsibility of the prime Contractor.
.2 It is Owner's policy to encourage the employment and training of apprentices on public works contracts in accordance with local apprenticeship standards.

3.9.5 Workers Travel & Subsistence Payments

.1 Contractor’s attention is directed to the provisions of California Labor Code §1773.8 that requires Contractor to make travel and subsistence payments in accordance with collective bargaining agreements applicable to each worker needed to execute the Work.

3.10 SATURDAY, SUNDAY, HOLIDAY, AND OVERTIME WORK

3.10.1 Unless otherwise specified in the Job Order no construction Work shall be done on Saturdays, Sundays or holidays recognized by the County government and no Work shall be performed outside of Normal Hours Of Work without the prior consent of the Owner's Project Manager, unless required in the Contract Documents. Normal Working Hours are standard shift work between the hours of 7:00 A.M. – 5:00 P.M., Monday through Friday, excluding County holidays.

3.10.2 Whenever the Contractor intends to perform overtime work or work on Saturday, Sunday, or a legal holiday recognized by the County, the Contractor must request permission by giving written notice to the Owner's Project Manager at least 2 workdays prior to performing the Work.

3.10.3 Unless specifically provided or required by the Contract Documents, Contractor shall receive no additional compensation for any overtime work (i.e., work in excess of: Eight (8) hours in any one Day; forty (40) hours in any one calendar week; or evening, night, legal holidays observed by Owner, or weekend work).

3.10.4 Prior to the start of such Work, when necessary, the Contractor must arrange with the Owner for the continuous or periodic inspection of the Work and tests of materials.

3.10.5 Should the Contractor find it necessary in order to complete the Work according to the Official Progress Schedule to perform certain of Contractor’s operations on Saturdays, Sundays, holidays or during other overtime hours, these operations will be performed as part of the Work included in the Job Order Price and do not constitute a basis for additional compensation. At the Owner's option the Contractor may be required to compensate the Owner for inspection, testing, security, or management costs during Work performed outside of Normal Hours Of Work. Owner has the right and authority to deduct the cost of all such inspections, testing, security, or management costs from any payments due or that become due Contractor.

3.10.6 The Owner has the right to Order Contractor to perform Work outside Normal Hours Of Work. Owner will issue such Order in writing. If the Owner Orders the Contractor to perform Work outside Normal Hours Of Work, the Contractor must make all arrangements to supply an adequate Work force for the task to be accomplished and will be compensated for the premium portion of the wages paid, plus labor burdens applicable to the premium portion only of the wages paid. Contractor must submit copies of Contractor’s payrolls indicating the premium wages actually paid, and the Owner will issue a Change Order to reimburse the Contractor for Contractor’s actual costs only. The Owner will pay all extra expense of Owner's inspection.

3.11 NORMAL HOURS OF WORK

3.11.1 Normal Hours Of Work for Contractor’s operations, which are located within city limits, must comply with city ordinances or requirements of the city. Contractor's operations in the County's unincorporated areas or areas which border a city, town or other county must comply with requirements of Santa Clara County or requirements adopted by other jurisdictions, whichever are more stringent. In case of conflict between the requirements
of a city, the County, and the requirements of the Contract Documents, the most restrictive requirements will govern.

3.12 ORDER OF WORK

3.12.1 Contractor must follow any sequence of operations required by the Contract Documents.

3.12.2 Full compensation for conforming to such requirements will be considered as included in the prices paid for the various Contract items of Work and no additional compensation will be allowed therefore.

3.13 CLEANUP

3.13.1 Contractor must continuously keep the Project Site and surrounding areas free from waste materials and/or rubbish caused by its operations or rubbish from any source that accumulates within the Project Site and any other area designated by the Owner’s Project Manager for use by the Contractor.

3.13.2 When cleanup is paid for as a separate Bid item, full compensation for such work must be included in the Bid price for cleanup.

3.13.3 When the Bid price is a lump sum, or there is no unit price item for cleanup, full compensation for cleanup will be considered to have been included in the various items of Work.

3.13.4 Contractor must, before certifying that the entire Work of the Project is complete and/or requesting Completion inspection, clean material storage sites and all ground occupied or affected in connection with the Work or designated portion of the Work, and must leave all parts of the Project in a neat and presentable condition satisfactory to Owner’s Project Manager.

3.13.5 Upon completion of the Work or any designated part thereof, Contractor must promptly remove all its waste materials, rubbish and debris, and all its tools, construction equipment, machinery and surplus materials from the Project area or the completed part.

3.13.6 If the Contractor fails to clean up as required by the Contract Documents, Owner may do so and the cost thereof will be charged to the Contractor and deducted from progress payments due or to become due to the Contractor.

3.14 DISPOSAL OF MATERIAL OUTSIDE PROJECT AREA

3.14.1 Contractor is responsible for making all arrangements and paying all costs for disposal of materials outside the Project area.

3.14.2 When any material is to be disposed of outside the Project area, at other than a public disposal site, Contractor must first obtain written permission from the property owner of the proposed disposal site. Before any material is disposed of on said site, Contractor must obtain written permission from the Owner to dispose of the material at the location designated in said permit.

3.14.3 Disposal of Hazardous Materials must comply with all legal requirements, including but not limited to containerization, labeling, manifesting, transportation, disposal site, and use of properly trained personnel. No later than 15 Days after Contractor’s request for Final Inspection, Contractor must submit copies of all Hazardous Waste Manifests signed by Toxic Substances Disposal Facilities (“TSDF’s”) and certificates of disposal, to prove that Contractor has legally disposed of such materials. Submit three (3) copies of each manifest.

3.15 HAZARDOUS MATERIALS

3.15.1 Contractor must comply with all Federal, State, County and local laws, statutes, ordinances and other regulations covering the use, storage, transportation and disposal of
any Hazardous Materials on the Project. Contractor must obtain all permits and pay all fees and taxes for all services and materials required to perform the Project.

3.15.2 The term “Hazardous Materials” as used herein means any material that, because of its quantity, concentration, or physical or chemical characteristics, poses a significant present or potential hazard to human health and safety or to the environment if released into the workplace of the environment.

3.15.3 Prior to starting Work, Contractor must submit to Owner three (3) copies of a list of all Hazardous Materials expected to be used on the Project. Contractor must keep a copy of the list at the Project Site. This list must include but not be limited to any cleaners, solvents, paints or explosive charges used in the Work. Contractor must submit one (1) copy of OSHA Form 20 – Material Safety Data Sheet (“MSDS”) for each material listed and must advise every person at or near the Project Site of these materials, of proper handling, and of proper action in case of accident or exposure.

3.15.4 Contractor must safely contain and store all its Hazardous Materials, and in the event of spill or discharge, must immediately notify all required Federal, State, County and local agencies including the fire department. Contractor must protect personnel from exposure and provide treatment as necessary.

3.15.5 Contractor must immediately advise Owner of any potentially Hazardous Materials encountered at the Project Site and must take all necessary action to prevent exposure of personnel until the material is identified and proper action can be taken.

3.15.6 Contractor must not store or use any Hazardous Materials near air intakes or doors and windows serving persons on or off the Project Site without proper protection and safeguards to prevent exposure.

3.15.7 Contractor must exercise all required precautions and safeguards in the storage, use and disposal of Hazardous Materials. Nothing in this Document 00700.3.15, “Hazardous Materials”, relieves Contractor of responsibility for compliance with all applicable laws and statutes, or other provisions of the Contract, particularly Contractor’s responsibility for damage and preservation of life and property.

3.16 SAFE USE OF PESTICIDES

3.16.1 Contractor must comply with all Federal, State and County rules and regulations governing pesticides that are required or used in performing Work. Contractor must comply with the County’s Integrated Pest Management Ordinance.

3.16.2 The term pesticide includes, but is not limited to: herbicides, insecticides, fungicides, rodenticides, germicides, nematocides, bactericides, inhibitors, fumigants, defoliants, desiccants, soil sterilants, repellents, and any substance or mixture of substances intended for preventing, repelling, mitigating, or destroying weeds, insects, diseases, rodents, or nematodes, and any substance or mixture of substances intended to use as a plant regulator, defoliant, or desiccant.

3.16.3 Contractor must comply with Division B28 of the Santa Clara County Ordinance Code relating to integrated pest management and pesticide use. Division B28 includes, but is not limited to specific requirements for:
   .1 restricted or prohibited use of certain pesticides
   .2 record keeping
   .3 reporting
   .4 public notice and posting requirements

3.17 TRENCHING AND EXCAVATION

00700-33
3.17.1 Contractor understands and will comply with the applicable provisions of the California
Occupational Safety and Health Act of 1973 and the California Labor Code sections 6705
and 6707. If trenching or excavation work is required in a Job Order, Contractor must

3.17.2 Before any excavation, Contractor must, pursuant to California Government Code §4216
and Cal/OSHA 8CCR1540, outline the excavation in white paint (preferably chalk or water
base), provide two workdays notice to Underground Service Alert (1-800-227-2600),
obtain a locator number, and follow all necessary procedures to avoid underground facility
damage.

3.17.3 Before any excavation five feet or more in depth:
.1 Contractors must, pursuant to California Labor Code §6705, submit to Owner specific
plans showing details of provisions for worker protection from caving ground. This in
no way relieves Contractor from the requirement of maintaining safety in all operations
performed by Contractor or Subcontractors. Submit eight (8) copies of the plans.
.2 The detailed plans showing design of all shoring, bracing, sloping or other provisions
shall be prepared at Contractor’s sole expense by a California registered Civil or
Structural Engineer. Owner’s acceptance only constitutes acknowledgment of the
submission and does not constitute review or approval of the designs, design
assumptions, criteria, accuracy, completeness, suitability for use, implementation, or
any other quality of the plans, which are solely the responsibility of Contractor and
Contractor’s Engineer.

3.18 AIR POLLUTION CONTROL

3.18.1 Contractor and each Subcontractor must comply with all air pollution control rules,
regulations, ordinances, statutes, and Project specific permit requirements of the Bay
Area Air Pollution Control District and all other regulatory agencies that apply to any Work
performed. If there is a conflict between the Bay Area Air Pollution Control District rules,
regulations, ordinances, and statutes and the rules, regulations, ordinances, and statutes
of other regulatory agencies, the most stringent shall govern.

3.18.2 Contractor must not discharge smoke, dust or any other air contaminants into the
atmosphere in such quantity as will violate any regulations.

3.18.3 Contractor must minimize dust nuisances resulting from performance of the Work, both
inside and outside the Project limits, by applying either water or dust palliative, or both.

3.19 WATER POLLUTION CONTROL

3.19.1 Contractor must comply with all Federal, State and local water pollution prevention and
storm drain pollution prevention rules, regulations, ordinances, statutes, guidelines, and
Project specific permit requirements.

3.19.2 If required by law, ordinance, regulation, code, permit or the requirements of the Contract
Documents, Contractor must prepare a Project Specific Storm Water Pollution Prevention
Program (SWPPP).

3.19.3 Contractor must exercise every reasonable precaution to protect storm drains, channels
and all bodies of water from pollution, and must conduct and schedule operations so as to
avoid or minimize muddying and silting of any waters. Contractor must construct whatever
facilities are necessary or requested by Owner to provide prevention, control and
abatement of water pollution.

3.19.4 No provision of the Contract Documents relieves Contractor of responsibility for
compliance with California Fish and Game Code §5650 et seq, and §12015 et seq, and
applicable regulations of the Regional Water Quality Control Board, Santa Clara County
flood control and water district requirements, or other applicable statutes relating to prevention and removal of water pollution.

3.19.5 Compliance with water pollution requirements does not relieve Contractor from responsibility to comply with all provisions of the Contract Documents, particularly Contractor’s responsibilities for damage and preservation of property.

3.20 SOUND CONTROL

3.20.1 The Contractor must comply with all CAL OSHA requirements.

3.20.2 The Contractor must comply with all local sound control and noise level rules, regulations, and ordinances that apply to any Work performed pursuant to the requirements of the Contract Documents.

3.20.3 Each internal combustion engine, used for any purpose on the Project or related to the Project, must be equipped with a muffler of a type recommended by the Manufacturer. No internal combustion engine shall be operated on the Project without said muffler.

3.20.4 Noise level from and hours of Contractor’s operations, that are located within city limits, must comply with city ordinances or requirements. Contractor’s operations in the County’s unincorporated areas or areas which border a city, town or other county must comply with the noise level requirements per the Santa Clara County Ordinance Code or requirements adopted by other jurisdictions, whichever are more stringent. Contractor’s attention is directed to the current Santa Clara County Ordinance Code, section B11-194 2.6 “Construction/Demolition” for the maximum acceptable noise levels.

3.20.5 Noise level requirements apply to all equipment used in the Project including, but not limited to, trucks, transit mixers, or equipment that may or may not be owned by the Contractor. The use of loud sound signals must be avoided in favor of warning lights except those required by safety laws for the protection of personnel.

3.21 WORKER’S SANITARY PROVISIONS & USE OF OWNER’S FACILITIES

3.21.1 Contractor must conform to the rules and regulations for sanitary provisions established by the State, the County of Santa Clara, and any other applicable jurisdictions.

3.21.2 Contractor must Provide and maintain toilets for use by its employees. These accommodations must be maintained in a neat and sanitary condition, and must comply with all applicable laws, ordinances and regulations pertaining to public health and sanitation.

3.21.3 Contractor’s personnel must not use Owner’s facilities without express written permission, which will be at Owner’s sole discretion. Such Owner’s facilities include but are not limited to toilet facilities, food service facilities (cafeteria and coffee shop), utilities services of any kind, carts, fire extinguishers, parking, storage space and any other facilities and services.

3.22 CUTTING AND PATCHING

3.22.1 Contractor is responsible for all cutting, fitting, or patching required to complete the Work or to make its parts fit together properly.

3.22.2 Contractor must not damage or endanger any portion of the Work, or the work of Owner or any separate contractors, by cutting, patching or otherwise altering any work.

3.22.3 Contractor must not cut or otherwise alter the work of Owner or any separate contractor except with the written consent of Owner and such separate contractor. Contractor must not unreasonably withhold from Owner or any separate contractor its consent to cutting or otherwise altering the Work.

3.22.4 Cutting and Patching by Others: The Contractor is responsible for any and all cutting, fitting and patching required to complete Contractor’s Work or join its Work with the work of others, except as otherwise specifically provided for in the Contract Documents.
3.23 TESTS AND INSPECTIONS

3.23.1 The Contractor must at all times permit Owner, its agents, officers, employees, Consultants and representatives to visit the Project Site and inspect the Work, including shops where Work is in preparation. This obligation includes maintaining proper facilities and safe access for such inspection. When the Contract Documents require a portion of the Work be tested, such portion of Work must not be covered up until inspected and accepted by Owner. The Contractor is solely responsible for notifying Owner where and when the Work will be ready for inspection and testing. Should any Work be covered without the required testing and acceptance, such Work must be uncovered and recovered at the Contractor’s expense.

3.23.2 If Owner determines that portions of the Work require additional testing, inspection or acceptance not included in the requirements of the Contract Documents, the Owner will instruct the Contractor, in writing, to make arrangements for additional testing, inspection or acceptance by an entity acceptable to the Owner, and the Contractor must give 48 hours written notice to Owner of where and when tests and inspections will be conducted so that Owner may observe the procedures. Owner will bear the costs except as provided in Document 00700 - Sub-Part 3.23.3.

3.23.3 If procedures for additional testing, inspection or acceptance required by Document 00700 - Sub-Part 3.23.2 reveal failure of a portion(s) of the Work to comply with the requirements of the Contract Documents, the Contractor will bear all costs made necessary by such failure(s) including those of repeated procedures and compensation for Owner’s services and expenses.

3.23.4 Certificates of testing, inspection, acceptance, or approval will, unless otherwise required by the Contract Documents, be secured by the Contractor and submitted to the Owner within two (2) Days after completion of each test, inspection, acceptance or approval.

3.23.5 The Contractor will not be relieved of its obligations to perform the Work in accordance with the requirements of the Contract Documents by tests, inspections, acceptance or approvals required or performed by persons other than the Contractor.

3.23.6 The Contractor is responsible for inspections of portions of its Work and the work of others already completed to determine that such portions are in proper condition to receive subsequent Work.

.1 If the Contractor determines that Work performed on the Project does not comply with the requirements of the Contract Documents, Contractor must repair or replace such defective Work at the Contractor’s sole expense.

.2 If Contractor determines that completed work of others is not in proper condition to receive its Work, Contractor must immediately notify the Owner in writing and must not proceed with the affected portion of its Work without Direction from the Owner.

3.24 OFFICIAL PROGRESS SCHEDULE

3.24.1 The Contractor and Owner have reviewed the Progress Schedule with the requirements of the Contract Documents. The Owner’s review and acceptance of the Contractor’s Progress Schedule was for compliance with the requirements of the Contract Documents only. Review and acceptance by the Owner of the Contractor’s Progress Schedule(s) does not mean approval of the sequence or duration of the tasks shown, and does not relieve the Contractor of any of the Contractor’s responsibility for the accuracy or feasibility of the Official Progress Schedule, or of the Contractor’s obligation to meet the date of final Project Completion. The Owner’s review and acceptance of the Contractor’s Progress Schedule does not expressly or impliedly warrant, acknowledge or admit the reasonableness of the logic, durations, cost, manpower or equipment loading indicated in the Official Progress Schedule.
3.25 CERTIFICATION BY CONTRACTOR OF RECYCLED CONTENT

3.25.1 The Contractor must certify in writing, under penalty of perjury, to Owner, the minimum, if not exact, percentage of recycled content, both post consumer material and secondary material, as defined in Public Contract Code §12169, and §12213, in materials, goods, or supplies offered or products used in the performance of the Contract, regardless of whether the product meets the required recycled percentage as defined in Public Contract Code §12161 and §12200. The Contractor may certify that the product contains zero recycled content.

3.25.2 The California Integrated Waste Management Board (CIWMB) requires all Cities and Counties to develop a Source Reduction and Recycling Program (SRRP) for all development projects such that solid waste intake to landfills is reduced. This project is included in the CIWMB/SRRP requirements; therefore, the Contractor is required to ensure that debris generated from demolition or construction activities is recycled or salvaged in accordance with all state and local CIWMB requirements.

3.26 SUBMITTALS

3.26.1 General

.1 Shop Drawings, Product Data, Samples and similar Submittals are not Contract Documents. Their purpose is to demonstrate those portions of the Work for which Submittals are required and the way the Contractor proposes to conform to the information provided and the design concept expressed in the Contract Documents.

.2 All Submittals are instruments of Contractor. By submitting Shop Drawings, Product Data, Samples and similar Submittals, Contractor represents that the Contractor has determined and verified materials, construction methods, field measurements and related field construction criteria, coordinated the Work of the Subcontractors, and has checked and coordinated the information contained within the Submittal with the requirements of the Contract Documents and other Submittals.

.3 Owner’s review of Submittals is for general compliance with the requirements of the Contract Documents. Contractor is solely responsible for all quantities, dimensions, weights, gauges, materials, Fabrication processes, construction methods, coordination with the Work of other trades, and construction safety precautions. Owner’s review does not relieve the Contractor of responsibility for errors and omissions in the Submittals or from responsibility for proper fitting and construction of the Work, nor from furnishing materials and Work required by Contract Documents that may not be indicated or shown on the Submittal(s).

.4 Owner’s review of Contractor’s Submittal(s) does not relieve Contractor of any responsibilities for the successful completion of the Work in conformity with the requirements of the Contract Documents. The Owner may reject any defective Work notwithstanding any review or previous acceptance of a Submittal associated with the Work.

.5 The Contractor is not relieved of the responsibility for any deviation from the requirements of the Contract Documents by Owner’s review of Submittals unless the Contractor has specifically informed Owner, in writing, of such deviation at the time of Submittal, and Owner has provided specific written consent to each specific deviation. Making notations on the Submittal of proposed deviation is not sufficient to satisfy this requirement. Each proposed deviation must be clearly noted on the Submittal and separately itemized and explained in writing in the transmittal accompanying the Submittal. For each Submittal, the Contractor must indicate that the Submittal contains “No Deviations” or itemize the proposed deviations on the transmittal accompanying the Submittal. This written list of deviations is in addition to any...
indications or marks on the Shop Drawings, Product Data, Coordination Drawings, Samples, or other Submittals indicating the proposed deviations.

.6 No Work requiring Submittals shall be performed until Owner has accepted the pertinent Submittals. Where a Submittal is required, any related Work performed before the Owner’s review and acceptance of the Submittal will be at Contractor’s sole risk, expense and responsibility.

.7 All required Preconstruction Submittals must be submitted within the time stated in the Job Order or if no time is stated, within five (5) business days of the start date for the Work as stated in the Notice to Proceed. General acceptance of submittals by the Owner does not constitute specific Approval by the Owner’s Project Manager for deviation from date for Preconstruction Submittals. Contractor must make a specific request in writing for each proposed deviation and the Owner’s Project Manager must grant specific written Approval for each proposed deviation to the cut-off date.

.8 When certification of materials, systems or equipment is required by the Contract Documents, Design Professional and Owner are entitled to rely upon the accuracy and completeness of such certifications and the calculations and other professional analysis supporting the certifications.

.9 When descriptive catalog designations, including Manufacturer’s name, product brand name, or model number(s) are referred to in the Contract Documents, such designations shall be considered as being those found in industry publications of current issue at date of first Notice to Bidders.

.10 Contractor must allow sufficient time for reviews, revisions and resubmittals to avoid delays in the Work. No extension of the Job Order Completion Time will be authorized because of failure to transmit Complete Submittals enough in advance of the Work to permit processing within the timeframes allowed by Contract. Contractor is responsible for all costs of delays caused by Submittals that are tardy or are not Complete Submittals.

.11 Submittals not required by the Contract Documents will not be reviewed and will “Returned Without Action” or may be discarded.

.12 If a returned Submittal is required to be resubmitted more than once due to Contractor’s failure to comply the Submittal requirements, Contractor may be charged all costs associated with re-review of the Submittal. The charges may be deducted from progress payments due or to become due to the Contractor.

.13 Do not highlight pertinent Submittal information with markings that turn opaque when copied. Improperly highlighted Submittals may be returned to Contractor “Returned Without Action.”

3.26.2 Contractor’s Responsibilities

.1 Contractor must, at its own expense, provide for Owner’s review all Submittals required by the Contract Documents.

.2 If a Submittal deadline submission date is not stated in the Contract Documents for a specific Submittal or group of Submittals, make the Submittal or group of Submittals far enough in advance to avoid any Critical Path delay to the Official Progress Schedule.

.3 Before submission, Contractor must:

   .a Determine and verify all field dimensions and conditions

   .b Verify and correlate all dimensions in the Contract Documents with field dimensions and conditions
.c Verify materials, catalog numbers and similar data.

.d Coordinate Contractor’s Work with that of Subcontractors

.e Coordinate the Work of the Subcontractors Work with that of each other.

.f Review and coordinate all Subcontractors’ Submittals with the requirements of the Contract Documents

.g Review and coordinate all Submittals with Submittals previously accepted by the Owner

.h Coordinate as required with all public agencies involved.

.i Secure necessary approvals from public agencies and others and signify by stamp or other means that they have been secured.

.j Verify the feasibility of the construction methods

.k Coordinated the Submittal with Construction safety precautions

.l Review and coordinate all Contractor’s Submittals with the requirements of the Contract Documents

.4 Submittals must be provided to the Owner as Complete Submittal(s) for each Definable Feature of Work and must not be Submitted piecemeal. Owner has the right to withhold action on partial Submittals until the missing Submittal items are received, or return the partial Submittal to the Contractor “Returned Without Action.” At Owner’s sole discretion, the Owner may agree to review a Contractor’s partial Submittal. If the Owner agrees to review a Contractor’s partial Submittal, and the submittal is marked “No Exceptions Taken,” or “Make Corrections Noted” the Owner’s acceptance of the partial Submittal subject to its compatibility with future Submissions and additional partial Submissions for portions of the Work not covered in the reviewed partial Submission and does not constitute acceptance of the deletion of specified or required items not shown in the partial Submission.

.5 Coordinate submission of Submittals for related parts of the Work so the Submittals may be reviewed concurrently. Owner has the right to withhold action on a Submittal requiring coordination with other Submittals until related Submittals are received.

.6 Prior to Submission to the Owner, Contractor must certify all Submittals for compliance with the requirements of the Contract Documents. The Owner and Owner’s Consultants are entitled to rely upon the Contractor’s certification and the accuracy and completeness of the Contractor’s efforts supporting such certification.

.7 Contractor must resubmit Submittals as required until Owner’s acceptance is obtained.

.8 Contractor must make any required corrections and resubmit corrected Submittals until achieving acceptance.

.9 Unless otherwise specifically stated in the Contract Documents, Contractor must resubmit Submittals requiring resubmission within twenty-one (21) Days of return of Submittal by Owner.

.10 On resubmittals, clearly indicate all revisions, changes, and deviations from the original Submittal. This includes directing specific attention, in writing, to revisions other than those requested by the Owner on previous Submittals.

.11 Contractor must include answers to any questions or clarifications required by Subcontractors and/or Suppliers.

3.26.3 Submittal Copies
Generally, the number of required copies of Submittals is established or summarized in the Job Order’s Request for Proposal and Final Scope of Work.

3.26.4 Minimum Submittal Review Times

.1 Time for review shall commence on Owner’s receipt of a Complete Submittal.
.2 Time for review shall end on Owner’s return of Submittal.
.3 Unless otherwise specifically provided for in the Job Order Schedule, allow at least fourteen (14) Days for Owner’s review and return following Owner receipt of a Complete Submittal.
.4 Allow additional time if processing must be delayed to permit coordination with subsequent Submittals. Owner will advise Contractor when a Submittal being processed must be delayed for coordination.
.5 Allow at least fourteen (14) Days for Owner’s review and response to resubmittals.

3.26.5 Action & Distribution

.1 When “No Exceptions Taken” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents.
.2 When “Make Corrections Noted” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents and the corrections noted. The above two categories are considered as accepted Submittals. When other notations are indicated, Contractor is advised that no Work shall be Fabricated, Manufactured, or constructed, and Contractor must make a revised submission.
.3 Contractor must promptly distribute copies of the accepted Submittals to its Subcontractors, Suppliers, vendors, Fabricators and/or Manufacturers as applicable.
.4 Submittals received from sources other than through Contractor’s office will be “Returned Without Action” or may be discarded.
.5 Submittals that are not required by the Contract Documents may be returned to the Contractor “Returned Without Action” or may be discarded.
.6 Informational Submittals, on which Owner is not required to take action, will not be returned to the Contractor.

3.26.6 Use for Construction

.1 Use only final Submittals with mark(s) indicating acceptance by Owner or Designer of Record.
.2 No portion of Work requiring Submittals shall be commenced until Owner or Designer of Record, on the Owner’s behalf, has accepted the Submittal.
.3 Contractor must Fabricate, construct and furnish all Work in accordance with the accepted Submittals.
.4 Contractor must immediately upon receipt from Owner, distribute Owner accepted Submittals to all parties concerned.
.5 Contractor must keep at least one (1) copy of each accepted Submittal at the job site.

3.27 SHOP DRAWINGS

3.27.1 Contractor must furnish Shop Drawings for temporary work and methods of construction such as formwork, falsework, and for other temporary work and methods of construction Contractor proposes to use.
3.27.2 Contractor must Furnish scaled drawings showing how the Work of all trades (HVAC, plumbing, fire protection, electrical, etc.) will coordinate to form a complete Installation, and where Work affects existing buildings or parts thereof, and/or existing utilities.

3.27.3 Present Shop Drawings in a clear and thorough manner. Identify details by reference to sheet and detail, schedule, and room numbers shown on Drawings.

3.28 RESERVED

3.29 SAMPLES

3.29.1 Contractor must submit without charge such Samples as may be required by the Contract Documents.

3.29.2 Unless a greater quantity is required else ware in the Contract Documents, three (3) of each required Sample must be Submitted.

3.29.3 Tags or labels shall be securely affixed to samples and contain as a minimum, the following information: Project Name, Contractor's Name, Contract Title and Number, Date, Transmittal Number, Product Manufacturer's or Fabricator's Name, trade name, lot style, color, model, etc., locations of use, and Contract Document reference.

3.29.4 Owner will retain one of each Sample.

3.29.5 Contractor must not use any materials or equipment for which Samples are required to be submitted until Owner has performed such Submittal review, save only at Contractor's risk and expense.

3.29.6 Owner's review of any Sample is only for the characteristics thereof or for the uses named in such review and no other. Owner's acceptance of any Sample is not a modification or change of any requirements of the Contract Documents. Upon Owner's acceptance of any Sample or material, no additional Sample of that material will be considered and no change in brand or make is permitted.

3.29.7 Where variation in color, pattern, texture or other characteristic is inherent in the material or product to be Provided, the Contractor must Submit at least 3 multiple units that show approximate limits of the variations. Installed items or materials exceeding the variation of the accepted samples are considered defective Work.

3.30 SUBSTITUTIONS

3.30.1 Whenever in the Contract Documents any material, product, thing, or service is indicated or specified by grade, patent, brand, trade or proprietary name, or by Manufacturer, such specifications shall be deemed to be followed by the term “Or Equal” unless the Contract Documents provide that use of the item specified is necessary in the public interest or to match other such items in use or to be used.

3.30.2 Reserved

3.30.3 If the material, product, thing, or service offered by Contractor is not, in the opinion of the Owner’s Authorized Representative, substantially equal or better than that specified, then Contractor must furnish that material, product, thing, or service specified or one that in the opinion of the Owner's Authorized Representative is substantially equal or better in every respect.

3.30.4 The burden of proof as to the equality of any material, product, thing, or service Contractor proposes for Product Substitution is the responsibility of the Contractor.

3.30.5 The opinion of the Owner’s Authorized Representative of the substantial equality or superiority of any material, product, thing, or service proposed for substitution will be based on but not be limited to consideration of such factors as: physical characteristics of
weight, gauge, composition, hardness, toughness, ductility, durability, brittleness, etc., as compared to the specified item, or as delineated in the Contract Documents; dimensional compatibility with the materials it combines with to produce a unified design system; compatibility with products in use by Owner elsewhere; all aspects of finished appearance including form, texture and color, that may affect other design elements; performance, functionality, and ease and economy of maintenance and operation. Owner’s Authorized Representative will review and respond in writing to substitution submittals within fourteen (14) Days after receipt of all information Owner requires to make a final determination.

3.30.6 Owner will consider Job Order Proposals for substitution of materials, Products, things, or services only when such Job Order proposals are accompanied by full and complete technical data, and all other information requested by the Owner is submitted, in order to evaluate the proposed Product Substitution. Owner may require substantiating documents to prove quality, delivery time, and cost. Burden of proof as to comparative quality, suitability, and performance of offered materials, Products, things, or services is the responsibility of the Contractor. Owner’s Authorized Representative will be the sole judge as to such matters. In the event Owner’s Authorized Representative rejects the use of such Alternative(s) submitted, then one of the particular materials, Named Products, things, or services originally specified in the Contract Documents must be Provided.

3.30.7 Contractor is responsible for all design and engineering costs, Submittal and resubmittal costs, and costs of associated changes, for the review and acceptance of all proposed and accepted Product Substitutions. Costs incurred by Owner for additional Design Professional and/or CM services to process, design, engineer or adapt Product Substitutions may be deducted from payments to Contractor.

3.30.8 Installation of Substitutions

.1 Contractor must replace any substitution(s) installed without Owner's consent with the specified item(s) at Contractor's expense.

.2 Contractor must not proceed with any Product Substitution or change until Owner’s Authorized Representative has completed all reviews, made recommendations and granted consent.

.3 If Owner’s Authorized Representative accepts a Product Substitution, Contractor must make all changes in the Work including changes to Contract and Record Documents at no additional cost to Owner.

.4 If an accepted Product Substitution is more expensive than the specified material, process, or article Contractor must bear all additional costs of such material, process, or article so Provided.

.5 If mechanical, electrical, structural, or other changes are required for the Installation or fit of Alternative materials, articles, or equipment, or because of deviations from Contract Drawings and Specifications, such changes must not be made without written consent of the Owner’s Authorized Representative, and must be made without additional cost to Owner.

3.31 COMPLIANCE WITH LAWS AND REGULATIONS

3.31.1 Contractor must keep informed of governmental regulations that may affect the Work. Contractor must observe and comply with, and must cause all agents, employees, Subcontractors and Suppliers to observe and comply with said regulations. Contractor shall hold harmless and indemnify Owner and all its officers, employees and consultants against any liability or claim arising from or based upon the violation of any such regulations by Contractor, its agents, employees, representatives or Subcontractors and Suppliers.
3.31.2 This Contract is a Type I Contract, subject to the Resolution of Contracting Principles adopted by the Board of Supervisors on October 28, 1997. Accordingly, the Contractor must comply with all of the following:

.1 Contractor must, during the term of this Contract, comply with all applicable federal, state and local rules, regulations, and laws.

.2 Contractors must maintain financial records adequate to show that County funds paid pursuant to the Contract were used for purposes consistent with the terms of the Contract. These records must be maintained during the term of this Contract and for a period of three (3) years from the termination of this Contract or until all Claims, if any, have been resolved, whichever period is longer, or longer if otherwise required pursuant to other provisions of this Contract.

3.31.3 The failure of the Contractor to comply with Document 00700 - Sub-Part 3.31.2 or any portion thereof may be considered a material breach of this Contract and may, at the option of the Owner, constitute a basis for the termination of the Contract. The Contractor will be furnished reasonable notice of any intended termination based on noncompliance with Document 00700 - Sub-Part 3.31.2, in accordance with Article 2.

3.32 TAXES, UTILITIES, PERMITS, AND FEES

3.32.1 Taxes: Contractor must pay any or all taxes imposed by Federal, State, or local governments, that were legally enacted as of the Bid date or subsequently enacted during the Contract Time, including but not limited to Federal excise tax and all State and local sales and use taxes. Owner will not furnish any tax exemption certificate or any document designed to exempt Contractor from payment of any tax on labor, services, materials, transportation, or any other items provided by Contractor pursuant to the Contract Documents.

3.32.2 Utilities: Unless otherwise stated in the Job Order, Contractor must arrange and pay for utility companies to provide and install permanent utility services and metering devices. Contractor must also pay for all utility usage charges until Owner’s Authorized Representative recommends final Acceptance of the Work to the Board of Supervisors.

3.32.3 Permits & Fees: Contractor must obtain and pay for all building permits, encroachment permits, and all other permits and governmental fees, licenses and inspections necessary for the proper execution and completion of the Work, unless otherwise provided in the Job Order.

.1 Contractors must give all necessary notices and comply with all laws, ordinances, rules, regulations and lawful Orders relating to the Work, and to the preservation of the public health and safety, unless otherwise Directed by Owner’s Project Manager.

.2 If Contractor performs any work contrary to such laws, ordinances, Orders, rules and regulations, Contractor shall bear all costs attributable thereto.

.3 Contractors will not be charged for any permit required by County ordinances and issued by the County of Santa Clara.

.4 Contractors will be reimbursed for the direct cost of any required permits through a Non-Prepriced item with no mark-up.

3.32.4 Royalties & License Fees: Contractor must pay all royalties and license fees, and must defend all suits or claims for infringement of any patent rights and save Owner and its Consultants on this Project harmless from loss on account thereof.

3.33 EQUAL OPPORTUNITY REQUIREMENTS

3.33.1 The County of Santa Clara is an equal opportunity employer. Contractor must comply with all applicable Federal, State, and local laws and regulations including Santa Clara County’s equal opportunity requirements. Such laws include but are not limited to the
following: Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; The Rehabilitation Act of 1973 (§503 and 504); California Fair Employment and Housing Act (Government Code §12900 et seq.); California Labor Code §1101 and §1102. Contractor must not discriminate against any Subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex/gender, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status in the recruitment, selection for training including apprenticeship, hiring, employment, utilization, promotion, layoff rates of pay or other forms of compensation.

3.34 PATENTS

3.34.1 Contractor must assume all costs arising from the use of patented materials, equipment, devices or processes used on or incorporated in the Work, and must indemnify and hold harmless Owner and Owner's authorized representatives and Consultants, from all suits at law, or actions of every nature for, or on account of the use of any patented materials, equipment, devices or processes.

3.35 NON-WAIVER

3.35.1 Neither Acceptance of, nor payment for the Work or any part thereof, nor any extension of the Contract Time, nor any possession or use by Owner, will operate as a waiver of any of the provisions of the Contract, nor will a waiver of any breach of the Contract be held to be a waiver of any other or subsequent breach.

3.35.2 Conformance with any provisions in one part of the Contract Documents will not relieve Contractor from its responsibilities as set forth elsewhere in the Contract Documents.

3.36 UNFAIR BUSINESS PRACTICES CLAIMS

3.36.1 The Contractor's attention is directed to the following provisions of the Public Contract Code §7103.5 and Government Code §4550 through §4554, which are applicable to the Contractor and its Subcontractors: In entering into a public works contract or a subcontract to supply goods, services or materials pursuant to a public works contract, the Contractor or Subcontractor offers and agrees to assign to the awarding body all rights, title, and interest in and to all causes of action it may have pursuant to Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or pursuant to the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders Final Payment to the contractor, without further acknowledgment by the parties.

3.37 STANDARDS FOR WORK & MATERIALS

3.37.1 **Work:** The Work must comply with all governing codes, including standards referred to by such codes and the Contract Documents, except said requirements are considered as minimum. When the Contract Documents call for materials of higher quality or performance, or larger sizes or capacity than required by said codes or standards, the requirements of the Contract Documents take precedence. This requirement does not operate to allow deviations from minimum code requirements.

3.37.2 **Material:** Material specified by reference to the number, symbol or title or a specific standard, such as a commercial standard, a Federal specification, a trade association standard, or other similar standard, must comply with the requirements thereof.

3.37.3 **References:** Standards referred to, except as modified in the Contract Documents, have full force and effect as though printed in the Contract Documents. Standards are not repeated, because Contractor and its Subcontractor and Suppliers are expected to be familiar with requirements governing or applicable to their work.
3.37.4 Intent: The Work of this Contract includes the furnishing of all labor, materials, equipment, tools, supervision, services and all other items needed to complete all the Work in accordance with the requirements of the Contract Documents. The Work encompasses all materials, labor, etc., not specifically mentioned in nor depicted by the Contract Documents, but that can reasonably be inferred as being necessary for complete performance of the Work.

3.38 CONFORMITY WITH CONTRACT DOCUMENTS & ALLOWABLE DEVIATIONS

3.38.1 The Contract Documents show such information as reasonably needed to convey a comprehensive idea of the Work contemplated. All authorized alterations affecting the requirements and information in the Contract Documents must be in writing.

3.38.2 Work and materials must conform to the lines, grades, cross sections, dimensions and material requirements, including tolerances, shown on the Drawings or indicated in the Project Manual. Although measurement, sampling, and testing may be considered evidence as to such conformity, Owner's Authorized Representative is the sole judge as to whether the Work or materials deviate from the requirements of the Contract Documents, and the decision of the Owner's Authorized Representative as to any allowable deviation therefrom is final.

3.38.3 Contractor must follow any required sequence of operations set forth in the Contract Documents.

3.39 CONTROL OF MATERIALS

3.39.1 General Requirements

.1 Contractor must not purchase any materials, supplies, or equipment for the Work subject to any security interest or subject to a conditional sale or other agreement by which any interest therein or in any part thereof is retained by the seller or the Supplier.

.2 Contractor warrants free and clear title to all material, supplies, and equipment Installed or incorporated in the Work and agrees upon Completion of the Work to deliver the premises, together with all improvements and appurtenances constructed or placed thereon by Contractor, to Owner free from any claims, liens or charges of any kind. Contractor nor any person, firm, or corporation furnishing materials, labor or services for any Work has the right to place a lien upon the premises or any improvement or appurtenances therein.

.3 Nothing contained herein shall defeat or impair the right of persons furnishing materials, labor or services covered by any bond provided by Contractor for their protection, or any rights pursuant to any law permitting such persons to look to funds due Contractor held by Owner.

.4 The provisions of this Document 00700.3.39.1, “General Requirements”, must be inserted in all Subcontracts and material contracts and notice of its provisions must be provided to all persons furnishing material for the Work when no formal contract is entered into for such material.

3.39.2 Source of Supply & Quality of Materials

.1 Contractor must furnish all materials required to complete the Work, except materials that are designated in the Contract Documents to be furnished by Owner, or furnished by Owner in the performance of extra Work.

.2 Contractor must incorporate in the Work only materials conforming to the requirements of the Contract Documents.

.3 All materials Provided must be new, except as may be specifically provided in the Contract Documents.
.4 Inspections and tests may be made by Owner or its designated representatives, but such inspections and tests shall not be considered as a guaranty of acceptance of such material nor of continued acceptance of material offered as similar to that which may have been inspected or tested.

.5 All Owner performed inspections and tests are for Owner's benefit and are not a substitute for Contractor's own quality control program.

3.39.3 Owner Furnished Items

.1 Owner Furnished Items will be available at the dates and at the locations designated in the Job Order.

.2 Contractor is responsible for all items furnished by Owner in Contractor's custody. Once Owner Furnished Items are furnished to Contractor, loss or damage from any cause whatsoever must be remedied by Contractor who will be liable for the cost of replacing Owner Furnished Items and such costs may be deducted from any monies due or to become due to Contractor.

3.39.4 Foreign Materials & Assemblies

.1 Contractor must deliver materials or assemblies which are Manufactured or Fabricated outside of the United States ("Foreign Materials & Assemblies") to a location in Santa Clara County unless otherwise Directed in the Contract Documents, where they must be retained for sufficient time to permit inspection, sampling, and testing.

.2 Contractor, at no cost to Owner, must supply all facilities and arrange for all testing required by Owner. All testing by Contractor is subject to witnessing by Owner.

.3 Contractor must furnish Owner a Certificate of Compliance from the Manufacturer or fabricator of any Foreign Materials or Assemblies in accordance with Document 00700.3.39.7, "Certificate of Compliance." In addition, Contractor must furnish certified mill test reports clearly identifiable to the lot of material where required in the Project Manual or otherwise requested by Owner.

.4 Use of steel Manufactured outside the United States is restricted to steel which can be positively identified as having been rolled at the heat for which certified mill tests can be produced.

.5 Where Manufactured materials requiring mill test reports or Fabricated assemblies involving the welding of steel for structural steel members or the casting and prestressing of precast prestressed concrete members are to be performed outside the United States, such Manufactured materials or Fabricated structural members shall be provided only from those foreign Manufacturers and Fabricators who have previously established, to Owner's satisfaction, that they have the experience, knowledge, trained personnel, quality controls, equipment, and other facilities required to produce the quality and quantity of Work required.

.6 At Owner's option, prequalification of the plant and Manufacturer or Fabricator will be established either by the submission of detailed written proof thereof or through in-plant inspection by representatives of the Owner, or both.

.7 Contractor must make written application to Owner for approval for foreign Fabrication at the earliest possible time but in no case later than with the Contractor's Job Order Proposal. The application must list the specific units or portion of Work that will be Fabricated outside of the United States.

.8 Reserved

.9 All documents pertaining to the Contract, including but not limited to, correspondence, Bid Documents, Shop Drawings, Product Data, Record Documents, Requests for
Information, and all other Submittals and data must be written in the English language and all numerical data must use the foot-pound-second system of measurement.

.10 Attention is directed to Document 00700.7.3, “Liquidated Damages.” Contractor is not entitled to an extension of Job Order Completion Time for acts or events occurring outside of the United States, and it is Contractor's responsibility to deliver Foreign Materials & Assemblies into the continental United States in sufficient time to permit timely receipt at the Project Site.

3.39.5 Defective Materials

.1 All materials that Owner has determined do not conform to the requirements of the Contract Documents will be rejected whether in place or not. Contractor must remove all rejected materials immediately from the Project Site, unless otherwise permitted by Owner's Project Manager. No rejected material, or repaired defective material, shall be used in the Work, without Owner's written acceptance.

.2 Upon Contractor's failure to comply promptly with any Order of Owner made pursuant to the provisions in this Document 00700.3.39.5, “Defective Materials”, Owner has the right and authority to cause the removal and replacement of rejected material and to deduct the cost thereof from any monies due or to become due to Contractor.

3.39.6 Inspection at Source of Supply

.1 Owner may inspect the production of any material, or the Manufacture of any product at the source of supply. Such inspection, however, will not be undertaken until Owner is assured of the cooperation and assistance of both Contractor and producer. Owner or its authorized representatives shall have free entry at all times to the parts of the plant Manufacturing or producing such materials. Adequate facilities must be provided free of charge to make the necessary inspections. Owner assumes no obligation to inspect materials at source of supply.

3.39.7 Certificate of Compliance

.1 Owner may permit the use of certain materials or assemblies before sampling and testing if accompanied by a Certificate of Compliance stating that the materials comply in all respects with the requirements of the Contract Documents. The Manufacturer of the material or assembly must sign the Certificate of Compliance. A Certificate of Compliance must be submitted with each lot of material delivered to the Project and the lot so certified must be clearly identified in the Certificate of Compliance.

.2 Owner may sample and test all materials used pursuant to a Certificate of Compliance at any time. The fact that material is used pursuant to a Certificate of Compliance does not relieve Contractor of responsibility for incorporating material in the Work which conforms to the requirements of the Contract Documents; and any such material not conforming to such requirements will be subject to rejection whether in place or not.

.3 Owner reserves the unrestricted right to refuse to permit the use of material pursuant to a Certificate of Compliance.

.4 Owner will set the form of the Certificate of Compliance and its disposition.

3.39.8 Testing

.1 Contractor must furnish without cost to Owner, adequate samples of all materials necessary for testing.

.2 Tests must be by a Laboratory accepted by Owner and paid for by Contractor.

.3 Contractor must pay all costs of all tests.

.4 If a test fails, Contractor must pay for subsequent tests until passage.
3.39.9 Property Rights in Materials

.1 Nothing in the Contract Documents shall be construed as vesting in Contractor any right of property ownership in the materials used in the Work after they have been attached or affixed to the Work or the soil, or after payment has been made for ninety percent (90%) of the value of materials delivered to the site of the Work, or stored subject to or within the control of Owner. All such materials become the property of Owner upon being so attached or affixed or upon payment of ninety percent (90%) of the value of material delivered to the Work site or stored subject to or within the Owner's control.

END ARTICLE 3
ARTICLE 4 — SUBCONTRACTORS

4.1 SUBLETTING AND SUBCONTRACTING

The Contractor must designate Subcontractors and the Subcontractor Value with each Job Order Proposal. The Contractor is required to post all Job Order Detailed Scopes of Work and associated subcontractor trade lists to the eGordian ‘Tools for Contractors and Subcontractors’ website within three working days of receiving a Request for Job Order Proposal and Detailed Scope of Work from the Owner.

4.1.1 The Contractor must adhere to the rules governing subcontracting as set forth in the Subletting and Subcontracting Fair Practices Act, commencing with Public Contract Code §4100 for Subcontractors listed as part of each Job Order Proposal. Subcontractor substitutions must be in accordance with provisions of the Subletting and Subcontracting Fair Practices Act, beginning with Public Contract Code §4100. Violations of this Act by the Contractor may subject the Contractor to penalties and disciplinary action pursuant to the Subletting and Subcontracting Fair Practices Act.

4.1.2 The Contractor is responsible for all Work performed pursuant to the requirements of the Contract Documents, including Work Subcontracted to others. All persons engaged in the Work of the Project are the responsibility of and subject to the control of the Contractor.

4.1.3 No Subcontractor will be recognized as such, and all persons engaged in the Work will be considered as employees of Contractor who is responsible for their work, which is subject to all the provisions of the Contract Documents.

4.1.4 When any Subcontractor fails to execute a portion of the Work in a manner satisfactory to Owner, the Contractor must remove such Subcontractor immediately upon written notice from Owner, and the Subcontractor must not again be employed on the Project.

4.1.5 Although the Project Manual is divided into Documents, Articles, Parts, Sub-Parts and Divisions, Sections, and Paragraphs it is not intended to provide a basis for the Bidding, assignment, or performance of the Work. Contractor is fully responsible for assigning the Work to the various Subcontractors, Suppliers and vendors that will be bidding or performing the Work. The Owner will not entertain requests to arbitrate disputes among Subcontractors or between the Contractor and Subcontractor(s) concerning responsibility for performing any part of the Work.

4.2 SUBCONTRACTUAL RELATIONS

4.2.1 By an appropriate agreement, Contractor shall require each Subcontractor and Supplier, to the extent of that Subcontractor’s or Supplier’s Work, to be bound to Contractor by the terms of the Contract, and to assume toward Contractor all the obligations and responsibilities which Contractor, by these Contract Documents, assumes toward Owner.

4.2.2 Said subcontracts and agreements must preserve and protect Owner’s rights pursuant to the Contract with respect to the Subcontractor’s or Suppliers Work so the subcontracting thereof will not prejudice such rights. Contractor must require each Subcontractor to enter into similar agreements with its Sub-subcontractors.

4.2.3 Contractor must make available to each proposed Subcontractor and Supplier, prior to execution of the subcontract or agreement, copies of the Contract Documents to which the Subcontractor or Supplier will be bound and, upon written request of the Subcontractor or Supplier, identify to the Subcontractor or Supplier any terms and conditions of the proposed subcontract or agreement that may be at variance with the Contract. Each Subcontractor must similarly make copies of all such Documents available to its proposed Sub-subcontractors.

4.3 CONTROL OF SUBCONTRACTORS

4.3.1 Contractor must:
.1 Schedule and coordinate the Work of all Subcontractors;

.2 Instruct all Subcontractors to consult with other Subcontractors to ascertain the locations of their various materials and to familiarize themselves with their own material locations, making such changes as required to obtain the best results;

.3 Instruct all Subcontractors to schedule their Work and cooperate with the other Subcontractors to avoid delays, interferences, and unnecessary work, to conform to the schedule of operations as indicated in the Official Progress Schedule, and make Installations when and where directed.

.4 Make all necessary changes, including removing and reinstalling of materials, at their sole expense if they fail to check with other Subcontractors, and their Installed Work is later found to interfere with Work of other Subcontractors.

.5 Follow up to ensure that all Subcontractors Install their Work when and where directed.

END ARTICLE 4
ARTICLE 5 — CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

5.1 OWNER’S RIGHT TO PERFORM CONSTRUCTION AND AWARD SEPARATE CONTRACTS

5.1.1 Owner has the right to perform work at any time related to the Project with its own forces and/or to Award separate contracts in connection with other portions of the Project or other work on the site pursuant to these or similar conditions of this Contract.

5.1.2 When separate contracts are Awarded for different portions of the project or other work on the site, the term contractor in the Contract Documents in each case means the contractor who executes each separate Owner/Contractor Agreement.

5.2 COOPERATION WITH OWNER’S FORCES AND OTHER CONTRACTORS EMPLOYED BY OWNER

5.2.1 Unless otherwise indicated in the Contract Documents, Owner will provide for the coordination of the work of Owner’s own forces and of each separate contractor with the Work of the Contractor, who must cooperate therewith as provided herein.

5.2.2 When Contractor and one or more other contractors are employed by Owner on related or adjacent work, Contractor must not cause any unnecessary delay or hindrance to the other contractors.

5.2.3 If the performance of the Work of this Contract is likely to be interfered with by the simultaneous performance of the work of some other separate contract or contracts, the Owner will decide which contractors or Contractor may proceed.

5.3 MUTUAL RESPONSIBILITY

5.3.1 The Contractor must cooperate fully with Owner and all separate contractors including utility companies with regard to the execution of their Work as follows:

.1 The Contractor must cooperate fully with Owner and all separate contractors with regard to introduction and storage of their materials and equipment.

.2 The Contractor must coordinate with Owner, all separate contractors, and all utility companies with regard to construction scheduling, sequence of operations and site access, all subject to approval of the Owner. Contractor must include activities in Contractor’s Progress Schedule for all on-site activities performed by utility companies.

.3 The Contractor must coordinate and accommodate the concurrent installation of inserts, hangers, blocking, and all other items or embeds to be installed by others within or upon the Contractor’s Work. The Contractor must coordinate and schedule the concurrent installation of these items in such a manner to cause no Critical Path delay to its Work or the work of others.

.4 The Contractor must include interface flags in its Progress Schedule, monitor the schedule and progress of each other contractor whose work affects its Work, and is responsible for giving timely written notice to Owner of potential problems or interface issues.

.5 The Contractor must properly connect the Work to the work of Owner or the separate contractors.

.6 The Contractor must inspect the work of Owner or other contractors affecting the Work and promptly report to the Owner in writing irregularities or defects in the separate work that render it unsuitable for reception or connection of the Work.

.7 Failure of the Contractor to inspect and report constitutes acceptance of the other work as fit and proper to receive the Work, except as to defects that may develop in the other work after execution of the Contractor’s Work.
5.4 DISPUTES BETWEEN SEPARATE CONTRACTORS

5.4.1 Contractor is responsible to the other contractors for all damage to the other contractors’ work, persons, or property caused by Contractor’s operations, and for any loss suffered by such other contractors caused by Contractor’s own unnecessary delays or failure to finish Work within the Job Order Completion Time(s) specified. Contractor must indemnify and hold harmless Owner for any damages and losses caused by Contractor in connection with this Document 00700.5, "Construction by Owner or by Separate Contractors."

5.4.2 Should the Contractor cause damage to the work or property of any separate contractor on the Project, the Contractor must, upon due notice, resolve the claim directly with such other contractor. If such separate contractor initiates legal action or alternative dispute resolution (ADR) process, Owner will notify the Contractor who must defend Owner in such proceedings at the Contractor's sole expense.

5.4.3 If a monetary obligation results from any lawsuit or ADR proceeding against the Owner, the Contractor is solely responsible for satisfying such obligation. In addition, the Contractor must pay Owner for all attorneys’ fees, and court costs as well as administrative, professional, consultant, inspection, testing and other consulting as service costs that Owner has incurred.

5.4.4 The Contractor must promptly remedy damage wrongfully caused by the Contractor to any completed or partially completed construction or to any property of Owner or separate contractors.

5.5 OWNER’S RIGHT TO CLEAN UP

5.5.1 If a disagreement or Dispute arises among the Contractor, separate contractors and/or Owner as to the responsibility pursuant to their respective contracts for maintaining the Project Site and surrounding areas free from waste materials and rubbish, Owner may clean up or cause to be cleaned up the waste, materials, and rubbish and allocate the costs among those responsible, and deduct each contractor’s share from progress payments due or to become due to each Contractor.

END ARTICLE 5
ARTICLE 6 — CHANGES IN THE WORK

6.1 GENERAL

6.1.1 Owner may at any time, without notice to the Sureties, by written Order, make changes in the Work within the general scope of the Job Order, including but not limited to additions, deletions or other revisions, and in the method and manner of performing the Work. Such changes will be Ordered in either of two ways, by:

.1 Field Modification, which is a written instruction, clarification or additional information communicated by Owner to Contractor Directing or Authorizing a minor adjustment in the Work or the requirements of the Contract Documents that does not change the Job Order Price or Job Order Completion Time; or by

.2 Supplemental Job Order, which is a written amendment to the Job Order, changing the Work, and/or the Contract Documents, and/or the Job Order Price, and/or the Job Order Completion Time, Approved by the Owner’s Authorized Representative.

6.1.2 The procedures for the issuance of such a Supplemental Job Order are the same as the procedures for the issuance of the original Job Order detailed in Supplementary General Conditions section 2.2. Any additions or deletions are therefore calculated by using the appropriate item in the Construction Task Catalog, times the quantity to be adjusted, times the appropriate Adjustment Factor. Time will be adjusted as appropriate for the Detailed Scope of Work.

6.1.3 Adjustment of Job Order Completion Time: There will be no adjustment of the Job Order Completion Time for changes that do not impact the Critical Path of the Official Progress Schedule. Contractor must document for the Owner how the change affected the Critical Path of the Official Progress Schedule and how the change increased (or decreased) the Job Order Completion Time to complete the Work.

6.1.4 Equipment on the Work

.1 The rental time to be paid for equipment already on the Project Site will be the time the equipment is in operation on the Work being performed, and in addition, will include the time required to move the equipment to the location of the Work and return it to the original location, except that moving time will not be paid for if the equipment is used at the Project Site for activities besides the Supplemental Job Order Work.

6.2 RESERVED

6.3 DELETED WORK

6.3.1 When Work is deleted, the Owner is entitled to a credit for the deleted Work.

6.3.2 The adjustment to the Job Order Price for deleted Work will be reflected in the Supplemental Job Order.

6.3.3 If Contractor has ordered acceptable material for the deleted Work before the date of notification of such deletion by Owner, and if orders for such material cannot be canceled, such material will be paid for by Owner at Contractor’s actual cost. In such case, the material paid for will become Owner’s property and Owner will pay the actual cost of any further handling. If the material is returnable to the vendor and if Owner so Directs, Contractor must return the material and Owner will pay the actual costs of returning the material, including reasonable and verifiable handling and restocking charges.

6.3.4 The actual costs or charges to be paid by Owner to Contractor for deleted Work will be computed in the same manner as the original Job Order with negative quantities.

6.4 DIFFERING SITE CONDITIONS
6.4.1 Contractor must immediately, and in any event no later than twenty-four (24) hours after discovery, and before such conditions are disturbed, notify Owner in writing of:

.1 Subsurface or latent physical conditions at the Project Site which Contractor asserts differ materially from those indicated in the Contract Documents; or

.2 Unknown physical conditions at the Project Site, of an unusual nature, which Contractor asserts differ materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Contract.

6.4.2 Owner will promptly investigate the conditions. If Owner finds that such conditions do materially differ and cause an increase or decrease in the Contractor’s cost of, or the time required for, performance of any part of the Work pursuant to this Contract, whether or not changed as a result of such conditions, an equitable adjustment will be made by the issuance of a Supplemental Job Order.

6.4.3 Contractor has no right to an adjustment in Job Order Price or the Job Order Completion Time pursuant to this Document 00700.6.4, "Differing Site Conditions", unless Contractor submitted the notice required in Document 00700 - Sub-Part 6.4.1, except that Owner may extend the notification time upon Contractor’s written request in order to obtain additional relevant information.

6.4.4 Contractor has no right to an adjustment in Job Order Completion Time or Job Order Price after accepting Final Payment pursuant to this Contract.

6.5 RESERVED

6.6 CONTRACTOR’S ACCEPTANCE OF JOB ORDERS

6.6.1 Contractor’s written acceptance of a Job Order or Supplemental Job Order constitutes final and binding agreement to the provisions thereof and a waiver of all Claims in connection therewith, whether direct, indirect or consequential. A general statement that the Contractor reserves their right to Claim additional time and/or money at a future date for Work associated with the Job Order is not permitted.

6.7 RESERVED

6.8 RESERVED

END ARTICLE 6
ARTICLE 7 — TIME

7.1 JOB ORDER COMPLETION TIME

7.1.1 Time is of the essence of this Contract.

7.1.2 Contractor must complete the entire Work of the Job Order Project and designated portions thereof within the Job Order Completion Time(s) stated in the Job Order, or any authorized extension(s) thereof.

7.1.3 Failure of Contractor to include an element of the Work required for performance of this Contract in the Official Progress Schedule, or inaccuracy in the Official Progress Schedule, does not relieve Contractor from responsibility for accomplishing the Work within the Job Order Completion Time(s) designated in the Job Order and will not constitute grounds for delay in completion of the Work or designated portion on the Work.

7.1.4 The Contractor must provide an adequate workforce, materials of proper quality, and equipment to properly execute the Work and to ensure completion of each part of the Work in with in the Job Order Completion Time.

7.2 NOTICE TO PROCEED

7.2.1 Owner’s Notice to Proceed will state the first Day of the Contract Time.

7.2.2 Notwithstanding other provisions of the Contract Documents, Owner is not obligated to accept or to pay for Work Provided by the Contractor prior to the first Day of the Job Order Completion Time designated in the Job Order Contract Notice to Proceed, whether or not Owner has knowledge of the furnishing of such Work.

7.2.3 Reserved

7.2.4 The Contractor will not be allowed on the site of the Work until the Contractor’s Contract Bonds and insurance comply with requirements of the Contract Documents.

7.3 LIQUIDATED DAMAGES

7.3.1 All Work and designated portions of the Work must be completed and ready for full use by Owner on, or prior to, the Job Order Completion Time(s) for the Work or designated portions of the Work specified in the Job Order or any authorized extension thereof.

7.3.2 If Contractor fails to complete the Work or designated portions of the Work within the Job Order Completion Time(s) as agreed upon based on the Approved Work Schedule, or any authorized extension thereof, it is understood and agreed that Owner will suffer damage. When Liquidated Damages are specified in the Job Order, the parties agree that it is impractical and extremely difficult to determine the amount of actual damage, it is agreed that Contractor will pay as fixed and liquidated damages, and not as a penalty, the sums set forth in the Job Order for each and every calendar Day of delay until the Work is completed, and Contractor and its Sureties are liable for the amount thereof. If Liquidated Damages are not specified in the Job Order, Owner may collect actual damages from contractor for late performance of the work.

7.3.3 Contractor acknowledges that the Liquidated Damages amounts set forth in the Job Order constitute a reasonable estimate of the damages Owner will actually suffer every Day during which completion of the Work or designated portion of the Work is avoidably delayed beyond the expiration of the Job Order Completion Time(s) designated in the Contract Documents Approved Work Schedule.

7.3.4 Owner may withhold actual or Liquidated Damages (per Job Order) from payments due to Contractor as such damages accrue, or, at Owner’s discretion, withhold Liquidated Damages from any payments that may become due, including retention and Final Payment (pursuant to California Government Code §53069.85).
7.4 ACCELERATION

7.4.1 Owner reserves the right to Direct the Contractor to accelerate performance of the Work or any portion of the Work by Supplemental Job Order. No action or direction of Owner other than an express written Order to accelerate performance of the Work shall be construed by the Contractor to be direction to accelerate the Work.

7.4.2 If the Contractor believes that some action or inaction on the part of Owner constitutes an acceleration directive, the Contractor must immediately notify the Owner in writing that the Contractor considers the actions or inaction an acceleration directive. This written notification must detail the circumstances of the acceleration directive.

7.4.3 Contractor must keep Daily cost and other Project records related to the Owner’s acceleration Directive separate from other Project costs and records, and must submit a written Daily record of acceleration cost to Owner at the end of each Day.

7.4.4 Allowable labor costs are limited to overtime or shift premium costs. Allowable equipment costs are only the cost of added equipment mobilized to the site to accomplish the accelerated Work effort.

7.5 INSPECTIONS AND CERTIFICATION

7.5.1 When Contractor believes the Work is complete, Contractor must submit to the Owner two (2) copies of a written certification that the Work is complete and request inspection by the Owner.

7.5.2 Within 7 Days of receipt of the request, the Owner will determine if the Work is sufficiently complete to be inspected, and inspect the Work and prepare a list of deficiencies in the completed Work (Deficiency/Punch List.)

7.5.3 If the Owner determines that Work is not sufficiently complete to be inspected, the Owner will issue a notice to the Contractor stating the Work is not sufficiently complete to be inspected. When Contractor believes the Work is complete, Contractor must request another Inspection, which will be processed pursuant to Document 00700 - Sub-Part 7.5.2.

7.5.4 When the Work including correction of all deficiencies identified in the Owner’s Deficiency List is acceptable to the Owner, the Owner will send a letter acknowledging Completion to the Contractor. The Completion letter will identify the actual date of Completion.

7.5.5 Liquidated Damages for late completion of the Work will cease to accrue on the date of actual Completion identified in the Owner’s Completion letter. Such letter will not constitute Acceptance but will establish conformity with the requirements of the Contract Documents for the Work and will serve to establish the date for cessation of the accrual of the Liquidated Damages.

7.5.6 If Contractor requests a third inspection of Work that is still incomplete, Owner may charge Contractor for the cost of inspection, and may deduct the amount from payments due or that become due to Contractor.

7.6 DELAY AND TIME EXTENSIONS

7.6.1 The Owner will consider extensions to the Job Order Completion Time(s) for the following reasons only if they affect the Critical Path of the Official Progress Schedule.

.1 Acts of God (as defined in public contract code §7105(b)(2)), or of the public enemy, acts of Government, acts of Owner, fires, floods, epidemics, quarantine restrictions, sanctioned strikes, freight embargoes, unusually severe weather, or delays of Subcontractors or Suppliers arising from unforeseeable causes beyond the control
and without the fault or negligence of both Contractor and such Subcontractors or Suppliers.

.2 Delays in progress due to an act of neglect by Owner only for the amount of delay time that occurs after Contractor has notified Owner in writing and the Owner has had a reasonable time to respond to the notification.

.3 An Approved Supplemental Job Order that by the issuance of this Supplemental Job Order designates a new Job Order Completion Time.

.4 Adjustments to the Contract Time(s) due to weather will be allowed only for unusually severe weather or resulting site conditions that affect the progress of activities on the Critical Path of the Official Progress Schedule.

.5 No Job Order Completion Time extension for rain will be allowed for any month until the number of Days of rain for that month as indicated below has been exceeded. Rainfall will be considered unusually severe only when the Days of rain (defined as more than one-tenth (1/10th) of an inch of rain per Day) in any month exceed the following number of Days of rain per month:

<table>

.6 Contractor must exercise due diligence in protecting the Work and the Work site from the adverse impacts of weather by:

.6.a taking appropriate preventative actions before anticipated inclement weather to protect the Work and Work site from the potential adverse effects of the weather;

.6.b taking corrective action during the inclement weather to protect the Work and Work site from the actual and potential adverse effects of the inclement weather; and

.6.c taking correction action after the inclement weather to remedy, prevent, and/or mitigate the negative impacts of the adverse weather on the Work and the Work site.

7.6.2 Within twenty-four (24) hours from the beginning of any Critical Path delay to the Official Progress Schedule, Contractor must notify Owner in writing of the causes of delay.

7.6.3 Within fourteen (14) Days from the end of any Critical Path delay to the Official Progress Schedule, Contractor must submit two (2) hard copies and electronic data files on Compact Disks, of all supporting information to validate the impact of the delay on the Job Order Completion Time.

7.6.4 Owner will ascertain the facts and the extent of the delay and adjust the Job Order Completion Time(s) for completing the Work when, in Owner's judgment, the facts justify an adjustment. Owner's determination is final and conclusive.

7.6.5 Delay and Contractor's entitlement for delay will be determined as follows:
.1 The following definitions apply to Document 00700.7.6, “Delay and Time Extension”:

.a “Excusable Delay” means any delay in the Work caused by conditions beyond the control and without the fault or negligence of the Contractor.

.b “Excusable Non-Compensable Delay” means any Excusable Delay not solely the responsibility of the Contractor, such as, earthquake, fire, flood, cyclone, and inclement weather conditions that caused a delay of Work on the Critical Path. The financial inability of the Contractor or any Subcontractor, Sub-subcontractor or Supplier, or the default of any Subcontractor, Sub-subcontractor or Supplier is not a condition beyond the Contractor’s control. An Excusable Non-Compensable Delay may entitle the Contractor to an extension of the Job Order Completion Time, but will not entitle the Contractor to any adjustment of the Job Order Price.

.c “Excusable Compensable Delay” means any Excusable Delay caused by a delay of the Work on the Critical Path for which the Owner is solely responsible and which delay is unreasonable given the circumstances and not within the contemplation of the parties. An Excusable Compensable Delay may entitle the Contractor to an extension of the Job Order Completion Time and an adjustment of the Job Order Price.

.d “Non-Excusable Delay” means any delay in the Work resulting from causes within the control of the Contractor or due to the fault or negligence of the Contractor or its Subcontractors or Suppliers. A Non-excusable Delay shall not entitle the Contractor to an extension of the Job Order Completion Time or an adjustment of the Job Order Price.

.2 Whenever the Contractor foresees any delay in the prosecution of the Work, the Contractor must notify the Owner in writing of the potential delay. Such notification must specify in detail the cause asserted by the Contractor for the potential delay and provide a description of the anticipated effect of the potential delay on the most recent Updated Official Progress Schedule including identification of the activity numbers of the affected activities. Failure of the Contractor to submit such a notice within seven (7) Days after recognition of any incident or event giving rise to the potential delay will constitute a waiver by the Contractor of any request for extension of the Job Order Completion, and no extension of the Job Order Completion Time will be granted as a consequence of such delay.

.3 Within twenty-four (24) hours from the beginning of any Critical Path delay to the Official Progress Schedule, Contractor must submit written notice to the Owner of the delay. The notice must include identification of the affected activities, evidence of the cause of the delay, and within 14 Days of the end of the Critical Path delay, Contractor must submit a Time Impact Analysis per Document 00700.7.6.6, “Time Impact Analysis.”

.4 Owner has no obligation to consider any request for extension to the Job Order Completion Time(s) unless the Contractor satisfies the requirements set forth in the Contract Documents for providing notice of potential delay and submission of a Time Impact Analysis establishing the impact of the delay on the Critical Path of the Official Progress Schedule.

.5 Owner is not responsible to the Contractor for any constructive acceleration due to Contractor’s failure to comply with the submission and justification requirements of the Contract Documents for Job Order Completion Time extension requests. The Contractor’s failure to perform in accordance with the Official Progress Schedule shall not be excused because the Contractor has submitted Job Order Completion Time extension requests, unless and until Owner Approves such requests.

.6 Extension to the Job Order Completion Time(s) will not be allowed for delays on paths of activities containing Total Float Time per the latest Updated Official Progress
Schedule, providing such delay does not exceed the Total Float Time(s) on paths of activities on the latest Updated Official Progress Schedule.

.7 Any extension of Job Order Completion Time(s) granted the Contractor pursuant to this Document 00700.7, “Time”, does not constitute a waiver by Owner of, nor a release of the Contractor from, the Contractor’s obligation to perform the Work within the Job Order Completion Time(s) specified by the Contract Documents, as modified by the particular extension in question. Owner's decision to grant an extension of the Job Order Completion Time(s) due to one circumstance set forth in one request, shall not be construed as a grant of an extension for any other circumstance or the same circumstance occurring at some other time, and shall not be viewed by the Contractor as a precedent for any other request for extension of the Job Order Completion Time(s).

.8 If Owner Orders the Contractor to suspend Work pursuant to Document 00700.2, “Administration of the Contract”, the Contractor will not be entitled to any extension of the Job Order Completion Time(s), damages resulting from the suspension, unless the Contractor can establish that the suspension was Ordered without reasonable justification.

7.6.6 Time Impact Analysis

.1 The time impact analysis must provide information justifying the request for extension of the Job Order Completion Time(s) and stating the extent of the adjustment requested for the alleged delay. Time impact analysis must be in form and content acceptable to the Owner and include, but not be limited to, the following:

.a Time impact analyses must be based on analyzing the Official Progress Schedule in effect at the time the alleged delay or impact first occurred.

.b The Contractor must present fragmentary Critical Path Method (CPM) type network windows (fragnets) in time scaled precedent format, illustrating how Contractor proposes to incorporate the alleged delay into the Updated Official Progress Schedule in effect at the time the alleged delay or impact first occurred.

.c The Contractor must identify the activities that are proposed to be amended due to the alleged delay.

.d The Contractor must identify the preceding and succeeding activities in the Official Progress Schedule to which the fragnet(s) is to be connected.

7.6.7 Weather Delays

.1 Except for rain, if weather conditions are the basis for delays in the continuance or completion of the Work or any designated portion of the Work, Contractor must substantiate that the weather conditions were abnormal, based on the climatological data for the immediately preceding 10 year period, and could not have been reasonably anticipated.

.2 Rain will not be considered abnormal unless it results in precipitation that exceeds the maximum daily precipitation for the cumulative number of Days per month indicated in Document 00700 - Sub-Part 7.6.1.

.3 When the amount of rain is considered to be abnormal, extensions to the Job Order Completion Time(s) will be granted where the condition of the site, as determined by the Owner, is such that Contractor can perform no Work identified as Critical Path Work of the Official Progress Schedule.

7.6.8 Concurrent Delays

00700-59
.1 If an *Excusable Non-Compensable Delay* and an *Excusable Compensable Delay* operate to concurrently delay completion of the Work, the maximum extension of the Job Order Completion Time will be the number of Days from the commencement of the first delay to the cessation of the delay which ends last. Any adjustment of the Job Order Price will be in accordance with Document 00700.6, “Changes in the Work”, and will be based only on the number of Days of *Excusable Compensable Delay*, less the duration of the concurrence.

.2 If a *Non-excusable Delay* operates to concurrently delay completion of the Work with an *Excusable Non-Compensable Delay*, the maximum extension of the Job Order Completion Time will be the number of Days of concurrent delay plus the non-concurrent portion of the *Excusable Non-Compensable Delay*. The entire delay is non-compensable.

.3 If a *Non-excusable Delay* operates to concurrently delay completion of the Work with an *Excusable Compensable Delay* the maximum extension of the Job Order Completion Time will be the number of Days of concurrent delay plus the non-concurrent portion of the *Excusable Compensable Delay*. Any adjustment of the Job Order Price will be in accordance with Document 00700.6, “Changes in the Work”, and will be based only on the non-concurrent portion of the *Excusable Compensable Delay*.

END ARTICLE 7
ARTICLE 8 — PAYMENTS

8.1 GENERAL

8.1.1 Unless otherwise expressly provided for, Contractor shall accept the Job Order Price provided in the Job Order as full payment for all Work.

8.1.2 Reserved

8.1.3 Payment will not be made for: materials wasted or disposed of in a manner not called for pursuant to the Contract; rejected material of any kind; material rejected after it has been placed; and material placed outside of the Work limits shown on the Drawings. No compensation will be made for disposing of rejected or excess material.

8.1.4 Whenever Owner performs any portion of the Work at Contractor's request, the cost thereof will be charged against Contractor, and may be deducted from any amount due or to become due from Owner.

8.1.5 Whenever immediate action is required to prevent impending injury, death, or property damage, and precautions which are Contractor's responsibility have not been taken, Owner may, after reasonable attempt to notify Contractor, cause such precautions to be taken and charge the cost thereof to Contractor, or may deduct such cost from any amount due or become due from Owner. Owner's action or inaction given such circumstances shall not be construed as relieving Contractor or it's Surety from any liability for such circumstances.

8.1.6 Payment does not relieve Contractor from its Contract obligations pursuant to the Contract; nor is such payment to be construed to be acceptance of any of the Work. Payment shall not be construed as the transfer of ownership of any equipment or materials to Owner. Responsibility of ownership shall remain with Contractor who is obligated to store, protect, repair, replace, rebuild or otherwise restore any fully or partially completed Work for which payment has been made; or replace any materials or equipment required to be Provided pursuant to the Contract which may be damaged, lost, stolen or otherwise degraded in any way before Acceptance of the Work, except as provided in Document 00700.13.1, “Use Before Acceptance.”

8.2 PROGRESS PAYMENTS

8.2.1 General: Contractor will be paid for the actual percentage of Work complete; however, in no event will the total payment exceed the total Job Order Price.

8.2.2 Reserved

8.2.3 Reserved

8.2.4 No payments will be made to Contractor until Contractor has met the requirements of Document 00700.3.24, “Official Progress Schedule.”

8.2.5 Before submitting an Application for Payment (Final or Partial) the Contractor shall reach an agreement with the Project Manager concerning the percentage complete of the Detailed Scope of Work and the dollar value for which the Application for Payment may be submitted.

8.2.6 The Owner will make one payment for all Job Orders that have a Job Order Completion Time of 45 days or less, or a Job Order Price of $25,000 or less. For all other Job Orders, the Owner may make partial, monthly payments based on a percentage of the work completed.

8.2.7 The Owner will establish the monthly pay period end dates. The Contractor must base their monthly progress payment period end dates on the dates established by the Owner.
8.2.8 Establishing the Work completed for each monthly request for payment is an estimate only, and no inaccuracy or error in said estimates operate to release Contractor or its Sureties from damages arising from such Work or from complying with each and every provision of the requirements of the Contract Documents. Owner has the right to correct any error made in any estimate for payment.

8.2.9 No such estimate or payment is required to be made when, in Owner's judgment, the Work is not proceeding in accordance with the requirements of the Contract Documents, or when in Owner's judgment the total value of the Work done since the last pay estimate amounts to less than $500.

8.2.10 Contractor is not entitled to have any payment made for Work performed so long as any lawful or proper Order concerning the Work or any portion thereof given by Owner to Contractor shall not have been followed.

8.3 RETENTION

8.3.1 Owner will retain five percent (5%) of the estimated value of the Work done, and five percent (5%) of the value of the materials procured and delivered but not yet used, or procured and stored in accordance with Section 01290, "Payment Procedures", as part security for the fulfillment of the Contract requirements by Contractor, and will pay to Contractor, while carrying on the Work, the balance not retained, as aforesaid, after deducting therefrom all previous payments and all sums to be withheld or retained pursuant to the provisions of the Contract Documents or allowed or required by law. No such estimate or payment shall be construed to be an acceptance of any defective Work or improper materials.

8.3.2 Reserved

8.3.3 In addition to any remedy authorized by law, all or a portion of the Job Order Price due Contractor and considered necessary by the Owner to satisfy pending or reasonably anticipated suits or claims for damages, may be withheld by Owner until disposition has been made of such suits or claims.

8.4 TIMELY PROGRESS PAYMENTS & INTEREST

8.4.1 California Public Contract Code §20104.50 sets forth the Legislature's intent for prompt payment to contractors and establishes the following procedures for timely progress payments and payment of interest:

.1 Any local agency which fails to make any progress payment within thirty (30) Days after receipt of an undisputed and properly submitted payment request from a contractor on a construction contract shall pay interest to the contractor equivalent to the legal rate set forth in subdivision (a) of §685.010 of the Code of Civil Procedure.

.2 Upon receipt of a payment request, each local agency shall act in accordance with the following:

.a Each payment request shall be reviewed by the local agency as soon as practicable after receipt for the purpose of determining that the payment request is a proper payment request.

.b Any payment request determined not to be a proper payment request suitable for payment shall be returned to the Contractor as soon as practicable, but not later than seven (7) Days, after receipt. A request returned pursuant to this paragraph shall be accompanied by a document setting forth in writing the reasons why the payment request is not proper.

.c The number of Days available to a local agency to make a payment without incurring interest pursuant to California Public Contract Code §20104.50 shall be
reduced by the number of Days by which a local agency exceeds the seven-Day return requirement.

d A “progress payment” includes all payment due contractors, except that portion of the Final Payment designated by the contract as retention earnings.

e A payment request shall be considered properly executed if funds are available for payment of the payment request, and payment is not delayed due to an audit inquiry by the financial officer of the local agency.

8.5 SECURITIES IN LIEU OF RETENTION

8.5.1 Attention is directed to Document 00700.8.3, “Retention”, relating to the retention of funds during Contract performance, and to the requirements of California Public Contract Code §22300.

8.5.2 Contractor may substitute securities in lieu of the retention specified in Document 00700.8.3, “Retentions.” At Contractor’s request and expense, securities equivalent to the amount retained shall be deposited with Owner, or with a State or Federally chartered bank as escrow agent, who shall pay such monies to Contractor upon satisfactory Completion of the Contract.

8.5.3 Securities eligible for substitution hereunder shall be limited to those listed in California Government Code §16430, or to bank or savings and loan certificates of deposit. Contractor must be the beneficial owner of any securities so substituted for monies retained, and shall receive any interest or income thereon.

8.5.4 Any Escrow Agreement entered into pursuant to this Document 00700.8.5, “Securities in Lieu of Retention”, must be executed on the form furnished in the Bid Documents, Document 00550, “Escrow Agreement For Securities In Lieu Of Retention”. If the Contractor elects to receive interest on monies withheld in retention by a public agency, or to deposit securities in lieu of retention, the Contractor must, at the request of any Subcontractor performing more than five percent of the Contractor’s total Bid, make that option available to the Subcontractor.

8.6 STOP NOTICES

8.6.1 Owner will comply with California Civil Code Title 15, Chapter 4, §3179 and following, regarding Stop Notices.

8.6.2 All Preliminary and Stop Notices must be sent to the County at the address stated in the Notice to Bidders, and in accordance with the “STOP NOTICE INFORMATION” sheet in the Bid Form (Document 00410).

8.7 PAYMENTS WITHHELD

8.7.1 Owner may withhold payment(s) in whole or in part to such extent as may be necessary to protect Owner from loss from but not limited to:

1. Defective work not remedied;

2. Third party claims filed or reasonable evidence indicating probable filing of such claims;

3. Failure of Contractor to make payments properly to Subcontractors for labor, materials or equipment;

4. Reasonable evidence that the Work cannot be completed for the unpaid balance of the Job Order Price, including any Liquidated Damages thereby due;

5. Damage to Owner or another contractor, or to other work or property;

6. Reasonable evidence that the Work will not be or had not been completed within the Job Order Completion Time;
.7 Failure to carry out the Work in accordance with the requirements of the Contract Documents, including failure to make required Submittals;

.8 Failure to submit certified weekly payrolls;

.9 Stop Notices filed, as more specifically provided in Document 00700.8.6, “Stop Notices”; Failure or refusal of Contractor to fully comply with the Contract requirements; or

.10 Costs to Owner resulting from failure of Contractor to complete the Work or designated portions of the Work within the Job Order Completion Time(s).

8.7.2 Whenever Owner withholds any monies otherwise due Contractor, Owner will furnish written notice of the amount withheld and the reasons therefore to Contractor.

END ARTICLE 8
ARTICLE 9 — PROTESTS, DISPUTES & CLAIMS

9.1 GENERAL PROVISIONS

9.1.1 Compliance with the Dispute Resolution procedures provided for herein is a condition precedent to filing a Claim.

9.1.2 The parties may modify this Document and the procedures prescribed herein by written agreement executed by both parties. Owner's execution of any agreement to modify this Article 9 is void unless approved by County Counsel as to form and legality.

9.1.3 Each party shall bear their own costs of any kind or nature, including but not limited to attorneys’ fees, incurred in relation to the Dispute Resolution Process set forth in this Article 9. Contractor’s costs incurred in seeking relief for Disputes and Claims are not recoverable from Owner.

9.1.4 CALCULATION OF ALL MONETARY AMOUNTS RELATING TO ALL DISPUTES AND CLAIMS (INCLUDING WITHOUT LIMITATION CLAIMS MADE UNDER PUBLIC CONTRACT CODE SECTION 9204) SHALL BE DONE IN THE SAME MANNER AS CHANGE ORDERS PER SECTION 01 26 00 (CONTRACT MODIFICATION PROCEDURES). NO SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES MAY BE CLAIMED, REQUESTED OR RECOVERED BY CONTRACTOR OR BY ANY SUBCONTRACTOR.

9.2 DISPUTE RESOLUTION PROCESS

9.2.1 “Dispute” means an alleged act, error, or omission of Owner, its agents or employees, or action, condition, or other situation that has occurred that Contractor alleges may entitle it to an adjustment of the Contract Price or Contract Time and which, in Contractor’s opinion, is beyond the scope of the Contractor’s Work required by the Contract Documents, and that Contractor asserts or believes it may assert is the responsibility of Owner. The term “Dispute” is intended to be construed broadly and include disagreements of all types.

9.2.2 Every Dispute shall be stated with specificity in writing and signed under penalty of perjury and presented to the Owner’s Project Manager in a “Notice of Dispute” within ten (10) Days from the date Contractor discovers or reasonably should discover the Dispute. Contractor shall provide this Notice of Dispute even if Contractor has not yet been damaged, delayed, or incurred extra cost when Contractor discovers, or reasonably should discover, the alleged act, error, omission, condition, or situation giving rise to the Dispute.

9.2.3 The Notice of Dispute shall be accompanied by all Documents substantiating Contractor’s position regarding the Dispute and shall:

.1 summarize the Dispute, including underlying facts, entitlement, schedule analysis, and quantum calculations;

.2 identify all of the issues, events, conditions, circumstances, and/or causes giving rise to the Dispute;

.3 provide a chronology of relevant events to date and correspondence;

.4 in the event that the Contractor seeks money in connection with the Dispute, provide an analysis of Dispute cost and all supporting Documentation of costs and any other damages claimed;

.5 in the event the Contractor asserts an effect on any schedule Milestones and/or Contract Time, include all pertinent scheduling data demonstrating the impact(s) on the Critical Path(s), Milestone(s), and or Contract Time in the Dispute, Contractor shall provide schedules and schedule analysis compliant with the Contract Documents,
including but not limited to Document 01 32 00 to justify time extension(s) (if requested);

.6 identify all pertinent dates and/or durations and all actual and/or anticipated effects on the Contract Price, Milestones, and/or Contract Time adjustments;

.7 include email digital photographs of the Dispute and provide Owner with contact information for all involved subcontractors and/or suppliers of any tier to facilitate the Owner’s review of Notice of Dispute;

.8 a detailed cost breakdown of the amounts the Contractor is seeking, including actual cost records demonstrating that those costs have actually been incurred. To the extent the alleged costs have not been incurred at the time the Dispute is submitted, actual cost records must be submitted on a current and ongoing basis not less than once a week during any period(s) costs are allegedly incurred. A cost record will be considered current if submitted within seven (7) days of the date the cost reflected in the record is allegedly incurred. At the direction of Owner, the alleged extra costs may be subject to further verification procedures (by way of example only and not by limitation, such as having an inspector verify the performance of alleged work on a daily basis); and,

.9 if the Contractor’s Dispute involves an alleged error or omission in the Contract Documents

.a an affirmative representation under penalty of perjury by Contractor and any affected subcontractors and suppliers that the alleged error or omission was not discovered prior to submitting a proposal for the Work, and

.b a detailed statement demonstrating that the alleged error or omission reasonably could not have been discovered.

9.2.4 Dispute Updates Required. If the unresolved Dispute or Claim persists longer than a single calendar month from the Notice of Dispute, then on the first day of each month, for each month until the Dispute is resolved, and any Work allegedly ascribed to the Dispute ceases, Contractor shall submit to Owner a Document titled “Dispute Update” that shall update and quantify all elements of the Dispute as completely as possible. Contractor’s failure to submit a Dispute Update or to quantify costs every month shall result in waiver of the Dispute for that month-long period. Dispute Updates stating that damages, total damages (direct and indirect), schedule impact and/or any time extension will be determined at a later date shall not comply with this subparagraph and shall result in Contractor waiving its claim(s) of damage(s) of any kind or nature during the period covered by the noncompliant Dispute Update.

9.2.5 Dispute Log. Contractor shall maintain a continuing “Dispute Log” that shall list all outstanding Disputes and their value and status, and provide such log to Owner monthly as a condition of its monthly payment application when such is due. Such log shall be deemed Contractor’s representation of any and all Disputes then outstanding. Any Dispute that Contractor fails to include on the Dispute Log shall be deemed either waived and/or abandoned.

9.2.6 Failure to include as part of a Notice of Dispute all relevant supporting Documentation shall be deemed to have assented that the Work lies within the scope of the Contract Documents and shall result in waiver, release, discharge and relinquishment of any right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price on account of any Documentation that was available to Contractor but not included as part of the Notice of Dispute. Contractor waives the right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price based on any Documentation that was available to Contractor at the time the Notice of Dispute was submitted but not provided until a later Dispute Update.
9.2.7 A timely Notice of Dispute is a condition precedent to Contractor seeking any further relief, including filing a Claim.

9.2.8 The Owner will review the Notice of Dispute and issue a written decision ("Decision on Dispute") to Contractor within thirty (30) Days from the date the Notice of Dispute and all supporting Documentation are received by Owner. The Owner has the option to meet with the Contractor or with any other party before issuing its Decision on Dispute.

9.2.9 If Owner does not issue a Decision on Dispute within thirty (30) Days after receipt of the Notice of Dispute (and all supporting Documentation), then the Owner will be deemed to have rejected the Contractor’s Dispute in its entirety, and if the Contractor intends to seek additional relief regarding the unresolved issues, the Contractor shall proceed with the Claims procedure below.

9.2.10 If the Owner’s Decision on Dispute completely resolves the Dispute, the Owner will prepare and process a Change Order, if applicable, or proceed in accordance with the resolution.

9.2.11 If the Owner’s Decision on Dispute provides that the Owner rejects the Dispute in whole or in part and the Contractor intends to seek additional relief regarding the unresolved issues of the Dispute, the Contractor shall proceed with the Claims procedure below.

9.2.12 Contractor shall require each Subcontractor (including any sub-Subcontractor and supplier) to comply with the Disputes procedure set forth in this Article 9 and to provide Contractor with timely notice and Documentation of all Disputes. Contractor shall present as its Disputes, all Subcontractor, sub-Subcontractor and supplier Disputes of any type, and prove them under the terms of the Contract Documents. Owner shall not be directly liable to any Subcontractor, any supplier, or any other person or organization, or to any surety for or employee or agent of any of them, for damages or extra costs of any type arising out of or resulting from the Project. If Contractor asserts or intends to assert “pass through” Disputes of Subcontractors, then Contractor shall provide all Documentation including Documentation of liquidating agreements, supporting such Disputes.

9.3 CLAIMS PROCEDURE (IN COMPLIANCE WITH PUBLIC CONTRACT CODE SECTION 9204(d)).

9.3.1 “Claim” refers to “claim” as defined in Public Contract Code Section 9204.

9.3.2 Every Claim shall be stated with specificity in writing and signed under penalty of perjury and presented to the Owner’s Project Manager within ten (10) calendar days from the Decision on Dispute.

9.3.3 It is the intent of this Document that all Claims filed after the Decision on Dispute shall be in compliance with Public Contract Code Section 9204.

9.3.4 Individual unresolved Disputes may be aggregated into one or more Claim(s).

9.3.5 In the following paragraphs the term “section” shall refer to this Article 9; the term “public entity” shall mean Owner.

9.3.6 Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed forty-five (45) days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

9.3.7 If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the forty-five (45) days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified
mail, return receipt requested, the public entity shall have up to three (3) days following
the next duly publicly noticed meeting of the governing body after the forty-five (45)-day
period, or extension, expires to provide the claimant a written statement identifying the
disputed portion and the undisputed portion.

9.3.8 If the claimant disputes the public entity’s written response, or if the public entity fails to
respond to a claim issued pursuant to this section within the time prescribed, the claimant
may demand in writing an informal conference to meet and confer for settlement of the
issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified
mail, return receipt requested, the public entity shall schedule a meet and confer
conference within thirty (30) days for settlement of the dispute.

9.3.9 Within ten (10) business days following the conclusion of the meet and confer conference,
if the claim or any portion of the claim remains in dispute, the public entity shall provide
the claimant a written statement identifying the portion of the claim that remains in dispute
and the portion that is undisputed. Any payment due on an undisputed portion of the
claim shall be processed and made within sixty (60) days after the public entity issues its
written statement. Any disputed portion of the claim, as identified by the contractor in
writing, shall be submitted to nonbinding mediation, with the public entity and the claimant
sharing the associated costs equally. The public entity and claimant shall mutually agree
to a mediator within ten (10) business days after the disputed portion of the claim has
been identified in writing. If the parties cannot agree upon a mediator, each party shall
select a mediator and those mediators shall select a qualified neutral third party to
mediate with regard to the disputed portion of the claim. Each party shall bear the fees
and costs charged by its respective mediator in connection with the selection of the
neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute
shall be subject to applicable procedures outside this section.

9.3.10 For purposes of this section, mediation includes any nonbinding process, such as neutral
evaluation or a dispute review board, in which an independent third party or board assists
the parties in dispute resolution through negotiation or by issuance of an evaluation. Any
mediation utilized shall conform to the timeframes in this section.

9.3.11 Unless otherwise agreed to by the public entity and the contractor in writing, the mediation
conducted pursuant to this section shall excuse any further obligation under Section
20104.4 to mediate after litigation has been commenced.

9.3.12 Failure by the public entity to respond to a claim from a contractor within the time periods
described in this subdivision or to otherwise meet the time requirements of this section
shall result in the claim being deemed rejected in its entirety. A claim that is denied by
reason of the public entity’s failure to have responded to a claim, or its failure to otherwise
meet the time requirements of this section, shall not constitute an adverse finding with
regard to the merits of the claim or the responsibility or qualifications of the claimant.

9.3.13 Amounts not paid in a timely manner as required by the negotiations required under
Public Contract Code Section 9204 shall bear interest at 7 percent per annum.

9.3.14 Contractor shall present as its Claims all subcontractor claims or supplier claims of any
type or nature provided that the subcontractor or supplier claims comply with the Contract
Documents. Owner shall not be directly liable to any Subcontractor, any supplier, or any
other person or organization, or to any surety for or employee or agent of any of them, for
damages or extra costs of any type arising out of or resulting from the Project. If
Contractor asserts or intends to assert “pass through” Claims of Subcontractors, then
Contractor shall provide all Documentation including liquidating agreements supporting
such Claims.

9.3.15 The Claim shall be accompanied by all Documents substantiating Contractor’s position
regarding the Claim and shall:
.1 summarize the Claim, including underlying facts, entitlement, schedule analysis, and quantum calculations;

.2 identify all of the issues, events, conditions, circumstances, and/or causes giving rise to the Claim;

.3 provide a chronology of relevant events to date and correspondence;

.4 in the event that the Contractor seeks money in connection with the Claim, provide an analysis of Claim cost and all supporting Documentation of costs and any other damages claimed;

.5 in the event the Contractor asserts an effect on any schedule Milestones and/or Contract Time in a Claim, Contractor shall include all pertinent scheduling data demonstrating the impact(s) on the Critical Path(s), Milestone(s), and/or Contract Time and shall provide schedules and schedule analysis compliant with the Contract Documents, including but not limited to Section 01 32 00, to justify time extension(s) (if requested);

.6 identify all pertinent dates and/or durations and all actual and/or anticipated effects on the Contract Price, Milestones, and/or Contract Time adjustments;

.7 include email digital photographs of the Claim and provide Owner with contact information for all involved subcontractors and/or suppliers of any tier to facilitate the Owner's review of the Claim;

.8 if the Contractor's Claim involves alleged extra work by the Contractor or its subcontractors, a detailed cost breakdown of the amounts the Contractor is seeking, including actual cost records demonstrating that those costs have actually been incurred. To the extent alleged costs have not yet been incurred at the time the Claim is submitted, actual cost records must be submitted on a current and ongoing basis not less than once a week during any period(s) costs are allegedly incurred. A cost record will be considered current if submitted within seven (7) days of the date the cost reflected in the record allegedly is incurred. At the direction of Owner, alleged extra costs may be subject to further verification procedures (by way of example only and not by limitation, such as having an inspector verify the performance of alleged work on a daily basis; and,

.9 if the Contractor's Claim involves an error or omission in the Contract Documents:

.a an affirmative representation under penalty of perjury by Contractor and any affected subcontractors and suppliers that the alleged error or omission was not discovered prior to submitting a proposal for the Work, and;

.b a detailed statement demonstrating that the error or omission reasonably could not have been discovered.

9.3.16 Failure to include as part of a Claim all relevant supporting Documentation shall be deemed to have asserted that the Work lies within the scope of the Contract Documents and shall result in waiver, release, discharge and relinquishment of any right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price on account of any Documentation that was available to Contractor but not included as part of the Claim. Contractor waives the right to assert, request, or demand any entitlement to an adjustment of the Contract Time or Contract Price based on any Documentation that was available to Contractor at the time the Claim was submitted but not provided until a later Claim Update (see Article 3.05.L).

9.3.17 Claim Updates Required. If the unresolved Claim persists longer than a single calendar month from the filing of the Claim, then on the first day of each month, for each month until the Claim, including any Work done related to the Claim ceases, Contractor shall submit to Owner a Document titled "Claim Update" that shall update and quantify all
elements of the Claim as completely as possible. Contractor’s failure to submit a Claim Update or to quantify costs every month shall result in waiver of the Dispute for that month-long period. Claim Updates stating that damages, total damages (direct and indirect), schedule impact and/or any time extension will be determined at a later date shall not comply with this subparagraph and shall result in Contractor waiving its claim(s) for damage(s) of any kind or nature during the period covered by the non compliant Claim Update.

9.3.18 Claim Log. Contractor shall maintain a continuing “Claims Log” that shall list all outstanding Claims and their value and status, and provide such log to Owner monthly as a condition of its monthly payment application when such is due. Such log shall be deemed Contractor’s representation of any and all Claims then outstanding. Any Claim that Contractor fails to include on the Claims Log shall be deemed either waived and/or abandoned.

9.3.19 Each party shall bear their own costs of any kind or nature, including but not limited to attorneys’ fees, incurred in relation to the filing or otherwise seeking relief for a Claim made pursuant to Public Contract Code Section 9204.

9.4 INTERPRETATION AND EXECUTION.

9.4.1 Timely compliance with the procedures in this Article 9 for (1) Notice of Dispute and (2) Claim, which is then subject to the procedures in Public Contract Code Section 9204, constitutes a mandatory administrative remedy that Contractor must diligently pursue and exhaust. Failure to timely pursue any administrative remedy shall be deemed a waiver of additional proceedings including legal action. Compliance is mandatory and is a precondition to Contractor’s right to bring a legal action against Owner.

9.4.2 This Article 9 shall not be interpreted to supersede or limit any and all Contract notification procedures, procedures within the Contract Documents for administration of the Work, including but not limited to, procedures regarding changes to the Contract Documents, changes from conditions indicated in the Contract Documents, changes in the Contract Times, liquidated damages, differing site conditions and utility conflicts, testing and inspections, quality control completion and close out of the Contract. Rather, Contractor shall diligently pursue and comply with all such contract procedures.

9.4.3 Notwithstanding the pendency of contract administration procedures or disputes procedures set forth herein, Contractor shall at all times prosecute the Work in accordance with the Contract Documents as determined and directed by Owner. Contractor’s sole and exclusive remedy for Disputes and Claims shall be the procedures of this Article 9.

9.4.4 In any dispute resolution proceeding arising from the Contract Documents, including formal or informal proceedings for resolution of Disputes and/or Claims, the disputes shall be resolved by looking first to the terms of the Contract Documents. Only when the answer to the Dispute and/or Claim is not found in the Contract Documents, may the dispute be answered by reference to the more general prevailing laws. It is the intent of this provision to formalize the right of the parties, at all times, to rely on the terms of the Contract Documents.

9.4.5 Contractor shall consult with its own legal counsel regarding the requirements of the California Government Code and the California Public Contract Code and shall not request or purport to rely on legal interpretations from the Owner regarding these codes.

9.4.6 The time requirements set forth in this Document are subject to extension, in Owner’s sole discretion. No other feature or requirement of the Disputes and Claims procedures herein (and its Disputes and Claims waiver feature), may be waived or altered absent a written Change Order signed by both parties and approved as to form and legality by the Office of the County Counsel and as to form by legal counsel for the Contractor.
1. All Contractor requests for an extension of time shall be made in advance of time periods expiring. If Contractor requests an extension of the time period to file the Notice of Dispute, then Contractor's written request must include Contractor's certification that Contractor has complied with all notification procedures under the contract that may apply (e.g., differing site conditions, time extension, change order requests), pursuant to which Contractor will provide Owner with contemporaneous notification of the work and cost that is equivalent to or exceeds the information required under this Document 00 73 83. Owner may not grant an extension without this certification.

9.5 SETTLEMENT EFFORTS AND MEDIATION

9.5.1 Mediation hereunder shall be subject to all confidentiality requirements of the California Evidence Code and mediation and settlement efforts shall be and remain confidential.

9.5.2 Any mediators appointed hereunder to mediate a Claim shall be limited in their scope to the Claim for which mediation is demanded.

9.5.3 Owner shall not be deemed to waive or alter any provision under this Document 00 73 83, if at Owner's sole discretion, a Claim is administered in a manner not in accord with this Document 00 73 83. Under no circumstance may settlement negotiations or actions taken towards settlement of disputes or claims by either party be asserted as a waiver or impairment of rights, duties or obligations under the Contract Documents, including without limitation, the requirements of this Document 00 73 83. Owner may at all times assert and enforce all terms of this Document 00 73 83.

9.6 RESOLUTION OF CONTRACT CLAIMS

9.6.1 Upon failure of mediation under Public Contract Code Section 9204 or other statutory authority, in the Owner’s sole discretion, the parties shall use the Judicial Reference procedure as set forth b

9.6.2 The referee shall be a retired California state court judge. The parties shall not seek to appoint a referee that may be disqualified pursuant to California Code of Civil Procedure Section 641 or 641.2 without the prior written consent of both parties.

9.6.3 If the Parties are unable to agree to a referee within ten (10) calendar days, then the referee will be selected by the court in accordance with California Code of Civil Procedure Section 640(b).

9.6.4 The referee shall conduct the proceedings in accordance with the California Code of Civil Procedure, the State of California and Santa Clara County Rules of Court, and California Evidence Code, except as specifically agreed to by the Parties and approved by the referee.

9.6.5 The referee’s decision shall be decided under and in accordance with the law of the State of California, supported by substantial evidence and, in writing, contain the basis for the decision, findings of fact, and conclusions of law.

9.6.6 The decision of the referee shall be entered as a judgment in the court in accordance with the provisions of the California Code of Civil Procedure Sections 644 and 645. The decision of the referee shall be appealable to the same extent and in the same manner that such decision would be appealable if rendered by a judge of the superior court.

9.6.7 Costs of conducting Judicial Reference Proceeding.

.1 The cost of conducting a judicial reference proceeding shall be borne equally by the parties. The filing fee, witness fees, costs of discovery, or any other cost necessarily incurred by one party shall not be shared by any other party, except that the referee may allow the prevailing party to recover its costs and necessary disbursements, except attorneys’ fees, on the same basis as is allowed in civil actions. These costs
shall be taxed as in civil actions.

9.6.8 No party to this Agreement may recover its attorneys’ fees from the other.

9.7 ADDITIONAL PUBLIC CONTRACT CODE REQUIREMENTS

9.7.1 The provisions of Public Contract Code Section 20104 et seq. relating to the resolution of construction claims of three hundred seventy-five thousand dollars ($375,000.00) or less which arise between a contractor and a local agency are incorporated here by this reference.

END ARTICLE 9
ARTICLE 10 — PROTECTION OF PERSONS AND PROPERTY

10.4 SAFETY PROVISIONS

10.4.1 Contractor is solely and completely responsible for conditions of the job site, including safety of all persons and property during performance of work. This requirement applies continuously and is not limited to Normal Hours Of Work. No act, service, drawing or construction review, acceptance or other act by Owner, Inspector, Consultant or any other representative of Owner is intended to include review of the adequacy of Contractor’s safety measures at or near the Project Site, at any place of Fabrication, or anywhere else.

10.4.2 Contractor must take all necessary precautions on the Work for the safety of its workers, of Owner’s employees and the public, and must comply with all applicable Federal, State, and local safety laws and codes to prevent accidents or injury to persons on, about, or adjacent to where the Work is being performed.

10.4.3 Contractor must erect and properly maintain at all times, as required by the conditions and progress of the Work, all appropriate safeguards for the protection of workers and the public, and post danger signs warning against construction hazards, such as fire, toxics, pesticides, chemicals, odors, noise, vibration, equipment operations, obstructions, falling objects, falls and all other construction related hazards.

10.4.4 Contractor must designate a responsible member of its organization who will be present on the Project Site and who has the duty for prevention of accidents. Prior to starting Work, Contractor must submit a letter to the Owner providing the name and position of the person so designated.

10.5 CONFINED SPACE ENTRY PROGRAM

10.5.1 Contractor must comply with all State and Federal OSHA requirements, and all of Owner’s requirements regarding entry into confined spaces including but not limited to the following:

.1 Before starting any Work, submit for Owners review and acceptance four (4) copies of a Confined Space Entry Program applying to all existing permit-required confined spaces identified by Owner in the Contract Documents, or defined by regulations, and any confined spaces identified or created by Contractor or Owner during the Job Order Completion Time. Owner has the right to identify additional spaces to be treated as confined spaces by Contractor at any time during the Job Order Completion Time, without changing the Job Order Price or Job Order Completion Time if such additional spaces were created by Contractor.

.2 Maintain written records of all entries into confined spaces and all activities conducted in confined spaces.

.3 Coordinate all entry operations with Owner when both Contractor’s personnel and Owner’s personnel will be working in or near a confined space in the Project area. Owner will endeavor to give Contractor at least twenty-four (24) hours advance notice of such entry except in unforeseen situations and emergencies.

.4 Inform Owner in writing at the conclusion of entry operations regarding the permit space program followed and any hazards confronted or created in permit spaces during entry operations.

10.6 PUBLIC SAFETY AND CONVENIENCE

10.6.1 Contractor must provide for the safety of the public during construction and conduct its operations to minimize the amount of work posing potential hazards to the public.

10.6.2 Contractor must pave pedestrian openings through falsework or Provide full width continuous wood walks, and keep all walkways clear. Contractor must protect pedestrians
from falling objects and water runoff. Overhead protection for pedestrians must extend not less than four (4) feet beyond the edge of a structure.

10.6.3 Contractor's equipment must enter and leave the Project area via access routes designated or accepted in writing by Owner, and move in the direction of public traffic at all times. All movements on or across public traveled ways must not endanger public traffic.

10.6.4 Contractor must immediately remove any spillage, debris, dirt, or mud resulting from hauling operations along or across any public traveled way.

10.6.5 Contractor must minimize inconvenience or obstruction to the public. When Contractor's operations create a condition hazardous to the public, Contractor must furnish, erect, and maintain such Temporary Fencing, barricades, lights, signs, and other devices as are necessary for direction of the public or to avoid accidents, damage, or injury to the public. Contractor must furnish such flagmen and guards as are necessary to direct the public or to give adequate warning of any hazardous conditions.

10.7 PROTECTION AND RESTORATION OF PROPERTY

10.7.1 California Civil Code §832 provides requirements relating to notification of adjacent property owners (30 Day notification required) and protection of adjacent property when performing excavation that may adversely impact the lateral and subjacent support to adjoining land or structures. In addition to these requirements and any other requirements imposed by law, Contractor must shore up, brace, underpin, and protect as may be necessary, all foundations and other parts of all existing structures adjacent to and adjoining the site of the Work which are in any way affected by the excavations or other operations connected with the Work pursuant to this Contract. Whenever any notice is required to be furnished by Owner or Contractor to any adjoining or adjacent landowner or other party before commencement of any Work pursuant to this Contract, Contractor must provide such notice. Contractor must indemnify and hold Owner harmless from any damages for which Owner may become liable in consequence of such injury or damage to adjoining or adjacent structures and premises.

10.7.2 Contractor must immediately repair any damage, arising from or in consequence of the performance of the Contract, to improvements or property, whether above or below the ground, private or public, within or adjacent to the Project. If, in Owner's opinion, Owner's best interests require such repair to be made before execution of any part of the Work included in this Contract, Owner will so notify Contractor who will delay or discontinue the performance of that part of the Work until the necessary repair has been made. Such delay shall not be considered unavoidable, and no extension of the Job Order Completion Time shall be allowed.

10.7.3 When Ordered by Owner to make any such repair, Contractor must start work thereon within four (4) hours and must prosecute the same with diligence to completion. Upon Contractor's failure to comply with such Order, or upon Contractor's failure to make immediate Emergency repairs which are necessary in the best interests of Owner or the public, Owner may cause such repairs to be made and deduct the costs thereof from any money due, or that may become due Contractor.

10.7.4 In an Emergency affecting the safety of life or property, including adjoining property, Contractor is authorized to act at its discretion, without special instructions or authorization from Owner, to prevent such threatened loss or injury, and Contractor must act whether or not instructed by Owner. Contractor must maintain adequate protection against damage to life and property involved in Project and on property adjacent thereto until Acceptance and must Provide all necessary guards, barricades, night lights, facilities, tools, equipment, materials and other needed or required protective devices.
10.7.5 Contractor will until Acceptance maintain adequate protection of all its Work and work performed by others pursuant to the Contract Documents from damage, loss, or defacement. Contractor must repair or replace any such damage and remove any damaged or defaced material or equipment from the premises at no extra cost to Owner except as may be due directly to errors in the Contract Documents or caused by Owner.

10.7.6 The Contractor must ensure the limits of Work to be free of graffiti or other similar defacements during the entire Job Order Completion Time; if such defacement occurs, the Contractor must promptly remove, repair, or correct the affected area(s). The Contractor must protect all exposed finished surfaces within the limits of Work (both temporary and final), with anti-graffiti coatings, and maintain such protection continuously during the entire Job Order Completion Time.

10.8 PRESERVATION OF CULTURAL RESOURCES

10.8.1 Pursuant to the National Historic Preservation Act of 1966, State laws and County ordinances, the following procedures are implemented to ensure historic preservation and fair compensation to Contractor for construction delays that may occur due to cultural resources discoveries.

10.8.2 In the event potentially historical, architectural, archaeological or cultural resources (hereinafter "resources") are discovered during subsurface excavations at the Project Site, the following procedures apply:

10.8.3 Owner will issue a "Cultural Resources – Suspend Work Order" Directing Contractor to temporarily suspend all operations at the location of such potential resources.

10.8.4 Such "Cultural Resources – Suspend Work Order" will be effective until such time as a qualified Consultant can assess the value of such resources and make recommendations. Any "Cultural Resources – Suspend Work Order" will contain the following:

.1 A description of the potential resource, its location, and the area where Contractor's Work is suspended;

.2 A description of what part or all of Contractor's Work is suspended;

.3 Instructions regarding suspension of orders by Contractor for materials and services;

.4 Guidance regarding action to be taken by Subcontractors;

.5 Estimated duration of the temporary suspension.

10.8.5 If the Consultant determines that the potential find is indeed a cultural resource, Owner will, as expeditiously as possible, advise Contractor in writing of the action to be taken regarding the find, and the anticipated time frame and extent of any Work suspension.

10.8.6 Adjustment of Contract Time and Contract Sum

.1 If, in the Notice to Bidders, the Work site was deemed "Archaeologically Sensitive", then the Job Order Completion Time(s) includes four (4) weeks of temporary suspension for cultural resources finds and there will be no payment for such suspension or any inefficiencies related thereto, up to a maximum cumulative duration of four (4) weeks delay to the Critical Path(s) of the Official Progress Schedule. If such suspension occurs, the first four (4) weeks of the Critical Path delay will be treated as an **excusable non-compensable delay** and the Job Order Completion Time will be extended in accordance with Document 00700.7.6, "Delay and Time Extensions."

.2 If a cultural discovery at an Archaeologically Sensitive site results in a cumulative Critical Path delay that exceeds four (4) weeks, then Contractor will be entitled to an adjustment for the Critical Path delay in excess of four (4) weeks by the issuance of a Supplemental Job Order. The Critical Path delay in excess of four (4) weeks will be treated as an **excusable compensable delay** and the Job Order Completion Time
will be extended in accordance with Document 00700.7.6, “Delay and Time Extensions.”

.3 If a cultural resource discovery was unforeseen (i.e. if the Work site was not deemed "Archaeologically Sensitive" in the Notice to Bidders), Contractor may be entitled to an adjustment by Supplemental Job Order in accordance with Document 00700.7.6, “Delay and Time Extensions.”

.4 If, as a result of a temporary suspension, Owner agrees that Contractor sustains a loss which could not have been avoided by judicious handling of its forces or equipment, or by redirection of forces or equipment to perform other Work on the Contract, Contractor will be paid for idle time of equipment and labor by Force Account as provided in Document 00700.6.8, “Force Account Work.”

10.8.7 Documentation

.1 Beginning with the first Day of suspension, and for each following Day, Contractor must maintain detailed hourly records of the labor and equipment idled by such suspension, plus substantiation as to why such labor and equipment could not be used on other parts of the Work if such were the case. Such records must be of a form acceptable to Owner, signed by Contractor, and are subject to verification by Owner.

.2 Failure by Contractor to furnish the aforesaid records constitutes a waiver of Contractor's right to an adjustment in the Job Order Price.

END ARTICLE 10
ARTICLE 11 — INDEMNIFICATION AND INSURANCE

11.1 EXHIBIT B-1

11.1.1 Indemnification and Insurance requirements are set forth in Exhibit B-1, “INSURANCE REQUIREMENTS FOR CONSTRUCTION CONTRACTS.”

11.1.2 Exhibit B-1 is incorporated herein as though set forth in full.

11.1.3 Exhibit B-1 is located in Document 00850, “Indemnification and Insurance Requirements (Exhibit B-1)”

11.1.4 Contractor will be required to mail or fax all insurance documents evidencing coverage as required by 11.1.1 to the County of Santa Clara’s Insurance Tracking company.

Mail certificates to:
County of Santa Clara
Insurance Compliance
P.O. Box 100085-ZB
Duluth, GA 30096

Fax certificates to (517) 647-7900

END ARTICLE 11
ARTICLE 12 — UNCOVERING AND CORRECTION OF WORK

12.1 GENERAL

12.1.1 The Contractor must notify the Owner two (2) days prior to covering any Work.

12.1.2 If a portion of the Work is covered prior to Owner’s review, it must, if requested in writing by the Owner, be uncovered for Owner observation and replaced at the Contractor’s expense without change in the Job Order Completion Time.

12.2 CORRECTION OF WORK

12.2.1 The Contractor must promptly correct Work rejected by Owner or Work failing to conform to the requirements of the Contract Documents, whether or not Fabricated, Installed or completed. The Contractor bears the costs of correcting such rejected Work, including additional testing and inspections required and compensation for Owner services and expenses made necessary thereby. Contractor must submit three (3) copies of a Corrective Action Plan to the Owner by 10 a.m. of the third workday following receipt of a notice of non-conformance from the Owner.

12.2.2 Notwithstanding Document 00700 - Sub-Part 12.2.1, in the event of an Emergency constituting an immediate hazard to the health or safety of Owner’s employees, agents, representatives, property, or licensees, Owner may undertake, at the Contractor’s expense and without prior notice, all work necessary to correct such hazardous condition(s) when it was caused by work of the Contractor not being in accordance with requirements of the Contract Documents.

12.2.3 The Contractor must remove from the Project Site portions of the Work that are not in accordance with the requirements of the Contract Documents, and are neither corrected by the Contractor nor accepted by the Owner.

12.2.4 If the Contractor fails to correct nonconforming Work, as per Document 00700 - Sub-Part 12.2.1, or fails to remove nonconforming work, as per Document 00700 - Sub-Part 12.2.3, Owner may correct or remove the nonconforming Work per Document 00700 - Sub-Part 12.2.5.

12.2.5 If the Contractor does not submit a Corrective Action Plan or proceed with correction or removal of nonconforming Work, within such time fixed by the Contract Documents or written notice from Owner, Owner may remove and store the salvageable materials, articles and/or equipment at the Contractor's expense. If the Contractor does not pay all costs of such removal and storage within 14 Days after written notice, Owner may, upon 14 additional Days written notice, sell such materials articles and/or equipment at an auction or private sale, and shall account for the proceeds thereof, after deducting costs and damages that would have been borne by the Contractor, including compensation for Owner services and expenses made necessary thereby. If the proceeds of a sale do not cover all costs that the Contractor would have borne, the Job Order Price will be reduced by the deficiency. If payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor must pay the difference to Owner.

12.2.6 The Contractor bears the cost of correcting destroyed or damaged Work, which is caused by the Contractor's correction, or removal of Work that is not in accordance with requirements of the Contract Documents, including work performed by Owner or separate contractors that is damaged or destroyed by the Contractor during the Job Order Completion Time or Guarantee period.

12.2.7 Nothing contained in this Document 00700.12.2, “Correction of the Work”, establishes a period of limitation with respect to other obligations that the Contractor might have in the Contract Documents. Establishment of the Warranty/Guarantee period(s), as described in Document 00700.13.11, “Warranties & Guarantees”, relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the
obligation to comply with requirements of the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct the Work.

12.3  ACCEPTANCE OF NONCONFORMING WORK

12.3.1 If Owner prefers to accept any or all of the Work that is not in accordance with requirements of the Contract Documents, Owner may do so instead of requiring its correction and/or removal, in which case the Job Order Price will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not Final Payment to the Contractor has been made.

END ARTICLE 12
ARTICLE 13 — FINAL COMPLETION AND ACCEPTANCE

13.1 USE BEFORE ACCEPTANCE

13.1.1 Owner has the right to utilize or place into service any item of equipment or other usable portion of the Work before Acceptance of the entire Project. Whenever Owner plans to exercise said right, Owner will notify Contractor in writing, identifying the specific portion or portions of the Work to be so utilized or otherwise placed into service, hereinafter referred to as "Use Before Acceptance".

13.1.2 Until Owner issues such written notification, Contractor is responsible for all care and maintenance of all items or portions of the Work.

13.1.3 Upon Owner's issuance of written notice of Use Before Acceptance, Owner accepts responsibility for the protection and maintenance of all such items or portions of the Work described in the written notice, excepting any injury or damage resulting from Contractor's actions or negligence.

13.1.4 If, by reason of Owner’s Use Before Acceptance, the premium for the Contractor’s bodily injury and property damage insurance is increased, Owner will reimburse the Contractor for the additional amount necessarily incurred, allocable to the area and the period of Owner’s occupancy, up to the Date of Acceptance of the Work.

13.1.5 Owner’s Use Before Acceptance does not constitute Acceptance of the Work, or any portion of the Work, by Owner, nor will it relieve the Contractor of responsibility for correcting defective and/or Deficient Work or materials found at any time before Acceptance of the Work or during the Guarantee period after Owner’s Acceptance. However, when the Project includes separate buildings, and one or more of the buildings is entirely occupied by Owner, then upon written request by the Contractor and by written consent from Owner, the Guarantee period on the building entirely occupied by Owner will commence to run from the date of Owner occupancy of such building or buildings.

13.1.6 Notwithstanding any Use Before Acceptance, Contractor retains full responsibility for fulfillment of all the requirements of the Contract Documents.

13.2 RESERVED

13.3 CONTRACTOR’S CERTIFICATION THAT ALL WORK OF THE PROJECT IS COMPLETE

13.3.1 When all Work is complete and after the Contractor has performed the final cleaning, Contractor must so certify to Owner’s Project Manager and request a Preliminary Walk-Through Inspection.

13.4 PRELIMINARY WALK-THROUGH INSPECTION

13.4.1 Within seven (7) Days of receipt of Contractor’s certification that all Work is complete, Owner's Project Inspector will make a Preliminary Walk-Through Inspection with Contractor to verify that the Project is complete and ready for Final Inspection.

13.4.2 If Owner’s Project Manager determines that the Work is not complete, Contractor will be notified in writing. Contractor must complete the Work and re-initiate procedures for another Preliminary Walk-Through Inspection. At Owner’s discretion, any costs to Owner for additional Preliminary Walk-through Inspections may be charged to the Contractor.

13.5 FINAL INSPECTION

13.5.1 The Final Inspection will occur within seven (7) Days of the Contractor’s certification of final completion if the Owner’s Project Manager agrees with the Contractor’s certification.

13.5.2 If Owner’s Project Manager determines the completed Work is deficient, Contractor will be furnished with a Punchlist identifying the observed deficiencies in the completed Work. After all deficiencies have been corrected, Contractor must initiate procedures for another
Final Inspection. If Contractor requests more than two (2) Final Inspections, at Owner’s discretion, any costs to Owner for additional Final Inspections may be changed to the Contractor.

13.5.3 Contractor’s Progress Schedule must include activities for Final Inspection.

13.6 RECOMMENDATION FOR ACCEPTANCE

13.6.1 After Final Inspection, the Owner’s Authorized Representative will recommend that the Owner formally Accept the Work if the Contractor has satisfactorily:

.1 Corrected all deficiencies observed during the Final Inspection and no new deficiencies have been observed

.2 Submitted Record Documents (As-Builts)

.3 Submitted copies of all documents required by Document 00700.3.14, “Disposal of Materials Outside Project Area” and Document 00700.3.15, “Hazardous Materials”

.4 Submitted two (2) copies of satisfactory evidence to Owner that all payrolls, material bills and other indebtedness connected with said Work have been paid

.5 Submitted all other required contract deliverables.

13.7 ACCEPTANCE OF THE WORK

13.7.1 After the Owner’s formal Acceptance of the Work, the Owner will record a Notice of Completion.

13.7.2 Owner’s Acceptance establishes conformity with the Contract except for delays in completion, latent defects, fraud, or such gross errors as amount to fraud, willful misconduct, or gross negligence, and subject to any Guarantee and Warranty, express or implied.

13.7.3 Determinations by Owner’s Authorized Representative that the Work is complete or Acceptance evidenced by a recorded Notice of Completion does not bar any action by the Owner against the Contractor pursuant to Document 00700.13.11, “Warranties & Guarantees”

13.8 FINAL PAYMENT

13.8.1 Provided that Owner has recorded a Notice of Completion, thirty-five (35) Days after the date of recording of the Notice of Completion by the County Recorder, Owner’s Project Manager will forward a request for Final Payment for the Work done pursuant to the Contract to the County Controller for payment. Owner will withhold from Final Payment such amounts that are in Dispute between Owner and Contractor, amounts subject to offset/setoff, and all other amounts that must be withheld by law (such as Stop Notice sums.)

13.8.2 All estimates and payments made, including the final estimate and payment, are subject to correction and adjustment for clerical errors in the calculations involved in the determination of quantities and payments. Contractor and Owner agree to pay to the other any sum hereby due.

13.9 CONTRACTOR’S DUTIES AND RESPONSIBILITIES AFTER ACCEPTANCE

13.9.1 After Acceptance of the Work by the Board of Supervisors, Contractor is relieved of the duty of maintaining and protecting the entire Work, and Contractor is not required to perform any further Work thereon, except as otherwise required by law or the Contract Documents.

13.9.2 Contractor is relieved of responsibility for injury to persons or property or damage to the Work that occurs after Owner’s Acceptance, provided that such injury/damage is not in any way caused by Contractor.
13.9.3 Owner's Acceptance does not relieve Contractor of responsibility for faulty materials or workmanship or of complying with the requirements of Warranties and Guarantees.

13.10 RETENTION PROCEEDS, WITHHOLDING AND DISBURSEMENT

13.10.1 Pursuant to California Public Contract Code §7107, within sixty (60) Days after the date of "completion" of a Job Order, the retention withheld by Owner shall be released, subject to all withholds required and authorized by law including Stop Notice claims and Liquidated Damages (pursuant to California Government Code §53069.85). In the event of a Dispute between Owner and Contractor, Owner may withhold from the Final Payment an amount not to exceed one hundred fifty percent (150%) of the Disputed amount.

13.10.2 For purposes of release of retention, "completion" means any of the following:

.1 The occupation, beneficial use, and enjoyment of the entire Work, accompanied by cessation of labor on the work of improvement.

.2 The Acceptance by Owner of the Work.

.3 After the commencement of Work, a cessation of labor on the Work for a continuous period of one-hundred (100) Days or more, due to factors beyond Contractor's control.

.4 After the commencement of Work, a cessation of labor on the Work for a continuous period of thirty (30) Days or more, if Owner records a Notice Of Cessation or a Notice Of Completion with the County Recorder.

13.10.3 Subject to Document 00700 - Sub-Part 13.10.4 below, within seven (7) Days from the time that all or any portion of the retention proceeds are received by Contractor, Contractor must pay each of its Subcontractors from whom retention has been withheld, each Subcontractor's share of the retention received. However, if a retention payment received by Contractor is specifically designated for a particular Subcontractor, payment of the retention shall be made to the designated Subcontractor, if the payment is consistent with the terms of the Subcontract. [public contract code §7107(d)]

13.10.4 Contractor may withhold from a Subcontractor its portion of the retention proceeds if a bona fide dispute exists between the Subcontractor and Contractor. The amount withheld from the retention payment shall not exceed one hundred fifty percent (150%) of the estimated value of the disputed amount.

13.10.5 In the event that retention payments are not made within the time periods required by Public Contract Code §7107, Owner and Contractor withholding the unpaid amounts shall be subject to a charge of two percent (2%) per month on the improperly withheld amount, in lieu of any interest otherwise due. Additionally, in any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to attorney's fees and costs.

13.11 WARRANTIES & GUARANTEES

13.11.1 Neither the final Acceptance, nor payment, nor any provision in the Contract Documents relieves Contractor of responsibility for faulty materials or workmanship.

13.11.2 Contractor must Guarantee all workmanship and materials for a period of one year, or as specified in the Contract Documents, from and after the Date of Acceptance of the Work by Owner. Contractor may also be required to furnish a written Guarantee covering all or certain items of Work for varying periods of time from the Date of Acceptance of the Contract. The Work to be Guaranteed, the form, and the time limit of the Guarantee will be specified in the Contract Documents. Said Guarantee must be signed and submitted to Owner before Acceptance of the Work.

13.11.3 The Guarantee period begins at the Date of Acceptance. Contractor must repair or replace all defective Work, together with any other Work affected by the repair or replacement during said Guarantee period without expense whatsoever to Owner.
13.11.4 The aforesaid one-year Warranty/Guarantee period does not in any way limit or waive Owner's rights to legal recourse for latent construction defects, pursuant to California Civil Code of Procedure §337.15 nor for patent construction defects pursuant to §337.1.

13.11.5 Approximately ninety (90) Days before completion of the entire Work of the Project, Contractor must meet with Owner regarding Warranty/Guarantee requirements. Owner will establish communication procedures for notifying Contractor of Warranty defects, priorities regarding the type of defect, time required for Contractor response, and other details deemed necessary by Owner for execution of the Warranty/Guarantee.

13.11.6 In the event of Contractor's failure to comply with the requirements of any Warranty/Guarantee required by the Contract Documents within three (3) calendar Days after being notified in writing, Owner may proceed to have the defects repaired and made good at the expense of Contractor who must pay all costs and charges immediately upon demand.

13.12 RESERVED

END ARTICLE 13
ARTICLE 14 — MISCELLANEOUS PROVISIONS

14.1 CONTRACTOR’S USE OF COMPUTER SOFTWARE

14.1.1 The Owner selected The Gordian Group’s Job Order Contracting (JOC) system for the execution of the JOC program. The Gordian JOC system includes The Gordian Group’s proprietary eGordian® JOC information management applications, construction cost data and Construction Task Catalog® (collectively “Proprietary Information”), which shall be used by the Contractor to prepare and submit Job Order Proposals, subcontractor lists, and other requirements specified in the general conditions and as may be requested by the Owner. The Contractor shall be required to execute Gordian’s JOC System License and User Agreement, and shall pay a 1% JOC System License Fee on all work awarded to the JOC contractor by the Owner for access to the Gordian JOC system and Proprietary Information.

1 Gordian hereby grants to the Contractor, and the Contractor hereby accepts from Gordian for the term of this Contract or Gordian’s Contract with the Owner, whichever is shorter, a non exclusive right, privilege, and license to Gordian’s proprietary JOC System and related proprietary materials (collectively referred to as “Proprietary Information”) to be used for the sole purpose of executing Contractor’s responsibilities to the Owner under this Contract. The Contractor hereby agrees that Proprietary Information shall include, but is not limited to, Gordian’s JOC Applications and support documentation, Construction Task Catalog®, training materials and other Gordian provided proprietary materials. In the event this Contract expires or terminates as provided herein, or Gordian’s Contract with the Owner expires or terminates, this JOC System License shall terminate and the Contractor shall return all Proprietary Information in its possession to Gordian.

2 Gordian may terminate this License Agreement in the event of: (1) any breach of a material term of this Agreement by the Contractor which is not remedied within ten (10) days after written notice to the breaching party; or (2) the other party’s making an assignment for the benefit of its creditors, or the filing by or against such party of a petition under any bankruptcy or insolvency law, which is not discharged within thirty (30) days of such filing.

3 The Contractor acknowledges that disclosure of Proprietary Information will result in irreparable harm to Gordian for which monetary damages would be an inadequate remedy and agrees that no such disclosure shall be made to anyone without first receiving the written consent of Gordian. The Contractor further acknowledges and agrees to respect the copyrights, registrations, trade secrets, and other proprietary rights of Gordian in the Proprietary Information during and after the term of this Contract and shall at all times maintain complete confidentiality with regard to the Proprietary Information provided to the Contractor.

4 In the event of a conflict in terms and conditions between this JOC System License and any other terms and conditions of this Contract or any Job Order, Purchase Order or similar purchasing document issued to the Contractor by the Owner, this JOC System License shall take precedence.

14.2 RIGHTS IN LAND AND IMPROVEMENTS

14.2.1 Nothing in the Contract shall be construed as allowing Contractor to make any arrangements with any person to permit occupancy or use of any land, structure, or building within the physical limits of the Project for any purpose whatsoever, either with or without compensation, nor act in conflict with any agreement between Owner and any owner, former owner, or tenant of such land, structure, or building.
14.2.2 Contractor must not occupy Owner’s property outside the Project limits as shown on the Plans or on maps available in Owner’s offices, unless Contractor enters into a written agreement with Owner.

SUPPLEMENTAL GENERAL CONDITIONS

Table of Articles

1. General........................................................................................................................... 2
2. Administration of the Contract....................................................................................... 4

END OF TABLE OF ARTICLES
General
The following Supplemental General Conditions contain additions, changes, and deletions that supersede the General Conditions and apply only to the Job Order Contract.

ARTICLE 1 – GENERAL PROVISIONS

1.1 ABBREVIATIONS:
The following will be added to Section 1.1 ABBREVIATIONS:

1.1.1 JOC – Job Order Contract
1.1.2 JO – Job Order
1.1.3 DSW – Detailed Scope of Work
1.1.4 RFJP – Request for Job Order Proposal
1.1.5 CTC – Construction Task Catalog
1.1.6 NPP – Non-Prepriced

1.2 DEFINITIONS:
The Following Changes and Additions revise to Section 1.2 DEFINITIONS:

1.2.1 Adjustment Factor: The Contractor’s competitively bid price adjustment to the Unit Prices as published in the Construction Task Catalog. Contractors must bid four Adjustment Factors, one set for work to be accomplished during Normal Working and Other than Normal Working Hours for Non-Secured Facilities and one set for Normal Working and Other than Normal Working Hours for Secured Facilities. All Adjustment Factors are expressed as a multiplicative increase or decrease from the published prices in the Construction Task Catalog.

1.2.2 Award Criteria Figure: The composite Adjustment Factor, used to determine the low bid, as determined on the basis of the Award Criteria Figure Formula provided in the Bid Form.

1.2.3 Construction Task Catalog: A comprehensive listing of construction related specific repair or refurbishment tasks together with a specific unit of measurement and a Unit Price. (Also referred to as the ‘CTC’.)

1.2.4 Detention Facilities Adjustment Factors: Adjustment Factors that apply when Job Order Work is performed within a secured area of the Department of Corrections Main Jail North/South, Elmwood Correctional Facility, and Juvenile Probation and Juvenile Hall.

1.2.5 Detailed Scope of Work: The complete description of services to be provided by the Contractor pursuant to an individual Job Order. The Detailed Scope of Work will include documentation for a given project. Documentation may include a narrative description of the Work, partial design documents, or full design documents, depending on the complexity of the specific project. (Also referred to as ‘DSW’.)

1.2.6 General Facilities Adjustment Factors: Adjustment Factors that apply when Job Order Work is performed in all locations other than those defined by Detention Facilities Adjustment Factors.

1.2.7 Job Order: A document signed by the County that describes Work to be accomplished. The County has sole discretion to determine the number and scope of Job Orders issued. Each Job Order will include a Detailed Scope of Work, a firm fixed price, a time duration for the completion of the Work and any...
special conditions that might apply to that specific Job Order, such as Liquidated Damages. (Also referred to as 'Project').

1.2.8 **Job Order Price Proposal:** A price proposal prepared by the Contractor that includes the Pre-priced Tasks, Non Pre-priced Tasks, quantities and appropriate Adjustment Factors required to complete the Detailed Scope of Work.

1.2.9 **Job Order Proposal:** The documents prepared by the Contractor stating a firm fixed price to perform a specific Detailed Scope of Work. The Job Order Proposal includes shop drawings and sketches, permits and submittals as necessary, a detailed Job Order Price Proposal comprised of line items from the Construction Task Catalog®, supporting documentation for any Non Pre-priced items, a construction schedule, a list of subcontractors, and other documentation as may be required by the County prior to the issuance of a Job Order. (Also referred to as Proposal).

1.2.10 **Job Order Plans:** The graphic and pictorial portions of the Job Order as defined in the Detailed Scope of Work, illustrating the design, character, location, and dimensions of the Work to be performed, generally including but not limited to, elevations, sections, details, schedules, General Notes, specific notes, and diagrams. Synonymous with “Drawings”, “Contract Drawings”, and “Plans”.

1.2.11 **Job Order (Task) Specifications:** Description of the manner of performing the Work, the quantities, qualities and types of materials to be furnished.

1.2.12 **Joint Scope Meeting:** Meeting at the project site attended by the County and the Contractor to jointly scope the Work before the Detailed Scope of Work is finalized.

1.2.13 **Non-Prepriced Tasks:** Units of Work that are not included in the Construction Task Catalog but which are within the general scope and intent of this Contract. (Also referred to as ‘NPP’).

1.2.14 **Normal Working Hours:** Standard Shift Work between the Hours of Work between 6:00 AM and 6:00 PM, Monday thru Friday.

1.2.15 **Other than Normal Working Hours:** Hours outside Normal Working Hours including all day Saturday, Sunday and County Holidays.

1.2.16 **Pre-priced Task** - A task described in, and for which a Unit Price is set forth in, the Construction Task Catalog®.

1.2.17 **Request for Job Order Proposal:** The County’s formal request for the Contractor to provide a Job Order Proposal for the Detailed Scope of Work referenced therein. (Also referred to as ‘RFJP’).

1.2.18 **Supplemental Job Order:** A written agreement entered into after the award of the initial Job Order that alters or amends the Job Order. Changes in the Work requested are accomplished by the issuance of a Supplemental Job Order. Changes involving extensions of Job Order Completion Time, and additive or deductive changes are accomplished by issuance of a Supplemental Job Order to the original Job Order.

1.2.19 **Task Specifications:** Description of the manner of performing the Work, the quantities, qualities and types of materials to be furnished.

1.2.20 **Unit Price:** The price published in the Construction Task Catalog® for a construction related specific repair or refurbishment task. The Unit Prices are fixed for the duration of the Contract. Each Unit Price is comprised of the Labor, Equipment and Materials costs to accomplish that specific task. Unit Prices for new Pre-priced Tasks can be established during the course of the Contract and
1.3 CONFLICTS IN THE CONTRACT DOCUMENTS

The following paragraph replaces Section 1.6.1 CONFLICTS IN THE CONTRACT DOCUMENTS:

The Contract Documents are intended to be complementary, and to describe and provide for a complete Work. The following order of precedence governs the interpretation of the Contract Documents.

.1 Agreement
.2 Addenda (later takes precedence over earlier)
.3 Job Order (Including Detailed Scopes of Work and Requests for Proposal)
.4 Job Order plans
.5 Project Manual (IFB/RFP)
.6 Supplemental General Conditions
.7 Construction Task Catalog®
.8 The General Conditions and Requirements
.9 Technical Specifications
.10 Task Specifications

ARTICLE 2 — ADMINISTRATION OF THE CONTRACT

2.1 INFORMATION AND/OR SERVICES FURNISHED BY OWNER

The following paragraph is added as 2.2.3 to Section 2.2 INFORMATION AND/OR SERVICES FURNISHED BY OWNER:

County-furnished internet program will be provided to the Contractor for the posting of Job Order Scopes for subcontractors and the preparation of Job Order Price Proposals in response to County issued Request for Job Order Proposals. This program contains an electronic version (copy) of the Construction Task Catalog, which can be accessed on the Contractor’s computer system to locate and select desired items from the CTC. Once the desired items are selected, the software provides for selection of quantities and based on the selected quantities, extends and totals CTC costs for each Job Order price Proposal. The program permits introduction of Non-Prepriced Tasks and the application of the Adjustment Factors. The Program will also interface with the eGordian ‘Tools for Contractors and Subcontractors’ website. The installation and maintenance of the software is the responsibility of the County.
2.2 ADMINISTRATION OF THE CONTRACT

The following paragraphs are added to the end of Section 2.3 ADMINISTRATION OF THE CONTRACT:

2.3.1 All work is to be performed at Journeyman level for the trade required and as specified in the Job Order Contract Technical Specifications CSI 01 – 48 manuals found on the CD provided to the Contractor at the pre-bid meeting.

2.3.2 The scope of required Work will be determined by the Detailed Scopes of Work stated in each individual Job Order. All costs incurred with preparing Job Order Proposals are the sole responsibility of the Contractor.

2.3.3 Contractor will perform Work only as authorized by Job Orders issued by the County in accordance with the ‘Administration of Job Orders’. The Contractor must perform all Job Orders up to and including the Maximum Contract Value. The County must order at least the Minimum Contract Value.

2.3.4 The Contractor must provide all pricing, management, stamped or unstamped design drawings, shop drawings, documents, labor, materials, parts (to include system components), transportation, plant, supervision, and equipment needed to perform each Job Order. The Contractor must provide quality assurance as specified in strict accordance with the Contract.

2.3.5 In addition to the tasks and requirements stated in the Construction Task Catalog®, Technical Specifications CSI 01 through 48 and Task Specifications, the County may require Non Pre-priced Tasks incidental to work described in the Job Order. The parties will price these Non Pre-priced Tasks in accordance with the procedures set forth in the ‘Administration of Job Orders’.

2.3.6 Credits for Pre-priced and Non Pre-priced Tasks shall be calculated at the pre-set Unit Prices and multiplied by the appropriate Adjustment Factors. The result is that a credit for Tasks that have been deleted from the Detailed Scope of Work will be given at 100% of the value at which they were included in the original Job Order Price Proposal.

2.3.7 As Directed by the County the Contractor will provide incidental architectural or engineering design services in accordance with applicable State laws and the County’s insurance and indemnification requirements. All documents are subject to review and approval of the County. The County may require that design documents be prepared and provided in Computer Aided Design (CAD) format. Any cost for this work is included in the Contractor’s Adjustment Factor.

2.3.8 Each Job Order will be prepared under the direction of the County.

2.3.9 The Owner may award an individual Job Order to any selected Contractor. Selection of the Contractor and award of the Job Order will be in compliance with established Owner procedures and based on one or more of the following criteria:

1. Rotational selection among all Contractors, unless otherwise determined by the Owner.
2. Evaluation of past and current performance on Job Orders of a similar nature and type of work, project size, construction management challenges, schedule performance, design management requirements, etc.
3. Balancing of work load (Job Order dollar volume and construction backlog) among Contractors.
5. Price, as it relates to the Owner’s independent cost estimate
6. Contractor’s responsiveness to the Owner on Job Orders.
7. Other appropriate criteria as deemed in the best interest of the Owner.

2.1.10 County staff will notify the Contractor in writing of a Joint Scope Meeting to discuss a potential Job Order.

2.3.11 Prior to the Joint Scope Meeting, the County will provide the Contractor with all appropriate information and documentation, if any, pertaining to the potential Job Order. The Contractor and their primary trade(s) will participate in the Joint Scope Meeting and visit the proposed site with County staff. At the Joint Scope Meeting the following items will be discussed:

.1 Job Order number and title
.2 Existing site conditions
.3 Presence of Hazardous Materials
.4 Methods and alternatives for accomplishing work and value engineering
.5 Definition and refinement of requirements
.6 General Scope of Work
.7 Requirements for stamped & unstamped design drawings, sketches, submittals, catalogue cuts, samples, shop drawings, etc.
.8 Tentative construction schedule (bar chart or critical path method schedule)
.9 **Liquidated damages if appropriate**
.10 Preliminary quantity estimates
.11 Staging areas, site access and protocol for admission
.12 Special conditions regarding unique facility operations and hours of operation
.13 Safety requirements
.14 Special insurance requirements
.15 Job Order Proposal due date

2.3.12 Making information available to Contractor is not to be construed in any way as a waiver of the aforesaid provisions, and **Contractor must satisfy themselves through their own investigations as to conditions to be encountered.**

2.3.13 Where investigation of subsurface conditions has been made by Owner in respect to foundation or other design, Contractor may inspect Owner's records of such investigation, including examination of samples and drill cores, if any.

2.3.14 When logs of test borings indicating a record of the data obtained by Owner's investigation of subsurface conditions are made available, **said logs represent only the investigator's opinion as to the character of material encountered in test borings and are made available only for the convenience of bidders.**

2.3.15 Investigation of subsurface conditions is made for the purpose of design, and Owner assumes no responsibility, whatsoever, in respect to the sufficiency of test borings, accuracy of the log of test borings, of other preliminary investigations, or in the interpretation thereof. **There is no warranty or guarantee, express or implied, that the conditions indicated are representative of those existing throughout the Work, or any part of it, or that unforeseen conditions may not be encountered.**

2.3.16 Upon completion of the joint scoping process, the County will issue a Request for
Job Order Proposal and a draft Detailed Scope of Work referencing any sketches, drawings, photographs, and specifications required to document accurately the work to be accomplished. The Contractor shall review the Detailed Scope of Work and request any required changes or modifications. When an acceptable Detailed Scope of Work has been prepared, the Owner will issue a Request for Proposal that will require the Contractor to prepare a Job Order Proposal. If Liquidated Damages will be applied to the Job Order, the County Representative will provide the appropriate information in the Request for Job Order Proposal or Detailed Scope of Work. The Detailed Scope of Work, unless modified by both the Contractor and the County, will be the basis on which the Contractor will develop its Job Order Proposal and the County will evaluate the Job Order Proposal. The Contractor does not have the right to refuse to perform any task or any work in connection with a particular Project.

The Job Order Price Proposal shall be based on and the CTC line items associated with the Detailed Scope of Work, the unit of measure and the accurate quantities. Failure to provide accurate Job Order Proposals based on this criteria and/or Non Pre-priced as defined, shall be cause for Non-compliance with the contract requirements.

2.3.17 The Contractor is required to post from eGordian® a Detailed Scope of Work and associated subcontractor trade list on the eGordian® website, http://www.egordian.com/ ‘Tools for Contractors and Subcontractors’, within three working days of the issuance of the Request for Job Order Proposal and Detailed Scope of Work.

2.3.18 Job Order Proposal Development

The Contractor will prepare Proposals in accordance with the following:

.1 Pre-priced Tasks: The Contractor will identify the task and quantities required from the Construction Task Catalog® (CTC). The Unit Price set forth in the CTC serves as the base price. The value of the Job Order Price Proposal shall be calculated by summing the total of the calculations for each Pre-priced Tasks (unit price x quantity x Adjustment Factor) plus the value of all Non Pre-priced Tasks.

.2 Non Pre-priced Tasks (NPP): Non Pre-priced Tasks, if any, must be separately identified in the Proposal. These tasks are not set forth in the Construction Task Catalog®. Information submitted in support of Non Pre-priced Tasks includes, but is not be limited to, the following:

   .a Complete specifications and technical data, including task content, support drawings, task cost data, quality control and inspection requirements.

   .b Work schedule.

   .c Cost data will include a cost analysis report, establishing the basis for selecting the approach proposed for accomplishment of the task. Unless otherwise directed by the County, cost data will be submitted demonstrating that the Contractor sought and received three price quotes. The Owner may require additional quotes and bids if the suppliers or subcontractors are not acceptable or if the prices are not reasonable. The Contractor will provide an installed Unit Price (or demolition price if appropriate) which will include all costs required to accomplish the Non Pre-priced Task.

   .d The final price submitted for Non Pre-priced Tasks which are performed by the Contractor will be according to the following formula:
Contractor Performed Duties

A= The number of hours for each labor classification and hourly rates
B= Equipment costs (other than small tools)
C= Three independent quotes for all materials

Total Cost for self-performed work = (A+B+C) x 4% Adjustment Factor (Only if A & B cannot be priced out of the CTC)

For Work performed by Subcontractors:

If the Work is to be subcontracted, the Contractor must submit three independent bids from Subcontractors. If three quotes or bids cannot be obtained, the Contractor will provide the reason in writing for the County’s approval as to why three quotes cannot be submitted.

D = Subcontractor Costs (supported by three quotes)

Total Costs of Non Pre-Priced Task = D x 4% Adjustment Factor

e Following approval by the County of a Non Pre-priced Task, the Non Pre-priced Task Unit Price will be entered into the computer data base and fixed as a permanent Pre-priced task which will no longer require price justification.

f The total extended price for the Non Pre-priced Task will be determined by multiplying the task Unit Price by the quantity required. The price offered in the Job Order Proposal will be determined by multiplying the total extended price by an Adjustment Factor of 1.00 (one).

g If a Pre-priced Task is present in the CTC, it must be used in the formulation of the Job Order Price Proposal. Immaterial differences between the proposed Work and description of a Pre-Priced Task are not a basis for classifying a Task as Non Pre-priced. Owner’s Project Manager’s determination as to whether a task is a Pre-priced Task or a Non Pre-priced Task is final, binding and conclusive upon the Contractor.

h Whenever, because of trade jurisdiction rules or small quantities, the cost of a minor task in the Job Order Price Proposal is less than the cost of the actual labor and material to perform such task, the Owner may permit the Contractor to be paid for such task as a Non Pre-priced Task, or use Pre-priced labor tasks and material component pricing to cover the actual costs incurred. Provided, however, that there is no other work for that trade on the Project or other work for that trade cannot be scheduled at the same time and the final charge does not exceed $1,000.

3 The Contractor's Job Order Proposal must include support documentation to indicate that adequate engineering and planning for the Job Order has been done, and that the tasks proposed are reasonable for the Work to be performed. Documentation to be submitted with the Job Order Proposal must include, but not be limited to:

a. Job Order Price Proposal
b. Stamped & unstamped design drawings, calculations, specifications if required
c. Catalog cuts
d. Subcontractor and material supplier list
e. Construction schedule
f. Special Insurance
g. For special equipment a copy of the warranty document may be required.
h. Notification of Foreign Material (General Conditions 3.39.4)

Contractor's Job Order Proposal must be submitted by the date indicated on the RFJP. The time allowed for preparation of the Contractor's Job Order Proposal will depend on the complexity and urgency of the Job Order. On complex Job Orders, such as Job Orders requiring engineering/architectural drawings and approvals and permits, adequate time will be provided for preparation and submittal of the necessary documents and the Job Order Proposal. In urgent situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal may be required quickly.

2.2.19 Review of Job Order Proposal

.1 The County reserves the right to reject a Job Order Proposal for any reason. The County also reserves the right not to issue a Job Order if that is determined to be in the best interests of the County to do so or if the proposed cost exceeds the County's estimate. In these instances, the Contractor has no entitlement to reimbursement for Job Order Proposal preparation expenses including but not limited to the costs to attend the Joint Scope Meeting, review the Detailed Scope of Work, prepare a Job Order Proposal (including incidental architectural and engineering services), subcontractor costs, and the costs to review the Job Order Proposal with the Owner. The County may pursue the performance of any Work by other means.

.2 By submitting a Job Order Proposal to the County, the Contractor agrees to accomplish the Detailed Scope of Work in accordance with the Request for Proposal at the lump sum price submitted. It is the Contractor's responsibility to include all necessary Pre-priced and Non Pre-priced tasks and quantities in the Job Order Price Proposal prior to delivering it to the County.

.3 The County will evaluate the entire Job Order Proposal, including the correct tasks and quantities, and determine if the Contractor proposes to accomplish the Detailed Scope of Work in a manner acceptable to the County.

2.2.20 Issuance of the Job Order

1. A Job Order signed by the County will be provided to the Contractor. Each Job Order will include a Detailed Scope of Work, a firm fixed price, a time duration for the completion of the Work, and any special

Packet Pg. 1610
conditions that might apply to that specific Job Order, such as Liquidated Damages. After the County issues a Job Order the Contractor’s Detailed Job Order Price Proposal is of no significance. The Detailed Scope of Work becomes the Final Scope of Work. The Final Scope of Work defines the requirements of the Job Order. All provisions of this Contract are applicable to each Job Order. Job Orders will be written on an appropriate form.

2. The County may direct the Contractor to undertake and possibly complete urgent work prior to the issuance of a Job Order. The Contractor will be compensated in accordance with the provisions of this Contract. In such emergency situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal may be required quickly and the due date will be so indicated on the Request for Proposal or, as described below, the Contractor may be directed to begin work immediately with the paperwork to follow. The Contractor shall begin work as directed notwithstanding the absence of a fully developed Request for Proposal, Detailed Scope of Work, or Job Order. The Contractor shall be compensated for such work as if the work had been ordered under the standard procedures.

2.2.21 Unilateral Job Order.

If the Contractor has failed to submit a Job Order Proposal or the parties fail to reach an agreement, the County may issue a Unilateral Job Order. Compensation for the Work shall be in accordance with the CTC and terms and conditions of the Contract Documents. The Contractor must commence any work issued under a Unilateral Job Order in the time stated in the Job Order. Failure to commence Work may result in termination of this Contract for cause under 2.4.2. The issuance of a Unilateral Job Order will not prejudice any of the Contractor’s rights to make claims or appeal disputed matters.

2.2.22 Computer and Communications Equipment Requirements

The Contractor must maintain in an operational condition, a computer system capable of operating the software supplied by the County.
Using The Construction Task Catalog®

- Labor costs include time lost for normal work breaks, layout, measuring and cutting to fit, clean up of regular construction debris, inspection, per compliance, job meetings and start-up.

Equipment Costs:

- Equipment costs include all equipment required to accomplish the task including rigging and mobilization, except large equipment (e.g. crane, pile drivers, bulldozers, excavators, backhoes, bobcats etc.) which exclude mobilization.
- Equipment costs include all operating expenses such as fuel, electricity, lubricants, etc.

Material Costs:

- Material costs include the cost of the material be installed and all incidentals and accessories integral to the installation.
- Material costs include manufacturer's and fabricator's shop drawings.
- Material costs for roofing, drywall, VCT, carpet, covering, ceiling tile, pipe, conduit, concrete, etc. include an allowance for waste. This list is intended to be all inclusive, but descriptive of types of construction materials that are typically sold in standard lengths, sizes and weights.

Complete and In-Place Construction:

- Unit prices are for complete and in-place construction and include all labor, equipment and material required to complete the task as described in the CTC.
- Unit Prices include delivery, unloading and storages, materials, tools and equipment on site; moving materials, tools and equipment from storage area truck up to 2 ½ stories (2 stories with an attic) or within 125’ to reach the site.

CTC Information:

- This Construction Task Catalog® was developed and customized by The Gordian Group, Inc. specifically for County of Santa Clara, Facilities And Fleet, priced locally using current labor, material and equipment costs, and published in September 2013.
- The Gordian Group, Inc. licenses the use of this CTC and other proprietary information and software for the sole purpose of providing Job Order Contracting services to County of Santa Clara, Facilities And Fleet. Use of The Gordian Group's CTC and other proprietary information and software for any other purpose or by any other entity is expressly prohibited without the express written consent of The Gordian Group, Inc.

MasterFormat™

- The tasks in this Construction Task Catalog are organized using CSI's MasterFormat.

The Unit Prices Include:

Labor Costs:

- Labor costs include direct labor through the working foreperson level at straight-time prevailing wage rates including fringe benefits and an allowance for Social Security and Medicare taxes, worker's compensation, unemployment insurance and employee benefits.
- Labor costs are based on workers familiar with and skilled in the performance of the task following OSHA requirements.
Using The Construction Task Catalog®

☐ Unit prices exclude moving material and equipment greater than 2 ½ stories and handling material and equipment more than 125' (See 01661900).

☐ Unit prices for imported materials (aggregate, sand, soil, etc.) include delivery up to 15 miles from the closest approved source.

☐ Unit prices include all fasteners such as anchor bolts, lag bolts, screws, adhesive, wedge anchors, expansion bolts, roofing clips (excluding hurricane clips) that are required. Fasteners listed separately in the CTC are for use with Owner furnished material and equipment or relocating or reinstalling existing material and equipment.

☐ Unit prices exclude more substantial mounting material such as threaded rod or angle iron unless the task description states otherwise.

☐ Unit prices for doors and windows, duct work, plumbing fixtures, seamless floors, countertops, flashing, pitch pockets, skylights, curbs, roofing, etc. include sealant and caulking.

☐ Unit prices include testing, calibration, balancing and the like required to ensure proper installation, construction and performance (e.g. compaction test for backfill, balancing of heating ventilation and air conditioning, pneumatic or hydrostatic testing, soaking of joints, disinfection and flushing, others as required). Use of owner supplied materials, equipment or tying into existing equipment/piping may justify testing, balancing, etc.

Demolition:

☐ Unit prices for demolition include all labor, equipment and material required for the complete removal of the required items; clean-up of the area; and transferring down 2 ½ stories and within 125' of the site into a truck or dumpster for debris or to a designated area for owner requested items.

☐ Unit prices for demolition exclude costs for hauling (See 01741900), dump fees (See 01741900), dumpsters (See 01741900), trash chutes (See 01741900), and handling materials more than 2 ½ stories or more than 125' from the site (See 01661900), unless the task description states otherwise.

☐ If the item being demolished is attached to another item being removed and can be removed as one item, then that item shall not be priced as a separate demolition task, unless the component alone must be demolished to accomplish the task (e.g. demolition of pipe includes pipe fittings unless the fitting must be demolished separately to accomplish the task; demolition of a wood door includes hinges, hardware, closures, kick plates, etc.).

☐ The description "replace" includes the demolition of the existing item and the installation of the new item.

☐ The descriptions "remove and relocate" or "remove and reinstall" includes the removal, cleaning of item and installation of the existing item in either the same location or another location.

☐ The description "reinstall" includes the cleaning and installation of the existing item.

☐ Salvageable materials remain the property of the Owner and shall be turned over as directed when specified in the Job Order.

The Adjustment Factors Include:

BUSINESS COSTS:

☐ Overhead costs, including, unless specifically excluded in the Contract Documents, but not limited to:
  • home office overhead
  • insurance, bonds, and indemnification
  • project meetings, training, management and supervision
  • mobilization and close-out for the contract and each Job Order and
  • project office staff and equipment.

☐ Profit.
CONSTRUCTION RELATED COSTS:

☑ Subcontractor’s overhead and profit.
☑ All taxes for which a waiver is not available including material sales tax and equipment rental.
☑ Employee or Subcontractor’s wage rates that exceed the prevailing wage rates.
☑ Fringe benefits, payroll taxes, worker’s compensation, insurance costs and any other payment mandated by law in connection with labor that exceeds the labor rate allowances.
☑ Cost of financing the work.
☑ Business risks such as the risk of a lower than expected volume of work, smaller than anticipated Job Orders, poor Subcontractor performance, and inflation or material cost fluctuations.

PRICE VARIATIONS:

☑ Contractors may find differences in labor and material costs due to certain economic factors. Variations in labor cost can result from labor efficiency, labor restrictive working conditions and local work rules. Variations in material costs can also result from the quantity material purchased, the existing relationship with suppliers, and because the materials have been discontinued or have become obsolete.

☑ While diligent effort is made to provide accurate and reliable up-to-date pricing, it is the responsibility of the Contractor to review and analyze the unit price and to calculate their Adjustment Fact accordingly, prior to bidding.

Using The Construction Task Catalog

☑ Removing and returning Owner's furniture; furnishings (chairs, tables, pictures, etc. excluding modular furniture, wall or ceiling attach or fastened devices or furnishings, safes or of furniture requiring disassembly).
☑ Protection of all surfaces including those not in scope of work from construction dust, debris damage during construction up until final acceptance. The methods of protection include plastic, paper, sealing doors or windows, etc. the Contractor's responsibility.
☑ Daily clean-up.
☑ Final professional project clean-up.
☑ Costs resulting from inadequate supply of building materials, fuel, electricity, or skilled labor.
☑ Costs resulting from productivity loss.
☑ Working in extreme temperatures (below or above normal) or adverse conditions such as excess rain, wind, sleet or snow.
☑ Differences in project size; complexity and locat
☑ All costs for other than discreet items of specifically required to complete a particular Order.
GENERAL COSTS:

☐ This list is not exhaustive and is intended to provide general examples of cost items to be included in the Contractor’s Adjustment Factor as defined in the Contract.

☐ The only compensation to be paid to a Contractor for the unit price tasks will be:

<table>
<thead>
<tr>
<th>Published Unit Price</th>
<th>X</th>
<th>Installation (or Demolition)</th>
<th>X</th>
<th>Appropriate Adjustment Factor</th>
</tr>
</thead>
</table>

☐ No additional payments of any kind whatsoever will be made. All costs not included in the unit prices must be part of the Adjustment Factors.

ASSEMBLIES:

☐ Assembly unit prices take precedence over individual component pricing.

TESTING:

☐ Contractor will be paid for testing existing material, as required by the technical specifications and as directed by the Owner (record tests) at the unit price for the appropriate task. The cost of process quality control testing routinely performed by the Contractor is included in the unit prices for the individual tasks.

MISCELLANEOUS:

☐ For the purpose of quantity discounts, quantities are calculated on a per project basis. The quantity discount applies to the total quantity so determined.

☐ Whenever there are alternative tasks that may be selected to complete work, the Contractor shall select the most practical and economical tasks available (e.g., rental of equipment by weeks or months rather than days or painting by roller or spray rather than brush).

☐ Restricted Working Space is defined as any area with less than 3’ vertical or horizontal clearance and includes areas such as crawl spaces, ceiling plenums where the grid is not removed, narrow piping tunnels, and equipment rooms where the space to install the new work is congested as a result of equipment and piping placement that meet these dimensional restrictions. A Restricted Working Space modifier is available for certain mechanical piping and piping accessories tasks and for certain electrical conduit and conduit accessories tasks. Only those tasks with a modifier for Restricted Working Space are eligible for a price adjustment, and then only if the modifier applies to the contemplated tasks. A non pre-priced task will not be allowed because of Restricted Working Space for any CTC task.

☐ Confined Working Space is defined according to the OSHA definition 29 CFR 1926.21(b)(6)(i): “Any space having limited means of egress, which is
subject to accumulation of toxic or flammable contaminants or has an oxygen deficient atmosphere, including, but not limited to, storage tanks, process vessels, bins, boilers, ventilation and exhaust duct, sewers, underground vaults, tunnels, pipelines and open top spaces more than 4 feet in depth such as pits and tubes. The Contractor shall conform to all OSHA and Owner requirements for working in Confined Working Spaces. Required ventilation and air monitoring equipment tasks shall be priced from the CTC.

Whenever a material, article or piece of equipment is identified in the CTC or in the specifications by reference to manufacturers' or vendors' names, trade names, catalogue numbers, or make, the identification is intended to establish a standard. Any material, article or equipment of another manufacturer or vendor which performs satisfactorily the duties imposed by the general design may be considered equally acceptable provided that, in the opinion of the Owner, the material, article or equipment so proposed is of equal quality, substance and function. The Contractor shall not provide, furnish or install any proposed material, article or equipment without the prior written approval of the Owner. The burden of proof and all costs related thereto concerning the "or equal" nature of the substitute item, whether approved or disapproved, shall be borne by the Contractor.

**SPECIFICATIONS:**

Specifications for tasks shall be interpreted as follows: All labor, material, equipment, spare parts, services, and work required by a specification shall be considered part of the unit price, unless the task description or technical specifications state otherwise.
MATERIAL WEIGHTS:

EARTHEAN MATERIAL

The following engineering values for establishing shrink/swell factors shall be used unless otherwise directed by the Owner.

END DOCUMENT 00850
INSURANCE REQUIREMENTS FOR CONSTRUCTION CONTRACTS

Indemnity

To the fullest extent allowed by law, the Contractor shall indemnify, defend, and hold harmless the County of Santa Clara (hereinafter "County"), its officers, agents and employees from any claim, liability, loss, injury or damage arising out of, or in connection with, performance of this Agreement by Contractor and/or its agents, employees or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the County. It is the intent of the parties to this Agreement to provide the broadest possible coverage for the County. The Contractor shall reimburse the County for all costs, attorneys' fees, expenses and liabilities incurred with respect to any litigation in which the Contractor contests its obligation to indemnify, defend and/or hold harmless the County under this Agreement and does not prevail in that contest.

Insurance

Without limiting the Contractor's indemnification of the County, the Contractor shall provide and maintain at its own expense, during the term of this Agreement, or as may be further required herein, the following insurance coverages and provisions:

A. Evidence of Coverage

Prior to commencement of this Agreement, the Contractor shall provide a Certificate of Insurance certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier must accompany the certificate. In addition, a certified copy of the policy or policies shall be provided by the Contractor upon request.

This verification of coverage shall be sent to the requesting County department, unless otherwise directed. The Contractor shall not receive a Notice to Proceed with the work under the Agreement until it has obtained all insurance required and such insurance has been approved by the County. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

B. Qualifying Insurers

1. All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- V, according to the current Best's Key Rating Guide or a company of equal financial stability that is approved by the County's Insurance Manager.
2. When surety bonds are required, they shall be issued by companies that meet the following minimum requirements:

a. For projects in excess of $250,000:
   1. A California admitted surety with either a current A.M. Best rating of A IV or a current Standard and Poors (S&P) rating of A.

   OR

   2. An admitted surety insurer which complies with the provisions of the Code of Civil Procedure, Section 995.660*.

   OR

   3. In lieu of 1 & 2, a company of equal financial size and stability that is approved by the County's Insurance Manager.

b. For projects under $250,000:
   1. A California admitted surety with either a current A.M. Best rating of B or a current Standard and Poors (S&P) rating of BB.

   OR

   2. An admitted surety insurer which complies with the provisions of the Code of Civil Procedure, Section 995.660*.

   OR

   3. In lieu of 1 & 2, a company of equal financial size and stability that is approved by the County's Insurance Manager.

*C California Code of Civil Procedure Section 995.660 in summary, states that an admitted surety must provide: 1) the original, or a certified copy of instrument authorizing the person who executed the bond to do so, within 10 calendar days of receipt of a request to submit the instrument; 2) a certified copy of the Certificate of Authority issued by the Insurance Commissioner, within 10 calendar days of receipt of a request to submit the copy; 3) a certificate from County Clerk of Santa Clara County that Certificate of Authority has not been surrendered, revoked, canceled, annulled or suspended, within 10 calendar days of receipt of the certificate; 4) copies of the surety's most recent annual statement and quarterly statement filed with the Department of Insurance pursuant to Article 10, within 10 calendar days of receipt of a request to submit the statements.

C. Notice of Cancellation

All coverage as required herein shall not be canceled or changed so as to no longer meet the specified County insurance requirements without 30 days' prior written notice of such cancellation or change being delivered to the County of Santa Clara or their designated agent.
D. Insurance Required

1. Commercial General Liability Insurance - for bodily injury (including death) and property damage which provides limits as follows:
   a. Each occurrence - $1,000,000
   b. General aggregate - $2,000,000
   c. Products/Completed Operations aggregate ** - $2,000,000
   d. Personal Injury - $1,000,000

   A minimum of 50% of each of the aggregate limits must remain available at all times unless coverage is project specific.

2. General liability coverage shall include:
   a. Premises and Operations
   b. **Products/Completed Operations with limits of two million dollars ($2,000,000) per aggregate to be maintained for three (3) years following acceptance of the work by the County. For contracts whose maximum value is less than $80,000, Products/Completed Operations limits shall be one million dollars ($1,000,000) and two (2) years.
   c. Contractual Liability expressly including liability assumed under this Agreement. If the Contractor is working within fifty (50) feet of a railroad or light rail operation, any exclusion as to performance of operations within the vicinity of any railroad bridge, trestle, track, roadbed, tunnel, underpass or crossway shall be deleted, or a railroad protective policy provided.
   d. Personal Injury liability
   e. Owners' and Contractors' Protective liability
   f. Severability of interest
   g. Explosion, Collapse, and Underground Hazards (X, C and U)
   h. Broad Form Property Damage liability

3. General liability coverage shall include the following endorsements, copies of which shall be provided to the County:
   a. Additional Insured Endorsement, which shall read:
“County of Santa Clara, and members of the Board of Supervisors of the County of Santa Clara, and the officers, agents, and employees of the County of Santa Clara, individually and collectively, as additional insureds.”

Insurance afforded by the additional insured endorsement shall apply as primary insurance, and other insurance maintained by the County of Santa Clara, its officers, agents, and employees shall be excess only and not contributing with insurance provided under this policy. Public Entities may also be added to the additional insured endorsement as applicable and the contractor shall be notified by the contracting department of these requirements.

b. **Contractual Liability Endorsement:**

Insurance afforded by this policy shall apply to liability assumed by the insured under written contract with the County of Santa Clara.

c. **X C & U (Explosion, Collapse and Underground) Endorsement:**

Insurance afforded by this policy shall provide X, C and U Hazards coverage.

4. **Claims Made Coverage**

If coverage is written on a claims made basis, the Certificate of Insurance shall clearly state so. In addition to coverage requirements above, such policy shall provide that:

a. Policy retroactive date coincides with or precedes the Contractor's start of work (including subsequent policies purchased as renewals or replacements).

b. Contractor will make every effort to maintain similar insurance during the required extended period of coverage following project completion, including the requirement of adding all additional insureds.

c. If insurance is terminated for any reason, Contractor agrees to purchase an extended reporting provision of at least two years to report claims arising from work performed in connection with this Agreement or Permit.

d. Policy allows for reporting of circumstances or incidents that might give rise to future claims.
5. **Automobile Liability Insurance**

For bodily injury (including death) and property damage which provides total limits of not less than one million dollars ($1,000,000) combined single limit per occurrence applicable to all owned, non-owned and hired vehicles.

6. **Workers’ Compensation and Employer’s Liability Insurance**

a. Statutory California Workers' Compensation coverage including broad form all-states coverage.

b. Employer's Liability coverage for not less than one million dollars ($1,000,000) per occurrence.

7. **Contractors’ Equipment Insurance**

On an “all risk” basis covering equipment owned, leased, or used by the Contractor. If the total value of equipment is less than $100,000 Contractor may self-insure this exposure. If total equipment value is $100,000 or more, insurance is required. Such insurance shall include an insurer’s waiver of subrogation in favor of the County. Contractor shall hold harmless the County for any loss or damage to the Contractor’s equipment. This coverage may be waived by the Insurance Manager, but the Contractor hereby releases and holds harmless the County for any loss or damages to its equipment.

8. **Builder’s Risk Insurance**

The County shall provide Builder’s Risk insurance (first party property insurance) on an all risk basis including flood with a limit of no less than the full replacement value of the work, and covering the work and all materials incorporated therein, and insuring the interests of the County, Contractor, and subcontractors. Insurance shall contain insurer's waiver of subrogation in favor of the Contractor and subcontractors. The Contractor shall be responsible for the first $50,000 of any loss. The County’s provision of Builder’s risk insurance is an economic convenience to the County, and does not change or revise the Contractor’s responsibility for the Work until County Acceptance, including but not limited to, losses that may exceed the insurance limits. Contractor may secure additional insurance, in Contractor’s sole and absolute discretion, and Contractor must include the cost of such insurance in Contractor’s bid.
E. Special Provisions

The following provisions shall apply to this Agreement:

1. The foregoing requirements as to the types and limits of insurance coverage to be maintained by the Contractor and any approval of said insurance by the County or its insurance consultant(s) are not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to this Agreement, including but not limited to the provisions concerning indemnification.

2. The County acknowledges that some insurance requirements contained in this Agreement may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by the Contractor under this Agreement. Any self-insurance shall be approved in writing by the County upon satisfactory evidence of financial capacity. Contractors obligation hereunder may be satisfied in whole or in part by adequately funded self-insurance programs or self-insurance retentions.

3. Should any of the work under this Agreement be sublet, the Contractor shall require each of its subcontractors of any tier to carry the aforementioned coverages, or Contractor may insure subcontractors under its own policies.

4. The County reserves the right to withhold payments to the Contractor in the event of material noncompliance with the insurance requirements outlined above.

F. Bond Requirements

1. Contract Bonds - Prior to execution of the Contract, Contractor shall file with the County on the approved forms, the two surety bonds in the amounts and for the purposes noted below, duly executed by a reputable surety company satisfactory to County, and Contractor shall pay all premiums and costs thereof and incidental thereto.

Each bond shall be signed by both Contractor and the sureties.

a) The "payment bond for public works" shall be in an amount of one hundred percent (100%) of the Contract price, as determined from the prices in the bid form, and shall insure to the benefit of persons performing labor or furnishing materials in connection with the work of the proposed Contract. This bond shall be maintained in full force and effect until all work under the Contract is completed and accepted by the County, and until all claims for materials and labor have been paid.

b) The "performance bond" shall be in an amount of one hundred percent (100%) of the Contract price as determined from the prices in the bid form, and shall insure the faithful performance by Contractor of all work under
the Contract. It shall also insure the replacing of, or making acceptable, any defective materials or faulty workmanship.

Should any surety or sureties be deemed unsatisfactory at any time by the County notice will be given Contractor to that effect and Contractor shall forthwith substitute a new surety or sureties satisfactory to the County. No further payment shall be deemed due or will be made under the Contract until the new sureties qualify and are accepted by the County.

All alterations, time extensions, extra and additional work, and other changes authorized by the Specifications, or any part of the Contract, may be made without securing consent of the surety or sureties on the contract bonds.

2. Fidelity Bonds – Required only if contractor will be receiving advanced funds or payments. Before receiving compensation under this Agreement, Contractor will furnish County with evidence that all officials, employees, and agents handling or having access to funds received or disbursed under this Agreement, or authorized to sign or countersign checks, are covered by a BLANKET FIDELITY BOND in an amount of AT LEAST fifteen percent (15%) of the maximum financial obligation of the County cited herein. If such bond is canceled or reduced, Contractor will notify County immediately, and County may withhold further payment to Contractor until proper coverage has been obtained. Failure to give such notice may be cause for termination of this Agreement, at the option of County.

**END OF SECTION 01090**
PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 - General
      a. 1.01 - Summary
      b. 1.02 - Related Documents And Sections
      c. 1.03 – Definitions
      d. 1.04 – Cost Breakdown
      e. 1.05 – Payment for Materials On-hand
      f. 1.06 – Applications for Payment
      g. 1.07 - Payment Application Form and Submission
      h. 1.08 – Administrative Submittals Required With Payment Applications
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms
      a. Cost Breakdown Form 01290F-1

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.8, “Payments”
B. Section 01450, “Contractor’s Quality Control (QC) System”
C. Section 01320, “Contractor Progress Documentation”

1.03 DEFINITIONS
A. Materials On Hand - Acceptable materials procured and delivered to the Project Site and suitably protected but not yet used in the Project, and at sole discretion of the Owner’s Authorized Representative, acceptable materials stored at off-site locations. All off-site storage must be in secured facilities with insurance coverages acceptable to Owner. Contractor’s surety must consent in writing to Contractor’s request for payment for materials stored off-site.

1.04 COST BREAKDOWN
A. Coordinate preparation of the Cost Breakdown with preparation of the Contractor’s Baseline Schedule.
   1. Correlate line items in the Cost Breakdown with other required administrative forms and schedules including payment request forms.
   2. Submit the Cost Breakdown to the Owner as required in Section 01320, “Contractor Progress Documentation.”
B. The Cost Breakdown must differentiate costs of labor, materials, equipment, supplies, overhead (including general conditions costs), and profit. The Cost Breakdown must cover and be cross-referenced to the activities on the Official Progress Schedule. The Cost Breakdown will be used in coordination with the Official Progress Schedule and as a basis for progress payments.
C. Mobilization cost and payment thereof is governed by Document 00700.8.2.3, “Mobilization Costs.” Separate mobilization costs must not be shown on the Cost Breakdown.
D. Except as Directed by the Owner, Submittal activities, Shop Drawing activities, and other similar general conditions administrative or engineering activities must not be cost loaded.

01290-1
E. Submit Cost Breakdown information, as appropriate, for each activity on the Official Progress Schedule. Costs must be broken down, organized and formatted as shown on Cost Breakdown Form 01290F-1 at the end of Section 01290, “Payment Procedures.”

F. Each Subcontractor’s activities must be separately identified on Cost Breakdown Form 01290F-1. The sum of the labor, materials, equipment, overhead and profit values for the Work of each Subcontractor identified on the Cost Breakdown Form must equal the value of the Subcontract between the Contractor and the Subcontractor indicated.

G. The sum of the values of the Contractor’s activities on Cost Breakdown Form plus the sum of the values of the Subcontractors activities on the Cost Breakdown Form 01290F-1 must equal the Contract Sum for the Project.

H. Overhead (including general requirements costs), and profit must be proportionally prorated over all cost loaded activities as a fixed percentage of the value of each activity.

I. A Cost Breakdown may be rejected if in Owner's opinion any item is unbalanced.

1.05 PAYMENT FOR MATERIALS ON HAND

A. Materials On Hand must be collected together and separated from other materials and clearly identified as property of Owner and must be accessible to Owner at all reasonable times for examination or other legal purposes.

B. For Materials On Hand to be considered for payment Contractor must request payment for them on Owner furnished or Owner Approved forms including accompanying documentation as required by Owner. Contractor must submit an original and two (2) copies to Owner not later than two weeks prior to the end of the payment application period. All accompanying documentation required by the Owner including evidence of purchase (and warehouse receipt when required) must be attached to the original. The Contractor must certify in writing that the subject materials meet the requirements of the Contract Documents.

C. The Contractor must submit and the Owner must have accepted all shop drawings and submittals for the Materials On Hand prior to the Contractor’s request for payment for said Materials On Hand.

D. The provisions allowing payment for Materials On Hand are intended to be applied to large items of equipment and construction materials of special manufacture or order for the Project.

1.06 APPLICATIONS FOR PAYMENT

A. The cut-off date (last day) for each progress payment is the last day of the month or as otherwise Directed by the Owner.

B. The period of construction Work covered by each application for payment is the period beginning the first day of the payment application period and ending with the last day of the payment application period.

C. Before the end of each payment application period, Contractor and Owner's Project Manager will jointly review Contractor's estimate of items of Work completed and acceptable Materials On Hand for which Contractor is requesting a progress payment. The joint review (job walk) will occur at the Project site.

D. Prior to the joint review, Contractor must provide Owner with two (2) copies of a progress estimate worksheet showing each activity on the Official Progress Schedule that has been started but is not yet complete. The worksheet will be used during the joint review to document the actual physical percentage complete of each started but uncompleted activity.

E. After the joint review, Contractor must prepare on Owner furnished or Owner Approved forms, a formal request for payment. Two (2) copies the formal request for payment must be submitted to the Owner no later than one day after the end of the payment period.

F. With the submission of the formal request for payment, Contractor must provide two (2)
copies of an updated Cost Breakdown, showing the total value, percentage completed, and earned value of each item. The updated Cost Breakdown must be submitted to Owner on Owner-furnished or Owner Approved forms.

G. Payment will be due to Contractor thirty (30) Days after receipt by Owner of a properly prepared progress payment request from the Contractor. Returned and resubmitted progress payment requests must state resubmission date.

1.07 PAYMENT APPLICATION FORM AND SUBMISSION

A. Use forms as furnished or Approved by the Owner.

B. Complete every entry on form.

C. All amounts billed must be submitted as whole dollar amounts.

D. A person authorized to sign legal documents for Contractor must sign the formal payment application.

E. The Owner will return incomplete applications “Returned Without Action.”

F. Entries must match data on the Approved Cost Breakdown

G. Include amounts of executed Change Orders as separate line items in the Cost Breakdown

H. Submit the signed original and one (1) copy of each application for payment to the Owner by a method ensuring receipt by Owner within 24 hours.

I. Owner will release retention in accordance with article 8.3; Contractor should not invoice Owner for retention.

1.08 ADMINISTRATIVE SUBMITTALS COINCIDING WITH PAYMENT APPLICATIONS

A. Administrative actions and submittals that must coincide with submittal of each application for payment include the following:
   1. Certified Payroll (Must be submitted within 10 Days from payment period end date.)
   2. Updated (As-Built) Record Documents (Must be updated prior to payment period end date)
   3. Updated Official Progress Schedule (Must be submitted with request for Progress Payment)
   4. Earned Value statement based on Updated Official Progress Schedule and approved Cost Breakdown (Must be submitted with request for Progress Payment)
   5. Updated Procurement Status Log (Must be submitted with request for Progress Payment)
   6. Updated Submittal Log (Must be submitted with request for Progress Payment)
   7. Monthly Report (Must be submitted within 3 days from payment period end date.)

B. Final payment application
   1. Submit, on forms furnished or Approved by the Owner, two (2) copies of a final application for payment with supporting documentation not previously submitted and accepted, including, but not limited, to the following:
      a. Evidence of completion of Project closeout requirements.
      b. Evidence that claims have been settled.
      c. Other documents as required by the Owner.

END OF SECTION 01290
SECTION 01310
PROJECT MANAGEMENT AND COORDINATION

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents And Sections
      c. 1.03 – Project Manager / Superintendent Safety Training
      d. 1.04 – Coordination
      e. 1.05 – Pre-work Verification
      f. 1.06 – Administrative Actions
      g. 1.07 – Conservation
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.3, “Contractor’s Responsibilities”
B. Section 01725, “Survey & Field Engineering” Section 01315, “Project Meetings”
C. Section 01320, “Contractor Progress Documentation”
D. Section 01450, “Contractor’s Quality Control (QC)”

1.03 PROJECT MANAGER / SUPERINTENDENT SAFETY TRAINING
All Contractor Project Managers and on site Superintendents shall possess an OSHA 30 hr. Construction Safety, Outreach Training certificate that is not over 5 years old. Certificate shall be presented to the County before said Project Manager or Superintendent will be permitted to perform on this contract.

1.04 COORDINATION
A. Contractor must not delegate Contractor’s responsibility for coordination of the Work to any Subcontractor.
B. Contractor must provide a General Superintendent whose sole responsibility is administration of the Contractor’s Work and the coordination of the Work of the Contractor’s Subcontractors and suppliers.
C. Contractor must provide administrative and supervisory personnel as needed or required for timely compliance with all administrative requirements of the Contract Documents and proper coordination of the performance of the Work.
D. Contractor must ensure that each Subcontractor provides personnel as reasonably required for management and coordination of the Subcontractor’s Work and for coordination of the Subcontractor’s Work with the Work of the entire Project.
E. Contractor must coordinate the Work to ensure efficient and orderly installation of each part of the Work of the entire Project including but not limited to:
   1. Coordinating all aspects of the Work as required to provide the Owner with a complete and operable facility.
   2. Coordinating the Work with the work of other contractors and entities to ensure efficient and orderly installation of each part of the Work of the entire Project.
3. Coordinating installation of different components and systems of the Work to ensure maximum accessibility for required maintenance, service, and repair.

4. Coordinating the Work included in different Sections of the Project Manual that depend on each other for proper installation, connection, and operation.

5. Coordinating the Work of all Subcontractors and suppliers.

6. Coordinating the Work in such a manner to avoid delays and permit proper and efficient installation of the Work by all Subcontractors.

7. Coordinating electrical/mechanical Work, particularly between general trades and mechanical/electrical trades, including the work of Owner and other contractors, so that sleeves, hangers, chases, openings, etc., required for pipe, conduit, and other installations of like character are duly and properly Provided and Installed as Work progresses.

8. Coordinating all cutting, fitting and patching that may be required to make the parts of the Work come together properly for the completed Project as shown or as reasonably implied by the Contract Documents.

9. Coordinating for future installation of work by others that is not included in the Contractor’s Work but is shown or specified in the Contract Documents.

10. Coordinating delivery of materials in accordance with the Official Progress Schedule.

11. Coordinating and cooperating in the timing and sequencing of Contractor’s Work with the work of other contractors or the Owner.

12. Sequencing the Work to obtain the best results where installation of one component of the Work depends on installation of other components, before or after its own installation.

13. Making adequate provisions to accommodate items scheduled for later installation by Contractor, Owner, or other contractors.

14. Checking the drawings of the Owner or other contractors for interferences with Contractor’s Work and promptly reporting to Owner, in writing, any potential interferences between the Contractor’s Work and the work of Owner or the work of other contractors.

15. Utilizing the Contract Documents and Owner accepted Submittals to check and coordinate the Work so that no interferences or conflicts between trades occur. This checking and coordination must be performed and completed before construction is commenced in each affected area and may require the preparation and submission of Coordination Drawings.

16. Furnishing to other contractors, whose work is fitted to Contractor’s Work, Record Documents, Coordination Drawings, details, and erection drawings giving full information regarding the Fabrication, assembly, and installation of Contractor’s Work.

17. Preparing memoranda for distribution to each party involved, outlining special procedures required for coordination. Include such items as required notices, reports, and list of attendees at meetings. Prepare similar memoranda for the Owner and separate contractors if coordination of their Work is required.

18. Resolving disputes between Subcontractors.

1.05 PRE-WORK VERIFICATION

A. Prior to starting a particular type or kind of Work:

1. Review all Contract Documents and other relevant data related to the type or kind of Work to be performed;

2. Check Owner accepted Submittals and verify dimensions at Project Site;

3. Review manufacturers instructions applicable to conditions under which Work is to be installed;

4. Inspect areas, surfaces or construction receiving the Work.
5. Report to Owner in writing and concerns, issues, or problems observed during Contractor’s Pre-Work verification.

B. Start of Work shall signify compliance with the above requirements and acceptance of previously placed construction or substrates as being in satisfactory condition to achieve proper installations and first quality workmanship as intended under these Contract Documents. Failure to so inspect and report to Owner shall constitute an acceptance of the previously placed construction or substrates.

1.06 ADMINISTRATIVE ACTIONS
A. Administrative actions include, but are not limited to, the following:
   1. Preparation, update, and revision of Contractor’s Official Progress Schedule (See Section 01320, “Construction Progress Documentation”.)
   2. Delivery and review of Submittals. (See Section 01330, “Submittal Procedures”)
   3. Project Meetings. (See Section 01315, “Project Meetings”)
   4. Project closeout activities. (See Section 01770, “Closeout Procedures”)
B. Coordinate timing of required administrative actions with construction activities and activities of Owner and other contractors to avoid conflicts and ensure orderly progress of the Work.

1.07 CONSERVATION
A. Coordinate Work to ensure that operations are carried out with consideration given to conservation of energy, water, and materials.
B. Salvage materials and equipment involved in performance of, but not actually incorporated into, the Work.

PART 2 - PRODUCTS (Not Used)
PART 3 - EXECUTION (Not Used)

SECTION 01315
PROJECT MEETINGS

PART 1 - GENERAL

1.01 SUMMARY
   A. This Section includes:
      1. Part 1 – General
         a. 1.01 – Summary
         b. 1.02 - Related Documents
         c. 1.03 – Definitions
         d. 1.04 – Project Meetings
      2. Part 2 – Products (Not Used)
      3. Part 3 – Execution (Not Used)
      4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS
   A. Section 01320, “Construction Progress Documentation”
   B. Section 01450, “Contractor’s Quality Control (QC) System”
   C. Section 01500, “Temporary Facilities and Controls”
   D. Section 01515, “Solid Waste Management and Recycling Plan”
   E. Section 01770, “Closeout Procedures”
   F. Section 01810, “General Commissioning Requirements”

1.03 DEFINITIONS
   A. Decision/Action Tracking Report – A report prepared by the Contractor recording all actions, commitments, and decisions (items) made at various Project Meetings and conferences. At a minimum, the report must track the name of the person responsible for the item, a description of the required action or decision, the initiation date of the item, the due date for the item, actual completion date of the item, and the current status of the item. Copies of the Decision/Action tracking report must be provided to all attendees and two (2) copies must be submitted to the Owner within twenty-four (24) hours of the meetings.

1.04 PROJECT MEETINGS
   A. General
      1. Contractor must inform participants of date and time of each meeting and preside at all required meetings throughout progress the Work unless otherwise Directed by Owner.
      2. Contractor must prepare agenda for all meetings and provide to all attendees prior to the meetings.
      3. Contractor must attend all meetings as required by the Contract Documents.
      4. Contractor must attend and/or conduct additional meetings as Directed by the Owner’s Project Manager.
      5. Contractor must conduct meetings and conferences at the Project Site in the Contractor’s on-site temporary job trailer, unless otherwise indicated or required by Owner.
      6. Contractor’s job trailer must contain a conference table and sufficient seating to accommodate eight (8) meeting participants.
      7. Contractor must prepare and distribute meeting minutes as required in individual sections of
the Project Manual.

8. Whether or not Contractor is responsible for the meeting minutes, Contractor must maintain notes from all meetings and conferences in the form of a Decision/Action Tracking Report.

B. Preconstruction Conference

1. The Owner will schedule and conduct a Preconstruction Conference before starting construction but no later than 21 Days after execution of the Agreement.

2. Conference will be held at Project Site or another convenient location designated by Owner.

3. Participants:
   a. Owner’s Project Manager (Mandatory Attendance Required)
   b. Designer of Record (Mandatory Attendance Required)
   c. Contractor’s Authorized Representative (Mandatory Attendance Required)
   d. Contractor’s QC Manager (Mandatory Attendance Required) (See Section 01450.1.08.A.2.r)
   e. Major Subcontractors (Mandatory Attendance Required)
   f. Testing Laboratory Representative (See Section 01430.1.08.G)
   g. Appropriate Manufacturers
   h. Appropriate Suppliers
   i. Other interested parties

4. All participants at the conference must be familiar with Project and authorized to conclude matters relating to the Work.

5. Agenda: Items of significance to be discussed at the meeting include:
   a. Introductions
   b. Notice To Proceed (NTP)
   c. Direction From The Owner
   d. Emergencies
   e. Required Notifications
   f. Contractor Quality Control (QC) System
   g. Testing and Inspection Laboratory
   h. Coordination
   i. Normal Hours Of Work
   j. Workplace Environment
   k. Use of Project Site
   l. Security
   m. Disruption of Owner’s Normal Operations
   n. Use Of Owner’s Facilities
   o. Temporary Facilities and Controls
   p. Accepting Material Deliveries
   q. General Correspondence
   r. Additional Detailed Instructions
s. Field Modifications
t. Requests For Information (RFI)
u. Change Orders
v. Progress Payments
w. Submittals (List of Owner’s Submittal reviewers) (Ref 01332.1.08.A)
x. Record Documents
y. Owner Furnished Contractor Installed (OFCI) Equipment
z. Procurement Issues
aa. Project Meetings
bb. Permits
c. Final Draw
cc. Fire Marshal Issues
dd. Subcontractor Issues
e. Waste Management and Recycling Requirements
ff. Permanent Utilities
gg. Progress Cleaning
hh. Environmental Issues
ii. Schedule
jj. Liquidated Damages

6. The Owner will prepare meeting minutes of the Preconstruction Conference and distribute minutes to the attendees.

C. Schedule Orientation Meeting (See Section 01320.3.03, “Schedule Orientation Meeting”)

D. Solid Waste Management Plan Meeting (See Section 01515.1.05, “Solid Waste Management and Recycling Plan”)

E. Quality Control Meetings
   1. Contractor must conduct and take minutes of all meetings required by Section 01450, “Contractor’s Quality Control (QC) System”, including but not limited to:
      a. Coordination and Mutual Understanding Meeting (See Section 01450.1.10, “Coordination and Mutual Understanding Meeting”)
      b. Recurring QC Meetings (See Section 01450.1.11, “QC Meetings”)
      c. Preparatory Phase Meetings (See Section 01450.1.12, “Three Phases of Control”)
      d. Work Phase Meetings ((See Section 01450.1.14, “QC Documentation”)

F. Progress Meetings
   1. Owner’s Project Manager will establish a schedule of construction Progress Meetings. The frequency of these Progress Meetings shall be at the discretion of Owner’s Project Manager, and shall be no more often than once each week. Contractor must attend Progress Meetings at the times and locations scheduled. The progress meetings will be located at the Contractor’s on-site field office unless the Owner’s Project Manager approves an alternate location.

   2. Attendees:
      a. Owner’s Project Manager
      b. Designer of Record
      c. Contractor Authorized Representative
d. QC Manager (See Section 01450.1.08.A.2.r)
e. Appropriate Subcontractor(s)
f. Appropriate Suppliers
g. Testing Laboratory Representative (See Section 01430.1.08.G)
h. Other entities concerned with current progress or involved in planning, coordination, or performance of future activities must be represented at these meetings.

3. Agenda:
   a. Review and update Contractor’s Decision/Action Tracking Report from previous Progress Meeting
   b. Schedule Review
      (1) Review progress since the last meeting
      (2) Compare current progress against Official Progress Schedule
      (3) Determine how construction behind schedule will be expedited
      (4) Discuss whether schedule revisions are required to ensure that current and subsequent activities will be completed within the Contract Time.
   c. Review present and future needs of each entity present, including the following:
      (1) Interface requirements
      (2) Sequence of operations
      (3) Status of Submittals
      (4) Status of key deliveries
      (5) Status of off-site fabrication
      (6) Site access issues
      (7) Site utilization
      (8) Temporary facilities and controls
      (9) Normal Hours of Work
   d. Progress cleaning
   e. Change Orders.

4. At a minimum, the Contractor must maintain notes for all Progress Meetings in the form of a Decision/Action Tracking Report. Copies of the Decision/Action tracking report must be provided to all attendees and two (2) copies must be submitted to the Owner within twenty-four (24) hours of the meetings.

5. Closeout Conference (See Section 01770.1.04, “Closeout Conference”)

G. Commissioning Meetings (See Section 01810, “General Commissioning Requirements”)
H. Demonstration and Training Meetings (See Section 01820, “Demonstration and Training”)

RECORD DOCUMENTS (As-builts)

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents and Sections
      c. 1.03 - Definitions
      d. 1.04 - Record Documents
      e. 1.05 - Concealed Work
      f. 1.06 – Maintenance of documents and samples
      g. 1.07 – Record Set
      h. 1.08 - Progress Payments
      i. 1.09 - Closeout and Acceptance of the Work
      j. 1.10 - Submittals
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.3.3, “Documents & Samples at the Project Site”
B. Document 00700.8.2, “Progress Payments”
C. Document 00700.13.6, “Recommendation for Acceptance”
D. Section 01290, “Payment Procedures”

1.03 DEFINITIONS
A. As-Builts - A set of the Contract Documents including Drawings and Project Manual updated on a continuous basis to indicate conditions encountered and the final configuration of a Project as it was constructed. As-Builts include any change or clarification to the Contract Documents and dimensional information showing the actual locations of installed components of the Work. (Also known as “Record Documents” or “As-Built Documents”)

B. Record Set – Project Manual, Drawings, Addenda, Change Orders, Field Modifications, Requests for Information (RFI), Submittals, Product Data, Samples, Shop Drawings, Field Test and inspection records, and Coordination Drawings located at the Project Site.

1.04 RECORD DOCUMENTS
A. As-Builts Drawings
   1. Contractor must maintain at the Project Site at least one set of As-Built Drawings indicating the actual configuration of the Project as it is constructed.
   2. The Contractor must maintain the As-Built Drawings in good and current condition and post all changes and clarifications to the As-Built Documents on a daily basis.
   3. Contractor must handle the As-Built Drawings with great care, must not use the As-Built Drawings for any other purpose, and must keep them clean and readable.
   4. The As-Built Drawings must provide sufficient detail to make it possible to correctly and easily locate, identify, and establish sizes and routing of all piping and the like, as well
as other features of concealed Work.

5. The As-Built Drawings must indicate, by appropriate notations in the As-Built Drawings, all modifications or changes made to the Drawings by Addenda, Change Order, RFI, or Field Modification.

6. If Work is installed differently from, or in a location other than that shown on the Drawings, or if Contractor finds existing conditions to be different than indicated on the Drawings, Contractor must accurately note such variations on the As-Builts Drawings in red pencil on a daily basis as the Work progresses.

7. Label each page of the field set of the As-Built Drawings, "As Built Record Drawings" in neat large printed letters in the lower right hand corner.

8. Contractor must post to the As-Built Drawings on a daily basis all:
   a. Addenda
   b. Changer Orders
   c. Field Modifications
   d. Requests for Information
   e. Approved Product Substitutions
   f. All other details and dimensions not on the Bid Documents

B. As-Built Project Manual

1. Contractor must post to the As-Built Project Manual on a daily basis:
   a. All modifications or changes made to the Project Manual by:
      (1) Addenda
      (2) Change Order
      (3) Field Modification
      (4) Request for Information (RFI)
      (5) Approved Product Substitutions
      (6) All other information not in the Bid Documents
   b. The Products selected and used in the Work of the Project
      (1) For each Product actually Provided and/or Installed, legibly mark each section of the Project Manual to record:
         a. Manufacturer
         b. Trade name
         c. Catalog number
         d. Supplier

1.05 CONCEALED WORK

A. The As-Built Documents must indicate the locations of underground Work and Work concealed inside any construction.

B. Do not conceal any Work until required information is recorded in the As-Built Documents.

C. The specific location of all turns, centerline, invert elevations and rates of fall in underground and concealed Work must be indicated.

D. Dimensions to column lines, walls or other prominent features must be used for proper
E. Legibly mark to record actual construction:
   1. Depths of various elements of foundation in relation to finish first floor datum.
   2. Horizontal and vertical locations of underground utilities and appurtenances, referenced to permanent surface improvements.
      a. Give sufficient horizontal and vertical dimensions to accurately trace route and invert of each concealed line or item.
      b. Accurately locate each capped, plugged or stubbed line.
   3. Location of internal utilities and appurtenances concealed in the Work, referenced to visible and accessible features of the structure.
      a. Give sufficient horizontal and vertical dimensions to accurately trace route and invert of each concealed line or item.
      b. Accurately locate each capped, plugged or stubbed line.

1.06 MAINTENANCE OF DOCUMENTS AND SAMPLES
   A. Store As-Built Documents in Contractor's field office apart from documents used for construction.
   B. Provide files and racks for storage of As-Built Documents.
   C. File Record Set documents in accordance with CSI format.
   D. Maintain all documents in a clean, dry, legible condition and in good order.
   E. Do not use As-Built Documents for construction purposes.
   F. Make As-Built and Record Set documents available at all times for inspection by Owner's Project Manager.

1.07 RECORD SET
   A. Contractor must maintain at the Project Site at least one (1) copy of the Record Set including but not limited to:
      1. Project Manual (Bid Documents)
      2. Drawings (Bid Documents)
      3. Addenda
      4. Change Orders
      5. Field Modifications
      6. Requests for Information (RFI)
      7. Submittals
      8. Product Data
      9. Samples
      10. Shop Drawings
      11. Test and inspection records
      12. Coordination Drawings
      13. Approvals from Government Agencies and regulatory authorities
      14. All Correspondence
B. Record Product Data:
   1. Maintain one copy of each Owner accepted Product Data Submittal at the Project Site.
   2. Mark-up changes in actual Work in comparison with submitted information.
      a. Include both variations in product as delivered to Project Site and variations from
         manufacturer's instructions and recommendations for installation.
      b. Give particular attention to concealed products and portions of the Work which
         cannot otherwise be readily discerned at a later date by direct observation.
   3. Note Related Change Orders, if any.

1.08 PROGRESS PAYMENTS
A. The Inspector shall review the As-Built Documents prior to and as a condition of approving
   each progress payment.

1.09 CLOSEOUT AND ACCEPTANCE OF THE WORK
A. Contractor must transfer all entries from the As-Built Documents that were maintained at the
   Project Site to a complete set of Record Documents consisting of reproducible copies of the As-
   Built Drawings and hard copies of the As-Built Project Manual.
B. Contractor must mark the drawings "As-Built Record Drawings" and mark the As-Built Project
C. Contractor must sign each drawing in the final set of As-Built Drawings and sign the cover of the
   final As-Built Project Manual.
D. In accordance with Document 00700.13.6, "Recommendation for Acceptance", the Work
   shall not be recommended for Acceptance until Owner's Project Manager receives
   satisfactory Record Documents from Contractor.

1.10 SUBMITTALS
A. Submit four (4) copies of all Record Documents (As-Builts)
B. Accompany submittal with a transmittal letter, in duplicate, containing:
   1. Date
   2. Project title and number
   3. Contractor's name and address
   4. Title and number of each Record Document (As-Built)
   5. Signature of QC Manager or Contractor’s Authorized Representative
C. Samples
   1. Within fourteen (14) Days of Contractors certification of completion and request for Final
      Inspection, Owner’s Project Manager will meet with Contractor at Project Site to
      determine which, if any, of submitted samples maintained by Contractor during progress
      of the Work shall be transmitted to Owner for record purposes.
   2. Comply with Owner's instructions for packaging, identification marking, and delivery to
      Owner's sample storage space.
D. Submit evidence of compliance with the requirements of Governing Agencies and regulatory
   authorities:
   1. Certificates of Inspection:
      a. Elevators
b. Fire Marshal

2. Other Certificates:
   a. Occupancy Certificate from local building department

3. SWPPP Notice of Termination (NOT)

PART 2 - PRODUCTS (Not Used)
PART 3 - EXECUTION (Not Used)
PART 4 - FORMS (Not Used)

END OF SECTION 01325
SECTION 01330
SUBMITTAL PROCEDURES

PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:

1. Part 1 – General
   a. 1.01 – Summary
   b. 1.02 – Related Documents and Sections
   a. 1.03 - Definitions
   b. 1.04 - Scheduling
   c. 1.05 - Deviations
   d. 1.06 - Action Submittals
   e. 1.07 - Informational Submittals
   f. 1.08 - Identification
   g. 1.09 - Certification
   h. 1.10 - Packaging, Transmittal and Distribution
   i. 1.11 - Owner or Designer of Record’s Action

2. Part 2 – Products (Not Used)

3. Part 3 – Execution (Not Used)

4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.3.26, “Submittals”
B. Section 01310, “Project Management and Coordination”
C. Section 01320, “Contractor Progress Documentation”
D. Section 01332, “Submittal Log”
E. Section 01450, “Contractor’s Quality Control (QC) System”
F. Section 01810, “General Commissioning Requirements”

1.03 DEFINITIONS

A. Action Submittals - Submittals requiring Owner or Designer of Record’s written response.
B. Informational Submittals - Submittals not requiring Owner or Designer of Record’s written response. (Survey notes, QC Manager’s Daily Report, Laboratory test reports, etc.)
C. Preconstruction Submittals - Action Submittals and Informational Submittals requiring Owner’s acceptance before Contractor may proceed with the installation of Work or the procurement of the materials and/or equipment covered by the Submittal.

1.04 SCHEDULING

A. Schedule preparation and processing of Submittals in accordance with other sections of the Contract Documents and the specific Submittal deadlines and timeframes stated below.

1. Unless otherwise specifically stated in the Contract Documents, or specifically Approved in writing by the Owner’s Project Manager, all Preconstruction Submittals are due no later than 45 Days from the Official Start Date stated in the Notice to Proceed. (See Document 00700.3.26.1.7) General acceptance of the Contractor’s Progress Schedule, Submittal Log, or other related submittals by the Owner does not constitute specific Approval by the Owner’s Project Manager for deviation from the 45 Day cut-off date for Preconstruction Submittals.
Contractor must make a specific request in writing for each proposed deviation and the Owner's Project Manager must grant specific written Approval for each proposed deviation to the cut-off date.

2. Unless a longer period is specifically stated in the Contract Documents, allow at least 21 Days for Owner's review and return of all Submittals and resubmittals. (See Document 00700.3.26.4, "Minimum Submittal Review Times" and Section 01320.3.13.B, “Submittal Log”)

1.05 DEVIATIONS

A. Specifically identify each proposed deviation from the requirements of the Contract Documents.

1. Only making notations on the Submittal is not sufficient to satisfy this requirement. (See also Document 00700.3.26.1.5)

2. Each proposed deviation must be clearly highlighted, encircled, noted, or otherwise clearly identified on the Submittal and individually explained in writing in the transmittal accompanying the Submittal.

3. Making notations on the Submittal without the attached written explanation will not relieve the Contractor of responsibility for deviation from the requirements of the Contract Documents.

4. Unless specific deviations have been noted in writing by the Contractor and specifically accepted in writing by the Owner or Designer of Record, no deviations from the requirements of the Contract Documents are permitted.

B. If a Submittal contains no proposed deviation(s) from the requirements of the Contract Documents, the Contractor must indicate on the transmittal accompanying the Submittal that the Submittal contains “No Deviations” from the requirements of the Contract Documents.

1.06 ACTION SUBMITTALS

A. Prepare and submit Action Submittals required by individual sections of the Project Manual.

B. Refer to Section 01332, “Submittal Log”, for the number of copies to be submitted.

C. Product Data

1. Collect information into a single Complete Submittal for each Definable Feature of Work and type of product or equipment.

2. If information must be specially prepared for Submittal because standard printed data are not suitable for use, submit as Shop Drawings, not as Product Data.

3. Mark each copy of each Submittal to show which Products and options are applicable.

4. Include the following information, as applicable:
   a. Manufacturer's written recommendations.
   b. Manufacturer's product specifications.
   c. Manufacturer's installation instructions.
   d. Standard color charts.
   e. Manufacturer's catalog cuts.
   f. Diagrams showing factory-installed wiring, controls and piping diagrams.
   g. Printed performance curves, performance characteristics and capacities.
   h. Operational range diagrams.
   i. Mill reports.
   j. Standard product operating and maintenance manuals.
k. Compliance with recognized trade association standards.

l. Compliance with recognized testing agency standards.

m. Application of testing agency labels and seals.

n. Notation of coordination requirements.

o. Show wiring, piping diagrams, controls.

D. Shop Drawings

1. Preparation: Include the following information, as applicable:
   a. Dimensions.
   b. Identification of Products.
   c. Fabrication and installation drawings.
   d. Roughing-in and setting diagrams.
   e. Wiring diagrams showing field-installed wiring, including power, signal, and control wiring.
   f. Shopwork manufacturing instructions.
   g. Templates and patterns.
   h. Schedules.
   i. Design calculations.
   j. Compliance with specified standards.
   k. Notation of coordination requirements.
   l. Notation of dimensions established by field measurement.
   m. Identify details by reference to Drawing and detail, schedule, or room numbers shown and specified.

2. Wiring Diagrams: Differentiate between manufacturer-installed and field-installed wiring.

3. Sheet Size: Except for templates, patterns, and similar full-size drawings, submit Shop Drawings on sheets at least 8-1/2" x 11" (215 by 280 mm) but no larger than 36" x 48" (914 mm x 1219 mm).

4. Contractor must review and coordinate all Subcontractors’ Shop Drawings before submission to Owner. If required or needed, Contractor must prepare and submit Coordination Drawings.

5. Submittals must be complete for each item of Work and must not be submitted piecemeal.

6. Present Shop Drawings in a clear and thorough manner. Identify details by reference to sheet and detail, schedule, and room numbers shown on Drawings.

E. Samples

1. Refer to Section 01332, “Submittal Log” and the Technical Specifications for the number of Samples to be submitted.

2. Each Sample must clearly note the manufacturer, trade name, product, lot style, color, model, etc., locations of use, and Contract Document reference.

F. Coordination Drawings (See also Section 01335, “Coordination Drawings”)

01330-3
1. Contractor must prepare and submit drawings to demonstrate the coordination of methods, materials, equipment, plans, or sequence the Contractor proposes to use when:
   a. Coordination Drawings are specifically required by other sections of the Project Manual
   b. Limited space is available for installation of different components
   c. Coordination is required for installation of Products and materials Fabricated by separate entities
   d. The relationship of components is shown on separate Shop Drawings or Submittals.

2. Coordination Drawings must be submitted in the format required for Shop Drawings.

1.07 INFORMATIONAL SUBMITTALS

A. Prepare and submit Informational Submittals required by other section of the Project Manual.
   1. Number of Copies
      a. Refer to Section 01332, “Submittal Log”, for the number of copies to be submitted.
      b. Owner will not return copies.

B. Material Certificates: Prepare written statements on manufacturer's letterhead certifying that material complies with the requirements of the Contract Documents. An officer or other individual authorized to sign documents on behalf of that entity must sign certificates and certifications.

C. Material Test Reports: Prepare reports written by a qualified testing agency, on testing agency's standard form, indicating and interpreting test results of material for compliance with the requirements of the Contract Documents.

D. Preconstruction Test Reports: Prepare reports written by a qualified testing agency, on testing agency's standard form, indicating and interpreting results of tests performed before installation of product, for compliance with performance requirements.

E. Field Test Reports: Prepare reports written by a qualified testing agency, on testing agency's standard form, indicating and interpreting results of field tests performed either during installation of product or after product is installed in its final location, for compliance with the requirements of the Contract Documents.

F. Maintenance Data: Prepare written and graphic instructions and procedures for operation and normal maintenance of Products and equipment.
   1. Comply with requirements in Section 01770, “Closeout Procedures.”
   2. Comply with the requirements of Section 01782, "Operation and Maintenance Data"
   3. Comply with the requirements of the Technical Specifications.

G. Manufacturer's Instructions: Prepare written or published information that documents manufacturer's recommendations, guidelines, and procedures for installing or operating a product or equipment.
   1. Include name of product and name, address, and telephone number of manufacturer.
   2. Include the following, as applicable:
      a. Preparation of substrates.
      b. Required substrate tolerances.
      c. Sequence of installation or erection.
d. Required installation tolerances.
e. Required adjustments.
f. Recommendations for cleaning and protection.

H. Manufacturer's Field Reports: Prepare written information documenting factory-authorized service representative's tests and inspections. Include the following, as applicable:

1. Name, address, and telephone number of factory-authorized service representative making report.
2. Statement on condition of substrates and their acceptability for installation of product.
3. Statement that Products at Project Site comply with the requirements of the Contract Documents.
4. Summary of installation procedures being followed, whether they comply with requirements and, if not, what corrective action was taken.
5. Results of operational and other tests and a statement of whether observed performance complies with requirements.
6. Statement whether conditions, Products, and installation will affect Warranty/Guarantee.
7. Other required items indicated in individual sections of the Contract Documents.

1.08 IDENTIFICATION

A. Place a permanent label, or title block on each Submittal for identification.

1. The label or title block must include:
   a. Project name and number
   b. Date
   c. Name of Contractor
   d. Unique Submittal identifier, including revision number
   e. As appropriate:
      (1) Name of Subcontractor
      (2) Name of Supplier
      (3) Name of Manufacturer
      (4) Name of Fabricator
   f. Number and title of appropriate section of the Project Manual
   g. Drawing number and detail references, as appropriate
   h. Name of firm or entity that prepared each Submittal.

B. Contractor must provide a space approximately 3” x 3” on label or beside title block of each page of each Submittal to record review markings and action taken by Owner or Designer of Record.

C. Contractor must number all Submittals serially and continue in sequence. Resubmittals must have suffix letter A, B, C, etc. following the original Submittal number.

1.09 CERTIFICATION (See also Section 01450.1.15.C, “Submittal Certification”)

A. After Contractor’s review of each Submittal for compliance with the requirements of the Contract Documents: (See also Document 00700.3.26.2, “Contractor’s Responsibilities”)

1. Mark with certification stamp before submitting to Owner or Designer of Record.
2. Include Project name, Specification section, Contractor’s signature, and date of certification.
3. The Contractor’s Authorized Representative or QC Manager must wet sign and date the certification.

1.10 PACKAGING, TRANSMITTAL AND DISTRIBUTION

A. Packaging:
1. Collect individual Submittals into a Complete Submittal for each Definable Feature of Work.
2. Individual Submittals and Complete Submittal must be adequately wrapped or packaged to prevent damage during delivery.
3. All reproducible drawings must be rolled and not folded.

B. Transmittal:
1. Transmit each Complete Submittal using Contractor’s transmittal form.
   a. Owner and Designer of Record may discard Submittals received from sources other than Contractor.
   b. Owner and Designer of Record will not review Submittals that are not accompanied by Contractor’s transmittal and will return them “Returned Without Action.”
2. On the transmittal, or a separate sheet attached to the transmittal prepared on Contractor’s letterhead, record relevant information, requests for data, revisions, and each deviation from requirements of the Contract Documents, including minor variations and limitations.
3. Transmittal Form: Provide the following information:
   a. Project name and location.
   b. Date.
   c. Destination (To:).
   d. Source (From:).
   e. Subcontractor’s, Supplier’s and/or manufacturer’s name, address, and telephone number.
   f. Submittal Distribution Group
   g. Submittal Type (Type 1 or Type 2)
   h. Reference to applicable sections or parts of the Contract Documents.
   i. Reference to the appropriate Definable Feature of Work
   j. Unique Submittal identifier, including revision number. Contractor must number all Submittals serially and continue in sequence. Resubmittals must have suffix letter A, B, C, etc. following the Submittal
   k. Product identification or Shop Drawing title, number, revision and date as applicable.
   l. Submittal and transmittal distribution record.
   m. Itemize each proposed deviation from the requirements of the Contract Documents. If a Submittal contains no proposed deviation(s), indicate that the Submittal contains “No Deviations.” Owner and Designer of Record may return Submittals “Returned Without Action” that do not list proposed deviations or state that Submittal contains “No Deviations” from the Contract Documents.
   n. Remarks.
C. Parallel Distribution of Submittals

1. Contractor is required to make parallel distribution of Submittals to multiple Submittal reviewers.
2. Refer to Section 01332, “Submittal Log”, for distribution of Submittals.
3. Contractor must, at its own expense, make parallel distribution of all Submittals.
4. Submittals must be concurrently transmitted to all parallel reviewers.

1.11 OWNER OR DESIGNER OF RECORD’S ACTION (See also Document 00700.3.26.5, “Action and Distribution”)

A. General

1. Owner will not review Submittals that do not bear the Contractor’s certification stamp and will return them “Returned Without Action.”

B. Action Submittals: Owner or Designer of Record will review each Submittal, make marks to indicate corrections or modifications required, and return it.

1. Owner or Designer of Record will stamp each submittal with an action stamp and will mark stamp appropriately to indicate action taken, as follows:

a. Final Unrestricted Release: When “No Exceptions Taken” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents. Final acceptance will depend on that compliance.

b. Final-but-Restricted-Release: When “Make Corrections Noted” is indicated, Contractor may proceed with Fabrication, Manufacture, or construction, providing such Work complies with the requirements of the Contract Documents and the corrections noted. Final acceptance will depend on that compliance.

c. When stamped “No Exceptions Taken” or “Make Corrections Noted” the Submittal is considered “acceptable.”

d. Returned for Resubmittal: Where the Submittal is marked “Revise and Resubmit,” do not proceed with the Work covered by the Submittal, including purchasing, Fabrication, delivery, or other activity for the product Submitted. Revise or prepare a new submittal according to the Owner’s or Designer of Record’s notations and corrections.

e. Rejected: Where the submittal is marked “Rejected,” do not proceed with the Work covered by the submittal, including purchasing, Fabrication, delivery, or other activity for the product Submitted. Prepare a new Submittal for a product that complies with the requirements of the Contract Documents.

f. Incomplete: Where the submittal is marked “Submit Additional Information,” do not proceed with the Work covered by the submittal. Prepare additional information requested, or required by the Contract Documents, that indicates compliance.

g. Returned Without Action: Where the submittal is marked “Returned Without Action,” it was not reviewed and Contractor must not proceed with the Work covered by the Submittal. Prepare a new Submittal that complies with the requirements of the Contract Documents.

C. Resubmittals: Contractor must make all required corrections and submit corrected resubmittals until achieving final acceptance.

D. Information Submittals: Information Submittals, on which Owner is not required to take action, will not be returned to the Contractor.
E. Submittals received from sources other than through Contractor's office will be “Returned Without Action” or may be discarded.

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.3.26, "Submittals"
B. Document 00700.3.28, "Coordination Drawings"
C. Section 01310, “Project Management and Coordination”
D. Section 01325, "Record Documents (As-Builts)"
E. Section 01330, "Submittal Procedures"
F. Section 01450, “Contractor’s Quality Control (QC) System”

1.03 DEFINITIONS
A. Coordination Drawing – Contractor prepared drawings submitted by Contractor to Owner to demonstrate the coordination of methods, materials, equipment, systems, plans, or sequence the Contractor proposes to use when limited space is available for installation of different components, coordination is required for installation of Products and materials Fabricated by separate entities, or the relationship of components is shown on separate Shop Drawings or Submittals. Coordination Drawings are not considered Contract Documents.

1.04 INTENT
A. It is the intent of this Section to require the Contractor to prepare Coordination Drawings as necessary or required to resolve potential installation and constructability problems prior to Installation so that construction cost and schedule are not impacted.

1.05 SCHEDULING
A. Schedule preparation and processing of Coordination Drawings in accordance with the specific Submittal deadlines and timeframes stated below.
   1. Unless otherwise specifically stated in the Contract Documents, or needed for proper coordination of the installation of early Work, all Coordination Drawing Submittals are due no later than 120 Days after the Start Date stated in the Notice to Proceed.

B. Unless a longer period is specifically stated elsewhere in the Contract Documents, allow at least 21

1.06 COORDINATION DRAWINGS
A. Contractor must prepare and submit one (1) reproducible and eleven (11) copies of Coordination Drawings to demonstrate the coordination of methods, materials, equipment, plans, or sequence of Contractor proposes use when:
   1. Coordination Drawings are specifically required
   2. Limited space is available for installation of different components
   3. Coordination is needed for installation of Products and materials Fabricated by separate entities
   4. The relationship of components is shown on separate Shop Drawings or Submittals.
B. Coordination Drawings must be prepared and submitted for the following systems, equipment, and spaces:
   a. HVAC
   b. Plumbing
   c. Electrical
   d. Fire Sprinkler
   e. All Work above ceilings performed by separate entities that must interface or for which space provided is limited.

1.07 CONTRACTOR RESPONSIBILITIES
A. Oversee preparation of Coordination Drawings
B. Assign space priorities
C. Notify Owner in writing of unresolved conflicts or interferences found during preparation of Coordination Drawings.

1.08 COORDINATION DRAWING REQUIREMENTS
A. Coordination Drawings must include but are not necessarily limited to the following:
   1. Submit combined, comprehensive mechanical and electrical systems Coordination Drawings.
   2. Include ductwork, mechanical pipe, plumbing, electrical, sprinkler systems, and ceiling systems overlaid on structural frame.
B. Criteria:
   1. Size ductwork, mechanical pipe, plumbing, electrical, and sprinkler system components as shown on Drawings. Downsizing of Mechanical/Electrical (M/E) systems is not permitted.
   2. Show seismic restraints where required on systems.
C. Indicate how:
   1. Work will fit in the available space
   2. Work of the various trades or systems will Interface
   3. Contractor intends to sequence the Installation
1.09 NON-CONFORMING WORK

A. Work not installed within designated coordination areas in compliance with the Owner accepted Coordination Drawings will be considered non-conforming Work subject to removal and replacement at no additional cost to Owner.

1.10 SUBMITTAL REQUIREMENTS

A. Submit one (1) reproducible and eleven (11) copies of each Coordination Drawing.

B. Comply with requirements of:
   1. Section 01330 – “Submittal Procedures”
   2. Section 01450, “Contractor’s Quality Control (QC) System”

C. Signatures required on each sheet of Coordination Drawings:
   1. Coordination Drawing(s) must be signed and dated by Contractor and individual Subcontractors.
   2. By act of signature and submittal of the single combined Coordination Drawing(s), Contractor and each Subcontractor acknowledge that Work for which Contractor or said Subcontractor is responsible has been coordinated with the Work of Contractor and all other Subcontractors.

      h. 1.08 - Laboratory Responsibilities
      i. 1.09 - Contractor’s Responsibilities
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED SECTIONS
A. Section 01450, "Contractor’s Quality Control (QC) System"
B. Section 01320.3.09, "Short Interval Schedule"

1.03 DEFINITIONS (Not Used)

1.04 QUALIFICATIONS
A. Testing and inspection agency must have a minimum 5 years continuing experience preceding date of these Contract Documents.
B. Testing and inspection agency must and be qualified in accordance Section 01450, "Contractor’s Quality Control (QC) System."

1.05 TESTING EQUIPMENT
A. Testing equipment must be calibrated at intervals with devices of an accuracy traceable to either National Bureau of Standards or accepted values of natural physical constants.

1.06 INSPECTION AND TESTING PERSONNEL AND FACILITIES
A. Testing and Inspection Agency
   1. The Contractor must employ and pay for the services of an independent testing and inspection agency to perform the tests and inspections required herein except where noted otherwise.
   2. Employment of the testing and inspection agency shall in no way relieve the Contractor’s obligation to perform the Work as required in the Contract Documents.
B. Limitations of authority of the Testing and Inspection Agency
   1. Testing and Inspection Agency is not authorized to:
      a. Release, revoke, alter, or enlarge on the requirements of the Contract Documents
      b. Approve or accept any portion of the Work, or;
c. Perform any duties of the Contractor.

C. All Work must conform to the requirements of all applicable laws, codes, ordinances, and regulations.

D. Testing and Inspection Agency must perform tests and inspections as required by the Contract Documents.

E. Testing and Inspection Agency must prepare, cure, store, and transport Project samples to the Laboratory.

1.07 LABORATORY REPORTS

A. Within two (2) workdays after each inspection and test, submit twelve (12) copies of Laboratory report that include:
   1. Date issued
   2. Project title and number
   3. Name of Inspector from Testing and Inspection Agency
   4. Date and time of sampling or inspection
   5. Identification of product and Project Manual section
   6. Location in the Project
   7. Type of inspection or test
   8. Date of test
   9. Results of tests
   10. Conformance with Contract Documents
   11. Whether original test or re-test
   12. State/local permit number

B. Reports must be distributed to the following:
   1. Owner's Design Consultant (2 copies)
   2. Construction Manager (1 copy)
   3. General Contractor (2 copies)
   4. Owner's Project Manager (1 copy)
   5. Additional Owner's Consultant(s) (2 copy)

1.08 LABORATORY RESPONSIBILITIES

A. Provide qualified personnel at site.

B. Cooperate with Quality Control Manager in performance of services.

C. Perform specified inspecting, sampling, and testing of Products in accordance with specified standards.

D. Ascertain compliance of materials and mixes with requirements of Contract Documents.

E. Promptly notify Owner and Contractor of observed irregularities or non-conformance of Work or Products.

F. Perform additional inspection and testing required by Quality Control Manager.

G. Attend Preconstruction Meeting and progress meetings when requested.
1.09 CONTRACTOR'S RESPONSIBILITIES

A. Provide all Testing and Inspection Services required by the Contract Documents and additional tests as required by the Quality Control Manager.

B. Provide access to Work, including off-site manufacturer or fabricator's operations.

C. Provide required quantities of material samples to be tested.

D. Samples will be selected and taken by representative of Testing and Inspection Agency.

E. Furnish copies of product data and test reports as required.

F. Furnish incidental labor and facilities:
   1. To provide access to work to be tested;
   2. To obtain and handle samples at the Project Site, or at the source of the Product to be tested or inspected;
   3. To facilitate inspections and tests, and;
   4. For storage and curing of test samples at the Project Site.

G. Include in the weekly Short Interval Schedule (SIS) submission activities that identify upcoming testing and inspection requirements.

H. Schedule the tests and inspections required by the Contract Documents and applicable codes and regulations with the Quality Control Manager and the Testing and Inspection Agency, a minimum of 48 hours in advance.

I. Do not cover corrected Work until said Work has been re-tested and or re-inspected.

J. Contractor must pay costs for all Testing and Inspection required by the Contract Documents.

1.03 DEFINITIONS

A. The following definitions as used in this Section mean:

1. Alternate QC Manager – The Owner accepted alternate QC Manager that performs the duties, responsibilities, and functions of the QC Manager when the QC Manager is absence from the Project Site.

2. Contractor’s Daily Report – See Document 00700.3.3.6 and Section 01320.3.14, “Project Reports.”

3. Coordination and Mutual Understanding Meeting – A meeting occurring after Contractor’s submission of the QC Plan and before starting Work, at which the QC Manager presents the QC Program to the Owner.

4. Corrective Action Plan – A written document submitted by the QC Manager to the Owner stating the Contractor’s plan to correct an item of Work that fails to conform to the requirements of the Contract Documents. Three (3) copies of the Corrective Action Plans must be submitted with the Report of Test Results, inspection report, or Owner’s non-conformance notice no later than 10 a.m. the third workday after each failed test, inspection, or receipt by Contractor of a non-conformance notice from the Owner.

5. Phase I – The first (Preparatory) phase of the Three Phases of Control consisting of the actions required before beginning any work involving a Definable Feature of Work. (Also sometimes referred to as Preparatory Phase.)

6. Phase 2 - The second (work) phase of the Three Phases of Control consisting of the actions required to perform the work of a Definable Feature of Work. (Also sometimes referred to as Work Phase.)

7. Phase 3 - The third (follow-up) phase of the Three Phases of Control consisting of the actions required to follow-up on the Work performed. (Also sometimes referred to as Follow-up Phase.)

8. Preparatory Phase Checklist – A checklist prepared by the QC Manager, in a format furnished or accepted by the Owner, for each Definable Feature of Work in the Preparatory Phase.

9. Preparatory Phase Meeting – A meeting called by the QC Manager at least two (2) workdays before beginning Work on any Definable Feature of Work. The Owner’s Inspector, the QC Specialist and the Contractor’s supervisor responsible for the Definable Feature of Work must attend this meeting.

10. QC Documentation - The special QC Documentation requirements summarized in “Table 01450-1 - QC Documentation”

11. QC Meetings - Recurring QC meetings held at least once every two weeks at the Work site with Owner’s Project Manager, Contractor’s Project superintendent, QC Manager (if different from Contractor’s Project superintendent), and QC Specialist(s).

12. QC Manager – Contractor’s employee accepted by the Owner and responsible for managing Contractor’s QC System.
13. QC Manager’s Daily QC Report – A written document prepared, certified, and submitted by the QC Manager in the format, containing the information, covering the period(s), and at the frequency required by Section 01450.1.14, “QC Documentation”.

14. QC Plan – Contractor’s written plan identifying all QC personnel, procedures, inspections, tests, instructions, reports, records, and schedules.

15. QC Program – Contractor’s Quality Management requirements for all on-site and off-site Work, including documentation, administration, and coordination of Contractor’s management, production and QC personnel.

16. QC Specialist – The Quality specialist at the Project Site, in addition to other specialized testing and inspection personnel, responsible for Quality Management of a specific or specialized area of Work.

17. QC Specialist’s Daily QC Report - A written document, in the same format as the QC Manager’s Daily QC Report, prepared and signed by the QC Specialist for each day the Work is performed in his/her area of responsibility.

18. QC System - The means by which Contractor ensures Quality.

19. Quality - Conformance to the requirements established by the Contract Documents

20. Quality Control (QC) - The Contractor’s system in place during execution of the Work, to manage and control its own, and its Supplier’s and Subcontractor’s activities to comply with the requirements of the Contract Documents.

22. Quality Management - Quality Control and assurance activities instituted to achieve the Quality Levels established by the Contract Documents.

23. Rework Items List - A written list of Work that does not comply with the requirements of the Contract Documents, maintained by the QC Manager, identifying the items of Work requiring correction, the date the item was originally discovered, the anticipated date for correction of the item, and the actual date of correction.

25. Submittal Log - A written list in a format furnished by or accepted by the Owner, indicating the status of all Submittals required by the Contract Documents, grouped by Definable Feature of Work (DFOW), and prepared and maintained by the QC Manager. (See Section 01320.3.13, “Submittal Log”, and Section 01332, “Submittal Log” for additional requirements)

26. Testing Plan and Log – A written document, prepared and maintained by the QC Manager, indicating all tests required by the Contract Documents, the entity responsible for performing the test, the date each test was conducted, the date test results were submitted to Owner, remarks, and containing the QC Managers certification that an accredited testing Laboratory was used.

27. Three Phases of Control - Phase I – Prepatory Phase; Phase 2 – Work Phase; and Phase III – Follow-up Phase.

28. Work Phase – Phase 1, Phase 2, or Phase 3.

29. Work Phase Checklist - The checklist prepared by the QC Manager, in a format furnished by or accepted by the Owner, for each Definable Feature of Work in the Work Phase.

1.04 REFERENCES
A. The publications listed below are part of the requirements of the Contract Documents to the extent referenced:

4. ASTM D 3740(1999; Rev C.) Minimum Requirements for Agencies Engaged in the Testing and/or Inspection of Soil and Rock as Used in Engineering Design and Construction
5. ASTM E 329(2000; Rev. A) Agencies Engaged in the Testing and/or Inspection of Materials Used in Construction

1.05 CONTRACTOR’S QUALITY CONTROL (QC) SYSTEM

A. Contractor's QC System is the means by which Contractor ensures Quality.

B. Contractor must establish and maintain a QC System, performing sufficient inspections and tests of all items of Work, including Work of its Subcontractors and Suppliers, to ensure conformance with the requirements of the Contract Documents. Contractor's Quality Control measures must be adequate to cover all construction operations and must be correlated with the Official Progress Schedule.

C. Contractor's QC System must include the inspections and tests required by the Contract Documents in addition to Contractor's own inspections and tests necessary to control Quality. Contractor must maintain and submit to Owner adequate records of all inspections and tests, and must submit all test results on forms furnished or accepted by Owner.

D. Contractor must closely inspect all materials upon delivery, and all Work in progress for compliance with the requirements of the Contract Documents. Contractor must promptly reject and return all defective materials and rework any substandard Work without waiting for rejection by Owner.

E. Contractor must submit and Owner must accept Contractor's Quality Control Plan (QC Plan) before starting any Work at the Project Site. Work will be permitted to start only after Owner reviews and accepts Contractor's QC Plan. The QC Plan must identify all QC personnel, procedures, inspections, tests, instructions, reports, records, schedules, etc.

1.06 QC SYSTEM REQUIREMENTS

A. The QC System, as defined herein, establishes specific minimum staffing, documentation, reporting, and procedural requirements that Contractor must implement and maintain throughout the Contract Time.

B. The following points are fundamental to the QC System:

1. Owner is not responsible for controlling the Quality of Contractor's Work.
2. Contractor is responsible for implementing and maintaining specific minimum processes and measures for controlling the Quality of the Work.
3. The requirements of the Contract Documents establish the Quality Level.
4. Owner has the right to inspect the Work; Contractor has the obligation to inspect the Work.
5. Owner will review Contractor’s QC System for compliance with the requirements of the Contract Documents.

6. The objective of Contractor’s QC System is to prevent deficiencies in the Work.

7. Contractor must staff the Project with a QC Manager who is responsible for managing Contractor’s QC System.

8. Contractor must employ specialized inspectors (QC Specialists) to assist the QC Manager. Contractor may obtain QC Specialists from outside testing and inspection firms. Their qualifications and duties are detailed in Section 01450.1.08, “QC Organization.” QC Specialists must report directly to the QC Manager and must be independent of Contractor’s production organization.

9. Contractor must develop and submit twelve (12) copies of a QC Plan that complies with the requirements of Section 01450.1.09, “QC Plan.” The QC Plan must be submitted to, and be accepted by Owner before Contractor performs any Work on the Project Site.

1.07 QC SYSTEM

A. Contractor must establish and maintain a QC System as described herein. At a minimum, the QC System must consist of:

1. QC Organization
2. QC Plan
3. Initial Coordination and Mutual Understanding Meeting
4. Recurring QC Meetings
5. Three Phases of Control
6. Testing
7. QC Documentation
8. QC Manager’s Certifications
9. Completion Inspections

B. The QC System must cover on-site and off-site Work and must be correlated with the Official Progress Schedule and Short Interval Schedules.

C. No on-site Work or testing shall be performed unless the QC Manager or Alternate QC Manager is at the Work site.

D. Owner reserves the right to require changes in the QC Plan and operations as necessary, including removal of personnel, to ensure the specified Quality of Work. Owner reserves the right to interview any member of Contractor’s QC organization at any time to verify their submitted qualifications.

E. Contractor must notify Owner, in writing, of any proposed change to the QC Plan, including changes to QC Organization or personnel, a minimum of seven (7) Days prior to a proposed change. Proposed changes are subject to acceptance by Owner.

1.08 QC ORGANIZATION

A. QC Manager:

1. Provide a QC Manager at the Work site to implement and manage the QC program. Contractor’s Project superintendent or Contractor’s Authorized Representative may function as the QC Manager in addition to their other duties.
2. Within seven (7) days after Award, Contractor must submit for acceptance by the Owner, three (3) copies of an Appointment letter for the QC Manager. The Appointment letter must be accompanied by a detailed resume for the candidates documenting their relevant experience and providing at least three current references. The submittal may be certified by the Owner’s Authorized Representative for compliance with the Requirements of the Contract Documents. Copies of the Owner accepted Authorization letter for the QC Manager and supporting information must be included in the Contractor’s CQ Plan submittal.

3. Duties:
   a. Be on the Work site at all times during performance of Work, with complete authority to take any action necessary to ensure conformance with the requirements of the Contract Documents. In the event of the QC Manager's absence, the Alternate QC Manager must be present and have the same authority as the QC Manager.
   b. Implement and manage the Three Phases of Control for each Definable Feature of Work.
   c. Immediately stop any work that does not comply with requirements of the Contract Documents, and direct removal and replacement of any defective Work.
   d. Conduct daily inspections of Work performed to ensure compliance with requirements of the Contract Documents.
   e. Certify daily that all Work performed, on and off the construction site, conforms to requirements of the Contract Documents. Certify daily that all materials and equipment delivered or installed in the Work comply with the requirements of the Contract Documents. Report any deficiencies and corrective action planned and taken.
   f. Ensure that Contractor's QC Organization is adequately staffed with qualified personnel to perform all required inspections and tests.
   g. Supervise and coordinate the inspections and tests made by the QC Organization, including the tests and inspections of the Work of Subcontractors and Suppliers.
   h. Ensure that all required tests are performed and results are reported. Indicate whether test results do or do not conform to requirements of the Contract Documents. Submit Corrective Action Plan(s) for nonconforming items.
   i. Recommend removal of any person from the Project that consistently fails to perform Work properly.
   j. Report to Contractor’s senior management the identity of any Subcontractor or Supplier who’s Work consistently fails to meet the requirements of the Contract Documents.
   k. Attend the Coordination and Mutual Understanding Meeting and conduct all recurring QC Meetings.
   l. Submit one (1) copy of certified QC Manager’s Daily QC Reports in the specified format.
   m. Certify all Submittals for conformance with the requirements of the Contract Documents.
   n. Certify each payment invoice.
   o. Certify completion prior to requesting Milestone Completion inspection
   p. Certify completion prior to requesting Final Inspection.
q. At the Work site, perform daily maintenance and updating of the following:

(1) Submittal Log
(2) Testing Plan and Log
(3) Rework Items List
(4) Record Documents (as-builts Drawings and Project Manual), marked to show any deviations made from the requirements of the Contract Documents and to indicate the actual materials and equipment incorporated into the Work.
(5) Records Binder containing all Quality Control records.

r. Attend all key Project Meetings including Preconstruction Conference, Schedule Orientation Meeting, Progress Meetings, Commissioning Meetings, Demonstration and Training Meetings, and Closeout Conference.

4. Qualifications:

a. A minimum of 5 years experience as a superintendent, construction QC manager, construction project manager, construction project engineer, or construction manager on similar size and type of construction projects that included the major trades involved with this Project.

B. Alternate QC Manager Duties and Qualifications:

1. Designate an Alternate QC Manager to serve at the Project Site in the absence of the designated QC Manager. The qualification requirements for the Alternate QC Manager are the same as for the QC Manager.

2. Within seven (7) days after Award, Contactor must submit for acceptance by the Owner, three (3) copies of an Appointment letter for the Alternate QC Manager. Appointment letter must be accompanied by a detailed resumes for the candidate documenting their relevant experience and providing at least three current references. The submittal may be certified by the Owner's Authorized Representative for compliance with the Requirements of the Contract Documents. Copies of the Owner accepted Authorization letter for the Alternate QC Manager and supporting information must be included in the Contractor's CQ Plan submittal."

3. The designated QC Manager must not be absent from the Project Site for more two consecutive weeks at a time.

C. QC Specialist Duties and Qualifications:

1. As a minimum, provide a separate QC Specialist at the Project Site for the area of responsibility specified below.

2. The QC Specialist will assist and report directly to the QC Manager and must have no Project duties other than assigned Quality Control duties.

3. The QC Specialist must attend the Coordination and Mutual Understanding Meeting, be physically present at the construction site to perform the Three Phases of Control for Work in the assigned area of responsibility, at the frequency specified below and prepare required documentation.

4. The QC Specialist must submit a certified and dated QC Specialist’s Daily QC Report, for each day the Work is performed in his/her area of responsibility, in the same format as the QC Manager’s Daily QC Report. QC Specialist’s Daily QC Report must be submitted to the Owner on the next workday.

5. The QC Specialist position is in addition to other specialized testing and inspection personnel to be provided by Contractor, as identified in the Contract Documents, such as manufacturer's representatives, Testing Laboratory personnel, etc.
1.09 QC PLAN

A. Requirements:

1. Within fourteen (14) Days of the official Contract start date stated in the Notice to Proceed, submit twelve (12) copies of a draft QC Plan covering both on-site and off-site Work. The draft QC Plan must be bound in a 3-ring binder, the pages must be numbered sequentially, and the following information must be included:

   a. Table of Contents listing the major sections identified with tabs in the following order:
      (1) QC ORGANIZATION
      (2) NAMES AND QUALIFICATIONS (Resumes)
      (3) DUTIES, RESPONSIBILITIES AND AUTHORITY OF QC PERSONNEL
      (4) APPOINTMENT LETTERS
      (5) CONTRACTED ORGANIZATIONS
      (6) INITIAL SUBMITTAL LOG INFORMATION
      (7) TESTING LABORATORY INFORMATION
      (8) TESTING PLAN AND LOG
      (9) REWORK TRACKING PLAN
      (10) LIST OF DEFINABLE FEATURES OF WORK
   
   b. QC organizational chart, showing the relationship of the QC Manager to Contractor's organization and officers, the Contractor's Project superintendent, Project and QC staff, Subcontractors, testing firms, consultants, etc.
   
   c. Names and qualifications, in resume format, for each person in the QC organization.
   
   d. Description of duties, responsibilities and authorities of each person in the QC organization.
   
   e. Appointment letters for the QC Manager and Alternate QC Manager signed by a company officer of Contractor.
   
   f. Copy of letter of direction to QC Specialist from QC Manager outlining duties, authorities, and responsibilities.
   
   g. List of subcontracted organizations such as testing firms, architects and engineers that will be employed by Contractor, and a description of the services they will provide.
   
   h. Initial Submittal Log in a format furnished or accepted by Owner.
   
   i. Testing Plan and Log in the format accepted by Owner, including all tests required by the Contract Documents, applicable Codes, and other tests deemed necessary by Contractor, identified by the document requiring the test, the frequency, and the person responsible for performing each test.
   
   j. Testing Laboratory accreditation and capability information required by Section 01450.1.13, “Testing.”
   
   k. Rework Tracking Plan and Rework Items List in the format accepted by the Owner, to identify, record, track and complete Rework items.
   
   l. List of Definable Features of Work.
      (1) A Definable Feature of Work (DFOW) is a task that is separate and distinct from other tasks and has common control requirements and work crews. Each
technical Specification Section could be considered a DFOW, but often there is more that one DFOW per Section and there may be more than one section per DFOW.

(2) This List of DFOW’s must be cross-referenced to the activities on the Official Progress Schedule and the section references from the Project Manual. This DFOW list must include, but is not limited to, all Critical Path activities.

(3) DFOW’s are used in the Three Phases of Control and for grouping Submittals in the Submittal Log.

2. Within twenty-eight (28) Days of the official Contract start date stated in the Notice to Proceed, submit twelve (12) copies of a final draft of the QC Plan covering both on-site and off-site Work for Owner's acceptance.

1.10 COORDINATION AND MUTUAL UNDERSTANDING MEETING

A. After submission of the final draft of the QC Plan and before starting Work, meet with Owner’s Project Manager to present the QC Program.

B. Meeting attendees will be, as a minimum, Owner’s Project Manager, Contractor’s Authorized Representative, Contractor’s superintendent, QC Manager (if different from Contractor’s Authorized Representative or superintendent), Alternate QC Manager, and QC Specialist(s).

C. This Meeting is to develop a mutual understanding of QC Program requirements for all on-site and off-site Work, including documentation, administration, and coordination of Contractor’s management, production and QC personnel.

D. At this meeting, Contractor must explain in detail how the Three Phases of Control will be implemented for each Definable Feature of Work.

E. The QC Manager must conduct the Coordination and Mutual Understanding Meeting, prepare and sign the meeting minutes, and provide copies to each attendee within 2 workdays after each Meeting.

F. If a new QC Manager is appointed at any time during the Contract Time, the Coordination and Mutual Understanding Meeting must be repeated.

1.11 QC MEETINGS

A. After Work begins, recurring QC Meetings will be held at least once every two weeks at the Work site with Owner’s Project Manager, Contractor’s Authorized Representative, Contractor’s Project superintendent, QC Manager (if different from Project superintendent of Contractor’s Authorized Representative), and QC Specialist(s).

1. QC meetings may coincide with other project meetings.

2. The QC Manager must conduct the QC Meetings, prepare and sign the meeting minutes, and provide copies of the minutes to each attendee and submit two (2) copies to the Owner within 2 workdays after each Meeting.

B. As a minimum, the following will be accomplished at each QC Meeting

1. Review status of problems recorded in the minutes of previous meeting.

2. Review Official Progress Schedule and status of Work
   a. Work or testing accomplished since last meeting
   b. Rework items identified since last meeting
   c. Rework items completed since last meeting

3. Review Submittal Log and status of Submittals
   a. Submittals reviewed and returned since last meeting
b. Submittals required in near future

4. Review Work to be done in next 2 weeks and documentation required

5. Establish completion dates for Rework items

6. Update or revise the Official Progress Schedule and Short Interval Schedules to indicate the planned and actual dates of Preparatory Phase, Work Phase, and Follow-up Phase, including testing and inspections.

7. Discuss proposed construction and the approach to be used to ensure Quality Work.

8. Identify potential problems for each Definable Feature of Work.

9. Discuss status of off-site Work and testing.

11. Verify that each Checklist includes a breakdown of Quality checks that will be used when performing QC functions, inspections, and tests required by the Contract Documents.

12. Resolve QC and production problems
   a. Problems relating to correction of deficiencies.
   b. Problems relating to Requests for Information (RFI's)

13. Address items that may require revising the QC Plan:
   a. Changes in procedures
   b. Changes in QC organization or personnel

1.12 THREE PHASES OF CONTROL

A. The QC Manager must implement and manage the following Three Phases of Control for each Definable Feature of on-site and off-site Work:

1. Phase I - Preparatory
   a. The Preparatory Phase consists of the actions required before beginning any Definable Feature of Work.
   b. The QC Manager must call a Preparatory Phase Meeting at least two (2) workdays before beginning Work on any Definable Feature of Work. The Owner's Inspector, the QC Specialist and the Contractor's supervisor responsible for the Definable Feature of Work must attend this meeting.
   c. Perform the following before beginning Work on each Definable Feature of Work:
      (1) Review and fill out the Preparatory Phase Checklist
      (2) Review applicable Project Manual section(s)
      (3) Review the Drawings
      (4) Verify that appropriate Submittals for materials and equipment have been certified by the QC Manager, submitted, and accepted by the Owner.
      (5) Verify receipt of factory test results, when required
      (6) Review the Testing Plan and Log, and ensure that provisions have been made to perform the required QC testing
(7) Examine the Work area to ensure that required preliminary Work has been completed.

(8) Examine the required materials, equipment and Sample Work to ensure that they are on hand and conform to Submittals accepted by Owner or Designer of Record.

(9) Discuss proposed construction, workmanship standards, tolerances, and the approach to be used to provide Quality construction by planning ahead and identifying potential problems for each Definable Feature of Work.

(10) Document the results of the Preparatory Phase actions in the QC Manager’s Daily QC Report and in the Preparatory Phase Checklist.

2. Phase 2 - The Work on each Definable Feature of Work
   a. The QC Manager must notify Owner’s Inspector at least 2 workdays before starting Work.
   b. Before starting work on a DFOW, the QC Manager must meet with the Project superintendent, the supervisor responsible for constructing the DFOW, and the QC Specialist if applicable, to perform the following:
      (1) Review and fill in the Work Phase Checklist.
      (2) Establish the Quality of workmanship required.
      (3) Identify and resolve potential conflicts with other Work.
      (4) Ensure that testing is performed.
   c. The QC Manager must observe the Work to ensure that it complies with the requirements of the Contract Documents.
   d. The QC Manager must document the results in the QC Manager’s Daily QC Report and submit the completed Work Phase Checklist to the Owner on the next workday.
   e. Repeat Phase 2 for each DFOW, for each new crew to Work on site, or when specified Quality Levels are not being met.

3. Phase 3 - Follow-Up (Performed Daily)
   a. The QC manager must perform the Follow-up Phase daily for each DFOW, or more frequently as necessary until completion, and must document the results in the QC Manager’s Daily QC Report, to:
      (1) Ensure that Work is in compliance with the requirements of the Contract Documents.
      (2) Maintain the Quality of workmanship required.
      (3) Ensure that the Approved Laboratory performs testing.
      (4) Ensure that rework items are being corrected.

B. Additional Preparatory and Work Phases
   1. The QC manager must conduct additional Preparatory and Work Phases for Definable Features of Work, if the Quality of on-going Work is unacceptable, if there are changes in the QC organization, if there are changes in on-site supervision or workers, if Work on a Definable Feature of Work is resumed after substantial period of inactivity, or if problems develop.

C. Notification Requirements for Three Phases of Control for Off-Site Work
1. Notify Owner's Inspector at least two weeks prior to the start of the Preparatory and Work Phases for off-site Work.

1.13 TESTING

A. Contractor must perform all sampling and testing required by the Contract Documents and set forth in the Testing Plan and Log.

B. Construction Materials Testing Laboratory Requirements:

1. Provide and pay for an independent construction materials testing Laboratory (or laboratories, as necessary) accredited by one of the laboratory accreditation authorities listed in below to perform sampling and testing required by the Contract Documents. The Laboratory's scope of accreditation must include the ASTM standards that apply to the specific testing fields listed below. This requirement applies to the specific Laboratory performing the actual testing, not just the "Corporate Office".

2. For testing laboratories that have obtained accreditation by an acceptable laboratory accreditation authority listed below, Contractor must submit to Owner eight (8) copies of the Certificate of Accreditation and Scope of Accreditation within seven (7) Days after the start date for the Work as stated in the Notice to Proceed. The scope of the Laboratory's accreditation must include the test methods required by the Contract Documents.

3. Testing laboratories that have not yet obtained accreditation by an acceptable laboratory accreditation authority listed below must:
   a. Within seven (7) Days after the start date for the Work as stated in the Notice to Proceed, submit for Owner's acceptance an acknowledgment letter from one of the acceptable laboratory accreditation authorities stating that the application for accreditation has been received and the accreditation process has started.
   b. Within seven (7) Days after the start date for the Work as stated in the Notice to Proceed, submit for Owner's acceptance, certified statements, signed by an official of the laboratory, attesting that the proposed laboratory meets or conforms to the ASTM standards appropriate to the testing field as listed below.

4. Acceptable Laboratory Accreditation Authorities are:
   a. National Voluntary Laboratory Accreditation Program (NVLAP) administered by the National Institute of Standards and Technology
   b. American Association of State Highway and Transportation Officials (AASHTO)
   c. ICBO Evaluation Service, Inc. (ICBO ES)
   d. American Association for Laboratory Accreditation (ASLA) program.

5. The ASTM Standards for specific testing fields are as follows:
   a. Construction materials: ASTM E 329
   b. Concrete and concrete aggregates: ASTM C 1077
   c. Steel, stainless steel, and related alloys: ASTM A 880

6. Within seven (7) Days after the start date for the Work as stated in the Notice to Proceed, submit eight (8) copies of the following capability information for each proposed laboratory:
   a. Organizational description
   b. List and resume(s) of personnel
c. List of equipment corresponding to each test noted in the Testing Log, and calibration certifications.

7. Include the above accreditation and capability information in the QC Plan.

C. Capability Verification by Owner:

1. Owner has the right to verify the adequacy of the proposed laboratory’s personnel, equipment, procedures, techniques, and other items pertinent to testing with the requirements of the Contract Documents.

D. Reports of Test Results:

1. Action by testing individual or organization:
   a. Submit actual test results.
   b. Cite applicable requirements of the Contract Documents and the tests or analytical procedures that were used.
   c. State whether the item tested or analyzed conforms or fails to conform to specified requirements.
   d. Conspicuously stamp the cover sheet for each report in large red letters "CONFORMS" or "DOES NOT CONFORM" to the requirements of the Contract Documents, whichever is applicable.
   e. A testing Laboratory representative, licensed as a Professional Engineer in the State of California and authorized to sign certified test reports, must sign all Reports of Test Results.
   f. Submit test results directly to the Owner and Contractor by 10 a.m. of the second workday after performing each test.

E. Action by QC Manager

1. As tests are performed, record the results on the "Testing Plan and Log." Include the date each test was conducted, date the test results were submitted to Owner, remarks, and certification that an accredited testing Laboratory was used.
2. If an item fails to conform, notify Owner’s Inspector immediately and submit a Corrective Action Plan for the item with a copy of the Report of Test Results.
3. Submit Corrective Action Plan by 10 a.m. of the third workday after each failed test.
4. Submit an updated copy of the "Testing Plan and Log" at each QC Meeting.

1.14 QC DOCUMENTATION

A. This section lists and describes the special QC Documentation required to show that materials, equipment, workmanship, fabrication, construction and operations comply with the requirements of the Contract Documents.

C. QC Manager’s Daily QC Report:

1. The QC Manager must submit a certified QC Manager’s Daily QC Report in the specified format. One (1) copy of each QC Manager’s Daily Report must be submitted to Owner the following workday.
2. Reports are required for each day that Work is performed and for every seven consecutive calendar Days of no Work and on the last day of a no-work period. Account for each calendar day throughout the entire Contract Time.

3. Manager must prepare, sign and date each QC Manager’s Daily QC Report, which must contain the following information:
   a. Date of report, report number, Contract Number and Title.
   b. For each of the Three Phases of Control:
      (1) Describe each item of Work performed each day, including on-site and off-site Work.
      (2) Reference Official Progress Schedule Activity number for each item of Work
      (3) Reference the Definable Feature of Work
      (4) Reference the Project Manual section(s).
      (5) Report results of Follow-up Phase inspections.
   c. Certify that Work for each Definable Feature of Work complies with the requirements of the Contract Documents and that required testing has been performed.
   d. Identify who performed the testing.
      (1) List each Rework item identified, but not corrected by close of business, along with its Official Progress Schedule Activity number.
      (2) List each Rework item corrected from the Rework Items List along with the corrective action taken and its Official Progress Schedule Activity Number.
   e. Include a “Remarks” section containing pertinent information including construction deficiencies encountered, QC problem areas, deviations from the QC Plan, QC meetings held, acknowledgement that Record Documents have been updated, directions received, corrective direction provided by the QC organization, and corrective actions taken by Contractor. For each remark provided, identify it by its corresponding Official Progress Schedule Activity Number.
   f. QC Manager’s Daily QC Report certification, signature and date.

4. QC Manager’s Daily QC Report Continuation Sheet: This sheet includes space for additional daily information. Continuation Sheets may be added as necessary and attached to the QC Manager’s Daily QC Report.

D. Preparatory Phase Checklist:
1. The QC Manager must prepare this Checklist for each Definable Feature of Work in the Preparatory Phase. Identify this Checklist by terminology consistent with the Official Progress Schedule. Attach this Checklist to the QC Manager’s Daily QC Report of the same date.
   a. Enter Project Manual section, date of report, and Contract number
   b. Each Definable Feature of Work, Official Progress Schedule Activity number and format must match its entry in the Preparatory Phase section of the QC Manager’s Daily QC Report
   c. Personnel Present: Report whether or not Owner’s Inspector was notified. Report the names of attendees at Preparatory Phase Meeting, their position and company/organization
d. Submittals: Indicate if Submittals have been submitted (Yes/No checkboxes) and if not, indicate what has not been submitted. Are materials on hand (Yes/No checkboxes) and if not, report any missing items. Check delivered material and equipment against Submittals accepted by the Owner or Designer of Record and report the status.

e. Material Storage: Report if materials and equipment are stored properly (Yes/No checkboxes), and if not, the action taken.

f. Project Manual: Review and comment on the requirements of the Project Manual that describe the material, equipment, and procedures for accomplishing the Work, and clarify any differences.

g. Preliminary Work & Permits: Assure that Preliminary Work is in accordance with the requirements of the Contract Documents, and that all necessary permits are on file, and if not, report the action taken.

h. Testing: Identify who performs tests, the test location and frequency. Review the Testing Plan, report abnormalities, and if the test facilities have been Approved.

i. Meeting Comments: Respond to comments and remarks made during the Preliminary Phase Meeting that were not addressed in previous sections of this Checklist.

j. Other Items or Remarks: Note any other remarks or items that were a result of the Preliminary Phase.

k. The QC Manager must sign and date this Checklist.

E. Work Phase Checklist:

1. The QC Manager must prepare this Checklist for each Definable Feature of Work in the Work Phase. Identify this Checklist by Activity numbers from the Official Progress Schedule. Attach this Checklist to the QC Manager’s Daily QC Report of the same date.

   a. Enter Project Manual section, date of report, and Contract number.

   b. Each Definable Feature of Work, Official Progress Schedule Activity Number, and index number, entry and format must match its entry in the Work Phase section of the QC Manager’s Daily QC Report.

   c. Personnel Present: Report whether or not Owner’s Inspector was notified. Report the names of attendees at Work Phase meeting, their position and company/organization.

   d. Procedure Compliance: Comment on compliance with procedures identified at Preliminary Phase and actions taken to assure that Work is in accordance with the requirements of the Contract Documents and accepted Submittals.

   e. Preliminary Work: Assure preliminary Work is in compliance with the requirements of the Contract Documents and if not, what action is/was taken.

   f. Workmanship: Identify where initial Work is located; if a sample panel is required (Yes/No checkboxes); is the initial Work the sample (Yes/No checkboxes); and if Yes, describe the panel location and precautions taken to preserve the sample.

   g. Resolution: Comment on any differences and resolutions reached.

   h. Other: Note any other remarks or items resulting from the Work Phase.

   i. The QC Manager must sign and date this Checklist.

F. Rework Items List:
1. The QC Manager must maintain a list of Work that does not comply with the requirements of the Contract Documents (the Rework Items List), identifying what items need to be reworked, the date the item was originally discovered, the anticipated date for correction of the item, and the actual date of correction. There is no requirement to report a Rework item that is corrected the same day it is discovered.

2. Attach a copy of the "Rework Items List" to the last QC Manager’s Daily QC Report of each month and submit to the Owner. Contractor is responsible for including on this list all items needing rework including those identified by Owner’s Inspector.

G. QC Records Binders: Establish and maintain the following in a series of 3 ring binders. Binders must be divided and tabbed as indicated below. These binders must be readily available to Owner during all Normal Hours Of Work.

1. QC Plan
2. List of all Definable Features of Work
3. Initial Submittal Log and all updates
4. Testing Plan and Log and all updates
5. QC Meeting Minutes
6. Manufacturer's Certificates and Certificates of Compliance
7. Contractor's Daily Reports
8. QC Manager’s Daily QC Reports
9. QC Specialist’s Daily Reports
10. All reports of test results
11. All summaries of test results
12. All completed Preparatory and Work Phase Checklists, arranged by Project Manual section.
13. Any interim Milestone inspections, arranged by Milestone number from the Official Progress Schedule.
14. Copies of all Approved Change Orders, Field Modifications, and RFI responses, arranged in numerical order. Also include documentation that changed Work was accomplished.
15. Copies of all Rework Items Lists.
16. Copies of all Deficiency Lists (Punch Lists) issued by QC Staff, Contractor, or Subcontractors, and all Deficiency Lists issued by Owner.

H. Record Documents (‘as-built’ Drawings and ‘as-built’ Project Manual):

1. In addition to the requirements of Document 00700.3.3, "Documents and Samples at the Project Site", the QC Manager must ensure that Record Documents are kept current on a daily basis and marked to show deviations from the requirements of the Contract Documents.
2. Ensure each deviation has been identified with the appropriate modifying documentation (e.g., Change Order #, Field Modification #, Request for Information #, etc.).
3. The QC Manager (or assigned QC Specialist) must initial each deviation and each revision.
4. Upon completion of the Work, the QC Manager must certify the accuracy of the Record Documents as required in Section 01450.1.15.G, “Record Document Certification.”
I. Records of Contractor’s Quality Control Plan and its implementation

1. Upon completion of the Work, submit three (3) copies of the records of Contractor’s Quality Control Plan and its Implementation must be Submitted to the Owner in a durable plastic binder approximately 9" x 12" in size with at least the following:
   a. Identification on, or readable through, the front cover stating the project name and nature of the document.
   b. Front index indicating the location of major categories of data in the binder.
   c. All test results (Code Compliance, Owner Specified and Contractor’s own).
   d. All inspection reports and records of required corrective measures.

1.15 CERTIFICATIONS

A. QC Manager’s Daily QC Report Certification

1. All signatures must be original and in “blue” ink. Stamped signatures are not acceptable.

2. QC Manager’s Daily QC Report Certification: Each QC Manager’s Daily QC Report must contain the following statement signed by the QC Manager:

   “On behalf of Contractor, / certify that this report is complete and correct, that equipment and material used, and Work performed during this reporting period are in compliance with the requirements of the Contract Documents to the best of my knowledge, except as noted in this Report.

Certified by QC Manager______________________, Date______ “
(Signature)

B. QC Specialist’s Certification

1. QC Specialist’s Daily QC Report Certification: Each QC Specialist’s Daily QC Report must contain the following statement signed by the QC Specialist:

   “On behalf of Contractor, / certify that this report is complete and correct, that equipment and material used, and Work performed during this reporting period are in compliance with the requirements of the Contract Documents to the best of my knowledge, except as noted in this Report.

Certified by QC Specialist______________________, Date______ “
(Signature)

C. Submittal Certification (GSA Procedure) (See Document 00700.3.26.2.3)

1. Except for the QC Manager and Alternate QC Manager Appointment letters which may be certified by the Contractor’s Authorized Representative, the QC Manager must stamp and sign each sheet of each Submittal with the following QC certifying statement (except that data submitted in bound volume or on one sheet printed on two sides may be stamped on the front of the first sheet only):

   “The (equipment) (material) (article) shown and marked in this Submittal is that proposed to be incorporated with Project Name (_____), Contract Number (_____), Project Manual Section (______), has been checked and complies in all respects, except as specifically noted in writing on the Submittal and accompanying transmittal, with the requirements of the Contract Documents, is a Complete Submittal, has been coordinated with all other accepted Submittals, and can be properly installed in the allocated spaces.

Certified by QC Manager______________________, Date______ “
(Signature)
D. Invoice Certification

1. Furnish the following certification with each payment request, signed by the QC Manager:

   "The Work for which payment is requested, including Materials On Hand, is in compliance with the requirements of the Contract Documents. Record Documents ('as-built' Drawings and Project Manual) are current, accurate, and correctly show Work installed as of the date of the payment request.

   Certified by QC Manager________________________, Date_________ “

(Signature)

E. Milestone Completion Certification

1. Prior to requesting Milestone completion inspection, the QC Manager must furnish the following Milestone Completion Certification to Owner:

   "The Work of Milestone (#) has been completed, inspected, tested and is in full compliance with the requirements of the Contract Documents except for the minor deficiencies listed in the attached Deficiency List.

   Certified by QC Manager__________________________, Date_________ “

(Signature)

2. The Deficiency List attached to the Milestone Completion Certification must list all known deficiencies in the Work of the Milestone. Unless specifically exempted in writing by Owner’s Project Manager, the Deficiency List must not include incomplete items of Work. Unless specifically exempted in writing by Owner’s Project Manager, the Milestone Completion Certification will be rejected if incomplete items of Work appear on the Deficiency List.

F. Project Completion Certification

1. Prior to requesting Final Inspection of the entire Work of the Project, the QC Manager must furnish the following Project Completion Certification to Owner:

   "The entire Work of the Project has been completed, inspected, tested and is in full compliance with the requirements of the Contract Documents except for the minor deficiencies listed in the attached Deficiency List.

   Certified by QC Manager___________________________, Date_________ “

(Signature)

2. The Deficiency List attached to the Project Completion Certification must list all known deficiencies in the Work. Unless specifically exempted in writing by Owner’s Project Manager, the Deficiency List must not include incomplete items of Work. Unless specifically exempted in writing by Owner’s Project Manager, the Project Completion Certification will be rejected if incomplete items of Work appear on the Deficiency List.

G. Record Document Certification

1. Accompanying submission of the final Record Documents, and prior to requesting Final Payment, the QC Manager must furnish the following Certification to Owner:

   "The attached Record Documents ('as-built' Drawings and Project Manual) for (Contract Name and Number) were prepared in accordance with the requirements of the Contract Documents, are accurate and complete, and may be relied on by the Owner to locate completed Work.

   Certified by QC Manager__________________________, Date_________ “

(Signature)
H. **Pre-functional Checklist Certification** (See Section 01810, “General Commissioning Requirements”) The QC Manager must furnish the following Certification to Owner when the pre-functional checklist activities are ready to be commenced:

"On behalf of Contractor, / certify that the Systems, equipment, and Pre-functional Checklists meet the requirements of Section 01810 and the pre-functional checklist activities are ready to be commenced."

Certified by QC Manager__________________________, Date___ _________ "

I. **Functional Performance Testing Certification** (See Section 01810, “General Commissioning Requirements”)

1. The QC Manager must furnish the following Certification to Owner when the Systems and equipment are operational and ready for functional performance testing:

"On behalf of Contractor, / certify that the Systems and equipment are operational and are ready for functional performance testing."

Certified by QC Manager__________________________, Date___ _________ "

1.16 **MILESTONE COMPLETION INSPECTIONS**

A. When Contractor believes the Work comprising a Milestone is complete, including final cleaning of the Work area associated with the Milestone, Contractor must submit to the Owner two (2) copies of a written certification that the Work of the Milestone is complete and request inspection by the Owner.

B. Within 7 Days of receipt of the Milestone Completion Certification, the Owner’s Project Manager will determine if the Work of the Milestone is sufficiently complete to be inspected. If the Owner’s Project Manager determines that Work of the Milestone is not sufficiently complete to be inspected, the Owner’s Project Manager will reject the Contractor’s Milestone Completion Certification and issue a notice to the Contractor so stating. Contract must then complete the Work of the Milestone and resubmit a new Milestone Completion Certification.

C. If the Owner’s Project Manager determines that the Work is sufficiently complete to be inspected, within 21 Days of the receipt of the Milestone Completion Certification, unless a longer period is specified elsewhere in the Contract Documents, Owner’s Project Manager will inspect the Work and prepare a list of deficiencies in the completed Work (Punch List.)

D. When all the deficiencies identified in the Owner’s Deficiency List are corrected, the Contractor must send a letter to the Owner requesting final verification of the correction of the items on the Deficiency List. If Owner’s Project Manager determines that the items on the Deficiency List have been satisfactorily corrected, Owner’s Authorized Representative will send a letter acknowledging Milestone Completion to the Contractor. The Milestone Completion letter will identify the actual date of Milestone Completion consistent with Owners final verification that the Work of the Milestone was complete and in full compliance with the requirements of the Contract Documents.

1.17 **PROJECT COMPLETION INSPECTION**

A. Contractor’s list of incomplete work.

1. Near the final completion of the entire Work of the Project, Contractor must conduct a detailed Project completion inspection of the Project, and submit a list of Incomplete Work with a schedule for final completion thereof to Owner’s Project Manager.

2. Within 60 Days after receipt of Contractor’s list of Incomplete Work and schedule for final completion, Owner’s Project Manager will determine appropriate dates for a Preliminary Walk-Through inspection and the Final Inspection. The Preliminary Walk-
Through and Final Inspection will not be conducted until the entire Work of the Project is complete.

B. Contractor's Certification that the entire Work of the Project is complete.
   1. When all Work is complete and after the Contractor has performed the final cleaning of the entire Project Site and Work area, Contractor must so certify to Owner's Project Manager and submit a request for a Preliminary Walk-Through Inspection.
   2. If the Contract Documents include a Milestone for the completion of the entire Work of the Project, the Milestone Completion Certification must be submitted concurrently with the Project Completion Certification.

C. Preliminary walk-through inspection.
   1. Within seven (7) Days of receipt of Contractor's certification that the entire Work of the Project is complete, Owner's Project Inspector will make a Preliminary Walk-Through Inspection with Contractor to verify that the Project is complete and ready for Final Inspection.
   2. If Owner's Project Manager determines that the Work is not complete, Contractor will be notified in writing. Contractor must complete the Work and re-initiate procedures for another Preliminary Walk-Through Inspection. At Owner's discretion, any costs to Owner for additional Preliminary Walk-through Inspections may be changed to the Contractor.

D. Final Inspection.
   1. The Final Inspection will occur within twenty-one (21) Days of the Contractor's Project Completion Certification if the Owner's Project Manager agrees with the Contractor's certification.
   2. If Owner's Project Manager determines the completed Work is deficient, Contractor will be furnished with a Punchlist identifying the observed deficiencies in the completed Work.
   3. After all deficiencies have been corrected, Contractor must initiate procedures for another Final Inspection. If Contractor requests more than two (2) Final Inspections, at Owner's discretion, any costs to Owner for additional Final Inspections may be changed to the Contractor.

1.18 NOTIFICATION OF NONCOMPLIANCE

A. If Owner notifies Contractor of any observed noncompliance with the foregoing requirements, Contractor must take immediate corrective action upon receipt of such notice. Such notice, when delivered to Contractor at the Project Site, is sufficient for the purpose of notification.

B. If Contractor fails or refuses to promptly comply with any notice of noncompliance, Owner may, in addition to other remedies provided by law and/or the Contract Documents, issue an Order to the Contractor to suspend part or all of the Work until Contractor has taken satisfactory corrective action. No part of the cost or time expended by Contractor or its Subcontractors due to such Order to suspend Work shall be made the subject of a Dispute or Claim against Owner for extension of the Contract Time, Contract Sum, or for excess costs or damages of any kind.

N. California Fire Code - Article 87
O. National Fire Protection Association - Standard #1
P. Fire Marshal Standard Details & Specifications - SI-7

1.03 DEFINITIONS
A. **Hot Work** - Hot work includes any operations capable of initiating fires or explosions, including cutting, welding, brazing, soldering, grinding, thermal spraying, thawing pipe, torch applied roofing, or any other similar activity.
B. **Fire Marshal** – Office of the Fire Marshal, Santa Clara County
C. **SD&S No. SI-7** – Fire Marshal Standard Details & Specifications Number SI-7 (Construction Site Fire Safety)
D. **Temporary Fencing** - Temporary fencing provided and installed by Contractor as needed by Contractor to protect equipment, field office, stored items, Project Site, and Work until final demobilization.

1.04 TEMPORARY FACILITIES AND CONTROLS

A. Provide and pay for all temporary utilities, utility usage and service charges, utility meters, controls, and support facilities required for construction of the Project.

1.05 UTILITIES

A. **Electricity**

1. Electrical service including metering devices needed by the Contractor to perform the Work must be provided and paid for by Contractor.
2. Arrange with utility company to provide service required for power and lighting, and pay all costs for service and for power used.
3. Install circuit and branch wiring with area distribution boxes located so that power and lighting is available throughout the construction by the use of construction-type power cords.
4. Provide adequate artificial lighting for all areas of Work in accordance with industry safety standards including OSHA requirements when natural light is not adequate for Work and for areas accessible to the public.
5. If additional temporary utility poles or electric extensions are deemed necessary by the Contractor to perform Contract Work, Contractor must submit three (3) copies of a plan showing the proposed temporary utility poles or electric extensions prior to installation. Contractor must pay for all additional temporary utility poles or electric extensions installed.

B. **Telephone Service**

1. Arrange with local telephone company to provide direct line telephone service at the construction site. (See Section 01500.1.08.A)
2. Minimum service required:
   a. One direct line instrument in Field Office.
3. Pay all costs for installation, maintenance and removal.
4. Prior to mobilization, Contractor must submit to Owner four (4) copies of a list containing all relevant personnel contact telephone numbers, including emergency contact numbers for nights, weekends, and holidays.

C. **Water Service**

1. Contractor must make arrangements and pay for all water and water metering devices required for construction purposes including landscape irrigation.
2. Contractor must not assume that water required for construction purposes will be available at the Project Site at the times and in the quantities required to support Contractor's construction activities.

D. **Sanitary Facilities**

1. Contractor must provide and pay for an appropriate number of sanitary facilities, in compliance with all laws and regulations, for use by Contractor and Owner's personnel.
2. Regular service of the sanitary facilities must be maintained by the Contractor to keep a clean, healthy, and hygienically acceptable work environment.
3. Contractor must not use Owner's Sanitary Facilities without prior written approval of Owner's Project Manager. (See Document 00700.3.21, "Worker's Sanitary Provisions and Use of Owner's Facilities").

E. **Waste Disposal**

1. Unless otherwise specifically stated in the Contract Documents, Contractor must
Provide and pay for all Waste Disposal.

2. Wastes must be properly handled, and stored in covered containers, and removed from the Project Site at least once each week.

3. Wood, cardboard, packing material, form lumber and similar combustible debris shall not be accumulated within buildings. Such debris, rubbish and waste material must be removed from buildings on a daily basis. (See SD&S No. SI-7)

1.06 TEMPORARY CONSTRUCTION FACILITIES

A. Field Office
   1. The Contractor must maintain an active Field Office on site.
   2. Contractor may bring a portable field office on site to support the Contractor’s Work.
   3. All project meetings will be held in the Contractor’s Field Office unless otherwise Directed by Owner’s Project Manager.

B. Advertising
   1. Advertising is not permitted, except that Contractor’s name may be placed on Contractor’s field office.

C. Temporary Fencing
   1. The Contractor must Install Temporary Fencing to protect equipment, field office, and stored items.
   2. Contractor must Provide and pay for Temporary Fencing to protect Project Site and Work areas as needed until final demobilization.

D. Storage Areas and Sheds
   1. Prior to mobilizing to the Project Site, Contractor must submit the intended location of the Contractor’s storage sheds and storage areas for Owner review and acceptance.
   2. Contractor must confine its apparatus, storage of materials, and construction operations to areas Approved by Owner’s Project Manager.
   3. Contractor must not unreasonably encumber the premises and roads with its materials and equipment.
   4. The Contractor must not store bulk quantities of fuel, oils, solvents or any other hazardous materials in storage tanks on-site.

E. Equipment Maintenance and Repair
   1. The Contractor must perform equipment maintenance activities in a designated area that is prepared to protect the ground surface from spills.
   2. The Contractor must collect, contain and properly dispose of all waste material (including waste oil, coolant, grease, and equipment parts) generated from these activities on a daily basis.
   3. Equipment service trucks must provide fuels and lubricants for construction equipment. Contractor must not store bulk quantities of fuel or oil in on-site storage tanks.

F. Vehicular Access
   1. All vehicles must be operated in a safe manner.
   2. Contractor’s equipment must enter and leave the Project area via access routes designated by Owner, and move in the direction of public traffic at all times. All movements on or across public traveled ways must not endanger public traffic.

G. Parking
   1. Parking for personal vehicles of Contractor’s personnel must be limited to designated areas specified or Approved by Owner’s Project Manager.
   2. Contractor must obtain and pay for GSA “parking permits” as needed or required.
   3. Personal vehicles must not be parked in the Work area.
GENERAL REQUIREMENTS
TEMPORARY FACILITIES AND CONTROLS
Section 01500
Page 4 of 13

4. Parking of construction equipment must be limited to designated areas specified or Approved by Owner.

5. All vehicles must be parked a minimum of 20 feet from new buildings under construction except construction vehicles may be temporarily parked for loading/unloading or other construction related operations as long as such vehicles are not left unattended at any time. (See Santa Clara Fire Marshall SD&S No. SI-7)

H. Progress Cleaning
1. Contractor must maintain the Project Site in a clean and orderly condition at all times.
2. The Contractor must maintain all Project areas free of waste materials, debris, dust, mud and rubbish caused by Contractor's operations.
3. Work and storage areas must be kept clean and free of rubbish on a daily basis.
4. Contractor must immediately remove any spillage resulting from hauling operations along or across any public traveled way.
5. Contractor must perform daily inspection of Project Site, Work areas, and public traveled ways to enforce the above requirements.

I. Concrete Washout Areas
1. Concrete washout must be limited to designated areas specified or Approved by Owner.

J. Temporary Living Facilities
1. Contractor’s employees, or others subject to the Contractor’s control, are not permitted to reside on the Project Site in temporary living facilities.

K. On-site Fabrication areas
1. On-site Fabrication must be limited to designated areas specified or Approved by Owner.

L. Hoists, Temporary Elevators and Man-lifts
1. Provide facilities for hoisting materials and employees.
2. Do not permit employees to ride hoists that comply only with requirements for hoisting materials.
3. Selection of type, size and number of facilities is the Contractor's option.
4. Provide properly trained operating personnel for equipment.
5. Truck cranes and similar devices used for hoisting are considered equipment and not Temporary Construction Facilities.
6. Permanent Elevators
   a. Use permanent elevators only with the express written permission of the Owner’s Project Manager.
   b. Contractor must not assume Owner will grant permission to use Permanent Elevators.
   c. If Owner grants permission to use Permanent Elevators, Contractor must comply with all conditions and restrictions associated with Owner’s permission for Contractor's use of Permanent Elevators.

M. Scaffolding
1. Furnish, erect and maintain all required scaffolding for the Work of this Project.
2. Scaffolding and accessories must conform to all regulations governing such equipment.
3. Maintain scaffolding in conformance with all applicable safety requirements.
4. Immediately upon completion of use, remove all scaffolding and accessories from the Job Site.
5. At the Contractor's option, individual Subcontractors may provide scaffolding for their Work; however, all scaffolding remains the responsibility of the Contractor.
N. Temporary Enclosures
   1. Provide temporary weather-tight enclosure of exterior walls for successive areas of building as work progresses, as necessary to provide acceptable working conditions, to provide weather protection for materials, allow for effective temporary heating, and to prevent entry of unauthorized persons.
   2. Provide temporary exterior doors with self-closing hardware and padlocks.
   3. Temporary Enclosures must be removable as necessary for Work and for handling of materials.

1.07 TEMPORARY CONTROLS

A. Temporary Barriers
   1. Contractor must provide and maintain temporary barriers as needed to prevent unauthorized entry to Work areas.
   2. Contractor must provide and maintain temporary barriers as needed to protect existing facilities and adjacent properties from damage.
   3. Contractor must provide adequate measures to protect third party vehicular traffic from damage.
   4. Contractor must provide adequate measures to protect third party foot traffic from injury.
   5. Install Temporary Barriers in a neat and reasonable uniform appearance, structurally adequate for required purposes.
   7. Relocate Temporary Barriers as required by progress of Construction.
   8. Contractor must remove Temporary Barriers when no longer needed, or at completion.

B. Protection of Work
   1. Contractor must protect installed Work and provide special protection where needed or required by the Contract Documents.
   2. Contractor must provide suitable drainage to protect the Project Site and the Work.
   3. Contractor must erect such temporary structures as are necessary to protect the Work, materials, and equipment from damage.
   4. Contractor must maintain staking, flagging, Temporary Fencing, and barrier fencing throughout the Contract Time as required for protecting the Work.

C. Protection of Existing Property
   1. Contractor must protect all existing utilities, facilities, landscape, fencing, equipment, furniture and all other existing structures and improvements within the Project area not specifically scheduled for demolition.
   2. To the extent permitted by law, any damage caused by the Contractor to existing utilities, facilities, equipment, furniture, fencing, and all other existing structures and improvements must be fully and immediately restored at the Contractor’s expense.

D. Protection of Pedestrians
   1. Contractor must pave pedestrian openings through falsework or provide full width continuous wood walks, and keep all walkways clear.
   2. Contractor must protect pedestrians from falling objects and water runoff.
   3. Overhead protection for pedestrians must extend not less than four (4) feet beyond the edge of a structure.

E. Security
   1. The security of the Project Site, Work area, and stored materials is the Contractor’s responsibility during the entire Contract Time.
   2. Owner is not responsible for damage to or loss of Contractor’s materials and equipment.
left at the Project Site.

3. Contractor must repair, replace, or restore all existing facilities, equipment, furniture, and new Work damaged, destroyed, lost, stolen, or defaced due to vandalism or theft.

F. Traffic Control:
1. The Contractor must not stage vehicles or equipment on railroad tracks, private property, or on any public street unless expressly authorized in advance by the local jurisdiction or private property owners.
2. The Contractor must keep all surface areas (i.e., site roads, off-site streets, and parking areas) clear of dirt, mud, and debris and must clean such surfaces as needed, or as Directed by the Owner’s Project Manager.
3. Locate temporary roads, drives, walks and parking facilities to provide uninterrupted access to construction offices, Work and storage areas, and other areas as required for efficient execution of the Work.
4. Keep fire hydrants and water control valves free from obstruction and accessible for use.
5. Provide flagmen for traffic control as needed or required.
6. At completion of the Work, permanent roads and entranceways must be left in at least equal condition to that existing at the start of the Work, except as may be otherwise required by the Contract Documents.

G. Noise Control
1. Unless the Owner’s Authorized Representative grants a waiver in writing, Contractor must comply with all local noise ordinances, and must limit the Normal Hours Of Work accordingly. (See Document 00700.3.20, “Sound Control”)

H. Dust Control:
1. Contractor must minimize dust nuisances resulting from performance of the Work, both inside and outside the Project limits, by applying either water or dust palliative, or both. (See Document 00700.3.18, “Air Pollution Control”)

I. Surface Water Control:
1. Contractor must:
   a. Construct whatever temporary facilities are necessary to provide prevention, control and abatement of water pollution. (See Document 00700.3.19, “Water Pollution Control”)
   b. Control surface drainage water to prevent damage to the Work, Project Site or adjoining properties.
   c. Provide whatever temporary measures are needed or required including but not limited to berms, dikes, ditches, and drains to direct surface drainage away from excavations, trenches, pits, tunnels and other Work areas.
   d. Provide, operate and maintain equipment of adequate capacity to control surface water.
   e. Dispose of drainage water in a manner to prevent flooding, erosion, or other damage to any portion of the Work, Project Site or to adjoining areas.
   f. Plan and execute earthwork operations by methods which control surface drainage.
   g. Expose minimum amount of bare soil at any given time.
   h. Inspect earthwork daily for evidence of erosion and apply erosion control measures as needed or required.

2. Contractor must obtain and pay for any discharge permits required.

J. Trenching and Excavation
1. Before any excavation, Contractor must, pursuant to California Government Code
§4216 and Cal/OSHA 8CCR1540, outline the excavation in white paint (preferably chalk or water base), provide two workdays notice to Underground Service Alert (1-800-227-2600), obtain a locator number, and follow all necessary procedures to avoid underground facility damage.

2. Contractor must meet all regulatory requirements and Provide adequate temporary protection before, during, and after all Trenching and Excavation activities. (See Document 00700.3.17, “Trenching and Excavation”.)

K. Pesticide Use
1. Contractor must comply with Division B28 of the Santa Clara County Ordinance Code relating to integrated pest management and pesticide use. (See Document 00700.3.16, “Safe Use of Pesticides”)

L. Compliance with Owner’s Policies, Ordinances, and Regulations
1. Contractor must comply with Owner’s Policies, Ordinances, and Regulations regarding signs, advertising, barricades, danger signals, pesticide use, fires, smoking, security, noise, or other policies or regulations, and must require all persons employed on the Work to comply with all building or institutional regulations, and vehicle, street and highway codes while on the premises and roads relating to the Project Site.

M. Temporary Heat and Ventilation
1. Provide temporary heat and ventilation in interior spaces prior to and when work is being performed.
2. Maintain adequate environmental conditions to facilitate progress of the Work.
3. Meet specified minimum conditions for the installation of materials.
4. Protect materials and finishes from damage due to temperature or humidity.
5. Provide adequate forced ventilation of enclosed areas for curing of installed materials, to disperse humidity, and to prevent hazardous accumulations of dust, fumes, vapors or gases.
6. Portable heaters must be standard approved units complete with controls and meet the requirements of Section 01500.1.08.Q, “Temporary Heating Equipment.”
7. Pay all costs of installation, maintenance, operation and removal, and for fuel consumed.

N. Confined Spaces
1. Contractor must comply with all State and Federal OSHA requirements, and all of Owner’s requirements regarding entry into confined spaces including but not limited to the following:
   a. Before starting any Work, submit for Owners review and acceptance a confined space entry program applying to all existing permit-required confined spaces identified by Owner in the Contract Documents (see Table 01500-001, “Permit-required Confined Spaces”), or defined by regulations, and any confined spaces identified or created by Contractor or Owner during the Contract Time. Owner has the right to identify additional spaces to be treated as confined spaces by Contractor at any time during the Contract Time, without changing the Contract Sum or Contract Time if such additional spaces were created by Contractor.
   b. Maintain written records of all entries into confined spaces and all activities conducted in confined spaces.
   c. Coordinate all entry operations with Owner when both Contractor’s personnel and Owner’s personnel will be working in or near a confined space in the Project area. Owner will endeavor to give Contractor at least twenty-four (24) hours advance notice of such entry except in unforeseen situations and emergencies.
   d. Inform Owner in writing at the conclusion of entry operations regarding the permit space program followed and any hazards confronted or created in permit spaces.
1.08 FIRE PROTECTION (See SD&S No. SI-7)

A. Prior to performing any Work at the Project Site, Contractor must establish at the Project Site, methods, procedures, and equipment for emergency notification to the fire department via telephone. The street address of the construction site must be posted adjacent to the telephone, along with the public safety emergency telephone number(s).

B. Fire Department Access Roadways
1. The Project Site must be accessible by fire department apparatus by means of roadways having an all-weather driving surface of not less than 20 feet of unobstructed width.
2. The Fire Department Access Roadway must have the ability to withstand the live loads of fire apparatus, and have a minimum 15 feet of vertical clearance.
3. Dead-end Fire Department Access Roadway in excess of 150 feet in length must be Provided with turnarounds approved by the Fire Marshal.
4. If permanent Fire Department Access Roadways are not available during any part of the Contract Time, Contractor must Provide temporary Fire Department Access Roadways complying with the following requirements:
   a. The roadway must be approved by the Fire Marshal
   b. As a minimum, the roadway must consist of a compacted sub-base and six inches (6") of road base material (Class II aggregate base rock), both compacted to a minimum of ninety-five (95%).
   c. The perimeter edges of the roadway must be contained and delineated by curb and gutter or other method approved by the Fire Marshal.
   d. Surface drainage must be Provided.
   e. The integrity of the roadway must be maintained at all times.
   f. The Contractor must include activities in Contractor’s Progress Schedules for Fire Marshal approval and construction of the temporary Fire Department Access Roadway.

C. Fire Alarm Systems
1. Fire alarm systems must be maintained operational at all times during building alterations.
2. When an alteration requires modification to a portion of the fire alarm system, the portion of the system requiring Work must be isolated and the remainder of the system must be kept in service whenever practical.
3. When it is necessary to shut down an entire fire alarm system, Contractor must provide a fire watch or other mitigation approved by the Fire Marshal. The mitigation measures must remain active until the system is returned to full service.

D. Area Separation Walls
1. When area separation walls are required, the wall construction must be completed, with all openings protected, immediately after the building is sufficiently weather-protected at the location of the wall(s).
2. Contractor’s Progress Schedule must include specific activities showing the installation of area separation walls.

E. Fire Extinguishers
1. Portable fire extinguishers must be Provided and must be mounted on a wall or post at each usable stairway such that the travel distance to any extinguisher does not exceed 75 feet.
2. Mounting height to the top of the extinguisher must not exceed five feet (5’).
3. Extinguishers must have not less than a 2A1 OBC rating or as otherwise directed by the Fire Marshal.

4. The Contractor must ensure an adequate number of individuals are trained in the proper use of portable fire extinguishers.

F. Standpipes
1. Where standpipes are required, the standpipes must be installed when the progress of construction is not more than 35 feet in height above the lowest level of the fire department access.

2. The standpipe system must be extended as construction progresses to within one floor of the highest point of construction having secured decking or flooring.

3. Contractor’s Progress Schedule must include specific activities showing the installation of standpipes.

G. Fire Hydrants
1. If underground water mains and fire hydrants are required as part of the Work, they must be installed, completed, and in service prior to combustible construction materials accumulating on the Project Site.

2. Contractor’s Progress Schedule must include specific activities showing the installation of water mains and fire hydrants.

H. Fire Sprinkler Systems
1. If automatic fire sprinkler systems are required as part of the Work, the system must be placed in service as soon possible.

2. Immediately upon the completion of sprinkler pipe installation on each floor level, the piping must be hydrostatically tested and inspected.

3. After inspection and approval from the Fire Marshal, each floor level of sprinkler piping must be connected to the system supply riser and placed into service.

4. Prior to installation of the permanent monitoring system, an exterior alarm bell may be installed and connected to a sprinkler water flow device to provide notification when the system is activated.

5. For buildings equipped with fire sprinkler systems that are undergoing alterations, the sprinkler system(s) must remain in service at all times except when system modifications are necessary.

6. Fire sprinkler systems undergoing modifications must be returned to service at the end of each workday unless otherwise approved by the Fire Marshal.

7. The Contractor must check the sprinkler control valve(s) at the end of each workday to confirm the system has been restored to service.

8. Contractor’s Progress Schedule must include specific activities showing the installation of Fire Sprinkler Systems including all sequencing restrictions identified in the requirements of the Contract Documents.

I. Exiting Requirements
1. All new buildings under construction must have a least one unobstructed exit.

2. For new multi-story buildings, each level above the first story must be provided with at least two usable exit stairs after the floor decking is installed. The stairways must be continuous and discharge to grade level.

3. Stairways serving more than two floor levels must be enclosed (with openings adequately protected) after exterior walls/windows are in place.

4. Exit stairs in new and existing, occupied buildings, must be lighted and maintained clear of debris and construction materials at all times. (Exception: For new multi-story buildings, one of the required exit stairs may be obstructed on not more than two (2) contiguous floor levels for the purposes of stairway construction; i.e., installation of
5. Designated exterior assembly points must be established for all construction personnel to relocate to upon evacuation.

6. Contractor’s Progress Schedule must include specific activities showing the installation of exit stairs including all sequencing restrictions identified in the requirements of the Contract Documents.

J. Oily Rags
1. Oily rags and similar material must be stored in metal or other approved containers equipped with tight-fitting covers.

K. Smoking
1. Smoking is prohibited anywhere inside or on the roof of new buildings under construction or in the Work area of buildings undergoing alteration.

2. A suitable number of "NO SMOKING" signs must be posted to ensure smoking is controlled.

L. Asphalt and Tar Kettles
1. Asphalt kettles must not be located within 20 feet of any combustible material, combustible building surface or building opening.

2. With the exception of thermostatically controlled kettles, an attendant must be within 100 feet of a kettle when the heat source is operating.

3. Ladders or similar obstacles must not form a part of the route between the attendance and the kettle.

4. Kettles must be equipped with tight-fitting covers.

5. A minimum 20-B:C rated portable fire extinguisher must be located within 30 feet of each asphalt kettle when the heat source is operating.

6. Minimum 20-B:C rated portable fire extinguishers also must be located on roofs during asphalt coating operations.

M. Compressed Gases
1. Gas cylinders must be marked with the name of the contents.

2. Gas cylinders must be stored upright and secured to prevent falling.

3. When not in use, gas cylinder valve protective caps must be in place.

4. Gas cylinders must be protected against physical damage.

5. When stored, gas cylinders must be separated from each other based on their hazard classes.

6. Combustible materials must be kept a minimum of 10 feet from gas containers.

7. Gas cylinders must not be placed near elevators, unprotected platform edges or other areas where they would drop more than two feet (2').

8. Gas cylinders must not be placed in areas where they may be damaged by falling objects.

9. Ropes, chains or slings must not be used to suspend gas cylinders unless the cylinder was manufactured with appropriate lifting attachments.

N. Liquid Petroleum Gas Storage and Use
1. Liquid petroleum gas (LP-Gas) storage and use must comply with the following:
   a. If not prohibited by other sections of the Contract Documents, propane containers may be used in buildings under construction or undergoing major renovation as a fuel source for temporary heating for curing concrete, drying plaster and similar applications in accordance with the following:
      (1) Heating elements (other than integral heater-container units) must be located at least 6 feet from any LP-Gas container.
(2) Integral heater container units specifically designed for the attachment of the heater to the container, or to a supporting standard attached to the container, may be used provided they are designed and installed so as to prevent direct or radiant heat application to the LP-Gas container.

(3) Blower and radiant type units must not be directed toward any LP-Gas container within 20 feet.

(4) Heat producing equipment must be installed with clearance to the combustibles in accordance with the manufacturer's installation instructions.

(5) Cylinders must comply with DOT cylinder specifications and must be secured in an upright position.

(6) Regulators must be approved for use with LP-Gas. Fittings must be designed for at least 250-psig service pressure.

(7) Hoses must be designed for a working pressure of at least 350 psig (unless limited to 5 psig) and shall be a maximum of 6 feet in length.

(8) Portable heaters must be equipped with an approved automatic device to shut off the flow of gas to the main burner and to the pilot in the event of flame extinguishment or combustion failure.

(9) Portable heaters with an input of more than 50,000 Btu/hr must be equipped with either a pilot that must be "proved" before the main burner can be turned on, or provided with an approved electronic ignition system.

b. In addition to the above, for LP-Gas storage/use in buildings undergoing alteration and that are fully or partially occupied, the following shall also apply:

(1) Specific approval must be obtained from the Fire Marshal prior to bringing LP-Gas containers onto the Project Site.

(2) The maximum water capacity of individual containers shall be 5-gallon water capacity and the number of containers in the building shall not exceed the number of workers assigned to using the LP-Gas.

(3) Containers having a water capacity greater than 2 1/2 lb. [1 quart] must not be left unattended.

O. Hot Work

1. The use of Hot Work equipment must be in accordance with the following guidelines, including a pre-site inspection, fire watch and post inspection procedures.

   a. Pre-site Inspection: An inspection of the Hot Work site must be conducted by the Contractor or his/her designee prior to Hot Work operations to ensure:

      (1) the Hot Work site is clear of combustibles or that combustibles are protected;

      (2) exposed construction is of noncombustible materials or that combustible materials are protected;

      (3) openings are protected;

      (4) there are no exposed combustibles on the opposite side of partitions, walls, ceilings, floors, etc.;

      (5) fire extinguishers are available, fully charged and operable; and

      (6) fire watch personnel are assigned, equipped and trained.

   b. Fire Watch: The sole duty of fire watch personnel must be to watch for the occurrence of fire during and after Hot Work operations.

      (1) Individuals designated to fire watch duty must have fire-extinguishing equipment readily available and must be trained in the use of such equipment.

      (2) Personnel assigned to fire watch must be responsible for extinguishing spot fires and communicating an alarm.
(3) Hot Work conducted in areas with vertical and horizontal fire exposures that cannot be observed by a single individual must have additional personnel assigned to fire watches to ensure that all exposed areas are monitored.

c. Post Inspection: The fire watch must be maintained a minimum of 30 minutes after the conclusion of the Work to look out for leftover sparks, slag or smoldering combustibles.

P. Combustion Powered Equipment

1. Combustion powered equipment must be used in accordance with the following:
   a. Equipment must be located so that exhausts do not discharge against combustible materials.
   b. When possible, exhausts must be piped to the outside of the building.
   c. Equipment must not be refueled while in operation.
   d. Fuel for equipment must be stored in an approved area outside of the building.

Q. Temporary Heating Equipment (See Santa Clara Fire Marshall SD&S No. SI-7)

1. Temporary heaters, such as those that are liquid petroleum gas (LP-Gas) fueled, shall be listed and must be installed, used, and maintained in accordance with the manufacturers instructions.
2. Temporary heating devices must be secured properly and kept clear from combustible materials.
3. Refueling operations must be conducted in an approved manner.

R. Combustible Material Storage

1. Combustible construction materials must be stored a minimum of 20 feet from buildings under construction or undergoing remodel, except:
   a. Materials staged for installation on a floor level.
   b. When specifically approved by the Fire Marshal, materials may be stored in parking garages of Type I construction if the automatic fire sprinkler system is in service and vertical openings are protected.

S. Flammable and Combustible Liquids

1. Storage areas for flammable and combustible liquids must be kept free of weeds and extraneous combustible material. Open flames and smoking are prohibited in flammable or combustible liquid storage areas.
2. Tanks and containers must be marked with the name of the product and "FLAMMABLE KEEP FIRE AND FLAME AWAY." Tanks (containers in excess of 60 gallons) shall also be labeled, "KEEP 50 FEET FROM BUILDINGS."
3. Metal containers for Class I or II liquids must be in accordance with DOT requirements or must be of an approved design. Discharge devices must not cause an internal pressure on the container. Individual containers must not be interconnected and must be kept closed when not in use.
4. Secondary containment or a means of spill control, drainage control, and dike control is required for large containers (such as 55 gallon drums) and tanks as approved by the Fire Marshal.
5. Plans for the installation/use of any aboveground storage tank (containers greater than 60 gallons) must be submitted to the Owner and Fire Marshal for review and permit prior to procuring proposed tank.

T. Burning on the Project Site is prohibited.

1.09 SUBMITTALS

A. Contractor must submit the following items to the Owner for review and acceptance prior to mobilization:
1. Three (3) copies of a site map identifying the locations of:
   a. Contractor’s field office (See Section 01500.1.06.A)
   b. Storage sheds and storage areas (See Section 01500.1.06.D)
   c. Project Site access and egress points (See Document 00700.10.3.3)
   d. Fabrication areas (See. Section 01500.1.06.K)
   e. Equipment maintenance area (See Section 01500.1.06.E)
   f. Parking area for personal vehicles (See Section 01500.1.06.G)
   g. Parking and maintenance area(s) for construction equipment (See Section 01500.1.06.G)
   h. Temporary utility poles or electric extensions (See. Section 01500.1.05.A.5)
   i. Concrete washout area(s) (See. Section 01500.1.06.I)
   j. Temporary and/or Construction Fencing location(s)

2. Eight (8) copies of a written description of what types of materials will be used as temporary barriers and protection and how they will be utilized. (See Section 01500.1.07, “Temporary Controls”)

3. Three (3) copies of a letter designating an authorized representative for the Contractor who will have the authority to represent and act for Contractor at the Project Site. (See Document 00700.3.7.1). Include the telephone and/or pager numbers at which the Contractor’s Authorized Representative can be reached at all times. (See Document 00700.3.7.4)

4. Four (4) copies of a confined space entry program applying to all existing permit-required confined spaces identified by Owner in the Contract Documents, or defined by regulations, and any confined spaces identified or created by Contractor or Owner during the Contract Time.

B. Contractor must submit one reproducible and eleven (11) copies of the following items for Owner and Fire Marshal review and acceptance:

1. Plans for the installation/use of any aboveground storage tank (containers greater than 60 gallons).

2. Plans for temporary Fire Department Access Roadways, if needed.

SOLID WASTE MANAGEMENT AND RECYCLING PLAN

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Sections
      c. 1.03 - Definitions
      d. 1.04 - Intent
      e. 1.05 - Submittals
      f. 1.06 - Recycling Requirements
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms
      a. Form 01515-F1 “Summary of Solid Waste Disposal and Diversion”

1.02 RELATED SECTIONS
A. Division 1 Section 01330, “Submittal Procedures”
B. Division 1 Section 01500, “Temporary Facilities and Controls”
C. Division 1 Section 01740, “Cleaning”

1.03 DEFINITIONS
A. **Inert Fill** - A permitted facility that accepts inert waste such as asphalt and concrete exclusively.
   1. Inert Solids/Inert Waste: Non-liquid solid waste including, but not limited to, soil and concrete, that does not contain hazardous waste or soluble pollutants at concentrations in excess of water-quality objectives established by a regional water board and does not contain significant quantities of decomposable solid waste.

B. **Class III Landfill** - A landfill that accepts non-hazardous waste such as household, commercial and industrial waste, including construction, remodeling, repair and demolition operations.

C. **Construction and Demolition Waste** - Includes solid wastes, such as building materials, packaging, rubbish, debris and rubble resulting from construction, remodeling, repair and demolition operations.
   1. Rubbish: Includes both combustible and noncombustible wastes, such as paper, boxes, glass, crockery, metal and lumber scrap, tin cans, and bones.
   2. Debris: Includes both combustible and noncombustible wastes, such as leaves and tree trimmings that result from construction or maintenance and repair work.

D. **Chemical Waste** - Includes petroleum products, bituminous materials, salts, acids, alkalis, herbicides, pesticides, organic chemicals and inorganic wastes.

E. **Sanitary Wastes** – Includes:
   1. Garbage: Refuse and scraps resulting from preparation, cooking, distribution or consumption of food.
   2. Sewage: Domestic sanitary sewage.

1.04 INTENT
A. Owner is committed to promoting efforts to have the Work performed in an environmentally sensitive manner.

B. To promote this effort the Contractor is required to:
   1. Make reasonable efforts to affect optimum control of solid wastes.
   2. Prepare and comply with a Project specific Solid Waste Management Plan.

1.05 SUBMITTALS

A. Submit the following according to the requirements of the Contract Documents:
   1. Solid Waste Management Plan
      a. No later than twenty-eight (28) Days after the start date for the Work stated in the Notice to Proceed, Contractor must schedule and conduct a meeting with Owner to discuss Contractor’s proposed Solid Waste Management Plan.
      b. No later than forty-five (45) Days after the start date for the Work stated in the Notice to Proceed, prepare and submit four (4) copies of a written and/or graphic Solid Waste Management Plan including, but not limited to, the following:
         (1) Permit or license and the location of the solid waste disposal area(s).
         (2) Procedures for Recycling/Re-Use Program.
      c. Revise and resubmit Solid Waste Management Plan as required by Owner.
   2. Review of the Contractor’s Solid Waste Management Plan will not relieve the Contractor of responsibility for adequate and continuing control of pollutants and other environmental protection measures.

B. No later than 15 Days after Contractor’s request for Final Inspection, Contractor must submit four (4) copies of a summary of solid waste generated by the Contractor’s operations.
   1. Submit on Form 01515-F1 or other form acceptable to Owner.
   2. Include manifests, weight tickets, receipts, and invoices specifically identifying the Project and waste material from:
      a. Recycling Centers.
      b. Class III Landfills.
      c. Inert Fills.

1.06 RECYCLING REQUIREMENTS

A. Recycling: Implement a recycling program that includes separate collection of waste materials of the following types:
   1. Concrete.
   2. Metal:
      a. Ferrous.
      b. Non-ferrous.
   3. Wood.
   4. Debris.
   5. Glass.
   6. Fluorescent light tubes
   7. Paper:
      a. Bond.
      b. Newsprint.
c. Cardboard and paper packaging materials.

8. Others as appropriate.

SECTION 01525
FIRE PROTECTION PLAN

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Sections And Standards
      c. 1.03 - Definitions
      d. 1.04 - Fire Protection Plan Requirements
      e. 1.05 - Implementation
      f. 1.06 - Submission
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED SECTIONS AND STANDARDS
A. Division 1 Section 01500, “Temporary Facilities and Controls”
B. California Fire Code - Article 87
C. National Fire Protection Association - Standard #1
D. Fire Marshal Standard Details & Specifications - SI-7

1.03 DEFINITIONS
A. **Hot Work** - Hot work includes any operations capable of initiating fires or explosions, including cutting, welding, brazing, soldering, grinding, thermal spraying, thawing pipe, torch applied roofing, or any other similar activity.
B. **Fire Marshal** – Office of the Fire Marshal, Santa Clara County
C. **SD&S No. SI-7** – Fire Marshal Standard Details & Specifications Number SI-7 (Construction Site Fire Safety)

1.04 FIRE PROTECTION PLAN REQUIREMENTS
A. Contractor must prepare and submit a written Fire Protection Plan.
B. The written Fire Protection Plan must meet the requirements of the Contract Documents and be consistent with the fire safety precautions specified in SD&S No. SI-7.
C. At a minimum, the fire protection plan must include:
   1. The name and contact phone number of the person(s) responsible for compliance with the Fire Protection Plan.
   2. Procedures for:
      a. Reporting emergencies to the fire department.
      b. Emergency notification, evacuation and/or relocation of all persons in the building under construction and on the Project Site.
      c. Hot Work operations
      d. Management of hazardous materials
e. Removal of combustible debris
f. Maintenance of emergency access roads.

3. Floor plans identifying the locations of:
   a. Exits
   b. Exit stairs
   c. Exit routes
   d. Portable fire extinguishers.

4. Site plans identifying:
   a. Designated exterior assembly areas for each evacuation route.
   b. Fire apparatus access roadways
   c. On-site fire hydrants

1.05 IMPLEMENTATION
   A. Contractor is responsible for implementation of the requirements and provisions of the
      approved Fire Protection Plan.
   B. Contractor is responsible for communicating the requirements of the Fire Protection Plan to all
      Subcontractors and other personnel working at the Project Site.

1.06 SUBMISSION
   A. Submit four (4) copies of a Fire Protection Plan.
   B. Fire Marshal must approve the Fire Protection Plan prior to Contractor performing Work at the
      Project Site.

A. Section 01500.1.09.A.1.J, Site Map Submittal
B. Section 01500.1.06.C, “Temporary Fencing”

1.03 DEFINITIONS
A. Temporary Fencing - Temporary fencing Provided and Installed by Contractor as required by other Sections of the Contract Documents.
B. Construction Fencing - Temporary fencing to be Provided and Installed by Contractor for the duration of construction as required by this Section.

1.04 CONSTRUCTION FENCING
A. Prior to start of Work at the Project Site, install site enclosure fence with suitable locked entrance gates.
B. Locate as shown on Drawings or as Approved by Owner’s Project Manager.
C. Locate vehicular entrance gates in suitable relation to construction facilities and to avoid interference with traffic on public thoroughfares.
D. Locate pedestrian entrance gates as required to provide controlled personnel entry, in suitable relation to construction parking facilities.
E. Fencing Materials:
   1. No. 11 gauge, 2-inch mesh, 72-inch high galvanized chain link fabric with extension arms and 3b strands of galvanized barbed wire.
   2. Galvanized steel posts; 1-1/2 inch O.D. line posts and 2 inch O.D. corner posts.

PART 2 - PRODUCTS (Not Used)
PART 3 - EXECUTION
3.01 CONSTRUCTION
   A. Construct open-mesh fence in accordance with industry standards.

3. Part 3 – Execution (Not Used)
4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS (Not Used)

1.03 DEFINITIONS (Not Used)

1.04 GENERAL

A. Contractor personnel are prohibited from communicating with inmates.

B. All County facilities are “No Smoking” facilities.

1.05 HOSTAGE NEGOTIATION POLICY

A. The facility is a "NO HOSTAGE" area.

B. If Contractor personnel are taken hostage, the DOC will NOT negotiate for the release of an inmate based on the status of any hostage.

C. The Contractor is responsible to inform all Contractors' personnel working within the facility of
this policy.

1.06 LOCKDOWN
A. On occasion, the facility must be "Locked Down" for security reasons.
B. If there is a security threat inside the facility, Contractor personnel may be ordered to leave the facility. In this eventuality, the all Contractor personnel must comply immediately.

1.07 RESTRICTED MATERIALS
A. No firearms, narcotics, drugs, intoxicants, or other similar materials are permitted on the Project Site.
B. Contractor personnel must not smoke inside the secure facility.
C. Contractor personnel must not to bring cigarettes or other tobacco products into the facility. Inmates often attempt to gain access to them.

1.08 SECURITY CLEARANCE
A. Prior to performing Work within secured facilities operated by Santa Clara County Department of Corrections (DOC), Contractor personnel are required to obtain Security Clearance.
B. Contractor personnel may be required to submit to fingerprinting.

1.09 ACCESS TO SECURED FACILITY WORK AREA
A. DOC staff will control all access to the Work area.
B. All vehicles, equipment, supplies and persons are subject to a security check before entering or leaving the site. The process to enter or exit the facility normally takes from one (1) to fifteen (15) minutes depending on the time of day. The cost of lost time checking in and out is the responsibility of the Contractor.
C. All Contractor personnel, equipment, supplies, and materials must use the East Gate entrance.
D. Contractor personnel must have their identification ready when they arrive.
E. The guard at the entry gate will issue a Contractor Badge in exchange for the individual's driver's license.
F. Contractor personnel must report to the DOC Operations Office and check in with the Operations Officer.

1.10 WORK AREA SECURITY
A. Almost anything is of value to an inmate. Items as simple as a nail or scrap of wire can be fashioned into a dangerous device that an inmate may use to damage property, attempt escape or even take a life. Contractor personnel must be aware of their surroundings at all times and be extra careful to keep all objects secured. Special precautions are required of the Contractor to prevent the contamination of the Work area with metal scraps and debris.
B. Contractor must clear, clean, and lock the Work area at the end of each day.
C. The Contractor must report to the DOC Operations Office immediately on discovery, of the loss of any tools, equipment, materials, or other items stored or used on the Project Site.
D. Contractor's equipment must be rendered temporarily inoperative when not in use, by locking or other means.

1.11 FACILITY DISRUPTION
A. Contractor must at all times conduct their operations so as not to interrupt or disrupt the functioning of the facility.
B. All Work that will or may affect the operation of the facility must be scheduled 72-hours in advance and be accepted in writing by the DOC Operations Office.

1.12 TOOL CONTROL

A. The quantity and type of tools taken by Contractor personnel into secured facilities is restricted.
B. The use of explosive powered tools, fasteners, and devices is prohibited unless Contractor obtains prior written permission from DOC Operations Office.
C. In addition to Contractor's general inventory and control procedures, DOC Operations Office may require Contractor to maintain special inventory and/or control procedures for:
   1. Sharp cutting instruments and tools, i.e.. hacksaw blades, and files, etc.
   2. Ropes
   3. Ladders
   4. Volatiles, quick evaporating liquids and alcohol base thinners.
D. Contractor personnel must only bring the tools they actually need to perform work into the facility.
E. Tool control is Contractor's responsibility. Contractor must ensure their tools are properly secured at all times.
F. Contractor personnel are required to account for all tools and materials taken into secured facilities. The DOC Staff may, at any time, inventory Contractor's tools.
G. Rolling, lockable tool cabinet(s) are required within the secure facility. Tools must be kept in the locked toolbox whenever possible.
H. If Contractor personnel leave the Work Area at any time during the day, their tools must be secured in the locked tool cabinet.
I. Contractor must inspect Work Area for forgotten tools or material at the end of each day.
J. All tools must be stored at the close of Normal Hours of Work and locked in a place of security provided by the Contractor, as approved by DOC Operations Office.
K. All tools transported in vehicles must be secured within the vehicles.
L. Tools hanging from tool belts are not permitted.
M. Contractor personnel are prohibited from leaving unsecured tools in vehicles or anyplace where inmates can access them.
N. If Contractor discovers that a tool is missing, the loss must be immediately reported to the DOC Operations Office.

1.13 VEHICLE SECURITY

A. All persons must remove ignition keys from their vehicles when they are out of the vehicles.
B. Unattended vehicles must be locked at all times.
C. Contractor parking outside and within the secured facility is restricted.
D. Vehicles must only be parked in areas designated by DOC Staff.

1.14 SCHEDULING WORK

A. Contractor must inform DOC Operations Office of their planned Work schedule.
B. If a Contractor is unable to be on site as scheduled, Contractor must notify the DOC Operations Office indicating that the Contractor will be delayed or that the scheduled work for that day is cancelled. This notice is required no later than 30 minutes before the scheduled beginning of work.
1.15 SECURITY ESCORTS

A. Contractors are not permitted on-site when unescorted by DOC Operations staff.

B. Escorts are required for all Contractor personnel entering or leaving a secured construction area. The DOC Operations Office will furnish escorts to the Contractor.

C. Escorts will be furnished based on the schedule that is agreed upon by the Owner's Project Manager, DOC Operations Office, and the Contractor.

D. Any changes to the agreed upon escort schedule must be approved by the Owner's Project Manager, and DOC prior to the change taking effect.

E. Contractor personnel must contact the DOC Operations Office (957-5440) at least thirty (30) minutes prior to arriving at the facility entrance. The notification is required to coordinate the availability of the security escort with the actual arrival of the Contractor personnel at the facility.

F. Contractor personnel must work and take breaks during the times that the escorts are available.

1.16 NORMAL HOURS OF WORK

A. The Normal Hours Of Work within all DOC Facilities are:

1. Monday through Friday
   a. 7:00 a.m. to 10:30 a.m.
   b. 10:30 a.m. to 11:30 a.m. - Lunch Break (no escort available)
   c. 11:30 a.m. to 4:30 p.m.

2. Any work performed on holidays, weekends, or between the hours of 4:30 p.m. and 7:00 a.m. is considered to be work performed outside Normal Hours Of Work.

B. Weekend access is normally not available

C. Whenever the Contractor intends to perform work outside the Normal Hours Of Work, Contractor must request permission by giving written notice to the Owner's Project Manager and DOC Building Operations Manager at least seventy-two (72) hours prior to performing the Work. Requests to work outside Normal Hours Of Work must be approved by both the Owner's Project Manager and the DOC Building Operations Manager.

1.17 MATERIAL CONTROL

A. Material may be delivered to DOC Operations Office during Normal Hours Of Work.

B. Materials will be stored in areas designated by DOC Operations.

C. At the end of each workday, Contractor must clear the Work area(s) of debris, trash, rubbish, tools, materials, supplies and any other object that could be used as a weapon.

STORM WATER POLLUTION PREVENTION PLAN (SWPPP)

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents and Sections
      c. 1.03 - Definitions
      d. 1.04 - SWPPP Requirements
      e. 1.05 - Submittals
   2. Part 2 – Products (Not Used)
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS
A. Document 00700.3.19, “Water Pollution Control”
B. Section 01330, “Submittal Procedures.”
C. Section 01450, “Contractor’s Quality Control (QC) System”

1.03 DEFINITIONS
A. NOI - Notice of Intent
B. SWPPP - Storm Water Pollution Prevention Plan
C. NOT - Notice of Termination

1.04 SWPPP REQUIREMENTS
A. The project will comply with the NPDES General Construction Activity Storm Water Permit administered by the Regional Water Quality Control Board.
B. Prior to construction grading for the proposed land uses, the Owner will file a “Notice of Intent” (NOI) to comply with the General Permit.
C. The Contractor must prepare and maintain for the entire construction period a Storm Water Pollution Prevention Plan (SWPPP) which addresses measures Contractor will implement to minimize and control construction and post-construction storm water runoff.
D. At a minimum, the following measures must be included in the SWPPP:
   1. Burlap bags filled with drain rock will be installed around storm drains to route sediment and other debris away from the drains.
   2. Earthmoving or other dust-producing activities will be suspended during periods of high winds.
   3. All exposed or disturbed soil surfaces will be watered at least twice daily to control dust.
   4. Stockpiles of soil or other materials that can be blown by the wind will be watered or covered.
   5. All trucks hauling soil, sand, and other loose materials will be covered and maintain at least two feet of freeboard.
   6. All paved access roads, parking areas, staging areas and residential streets adjacent to
the construction sites will be swept daily (with water sweepers).

E. Contractor must submit twelve (12) copies of the draft SWPPP to the Owner for review and acceptance prior to construction.

F. The certified SWPPP must be available at the Project Site and must be updated to reflect current site conditions.

G. When the construction phase is complete, Contractor must file a Notice of Termination (NOT) for the General Permit for Construction with the Regional Water Quality Control Board and applicable Governmental Agency. The NOT must document that all elements of the SWPPP have been executed, construction materials and waste have been properly disposed of, and a post-construction storm water management plan is in place as described in the SWPPP for the site. Submit three (3) copies of the NOT to the Owner.

1.05 SUBMITTALS

A. Submit the Storm Water Pollution Prevention Plan (SWPPP) in accordance with Section 01300, "Submittal Procedures."

B. Submit required copies of the Notice of Termination (NOT) to the Owner

C. Document 00700.3.30, “Substitutions”
D. Division 1 Section 01330, “Submittal Procedures”
E. Division 1 Section 01630, “Product Substitution Procedures”

1.03 DEFINITIONS
A. Products - Items purchased for incorporating into the Work, whether purchased for Project or taken from previously purchased stock.
   1. The term "Product" includes the terms "material," "equipment," "system," and terms of similar intent.
   2. Product means New Products including material, machinery, components, equipment, fixtures, and systems forming the Work.
      a. Product does not include machinery and equipment used for preparation, fabrication, conveying and erection of the Work.
      b. Products may also include existing materials or components required for reuse.
B. Named Products - Products identified in the Contract Documents by Manufacturer's product name. Named Products may include Manufacturer's make or model number or other designation.
C. New Products - Items that have not previously been incorporated into another project or facility, except that products consisting of recycled-content materials are allowed, unless explicitly stated otherwise. Products salvaged or recycled from other projects are not considered New Products.
D. Manufacturer's Warranty - Preprinted written Warranty published by individual Manufacturer for a particular Product and specifically endorsed by Manufacturer to Owner.
1.04 PRODUCT DELIVERY, STORAGE, AND HANDLING

A. Delivery
   1. Deliver Products using means and methods that will prevent damage, deterioration, and loss, including theft.
   2. Schedule delivery to minimize long-term storage at Project Site and to prevent overcrowding of Project or Work areas.
   3. Coordinate delivery with installation time to ensure minimum holding time for items that are flammable, hazardous, easily damaged, or sensitive to deterioration, theft, and other losses.
   4. Deliver products to Project Site in an undamaged condition in Manufacturer's original sealed container or other packaging system, complete with labels and instructions for handling, storing, unpacking, protecting, and installing.
   5. Inspect products on delivery to ensure compliance with the Contract Documents and to ensure that Products are undamaged and properly protected.

B. Storage
   1. Store Products using means and methods that will prevent damage, deterioration, and loss, including theft.
   2. Comply with Manufacturer’s written instructions for storage.
   3. Store Products to allow for inspection and measurement of quantity or counting of units.
   4. Store materials in a manner that will not endanger Project premises or personnel.
   5. Store Products that are subject to damage by the elements, under cover in a weather tight enclosure above ground, with ventilation adequate to prevent condensation.
   6. Comply with product Manufacturer’s written instructions for temperature, humidity, ventilation, and weather-protection requirements for storage.
   7. Protect stored products from damage.
   8. For exterior storage of fabricated products, place on sloped supports above ground.
      a. Cover products subject to deterioration with impervious sheet covering and provide ventilation to avoid condensation.
      b. Store loose granular materials on solid surfaces in well-drained area; prevent mixing with foreign matter.

C. Handling
   1. Handle Products using means and methods that will prevent damage, deterioration, and loss, including theft.
   2. Comply with Manufacturer’s written instructions for handling.
   3. Provide equipment and personnel to handle products by methods to prevent soiling or damage.

1.05 PACKAGING

A. Provide reusable or recyclable packaging for items delivered to the Project Site such as construction materials, operations and maintenance materials, furniture, equipment and other large objects.

B. For items over 75 pounds or larger than 120 cubic feet, polystyrene “peanuts” shall not be used with packaging.

C. Use products with natural or recycled content.
1. Plastic sheets or films will be allowed only if labeled with recycling symbol-indicating type of plastic.

2. Reusable Packaging: Items such as blankets, skids and crates must be returned to the manufacturer or transportation company for future reuse as packaging materials.

3. Recyclable Packaging: Items such as boxes, cardboard and paper that will be delivered to a recycling center after use.

   D. Properly dispose of packaging materials and clean surrounding areas of packaging debris immediately after unpacking of Products.

PART 2 - PRODUCTS

2.01 UNAUTHORIZED PRODUCTS

A. Products required for Work must not contain asbestos or polychlorinated biphenyls (PCB).

B. If the Contract Documents name a Product, Provide the Named Product unless the Owner’s Authorized Representative, through the Substitution process, accepts an equal Product. (See Section 01630, “Product Substitution Procedures”)

2.02 PRODUCT AVAILABILITY

A. Prior to Bid, Contractor must verify that Named Products, including sole source Products can be obtained, delivered, and installed within the Time Period(s) stated in the Bid Documents.

B. Owner does not warrant that Named Products including sole source Products are available within the Time Period(s) required by the Bid Documents. Contractor must verify availability of Named Products before submitting a Bid.

C. By submitting a Bid, Contractor represents to the Owner that Contractor has verified the availability of Named Products, the Named Products including sole source Products are currently available, and the Work or designated portion of the Work can be completed within the Contract Time(s).

2.03 PRODUCT REQUIREMENTS

A. Provide Products that:

   1. Comply with the requirements of the Contract Documents
   2. Have been accepted by the Owner for incorporation into the Work
   3. Are undamaged
   4. Are new at time of installation, unless otherwise indicated in the Contract Documents.

B. Provide products complete with:

   1. Accessories
   2. Trim
   3. Finish
   4. Fasteners
   5. Gauges
   6. All other items needed for a complete installation.

C. Standard Products

   1. If available, and unless custom products or nonstandard options are specified, Provide standard products of types that have been produced and used successfully in similar situations on other projects.

D. Owner has the right to reject Products with Manufacturer’s Warranties that are in conflict with requirements of the Contract Documents.

E. Products required to be supplied in quantity must be interchangeable.
END OF SECTION 01600
SECTION 01630
PRODUCT SUBSTITUTION PROCEDURES

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents
      c. 1.03 Definitions (Not Used)
      d. 1.04 - General
      e. 1.05 - Submission Requirements
      f. 1.06 - Owner’s Action
   2. Part 2 – Products
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)
      a. Form 01630-F1 (Substitution Request Form)

1.02 RELATED DOCUMENTS
A. Document 00200.16, “Substitution of Alternative Materials, Articles, or Equipment”
B. Document 00700.3.30, “Substitutions”

1.03 DEFINITIONS (Not Used)

1.04 GENERAL
A. Owner’s Authorized Representative will consider proposals for Substitution of a service, product, material, process or article only when such proposals are:
   1. Submitted within the time periods stated in the Contract Documents
   2. Accompanied by full and complete technical data
   3. All supporting information requested by Owner’s Authorized Representative to substantiate or prove quality, delivery time, and cost are submitted
   4. Substitution request is accompanied by Substitution Request Form (Form 01630-F1) at the end of this Section 01630, “Product Substitution Procedures”, properly completed by Contractor, and properly certified by the Contractor’s Authorized Representative. If the Substitution request is a pass through request from a Subcontractor, both Contractor’s Authorized Representative and an officer of the Subcontractor must certify the Substitution requests.
B. The burden of proof as to the equality of any service, product, material, process or article Contractor proposes for Substitution rests with Contractor.
C. The Contractor must not order substitute services, products, materials, or articles without prior written acceptance of the Substitution by Owner’s Authorized Representative.
D. The Owner has the right to reject proposals due to insufficient information.
E. Contractor must certify that proposed Substitution meets or exceed all the requirements of the Contract Documents.
F. Contractor must assume responsibility for Owner’s additional costs related to the redesign and/or modifications to any parts of the Work and/or Contract Documents caused by the Substitutions.

G. Contractor’s Substitution requests that do not comply with the requirements of the Contract Documents may be returned to Contractor without review.

H. If Contractor’s Substitution request is returned without review or returned rejected, Contractor must furnish the originally specified items.

1.05 SUBMISSION REQUIREMENTS

A. Limit each request to one proposed Product Substitution.

B. Submit three (3) copies of each request for Substitution.

C. Identify product or fabrication or installation method to be replaced including specification Section number and title and Drawing numbers and titles.

D. Include three (3) copies of completed and signed Substitution Request Form 01630-F1, furnished at the end of this Section 01630, “Product Substitution Procedures.”

E. Submit the following documentation:
   1. Statement indicating why specified material or product cannot be provided.
   2. Coordination information including:
      a. A list of changes or modifications needed to other parts of the Work that are necessary to accommodate proposed Substitution.
      b. A list of changes or modifications to work performed by Owner and/or separate contractors that are necessary to accommodate proposed Substitution.
   3. Detailed comparison including:
      a. Comparison of significant qualities of proposed Substitution with those of the Work specified. Significant qualities include attributes such as performance, weight, size, durability, visual effect, and specific features and requirements indicated.
   4. Drawings to same (or larger) scale as pertinent portions of Contract Documents, marked to show:
      a. How differences will be accommodated.
      b. Complete system/assembly as revised
      c. Difference(s) in size, configuration, connections, service, accessibility, or any other significant characteristics.
   5. Contractor must show complete layout of system unless it is identical to the layout shown in the Contract Documents. Show unchanged portion to indicate clearances, etc. relative to changed portion.
   6. Wherever applicable, include complete detail drawings of supports for all Substitute equipment and complete load calculations for adequacy of support prepared and signed by a California Registered Engineer.
   7. Product Data, including drawings and descriptions of Products and fabrication and installation procedures.
   8. Samples, where applicable or requested.
9. List of similar installations for completed projects with project names and addresses and names and addresses of Architects and Owners.

10. Material test reports from a qualified testing agency indicating and interpreting test results for compliance with requirements indicated.

11. Research/evaluation reports evidencing compliance with building codes in effect for Project from a model code organization acceptable to authorities having jurisdiction.

12. Evidence that proposed product provides specified Warranty

13. Cost information, including a proposal of change, if any, in the Contract Sum.

F. Submit a detailed comparison of Contractor's Progress Schedule with and without using proposed Substitution showing effect on the Contract Time(s).

G. If specified product cannot be provided within the Contract Time(s), include letter from Manufacturer, on Manufacturer's letterhead, stating the reason(s) for the lack of availability or delays in delivery.

H. Provide Contractor's certification that proposed Substitution complies with requirements in the Contract Documents and is appropriate for applications indicated.

I. Provide Contractor's waiver of rights to additional payment or time that may subsequently become necessary because of failure of proposed Substitution to produce indicated results.

1.06 OWNER'S ACTION

A. If necessary, Owner will request additional information or documentation within fourteen (14) Days of receipt of a request for Substitution.

B. Owner will notify Contractor of acceptance or rejection of proposed substitution within twenty-one (21) Days of receipt of request, or seven (7) Days of receipt of additional information or documentation, whichever is later.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION (NOT USED)
PART 4 - FORMS

FORM 01630-F1
“SUBSTITUTION REQUEST FORM”

All Substitution requests must be accompanied by the following form, completed by the Contractor, and properly certified.

PROJECT: ____________________________________________
OWNER’S PROJECT NUMBER: __________________________

SECTION 01640
OWNER FURNISHED CONTRACTOR INSTALLED (OFCI) ITEMS

PART 1 - GENERAL

1.01 SUMMARY
A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents And Sections
      c. 1.03 - Definitions
      d. 1.04 - OFCI Manager
      e. 1.05 - Purchase Orders
      f. 1.06 - OFCI Delivery Schedule
      g. 1.07 - Shipment Delivery
      h. 1.08 - Equipment Receiving Log
      i. 1.09 - Storage
      j. 1.10 - Inspection of Records
      k. 1.11 - Damaged Merchandise
   2. Part 2 – Products
   3. Part 3 – Execution (Not Used)
   4. Part 4 – Forms (Not Used)
      a. SAMPLE FORM 01640-F1, “OFCI DELIVERY SCHEDULE”

1.02 RELATED DOCUMENTS AND SECTIONS
B. Section 01320.3.05, “Baseline Schedule”

1.03 DEFINITIONS
A. OFCI – Owner Furnished Contractor Installed
B. OFCI Manager – Contractor’s employee accepted by the Owner and responsible for managing all OFCI items.
C. OFCI Delivery Schedule – The OFCI Delivery Schedule prepared by the Contractor and submitted to the Owner in the format indicated in SAMPLE FORM 01640-F1 at the end of Section 01640.

1.04 OFCI MANAGER
A. Prior to starting Work, submit a letter to the Owner identifying on-site individual that will act as the Contractor’s OFCI Manager.
   1. This OFCI Manager will be responsible for:
      a. Furnishing information to the Owner’s Project Manager on desired delivery dates.
      b. Proper receipt and reporting of all shipments received.
      c. Proper storage and handling of OFCI items at all times.
   2. If the originally designated OFCI Manager is replaced, designate a new OFCI Manager and immediately submit written notification thereof to the Owner.
1.05 PURCHASE ORDERS
   A. The Owner will furnish copies of purchase orders covering OFCI items.
      1. The nature of the procurement actions involved prevents the furnishing of a complete
         set of purchase orders immediately after the start of construction.
      2. Purchase Orders will be forwarded to Contractor at the time of issuance to the
         suppliers.
      3. Contractor must retain copies of Owner’s Purchase Order(s) for the Contractor’s control
         records.
      4. Purchase Orders for items subject to “phased” delivery will be accompanied by
         appropriate delivery lists.

1.06 OFCI DELIVERY SCHEDULE
   A. Develop an OFCI Delivery Schedule including description and required delivery dates (see
      sample Schedule at the end of this Section) for OFCI items and reference all related Activity
      Numbers from the Contractor’s Progress Schedule. Submit to Owner no later than thirty (30)
      Days after the start date for the Work identified in the Notice To Proceed (NTP). Submit three
      (3) paper copies and corresponding electronic data files on Compact Disks (CDs). The CDs
      must be permanently labeled to indicate the contents of the CD and include the submittal
      number and data date.
   B. This OFCI Delivery Schedule must include each piece of OFCI equipment.
      1. For each item, complete the two dates required from the Contractor:
         a. “Delivery No Earlier Than” date
         b. “Delivery No Later Than” date.
   C. Contractor must add PO #, date ordered information, and Activity Numbers from the Official
      Progress Schedule as the information is provided or becomes available.
   D. This OFCI Delivery Schedule must be coordinated with the Owner accepted Official Progress
      Schedule.
   E. Each month, coordinate the OFCI Delivery Schedule with the Updated Official Progress
      Schedule.
      1. Review the equipment delivery schedule not less than once each month to determine
         whether the construction progress dictates any revisions.
         a. Notify Owner in writing of any changes found necessary.
         b. If, at any time, a delivery date for and OFCI item is missed, notify Owner
            immediately.

1.07 SHIPMENT DELIVERY
   A. Upon receipt of a shipment of OFCI item(s), the Contractor’s OFCI Manager must:
      1. Count the number of cartons to verify the quantity received corresponds with the freight
         bill.
         a. Clearly note any discrepancies on the original freight bill or delivery ticket.
      2. Prior to signing for anything, carefully examine the merchandise for obvious damage
         a. If such damage is observed, refuse the shipment.
         b. Upon refusal, notify the Owner, and give complete details.
      3. Open cartons or uncrate equipment to permit examination prior to departure of the
carrier.
   a. If the size of the shipment makes this impossible, release the driver and inspect
      the shipment for concealed damage not later than 24 hours after receipt.
   b. If it is determined concealed damage does exist, contact Owner immediately.

1.08 EQUIPMENT RECEIVING LOG
   A. Keep an "Equipment Receiving Log," updated at all times, at the Job Site.
   B. The “Equipment Receiving Log” must be in a format furnished or Approved by the Owner.

1.09 STORAGE
   A. Store all OFCI items in a secure area either on-site or off-site.
      1. The area must be lockable and secure from vandalism or theft.
      2. It must be weatherproof and waterproof with adequate ventilation.
      3. Provide protection and security of OFCI items.
   B. Provide Certificates of Insurance for all off-site storage areas in accordance with the
      requirements of the Contract Documents.

1.10 INSPECTION OF RECORDS
   A. The Owner may inspect the Owner-furnished equipment records on a periodic basis during
      construction to assure that the data is maintained in an accurate and current condition.

1.11 DAMAGED MERCHANDISE
   A. Exterior or Visible Damage:
      1. If container received shows exterior or visible damage, make a notation to that effect on
         the delivery ticket and have it signed by the delivery carrier and by personnel
         responsible for receiving the merchandise.
      2. Refuse acceptance of damaged merchandise.
   B. Concealed Damage:
      1. If container received shows no evidence of damage, but upon examination of the
         contents thereof "concealed damage" is discovered, notify the Owner immediately and
         request an inspection.
   C. F.O.B. (Freight on Board) Shipping Point:
      1. If the merchandise is damaged Contractor must:
         a. Request an inspection by the delivery carrier’s inspector. Do not destroy the
            original carton, box, etc.
         b. Notify the Owner of damaged merchandise and request replacement shipment.
         c. Submit the following to Owner, Attention: Owner’s Project Manager:
            (1) Inspection Report
            (2) Bill of Lading
            (3) Invoice
            (4) Freight Bill or Delivery Ticket
         d. Hold the damaged merchandise until instructions for its disposition are received
            from the Owner.
2. F.O.B. (Freight on Board) Destination:
   a. If the merchandise is damaged and the F.O.B. is "Destination," then the complete and total liability is assumed by the Vendor from the point it is placed in the hands of the common carrier to the point of delivery. It is the Vendor's responsibility to file a claim with the carrier to recover the loss of merchandise damaged.
   b. The Contractor must:
      (1) Request an inspection by the delivery carrier's inspector. Do not destroy the original carton, box, etc.
      (2) Notify the Vendor of damaged merchandise and obtain authorization from Owner and replace shipment.
      (3) Hold damaged merchandise until instructions for disposition are received from the Vendor.
      (4) Send the following original documents to the Vendor to assist in filing claim with carrier, retaining a copy for Contractor's records:
         a) Inspection Report
         b) Bill of Lading
         c) Freight Bill or Delivery Ticket

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.3.2, “Review of Contract Documents and Field Conditions by the Contractor”

B. Document 00700.3.26, “Submittals”

C. Section 01310, “Project Management and Coordination”

D. Section 01450, “Contractor’s Quality Control (QC) System”

1.03 DEFINITIONS

A. As used in this Section 01725, “Surveying and Field Engineering”, the following definitions apply:

1. Approximate Location of Subsurface Installations – A strip of land not more than 24 inches on either side of the exterior surface of an Existing Subsurface Installation.

2. Existing Subsurface Installation - Any existing underground pipeline, conduit, duct, wire, or other structure.

3. Rearranged - Rearrangement includes relocation, removal, alteration or installation.

1.04 FIELD LAYOUT

A. Contractor is responsible for all investigations, coordination, techniques and determinations as may be necessary to properly fit, install and complete the Work.

B. Data and information shown and indicated in the Contract Documents are as accurate as could be obtained but are not guaranteed.

C. Contractor must, before beginning any Work, compare actual Project Site conditions with the requirements of the Contract Documents, and verify all existing conditions and dimensions.
D. Verifications

1. As a minimum, Contractor must perform the following verifications:
   a. Field & Site Conditions
      (1) Contractor must carefully examine and compare all the Contract Documents relating to the Work with actual field conditions, so that all Work will be accommodated in the spaces provided. The general arrangement and location of the elements of the various systems are shown on the Drawings or specified. Final locations, levels, etc., are governed by actual material sizes used, by conditions encountered, and by the sequence in which the Work is performed.
      (2) Space conflicts and interferences must be resolved before any Work is installed.
   
   2. Dimensions
      a. Contractor, prior to performing any Work and as a part of the construction layout procedures, must check and verify all dimensions for accuracy, closing and clarity, and must immediately report any discrepancies to Owner for resolution before proceeding.
      b. No measurements shall be scaled from Drawings. Only dimensions appearing on Drawings will be used.
      c. Where manufacturer's diagrams, Shop Drawings, etc. give specific measurements of rough-in dimensions for materials or equipment and these dimensions are in conflict with dimensions indicated on Drawings, Contractor must immediately request clarifications from Owner.
      d. In case of apparent error, discrepancy, omission, conflict, or obscurity in the Contract Documents, or discrepant conditions encountered at the Project Site or between Submittals, Contractor must immediately refer the matter to Owner for interpretation and/or clarification.
   
E. Contractor must Provide necessary lines, levels, locations, measurements and markers for all on the Work and be responsible for their accuracy.

F. On building structures, Contractor must lay out on forms, walls, floors, and columns, the exact location of partitions as a guide to all trades.

1.05 LOCATIONS AND ELEVATIONS IN THE CONTRACT DRAWINGS

A. Property lines, location lines, and elevations of components of the Work are shown on the Contract Drawings.

B. Grade elevations shown for various parts of the Work are taken from a bench mark shown on the Contract Drawings, or if not shown, will be designated by the Owner in writing before starting Work.

1.06 SURVEY AND SITE WORK

A. Contractor must perform all survey and site Work necessary to locate and layout the construction in plan and elevation.

B. Contractor must set all stakes and marks necessary to establish the lines and grades required for the Project, and perform all survey work to layout all Work including batter boards, roads, parking lots, site utilities, and control lines.

C. Contractor must protect and maintain marks, lines, benchmarks, monuments, etc. which have previously been installed and/or are required for construction and inspection purposes. Monuments or stakes that are disturbed or destroyed due to Contractor's negligence or failure to pursue the Work diligently must be re-established at Contractor's expense.

1.07 UNDERGROUND INFRASTRUCTURE, UTILITIES & OTHER FACILITIES

01725-2
A. Attention is directed to California Government Code §4215 and §4216 concerning protection of underground infrastructure in public contracts.

B. Contractor must ascertain the exact location of all underground and concealed facilities in the Project area prior to doing any work that may damage such facilities or interfere with their service. As a minimum, at least forty-eight (48) hours before any such work is planned, Contractor must have a locating service survey the area. When shown on the Drawings, the locations of Existing Subsurface Installations are the Approximate Location of Subsurface Installations, and the accuracy or completeness of this information is not guaranteed. There may be Existing Subsurface Installations not known to Owner or located differently than indicated in the Contract Documents.

C. Contractor must protect from damage utilities and any other Existing Subsurface Installations that are to remain in place, be relocated, or otherwise Rearranged. As used herein, rearrangement includes relocation, removal, alteration or installation.

D. If Contractor discovers underground facilities not indicated in the Contract Documents, Contractor must immediately notify Owner in writing. Contractor must not disturb, disconnect or damage any existing facilities, unless specifically indicated in the Contract Documents to be relocated, removed, or otherwise revised. Should Contractor disturb, disconnect, or damage any existing facilities or utilities, Contractor will bear all expenses of whatever nature arising from such disturbance or the replacement or repair thereof.

E. The right is reserved to the owners of facilities or their authorized agents, to enter the Project with Owner’s approval to make such changes as are necessary to rearrange their facilities or to make necessary corrections or repairs to their properties. Contractor must cooperate with forces engaged in such work and must conduct operations in such a manner as to avoid any unnecessary delay or hindrance to the work being performed by such other forces.

F. Contractor must obtain authorization from the utility involved and notify Owner at least 72 hours in advance, when it is necessary to interrupt any existing utility service to make connections. Interruption in utility service must be of the shortest possible duration for the Work at hand and must be Approved in advance by Owner.

G. Where rearrangement of facilities is necessary, Contractor must coordinate its Work with such rearrangement, and Contractor must make all arrangements with the owner of such facilities for such coordination.

H. When ordered by Owner in writing, Contractor will rearrange any facility necessary to accomplish the Project and such work will be paid for as extra Work if it is not indicated in, or cannot reasonably be inferred from, the Contract Documents.

I. If Contractor desires to rearrange any utility or facility for its convenience in order to facilitate its construction operations, and if such rearrangement is in addition to, or different from any rearrangements indicated in the Contract Documents, Contractor must make all necessary arrangements with Owner and the owners of such utility or facility for such rearrangement and bear all expenses in connection therewith.

J. Where Owner determines that rearrangement of a utility or facility, the existence of which is not shown in the Contract Documents, is essential to accommodate the Project, Owner may rearrange such utility or facility by other forces.

K. Per Government Code §4215, Contractor will not be assessed Liquidated Damages for any delay in completing the Project when such delay is caused by the failure of a utility owner or the County to remove or relocate existing utilities that were the responsibility of the utility owner or County to remove or relocate.

1.08 PENETRATIONS

A. Contractor is responsible for all penetrations through walls, floors, beams, joists and other structural and non-structural elements of the Work for passage of pipes, conduits, ducts or other devices.
B. Contractor is responsible for coordinating all penetrations and securing Owner's approval for locations of all penetrations through structural floors, walls and supporting members.

C. Contractor must schedule and coordinate the Work of all trades to locate all required penetrations. Contractor must hire an independent testing agency at Contractor's expense, to locate reinforcing bars or imbedded items within concrete or masonry walls, floors, columns or beams, and to perform such other tests as may be necessary or Directed to attain required results.

1.09 QUALITY ASSURANCE

A. Surveys must be performed under the direction and with the review of a land surveyor licensed in the State of California.

B. All survey documentation must be signed and stamped by the licensed Land Surveyor in responsible charge of the work.

C. The Contractor must review all information to ensure it is technically accurate and complies with the requirements of this Section 01725, “Surveying and Field Engineering”, before providing to the Owner.

1.10 SUBMITTALS

A. Prior to performing any survey Work, submit eight (8) copies of the qualifications of the California Licensed land surveyor.

B. No later than 15 Days after Contractor’s request for Final Inspection, Contractor must three (3) copies of Contractor’s survey records to the Owner.

PART 2 - PRODUCTS

2.01 EQUIPMENT

A. The Contractor must provide necessary survey equipment and materials to obtain the required locations and elevations to the precision specified.

PART 3 - EXECUTION

3.01 SURVEY

A. Elevation surveys must be referenced to the County of Santa Clara datum, and must be performed to within one one-hundredth (0.01) of a foot (ft.), unless otherwise specified.

B. Location surveys must be referenced to the baseline and survey control points shown on the Contract Drawings. Locations must be provided to within one one-hundredth (0.01) of a foot (ft.), unless otherwise specified.

C. The Contractor’s survey records must be made available and/or submitted to the Owner when requested by Owner.

PART 4 - FORMS (Not Used)

END OF SECTION 01725
PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:
   1. Part 1 – General
      a. 1.01 – Summary
      b. 1.02 – Related Documents And Sections
      c. 1.03 - Definitions
      d. 1.04 - General
      e. 1.05 - Interface with work of Others
      f. 1.06 - Submittals
      g. 1.07 - Quality Control
   2. Part 2 – Products
      a. 2.01 - Materials
   3. Part 3 – Execution
      a. 3.01 - Examination
      b. 3.02 - Preparation
      c. 3.03 - Cutting
      d. 3.04 - Patching
      e. 3.05 - Performance
   4. Part 4 – Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.3.22, “Cutting and Patching”
B. Section 01330, “Submittal Procedures.”
C. Section 01500.1.08.O, “Hot Work.”

1.03 DEFINITIONS

A. CUTTING-AND-PATCHING - Includes, but is not necessarily limited to, demolition and repair of nominally completed and previously existing work in order to accommodate coordination of Work, installation of Work, uncovering Work for access or inspection, and to obtain samples for testing or similar purposes. It also includes integral cutting and patching during manufacturing, fabricating, erecting, and installing processes for individual items of the Work.

B. HOT WORK - Hot work includes any operations capable of initiating fires or explosions, including cutting, welding, brazing, soldering, grinding, thermal spraying, thawing pipe, torch applied roofing, or any other similar activity.

1.04 GENERAL

A. Contractor is responsible for all cutting, fitting, or patching required to complete the Work and to make its parts fit together properly.

B. Contractor must rework and patch to match existing surfaces at removed or demolished items.

C. Patching must achieve security, strength, and weather protection, and must preserve continuity of existing fire ratings.
D. Patching must successfully duplicate undisturbed adjacent finishes, colors, textures, and profiles. Where there is disagreement as to whether duplication is successful or has been achieved to a reasonable degree, the Owner’s judgment shall be final.

1.05 INTERFACE WITH WORK OF OTHERS

A. The Contractor is responsible for any and all cutting, fitting and patching required to join its Work with the work of others, except as otherwise specifically stated in the Contract Documents.

B. Contractor must not cut or otherwise alter the work of Owner or any separate contractor except with the written consent of Owner and such separate contractor.

C. Contractor must include interface flags in their Progress Schedule indicating points of interface of its Work with the work of others.

1.06 SUBMITTALS

A. Comply with requirements of Section 01330, “Submittal Procedures.”

B. Submit written request to Owner in advance of cutting or alteration that affects:

   1. Structural integrity of any element of Project.
   2. Integrity of weather exposed or moisture resistant element.
   3. Efficiency, maintenance, or safety of any operational element.
   5. Work of Owner or separate contractor.
   6. Include in request:

      a. Identification of Project.
      b. Location and description of affected work.
      c. Necessity for cutting or alteration.
      d. Description of proposed Work and Products to be used.
      e. Method for keeping existing utilities in service.
      f. Alternatives to cutting and patching.
      g. Date and time the Work will be executed.
      h. Anticipated results in terms of variations from originally completed Work.
      i. Where applicable include a description of circumstances which led to need for cutting and patching.

C. Review by Owner or Design Professional prior to proceeding with proposed cutting-and-patching does not negate Owner’s right to later require complete removal and replacement of Work found to be cut and patched in an unsatisfactory manner.

D. Where cutting and patching involves addition of reinforcement to structural elements, obtain details and engineering calculations prepared by California Registered Structural Engineer indicating how reinforcement is to be integrated with the original structure.

E. List utilities that will be disturbed or affected, including those that will be relocated and those that will be temporarily out of service. Indicate how long utility service will be disrupted.

1.07 QUALITY CONTROL

A. Requirements for Structural Work:

   1. Do not cut and patch structural Work in manner resulting in reduction of load-carrying capacity or load/deflection ratio.
2. Obtain Owner’s written acceptance of Submittal before proceeding with cutting and patching of structural steel, structural concrete, foundation construction, basement or retaining walls, curtain walls, pressurized piping, vessels, and equipment.

B. Operational and Safety Limitations:
   1. Do not cut and patch operational elements or safety-related components in manner resulting in reduction of capacities to perform as intended or resulting in decreased operational life, increased maintenance, or decreased safety.
   2. Obtain Owner’s acceptance of Submittal before proceeding with cutting and patching primary operational systems and equipment; water, moisture, vapor, air, or smoke barriers; membranes and flashings; noise and vibration control elements and systems; control, communication, conveying, and electrical wiring systems; and similar categories.

PART 2 - PRODUCTS

2.01 MATERIALS
   A. For replacement of Work removed, use only materials that comply with the pertinent requirements of the Contract Documents. (Those required and accepted for original installation.)
   B. For any proposed change in materials, Submit request for Substitution as described in Section 01630, “Product Substitution Procedures.”

PART 3 - EXECUTION

3.01 EXAMINATION
   A. Examine existing conditions prior to commencing Work, including elements subject to damage or movement during fitting, cutting and patching.
   B. After uncovering existing Work, assess conditions affecting performance of work.

3.02 PREPARATION
   A. Provide temporary supports to ensure structural integrity of the Work.
   B. If Hot Work is involved, comply with the requirements of Section 01500.1.08.O, "Hot Work."
   C. Provide devices and methods to protect other portions of Project from damage.
   D. Provide protection from elements for areas that may be exposed by uncovering work.
   E. Avoid interference with use of adjoining areas or interruption of free passage to adjoining areas.
   F. Except as otherwise indicated, proceed with cutting and patching at earliest feasible time in each instance, and perform work promptly.

3.03 CUTTING
   A. Cut by methods least likely to damage retained and adjoining Work.
   B. Review proposed procedure with original installer where possible, and comply with installer's recommendations.
   C. Uncover work to install improperly sequenced work.
   D. Remove and replace defective or non-conforming work.
   E. Remove samples of installed work for testing when requested.
   F. Provide openings in the Work for penetration of mechanical and electrical work.
   G. Employ original installer or fabricator where possible to perform cutting for:
      1. Weather exposed and moisture resistant elements; or
      2. Visually exposed surfaces.
H. Cut rigid materials using masonry saw or core drill. Pneumatic tools not allowed without prior approval.

I. Comply with requirements of The Civil Drawings, where cutting and patching requires excavating and backfilling.

### 3.04 PATCHING

A. Execute patching to complement adjacent Work.

B. Fit Products together to integrate with other Work.

C. Avoid damage to other Work and provide appropriate surfaces to receive patching and finishing.

D. Employ original installer where possible to perform patching for weather exposed and moisture resistant elements, and visually exposed surfaces.

E. Restore patched areas with new Products in accordance with requirements of Contract Documents.

F. Fit patches tight to pipes, sleeves, ducts, conduit, and other penetrations through surfaces.

### 3.05 PERFORMANCE

A. Performing cutting or patching operations means acceptance of existing conditions by Contractor.

B. To avoid marring existing finished surfaces, cut or drill from the exposed or finished side into concealed surfaces.

C. By-pass utility services such as pipe or conduit, before cutting, where services are required to be removed, relocated or abandoned.
   1. Remove pipe or conduit in walls to be relocated, abandoned or removed.
   2. Cap, valve or plug, and seal the remaining portion of pipe or conduit to prevent entrance of moisture or other foreign matter after by-passing and removing.

D. Where feasible, inspect and test patched areas to demonstrate integrity of installation.

E. Remove and replace Work judged by Designer of Record to be visually unsatisfactory.

F. Perform cutting, fitting and patching in a manner to prevent damage to Contractor’s Work and work by others and to provide proper surfaces for the installation of materials, equipment, and repairs.

G. Do not cut nor alter structural members without prior written acceptance of Owner.

H. Adjust and fit Products to provide a neat installation.

I. Refinish cut and patched surfaces to match adjacent finish.
   1. For continuous surfaces, refinish to nearest intersection or natural break.
   2. For an assembly, refinish entire assembly.

J. Over patched wall or ceiling surfaces, refinish to nearest cut-off line for entire surface, such as intersection with adjacent wall or ceiling, beam, pilasters, or to nearest opening frame, unless otherwise indicated.

K. Refinished surfaces must not present a spotty, touched-up appearance.

J. Section 01600, “Product Requirements”
K. Section 01770, “Closeout Procedures”

1.03 DEFINITIONS (Not Used)

1.04 GENERAL CLEANUP RESPONSIBILITY
A. Contractor must keep the Work areas, Project Site, and surrounding areas free from waste materials, debris, and/or trash and rubbish caused by its operations.
   B. In addition to trash and rubbish generated by Contractor’s operations, Contractor must keep the Work areas, Project Site, and surrounding areas free from trash and rubbish from any source that accumulates within the Work areas or Project Site or any other area designated by the Owner for use by Contractor.
   C. The Contractor must keep all surface areas (i.e., site roads, off-site streets, and parking
areas) clear of dirt, mud, and debris and must clean such surfaces as required, as needed, or as Directed by the Owner’s Project Manager.

D. Contractor’s and Subcontractors’ tools, scaffolding and surplus materials must be neatly stored in designated storage areas when not in use.

E. Contractor must maintain the Project Site in a neat and orderly condition at all times.

1.05 IMMEDIATE CLEANUP ACTIVITIES

A. Properly dispose of packaging materials and clean surrounding areas of packing debris immediately after unpacking of Products, materials, equipment, or other packaged items.

B. Dispose of waste materials and clean surrounding areas used for worker breaks and lunch immediately after worker break or lunch. Contractor must Provide trash receptacles in break and lunch areas.

C. Contractor must immediately remove any spillage, dirt and mud, and/or debris resulting from Contractor’s hauling or other operations along or across any public traveled way or public area.

D. Remove debris and rubbish from pipe chases, plenums, down spouts, attics, crawl spaces, and other closed or remote spaces, prior to enclosing the space.

E. Broom and vacuum clean interior areas prior to start of surface finishing, and continue cleaning to eliminate dust.

1.06 DAILY CLEANUP ACTIVITIES

A. Wood, cardboard, packing material, form lumber and similar combustible debris must not be accumulated within buildings and such debris, rubbish and waste material must be removed from buildings on a daily basis.

B. Contractor must leave Work areas “broom clean”, or its equivalent, on a daily basis.

C. Contractor must remove (pick up and place in trash receptacles) rubbish from and about areas of Work and the Project Site on a daily basis.

D. Contractor must clean the Project Site entrance area(s) of mud, dirt, displaced gravel, and rubbish each day.

1.07 WEEKLY CLEANUP ACTIVITIES

A. Remove rubbish (pick up and place in trash receptacles) from and about the Project Construction Fencing line. This includes areas both inside and outside the of the Project Site along the Temporary and Construction Fencing and/or permanent perimeter fence line.

B. Place concrete debris in designated areas or remove from Project Site.

C. Stack unused shipping pallets in designated areas or remove from Project Site.

D. Repair, replace, or remove damaged and/or torn plastic sheeting used to protect stored materials, Products or Work.

E. Empty all trash receptacles

F. Remove accumulated waste from the Project Site and dispose of in a proper and lawful manner.

G. Organize and clean storage areas

1.08 OWNER’S RIGHT TO CLEAN UP

A. Deficient cleaning or disposal operations, as determined by the Owner’s Project Manager, must be immediately corrected by Contractor.
B. After proper written notice, in cases where Contractor does not correct deficient cleaning or disposal operations, Owner may remove or cause to have removed waste materials, debris, and/or trash and rubbish, etc., and reduce the Contract Sum by the cost thereof.

C. If a disagreement or arises between the Contractor and other separate contractors performing work at or adjacent to the Project Site, as to the responsibility pursuant to their respective contracts for maintaining the Project Site and surrounding areas free from waste materials, debris, and/or trash and rubbish, Owner may clean up or cause to be cleaned up the waste materials, debris, and/or trash and rubbish and allocate the costs among those responsible, and reduce the Contract Sum by Contractor’s proportionate share of the cost thereof.

1.09 STORAGE AND DISPOSAL

A. Storage

1. Waste materials, trash, and rubbish must be stored in covered containers.
2. Storage containers must not be allowed to overflow due to excessive waste materials, trash, and rubbish being placed in the storage container.
3. Storage container lids must be unobstructed by waste materials, trash, and rubbish when they are in the closed position.
4. Storage container lids must be closed at all times except when waste materials, trash, and rubbish are being placed into or removed from the storage container.
5. Recyclable materials must be segregated before storage and stored in separate containers or areas.

B. Disposal

1. Under no circumstances shall rubbish or waste material be disposed of in fills or backfills on the Project Site.
2. Contractor is responsible for making all arrangements and paying all costs for disposal of waste materials, debris, and/or trash and rubbish.
3. Waste materials, debris, and/or trash and rubbish, must be removed from the Project Site at least once each week.
4. When any material is to be disposed of outside the Project area, at other than a public disposal or recycling facility, Contractor must first obtain a written permit from the property owner of the proposed disposal site, and furnish Owner said permit or a certified copy thereof together with a written release from the property owner absolving Owner from any and all responsibility in connection with the disposal of said material on said site.
5. Before any material is disposed of on said site, Contractor must obtain written permission from the Owner to dispose of the material at the location designated in said permit.
6. Disposal of Hazardous Materials must comply with all legal requirements, including but not limited to containerization, labeling, manifesting, transportation, disposal site, and use of properly trained personnel.
7. No later than 15 Days after Contractor’s request for Final Inspection, Contractor must submit two (2) copies of all Hazardous Waste Manifests signed by Toxic Substances Disposal Facilities (“TSDF’s”) and certificates of disposal, to prove that Contractor has legally disposed of such materials.
8. Contractor must separate and recycle the following waste material types in accordance with Contractors Solid Waste Management Plan (See Section 01515, “Solid Waste Management and Recycling Plan”)
   a. Concrete
   b. Metal
      (1) Ferrous
      (2) Non-ferrous
   c. Wood
   d. Debris
   e. Glass
   f. Paper
      (1) Bond
      (2) Newsprint
      (3) Cardboard and paper packaging materials
   g. Others as appropriate.

1.10 SAND BLASTING
   A. Sand blasting shall be only used upon receipt of written permission of the Project Manager.
   B. Perform sand blasting by experienced mechanics using sound modulated power machinery designed for this use.
      1. Comply with all applicable regulatory agencies.
      2. Use blasting aggregate uniformly graded, free from all animal or vegetable material, and not larger than No. 30 grit.
      3. Air compressor must be capable of providing air at a pressure of 100-110 pounds at 210-300 cfm. Use blast nozzle of 5/16-inch orifice.
   C. Operation
      1. Sand blast by the “flash” method.
      2. Pass continuously over the surface, to provide a uniform cutting of the surface, without pitting or excessive erosion of the base material.
      3. Exercise care to prevent corners or sharp edges from being broken or unduly rounded.
      4. Used aggregate must not be reused.
      5. Protect installed work of others from damage by blast, rebound, or used aggregate.
      6. Cover and protect mechanical work, air intakes, and similar items, as well as finished surfaces.
   D. Replace damaged work.
   E. Secure and pay for necessary permits required by state and local authorities having jurisdiction.

1.11 FINAL CLEANING
   A. Milestone Completion Certification
      1. Contractor must, before requesting a Preliminary Walk-Through Inspection for Milestone Completion, perform a Final Cleaning of all Work areas associated with the Milestone.
   B. Project Completion Certification
1. Contractor must, before requesting a Preliminary Walk-Through Inspection for Final Inspection of the entire Work of the Project, perform a Final Cleaning of all Work areas and the Project Site including all areas associated with previously completed Milestones.

C. Final Cleaning Requirements

1. General
   a. Cleaning for specific items of Work is specified in Divisions 2 through 16.
   b. Comply with manufacturer’s instructions for cleaning operations.
   c. Clean interior and exterior surfaces exposed to view
   d. Remove labels that are not required as permanent labels.
   e. Dust, dirt, stains, hand marks, paint spots, and like defects must be completely removed from surfaces.
   f. Metal surfaces must be cleaned, using only non-corrosive and non-abrasive materials.
   g. Remove debris and surface dust from limited-access spaces including roofs, plenums, shafts, trenches, equipment vaults, manholes, attics, and similar spaces.

2. Transparent Surfaces
   a. Clean all glass, interior and exterior, affected by Work of this Project; including removal of foreign material from glass.
   b. Polish transparent and glossy surfaces
   c. Clean transparent materials, including mirrors and window/door glass, to a polished condition, removing substances that are noticeable as vision-obscuring materials.
   d. Replace broken glass and damaged transparent materials.

3. Soft Surfaces
   a. Vacuum carpeted surfaces.
   b. Vacuum all other soft surfaces.

4. Hard Surfaces
   a. Clean exposed exterior and interior hard-surfaced finishes to a dirt-free condition, free of dust, stains, films, and similar noticeable distracting substances.
   b. Except as otherwise indicated, avoid disturbance of natural weathering of exterior surfaces.
   c. Restore reflective surfaces to original reflective condition.
   d. Clean concrete floors in unoccupied spaces broom clean.

5. Equipment and Fixtures
   a. Clean equipment and fixtures to sanitary condition
   b. Clean or replace filters of mechanical equipment.
   c. Wipe surfaces of equipment and fixtures clean, including elevator equipment and similar equipment
   d. Remove excess lubrication and other substances.
e. Clean plumbing fixtures to a sanitary condition, free of stains including those resulting from water exposure.

f. Clean food service equipment to a condition of sanitation ready and acceptable for intended food service use.

6. Roofs, gutters, downspouts and drainage systems.

   a. Clean roofs, gutters, downspouts and drainage systems.

7. Exterior Grounds

   a. Clean Project Site (yard and grounds), including landscape development areas, of litter, surplus materials, and foreign substances.

   b. Sweep and power wash paved areas to clean condition; remove stains, petro-chemical spills, and other foreign deposits.

   c. Rake grounds that are neither planted nor paved to a smooth, even-textured surface.

8. Lights and Lamps

   a. Clean light fixtures and lamps so as to function with full efficiency.

M. Section 01500, “Temporary Facilities and Controls”
N. Section 01515, “Solid Waste Management and Recycling Plan”
O. Section 01740, “Cleaning”
1.03 Definitions

A. Incomplete Work – Work required by the Contract Documents that is not yet installed.

B. Deficient Work – Installed Work that does not meet all the requirements of the Contract Documents.

1.04 Closeout Conference

A. The Owner’s Project Manager will schedule and Closeout Conference approximately 90 Days before scheduled completion of the entire Work of the Project.

B. Conference will be held at Project Site or another convenient location designated by Owner’s Project Manager.

C. Attendees:

   1. Owner’s Project Manager (Mandatory Attendance Required)
   2. Contractor’s Authorized Representative (Mandatory Attendance Required)
   3. Contractor’s QC Manager (Mandatory Attendance Required) (See Section 01450.1.08.A.2.r)
   4. Other interested parties

D. Agenda: Items of significance, as appropriate to the Project, to be discussed at the meeting include the following:

   1. Closeout process
   2. Closeout Submittals
   3. Final Cleaning
   4. Project completion certification
   5. Outstanding Change Orders
   6. Contractor Certifications
   7. Warranties/Guarantees
   8. Record Documents (As-Builts)
   9. QC Documents
   10. Spare Parts
   11. Keys
   12. Owner Fixture, Furniture, and Equipment (FF&E) Schedule
   13. Operation and Maintenance Manuals
   14. Building Commissioning
   15. Owner Training
   16. Certificate of Occupancy
   17. Recycled Content Certification
   18. Deficiency List Process (Punch List)
   19. Unresolved Disputes and Claims
   20. Early Release of Retention
   21. Final Payment
   22. Demobilization Schedule
23. **Security**

   E. The Owner will prepare meeting minutes of the Closeout Conference and distribute minutes to the attendees.

   F. Follow-up closeout meetings will occur at least monthly until Owner’s Authorized Representative recommends Acceptance of the Project to the Board of Supervisors.

   G. At a minimum, the Contractor will maintain notes for the Closeout Conference and all follow-up closeout meetings in the form of a Decision/Action Tracking Report.

**1.05 CONTRACTOR’S LIST OF INCOMPLETE WORK**

   A. Near the final completion of the entire Work of the Project, but not less than ninety (90) Days prior to anticipated date of Final Inspection, Contractor must conduct a detailed inspection of the Project, and submit a list of Incomplete Work with a schedule for final completion thereof to Owner’s Project Manager.

   B. Within 60 Days after receipt of Contractor's list of Incomplete Work and schedule for final completion, Owner’s Project Manager will determine approximate dates for a Preliminary Walk-Through inspection and the Final Inspection. The Preliminary Walk-Through Inspection and Final Inspection will not be conducted until the entire Work of the Project is complete.

**1.06 SPARE PARTS**

   A. All Spare Parts required by the Contract Documents must be submitted to the Owner at least ninety (90) Days before Contractor's request for Final Inspection of the Work.

**1.07 OPERATION AND MAINTENANCE DATA**

   A. All Operations and Maintenance (O&M) Data required by the Contract Documents must be submitted as follows:

      1. **Initial Submittal**: Submit twelve (12) draft copies of each O&M manual at least sixty (60) Days before certifying completion of the entire Work of the Project.

      2. **Final Submittal**: Submit twelve (12) copies of each O&M manual in final form no later than fifteen (15) Days after Contractor's certification that the entire Work of the Project is complete.

      3. **Corrected Final Submittal**: Correct or modify each O&M manual to comply with Owner’s comments. Submit twelve (12) copies of each corrected Final Submittal within fifteen (15) Days of receipt of Owner's comments on the Final Submittal.

**1.08 FINAL CLEANING**

   A. Contractor must, before requesting the Preliminary Walk-Through Inspection perform a Final Cleaning of all Work areas and the Project Site including all areas associated with previously completed Milestones.

**1.09 CONTRACTOR’S CERTIFICATION THAT ALL WORK OF THE PROJECT IS COMPLETE**

   A. When the entire Work of the Project is complete and after the Contractor has performed the Final Cleaning, Contractor must so certify and request a Preliminary Walk-Through Inspection.

   B. Contractor’s Certification must include a Contractor generated list of Deficient Work.

   C. Unless specifically exempted in writing by Owner’s Project Manager, the Contractor’s Project Completion Certification will be rejected if Incomplete Work items appear on the Contractor’s list of Deficient Work.

**1.10 PRELIMINARY WALK-THROUGH INSPECTION**
A. Within seven (7) Days of receipt of Contractor's certification that the entire Work of the Project is complete, Owner's Project Inspector will make a Preliminary Walk-through Inspection with Contractor to verify that the Project is complete and ready for Final Inspection.

B. If Owner's Project Manager determines that the Work is not complete, Contractor will be notified in writing. Contractor must complete the Work and re-initiate procedures for another Preliminary Walk-Through Inspection. At Owner's discretion, any costs to Owner for additional Preliminary Walk-through Inspections may be charged to the Contractor.

1.11 FINAL INSPECTION
A. If the Owner's Project Manager agrees with the Contractor's certification, the Final Inspection will occur with twenty-one (21) Days of the Contractor's certification of final completion of the entire Work of the Project.

B. If Owner's Project Manager determines the completed Work is deficient, Contractor will be furnished with a Punchlist identifying the observed deficiencies in the completed Work. After all deficiencies have been corrected, Contractor must initiate procedures for another Final Inspection. If Contractor requests more than two (2) Final Inspections, at Owner's discretion, any costs to Owner for additional Final Inspections may be charged to the Contractor.

1.12 PROJECT RECORDS
A. No later than 15 Days after Contractor's request for Final Inspection, Contractor must submit all required Project Records, including but not limited to:

1. Copies of all Hazardous Waste Manifests signed by Toxic Substances Disposal Facilities ("TSDF's") and certificates of disposal (See Document 00700.3.14.3)

2. Contractor's certification of the minimum, if not exact, percentage of recycled content used in the performance of the Work. (See Document 00700.3.25, "Certification by Contractor of Recycled Content") Submit four (4) copies.

3. Summary of solid waste generated by the Contractor's operations. (Form 01515-F1) (See Section 01515.1.05.B)

4. Record Documents (As-Builts) (See Section 01450.1.15.G, "Record Document Certification) (See Section 01325.1.07, "Record Set") (See Document 00700.13.6, "Recommendation for Acceptance")

5. Executed Contractor’s Warranty/Guarantee (See Document 00700.13.12, "Warranty/Guarantee Form")

7. Copies of the Contractor’s survey records (See Section 01725.1.10.B, Survey Records)

1.13 FINAL PAYMENT APPLICATION (See Section 01290.1.08.B, Final Payment Application)

1. After all Project Records have been submitted, Contractor must submit two (2) copies of their Final Payment Application with supporting Project closeout documentation including, but not limited to, the following:

a. Evidence of completion of Project closeout requirements.

b. Evidence that claims have been settled.

c. Other documents as required by the Owner.

1.14 RECOMMENDATION FOR ACCEPTANCE
A. Owner’s Authorized Representative will recommend that the Board of Supervisors formally Accept the Work if the Contractor has satisfactorily:

1. Corrected all Deficient Work observed during the Final Inspection of the entire Work of
2. Submitted all required Project Records
3. Submitted satisfactory evidence to Owner that all payrolls, material bills and other indebtedness connected with said Work have been paid
4. Submitted all other required Contract deliverables.

1.15 ACCEPTANCE OF THE WORK

A. Acceptance of the Work will be made by the Board of Supervisors only in regular session and only after the Owner’s Authorized Representative has recommended Acceptance.

B. Depending on the Board’s regular session schedule, Contractor’s compliance with the Project closeout timeframes and other factors, Acceptance by the Board may not occur for many months after the physical Work of the Project is completed.

C. Contractor must take special note that, unless otherwise stated in the Contract Documents, without regard to the dates(s) items of work were actually put into service, all Guarantees/Warranties will commence on the date of Acceptance of the entire Work of the Project by the County of Santa Clara Project Manager and a Notice of Completion is submitted and approved by the County Project Manager.

D. After the Project Manager’s acceptance of the entire Work, the County will record a Notice of Completion.

FINAL PAYMENT

A. Within thirty-five (35) Days after the date of recording of the Notice of Completion by the County Recorder, Owner’s Project Manager will forward a request for Final Payment for the Work to the County Controller for payment.

B. Owner will withhold from Final Payment such amounts that are in Dispute between Owner and Contractor, amounts subject to offset/setoff, and all other amounts that must be withheld by law (such as Stop Notice sums.)
PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:

1. Part 1 – General
   a. 1.01 - Summary
   b. 1.02 - Related Documents And Sections
   c. 1.03 – Definitions
   d. 1.04 – Required O&M Documentation
   e. 1.05 - Submittals

2. Part 2 - Products
   a. 2.01 – O&M Documentation Directory
   b. 2.02 – Emergency Manuals
   c. 2.03 – Operation Manuals
   d. 2.04 – Required O&M Documentation
   e. 2.05 – Systems and Equipment Maintenance Manual
   f. 2.06 – Final Commissioning Report

3. Part 3 – Execution
   a. 3.01 - General
   b. 3.02 – Manufacturers’ Data
   c. 3.03 – Drawings

4. Part 4 - Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS

A. Section 01810, "General Commissioning Requirements"

1.03 DEFINITIONS

A. O&M - Operations and Maintenance

B. O&M Documentation – O&M Documentation Directory, manuals, and Final Commissioning Report consisting of:
   1. O&M Documentation Directory
   2. Emergency Manual
   6. Final Commissioning Report

C. System - An organized collection of parts, equipment, or subsystems united by regular interaction.

D. Subsystem - A portion of a system with characteristics similar to a system.
1.04 REQUIRED O&M DOCUMENTATION

A. O&M Documentation Directory: Prepare a separately bound directory that provides an organized reference to all O&M Documentation.

B. Emergency Manual: Assemble a complete set of emergency information including procedures for use by emergency personnel and by Owner’s operating personnel for various types of emergencies.

D. Product Maintenance Manual: Assemble a complete set of maintenance data indicating care and maintenance of each product, material, and finish incorporated into the Work.

F. Final Commissioning Report (See 01810.3.16, “Final Commissioning Report”)

1.05 SUBMITTALS

A. Initial Submittal: Submit twelve (12) draft copies of each manual at least sixty (60) Days before certifying completion of the entire Work of the Project.

B. Final Submittal: Submit twelve (12) copies of each manual in final form no later than fifteen (15) Days after Contractor's certification that the entire Work of the Project is complete.

C. Corrected Final Submittal: Correct or modify each manual to comply with Owner's comments. Submit twelve (12) copies of each corrected Final Submittal within fifteen (15) Days of receipt of Owner's comments on the Final Submittal.

PART 2 - PRODUCTS

2.01 O&M DOCUMENTATION DIRECTORY

A. Organization: Include a section in the directory for each of the following:
   1. List of documents.
   2. List of systems.
   3. List of equipment.
   4. Table of contents.

B. List of Systems and Subsystems: List systems alphabetically. Include references to operation and maintenance manuals that contain information about each system.

C. List of Equipment: List equipment for each system, organized alphabetically by system. For pieces of equipment not part of system, list alphabetically in separate list.

D. Tables of Contents: Include a table of contents for each emergency, operation, and maintenance manual.

E. Identification: In the documentation directory and in each operation and maintenance manual, identify each system, subsystem, and piece of equipment with the same designation used in the Contract Documents. If no designation exists, assign a designation according to ASHRAE Guideline 4, "Preparation of Operating and Maintenance Documentation for Building Systems."

2.02 EMERGENCY MANUALS

A. Include emergency information that must be immediately available during emergency situations to protect life and property and to minimize disruptions to building occupants.

B. Content: Organize manual into a separate section for each of the following:
1. Type of emergency.
2. Emergency instructions.
3. Emergency procedures.

C. Type of Emergency: Where applicable for each type of emergency indicated below, include instructions and procedures for each system, subsystem, piece of equipment, and component:
   1. Fire.
   2. Flood.
   3. Earthquake.
   4. Gas leak.
   5. Water leak.
   7. Water outage.
   8. System, subsystem, or equipment failure.
   9. Chemical release or spill.

D. Emergency Instructions: Describe and explain warnings, trouble indications, error messages, and similar codes and signals. Include responsibilities of Owner's operating personnel for notification of Installer, supplier, and manufacturer to maintain warranties.

E. Emergency Procedures: Include the following, as applicable:
   1. Instructions on stopping.
   2. Shutdown instructions for each type of emergency.
   3. Operating instructions for conditions outside normal operating limits.
   4. Required sequences for electric or electronic systems.
   5. Special operating instructions and procedures.

2.03 OPERATION MANUAL

A. Include information needed for daily operations and management of systems and equipment.

B. In addition to requirements in this Section, include operation data required in individual Technical Specification Sections and the following information:
   1. System, subsystem, and equipment descriptions.
   2. Performance and design criteria if Contractor is delegated design responsibility.
   3. Operating standards.
   4. Operating procedures.
   5. Operating logs.
   6. Wiring diagrams.
   7. Control diagrams.
   8. Piped system diagrams.
   9. Precautions against improper use.
   10. License requirements including inspection and renewal dates.
C. Descriptions: Include the following:
   1. Product name and model number.
   2. Manufacturer’s name.
   3. Equipment identification with serial number of each component.
   4. Equipment function.
   5. Operating characteristics.
   6. Limiting conditions.
   7. Performance curves.
   8. Engineering data and tests.
   9. Complete nomenclature and number of replacement parts.

D. Operating Procedures: Include the following, as applicable:
   1. Startup procedures.
   2. Equipment or system break-in procedures.
   3. Routine and normal operating instructions.
   4. Regulation and control procedures.
   5. Instructions on stopping.
   7. Seasonal and weekend operating instructions.
   8. Required sequences for electric or electronic systems.
   9. Special operating instructions and procedures.

E. Systems and Equipment Controls: Describe the sequence of operation, and diagram controls as installed.

F. Piped Systems: Diagram piping as installed and indicate color-coding where required for identification.

2.04 PRODUCT MAINTENANCE MANUAL

A. Content
   1. Organize manual into a separate section for each product, material, and finish.
   2. Include:
      a. Source information
      b. Product information
      c. Maintenance procedures
      d. Repair materials and sources
      e. Warranties and bonds, as described below.

B. Source Information
   1. List each product included in manual identified by product name and arranged to match manual’s table of contents.
   2. For each product, list name, address, and telephone number of Installer or supplier and maintenance service agent, and cross-reference Project Manual Section number and title.
C. Product Information: Include the following, as applicable:
   1. Product name and model number.
   2. Manufacturer’s name.
   3. Color, pattern, and texture.
   5. Reordering information for specially manufactured products.

D. Maintenance Procedures: Include manufacturer’s written recommendations and the following:
   1. Inspection procedures.
   2. Types of cleaning agents to be used and methods of cleaning.
   3. List of cleaning agents and methods of cleaning detrimental to product.
   4. Schedule for routine cleaning and maintenance.
   5. Repair instructions.

E. Repair Materials and Sources: Include lists of materials and local sources of materials and related services.

F. Warranties and Bonds
   1. Include copies of warranties and bonds and lists of circumstances and conditions that would affect validity of warranties or bonds.
   2. Include procedures to follow and required notifications for warranty claims.

2.05 SYSTEMS AND EQUIPMENT MAINTENANCE MANUAL

A. Content
   1. For each System, Subsystem, and piece of equipment not part of a system, include:
      a. Source information
      b. Manufacturers’ maintenance documentation
      c. Maintenance procedures
      d. Maintenance and service schedules
      e. Replacement parts list and source information
      f. Maintenance service contracts
      g. Warranty and bond information

B. Source Information
   1. List each system, subsystem, and piece of equipment included in the manual, identified by product name and arranged to match manual’s table of contents.
   2. For each product, list name, address, and telephone number of Installer or supplier and maintenance service agent, and cross-reference Project Manual Section number and title.

C. Manufacturers’ Maintenance Documentation: Manufacturers’ maintenance documentation including the following information for each component part or piece of equipment:
   1. Standard printed maintenance instructions and bulletins.
   2. Drawings, diagrams, and instructions required for maintenance, including disassembly and component removal, replacement, and assembly.
   3. Identification and nomenclature of parts and components.
4. List of items recommended to be stocked as spare parts.

D. Maintenance Procedures: Include the following information and items that detail essential maintenance procedures:

1. Test and inspection instructions.
2. Troubleshooting guide.
3. Precautions against improper maintenance.
4. Disassembly; component removal, repair, and replacement; and reassembly instructions.
5. Aligning, adjusting, and checking instructions.
6. Demonstration and training videotape, if available.

E. Maintenance and Service Schedules: Include service and lubrication requirements, list of required lubricants for equipment, and separate schedules for preventive and routine maintenance and service with standard time allotment.

1. Scheduled Maintenance and Service: Tabulate actions for daily, weekly, monthly, quarterly, semiannual, and annual frequencies.
2. Maintenance and Service Record: Include manufacturers' forms for recording maintenance.

F. Replacement Parts List and Source Information: Include lists of replacement and repair parts, with parts identified and cross-referenced to manufacturers' maintenance documentation and local sources of maintenance materials and related services.

G. Maintenance Service Contracts: Include copies of maintenance agreements with name and telephone number of service agent.

H. Warranties and Bonds: Include copies of warranties and bonds and lists of circumstances and conditions that would affect validity of warranties or bonds.

1. Include procedures to follow and required notifications for warranty claims.

2.06 FINAL COMMISSIONING REPORT

A. The Contractor must prepare and submit a Final Commissioning Report summarizing all of the tasks, findings, and documenting the Commissioning process.

B. The report must address the actual performance of the building systems in reference to the requirements of the Contract Documents.

C. The report must include completed pre-functional inspection checklists, Functional Performance Testing records, diagnostic monitoring results, identified deficiencies, recommendations, and a summary of commissioning activities.

D. The Final Commissioning Report must be included as part of the O&M Documentation Final Submittal (See Section 01810.3.16, “Final Commissioning Report”)

PART 3 - EXECUTION

3.01 GENERAL

A. Organization

1. Unless otherwise indicated, organize each manual into a separate section for each System and Subsystem, and a separate section for each piece of equipment not part of a system.

2. Each manual must contain the following materials, in the order listed:
a. Title page.
b. Table of contents.

B. Title Page
1. Enclose title page in transparent plastic sleeve.
2. Include the following information:
   a. Subject matter included in manual.
   b. Name and address of Project.
   c. Name and address of City.
   d. Date of submittal.
   e. Name, address, and telephone number of Contractor.
   f. Name and address of Owner's Design Consultant.
   g. Cross-reference to related systems in other operation and maintenance manuals.

C. Table of Contents
1. List each product included in manual, identified by product name, indexed to the content of the volume, and cross-referenced to Section number in the Project Manual.
2. If operation or maintenance documentation requires more than one volume to accommodate data, include comprehensive table of contents for all volumes in each volume of the set.

D. Manual Contents
1. Organize into sets of manageable size.
2. Arrange contents alphabetically by system, subsystem, and equipment.
3. If possible, assemble instructions for subsystems, equipment, and components of one system into a single binder.

E. Binders
1. Heavy-duty, 3-ring, vinyl-covered, loose-leaf binders, in thickness necessary to accommodate contents, sized to hold 8-1/2-by-11-inch paper; with clear plastic sleeve on spine to hold label describing contents and with pockets inside covers to hold folded oversize sheets.
   a. If two or more binders are necessary to accommodate data of a system, organize data in each binder into groupings by subsystem and related components.
   b. Cross-reference other binders to provide essential information for proper operation or maintenance of equipment or system.
   c. Identify each binder on front and spine, with printed title "OPERATION AND MAINTENANCE MANUAL," Project title or name, and subject matter of contents. Indicate volume number for multiple-volume sets.

F. Dividers
1. Heavy-paper dividers with plastic-covered tabs for each section.
2. Mark each tab to indicate contents.
3. Include typed list of products and major components of equipment included in the section on each divider, cross-referenced to Project Manual Section number and title.
G. Protective Plastic Sleeves
   1. Transparent plastic sleeves designed to enclose diagnostic software diskettes for computerized electronic equipment.

H. Supplementary Text

I. Drawings
   1. Attach reinforced, punched binder tabs on drawings and bind with text.
   2. If oversize drawings are necessary, fold drawings to same size as text pages and use as foldouts.
   3. Do not place loose, oversize drawings in binder pockets.
   4. If drawings are too large to be used as foldouts, fold and place drawings in labeled envelopes and bind envelopes in rear of manual. At appropriate locations in manual, insert typewritten pages indicating drawing titles, descriptions of contents, and drawing locations.

3.02 MANUFACTURERS' DATA
A. Manufacturers' standard printed data
   1. Include only sheets pertinent to product or component installed.
   2. Mark each sheet to identify each product or component incorporated into the Work.
   3. If data include more than one item in a tabular format, identify each item using appropriate references from the Contract Documents.

B. Prepare supplementary text if manufacturers' standard printed data are not available and where the information is necessary for proper operation and maintenance of equipment or systems.

C. Extraneous Data: Where contents of manuals include manufacturers' catalog pages, clearly indicate precise items included in this installation and delete, or otherwise clearly indicate, manufacturer's data with which this installation is not concerned.

3.03 DRAWINGS
A. Prepare drawings supplementing manufacturers' printed data to illustrate the relationship of component parts of equipment and systems and to illustrate control sequence and flow diagrams.

B. Coordinate supplementary drawings with information contained in Record Drawings to ensure correct illustration of completed installation.

C. Do not use original Record Documents as part of operation and maintenance manuals.

PART 4 - FORMS (Not Used)

END OF SECTION 01782
PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:

1. Part 1 – General
   a. 1.01 – Summary
   b. 1.02 - Related Documents and Sections
   c. 1.03 - Definitions
   d. 1.04 – General
   e. 1.05 – Systems/Equipment Requiring Commissioning
   f. 1.06 – Commissioning Team
   g. 1.07 – Commissioning Process
   h. 1.08 – Owner’s Commissioning Consultant
   i. 1.09 – Contractor’s Responsibilities
   j. 1.10 – Performance Period
   k. 1.11 – Training and Instruction
   l. 1.12 – Deferred and Seasonal Testing

2. Part 2 – Products
   a. 2.01 - Test Equipment
   b. 2.02 – Data Logging Equipment

3. Part 3 – Execution
   a. 3.01 – General
   b. 3.02 – Commissioning Plan
   c. 3.03 – Initial Scope Meeting
   d. 3.04 – Draft Commissioning Plan
   e. 3.05 – Final Commissioning Plan
   f. 3.06 – Pre-commissioning Inspection Checklist
   g. 3.07 – Pre-functional Inspection Checklist
   h. 3.08 – Functional Performance Testing
   i. 3.09 – Commissioning Acceptance Procedures
   j. 3.10 – Non-conformance
   k. 3.11 – Performance Period
   l. 3.12 – Operations & Maintenance Data
   m. 3.13 – Training and Instruction
   n. 3.14 – Requests for Information
   o. 3.15 – Final Commissioning Report

4. Part 4 - Forms
   a. Table 01810-01, “Systems/Equipment to be Commissioned”

1.02 RELATED DOCUMENTS AND SECTIONS

A. Document 00700.7.5, "Milestone Inspections and Certification."
B. Section 01315, “Project Meetings.”
C. Section 01320, “Construction Progress Documentation”
D. Section 01320.3.05.B.22, Performance Period Activities
E. Section 01330, “Submittal Procedures.”
F. Section 01450, “Contractor’s Quality Control (QC) System”
G. Section 01782, “Operation and Maintenance Data”
H. Section 01820, “Demonstration and Training”

1.03 DEFINITIONS
A. The following definitions as used in this Section mean:

1. **Commissioning** - The process to demonstrate to the Owner that systems, equipment, mechanical, electrical, controls, and special systems function together properly to meet performance requirements and design intent as shown in a composite manner in the Contract Documents.

2. **Commissioning Plan** - The overall document prepared by the Contractor and accepted by the Owner, defining the overall commissioning process.

3. **Owner’s Commissioning Consultant (OCC)** - The Consultant hired directly by the Owner to represent the Owner throughout the commissioning process. The Owner’s Commissioning Consultant does not have the authority to direct start-up, testing, or commissioning activities, or authorize changes or modifications to the requirements of the Contract Documents.

4. **Subsystem** - A portion of a system with characteristics similar to a system.

5. **System(s)** - Group of components and equipment functioning as a unit or performing a common function. (i.e.: Chilled Water System: consisting of piping, valves, fittings, controls, chillers, expansion tanks, air relief, chemical treatment, pumps, etc.)

1.04 GENERAL
A. Commissioning is intended to achieve the following specific objectives:

1. Verify and document that equipment is installed and started pursuant to the requirements of the Contract Documents, Manufacturer’s recommendations, and to industry accepted minimum standards.

2. Verify and document that equipment and systems receive complete operational checkout by installing contractors.

3. Verify and document equipment and system performance.

4. Ensure that the Owner’s operating personnel are adequately trained on the operation and maintenance of building equipment and systems.

B. The commissioning process does not reduce the responsibility of the Contractor to perform and complete all Work in accordance with the requirements of the Contract Documents.

1.05 SYSTEMS/EQUIPMENT REQUIRING COMMISSIONING
A. The systems and equipment to be commissioned for this Project are identified in the Technical Specifications and summarized in Table 01810-01, “Systems/Equipment To Be Commissioned.” If a specific System or item of equipment is required to be commissioned pursuant to the Technical Specifications but is omitted from Table 01810-01, “Systems/Equipment To Be Commissioned”, the omitted System or item of equipment must be commissioned as though it was included in summary Table 01810-01.
B. Where the requirements of this Section 01810, "General Commissioning Requirements" conflict with the Technical Specifications (Divisions 2-16), the requirements of the Technical Specifications take precedence.

1.06 COMMISSIONING TEAM

A. It is the intent that all members of the Commissioning Team cooperate with each other to fulfill their individual responsibilities and support the overall Commissioning process.

B. The Commissioning Team consists of:
   1. Contractor
   2. Contractor’s Commissioning Agent
   3. Subcontractors including Testing and Balancing (TAB) Subcontractor
   4. Owner’s Commissioning Consultant
   5. Owner’s Design Consultants and Representatives
   6. Owner’s Building Operations Staff

1.07 COMMISSIONING PROCESS

A. The following activities describe the key tasks in the Commissioning process:
   1. Scoping Meeting: All members of the Commissioning Team that will be involved in the commissioning process meet to review the scope of Work, tasks, schedules, deliverables, and responsibilities for creation and implementation of the Commissioning Plan.
   2. Commissioning Plan: The Contractor prepares and submits the Commissioning Plan. (Performance Period Monitoring and Evaluation Plan may be submitted any time up to ninety (90) Days prior to the start of the Performance Period.)
   3. Submittals: Equipment and systems documentation including detailed start-up procedures are submitted to the Owner in compliance with Section 01330, "Submittal Procedures."
   4. Pre-commissioning Checklist: Contractor must prepare pre-commissioning to verify that systems or items of equipment are actually installed in accordance with the accepted Submittal(s).
   5. Pre-Functional Checklists: Contractor must prepare pre-functional checklist for each system and/or item of equipment to verify system set points, operating strategies, required component testing, correct rotation, damper positions, etc., prior to functional testing. The purpose of the checklist is to ensure that all systems and equipment are ready for continuous operation and final testing. The pre-functional checklists must incorporate Manufacturers start-up recommendations and system operational checkout requirements.
   6. Functional Performance Testing: Contractor must perform a full range of checks and tests to determine if components, sub-systems, systems, and interfaces between systems function in accordance with the requirements of the Contract Documents. In this context, "function" includes all modes and sequences of control operation, all interlocks and conditional control response, and all specified responses to emergency conditions.
   8. After successful Performance Period, Contractor must prepare and submit a Final Commissioning Report.
   9. Contractor prepares and submits corrected final O&M Manuals.
10. Contractor performs Demonstration and Training of Owner's personnel.

11. Deferred or Seasonal Testing. If approved in writing by the Owner's Authorized Representative, Contractor performs deferred or seasonal testing, as required.

B. Scheduling

1. Contractor must integrate all key commissioning activities into Contractor's Baseline Schedule submission. (See Section 01320, "Construction Progress Documentation")

2. Commissioning activities that must be included in the Contractor's Baseline Schedule submission include:
   a. Initial Commissioning Plan Scoping Meeting
   b. Submit Draft Commissioning Plan
   c. Review and Acceptance of Draft Commissioning Plan
   d. Submit Final Commissioning Plan
   e. Review and Acceptance of Final Commissioning Plan
   f. Contractor certification that pre-functional checklist activities are ready to be commenced.
   g. Pre-functional checkout
   h. Contractor certification that equipment and systems are operational and ready for functional performance testing.
   i. Functional performance testing
   j. Performance Period (30 calendar Days)
   k. Submit Final Commissioning Report
   l. Submit O&M Manuals (Initial, Final, and corrected Final)
   m. Owner Training
   n. Milestone Completion Certification

C. Commissioning Meetings

1. A Commissioning Plan Scope Meeting will occur within thirty (30) Days of the official start date for the Contract Time stated in the Notice To Proceed (NTP) issued by the Owner.

2. Weekly Commissioning meetings will be held beginning sixty (60) Days prior to any system or equipment start-up and will continue to be held through completion of the Performance Period.

3. Other meetings may be required and called by the Owner's Commissioning Consultant to resolve specific Commissioning issues.

4. Contractor must prepare and distribute minutes of all Commissioning meeting(s). (See also Section 01315, "Project Meetings.")

1.08 OWNER'S COMMISSIONING CONSULTANT

A. The role of the Owner's Commissioning Consultant (OCC) is to perform Quality Assurance activities for the Owner. The Contractor is responsible for all Quality Control activities associated with Commissioning the Work.

B. The Owner's Commissioning Consultant does not have the authority to modify, add to, or delete any of the requirements of the Contract Documents.

C. The Owner's Commissioning Consultant does not have the authority to direct start-up, testing, or commissioning activities.

D. The duties of the Owner's Commissioning Consultant are generally limited to:
1. Review of Contractor's:
   a. Commissioning Plan
   b. Equipment and Systems Submittals
   c. Contractor's Systems start-up plans and schedules
   d. Completed start-up and Functional Performance Testing documentation
   e. Test plans, procedures, and reports
   f. Final testing, adjusting, and balancing (TAB) reports
   g. O&M Documentation
   h. Training Plan and Documentation

2. Witness and verify satisfactory performance of:
   a. Equipment and component tests
   b. Systems and inter-systems functional performance tests.
   c. TAB activities

3. Site observation
   a. The Owner's Commissioning Consultant will periodically visit the Project site to witness equipment and system installation.
   b. Conflicts or areas needing clarification will be documented in writing by the Owner's Commissioning Consultant and will be forwarded to the Contractor for response and if required, corrective action.

4. Commissioning meetings
   a. Require special Commissioning meetings
   b. Attendance at all Commissioning meetings

1.09 CONTRACTOR'S RESPONSIBILITIES

A. Coordinate and direct all Commissioning activities.
B. Attend Commissioning Plan Scoping Meeting and additional meetings, as required by Owner's Commissioning Consultant or the Contract Documents.
C. Prepare and submit twelve (12) copies of the Draft Commissioning Plan
D. Prepare and submit twelve (12) copies the Final Commissioning Plan
E. Include all key Commissioning activities in the Contractor's Baseline Schedule submission and submit updates and revisions to the Commissioning activities pursuant to the requirements of Section 01320, "Construction Progress Documentation."
F. Develop start-up plans
G. Ensure that the Work is performed according to the requirements of the Contract Documents and the accepted Commissioning Plan.
H. Notify Owner's Commissioning Consultant in writing when equipment and Systems are ready for pre-commissioning checklist activities.
I. Verify completion of pre-commissioning checklist activities
J. Certify in writing to Owner that pre-functional checklist activities are ready to be commenced.
K. Certify in writing that equipment and systems are operational and ready for Functional Performance Testing.
L. Prior to certification that equipment and systems are operational and ready for Functional Performance Testing, provide the Owner's Commissioning Consultant with copies of all completed pre-commissioning checklists, completed pre-functional checklists, Owner accepted Submittals, Requests for Information (RFIs), Field Modifications, and Changer Orders related to Systems and equipment to be tested.

M. Prepare O&M manuals, according to the requirements of Section 01782, "Operation and Maintenance Data", including updating original sequences of operation to as-built conditions.

N. Contractor is responsible for operation and performance of systems and equipment throughout the commissioning process.

O. Provide Owner training in accordance with Division 01820, "Demonstration and Training"

1.10 PERFORMANCE PERIOD

A. All Commissioned equipment and Systems must operate under normal operating conditions for a minimum duration of thirty (30) consecutive Days.

B. The performance period must occur after the completion of the Functional Performance Testing and before Contractor certifies the Work of the appropriate Milestone is complete.

C. The Contractor must develop a written Performance Period Monitoring and Evaluation Plan and include it in the Commissioning Plan.

1.11 TRAINING AND INSTRUCTION

A. Contractor must provide training in accordance with Section 01820, "Demonstration and Training" and as specified elsewhere within the Technical Specifications.

1.12 DEFERRED AND SEASONAL TESTING

A. Unforeseen Conditions

1. If Functional Performance Testing of a specific item of equipment or System cannot be completed due to unforeseen conditions or circumstances, at the sole discretion of the Owner's Authorized Representative, functional testing may be delayed and conducted at any time up to the end of the Warranty/Guarantee period.

2. Owner's Authorized Representative must approve deferred testing in writing.

3. Deferred testing must be conducted during the time period identified in the Owner's written authorization allowing deferred testing.

B. Seasonal Testing

1. Seasonal variation in operations or control strategies may require additional testing during the opposite season to verify performance of the HVAC system and controls.

2. If Seasonal Testing is required by the Contract Documents, it must be identified in the Commissioning Plan.

3. With the written approval of the Owner's Authorized Representative, Seasonal Testing may be performed during the Warranty/Guarantee period.

PART 2 - PRODUCTS

2.01 TEST EQUIPMENT

A. All testing equipment, supplies, materials, power, water, gas, electrical load banks, filters, etc., required to perform startup and initial checkout and Functional Performance Testing must be provided and paid for by the Contractor.

B. All testing equipment must be of sufficient quality, accuracy, and capacity to test or measure System and/or equipment performance for conformance with the requirements of the Contract Documents.
2.02 DATA LOGGING EQUIPMENT

A. If needed, the Contractor must provide all data logging equipment and/or software required for recording data generated during the testing of the systems and/or equipment.

PART 3 - EXECUTION

3.01 GENERAL

A. Contractor must operate equipment and Systems and conduct all tests in presence of the Owner's Commissioning Consultant.

B. Contractor must notify the Owner's Commissioning Consultant, in writing, at least seven (7) Days prior to performing any Commissioning test.

C. Testing must be conducted under design operating conditions as defined within the Contract Documents or accepted Commissioning Plan.

D. In addition to the copies required by Section 01332, “Submittal Log”, Contractor must submit two (2) additional copies of all test reports to the Owner's Commissioning Consultant within twenty-four (24) hours of conducting each test.

E. Functional Performance Testing must be completed and accepted by the Owner prior to commencing the thirty (30) calendar Day performance periods.

F. All elements of Systems must be tested to demonstrate that all systems satisfy all requirements of the Contract Documents.

G. Testing must be accomplished on hierarchical basis. Each piece of equipment must be tested for proper operation, followed by each subsystem, followed by entire system, followed by interfaces to other major systems.

3.02 COMMISSIONING PLAN

A. The Commissioning Plan will be prepared by the Contractor and will detail the implementation of the Commissioning process. It must include the requirements that each party involved in the commissioning process will have to accomplish, including sequence, acceptance criteria, scheduling, documentation requirements, and verification procedures.

B. Twelve (12) copies of the Draft Commissioning Plan must be submitted to the Owner no later than ninety (90) Days after initial Commissioning Plan Scoping Meeting.

C. The Commissioning Plan must include the following:

1. General Building Information
2. Identify project location & address
3. Building type, occupancy and fire rating
4. Building square footage & number of stories
5. Project team member information:
   a. Company Name & Address
   b. Discipline
   c. Phone Number
   d. Fax
   e. Email
   f. Emergency 24/7 phone number
6. Detailed responsibilities and/or deliverables for each member of the Commissioning Team.
7. Equipment & system list of items to be commissioned
8. Fire and Emergency Power Response Matrix
9. Fire Alarm Sequence Flow Chart/Diagram
10. Testing Plan, Approach, & Methodology
11. Test Methods
12. Coordination & Scheduling
13. Deficiencies Documentation
14. Acceptance
15. Testing elements defined
16. Shop Drawings that will be use during Commissioning.
17. Delivery checklists
18. Manufacturer's installation requirements
19. System sequences of operations
20. Detailed procedures for start-up and testing each listed piece of equipment and system.
21. Pre-commissioning checklists and system pre-functional checklists.
22. Detailed checklists for performance testing.
23. System & equipment integration matrix
24. Report forms that will be used.
25. Calibration data for test equipment to be used during the Commissioning process.
26. Performance Period Monitoring and Evaluation Plan
27. Seasonal or Deferred Testing
28. Other items as may be specified in Divisions 2 through 16.

D. The Commissioning Plan must include procedures for:

1. Start-up
2. Testing, adjusting, and balancing
3. Verification of equipment and system performance.
4. Verification of performance of subsystems (e.g. pumps, heat exchangers, and interconnecting piping).
5. Verification of performance of the automatic controls in all seasonal and operational modes.
6. Verification of the performance of the HVAC systems as a whole.
7. Verification of the performance of all life safety devices and systems that interface with the HVAC systems.
8. Verification of required continuous Operational testing periods for each system or item of equipment.
9. Creation of corrective action plans for all noted deficiencies identified during the commissioning process.

3.03 INITIAL SCOPE MEETING

A. Initial Commissioning Plan Scope Meeting must take place within thirty (30) Days from the official start date for the Contract Time stated in the Notice to Proceed (NTP) letter to the Contractor.
B. Attendees:
   1. Owner’s Project Manager
   2. Owner’s Project Inspector (Mandatory Attendance Required)
   3. Owner’s Commissioning Consultant (Mandatory Attendance Required)
   4. Owner’s Design Consultant(s)
   5. Contractor’s Authorized Representative
   6. Contractor’s CQ Manager (Mandatory Attendance Required)
   7. Contractor’s Commissioning Agent (Mandatory Attendance Required)
   8. Appropriate Subcontractors
   9. Other Interested Parties

C. The agenda must include:
   1. Introductions
   2. Flow of documents
   3. Submittal data
   4. Shop Drawings, Coordination Drawings and single line diagrams
   5. Lines of reporting & communication
   6. Responsibilities
   7. Commissioning Plan requirements

3.04 DRAFT COMMISSIONING PLAN
   A. The Contractor must develop a draft Commissioning Plan.
      1. Twelve (12) copies of the Draft Commissioning Plan must be submitted to the Owner no later than ninety (90) Days after initial Commissioning Plan Scoping Meeting.
      2. Within thirty (30) calendar Days of receipt, Owner will meet with the Contractor to discuss the Draft Commissioning Plan.

3.05 FINAL COMMISSIONING PLAN
   A. Contractor must submit twelve (12) copies of a Final Commissioning Plan to the Owner no later than 240 calendar Days from the official start date for the Contract Time stated in the Notice to Proceed (NTP) letter to the Contractor.
   B. Owner will review and return the Final Commissioning Plan submittal pursuant to Section 01330, "Submittal Procedures."

3.06 PRE-COMMISSIONING INSPECTION CHECKLIST
   A. Contractor must prepare pre-commissioning checklists for each item of equipment and System to be Commissioned.
   B. As a minimum, pre-commissioning checklists must include the following:
      1. Submittal Approvals
      2. Model (equipment nameplate and characteristics) verification
      3. Manufacture Installation Checklist
      4. System Checklist
      5. Deficiencies Documentation
6. Contractor Certification
7. Owner notification
8. Owner Acceptance

C. Each item in the checklist must have a date and initial line for the Contractor to indicate successful completion of the item. Only individuals who have completed or witnessed the line item task shall make initials or checks on the forms.

D. Contractor must identify all pre-commissioning items not successfully completed at the bottom of the checklist form or on an attached sheet. Four (4) copies of the completed checklist and any outstanding deficiencies must be submitted to the Owner within two (2) workdays of test completion.

3.07 PRE-FUNCTIONAL INSPECTION CHECKLIST
A. Contractor must prepare pre-functional inspection checklists for each item of equipment and system to be commissioned.

B. The pre-functional inspection checklists must contain sufficient detail to ensure that the systems/equipment are complete and operational, so that the functional performance testing can commence.

C. At a minimum, pre-functional inspection checklists must include the following:
   1. Installation checklist
   2. Manufacturer start-up and checkout procedures
   3. Fire and Emergency Power response matrix
   4. Fire Alarm Sequence Flow Chart/Diagram
   5. TAB Initial report
   6. Deficiencies Documentation
   7. Contractor Certification
   8. Owner Notification
   9. Acceptance

D. Each item in the checklist must have a date and initial line for the contractor to indicate successful completion of the item. Only individuals who have completed or witnessed the line item task shall make initials or checks on the forms.

E. Contractor must clearly list any items of pre-functional inspection not successfully completed at the bottom of the checklist form or on an attached sheet. Four (4) copies of the completed checklist and any outstanding deficiencies must be submitted to the Owner within two (2) workdays of test completion.

3.08 FUNCTIONAL PERFORMANCE TESTING
A. General
   1. The objective of Functional Performance Testing is to demonstrate that each system is operating according to the requirements of the Contract Documents.
   2. Functional Performance Testing comprises a full range of tests to verify that all components, equipment, Systems, and interfaces between Systems operate correctly. This includes all operating modes, interlocks, control sequences, and responses to emergency conditions.
   3. Tests must be performed on a complete system basis.
4. Contractor must operate systems and equipment throughout this testing and verification process.

5. Contractor must following the written test procedures in the accepted Commissioning Plan.

6. Contractor must direct, coordinate, and perform all testing procedures.

7. The Contractor must document all verification testing as it occurs.

8. The Owner's Commissioning Consultant must witness all Commissioning activities.

9. The Functional Performance Test checklist contained in the accepted Commissioning Plan must be used to document the results of the Functional Performance Testing process.

10. Each System must be operated through all modes of System operation (i.e., seasonal, occupied, unoccupied, warm-up, cool-down, power failure, fire alarm, etc.) including every individual interlock and conditional control logic, all control sequences, both full- and part-load conditions, and simulation of all abnormal conditions for which there is a specified system or controls response, e.g. warm-up and cool-down test shall be a performance test, test must be timed, HVAC equipment must change the space temperature by 10 degrees (60 degrees F to 70 degrees F and 80 degrees F to 70 degrees F).

11. Temporary upsets of Systems, such as distribution fault, control loss, set-point change, equilibrium upset, and component failure must be imposed at different operation loads to determine system stability and recovery time. All data must be logged and included in the O&M Documentation. (See Section 01782, "Operation and Maintenance Data")

B. Development of Test Procedures

1. The Contractor must develop specific test procedures and forms to verify and document proper operation of each piece of equipment and System.

2. The test procedures must be included in the Final Commissioning Plan and submitted to the Owner for review.

3. The Functional Performance Testing procedure forms developed by the Contractor must include the following information:
   a. System and equipment or component name(s).
   b. Equipment location and ID number.
   c. Date.
   d. Project name.
   e. Participating parties.
   f. Instructions for setting up the test, including special cautions, alarm limits, etc.
   g. Specific step-by-step procedures to execute the test.
   h. Acceptance criteria of proper performance with a Yes / No check box.
   i. A section for comments.
   j. Execution of Functional Performance Tests
   k. Test Methods

4. The Functional Performance Testing process must be accomplished for all equipment, Subsystems, Systems, and System interfaces, with a separate checklist for each to ensure that documentation specific to each is complete.

5. Functional Performance Testing and verification may be achieved by:
   a. Direct manipulation of System inputs (i.e., heating or cooling sensors)
b. Manipulation of System inputs with the building automation system (i.e., software override of sensor inputs)
c. Trend logs of System inputs and outputs using the building automation system
d. Short-term monitoring of System inputs and outputs using stand alone data loggers.
e. A combination of methods may be required to completely test the entire sequence of operations. The Owner's Design Consultant will determine which method, or combination, is most appropriate.

C. Setup
1. Each test procedure must be performed under conditions that simulate normal operating conditions as closely as possible.
2. Contractor must make all necessary System modifications to produce the specified conditions (flows, pressures, temperatures, etc) necessary to execute the test.

D. Sampling
1. Multiple identical pieces of non-life-safety or non-critical equipment may be functionally tested using a sampling strategy.
2. The sampling strategy is developed by the Contractor and accepted by the Owner's Design Consultant.
3. If, after three attempts at testing using the accepted sampling method, failures are still present, all remaining units must be individually tested.

E. Coordination
1. Equipment must not be "temporarily" started (for heating or cooling), until pre-functional checklist items and all Manufacturers' pre-start procedures are completed and moisture, dust and other environmental and building integrity issues will not interfere with the startup and/or operation and testing of the Systems and equipment.
2. Functional Performance Testing must not begin until pre-functional testing is completed for a given system.
3. The controls system and equipment it controls must not be functionally tested until all points have been calibrated and pre-functional checklists are completed.
4. When the functional performance of all individual systems has been proven, the interface or coordinated responses between systems must be checked. The systems involved may be within the overall HVAC Work or they may involve other Systems, such as emergency systems for fire and life safety.
5. If Contractors Work interfaces with Owner's existing systems, Contractor's Work will be first tested as independent building Systems followed by tests of Systems tied into Owners systems.
6. Each coordinated response between Systems must be demonstrated to the satisfaction of the Owner's Commissioning Consultant.
7. At completion of the each test, Contractor must return all affected building equipment and Systems to their pre-test conditions.

F. Occupied Facilities
1. Testing procedures must be conducted in a manner that will not compromise the Owner's ongoing operations.
2. If the Contractor is unsure of test procedure's effect on an operating System, or the test procedure may cause an existing System to stop operating, Contractor must make such test procedures known to the Owner during the development of the Commissioning Plan.
3. Owner may require testing that may interrupt or compromise the Owner's existing Systems to be performed during non-peak operating periods.

4. Scheduling of such items will be at the sole discretion of the Owner.

G. Problem Solving

1. The Owner's Commissioning Consultant may offer suggestions for the Contractor to consider when resolving difficulties encountered during the Commissioning process. However, all suggestions offered by the Owner's Commissioning Consultant are not binding on the Contractor and the burden of responsibility to solve and correct deficiencies encountered during the Commissioning process is and remains the responsibility of the Contractor.

3.09 COMMISSIONING ACCEPTANCE PROCEDURES

A. Contractor must notify the Owner's Commissioning Consultant at least two weeks prior to starting Functional Performance Tests.

B. The Owner's Commissioning Consultant makes provisional acceptance of the Functional Performance Test after witnessing successful completion of the test.

C. The Owner's Commissioning Consultant recommends acceptance of each test to the Owner's Design Consultant.

D. The Owner's Design Consultant accepts/rejects the System or item of equipment after reviewing Owner's Commissioning Consultant recommendation and all test results.

E. Contractor performs all Performance Period activities.

F. Upon successful completion of the Performance Period and all other required items, Contractor certifies the Work is complete in accordance with Document 00700.7.5, “Milestone Inspections and Certification.”

3.10 NON-CONFORMANCE

A. If acceptable performance is not achieved:

   1. If there is no dispute on the deficiency and the responsibility to correct it:
      a. Contractor documents the deficiency and the adjustments or alterations required to correct it.
      b. Contractor corrects the deficiency and notifies the Owner's Commissioning Consultant that the equipment is ready to be retested.
      c. The Owner's Commissioning Consultant witnesses the re-test when it is performed.

   2. If there is a dispute about a deficiency or who is responsible:
      a. The deficiency is documented and the Owner and Owner's Commissioning Consultant are notified in writing by Contractor of Contractor's position.
      b. Owner will furnish the Contractor with written clarification and/or Direction.
      c. Once the Owner furnishes the Contractor with an interpretation and/or Direction, Contractor must proceed with the Work.
      d. Contractor must notify the Owner and Owner's Commissioning Consultant when the equipment or is ready to be retested.

B. Every check or test for which acceptable performance was not achieved must be repeated after the necessary corrective measures have been completed until acceptable performance is achieved.
C. Owner's Commissioning Consultant must witness and sign-off on the correction of all performance deficiencies.

3.11 PERFORMANCE PERIOD

A. The Performance Period in this section applies to all commissioned equipment and Systems.

B. Upon successful completion of Owner-witnessed Functional Performance Tests, a Performance Period of thirty (30) consecutive calendar Days is required.

C. The Performance Period commences on first day following the last approved performance test and must be completed prior to Contractor's Milestone certification.

D. Contractor must include the Performance Period in the Contractor's Preliminary and Baseline Schedule submissions. These activities must occur after operational testing is completed and before Contractor certifies the Work of the Milestone is complete. (See Section 01320.3.05.B.22)

E. The Contractor must verify and document during the Performance Period, under normal conditions, the performance of the commissioned equipment, systems and related systems.

F. During the Performance Period, Contractor must operate and maintain equipment and Systems being verified.

G. The Contractor must review System and equipment performance during the Performance Period and correct problems as early as possible. All such corrections must be documented with date and time and copies of the documentation must be submitted to the Owner's Commissioning Consultant within 24 hours of correction.

3.12 PERFORMANCE PERIOD MONITORING AND EVALUATION PLAN

A. At least ninety (90) Days prior to the start of the Performance Period, the Contractor must submit to Owner a written Performance Period Monitoring and Evaluation Plan.

B. Contractor's Performance Period Monitoring and Evaluation Plan must:
   1. Identify Systems and equipment that will be monitored and evaluated
   2. Identify how specific issues and criteria for components and equipment will be monitored and evaluated, e.g. simultaneous heating and cooling, valve leak by, actuator and other control loop hunting, outdoor air functions, economizer functions, schedules, etc.
   3. Identify how indoor environmental conditions will be monitored and evaluated, e.g., space temperature, relative humidity, pressurization, air exchange, etc.
   4. Identify how inter-System interfaces will be monitored and evaluated.
   5. Propose for Owner's acceptance, required level of detailed documentation to verify compliance with acceptance criteria, e.g., sampling rate of trend logs, which points to graph together, graph type (time series, scatter plot) or tabular outputs needed, etc.
   6. Identify how the trend graphs will be developed, e.g. BAS or other means.
      a. At a minimum, each graphs must:
         (1) Be titled or annotated listing and describing the performance issue being displayed. Neatly by hand is acceptable.
         (2) Show the point identity of each graph line, with date, time, values and units clearly identifiable.
         (3) Y-axis must be scaled to provide as much resolution as possible and two Y-axes used for multiple points with large variances in their numerical ranges.
         (4) The time window will be narrowed to provide clear resolution, but wide enough to verify that compliance is not an anomaly in time. Use multiple time windows for the same issue as needed or requested by the Owner's Commissioning Consultant.
(5) Electronic data behind each graph must be archived so re-
graphing/reformatting can be accomplished or points used to add to another
graph, etc.

(6) Contractor must set up trends in the BAS to ensure there will be no loss of data.
   a. Graph Data: Analyze data and adjust graphs by adding or deleting points, zooming in on a
      narrower time frame, etc., to clearly illustrate the issue.
   b. Record daily activities and conditions that may be useful in interpreting
      performance, e.g., weather, etc.

7. Identify how system alarms, system failures, equipment failures, software failure, software
   errors, will be monitored and corrected.

8. Identify how types of failure and types of alarms will be classified. This information
   must be presented in a table listing the issue type and number of occurrences. During the
   Performance Period, a copy of the table must be submitted to the Owner's Commissioning
   Consultant as requested.

9. Identify how all maintenance and adjustment operations will be documented.

C. Performance Period Report:
   1. Assemble the documentation from the Performance Period into a Performance Period
      Report and submit eight (8) copies to the Owner's within five (5) workdays of the end of
      the performance period.
   2. Include a summary listing all known areas that do not meet the acceptance criteria.
   3. Within seven (7) working Days after submission of the Performance Period Report, a
      review meeting with the Owner's Commissioning Consultant will be conducted. At the
      meeting the Performance Period report will be reviewed.

D. Retests:
   1. After review of the Performance Period Report, for issues where acceptance criteria
      were not met, corrective actions will be identified, retests will be scheduled, and additional
      Performance Periods will be established.
   2. If equipment or System operates so as to demonstrate continuing compliance with the
      Requirements of the Contract Documents, for a period of thirty (30) consecutive Days from
      commencement date of Performance Period, the equipment or system will be deemed to have
      satisfied the Performance Period requirement.

3.13 OPERATIONS & MAINTENANCE DATA

A. The Contractor must compile O&M Documentation for each piece of equipment or System
   defined in Technical Specification (Divisions 2 through 17) in accordance with Section 01782,
   "Operation and Maintenance Data."

3.14 TRAINING AND INSTRUCTION

A. Training and instruction of Owner's personnel is a part of the Commissioning process and
   essential for the proper operation of the equipment and Systems within the Project. The
   Contractor must coordinate with the Owner's Commissioning Consultant for the training of
   Owner's personnel. Detailed requirements for training and instruction are contained in other sections
   of the Contract Documents including, but not limited to, Section 01820, "Demonstration and Training,"
   and the Technical Specifications (Divisions 2 through 17).

3.15 REQUESTS FOR INFORMATION

A. In addition to the number of copies required by other sections of the Contract Documents,
   Contractor must submit two (2) additional copies of all RFI's that relate to Commissioned
   equipment and Systems directly to the Owner's Commissioning Consultant.
3.16 FINAL COMMISSIONING REPORT

A. The Contractor must prepare and submit twelve (12) copies of a Final Commissioning Report summarizing all of the tasks, findings, and documenting the Commissioning process.

B. The report must address the actual performance of the building systems in reference to the requirements of the Contract Documents.

C. The report must include completed pre-functional inspection checklists, Functional Performance Testing records, diagnostic monitoring results, identified deficiencies, recommendations, and a summary of commissioning activities.

D. The Final Commissioning Report must be included as part of the Operation and Maintenance Data (See Section 01782.2.07, “Final Commissioning Report”)

PART 4 - FORMS

TABLE 01810-01
SYSTEMS/EQUIPMENT TO BE COMMISSIONED

A. MECHANICAL

- Variable Frequency Drives
- Central Cooling Plant/Chilled Water Generation Systems
- Heating Plant/Heating Hot Water Generation Systems
- Field Erected Cooling Towers
- Central Steam generation plants
- Chemical water treatment systems
- Control air systems & dryers
- Fan Coil Units
- Air Conditioning Units
- Computer room cooling systems
- Rooftop Air Handling Units/Supply Air Systems
- Packaged Air Handling Units/Supply Air Systems
- Make-Up Air Handling Unit/Supply Air Systems
- Unit Ventilators
- Boilers
- Air Conditioning Unit/Supply Air System
- Cooling Towers
- Chillers
- Supply Fan Systems
- Exhaust Fan Systems
- CO2 monitoring and control Systems Eli Electric Unit Heaters
- Ventilation, Relief or Exhaust Fan Systems
- Variable Air Volume Terminal Units - Fan Powered Type (Series or Parallel)
- Variable Air Volume Terminal Units - Cooling Only
- Building Automation System (BAS) Direct Digital Control (DDC) System
□ Fuel system components and piping
□ FOG cooling systems
□ Other

B. PLUMBING SYSTEM
□ Electric Water Heaters
□ Gas Fired Water Heaters
□ Water Heater Circulation Pump
□ Plumbing Sump Pump
□ Plumbing Fixtures
□ Water pump Systems
□ Sewer Lift Stations systems
□ Water booster systems
□ Localized temperature booster systems
□ Fountain mechanical systems
□ Industrial waste systems
□ Landscape irrigation systems
□ Other

C. FIRE PROTECTION
□ Fire Protection Sprinkler System Inspector's Test Station
□ Fire Protection System Dry Pipe System
□ Fire Protection System Pre-action System
□ Fire protection air compressors and dryers
□ Fire alarm system & interface
□ Smoke alarm system & interface
□ Fire water pressure stations
□ CO2 systems
□ Clean agent extinguishing systems
□ Smoke evacuation System and Integration
□ Other

D. ELECTRICAL
□ Lighting Systems
□ Engine Generator systems
□ Switchgear
□ Vacuum Fault Interrupters
□ Electrical Metering, Monitoring, and Control Systems
□ Motors
□ Automatic Transfer Switches
□ Medium Voltage Interrupter Switch
□ Transformers
□ Pad-Mounted Primary Switchgear
□ Primary Power System Cabling
□ Secondary Power System Cabling
□ Power Distribution Unit
□ Circuit Breaker Switchboards
□ Breaker trip sequencing coordination study
□ Ground fault systems
□ Service Switchboard
□ Circuit Breaker Branch Circuit Panel-boards
□ Circuit Breaker Distribution Panel-board
□ Motor Control Center
□ Other

E. SPECIAL SYSTEMS
□ UPS Systems
□ UPS Battery Capacity Test
□ Transit Voltage Surge Suppression (TVSS) Systems
□ Fire Detection and Alarm System
□ Security Access System
□ Building Management Systems
□ Video Surveillance System - Fixed Position Camera
□ Video Surveillance System - Pan Tilt and Zoom Camera
□ Closed circuit television (CCTV) systems
□ Supervisory Control and Data Acquisition Systems
□ Other

F. AUDIO VISUAL SYSTEMS
□ Video Projection
□ Video Monitor System
□ Sound Systems
□ Computer controls
□ Paging system
□ Switching / Source Selection Systems

END OF SECTION 01810
PART 1 - GENERAL

1.01 SUMMARY

A. This Section includes:
   1. Part 1 - General
      a. 1.01 - Summary
      b. 1.02 - Related Documents And Sections
      c. 1.03 -Definitions
      d. 1.04 - General
      e. 1.05 - Pre-instruction Conference
      f. 1.06 - Coordination
      g. 1.07 - Instruction Program
   2. Part 2 - Products (Not Used)
   3. Part 3 - Execution
      a. 3.01- Preparation
      b. 3.02- Instruction
      c. 3.03- Submittals
   4. Part 4 - Forms (Not Used)

1.02 RELATED DOCUMENTS AND SECTIONS

A. Section 01810, "General Commissioning Requirements"

1.03 DEFINITIONS

A. Training Facilitator - A firm or individual experienced in training or educating maintenance personnel in a training program similar in content and extent to that indicated for this Project, and whose work has resulted in training or education with a record of successful learning performance.

B. Instructor - A factory-authorized service representative, experienced in operation and maintenance procedures and training.

1.04 GENERAL

A. Contractor must procure and pay for the services of a qualified Training Facilitator to prepare instruction program and training modules, to coordinate Instructors, and to coordinate between Contractor and Owner for number of participants, instruction times, and location.

B. Contractor must procure and pay for the services of qualified Instructors to instruct Owner's personnel to adjust, operate, and maintain systems, subsystems, and equipment not part of a system.

C. Training requirements include:
   1. Demonstration of operation of systems, subsystems, and equipment.
   2. Training in operation and maintenance of systems, subsystems, and equipment.

1.05 PRE-INSTRUCTION CONFERENCE
A. Training Facilitator must schedule conduct a Pre-instruction Conference at the Project Site with:
   1. Owner’s Commissioning Consultant (Mandatory Attendance Required)
   2. Contractor’s Commissioning Agent (Mandatory Attendance Required)
   3. Owner’s Building Operations Staff (Mandatory Attendance Required)
   4. Contractor’s QC Manager (Mandatory Attendance Required)
   5. Owner’s Project Manager (Mandatory Attendance Required)
   6. Contractor’s Authorized Representative (Mandatory Attendance Required)

B. Review methods and procedures related to demonstration and training including, but not limited to, the following:
   1. Inspect and discuss locations and other facilities required for instruction.
   2. Review and finalize instruction schedule and verify availability of educational materials, instructors’ personnel, audiovisual equipment, and facilities needed to avoid delays.
   3. Review required content of instruction.
   4. For instruction that must occur outside, review weather and forecasted weather conditions and procedures to follow if conditions are unfavorable.

C. Training Facilitator must minutes of the meeting and distribute to all participants.

1.06 COORDINATION

A. Training Facilitator must coordinate instruction schedule with Owner’s operations. Adjust schedule as required to minimize disrupting Owner’s operations.

B. Training Facilitator must coordinate Instructors, including providing notification of dates, times, length of instruction time, and course content.

C. Training Facilitator must coordinate content of training modules with content of approved emergency, operation, and maintenance manuals. Do not submit instruction program until operation and maintenance data has been reviewed and approved by Owner.

1.07 INSTRUCTION PROGRAM

A. Program Structure: Training Facilitator must develop an instruction program that includes individual training modules for each system and equipment not part of a system, as required by individual Specification Sections, and as follows:
   1. Motorized doors, including [overhead coiling doors] [overhead coiling grilles] [and] [automatic entrance doors].
   2. Equipment, including [stage equipment] [projection screens] [loading dock equipment] [waste compactors] [food-service equipment] [residential appliances] [and] [laboratory fume hoods] <Insert type of equipment>.
   3. Fire-protection systems, including [fire alarm] [fire pumps] [and] [fire-extinguishing systems].
   4. Intrusion detection systems.
   5. Conveying systems, including [elevators] [wheelchair lifts] [escalators] [and] [cranes].
   6. Medical equipment, including medical gas equipment and piping.
   7. Laboratory equipment, including laboratory [air] [and] [vacuum] equipment and piping.
   8. Heat generation, including [boilers] [feed water equipment] [pumps] [steam distribution piping] [and] [water distribution piping].
9. Refrigeration systems, including [chillers] [cooling towers] [condensers] [pumps] [and] [distribution piping].
10. HVAC systems, including [air-handling equipment] [air distribution systems] [and] [terminal equipment and devices].
11. HVAC instrumentation and controls.
12. Electrical service and distribution, including [transformers] [switchboards] [panelboards] [uninterruptible power supplies] [and] [motor controls].
13. Packaged engine generators, including transfer switches.
14. Lighting equipment and controls.
15. Communication systems, including [intercommunication] [surveillance] [clocks and programming] [voice and data] [and] [television] equipment.

B. Training Modules: Training Facilitator must develop a learning objective and teaching outline for each module. Include a description of specific skills and knowledge that participant is expected to master. For each module, include instruction for the following:

1. Basis of System Design, Operational Requirements, and Criteria: Include the following:
   a. System, subsystem, and equipment descriptions.
   b. Performance and design criteria.
   c. Operating standards.
   d. Regulatory requirements.
   e. Equipment function.
   f. Operating characteristics.
   g. Limiting conditions.
   h. Performance curves.

C. Documentation: Review the following items in detail:

1. Emergency manuals.
2. Operations manuals.
4. Project Record Documents.
5. Identification systems.
6. Warranties and bonds.
7. Maintenance service agreements and similar continuing commitments.

D. Emergencies: Include the following, as applicable:

1. Instructions on meaning of warnings, trouble indications, and error messages.
2. Instructions on stopping.
3. Shutdown instructions for each type of emergency.
4. Operating instructions for conditions outside of normal operating limits.
5. Sequences for electric or electronic systems.
6. Special operating instructions and procedures.

E. Operations: Include the following, as applicable:
1. Startup procedures.
2. Equipment or system break-in procedures.
3. Routine and normal operating instructions.
4. Regulation and control procedures.
5. Control sequences.
7. Instructions on stopping.
10. Operating procedures for system, subsystem, or equipment failure.
11. Seasonal and weekend operating instructions.
12. Required sequences for electric or electronic systems.
13. Special operating instructions and procedures.

F. Adjustments: Include the following:
   1. Alignments.
   2. Checking adjustments.
   3. Noise and vibration adjustments.
   4. Economy and efficiency adjustments.

G. Troubleshooting: Include the following:
   1. Diagnostic instructions.
   2. Test and inspection procedures.

H. Maintenance: Include the following:
   1. Inspection procedures.
   2. Types of cleaning agents to be used and methods of cleaning.
   3. List of cleaning agents and methods of cleaning detrimental to product.
   4. Procedures for routine cleaning
   5. Procedures for preventive maintenance.
   7. Instruction on use of special tools.

I. Repairs: Include the following:
   1. Diagnosis instructions.
   2. Repair instructions.
   3. Disassembly; component removal, repair, and replacement; and reassembly instructions.
   4. Instructions for identifying parts and components.
   5. Review of spare parts needed for operation and maintenance.

PART 2 - PRODUCTS (Not Used)
PART 3 - EXECUTION

3.01 PREPARATION

A. Assemble educational materials necessary for instruction, including documentation and training module.

B. Assemble training modules into a combined training manual.

C. Set up instructional equipment at instruction location.

3.02 INSTRUCTION

A. Contractor must provide Training Facilitator and Instructors

B. Owner will furnish personnel to describe:
   1. Basis of system design
   2. Operational requirements, criteria, and regulatory requirements.
   3. Owner's operational philosophy.

C. Owner will furnish Contractor with names and positions of participants

D. Scheduling
   1. Provide instruction at mutually agreed on times.
   2. For equipment that requires seasonal operation, provide similar instruction at start of each season.
   3. Schedule training with Owner at least twenty-one (21) Days in advance of the training.

E. Evaluation
   1. At conclusion of each training module, assess and document each participant's mastery of module by use of [an oral] [a written] [a demonstration] performance-based test.

F. Demonstration and Training Videotape
   1. Record each training module separately.
   2. Include classroom instructions and demonstrations, board diagrams, and other visual aids, but not student practice.
   3. At beginning of each training module, record each chart containing learning objective and lesson outline.

G. Cleanup
   1. Collect used and leftover educational materials and [remove from Site] [give to Owner].
   2. Remove instructional equipment.
   3. Restore systems and equipment to condition existing before initial training use.

3.03 SUBMITTALS

A. Instruction Program
   1. At least six (6) weeks prior to scheduled training, submit four (4) copies of an outline of instructional program for demonstration and training, including a schedule of proposed dates, times, length of instruction time, and instructors' names for each training module.
   2. Include learning objective and outline for each training module.

B. At completion of training, submit four (4) copies of the complete training manual for Owner's use.
C. Qualification Data
   1. Training Facilitator
      a. At least six weeks prior to training, submit four (4) copies of the qualifications of Training Facilitator
      b. Include lists of completed projects with project names and addresses, names and addresses of architects and Owners, and other information specified
   2. Instructors
      a. At least six weeks prior to training, submit four (4) copies of the qualifications of all Instructors
      b. Include lists of completed projects with project names and addresses, names and addresses of architects and Owners, and other information specified
   3. Cameraman
      a. At least six weeks prior to training, submit four (4) copies of the qualifications of Videotape cameraman
      b. Include lists of completed projects with project names and addresses, names and addresses of architects and Owners, and other information specified.
      c. Include list of Videotape equipment that will be used
   D. Attendance Record: For each training module, submit four (4) copies of the list of participants and length of instruction time.
   E. Evaluations: For each participant and for each training module, submit four (4) copies of the results and documentation of performance-based test.
   F. Demonstration and Training Videotape: At end of each training module submit four (4) copies of the Demonstration and Training Videotape(s).

PART 4 - FORMS (Not Used)

END OF SECTION 01820
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Jeffrey D Draper, Director, Facilities and Fleet
SUBJECT: Notice of Completion of Contract and Acceptance of Work for Muriel Wright Ranch Campus Project

RECOMMENDED ACTION

FISCAL IMPLICATIONS
There is no impact to the General Fund because of this action.

CONTRACT HISTORY
On June 20, 2017, Item 135, the Board of Supervisors (Board) approved a construction contract for Project No. 263-CP17014 “Remodel Muriel Wright” in the amount of $4,294,000. An additional $429,400 was encumbered as Supplemental Work Allowance (SWA) for a total encumbered amount of $4,723,400. The table below outlines additional Board actions that increased the SWA for this project, and the total encumbered amount.

<table>

</tr>
</tbody>
</table>

REASONS FOR RECOMMENDATION
The work is completed, the Building Official’s final inspection was signed off on, and Final
Occupancy was approved on February 14, 2020. The next step is for the Board to accept the work, allowing the Facilities and Fleet Department to release withheld retention, start the one-year warranty period, and close the project.

**CHILD IMPACT**
This action will have no/neutral impact on children or youth.

**SENIOR IMPACT**
This action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**
This action will have positive sustainability implications, as these renovated facilities will incorporate energy efficiency and resource conserving design thereby preserving resources and limiting emissions resulting from facility operations.

**BACKGROUND**
The Board approved and resourced Project 263-CP17014 as part of the Fiscal Year 2017 Final Budget. The project converted the Muriel Wright Campus facilities from an adolescent minimum-security detention and rehabilitation facility into an adult residential mental health and substance abuse treatment and rehabilitation facility for patients from the community and inmates upon their release.

**CONSEQUENCES OF NEGATIVE ACTION**
The project would not be accepted as complete at this time.

**STEPS FOLLOWING APPROVAL**
1. Record the Executed Notice of Completion with the Office of the Clerk-Recorder.

**ATTACHMENTS:**

NOTICE OF COMPLETION OF CONTRACT AND ACCEPTANCE OF WORK

CONTRACT NO: 263-CP17014 (17-21)

DOCUMENT TITLE:

Muriel Wright Ranch Campus Building Renovations

No recording fee required pursuant to
Government Code §6103 and 27383

SEPARATE PAGE PURSUANT TO GOVT CODE §27361.6
NOTICE OF COMPLETION OF CONTRACT AND ACCEPTANCE OF WORK

NOTICE IS HEREBY GIVEN by order of the Board of Supervisors of the County of Santa Clara, State of California, pursuant to State law, that the work to be performed under the contract heretofore made and executed by and between the County of Santa Clara, as owner herein, and

D.L. Falk Construction, Inc.
3626 Investment Blvd., Hayward, CA 94545

as Contractor therein, bearing the date June 20, 2017
for construction of Muriel Wright Ranch Campus Building Renovations
Contract No. 17-21
and appurtenant facilities upon lands of said County known as

Muriel Wright Ranch, 298 Bernal Road, San Jose, CA 95119
situated in the County of Santa Clara, State of California, was completed by the Contractor, and the work was accepted by the said Board on behalf of said County on April 7, 2020

Upon said contract, Liberty Mutual Insurance Company
Bond Number 070022758
was surety on the bond given by said D.L. Falk Construction, Inc. the said Contractor, as required by law.

That the nature of the ownership interest of said County in the real property upon which said work and contract was performed is that of Fee Simple Absolute.

That the mailing address for the Clerk of said Board for the County is

70 West Hedding Street, 10th Floor, East Wing,
San Jose, California, 95110

IN WITNESS WHEREOF, pursuant to the order of the Board of Supervisors made and given on April 7, 2020 authorizing and directing the extension of its name, authenticated by the signature of the Clerk of said Board of Supervisors on April 7, 2020.

BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA

__________________________________________
Megan Doyle
Clerk of the Board

I hereby declare that I am the Clerk of the Board of the County of Santa Clara and that I make this oath on its behalf; that the County of Santa Clara is the owner of the real property interest described in the foregoing Notice; that I have read the foregoing Notice and know the contents thereof, and the facts therein stated are true of my own knowledge.

I declare under the penalty of perjury under the laws of the State of California that the foregoing is true and correct, and was executed at San Jose, California, on April 7, 2020.

Megan Doyle
Clerk of the Board of Supervisors
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John P. Mills, Director, Employee Services Agency
SUBJECT: Salary Ordinance Amendment related to Confidential Clerical Realignments

RECOMMENDED ACTION
Adoption of Salary Ordinance No. NS-5.20.99 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adjusting the salaries of unrepresented Confidential Clerical classifications providing for various salary realignments.
• Introduce, waive reading, and preliminarily adopt on March 24, 2020.
• Adopt (Final) on April 7, 2020.

FISCAL IMPLICATIONS
The cost to implement the recommended action is approximately $43,000 for Fiscal Year (FY) 2020 and will be absorbed within departments’ existing appropriations. The annualized cost of approximately $60,000 will be included in the base budget.

REASONS FOR RECOMMENDATION
Unrepresented confidential clerical classifications historically receive the same general wage increases and wage realignments as the SEIU Local 521 (SEIU) Clerical Bargaining Unit. The recommended action will provide for classifications designated as confidential clerical to receive the same realignments as their non-confidential counterparts.

CHILD IMPACT
The recommended action will have no/neutral impact on children.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
On October 22, 2019, the Board of Supervisors approved a general wage increase and
realignments for certain unrepresented confidential clerical classifications based on the last, best, and final offer (LBFO) tendered to SEIU Local 521 at that time. Since that action was taken, the SEIU agreement has been approved and certain classifications received a higher realignment than what was represented in the LBFO. The recommended action recognizes the difference in those percentages and includes those confidential clerical classifications that did not originally receive a realignment.

**CONSEQUENCES OF NEGATIVE ACTION**
The realignments for specific confidential clerical classifications will not be approved.

**STEPS FOLLOWING APPROVAL**
The Clerk of the Board of Supervisors is requested to send MinuteTraq notification of completed processing to Jennifer Paredes-Fricano and Barbara Olivares, Employee Services Agency – Human Resources.

**ATTACHMENTS:**

</tbody>
</table>
DATE:        April 7, 2020
TO:         Board of Supervisors
FROM:  James R. Williams, County Counsel
SUBJECT:  Addition of Positions in the Office of the County Counsel

RECOMMENDED ACTION

Adoption of Salary Ordinance No. NS-5.20.100 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adding one Attorney IV - County Counsel or Attorney III-County Counsel or Attorney II-County Counsel or Attorney I-County Counsel position, one Program Manager II position, and one Senior Paralegal or Paralegal position in the Office of the County Counsel.

- Introduce, waive reading, and preliminarily adopt on March 24, 2020.
- Adopt (Final) on April 7, 2020.

FISCAL IMPLICATIONS

The cost to implement the recommended action for the remainder of Fiscal Year (FY) 2019-20 is approximately $111,721 and will be absorbed by the Office of the County Counsel. The ongoing cost for FY 2020-21 is approximately $665,516, which will be offset through the transfer of funds from the General Fund Reserve for State and Federal Impacts, as the positions added to ensure Countywide compliance with the California Public Records Act (CPRA).

REASONS FOR RECOMMENDATION

At the February 25, 2020 meeting (Item No. 31), the Board approved the creation of a Program Manager II position, a County Counsel Attorney position, and a Senior Paralegal/Paralegal position within the Office of the County Counsel to provide the needed resources to handle the intake, countywide coordination, tracking, legal review, and production of records in response to public records requests, and referred to Administration and County Counsel to report back on March 24, 2020 with implementing actions. A Program Manager II within the Office of the County Counsel will serve as the Countywide CPRA Coordinator to manage the countywide Public Records Act process, overseeing the centralized intake system and tracking of CPRA responses, and coordinating with assigned attorneys and Department CPRA Coordinators on the searching, retrieval, review, redaction,
and production of records. The Paralegal and Attorney positions will provide needed resources for the increased volume of legal review of records to avoid potential breaches of protected information. The Attorney position will also help with the necessary oversight required to fulfill the Office’s obligations.

The attached salary ordinance adds the needed resources, as directed by the Board.

**CHILD IMPACT**

The recommended action will have no/neutral impact on children.

**SENIOR IMPACT**

The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

The County Counsel is the legal advisor to the Board of Supervisors, every County officer, all County departments and agencies, and County boards and commissions. Under the County’s Open Government Ordinance section A17-12, the Office of the County Counsel has been designated as the Office responsible for receiving and coordinating departmental responses to Public Records Act requests, but the Office has never been allocated resources to manage this countywide process.

The Employee Services Agency supports the recommended action.

**CONSEQUENCES OF NEGATIVE ACTION**

The Office of the County Counsel will not have the necessary staff resources to appropriately manage, track, and provide legal review for the County’s responses to public records requests.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board of Supervisors is requested to send notification of completed processing to Emma Perez of the Employee Services Agency, Human Resources, and Kim Forrester, Office of the County Counsel.

SUBJECT: Salary Ordinance Amendment related to the Tentative Agreement with E&A Local 21

RECOMMENDED ACTION
Adoption of Salary Ordinance No. NS-5.20.104 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adjusting salaries for employees represented by Santa Clara County Engineers and Architects Association, IFPTE Local 21 AFL-CIO (SCCEAA) providing for a three percent general wage increase, a 1.5 percent realignment for all classifications represented by SCCEAA, and an additional four percent realignment for the classification of Architectural Plans Examiner.

• Introduce, waive reading, and preliminarily adopt on March 24, 2020.
• Adopt (Final) on April 7, 2020.

Please refer to Legislative File #100895.

ORDINANCE NO. NS-5.20.104

AN ORDINANCE AMENDING SANTA CLARA COUNTY ORDINANCE NO. NS-5.20 RELATING TO THE COMPENSATION OF EMPLOYEES

The Board of Supervisors of the County of Santa Clara ordains as follows:

SECTION 1:

Notwithstanding the provisions of NS-5.20, the salaries for all classifications represented by Santa Clara County Engineers and Architects Association, IFPTE Local 21 AFL-CIO (SCCEAA), including extra help classifications, shall be increased by 3%.

SECTION 2:

Notwithstanding the provisions of NS-5.20, all classifications represented by Santa Clara County Engineers and Architects Association, IFPTE Local 21 AFL-CIO (SCCEAA), including extra help classifications, shall receive an additional 1.5% realignment.

SECTION 3:

Notwithstanding the provisions of NS-5.20, the classification of Architectural Plans Examiner shall receive an additional 4% realignment.

SECTION 4:

This Ordinance shall take effect April 7, 2020. This Ordinance shall be implemented on April 20, 2020.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on __________________ by the following vote:

JPF-3/24/2020

Form Approved by County Counsel 10/07
DATE: April 7, 2020
TO: Board of Supervisors
FROM: James R. Williams, County Counsel
       Laurie Smith, Sheriff
SUBJECT: Ordinance regarding Appointment of Reserve Deputy Sheriffs

RECOMMENDED ACTION
Held from February 25, 2020 (Item No. 60): Adoption of Ordinance No. NS-300.940 adding Section A20-2.1 of Chapter I of Division A20 of the Santa Clara County Ordinance Code relating to Sheriff's Authority to Appoint Reserve Deputy Sheriffs.

- Introduce, waive reading, and preliminarily adopt on March 24, 2020.
- Adopt (Final) on April 7, 2020.

FISCAL IMPLICATIONS
No impact to the County General Fund will result from approval of the recommended action.

REASONS FOR RECOMMENDATION
The proposed Ordinance authorizes the Sheriff to select, and deputize or appoint, qualified individuals as Level I Reserve Deputy Sheriffs, in conformance with Penal Code section 830.6(a)(2). Reserve Deputy Sheriffs may be utilized as necessary to provide supplemental law enforcement services within Santa Clara County.

CHILD IMPACT
The recommended action will have no/neutral impact on children.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
The Santa Clara County Sheriff’s Office has a designated Volunteer Reserve unit designed to provide supplemental services to the community utilizing sworn Reserve Deputy Sheriffs.
The Commission on Peace Officer Standards and Training (POST) recognizes three levels of Reserve Peace Officers based on the level of training completed. Each of the three levels has certain limitations on the scope of service which can be provided. Level I Reserve Peace Officer is the top level with the highest training and those Reserve Peace Officers are authorized to provide the most comprehensive supplemental law enforcement services.

**CONSEQUENCES OF NEGATIVE ACTION**

The Sheriff’s Office may have to reduce the level of services available to County residents without Level I reserves available.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board shall process the Ordinance Code amendment, and send notification to Kim Forrester, Office of the County Counsel; and Juan Gallardo, Office of the Sheriff.

ORDINANCE NO. NS-300.940

AN ORDINANCE OF THE BOARD OF SUPERVISORS
OF THE COUNTY OF SANTA CLARA ADDING
SECTION A20-2.1 OF CHAPTER I OF DIVISION A20 OF THE COUNTY OF
SANTA CLARA ORDINANCE CODE RELATING TO SHERIFF’S AUTHORITY
TO APPOINT RESERVE DEPUTY SHERIFFS

Summary

This Ordinance grants the Sheriff authority to deputize or
appoint reserve or auxiliary deputies.

THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA
ORDAINS AS FOLLOWS:

SECTION 1. Chapter I of Division A20 of the Ordinance Code of the County of
Santa Clara relating to Law Enforcement and the Sheriff’s Department is hereby
amended by adding a new Section to be numbered and titled and to read as follows:

Sec. A20-2.1. Sheriff’s Authority to Appoint Reserve Deputy Sheriffs.

Pursuant to the provisions of Section 830.6(a)(2) of the Penal Code, the Sheriff is
authorized to select, and deputize or appoint, any qualified person as a reserve or

Ordinance NS-300.940 re Sheriff's Authority to Appoint Reserve Deputy Sheriffs
DATE: April 7, 2020
TO: Governing Board of the Santa Clara County Central Fire Protection District
FROM: Tony Bowden, Fire Chief
SUBJECT: Adoption of Salary Ordinance No. CFPD-2020-4

RECOMMENDED ACTION
Adoption of Salary Ordinance No. CFPD-2020-4 amending Santa Clara County Central Fire Protection District Salary Ordinance No. CFPD-2020-1 adding the classification of Firefighter – Voluntary Reduced Rank before July 31, 2020; and deleting 165 Firefighter/Engineer or Firefighter or Firefighter Trainee positions and adding 165 Firefighter/Engineer or Firefighter or Firefighter – Voluntary Reduced Rank before July 31, 2020 or Firefighter Trainee positions.

• Introduce, waive reading, and preliminarily adopt on March 24, 2020.
• Adopt (Final) on April 7, 2020.

FISCAL IMPLICATIONS
There is no fiscal impact to the County’s General Fund. Approval of the recommended action will not require modification to the current Board-approved Fire District budget as the cost of the added positions is the same as the existing Firefighter/Engineer positions.

REASONS FOR RECOMMENDATION
The Fire District is seeking approval to add the position of Firefighter – Voluntary Reduced Rank before July 31, 2020, to allow individuals to voluntarily move from the Firefighter/Engineer classification to the Firefighter classification.

The Firefighter – Voluntary Reduced Rank before July 31, 2020 classification has been incorporated into the attached Salary Ordinance as an alternately staffed classification within the existing 165 alternately staffed Firefighter/Engineer or Firefighter or Firefighter – Voluntary Reduced Rank before July 31, 2020 or Firefighter Trainee positions. The Firefighter -Voluntary Reduced Rank before July 31, 2020 classification has the same salary range as the Firefighter/Engineer. Employees that voluntarily elect to reduce rank to the Firefighter – Voluntary Reduced Rank before July 31, 2020 will remain at their current pay
step and will not advance in pay step or receive any general wage increases until a pay step in the Firefighter pay range matches or exceeds the employee’s set pay rate.

Once the minimum Firefighter staffing is achieved, alternate staffing for the 165 positions will be modified accordingly. Management has discussed the proposed classification addition with Local 1165, and Local 1165 concurs with the Fire District’s recommendation.

CHILD IMPACT
The recommended action will have no/neutral impact on children.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

CONSEQUENCES OF NEGATIVE ACTION
The Fire District will not be able to add the classification needed to meet current delivery service needs.

STEPS FOLLOWING APPROVAL
The President and Clerk will sign Salary Ordinance No. CFPD-2020-4 and the Clerk will notify the Fire District’s Director of Business Services when the completed documents are available in MinuteTraq.

DATE: April 7, 2020
TO: Board of Supervisors
FROM: Jake Hess, Fire Chief
SUBJECT: South Santa Clara County Fire Code Update

RECOMMENDED ACTION
Adoption of Ordinance No. SoSCCFD-2020.1 amending Division A of the South Santa Clara County Fire District Ordinance Code adopting by reference Division B7 of the County of Santa Clara Ordinance Code, as recently amended, with certain amendments to address location conditions, as the District Fire Code.

- Introduce, waive reading, and preliminarily adopt on March 24, 2020.
- Adopt (Final) on April 7, 2020.

FISCAL IMPLICATIONS
There is no fiscal impact on the General Fund or the South Santa Clara County Fire funds as a result of this action.

CONTRACT HISTORY
Not applicable.

REASONS FOR RECOMMENDATION
The recommended action will enable the South Santa Clara County Fire District to adopt the recently approved amendments made by the County to the Santa Clara County Fire Code, allowing the District to continue to enforce the fire code. This ordinances fully replaces the old fire code, so no redline version is attached.

CHILD IMPACT
The recommended action will have no/neutral impact on children.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.
BACKGROUND

State law provides that the California Building Standards Commission must adopt building standards applicable to all occupancies in the State of California. The building standards include model codes, including a fire code, published by specified code-writing bodies, as amended to address issues specific to California. When adopted, these building standards constitute the California Building Standards Code.

Health and Safety Code sections 17958.7 and 18947.5, allow counties to modify the State building standards where reasonably necessary because of local climatic, geological or topographical conditions. In December 2019, the County of Santa Clara Board of Supervisors adopted the 2019 triennial edition of the California Building Standards Code, including the California Fire Code. The fire code included amendments reasonably necessary because of local climatic, geological or topographical conditions, supported by specific findings set forth in the fire code.

Health and Safety Code sections 13869.7 and 18941.5 provide that a local fire protection district may adopt its own fire code, either by writing its own code, or by adopting another fire code by reference. Like counties, a local fire protection district may also adopt building standards relating to fire and panic safety that are more stringent than those building standards adopted contained in the California Building Standards Code, where reasonably necessary because of local climatic, geological or topographical conditions. Health and Safety Code section 13869.7, subdivision (a), requires that any such amendments be supported findings regarding this local necessity.

In order to ensure consistent enforcement in the jurisdiction served by the South Santa Clara County Fire District and the County Fire Marshal, the District will need to adopt the County Fire Code by reference.

EXEMPTION FROM CEQA

The adoption of this ordinance is exempt from CEQA because it can be seen with certainty that there is no possibility that adoption of the ordinance may have a significant effect on the environment (CEQA Guidelines Section 15061 (b) (3).

CONSEQUENCES OF NEGATIVE ACTION

If the South Santa Clara County Fire Code is not adopted by reference, there will be inconsistent code enforcement within the jurisdictions served by the County Fire Marshal and the District.

STEPS FOLLOWING APPROVAL

Following the approval of the recommended action, the Clerk of the Board will send one copy of the Ordinance to:

South Santa Clara County Fire District
Attention: District Analyst
15670 Monterey Street
Morgan Hill, CA  95037

- Ordinance No. SoSCCFD-2020.1 amending Division A of the South Santa Clara County Fire District Ordinance Code (PDF)

HISTORY:

03/24/20    Board of Supervisors    ADOPTED (PRELIM.)    Next: 04/07/20
ORDINANCE NO. SoSCCFD-2020-1

AN ORDINANCE OF THE BOARD OF DIRECTORS
OF THE SOUTH SANTA CLARA COUNTY FIRE DISTRICT
AMENDING DIVISION A OF THE SOUTH SANTA CLARA COUNTY FIRE
DISTRICT ORDINANCE CODE BY ADOPTING BY REFERENCE DIVISION
B7 OF THE COUNTY OF SANTA CLARA ORDINANCE CODE
AS RECENTLY AMENDED

Summary

This ordinance adopts by reference Division B7 of the
County of Santa Clara Ordinance Code
(“County Fire Code”) as recently amended.

Recitals

WHEREAS, Health and Safety Code section 18938 provides that the California
Building Standards Commission ("Commission") shall adopt building standards applicable
to all occupancies in the State of California. The building standards consist of certain
model building codes published by specified code-writing bodies, as amended to address
California-specific issues. When adopted, these building standards constitute the California
Building Standards Code;

WHEREAS, Health and Safety Code section 13869 provides that a local fire protection
district may adopt a fire prevention code by reference;

WHEREAS, the California Building Standards Code is typically revised on a
triennial basis. The Commission adopted the 2019 triennial edition of the California
Building Standards Code, Title 24, California Code of Regulations. The new building
standards become effective in all cities and counties throughout the state on January 1,
2020 unless the standards are modified by local jurisdictions;

WHEREAS, pursuant to Health and Safety Code sections 17958.7 and 18941.5,
counties and cities may modify the State building standards where reasonably necessary
because of local climatic, geological or topographical conditions;

WHEREAS, the Board of Directors for the South Santa Clara County Fire District
(“Directors”) finds that each of the amendments to the California Fire Standards Code adopted
by the County of Santa Clara continue to be reasonably necessary to address local climatic,
geological and topographical conditions within District boundaries. The findings are set forth
in Exhibit A to County Ordinance No. NS-1100.131 and are incorporated herein by this
reference; and

1 of 28

Ordinance No. SoCCCFD-2020-001
Adopting by Reference the County Fire Code as the District Fire Code
WHEREAS, the Directors desire to adopt Division B7 of the County of Santa Clara Ordinance Code, as amended, as the District Fire Code, as set forth in this ordinance.

THE BOARD OF DIRECTORS OF THE SOUTH SANTA CLARA COUNTY FIRE DISTRICT ORDAINS AS FOLLOWS:

SECTION 1. Section A-1 of Division A of the Ordinance Code of the South Santa Clara County Fire District is hereby repealed and reenacted to read as follows:

The South Santa Clara County Fire District ("District") adopts by reference the County of Santa Clara Fire Code, set forth in Division B7 of the County of Santa Clara Ordinance Code, for the purpose of prescribing regulations governing conditions hazardous to life and property from fire or explosion. Division B7 of the County of Santa Clara Ordinance Code incorporated by reference the 2019 triennial edition of the California Building Standards Code, Title 24, California Code of Regulations, except such portions as were deleted, modified or amended by Division B7.

This adopted code along with minor amendments to the adopted code included in this ordinance, shall be known as the District Fire Code. Commencing with the effective date of this ordinance, the provisions of the District Fire Code are controlling and enforceable only within the limits of the South Santa Clara County Fire District.

SECTION 2. Section A-5 of Division A of the Ordinance Code of the South Santa Clara County Fire District is hereby repealed and reenacted to read as follows:

The County Fire Code, as adopted by reference by the District pursuant to Section 1 of this Ordinance is adopted to read as follows:

Division B7

FIRE PROTECTION

CHAPTER I. INCORPORATION BY REFERENCE

The County Fire Code is the 2018 International Fire Code ("IFC"), including Appendices B, C, and O thereto, as published by the International Code Council, as amended by the California Building Standards Commission in the 2019 California Fire Code ("CFC"), and as further modified by the additions, deletions, and amendments set 2 of 28
forth in this Division.

CHAPTER II. ADDITIONS, DELETIONS AND AMENDMENTS TO INTERNATIONAL FIRE CODE AND CALIFORNIA FIRE CODE

Sec. B7-2. Additions, deletions, and amendments.

The County Fire Code modifies the IFC and CFC with the additions, deletions, and amendments set forth in this chapter.

Sec. B7-3. IFC Appendices adopted.

Appendix Chapter B (Fire-flow requirements for buildings), Appendix Chapter C (Fire Hydrant Location and Distribution), and Appendix Chapter O (TemporaryHaunted Houses, Ghost Walks and Similar Amusement Uses) of the IFC are adopted in their entirety.

Sec. B7-4. Chapter 1 Division II adopted and amended.

Chapter 1 Division II of the CFC is adopted with the following amendments:

(a) Section 101.1 (Title) is amended to read as follows:

101.1. Title. These regulations shall be known as the County Fire Code and referred to herein as “this code.”

(b) Section 103 (Department of Fire Prevention) is deleted in its entirety.

(c) Section 104.6 (Official records) is deleted in its entirety.

(d) Section 105.6.16.1 (Mobile fueling of hydrogen-fueled vehicles) is deleted in its entirety.

(e) Section 105.6.30 (Mobile food preparation vehicles) is deleted in its entirety.

(f) A new section, Section 105.6.52 (Lithium Batteries), is added to read as follows: 105.6.52. Lithium Batteries. An operational permit is required to collect or store more than 1,000 pounds (454 kg) of lithium batteries.

(g) A new section, Section 107.5 (Final inspection), is added to read as follows: 107.5. Final inspection. No final inspection as to all or any portion of a building, structure, or development shall be deemed completed until the installation of the

Ordinance No. SoCCCFD-2020-001
Adopting by Reference the County Fire Code as the District Fire Code
required fire protection facilities and access ways have been completed and approved. No final certificate of occupancy may be granted until the fire code official issues notice of final clearance of such fire protection facilities and access ways to the Building Inspection Office.

(h) Section 109.1 (Board of Appeals) is deleted in its entirety and replaced with the following:

109.1. Appeals. Any decision of the Fire Marshal with respect to the suitability of alternative materials, methods, and types of construction, or any interpretation or decision related to an order, rule or regulation adopted by the County Fire Marshal that has been denied, may be appealed to the County Code Enforcement Appeals Board in accordance with Division Cl, Chapter 1, Article 3 of the County Ordinance Code.

(i) Section 110.4 (Violation penalties) is amended to read as follows:

110.4. Violation penalties. Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction plans or other documents or directive of the fire code official, or of a permit or certificate used under provisions of this code, shall be guilty of a misdemeanor, punishable by a fine of not more than $1,000 dollars or by imprisonment not exceeding one year, or both such fine and imprisonment. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

(j) Section 112.4 (Failure to comply) is amended to read as follows:

112.4. Failure to comply. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be guilty of a misdemeanor, punishable by a fine of not more than $1,000 dollars or by imprisonment not exceeding one year, or both such fine and imprisonment. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

Sec. B7-5. Chapter 2 amendments.

Chapter 2 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 202 (General Definitions) is amended to add the following definitions:
3D PRINTER. A machine used in the additive manufacturing process for fabricating objects through the deposition of a material using a print head, nozzle, or another printer technology.

ADDITIVE MANUFACTURING. A process of joining materials to make objects from 3D model data, usually layer upon layer, sometimes referred to as 3D printing. The Code recognizes two types of additive manufacturing:

1. **Industrial additive manufacturing.** 3D printing operations that typically utilize combustible powders or metals, an inert gas supply, a combustible dust collection system, or that create a hazardous (classified) location area or zone outside of the equipment.

2. **Non-industrial additive manufacturing.** 3D printing operations that do not create a hazardous (classified) location area outside of the equipment and do not utilize an inert gas supply or a combustible dust collection system.

CORROSIVE LIQUID. Corrosive liquid is:

1. Any liquid which, when in contact with living tissue, will cause destruction or irreversible alteration of such tissue by chemical action;

2. Any liquid having a pH of 2 or less or 12.5 or more;

3. Any liquid classified as corrosive by the U.S. Department of Transportation; and

4. Any material exhibiting the characteristics of corrosivity in accordance with California Code of Regulations Title 22, section 66261.22.

MINIMUM THRESHOLD QUANTITY. The aggregate of highly toxic, toxic, or moderately toxic gases in a control area which, due to the minimum aggregate quantities, need only comply with the requirements set forth in Section 6004.1.

MODERATELY TOXIC GAS. A chemical or substance that has a median lethal concentration (LC50) in air more than 2,000 parts per million but not more than 5,000 parts per million by volume of gas or vapor, when administered by continuous inhalation for an hour, or less if death occurs within one hour, to albino rats weighing between 200 and 300 grams each.
OTHER HEALTH HAZARD MATERIAL. A hazardous material which affects target organs of the body, including but not limited to, those materials which produce liver damage, kidney damage, damage to the nervous system, act on the blood to decrease hemoglobin function, deprive the body tissue of oxygen or affect reproductive capabilities, including mutations (chromosomal damage) or teratogens (effect on fetuses).

SECONDARY CONTAINMENT. Secondary containment is that level of containment that is external to and separate from primary containment and is capable of safely and securely containing the material, without discharge, for a period of time reasonably to ensure detection and remedy of the primary containment failure.

SPILL CONTROL. That level of containment that is external to and separate from the primary containment and is capable of safely and securely containing the contents of the largest container and prevents the materials from spreading to other parts of the room.

URBAN SERVICE AREA. Urban service area has the same definition as provided in California Government Code section 56080.

(b) Section 202 (General Definitions) is amended to modify the following definition:

WORKSTATION. A defined space or an independent principal piece of equipment using hazardous materials with a hazard rating of 3 or 4 in accordance with NFPA 704 where a specific function, laboratory procedure or research activity occurs. Approved or listed hazardous materials storage cabinets, flammable liquid storage cabinets or gas cabinets serving a workstation are included as part of the workstation. A workstation is allowed to contain ventilation equipment, fire protection devices, detection devices, electrical devices and other processing and scientific equipment.

Sec. B7-6. Chapter 3 amendments.

Chapter 3 of the IFC as amended by the CFC is adopted with the following amendments:

(a) A new section, Section 315.8 (Lithium battery storage and handling), is added to read as follows:

315.8. Lithium battery storage and handling. The storage and handling of lithium ion and lithium metal batteries or cells in quantities exceeding 1,000 pounds (4,086 kg) shall comply with Section 315.8.1 through 315.8.10 and Chapter 32 where applicable.

(b) A new Section, Section 315.8.1 (Permits), is added to read as follows:
315.8.1. **Permits.** Permits shall be required as set forth in Section 105.6.52.

(c) A new section, Section 315.8.2 (Maximum quantity in a fire area), is added to read as follows:

**315.8.2. Maximum quantity in a fire area.** In other than Group H, Division 2 Occupancies, the aggregate amount of lithium batteries stored and handled in a single fire area shall not exceed 9,000 pounds (4,086 kg).

(d) A new section, Section 315.8.3 (Construction requirements), is added to read as follows:

**315.8.3. Construction requirements.** Fire areas shall be separated from each other by fire barriers having not less than 2-hour fire resistance rating constructed in accordance with Section 707 of the Building Code and horizontal assemblies constructed in accordance with Section 711 of the Building Code.

(e) A new section, Section 315.8.4 (Number of fire areas), is added to read as follows:

**315.8.4. Number of fire areas.** The maximum number of fire areas within a building shall be four.

(f) A new section, Section 315.8.5 (Group H, Division 2 occupancy), is added to read as follows:

**315.8.5. Group H, Division 2 occupancy.** Storage and handling of more than 9,000 pounds of lithium batteries per fire area shall be in an approved Group H, Division 2 occupancy constructed in accordance with the Building Code and provided throughout with approved automatic smoke detection and radiant-energy detection systems.

(g) A new section, Section 315.8.6 (Automatic sprinkler system), is added to read as follows:

**315.8.6. Automatic sprinkler system.** Buildings containing fire areas used for lithium battery storage or handling shall be equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1. The design of the sprinkler system within each fire area shall not be less than that required for Extra Hazard Group 2 with a minimum design area of 2,500 square feet. Where the storage arrangement is required by other provisions of this code to be provided with a higher level of sprinkler system protection, the higher level of sprinkler system protection shall be provided.
(h) A new section, Section 315.8.7 (Automatic smoke detection system), is added to read as follows:

315.8.7. **Automatic smoke detection system.** An approved automatic smoke detection system that activates an approved occupant notification system shall be provided throughout each fire area in accordance with Section 907.

(i) A new section, Section 315.8.8 (Radiant energy detection), is added to read as follows:

315.8.8. **Radiant energy detection.** An approved radiant-energy detection system that activates an approved occupant notification system shall be installed throughout each fire area in accordance with Section 907.

(j) A new section, Section 315.8.9 (Collection containers), is added to read as follows:

315.8.9. **Collection containers.** Containers used to collect or store lithium batteries shall be noncombustible and shall not have an individual capacity exceeding 30 gallons (113.6 L), or be approved for transportation in accordance with the United States Department of Transportation (DOT).

(k) A new section, Section 315.8.10 (Storage configuration), is added to read as follows:

315.8.10. **Storage configuration.** Lithium batteries shall be considered a high hazard commodity in accordance with Chapter 32. Where applicable, lithium battery storage shall comply with Chapter 32 in addition to Section 315.8.

(l) A new section, Section 316.7 (Roof guardrails at interior courts), is added to read as follows:

316.7. **Roof guardrails at interior courts.** Roof openings into interior courts that are bounded on all sides by building walls shall be protected with guardrails. The top of the guardrail shall not be less than 42 inches in height above the adjacent roof surface that can be walked on. Intermediate rails shall be designed and spaced such that a 12-inch diameter sphere cannot pass through.

**Exception:** Where the roof opening is greater than 600 square feet in area.

(m) A new section, Section 321 (Additive Manufacturing), is added to read as follows:
321. Additive Manufacturing

(n) A new section, Section 321.1 (General), is added to read as follows:

321.1. General. Additive manufacturing equipment and operations shall comply with Section 321.

(o) A new section, Section 321.1.1 (Scope), is added to read as follows:

321.1.1. Scope. Additive manufacturing shall comply with one of the following:
1. Non-industrial additive manufacturing shall comply with Section 321.2.
2. Industrial additive manufacturing shall comply with Section 321.3.

(p) A new section, Section 321.1.2 (Installation, operation and maintenance), is added to read as follows:

321.1.2. Installation, operation and maintenance. 3D printers and associated additive manufacturing equipment shall be installed, operated and maintained in accordance with this code, the listing, and the manufacturer’s instructions.

(q) A new section, Section 321.1.3 (Production materials), is added to read as follows:

321.1.3. Production materials. Only the production materials listed for use with the equipment and included in the manufacturer’s instructions shall be used with that equipment.

(r) A new section, Section 321.2 (Non-industrial additive manufacturing), is added to read as follows:

321.2. Non-industrial additive manufacturing. Non-industrial additive manufacturing equipment and operations shall comply with Section 321.2.1 through 321.2.4. Additive manufacturing equipment and operations that do not comply with Section 321.2 shall comply with Section 321.3.

(s) A new section, Section 321.2.1 (Listing), is added to read as follows:

321.2.1. Listing. 3D printers used in non-industrial additive manufacturing shall be listed and labeled in accordance with UL 60950-1, UL 62368-1, or UL 2011. The listing shall also verify:
1. The 3D printers are self-contained and utilize maximum 30-liter prepackaged
production materials.
2. The operation of the 3D printers shall not create a hazardous (classified) electrical area outside of the unit.
3. If any hazardous (classified) electrical area or zone exists inside of the unit’s outer enclosure, the area shall be protected by intrinsically safe electrical construction or other acceptable protection methods.
4. The 3D printers shall not utilize inert gas or an external combustible dust collection.

(t) A new section, Section 321.2.2 (Occupancies), is added to read as follows:

321.2.2. Occupancies. Non-industrial additive manufacturing shall be permitted in all occupancy groups.

(u) A new section, Section 321.3 (Industrial additive manufacturing), is added to read as follows:

321.3. Industrial additive manufacturing. Industrial additive manufacturing equipment and operations shall comply with Section 321.3.1 through 321.3.13.

(v) A new section, Section 321.3.1 (Permits required), is added to read as follows:

321.3.1. Permits required. Permits shall be obtained from the fire code official in accordance with Section 105.6 prior to engaging in industrial additive manufacturing operations.

(w) A new section, Section 321.3.2 (Listing), is added to read as follows:

321.3.2. Listing. 3D printers used in industrial additive manufacturing shall be listed and labeled in accordance with UL 2011 or approved for the application based on a field evaluation conducted by an approved agency.

(x) A new section, Section 321.3.3 (Combustible dusts and metals), is added to read as follows:

321.3.3. Combustible dusts and metals. Industrial additive manufacturing operations that store, use, or produce combustible dust, combustible particulate solids, or combustible metals shall comply with Chapter 22 and this Section.

(y) A new section, Section 321.3.4 (Powder evaluation), is added to read as follows:

321.3.4. Powder evaluation. Printing powders used in industrial additive
manufacturing operations shall be tested for combustibility in accordance with NFPA 484 or NFPA 652 as applicable. A copy of test reports shall be provided to the fire code official upon request.

(z) A new section, Section 321.3.5 (Combustible (non-metallic) dusts), is added to read as follows:

321.3.5. Combustible (non-metallic) dusts. Industrial additive manufacturing that uses operations that store, use, or produce combustible (non-metallic) dusts shall comply with NFPA 654.

(aa) A new section, Section 321.3.6 (Combustible metals), is added to read as follows:

321.3.6. Combustible metals. Industrial additive manufacturing operations that store or use combustible metals shall also comply with NFPA 484.

(bb) A new section, Section 321.3.7 (Ancillary equipment), is added to read as follows:

321.3.7. Ancillary equipment. Ancillary equipment provided for recycling, sieving, vacuuming, or handling combustible powders shall be designed and approved for such use.

(cc) A new section, Section 321.3.8 (Hazardous materials), is added to read as follows:

321.3.8. Hazardous materials. Industrial additive manufacturing operations that store or use hazardous materials exceeding the maximum allowable quantity limits shall comply with Chapter 50.

(dd) A new section, Section 321.3.9 (Inert gas), is added to read as follows:

321.3.9. Inert gas. Industrial additive manufacturing processes that utilize inert gases shall comply with Chapter 53. Ventilation or gas detection shall be provided in accordance with Section 5307.

(ee) A new section, Section 321.3.10 (Technical assistance), is added to read as follows:

321.3.10. Technical assistance. Where required by the fire code official, a report evaluating the acceptability of technologies, processes, products, facilities, materials and uses associated with the operation shall be provided in accordance...
with Section 104.7.2 and approved.

(ff) A new section, Section 321.3.11 (Performance based design alternative), is added to read as follows:

321.3.11. Performance based design alternative. Where approved by the fire code official, buildings and facilities where industrial additive manufacturing is performed shall be permitted to comply with the performance-based design options in Section 5001.3 as an alternative to compliance with the other requirements set forth in Section 321.3.

(gg) A new section, Section 321.3.12 (Occupancies), is added to read as follows:

321.3.12. Occupancies. Industrial additive manufacturing shall only be conducted in the occupancy groups associated with manufacturing operations. The occupancy may be required by the fire code official to comply with Chapter 50 maximum allowable quantity tables. Where approved, the requirements in Sections 321.2.5 and 321.3.6 shall be permitted to provide the technical basis for determining compliance with Table 5003.1.1(1), footnote q.

(hh) A new section, Section 321.3.13 (Safety certification), is added to read as follows:

321.3.13. Safety certification. The equipment, process, training procedures, and occupancy associated with industrial additive manufacturing may be required by the fire code official to receive a safety certification from Underwriter’s Laboratory or equivalent.

Sec. B7-7. Chapter 5 amendments.

Chapter 5 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 503.1 (Where required) is amended to read as follows:

503.1. Where required. Fire apparatus roads shall be provided and maintained in accordance with Sections 503.1.1 through 503.1.3 and as per County Fire Marshal written standards.

(b) Section 503.1.1 (Building and facilities) is amended to read as follows:

503.1.1. Buildings and facilities. Approved fire apparatus access roads shall be provided for every facility, building, or portion of a building hereafter constructed.
or moved into or within the jurisdiction. The fire apparatus access road shall comply with the requirements for this section and shall extend to within 150 feet (45 720 mm) of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exceptions:

1. The Fire Code Official is authorized to increase the dimension of 150 feet (45 720 mm) where any of the following conditions occur:
   1.1 In other than R-3 or U occupancies, when the building is equipped throughout with an approved automatic sprinkler system, installed in accordance with Sections 903.3.1.1, the dimension may be increased to a maximum of 300 feet when approved by the fire code official.
   1.2 When there are not more than two Group R-3 or accessory Group U occupancies, the dimension may be increased to a maximum of 200 feet.
   1.3 When apparatus roads cannot be installed because of topography, waterways, nonnegotiable grades or other similar conditions, an approved alternative means of fire protection shall be provided.

(c) Section 503.2.1 (Dimensions) is amended to read as follows:

503.2.1. Dimensions. Fire apparatus access roads shall have an unobstructed width of not less than 20 feet (6,096 mm), exclusive of shoulders, or as required by Fire Marshal access road standards, except for approved security gates in accordance with Section 503.6, and an unobstructed vertical clearance of 13 feet 6 inches (4,115 mm).

Exceptions:

1. Where roads serve residential lots subject to single-site development, a minimum width of 18 ft. (5,486 mm) exclusive of shoulders is allowed. This exception does not apply to occupancies regulated by California Code of Regulations Title 19 as defined in Section 1.1.3.2(14) of this code.
2. Where there are not more than two residential parcels (single-site development), the access road width may be modified by the fire code official.

(e) Section 503.2.2 (Authority) is deleted in its entirety.

(f) A new section, Section 504.5 (Access control devices), is added to read as follows:

504.5. Access control devices. When access control devices including bars, grates,
gates, electric or magnetic locks or similar devices, which would inhibit rapid fire department emergency access to or within the building are installed, such devices shall be approved by the fire code official. All electrically powered access control devices shall be provided with an approved means for deactivation or unlocking from a single location or otherwise approved by the fire code official. Access control devices shall also comply with Chapter 10 Means of Egress.

(g) Section 510.1 (Emergency responder radio coverage in new buildings) is deleted and replaced with the following:

510.1. Emergency responder radio coverage in new buildings. Approved radio coverage for emergency responders shall be provided within all buildings meeting any one of the following conditions:

1. There are more than 3 stories above grade plane (as defined by the Building Code Section 202);
2. The total building area is 30,000 square feet or more;
3. The total basement area is 5,000 square feet or more; or
4. Where required by the fire code official and radio coverage signal strength levels are not consistent with the minimum levels set forth in Section 510.4.1.

Exceptions:

1. If approved by the fire code official, a wired communication system in accordance with Section 907.2.12.2 shall be permitted to be installed or maintained in lieu of an approved radio coverage system.
2. If it is determined by the fire code official that the radio coverage system is not needed.
3. In facilities where emergency responder radio coverage is required and such systems, components, or equipment required could have a negative impact on the normal operations of that facility, the fire code official shall have the authority to accept an automatically activated emergency responder radio coverage system.
4. Buildings and areas of buildings that have minimum radio coverage signal strength levels of the Silicon Valley Regional Interoperability Authority (SVRIA) P25 Phase 2 700 MHz Digital Trunked Radio System within the building in accordance with Section 510.4.1 without the use of an indoor radio coverage system.

The radio coverage system shall be installed and maintained in accordance with Sections 510.4 through 510.6.4 of this code and with the applicable provisions of NFPA 1221, Standard for the Installation, Maintenance and Use of Emergency Services Communications Systems.
The coverage shall be based upon the existing coverage levels of the public safety communication systems of the jurisdiction at the exterior of the building. This section shall not require improvement of the existing public safety communication systems.

(h) A new section, Section 510.1.1 (Obstruction by new buildings), is added to read as follows:

510.1.1. Obstruction by new buildings. No obstruction of the public safety system backhaul shall be allowed without an approved mitigating plan.

(i) Section 510.2 (Emergency responder radio coverage in existing buildings) is deleted in its entirety.

(j) Section 510.3 (Permit required) is amended to read as follows:

510.3. Permit required. A construction permit for the installation of or modification to emergency responder radio coverage systems and related equipment is required as specified in Section 105.7.6. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. A frequency change made to an existing system is considered to be new construction and requires a construction permit.

(k) Section 510.4 (Technical requirements) is amended to read as follows:

510.4. Technical requirements. Systems, components and equipment required to provide the emergency responder radio coverage system shall comply with the current Emergency Responders Radio Coverage Systems Standard Details & Specification enforced by the Santa Clara County Fire Department.

(l) Section 510.4.1.1 (Minimum signal strength into the building) is amended to read as follows:

510.4.1.1. Minimum signal strength into the building. The minimum inbound signal strength shall be sufficient to provide usable voice communications throughout the coverage area as specified by the fire code official. The inbound signal level shall be sufficient to provide not less than a Delivered Audio Quality (DAQ) of 3.0 for analog communications and DAQ of 3.4 for digital communications systems or an equivalent Signal-to-Interference-Plus-Noise Ratio (SINR) applicable to the technology.

(m) Section 510.4.1.2 (Minimum signal strength out of the building) is amended to read as follows:
510.4.1.2. Minimum signal strength out of the building. The minimum outbound signal strength shall be sufficient to provide usable voice communications throughout the coverage area as specified by the fire code official. The outbound signal level shall be sufficient to provide not less than a Delivered Audio Quality of 3.0 for analog communications and DAQ of 3.4 for digital communications systems or an equivalent Signal-to-Interference-Plus-Noise Ratio applicable to the technology.

(n) Section 510.5 (Installation requirement) is amended to read as follows:

510.5. Installation requirement. The installation of the emergency responder radio coverage system shall be in accordance with NFPA 1221 and the current Emergency Responder Radio Coverage Systems Standard Details & Specification enforced by the Santa Clara County Fire Department.

(o) Section 510.5.1 (Approval prior to installation) is amended to read as follows:

510.5.1. Approval prior to installation. Amplification systems capable of operating on frequencies licensed to any public safety agency by the FCC or other radio licensing authority shall not be installed without prior coordination and approval of the fire code official and the agency FCC license holder or systems administrator.

(p) The First Paragraph of Section 510.5.3 (Acceptance test procedure) is amended to read as follows:

Where an emergency responder radio coverage system is required, and upon completion of installation, the building owner shall have the radio system tested to verify that two-way coverage on each floor of the building is not less than 95 percent. Final system acceptance will require Emergency Responder Radio Communication System (ERRCS) power level and DAQ testing with agency FCC license holder, systems administrators, or designee. The test procedure shall be conducted as follows:

Chapter 6 of the IFC as amended by the CFC is adopted with the following amendments:

(a) A new section, Section 604.12 (Immersion heaters), is added to read as follows:

604.12. Immersion heaters. All electrical immersion heaters used in dip tanks, sinks, vats, and similar operations shall be provided with approved overtemperature controls and low liquid level electrical disconnects. Manual reset of required protection devices shall be provided.
Sec. B7-9. Chapter 8 amendments.

Chapter 8 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 806.1.1 (Restricted occupancies) is amended to read as follows:

806.1.1. Restricted occupancies. The display of natural cut trees and other decorative vegetation in new and existing buildings shall be in accordance with the California Code of Regulations, Title 19, Section 3.08 and Sections 806.1 through 806.5.

Exceptions:

1. Trees located in areas protected by an approved automatic sprinkler system installed in accordance with Section 903.3.1.1 or 903.3.1.2 shall not be prohibited in Groups A, E, M, R-1 and R-2.
2. Trees shall be allowed within dwelling units in Group R-2 occupancies.

Sec. B7-10. Chapter 9 amendments.

Chapter 9 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 901.6.3 (Records) is amended to read as follows:

901.6.3. Records. Records of all system inspections, tests and maintenance required by the referenced standard shall be maintained on the premises for a minimum of five years. Inspections and tests performed on fire alarm systems shall be documented on NFPA 72 forms.

(b) Section 903.2 (Where required) is amended to read as follows:

903.2. Where required. Approved automatic sprinkler systems in new and existing buildings and structures shall be provided in the locations described in this Section or in Sections 903.2.1 through 903.2.18, whichever is the more restrictive. For the purposes of this section, firewalls used to separate building areas shall be constructed in accordance with the California Building Code and shall not be utilized as a means of area reduction for the purposes of circumventing automatic fire sprinkler system installation requirements.

1. An approved automatic sprinkler system shall be provided throughout all new buildings and structures unless the building or structure meets an exception below. The exceptions do not apply when the driveway or access road providing fire department access to the building or structure is in excess of 15% slope.

Ordinance No. SoCCCFD-2020-001
Adopting by Reference the County Fire Code as the District Fire Code
Exceptions:

A. Buildings and structures that are not located in the Wildland Urban Interface and that do not exceed 1,000 square feet of building area.

B. Buildings and structures that are located in the Wildland Urban Interface and that do not exceed 500 square feet of building area.

C. Group S-2 or U occupancies that are not located in the Wildland Urban Interface, are used as support for photovoltaic systems and/or for vehicle parking underneath, and meet all of the following conditions:

   (1) Noncombustible construction.
   (2) Maximum building area does not exceed 5,000 square feet of floor area.
   (3) Structure is open on 3 or more sides.
   (4) Minimum of 10 feet separation from existing buildings unless area is separated by fire walls complying with CBC 706.

D. Private non-dwelling residential accessory structures not used for commercial purposes, that do not exceed 5,000 square feet in building area, and that do not present an unusually high fire risk.

E. Agricultural buildings as defined in Appendix Chapter C of the California Building Code that meet one of the following conditions:

   (1) The use of the building does not present an unusually high fire risk as determined by the fire code official and the building:
       
       (a) Does not exceed 5,000 square feet and/or 25 feet in height; and
       
       (b) Is detached and separate from other structures or property lines by a minimum of 50 feet.

   (2) The use of the building presents an unusually high fire risk as determined by the fire code official and the building:

       (a) Does not exceed 3,000 square feet and/or 25 feet in height; and

       (b) Is detached and separate from other structures or property lines by a minimum of 50 feet.

   (3) The building is an agricultural greenhouse or shade structure that:
(a) Is not structurally sufficient to support the weight of a fire sprinkler system;

(b) Is detached and separate from other structures or property lines by a minimum of 100 feet; and

(c) Is not used for storage purposes of any kind.

(4) The building is a noncombustible canopy structure that:

(a) Has dirt floors and no sides;
(b) Is used only for the purpose of providing shelter for horseback riding;
(c) Is not used in any way for combustible or noncombustible storage; and
(d) Is detached and separate from other structures or property lines by a minimum of 100 feet.

F. Group B and Group M Occupancies with 500 square feet or less of building area where they are detached and separate from other structures and provided with exterior wall and opening protection in accordance with the County Building Code.

2. An approved automatic sprinkler system shall be provided throughout existing buildings and structures when additions or modifications are made after which the total building area exceeds 3,600 square feet or that result in a change of use or occupancy to one requiring sprinklers per Sections 903.2.1 through 903.2.19.

Exception: One or more additions made to a building after January 1, 2011 the cumulative building area of which does exceed 1,000 square feet.

3. An approved automatic fire sprinkler system shall be installed in new manufactured homes (as defined in California Health and Safety Code Sections 18007 and 18009) and multifamily manufactured homes with two dwelling units (as defined in California Health and Safety Code Section 18008.7) in accordance with Title 25 of the California Code of Regulations.

4. An approved automatic sprinkler system shall be provided throughout all new basements regardless of size and throughout existing basements that are expanded by more than 50%.

5. An approved automatic sprinkler system shall be installed in any building with a building area greater than 3,600 square feet if there is a change in the occupancy or use of

Ordinance No. SoCCCFD-2020-001
Adopting by Reference the County Fire Code as the District Fire Code
the building that, in the opinion of the fire code official or building official, would place
the building into a more hazardous division of the same occupancy group, or into a
different occupancy group and constitutes a greater threat to life safety or increased fire
risk.

(b) The exception in Section 903.2.18 (Group U private garages and carports
accessory to Group R-3 occupancies) is deleted.

(c) Section 909.20.1 (Schedule) is amended to read as follows:

909.20.1. Schedule. A routine maintenance and operational testing program shall
be initiated immediately after the smoke control system has passed the acceptance
tests. A written schedule for routine maintenance and operational testing shall be
established. Both routine maintenance and operational testing shall occur at least
annually.

Chapter 11 of the IFC as amended by the CFC is adopted with the following
Amendments:

(a) All International Fire Code sections not otherwise adopted by the California State
Fire Marshal’s Office as indicated within the matrix adoption table are deleted in their
entirety.

Sec. B7-12. Chapter 33 amendments.

Chapter 33 of the IFC as amended by the CFC is adopted with the following
amendments:

(a) A new section, Section 3304.9 (Firewalls), is added to read as follows:

3304.9. Firewalls. When firewalls are required in combustible construction, the wall
construction shall be completed (with all openings protected) immediately after the
building is sufficiently weather protected at the location of the walls.

(b) Section 3311.1 (Stairways required) is deleted and replaced with the following:

3311.1. Stairways required. Each level above the first story in multi-story
buildings that require two exit stairways shall be provided with at least two usable
exit stairways after the floor decking is installed. Exit stairs in new and in existing,
occupied buildings shall be lighted and maintained clear of debris and construction
materials at all times.

*Exception:* For new multi-story buildings, one of the required exit stairs may be obstructed on not more than two contiguous floor levels for the purposes of stairway construction (i.e., installation of gypsum board, painting, flooring, etc.).

(c) A new section, Section 3311.1.1 (Required means of egress), is added to read as follows:

*Section 3311.1.1. Required means of egress.* All buildings under construction shall have at least one unobstructed means of egress. All means of egress shall be identified in the pre-fire plan (see Section 3308.3).

**Sec. B7-13. Chapter 49 amendments.**

Chapter 49 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 4902 (Definitions), definition of Wildland-Urban Interface Fire Area, is deleted and replaced with the following:

**WILDLAND-URBAN INTERFACE FIRE AREA.** The Wildland-Urban Interface Fire Area shall be defined as all unincorporated areas within the County of Santa Clara as set forth and delineated on the map entitled "Wildland Urban Interface Fire Area" adopted by resolution of the Board of Supervisors, which map and all notations, references, data, and other information shown thereon is hereby adopted and made a part of this chapter. The map shall be on file in the Office of the Fire Marshal.

(b) Section 4906.2 (Application) is amended to read as follows:

*4906.2. Application.* Buildings and structures located in the following areas shall maintain the required hazardous vegetation and fuel management:

1. All unincorporated lands designated by the State Board of Forestry and Fire Protection as State Responsibility Areas (SRA) including:
   1.1 Moderate Fire Hazard Severity Zones
   1.2 High Fire Hazard Severity Zones
   1.3 Very-High Fire Hazard Severity Zones
2. Land designated as a Very-High Fire Hazard Severity Zone or as a Wildland Urban Interface Fire Area by the County.
(c) Section 4907.1 (General) is amended to read as follows:

4907.1. General. Defensible space will be maintained around all buildings and structures in State Responsibility Areas (SRA) as required in Public Resources Code 4290 and “SRA Fire Safe Regulations” California Code of Regulations, Title 14, Division 1.5, Chapter 7, Subchapter 2, Section 1270. Buildings and structures within the Very-High Fire Hazard Severity Zones of a Local Responsibility Area (LRA) shall maintain defensible space as outlined in Government Code 51175 - 51189 and as specified below: Persons owning, leasing, controlling, operating, or maintaining buildings or structures in the locally adopted Wildland-Urban Interface Fire Area but that are not within the Very-High Fire Severity Zone and persons owning, leasing or controlling land adjacent to such buildings or structures, shall at all times:

1. Maintain an effective defensible space by removing and clearing away flammable vegetation and combustible growth from areas within 30 feet (9,144 mm) of such buildings or structures.

   Exception: Single specimens of trees, ornamental shrubbery or similar plants used as ground covers, provided that they do not form a means of rapidly transmitting fire from the native growth to any structure.

2. Maintain additional effective defensible space by removing brush, flammable vegetation, and combustible growth within 30 feet to 100 feet (9,144 mm to 30,480 mm) of such buildings and structures when required by the fire code official due to steepness of terrain or other conditions that would cause a defensible space of only 30 feet (9,144 mm) to be insufficient.

   Exception: Grass and other vegetation located more than 30 feet (9,144 mm) from buildings or structures and less than 18 inches (457 mm) in height above the ground need not be removed where necessary to stabilize the soil and prevent erosion.

3. Remove portions of trees which extend within 10 feet (3,048 mm) of the outlet of a chimney.

4. Maintain trees adjacent to or overhanging a building free of deadwood.

5. Maintain the roof of all structures free of leaves, needles, or other dead vegetative growth.
6. Maintain an effective defensible space as set forth in Item 1 around water tank structures, water supply pumps, and pump houses.

7. Remove flammable vegetation a minimum of 10 feet (3,048 mm) around liquefied petroleum gas tanks/containers.

8. Not maintain or store firewood and combustible materials in unenclosed spaces beneath buildings or structures, or on decks or under eaves, canopies, or other projections or overhangs. The storage of firewood and combustible material shall be located a minimum of 30 feet (9,144 mm) from structures and separated from the crown of trees by a minimum horizontal distance of 15 feet (4,572 mm).

**Exception:** Firewood and combustible materials not for consumption on the premises shall be stored as approved by the fire code official.

9. Clear areas within 10 feet (3,048 mm) of fire apparatus access roads and driveways of non-fire-resistive vegetation growth.

**Exception:** Single specimens of trees, ornamental vegetative fuels, or cultivated ground cover, such as green grass, ivy, succulents or similar plants used as ground cover, provided they do not form a means of readily transmitting fire.

(d) A new section, Section 4907.2 (Correction Actions), is added to read as follows:

4907.2. Corrective actions. If the owner of any property upon which conditions regulated by Section 4907.1 exist fails to correct those conditions following notice of the conditions and an opportunity to cure, the County Executive or their designee is authorized to cause the corrections to be performed and to make the expense of such correction a lien upon the property where such conditions exists.

(e) A new section, Section 4908 (Fire Protection Plan), is added to read as follows:

4908. Fire Protection Plan

4908.1. General. When required by the fire code official, a fire protection plan shall be prepared.

4908.2. Content. The fire protection plan shall be based upon a site-specific wildfire risk assessment that includes considerations of location, topography, aspect, flammable vegetation, climatic conditions, and fire history. The plan shall address water supply, access, building ignition and fire-resistance factors, fire protection systems and equipment, defensible space, and vegetation management.
4908.3. **Cost.** The cost of fire protection plan preparation and review shall be the responsibility of the applicant.

4908.4. **Plan retention.** The fire protection plan shall be retained by the fire code official.

(f) A new section, Section 4909 (Water Supply), is added to read as follows:

4909. **Water Supply**

4909.1. **General.** Buildings and structures, or portions thereof, hereafter constructed or relocated into or within the Wildland-Urban Interface Fire Area shall be provided with fire protection water supplies in accordance with Chapter 5 and Section 4909.2.

*Exception:* Buildings containing only private garages, carports, sheds, and agricultural buildings with a building area of not more than 500 square feet (56 square meters).

4909.2. **Standby power.** Standby power shall be provided to pumps, controllers, and related electrical equipment so that stationary water supply facilities within the Wildland-Urban Interface Area that are dependent on electrical power can provide the required water supply. The standby power system shall be in accordance with the Electrical Code. The standby power source shall be capable of providing power for a minimum of two hours.

*Exceptions:*

1. When approved by the code official, a standby power supply is not required where the primary power service to the stationary water supply facility is underground.

2. A standby power supply is not required where the stationary water supply facility serves no more than one single-family dwelling.

(g) A new section, Section 4910 (Fireworks), is added to read as follows:

4910. **Fireworks**

4910.1. **Fireworks.** Fireworks shall not be used or possessed in the Wildland-Urban Interface Fire Area.

**Sec. B7-14. Chapter 50 amendments.**
Chapter 50 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 5001.2.2.2 (Health Hazards) is amended to read as follows:

5001.2.2.2. Health hazards. The material categories listed in this section are classified as health hazards. A material with a primary classification as a health hazard can also pose a physical hazard.

1. Highly toxic and toxic materials.
2. Corrosive materials.
3. Moderately toxic gases.
4. Other health hazards.

(b) A new section, Section 5003.9.11 (Fire extinguishing systems for workstations dispensing, handling, or using hazardous materials), is added to read as follows:

5003.9.11. Fire extinguishing systems for workstations dispensing, handling, or using hazardous materials. Combustible and non-combustible workstations, which dispense, handle or use hazardous materials, shall be protected by an approved automatic fire extinguishing system in accordance with Section 2703.10.

Exception: Internal fire protection is not required for Biological Safety Cabinets that carry NSF/ANSI certification where quantities of flammable liquids in use or storage within the cabinet do not exceed 500 ml.

Sec. B7-15. Chapter 56 amendments.

Chapter 56 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 5601.1.3 (Fireworks) is amended to read as follows:

5601.1.3. Fireworks. The possession, manufacture, storage, sale, handling, and use of fireworks, including those fireworks classified as Safe and Sane by the California State Fire Marshal, are prohibited.

Exception: The use of fireworks for firework displays as allowed in Section 5608.

Sec. B7-16. Chapter 57 amendments.
Chapter 57 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 5704.2.7.5.8 (Overfill prevention) is amended to read as follows:

\[5704.2.7.5.8. \text{Overfill prevention.} \] An approved means or method in accordance with Section 5704.2.9.7.5 shall be provided to prevent the overfill of all Class I, II and IIIA liquid storage tanks. Storage tanks in refineries, bulk plants or terminals regulated by Sections 5706.4 or 5706.7 shall have overfill protection in accordance with API 2350.

An approved means or method in accordance with Section 5704.2.9.7.6 shall be provided to prevent the overfilling of Class IIIB liquid storage tanks connected to fuel-burning equipment inside buildings.

(b) A new section, Section 5704.2.7.5.9 (Automatic filling of tanks), is added to read as follows:

\[5704.2.7.5.9. \text{Automatic filling of tanks.} \] Systems that automatically fill flammable or combustible liquid tanks shall be equipped with overfill protection, approved by the fire code official, that sends an alarm signal to a constantly attended location and immediately stops the filling of the tank. The alarm signal and automatic shutoff shall be tested on an annual basis and records of such testing shall be maintained on-site for a period of five years.

(c) Section 5707.3.3 (Site Plan) is amended to read as follows:

\[5707.3.3. \text{Site plan.} \] A site plan shall be developed for each location at which mobile fueling occurs. The site plan shall be in sufficient detail to indicate: all buildings, structures, lot lines, property lines and appurtenances on site and their use and function; all uses adjacent to the lot lines of the site; fueling locations, the locations of all storm drain openings and adjacent waterways or wetlands; information regarding slope, natural drainage, curbing, impounding and how a spill will be kept on the site property; and the scale of the site plan.

Sec. B7-17. Chapter 58 amendments.

Chapter 58 of the IFC as amended by the CFC is adopted with the following amendments:

(a) Section 5806.2 (Limitations) is amended to read as follows:

26 of 28
5806.2. Limitations. Storage of flammable cryogenic fluids in stationary containers outside of buildings is prohibited in all locations of unincorporated Santa Clara County which are residential or congested commercial areas.

(b) Section 5809.3.4 (Site Plan) is amended to read as follows:

5809.3.4. Site plan. For other than emergency roadside service, a site plan shall be developed for each location at which mobile gaseous hydrogen fueling occurs. The site plan shall be in sufficient detail to indicate; all buildings, structures, lot lines, property lines and appurtenances on site and their use and function, and the scale of the site plan.

Sec. B7-18. Chapter 64 amendments.

Chapter 64 of the IFC as amended by the CFC is adopted with the following amendments:
(a) A new section, Section 6405.3.1 (Silane distribution systems automatic shutdown), is added to read as follows:

6405.3.1. Silane distribution systems automatic shutdown. Silane distribution systems shall automatically shut down at the source upon activation of the gas detection system at levels above the alarm level and/or failure of the ventilation system for the silane distribution system.
