AGENDA PACKET
April 7, 2020 9:30 AM
Regular Meeting

***BY VIRTUAL TELECONFERENCE ONLY***

Pursuant to the provisions of California Governor’s Executive Order N-29-20, issued on March 17, 2020, this meeting will be held by teleconference only. Instructions for accessing the teleconference will be posted online at: www.sccgov.org/bosmeeting

Tel. (408) 299-5001 Fax (408) 938-4525 TDD (408) 993-8272

Notice to the Public - Meeting Procedures

-- The Board of Supervisors may take other actions relating to the issues as may be determined following consideration of the matter and discussed of the recommended actions.

-- Language interpretation services are available. Please contact the Office of the Clerk of the Board at (408) 299-5001 no less than three business days prior to the meeting to request an interpreter.

-- All reports and supporting material are available for review on the internet at sccgov.iqm2.com.

-- Any disclosable public records related to an open session item on a regular meeting agenda and distributed by the County to all or a majority of the Board of Supervisors (or any other commission, or board or committee) less than 72 hours prior to that meeting are available for public inspection at the Office of the Clerk of the Board, 70 West Hedding Street, 10th Floor, during normal business hours.

-- The Board shall provide at least twice the allotted time to members of the public who utilize interpreters or translators, unless simultaneous translation equipment is used. Groups of speakers on a specific item are asked to limit their total presentation to a maximum of twenty minutes for each side of the issue. NOTE: The President may limit the number or duration of speakers on a matter. (Rules of the Board, Section 18)

-- Items that contain ordinance proposals may be adopted on the Consent Calendar. The title of an ordinance as listed on the agenda is incorporated and read into the record of proceeding for the agenda item.

-- Pursuant to Government Code section 1091.5(a)(9), this notice is provided to disclose that the following Board Members have a non-interest in the identified government entities on which they serve that may contract with the County: Association of Bay Area Governments Executive Board (Chavez, Cortese, Wasserman, Simitian); Bay Area Air Quality Management District (Chavez); Local Agency Formation Commission (Wasserman, Ellenberg, Chavez); Metropolitan Transportation Commission (Cortese); San...
Francisco Bay Conservation and Development Commission (Cortese); Valley Transportation Authority Board of Directors (Chavez, Cortese, Ellenberg); West Valley Sanitation District Board (Wasserman, Simitian).

-- In compliance with the Americans with Disabilities Act and the Brown Act, those requiring accommodation for this meeting should notify the Clerk of the Board's Office 24 hours prior to the meeting at (408) 299-5001, TDD (408) 993-8272.

## Opening

1. Roll Call.
2. Pledge of Allegiance.
3. Invocation by Inspirational TEDx Speaker, Venus Jones. (Wasserman) (ID# 101023)

## Ceremonial Presentations

4. Announce Adjournments in Memoriam. (See Item No. 22)
   a. Adjourn in honor and memory of Reverend Dr. Joseph Lowery. (Chavez) (ID# 101003)
   b. Adjourn in honor and memory of residents of Santa Clara County who have lost their lives to the COVID-19 Virus. (Chavez/Cortese) (ID# 100991)

5. Commendations and Proclamations. (See Item No. 56)

## Public Issues

6. Public Comment.

   This item is reserved for persons desiring to address the Board on: (1) any matter not on this agenda, (2) the report from the County Executive, (3) Closed Session items, and (4) the report from the County Counsel. Members of the public who wish to address the Board on these topics should complete a Request to Speak Form and place it in the tray at the rear of Chambers. The President will call individuals to the podium in turn. All Request to Speak Forms must be submitted prior to the start of Public Comment.

   Speakers are limited to the following: three minutes if the Board President or designee determines that five or fewer persons wish to address the Board; two minutes if the Board President or designee determines that between six and fourteen persons wish to address the Board; and one minute if the Board President or designee determines that fifteen or more persons wish to address the Board.

   The law does not permit Board action or extended discussion of any item not on the agenda except under special circumstances. If Board action is requested, the Board may place the matter on a future agenda. Statements that require a response may be referred to staff for reply in writing.

7. Approve Consent Calendar and changes to the Board of Supervisors' Agenda.

   Items removed from the Consent Calendar will be considered at the end of the regular agenda for discussion. The Board may also add items on the regular agenda to the Consent Calendar.

   Notice to the public: there is no separate discussion of Consent Calendar items, and the recommended actions are voted on in one motion. If an item is approved on the consent vote, the specific action recommended by staff is adopted. Members of the public who wish to address the Board on Consent Calendar items should comment under this item. Each speaker is limited to two minutes total.

### Board Referrals

9. Consider recommendations relating to the regular reporting of necessary information to the Board of Supervisors regarding the status of COVID-19 and the County response. (Chavez/Ellenber) (ID# 101017)

Possible action:

a. Discuss the form, frequency and components of a regular report to the Board from Administration including information from the Emergency Operations Center (EOC) relating to the status of COVID-19 and the County response.

b. Provide direction to Administration regarding provision of regular reports.

10. Approve referral to Administration to report to the Board on April 21, 2020 with options for consideration relating to establishing a temporary shelter program to be located at the County-owned project site in Milpitas adjacent to Piercley Honda, with special attention paid to addressing the needs of the unhoused community in light of the COVID-19 public health emergency. (Cortese) (ID# 101010)

11. Approve referral to County Counsel to report to the Board with options for consideration relating to adopting a resolution that supports implementing heightened protective measures to prevent frontline healthcare workers from being exposed and later transmitting COVID-19 to other vulnerable patients. (Cortese/Chavez) (ID# 101011)

12. Consider recommendations relating to the vote-by-mail adjustments that will be made given the COVID-19 crisis and the Emergency Ballot Delivery method for marginalized voters. (Chavez) (ID# 100978)

Possible action:

a. Approve referral to Administration and to the Office of the County Counsel to report to the Finance and Government Operations Committee on May 19, 2020 with options for consideration relating to the potential full implementation of the vote-by-mail process for the November 2020 election if necessary given the risks that the COVID-19 crisis presents.

b. Approve referral to Administration to report to the Finance and Government Operations Committee on May 19, 2020 with information and recommendations relating to potentially expanding the awareness of and access to the Emergency Ballot Delivery procedure to eligible voters and organizations serving residents more commonly known to face barriers to voting, including, but not limited to, residents who are disabled, hospitalized, incarcerated, or confined to their homes due to medical emergencies.
13. Adopt Resolution denouncing xenophobia and anti-Asian sentiment due to the COVID-19 pandemic, and affirming the County of Santa Clara’s support of and commitment to the well-being and safety of Asian American communities. (Chavez) (ID# 100999)

14. Receive report from County Executive.

**Regular Agenda - Items for Discussion**

15. Under advisement from October 17, 2017 (Item No. 10): Receive report from Office of the County Executive relating to completion of an assessment on the transportation needs of clients in accessing County services. (ID# 100799)

16. Consider recommendations relating to the procurement of Full-Body Security Screener Technology for use in County custody facilities. (Office of the Sheriff) (ID# 100830)

Possible action:

b. Adopt finding that the benefits of the surveillance technology outweigh the costs pursuant to Section A40-4 of the Santa Clara County Ordinance Code.

c. Receive Proposed Surveillance Use Policy for use of Full-Body Security Screener Technology in County custody facilities, that has been reviewed and approved by County Counsel as to form and legality.

d. Approve Agreement with OD Security North America LLC relating to providing full body scanners and related maintenance and support services in an amount not to exceed $1,300,000 for period April 7, 2020 through April 6, 2026 with one six-year extension option, that has been reviewed and approved by County Counsel as to form and legality. An exception to Board of Supervisors Policy 5.4.5.4, Length of Term of Contacts, has been approved by the Office of Countywide Contracting Management.

17. Held from February 25, 2020 (Item No. 71): Consider recommendations relating to Fiscal Year 2019-2020 Video Surveillance Upgrades (Project No. 263-CP20009). (Facilities and Fleet Department) (ID# 100820)

Possible action:

a. Receive Surveillance Impact Reports for Surveillance Cameras at Civic Center (70 West Hedding St, San Jose), Sheriff’s Headquarters (50 West Younger Ave, San Jose), Sheriff’s West Valley Division (1601 South De Anza Blvd, Cupertino), and County Communications (2700 Carol Drive, San Jose).

b. Approve the acquisition of new surveillance cameras for Civic Center, Sheriff’s Headquarters, Sheriff’s West Valley Division, and County Communications.
c. Adopt finding that the benefits of the surveillance technology outweigh the costs pursuant to Section A40-4 of the Santa Clara County Ordinance Code.

d. Approve the existing Surveillance Use Policies for the new surveillance cameras at Civic Center, Sheriff's Headquarters, Sheriff’s West Valley Division, and County Communications.

e. Approve Request for Appropriation Modification No. 161 - $2,656,421 transferring funds within the Facilities and Fleet Department budget relating to Security Management Project 263-SM20009 "FY20 Video Surveillance Upgrades."

f. Award Contract to CelPlan Technologies, Inc., in the amount of $1,617,028 for projects SM19003, SM19005, SM19007, and SM19008 with a construction time of 300 calendar days.

g. Approve encumbrance of $181,500 as an allowance for the project at Medical Examiner/Coroner (MEC) Office (SM19004), which will be issued as a change order after the Video Camera policy for the MEC Office is approved.

h. Approve encumbrance of $350,000 as Supplemental Work Allowance for a total encumbered amount of $2,148,528.

i. Authorize the County Executive, or designee, as the Owner's Authorized Representative, with authority to issue Change Orders, as necessary, consistent with Public Contract Code section 20142.

j. Ratify Addendum to Bid Documents Nos. 1 through 5 which modified or clarified the Bid Documents in response to contractor questions.

18. Consider items previously removed from the Consent Calendar.

19. Announcement prior to recess to closed session.

20. Closed Session Items.

21. Receive report from County Counsel on legal issues and Closed Session.

22. Adjourn. (See Item No. 4)

**Consent Calendar** - Items will be considered under Item No. 7. Items removed from the Consent Calendar will be considered at the end of the regular agenda.

23. Minutes Approval:

   a. Approve minutes of the March 24, 2020 Regular Meeting.

24. Approve First Amendment to Agreement with Alum Rock Counseling Center relating to providing Parent Advocate Services increasing the maximum contract amount by
$70,050 from $280,198 to $350,248 with no change to the term of the Agreement, that has been reviewed and approved by County Counsel as to form and legality. (ID# 100629)

**Santa Clara Valley Health and Hospital System**

25. Ratify the administrative transfer between funds of one Nuclear Medicine Technologist position from the Saint Louise Regional Hospital Enterprise Fund to the O'Connor Hospital Enterprise Fund. (ID# 100959)

26. Adoption of Salary Ordinance No. NS-5.20.109 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees deleting one Application Administrator position and adding one Senior Management Analyst or Management Analyst position in Santa Clara Valley Medical Center. (ID# 100805)
   - Introduce, waive reading, and preliminarily adopt on April 7, 2020.
   - Adopt (Final) on April 21, 2020.

27. Approve Request for Appropriation Modification No. 175 - $1,003,808 transferring funds within the Valley Health Plan budget relating to position adjustments due to increased enrollment and projected expansion of services. (ID# 100308)

28. Adoption of Salary Ordinance No. NS-5.20.106 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees deleting one Coder II or Coder I position and adding two Traffic Signal Systems Supervisor positions, four Management Analyst or Associate Management Analyst positions, one Medical Social Worker II or Medical Social Worker I position, one Pharmacist Specialist position, one Pharmacy Data Specialist - Valley Health Plan position, one Professional Coding Analyst position, two Program Manager II positions, two Program Manager III positions, four Senior Management Analyst or Management Analyst positions, one Social Media/Internet Communications Specialist position, seven Utilization Review Coordinator-VHP positions, and four VHP Member Services Representative positions in Valley Health Plan. (ID# 100309)
   - Introduce, waive reading, and preliminarily adopt on April 7, 2020.
   - Adopt (Final) on April 21, 2020.

**Employee Services Agency**

29. Approve job specification and amend Classification Plan to add classification of Traffic Signal Systems Supervisor. (ID# 100918)

30. Adoption of Salary Ordinance No. NS-5.20.105 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees deleting one Electrical Systems Supervisor position and adding two Traffic Signal Systems Supervisor
positions in the Roads Department and amending the Salary Schedule to abolish the
classification of Electrical Systems Supervisor and add the classification of Traffic
Signal Systems Supervisor.  (ID# 100891)

• Introduce, waive reading, and preliminarily adopt on April 7, 2020.
• Adopt (Final) on April 21, 2020.

31. Approve job specification and amend Classification Plan to add classification of
California Children's Services Medical Director.  (ID# 100944)

32. Adoption of Executive Leadership Salary Ordinance No. NS-20.19.05 amending Santa
Clara County Executive Leadership Salary Ordinance No. NS-20.19 relating to
compensation of employees adding one California Children's Services Medical Director
position in the Santa Clara Valley Health and Hospital System, Public Health
Department, and amending Exhibit A of Executive Leadership Salary Ordinance No.
NS-20.19 to add the classification of California Children's Services Medical Director.
(ID# 100949)

• Introduce, waive reading, and preliminarily adopt on April 7, 2020.
• Adopt (Final) on April 21, 2020.

33. Approve Tentative Agreement with the County Employees Management Association,
Operating Engineers Local No. 3, American Federation of Labor - Congress of
Industrial Organizations for a Successor Labor Agreement for period April 6, 2020
through June 23, 2024, including equivalent applicable terms for unrepresented
confidential administrative employees and related coded and uncoded classifications.
(ID# 100967)

34. Adoption of Salary Ordinance No. NS-5.20.107 amending Santa Clara County Salary
Ordinance No. NS-5.20 relating to compensation of employees adjusting salaries for
classifications represented by the County Employees Management Association,
Operating Engineers Local No. 3, American Federation of Labor - Congress of
Industrial Organizations providing for two three-percent general wage increases and
various salary realignments.  (ID# 100995)

• Introduce, waive reading, and preliminarily adopt on April 7, 2020.
• Adopt (Final) on April 21, 2020.

35. Approve Tentative Agreement with the Santa Clara County Probation Peace Officers'
Union, Local 1587, American Federation of State, County, and Municipal Employees
for a Successor Labor Agreement for period May 4, 2020 through October 27, 2024.
(ID# 100981)
36. Adoption of Salary Ordinance No. NS-5.20.108 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adjusting salaries for classifications represented by the Santa Clara County Probation Peace Officers' Union, Local 1587, American Federation of State, County, and Municipal Employees, providing for a three-percent general wage increase and a 0.83 percent realignment. (ID# 100996)
   • Introduce, waive reading, and preliminarily adopt on April 7, 2020.
   • Adopt (Final) on April 21, 2020.

37. Consider the following meeting attendance reports:
   a. Receive report from Supervisorial District One relating to meetings attended through April 7, 2020. (ID# 100994)
   b. Receive report from Supervisorial District Two relating to meetings attended through April 6, 2020. (ID# 101005)
   c. Receive report from Supervisorial District Three relating to meetings attended through April 7, 2020. (ID# 100992)
   d. Receive report from Supervisorial District Four relating to meetings attended through April 3, 2020. (ID# 100977)
   e. Receive report from Supervisorial District Five relating to meetings attended through March 27, 2020. (ID# 100976)

38. Held from January 28, 2020 (Item No. 25): Receive report relating to progress on the development and implementation of a Pay Equity Strategic Plan for the County of Santa Clara. (ID# 100618)

   Possible action:
   a. Approve Request for Appropriation Modification No. 188 - $1,000,000 transferring funds from the General Fund Contingency Reserve to the Office of the County Executive budget relating to funding for the Silicon Valley Community Foundation to support the COVID-19 Coronavirus Nonprofit Support Fund. (4/5 Vote)
   b. Receive report relating to indirect rates of nonprofit contracted agencies.

g. Patricia Hart, Office Management Coordinator, Santa Clara Valley Health and Hospital System.

h. Wayne Heskett, Vector Control Technician II, Consumer and Environmental Protection Agency.

i. Jeffrey Garcia, Park Maintenance Worker II, Department of Parks and Recreation.

#### Department of Planning and Development

58. Approve Fourth Amendment to Agreement with Metropolitan Planning Group relating to planning/land use management and review consultant services to process Stanford Community Plan amendments, increasing the maximum contract amount by $129,888 from $1,276,952 to $1,406,840 and extending the agreement for a 12-month period through March 31, 2021, that has been reviewed and approved by County Counsel as to form and legality. (ID# 100735)
Parks and Recreation Department

59. Consider recommendations relating to the pay station program in Santa Clara County Parks. (ID# 100299)

Possible action:

a. Approve Second Amendment to Agreement with Caracal Enterprises, LLC, dba VenTek International, relating to providing pay station services in County parks increasing the maximum contract amount by $250,000 from $700,000 to $950,000, and extending the agreement for a 24-month period through June 30, 2022, that has been reviewed and approved by County Counsel as to form and legality. An exception to Board of Supervisors Policy 5.4.5.4, Length of Term of Contracts, has been approved by the Office of Countywide Contracting Management.

b. Approve Fourth Amendment to Agreement with Urban Park Concessionaires relating to providing service and maintenance of automated pay stations in County parks increasing the maximum contract amount by $500,000 from $1,948,360 to $2,448,360, and extending the agreement for a 24-month period through June 30, 2022, that has been reviewed and approved by County Counsel as to form and legality. An exception to Board of Supervisors Policy 5.4.5.4, Length of Term of Contracts, has been approved by the Office of Countywide Contracting Management.

Facilities and Fleet Department

60. Receive report from the Facilities and Fleet Department relating to Emergency Procurement to replace the deaerator tank and boilers at the Elmwood Correctional Facility, the Main Jail Intake Gate, and the Crime Lab Exhaust Fan. (ID# 100819)

61. Consider recommendations relating to Facilities and Fleet Department (FAF) Job Order Contracts (JOCs). (ID# 99099)

Possible action:

a. Approve the Project, adopt Project Manual, authorize advertisement of Contract Documents for JOC-FAF-2020-01, and direct the Clerk of the Board to open bids on Thursday, May 7, 2020 at 2:00 p.m. in the Office of the Clerk of the Board of Supervisors.

b. Approve the Project, adopt Project Manual, authorize advertisement of Contract Documents for JOC-FAF-2020-02, and direct the Clerk of the Board to open bids on Thursday, May 14, 2020 at 2:00 p.m. in the Office of the Clerk of the Board of Supervisors.

c. Authorize the County Executive, or designee to make clarifications and/or changes, and issue addenda as necessary to the Project Manual and Contract Documents, and/or the advertisement, including the timing of receipt of bids.

**Final Adoption of Ordinances**

63. Adoption of Salary Ordinance No. NS-5.20.98 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees amending the Salary Schedule to increase the salary of the Communicable Disease Investigator by ten percent and to add the classification of Senior Communicable Disease Investigator. (ID# 100757)
   - Introduce, waive reading, and preliminarily adopt on March 24, 2020.
   - Adopt (Final) on April 7, 2020.

64. Adoption of Salary Ordinance No. NS-5.20.99 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adjusting the salaries of unrepresented Confidential Clerical classifications providing for various salary realignments. (ID# 100794)
   - Introduce, waive reading, and preliminarily adopt on March 24, 2020.
   - Adopt (Final) on April 7, 2020.

65. Adoption of Salary Ordinance No. NS-5.20.100 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adding one Attorney IV-County Counsel or Attorney III-County Counsel or Attorney II-County Counsel or Attorney I-County Counsel position, one Program Manager II position, and one Senior Paralegal or Paralegal position in the Office of the County Counsel. (ID# 100713)
   - Introduce, waive reading, and preliminarily adopt on March 24, 2020.
   - Adopt (Final) on April 7, 2020.

66. Adoption of Salary Ordinance No. NS-5.20.101 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adding one Attorney IV-District Attorney or Attorney III-District Attorney or Attorney II-District Attorney or Attorney I-District Attorney position and one Criminal Investigator II or Criminal Investigator I position in the Office of the District Attorney. (ID# 100765)
   - Introduce, waive reading, and preliminarily adopt on March 24, 2020.
   - Adopt (Final) on April 7, 2020.

67. Adoption of Salary Ordinance No. NS-5.20.104 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees adjusting salaries for employees represented by Santa Clara County Engineers and Architects Association, IFPTE Local 21 AFL-CIO (SCCEAA) providing for a three percent general wage increase, a 1.5 percent realignment for all classifications represented by SCCEAA, and
an additional four percent realignment for the classification of Architectural Plans Examiner. (ID# 100896)

- Introduce, waive reading, and preliminarily adopt on March 24, 2020.
- Adopt (Final) on April 7, 2020.

68. Held from February 25, 2020 (Item No. 60): Adoption of Ordinance No. NS-300.940 adding Section A20-2.1 of Chapter I of Division A20 of the Santa Clara County Ordinance Code relating to Sheriff’s Authority to Appoint Reserve Deputy Sheriffs. (ID# 100423)

- Introduce, waive reading, and preliminarily adopt on March 24, 2020.
- Adopt (Final) on April 7, 2020.

**Final Adoption of Ordinances - Central Fire Protection District**

69. Adoption of Salary Ordinance No. CFPD-2020-4 amending Santa Clara County Central Fire Protection District Salary Ordinance No. CFPD-2020-1 adding the classification of Firefighter – Voluntary Reduced Rank before July 31, 2020; and deleting 165 Firefighter/Engineer or Firefighter or Firefighter Trainee positions and adding 165 Firefighter/Engineer or Firefighter or Firefighter – Voluntary Reduced Rank before July 31, 2020 or Firefighter Trainee positions. (ID# 100785)

- Introduce, waive reading, and preliminarily adopt on March 24, 2020.
- Adopt (Final) on April 7, 2020.

**Final Adoption of Ordinances - South Santa Clara County Fire District**

70. Adoption of Ordinance No. SoSCCFD-2020.1 amending Division A of the South Santa Clara County Fire District Ordinance Code adopting by reference Division B7 of the County of Santa Clara Ordinance Code, as recently amended, with certain amendments to address location conditions, as the District Fire Code. (ID# 100350)

- Introduce, waive reading, and preliminarily adopt on March 24, 2020.
- Adopt (Final) on April 7, 2020.
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Mike Wasserman, Supervisor
SUBJECT: Invocation

RECOMMENDED ACTION
Invocation by Inspirational TEDx Speaker, Venus Jones. (Wasserman)
DATE: April 7, 2020

TO: Board of Supervisors

FROM: Cindy Chavez, Supervisor

SUBJECT: Adjourn for Reverend Dr. Joseph Lowery

RECOMMENDED ACTION
Adjourn in honor and memory of Reverend Dr. Joseph Lowery. (Chavez)

BACKGROUND
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Cindy Chavez, Supervisor
       Dave Cortese, Supervisor
SUBJECT: Adjourn for Santa Clara County COVID-19 Victims

RECOMMENDED ACTION
Adjourn in honor and memory of residents of Santa Clara County who have lost their lives to the COVID-19 Virus. (Chavez/Cortese)

BACKGROUND
It is important that we recognize, reflect, and pause to remember and mourn the residents of Santa Clara County whom we have lost to the COVID-19 virus.
DATE: April 7, 2020

TO: Board of Supervisors

FROM: Cindy Chavez, Supervisor
       Susan Ellenberg, Supervisor

SUBJECT: Coronavirus COVID-19 Reporting of Information to the Board of Supervisors

RECOMMENDED ACTION

Consider recommendations relating to the regular reporting of necessary information to the Board of Supervisors regarding the status of COVID-19 and the County response. (Chavez/Ellenberg)

Possible action:

   a. Discuss the form, frequency and components of a regular report to the Board from Administration including information from the Emergency Operations Center (EOC) relating to the status of COVID-19 and the County response.

   b. Provide direction to Administration regarding provision of regular reports.

REASONS FOR RECOMMENDATION

The provision of timely, accurate, and comprehensive information to the Board of Supervisors by the County Executive and the EOC regarding the COVID-19 crisis is critical in order for Board members to fulfill our constitutional responsibilities. In order for the Board of Supervisors to advise and oversee the work of the County Executive and other Board appointees during this crisis, information must be communicated in a consistent and effective manner by the Administration, the Public Health Department, and the EOC. Board members have a responsibility to the public to communicate effectively and build trust during this time of crisis. We have the capacity to strengthen the communications function of the EOC by pushing content out using our existing channels but doing so effectively relies on the Administration communicating accurate information on a regular basis. In addition, Board members can use our professional and political networks to aid County responses and strengthen the response both to the direct public health crisis and the collateral and severe economic consequences that many in our County are experiencing.
Again, in order to our jobs well and to the standard the public rightly imposes upon us, we must have complete, accurate information regarding a variety of factors and data sets, included but not limited to:

1. **Detailed information about capacity at every hospital in the County**: number of positive case admissions, number of beds/Intensive Care Unit (ICU beds occupied vis-a-vis total number of beds available, number of deaths, ventilator capacity, availability/need for Personal Protective Equipment (PPE)).

2. **Detailed information about testing**: number of tests administered by each testing entity, reports of both positive and negative results, strategy to increase testing, explanation of barriers/challenging to testing. Important to note how we will determine whether a slowed increase in number of cases suggests that we are ahead of the virus or still behind in testing.

3. **Detailed information about objective of SIP beyond “flattening the curve”**: what indicators should we be looking for to signal a staged reversal of Shelter in Place (SIP) order? What does success look like? This information is critical to continued observance of the SIP order - the public must understand what we are looking for and how and under what circumstances (as opposed to when) we begin a return to normalcy.

4. **Budgetary information regarding expenditures to date to address the COVID-19 crisis**, known or expected future expenditures, and progress in preparing and submitting reimbursement documentation to the state and federal government.

5. **Status of County responses and actions outside the EOC scope especially by the Social Services Agency**: including but not limited to: Supplemental Nutrition Assistance Program (SNAP) application volume and outreach, General Assistance application volume and outreach, and Health Insurance Enrollment Application volume and outreach.
DATE: April 7, 2020

TO: Board of Supervisors

FROM: Dave Cortese, Supervisor

SUBJECT: Establishing a Temporary Shelter Site

RECOMMENDED ACTION

Approve referral to Administration to report to the Board on April 21, 2020 with options for consideration relating to establishing a temporary shelter program to be located at the County-owned project site in Milpitas adjacent to Piercey Honda, with special attention paid to addressing the needs of the unhoused community in light of the COVID-19 public health emergency. (Cortese)

FISCAL IMPLICATIONS

No significant fiscal impact for the report back to the Board of Supervisors. If the Board directs the Administration to proceed with establishing a program at this site, the Administration would return to the Board to request budget modifications to design and plan the site.

REASONS FOR RECOMMENDATION

Our unhoused population are among the most vulnerable to the widespread outbreak of COVID-19 in Santa Clara County. The unhoused are dispersed in a decentralized manner throughout the county and are experiencing greater difficulty in taking preventative action including social distancing and isolation.

On March 28, 2020, following the guidance of public health experts, the County announced a goal of immediately setting up thousands of shelter beds across the County in order to prevent the spread of COVID-19.

On March 27, 2020, Supervisor Dave Cortese sent an Official Memo to Santa Clara County Chief Executive Jeff Smith to call for the immediate deployment of Santa Clara County’s
Paramedic and Emergency Ambulance teams at all homeless encampments in the County in cooperation and coordination with our community’s homeless advocates and providers.

The County is working to provide basic needs, outreach, and mobile healthcare teams to our unhoused residents to protect them from COVID-19. At the same time, the County is currently identifying and expanding temporary shelter capacity and places for our unhoused to isolate if necessary. The County needs to identify immediate shelter site options to protect not only our unhoused population, but also our broader population and our health care systems that are already in high demand. Temporary amenities to be contained within this site should include showers, hygiene kits, medical supplies, garbage dispensers and washers and dryers.

Potential shelter types that should be considered in this staff report include mobile homes, recreational vehicles, pallet shelters, and movable tiny homes.

**BACKGROUND**

The 2019 Homeless Census and Survey stated that there are nearly 9,700 homeless men, women and children in Santa Clara County on any given night. Of this count, 82% were estimated to be unsheltered. This was an increase from the nearly 7,400 homeless, of which 74% were unsheltered, that was estimated in the 2017 Homeless Census. This trend is prevalent across the Bay Area, with Alameda County reporting a 44% increase in their homeless count and San Francisco County reporting an 18% increase.

Supervisor Dave Cortese developed and hosted the Santa Clara County Community Summit on Homelessness on September 21, 2019. The Board of Supervisors voted unanimously on January 28, 2020 to approve to move forward with initiatives that came out of the Summit that drew 240 participants, including 60 unhoused residents. The report from County of Santa Clara Valley Health and Hospital System relating to the Summit on Homelessness noted that many participants mentioned temporary shelter sites as part of the solution to homelessness. Recommendations from the report included creating communities with tiny homes with on-site services.

In light of the current public health crisis, we must do everything in our power to identify temporary shelter sites for our unhoused community. In the past, the County has had successful partnerships with community-based organizations that have managed and operated shelter sites through contracts with the County. Abode Services, for instance, has been working with the County since 2009. Other successful partnerships have been with Amigos de Guadalupe and Casa de Clara Catholic Worker.
**Status of Site**

This site is a 6.46-acre property near the Elmwood Correctional Facility just east of Interstate 880 and adjacent to Piercey Honda. This site has been considered by the Board of Supervisors in the past as a potential site for temporary housing. The parcel is seen as a site suitable for temporary shelter because it is currently void of activity and separated from neighboring activity through a concrete wall with pedestrian access available through South Abbott Avenue.

Public transit, including buses and light rail are easily accessible by foot or bicycle and the nearest VTA station is approximately 1.5 miles away. Milpitas Civic Center is 1.7 miles away.

**Previous Cost Estimates**

Attached to this referral are a Feasibility Study, Site Plan, Cost Model, and Conceptual Design documents that were prepared in March of 2019 for a potential tiny home community of 30 homes, along with a modular community building at the referenced site.

- Feasibility Study (PDF)
Every two years, during the last 10 days of January, communities across the country conduct comprehensive counts of the local homeless populations in order to measure the prevalence of homelessness in each local Continuum of Care.

The 2019 Santa Clara County Point-in-Time Count was a community-wide effort conducted on January 29th and 30th, 2019. In the weeks following the street count, a survey was administered to 1,335 unsheltered and sheltered individuals experiencing homelessness in order to profile their experience and characteristics.

**Census Population: Longitudinal Trend**

- 2007: 7,202
- 2009: 7,086
- 2011: 7,067
- 2013: 7,631
- 2015: 6,556
- 2017: 7,394
- 2019: 9,706

**2019 Sheltered/ Unsheltered Population**

- 18% Sheltered
  - n=1,784
- 82% Unsheltered
  - n=7,922

**Subpopulation Data**

- Chronically Homeless | 2,470 Individuals
  - 15% Sheltered
  - 85% Unsheltered
- Veterans | 653 Individuals
  - 32% Sheltered
  - 68% Unsheltered
- Families | 269 Families with 921 Members
  - 76% Sheltered
  - 24% Unsheltered
- Unaccompanied Youth & Young Adults | 1,876 Individuals
  - 5% Sheltered
  - 95% Unsheltered

**Residence Prior to Homelessness**

- 81% Santa Clara County
- 8% Under 18
- 17% 18-24
- 75% 25+

**Gender**

- 62% Male
- 36% Female
- 2% Transgender

**Sexual Orientation**

- 87% Straight
- 6% Bisexual
- 3% Lesbian
- 2% Gay
- 2% Other

**Race**

- 44% White
- 24% Multi-racial
- 19% Black
- 8% American Indian or Alaskan Native

**Ethnicity**

- 43% Latino/Hispanic

**Foster Care**

- 19% of survey respondents have been in the foster system.

**Length of Time in Santa Clara County**

- 14% < 1 Year
- 17% 1-4 Years
- 12% 5-9 Years
- 57% 10 Years+

**Justice System Involvement**

- 27% of survey respondents spent one or more nights in jail/prison/juvenile hall in the past year.

**Current Accommodation**

- 34% Outdoors/Streets/Parks/Encampments
- 22% Shelter
- 18% Vehicle
- 13% Structure not Meant for Habitation
- 13% Other
**Subpopulation Definitions**

**Chronically Homeless**
An individual with one or more disabling conditions or a family with a head of household with a disabling condition who:
- Has been continuously homeless for 1 year or more and/or;
- Has experienced 4 or more episodes of homelessness within the past 3 years.

**Veterans**
Persons who have served on active duty in the Armed Forces of the United States. This does not include inactive military reserves or the National Guard unless the person was called up to active duty.

**Families**
A household with at least one adult member (persons 18 or older) and at least one child member (persons under 18).

**Unaccompanied Youth & Young Adults**
Youth under the age of 18 and young adults between the ages of 18 and 24 years old (TAY) who are experiencing homelessness and living without a parent or legal guardian.

---

**Services and Assistance**
70% of survey respondents reported receiving benefits.

---

**Self Reported Health**
Current health conditions that may affect the housing stability or employment of those experiencing homelessness.

- 42% Psychiatric/Emotional Conditions
- 35% Alcohol & Drug Use
- 33% Post-Traumatic Stress Disorder
- 24% Chronic Health Problems
- 24% Physical Disability
- 10% Traumatic Brain Injury
- 2% HIV/AIDS Related Illness

A disabling condition is defined by HUD as a developmental disability, HIV/AIDS, or a long-term physical or mental impairment that impacts a person's ability to live independently, but could be improved with stable housing.

---

**Disabling Conditions**
45% of survey respondents reported having at least one disabling condition.

---

**First Episode of Homelessness**
36% of survey respondents indicated their current episode of homelessness was their first.

**Interest in Permanent Housing**
89% of survey respondents said yes when asked if they would accept affordable permanent housing if it became available soon.

---

**Primary Event or Condition That Led to Homelessness**
Top 6 Responses*

- 30% Lost Job
- 22% Alcohol or Drug Use
- 15% Eviction
- 14% Divorce/Seperation/Breakup
- 13% Argument with Family/Friend
- 11% Incarceration

---

**Reasons for Not Receiving Any Government Assistance**
Top 6 Responses*

- 37% Don't Want Government Assistance
- 26% Don't Think I'm Eligible
- 23% No Permanent Address
- 22% No ID
- 14% Never Applied
- 8% Benefits Were Cut Off

---

**Services Currently Accessing**
Top 6 Responses*

- 73% Meal Services
- 36% Bus Passes

- 12% Outreach Services
- 11% Job/Employment Services

---

**Obstacles to Permanent Housing**
66% Couldn’t Afford Rent
56% No Job/Income
40% No Housing Available
35% No Money/Moving Cost

---

**Duration of Current Episode of Homelessness**
6% 30 Days or Less
27% 1-11 Months
67% 1 Year or More

---

* Multiple response question, results may not add up to 100%.
△ Only displaying top responses, all response data will be available in full report.
★ Sourced from census data rather than survey data.

Note: Some percentages have been rounded so total percentage will equal 100%.

The complete comprehensive report includes a more detailed profile of the characteristics of those experiencing homelessness in Santa Clara County is available here: [https://bit.ly/2MmRg3](https://bit.ly/2MmRg3)

Attachment E: Summit Solution Recommendations

Summit Solution Recommendations

- County of Santa Clara Task Force focused on immediate, short-term, transitional housing.
- Expand the SCC Behavioral Health Services Department’s Mobile Crisis Response Team.
- Provide sharps containers and lockers for the unhoused to keep their belongings.
- Fund more portable showers, portable laundry services, trash cans, and portable toilets for the unhoused.
- Provide more 24/7 safe parking options.
- Streamline the permit process at the County of Santa Clara to allow more ADU’s.
- Create ADU/Tiny Home Communities with Services on site.
- Offer grant to smaller Community Based Organizations who are unable to compete
- Increase funding for more mental health workers and drug and alcohol addiction counselors in the jails.
- Purchase a mobile office space trailer to provide privacy during intake assessments and addiction counseling at noiseless encampments.
- Provide cell phones and chargers (solar charger option)
- Develop materials to educate the public about the diverse experiences of homelessness, successful models and positive stories
- Outreach strategies about homeless services and resource materials in effective settings (buses, clinics etc.)
- Engage individuals who are unhoused or formerly homeless in existing or new stakeholder groups focusing upon the issue of homelessness
- Evaluate the current state of homeless prevention resources to determine if additional resources are needed

PROJECT DESCRIPTION

The project consists of site preparation and development of a tiny home community of 30 homes, along with a modular community building.

Prefabricated tiny home budgets and modular building budget provided by the Architect.

BASIS FOR PRICING

This estimate reflects the fair construction value for this project and should not be construed as a prediction of low bid. Prices are based on local prevailing wage construction costs at the time the estimate was prepared. Pricing assumes a procurement process with competitive bidding for all sub trades of the construction work, which is to mean a minimum of 3 bids for all subcontractors and materials/equipment suppliers. If fewer bids are solicited or received, prices can be expected to be higher.

Subcontractor's markups have been included in each line item unit price. Markups cover the cost of field overhead, home office overhead and subcontractor's profit. Subcontractor's markups typically range from 15% to 25% of the unit price depending on market conditions.

General Contractor's/Construction Manager's Site Requirement costs are calculated on a percentage basis. General Contractor's/Construction Manager's Jobsite Management costs are also calculated on a percentage basis.

<table>
<thead>
<tr>
<th>Site Requirements</th>

</tbody>
</table>

| Fee (G.C. Profit)  | 5.0%        |

Unless identified otherwise, the cost of such items as overtime, shift premiums and construction phasing are not included in the line item unit price.

This cost estimate is based on standard industry practice, professional experience and knowledge of the local construction market costs. TBD Consultants have no control over the material and labor costs, contractors methods of establishing prices or the market and bidding conditions at the time of bid. Therefore TBD Consultants do not guarantee that the bids received will not vary from this cost estimate.
BASIS OF ESTIMATE

CONTINGENCY

Design Contingency 10.0%

The Design Contingency is carried to cover scope that lacks definition and scope that is anticipated to be added to the Design. As the Design becomes more complete the Design Contingency will reduce.

Construction Contingency Excluded Carried else where in owners budget

The Construction Contingency is carried to cover the unforeseen during construction execution and Risks that do not currently have mitigation plans. As Risks are mitigated, Construction Contingency can be reduced, but should not be eliminated.

An owners contingency has not been included in this construction cost estimate, but it is advised that the owner carry additional contingency to cover scope change, bidding conditions, claims and delays.

(*) Includes: Subcontractor Markups, Site Requirements, Jobsite Management, Insurance & Bonding, and Contractor Fee.
Assumptions:

- Items 4, 9 and 10 and start date of 38 & 39 dependent on minimal review and approval time needed by County. Actual timeline may need to be adjusted based on County purchasing protocols.
- Item 14 dependent upon direction provided in person or via web meeting same day.
- Item 23 and 24 based upon timelines provided by Facilities and Fleets Department.
- Items 26-31 based upon the assumption project would bid prior to permit issuance resulting in added risk to County if scope is revised during plan review process.
- Item 37 based upon construction duration estimate from BKF Engineers for site improvements reflected in cost estimate.
- Item 38 based upon estimate provided at kickoff meeting with FAF, OSH and HHS.

7. Preliminary Title Report
Lessons Learned from Hope Village

- Structures need to be sturdy, and the site needs some improvements and access to utilities.

Hope Village is made up of individual tents for sleeping and communal tents for food and supply storage, food preparation, meal service, and community congregating. Since the establishment of Hope Village, winds have impacted and blown over the communal tents. Clients have stated that they’ve been cold overnight sleeping in tents. Organizers have mentioned that, “tents are in danger of flooding when rain is plentiful because the ground is hard and water pools,” as well as the need for basic utilities such as electricity and potable water. Addressing these concerns and being more intentional about the preparation of a site would contribute to more secure and humane living conditions.

- A new village may be more successful if it is not sited at a location that is already encamped.

Prior to the County leasing the Ruff Drive site from the City of San Jose, approximately 30 people were encamped on or near the City-owned parcel. In addition, several other individuals were camping or staying in vehicles in the area. Hope Village established admittance criteria and screening that many of the existing campers could not meet. Because the existing campers were not welcomed into Hope Village, a tension developed between the campers and Hope Village.

In addition, because the City of San Jose had not conducted recent abatements in the area, and due to the significant public attention on Hope Village, word spread among unsheltered homeless people that the area immediately adjacent to Hope Village and the nearby areas along the Guadalupe River was a safe zone from encampment abatement. As a result, the population of camped homeless people in the immediate area of Hope Village appears to have doubled. This increase in population has resulted in overcrowding, a more chaotic environment, and concerns from law enforcement.

The combination of the early tension and the more chaotic environment has led to concerns for safety and security. The concerns are so heightened that the City of San Jose plans to abate the surrounding campers and nearby areas in mid-January.

- It would be advantageous for the County to vet, contract with and pay an experienced community-based organization to manage the site.

Office of Supportive Housing (OSH) staff have some concerns with the current operator’s approach to Hope Village. Multiple requests for a management plan, grievance procedure, and
some other documents required by the service agreement between the operator and the County have gone unsatisfied. The admittance philosophy appears to be in conflict with the philosophies implemented in the Supportive Housing System. It is unclear whether clients are receiving assistance with long-term housing plans.

Hiring a paid site operator would allow the County greater leverage in implementing a temporary housing program that is more integral to the Supportive Housing System and ensures a higher level of service for the people being served. The County should seek an operator with experience in running this type of residential occupancy situation and that would operate in partnership with the Supportive Housing System. In addition, the operator should provide clients with a role in determining the culture of the village but should not be dependent on unpaid clients to staff the site as a condition for residing on site.

Proposed Program and Site Requirements

1. Target Population
   a. 20 to 30 single-person or two-person households
   b. Clients staying in unsheltered situations would be given priority
   c. Approximately half of the households would be Permanent Supportive Housing or Rapid Rehousing clients in the housing search process or waiting for a development to open and would use the transitional village as Interim Housing
   d. Approximately half of the households would be people who have been identified through the Coordinated Assessment System (CAS) as needing minimal intervention, or who have a CAS score that would be unlikely to result in a referral for housing within 6 months

2. Housing Accommodations
   a. OSH recommends 1 tiny home on wheels for each household. Self-contained units would allow for maximum flexibility if the site is not permanent. Tiny homes could be serviced (septic dumping and water tank filling) by a mobile service, and may not need to plug in to a prepared site or the regular sewer system. In addition, it would provide the clients with more independence, which most clients report wanting. Finally, for clients who have been living unsheltered for years and are preparing to move into an apartment, a tiny home would provide an opportunity for clients to reacclimate to living indoors while not being as enclosing as directly moving into a larger building.
   b. Similar to the prototype tiny home in which the County invested, the tiny homes should include:
i. Sleeping area or convertible sleeping couch (similar to some RV setups)
ii. Food preparation area with small refrigerator, microwave, cooktop, sink (prototype does not have microwave or cooktop, but it is recommended by OSH)
iii. Small table or bar area
iv. Bathroom with toilet, shower, and sink
v. Attached outdoor storage locker

c. 25% of the tiny homes should be accessible to people who cannot climb stairs

3. Site Components

a. One or more communal structures that would include:

i. Community gathering space that could accommodate the number of residents of the transitional village for community meetings and occasional communal meals
ii. Minimal kitchen facilities to store food prepared off-site for communal meals, including a sink
iii. 1 small meeting room (to accommodate up to 4 people) for case management appointments
iv. 1 office for the on-site service coordinator
v. Workstation or operations desk for operations staff, with lockers or other lockable storage for personal belongings during a shift
vi. Restroom for use by staff and users of the communal space
vii. Laundry facilities to accommodate the number of residents of the transitional village

b. Basic amenities such as:

i. Garbage service
ii. Paved or gravel walkways
iii. External lighting
iv. Toileting area for dogs (many clients will have companion animals or pets)
v. Bike rack
vi. Parking
   1. 3 spaces for staff and visiting case managers
   2. Spaces assuming 15% of the households may have a car
vii. Wifi
viii. Security cameras

c. Design considerations:
i. The perimeter of the site should be fenced.

ii. Arranging the homes with the front doors facing a central point would create a community-minded environment. The central area should have some outdoor seating, such as benches and picnic tables.

4. Operations

a. Site would be staffed and accessible to clients 24/7.

b. The operator should seek to develop a community at the transitional village that is self-governed. The primary role of the operator’s staff would be to provide security, be a liaison for residents to address maintenance concerns, and serve in a supportive role to the residents. The operator’s staff would not be on site to govern or police the transitional village.

c. 1 “resident coordinator” onsite per shift would provide basic oversight and site security. Residents could be screened and hired to be temporary, very part-time workers to cover the mandatory lunch breaks of the operator’s staff.

d. 1.0 FTE service coordinator would provide information and referral services to clients described above in item 1.d.

e. Depending on the site, clients’ access and transportation needs would be considered. VTA transit passes, assistance obtaining/repairing bicycles, and the use of taxis or ride sharing services could be considered.

f. Operator should provide management plan, grievance process, tenancy documents, and other operational documents before opening the site.
I. Background:
Procurement Department conducted market research based on a request from the Office of Supportive Housing for mobile homes in support of the Transitional Villages for the Homeless Program. The inquiry is for 30 housing units to provide the department’s clients access to dignified, independent living arrangements.

On a parallel, there exists a project originated from the Gilroy Compassion Center (GCC) in 2015 which sponsored a Microhouse on Wheels project aimed at permanent / semi-permanent housing for clients and/or employee-volunteers of the facility. The prototype was co-designed (with Weston Miles, Architects) and built by Bill Wyrick from Los Banos RV Center at cost. This was referenced in one of the documents sent to Procurement.

II. Criteria:
An inquiry was sent to the market with the following criteria provided:

- Home on Wheels for transport flexibility. The homes could be serviced (septic and water tank filling) by a mobile service and may not need to plug in to a prepared site or sewer system.
- Home should include:
  1. sleeping area or convertible sleeping couch (1-2 people)
  2. food preparation area with small refrigerator, microwave, cooktop, sink
  3. small table or bar area
  4. bathroom with toilet, shower and sink
  5. attached outdoor storage locker
- 25% of homes should be accessible to people who cannot climb stairs.
- Must be designed/built to DMV and/or other (CA) state “mobile housing” compliance.
- Lease option.

III. Market Research:
There are three dwelling types that qualify under the criteria provided:

1. Tiny Home /Microhome on Wheels
2. Travel/Destination Trailers
3. Mobile Homes

The industry, market and products for these are diverse but deserve exploration. Examples of these three are detailed on the next page.

- Clarifications: The requirement for “transport flexibility”, is a major determinant of the type and price of the structures, and the resulting quality of the market research. The degree of mobility/transportability of the structures will determine whether it is classified as an “RV” (with DMV-type compliance required) or, as a semi-permanent structure (with residential-type standards). This also defines the dimensions of the buildings. Structural...
compliance(s) would also vary accordingly. Transport flexibility will need to be further qualified to achieve best quality results. Additionally, the broadly-defined criteria led to more design and specification questions. The most prevalent questions were for the size/dimension of the structure and the budget allocated for each unit. In the interest of expediency, we allowed vendors to interpret the requirements and relied on their expertise to present their best, most cost-effective solutions.

Below are compiled results from responsive vendors according to dwelling type.

**Tiny Home / Microhome on Wheels:**

Vendor: **Molecule Tiny Home of Santa Cruz, CA**  
Unit Cost (inclusive of Tax/Delivery): $28,000  
Timeframe of Completion per Unit: 2-3 Weeks  
Lease/Rental Option: No

Molecule Tiny Home Sample Floorplan
Vendor: **Timbercraft Tiny Home of Guntersville, AL**
Unit Cost (inclusive of Tax/Delivery): $64,500 on units 1-10, 4% discount on units 11-20, 8% discount on units 21-30.
Timeframe of Completion per Unit: 1 unit per month
Lease/Rental Option: No

Timbercraft Tiny Home Sample Floor Plan 1 (196 Sq ft)

Vendor: **Humble Handcraft of Ventura, CA**
Unit Cost (inclusive of Tax/Delivery): $60,669, Acorn Model, appliances included.
Timeframe of Completion per Unit: 1.5-2 weeks per home
Lease/Rental Option: No

Humble Handcraft 14’ Acorn Model
Vendor: **Liberty Cabins of Anderson, CA**
Unit Cost (inclusive of Tax/Delivery): $33,900
Timeframe of Completion per Unit: 2 weeks per unit
Lease/Rental Option: No

**Liberty Cabins 16’ Model**

**Travel/Destination Trailers:**

Vendor: **Best RV Truck of Turlock, CA**
Unit Cost (NOT including Tax/Delivery): Keystone Springdale $12,999
Timeframe of Completion per Unit: In Stock
Lease/Rental Option: No
Vendor: **Art Family RV of Morgan Hill, CA**
Unit Cost (exclusive of Tax/Delivery): Apex Nano 185BH or 191RBS $16,500
Timeframe of Completion per Unit: 5 weeks
Lease/Rental Option*: Yes (Monthly Rental)
  o Approximately: $1,100-$1,400/month 17’-20’ trailers
  o Approximately: $1,600/month 24’-27’ trailers

*All rentals require $1,500 refundable deposit.

Apex Nano 191RBS Floorplan

**Market Research-New Hope Village**  
*Conducted by Procurement Department for the Office of Supportive Housing*
Mobile Homes:

Vendor: **Alliance Mobile Homes Sales of Sunnyvale, CA**

Unit Cost (inclusive of Tax):
- Floorplan 1135= $39,958 + $2,000 Delivery
- Floorplan 1429= $43,724 + $2,000 Delivery

Timeframe of Completion per Unit: 14-18 weeks

Lease/Rental Option: No
Vendor: **Green Galaxy Mobile Home Sales of Santa Clara, CA**

Unit Cost* (inclusive of Tax/Delivery): Model No. APS-514 = $50,474 on units 1-10, $49,474 on units 11-20, $48,474 on units 21-30 (on orders received by 12-31-2019)

Timeframe of Completion per Unit: 8 Units per month

Lease/Rental Option: No

*estimated cost of ADA ramp = $900-$1,800/unit

---

**Floorplan APS-514**

---

*Market Research-New Hope Village*

*Conducted by Procurement Department for the Office of Supportive Housing*
Vendor: Advantage Home Sales of San Jose, CA
Unit Cost* (inclusive of Tax/Delivery): Model No. BD-80 = $88,413
Timeframe of Completion per Unit: 3 months/unit
Lease/Rental Option: No

Floorplan BD-80

BD-80 426 SQ. FT. 36'-0" x 11'-10"
On August of 2015, Bill Wyrick, proprietor of Los Baños RV Center in Los Baños, CA partnered with Weston Miles Architects of Morgan Hill, CA to design and manufacture a prototype of a compact, permanent or sub-permanent living structure. **Microhouse on Wheels (MOW)** houses seven (7) people (2 of which are children) and has complete living amenities. This prototype is now in use at the Gilroy Compassion Center (GCC) as a keystone element of its Safe Parking Program, a program where high-risk individuals (e.g. pregnant/nursing women) can use the MOW as a temporary shelter for nursing and other needs.

The proprietary design of the MOW allows for convertibility of use and functions within its space which maximizes its limited square footage. The prototype was drafted by Weston Miles as a pro-bono project and Mr. Wyrick donated his design and labor costs, pro-bono, as well. The project’s total cost was approximately $11,000 which was spent entirely on materials. This amount was allocated to GCC by the County of Santa Clara. The contract for the prototype did not go through a competitive process.

Mr. Wyrick approximates that the production model of the MOW will cost $20,000 to produce today.
IV. Summary:

Except for Green Galaxy Home Sales and Art RV, leasing/rental are not usually available.

ADA accommodations were not addressed in the responses except by Green Galaxy Mobile Home Sales who estimated ADA access ramps to cost between $900-$1800 per unit. We could probably use this as a standard across all proposals. The unit costs are estimates and will vary with any changes in requirements and design. None of the prices were negotiated.

In summary, the need for mobile housing can apparently be addressed in various ways by the market. Size/dimensions, level of mobility/transportability, permanence and other specs have to be firmly established to assess which option will best suit the needs of the County. There is a degree of customization available on the homes (less for the travel /destination trailers) that will affect the use/functionality/design of the units and ultimately the price. In general manufacturers were willing to work with the County to determine how to best address our needs.
This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards.

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 2/14/2019 at 8:24:46 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.
Code Research Summary

Title 2. Government of the State of California

Division 1. General

Chapter 7.8 Shelter Crisis

http://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?division=1.&chapter=7.8.&lawCode=GO

- 8698.4. Specific requirements for the County of Santa Clara -
  - (2) (A) (i) The city, county, or city and county, in lieu of compliance with local building approval procedures or state housing, health, habitability, planning and zoning, or safety standards, procedures, and laws, may adopt by ordinance reasonable local standards and procedures for the design, site development, and operation of homeless shelters and the structures and facilities therein, to the extent that it is determined at the time of adoption that strict compliance with state and local standards or laws in existence at the time of that adoption would in any way prevent, hinder, or delay the mitigation of the effects of the shelter crisis. The Department of Housing and Community Development shall review and approve the city’s, county’s, or city and county’s draft ordinance to ensure it addresses minimum health and safety standards. The department shall, as set forth in Section 9795, provide its findings to the Senate Committee on Transportation and Housing and the Assembly Committee on Housing and Community Development within 30 calendar days of receiving the draft ordinance.
  - (ii) During the shelter crisis, except as provided in this section, provisions of any housing, health, habitability, planning and zoning, or safety standards, procedures, or laws shall be suspended for homeless shelters, provided that the city, county, or city and county has adopted health and safety standards and procedures for homeless shelters consistent with ensuring minimal public health and safety and those standards are complied with. Landlord tenant laws codified in Sections 1941 to 1942.5, inclusive, of the Civil Code providing a cause of action for habitability or tenantability shall be suspended for homeless shelters, provided that the city, county, or city and county has adopted health and safety standards for homeless shelters and those standards are complied with. During the shelter crisis, the local and state law requirements for homeless shelters to be consistent with the local land use plans, including the general plan, shall be suspended.
  - (B) This section applies only to a public facility or homeless shelters reserved entirely for the homeless pursuant to this chapter.
  - (3) Homeless shelters constructed or allowed under this chapter shall not be subject to the Special Occupancy Parks Act (Part 2.3 (commencing with Section 18860) of Division 13 of the Health and Safety Code), the Mobilehome Parks Act (Part 2.1 (commencing with Section 18200) of Division 13 of the Health and Safety Code), or the Mobilehome
We aren’t sure if this means that the County doesn’t have to adopt an ordinance since it’s at the hierarchy as #2 above requiring the ordinance.

(4) The California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) shall not apply to actions taken by a state agency or a city, county, or city and county, to lease, convey, or encumber land owned by a city, county, or city and county, or to facilitate the lease, conveyance, or encumbrance of land owned by the local government for, or to provide financial assistance to, a homeless shelter constructed or allowed by this section.

(5) On or before July 1, 2019, the city, county, or city and county shall develop a plan to address the shelter crisis, including, but not limited to, the development of homeless shelters and permanent supportive housing, as well as onsite supportive services. The city, county, or city and county shall make the plan publicly available.

(6) On or before January 1, 2019, and annually thereafter until January 1, 2021, if the city, county, or city and county has declared a shelter crisis, the city, county, or city and county shall report all of the following to the Senate Committee on Transportation and Housing and the Assembly Committee on Housing and Community Development:

- (A) The total number of residents in homeless shelters within the city, county, or city and county.
- (B) The total number of residents who have moved from a homeless shelter into permanent supportive housing within the city, county, or city and county.
- (C) The estimated number of permanent supportive housing units.
- (D) The number of residents who have exited the system and are no longer in need of a homeless shelter or permanent supportive housing within the city, county, or city and county.
- (E) The number of new homeless shelters built pursuant to this section within the city, county, or city and county.
- (F) New actions the city, county, or city and county is taking under the declared shelter crisis to better serve the homeless population and to reduce the number of people experiencing homelessness.

(b) For purposes of this section, the following terms have the following meanings:

- (1) “Homeless shelter” means a facility with overnight sleeping accommodations, the primary purpose of which is to provide temporary shelter for the homeless that is not in existence after the declared shelter crisis. A temporary homeless shelter community may include supportive and self-sufficiency development services.
(2) “Permanent supportive housing” means housing for people who are homeless, with no limit on length of stay, and that is linked to onsite or offsite services that assist the supportive housing resident in retaining the housing, improving his or her health status, and maximizing his or her ability to live and, when possible, work in the community.

(c) This section shall remain in effect only until January 1, 2021, and as of that date is repealed.

Based on the above state legislation, it looks like the County has leeway in whether or not they want to comply with the County’s own Floodplain Ordinance below.

County of Santa Clara Floodplain Ordinance
https://www.sccgov.org/sites/dpd/PlansOrdinances/FloodPlain/Pages/FloodPlain.aspx#01

06 - Manufactured Homes, Recreational Vehicles, and Trailers in the Floodplain

- RV located in the regulated flood plain must:
  - Meet the elevation and anchoring requirements for manufactured homes; OR
  - Be on the site for fewer than 180 consecutive days; OR
  - Be fully licensed and ready for highway use (i.e. on its wheels or jacking system, attached to the site only be quick disconnect type utilities, and with no permanently attached additions.

- Recreational vehicle or trailer means a vehicle that is: (1) built on a single chassis; (2) 400 square feet or less when measured at the largest horizontal projections; (3) designed to be self-propelled or permanently towable by a light duty truck; and (4) not designed primarily for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

- Recreational Vehicle and Trailer Parks
  - If a campground or recreational vehicle park is located in the floodplain, it should have an emergency plan that specifies how flood warnings will be received and how vehicles, trailers, and occupants will be safely evacuated in the event of a flood. If there will not be sufficient warning time to ensure that recreational vehicles and trailers will be removed prior to flooding, they should either be located outside of the floodplain or installed in a manner that meets the elevation and anchoring requirements for manufactured homes.

If the County chooses to follow their Floodplain Ordinance and decides that the units do not qualify as RV’s, then the following applies.

- Manufactured Homes
  - Manufactured homes must meet the same standards as any other residential building for elevation of the first floor, use of flood damage-resistant materials below the flood protection level, and elevation or protection of utilities. The best way to meet this
requirement is to elevate the bottom of the manufactured home chassis to the flood protection elevation (see Floodplain Facts #4: Residential Structures in the Floodplain).

- Manufactured home means a structure, transportable in one or more sections that is built on a permanent chassis and designed to be used with or without a permanent foundation when connected to the required utilities. This includes older mobile homes that pre-date current manufactured home standards.

- Manufactured homes must be elevated on a permanent foundation and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement. A “permanent foundation” means more than a stack of concrete blocks. It should include a below-grade footing that is capable of resisting overturning, deep enough to account for frost depth and expected scour, and sized appropriately for the site’s soil bearing capacity. “Adequately anchored” means a system of ties, anchors, and anchoring equipment that will withstand flood and wind forces and will work in saturated soil conditions. Usually this means over-the-top or frame tie-downs in addition to standard connections to the foundation.

- If a solid perimeter foundation wall (or rigid skirting that is attached to the frame or foundation) encloses space below a manufactured home, openings are required to relieve hydrostatic loads and minimize the potential for damage to the home and its supporting foundation system (see Floodplain Facts #8: Enclosed Areas Below the Flood Protection Level). Flexible skirting or rigid skirting that is not attached to the frame or foundation does not trigger the requirement for flood vent openings, provided that the skirting does not provide structural support and will collapse under water loads without causing structural damage to the elevated home or the foundation.

- Replacement of an existing manufactured home with a new structure constitutes a substantial improvement, which means that the entire structure must comply with current elevation, construction, and anchoring requirements.

- Resource: FEMA P-85, Protecting Manufactured Homes from Floods and Other Hazards (2009)
  https://www.fema.gov/media-library/assets/documents/2574

The state legislation allows for the County to not follow the Special Occupancy Park or Mobilehome Parks and Installation. At this point, we have adjusted the site plan to comply with the Special Occupancy Park Article 7. Installations and Facilities for Unit Separation and Setback Requirements Within Parks since this is for fire safety.

Chapter 2.2 Special Occupancy Parks
https://govt.westlaw.com/calregs/Browse/Home/California/CaliforniaCodeofRegulations?guid=IC00C9E
Traditionally the community building would need to comply with Chapter 2. Mobilehome Parks and Installations, but the State Legislation specifically states that the County does not have to comply with it. We can provide further information regarding what would typically be required, if desired.
PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner’s Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.
Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.
Dated as of February 13, 2019 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

Santa Clara County

The estate or interest in the land hereinafter described or referred to covered by this Report is:

Fee Simple

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2019-2020, a lien not yet due or payable.

2. General and special taxes and assessments for the fiscal year 2018-2019 are exempt. If the exempt status is terminated an additional tax may be levied. A.P. No.: 086-05-024.

3. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

4. Rights of the City and County of San Francisco, a municipal corporation, as contained in the Final Decree of Condemnation entered in the Superior Court of the State of California, in and for the County of Santa Clara, in that certain action entitled "City and County of San Francisco, a municipal corporation, Plaintiff vs. The County of Santa Clara, et al Defendants," Case No. 75907, certified copy of which Decree were recorded December 8, 1950 in Book 2112, Page 7 of Official Records and as amended by the Amended Final Decree in Condemnation a certified copy of which recorded July 20, 1959 in Book 4486, Page 109 of Official Records, as follows:

   The right to cut any and all existing fences and to install gates therein, at such points as may be necessary for the convenience of the City in the use of parcel of real property, and in the right to protect pipes and other structures or improvements of the city by means of fences or otherwise, provided, however, that the City shall not construct any other fences upon or with respect to said parcel of real property, without the consent of the owners. If the City should damage the owners road, fences or any structures permitted under the provisions of Section 2 of the covenants contained in said Decree, the City shall at its own expense, repair such damage.

First American Title Insurance Company
5. Any claim that may exist or arise by reason of the possible encroachment of your existing structure(s) onto the lands of the City and County of San Francisco.

6. Abutter’s rights of ingress and egress to or from the highway contiguous thereto, lying adjacent to the Westerly line of said land have been relinquished in the document recorded March 02, 1953 in Book 2590, Page 33 of Official Records.

7. A waiver of any claims for damages by reason of the location, construction, landscaping or maintenance of a contiguous freeway, highway, roadway or transit facility as contained in the document recorded March 02, 1953 in Book 2590, Page 33 of Official Records.

   In Favor of: Pacific Gas and Electric Company
   Affects: as described therein

   In Favor of: Pacific Gas and Electric Company, a California corporation
   Affects: as described therein

10. Abutter’s rights of ingress and egress to or from Adjoining Freeway have been relinquished in the document recorded July 03, 1970 in Book 8975, Page 149 of Official Records.

11. The fact that the land lies within the boundaries of the Milpitas Redevelopment Project Area No. 1 Redevelopment Project Area, as disclosed by the document recorded January 12, 1977 in Book C-534, Page 1 of Official Records.

12. An easement for ingress and egress to and from the right of way or strip of land (Thompson Court) and incidental purposes, recorded October 24, 2005 as Instrument No. 18637530 of Official Records.

   In Favor of: City of Milpitas
   Affects: as described therein

   The location of the easement cannot be determined from record information.

   In Favor of: City of Milpitas
   Affects: The Southeasterly 20 feet which is adjacent to the City and County of San Francisco’s property

   In Favor of: City of Milpitas
   Affects: The Northeasterly 10 feet which is adjacent to the city street known as Thompson Court

15. Water rights, claims or title to water, whether or not shown by the public records.
16. Any facts, rights, interests or claims which would be disclosed by a correct ALTA/NSPS survey.

17. Rights of parties in possession.
ALERT - CA Senate Bill 2 imposes an additional fee of $75 up to $225 at the time of recording on certain transactions effective January 1, 2018. Please contact your First American Title representative for more information on how this may affect your closing.

1. The property covered by this report is vacant land.

2. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

None

3. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor’s parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.

4. Should this report be used to facilitate your transaction, we must be provided with the following prior to the issuance of the policy:

   A. WITH RESPECT TO A CORPORATION:
      1. A certificate of good standing of recent date issued by the Secretary of State of the corporation's state of domicile.
      2. A certificate copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
      3. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
      4. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

   B. WITH RESPECT TO A CALIFORNIA LIMITED PARTNERSHIP:
      1. A certified copy of the certificate of limited partnership (form LP-1) and any amendments thereto (form LP-2) to be recorded in the public records;
      2. A full copy of the partnership agreement and any amendments;
      3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;
      4. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
      5. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

   C. WITH RESPECT TO A FOREIGN LIMITED PARTNERSHIP:
      1. A certified copy of the application for registration, foreign limited partnership (form LP-5) and any amendments thereto (form LP-6) to be recorded in the public records;
      2. A full copy of the partnership agreement and any amendment;
      3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;

First American Title Insurance Company
4. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.

5. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

D. WITH RESPECT TO A GENERAL PARTNERSHIP:

1. A certified copy of a statement of partnership authority pursuant to Section 16303 of the California Corporation Code (form GP-1), executed by at least two partners, and a certified copy of any amendments to such statement (form GP-7), to be recorded in the public records;

2. A full copy of the partnership agreement and any amendments;

3. Requirements which the Company may impose following its review of the above material required herein and other information which the Company may require.

E. WITH RESPECT TO A LIMITED LIABILITY COMPANY:

1. A copy of its operating agreement and any amendments thereto;

2. If it is a California limited liability company, a certified copy of its articles of organization (LLC-1) and any certificate of correction (LLC-11), certificate of amendment (LLC-2), or restatement of articles of organization (LLC-10) to be recorded in the public records;

3. If it is a foreign limited liability company, a certified copy of its application for registration (LLC-5) to be recorded in the public records;

4. With respect to any deed, deed of trust, lease, subordination agreement or other document or instrument executed by such limited liability company and presented for recordation by the Company or upon which the Company is asked to rely, such document or instrument must be executed in accordance with one of the following, as appropriate:

   (i) If the limited liability company properly operates through officers appointed or elected pursuant to the terms of a written operating agreement, such documents must be executed by at least two duly elected or appointed officers, as follows: the chairman of the board, the president or any vice president, and any secretary, assistant secretary, the chief financial officer or any assistant treasurer;

   (ii) If the limited liability company properly operates through a manager or managers identified in the articles of organization and/or duly elected pursuant to the terms of a written operating agreement, such document must be executed by at least two such managers or by one manager if the limited liability company properly operates with the existence of only one manager.

5. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.

6. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

F. WITH RESPECT TO A TRUST:

1. A certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.

2. Copies of those excerpts from the original trust documents and amendments thereto which designate the trustee and confer upon the trustee the power to act in the pending transaction.

3. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

G. WITH RESPECT TO INDIVIDUALS:

1. A statement of information.

The map attached, if any, may or may not be a survey of the land depicted hereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

OF 16.41 FEET TO THE BEGINNING OF A REVERSE CURVE TO THE RIGHT HAVING A RADIUS OF 45.50
FEET; THENCE

9.) NORTHERLY ALONG SAID CURVE, THROUGH A CENTRAL ANGLE OF 114° 30' 18", A DISTANCE OF
90.93 FEET TO THE TRUE POINT OF BEGINNING.

APN: 086-05-024
NOTICE I

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier’s checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier’s checks, or certified checks whenever possible.

If you have any questions about the effect of this new law, please contact your local First American Office for more details.

NOTICE II

As of January 1, 1991, if the transaction which is the subject of this report will be a sale, you as a party to the transaction, may have certain tax reporting and withholding obligations pursuant to the state law referred to below:

In accordance with Sections 18662 and 18668 of the Revenue and Taxation Code, a buyer may be required to withhold an amount equal to three and one-third percent of the sales price in the case of the disposition of California real property interest by either:

1. A seller who is an individual with a last known street address outside of California or when the disbursement instructions authorize the proceeds be sent to a financial intermediary of the seller, OR
2. A corporate seller which has no permanent place of business in California.

The buyer may become subject to penalty for failure to withhold an amount equal to the greater of 10 percent of the amount required to be withheld or five hundred dollars ($500).

However, notwithstanding any other provision included in the California statutes referenced above, no buyer will be required to withhold any amount or be subject to penalty for failure to withhold if:

1. The sales price of the California real property conveyed does not exceed one hundred thousand dollars ($100,000), OR
2. The seller executes a written certificate, under the penalty of perjury, certifying that the seller is a resident of California, or if a corporation, has a permanent place of business in California, OR
3. The seller, who is an individual, executes a written certificate, under the penalty of perjury, that the California real property being conveyed is the seller’s principal residence (as defined in Section 1034 of the Internal Revenue Code).

The seller is subject to penalty for knowingly filing a fraudulent certificate for the purpose of avoiding the withholding requirement.

The California statutes referenced above include provisions which authorize the Franchise Tax Board to grant reduced withholding and waivers from withholding on a case-by-case basis.

The parties to this transaction should seek an attorney’s, accountant’s, or other tax specialist’s opinion concerning the effect of this law on this transaction and should not act on any statements made or omitted by the escrow or closing officer.

The Seller May Request a Waiver by Contacting:
Franchise Tax Board
Withhold at Source Unit

First American Title Insurance Company
Privacy Policy

We Are Committed to Safeguarding Customer Information
In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our parent company, The First American Corporation, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability
This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values, a copy of which can be found on our website at www.firstam.com.

Types of Information
Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information
We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies, and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers
Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security
We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American’s Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

First American Title Insurance Company
CLTA/ALTA HOMEOWNER’S POLICY OF TITLE INSURANCE (02-03-10)

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   (a) building;
   (b) zoning;
   (c) land use;
   (d) improvements on the Land;
   (e) land division; and
   (f) environmental protection.
   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   (a) that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   (b) that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   (c) that result in no loss to You; or
   (d) that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   (a) to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   (b) in streets, alleys, or waterways that touch the Land.
   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows: For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

<table>
<thead>
<tr>
<th>Your Deductible Amount</th>

ALTA RESIDENTIAL TITLE INSURANCE POLICY (6-1-87)

EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
   (a) and use
   (b) improvements on the land
   (c) and division
   (d) environmental protection
   This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date. This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
2. The right to take the land by condemning it, unless:
   (a) a notice of exercising the right appears in the public records on the Policy Date
   (b) the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking
3. Title Risks:

First American Title Insurance Company
This policy does not insure against loss or damage (and the Company will not pay costs, attorneys’ fees or expenses) that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement erected on the Land;
   iii. the subdivision of land; or
   iv. environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
   e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors’ rights laws, that the transaction creating the lien of the Insured Mortgage is
   a. a fraudulent conveyance or fraudulent transfer, or
   b. a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

**EXCEPTIONS FROM COVERAGE**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys’ fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an
accurate and complete land survey of the Land and not shown by the Public Records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

6. Any lien or right to a lien for services, labor or material not shown by the public records.

2006 ALTA OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement erected on the Land;
   iii. the subdivision of land; or
   iv. environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.

3. Defects, liens, encumbrances, adverse claims, or other matters
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not known to the Company, not recorded in the Public Records at Date of Policy, but known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.

4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   a. a fraudulent conveyance or fraudulent transfer; or
   b. a preferential transfer for any reason not stated in Covered Risk 9 of this policy.

5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:  

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

6. Any lien or right to a lien for services, labor or material not shown by the public records.

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)
EXCLUSIONS FROM COVERAGE

First American Title Insurance Company
The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement erected on the Land;
   iii. the subdivision of land; or
   iv. environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   a. a fraudulent conveyance or fraudulent transfer, or
   b. a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
DATE: April 7, 2020

TO: Board of Supervisors

FROM: Dave Cortese, Supervisor  
      Cindy Chavez, Supervisor

SUBJECT: Resolution Calling for Heightened Measures to Protect Frontline Healthcare Workers

RECOMMENDED ACTION
Approve referral to County Counsel to report to the Board with options for consideration relating to adopting a resolution that supports implementing heightened protective measures to prevent frontline healthcare workers from being exposed and later transmitting COVID-19 to other vulnerable patients. (Cortese/Chavez)

FISCAL IMPLICATIONS
There are no fiscal impacts stemming from the adoption of this resolution.

REASONS FOR RECOMMENDATION
The County of Santa Clara is currently experiencing an outbreak of the coronavirus (COVID-19) which has been deemed a global pandemic by the World Health Organization.

The Santa Clara County Board of Supervisors declared a local health emergency due to Novel Coronavirus on February 3, 2020. The Board should reaffirm their commitment to frontline healthcare workers and in-home support service providers in order to combat the spread of COVID-19 and maintain the health and safety of the healthcare professionals who risk their lives for well-being of others.

A sample resolution has been attached for staff to utilize when considering the drafting of the language within the resolution.

BACKGROUND
Our frontline healthcare workers are putting their health at risk as they continue to provide medical assistance to those who desperately need our help during the COVID-19 emergency.

As a result, these healthcare professionals are putting patients, themselves, and their families at risk since they come into close daily contact with their patients for prolonged periods of time with little to no additional personal protective equipment such as masks, gloves, and protective coveralls.

DRAFT RESOLUTION – Resolution Calling for Heightened Measures to Protect Frontline Healthcare Workers (DOCX)

ATTACHMENTS:

- Resolution Calling for Heightened Measures to Protect Frontline Healthcare Workers (PDF)
RESOLUTION NO. _____________

RESOLUTION URGING THE DEPARTMENT OF PUBLIC HEALTH AND ZUCKERBERG GENERAL HOSPITAL TO IMPLEMENT HEIGHTENED PROTECTIVE MEASURES TO PREVENT FRONTLINE HEALTHCARE WORKERS FROM BEING EXPOSED AND LATER TRANSMITTING COVID-19 TO OTHER VULNERABLE PATIENTS

WHEREAS, On February 3, 2020, the Santa Clara County Health Officer issued a Declaration of Local Health Emergency Regarding Novel Coronavirus 2019 (COVID-19) based on an imminent and proximate threat to public health from the introduction of COVID-19 in Santa Clara County, which was followed by a March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom; and

WHEREAS, The County of Santa Clara is currently experiencing an outbreak of the coronavirus (COVID-19) which has been deemed a global pandemic by the World Health Organization; and

WHEREAS, the state of California is a demonstrated leader in the fight against climate change; and

WHEREAS, Frontline healthcare workers such as doctors, nurses, paramedics, and In-Home Support Service (IHSS) providers have been the first line of defense in stopping the spread of COVID-19 often putting themselves in great risk of contracting the virus from various patients that they come into contact with every day; and

WHEREAS, Other healthcare professionals such as physical therapists, occupational therapists, and speech language pathology workers are also fearful for their health because they also come into close contact with a vulnerable set of people, like seniors or those with pre-existing health conditions; and

WHEREAS, According to the World Health Organization, as of March 21, 2020, there are 287,000 confirmed cases of COVID-19 worldwide claiming the lives of 11,900 people; and
WHEREAS, In the United States as of March 21, 2020 there are already 22,177 cases, with 278 deaths; in California there are 1,286 confirmed cases, including 539 confirmed cases in the Bay Area, and 24 confirmed deaths in California, and 646 confirmed cases in Santa Clara County; and

WHEREAS, If healthcare professionals continue to follow the regular “business as usual” practices, they will undoubtedly become vectors for spreading the disease, further burdening our healthcare system; and

WHEREAS, SEIU Local 2015 represents approximately 400,000 In-Home Supportive Services (IHSS) providers who assist low-income seniors and people with disabilities, and are advocating to request that the state take immediate direct action to support and protect the IHSS community during the COVID-19 pandemic; and

WHEREAS, Workers in the Rehabilitative Department; are tasked with caring for the most vulnerable and at-risk members of our population. This includes many patients that are over 80 years old, immune-compromised, and otherwise fragile and will not be able to fight off an infection that attacks their pulmonary systems; and

WHEREAS, Even in the midst of this crisis, these healthcare professionals have been asked to continue their daily work tasks with no additional personal protective equipment, despite nationwide directives from the Center of Disease Control (CDC) to adhere to social distancing guidelines; and

WHEREAS, As a result, these healthcare professionals are putting patients, themselves, and their families at risk since they come into close daily contact with their patients for prolonged periods of time with little to no additional personal protective equipment such as masks, gloves, and protective coveralls; and

WHEREAS, The essential job functions of providers are to break “social distancing” precautions by physically touching and facilitating the patients in movement; and

WHEREAS, If these healthcare professionals continue business as usual, they will become vectors for spreading the disease, especially if they have been given no personal protective equipment beyond taking standard precautions; and
NOW, THEREFORE, BE IT RESOLVED, The Santa Clara County Board of Supervisors reaffirms its commitment to front line healthcare workers and in-home support service providers in order to combat the spread of COVID-19 and maintain the health and safety of the healthcare professionals who risk their lives for well-being of others; and

BE IT FURTHER RESOLVED, Ensure that healthcare professionals in both the hospital and in-home support services settings are provided with sufficient protective supplies such as masks, gloves; protective coveralls, and disinfectants; and

BE IT FURTHER RESOLVED, Provide the necessary number of paid sick leave hours for these healthcare professionals to allow them to quarantine when sick, following California Department of Public Health guidelines for caregivers; and be it

BE IT FURTHER RESOLVED, That the Clerk of the Board of Supervisors, no later than 30 days after the passage of this Resolution, shall transmit copies of this Resolution to Santa Clara Valley Medical Center, Santa Clara County Department of Public Health, California Department of Public Health and to the representatives of Santa Clara County on the California State Legislature urging that they pass similar resolutions.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on ____________, 2020, by the following vote:

APPROVED AS TO FORM AND LEGALITY:

______________________________
JAMES R. WILLIAMS
County Counsel
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Cindy Chavez, Supervisor
SUBJECT: Election Access and Emergency Ballot Delivery

RECOMMENDED ACTION
Consider recommendations relating to the vote-by-mail adjustments that will be made given the COVID-19 crisis and the Emergency Ballot Delivery method for marginalized voters. (Chavez)

Possible action:

a. Approve referral to Administration and to the Office of the County Counsel to report to the Finance and Government Operations Committee on May 19, 2020 with options for consideration relating to the potential full implementation of the vote-by-mail process for the November 2020 election if necessary given the risks that the COVID-19 crisis presents.

b. Approve referral to Administration to report to the Finance and Government Operations Committee on May 19, 2020 with information and recommendations relating to potentially expanding the awareness of and access to the Emergency Ballot Delivery procedure to eligible voters and organizations serving residents more commonly known to face barriers to voting, including, but not limited to, residents who are disabled, hospitalized, incarcerated, or confined to their homes due to medical emergencies

REASONS FOR RECOMMENDATION
As the COVID-19 crisis continues, it is important that the County of Santa Clara and the Registrar of Voters (ROV) review resources and voting options to ensure everyone, and especially marginalized communities, understand the changes and options to vote.

As one of the leading regions already having implemented the Voter’s Choice Act (VCA), the County of Santa Clara currently has the mechanisms and resources in place that enabled the ROV to send vote-by-mail (VBM) ballots to all registered voters during the most recent March 3 elections. As we continue to monitor the COVID-19 crisis, it is fitting to monitor
federal and state changes that may assist the County in continuing to fully and resourcefully implement the VBM voting method. County Counsel is requested to include in its report back any information related to approval of the implementation of full Vote by Mail that would be necessary by the Secretary of State, or whether such a change would require any change in existing state legislation.

During this COVID-19 crisis, being unexpectedly confined to a hospital bed or residing in a nursing home may present a limitation and deter or prevent eligible voters from casting their ballot, which is why one doctor, Dr. Kelly Wong from Brown Alpert Medical School in Providence, Rhode Island, founded the website patientvoting.com to help patients be aware of and find options available to them to vote.¹

Currently, the ROV is unaware of which hospitals or organizations have educational tools or materials in place to inform healthcare staff about the Emergency Ballot Delivery procedure so that they can in turn inform their patients/clients who may need to vote in that manner.

This voting method is critical to our current needs as our County plans for a projected surge of hospitalizations due to the COVID-19 virus. As the sixth largest in California, our county is positioned to use healthcare facilities’ settings to educate not only patients, but also hospital staff and their administration on the Emergency Ballot Delivery procedure so they can in turn inform hospitalized patients about their options to vote.

In-Home Support Services (IHSS) providers and caregivers are another group that commonly assist elderly patients/clients that may be confined to their beds or homes. Therefore, it would also be beneficial for IHSS staff and providers to be trained to understand the Emergency Ballot Delivery procedure in order to properly assist clients who want to vote.

It is also important that the County has procedures in the County jails to educate and inform detainees of their voting options. The average daily population for the Santa Clara County Correctional facilities is approximately 3,600 inmates a day.² According to a 2019 study of state prison detainees, 93 percent of incarcerated individuals want to vote and contribute positively to their community.³

Therefore this referral seeks to ensure the County and ROV begin partnerships and gather resources to successfully carry out a countywide VBM-only method for the November elections should the COVID crisis continue such that moving to the VBM-only method were to become necessary. In addition, as numbers of hospitalized patients continue to grow, and with the full understanding that patients may face other challenges, we still want to ensure that their options and right to vote is made available to them. Therefore, this referral also asks that outreach be accomplished and educational materials and tools be available at places such as hospitals, senior assisted living facilities, the County jails, and other sites that commonly

assist a similar population so that folks who are hospitalized, disabled, confined to their homes due to a medical emergency, or detained in County jail are aware of and can make use of the Emergency Ballot Delivery procedure during elections.

It is important to note that this is the type of project that could be assigned to the many County staff who are working from home or are not currently assigned to a project during the Shelter-in-Place order.

The report to the Finance and Government Operations Committee on May 19, 2020 should include the following:

- An outline of legal obstacles for an all-mail ballot election and potential pathways to overcome those obstacles such as through legislative changes or executive order;
- An implementation plan with recommendations outlining the potential transition to a countywide vote-by-mail (VBM) only option should it become necessary for the November elections in order to reduce the risks and dangers of the COVID-19 crisis. The plan should:
  - outline outreach methods, messaging, and other mechanisms needed to ensure voter confidence to cast ballots from home, while mindful that many older voters prefer to vote in person;
  - a proposed partnerships list including but not limited to, the Secretary of State, culturally and linguistically appropriate community-based organizations, and other relevant partners that would help ensure a secure and successful move to VBM; and
  - other details as recommended by staff.
- A list of local hospitals, health clinics, senior-assisted living facilities, nursing homes and other similar sites countywide that:
  - already have procedures in place with the ROV to ensure that patients/clients are aware of their voting options; and
  - do not have procedures yet in place with the ROV, and recommendations on how to ensure that procedures are in place prior to the November 2020 elections;
- Current practices and procedures in the County jails that educate and inform detainees about their rights and opportunities to vote;
- Recommendations on who should have oversight on how and where voters’ rights and options to vote are to be posted in hospitals, health clinics, nursing homes, senior assisted living facilities, and the county jails;
- Training and/or educational opportunities for IHSS staff and providers.

As the COVID-19 virus continues to spread and voters are challenged in participating in the voting process, it is important to examine the federal stimulus bill and how it can support our efforts in outreaching and ensuring the vote-by-mail method is utilized as an effective countywide means to ensure voter confidence to cast ballots from home.
In addition, the expansion of outreach and increase in awareness, trainings, and procedures related to the Emergency Ballot Delivery procedure at hospitals, senior-assisted living facilities, nursing homes, health clinics, county jails, and other related sites will ensure that everyone eligible to vote can do so without barriers, and will educate individuals including hospital staff, families and caregivers of patients or inmates who help patients or loved ones cast their ballot.

While it is likely that the current conditions that exist as a result of the COVID-19 virus will alleviate by late summer when the November election begins to approach, it is important that the County make contingency plans related to voting. In addition, the outreach and many of the mechanisms that are typically put in place during emergencies as outlined in this referral are worthwhile considering on an ongoing basis to ensure access to voting by registered voters throughout Santa Clara County.

The referral requests that the Administration and County Counsel report back in May as the expected conditions in the fall will likely be easier to anticipate at that time.

**BACKGROUND**

Since the December 2019 outbreak of the COVID-19 virus in Wuhan, China, the infection has grown to more than 400,000 confirmed cases and more than 18,000 deaths worldwide as of March 25, 2020.\(^4\) California has 2,535 confirmed cases as of March 25, 2020.\(^5\)

On March 25, 2020, the Senate unanimously approved a $2 trillion COVID-19 economy stimulus package that intends to bolster the nation’s health care response and economy. The funding includes an Emergency Appropriation for $400 million in election assistance to help states prepare for the 2020 election cycle, including expansion of the ability to vote by mail, expanding early voting and online registration and increasing the safety of voting in-person by providing additional voting facilities and more poll-workers.

Voters are less likely to cast their ballot because of an illness or disability.\(^6\) According to the US Census Bureau in 2012, only 56.5 percent of voting-age Americans casted a ballot.\(^7\) For those who didn’t, illness and disability were major contributing factors. More recently in 2016, among the estimated 18.9 million registered nonvoters in America, 2.2 million stated they did not vote because of an illness or disability.\(^8\)

The Emergency Ballot Delivery procedure is a useful method of voting that can help eligible voters cast their ballot despite unforeseen barriers or restrictive health and physical circumstances that may prevent them from personally retrieving their ballots. Eligible voters under these circumstances include those who may be hospitalized, disabled, detained in

\(^5\) California Dept of Public Health. [https://www.cdph.ca.gov/Programs/OPA/Pages/NR20-033.aspx](https://www.cdph.ca.gov/Programs/OPA/Pages/NR20-033.aspx). Date accessed 03.26.20

\(^6\) Ibid.

County jail, or confined to their homes due to a medical emergency.  

In order to participate in the Emergency Ballot Delivery procedure, an Early Voting Application is required to be filled out and returned to be verified for current registration and signature match through the ROV’s Election Information Management System (EIMS). The registered voter must complete, sign, and date the Early Voting Application. If the voter cannot sign their application, someone (i.e. a nurse, doctor, caregiver, social worker, family member, etc.) can help assist the voter to sign it with an “X”. The representative assisting the voter should write “witnessed by”, and print and sign their name and return the completed Early Voting Application to the ROV Main Office on Berger Drive. The ROV Office will verify the voter’s information and signature in EIMS, and once verified, a ballot may be issued to the voter and a complete vote-by-mail packet is prepared. The representative assisting the voter will then take the ballot to the voter at their respective location. Once completed, the ballot may be returned to the ROV Main Office, any Vote Center, or any dropbox location for processing in conjunction with other vote-by-mail ballots.

The right of people with disabilities, including mental illness, to vote is guaranteed by the Voting Rights Act of 1965, the Americans with Disabilities Act of 1990, the National Voter Registration Act of 1993, and the Help America Vote Act of 2002. Each subsequent law strengthened and expanded these rights to ensure everyone eligible to vote can do so without barriers.

Per California State Assembly Bill 2466, felons in county custody, whether inside jail or released on supervision – retain their right to vote.

DATE: April 7, 2020

TO: Board of Supervisors

FROM: Cindy Chavez, Supervisor

SUBJECT: Resolution to Denounce Xenophobia and Anti-Asian Sentiment due to the COVID-19 Pandemic

RECOMMENDED ACTION

Adopt Resolution denouncing xenophobia and anti-Asian sentiment due to the COVID-19 pandemic, and affirming the County of Santa Clara’s support of and commitment to the well-being and safety of Asian American communities. (Chavez)

REASONS FOR RECOMMENDATION

Incidents of discrimination, hate crimes, and microaggressions against Asian Americans of all ethnicities are on the rise throughout the country as they are being blamed for the COVID-19 virus.

The volume of incoming hate incident reports is dangerous and makes it evident that we must be proactive in curtailing racial discrimination and harassment during this pandemic.

The County of Santa Clara is one of the first minority-majority counties in the nation, and as such, Asians have been the largest racial group since 2014. Currently, Asians make up nearly 38 percent of the county’s population\(^1\).

It is important for the County to take leadership and stand in solidarity with the Asian American communities to send a message that we care about them, and want them to report incidents so that we can take steps to prevent and stop discriminatory and hateful behavior. The Resolution will also encourage victims and bystanders to speak out to stop this climate of hate that has been permeating the country. We must remember that we can only overcome this pandemic by standing united, not divided.

\(^1\) US Census Bureau. [https://www.census.gov/quickfacts/santaclaracountycalifornia](https://www.census.gov/quickfacts/santaclaracountycalifornia), Date accessed 03.29.20
BACKGROUND

On March 19, San Francisco State University’s Asian American Studies Department, Chinese for Affirmative Action (CAA), and the Asian Pacific Planning and Policy Council (A3PCON) launched an online reporting center to collect and track incidents of anti-Asian American and Pacific Islander hate violence, harassment, discrimination, shunning, and child bullying in California and nationwide so that victims can share their stories.

Since then, there have been more than 100 cases reported daily, with 5.5 percent of reported cases from limited English speakers. The report also revealed that Asian Americans of different ethnicities are being racially profiled; 61 percent of respondents are non-Chinese.  

Examples of reported incidents include:

- "As an Asian I asked my boss if she wanted to eat at Din Tai Fung. She proceeded to say "NO! I don't want corona virus"-- San Jose
- In early March, an Asian man was sprayed with an air freshener on a New York subway.
- Propaganda with a fake seal of the World Health Organization tells Los Angeles residents to avoid Asian American businesses because of a coronavirus outbreak.
- In Philadelphia, Asian Americans have been regularly facing verbal and non-verbal forms of street harassment since as early as February.

Additionally, CAA reported that advocates found 300 news articles nationwide reporting attacks against Asian Americans during a roughly two-week period ending March 7. Many agencies know hate incidents are happening anecdotally and are making efforts to encourage victims to file official reports, even if they’re anonymous.

Since the December 2019 outbreak of the COVID-19 virus in Wuhan, China, the infection has grown to more than 600,000 confirmed cases and more than 29,000 deaths worldwide as of March 29, 2020. The World Health Organization has cautioned against using geographic descriptors because it leads to ethnic discrimination.

At multiple White House press conferences in March, President Trump referred to the COVID-19 virus as the “Chinese virus,” a term that has been widely denounced by advocacy groups and Asian American organizations for provoking racism and retaliation against Asian Americans.

• COUNSEL SIGNED Resolution Denouncing Xenophobia and Anti-Asian Sentiment for BOS 040720 (PDF)
RESOLUTION NO. __________

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SANTA CLARA DENOUNCING XENOPHOBIA AND ANTI-ASIAN SENTIMENT ARISING DUE TO FEARS OF THE COVID-19 PANDEMIC AND AFFIRMING ITS COMMITMENT TO THE WELL-BEING AND SAFETY OF ASIAN AMERICAN COMMUNITIES

WHEREAS, Asian American communities are suffering acts of discrimination, hate crimes, and microaggressions due to fears of COVID-19;

WHEREAS, since the December 2019 outbreak of the COVID-19 virus in Wuhan, China, the infection has grown to more than 600,000 confirmed cases and more than 30,000 confirmed deaths worldwide;

WHEREAS, according to the World Health Organization, over 100,000 cases have been reported in the United States as of March 29, 2020;

WHEREAS, at a White House press conference with the Coronavirus Task Force on March 18, 2020, President Trump dubbed the COVID-19 virus the “Chinese virus,” and a White House official reportedly called it “Kung-Flu”;

WHEREAS, such rhetoric is reminiscent of the late 1800s, when Chinese Americans were deemed the “yellow peril,” despite living in the United States for years;

WHEREAS, such rhetoric is inaccurate and stigmatizing, tends to incite fear and xenophobia, and may put Asian Americans at risk of retaliation;

WHEREAS, scientists have confirmed that the COVID-19 disease does not respect borders and is not caused by ethnicity, and the World Health Organization has cautioned against using geographic descriptors because they can fuel ethnic discrimination;

WHEREAS, as the COVID-19 virus has spread, numerous Asian Americans and Pacific Islanders (AAPI) have reported experiencing microaggressions, racial profiling, hate incidents and, in some cases, hate violence;

WHEREAS, in an effort to quantify and combat hate crimes targeting Asian Americans and Pacific Islanders stemming from people’s reaction to the COVID-19 pandemic, two Bay Area groups—Asian Pacific Policy and Planning Council (A3PCON) and Chinese for Affirmative Action (CAA)—created an online reporting center where people can fill out a form—currently available in English, traditional Chinese, simplified Chinese, and Korean—to report the location and type of discrimination experienced and other details;

WHEREAS, A3PCON and CAA plan to use the information reported to create targeted education and media campaigns, provide resources to those affected, and advocate for policies to curb racial targeting;
Whereas, in Santa Clara County, one of the first minority-majority counties in the nation, Asians have been the largest racial group since 2014, and currently, Asians make up nearly 38 percent of the county’s population; and

Whereas, the County of Santa Clara Board of Supervisors wishes to affirm its commitment to the well-being and safety of Asian American community members and ensure they know they are not alone and that they can speak out to help stop the spread of bigotry;

Now, Therefore, Be It Resolved by the Board of Supervisors of the County of Santa Clara, California, that:

1. The County denounces xenophobia and anti-Asian sentiment and does not support the Trump administration’s rhetoric and racist remarks regarding the COVID-19 virus.

2. The County joins cities, counties, and states across the country in affirming its commitment to the safety and well-being of Asian Americans and in combating hate crimes targeting Asian Americans and Pacific Islanders.

3. The County will continue its efforts to protect residents and victims of hate, and to prosecute and curb hate acts related to COVID-19 in partnership with nonprofits, the County of Santa Clara’s District Attorney’s office, the San José Police Department, and others.
4. The County calls upon all counties, cities, and local governments across the United States to adopt similar commitments to reaffirm their solidarity with Asian American communities and commit to combatting hate.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on __________________________ by the following vote:

AYES:

Clerk of the Board of Supervisors

APPROVED AS TO FORM AND LEGALITY:

JAMES R. WILLIAMS
County Counsel
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Garry Herceg, Deputy County Executive
SUBJECT: Transportation Needs Assessment for County Clients

RECOMMENDED ACTION
Under advisement from October 17, 2017 (Item No. 10): Receive report from Office of the County Executive relating to completion of an assessment on the transportation needs of clients in accessing County services.

FISCAL IMPLICATIONS
There are no fiscal implications associated with receiving this report. Should the Board of Supervisors direct Administration to consider implementation of any of the recommended strategies in this report, Administration would have to assess fiscal impacts and the level of effort that would be required from existing staff.

REASONS FOR RECOMMENDATION
At its October 17, 2017 (Item No. 10) meeting, the Board of Supervisors approved a referral from Supervisor Chavez to Administration to assess the transportation needs and challenges clients face in accessing County services. After initial research and efforts to assess internal capacity for such a study, Administration issued a competitive Request for Proposals and ultimately contracted with an expert consultant to determine the specific profile and needs of six key populations in the County. The consultant team has been working with staff and stakeholders from across the County over the past year to identify transportation gaps, assess best practices, and generate community-advised recommendations for addressing those needs. This is the final report of that Transportation Needs Assessment (TNA) study.

CHILD IMPACT
The recommended action will have no/neutral impact on children and youth.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

On October 17, 2017, the Board of Supervisors approved a referral to Administration to assess the transportation needs and challenges clients face in accessing County services. The Board directed Administration to examine the transportation needs of clients involved in services with the following departments: Behavioral Health, Custody Health Services, District Attorney’s Office, Probation Department, Valley Medical Center and the Social Service Agency. The Board further directed Administration to focus on transportation needs of foster youth, seniors, individuals with disabilities and those involved in the criminal justice system to include victims of crime.

Administration held several stakeholder meetings to ascertain the level of transportation needs by Departments, as well as transportation options already in place within each Department. Based on these meetings, it was determined that transportation needs of County clients needed further study and exploration by an expert in the field.

On March 14, 2018, Administration submitted an off-agenda report to the Board outlining Administration’s efforts and the need for further study of County clients’ transportation needs.

On May 1, 2018, Administration released a Request for Proposals to seek applications from qualified consultants to conduct a comprehensive assessment of the transportation needs of various client populations in accessing County services. The Evaluation Committee reviewed and selected Nelson Nygaard in association with Raimi & Associates, with services beginning on January 7, 2019 and taking one year to complete.

**CONSEQUENCES OF NEGATIVE ACTION**

Administration would not receive these recommendations for transportation needs of clients in accessing County services.

1 EXECUTIVE SUMMARY

Santa Clara County (SCC) commissioned the Santa Clara County Transportation Needs Assessment study to determine the transportation needs of six key populations in the County, and to develop a comprehensive plan to implement strategies to address those transportation needs. SCC has recently experienced population and economic growth, but the County’s prosperity is not evenly distributed and recent economic growth has also widened socioeconomic disparities. Some communities within the County have access to affordable transportation options while other communities are much more limited. Access to transportation in turn shapes residents’ ability to access healthcare and supportive social services, maintain social connections, and participate in employment or education.

In addition to geographic-specific transportation barriers – people with low incomes, people of color, recently incarcerated people, older adults, and people with disabilities frequently face additional barriers to transportation access and mobility. Multiple County of Santa Clara departments and agencies serve members of the six vulnerable populations that were included in the transportation needs assessment (as the County provides some with varied levels of transportation assistance):

- Youth in foster care;
- Individuals with serious mental illnesses and/or medical conditions accessing County services;
- Individuals with serious mental illnesses and/or medical conditions being released from hospital, jail, or service programs;
- Older adults and people with disabilities;
- Non-risk criminal witnesses and victims of crime; and,
- Adults on probation.

---

DEMOGRAPHIC PROFILE

Information below presents data related to the primary language and household income for all County residents as well as the best available demographic data for the key populations.

The American Community Survey also provides other demographic information that effects transportation needs and access, including income and English proficiency.

- **Primary Language**: A significant portion (21%) of County residents can be categorized as having limited English proficiency. Overall, more than half (52%) speak a language other than English at home.

- **Household Income**: Of the approximately 630,000 households in the County, 19% have less than $40,000 in annual income. A similar share (19%) of residents earn less than 200 percent of the federal poverty threshold based on household size.

Information from the U.S. Census Bureau’s American Community Survey provides an estimate of the size of one area of interest: older adults and people with disabilities.

- **Disability Status**: 8% of County residents identify as having some form of Census-recognized disability.

- **Age**: 12% of County residents are older adults.

The Santa Clara County District Attorney’s Office for Victims of Crime directly interfaces with one area of interest for this study: non-risk criminal witnesses and victims of crime. Key findings from this population include:

- Of the clients whose race/ethnicity was recorded, more than half of clients (56%) identify as Hispanic/Latino and one-quarter (25%) identify as White;
- Women make up the vast majority of the Office’s clients (76%);
- More than half of clients are 25 to 59 years old (61%), 33% are under 25, and 7% of clients are over age 60;
Clients experience a wide range of types of victimization, including domestic/family violence, child sexual abuse/assault, adult physical assault, and adult sexual assault. The most common crime that clients have experienced is domestic/family violence (31%).

The Santa Clara County’s Custody Health Services administers inpatient and outpatient healthcare for patients who are either currently incarcerated or have been recently released from County jail. This population shares significant demographic overlap with one of the key populations of interest: individuals with serious mental illnesses and/or medical conditions being released from hospital, jail, or service programs. Key findings related to the demographic make-up of Custody Health Services clients include:

- Custody Health clients are ethnically diverse (39% identify as Hispanic/Latino, 30% as White, 12% as Black/African-American, and 7% as Asian).
- Custody Health clients are overwhelmingly young (34% 21-30 years old, 30% 31-40 years old, and 28% 41 to 60 years old).

Most of the Office of Reentry Services’ clientele are in at least one key population of interest to the study – primarily individuals with serious mental illnesses and/or medical conditions being released from hospital, jail, or service programs and/or adults on probation. There may also be overlap with another key population of interest: adults on probation. From the Office of Reentry Services’ datasets for the South County and San Jose Reentry Centers, we learned that:

- The vast majority of Office’s clients are 26 to 55 years old. Nine percent of clients for the Office’s San Jose site and eight percent of clients for the Gilroy site are over age 55;
- Reentry clients are mostly male (76% in San Jose, 68% in Gilroy);
- Reentry clients are ethnically diverse, but the majority of clients identify as Hispanic/Latino (66% in San Jose, 55% in South County);
- Majorities of clients at both reentry centers access the centers by non-driving modes (68% in San Jose, 53% in South County). Transit is the most common access mode at San Jose (51%), while driving is more common at South County (32%), correlating with less frequent transit options in Gilroy compared to San Jose;
- Most clients live in the same city as their respective reentry centers (72% in San Jose, 67% in South County).

The Santa Clara County Social Services Agency (SSA) provided demographic information related to two offices: Services for Survivors of Domestic Violence, Human Trafficking, and Workplace Crimes; and the Department of Aging and Senior Services’ (DAAS) Senior Nutrition Program.
The Services for Survivors of Domestic Violence, Human Trafficking, and Workplace Crimes office’s clientele closely aligns with one area of interest to this study: non-risk criminal witnesses and victims of crime.

- Their clientele is mostly female (84%);
- Clients’ primary spoken languages are about evenly split between English and Spanish, at 47% and 41%, respectively. Other spoken languages include Mandarin, Tagalog, and Vietnamese;
- Most clients of this office identify as Hispanic/Latino (57%);
- Four percent of clients are age 60 or older.

The Senior Nutrition Program provided information related to participants’ age, household income, race/ethnicity, primary language, and mode share used to reach the meal site. This cohort directly corresponds with one area of interest to the study: older adults and people with disabilities.

- The majority (79%) of Senior Nutrition Program participants are Asian-American;
- A majority (54%) of participants primarily speak English, followed by Chinese (19%), Vietnamese (13%), Spanish (7%), and Korean (6%);
- A majority (51%) of participants are between 70 and 79 years old and 30% are 80 to 89 years old;
- The entire program’s average drive-alone mode share is 33%. Local van/shuttle services and VTA’s ACCESS paratransit service are seldom used and account for no more than 5% of participants’ mode share at any meal site countywide;
- The transportation mode people use to get to senior centers/congregate meal sites varies considerably by site. Sites for which single occupant vehicles are the most common mode include senior centers in the City of Santa Clara (71% drive alone mode share), Almaden (60%), Camden (54%), and the City of Mountain View (51%). The least driving-oriented meal sites are in central, more urbanized areas of San Jose, such as the John XXIII Multipurpose Center (7% drive-alone mode share), Northside Community Center (11%), Roosevelt Community Center (15%), and Eastside Neighborhood Center (18%).

EXISTING TRANSPORTATION SERVICES

To determine mobility gaps faced by the populations of interest, the study identifies existing transportation resources in the community that are partially filling their mobility needs, including

- All participants in SSA’s Department of Aging & Adult Services are included in the key populations: older adults and people with disabilities.
- All youth in foster care are clients of SSA’s Department of Family & Children Services.
- Some Social Services Agency clients are also individuals with serious mental illnesses and/or medical conditions accessing County services; individuals with serious mental illnesses and/or medical conditions being released from hospital, jail, or service programs; non-risk criminal witnesses and victims of crime; and/or adults on probation.
services provided by Santa Clara Valley Transportation Authority (VTA) and other transportation options provided by a variety of County social services agencies and human services nonprofit organizations. The following chart provides a summary of transportation resources in SCC.

<table>
<thead>
<tr>
<th>Resource</th>
<th>Short Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fixed-Route Transit / ADA-mandated paratransit</td>
<td>Buses, trains, and ferries operated by public transit agencies that run on regular, pre-determined, pre-scheduled routes. Transit agencies provide ADA-mandated paratransit services to complement fixed route transit.</td>
</tr>
<tr>
<td>Community-Based Shuttles or Vans</td>
<td>Fixed route or deviated services offered outside of transit agencies that address specific trip needs in the community that are not adequately being met by existing public transportation service.</td>
</tr>
<tr>
<td>Private Transportation</td>
<td>Transportation provided by a private for-profit entity in the business of transporting people (ex: taxis, Uber/Lyft, non-emergency medical operators).</td>
</tr>
<tr>
<td>Subsidized Transit Pass Programs, Gas Cards, or Taxi/TNC Voucher Programs</td>
<td>Programs typically administered through a social service agency or human services nonprofit organization, that enable qualified people to purchase fares/vouchers for transportation services at a reduced rate.</td>
</tr>
<tr>
<td>Volunteer Driver Programs</td>
<td>Programs that provide one-way, round-trip, and multi-stop rides. Trips are often door-through-door. These programs are low-cost or free of charge.</td>
</tr>
<tr>
<td>Mobility Management &amp; Travel Training Services</td>
<td>Services cover a wide range of activities, such as travel training, coordinated services, trip planning, brokerage, and information and referral.</td>
</tr>
</tbody>
</table>

**Santa Clara Valley Transportation Authority (VTA)**

- Key public agency responsible for provision of transit in Santa Clara County;
- Serves both locally-oriented and regional transportation needs;
- Operates 79 fixed-route bus lines and three light rail lines the County;
- Fixed-route transit serves about 117,000 riders on a typical weekday;
- Offers riders discounted transit passes and fares to older adults, people with disabilities, and youth ages 5 to 18.

The populations of interest to this study may have unique barriers to riding VTA’s public transit for some or all of their travel needs. Three VTA programs that currently serve transportation disenfranchised populations in the County are:

- **VTA Access (ADA paratransit service):** ADA paratransit service which acts as a ‘safety net’ for people with disabilities who are unable to independently use fixed-route transit services in some or all situations. Demographic information of riders is kept confidential. The service has over 11,000 registered riders, of whom about 7,000 are active riders who take at least one trip per year. The program serves about 530,000 trips per year.

- **Daycations Program:** Travel training and group excursions service for seniors (ages 65+) that operates out of senior communities in Santa Clara County. It is intended to familiarize seniors with the VTA system and with accessing regional destinations independently. In the 2018 fiscal year, the program served 169 participants.

- **Youth Outreach Program:** Travel training service provided to public school students in Santa Clara County. The program is divided into two elements: (1) Class Presentation to
instruct students about how to use VTA’s fixed-route service; and, (2) Class Pass program to allow teachers in grades K-12 to take their students on field trips using VTA buses and light rail for free. The Class Presentation program reached 3,697 students in the 2018 fiscal year. The Class Pass program served 56,334 students in 2018.

In addition to the transportation services offered by VTA, other relevant transportation programs are provided by County social services agencies, municipalities, non-profit human services transportation providers, other non-profit institutions (e.g. TMA’s, universities), and for-profit transportation providers. These services and the key populations they serve are summarized below:

- City-based paratransit (door-to-door): older adults and people with disabilities
- Accessible fixed-route shuttle: all six key populations
- Specialized accessible van: all six key populations
- Volunteer driver programs: older adults and people with disabilities
- Mobility management and travel training: older adults and people with disabilities
- Group trips and excursions: older adults and people with disabilities
- Ride-hail/TNC: all except adults on probation
- Taxi vouchers: all six key populations
- Meal delivery and senior nutrition: older adults and people with disabilities
- Non-emergency medical transportation: all except adults on probation
- Subsidized transit passes: all six key populations
- Gas cards: all six key populations

**SUMMARY OF TRANSPORTATION GAPS**

The project team identified a range of unmet transportation needs, as well as mobility challenges accessing existing transportation services for the communities of interest. These transportation needs and challenges were identified through review of comparable agencies and jurisdictions, stakeholder engagement, and extensive community engagement work.

**Community and Stakeholder Engagement Methods**

- Twelve stakeholder interviews with 17 stakeholders with expertise working with the key populations;
- Seven focus groups with members of all six key populations; and
- 734 community surveys\(^3\) were completed online and via paper in English, Spanish, Chinese, and Vietnamese.

---

\(^3\) A total of 795 surveys were collected, but 61 surveys were excluded from analysis because respondents either reported living outside of Santa Clara County or were not part of any of the six key populations.
What’s Working?

Half of all survey respondents and at least two out of five survey respondents in each key population reported that the County agencies/programs with which they interact had helped them navigate transportation options.

Many focus group participants shared that the County, and especially San Jose, has good public transportation options that they can use to get where they need to go (with appropriate planning).

Stakeholders who were interviewed expressed appreciation for the transportation services and supports that are currently available to clients, patients, and community members. They also reported that the available services and supports are often provided inconsistently and without a clear system because they are such limited resources compared to the level of need.

Top Transportation Challenges

Half of survey respondents identified the cost of transportation as one of their top three transportation challenges. The distance between one’s home and public transit stop or hub (the “first mile” dilemma) and the distance between one’s destination and the nearest transportation stop (the “last mile” dilemma) were the next most commonly identified transportation challenges.

One in five survey respondents identified each of the following in their top three challenges: not being able to make same-day transportation plans, traveling outside of Santa Clara County, and physical inaccessibility of a vehicle/mode.

Between 13% and 16% of respondents identified these as their top challenges: language barriers, making evening trips, making weekend trips, making early morning trips, and physical barriers near one’s destination or starting point.

Different Transportation Challenges Experienced by Each Key Population

Cost and first/last mile challenges were the most commonly identified transportation challenges for all six key populations included in this assessment. The next most commonly identified transportation challenges varied for different populations.

- One out of four survey respondents who were youth in foster care identified making early morning trips, making weekend trips, and physical barriers near their starting or destination point among their top transportation challenges.

- Approximately one out of five survey respondents who were individuals with serious mental illnesses and/or medical conditions accessing County services; clients with serious medical and/or mental health conditions being released from County jail, County hospital, or community-based service programs; and/or older adults and people with disabilities identified that their inability to make same-day transportation plans, needing to travel outside of Santa Clara County, or physical inaccessibility of vehicles among their top transportation challenges.

- One out of five survey respondents who were non-risk criminal witnesses and victims of crime identified making evening trips, physical barriers near their starting or destination point, or needing to travel outside of Santa Clara County among their top transportation challenges.
The next most commonly identified top transportation challenge identified by survey respondents who were adults on probation were their inability to make same-day transportation plans (identified as a top challenge by 27% of survey respondents on probation), physical inaccessibility of vehicles (identified by 18%), and/or physical barriers near their starting or destination point (also identified by 18%).

Impact of Challenges

**Ability to get to key destinations:** Between 13% and 26% of respondents in each population reported not being able to get where they need to go;

**Hard-to-reach destinations:** Survey respondents identified the five places that are most difficult for them to get to, including a clinic/hospital; a community, senior, or family resource center; other government facilities/offices; counseling, therapy, or substance use treatment; and, their workplace.

**Effectiveness of transportation services at meeting County goals:** 5% of all respondents reported that, in the past year, they have nearly always missed appointments because of transportation challenges and another 23% reported this happened occasionally. Supporting expanded (and targeted) transportation services could reduce cost of missed appointments while also supporting some of the County’s programmatic goals (e.g., reducing recidivism for adults on probation, increasing family reunification for children and youth in foster care, increasing medication adherence for people with serious mental illness.

**RECOMMENDED STRATEGIES TO ADDRESS GAPS**

The following summary table outlines recommended strategies to help address identified transportation challenges or gaps. The strategies cover a broad and interconnected range of actions to improve mobility in a variety of ways for the study’s key populations. The recommended strategies are numbered and classified as either “Tier I” or “Tier II.”

- **Tier I strategies** are those which provide a high transportation benefit, have good community support (as indicated by the community engagement process of this study), leverage existing agency programs or resources, and can be implemented in stages or have a lower total cost, making them more likely to be successfully implemented.

- **Tier II strategies** may rank high in one or more categories, but may serve relatively few people, be prohibitively expensive under current fiscal conditions, or may be more challenging to implement.

</tbody>
</table>
## Implementation Plan

The full report includes detailed analyses for each of the strategies. Each solution is further qualified in terms of the roles and responsibilities of the strategy’s stakeholders, key performance indicators, potential sources of funding, likelihood of implementation during short-term to long-term horizons, relative cost estimates of implementation, and the relative complexity of staffing, training, and technology improvements needed.
2 EXISTING CONDITIONS

Santa Clara County (SCC) has initiated the “Santa Clara County Transportation Needs Assessment” study (“the study”) to determine the transportation needs of six vulnerable populations in the County, and to develop a comprehensive plan to implement strategies to address those transportation needs. The County has hired the Nelson\Nygaard/Raimi + Associates consulting team to develop this plan with a scheduled study completion date of early 2020. This report presents the team’s efforts to date and provides a context for the development of mobility strategies that were initiated in the Fall 2019.

BACKGROUND

Santa Clara County has recently experienced the highest population growth of the nine Bay Area counties, increasing by 200% between 1960 and 2016.\(^4\) Currently 25% of all Bay Area residents reside in Santa Clara County, compared to 18% in 1960. The County is also a key part of the Bay Area’s growth in economy, particularly high-technology industries as the epicenter of “Silicon Valley”. The past several decades of economic growth have created professional, educational, and healthcare opportunities for residents. The County is home to two of the nation’s leading research universities, Stanford and Santa Clara, as well as Stanford University’s Medical Center, one of the country’s top-ranked hospitals. Several of America’s most valuable publicly traded corporations – such as Apple, Google, Cisco Systems, Intel, Netflix, and Nvidia – are headquartered in the County. Thanks to these favorable economic conditions, Santa Clara County has become the 11\(^{th}\) wealthiest County, by median household income, in the nation as of 2017.\(^5\) However, the County’s prosperity is not evenly distributed, as this population and employment growth has also created wide class and income divides in the County. These socioeconomic divides manifest through wide variations in access to affordable transportation within the County for particular communities. Notably, people with low incomes, people of color, recently incarcerated people, older adults, and people with disabilities often face significant barriers to transportation access and mobility that other demographic groups do not.

The consultant team has worked in partnership with County staff from numerous departments and numerous community agencies and institutions to gain a comprehensive understanding of the transportation challenges faced by six vulnerable client populations in the County. The six vulnerable populations in this transportation needs assessment include:

- Youth engaged in services through the Foster Care System;
- Individuals with serious mental illnesses and/or medical conditions who are accessing services through a variety of County Departments, including those who require transportation to appointments or to pick-up/refill medicine prescriptions;
- Clients with serious medical and/or mental health conditions who are being released from the County jail, County hospital, or community-based service programs;
- Disabled adults and older adults who need assistance with transportation in meeting daily needs such as attending doctor appointments or visiting nutrition sites;
- Non-risk criminal witnesses and victims of crime requiring transportation to and from court appearances, criminal case meetings, medical appointments, job interviews, housing appointments, counseling and therapy appointments, shelters, and other community services; and
- Adults who are on legal probation and need assistance with transportation to comply with Court-ordered requirements. This may include transportation to and from meetings with probation, court appearances, community service, counseling, drug testing and/or employment.

The consultant team conducted extensive qualitative and quantitative activities to document and analyze the transportation needs of these populations. This report first paints a detailed picture of the specific population characteristics, then describes what relevant transportation resources are currently and potentially available to meet these groups’ mobility needs, and then documents the full range of activities adopted in the public outreach effort to determine the needs from the users’ and their advocates’ perspectives. The key findings from these outreach efforts are presented in narrative form in the body of this report, and in tabular and graphic form in the Appendix. Finally, the report presents an overview of the mobility gaps that have been identified based on the analysis in all the previous efforts. The specific sections of this report are laid out as follows:

- Demographic Profile of Populations of Interest
- Existing Transportation Services: VTA and other Transportation Resources Available to Target Populations
- Summary and Analysis of Community and Stakeholder Engagement
- Conclusion – Summary of Transportation Gaps

**DEMOGRAPHIC PROFILE**

This section consists of a Demographic Profile of the previously mentioned population groups, including:

- Older adults;
- People with disabilities;
- Individuals with serious mental illnesses and/or medical conditions being released from hospital, jail, or service programs;
• Non-risk criminal witnesses and victims of crime;
• Adults on probation; and
• Youth in foster care.

Understanding the demographic characteristics of Santa Clara County’s communities, and specifically this study’s populations of interest, is important to evaluating their travel behavior and transportation needs. Several demographic indicators are of particular interest to the Transportation Needs Assessment, including primary spoken language, age, disability status, and household income. The Demographic Profile begins with a summary of countywide statistics and then explores datasets for populations of interest the Project Team received from Santa Clara County’s District Attorney’s Office, Custody Health Services, and the Social Services Agency.

**Countywide Demographic Indicators**

This Demographic Profile begins with a review of countywide demographic indicators sourced from the U.S. Census Bureau. The four indicators reviewed include primary language spoken at home, age, disability status, and household income. These indicators help identify two of the six key populations of interest: older adults (age) and people with disabilities (disability status).

**Primary Language**

Residents with limited English proficiency may have more difficulty accessing the transportation services available to them than residents who speak English very well. A significant portion – nearly 21 percent – of County residents can be categorized as having limited English proficiency (see Figure 2-1). That is to say, they speak a language other than English at home and speak English less than “very well.” About half of this group (11 percent of the total County population) speaks a language belonging to the Asian/Pacific Islander language category used by the Census (e.g. Chinese, Vietnamese, Tagalog, etc.) and speaks English less than “very well,” as shown in Figure 2-2.

Annual Household Income

Household income is a valuable indicator to identify communities that may need transportation assistance, due in part to lower rates of private vehicle ownership among low-income communities. Low-income households also are more likely than others to be transit-dependent. Because of the spatial mismatch between high-frequency transit corridors and employment centers in Santa Clara County, low-income people without access to private vehicles face significant barriers to accessing jobs and other vital services. Additionally, many means-based programs that offer transportation assistance, such as shuttle services, gas cards, or subsidized transit passes, use household income to verify program participants’ eligibility. While Santa Clara County is a relatively affluent place compared to the U.S. average household income distribution—with more than half (53%) of households earning over $100,000 annually (see Figure 2-3), compared to just 26% of households nationally—there are substantial communities of residents who may qualify under various definitions of financial need. About 18.9 percent of residents earn less than $40,000 per year (see Figure 2-3), and a similar share (about 19 percent) of residents earn less than 200 percent of the federal poverty threshold based on household size (see Figure 2-4). This share is slightly below the Bay Area’s average of about 20 percent.

---

8 According to a recent study by SPUR, 77% of Bay Area jobs are in locations that are not transit-accessible (within ½ mile of frequent transit service), and in Santa Clara County this problem is particularly pronounced. See Figure 3 of SPUR. 2012. “The Urban Future of Work.” [https://www.spur.org/sites/default/files/publications_pdfs/SPUR_The_Urban_Future_of_Work_SPREADS.pdf](https://www.spur.org/sites/default/files/publications_pdfs/SPUR_The_Urban_Future_of_Work_SPREADS.pdf).

Disability Status

People with disabilities are one of the core populations of interest to the Transportation Needs Assessment. Two other populations of interest – individuals with serious mental illnesses and/or medical conditions, and individuals with serious mental illnesses and/or mental health conditions being released from hospital, jail, or service programs – share significant overlap with the general population with disabilities. Many people with disabilities are unable to drive and face significant challenges using fixed-route transit, and these transportation barriers can make it difficult for them to access jobs and services, and fulfill daily needs. People with disabilities have several primary transportation options that comply with the Americans with Disabilities Act (ADA). In Santa Clara County, people with physical, cognitive, or visual disabilities who are unable to ride fixed-route transit are eligible for paratransit service provided by VTA Access (formerly provided by Outreach & Escort Services). Additionally, the cities of Mountain View and Palo Alto operate ADA-accessible shuttle services to local transit hubs, shopping centers, and social services destinations. Numerous other human services transportation providers also offer specialized accessible transportation for people with disabilities. About eight percent of County residents identify as having some form of Census-recognized disability (see Figure 2-5). 10 The most common types of disabilities include ambulatory (four percent of County residents), independent

---

10 Details of how the Census collects this data are provided here: https://www.census.gov/topics/health/disability/guidance/data-collection-acs.html
living (3.4 percent),\textsuperscript{11} cognitive (3 percent),\textsuperscript{12} hearing (2.3 percent), self-care (1.9 percent), and vision (1.4 percent). Because some people may have multiple forms of disability, these figures do not cumulatively total the eight percent of residents with disabilities.

\textsuperscript{11} The Census defines independent living difficulty as follows: “Because of a physical, mental, or emotional problem, having difficulty doing errands alone such as visiting a doctor’s office or shopping.” This definition may describe some, but not all, of “individuals with serious mental illnesses and/or medical conditions” of interest to the Transportation Needs Assessment.

\textsuperscript{12} The Census defines cognitive difficulty as follows: “Because of a physical, mental, or emotional problem, having difficulty remembering, concentrating, or making decisions (DREM).” This definition may describe some, but not all, of “individuals with serious mental illnesses and/or medical conditions” of interest to the Transportation Needs Assessment.
Age

Older adults (ages 65 and older) are one of the key populations of interest to the Transportation Needs Assessment. About 12 percent of County residents are older adults (see Figure 2-6). Due in part to the increasing life expectancy of County residents (see Figure 2-7) – 83 years, up from 78 in 1990 – older adults’ share of the County’s population is expected to increase in the coming years. The State of California’s Department of Finance anticipates the older adult cohort’s population to increase by a rate of 4% per year through 2026, with the fastest rate of increase among people 75 to 84 years old (see Figure 2-8). This population growth means that County stakeholders will need to place increasing attention and resources to meet the transportation needs of this group.

Figure 2-7   Santa Clara County Life Expectancy, 1990-2016

Source: MTC Vital Signs, 2016
The following section reviews demographic information received from three County stakeholders: the District Attorney’s Office, Custody Health Services, and the Social Services Agency.

**District Attorney’s Office for Victims of Crime**

The Santa Clara County District Attorney’s Office for Victims of Crime directly interfaces with one of the study’s key populations of interest: non-risk criminal witnesses and victims of crime. Understanding the demographics of this group may be helpful in evaluating their unique transportation challenges and needs. Key findings from this population include:

- This community is ethnically diverse, with 56 percent of clients identifying as Hispanic/Latino, 25 percent as White, 11 percent as Asian, and six percent as Black/African-American as of 2018 (see Figure 2-9). Note that these figures refer only to clients for whom race/ethnicity was reported. This information was not collected from 35 percent of total clients.

- Women are more likely to be victims of crime than men, and this trend is evident in the gender distribution of the Office’s clients. In the fourth quarter of 2018, more than three-quarters of the Office’s clients were women (76 percent), while 24 percent were men (see Figure 2-10). Gender was not reported for eight percent of total clients.

- There is little overlap between the District Attorney’s Office’s clients and the cohort of older adults reviewed above, with seven percent of clients over age 60 in the third quarter of 2018 (see Figure 2-11). A majority of clients (61 percent) were between 25 and 59 years old, while 33 percent were 24 years old or younger. Age data was not collected from 19 percent of clients.
Clients experience a wide range of types of victimization. The most common types of victimization include domestic/family violence (31 percent of clients), child sexual abuse/assault (19 percent), adult physical assault (17 percent), and adult sexual assault (eight percent), as shown in Figure 2-12. All other types of victimization comprise less than one-third of client cases. About one percent of victims suffer from more than one type of victimization concurrently.

Custody Health Services

The Santa Clara County Department of Corrections' Custody Health Services administers inpatient healthcare for patients who are currently incarcerated or are being released from County jail. This population shares significant demographic overlap with one of the key populations of interest to the Transportation Needs Assessment, “Clients with serious medical and/or mental health conditions being released from hospital, jail, or service programs.” Custody Health Services provided the Project Team with datasets related to the race/ethnicity, primary language, and age of their clients. Key findings related to the demographic make-up of the Custody Health Services clients include:

- Custody Health clients are ethnically diverse. The largest share identifies as Hispanic/Latino (39 percent), while 30 percent identify as White, 12 percent as Black/African-American, and seven percent as Asian (see Figure 2-13).
- Custody Health clients are overwhelmingly young, with over one third (34 percent) under 30, and 64 percent under 40 (see Figure 2-14). There is virtually no overlap between this cohort and the cohort of older adults (65+) reviewed above, as just three percent of clients are age 61 or older.

![Figure 2-13 Custody Health Admissions - Race/Ethnicity](source: Santa Clara County Custody Health Services)
Office of Reentry Services

Since the passage of AB 109 in 2011, many non-serious, non-violent, and non-sex offenders have been reassigned from State prisons to local jails. Santa Clara County’s Reentry Program is intended to comply with the provisions of AB109’s realignment, a key provision of which requires counties and municipalities to identify comprehensive re-entry and recidivism reduction strategies for parolees and low-level prisoners. Since its founding in 2012, the County’s Reentry Program has created opportunities for more than 10,000 residents reentering the community from jail or prison.

One key population of interest to the study, clients with serious medical and/or mental health conditions being released from hospital, jail, or service programs, contains significant overlap with the Office of Reentry Services’ clientele. Of particular interest are the transportation needs of clients whose serious medical and/or mental health conditions prevent them from accessing public transit or personal vehicles. The Office of Reentry Services provided the Project Team with
these three datasets for the South County and San Jose Reentry Centers, as well as their clients’ travel mode share (to the reentry centers) and city of residence. From these datasets we learned that:

- There is little overlap between the reentry programs’ clientele and the cohort of older adults reviewed above; eight percent of clients at the South County Reentry Center (in Gilroy) and nine percent of the San Jose Reentry Center’s clients are over age 55 (see Figure 2-15).

- Reflecting predominant trends in incarceration, reentry clients are mostly male. At the South County Reentry Center, 68 percent of clients are male, while 76 percent of clients are male at the San Jose Reentry Center (see Figure 2-16).

- Reentry clients are ethnically diverse, but the majority of clients identify as Hispanic/Latino. At the South County Reentry Center, 55 percent of clients are Hispanic/Latino, while 66 percent of clients are Hispanic/Latino at the San Jose Reentry Center (see Figure 2-17). Other race/ethnicity information beyond Hispanic/Latino identification was not provided for the San Jose Reentry Center.

- Majorities of clients at both reentry centers access the centers by non-driving modes. At San Jose Reentry Center, the share of non-driving modes is 68 percent, while this share is 53 percent at South County Reentry Center (see Figure 2-18). Transit is the most common access mode at San Jose (51 percent), while driving is more common at South County (32 percent). This difference correlates with the less frequent transit options in Gilroy compared to San Jose. Gilroy’s South County Reentry Center is served by two local (lower-frequency) VTA bus routes – Routes 84 and 85 - while San Jose’s Reentry Center, near Civic Center, is served by VTA’s light rail as well as the high-frequency Route 61, which offer 15-minute frequencies or better.

- Most clients live in the same city as their respective reentry centers. At the San Jose Reentry Center, 72 percent of clients live in San Jose, while 67 percent of clients at South County Reentry Center live in Gilroy (see Figure 2-19).

Social Services Agency

The Santa Clara County Social Services Agency (SSA) provided the Project Team with demographic information related to two offices: Services for Survivors of Domestic Violence, Human Trafficking, and Workplace Crimes; and the Department of Aging and Senior Services' (DAAS) Senior Nutrition Program. The former office’s clientele closely aligns with a key population of interest to this study, non-risk victims of crime. Their clientele is mostly female (84 percent), and clients’ primary spoken languages are about evenly split between English and Spanish, at 47 percent and 41 percent, respectively (see Figure 2-20 and Figure 2-21). Other spoken languages include Mandarin, Tagalog, and Vietnamese. Most clients of this office identify as Hispanic/Latino (57 percent), while 15 percent identify as Asian and 10 percent identify as White (see Figure 2-22). There is little overlap between this clientele and the cohort of older adults identified above: four percent of clients are age 60 or older (Figure 2-23).

The Senior Nutrition Program provided the Project Team with information related to participants’ age, household income, race/ethnicity, primary language, and mode share used to reach the meal site. This cohort directly corresponds with a key population of interest to the study, older adults ages 65 and older. Unlike other clientele reviewed in this report, the majority (79 percent) of Senior Nutrition Program participants are Asian-American (see Figure 2-24). Another 11 percent of participants identify as White, while five percent identify as Native Hawaiian or other Pacific Islander. English is the dominant spoken language with these participants. As shown in Figure 2-25, a majority (54 percent) of participants primarily speak English, while 19 percent speak Chinese, 13 percent speak Vietnamese, seven percent speak
Spanish, and six percent speak Korean. A majority (51 percent) of participants are between 70 and 79 years old (see Figure 2-26). In Figure 2-27, the various meal sites across the County are ranked in descending order according to the proportion of Senior Nutrition Program participants who arrive by driving alone. The most driving-oriented participants access the program at senior centers such as those in Santa Clara (71 percent drive-alone mode share), Almaden (60 percent), Camden (54 percent), and Mountain View (51 percent). These rates are compared to the entire program's average drive-alone mode share of 33 percent. The least driving-oriented meal sites are in central, more urbanized areas of San Jose, such as the John XXIII Multipurpose Center (seven percent drive-alone mode share), Northside Community Center (11 percent), Roosevelt Community Center (15 percent), and Eastside Neighborhood Center (18 percent). Local van and shuttle services, as well as VTA’s Access paratransit service, are seldom used and account for no more than five percent of participants’ mode share at any meal site countywide.

EXISTING TRANSPORTATION SERVICES: VTA AND OTHER TRANSPORTATION RESOURCES

To determine mobility gaps faced by the populations of interest, the study identifies existing transportation resources in the community that are partially filling their mobility needs. This section identifies services provided by Santa Clara Valley Transportation Authority (VTA), as the largest public transportation provider in the County, followed by other transportation options provided by a variety of County social services agencies and human services nonprofit organizations, among others. Definitions of the various types of transportation resources available to populations of interest to this study are summarized in Figure 2-28 and subsequently described in more detail.

Figure 2-28   Types of Transportation Resources in Santa Clara County

<table>
<thead>
<tr>
<th>Resource</th>
<th>Short Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fixed-Route Transit / ADA-mandated paratransit</td>
<td>Buses, trains, and ferries operated by public transit agencies that run on regular, pre-determined, pre-scheduled routes, usually with no variation. The Regional Transit Connection (RTC) Clipper card is a photo identification card that verifies a rider's eligibility to receive an ADA reduced fare on fixed route transit. Transit agencies provide ADA-mandated paratransit services to complement fixed route transit, in compliance with the American with Disabilities Act (ADA).</td>
</tr>
<tr>
<td>Community-Based Shuttles or Vans</td>
<td>Fixed route or deviated services offered outside of transit agencies (often by public-sector agencies or non-profit organizations) that address specific trip needs in the community that are not adequately being met by existing public transportation service. Some shuttles cater to the general public, while others are limited to special populations.</td>
</tr>
<tr>
<td>Private Transportation</td>
<td>Transportation provided by a private for-profit entity in the business of transporting people. These services are often demand-response and initiated and paid for by the rider. Examples are taxis, motor coach services, TNCs (Uber, Lyft, etc.), and non-emergency medical transportation (NEMT) operators.</td>
</tr>
<tr>
<td>Subsidized Transit Pass Programs, Gas Cards, or Taxi/TNC Voucher Programs</td>
<td>Programs typically administered through a social service agency or human services nonprofit organization, that enable qualified people to purchase fares/vouchers for transportation services at a reduced rate from providers such as taxis, public transit, or TNCs. Other programs distribute gas cards to clients when non-driving options are less likely to meet clients' mobility needs. Recipients are usually low-income.</td>
</tr>
<tr>
<td>Volunteer Driver Programs</td>
<td>Programs that provide one-way, round-trip, and multi-stop rides. Trips are often door-through-door, in contrast to other transportation options which stop at the curb or door. These programs are provided free of charge, on a donation basis, through membership dues, or at a minimal cost, and typically have an eligibility process and advance reservation requirements.</td>
</tr>
<tr>
<td>Mobility Management &amp; Travel Training Services</td>
<td>Mobility management services cover a wide range of activities, such as travel training, coordinated services, trip planning, brokerage, and information and referral. In addition to information and referral and travel training detailed below, mobility management services refer to the provision of individual transportation information and assistance, and service linkage related to information and referral.</td>
</tr>
</tbody>
</table>
Santa Clara Valley Transportation Authority (VTA)

As the key public agency responsible for provision of transit in Santa Clara County, VTA is an important potential partner in meeting the transportation needs of the study’s population. VTA’s transit network offers the most frequent and comprehensive service in the County, serving both locally-oriented and regional transportation needs. VTA operates 79 fixed-route bus lines and three light rail lines in Santa Clara County. Of the 79 bus routes, 17 offer frequent service (15-minute headways or better), while 48 offer local service (20 to 60-minute service frequencies), and 14 offer express service during commuter peak hours only. VTA’s fixed-route transit serves about 117,000 riders on a typical weekday. In May 2019, VTA implemented a system-wide service redesign of its fixed-route bus network, the 2019 New Transit Service Plan. The 2019 New Transit Service Plan is intended to increase ridership and improve the agency’s farebox recovery by expanding the network of frequent routes while minimizing loss of service in low-density areas. VTA offers riders discounted transit passes and fares to older adults, people with disabilities, and youth ages 5 to 18. However, the populations of interest to this study may have unique barriers to riding VTA’s public transit for some or all of their travel needs.

To determine potential opportunities for coordination of services with human service agencies, this section summarizes three VTA programs that currently serve transportation disenfranchised populations in the County:

• VTA Access (ADA paratransit service)
• Daycations Program
• Youth Outreach Program

Understanding these service offerings may also provide stakeholders with opportunities to supplement or enhance these programs and better meet the transportation needs of this study’s populations of interest. Information for two other programs, UPLIFT (free or discounted transit passes for homeless people engaged with case managers at select non-profit organizations) and the VTA Summer Youth Pass for students, was not available.

Apart from the programs listed above, VTA does not directly operate any programs for taxi scrip/vouchers, group trips, discounted rides with TNCs, mobility management, or non-emergency medical transportation. However, VTA is a funding partner for the West Valley Community Services’ door-to-door paratransit service, RYDE, which serves the communities of Campbell, Cupertino, Los Gatos, Monte Sereno, and Saratoga.

VTA ACCESS

VTA ACCESS is the transit agency’s ADA paratransit service which acts as a ‘safety net’ for people with disabilities who are unable to independently use fixed-route transit services in some or all situations. The program provides eligible riders with door-to-door rides in accessible vans, cutaways (small buses), and sedans operated by a contractor, MV Transportation. Rides must be reserved by 5 pm the day before the trip by telephone or web-based reservation; service is available during VTA’s normal fixed-route service hours and area. Rides may be booked 1-3 days in advance at the standard fare of $4. However, VTA ACCESS also offers Premium trips, such as same-day trip requests, second vehicles, extended service destinations, or open return trips, on a

---

15 VTA 2018 Annual Report
16 All customers with approved eligibility may make online trip reservations at myaccess.vta.org
Most riders apply for VTA ACCESS by mail, provide medical information about their disability, and participate in an over the phone interview. VTA will determine if they are eligible within 21 days. When making a reservation, riders are provided with a negotiated 30-minute pickup window. Subscription services, or recurring regular trips, are available for riders who make regular trips to the same origin/destination and at the same times (e.g. Monday-Friday 10:00am to a senior center). ADA paratransit is a shared-ride service, and travel times are comparable to VTA’s fixed-route bus service.

Demographic information of VTA ACCESS riders are kept confidential. VTA stakeholders noted that the primary spoken language of VTA ACCESS riders was English, followed by Spanish.

VTA ACCESS has over 11,000 registered riders, of whom about 7,000 are active riders who take at least one trip per year. The program serves about 530,000 trips per year, compared to 36,555,500 boardings17 on VTA’s fixed-route system in the 2018 fiscal year. The average VTA ACCESS rider uses the program about once per week. These and other performance metrics are shown in Figure 2-29.

VTA released a list of the ACCESS program’s most frequently requested destinations, shown in Figure 2-30. These destinations include disabilities services centers (e.g. physical therapy), adult day health care (ADHC) centers, hospitals, or medical clinics. Others are public community centers (e.g. Mayfair) and colleges (e.g. De Anza College). The single most popular destination is Hope Rehabilitation Services, at 1555 Parkmoor Avenue in San Jose.

Documenting these frequent destinations in one location will be valuable for the latter stages of the project in which the consultant team develops strategies for meeting transportation needs that can build on already existing high volume transportation destinations.

Source: VTA
Daycations Program

The VTA’s Daycations Program is a travel training and group excursions service for seniors (ages 65+) that operates out of senior communities in Santa Clara County. Daycations is intended to familiarize seniors with the VTA system and with accessing regional destinations independently. Typically, a VTA staff member hosts trainings in the morning and then hosts a guided, round-trip bus or light rail ride to and from entertainment or shopping venues selected by the program participants. Daycations was most recently funded by an FTA New Freedom grant, which has since been consolidated with a Section 5310 grant (Enhanced Mobility for Seniors and People with Disabilities Program).

In the 2018 fiscal year, the Daycations Program served 169 participants, a significant increase from the 2017 fiscal year, when it served 137 participants. The most popular destinations, which are selected by the participants, include the following regional shopping centers:

- San Antonio Shopping Center – 645 San Antonio Road, Mountain View
- Santana Row – 377 Santana Row, San Jose
- Westfield Oakridge – 925 Blossom Hill Road, San Jose
- Eastridge Center – 2200 Eastridge Loop, San Jose
- Westgate Center – 1600 Saratoga Avenue, San Jose
- Stanford Shopping Center – 660 Stanford Shopping Center, Palo Alto

The city centers of Campbell, Mountain View, and Palo Alto, are also popular destinations for the Daycations Program. To operate the Daycations Program out of senior communities effectively, VTA also hosts a “Train the Trainer Academy.” These training sessions give participants – typically caregivers and senior volunteers – basic knowledge of how to introduce senior residents to using VTA fixed-route services to get around their communities. In the 2018 fiscal year, the Train the Trainer Academy served 20 participants, down from 24 participants in 2017.

Given the lack of spontaneity associated with ACCESS services (as with all ADA paratransit programs), offering a fixed route alternative to seniors and people with disabilities who could ride the bus or light rail for at least some of their trips is an important source of coordination between VTA and human service agencies.

Youth Outreach Program

The Youth Outreach Program is a travel training service provided to public school students in Santa Clara County. The program is divided into two elements, a Class Presentation and the Class Pass program. The 60-minute classroom presentation instructs students about how to safely use VTA’s fixed-route service, common transportation etiquette, fare payment, and how to read transit schedules and maps. The Class Presentation program reached 3,697 students in the 2018 fiscal year, an increase from 3,515 students in 2017.

The Class Pass program allows teachers in grades K-12 to take their students on field trips using VTA buses and light rail for free. Each teacher is eligible to receive up to two “class passes” per school year, entitling them to fare-free travel for themselves and their students. The Class Pass program served 56,334 students in 2018, a significant increase from 2017, when it served 47,665 students.

Coordination of customized transportation programs between VTA and the various populations of interest used to be the responsibility of the non-profit organization, Outreach. There is currently
very limited programming occurring similar to that earlier arrangement. However, during the course of this study VTA will be embarking on the development of a mobility management program, known as MAP (Mobility Assistance Program), that should serve as an important opportunity for coordination of these services.

Other Transportation Resources in Santa Clara County

Introduction

Besides the services offered by VTA, County, agencies, municipalities, and private organizations offer a broad range of transportation services to the target populations in this study. In addition to VTA’s fixed-route transit and ADA paratransit, riders might use community-based shuttle or van services, city-based door-to-door paratransit programs, non-emergency medical transportation (NEMT), private providers like taxis and Transportation Network Companies (TNCs), and other options. Some services listed below, such as downtown shuttle services, are open to the general public but would be particularly useful to some of these population groups. Other more targeted programs offer services and resources such as trip planning assistance, free transit passes, free or discounted trips to and from specified locations, often with conditions attached.

The six populations of interest to this Study have varying ranges of transportation services available to them within the County. A wider range of transportation services is available in most areas for older adults and people with disabilities. Other groups, such as victims of crime, people with serious mental illness(es) accessing County services, and foster youth, have more limited transportation options, partly due to their more specialized mobility needs.

Below is a summary of relevant transportation programs offered by various types of service providers in Santa Clara County for each population of interest. Cells with teal shading in Figure 2-31 indicate that a transportation service is offered by a particular type of provider. Some transportation services, such as the free, community-based shuttles operating in Palo Alto and Mountain View, offer services to the general public and are not limited to any of the study’s populations of interest.

The six key populations identified for this assessment (which have significant overlap between them) are as follows. Note that the letters are used throughout to refer to each population.

- Population A, foster youth.
- Population B, people with serious mental illness and/or medical conditions accessing County services.
- Population C, people with serious mental illness and/or medical conditions who have been released from County jail, County hospital, or community-based service programs.
- Population D, older adults and people with disabilities.
- Population E, non-risk criminal witnesses and victims of crime.
- Population F, adults on probation.

County Social Services Agencies

Santa Clara County social services agencies offer a variety of transportation services to clients who belong to one or more of the study’s populations of interest. These agencies include the County’s Behavioral Health Services (BHS), District Attorney's Office, Health System (including Santa Clara Valley Medical Center), Probation Department, Reentry Services, Sherriff’s Office, and the Social Services Agency (SSA), which includes the Departments of Aging and Senior Services (DAAS) and Employment & Benefits Services (DEBS). Transportation services are described for each of the study’s seven populations of interest below.

People with disabilities have the following transportation resources available from County social service agencies:

- **BHS’ Supportive Housing Services** offers gas cards to people with disabilities, older adults, and people with serious medical conditions. BHS’ Adult and Older Adult Services offers non-emergency medical transportation (NEMT) for qualified clients with disabilities and older adults through its CalWORKS program.
- The County’s **Health System** offers NEMT to low-income patients with disabilities at the Santa Clara Valley Medical Center.
- **DEBS** helps low-income families receiving government benefits with mobility management and trip planning. This is a service provided for people throughout the County and may be applicable to some people with disabilities.

Older adults have the following transportation resources available from County social services agencies:

- **BHS’ Supportive Housing Services** offers gas cards to people with disabilities, older adults, and people with serious medical conditions.
- **BHS’ Adult and Older Adult Services** offers free/subsidized transit passes and non-emergency medical transportation (NEMT) for qualified clients with disabilities and older adults through its CalWORKS program. In limited cases, Adult and Older Adult Services has also offered reimbursement for TNC rides for older adult clients.
- The **DAAS Senior Nutrition Program** serves qualifying people who are 60 years old and older. The Senior Nutrition program offers older adults the following transportation benefits:
  - **Free/subsidized transit passes:** During the 2017 – 2018 Fiscal Year, the Senior Nutrition Program distributed 7,286 monthly bus passes. Participating seniors are required to fill out the Mobility Management Program Registration Form, be below the Elder Economic Security Index (EESI), and eating lunch 8x/month through their program is required to obtain transit passes, gas cards, or a paratransit ride through the Senior Nutrition Program.

---

Gas cards: During the 2017 – 2018 Fiscal Year, the Senior Nutrition Program handed out 1,445 shared rides gas cards.\(^{21}\) Must be below EESI.

Meal delivery: DAAS operates the Santa Clara County Meals on Wheels Program, which provides meal service to homebound seniors 60 years of age and older who are unable to provide meals for themselves or have difficulty obtaining food because of illness, frailty, or disability. During the 2017 – 2018 Fiscal Year, the Meals on Wheels program provided meals to 1,661 people.\(^{22}\)

Specialized accessible van service: During the 2017 – 2018 Fiscal Year, the Senior Nutrition Program funded 16,475 paratransit rides to meal sites.\(^{23}\) The congregate meal program served 630,474 meals to 12,815 unduplicated and eligible participants at 38 meal sites during this period. This program is also available from DAAS’ Senior Non-Nutrition Program to access other destinations such as grocery stores, pharmacies, or medical appointments.

DAAS also operates a volunteer driver program.

- The California Department of Aging offers NEMT to older adults through its Community-Based Adult Services division.
- The County’s Health System offers NEMT to low-income older adult patients at the Santa Clara Valley Medical Center.

Youth in the foster care system have the following transportation resources available from County social services agencies:

- **BHS’ Family and Children** division offers gas cards to clients, typically parents or guardians of youth in the foster care system, to coordinate visitation, placement, and family re-unification. The Family and Children division also offers clients with vouchers for ride-hailing or taxi services.
- **SSA’s Foster Families** operates a specialized accessible van service to transport foster youth to coordinate visitation, placement, and family re-unification.

---

\(^{22}\) Ibid.

\(^{23}\) Ibid.
Individuals with serious mental illness and/or medical conditions have the following transportation resources available from County social services agencies:

- **BHS’ Supportive Housing Services** offers clients with serious mental illness gas cards.
- **BHS’ Whole Person Care** offers clients with serious mental illness free/subsidized transit passes.
- The **County Health System** provides patients in the Emergency Department at Santa Clara Valley Medical Center with taxi vouchers.

Clients being released from hospital, jail, or service programs have the following transportation resources available from County social services agencies:

- **BHS’ Criminal Justice Services** offers clients taxi vouchers and free/subsidized transit passes.
- **BHS’ Substance Use Treatment Services (SUTS)** offers clients gas cards, free/subsidized transit passes, and taxi vouchers. SUTS also offers a specialized accessible van service for some client groups. SUTS offers only free/subsidized transit passes for youth clients ages 12 to 21.
- **BHS’ Whole Person Care** offers clients with serious mental illness free/subsidized transit passes.
- **Reentry Services** offers transportation assistance to recently incarcerated individuals, including free/subsidized transit passes and gas cards.
- **Santa Clara County Sherriff’s Office’s** rehabilitation officers provide clients with free day pass tokens for VTA.

Non-risk criminal witnesses and victims of crime have the following transportation resources available from County social services agencies:

- SSA’s **Services for Survivors of Domestic Violence and Services for Survivors of Human Trafficking and Workplace Crimes** offers clients a specialized accessible van service.
- The **Victims Services Unit** of the District Attorney’s office provides support to victims of crime countywide, including a limited budget for VTA tokens, gas cards, and TNC ride vouchers available to clients upon referral known as Emergency Benefits and Needs Services (EBNS). Additionally, the D.A.’s office also has a contract with Green Cab, a local taxi company, to provide transportation for witnesses, many of whom are also victims of crime.

Adults on Probation have the following transportation resources available from County social services agencies:

- The **Probation Department** sponsors three programs which offers eligible adults and juveniles on probation free monthly VTA transit passes or tokens, provided they are working or attending a program, at the probation officer’s discretion. The three programs are: AB109 Services, Adult Investigation & Supervision Services, and Juvenile Services. These are services offered to adults on probation countywide upon release from jail.
- **BHS’ Criminal Justice Services** offers clients taxi vouchers and free/subsidized transit passes.
BHS’ Substance Use Treatment Services (SUTS) offers clients gas cards, free/subsidized transit passes, and taxi vouchers. SUTS also offers a specialized accessible van service for some client groups.

In addition, UPLIFT also distributes free transit passes to homeless and very-low-income individuals through the following County social services agencies: Behavioral Health Services (BHS), Office of Supportive Housing (OSH), Supplemental Security Income (SSI), Substance Use Treatment Services (SUTS), Valley Homeless Health Program (VHHP), and Victims Services.

Municipalities

Several municipalities provide transportation services beyond those of County social service agencies. However, these municipal transportation programs are largely oriented either to older adults (e.g. through local senior center programming) or to the general public, including local residents, visitors, and employees. These transportation programs tend to have limited accommodations for some of the unique needs of the study’s populations of interest other than older adults. Municipalities offering their own transportation programs include the cities of Campbell, Milpitas, Morgan Hill, Mountain View, Palo Alto, and Santa Clara. Transportation services are described for each of the study’s six populations of interest below.

Older adults have the following transportation services available from local municipalities:

- The Mountain View Community Shuttle is a free community shuttle operating seven days a week from 10 AM to 6 PM within Mountain View. The shuttle is open to the general public. The shuttle runs every 30 minutes on weekdays, and hourly service on weekends and holidays. The average weekday ridership in 2018 was 687 riders. The shuttles are wheelchair accessible, have bicycle racks and Wi-Fi.

- The Palo Alto Shuttle is a free shuttle service in Palo Alto. There are two shuttle routes which operate weekdays. One is a commuter route operating during the morning and evening commute every 20 minutes. The other route operates between 7:35 AM to 5:30 PM with headways of 30 minutes to 1 hour. The shuttles are wheelchair accessible and feature bicycle racks.

- The Campbell Adult Center offers a Group Trips Program for older adults, funded by the City of Campbell’s Recreation & Community Services Department. This program takes older adults on day-long excursions to regional destinations such as Beach Blanket Babylon, Golden Gate Park, and boat cruises on the San Francisco Bay. The Campbell Adult Center also provides low-income older adults with a senior nutrition program, the Lunch Program, which provides healthy lunches at designated meal sites for a suggested donation of $3. The Center provides a Meals on Wheels Program for older adults who cannot access the meal sites. The Meals on Wheels Program provides homebound older adults with frozen meals and periodic home visits Monday through Friday. Hot delivered meals are also available for those who need help or for those who cannot microwave their food.

---

26 https://www.ci.campbell.ca.us/DocumentCenter/View/1405/Trips?bidId=
27 https://www.ci.campbell.ca.us/275/Lunch-Program
The Barbara Lee Senior Center, operated by the City of Milpitas, provides older adults with a group trips program to regional destinations such as SF Giants games, Golden Gate Park, and the Treasure Island Culinary Institute.  

The City of Santa Clara’s Senior Center operates a similar group trips program for older adults, Senior Center Adventures to Go (Travel).  

The City of Morgan Hill operates the Get’n around Town Driver Program. Volunteers will help seniors get to their appointments, run errands, or get groceries. All rides must originate or end in Morgan Hill (95037). One-way trips may not exceed 20 miles. The program is available to Senior Center participants M-F 8am - 4pm.

All other populations of interest to this study have access only to the Mountain View Community Shuttle and Palo Alto Shuttle, which are open to the general public.

Human Services Nonprofit Transportation Providers

A wide range of nonprofit human services transportation providers operate in Santa Clara County, and many provide specialized transportation to populations of interest to this study. The vast majority of these organizations operate within a single municipality or group of adjacent municipalities, and a few operate their programs countywide.

People with disabilities have transportation services available from the following organizations:

- **JFCS RIDES**, a program of Jewish Family and Children’s Services (JCFS) operates a specialized accessible transportation service for people with disabilities and older adults in Mountain View, Palo Alto, and Los Altos. Comprised of volunteer drivers, JFCS vans, and taxi vouchers, JFCS RIDES provides seniors, as well as people with disabilities, transportation to medical and dental appointments, the grocery store, the pharmacy, and other critical errands.

- The **Community Services Agency of Mountain View and Los Altos (CSA)** provides meal delivery services for low-income people with disabilities as well as older adults through its Food and Nutrition Center, in addition to free transit passes through the UPLIFT program, described below.

- **Silicon Independent Living Center** offers mobility management and travel training to people with disabilities throughout the County.

---

• **UPLIFT (Universal Pass for Life Improvement from Transportation)**\(^{30}\) –
  UPLIFT is a program that provides free transit passes to those who are homeless or may become homeless should they not have access to transportation for work. Some people with disabilities with very low incomes may qualify for UPLIFT transit passes. The UPLIFT program is managed by Santa Clara County and operated by the following agencies and organizations working with those who are homeless.
  - Abode Services
  - Community Services Agency (CSA) of Mountain View
  - Community Solutions in Gilroy and Morgan Hill
  - Downtown Streets Team in San Jose
  - Family and Children Services in San Jose
  - Family Supportive Housing in San Jose
  - Gilroy Compassion Center
  - HealthRIGHT 360
  - HomeFirst in Milpitas
  - Life Moves (formerly Commercial Street Inn) in San Jose
  - Mission Possible – Fresh Start GROW
  - New Directions in San Jose
  - Parisi House on the Hill
  - PATH in San Jose
  - Santa Clara Adult Education, which operates programs throughout the County
  - Santa Clara Valley Medical Center, in addition to other patient programs operated via County social services agencies, as described in the previous section.
  - Silicon Valley Salvation Army, which operates programs throughout the County
  - St. Joseph’s Cathedral in San Jose
  - The Health Trust in San Jose
  - Veterans Family Services of Goodwill of Silicon Valley operates programs for veterans countywide, many of whom are people with disabilities.
  - West Valley Community Services

• **West Valley Community Services** also offers a low-cost meal delivery service, Mobile Food Pantry, to clients with low incomes living in Los Gatos, Saratoga, and West San Jose with transportation barriers. Many of their clients may also be people with disabilities.

Older adults have transportation services available from the following organizations:

• **Asian Americans for Community Engagement** provides travel training programs for older adults, which are available Monday – Friday 8:30 A.M. to 2:30 P.M.

---

\(^{30}\) UPLIFT also distributes free transit passes through the following County social services agencies: Behavioral Health Services (BHS), Office of Supportive Housing (OSH), Supplemental Security Income (SSI), Substance Use Treatment Services (SUTS), Valley Homeless Health Program (VHHP), and Victims Services.
• **Avenidas Door to Door** provides assisted, door-to-door transportation in private passenger vehicles with staff drivers for older adults in the north Peninsula who do not have their own transportation and when public transit is not viable. The service is available M-F 8:15 AM to 4 PM. The vehicles can accommodate mobility aids such as canes and walkers, but not wheelchairs. The Door to Door program also provides Lyft concierge service including scheduling, dispatch, and tracking rides for seniors who do not have their own smart phones.

• **CSA** provides meal delivery services for older adults through its Food and Nutrition Center.

• **Day Break Cares**, sponsored by the Catholic Charities of Santa Clara County, serves meals at two sites in Santa Clara County for older adults, and provides transportation to the meals for those who need it.

• **Gilroy Senior Center** provides meal delivery to low-income older adults in Gilroy through its Brown Bag Grocery Program.

• **Heart of the Valley** operates an escorted volunteer driver program for older adults in the West Valley. The program is available for older adults living in Santa Clara, Cupertino, Sunnyvale, Saratoga, Monte Sereno, Los Gatos, Campbell, and the West San Jose zip codes 95117, 95125, 95126, 95128, 95129, and 95130.

• **Indian Health Center of Santa Clara Valley** offers NEMT services to older adults of Native American/Alaska Native ancestry.

• **JFCS RIDES**, a program of Jewish Family and Children’s Services (JFCS) operates a specialized accessible transportation service for people with disabilities and older adults in Mountain View, Palo Alto, and Los Altos. Comprised of volunteer drivers, JFCS vans, and taxi vouchers, JFCS RIDES provides seniors, as well as people with disabilities, transportation to medical and dental appointments, the grocery store, the pharmacy, and other critical errands.

• **Korean American Community Services (KACS)** offers transportation services to older adults using a specialized accessible van service to get to medical appointments, shop for groceries, and complete other typical errands. Transportation services is offered four times a week to several senior subsidized housing developments in Santa Clara County and is limited to Korean-American seniors.

• **Meals on Wheels**, operated by Health Trust, operates countywide and offers meal delivery to older adults with low incomes.

• **Portuguese Organization for Social Services (POSSO)** operates an Escort program for older adults using a specialized accessible van service. This program provides scheduling, transportation, translation and interpretation, as well as advocacy for seniors by trained professionals and volunteers. Most trips are used to assist seniors to attend medical appointments.

• **RoadRunners Transportation** from El Camino Hospital - Mountain View/Los Gatos is a program that operates with volunteers that take older adults to their medical appointments. The appointments do not need to take place at the El Camino Hospital or

---

31 Eligible origins and destinations include Atherton, Belmont, East Palo Alto, Los Altos, Los Altos Hills, Menlo Park, Mountain View, Palo Alto, Portola Valley, Redwood City, San Carlos, Stanford, and Woodside.  
[https://www.avenidas.org/programs/door-to-door/](https://www.avenidas.org/programs/door-to-door/)

32 [https://servicesforseniors.org/services-programs/service-eligibility/](https://servicesforseniors.org/services-programs/service-eligibility/)
be related to treatments at the hospital. The vehicles are not wheelchair accessible. The program operates in Mountain View, Palo Alto, Sunnyvale, Santa Clara, and Cupertino.

- **RYDE** (Reach Your Destination Easily) is a curb-to-curb transportation and local trip planning service for older adults ages 55+ living in the West Valley. RYDE fees are fixed based on the trip distance. RYDE serves the West Valley Communities of Campbell, Cupertino, Los Gatos, Monte Sereno, and Saratoga. RYDE is a joint partnership between West Valley Community Services, Saratoga Area Coordinating Council, Santa Clara County, VTA, and the municipalities of Campbell, Cupertino, Monte Sereno, Los Gatos, and Saratoga.

- **UPLIFT** free/subsidized transit passes, for older adults with very low incomes or at risk of homelessness, as described above, through the following organizations:
  - Community Services Agency (CSA) of Mountain View
  - Community Solutions in Gilroy and Morgan Hill
  - Downtown Streets Team in San Jose
  - Family Supportive Housing in San Jose
  - Gilroy Compassion Center
  - HealthRIGHT 360
  - HomeFirst in Milpitas
  - Life Moves (formerly Commercial Street Inn) in San Jose
  - Mission Possible – Fresh Start GROW
  - New Directions in San Jose
  - Parisi House on the Hill
  - PATH in San Jose
  - Santa Clara Adult Education, which operates programs throughout the County
  - Santa Clara Valley Medical Center, in addition to other patient programs operated via County social services agencies, as described in the previous section.
  - Silicon Valley Salvation Army, which operates programs throughout the County
  - St. Joseph’s Cathedral in San Jose
  - The Health Trust in San Jose
  - Veterans Family Services of Goodwill of Silicon Valley operates programs for veterans countywide, many of whom are people with disabilities.

- **West Valley Community Services** offers a low-cost meal delivery service, Mobile Food Pantry, to clients with low incomes living in Los Gatos, Saratoga, and West San Jose with transportation barriers. Many of their clients may also be older adults.

- **Yu-Ai Kai** operates its own Meals on Wheels program for older adults in west Santa Clara County. The Meals on Wheels program provides hot meals to eligible older adults in the Japantown and Berryessa neighborhoods of San Jose. Additionally, Yu-Ai Kai operates a senior nutrition program, picking up seniors from their homes and escorting them in accessible vans to the Yu-Ai Kai Senior Center where the nutrition program is held. This program is designed for those seniors who are unable to drive and have no other means of transportation.

Youth in foster care have transportation services available from the following organizations:
- **Catalyst for Youth** offers low-income youth ages 12 to 25 free/subsidized transit passes.
- **Transitional Housing Program Plus** from Unity Care supports youth 18 to 25 years old who are emancipated foster youths or on probation to become independent. The program provides an array of services to their clients including free/subsidized transit passes. The program supports young adults throughout the county.
- **UPLIFT** offers free/subsidized transit passes to low-income youth who are at risk of homelessness, as described above, through the following organizations:
  - Community Solutions in Morgan Hill and Gilroy
  - Family Supportive Housing in San Jose
  - Life Moves (formerly Commercial Street Inn) in San Jose

Individuals with serious mental illness and/or medical conditions have transportation services available from the following organizations:

- **Day Center**, sponsored by the Gilroy Compassion Center, operates a weekly accessible van service to medical appointments for people with serious medical conditions and people with disabilities living in Gilroy.
- **HIV/AIDS Services**, sponsored by Health Trust, offers clients with HIV/AIDS free/subsidized transit passes.
- **Road to Recovery**, sponsored by the American Cancer Society, offers clients a volunteer driver program staffed by volunteer drivers who pick up cancer patients at their homes and take them to anything cancer related, including doctor’s appointments, radiation treatments and chemotherapy.
- **UPLIFT** offers free/subsidized transit passes to people with serious mental health or medical conditions who are at risk of homelessness, as described above, through the following organizations:
  - Community Solutions in Morgan Hill and Gilroy
  - Family Supportive Housing in San Jose
  - Life Moves (formerly Commercial Street Inn) in San Jose
  - Santa Clara Valley Medical Center, in addition to other patient programs operated via County social services agencies, as described in the previous section.

Clients with serious medical and/or mental health conditions being released from hospital, jail, or service programs have transportation services available from the following organizations:

- **Destiny Reentry Program**, operated by the Bibleway Christian Center, offers free/subsidized transit passes to formerly incarcerated individuals.
- **Friends Outside** operates the Visitors Center program, which offers specialized van rides between prisons and transit hubs, to facilitate visitations between people in correctional facilities and their loved ones who do not have personal vehicles.
- **UPLIFT** offers free/subsidized transit passes to formerly incarcerated people who are at risk of homelessness, as described above, through the following organizations:
  - Community Solutions in Morgan Hill and Gilroy
  - Santa Clara Valley Medical Center, in addition to other patient programs operated via County social services agencies, as described in the previous section.
Non-risk criminal witnesses and victims of crime have transportation services available from the following organizations:

- **Daughters of Zion Ministries** provides victims of domestic violence with essential needs for themselves and their children such as food, clothing, household supplies, personal hygiene products, and free/subsidized transit passes.

- **Inter-Tribal Council of California** offers victims of domestic violence who identify as Native American transportation to medical and social services appointments through its Family Violence Prevention Program.

- **UPLIFT** offers free/subsidized transit passes to victims of crime, as described above.

Adults on probation have transportation services available from the following organizations:

- **Destiny Reentry Program**, operated by the Bibleway Christian Center, offers free/subsidized transit passes to formerly incarcerated individuals.

- **Friends Outside** operates the Visitors Center program, which offers specialized van rides between prisons and transit hubs, to facilitate visitations between people in correctional facilities and their loved ones who do not have personal vehicles.

### Other Nonprofit Institutions

Several other nonprofit institutions, apart from municipalities or human services transportation providers, offer transportation to the general public. These include the Mountain View Transportation Management Associations (TMAs) of Mountain View and Palo Alto, as well as Stanford University. These transportation services are not oriented specifically to serve any of the populations of interest to this study, though they are open to all. These options include:

- **MVGo** is a free shuttle service operated by the Mountain View TMA that is open to the general public. The shuttles are wheelchair accessible and the service runs on weekdays, with more frequent service during peak periods. Service is primarily between the Mountain View Transit Center and employment centers in North Bayshore and Whisman Station neighborhoods of Mountain View.33

- The **Marguerite Shuttle** is run by Stanford University and serves Palo Alto and Mountain View. Shuttles are free, wheelchair-accessible, and many have bicycle racks.

- The **Palo Alto TMA** offers free transit passes to people working in Downtown Palo Alto with an annual income under $70,000. To receive a

---

33 [https://www.mvgo.org/real-time-tracking.html](https://www.mvgo.org/real-time-tracking.html)
pass, the worker must also live in the “greater Palo Alto area,” currently drive to work by themselves, and agree to take transit at least 3 days a week. Recipients of the passes receive a monthly transit pass from the transit provider of their choice (Caltrain, SamTrans, VTA, or Dumbarton Express). The TMA also provides a Lyft for Short Trips program, in which the TMA will contribute a maximum of $10 to Lyft rides to work for those with annual income under $50,000 working in Downtown Palo Alto, and living in the greater Palo Alto area. People may use this program no more than 15 times a month. This program is intended to supplement transit commutes for times when transit is not viable.

**For-Profit Transportation Providers**

A variety of for-profit providers offer curb-to-curb transportation to populations of interest to this study. These providers include:

- Affordable Senior Care
- Boundless Care
- Envor
- Family Tree Medical Transport
- Fun-n-Go Non-Medical Transport
- Golden Sunshine Staffing & Transportation Services
- Just-Go
- Ken Transportation
- One-Stop Medex
- Silver Rides
- V&B Transportation

3 SUMMARY OF TRANSPORTATION GAPS

The project team has identified a range of unmet transportation needs, as well as mobility challenges accessing existing transportation services for the Transportation Needs Assessment’s communities of interest. These transportation needs and challenges were identified through the study’s previous tasks, including the review of comparable agencies and jurisdictions, stakeholder engagement, as well as extensive community engagement work through numerous focus groups throughout the County and an online community survey. These processes also informed the development of a variety of transportation strategies and investments that are likely to be effective in addressing these populations’ unmet needs and challenges. Some of these strategies leverage local stakeholder expertise and institutional capacities, while others recommend developing new services based on the experience of other, comparable agencies and jurisdictions. The following memorandum presents each of the identified transportation needs and mobility challenges of the study’s populations of interest in its first section. It follows with a range of potential strategies and investments aimed at resolving these challenges and improving mobility for these communities.

COMMUNITY AND STAKEHOLDER ENGAGEMENT

The following section describes the methodology and key findings from community and stakeholder engagement processes undertaken as part of the Study. The full results of these processes – including profile of community survey respondents, typical transportation modes and needs, and priorities and recommendations – are displayed in the Appendix.

As stated previously, the six key populations identified for this assessment (which have significant overlap between them) are as follows. Note that the letters are used throughout to refer to each population.

- Population A, foster youth.
• Population B, people with serious mental illness and/or medical conditions accessing County services.
• Population C, people with serious mental illness and/or medical conditions who have been released from County jail, County hospital, or community-based service programs.
• Population D, older adults and people with disabilities.
• Population E, non-risk criminal witnesses and victims of crime.
• Population F, adults on probation.

Methodology

Stakeholder Interviews

The consultant team conducted twelve stakeholder interviews with thirteen stakeholders with expertise working with the key populations. The stakeholders who were interviewed and their agency/department are listed in Figure 3-1, with the aligned key populations noted.

Community Survey

The consultant team collected 795 surveys but excluded 61 because they either reported living outside of Santa Clara County or were not part of any of the six key populations. Overall, 734 surveys were included in the analysis.
WHAT’S WORKING

Identified via Community Survey

As shown on the following page, half of all survey respondents and at least two out of five survey respondents in each key population reported that the County agencies/programs with which they interact had helped them navigate transportation options.

Figure 3-3 The County agencies/programs that I interact with have helped me figure out transportation.

Identified via Focus Groups

While the transportation system could still be improved in many ways, many focus group participants shared that the County, and especially San Jose, has good public transportation options that they can use to get where they need to go (with appropriate planning).

Focus group participants identified the following positive aspects of public transportation:

- VTA buses now have Wi-Fi/wireless internet.
- The bus schedule is usually very reliable, especially if you use the app to plan when you need to leave to catch the bus.
- Emergency procedures are well-marked on public transit.
- Many bus drivers are friendly.

One of the participants in the Reentry Resource Center focus group also expressed appreciation that they had been able to ride the buses overnight when they had been homeless, which that person felt was safer than other options.

Older adults and people with disabilities who use VTA Access paratransit shared that phone access to paratransit has improved somewhat and that many Access drivers are “fantastic.”

Valley Medical Center patients shared that taxi vouchers/reimbursements provided through Medi-Cal were very helpful in getting to and from doctor appointments. They also were excited that they can also be used to get to doctor-recommended wellness programs (e.g., swimming to rebuild strength post-surgery).
Focus group participants with limited vision reported that their phone’s GPS and auditory directions were very helpful and have prevented them from getting lost.

People also expressed appreciation for the 15-minute window allowed for Santa Clara Valley Medical Center appointments, as that has sometimes kept them from missing an appointment when the VTA buses are running behind schedule and/or traffic is worse than usual.

**Identified via Stakeholder Interviews**

Stakeholders who were interviewed expressed appreciation for the transportation services and supports (e.g., bus tokens, UPLIFT bus passes, taxi vouchers) that are currently available to clients, patients, and community members. They also reported that the available services and supports are often provided inconsistently and without a clear system because they are such limited resources compared to the level of need. They also highlighted the following when asked what is currently working well to support the key populations.

Santa Clara Valley Medical Center supports people in Population B, people with serious mental illness and/or medical conditions accessing County services, by:

- Transporting some clients (e.g., people in the homeless program, patients with serious mental illness) to and from appointments—or at least picking them up and bringing them to appointments.
- Providing valet parking so patients can save time parking and avoid needing to walk between the parking garage and Medical Center.
- Providing schedules for nearby VTA bus routes at hospitals and some clinics (sometimes via an electronic kiosk).

In addition to the support available to Population B, the County supports Population C, people with serious mental illness and/or medical conditions released from County jail, County hospital, or community-based services by:

- Locating multiple services at a single site (the Reentry Resource Centers) reduces the number of places clients need to visit and the time required to travel to those destinations.
- Having community workers enroll inmates in programs and/or services before their release both help ensure that the inmates access those resources and reduce the trips they need to take after being released to enroll in certain benefits.
- Providing a delivery service for prescriptions to a few community-based providers that work with people with serious mental illness who have been released from County jail.

Stakeholders reported that for people in Population D, older adults and people with disabilities, who qualify for VTA Access paratransit, it is an effective transportation service. This is especially true for people who live in urban parts of the County.

**TOP TRANSPORTATION CHALLENGES**

Half of survey respondents identified the cost of transportation as one of their top three transportation challenges. The distance between one’s home and public transit stop or hub (the “first mile” dilemma) and the distance between one’s destination and the nearest transportation stop (the “last mile” dilemma) were the next most commonly identified transportation challenges. These challenges align with two of the top three factors that survey respondents considered most important for determining how they got somewhere: cost and the first/last mile dilemma.
One in five survey respondents identified each of the following in their top three challenges: not being able to make same-day transportation plans, traveling outside of Santa Clara County, and physical inaccessibility of a vehicle/mode.

Between 13% and 16% of respondents identified these as their top challenges: language barriers, making evening trips, making weekend trips, making early morning trips, and physical barriers near one’s destination or starting point.

**Figure 3-4 Top Transportation Challenges (n = 670)**

1. **Half** of survey respondents identified the **cost of transportation** as one of their top three transportation challenges.

2. **First-mile and last-mile connection problems** were the next most commonly identified transportation challenges.
While the cost of transportation and the first/last mile dilemma were consistently the top two challenges for all key populations, the next most common transportation challenges varied by key population.

Twenty-eight percent of respondents from Population A, youth in foster care (n=18), identified making early morning trips, making weekend trips, and physical barriers near destination or starting point in their top three transportation challenges. Twenty-two percent of respondents identified needing to make transportation plans one or more day in advance in their top three transportation challenges.

The next most common transportation challenges for respondents in Populations B, people with serious mental illnesses and/or medical conditions accessing County services (n=529), C, clients with serious medical and/or mental health conditions being released from County jail, County hospital, or community-based service programs (n=128), and D, older adults and people with disabilities (n=577) were:

- Needing to make transportation plans one or more days in advance/their inability to make same-day transportation plans (22% for B, 23% for C, 19% for D),
- Traveling outside Santa Clara County (22% for B, 23% for C, 19% for D), and
- Physical inaccessibility of the vehicle (20% for B, 23% for C, 21% for D),

Between 20% and 22% of respondents from Population E, non-risk criminal witnesses and victims of crime (n=86), identified making evening trips, physical barrier near their destination or starting point, and traveling outside of Santa Clara County in their top three transportation challenges.

Twenty-seven percent of respondents from Population F, adults on probation (n=95), identified needing to make transportation plans one or more day in advance (in other words, their inability to make same-day transportation plans) in their top three transportation challenges, while 18% identified physical barriers near transportation and another 18% identified the physical inaccessibility of the vehicle in their top transportation challenges.
Additional information that focus group participants shared about these and other transportation challenges is presented in the Appendix. That section discusses the following challenges:

- Cost / Affordability
- Time/Distance Challenges
- Safety
- Physical Accessibility
- East of Use and Overall User-Friendliness

**IMPACT OF TRANSPORTATION CHALLENGES**

**Ability to Get to Key Destinations**

Between 13% and 26% of respondents in each population reported not being able to get where they need to go.

Figure 3-6  I am able to get to the destinations where I need to go.

</tbody>
</table>

**Hard-to-Reach Destinations**

Survey respondents also identified the five places that are most difficult for them to get to (of those locations they visit at least once a month). Overall (n=608), three out of five (61%) respondents selected a clinic or hospital; half (51%) identified a community, senior, or family resource center; and one-third (32%) identified other government facilities/offices amongst their top five most challenging regular destinations. One out of four (25%) identified counseling, therapy, or substance use treatment as one of their most challenging regular destinations, and one out of five (19%) identified their workplace as one of their most hard-to-get-to destinations.
Respondents in Populations C, clients with serious medical and/or mental health conditions being released from County jail, County hospital, or community-based service programs (n=123), E, non-risk criminal witnesses and victims of crime (n=82), and F, adults on probation (n=89), were the most likely to select a homeless/domestic violence shelter or temporary housing (43%, 29%, and 26%, respectively) as one of their most challenging frequent destinations.

Additionally, respondents in Population F, adults on probation (n=89), were more likely than those in other populations to identify the following places in their top five hard-to-get-to regular destinations:

- Counseling, therapy, or substance use treatment (39%)
- Courthouse (34%)
- Probation Department (29%)
- Jail or detention facility (11%).

Focus group participants specifically identified the following places as being particularly challenging for them to visit:

- Places outside of Santa Clara County (especially Redwood City for people who use VTA Access paratransit or taxi vouchers paid for by MediCal)
- Veteran’s Administration (VA) Clinic in Palo Alto
- Family Court in San Jose (First Street)
- Criminal Courts (San Jose location on West Hedding and Morgan Hill location)
- Places outside of San Jose
- Downtown San Jose
- Eastside of San Jose
The main Social Services Agency offices (Centre Road, San Jose). Some participants also noted that the Santa Clara Valley Medical Center is currently difficult for them to get to due to construction that has obstructed the sidewalks.

Effectiveness of Transportation Services at Meeting County Goals

Overall, 5% of all respondents reported that, in the past year, they have nearly always missed appointments because of transportation challenges – and more than twice the percentage of respondents in Populations A, E, and F reported this. Overall, one in four respondents (24%) reported occasionally missing appointments in the past year because of transportation challenges. Again, the percentage of respondents in Populations A, E, and F were higher than respondents overall or respondents in other key populations.

Figure 3-8 Reported Frequency of Missing Appointments due to Transportation Challenges (past 12 months)

Both stakeholders and focus group participants shared some of the ways that the lack of transportation services can contradict specific that the County has, including preventing unnecessary costs. Examples that people shared included:

- The cost of having a County employee accompany and provide an in-person “warm handoff” for someone with serious mental illness released from jail to a treatment facility requires less funding than having the person be released with a taxi voucher who does not end up going into the treatment facility and as a result returns to jail within a few weeks.
- Providing transportation to low-income residents with serious medical conditions for follow-up appointments and targeted wellness programming can help prevent costly emergency care.
In addition to reducing overall costs that the County bears, expanded transportation services or resources could support some of the County’s programmatic goals. Some of the examples people shared included:

- Reducing recidivism for adults on probation.
- Increasing family reunification for children and youth in foster care.
- Increasing medication adherence for people with serious mental illness.
4 RECOMMENDED STRATEGIES

A summary of identified transportation challenges or gaps and the recommended strategies to help address these gaps is provided in Figure 4-1. Taken together, the strategies cover a broad and interconnected range of actions to improve mobility in a variety of ways for the study’s key populations. The recommended strategies are numbered and classified as either “Tier I” or “Tier II.” Tier I strategies are those which provide a high transportation benefit, have good community support (as indicated by the community engagement process of this study), leverage existing agency programs or resources, and can be implemented in stages or have a lower total cost, making them more likely to be successfully implemented. Tier II strategies may rank high in one or more categories, but may serve relatively few people, be prohibitively expensive under current fiscal conditions, or may be more challenging to implement. Detailed summaries of key Tier I strategies are included following Figure 4-2.

Figure 4-1 Transportation Gaps and Recommended Strategies

<table>
<thead>
<tr>
<th>Tier (I or II)</th>
<th>Transportation Gap</th>
<th>Strategy #</th>
<th>Strategy Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>No single agency or person in County Executive’s Office (CEO) has been identified as responsible for coordinating transportation services and materials across the county.</td>
<td>1</td>
<td>Work with MTC to designate the County as (or identify a contractor to be designated as) a Consolidated Transportation Service Agency (CTSA).</td>
</tr>
<tr>
<td>I</td>
<td>Transit and paratransit are not affordable for many key populations</td>
<td>2</td>
<td>Create a Mobility Manager position to oversee countywide transportation services and programs. The Mobility Manager, along with a representative from the County Executive’s Office, should meet with VTA to confirm implementation of countywide transportation strategies.</td>
</tr>
<tr>
<td>I</td>
<td>Quantify the financial impacts (i.e. potential revenue loss) of removing VTA’s transfer fare for cash-paying customers. Free transfers are only available for customers who pay with Clipper.</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>Tier (I or II)</td>
<td>Transportation Gap</td>
<td>Strategy #</td>
<td>Strategy Description</td>
</tr>
<tr>
<td>----------------</td>
<td>---------------------</td>
<td>-----------</td>
<td>----------------------</td>
</tr>
<tr>
<td>II</td>
<td>(also served by Strategies 1, 2, 8, 9, 11, 23, and 30)</td>
<td>4</td>
<td>Work with MTC to offer low-income fare subsidies on VTA fixed-route services</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>5</td>
<td>Consider subsidies for VTA’s same-day paratransit option (for riders eligible for Access)</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>6</td>
<td>Expand the UPLIFT transit pass program – to low-income seniors, people with disabilities, etc. – to a broader range of community organizations. (e.g. senior nutrition centers, libraries). Currently, only very-low-income clients who are either homeless or at risk of homelessness and receiving assistance from nonprofits approved through County HMIS may qualify for UPLIFT</td>
</tr>
<tr>
<td>I</td>
<td>Some riders may have difficulty understanding and using public transit service, particularly limited-English-proficiency (LEP) communities</td>
<td>7</td>
<td>Ensure VTA website/materials are easily comprehensible and user-friendly to limited English speakers. Ensure that all transportation options have digital and auditory announcements of stops and routes, and that these announcements are consistently turned on.</td>
</tr>
<tr>
<td>II</td>
<td>Lack of frequent transportation services (especially transit) to some highly-utilized destinations (e.g. V.A. Hospital, SCVMC, Stanford Medical Center, social services offices, veterans centers, Elmwood Correctional Facility) (also served by Strategies 11, 20, 28, and 29)</td>
<td>8</td>
<td>Explore shuttle service funding partnerships with municipalities and major employers, to supplement existing transit service levels</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>9</td>
<td>Consider VTA partnerships with ride-hailing companies for lowest-density or hard-to-serve areas.</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>10</td>
<td>Ensure clients at Elmwood Correctional Facility have transportation provided to County Superior Court and other agencies for services.</td>
</tr>
<tr>
<td>I</td>
<td>Many clients earn too much to qualify for means-tested NEMT programs provided under Medi-Cal, and there is a need for expanded options for payment assistance to deal with income eligibility issues.</td>
<td>11</td>
<td>Consider expanding the availability of taxi vouchers and transit passes through HHS and Criminal Justice programs</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>12</td>
<td>Conduct additional research to prioritize sites that are most impacted by VTA service reductions, and evaluate feasibility of group trips to those sites.</td>
</tr>
<tr>
<td>I</td>
<td></td>
<td>13</td>
<td>Supplement Medi-Cal taxi options with Uber/Lyft, GoGo Grandparent, or Silver Ride (in accessible vehicles)</td>
</tr>
<tr>
<td>I</td>
<td>People do not have transportation support to reach follow up appointments before paratransit is approved (21-day period)</td>
<td>14</td>
<td>Offer interim paratransit eligibility to people with serious medical conditions (e.g. Redi-Wheels emergency eligibility in San Mateo County) Alternatively, offer subsidized Uber/Lyft rides in accessible vehicles (see Strategy 2 or 13)</td>
</tr>
<tr>
<td>I</td>
<td></td>
<td>15</td>
<td>Establish hospital discharge program that assists with paratransit application and ride (a specialized travel training program for hospital discharges)</td>
</tr>
<tr>
<td>Tier (I or II)</td>
<td>Transportation Gap</td>
<td>Strategy #</td>
<td>Strategy Description</td>
</tr>
<tr>
<td>--------------</td>
<td>-------------------------------------------------------------------------------------</td>
<td>------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>II</td>
<td>Many communities often need to travel outside of the County, and existing transportation options may only offer assistance for County transportation (e.g. VTA)</td>
<td>16</td>
<td>Offer cash value on Clipper Card to ensure seamless regional transit access, instead of transit passes limited to a single agency</td>
</tr>
<tr>
<td>I</td>
<td>There is low awareness in some communities of how to get transit passes</td>
<td>17</td>
<td>Develop training materials for caseworkers, correctional rehabilitation officers about transportation programs available to their clients (e.g. transit passes, ADA paratransit, TNC subsidies, etc.)</td>
</tr>
<tr>
<td>I</td>
<td></td>
<td>18</td>
<td>Client awareness campaign – marketing of new and existing transportation programs they can access</td>
</tr>
<tr>
<td>II</td>
<td>Family members are burdened by transportation costs incurred by caring for key populations</td>
<td>19</td>
<td>Provide transportation assistance (e.g. transit passes, gas cards) to verified low-income family members for key populations</td>
</tr>
<tr>
<td>I (also served by Strategies 8, 11, 12, 13, and 23)</td>
<td></td>
<td>20</td>
<td>Establish volunteer driver program that offers mileage reimbursement for drivers</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>21</td>
<td>Set up “Wheels to Work” program for automotive loans, insurance, and/or repairs (preferable if zero-emissions, due to statewide GHG goals)</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>22</td>
<td>Evaluate viability of car share programs designed for low-income communities</td>
</tr>
<tr>
<td>II</td>
<td>First/last-mile gaps – There is a need for better local connections to transit hubs, especially for people with limited mobility (also served by Strategies 8, 9, 11, and 20)</td>
<td>23</td>
<td>Expand bike share programs designed for low-income people – e.g. Bay Wheels, with options for e-bikes or adaptive bikes</td>
</tr>
<tr>
<td>II</td>
<td>There is a need for expanded range of transportation options for victims of crime</td>
<td>24</td>
<td>Expand funding for taxi vouchers, TNC rides, UPLIFT transit passes to organizations serving victims of crime while under case management</td>
</tr>
<tr>
<td>II</td>
<td>Some focus group participants expressed a need for updated VTA driver training related to working with people with disabilities and people with SMI</td>
<td>25</td>
<td>Ensure greater transparency between transportation providers and clients about their driver training programs, and how to report issues</td>
</tr>
<tr>
<td>II</td>
<td>Some VTA riders are applying for paratransit eligibility just to get a free transit pass</td>
<td>26</td>
<td>Clarify VTA Access eligibility requirements to discourage unqualified applications, reduce VTA’s administrative expense</td>
</tr>
<tr>
<td>II</td>
<td>Bus stop features and amenities need improvement in many locations</td>
<td>27</td>
<td>Work with VTA and Public Works to evaluate improvements to bus stop amenities at high-ridership locations (e.g. lighting, safer pedestrian crossings, trash receptacles, real-time info. displays)</td>
</tr>
<tr>
<td>II</td>
<td>Social service offices are often located in “transit deserts”</td>
<td>28</td>
<td>Explore regulatory incentives to encourage agencies to locate in transit-friendly locations</td>
</tr>
<tr>
<td>Tier (I or II)</td>
<td>Transportation Gap</td>
<td>Strategy #</td>
<td>Strategy Description</td>
</tr>
<tr>
<td>---------------</td>
<td>---------------------</td>
<td>------------</td>
<td>----------------------</td>
</tr>
<tr>
<td>I</td>
<td></td>
<td>29</td>
<td>Provide more private vehicles to community-based organizations to transport their clients. Nonprofits can use the same mileage-reimbursement model as the TRIP volunteer driver program (strategy 20).</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>30</td>
<td>Reduce the number of trips and/or amount of effort needed for trips (when possible)—including by locating services near other key destinations and in areas served by transit.</td>
</tr>
<tr>
<td>II</td>
<td>People with serious mental illness (SMI) upon release from jail are released without sufficient information to get needed transportation for meds/services</td>
<td>31</td>
<td>Transportation Navigator program to assist people with SMI.</td>
</tr>
<tr>
<td>I</td>
<td>When a client is released close to 5pm, some Reentry Resource Centers are closed and they have to rely on community-based organizations — some correctional facilities interpret release times literally</td>
<td>32</td>
<td>Expand access to transit for people recently released from County jail or state prison.</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>33</td>
<td>Leverage community-based organizations to improve transportation options for clients upon their release, such as Stanford University’s Ride Home program.</td>
</tr>
<tr>
<td>II</td>
<td>People under 18 cannot participate in many mobility options due to age restrictions (e.g. Uber/Lyft, bike share), and they typically have limited access to private cars and credit/debit cards</td>
<td>34</td>
<td>Consider a student transit pass program modeled after the Alameda County program.</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>35</td>
<td>Consider a program to ensure school continuity when family placement changes, like the one in LA County that uses caregiver mileage reimbursement, student transit passes, and ride-hailing (for students) with HopSkipDrive.</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>36</td>
<td>Consider a program to improve transportation options for parents in court-ordered reunification plans (e.g. VTA transit passes, with some ride-hailing).</td>
</tr>
<tr>
<td>I</td>
<td>Lack of affordable same-day options to book a ride from paratransit and taxis for people on Medi-Cal</td>
<td>37</td>
<td>Work to develop an affordable, agency-operated on-demand transit option for non-emergency medical and wellness services.</td>
</tr>
<tr>
<td>II</td>
<td></td>
<td>38</td>
<td>Introduce subsidized ride-hailing pilot for NEMT.</td>
</tr>
</tbody>
</table>
The consulting team developed evaluation criteria that were selected based on a combination of factors:

- They reflect the objectives of the Transportation Needs Assessment.
- They reflect criteria that have been used in other Community-Based Transportation Plans in the Bay Area.

The criteria used to evaluate the solutions proposed are as follows:

**Funding and Cost Criteria**

**Cost:** Is the overall cost within a range that can realistically be funded with available and potential sources, taking into account grants from the private or public sector or user fares/fees?

**Cost per beneficiary:** A broad range of few-to-many beneficiaries is compared to the cost of a program. Even if a program’s total cost is low, if it reaches very few people it might still have a high cost per beneficiary. This would not necessarily eliminate a project from consideration if it ranked highly on other criteria. Similarly, even though a program’s total cost is high; if it reaches many people it might still have a low cost per beneficiary.

**Funding availability and sustainability:** To the degree possible, strategies and related projects should have stable sources of funding to cover day-to-day operations and to provide matching funds required for federal and state grants. In the case of pilot, demonstration, or capital projects, there should be a reasonable likelihood of continued funding for operations. It is recognized that continued funding can never be guaranteed, as it is subject to budget processes, as well as the decisions and priorities of funders.

**Leveraging resources:** It is desirable for strategies and projects to help tap into other funding sources, especially new sources not previously available. Displacing existing funding is discouraged.

**Transportation Benefits Criteria**

**Number of key populations served:** Strategies that address multiple problems and serve multiple customer groups and trip purposes are preferred.

**Number of beneficiaries:** In general, improvements that benefit more people are preferred to those that benefit few. However, the needs of relatively small groups might be considered particularly critical based on criteria under the heading “Community.”

**Unserved needs:** Projects are preferred that address gaps left by other services rather than duplicating, overlapping with, or competing with other services. Note that the relative importance of various needs is a matter for local priorities as addressed under “Community.”

**Measurable benefits:** As much as possible, there should be ways to measure how a strategy is benefiting target groups, whether in terms of numbers of people served, numbers of trips provided, improved measures of service quality, etc.

**Implementation Criteria**

**Staffing:** Would the County or other sponsoring agencies need to hire additional staff to implement the project?
Technology: Does the sponsoring agency need to procure additional software or technology to implement the project?

Training: Do staff at sponsoring agencies need additional training to effectively carry out the project?

Implementation timeline: Strategies that will produce results quickly are preferred, as long as they are also sustainable. Projects with long-term payoffs should have some form of measurable accomplishments in the short run.

Examples: Have other, similar-sized jurisdictions completed comparable projects that can advise the County’s efforts?

Coordination: Strategies that involve coordination, for example among multiple organizations.

The consultant team applied the above criteria to the strategies based on the information gathered from the community engagement process and from existing transportation services. While the evaluation includes a mix of qualitative and quantitative factors, the overall review is necessarily somewhat subjective based on the community context and the consultant’s experience.

Figure 4-2 provides a list of recommended Tier 1 and Tier 2 strategies.
## Transportation Strategies: Implementation Details and Program Parameters

<table>
<thead>
<tr>
<th>Tier (I or II)</th>
<th>Strategy #</th>
<th>Strategy Description</th>
<th>Implementation Details</th>
<th>Key Populations Served</th>
<th>Program Parameters</th>
</tr>
</thead>
<tbody>
<tr>
<td>I 1</td>
<td>Work with MTC to designate the County as (or identify a contractor to be designated as) a Consolidated Transportation Service Agency (CTSA).</td>
<td>The Metropolitan Transportation Commission (MTC) can designate a CTSA for Bay Area counties. Previously Outreach &amp; Escort had been a designated CTSA in Santa Clara County.</td>
<td>All</td>
<td>CTSA’s are required to submit Action Plans to the CA Legislature. Plans are intended to reflect the strengths of existing services, correcting deficiencies and maximizing transportation benefits possible through coordination and/or consolidation of services.</td>
<td></td>
</tr>
<tr>
<td>I 2</td>
<td>Create a Mobility Manager position to oversee countywide transportation services and programs.</td>
<td>At minimum it would be 1 full-time job for coordination of transportation services (e.g., overseeing transportation navigator and overseeing implementation plan). The Mobility Manager, along with a representative from the County Executive’s Office, should meet with VTA to confirm implementation of countywide transportation strategies.</td>
<td>All</td>
<td>This position could be located within the County Executive’s Office (CEO) or within another department/agency (e.g., Fleet &amp; Facilities)</td>
<td></td>
</tr>
<tr>
<td>I 3</td>
<td>Quantify the financial impacts (i.e. potential revenue loss) of removing VTA’s transfer fare for cash-paying customers. Free transfers are only available for customers who pay with Clipper.</td>
<td>Work with VTA on eliminating transfer penalty for cash-paying customers, digital/auditory announcements, service redesign</td>
<td>D</td>
<td>Coordinate a fare evaluation to study impacts of removing transfer fare for cash-paying customers</td>
<td></td>
</tr>
<tr>
<td>I 7</td>
<td>Ensure VTA website/materials are easily comprehensible and user-friendly to limited English speakers</td>
<td>Conduct an annual post-hoc public rider survey about the readability of VTA materials for limited English speakers, especially with respect to VTA’s Next Network service changes. Typically surveys ask riders if the website, schedules, maps, timetables, etc. are easy to understand. Ensure that all transportation options have digital and auditory announcements of stops and routes, and that these announcements are consistently turned on.</td>
<td>D</td>
<td>VTA appears to have robust processes to ensure Title VI compliance. See Next Network Transit Service Equity Analysis (2016), Limited English Proficiency Plan (2016) - ensure these are regularly updated after the rollout of Next Network.</td>
<td></td>
</tr>
<tr>
<td>I 11</td>
<td>Expand availability of taxi vouchers and transit passes through HHS and Criminal Justice programs</td>
<td>Work with HHS, Criminal Justice programs to distribute taxi vouchers, transit passes, TNC ride codes/reservations</td>
<td>B, C, D, F</td>
<td>Increase funding for caseworkers, discharge planners who distribute taxi vouchers, VTA transit passes, TNC credits/vouchers directly to low-income clients who earn too much to qualify for Medi-Cal (ex. HH incomes $25K - $50K)</td>
<td></td>
</tr>
<tr>
<td>I 13</td>
<td>Supplement Medi-Cal taxi options with Uber/Lyft, GoGoGrandparent, or Silver Ride (in accessible vehicles)</td>
<td>Work with Silver Ride, GoGoGrandparent, Uber, or Lyft to supplement Medi-Cal taxi options with wheelchair accessible vehicles</td>
<td>B, D</td>
<td>Enroll VMC and other HHS facilities in Uber Health/Lyft Concierge options for patients who need transportation assistance</td>
<td></td>
</tr>
<tr>
<td>I 14</td>
<td>Offer interim paratransit eligibility to people with serious medical conditions (e.g. Redi-Wheels emergency eligibility in San Mateo County)</td>
<td>Work with the VTA Advisory Committee for advocacy VMC trains discharge planners on application requirements for interim ADA paratransit eligibility; provides travel training to clients; and coordinates same-day transportation (see Strategies 1, 11, or 13)</td>
<td>B, D</td>
<td>Focus on the largest underserved medical facilities, like the smaller VMC campuses, for the hospital discharge program Work with VTA Access to define terms of interim paratransit eligibility</td>
<td></td>
</tr>
<tr>
<td>I 15</td>
<td>Establish hospital discharge program that assists with paratransit application and ride (a specialized travel training program for hospital discharges)</td>
<td>All County social services agencies create updated training materials for caseworkers and other client-facing staff focusing on the range of available transportation options</td>
<td>B, C, D, E, F</td>
<td>Assist agencies like Reentry, VMC, DA, BHS, SSA by developing materials on the transit pass options available to clients - print, physical signage, web, social media, etc.</td>
<td></td>
</tr>
<tr>
<td>I 17</td>
<td>Develop training materials for caseworkers, correctional rehabilitation officers about transportation programs available to their clients (e.g. transit passes, ADA paratransit, TNC subsidies, etc.)</td>
<td>All</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Tier (I or II)</td>
<td>Strategy #</td>
<td>Strategy Description</td>
<td>Implementation Details</td>
<td>Key Populations Served</td>
<td>Program Parameters</td>
</tr>
<tr>
<td>--------------</td>
<td>------------</td>
<td>----------------------</td>
<td>------------------------</td>
<td>------------------------</td>
<td>--------------------</td>
</tr>
<tr>
<td>I</td>
<td>18</td>
<td>Client awareness campaign – marketing of new and existing transportation programs they can access</td>
<td>All County social services agencies initiate client-oriented marketing campaigns</td>
<td>B, C, D, E, F</td>
<td></td>
</tr>
<tr>
<td>I</td>
<td>20</td>
<td>Establish volunteer driver program that offers mileage reimbursement for drivers</td>
<td>Focus on seniors/people with disabilities who have transportation challenges - i.e. no transit available where they live or mobility challenges</td>
<td>D</td>
<td>Allow seniors/people with disabilities to apply for ride assistance or via referrals from caseworkers, neighbors. Riders can recruit their own volunteer drivers. Rides scheduled between riders/drivers as mutually convenient. Rides provided in drivers’ personal vehicles - no restrictions on origins/destinations, available 24/7. Free to passengers, but offer drivers mileage reimbursement - could be distributed through ride-matching platforms like Waze Carpool or Ride Amigos.</td>
</tr>
<tr>
<td>I</td>
<td>29</td>
<td>Provide more private vehicles to CBOs to transport their clients</td>
<td>Nonprofits can use the same mileage-reimbursement model as the TRIP volunteer driver program (strategy 20)</td>
<td>All</td>
<td></td>
</tr>
<tr>
<td>I</td>
<td>32</td>
<td>Expand access to transit for recently incarcerated people</td>
<td>Work with VTA to allow jails/prisons to provide UPLIFT passes valid for 60 days, until they can reinstate their driver’s license, apply for paratransit, or purchase other transit passes.</td>
<td>C</td>
<td>This strategy would help address CHAVEZ remedial plan/Federal Consent Decree</td>
</tr>
<tr>
<td>I</td>
<td>37</td>
<td>Work to develop an affordable, agency-operated on-demand transit option for non-emergency medical and wellness services</td>
<td>Consider working with VTA to apply for “Rides to Wellness” funding to develop same-day non-emergency medical transportation options. Could be part of Mobility Access Program (MAP) demand-response option, or also Guaranteed Ride Home - for seniors/disabled/low-income</td>
<td>B, D</td>
<td>Agency-operated, eligibility limited to clients of participating nonprofit orgs during pilot, then expanding to general public</td>
</tr>
<tr>
<td>II</td>
<td>4</td>
<td>Work with MTC to offer low-income fare subsidies on VTA fixed-route services</td>
<td>MTC is exploring low-income fare subsidies as part of its regional fare consolidation/next-gen Clipper work (youth, seniors and people with disabilities already get discounted fares)</td>
<td>B, C, E, F</td>
<td>Study fare subsidies for riders with low incomes. Eligibility threshold could be 200% FPL based on household size, for riders ages 19 to 64. Enrollment locations could include colleges/universities, community health clinics, libraries, shopping centers, social services offices, etc.</td>
</tr>
<tr>
<td>II</td>
<td>5</td>
<td>Consider subsidies for VTA’s same-day paratransit option (for riders eligible for Access)</td>
<td>SSA’s Senior Nutrition program already subsidizes some trips through non-profits, so there’s a disincentive for VTA to subsidize other trips - see if this option is available for Measure B funding</td>
<td>D</td>
<td>Offer means-tested subsidies for Access-eligible riders on premium, same-day ride requests</td>
</tr>
<tr>
<td>II</td>
<td>6</td>
<td>Expand UPLIFT model – to low-income seniors, people with disabilities, etc. – to a broader range of community orgs. (e.g. senior nutrition centers, libraries) – current eligibility: casework with nonprofits for low-income and/or homeless people, processed through County HMIS</td>
<td></td>
<td>D</td>
<td>Existing range of UPLIFT orgs shown in pp. 36-37 of Existing Conditions Report</td>
</tr>
<tr>
<td>II</td>
<td>8</td>
<td>Explore shuttle service funding partnerships with municipalities and major employers, to supplement existing service levels</td>
<td>Continue to increase coordination across departments/agencies/CBOs that serve the same populations/communities to achieve greater efficiency in transportation resources. Create custom maps/guides for each major destination including frequency, service hours, fare info, customer service #s, ADA, eligibility for other programs - themed for reentry, SMI individuals, disabilities</td>
<td>B, D, F</td>
<td>Employer/municipality pays 1/3 of the cost of new or additional service, while VTA pays 2/3. Look for major employers or municipalities in/near the high-demand destinations, such as: VMC, Veterans Services - Santana Row, Westfield VA Hospital (Palo Alto) - Stanford Research Park SUMC - Stanford Shopping Center Elmwood Correctional Center - Cisco</td>
</tr>
<tr>
<td>Tier (I or II)</td>
<td>Strategy #</td>
<td>Strategy Description</td>
<td>Implementation Details</td>
<td>Key Populations Served</td>
<td>Program Parameters</td>
</tr>
<tr>
<td>--------------</td>
<td>------------</td>
<td>----------------------</td>
<td>------------------------</td>
<td>------------------------</td>
<td>--------------------</td>
</tr>
<tr>
<td>II 9</td>
<td>Provide VTA schedules, rider info in all social services, govt offices, etc.</td>
<td>Continue to increase coordination across departments/agencies/CBOs that serve the same populations/communities to achieve greater efficiency in transportation resources</td>
<td>B, D, F</td>
<td>Have social services highlight their most in-demand destinations, and show VTA info for the routes/hours that connect them (e.g. VA hospital linked to veterans affairs office, hospitals linked to smaller clinics, jails linked to court system...)</td>
<td></td>
</tr>
<tr>
<td>II 10</td>
<td>Ensure clients at Elmwood Correctional Facility have transportation provided to County Superior Court and other agencies for services.</td>
<td>Examine potential for supplement (e.g. small circulator connecting jail to light rail on Tasman Drive)</td>
<td>C</td>
<td>See ride-hail strategy in 2 or finance late-night shuttle to Reentry Center (see strategy 8)</td>
<td></td>
</tr>
<tr>
<td>II 12</td>
<td>Conduct additional research to prioritize sites that are most impacted by VTA service reductions, and evaluate feasibility of group trips to those sites.</td>
<td>Begin with the largest meal sites (participants), most likely to drive-alone (from Existing Conditions report)</td>
<td>D</td>
<td>Funding partnerships with municipalities and major employers to increase service available on shared ride services to congregate meal sites</td>
<td></td>
</tr>
<tr>
<td>II 16</td>
<td>Offer cash value on Clipper Card to ensure seamless regional transit access, instead of transit passes limited to a single agency</td>
<td>Work with MTC, since they're already pursuing means-based fare program and Clipper 2.0, fare consolidation东</td>
<td>A, B, C, D, E, F</td>
<td>Clipper Card distribution could be prioritized for agencies whose clients have common regional travel needs (e.g. Reentry), older adults, people with disabilities Work with MTC to encourage fare reciprocity between transit agencies to reduce transfer fares Focus on transfers between VTA/SamTrans (highest priority), VTA/Caltrain, and VTA/BART (longer-term)</td>
<td></td>
</tr>
<tr>
<td>II 19</td>
<td>Provide transportation assistance (e.g. transit passes, gas cards) to low income family members for key populations</td>
<td>Coordinate with SSA</td>
<td>B, C, D, F</td>
<td></td>
<td></td>
</tr>
<tr>
<td>II 21</td>
<td>Set up a “Wheels to Work” program, for automotive loans, insurance, and/or repairs to support client employment or job training (preferable if zero-emissions, due to statewide GHG emissions reduction goals)</td>
<td>Incorporate zero emissions vehicles as part of any of these programs</td>
<td>C, D, F</td>
<td>Program participants should be employed or enrolled in job training program to be eligible</td>
<td></td>
</tr>
<tr>
<td>II 22</td>
<td>Evaluate viability of car share programs designed for low-income communities</td>
<td></td>
<td>C, D, F</td>
<td></td>
<td></td>
</tr>
<tr>
<td>II 23</td>
<td>Expand bike share programs designed for low-income people – e.g. Bay Wheels, options for e-bikes</td>
<td>Work with Bay Wheels to focus on siting bike share stations at key destinations (e.g. VMC, courts)</td>
<td>D</td>
<td>Expand Bay Wheels program to cover high-needs zones within the County Continue parameters of Bike Share for All program (great equity-oriented terms) - set up additional cash payment locations Consider dock-based and dockless operators including and in addition to Motivate Explore e-bikes and charging stations, adaptive bikes to assist older adults and people with disabilities Explore cargo bikes, bikes with child seats to enable wider range of trips</td>
<td></td>
</tr>
<tr>
<td>II 24</td>
<td>Expand funding for taxi vouchers, TNC rides, UPLIFT transit passes to organizations serving victims of crime while under case management</td>
<td>Work with SSA and District Attorney’s office to provide funding for taxi vouchers, UPLIFT transit passes</td>
<td>E</td>
<td>Same as Strategy 6</td>
<td></td>
</tr>
<tr>
<td>Tier (I or II)</td>
<td>Strategy #</td>
<td>Strategy Description</td>
<td>Implementation Details</td>
<td>Key Populations Served</td>
<td>Program Parameters</td>
</tr>
<tr>
<td>---------------</td>
<td>------------</td>
<td>----------------------</td>
<td>------------------------</td>
<td>-----------------------</td>
<td>-------------------</td>
</tr>
<tr>
<td>II</td>
<td>25</td>
<td>Ensure greater transparency between transportation providers and clients about their driver training programs</td>
<td>Participatory training with drivers (e.g. scenarios on harassment, de-escalation) – consider working with Behavioral Health ATU (driver’s union) has had cooperative trainings with VTA in the past – they just renewed a CBA that may include info on sensitivity training Develop training materials for caseworkers, correctional rehabilitation officers</td>
<td>B, C, D</td>
<td>Focus on advocacy for people with disabilities via SVILC - same as Strategy 7</td>
</tr>
<tr>
<td>II</td>
<td>26</td>
<td>Clarify VTA Access eligibility requirements to discourage unqualified applications, reduce VTA’s administrative expense</td>
<td>Work with VTA to refer unqualified applicants to UPLIFT program (see 6) Consider in-person interviews for applicants - current process is phone-based only</td>
<td>D</td>
<td>Existing range of UPLIFT orgs shown in pp. 36-37 of Existing Conditions Report</td>
</tr>
<tr>
<td>II</td>
<td>27</td>
<td>Work with VTA and Public Works to evaluate improvements to bus stop amenities at high-ridership locations (e.g. lighting, safer pedestrian crossings, trash receptacles, real-time info. displays)</td>
<td>Evaluate current VTA Transit Passenger Environment Plan (2016) for opportunities</td>
<td>D</td>
<td>Conduct a bus stop audit of the VTA system - wrt/ accessibility requirements (e.g. dimensions, sidewalks, street furniture, signage, obstructions, cost estimates) Work with municipalities to contribute towards local bus stop improvements Consider a County funding contribution towards a VTA Bus Stop Improvement Study to identify these locations and prioritize bus stop improvements</td>
</tr>
<tr>
<td>I</td>
<td>28</td>
<td>Explore regulatory incentives to encourage agencies to locate in transit-friendly locations</td>
<td>Explore regulatory incentives to encourage agencies to locate in transit-friendly locations Consider working with municipalities to incentivize local zoning decisions that prioritize social service uses near transit Provide “Office hours” at local libraries (they’re a trusted place people value), pop-up locations in South County – others are senior centers, community centers Ensure libraries have social services and transit information available – even better if staff Navigators are available</td>
<td>All</td>
<td>County requests for proposals (RFPs) for service providers represent an opportunity for County government to influence locational decision-making. County criteria for selecting community-based groups for provision of services should include transit access as well as other criteria utilized at present. A growing portion of health care and social service programs are now operated by community-based groups that can provide smaller scale, neighborhood-oriented care that may be more cost-effective than county operated services. Service provider requirements on transit-accessible locations could come either from standard countywide administrative agency language or explicit requirements of the operational agency that go beyond the requirements.*</td>
</tr>
<tr>
<td>II</td>
<td>30</td>
<td>Reduce the number of trips and/or amount of effort needed for trips (when possible)— including by locating services near other key destinations and in areas served by transit.</td>
<td>Provide the option of taxi vouchers or other curb-to-curb service for some service providers working with single parents of multiple young children; fill prescriptions by mail; expand appointments that can be conducted by phone or video; mail checks (e.g., for youth in extended foster care) to a PO box or trusted community resource for people who do not have a permanent address; and co-locate services.</td>
<td>All</td>
<td></td>
</tr>
<tr>
<td>II</td>
<td>31</td>
<td>Transportation Navigator program to assist people with SMI</td>
<td>Work with Behavioral Health, VMC to staff and train the Navigator position</td>
<td>B</td>
<td>Travel training may involve classroom-based or other (online/mobile app-based) exercises, plus one-on-one instruction on how to use transit/paratransit. Trainers can evaluate which clients need to be accompanied on certain trip types, if necessary. Trainers may be employees of nonprofits, but housed within BHS and VMC facilities</td>

<td>II 33</td>
<td></td>
<td>Use community organizations to improve transportation options for clients upon their release</td>
<td>Coordinate transportation between jails/prisons and Reentry Centers via the Ride Home program (non-profit operated by Stanford’s Justice Advocacy Project) Negotiate with Supportive Housing to include Reentry centers and other CBOs as part of the UPLIFT provider network - see strategy 6</td>
<td>C</td>
<td></td>
</tr>
<tr>
<td>II 34</td>
<td></td>
<td>Consider a student transit pass program like Alameda County</td>
<td>See if this program would be eligible for Measure B funding</td>
<td>A</td>
<td>Provide students with free, unlimited transit passes on VTA/local operators and 50% discount on BART, Caltrain Avoid time-of-day restrictions Consider limiting eligibility to students who live more than 1/2 mile from school Program is administered by local school districts Integrate transit passes with student ID cards Conduct youth outreach to middle school students beginning in 6th grade</td>
</tr>
<tr>
<td>II 35</td>
<td></td>
<td>Consider a program to ensure school continuity when family placement changes, like the one in LA County that uses caregiver mileage reimbursement, transit passes (for students), and ride-hailing (for students) with HopSkipDrive</td>
<td>Coordinate with SSA to develop program design, determine eligibility</td>
<td>A</td>
<td>Work with HopSkipDrive or other youth-focused TNC to evaluate the feasibility of these options in Santa Clara County See LA County case study in peer review Pair with Strategies 2 and 9</td>
</tr>
<tr>
<td>II 36</td>
<td></td>
<td>Consider a program to improve transportation options for parents in court-ordered reunification plans (e.g. VTA transit passes, with some ride-hailing)</td>
<td>See EMBARK case study in peer review Pair with Strategies 2 and 9</td>
<td>A</td>
<td>Parent participants receive an individual transportation plan that includes child visitation, scheduled classes, therapy/mental health, court hearings, social services, etc. Program requires dedicated mobility managers/navigators to set up participants with a range of travel options: – volunteer drivers (see Strategy 20) – transit passes (see Strategy 4) – ride-hailing (see Strategy 2)</td>
</tr>
<tr>
<td>II 38</td>
<td></td>
<td>Introduce subsidized TNC pilot to improve access to destinations where fixed-route transit is infrequent or unavailable</td>
<td>Work with HHS, Criminal Justice programs to distribute taxi vouchers, transit passes, TNC ride codes/reservations</td>
<td>B, C, D, F</td>
<td>Several alternative approaches - could be means-tested for general public accessing medical services, replacement for non-ADA trips for Access-qualified riders, or general public first/last-mile subsidy to transit hubs</td>
</tr>
</tbody>
</table>
5 IMPLEMENTATION PLAN

Each solution is further qualified in terms of the roles and responsibilities of the strategy’s stakeholders, key performance indicators, potential sources of funding, likelihood of implementation during short-term to long-term horizons, relative cost estimates of implementation, and the relative complexity of staffing, training, and technology improvements needed. For purposes of this discussion, the implementation terms are defined as short term (up to two years), medium term (two to five years), and long term (five years or longer, or ongoing). Together, these elements constitute the study’s Implementation Plan, shown for each recommended solution in Figure 5-1. Each of the strategies identified as Tier I have more detailed implementation plans following Figure 5-1.

The strategies are sorted into three categories on the basis of the primary agency or agencies responsible for implementation:

- Strategies to be implemented by County agencies (Figure 5-1)
- Strategies to be implemented by County agencies in coordination with VTA (Figure 5-2)
- Strategies to be implemented by VTA (Figure 5-3)

DISCUSSION OF TIER 1 STRATEGIES

Strategies to Be Implemented by County Agencies

Strategy 1: Work with MTC to designate the County as a Consolidated Transportation Service Agency (CTSA)

The CTSA designation empowers each county to build out a full mobility management program that facilitates coordination between local social service agencies and transportation providers. Santa Clara County should work with MTC to formally seek CTSA designation.

Lead or Champion:
County Executive’s Office (CEO)

Potential Sponsoring Agencies:
- County Executive’s Office (CEO)

Potential Funding Sources:
- **State:** Local Transportation Fund (LTF),
  State Transportation Assistance (STA), Caltrans
  Sustainable Transportation Planning Grant
- **Regional/County:** MTC Lifeline Transportation Program (LTP), BAAQMD Transportation Fund for Clean Air (TFCA)

Program Parameters:

Consolidated Transportation Services Agencies (CTSAs) are designated by county transportation commissions (CTCs), local transportation commissions (LTCs) regional transportation planning agencies (RTPAs), or metropolitan planning agencies (MPOs) under auspices of the Social Services Transportation Improvement Act of 1979 (Assembly Bill 120) to achieve the intended transportation coordination goals of that Act.

CSTAs are required by the Act to prepare Action Plans that reflect the strengths of existing services, correcting deficiencies and maximizing transportation benefits possible through coordination and/or consolidation of services. According to the Act, Action Plans must include the following:

1. The designation of a consolidated transportation service agency (CTSA) within the geographic area of jurisdiction of the transportation planning agency (MTC, in the case of Santa Clara County).

36 According to Article 3 of the California Transportation Development Act (TDA), up to five percent of the County’s funding under the Local Transportation Fund may be claimed by a CTSA for its operating costs, purchasing vehicles, or purchase of communications and data processing equipment. Two percent may be provided for bicycle facilities. The remaining funds must be used for transit and paratransit purposes.

More information available here:
2. An identification of the social service recipients to be served, of funds available for use by the consolidated or coordinated services, and an orderly strategy and schedule detailing the steps required to develop the financial program and management structure necessary to implement consolidated or coordinated services.

3. Measures to coordinate the social service transportation services with existing fixed-route service of public and private transportation providers.

4. Consolidation of social service transportation services shall, to the maximum extent possible, utilize existing agency operating and maintenance personnel and expertise. Effective use of employees of participating agencies shall be achieved without mandating that such employees become directly employed by the designated consolidated agency.

5. Local elected officials shall, to the maximum extent possible, be involved in the development of the Action Plans and other local actions necessary for the successful implementation of this part.

6. A public hearing shall be held on the Action Plan prior to its adoption by the MTC.

As a CSTA, Santa Clara County would also be required to submit an Inventory Report to the MTC prior to the adoption of its Action Plan. An Inventory Report must include the following:

1. An inventory of all existing public and private social service transportation services within the transportation planning agencies’ geographic areas of jurisdiction. A description of the amount and source of funds utilized by the service, the geographic coverage of the service, and the type and number of social service recipients being served.

2. A concise statement on the drivers and management of the service, with an evaluation of the operating, capital, and administrative costs for the service.

3. A synopsis of the average miles traveled to provide services during each month, and a brief analysis of the eligibility requirements for obtaining the service.

4. A description of the background of the service in the community and any other pertinent information necessary to adequately document and describe the service.

**Staffing:**

This strategy will require staff resources to coordinate a CSTA designation with MTC and prepare an Action Plan enumerating its initial work activities.

**Technology:**

This strategy is unlikely to require significant technology resources.

**Training Requirements:**

This strategy may require training of some county agency staff on new or updated procedural requirements of a CSTA, such as the mandated contents of an Action Plan or Inventory Report, as described above.

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** $100,000 to $500,000
Strategy 2: Create a Mobility Manager position to oversee countywide transportation services and programs

Agency stakeholders have noted that many clients access multiple programs, and can be denied benefits in one program because staff assume clients are already receiving transportation support through another program. Increasing the number of transit passes or similar resources alone will not address how they are distributed to clients; there is often a distrust of clients/recipients with staff assuming that they are not reporting all the support/benefits they are receiving, and there is no way for County staff to check even if they are in another County program. This strategy proposes creating a Mobility Manager position to coordinate and oversee countywide transportation programs and resources. Two primary functions of this position are to ensure consistent distribution of information across all agencies and community-based organizations, as well as reduce administrative duplication of services.

Mobility management is a strategic, cost-effective approach to connecting people needing transportation to available transportation resources within a community. Its focus is the person, the individual with specific needs, rather than any single transportation mode. Through partnerships with many transportation service providers, mobility management enables individuals to use a travel method that meets their specific needs, is appropriate for their situation and trip, and is cost-efficient. In other words, a mobility management center is a one-stop shop for transportation services.

Lead or Champion:
County Executive’s Office (CEO)

Potential Sponsoring Agencies:
- CEO
- Facilities & Fleets
- Human Resources

Potential Funding Sources:
- Federal: Section 5310
- State: State Transportation Assistance (STA), Local Transportation Fund (LTF), Low Carbon Transit Operations Program (LCTOP)
- Regional/County: BAAQMD Transportation Fund for Clean Air (TFCA)

Program Parameters:

At the most basic level, mobility management provides information, referrals, and assistance in accessing local and regional transportation services. More advanced mobility managers often work to broker trips for individuals needing transportation from the most appropriate and cost-effective provider. They also help identify when appropriate transportation resources are not available, and encourage the development of new services and best practices in the coordination of transportation services.

Initially, Mobility Manager responsibilities would focus on coordinating and enhancing countywide transportation services and programs operated by VTA, County social services agencies, and other local public, non-profit, and for-profit transportation providers. The Mobility
Manager will also work closely with leadership in the County Executive Office to ensure that each area of countywide transportation programming receives support with implementation. The Mobility Manager, along with a representative from the County Executive’s Office, should meet with VTA to confirm implementation of countywide transportation strategies.

**Staffing:**
In the immediate term, up to one potential full-time equivalent (FTE) Mobility Manager position could be established. Depending on market comparables, this position may cost approximately $80,000 - $100,000 annually in salary and benefits.

**Technology:**
This strategy is unlikely to require significant technology expenditures.

**Training Requirements:**

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** Below $100,000 (for one FTE)
**Strategy 7: Ensure VTA Website and Materials Are Easily Comprehensible and User-Friendly to Limited English Proficiency (LEP) Customers**

Residents with limited English proficiency may have more difficulty accessing the transportation services available to them than residents who speak English very well. A significant portion—nearly 21 percent—of County residents can be categorized as having limited English proficiency. Among community survey respondents for this study, about one in three (36%) did not report speaking English at home or with their families. Both stakeholders and focus group participants reported that the bus schedules and VTA website and materials were all challenging for people to use among those who do not read fluent English.

Focus group participants reported that some bus drivers turn off the sound from the auditory announcements about the next stop on the route and when a stop has been requested. Additionally, advertisements that cover bus windows can make it challenging for someone with limited vision to track the bus’s progress along the route and know when to request their stop. This strategy recommends assisting the disability community with advocacy efforts to ensure that existing ADA accessibility policies are consistently followed. Some communities of interest to this study may have difficulty staying informed about updates to VTA policies or service changes. For example, although paratransit riders can request rides online, focus group participants reported that the online form does not always work, and many riders do not understand how to navigate the website (even when they do know about this option). Similarly, paratransit riders who call to make a ride request sometimes get to a phone tree that is challenging for those with LEP to navigate. While some focus group participants reported that the VTA app is easy to use, it is only accessible to people who have a smartphone who are comfortable downloading and using an app—something that many older adults are not.

As part of VTA’s Title VI compliance required to receive federal funding, the agency must conduct internal analysis to ensure it does not discriminate against LEP populations by failing to provide meaningful access to these communities. Title VI requires VTA to examine the needs of LEP populations, and to determine whether it is necessary to provide additional language services to improve their level of access. VTA’s 2016 LEP Plan found that about 26 percent of its riders have LEP, and many of these riders rely on transit, particularly local bus services, to get around. This is particularly true for households without personal vehicles.

The LEP Plan indicates that many documents that riders typically request—such as VTA Access eligibility brochures, rider guides, and contact information—are already translated into the most common three primary languages of LEP riders: Spanish, Chinese, and Vietnamese. However, the LEP Plan’s rider survey also found that 42% of riders were not aware of VTA’s free language assistance services. With such a large portion of the public being unaware that VTA offers this service, many individuals are not able to take full advantage of the agency’s language assistance services, and as a result they may face language barriers in using VTA. With major service changes underway as part of the VTA Next Network, many LEP riders may find VTA services increasingly difficult to navigate.

This strategy recommends conducting a post-hoc survey analysis related to the user-friendliness and readability of VTA printed and digital materials for LEP speakers after the implementation of Next Network. Such an analysis should be conducted annually as a brief update to accompany the

---

37 American Community Survey 5-Year Estimates, 2013-2017, Table S1601

agency’s LEP Plan. This strategy must also ensure that all VTA transportation options have digital and auditory announcements of stops and routes, and that these announcements are consistently turned on.

**Lead or Champion:**
Jennifer with Senior Nutrition, Department of Aging & Adult Services (DAAS), Social Services Agency (SSA) with the Office of Contracts Management (OCM)

**Potential Sponsoring Agencies:**
- Senior Nutrition (Department of Aging & Adult Services, Social Services Agency)
- Office of Contracts Management (OCM)
- VTA
- Silicon Valley Independent Living Center (SVILC)

**Potential Funding Sources:**
- **State:** California Sustainable Transportation Planning Grant

**Program Parameters:**
One approach to gathering data for this strategy is to conduct a public/community survey that includes questions about the extent to which riders find VTA’s website, schedules, maps, timetables, and other common materials are easy to understand. This survey should also ask respondents about their LEP status to make this information more useful to the LEP Plan.

Work with the Silicon Valley Independent Living Center to develop advocacy materials (print, social media, web, etc.) to inform disabled transit and paratransit riders of their rights. These rights include access to functioning elevators and escalators, auditory and digital stop announcements on buses and trains, and step-free access to station platforms. One approach is to create a “Riders Bill of Rights,” as advocates in New York City have done for riders on the MTA’s Access-a-Ride paratransit service.\(^{39}\) Other resources may be available through the Disability Rights Education and Defense Fund.\(^{40}\) It is also recommended that SVILC develops advocacy materials (print, social media, web, etc.) – collaboratively with or with help from Lighthouse of San Francisco or other organizations with connections to limited-English proficiency communities at congregate meal sites for distribution.

**Staffing:**
This fare policy study is likely feasible with existing staff resources. However, if the survey analysis reveals that LEP riders and community members find materials difficult to understand, the agencies above should consider assigning additional resources to translation and outreach in other languages.

Technology: N/A

Training Requirements: N/A

Timeline: Short-term (0-2 years)

Cost to Implement: Below $100,000
Strategy 11: Consider Expanding the Availability of Taxi Vouchers, Ride-Hailing Credits, and Transit Passes through HHS and Criminal Justice Programs

Some focus group participants discussed the impact of the “benefits cliff,” referring to individuals making too high of a monthly income to be eligible for Medi-Cal taxi vouchers or UPLIFT transit passes – even though (due to the County’s high cost of living) they cannot afford transportation without assistance. To qualify for NEMT provided under Medi-Cal, clients’ annual household income must be below 138% of the federal poverty level, according to their household size. An example, a two-person household must earn below $23,336 annually to qualify. Likewise, to receive transit passes through UPLIFT, clients must be 18 or over, homeless or at risk of homelessness, and receiving case management services at least monthly through one of the Office of Supportive Housing’s registered human services nonprofit organizations.

However, MTC defines households as “low-income” if they earn less than 200% of the federal poverty level, or about $65,000 in 2019 dollars. In Santa Clara County, the majority (56%) of households earning between $20,000 and $35,000 annually are considered severely cost-burdened with respect to housing affordability, paying at least 50% of their incomes on housing. As discussed in this study’s focus groups, many low-income people must choose between paying for transit, taxis or transportation network companies (i.e., Lyft, Uber) out-of-pocket while skipping meals or cutting other essential costs—or simply not going to some of the follow-up appointments.

These findings indicate that there is a significant lack of transportation assistance available for people in households earning between about $17,000 per year (the Medi-Cal eligibility threshold for a single person household) and $65,000. As shown in Figure 3 of the Existing Conditions Report, at least 20% of County residents are within this range of household income. Many clients who are recently released from jail, prison, or substance abuse treatment programs – such as BHS’ Substance Use Treatment Services (SUTS) or the inpatient psychiatric services at Santa Clara Valley Medical Center - must attend mandated court, probation, and treatment appointments. Large portions of these clients are likely to be in this underserved income range, particularly if they are working full-time in low-wage positions. This strategy proposes funding an expanded range of NEMT subsidies for low-income clients of BHS, Reentry, and VMC treatment programs who earn too much to qualify for other means-tested programs. The program should also consider offering these subsidies to victims of crime who are working with the Victims Services Unit or Social Services Agency.

Lead or Champion:
Health & Hospital System (HHS)

---

41 [https://www.dhcs.ca.gov/services/medi-cal/Pages/DoYouQualifyForMedi-Cal.aspx](https://www.dhcs.ca.gov/services/medi-cal/Pages/DoYouQualifyForMedi-Cal.aspx)
45 As a reference, a single person working 40 hours per week at the California minimum wage of $12/hour, in 2019, earns about $24,000 per year before taxes.
Potential Sponsoring Agencies:

- Health & Hospital System (HHS)
- Behavioral Health Services
  - Substance Use Treatment Services
  - Supportive Housing Services
  - Criminal Justice Services
- Office of Reentry Services
- Custody Health Services
- Probation Department
- District Attorney (Victims Service Unit)
- Social Services Agency (Services for Survivors of Domestic Violence, Human Trafficking, and Workplace Crimes)

Potential Funding Sources:

- **State**: State Transit Assistance (STA) Program, SB 1376 TNC Access for All
- **Regional/County**: MTC Lifeline Transportation Program (LTP), Low Carbon Transportation Operations Program (LCTOP), Measure B transportation sales tax

Program Parameters:

Caseworkers in County agencies such as SSA, BHS, and Reentry currently distribute taxi vouchers, VTA daily transit passes or single-ride tickets, and ride-hailing credits/vouchers directly to low-income clients. For instance, in 2018, BHS spent about $600,000 on transportation assistance for its clients to get clients to treatment appointments as well as promote family and job stability. Trip purposes might include:

- transportation for parents-of-origin/birth family members to family reunification court hearings for foster youth;
- foster youth transportation to/from supervised family visitation for children/youth in foster care;
- transportation to/from a short-term job training program for someone with traumatic brain injury who was recently released from jail

---

46 This strategy may help to address the County’s Chavez Remedial Plan for its jail system, which is administered by Federal Consent Decree.
This strategy proposes **expanding the funding available to County social service agencies** for client transportation assistance limited to non-emergency medical transportation (NEMT), **to get to medical and treatment appointments**.

County agencies should collaborate to develop income-based eligibility thresholds that best meet the needs of their clients as well as any State or federal requirements. Consider using monthly income equivalents of the threshold of 200% of the federal poverty level as an eligibility criterion. CalWORKS, CalFresh, and other State benefits programs use this approach because many low-income people are unable to provide a full year of income documentation, and their income can fluctuate dramatically from month to month.

Passes, vouchers, or ride-hail credits distributed by County agencies should be reported in aggregate on a monthly basis, rather than as expense reimbursements that require receipts for individual rides. This is because County agencies typically find the latter approach of reporting to be administratively cumbersome.

**Staffing**

The expansion of eligible users may result in additional staffing needs.

**Technology**

Caseworkers and discharge planners at County social service agencies or VMC may need to coordinate directly with ride-hailing companies in order to book rides on clients’ behalf. Ride-hailing companies typically use concierge platforms, such as GoGo Grandparent, Uber Health or Lyft Concierge, to help agency or healthcare workers reserve rides for their clients.

**Training Requirements**

Agency staff may need updated training on how to purchase and the terms of eligibility, such as the household income-based eligibility threshold for assistance, which may change depending on available levels of funding.

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** $100,000 to $500,000

---

47 Income thresholds for different benefits and programs vary. Some services do not have any income thresholds (e.g., Victims Services Unit, District Attorney). Although the Senior Nutrition Program uses higher income threshold (i.e., elder economic security index), it could be challenging (or impossible) to use a consistent income threshold (higher that federal poverty rate to factor in higher cost of living in Santa Clara County, closer to the self-sufficiency index or elder economic security index) to assess eligibility for transportation support. For example, eligibility for some Social Services Agency programs are limited by the State of California or the federal government and it would not be possible to provide current clients additional cash-equivalent resources without jeopardizing their benefits.
Strategy 13: Supplement Medi-Cal Taxi Options with TNCs in Accessible Vehicles

While VTA Access paratransit does offer premium same-day ride service for $16 one-way, most riders who qualify for Medi-Cal cannot afford these fares. People who utilize Medi-Cal for transportation to and from medical appointments must request taxi rides 3-5 days in advance, though the Santa Clara Family Health Plan (SCFHP) requires Medi-Cal clients to request transportation 7 or more business days prior to an appointment. NEMT services covered by Medicare Advantage have similar conditions. Neither of these processes help riders get to urgent care appointments, or to emergency care that does not require an ambulance transport. Additionally, paratransit users who have attendants cannot schedule rides until the user’s attendant’s work schedule has been set. Most taxi services under Medi-Cal involve the dispatch of conventional taxi cabs or ambulettes, which lack the technology to track drivers’ real-time locations to make sure they pick up patients on-time and drop them off at the correct location. Patients are often left waiting far too long for their ride and still miss appointments as a result.

Nearing to call ahead to schedule a ride is also particularly challenging for people accessing County services who are homeless, as they often have a very difficult time keeping track of their appointments. While some services (i.e., the homeless clinic) have organized their care to not require appointments, sometimes patients who are homeless need to visit specialty clinics that do require appointments. Similarly, some people with serious mental illness who access County services struggle to remember that they need to schedule a taxi ahead of time, especially when they need to schedule it multiple days ahead of time.

Nationally, roughly 30% of all medical patients, or about 3.6 million people per year, miss necessary medical care because they cannot get transportation to get to their appointments. These patients are typically low-income people with chronic conditions who do not have access to a personal vehicle. Some analysts estimate that missed appointments cost healthcare providers nearly $200 per patient appointment.

Hospitals, HMOs, health insurance companies, and medical clinics are increasingly forming partnerships with transportation network companies (TNCs) like Uber and Lyft to improve NEMT choices for patients and their caregivers. Some healthcare providers find that booking TNC rides for patients reduces losses in revenue and staff time from patient no-shows and improves overall productivity. Some legacy NEMT providers partner with TNCs to optimize their fleets, enabling them to reserve their wheelchair-accessible vehicles for patients with disabilities and outsource transportation to TNCs for patients who need the least mobility assistance. A pilot program in Southern California providing Lyft rides to Medi-Cal patients found transportation cost savings of 39%.

This strategy proposes creating a partnership between Santa Clara VMC and ride-hailing companies (Uber, Lyft, or Silver Ride) to provide on-demand NEMT services in wheelchair-
accessible vehicles for patients getting to and from medical appointments. This service would supplement existing NEMT options for patients who were either unable to coordinate a Medi-Cal taxi with enough advance notice to get to their appointment, or who are ineligible for Medi-Cal or Medicare Advantage due to their age or household income.

Goals of partnerships between TNCs and healthcare/NEMT providers typically include:

- **Increase clinic productivity**: Missed patient appointments cost healthcare providers valuable staff time, clinic space, and lost revenue. Improving patient attendance rates also improves healthcare providers’ overall productivity.

- **Improve patient health outcomes**: Patients who miss preventive care appointments are more likely to see their conditions deteriorate, and some may turn to inpatient care in emergency rooms as their last-resort of treatment. Inpatient care is far more expensive for hospitals to provide than outpatient or preventive care. Ensuring patients make their appointments can reduce inpatient hospitalization rates, which also saves healthcare provider operating costs.

- **Reduce patient wait times for medical transportation**: The on-demand mobility options through Uber Health and Lyft Concierge platforms provide greater transparency about patient wait times and comfort, and are particularly useful in identifying drivers with issues of poor on-time performance or missed trips. Partnerships between TNCs and healthcare/NEMT providers generally anticipate shorter patient wait times for rides, as TNC wait times are generally less than eight minutes in most metro areas.

- **Reserve ambulance dispatches for life-threatening medical emergencies**: According to the National Association of Emergency Medical Technicians, one in every five 911 calls in America is not related to a life-threatening emergency. Healthcare providers are increasingly finding that a substantial minority of 911 callers use the service as basic healthcare, a practice which drains hospitals of valuable staff time and resources that should be dedicated to genuine emergency response. Triaging non-emergency 911 calls away from ambulance transportation and towards TNC rides may result in significant savings for healthcare providers.

**Lead or Champion:**

Health & Hospital System (HHS)

**Potential Sponsoring Agencies:** Santa Clara Valley Medical Center (VMC)

**Potential Funding Sources:**

- **Regional/County**: VMC, Medi-Cal, Medicare

**Program Parameters:**

Brokers of NEMT such as National MedTrans, American Logistics Corporation, American Medical Response, and Access2Care have formed ride-hailing partnerships with TNCs. New companies, such as Circulation and RoundTrip, have emerged to help hospitals and health plans

---

offer TNC-based rides. Both Lyft and Uber are contracting directly with HMOs and insurance companies to provide NEMT services through these brokers.

Uber Health allows physicians, medical assistants, and other care coordinators to hail rides on their patients’ behalf using a HIPAA-compliant dashboard, which keeps patient information private. Patients do not need an Uber account or smartphone to use the service, and ride costs are billed directly to the healthcare provider. Rides can be booked on-demand or up to 30 days in advance, for a follow-up appointment. At the pickup time, patients are notified via text message (accessible on flip phones and iPhones alike) and given a link to track drivers on a map. For patients without smartphones, the dashboard comes with a printable sheet allowing physicians to circle the incoming Uber’s car color and write down the license plate.52

Like Uber Health, Lyft Concierge works as a HIPAA-compliant mobility management dashboard that allows doctors, medical assistants, and other care coordinators to book rides for patients and their caregivers. Rides can be scheduled more than 24 hours in advance, and riders receive an SMS notification when their ride is on the way.53 According to Lyft, the Concierge platform has established partnerships with dozens of major healthcare providers and NEMT services, including Ascension, Sutter Health, Blue Cross Blue Shield, Anthem/National MedTrans, Logisticare, and Cigna-Healthspring.54

While partnerships between TNCs and healthcare/NEMT providers offer significant promise in improving the patient experience, there are some important limitations to these opportunities. First, TNC drivers generally do not have the training or expertise to handle a wide range of patient needs. Patients who may need help walking from their door to the vehicle, or those who suffer from mental or behavioral health challenges, may be better off with trained NEMT providers who can offer more hands-on assistance. For this reason, healthcare and NEMT providers typically limit their partnerships with TNCs to only include a specific segment of their customers: those who are able to travel independently or those who are accompanied by a caregiver. For instance, the NEMT provider Logisticare offers Lyft rides to patients that order an NEMT for same day appointments, which accounts for roughly 5% to 7% of LogistiCare’s 69 million rides provided annually.55 According to Logisticare, most patients who usually book same-day visits do so to care of a sick child or to address an unexpected illness.

At medical campuses with high patient volumes like VMC, facility managers may be hesitant to allow TNC pickup/drop-off activities that may contribute to campus circulation problems. Setting up dedicated curbside spaces for TNC patient loading activities may help ease the demand for curbside parking. Outreach and training with TNC drivers may be necessary to ensure these patient parking allocations are used properly.

Since their inception, TNCs have faced criticism for failing to provide a sufficient number of wheelchair-accessible vehicles for people with disabilities.\(^{56}\) As an alternative, if an appropriate TNC WAV program is not available, healthcare/NEMT providers may consider partnerships with other app-based TNCs that source from existing licensed, registered taxi fleets, which feature higher shares of wheelchair-accessible vehicles.\(^{57}\) Leading examples of these platforms include Arro\(^{58}\) and Flywheel.\(^{59}\)

**Staffing:** This strategy is likely to be implemented using existing staff resources.

**Technology:** This strategy requires a software service contract between the NEMT broker, VMC, and the TNC.

**Training Requirements:** Some additional training for hospital discharge staff and medical assistants may be necessary to prepare them to enroll patients on TNC-based rides to and from appointments, as well as billing these rides to Medi-Cal plans.

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** $500,000 to $1 million

\(^{56}\) Although Uber offers drivers cash incentives to operate accessible vehicles through its UberWAV pilot program, it is unclear how Uber plans to allocate accessible vehicles in the markets where Uber Health is available. UberWAV operates only in New York City, Houston, Los Angeles, Portland, San Francisco Bay Area, Seattle, and Chicago. Lyft Concierge enables an “Access Mode” to hail wheelchair-accessible rides for people with disabilities in the San Francisco Bay Area and Los Angeles.

\(^{57}\) For instance, New York City’s registered taxi fleets feature 1,859 yellow taxis and 655 green taxis that are wheelchair-accessible.

\(^{59}\) [https://www.flywheel.com/cities](https://www.flywheel.com/cities)
Strategy 17/18: Increase Awareness of Transportation Programs in Vulnerable Communities

Participants in most focus groups reported that many people are not aware of transportation resources for which they might be eligible and that they may find to be supportive. For example, some of the older adult participants were surprised to learn that VTA offers a discounted senior pass, while a few had not heard about the volunteer driver program in their community. Stakeholders commented that agency staff and social service providers (beyond VMC) need clearer information on how to access paratransit resources, such as customer service, directions to VTA Access offices, and information on their client’s paratransit application status. There is a particular need to make this information available to caseworkers outside of VTA Access’ normal business hours. Participants also shared that sometimes medical social workers can use paratransit and VTA receipts for transportation to and from doctor appointments to reduce the amount of income counted in determining the amount of CalFresh/SNAP benefits (i.e., food stamps) for which one qualifies. However, many people do not know about this, and social workers and eligibility workers do not consistently ask clients about their eligibility or discuss this possibility.

This strategy proposes two efforts to increase awareness of transportation programs and services among vulnerable communities:

- **Strategy 17:** Develop **training materials** for caseworkers and correctional rehabilitation officers involved in processing inmate releases about transportation programs available to their clients
- **Strategy 18:** Create a client-oriented **marketing/awareness campaign** of new and existing transportation programs they can access

This strategy recommends developing a program to distribute information on all transportation options at locations already frequented by populations of interest to this study, and in formats which can be most easily understood by people with limited English proficiency.

**Lead or Champion:**
- Office of Reentry Services (ORS)
- Victims Services Unit, Office of District Attorney

**Potential Sponsoring Agencies:**
- Santa Clara Valley Medical Center (VMC)
- Behavioral Health Services
  - Substance Use Treatment Services
  - Supportive Housing Services
  - Criminal Justice Services
  - Adult and Older Adult Division
- Office of Reentry Services
- Probation Department
- Social Services Agency
  - Department of Aging & Adult Services (DAAS)
  - Department of Employment & Benefit Services (DEBS)
Potential Funding Sources:

- **State:** State Transit Assistance (STA) Program, Local Transportation Fund (LTF), SB 389 Mental Health Services Act (MHSA)
- **Regional/County:** MTC Lifeline Transportation Program (LTP), BAAQMD Transportation Fund for Clean Air (TFCA) Measure B transportation sales tax

Program Parameters:

- The County Executive's Office is best situated to coordinate the development of marketing materials and awareness campaigns across other County agencies.
- CEO to assist **County agency staff** by developing materials on the **transportation programs and services** available to clients, including:
  - Transit passes (e.g. UPLIFT)
  - ADA paratransit
  - Travel training
  - Same-day or on-demand NEMT services (see strategy above)
  - Ride-hailing or taxi vouchers
  - Bay Wheels' Bike Share for All program
  - Community-based shuttles and vans
  - Gas cards, or other assistance supporting personal vehicle ownership and maintenance
- Include training on transportation programs and services in agencies’ in-service meetings or other on-the-job training opportunities. This could take the form of a “Train the Trainer” seminar, with regularly updated processes established to refresh information about transportation programs as they evolve.
- Provide VTA schedules, rider info in all social services offices.
- Create customized transit maps and rider guides for each major destination including frequency, service hours, fare information, VTA customer service numbers, VTA Access, eligibility for other programs, with content tailored for Reentry, individuals with serious mental illness, foster youth, seniors, and people with disabilities.
- Broadcast information to clients in multiple media channels, including via printed materials, physical signage at key facilities (e.g. VMC), web, and social media, as appropriate.
- Distribute information at other locations such as farmer’s markets, congregate meal sites of the Senior Nutrition Program, Senior Centers, Veterans Affairs resource centers, Reentry Resource Centers, houses of worship, major shopping centers, public libraries, and disability resource centers.
- All materials and presentations should be translated into Spanish and Mandarin, with other languages considered based on community demographics.
- Consider developing a graphic flowchart of transportation programs and resources based on eligibility criteria.
Consider publishing information on new transportation programs/services in local publications (e.g. San Jose Mercury) to reach older adults.

Leverage waiting rooms to increase client awareness. If a marketing video is produced, it could be shared on the TV monitors that SSA have in their lobbies for clients to see.

Staffing
Consider hiring a travel trainer or navigator to conduct agency staff trainings, develop marketing materials, and advise client marketing campaigns on an ongoing basis.

Technology
This strategy may require small investments in print, web, and/or social media marketing capacities, which some agencies may not possess in-house. Consider engaging a marketing consultant or graphic designer for these skills on a limited, short-term basis.

Training Requirements
Agency staff may need updated training on how to purchase fares/passes for various transportation options and their terms of eligibility. This information is likely to change as additional transportation programs and services are rolled out.

Timeline: Short-term (0-2 years)

Cost to Implement: $100,000 to $500,000
Strategy 20: Establish Volunteer Driver Program that Offers Drivers Mileage Reimbursement

Across all key populations for this assessment, focus group participants identified that they found it challenging to afford transportation—primarily related to the cost of riding public transportation, but some comments also noted the cost of parking, gas, and bike share. Asking friends and family is a simple and often-used solution to transportation problems, but for those with regular and repeated trip needs, continually asking others for rides begins to feel like an imposition. Some participants also discussed the financial toll it has taken on their friends, relatives, and neighbors to give them rides, as those people are also often already struggling to make ends meet. Because many types of trips cannot easily be made via transit or paratransit, family members are often the de facto transportation for older adults and people with disabilities. Family members and relatives of older adults and people with disabilities need affordable options to reduce the transportation cost burden they are often compelled to carry.

A volunteer driver program fills this acute need by relieving family members of the need to take their loved ones to medical appointments, senior centers, pharmacies, grocery stores, or other common destinations.

The Transportation Reimbursement for Independence Program (TRIP) is an effective model of a volunteer driver program that provides riders with flexible travel options while also relieving the sense of obligation riders might feel to drivers by reimbursing them for their mileage. The program, which was pioneered in Riverside County and has been franchised nationwide, is designed to limit liability and administration costs of the sponsoring agency, while providing 24/7 transportation to any destination by trusted members of one’s own community. It is designed as a flexible model that can be adopted within a community. For example, one community may only want to provide reimbursement for trips to non-emergency medical appointments while another might want to allow drivers to limit assistance to the door rather than through the door. This kind of program can lower the cost of paying friends and neighbors for rides.

Lead or Champion:
County Executive’s Office (CEO)

Potential Sponsoring Agencies:
- County Executive’s Office (CEO)
- Health & Hospital System (HHS)
- Behavioral Health Services (BHS)
  - Supportive Housing Services
  - Adult and Older Adult Division
- Social Services Agency (SSA)
  - Department of Aging & Adult Services (DAAS)

Potential Funding Sources:
- Federal: Section 5310 Special Needs of Elderly Individuals and People with Disabilities Program
- State: State Transportation Assistance (STA)
- **Regional/County**: MTC Lifeline Transportation Program (LTP), BAAQMD Transportation Fund for Clean Air (TFCA) Measure B transportation sales tax

**Program Parameters:**

- Allow seniors and people with disabilities who face mobility challenges and are unable to use VTA Access to apply for ride assistance from the program, with priority given to participants with the greatest unmet mobility needs
- Riders can recruit their own volunteer drivers, such as friends, neighbors, or immediate family members
- Riders who are unable to recruit their own volunteer drivers may have one assigned to them by TRIP program staff
- Volunteer drivers receive a reimbursement of $0.57/mile from the sponsoring agency, while the ride is free to the rider
- Drivers submit a monthly report to the TRIP program staff on the number of trips and miles driven
- Rides are scheduled between riders and drivers as mutually convenient, with no restriction on the hours of service (24/7)
- Rides are provided in drivers’ personal vehicles, with no restrictions on origins/destinations
- Rides must begin or end in Santa Clara County.
- Mileage reimbursed per trip cannot exceed 50 miles one-way or 200 miles per month total, to limit costs.
- Consider contracting with a vetted, countywide vendor to coordinate volunteer drivers and their reimbursement. Successful programs in Solano County such as Faith in Action are useful models of this approach.
- This program will require criminal background checks of drivers if youth under 18 are allowed to participate as passengers. This criterion would limit participation among people who are undocumented. As such, considering limiting participation to adult passengers only.

**Staffing**

This program will require additional staff commitment, though this can be minimized by automating the reimbursement process for drivers, as described below.

**Technology**

Program staff may consider distributing driver reimbursements through a ride-matching platform such as Waze Carpool or Ride Amigos. This approach would provide greater transparency with respect to program performance metrics and minimize administrative staff commitment, though it would also require engaging these technology providers in a service contract.

**Training Requirements**

The TRIP program requires County social services agencies to train staff and caseworkers on enrollment eligibility, reimbursement processes, and driver onboarding.

---

60 [https://www.faithinactionsolano.org/ride-with-pride-program/](https://www.faithinactionsolano.org/ride-with-pride-program/)
Timeline: Short-term (0-2 years)

Cost to Implement: $100,000 to $500,000
Strategy 28: Explore regulatory incentives to encourage agencies to locate in transit-friendly locations

Some County social service offices are often located in “transit deserts” that are inaccessible to frequent transit service that runs throughout the day. Examples of these destinations include the Palo Alto V.A. Hospital, the Santa Clara Valley Medical Center’s Main Campus, Elmwood Correctional Facility, and SSA’s Benefits Office on Senter Road, among many others. The siting of these facilities in transit-inaccessible locations presents barriers to some clients who are transit-dependent, resulting in missed appointments and poorer programmatic outcomes. The site selection process also impacts the County’s greenhouse gas emissions reduction goals, as transit-friendly sites require less driving to access. In the short-term, transit-adjacent sites are often more costly on a per-square-foot basis for County agencies to rent office space. However, when taking into account the additional transportation services agencies are often required to provide to ensure patient attendance, these rental or purchase costs have been shown to be significantly ameliorated.

Lead or Champion:

County Executive’s Office (CEO) to coordinate with Fleet & Facilities (FAF) and CEO’s Office of Countywide Contracting Management (OCCM)

Potential Sponsoring Agencies:

- County Executive’s Office (CEO)
  - Office of Countywide Contracting Management (OCCM)
- Fleet & Facilities (FAF)

Program Parameters

- County Executive’s Office (CEO) to coordinate with Fleet & Facilities (FAF) and CEO’s Office of Countywide Contracting Management (OCCM) on its site selection processes. Fleet & Facilities (FAF) coordinates all lease agreements and has a real estate team.
- The Office of Sustainability (OOS) will consider what role or support it can provide for this strategy, as is currently working with FAF on a resilience assessment of County facilities.
- In the near-term, consider providing “Office hours” at local libraries, senior centers, or community centers in South County, where few transit-adjacent sites are available.
- Ensure libraries have social services and transit information available.
- In shorter-term, this strategy could be implemented by reviewing locations for contracted service providers and adding a question to RFPs for services about their sites’ proximity to transit lines. In the longer-term, FAF and OCCM could adopt an internal requirement that new County buildings have easy access to local transit and major modes of public transportation.
- SSA to coordinate with Procurement to update its criteria for selecting CBO partners for provision of services to include transit access criteria.
- Additionally, the County should consider working with municipalities to incentivize local zoning decisions that prioritize social service uses near transit. Often, zoning policies that allow for mixed-use development or higher intensity of development are more likely to offer a wider range of viable sites for social services agencies.
**Staffing:** This strategy is expected to be accommodated within existing County agency staff resources.

**Technology:** This strategy is not expected to require additional technology investments.

**Training:** This strategy is not expected to require additional investments in staff training.

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** Below $100,000

---

61 This refers to the cost of administrative staff time to update FAF site selection and procurement processes. The costs of renting transit-accessible sites may be considerably higher.
Strategies to Be Implemented by County Agencies in Coordination with VTA

Strategy 14/15: Offer Interim ADA Paratransit Eligibility and Travel Training to People with Serious Medical Conditions or Mental Illness(es)

A few participants in focus groups shared how challenging transportation had been while their paratransit application was processed, during which time they were not considered eligible for transportation support. Specifically, people with serious medical conditions who had been released from Valley Medical Center shared that they had been given a taxi voucher to get home when discharged with instructions that they would not be able to drive for at least one month. However, they had numerous follow up appointments scheduled while their paratransit application was being processed without a way to get to or from the appointments. Without relatives who lived close enough to give the rides, they had to pay for taxis or transportation network companies (i.e., Lyft, Uber) out-of-pocket while skipping meals or cutting other essential costs—or simply not going to some of the follow-up appointments.

This strategy proposes offering interim ADA paratransit eligibility, through VTA Access, to people with serious medical conditions or mental illness(es) who are discharged from County hospitals. It should be noted that the scope of this strategy may be limited by the fact that these medical conditions or mental illness must rise to the level of preventing an individual from riding fixed route transit. In that case, particularly for those with mental illness, an attendant may be required to travel on paratransit.

The proposed interim eligibility process will allow clients to get the affordable, accessible transportation they need to reach follow-up appointments while VTA staff review their paratransit applications during the 21-day waiting period. Additionally, this strategy provides a formalized travel training program for hospital discharges at VMC. This travel training program assists patients with paratransit applications and coordinates NEMT trips on their behalf, if needed.

VMC Main Campus already has a robust discharge process via HHS staff who assist discharged patients with completing SSI applications, insurance, Calfresh, and Access paratransit applications. However, HHS recently acquired two large hospital facilities – O’Connor Hospital, in San Jose, and St. Louise Regional Hospital, in Gilroy – where this program does not exist.  

Potential Sponsoring Agencies: Health & Hospital System (HHS)

Potential Funding Sources:

- **Regional/County**: HHS (for costs of staff training)

Program Parameters:

- Focus implementation of the hospital discharge program in the two new County hospitals where it is not currently available, O’Connor Hospital and St. Louise Regional Hospital.
- Work with VTA Access to define terms of interim paratransit eligibility

---

This program envisions a three-step process:
  - Disseminate travel training to discharge planners and other hospital staff (see Strategy 17)
  - Discharge planners submit clients’ interim paratransit applications to VTA
  - Discharge planners arrange same-day trips using on-demand NEMT modes (see Strategy 1 or Strategy 13) or via VTA Access, for follow-up appointments.

**Staffing:** This strategy may be implemented using existing staff resources. However, some hospitals with formal travel training programs have hired “navigators” as dedicated hospital staff to assist patients and relieve other staff of these responsibilities. In addition, the increase in ADA paratransit applications may require the addition of eligibility screening staff and other staff required to provide additional services.

**Technology:** N/A

**Training Requirements:** Some additional training of hospital discharge staff on the application process for interim paratransit eligibility, particularly at VMC, may be required.

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** $100,000 to $500,000
Strategy 29: Provide More Private Vehicles to Community-Based Organizations to Transport their Clients

In assessing capital needs and understanding the financial constraints that are present at many public agencies, there may be opportunities for contributed services and equipment that may substitute for capital purchases. Donated vehicles are an area of significant opportunity. This program serves community needs for accessible transportation while controlling spiraling costs of ADA paratransit service. Making accessible vehicles that are due for retirement, but still in usable condition, available to community-based organizations to transport their clients often provides a lower cost, and more customer-focused alternative to traditional ADA paratransit service. After purchasing new fleet vehicles, public agencies can provide used or retired vehicles to the community-based organizations for use with their staff or volunteer drivers.

Potential Sponsoring Agencies: County of Santa Clara (Facilities and Fleets), VTA, San Jose Department of Public Works

Potential Funding Sources:

- **Federal**: Section 5310 Special Needs of Elderly Individuals and People with Disabilities Program
- **State**: State Transit Assistance (STA) Program, SB 1376 TNC Access for All, Local Transportation Fund (LTF)
- **Regional/County**: MTC Lifeline Transportation Program (LTP), Low Carbon Transportation Operations Program (LCTOP), BAAQMD Transportation Fund for Clean Air, Measure B transportation sales tax
- **Private-Sector**: Several private philanthropic foundations in Santa Clara County may be potential funders of this strategy, either because they have contributed to human-services transportation providers in recent years or have financed other local or regional transportation improvement strategies. Some of the more prominent foundations include Joint Venture Silicon Valley, the Silicon Valley Community Foundation, and the Chan/Zuckerberg Initiative.

Program Parameters:

- Most donated vehicles are likely to be sourced from the County of Santa Clara’s Facilities and Fleets Division, VTA, or municipal fleets such as the City of San Jose’s Department of Public Works.
- An alternative approach is to purchase new vehicles on behalf of community-based organizations using Section 5310 funding or other state, County, and regional funds.
- Create a memorandum of understanding between community-based organizations that provide services to seniors or people with disabilities and agency fleet managers to clearly state which nonprofit organizations are eligible to receive donated vehicles.
- The public agency provides vehicle inspections and maintenance and driver training. In return, the nonprofit organization supplies drivers and insurance (general liability, auto liability, worker’s compensation, and employer’s liability or stop gap coverage).
- Some programs require a commitment from the community-based organization that they will take a quantifiable number of rides off of the ADA system.
Enroll community-based organizations in the same mileage-reimbursement model as the TRIP volunteer driver program (strategy 20) to reimburse their drivers for the costs of fuel.

**Staffing:**

It is likely that this program will require potential staff expansion depending on the scale of the program.

**Technology:**

This program can be administered using existing fleet management systems to identify suitable vehicles that may be donated to community-based organizations.

**Training Requirements:**

Driver training will be required for new drivers enrolling from community-based organizations.

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** Over $5 million (value of the vehicles)

A community van program typically generates savings to the transit agency that offers vehicles to community organizations in exchange for the operation of a certain number of paratransit trips. Either the transit agency or the recipient organization may take responsibility for vehicle maintenance and insurance costs. In either case, the community-based organization would save the cost of acquiring the vehicle.
Strategy 32: Expand access to transit for people recently released from County jail or state prison

Lack of transportation, stemming from a lack of official ID, has been identified as a significant barrier causing clients to fail to show up to court or probation appointments. Lack of an official ID may also prevent clients from enrolling in certain benefits like CalFresh or Medi-Cal. Obtaining a State Identification Card or driver’s license from the DMV is a common reentry need for inmates who need replacement cards for the purposes of identification and transportation upon release.

Stakeholders noted during interviews that clients released from County jails are often released after 5 pm, when the County’s Reentry Resource Centers are closed and unable to provide transportation to clients. As a result, clients must rely on community-based organizations, friends, or family to provide them with transportation. Some of the stakeholders who were interviewed shared that people being released from jail often do not have cell phones—and that even if they do have a cell phone, it is not charged when they are released, so they are not able to use it to coordinate transportation (either via an app or using Google Maps to identify which buses they should take and where the nearest bus stops are located). Additionally, if they do not have money on the books/in their account, they may not be able to call a relative or someone else to get a ride home after being released. Many adults on probation, and people with serious mental illnesses and/or medical conditions who are released from County jail do not have any or consistent access to a debit or credit card, which means they cannot use app-based transportation (i.e., Uber, Lyft).

This strategy proposes coordinating with VTA to allow County jails/prisons to provide UPLIFT passes that would provide people released from jail access free transit passes on VTA for 60 days, until they can reinstate their driver's license, apply for paratransit, or purchase other transit passes.

Potential Sponsoring Agencies:
- VTA
- Department of Corrections and/or Office of the Sheriff
- Office of Reentry Services
- Probation Department

Potential Funding Sources:
- State: State Transportation Assistance (STA)
- Regional/County: MTC Lifeline Transportation Program (LTP), BAAQMD Transportation Fund for Clean Air (TFCA) Measure B transportation sales tax

Program Parameters:
- Clients may not participate in the VTA Smart Pass Program.
- Consider distributing pre-loaded Clipper Cards to enable clients to make regional transit trips.
- This strategy would help address the Chavez Remedial Plan, which is under Federal Consent Decree.
- Office of Reentry Services is piloting having Reentry Resources Centers open 5-7pm some weekdays, and because release could be closer to 5pm if from downtown and not Elmwood.
**Staffing**
Staff time commitment is likely to be minimal.

**Technology**
With additional funding or resources, consider having the Department of Corrections/Office of the Sheriff distribute prepaid debit cards to recently released clients, for use to hail rides from TNCs at times when public transit is not operating.

**Training Requirements**
The Department of Corrections offers refresher training courses to VTA operators on how the program works to ensure riders are not denied access.

**Timeline:** Short-term (0-2 years)

**Cost to Implement:** Below $100,000
Strategies to Be Implemented by VTA

Strategy 3: Quantify the Financial Impacts of Removing VTA's Transfer Fare for Cash-Paying Customers

Currently, free transfers between VTA routes are available only for riders who pay by Clipper Card or VTA’s mobile app, EZfare. Most existing Clipper Card vending locations are at VTA light rail stations, with limited other locations at Walgreens or other retailers distributed sparsely throughout the County. For example, the cities of Morgan Hill and Gilroy feature just a single Clipper Card vending location each. Cash-paying customers must pay separately for multiple fares if transferring. VTA’s present policy of charging cash-paying customers each time they board a vehicle discourages transfers.

On average throughout the VTA system, 22% of riders pay their fares with cash, while 78% pay with Clipper Cards or the EZfare mobile app. Several communities of interest to this study are more likely to pay with cash than other riders. Notably, riders in households earning less than $40,000 per year, African-American and Hispanic/Latino riders, riders ages 17 and under are more likely to pay with cash than the systemwide average. Some riders may find it difficult to maintain a Clipper Card account if there is no Clipper retailer near their home or other frequent destinations. During focus groups, some people reported that the cost structure of fares based on district/zone is challenging, especially if their trips require one or more transfers, such as from South County to San Jose or Palo Alto. This strategy proposes coordinating a fare policy evaluation to study the financial impacts to VTA of removing the transfer fare penalty for cash-paying customers.

Potential Sponsoring Agencies: VTA, MTC

Potential Funding Sources:

- **State:** California Sustainable Transportation Planning Grant
- **Regional/County:** MTC Lifeline Transportation Program (LTP)

Program Parameters:

A fare policy impact study could be conducted by VTA, MTC, or a third-party consultant. This study would examine several fare policy scenarios, ranging from a no-action alternative to the removal of intra-system transfer fares for cash-paying riders who present a paper transfer slip as proof of payment for their first ride. The impacts evaluated under these scenarios would include financial, administrative, operations, and Title VI-related impacts.

Staffing:

This fare policy study is likely feasible with existing staff resources.

---

63 [https://www.vta.org/go/fares#accordion-2-hours-of-free-transfers](https://www.vta.org/go/fares#accordion-2-hours-of-free-transfers)

65 Map of existing Clipper Card retailers: [https://www.clippercard.com/Cli](https://www.clippercard.com/ClipperWeb/map.do)
Technology:
This study is likely to require access to VTA datasets, such as the origin/destination and fare payment patterns surveyed in the agency’s 2017 Onboard Transit Passenger Survey.

Training Requirements: N/A

Timeline: Short-term (0-2 years)

Cost to Implement: Below $100,000
Strategy 37: Develop an Agency-Operated, On-Demand NEMT/Wellness Transportation

The project team’s review of comparable agencies and jurisdictions highlighted a successful example of a same-day, on-demand, non-emergency medical transportation (NEMT) service operated by the MTA of Flint, MI. Riders pay for a same-day, premium fare, where they have a more precise schedule, rather than the “trip reservation window” of conventional paratransit services like VTA Access. While VTA Access does offer a premium, same-day service for a $16 one-way fare, it is not considered on-demand because it may not be reliably available throughout the service area or at all times of day. There is an opportunity for County agencies to offer an enhanced paratransit service to meet the travel needs identified above. An on-demand, same-day transportation option would combine the responsiveness of the on-demand operating model of ride-hailing companies (e.g. Uber, Lyft) with the best aspects of public transit, such as affordable fares, high customer service standards, ADA accessibility, and transparency of service offerings.

This program will operate in a slightly different competitive niche than TNCs. While both provide door-to-door service for similar trip lengths, this program’s drivers offer passengers hands-on assistance, such as helping unloading packages for seniors, or helping with car seats for families.

Potential Sponsoring Agencies: VTA

Potential Funding Sources:

- **Federal:** FTA Mobility for All, Access and Mobility Partnership, Mobility on Demand (MOD) Sandbox Program, Section 5310 Special Needs of Elderly Individuals and People with Disabilities Program
- **State:** State Transit Assistance (STA) Program, SB 1376 TNC Access for All
- **Regional/County:** BAAQMD Transportation Fund for Clean Air, Measure B transportation sales tax
- **Private-Sector:** Several private philanthropic foundations in Santa Clara County may be potential funders of this strategy, either because they have contributed to human-services transportation providers in recent years or have financed other local or regional transportation improvement strategies. Some of the more prominent foundations include Joint Venture Silicon Valley, the Silicon Valley Community Foundation, and the Chan/Zuckerberg Initiative.

**Program Parameters:**

Because this program represents a departure from conventional paratransit service, it should be implemented in its initial stages as a pilot. During the pilot period, all eligible riders must be clients of specified third-party non-profit organizations participating in the partnership with VTA. This enables the VTA to operate a more efficient on-demand service, as participating non-profits can identify eligible riders with the greatest unmet transportation needs while directing their clients who have less difficulty using public transit to conventional, fixed-route transit services.

Initially, allow participating nonprofit organizations to set the terms of trip eligibility for their clients. Some organizations may prefer to limit eligibility to clients with disabilities, while others may choose other criteria. Likewise, only a select range of trip destinations should be eligible for on-demand service, including trips to medical centers and clinics, farmers’ markets, government
agencies, grocery stores, and nonprofit organizations. These conditions help to ensure that the program is used to meet the highest-priority, health-related transportation needs, rather than the full range of commute or discretionary trips that are better suited for fixed-route transit or paratransit services. The program should utilize passenger vehicles, rather than larger cutaway buses or vans, to achieve cost savings for VTA. Vehicles may include a combination of sedans and SUVs, as well as wheelchair-accessible minivans.

If the pilot program is successful, expand the program to the general public with the range of destinations limited to medical centers and clinics, farmers’ markets, government agencies, grocery stores, and participating nonprofit organizations.

Staffing

Drivers for this program should be agency employees and members of the transit workers union, not contractors. In the MTA Flint experience, typical drivers are people who are looking to drive passenger cars, rather than transit vehicles. Many drivers are entry-level trainees who later become full-time transit operators, as well as homemakers supplementing their income or retired transit operators who desire part-time work.

Technology

This program requires on-demand dispatching software, which may be contracted or purchased from local software vendors. However, the software may require customization and testing by the operator.

Training Requirements

As with other transit and paratransit operators, drivers must complete background checks and drug-tests. This is important to provide the accountability riders expect from public transit agencies. Some operators may need additional training to adjust to the on-demand business model, as unlike paratransit operations, they will not know which passengers they are picking up in advance. Operators will also require training related to special medical needs, mental health first aid, working with people with disabilities, and cultural competence.

Timeline: Medium-term (2-5 years)

Cost to Implement: Findings from Flint’s MTA Rides to Wellness program found an operating cost of about $15 per passenger trip, or about $1.8 million per year with 10,000 rides per month. Given the difference in cost of living between Flint and Santa Clara Valley, we are assuming that cost per trip will range between $20 and $25.

---

66 Ideally these destinations would include some that are located slightly beyond VTA’s normal service areas and/or the County’s boundary (e.g., Stanford medical appointments at Stanford’s Redwood City location).
APPENDIX A

Peer Review
Appendix A  Peer Review

The project team has identified a series of comparable agencies and jurisdictions in the United States that operate transportation programs that serve communities of the Transportation Needs Assessment study’s population. Comparable agencies and jurisdictions reviewed in this memorandum have created unique transportation programs tailored to serve many of the study’s communities of concern, who may face structural barriers in accessing fixed-route transit, paratransit, or other existing human service transportation options in the County. The transportation programs operated by these comparable agencies and jurisdictions constitute best practices in human services transportation designed to address the specific transportation needs of the study’s specified communities, including:

- people with disabilities
- older adults
- foster care youth and their families
- low-income people with serious mental health or chronic medical conditions
- clients being released from jail, hospitals, or service programs
- non-risk criminal witnesses and victims of crime; and
- adults on probation.

In May and June 2019, the project team conducted phone interviews with program directors of seven programs considered best practices in the human services transportation field, which are uniquely tailored to meet these communities’ needs. Programs were selected based on similarity of communities served, similarity of geography and program scale, and industry knowledge of the project team. During the interviews, the project team asked program directors about their agency or organization’s background, a basic overview of the transportation programs they provide, and more specific questions related to program operations such as capital and operating costs, fare structure (if any), funding and cost-sharing agreements, coordination with other service providers, challenges and barriers to implementation, and program strengths and opportunities. Because many of the transportation service offerings and program designs reviewed in this memorandum are relatively uncommon in the United States, knowledge about their operations is especially valuable for County stakeholders seeking to replicate any of the programs’ components locally. Understanding the unique programs offered by these comparable agencies and jurisdictions may provide stakeholders with opportunities to initiate new programs in the County or enhance existing programs and better meet the transportation needs of this study’s populations of interest. A summary of the comparable agencies and jurisdictions reviewed, along with their transportation programs, are shown in Figure A-1 below:
The following series of eight case studies are composed of findings from the phone interviews with each program’s director(s) conducted as part of this primary research.
CASE STUDIES

CTAA/EMBARK/Oklahoma Transit Association | Transportation Innovation Grant

Agency Overview

The Community Transportation Association of America (CTAA) is a national membership-based nonprofit organization primarily engaged in transit and mobility advocacy and program support. They have 1,500 members nationally, 19 full-time staff, and an annual budget of $7 million. CTAA’s strongest areas of expertise include rural transportation programming, specialized paratransit operators, tribal transportation, volunteer driver programs, non-emergency medical transportation, and transportation programs for veterans and people with disabilities. CTAA works directly with people in the field to assist human services transportation providers to respond to market conditions and generate new ways to discuss and implement public transit. Their staff works with members in an advocacy-based role to develop ways to publicize transportation outcomes in communities, publicizing across the membership what works and what does not.

Transportation Program Overview

CTAA has been awarded a Transportation Innovation Grant from the Arnall Foundation for a (currently untitled) transportation program for parents of youth in the foster care system, in partnership with EMBARK, the largest transit operator of the Oklahoma City metropolitan area. CTAA, in partnership with EMBARK and the Oklahoma Transit Association, has agreed to develop a pilot program that increases parent-child reunifications in Oklahoma County through innovative transportation delivery. As the lead agency, CTAA will leverage its transportation and social service experience in human-centered design to implement mobility management services, technology integration, on-demand rides, driver training and incentives. Participants will receive an individualized transportation plan that will accommodate child visitation, scheduled classes, and therapy sessions, and court hearings. Planned, as well as unanticipated trips that fulfill the parents’ DHS-required services, will be scheduled through a custom mobile application. Approved rides will be available by a variety of vetted and trained providers.

This transportation program developed in recognition of the unique challenges that parents of youth in the foster care system often face in reunification. When a child is placed in the foster care system, the child’s biological parents are assigned by the court system a service plan they must follow to be reunified with their child. Multiple conditions often apply as the root cause for separation, including domestic violence, substance abuse, and/or mental health issues. Each parent’s service plan contains strict requirements to attend various social services appointments. Parents must attend rehabilitation treatment for substance abuse, counseling for mental health issues or anger management, and accessing each of these services requires reliable transportation to meet the terms of their reunification plan.

Because many of the affected parents do not have access to private cars, CTAA plans to connect them with mobility managers, and eventually the participants themselves, with free or subsidized transit passes, rides from volunteer drivers, or on-demand rides. Each of these transportation options will be consolidated into a single platform for a mobility manager (an EMBARK staff member) to deploy for each participant. The primary goal is to reduce children’s time spent in foster care and reunite parents with their kids faster. The program’s secondary goal is to reduce the operations costs of social services and healthcare organizations from missed appointments.
CTAA believes that the more programs are using the mobility management platforms, the greater the potential savings due to the economy of scale, which enables higher vehicle utilization. The grant is used to subsidize trips, so CTAA prefers to distribute fixed-route transit passes wherever possible before choosing ride-hailing options.

Oklahoma County has about 1,000 parents eligible for this program. Prior to this program’s implementation, the social workers of social services agencies were providing transportation to clients themselves at their own expense. The program will use geofencing software to limit eligible origins/destinations for the ride-hailing option, and also time-boxing to when classes/appointments are in session to exclude ineligible trips. The program’s goal is to enroll between 75 and 100 participants. The system is fare-free for participants and establishes accounts so they can track their ridership activity. Once a participant is enrolled in the program, CTAA and EMBARK intend to coordinate and/or provide all their trips to demonstrate that people who are offered this transportation assistance fare better with respect to the terms of their reunification plans.

EMBARK has provided staff time and coordination assistance with fixed-route transit, but not financial assistance. The program is funded fully by the Arnall Foundation. A cost ceiling has not been established.

**Implementation Considerations and Lessons Learned**

The pilot is aiming to launch with a small parent cohort in August 2019. Currently they are evaluating software programs, developing driver training modules, and finalizing performance metrics. It is expected that the large size of Oklahoma County, and long one-way trips, will increase program costs; the longer the trip distance, the more likely the participants are to need transportation assistance. The program is seeking additional funding support from Uber and Lyft.

A long-term goal of the program is to use incentives to reward participants for meeting certain benchmarks within the system. For example, participants with perfect meeting/class attendance could be rewarded with a free transit monthly pass. CTAA cautioned that one potential barrier to implementation is that participants may be unfamiliar with the EMBARK transit system, and therefore they may need to provide travel training upfront upon enrollment.

**Opportunities for Further Research**

CTAA is launching a project in fall 2019 in West Virginia designed to provide transportation assistance for participants in opioid treatment programs. This population was originally considered for the Oklahoma County grant application, but the Arnall Foundation responded more positively to the organization’s foster care youth proposal as indicated above.

**Victim Service Center of Central Florida | Free Transportation Services from MTM**

**Agency Overview**

The Victim Service Center of Central Florida provides individualized services to victims of violent crime, sexual assault, or other trauma. They offer 24/7 crisis responses, advocacy, therapy, as well as prevention and education programs. In addition, they offer forensic exams for post-rape events, with two private facilities offering this service. The Victim Service Center is designated as the rape crisis center for the tri-county area of Orlando (Orange, Osceola, and Seminole Counties). The organization serves about 3,000 clients per year, including 383 clients for forensic exams. Clients are typically female and from socioeconomically disadvantaged backgrounds.
great deal of transportation need surrounds the forensic exams, with victims often being transported by law enforcement but many others needing transportation assistance to reach the forensic facilities, particularly if they cannot get there by fixed-route transit.

**Transportation Program Overview**

Gaps in transit service led the Victim Service Center to create a transportation partnership with MTM, a national non-emergency medical transportation (NEMT) vendor. They had previously discussed partnerships with a local fixed-route operator, which declined to offer free transit passes to the Center’s clients. MTM offered free transportation services for clients to forensic exam facilities from 2015 to 2016. During late 2016, the service was transferred from MTM to another NEMT vendor, VMD. VMD was selected because the Center has many Spanish-speaking clients, and VMD had bilingual drivers.

Transportation barriers are significant for many clients who call on the Center’s hotline, who cannot reach the Center’s facilities without assistance. For these clients the Center arranges the taxi, bus ticket, or escorted transportation. Since MTM, and later VMD, ended operations in late 2016, the Center has resumed using taxi services. The Center typically avoids using TNCs like Uber and Lyft, because their drivers often do not have criminal background checks, and they want to provide their clients with safety in their time of crisis.

The total contracted program cost, from 2015, was about $8,000, and the program ceased operations when this amount was exhausted in late 2016. The cost-per-trip was typically $25. MTM was contractually allowed to provide up to 50 round-trips per month. Clients were not charged a fare. Currently, the Center contracts with a local taxi company, CityCab, for client transportation. The Center operates two agency vehicles purchased to escort victims to shelters following the post-rape exams. The Center also received a fleet vehicle from the Orange County Sherriff’s office for transportation of victims.

**Implementation Considerations and Lessons Learned**

A majority of the Center’s funding comes in the form of allocations from State of Florida’s Victims of Crime Act (VOCA). Revenues are generated from white-collar crime on the federal level, and these funds are expected to remain solvent in the near-term. However, the Center noted that there are numerous conditions attached to this funding, and the State makes it administratively cumbersome for their transportation expenditures to be reimbursed. Center staff emphasized that running out of the initial funding for contracted service with MTM, in late 2016, was disruptive to their services, and that ensuring a dedicated, consistent funding source for client transportation is a top priority of the organization.

NEMT providers cannot provide client transportation for some types of the Center’s services, such as crisis appointments immediately following an incident of domestic violence. In these situations, the Center must rely upon transit passes or taxis. This is because NEMT providers, like MTM and VMD, require rides to be reserved in advance.

**Opportunities for Further Research**

The Center’s staff indicated that they were not aware of other victims’ services organizations who offered specialized transportation programs for their clients, with the exception of some public agency fleets donating older vehicles to these organizations. The Center recommends that in paratransit procurement, transit agencies must specify that the provider offer specialized trips for victims of crime. Alternatively, they advocate redefining, through an Act of Congress, the
definition of paratransit to include a broader range of communities eligible for funding under the Americans with Disabilities Act.

**Stanford University, Justice Advocacy Project | Ride Home**

**Agency Overview**

Stanford University’s Justice Advocacy Project is a legal clinic representing people who are incarcerated. One of its key initiatives, the Ride Home Program, provides transportation for inmates immediately upon their release from prison to their reentry program sites. The Justice Advocacy Project began in 2013 after a significant number of inmates were released from correctional facilities in California unexpectedly due to the passage of federal clemency policies under the Obama Administration. Initially, clients were often being released in the middle of the night, without cellphones or current driver’s licenses or ID, and just $200 on a state-issued debit card their only means of paying for transportation. As a result, some clients got lost or disoriented and had trouble finding their reentry program sites.

To resolve these challenges, the Justice Advocacy Project’s program associates initially provided volunteer transportation to the inmates themselves throughout California to make sure they got to their reentry programs on-time and did not violate the conditions of their parole. The program soon realized that this was not the best use of program associates’ time. Many program participants were reentering from long-term sentences in prison facilities highly segregated by race, ethnicity, and gender, and they needed a sense of comfort and camaraderie to readjust to their surroundings. They needed escorted transportation assistance from providers who were also formerly incarcerated themselves.

**Transportation Program Overview**

Since 2013, the Ride Home Program has served recently incarcerated people released from prison facilities throughout California, and operates escorted, door-to-door transportation from prison to reentry program sites. Services are gender-segregated, reflecting the gender segregation of prison facilities to provide a sense of familiarity for participants, with male drivers escorting male participants and female drivers escorting female participants. The Program’s coordinator is also the Director of the Anti-Recidivism Coalition, an advocacy group for reentry support and criminal justice reform. The hiring of this coordinator was seen as critical, because he was formerly incarcerated and was familiar with prison rules, so he was someone that participants viewed as a peer. A female outreach director, also formerly incarcerated, was also hired. The Ride Home Program’s Director emphasized that peer relationships between drivers and participants are very important, because clients often exit prison facilities with a great deal of fear, and the escort needs to understand their unique situation. In addition to providing door-to-door transportation, Ride Home Program drivers also offer travel training instruction to clients, such as how to use transit and paratransit passes, understand schedules and fare payment, and coordinate transfers.

The Ride Home Program has eight drivers on staff who stay in touch with clients, mostly based in the Los Angeles area. Drivers are paid staff, all formerly incarcerated, with a rate of $200-250 per day, plus a daily per diem, plus expenses. They typically have seasonal or otherwise flexible jobs to accommodate their Ride Home Program assignments. Drivers generally rent vehicles for insurance purposes, though sometimes personal vehicles are used. The program is fairly small, delivering several dozen rides per year. The Ride Home Program was briefly expanded, between 2015 and 2017, to provide services to correctional facilities throughout the United States. However, the program’s national funding was cut during the first year of the Trump
Administration, and it now operates only in California. The program cost between $70,000 and $80,000 per year to operate nationally and between $20,000 and $30,000 to operate only in California. The program is funded by a private, family foundation and donations to Stanford’s Justice Advocacy Project.

Participants who are being released from life sentences are highest priority for the Ride Home Program, because their transportation needs are typically the greatest. Other participants are referral-based, and the Ride Home Program is notified when inmates have an upcoming release date, or if they are being referred to select reentry programs in the Los Angeles area, where most drivers are based. The Ride Home Program also accepts applications available in prison facilities, which are distributed through prison counselors. There is typically about one week’s lead time to assign a driver to a client who is about to be released.

**Implementation Considerations and Lessons Learned**

The Ride Home Program’s Director noted that peer relationships between drivers and clients are critical to give clients the confidence needed to use public transit and get around safely. Clear communications about the ID requirements needed to enroll in free transit pass programs would alleviate some of the barriers that clients face in accessing them. Most recently incarcerated people need to report to specific locations, such as a parole office. Making sure these places are easily accessible by public transit should be a priority for County and state agencies, as well as making corrections staff aware of the challenges clients may have in accessing these sites. Scheduling appointments at times when transit is operating frequently may help in improving attendance rates and reducing recidivism.

**Opportunities for Further Research**

The Ride Home Program is the only peer-to-peer service offering door-to-door transportation for recently incarcerated people. However, Friends Outside is another organization that offers recently incarcerated people at San Quentin with travel training services and connections to transit hubs. They typically meet clients with backpacks of supplies and provide escorted transportation to BART, Caltrain, or other regional transit stations.

**Montgomery County Department of Corrections | Community Reentry ID Cards**

**Agency Overview**

Montgomery County is a suburban county northwest of Washington, D.C., home to about one million residents. The Montgomery County Department of Corrections operates a local jail facility, primarily with inmates serving brief sentences of up to 18 months, but with other inmates cycling into reentry programs from longer prison sentences. Many inmates have limited knowledge of public transit systems despite the relatively mature regional transit system in the Washington, D.C. area.

**Transportation Program Overview**

In Maryland, obtaining State Identification Card or driver’s license from the Motor Vehicle Administration is a common reentry need for inmates who need replacement cards for the purposes of identification and transportation upon release. Since a direct process to obtain identification cards from the Motor Vehicle Administration does not currently exist, the Reentry Services Unit of the Montgomery County Department of Corrections successfully established a Community Reentry Identification Card that serves an official Government Identification Card with the Montgomery County Seal that can be used in all formal circumstances just like a State
Identification Card. This card is active for the first 60 days following an inmate’s release and includes both their photo as well as their release address for record.

The Community Reentry Identification Card is authorized by the Montgomery County Department of Transportation to serve as a bus pass for no-cost bus transportation throughout the County’s public transit system, Ride-On. The card cannot be used on other regional transit systems like Metro. The card also serves as a Library Card for computer access in the Montgomery County Library System. The combination of providing an official identification card, library computer access, and transportation assistance is an invaluable support for inmates recently released as they navigate the community. The card is considered a placeholder form of identification, lasting 60 days after a client’s release, until they get their full, official ID restored. Lack of transportation, stemming from a lack of official ID, is known as a significant barrier causing clients to fail to show up to court or parole appointments.

The card primarily serves inmates who are released within Montgomery County, as the card’s services are only available in the county and not in other areas of the Washington D.C. region. About two thirds of the Department of Corrections’ clients use it, and it is one of their clients’ commonly requested resources. About 500 clients enroll in the card per year, so the fiscal impact of lost fare revenue for Ride-On is relatively insignificant. The reentry clients who use the card are primarily the sentenced population of about 600. Of this population, about 400 (or two thirds) are pre-trial and about 240 (40%) are sentenced.

The Community Reentry ID Card program has been operating since 2008. The Department of Corrections offers refresher training courses to Ride-On bus drivers and supervisors on how the program works to ensure riders are not denied access, but this is not known to be a common occurrence. The Department of Corrections initiates a family verification process during a client’s application review to ensure they are actually living in Montgomery County and not abusing the program, such as selling the passes for profit. Clients are not charged a fare for the cards. The cards are simple PVC material that are visually verified by transit drivers, including the client’s name, photo, and the Montgomery County seal. There is no chip technology in the card, so it cannot be interoperable with WMATA’s regional fare payment system.

**Implementation Considerations and Lessons Learned**

Montgomery County Department of Transportation and the Ride-On system entered into a “handshake agreement” at the Director levels between the County agencies, and there is no formal service contract or MOU. The agencies were trying to resolve an obvious need, and because there is no significant cost beyond the foregone fare revenue of 500 clients for a 60-day period, the program did not require a more formal arrangement. The cost to the Department of Corrections is nearly zero, consisting only of the cost to produce the cards in the jail facility. The program does not cross any county boundaries, involving only Montgomery County stakeholders. Involving regional stakeholders like WMATA (Metro) would be a heavier political lift likely requiring more formal fare reciprocity agreements. The program is relatively easy to implement but requires a persuasive political champion to initiate the request. The Department of Corrections also holds $500 in taxi vouchers at any given time, to be provided to inmates as an emergency basis.

**Opportunities for Further Research**

The Department of Corrections does not know of any other implementations similar to the Community Reentry ID Card program. With more resources, the Department of Corrections would like to expand to include other transit operators, such as DC Metro, though such an expansion would require fare reciprocity agreements between operators. The Department of
Corrections is also considering developing a means of distributing prepaid debit cards to clients, for use to hail rides from TNCs at times when public transit is not operating. Department of Corrections staff emphasized that jurisdictions considering implementing a similar program should aim to accommodate inmates’ regional transportation needs rather than limiting the scope to local County operators alone.

**United Way of Buffalo & Erie County/Buffalo Niagara Transportation Commission | GoBuffalo Mom!**

*Agency Overview*

The GoBuffalo Mom Program is a partnership between the United Way of Buffalo & Erie County, an area nonprofit organization, and the Buffalo-Niagara Transportation Commission, the local MPO. The two organizations established a partnership to study public health outcomes in children. The Buffalo-Niagara region has one of the nation’s highest rates of low birth weights, infant mortality, and premature births – about 1,200 affected births per year. To address these issues, in 2015 the partnership solicited and received an initial grant from the FTA’s “Rides to Wellness” program to begin planning activities based on the understanding that planning and public health outcomes were deeply linked. This grant was $25,000 and funded a 10-month research process using the human-centered design that prioritizes qualitative approaches such as focus groups and ethnography.

During focus groups the partnership conducted with the initial FTA grant, many low-income women receiving prenatal and neo-natal care identified lack of transportation to medical appointments and pharmacies as a root cause for poor neonatal health outcomes, including low birth weight, infant mortality, or premature births. The project partners received a second FTA grant to implement a transportation assistance program to improve public health outcomes among pregnant women in the Buffalo-Niagara area. The partnership is piloting the GoBuffalo Mom program in two participating medical clinics, Sisters Hospital and Erie County Medical Center.

*Transportation Program Overview*

The GoBuffalo Mom program began operating in May 2019 and consists of two components:

1. travel training services – delivered by embedded clinic staffers called “Navigators” – and
2. financial counseling services for pregnant women to save for discounted monthly or annual transit passes.

Client engagement with the GoBuffalo Mom program begins before the first prenatal appointment. Navigators call the patient to remind her of her appointment and confirm the transportation they need to get there on-time. Navigators help pregnant moms plan their trips by reviewing transit, ride-hailing, paratransit, or other transportation options available, and help them take advantage of programs like free transfers or day use passes to make trip-chaining easier. Navigators also help clients by calling transit agencies in advance to make sure they received their discounted passes, disseminate information about online trip planning tools and mobile apps. If patients express that they have difficulty using transit services due to cost or affordability concerns, or if they are a late to appointments because of transportation issues, they are referred to the financial counseling program component. Financial planning education is administered by a third project partner, Belmont Housing Association. Belmont Housing Association is a local non-profit housing developer with significant local experience providing financial planning education to low-income homebuyers and renters.
The goal of the GoBuffalo Mom program is to build transportation awareness and help new mothers plan trips on their own and achieve healthier births and better health outcomes. The cost difference between a preterm birth and a healthy birth is about $60,000 per instance in terms of neo-natal care, so reducing even a handful of preterm births would recover the program’s operating costs. Additional savings are likely to come from reduced rates of missed appointments, improving hospital resource efficiency. About 80 clients are enrolled in the financial planning component of the program. Occasionally, partnership funds are used for short-term emergency housing for clients who are at immediate risk of homelessness. Clients are not charged in any way for use of the program.

The GoBuffalo Mom program is funded through the partnership’s second FTA grant for implementation, consisting of a $468,000 grant with a 20% match from the Fund for Shared Insight, a local health foundation. The total partnership funding is $610,000. The Fund for Shared Insight required funding exclusivity, so the partnership cannot solicit other health foundation sponsors for money until theirs is expended, as the other organizations are competitors.

**Implementation Considerations and Lessons Learned**

Funding exclusivity with the Fund for Shared Insight has been a major barrier to securing additional funding to secure the program’s operation in the long term. Another challenge the partnership has faced is that the Erie County Medical Center’s union refused to hire the Navigators as staff, after a year of negotiations. This required the partners to establish an alternative staffing arrangement, and Navigators are now employees of the Prenatal-Perinatal Network, with an office embedded within the clinic.

Project partners are still measuring the health outcomes and have contracted with a local university to perform a research evaluation. Researchers will review files to cross-tabulate programs and services delivered under GoBuffalo Mom with birth outcomes (infant mortality, NICU admissions, premature/low birth weights births).

Project partners highly recommended the program’s initial human-centered design (led by a local design firm, Acumen). They indicated that this approach led them to co-design the program with pregnant moms in order to dig deep and discover real transportation needs and root causes for public health outcomes.

**Opportunities for Further Research**

The project partners recommended integrating ride-hailing partnerships for similar programs from the outset. The GoBuffalo Mom program had not anticipated the rise of ride-hailing and does not include provisions for this mode to provide non-emergency medical transportation.

**MTA Flint | Rides2Wellness**

**Agency Overview**

MTA Flint is the regional fixed-route and paratransit provider for Genesee County, Michigan, home to about 400,000 people. MTA Flint provides fixed-route bus, regional commuter bus, and countywide ADA and non-ADA paratransit service. In addition, MTA Flint operates an innovative Rides2Wellness service, a premium on-demand, door-to-door transit service for eligible riders referred to MTA through non-profit organizations for selected destinations (e.g. medical, grocery, dental, non-profit, or government agencies). The Rides2Wellness service will open to the general public in August 2019.
Transportation Program Overview

Rides2Wellness is a mobility management and non-emergency medical transportation program that includes:

- Dedicated staff to coordinate medical-related transportation
- Person-centered trip planning
- Travel training
- IT applications to improve customer’s experience for scheduling and trip arrival notifications
- Coordination with a non-profit transportation broker and medical providers
- Door-through-door service for customers needing special care

The FTA came out with Rides2Wellness grants in 2016, and MTA Flint received initial capital funding to build out software, along with vehicle purchases. All Rides2Wellness riders are referred through partnerships with third-party non-profit organizations. Riders pay for a same-day, premium fare, where they have a more precise schedule, rather than the “trip reservation window” of conventional paratransit.

In 2014, agency stakeholders were discussing transportation for dialysis patients, who may be difficult to schedule on paratransit because of their need for recurring trips. Due to the Flint water crisis of 2016, getting people to medical services to get water, filters, and immediate treatment for lead poisoning became MTA Flint’s highest priority. Agency stakeholders were approached by Genesee County’s human services director, who requested that the agency begin offering trips to medical appointments on a same-day basis. All bidders who responded to MTA Flint’s initial NEMT RFP were either a legacy NEMT service or a paratransit operator. Stakeholders believed that neither would work because they could not offer on-demand service. However, TNCs would not work due to ADA concerns, as well as inability to report these trips to the FTA’s National Transit Database (to secure future capital funding). Stakeholders saw this as an opportunity for the agency to combine the TNCs’ model of on-demand services with the best aspects of public transit, such as affordable fares, high customer service standards, ADA accessibility, and transparency of service offerings.

Rides2Wellness is modeled after TNCs in that it uses on-demand dispatching software, developed and customized in-house by Kevadiya, a local software company. The program also uses passenger vehicles, rather than larger cutaway buses or vans, resulting in cost savings for MTA Flint. Vehicles are a combination of sedans as well as Chevy Traverse SUVs, with some wheelchair-accessible minivans available. Currently, riders must be referred to MTA Flint by third-party nonprofit organizations to be eligible for Rides2Wellness. Likewise, only a select range of trip destinations are eligible for service, including trips to medical centers and clinics, farmers’ markets, government agencies, grocery stores, and nonprofit organizations. Passengers pay a premium one-way fare for the $15 trip, but all fares are paid for by nonprofits, not passengers themselves. An example of this fare reimbursement agreement is MTA Flint’s partnership with the Genesee County Veterans Services, which will allow any veteran or their spouse take up to four trips per month, to any medical/dental/grocery/nonprofit/government agency location, as a means of caring for veterans with disabilities. Other partners, such as local hospitals, will only pay for patient discharges from the hospital to the patient’s home. All of the allowed trip destinations are indicated on the agency’s contract with the nonprofit, and the passengers’ only role is in requesting the ride.
Rides2Wellness has proven to be popular with riders. Ridership has grown from 169 trips in its first month, in 2017, to 10,000 trips per month in June 2019. As ridership increased, MTA Flint has partnered with additional non-profit agencies to enroll additional riders. MTA Flint plans to open the program to the general public, in August 2019, and technicians are installing Square-branded credit card readers in all vehicles to support easy fare payment. The cost-per-trip is about $14.98, so MTA Flint is breaking even compared to $15 one-way fares. With 10,000 trips per month, the program in total costs about $150,000 per month or $1.8 million per year. There are no operational partners aside from the non-profit partners, and the original FTA grant used to cover capital costs at the program’s startup. Operating costs are covered through the MTA’s general operating funding stream. The FTA recently awarded Coordinated Access and Mobility grants to Flint MTA to finance additional vehicle purchases when Rides2Wellness expands to the general public in late 2019.

When the Rides2Wellness opens to the general public, the program will be occupying a slightly different competitive niche than TNCs. While both provide door-to-door service for similar trip lengths, Rides2Wellness drivers offer passengers hands-on assistance, such as helping unloading packages for seniors, or helping with car seats for families. Drivers on Rides2Wellness are part-time employees and members of the transit workers union. Typical drivers are people who are looking to drive passenger cars, rather than transit vehicles. Many drivers are entry-level trainees who later become full-time transit operators, as well as homemakers supplementing their income or retired transit operators. MTA Flint planners note that customer satisfaction is much higher for passenger cars than for transit or paratransit, and this perspective is important to understanding the appeal of Rides2Wellness. Rides2Wellness’ competitive advantage compared to TNCs include vehicles that are prominently labeled, drivers with background checks and drug-tests, and the accountability customers expect from public transit agencies. Nonprofit partners, in particular, feel more comfortable using Rides2Wellness than TNCs because of these additional safeguards in place to reassure them that their clients will reach their destinations on-time.

Implementation Considerations and Lessons Learned

MTA Flint stakeholders emphasized the need for flexibility in designing on-demand NEMT services. For example, passengers’ need for car seats, when traveling with small children, was unexpected, and FTA had no guidance on this topic. MTA had to develop in-house training materials for drivers on how to install and adjust car seats. Transporting passengers on behalf of mental health nonprofits can be challenging. Rides2Wellness tested a short-term partnership with local methadone clinics for daily patient trips. Drivers would often complain of these passengers passing out in the vehicles or being generally combative. As a result of driver feedback, MTA Flint transitioned to just giving those patients bus passes. For other mental health outpatient appointments, the agency provides minibus service in a group to patients rather than personalized on-demand service. Drivers also faced an operating adjustment from a paratransit model to an on-demand model, and the most significant change was not knowing their passengers in advance. This adjustment required some additional instruction during staff onboarding.

Customer satisfaction has improved significantly as a result of Rides2Wellness. MTA Flint stakeholders say that riders love this program, particularly because they get service in passenger cars, and it is well-respected in the community compared to fixed-route service. Some evidence of this perception is that in 2018, Genesee County passed a countywide property tax increase by a 70/30 margin to fund transportation, and this referendum passed even in the most traditionally conservative precincts. This is because the service is perceived as sympathetic even for voters who
never think of themselves as transit riders, because it receives high ridership and the average voter is likely to know someone who relies on it.

Opportunities for Further Research

MTA Flint stakeholders recommended working with the National Center for Mobility Management, who provided assistance to the agency in securing their initial Rides2Wellness grant from the FTA. Stakeholders emphasized that on-demand transportation is not going away, and as the country’s population ages transit agencies must adapt to what customers want, or they will leave transit behind altogether.

Additionally, stakeholders noted the importance of partnerships with non-profits. The agency has several staff designated to work with non-profit groups, called Mobility Navigators. Mobility Navigators’ role is to maintain a consistent, active relationship with key non-profits to coordinate service and deeply understand the transportation needs of their clientele.

King County Metro | Community Access Transportation (CAT) Program

Agency Overview

The Community Access Transportation (CAT) Program was formed by King County Metro in 2001. Metro’s CAT program expands mobility options for people with disabilities and seniors by developing partnerships with social service agencies and jurisdictions in King County. Metro provides vehicles and operating funds to assist social service agencies in setting up their own transportation services. These services can be used as a supplement to or in place of the ADA-mandated paratransit program, Access.

Transportation Program Overview

A CAT program may serve a specific location, such as a senior center, or operate as a community shuttle, taking seniors and people with disabilities to appointments, shopping and activities within the community. Agencies benefit since they can customize their transportation services to meet their clients’ needs. Metro benefits because CAT programs not only increase the availability of services, they also help to reduce paratransit costs:

- **Providing an Alternative:** CAT programs that operate in the same areas as Access and are able to divert trips. Since CAT does not need to meet the ADA paratransit requirements, CAT is able to be more flexible and provide more efficient service.

- **Filling the Gaps:** If Access service is eliminated in an area because fixed-route transit was eliminated, CAT can be expanded to serve that area. The CAT program can step in and provide a service that is less expensive and serves a broader group of customers.

- **Service for Low Income Populations:** Most CAT services do not charge a fare. The most expensive CAT service is $1 per boarding, and this is usually by donation. Programs are able to provide this service essentially fare-free due to their ability to supplement Metro contributions with federal and state grants. As Access fares increase, CAT service can expand, offering Access customers a service that is more affordable and costs Metro less to provide.

- **Leverage Additional Resources:** Organizations that partner with Metro to provide CAT services all contribute resources to providing the service. Some organizations provide staff time, may use grant or internal funds for some operating expenses or coordinate volunteers to drive the service.
• **Tailor Service to the Community:** Participating organizations are able to tailor CAT service to their needs. As long as the organizations are meeting ridership, funding and safety targets set by Metro, they are able to alter the service to best meet the needs of the community.

**Other CAT Services**

The CAT program is looking to expand and create new cost saving alternatives to Access or public transit. Other services currently under the CAT program include:

• **Solid Ground Circulator:** The City of Seattle, King County and Solid Ground established the service in late 2012 for people on a very low-income needing service due to the loss of the Free Ride zone. Planners mapped the location of homeless-oriented service downtown and used this to develop the shuttle route. This free service is funded by the City of Seattle and operated by Solid Ground (a non-profit organization). Since Solid Ground is already one of Access’ ADA paratransit providers, the agency has trained drivers who can be used as part of this service. King County Metro provides the vehicles and monitors the service contract. In 2017, the service provided 61,233 boardings at a cost per boarding of $5.32. More information on the service is available at: [http://www.solid-ground.org/Programs/Transportation/circulator/Pages/default.aspx](http://www.solid-ground.org/Programs/Transportation/circulator/Pages/default.aspx).

• **Domestic Violence Emergency Transportation Program:** The award-winning program partners with ten social service agencies and provides emergency taxi rides for low-income victims in domestic violence situations. The service is provided to remove victims and their children from dangerous situations, transport them to shelters, the police, support agencies, or medical care safely and swiftly.

The program partners with the YWCA that works with the agencies, and people either “cold call” or are referred by caseworkers with whom they already have a relationship. Trips are charged to a Metro account with a code number that can be tracked by Metro staff. The caseworkers book the trip, provide the rider with this code, which is in turn provided to the taxi driver. The driver provides the rider with voucher containing the code number, which Metro matches to the trip log. There is a 60 mile limit on the cab ride (to prevent excessively long trips to shelters), but the agency or rider can pay the excess amount if a longer trip is needed. In 2017, the service provided 552 boardings and served 1,128 customers (50% are children who are riding with a parent). This relatively small number of trips is due to the application of the narrowly defined trip purpose of “abuse” for the program. For example, agencies are prohibited from using the program for trips to counselling sessions.

* Data does not include other CAT services, such as the Solid Ground Circulator.

**Cost saving formula (CAT Boardings * ADA Eligible Customers) * $35.57 Average Variable Cost per Access Boarding - Annual CAT Budget. Note: The “average variable cost per Access boarding” has not been adjusted over time so the cost saving is likely higher.

*** While the cost saving numbers above do not take into account induced demand (i.e. program trips that may not have been taken on Access due to reasons such as service hour availability, limitations due to conditional ADA eligibility), this is balanced by the fact that some proportion of the 45%+ riders who are not currently ADA paratransit eligible would apply for eligibility, thus increasing Access trip demand and eligibility screening costs.

**Implementation Considerations and Lessons Learned**

Need strong commitment from transit agency with long-term view of program benefits

- The transit agency needs to be both willing to provide funding for the various program elements and also integrate the planning efforts into the overall strategic planning for the agency. The latter should recognize the increasing trend of seniors aging in place and being less likely to visit senior centers than in the past, so traditional means of serving their needs may no longer be effective. This is particularly true for agencies that apply conditional ADA paratransit eligibility, thus reducing the mobility of individuals who may not be fully eligible but nevertheless are active in their community.

- Metro has found that substantial community involvement in program planning is essential for the CAT program’s success. The agency has quarterly meetings with the King County Mobility Coalition which includes key stakeholders of both people with disabilities and low-income residents.

- Social service agencies that are located in areas that are not well served by ADA paratransit are most likely to be motivated to participate in the program. However, it takes time to engage non-profit organizations that are understaffed or in general are reluctant to take on a transportation function. The CAT program started with just three organizations, and it took some time for others to see the success of the program and realize the potential benefits for their clients. As indicated in the table above, there are now more than two dozen non-profit agencies involved, largely through word of mouth.
Program should provide new vehicles, rather than allocating paratransit vehicles that have exceeded their useful life in the ADA program

- Metro has found that it is not worth providing used vehicles to the non-profit partners in the CAT program as the maintenance costs and service impacts of disabled vehicles has a significant economic downside in the long-term.

**Los Angeles County Department of Children and Family Services | Foster Youth School Stability Transportation Pilot**

*Agency Overview*

The Department of Children and Family Services (DCFS) is the child welfare services agency that manages the foster care system in Los Angeles County. In 2015, the Obama Administration passed the Every Student Succeeds Act (ESSA), which requires local school districts and administrators, as well as child welfare agencies, to jointly establish plans to facilitate educational stability for youth in the foster care system through improved student transportation services. In response to these new requirements, the DCFS partnered with the Office of Child Protection (OCP), Los Angeles County Office of Education (LACOE), and the Los Angeles Unified School District (LAUSD) to implement a transportation program pilot for youth in the foster care system.

*Transportation Program Overview*

The four participating agencies – DCFS, OCP, LACOE, and LAUSD – used several transportation service strategies to provide rides to the foster youth’s schools of origin, when the children are removed from family homes or switching foster families, in order to help kids maintain stability and avoid trauma of frequently switching schools. The pilot allowed transportation to schools of origin to be provided through caregiver reimbursements, public transit, regular and modified school bus routes, and private rides from a TNC, whichever is determined to be most appropriate by DCFS caseworkers. The TNC used in this pilot, HopSkipDrive, specializes in youth transportation and features drivers who receive extensive background checks and training to work with children who have experienced trauma. The pilot began in December 2017 and ended June 30, 2019. This pilot was intended to enable foster youth to remain in their schools of origin, both when they are removed from their family homes and when they changed foster home placements.

Three overarching objectives of the pilot included:

- Immediately provide rides to foster youths’ schools of origin, without undergoing lengthy procurement or administration processes;
- Allow DCFS and LAUSD to collect data on the pilot’s cost-effectiveness, compared to other legacy transportation options;
- Develop implementation guidelines, including a long-term cost-sharing agreement between DCFS and LAUSD.

When a child changes foster family placements, a referral is sent to the DCFS Education Specialist team directing them to secure stop-gap transportation to the school of origin, typically delivered the following school day by HopSkipDrive. After stop-gap transportation is organized, DCFS convenes a “Best Interest Determination” (BID) meeting with the LAUSD liaison, the child, and
the child’s Education Rights Holder\(^1\) to determine whether the child can remain in his/her school of origin. If so, the team determines the most cost-effective and reasonable transportation option for the child, whether that is caregiver transportation reimbursement, public transit, school bus transportation, or private rides from HopSkipDrive. Over the two-year Foster Youth School Stability Transportation pilot, 1,131 youth were transported to their schools-of-origin through caregiver reimbursement, school bus routes, or HopSkipDrive.\(^2\) The average ride distance varied from 13 miles with HopSkipDrive to 24 miles on school bus routes. The total cost of the two-year pilot was $4.6 million. While this represents a significant cost for all agencies involved, reliable transportation to schools-of-origin prevents months of lost student learning and eliminates the trauma and instability of frequent school changes.

*Caregiver reimbursement*

Caregiver reimbursement, also known by DCFS as Education Travel Reimbursement (ETR), is one of the pilot strategies that caseworkers may determine is most appropriate to keep foster youth in their schools of origin. During a child’s placement in a foster home, the caseworker confirms whether the caregiver can provide the child with school transportation. Mileage rates and monthly reimbursement are set by the California Department of Social Services, as shown in Figure A-3. For distances of less than three miles, no reimbursement is provided and these short trips were not tracked in the pilot. The 57 caregivers were reimbursed for about $35,000 over the course of the pilot. The highest reimbursement rate (24+ miles) equates to about $11 per one-way trip or about $0.46 per mile assuming a 24-mile trip. The lowest reimbursement rate is about $1.29 per one-way trip or about $0.24 per mile. During the pilot period, DCFS reported that 57 caregivers were reimbursed for transporting 52 youth to their schools of origin (some youth may have had more than one placement), resulting in 219 monthly payments. The fact that 70 percent of caregivers in the pilot receiving reimbursement transported foster youth nine miles or more illustrates their commitment to keeping the children in their schools of origin.

---

\(^1\) By default, the ERH is the child’s biological parent. However, a court can limit the parent’s rights and appoint a “Responsible Adult” or “Educational Representative” (i.e. legal guardian, foster parents, or other caregiver) to make educational decisions.

\(^2\) The pilot agencies did not have a means of tracking the youth’s TAP card usage on public transit, so it is not known how many additional youth were served by transit.

### School bus transportation

Rerouting or using existing school bus routes was another option that DCFS and its agency partners used to transport foster youth to their schools of origin. When foster youth counselors received referrals, they worked with LAUSD’s transportation division to determine if school buses could accommodate extra riders, then communicated with caregivers as necessary to facilitate the rides. In both 2017-2018 and 2018-2019 school years, fewer than half of all foster youth referrals were offered a school bus route as an option. This is because for many youth, there was no bus route near the youth’s placement, the caregiver was unable to drop off the youth at an existing bus stop, or the youth exhibited safety/behavioral issues preventing them from taking the bus.

LAUSD spent a total of $613,755 on school buses for foster youth during the pilot period. These and other key information related to school bus portion of the pilot are shown in Figure A-4.

HopSkipDrive

The majority of rides in this pilot were provided by a vendor, HopSkipDrive. When a placement transfer referral is made for a foster youth, HopSkipDrive provides next-day service to and from the school of origin, making it a good stop-gap transportation method until a BID can be made and a long-term plan is established for the youth. HopSkipDrive serves as long-term transportation only when no other option (caregiver reimbursement, school bus route, or public transit) is available. However, due to challenges coordinating BID meetings, HopSkipDrive was most often the option of choice for youth participating in the pilot.

During the two-year pilot, HopSkipDrive transported 1,004 youth from 65 L.A. County school districts multiple times, for a total of 75,135 rides. Ridership with HopSkipDrive increased significantly between the first and second years of the pilots, as awareness of the program grew (see Figure A-5). About 70% of youth traveled 10 miles or more, indicating that youth were not deterred by long distances in remaining at their schools of origin (see Figure A-6). During the pilot period, the costs for HopSkipDrive totaled about $4 million. About 80% of riders had one-way trip costs between $10 and $60. The average one-way trip cost $44 per passenger, and the median cost was $39.

---

Figure A-5  HopSkipDrive Ridership Growth

Figure A-6  Youth Distance Traveled on HopSkipDrive

Implementation Considerations and Lessons Learned

The primary challenge for the pilot was the inherent difficulty in engaging with some Education Rights Holders (ERH), typically the foster youth’s biological parents, unless another caregiver or foster parent is designated by a court. The ERH is the ultimate decision-maker of whether or not a foster youth remains in their school of origin. Workers often could not reach the ERH or had outdated contact information, which was often a barrier to convening a BID meeting. By law, BIDs must include the school district’s AB 490 liaison, the youth, and the youth’s ERH. Identifying a time when all required parties could meet was a barrier to timeliness of the BID meeting, and youth cannot move to a decision about their long-term transportation options until a BID meeting takes place. BIDs typically happen a few days after stop-gap transportation begins, but scheduling delays can cause youth to continue using stop-gap measures (often the highest-cost vendor, HopSkipDrive) for weeks or months before eventually moving to what is often a more cost-effective transportation method.

Similarly, many LAUSD personnel and County social workers were unaware of the BID process or slow to respond to BID requests. Organizational change was necessary to increase knowledge of the BID process among the staff of these agencies, though DCFS reported that the pilot was helpful in increasing awareness as it evolved.

Notification to school districts was another problem that pilot agencies faced. Initially, there was a lack of consistent notification to school districts when a foster youth was removed from their home or changed placements. It is important to ensure that school districts can identify and provide services to foster youth and their caregivers, as well as triggers the need for a BID meeting to determine whether the child can remain at their school of origin. LACOE and DCFS are working on implementing an electronic notification process to automatically notify school districts when a youth is or will be placed in their district.

Initially, there were some areas of confusion around the pilot among LACOE staff, LAUSD foster liaisons, and DCFS staff in an internal stakeholder survey. Line-level employees felt as if the pilot did not establish clear roles and responsibilities. Some employees also reported a scarcity of training materials and resources (e.g. flowcharts) to navigate the pilot. In particular, DCFS staff and social workers reported a lack of management’s communication with team members as a barrier to the pilot’s success.

Before the pilot, youth nearly always changed schools when they changed placements, though research has shown that students can lose four to six months of learning at each school change. The pilot’s greatest success was that over 1,000 students were allowed continued enrollment at their school of origin despite the upheaval of changing foster placements. The process became more streamlined between first and second academic years of the pilot, as stop-gap transportation was established in 3 days or less for youths in 64% of cases in the first year and 80% of cases in the second.

---

6 Education Code 46853.5
7 This refers to a school district’s designated staff in charge of foster children who are wards or dependents of the court, to ensure their school placement and enrollment and transfers if a new placement is necessary.
10 Ibid. p. 14
Successful partnership with HopSkipDrive, a “company that has proved itself able to nimbly adapt its services to meet the needs of DCFS and school districts.” They quickly implemented a procedure to notify DCFS caseworkers, LAUSD liaisons, and caregivers when a ride was arranged for a youth. HopSkipDrive also offers a smartphone app that allows caregivers and DCFS caseworkers to track youth trips to and from school.

The pilot has been so successful that other counties (San Diego, Sacramento, and Ventura) have implemented similar procedures. Of great value to the pilot was a $210,000 grant from the Conrad Hilton Foundation, which was used to hire an OCP outreach coordinator to facilitate agreements between DCFS and LAUSD, education specialists to provide additional training capacity for agency staff, and evaluators to write a report of the pilot.

**Opportunities for Further Research**

Foster youth have transportation needs that go beyond the home-school of origin trip. Many foster youth also need transportation to medical, dental, mental health, or visitation appointments. The pilot’s stakeholder agencies are evaluating whether parts of the model used for home-to-school trips can be applied to provide transportation for these other trips.

A long-term ESSA transportation plan was disseminated to school districts in June 2019. School districts in L.A. County are evaluating whether to continue some or all elements of the pilot in the long-term.

---

APPENDIX B

Community and Stakeholder Engagement Findings
Appendix B  Community and Stakeholder Engagement Findings

This appendix is organized into the following sections of the Community and Stakeholder Engagement chapter:

- Profile of Community Survey Respondents
- Typical Transportation Modes and Needs/Destinations
- Additional Information about Common Transportation Challenges
- Priorities and Recommendations

The six key populations identified for this assessment (which have significant overlap between them) are as follows. Note that the letters are used throughout to refer to each population.

- Population A, foster youth.
- Population B, people with serious mental illness and/or medical conditions accessing County services.
- Population C, people with serious mental illness and/or medical conditions who have been released from County jail, County hospital, or community-based service programs.
- Population D, older adults and people with disabilities.
- Population E, non-risk criminal witnesses and victims of crime.
- Population F, adults on probation.

Profile of Community Survey Respondents

This section presents demographic information and other characteristics of the people who responded to the Transportation Needs Assessment Community Survey and who participated in a focus group (Note that all focus group participants were invited to fill out a survey).
Many participants were part of multiple key populations. For example, everyone in population C is also in population B. The largest overlap was between populations B and D, with more than three out of five respondents (65%) in these two key populations (50% only in key populations B and D; 15% in B, D, and at least one other key population).
Residence

Not surprisingly, most respondents from each of the key populations reported living in San Jose. The next five most common cities varied slightly by key population, with a higher percent of older adults and people with disabilities living in Palo Alto and Sunnyvale and a higher percentage of adults on probation and victims of crime and non-risk criminal witnesses living in Gilroy.

Figure B-3 City of Residence (n=613)

</tr>
</tbody>
</table>

Residents of ZIP codes 95112, 95008, and 95014 were the most represented in the sample compared to other ZIP codes (10%, 6%, and 5%, respectively; n=575). The rest of the sample was distributed broadly across a wide range of ZIP codes.

At least sixty-five respondents (9%) were homeless. These respondents were identified because they either noted that on the survey and/or identified a homeless or domestic violence shelter as one of the five most difficult places for them to get to that they visit at least once a month.

### Age Groups

Note that survey respondents were asked if they and/or members of their family or household are (or have been) in foster care, so some respondents 25 and older in the foster youth population are foster parents (also known as resource parents) while others are adults on probation who had previously been in foster care and/or young adults who had recently aged out of extended foster care.

Primary Language

Overall, 15% of respondents reported speaking two or more languages at home and with their families. Two out of three respondents identified English as their only or one of their primary languages, while one out of three did not report speaking English at home or with their families (64% and 36%, respectively; n=636).

Of the other languages that respondents reported speaking, the most common was Farsi (2.7% of all respondents) and another language that the respondent did not specify (1.4%). Additionally, fewer than 1% of respondents reported speaking the following languages at home and with their families: Bengali/Bangla, Croatian, Dutch, Filipino, French, German, Gujarati, Hindi, Japanese, Swiss, Persian, Portuguese, Punjabi, Russian, Tagalog, Taiwanese, Tamil, and Urdu.

Household Size

Figure B-13 Household Size (n = 501)

Cell Phone Ownership and Related Skills/Abilities

Note that populations A, foster youth, and F, adults on probation, have been combined for the following four charts. This was done because the sample size for population A is so small and the demographics of these populations are closely aligned. Additionally, since Population C, Clients with serious medical and/or mental health conditions being released from County jail, County hospital, or community-based service programs, is entirely a subset of Population B, Individuals with serious mental illnesses and/or medical conditions accessing County services, that is not presented in the following four questions.

Typical Transportation Modes and Needs/Destinations

Modes

Populations A, foster youth (n=18) and C, people with serious mental illness and/or medical conditions released from County jail, County hospital, or community-based services (n=129), had the most respondents report getting rides from friends or family members (28% and 29%, respectively).

Populations C, people with serious mental illness and/or medical conditions released from County jail, County hospital, or community-based services (n=129), and D, older adults and people with disabilities (n=615), had the highest percentage of respondents who reported using VTA Access paratransit (11% and 10%, respectively).

More respondents in population E, non-risk criminal witnesses and victims of crime (n=89), reported walking as one of their modes (51% compared to 32% overall), as well as Lyft or Uber (16% compared to 7% overall).

Compared to other key populations, more respondents in population F, adults on probation (n=96), reported using the VTA bus, walking, using VTA light rail, and using Lyft or Uber (66%, 54%, 45%, and 19%, respectively). Fewer adults on probation reported using their own motor vehicle (22%).

Figure B-18 Transportation Used in Past 7 Days (n=708)
Approximately half of all respondents (54%, n=607) reported that they or someone else in their household owned or leased a motor vehicle. Population F, adults on probation, had the fewest respondents with access to a motor vehicle (32%, n=85).

**Key Factors in Deciding Mode for a Trip**

Survey respondents and focus group participants identified cost and total travel time as the two most important factors when they decide what mode of transportation to use to get somewhere. Focus group participants also shared that the total travel time for many modes (e.g., VTA bus, VTA Access paratransit, own car) can vary significantly due to traffic. People with disabilities and older adults reported needing more time than is allotted to get from one bus to the designated transfer pickup spot for another bus with timed transfers, and therefore need to account for the amount of time it takes to wait for the next bus. One participant shared that they will not go somewhere that would take three or more transfers, because each transfer adds more waiting time—and arriving somewhere by a specific time therefore requires allowing a significant amount of buffer time. People who rely on VTA Access paratransit also shared that the pickup windows are very large and that paratransit-specific limitations (e.g., that paratransit drivers cannot modify the route based on real-time traffic unless they have authorization from dispatch) often increase total travel time significantly and resulting in their needing large buffers to ensure that they do not miss appointments.

Many focus group participants identified the distance (e.g., feet/yards) and landscape between their origin point and transportation mode, as well as between their transportation mode and their destination (known as the “first/last mile” dilemma), as key factors. Some people have mobility limitations that make it painful and/or dangerous (e.g., because they become unsteady and are likely to fall) for them to walk even relatively short distances (including from a parking lot/space to a destination) or to wait to cross multiple intersections. Many residents—and especially those in South County—live multiple miles from a public transportation station or bus stop, which discourages them from using public transit.

Finally, a few focus group participants identified that the timing of the first and last bus for a route is an important factor for them, as they do not want to arrive too late or miss the last bus home.

**Figure B-19 Most Important Factors in Deciding Transportation Mode for a Trip (n=691)**

**Purposes and Destinations of Most Frequent Trips**

As shown on the following page, survey respondents most commonly reported that their most frequent trips were to access healthcare, get food, and visit a community center.

**Figure B-20 Purpose of Most Frequent Trips (n=692)**

Compared to the other key populations, more respondents from Population F, adults on probation (n=94), identified their most frequent trips are to get to social services appointments (45% compared to 20% overall) and/or to make court/legal appointments or see a Probation Officer (45% compared to 6% overall).

Focus group participants also identified the following destinations (more specific than those in the graph above) as ones they visit in a typical week.

Stakeholders from Custody Health and the Sheriff's Office noted that most of the people in Population C with whom they interact are released from Elmwood Jail in Milpitas, although some are released from the Main Jail in San Jose. Stakeholders also identified that following destinations that the key populations often need to visit.

</table>
**Additional Information about Common Transportation Challenges**

**Cost / Affordability**

Across all key populations for this assessment, focus group participants identified that they found it challenging to afford transportation—primarily related to the cost of riding public transportation, but some comments also noted the cost of parking, gas, and bike shares. Participants shared that it costs more to ride the express buses, which unfairly burdens low-income people by forcing them to choose between increasing the length of their trips and skipping other essential costs. Some people also discussed the financial toll it has taken on their friends, relatives, and neighbors to give them rides, as those people are also often already struggling to make ends meet. Some people also find the cost structure of fares based on district/zone to be challenging, especially if they are traveling from South County to San Jose or Palo Alto.

Many participants expressed that even the monthly passes were too expensive for them given their limited incomes and other high costs—for example, participants in one of the focus groups with adults on probation agreed that $90 for one VTA monthly pass is too much as an upfront cost at the beginning of the month/at one-time and that $45-$60/month would be more reasonable for low-income riders. They noted that although the VTA does have a lower cost pass, many low-income riders do not qualify for it because they are not disabled. Some of the older adult participants shared that even the VTA senior discount passes were still too high given their low, fixed incomes and the overall high cost of living in the area. Some participants (primarily older adults and people with disabilities) shared that they and their friends sometimes choose between buying food and paying for transportation, and that paying for transportation at the end of each month is particularly challenging depending on unexpected costs that arise.

Paratransit riders also reported that the cost of all rides was high, but that the cost of the “premium” services was especially burdensome. For example, the cost of a paratransit ride that is requested the same day as the ride is provided is more than double the cost of a ride scheduled before 5pm the day before the desired ride. Additionally, the cost for a single ride for a resident who lives outside the Access paratransit service area is even higher. Some paratransit riders also shared that they can get reimbursements for paratransit trips to and from medical appointments, but that dentist appointments are not considered medical appointments.

Stakeholders who work with victims of crime reported that most victims served by County agencies are low-income. Additionally, for many victims and their families, English is a second language, or they are monolingual speaking in another language, typically Spanish or Vietnamese. Additionally, these families have immigration concerns and may be getting by trying to avoid formal systems of assistance. Finally, particularly with domestic violence and child sexual abuse, these families may be missing a primary breadwinner who may be incarcerated.

**Eligibility**

Some participants discussed the impact of the “benefits cliff,” referring to making too high of a monthly income to be eligible for certain discount passes or Medi-Cal taxi vouchers – even though (due to the area’s high cost of living) they cannot afford transportation without assistance. A few participants also shared how challenging transportation had been while their paratransit application was processed, during which time they were not considered eligible for transportation support. Specifically, people with serious medical conditions who had been released from Valley Medical Center shared that they had been given a taxi voucher to get home when discharged with instructions that they would not be able to drive for at least one month. However, they had numerous follow up appointments scheduled while their paratransit application was being
processed without a way to get to or from the appointments. Without relatives who lived close enough to give the rides, they had to pay for taxis or transportation network companies (i.e., Lyft, Uber) out-of-pocket while skipping meals or cutting other essential costs—or simply not going to some of the follow-up appointments.

**Payment Options**

Some of the stakeholders who were interviewed shared that people being released from jail often do not have cell phones—and that even if they do have a cell phone, it is not charged when they are released, so they are not able to use it to coordinate transportation (either via an app or using Google Maps to identify which buses they should take and where the nearest bus stops are located). Additionally, if they do not have money on the books/in their account, they may not be able to call a relative or someone else to get a ride home after being released.

Some focus group participants expressed missing the day pass, which was often a more affordable way to ride VTA public transportation for those who only needed to make trips a few times a week (compared to having to use multiple bus tokens during a single day).

Many youth in foster care, adults on probation, and people with serious mental illnesses and/or medical conditions who are released from County jail or hospital do not have any or consistent access to a debit or credit card, which means they cannot use app-based transportation (i.e., Uber, Lyft).

**Time/Distance Challenges**

**First/Last Mile Dilemma**

Many focus group participants shared how difficult it is for them to get from their homes to public transportation stops/stations, as well as to some destinations from the closest transit stops/stations. This common challenge is most burdensome for people with disabilities or other mobility limitations and those caring for and traveling with multiple young children (e.g., many victims of crime). Some of the focus group participants with disabilities said that they can only manage to use public transit if the origin or destination point is within 0.25 miles from the transit stop/station. A few focus group participants shared that even the distance from a transit stop/station may end up being significantly longer than it appears to be online, as it may include needing to get across large parking lots or to a far-away building on the Valley Medical Center campus.

**Areas with Limited to No Access to Public Transit**

Some focus group participants expressed frustration about how few transit routes originate or end in the West side of the County, especially during weekends and evenings. They also shared that the last VTA light rail drops off at stations without any buses waiting to take riders further. Both stakeholders and focus group participants noted that the public transportation available in Morgan Hill and Gilroy is particularly limited. Additionally, some older adult participants in focus groups shared that friends continue to drive even when it is no longer safe for them (or others) to do so because they live too far from public transportation but do not have people in their lives who can give them rides and they cannot afford taxis or other curb-to-curb services.

**Connectivity between Transit Routes and Types**

Focus group participants who were paratransit riders, as well as those with serious mental illnesses and/or medical conditions shared that the lack of connectivity between the region’s transportation services made it particularly challenging to get to appointments with specialists.
(e.g., dental implants for a victim of crime with severe injuries only available in Alameda County),
the Veterans’ Administration clinic, and services located outside of the County (e.g., Stanford
medical facilities in Redwood City, San Mateo County). Additionally, some participants shared
that some destinations are especially challenging to get to via public transit because there are
limited routes that pass the destination and limited points when one of those routes connects
with, intersects, or approaches other more popular routes. Furthermore, some participants noted
that even bus lines with routes that cross do not always have stops located in places where riders
could easily transfer between routes.

**Reliability of Mode**

Most focus group participants identified “reliability” as one of the most important factors in
deciding how to get somewhere. They shared that they typically consider a specific bus route or
other transportation option (e.g., taxi, paratransit) to be reliable if the vehicle runs according to
schedule and/or arrives approximately at the time requested or expected—but that many of the
transportation options are not reliable. Some participants also consider bus routes with frequent
buses to be reliable, because even if they miss one bus the wait until the next bus will be relatively
brief. Participants who use wheelchairs noted that because VTA buses only have capacity for two
riders who are wheelchair users at one time, they have frequently not been able to board the first
bus to arrive at their stop due to insufficient space. Many buses will also not stop for any riders—
but particularly for people in wheelchairs—if they are already filled with standing riders. A few
focus group participants also shared that they do not like to bike from their home to a bus stop
because there isn’t consistently room for their bike on the bus. A few focus group participants also
reported having missed paratransit pickups because they have been waiting in healthcare
facilities without cell service (and given the long window provided for pickup time, it can be
challenging to wait somewhere near or in healthcare facilities where there is cell service).

**Total Travel Time**

Many focus group participants reported that the number of transfers they would need to make
was one of the most important factors when they are deciding how to get somewhere. Some
participants shared that if they needed to transfer three or more times they would simply not go
to the appointment or destination. The primary issue with transfers is that many are not
coordinated, and that even timed transfers often do not work when one bus is behind schedule.
Additionally, riders sometimes have to wait for a second bus at the transfer location (for example,
because they cannot make it across the intersection between stops before the bus leaves, because
there are already two wheelchairs onboard the second bus, because the bike rack on the second
bus is full).

Both stakeholders and focus group participants also identified that that very large pickup
windows for paratransit means that riders need to plan for significantly more travel time if they
need to make an appointment time. It also makes it difficult or impossible for riders to coordinate
multiple appointments at locations that are fairly close (e.g., a rider from Gilroy who needs to visit
both Valley Medical Center’s main campus and the Social Services Agency office on Centre Road,
San Jose). Focus group participants who use paratransit also expressed their frustration at how
challenging it is for drivers to connect with dispatch in order to get the authorization necessary to
alter the set route to avoid real-time traffic—which also frequently adds time to the trip and
makes each subsequent pickup later and later.
Advance Planning Required

While VTA Access paratransit does offer premium same-day ride service for an additional cost, riders who cannot afford the additional costs must request rides by no later than 5pm the day before the desired ride. Additionally, people who utilize Medi-Cal for transportation to and from medical appointments must request those taxi rides further in advance (focus group participants reported needing to request a ride 3-5 days in advance, though the Santa Clara Family Health Plan, SCFHP, requires MediCal clients to request transportation 7 or more business days prior to an appointment). Neither of these processes help riders get to urgent care appointments, or to emergency care that does not require an ambulance transport. Additionally, paratransit users who have attendants cannot schedule rides until the user’s attendant’s work schedule has been set. Furthermore—and because paratransit riders are appreciative that they can set up “subscription” rides when they consistently go to the same place at the same time—they are also interested in setting up subscription rides for their ride back home (when also at the same time and same place).

Needing to call ahead to schedule a ride is also particularly challenging for people accessing County services who are homeless, as they often have a very difficult time keeping track of their appointments. While some services (i.e., the homeless clinic) have organized their care to not require appointments, sometimes patients who are homeless need to visit specialty clinics that do require appointments. Similarly, some people with serious mental illness who access County services struggle to remember that they need to schedule a taxi ahead of time (especially when they need to schedule it multiple days ahead of time).

Safety

Perceptions

Many focus group participants identified safety as an important factor in deciding how they will get somewhere. Typically, they shared concerns about feeling safe, sometimes due to past personal experiences and sometimes from feeling too vulnerable. Many people reported “not feeling safe waiting” because of an unlit or poorly lit bus stop for 45 or more minutes after sunset. Participants also reported often feeling unsafe with other bus riders who they thought were drug users, homeless, and/or struggling with serious mental illness.

Focus group participants who work with victims of crime noted that some survivors of intimate partner violence, trafficking, and assault are sometimes triggered by being on the same bus with someone who sounds like or looks like the person who abused/trafficked/assaulted them. Survivors who are not already comfortable navigating public transit can also find the experience confusing and overwhelming. They also noted that when shelters or safe houses are located where there is only a single bus route, people can guess the locations if they see someone they know on the bus near the location—which can (and occasionally has) compromise(d) the safety of shelter/safe house guests and staff.

Stakeholders noted that some people who are on probation or who have been released from County jail who have current or previous gang affiliations cannot safely travel through certain neighborhoods, which can mean that they end up taking a longer route or simply skipping appointments to avoid potential danger.

One older adult focus group participant shared that she would not feel comfortable using a transportation network company (i.e., Lyft, Uber) because she would be afraid of the driver.
Harassment

Youth in foster care and stakeholders who work with foster youth shared that sexual harassment on public transportation is common, and that bus drivers rarely intercede to tell a harasser to stop or to remove them from the bus (when the harassment is so loud or obvious to make this a reasonable response). Some focus group participants (both youth in foster care and participants in other key populations) shared having been touched or groped by strangers, had other bus riders aggressively come onto/harassing them despite being ignored or telling them they were not interested, and being in physical fights on a bus. They also reported that other riders typically ignore the situation when one bus rider is harassing another bus rider.

Injury and Illness

Focus group participants who were older adults and/or people with disabilities shared experiences in which they were at risk of injury because of a bus driver’s actions. Specifically, they said that not all bus drivers allow sufficient time for a rider to board the bus and either sit or have a place to hold onto before moving the bus forward, that some drivers begin to pull out as soon as a rider has stepped off the bus (but before the doors are closed or the offboarding person is stable, and that some drivers brake so suddenly or hit the gas pedal so abruptly that riders fall over.

A few focus group participants also noted that the time people spend waiting for public transportation can cause illness when there are extreme heat events, poor air quality, and cold/wet weather, with young children, older adults, and people with some kinds of disabilities and serious medical conditions all being particularly vulnerable to health impacts. Given that buses do not always run on-schedule and that many bus stops do not have a bench or bus shelter, people who are dependent on public transportation may not be able to avoid the impacts of severe weather and other hazards.

Active Transportation

A few focus group participants shared concerns about the safety of walking places, using their wheelchairs on the sidewalks, biking places, and using skateboards or scooters. They noted that they are not always safe on days with high temperatures.

Due to insufficient pedestrian and bicycle infrastructure (e.g., crosswalks, walk lights, sidewalks, protected bike lanes), people do not always feel safe walking or biking in certain places because motor vehicle drivers speed and otherwise drive unsafely. A few focus group participants with disabilities and/or older adults also expressed safety concerns about sharing space with bicyclists, people on scooters, and skateboarders who do not always pay sufficient attention to the people around them.

Physical Accessibility

Focus group participants with disabilities or other mobility limitations identified the following experiences they have had related to inaccessible public transportation.

- Bus drivers do not always lower the bus (or offer to do so) to people who have obvious physical limitations (e.g., using a cane or walker).

- Some bus drivers turn off the sound from the auditory announcements about the next stop on the route and when a stop has been requested.
• Bus drivers rarely tell riders to move out of disability-designated seats/seating areas or remind all riders that those seats/areas are reserved for use by people with disabilities and pregnant people.

• Advertisements that cover bus windows can make it challenging for someone with limited vision to track the bus’s progress along the route and know when to request their stop.

Participants also shared that obstructions between a bus stop/station and a person’s destination or home primarily impacts people with disabilities, who have not be able to safety navigate a sidewalk that is closed during construction or spilled trash or rentable scooters blocking the sidewalk.

Ease of Use and Overall User-Friendliness

Navigating Transportation Options, Schedules, and Routes

Both stakeholders and focus group participants reported that the bus schedules and VTA website and materials were all challenging for people to use among those who do not read fluent English. These materials are also extremely difficult to use for people with cognitive challenges, some serious medical conditions (e.g., traumatic brain injury), and some serious mental illness. Focus group participants also shared that many bus stops are difficult to locate because of limited signage.

Some improvements to transportation planning are not yet well-known and can present challenges – for example, although paratransit riders can request rides online, the online form does not always work and many riders do not understand how to navigate the website (even when they do know about this option). Similarly, paratransit riders who call to make a ride request sometimes get to a phone tree that is confusing and frustrating. While some focus group participants reported that the VTA app is easy to use, it is only accessible to people who have a smartphone who are comfortable downloading and using an app—something that many older adults are not.

Stakeholders and focus group participants also both reported that some people with serious mental illness (e.g., severe anxiety, schizophrenia) find it very challenging (if not impossible) to navigate public transportation.

Participants in some focus groups shared that many low-income residents have cell phones that are only enabled when on Wi-Fi, and that cannot make calls or access the internet when not connected to Wi-Fi. As a result, these people cannot use a maps app or the VTA website to check a bus schedule or figure out how to walk from one bus stop to a destination.

Customer Service and Cultural Humility

Focus group participants reported that some drivers (including some bus drivers and some taxi drivers) do not demonstrate customer service, while others do show cultural sensitivity and/or humility. Some participants identified that drivers need more skills related to deescalating interpersonal conflict and how to demonstrate compassion or empathy for riders.

Some focus group participants also expressed confusion about what (if anything) they could do when they felt the bus driver should have responded or behaved differently. They noted that the process of making a complaint was very unclear for English-speakers and likely entirely impossible to navigate for people not fluent in English.
Awareness of Existing Transportation Resources

Participants in most focus groups reported that many people are not aware of transportation resources for which they might be eligible and that they may find to be supportive. For example, some of the older adult participants were surprised to learn that VTA offers a discounted senior pass, while a few had not heard about the volunteer driver program in their community.

Participants also shared that sometimes medical social workers can use paratransit and VTA receipts for transportation to and from doctor appointments to reduce the amount of income counted in determining the amount of food stamps for which one is eligible. However, many people do not know about this and social workers do not consistently ask clients about their eligibility or discuss this possibility.

Priorities and Recommendations

Stakeholders and focus group participants shared the following recommendations related to transportation needs. Note that some of these are directed to VTA, others to the County, and that some might be considered by a collaboration and/or cities within the County.

Overall Recommendations

3. **Provide or support multiple transportation resource options and allow some flexibility because there is no “one-size-fits-all” approach that works.**

4. **Reduce the costs of transportation and/or increase available transportation resources or support, including by increasing awareness of available resources.** For example, systematize a way to assess if people who are being discharged from Valley Medical Center are eligible for paratransit and provide assistance as needed to complete the application; publicize the VTA senior discount pass at congregate meal sites and libraries; expand the Uplift quarterly passes to more people accessing County services.

5. **Increase transportation options and service areas, including by expanding routes and/or frequency.** For example, provide additional service between destinations that members of the key populations frequently need to visit; expand access to vehicles available for short-term use at a low-cost for areas with minimal access to transit and many low-income residents to expand vehicle access for people who cannot afford (and do not consistently need) their own motor vehicle; provide “feeder” options to address first/last mile challenges.

6. **Continue to increase coordination between County departments and agencies that serve the same clients/patients or the same households.**

7. **Reduce the number of trips and/or amount of effort needed for trips (when possible)—including by locating services near other key destinations and in areas served by transit.** For example, provide the option of taxi vouchers or other curb-to-curb service for some service providers working with single parents of multiple young children; fill prescriptions by mail; expand appointments that can be conducted by phone or video; mail checks (e.g., for youth in extended foster care) to a PO box or trusted community resource for people who do not have a permanent address; and co-locate services.

8. **Utilize technological advances to improve transportation.** For example, expand the use of kiosks at government sites that help people without smartphones navigate how...
to get home; set up automatic text message reminders when a curb-to-curb vehicle is on the way to pick a client up; auto-load transportation funds onto client Clipper cards.

9. **Improve overall usability and customer orientation of transportation services.** For example, have a backup vehicle or option when a paratransit vehicle is significantly delayed; make it easier for paratransit riders to find phone numbers to make complaints and to request emergency dispatch (i.e., after 8pm); establish a dedicated phone number that patients can use to schedule Medi-Cal rides; allow transportation services to pick up a rider from a location other than the one at which they were dropped off.

**Recommendations Focused on Public Transportation**

10. **Improve the accessibility, conditions, and amenities for public transit vehicles and stop/stations.** For example, ensure bus stops have shelters, benches, and “next bus arriving” signs; add cameras to stops served infrequently at night; increase pedestrian-level lighting around public transit stops/stations, improve overall cleanliness; increase the number of wheelchair users that a vehicle can accommodate; utilize the bus shelters as allocation to post customer service/complaint lines and/or to have a rolling or electronic “poster” that shows the bus schedule in multiple languages; install emergency phones at some bus stops in less populoted areas.

11. **Improve skills and behavior of drivers (and when possible, use technology to prevent drivers from making some decisions).** For example, prevent auditory announcements from being turned off; require that bus doors stay closed for 3 seconds before a bus can begin moving; train drivers in how to enforce harassment policies; reinforce the expectation that drivers proactively lower bus for people with visible mobility limitations and consistently ask riders without obvious limitations if they need the bus lowered.

**Recommendations related to Training or Preparation for Drivers Serving Key Populations**

Stakeholders identified the following as being important skills and knowledge for drivers serving people in the key populations (regardless of whether the driver is a County employee, VTA bus driver, paratransit driver, or taxi driver).

- Cultural sensitivity and basic compassion and kindness.
- De-escalation skills and ability to calmly respond to impulse control issues, volatility and aggression/violence (especially when the destination is somewhere person doesn’t want to go (e.g., a foster home or treatment center).
- Skills in motivational interviewing.
- Mental health first aid knowledge and skills.
- Ability to use Narcan, CPR, and basic first aid.
- Knowledge of area and major destinations near transit route, simple directions for how to get to a transfer bus stop or from stop to a major destination.
- Knowledge of how to support riders with functional limitations and who have assistive devices (including how close to pull up to curb and in relation to curb cuts).
- Awareness of confidentiality, especially related to drop offs and pick-ups.
Population-Specific Recommendations

Stakeholders and focus group participants made the following recommendations that are focused on specific key populations.

Population B, People with serious medical condition and/or mental illness accessing County services

- Allow key County departments (e.g., Valley Medical Center, County jail) to authorize exceptions when necessary. For example, enabling paratransit to go outside of their service area to get a patient to a specialist appointment, extend the number of miles a taxi voucher covers for some people.

Population C, People with serious medical condition and/or mental illness being released from County jail, County hospital, or community-based services

- Establish a navigator or concierge type service through which people with specialized training (and potentially clinical expertise) accompany high-risk clients/patients to help them navigate public transit or to help them get from vehicle to facility.

Population E, Non-risk criminal witnesses and victims of crime

- Provide some transportation services (i.e., curb-to-curb service) through a County system that is reliable, with drivers who are thoroughly vetted and trained to provide support to specific vulnerable populations.
APPENDIX C

Funding
Appendix C  Funding

For the transportation needs assessment, the project team has evaluated the transportation use and needs of six designated populations:

- Youth engaged in services through the Foster Care System;
- Individuals with serious mental illnesses and/or medical conditions who are accessing services through a variety of County Departments, including those who require transportation to appointments or to pick-up/refill medicine prescriptions;
- Clients with serious medical and/or mental health conditions that are being released from County jail, the County hospital, or community-based service programs;
- Disabled adults and older adults who need assistance with transportation in meeting daily needs such as attending doctor appointments or visiting nutrition sites;
- Non-risk criminal witnesses and victims of crime requiring transportation to and from Court appearances, criminal case meetings, medical appointments, job interviews, housing appointments, counseling and therapy appointments, shelters, and other community services; and
- Adults who are on probation and need assistance with transportation to comply with Court ordered requirements. This may include transportation to and from meetings with Probation, Court appearances, community service, counseling, drug testing and/or employment.

Transportation services currently used by these communities are provided by a combination of County offices, Santa Clara Valley Transportation Authority (VTA), and other public and private providers.

This memo provides a high-level overview of current County and VTA funding. A summary of a range of other potential sources of funding for the recommended strategies is also included. Specific funding sources per strategy are listed with the strategies in Chapter 4.

An obvious but necessary caution to stakeholders is that there are not many completely new or untapped sources of funding and competition for those can be significant. Using current funding sources for new programs also poses challenges as funding one new program necessarily trades off not funding something else. Previous data provided in this report may help demonstrate the needs and benefits of certain programs to the community and raise their priority.

A second caution is that many grant sources may only provide funding for a one or two-year pilot. It is therefore essential to plan for ongoing sustainable funding. Examples of ongoing funding may be general program funds (particularly if the pilot provides other cost savings) or transportation sales tax funding. Sources of funding that are used for a local match are often a logical choice for continued funding.

CURRENT FUNDING RESOURCES

County Funding

The County of Santa Clara serves a population of 1.9 million residents with a $7 billion budget, more than 70 agencies/departments and 22,000 employees. In June 2019 the Board of Supervisors approved an $8.1 billion dollar budget for Fiscal Year 2019-2020.

Note: Where Fiscal Year 2021 cells are blank, the 2020 amount is for both years.

The 2016 Measure B transportation sales tax was suspended due to legal action until January of 2019 when VTA was able to begin dispersing funding.

Measure B Program Categories

The categories and transportation projects eligible for 2016 Measure B funds are as follows:

- VTA’s BART Silicon Valley Phase II: $1.5 Billion. Downtown San Jose & Santa Clara. Six miles, four stations. New regional rail corridor. Links to major transit
- Bicycle and Pedestrian Program $250 million. Eliminate bike/ped gaps. Improve connections, mobility. Safer, more convenient.
- Caltrain Grade Separations $700 million. Separate tracks from roadways. Safer for pedestrians, bicyclists. Reduce traffic congestion.
- County Expressways $750 million. 20 candidate projects. Intersections/interchanges, widening, grade separations. Reduce congestion, improve connections.
- Highway Interchanges $750 million. 24 candidate projects. Connectors, on/off ramps, widening. Improve connectivity, safety, reduce congestion.

- Local Streets and Roads $1.2 billion. Road repairs/improvements. Complete Streets requirement. All cities/towns receive funds.
- Transit Operations $500 million. Increase bus frequency. First/last mile connections. Programs: seniors, disabled, low-income, students.\(^{15}\)

The Transit Operations Program Area funding will be allocated for four programs identified in 2016 Measure B Attachment D. Only projects and programs currently listed on Attachment D are eligible.

- Enhance Frequent Core Bus Network by increasing core bus route service frequencies, and expanding or adding additional evening, late night and weekend service.
- Expand mobility services and affordable fare programs for seniors, disabled, students and low-income riders.
- Support new/innovative transit service models to address first/last mile connections and transit services for the transit dependent, vulnerable populations and paratransit users that is safe and accountable.
- Improve amenities at bus stops to increase safety, security and access with lighting and access improvements.

VTA’s planned programs for the FY18 & FY19 budget allocation will reduce fares for seniors and youth with a potential ultimate goal of free rides.\(^{16}\)

### POTENTIAL FUNDING RESOURCES

#### City/Local Sources

Many cities in the Bay Area have passed sales tax or parcel tax measures to fund a variety of needs including transportation. The following measures with a relation to transportation programs, youth, and/or seniors have been passed in Santa Clara County since 2010:

- Measure N: City of Campbell Hotel Tax Increase
- Measure M: City of Campbell Business License Tax
- Measure D: Los Altos Hotel Tax Increase
- Measure G: Los Gatos Sales Tax
- Measure R: Milpitas Hotel Tax Increase
- Measure H: Morgan Hill Hotel Tax Increase
- Measure P: Mountain View Per-Employee Business Tax
- Measure B: City of Palo Alto Hotel Tax
- Measure U: City of San Jose Marijuana Tax
- Measure M: Santa Clara Marijuana Business Tax
- Measure K: Sunnyvale Hotel Tax Increase

\(^{15}\) [https://www.vta.org/projects/funding/2016-measure-b](https://www.vta.org/projects/funding/2016-measure-b)

Members of the designated populations receive City services (e.g. senior centers) and their role in funding or supporting new programs in-kind should be considered.

Additionally, in 2010 Santa Clara County passed a Vehicle Registration Fee to “repair potholes, repave and maintain local streets, improve traffic flow on local roads; increase Santa Clara County’s share of state/federal matching funds; improve safety; and pay for other congestion and pollution mitigation projects”\textsuperscript{17}.

**State Sources**

**State Transit Assistance (STA) Program**

One of two state-level programs established by the Transportation Demand Act (TDA) of 1971, the State Transit Assistance (STA) Program can be used to finance a wide variety of transportation projects, including transit operations, bus and rail projects, and special transit service for people with disabilities. STA program funds are generated by state sales tax on diesel fuel. STA distributes funding to transit operators based on a formula whereby 50\% of funds are allocated based on the county’s population and 50\% of funds are allocated according to transit operator revenues for the fiscal year. Funds can be used for capital projects and for operational support.

**Location Transportation Fund**

The Location Transportation Fund (LTF) is the second program established by the Transportation Demand Act (TDA) of 1971. The Local Transportation Fund is derived from the \(\frac{1}{4}\) cent of the general sales tax collected statewide. The sales tax collected in each county is returned to the county where the tax was generated. Each regional transportation planning agency (RTPA) is responsible for allocating LTF money within their jurisdiction. LTF funds may be used for public transit services, planning and programming, bus and rail projects, local streets and roads, construction and maintenance, and bicycle and pedestrian facilities.

**Low Carbon Transit Operations Program (LCTOP)**

The Low Carbon Transit Operations Program (LCTOP) is funded by Cap-and-Trade Auctions. At its core, the intent of LCTOP is to reduce greenhouse gas emissions and increase transit ridership. LCTOP funds are directly allocated to transit agencies via the same formulas used by the STA program. Funds may be used for both capital and service programming, including increased service frequency, station area improvements, bicycle and pedestrian infrastructure, and transit pass programs.\textsuperscript{18}

**SB 1376 TNC Access for All Act**

In an effort to test and improve TNC accessibility and to foster local models that improve access to transportation for individuals with disabilities, the Governor signed Senate Bill (SB) 1376: TNC Access for All Act. Pursuant to SB 1386, the California Public Utilities Commission (CPUC) required TNCs to collect a ten cent ($0.10) fee on each TNC trip in California beginning on July 1, 2019. Fees will be directed to the TNC Access for All Fund, which supports the expansion of on-demand transportation for non-folding wheelchair users who require a wheelchair accessible

\textsuperscript{17} https://ballotpedia.org/Santa_Clara_County_Vehicle_Registration_Fee,_Measure_B_(November_2010)

\textsuperscript{18} http://www.transformca.org/sites/default/files/LCTOP_FINAL.pdf
vehicle (WAV). The per-trip fee is passed directly on to customers taking TNC trips that originate in preselected geographic areas. Access Funds will be distributed proportional to the percent of fees originating from that geographic area on a quarterly basis. Geographic areas were determined based on the demand for WAVs within the area and the outcome of CPUC-facilitated workshops.

**Caltrans Sustainable Transportation Planning Grant**

Caltrans developed the Sustainable Transportation Planning Grant to promote a balanced, comprehensive multimodal transportation system in California that encourages transit, bicycling, and walking. The grant, which consists of the Sustainable Communities and Strategic Partnerships Programs, may be used for a wide range of transportation planning projects that address local and regional transportation needs and issues. In 2017, Caltrans awarded $9.3 million for projects proposed by small rural cities, large cities, and transit agencies throughout California. Although Caltrans has removed grants dedicated for transit planning, transit-related projects are still eligible for funding.

**Transportation Fund for Clean Air (TFCA)**

In 1991, the California state legislature authorized the California Air Resources Board (CARB) to have each Air District in California impose a $4 surcharge on cars and trucks registered within the Air District’s jurisdiction to provide grant funding to eligible projects that reduce on-road motor vehicle emissions. Forty percent (40%) of collected fees are available to each county with the remaining 60% administered by the Air District through a separate process. Eligible projects must focus on air quality improvement and be cost effective. The Bay Area process is described under Regional Sources in BAAQMD.

**Regional Sources**

**Lifeline Transportation Program (LTP)**

In 2005, MTC created the Lifeline Transportation Program that funds transportation projects in low-income communities across the Bay Area. Since its launch, MTC has awarded more than $225 million; however, there are limitations on sponsor and project eligibility. A Lifeline project must address existing transportation gaps and fund certain programs: fixed-route bus service, transit stop improvements, pedestrian and bicycle access, and transportation services for children and seniors. Fund sources for the Cycle 5 Lifeline Transportation Program (covering a two-year programming cycle, FY2016-17 to FY2017-18) include State Transit Assistance (STA), and Federal Transit Administration (FTA) Section 5307 Urbanized Area Formula funds.

**One Bay Area Grant Program (OBAG)**

MTC’s OBAG program is a grant program that incentivizes local jurisdictions to fund transportation projects within Priority Development Areas. Funds can be used for a myriad of

---

investments including bicycle and pedestrian paths, bicycle lanes, Safe Routes to Transit, and Safe Routes to School projects. Eligibility is confined to cities that have adopted a Complete Streets policy. Funds originate from the region’s discretionary federal highway funding including Surface Transportation Program/Concentration Mitigation and Air Quality Improvement programs (STP/CMAQ).22

**Active Transportation, Complete Streets and Safe Routes to School Program**

In addition to the LTP and OBAG, MTC sponsors the Active Transportation, Complete Streets and Safe Routes to School Programs. This effort helps finance Complete Streets, Bay Trail development, and pedestrian and bicycle connectivity across the region. Safe Routes to School, a component of OBAG, distributes $5 million to cities, counties, and congestion management agencies to fund local projects that improve students’ access to schools. Projects include bicycle racks and secure parking, traffic calming, and bicycle safety trainings. Active transportation programs can be particularly beneficial to the populations in this study where access to a vehicle is limited.

**Bay Area Air Quality Management District (BAAQMD)**

Each year, the Air District allocates grant money from the Transportation Fund for Clean Air (TFCA) regional fund to public and private agencies through a competitive or first-come, first-served basis. Projects eligible for the funds include trip reduction programs, clean air vehicles and infrastructure, and bicycle facilities. According to the Air District, TFCA projects are evaluated based on their effectiveness in reducing polluting emissions. This past year (2019), the BAAQMD Board approved the allocation of $14 million in TFCA grant funds, available in FYE 2020.23

**Federal Sources**

Federal funding for public transit comes primarily through the U.S. Department of Transportation (U.S. DOT). Funding for the U.S. DOT is authorized by the Fixing America’s Surface Transportation (FAST) Act, the first federal transportation authorization in over a decade to fund federal surface transportation programs through 2020. The FAST Act was signed into law in December 2015, and provides $305 billion in funding over fiscal years 2016 through 2020 for the U.S. DOT and its subsidiary agencies, including the Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA). The following summary is a simplified overview of funding for public transit based on the provisions of the FAST Act effective through September 2020.

The FTA allocates funding for transit systems in urbanized and rural areas and for programs for older adults and individuals with disabilities. The FTA allocates funds based on formulas or discretionary awards.

---

FTA Formula Funds

Ten FTA funding programs apportion to urbanized areas (UZAs) or states by specific formula. Formula programs include:

- **Section 5303 Metropolitan Transportation Planning**: Awarded to states for planning activities.
- **Section 5304 Statewide Transportation Planning**: Awarded to states for statewide planning and other technical assistance.
- **Section 5305 Planning Programs**: Awarded to states, local governmental authorities, or MPOs for developing transportation plans and programs; planning, engineering, design, and evaluation of public transportation projects; and to conduct eligible technical studies relating to public transportation.
- **Section 5307 Urbanized Area Formula Program**: Authorizes federal capital (and occasionally operating and planning) assistance for transit in UZAs.
- **Section 5310 Special Needs of Elderly Individuals and People with Disabilities Program**: Awarded to states to help meet the transportation needs of the elderly and people with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs.
- **Section 5311 Formula Grants for Rural Areas**: Awarded to states for supporting public transit in rural areas with a population of less than 50,000, where many residents often rely on public transit to reach their destinations.
  - **Section 5311(b)(3) Rural Transit Assistance Program**: Awarded to states to assist in the design and implementation of training and technical assistance projects, research, and other support services tailored to meet the needs of transit operators in non-urbanized areas.
  - **Section 5311(c)(2)(B) Tribal Transit Formula Grants**: Awarded to federally recognized Indian tribes to provide public transportation services on and around Indian reservations or tribal land in rural areas.
- **Section 5314(a) Technical Assistance & Standards Development**: Awarded funding for technical assistance programs and activities that improve the management and delivery of public transportation and development of the transit industry workforce.
  - **Section 5314(b) Human Resources & Training**: Awarded to public transportation human resource and workforce development programs.
- **Section 5324 Public Transportation Emergency Relief Program**: Awarded to states and public transportation systems pay for protecting, repairing, and/or replacing equipment and facilities that may suffer or have suffered serious damage due to emergencies and natural disasters.
- **Section 5337 State of Good Repair Grants**: Awards fleet and system rehabilitation capital funds to state and local governments authorities in UZAs with fixed guideway and high intensity motorbus systems in revenue service for at least seven years.
- **Section 5339(a) Grants for Buses and Bus Facilities Formula Program**: Awarded to states and transit agencies to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.
- **Section 5340 Growing States and High-Density States Formula Program:** Awarded partially to states under population forecast formulas and partially to UZAs within states with population densities greater than 370 people per square mile.

### FTA Discretionary/Competitive Funds

Eight FTA programs are based on discretionary funding. In addition to FTA grant programs, the FHWA administers programs that provide the flexibility to transfer funds to FTA for transit projects. However, the applicability of these funds may be limited due to stringent eligibility requirements and/or passed deadlines for Expressions of Interest. Discretionary programs authorized during the FAST Act include:

- **Section 3005(b) Pilot Program for Expedited Project Delivery**
- **Section 5307(h) Passenger Ferry Grant Program**
- **Section 5309 Capital Investment Grants**
- **Section 5312 Public Transportation Innovation**
- **Section 5312(i) Transit Cooperative Research Program**
- **Section 5339(b) Buses and Bus Facilities Program**
- **Section 5339(c) Low or No-Emission Vehicle Program**
- **Section 20005(b) Pilot Program for Transit-Oriented Development Planning**
- **Section 20157 Commuter Rail Positive Train Control Grants**
- **Access and Mobility Partnership Grants**
- **Better Utilizing Investments to Leverage Development (BUILD) Transportation Grants Program (formerly TIGER)**
- **Human Trafficking Awareness and Public Safety Initiative**
- **Integrated Mobility Innovation**
- **Mobility on Demand (MOD) Sandbox Program**
- **Public Transportation on Indian Reservations Program; Tribal Transit Program 5311(j)**
- **Safety Research and Demonstration Program**
- **Zero Emission Research Opportunity**

### Private/Corporate Sources

Since Santa Clara County is the home to Silicon Valley and a number of large recognizable corporations, this has prompted discussions about corporate responsibility and partnership. One response to these discussions was Google's June 2019 pledge to invest $1 billion dollars in land and money to construct housing in the Bay Area over the next decade.

The Manzanita Talks were a series of discussions from April-October 2019 convened by Joint Venture Silicon Valley, in partnership with the Bay Area Council. The purpose of the talks was to explore the logic and desirability of cross-sector collaboration to address “first and last mile” challenges, traffic mitigation, the potential for coordinating and integrating existing Transportation Management Associations, and whether to form a sub-regional Transportation...
Management Association on the mid-Peninsula. The Manzanita Report and Alternatives analysis is available online.

An important player in many discussions regarding Silicon Valley corporations and quality of life issues for the community is the Silicon Valley Leadership Group (SLVG). The SVLG was a major supporter of SB1 and Santa Clara County’s Measure B. They are currently supporting FASTER Bay Area, a proposed Region-wide sales tax measure. Opponents state that large employers are responsible for many of the Region’s increasing transportation problems and need to provide more support.

Opening discussions with the Foundations and policy groups listed may not lead to immediate funding but would highlight the needs of the designated populations, which these groups may not be aware of, and may lead to future attention and funding.

Service providers for vulnerable communities are sometimes able to access private funding through Foundations or similar organizations. Foundations supporting programs in Santa Clara County include:

- Valley Foundation
- Catholic Community Foundation of Santa Clara County
- Silicon Valley Community Foundation
- Peery Foundation
- Sobrato Family Foundation
- Chan/Zuckerberg Initiative

APPENDIX D

Stakeholder Interview Protocol
Appendix D  Stakeholder Interview Protocol

Thank you for taking the time to share your thoughts on the transportation needs of key populations in Santa Clara County. My name is [Redacted] and I work at Raimi + Associates. We are collaborating with Nelson\Nygaard, and we are working closely with the County Executive’s Office on this Transportation Needs Assessment Project. Your input will help shape the needs assessment where we will identify countywide, cross departmental solutions to the transportation challenges faced by six key populations which include:

1. Youth engaged in services through the Foster Care System
2. Individuals with serious mental illnesses and/or medical conditions accessing County services
3. Clients with serious medical and/or mental health conditions being released from County jail, County hospital, or community-based service programs
4. Disabled adults and older adults meeting daily needs
5. Non-risk criminal witnesses and victims of crime
6. Adults who are served by the Probation Department

Today’s interview will take 45-60 minutes and I’ll be asking you questions about the strengths, barriers, opportunities, and priorities related to transportation services for the key populations in San Clara County.

We’d like you to be as candid as possible. Information from the interviews will be analyzed in aggregate to identify themes across interviewees. We will also be highlighting specifics about key populations and in some cases your specific perspective so the recommendations can be specific. If there are comments you would like to flag as “confidential” or “off the record”, we can do that. We will not be attaching your name to any of your comments in written reports or summaries.

If it’s okay with you, I’d also like to record our conversation to make sure our notes are fully accurate, and will not be sharing the recording with anyone. Is that okay? Do you have any questions for me before we begin?

INTERVIEW QUESTIONS

What’s working well?

1. Can you please confirm which key populations you work with? How do the key populations that you work with currently access transportation services?
2. When thinking about the key populations in this study (see list above), what aspects of transportation and mobility in Santa Clara County work well today? 
   (Prompts: destinations that transit serves, accessible transit/paratransit, etc.)
3. How does the County’s network of transportation services currently support your clients?
What are the barriers?

4. Regarding the populations you work with, what are the barriers to getting them the transportation services they need?
   
   (Prompt: these can include the barriers your staff faces and the barriers the clients face)

5. What specific vulnerabilities do your clients face that the county should consider when providing transportation services to the key populations?

6. [WHEN APPROPRIATE/OPTIONAL] What transportation challenges and needs do foster parents have?

What are key opportunities to consider?

7. How can mobility and transportation services be improved in Santa Clara County to ensure that key populations get the services they most need?
   
   (Prompts: increased paratransit service, multimodal connections between specific destinations, more transit service, bike/ped facilities, new mobility services, better wayfinding and information, safety, etc.)

8. What could help ensure that the key populations identified for this needs assessment access and navigate services across multiple programs?
   
   (Probe: What are effective ways to coordinate transportation service information for clients?)

9. What transportation navigation services, if any, (past or present) in SCC County or in other jurisdictions have been useful?

10. What do you think about a centralized countywide client transportation coordination hub/ software/ database? What would this look like? What other jurisdictions/agencies are doing this well?

11. [OPTIONAL] How can the agency/providers, drivers, and clients best use technology to meet transportation needs (e.g., phone app to request rides)?

12. What kind of training/preparation is needed for drivers to work with the key populations that we have talked about (e.g., how to address riders with medical issues, etc.)?

13. [OPTIONAL/IF TIME] Could you describe any funding and/or resources that is/are available currently for transportation services? (e.g., staff positions, etc.)

14. Are agencies/organizations currently contracting out services?

What are the priorities?

15. What, if any, cost considerations should we consider for key populations?
   
   (Probe: If costs were associated, what would maximum costs be? Cost associated to key population, county taking on cost for clients, or another option?)

16. Thinking about all that we have talked about today, what are the top 2-3 transportation priorities in SCC that will best serve the key populations?

17. Those are all the questions I have for you today. Is there anything else you would like to add?

Thank you very much for your time today!
APPENDIX E
Community Survey Instrument
Appendix E  Community Survey Instrument

SANTA CLARA COUNTY TRANSPORTATION NEEDS ASSESSMENT COMMUNITY SURVEY

DIRECTIONS: Please answer the following questions as best as you can. You may skip any question. Your responses are anonymous. They will be analyzed as part of survey responses. The combined responses will be summarized and presented as part of the Santa Clara County Transportation Needs Assessment to improve service.

1. **In the past 7 days, which of the following modes of transportation have you used?** Check all that apply.
   - My own motor vehicle (car, truck, van, or motorcycle)
   - My own bicycle, skateboard, scooter, etc.
   - Walking
   - Wheelchair
   - Taxi
   - VTA bus
   - VTA light rail
   - VTA Access paratransit
   - Rides from friends or family members
   - Lyft or Uber
   - Volunteer driver program
   - Rented/app-based bike or scooter (e.g., Ford GoBike, Lime, Bird)
   - Other (e.g., carpool, BART, Caltrain, GoGo Grandparent, community/senior center vans) - Please specify:

2. **What 3 factors are most important when you are deciding what transportation mode(s) to use for a trip?** Check 3.
   - Cost
   - Total travel time
   - Number of transfers
   - Amount of walking required (between transit stop or parking spot and destination)
   - Safety
   - Physical accessibility (e.g., ramp, elevator, space for a folding wheelchair)
   - Flexibility (e.g., you can request a ride the same day, bus every 20 minutes)
   - How you can pay (e.g., cash, pre-paid Clipper card, credit card via phone app)
   - Other – Please specify:

---

Nelson\Nygaard Consulting Associates Inc. | E-1
3. **What are your top 3 transportation challenges?** Check 3.

- □ Being able to afford transportation
- □ Physical inaccessibility of the vehicle (e.g., car, light rail)
- □ Physical barriers near destination or starting point (e.g., vehicles blocking sidewalk, no curb cuts)
- □ Needing to make transportation plans 1+ day in advance of a trip
- □ Making weekend trips
- □ Making evening trips
- □ Making early morning trips
- □ Distance between my home and public transit stop/transportation hub
- □ Distance between destination and public transit stop/transportation hub
- □ Traveling outside of Santa Clara County (e.g., Redwood City, Hayward, Salinas)
- □ Language barriers
- □ Other – Please specify:

4. **What is the purpose of your most frequent trips?** Check all that apply.

- □ Travel to/from your job
- □ Get food (e.g., grocery store, food pantry, congregate meal site)
- □ Get your child(ren) to/from school or childcare
- □ Access healthcare (e.g., doctor’s visit, physical therapy, counseling, filling a prescription)
- □ Travel to/from school or a training program
- □ Accomplish other errands (e.g., non-grocery shopping, going to laundromat)
- □ Visit or meet up with friends or family
- □ Make court/legal appointments or see a Probation Officer
- □ Visit a Community Center, Senior Center, Family Resource Center
- □ Get to appointments related to social services (e.g., renewing CalFresh enrollment, participating in supervised family visitation, attending CalWORKS trainings)
- □ Other – Please specify:
5. Of the places you need to visit at least once a month, which 5 are the most difficult for you to get to? Check 5.

- Your workplace
- Your child(ren)'s school or childcare/daycare location
- Your school or location for a training program
- A Community, Senior, or Family Resource Center
- Homeless/DV shelter or temporary housing
- Clinic or hospital
- Counseling, therapy, or substance use treatment
- Courthouse
- Jail or detention facility
- Probation Department
- Other government facilities or offices (e.g., Social Services office, WIC office, Reentry Resource Center)
- Other – Please specify:

6. Do you or another member of your household own (or lease) a motor vehicle? □ Yes □ No

7. In the past 12 months, how often have you had to miss an appointment due to transportation?

- Never
- Rarely
- Occasionally
- Nearly always
- Not sure

8. How strongly do you agree or disagree with these statements?

<table>
<thead>
<tr>
<th></th>
<th>Strongly Agree</th>
<th>Agree</th>
<th>Disagree</th>
<th>Strongly Disagree</th>
<th>Don't Know/Does Not Apply</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) I am able to get to the destinations where I need to go.</td>
<td>□</td>
<td>□</td>
<td>□</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>b) The County agencies/programs that I interact with have helped me figure out transportation.</td>
<td>□</td>
<td>□</td>
<td>□</td>
<td>□</td>
<td>□</td>
</tr>
</tbody>
</table>

9. Which of the following applies to you?

- □ I own a smartphone (e.g., iPhone, Android)
- □ I own a cell phone, but it cannot access the internet
- □ I have a cell phone but don’t know if it can access the internet
- □ I do not have a cell phone
10. For each of the following statements, which applies to you?  

| a) I know how to send and receive text messages on a cell phone. | Yes | No | I don’t know |
| b) I know how to access the internet via a cell phone. | Yes | No | I don’t know |
| c) I have downloaded and used an app on a cell phone or tablet. | Yes | No | I don’t know |

The questions on the following page request information about who you are. Your answers are anonymous and will be used to ensure we hear from a wide range of County residents and the types of people eligible to use some of transportation services that Santa Clara County provides, so your responses are greatly appreciated.

Your responses will be analyzed as part of all survey responses and will not identify any individual. The combined responses will be summarized and presented as part of the Santa Clara County Transportation Needs Assessment to improve services.

If you are not comfortable answering any of these questions, you may skip them. Thank you for participating!

12. What is your ZIP code? ____________

13. How many people are in your household (including yourself)? ________________

14. How old are you?

- Under 18
- 18-24
- 25-59
- 60-79
- 80 or older
- I prefer not to answer

15. Which of the following best describes your race/ethnicity? Check all that apply.

- American Indian/Alaska Native
- Asian
  - Asian Indian
- Chinese
- Filipino
- Vietnamese
- Black / African American
- Latino / Hispanic
- Pacific Islander
- White
- Don’t know/Not sure
- Other - Please specify:
- Don’t know/Not sure
- I prefer not to answer
16. Which of the following best describes your gender/sex? Check all that apply.

- Man/Male
- Woman/Female
- Transgender or non-binary
- Other - Please specify: _________________
- I prefer not to answer

17. What language(s) do you speak at home or with your family? Check all that apply.

- English
- Spanish
- Vietnamese
- Chinese
- I prefer not to answer

18. Are either or both of the following true? Check all that apply.

- I have a disability that limits my access to transportation
- I receive support from County services (e.g., Valley Medical Center, CalWORKs, BHS)
- Neither apply to me
- I prefer not to answer

19. Are any of the following true? Check all that apply.

**In the past 5 years, I …**

- I have been a victim of crime (e.g., assault, theft)
- I have been arrested, in County jail, and/or on probation or community supervision
- None of these apply to me
- I prefer not to answer

20. Are either or both of the following true? Check all that apply.

**I and/or members of my family or household…**

- Have a serious medical condition and/or a serious mental illness
- Neither apply to me or my family/household
- I prefer not to answer
- Are (or have been) in foster care

THANK YOU FOR YOUR PARTICIPATION!
**EVALUACION DE NECESIDADES DE TRANSPORTE DEL CONDADO DE SANTA CLARA ENCUESTA COMUNITARIA**

**INSTRUCCIONES:** Favor de responder a las siguientes preguntas lo mejor que pueda. Puede pasar cualquier pregunta. Todas las respuestas son anónimas. Las respuestas serán presentadas en resumen como parte de la evaluación de necesidades de transporte del condado de Santa Clara para mejorar los servicios. ¡Gracias por participar!

- [ ] Ninguna aplica a mi o a miembros de mi familia o hogar
- [ ] Prefiero no responder

- [ ] Estoy/Están (o estuve/han estado) en el sistema de acogida de niños

¡GRACIAS POR SU PARTICIPACION!
## ĐÁNH GIÁ NHU CẦU VẬN TẢI QUÂN SANTA CLARA KHẢO SÁT CỘNG ĐỒNG

Hướng dẫn: Xin trả lời những câu hỏi sau đây dựa theo điều kiện cá nhân. Các câu trả lời của quý vị sẽ được án dán. Chúng sẽ được tích trữ như một phần của tất cả các câu trả lời khách. Toàn bộ các câu trả lời kết hợp sẽ được tổng kết và trình bày như một phần của Chương Trình Đánh Giá Nhu Cầu Vận Tải của Hạt Santa Clara nhằm cải thiện các dịch vụ. Xin cảm ơn đã đi đến khảo sát này!

### 1. Trong 7 ngày vừa qua, quý vị đã sử dụng phương tiện chuyên chở nào sau đây?

Xin đánh vào tất cả ô nào đúng nhất.

- [ ] Xe của tôi (xe hơi, xe truck, xe van, hay xe máy)
- [ ] Xe đạp của tôi, xe ván trượt, xe tay ga hay scooter v.v.
- [ ] Đi bộ hay bằng xe lăn
- [ ] Đi nhờ bạn bè hay người trong gia đình
- [ ] Xe buýt VTA
- [ ] Xe đường sắt VTA
- [ ] Xe cơ quan paratransit VTA
- [ ] Taxi
- [ ] Lyft or Uber
- [ ] Chương Trình Chuyển Chở Tình Nguyên
- [ ] Mượn xe đạp/xe máy qua ứng dụng App (v.d., Ford GoBike, Lime, Bird)
- [ ] Các phương tiện khác (v.d., đi xe chung, xe BART, Caltrain, GoGo Grandparent, xe van của các địa điểm cộng đồng/ Trung tâm dinh dưỡng cho cao niên) – Xin nêu rõ:

### 2. 3 yếu tố nào sau đây là quan trọng nhất nếu quý vị cần sử dụng phương tiện đi đâu?

Xin đánh vào 3 ô

- [ ] Giá cả
- [ ] Tổng thời gian di chuyển
- [ ] Số lần chuyển xe
- [ ] Số lần phải đi bộ (giữa các trạm hay bãi đậu xe hay bên ngoài)
- [ ] An Toàn
- [ ] Thích nghi cho cơ thể của mình (v.d., lên dốc cao, thang máy, có chỗ cho xe lăn không)
- [ ] Tiền lợi (v.d., Cứ 20 phút trong cùng ngày quý vị có thể đăng ký một chuyến đi)
- [ ] Cách trả tiền (v.d., tiền mặt, thẻ trả tiền Clipper, thẻ tín dụng qua app phone)
- [ ] Các điều khác– Xin nêu rõ:

-------------------------------

![Packet Pg. 309](15.b)
3. **3 điều khó khăn nhất cho sự chuyên chở của quý vị?** Đánh dấu 3 ô.

- Làm sao có đủ tiền trả
- Thời gian không vào được trong xe (v.d., xe hơi, xe tàu điện)
- Vật cản đường nơi gần đến hay nơi sắp đi (v.d., bị nhiều xe chắn đường đi bộ, không có lề đường)
- Cân lên kế hoạch về phương tiện chuyên chở 1 ngày hay lâu hơn trước chuyên chở
- Đi trong ngày Weekend
- Đi vào buổi tối
- Đi vào sáng sớm
- Ngôn ngữ bất đồng
- Khoảng cách giữa nhà và trạm/trung tâm chuyên chở công cộng
- Khoảng cách giữa nơi đến và trạm/trung tâm chuyên chở công cộng
- Đi ra khỏi hạt Santa Clara County (v.d., Redwood City, Hayward, Salinas)
- Các điều khác – Xin nêu rõ:

4. **Mục đích của các chuyến đi thường xuyên nhất của quý vị là gì?** Xin đánh dấu vào tất cả các ô đúng.

- Đi đến/về từ chỗ làm
- Đi mua thức ăn (v.d., tiệm tạp hóa, nơi nấu đồ, tiệm CalFresh)
- Đi đến các cơ quan xã hội (v.d., đăng ký CalFresh lại, tham gia các buổi giám định thăm viếng gia đình, tham dự các cuộc huấn luyện của CalWorks)
- Đi đến/về từ trường hay nơi học tập, nơi nấu ăn, các địa điểm ăn uống
- Đi thăm hay hội họp bạn bè, tư vấn, đi lấy thuốc
- Đi hầu tòa hay gặp gỡ nhân viên quản chế
- Đi các công chuyện khác (v.d., đi công chuyện lặt vặt đi giặt đồ)
- Đi đến các cơ quan xã hội (v.d., đăng ký CalFresh lại, tham gia các buổi giám định thăm viếng gia đình, tham dự các cuộc huấn luyện của CalWorks)
- Các điều khác – Xin nêu rõ:
5. Trong những nơi quý vị cần đến ít nhất mỗi tháng một lần, 5 nơi sau đây là khó khăn nhất cho quý vị? Đánh dấu...

- [ ] Nơi làm việc
- [ ] Trường học hay nơi giữ trẻ
- [ ] Trường học hay nơi huấn luyện
- [ ] Cơ sở Cộng đồng, trung tâm Cao Niên, hay Trung Tâm Bảo Vệ Gia Đình
- [ ] Cơ quan quản chế
- [ ] Những nơi làm việc khác của nhà nước (v.d. Sở Xã Hội, Văn Phòng WIC, Trung Tâm Reentry Resource)
- [ ] Các điều khác – Xin nêu rõ:

6. Quý vị hay thành viên nào trong gia đình sở hữu (hay cho thuê) một xe máy?

- [ ] Có
- [ ] Không

7. Trong 12 tháng qua, quý vị đã bị lỡ hẹn bao nhiêu lần vì vấn đề chuyên chở?

- [ ] Không bao giờ
- [ ] Rất hiếm
- [ ] Thỉnh thoảng
- [ ] Hầu như lúc nào
- [ ] Không biết

8. Quý vị đồng ý như thế nào về những điều sau đây?

<table>
<thead>
<tr>
<th>Rất đồng ý</th>
<th>Đồng ý</th>
<th>Không đồng ý</th>
<th>Rất không đồng ý</th>
<th>Không biết/Không liên quan</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

a) Tôi có thể đến những nơi tôi cần đến.

b) Các cơ quan/chương trình của County mà tôi có liên hệ đã giúp tôi phương tiện chuyên chở.
SANTA CLARA COUNTY TRANSPORTATION NEEDS ASSESSMENT | APPENDICES
County of Santa Clara

9. Những điều gì sau đây đúng với quý vị?

☐ Tôi sở hữu một smart phone (v.d., iphone, Android)  ☐ Tôi sở hữu một cell phone nhưng không vào internet được
☐ Tôi sở hữu một cell phone nhưng tôi không biết tôi có vào internet được không  ☐ Tôi không có cell phone

10. Trong từng điều gì sau đây, điều gì đúng với quý vị?

<table>
<thead>
<tr>
<th>Có</th>
<th>Không</th>
<th>Tối không biết</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Tôi biết gửi và nhận tin nhắn trong cell phone</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>b) Tôi biết xử dụng Internet qua cell phone</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>c) Tôi đã từng tải và xử dụng app trên cell phone hay máy tính bảng.</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

Những câu hỏi trong trang tiếp theo nhằm để biết quý vị là ai. Câu trả lời của quý vị là ẩn danh và sẽ được dùng để đảm bảo rằng chúng tôi nghe được từ nhiều cư dân của County và những người nào đầu tiên sử dụng một số dịch vụ chuyển đổi tại nhà. Câu trả lời của quý vị sẽ được phân tích như một phần của tất cả các câu trả lời khác và sẽ không xác định bất kỳ cá nhân nào. Toàn bộ các câu trả lời sẽ được tổng hợp và trình bày như một phần của Chuồng Trình Đánh Giá Như Cầu Vận Chuyển của Hạt Santa Clara nhằm cài thiện các dịch vụ. Nếu quý vị không thoải mái trả lời bất kỳ câu hỏi nào, quý vị có thể bỏ qua.

11. Quý vị sống ở thành phố nào? ________________________

12. Số zip là bao nhiêu? ________________

13. Trong nhà quý vị có bao nhiêu người (kể cả chính quý vị)? ________________________

14. Quý vị bao nhiêu tuổi?

☐ Đưới 18  ☐ 25-59  ☐ 80 hay hơn
☐ 18-24  ☐ 60-79  ☐ Tôi không muốn trả lời
15. Chủng tộc nào sau đây đúng nhất cho quý vị?

- Bắc Mỹ/Dân bản địa Alaska
- Châu Á
  - Ấn Độ
  - Trung Hoa
  - Phi Luật Tân
- Trung Hoa
- Việt Nam
- Da đen/Mỹ Châu Phi
- Người Latin/Mễ Tây Cơ
- Vùng đảo Thái Bình Dương
- Ý
- Ai Cập

Xin đánh dấu vào tất cả các ô đúng cho quý vị.

16. Giới tính nào sau đây đúng nhất cho quý vị?

- Nam
- Nữ
- Chuyển giới hay ai nam ai nữ
- Thuộc giới tính khác – Xin nêu rõ:

17. Quý vị dùng ngôn ngữ nào ở nhà hay với gia đình?

- Tiếng Anh
- Tiếng Việt Nam
- Dùng ngôn ngữ khác – Xin nêu rõ:
- Tiếng Mễ
- Tiếng Hoa

18. 1 trong 2 điều này đúng hay cả 2 điều đúng?

- Tôi bị tàn phế làm hạn chế cách di chuyển.
- Tôi nhận sự giúp đỡ của County (v.d., Valley Medical Center, CalWORKs, BHS)
- Không điều gì đúng với tôi

19. Có điều gì sau đây là đúng?

- Tôi từng là nạn nhân của tội ác (v.d., tấn công, trộm cắp)
- Tôi bị bắt ở trong County, và/hay bị quản chế hay làm công việc công đồng có giám thị
- Không điều nào đúng với tôi
- Tôi không muốn trả lời
20. 1 trong 2 điều này đúng hay cả 2 điều đúng? Xin đánh dấu vào tất cả các ô đúng.

Tôi và/hay nhiều thành viên trong gia đình hay trong hộ tôi ở ....

☐ Có tình trạng sức khỏe nghiêm trọng và/hay bị tâm thần nặng

☐ Đang (hay đã từng) trong chương trình con nuôi

☐ Không đúng với tôi,

☐ Không dùng với tôi,

☑ Tôi không muốn trả lời

người trong hộ tôi.

XIN CẢM ƠN SỰ THAM GIA CỦA QUÝ VỊ!
聖塔卡拉卡縣交通需求評估 社區調查

提示：請盡量回答以下問題。您可以跳過任何問題。您的回覆是匿名的。它們將作為所有調查回覆的一部分進行分析。綜合回覆將作為聖克拉拉縣交通需求評估的一部分進行總結和呈現，以改善服務。感謝您的參與！
1. 在過去7天內，您曾經使用以下哪種交通方式？請選取所有適用者。
   - 個人汽車（房車、卡車、包車或摩托車）
   - VTA 公車
   - VTA 輕軌
   - 個人自行車，滑板，滑板車等
   - VTA 輔助客運
   - 步行或輪椅
   - 計程車
   - 朋友或家人提供之便車
   - Lyft or Uber
   - 晚間計程車
   - 產業計劃
   - 出租／應用程式為本之自行車或腳踏板車（例如：Ford GoBike、Lime、Bird）
   - 其他（例如：共乘車、BART，Caltrain，GoGo Grandparent，社區／長者中心籠包車）- 請註明：

2. 行程之先，當您決定使用那種交通方式時，最重要之3 個因素為何？請選取3 項。
   - 優價
   - 全程所需時間
   - 中轉接駁次數
   - 所需步行量（在中轉點或停車點與目的地間之行程）
   - 安全
   - 現實可能性（例如：坡道、電梯、輪椅折疊空間）
   - 您如何支付（例如：現金，預付費 Clipper 卡，手機應用程式之信用卡）
   - 運行的靈活度（例如：您可以在即時要求乘車，公車每 20 分鐘一班）
   - 其他 - 請註明：

3. 您當下之三項交通挑戰是什麼？請選取3 項？
   - 能夠負擔得起
   - 現實不可使用汽車（例如：房車、輕軌）
   - 目的地及出發點附近之實質障礙（例如，車輛阻塞人行道，沒有路線切割位）
   - 需要在行程前一天或以上預約
   - 雅致方案
   - Distance 我家與公共交通站／交通樞紐間之距離
   - 運行的靈活度（例如：您可以在即時要求乘車，公車每 20 分鐘一班）
   - 資源限制
   - 經濟因素
   - 目的地與公共車站／交通樞紐間之距離
   - 其他 - 請註明：

4. 您當下之三項交通挑戰是什麼？請選取所有適用者？
   - 往返工作
   - 接送孩童往返學校或托兒中心
   - 往返學校或受訓課程
   - 訪客或會見朋友或家人
   - 往返社區中心，長者中心
   - 獲取食物（例如：雜貨店、食品銀行、聚會餐點）
   - 取用醫療保健（例如：醫生診療、理療治療、醫療諮詢、處方藥物）
   - 前往與社會服務相關之約會（例如：更新 CalFresh 計划、參予受監察之家庭訪問、參加 CalWORKS 培訓）
   - 產法庭／法律預約或會晤緩刑官
   - 完成其他差事（例如：非交通行程、運動活動）
   - 其他 - 請註明：
5. 您每月最少需要到訪問一次之地方當中，那 5 個是您最難到達的？請選取 5 個。
   - 您的工作場所
   - 您孩童之學校或託兒／日間託管場所
   - 您學校或受訓場所
   - 社區、長者或家庭資源中心
   - 無家者／家暴庇護所或臨時住所
   - 無家者／家暴庇護所或臨時住所
   - 緬甸部門
   - 其他政府設施或辦公室（例如：社會服務辦公室、WIC 辦公室、再次入境資源中心
   - 輔導諮詢、治療或濫用藥物治療
   - 法院事務
   - 監獄或拘留所

6. 您或家中其他成員是否擁有（或租賃）汽車？
   - 是
   - 否

7. 在過去 12 個月內，您有多少次因交通而錯失約會？
   - 完全沒有
   - 極少
   - 間中
   - 幾乎經常
   - 不確定

8. 您對下列陳述之同意或不同意程度如何？
   - 我能夠前赴我所需要去之目的地
   - 我所屬縣政府機構／計劃，幫我弄清楚了交通問題

9. 以下那項適用於你？
   - 我有智能手機（例如：iPhone、Android）
   - 我有手機，但不能上網
   - 我有手機，但不知道能否上網
   - 我沒有手機

10. 以下各項陳述，那些適用於你？
   a) 我知道如何用手機收發文字短訊。
   b) 我知道如何用手機上網。
   c) 我曾用手機或平板電腦下載和使用應用程式。

Santa Clara County Transportation Needs Assessment

Introduction

This survey is available in English, as well as
Spanish / Esta encuesta está disponible en español: SurveyMonkey.com/r/SCCtransportation-Spanish
Chinese / 本调查以中文提供: SurveyMonkey.com/r/SCCtransportation-Chinese
Vietnamese / Khảo sát này có sẵn bằng tiếng Việt: SurveyMonkey.com/r/SCCtransportation-Vietnamese

Please answer the following questions as best as you can. You may skip any question. Your responses are anonymous. They will be analyzed as part of all survey responses. The combined responses will be summarized and presented as part of the Santa Clara County Transportation Needs Assessment to improve services.

Transportation Needs

1. In the past 7 days, which of the following modes of transportation have you used? Check all that apply:
   - My own motor vehicle (car, truck, van, or motorcycle)
   - My own bicycle, skateboard, scooter, etc.
   - Walking
   - Wheelchair
   - Taxi
   - VTA bus
   - VTA light rail
   - VTA Access para-transit
   - Rides from friends or family members
   - Lyft or Uber
   - Volunteer driver program
   - Rented/app-based bike or scooter (e.g., Ford GoBike, Lime, Bird)
   - Other (e.g., carpool, BART, Caltrain, GoGo Grandparent, community/ senior center vans)
     - Please specify:

Nelson\Nygaard Consulting Associates Inc. | E-23
2. What 3 factors are most important when you are deciding what transportation mode(s) to use for a trip? Check 3.

- Cost
- Total travel time
- Number of transfers
- Amount of walking required (between transit stop or parking spot and destination)
- Safety
- Physical accessibility (e.g., wheelchair ramp, elevator, space for a folding wheelchair)
- Flexibility (e.g., you can request a ride the same day, has every 20 minutes)
- How you can pay (e.g., cash, pre-paid Clipper card, credit card via phone app)
- Other - Please specify

3. What are your top 3 transportation challenges? Check 3.

- Being able to afford transportation
- Physical inaccessibility of the vehicle (e.g., car, light rail)
- Physical barriers near destination or starting point (e.g., vehicles blocking sidewalks, no curb cuts)
- Needing to make transportation plans 1+ day in advance of a trip
- Making weekend trips
- Making evening trips
- Making early morning trips
- Language barriers
- Distance between my home and public transit stop/transportation hub
- Distance between destination and public transit stop/transportation hub
- Traveling outside of Santa Clara County (e.g., Redwood City, Hayward, Salinas)
- Other - Please specify
4. What is the purpose of your most frequent trips? Check all that apply.

- Travel to/from your job
- Get your child(ren) to/from school or childcare
- Travel to/from school or a training program
- Visit or meet up with friends or family
- Visit a Community Center, Senior Center, Family Resource Center
- Get food (e.g., grocery store, food pantry, congregate meal site)
- Access healthcare (e.g., doctor’s visit, physical therapy, counseling, filling a prescription)
- Accomplish other errands (e.g., non-grocery shopping, going to laundromat)
- Get to appointments related to social services (e.g., renewing CalFresh enrollment, participating in supervised family visitation, attending CalWORKS trainings)
- Make court/legal appointments or see a Probation Officer
- Other – Please specify

5. Of the places you need to visit at least once a month, which 5 are the most difficult for you to get to? Check 5.

- Your workplace
- Your child(ren)’s school or childcare/daycare location
- Your school or location for a training program
- A Community, Senior, or Family Resource Center
- Homeless/DV shelter or temporary housing
- Clinic or hospital
- Counseling, therapy, or substance use treatment
- Courthouse
- Jail or detention facility
- Probation Department
- Other government facilities or offices (e.g., DMV, Social Services office, WIC office, Reentry Resource Center)
- Other – Please specify
Santa Clara County Transportation Needs Assessment

6. Do you or another member of your household own a motor vehicle?
   ○ Yes
   ○ No

7. In the past 12 months, how often have you had to miss an appointment due to transportation?
   ○ Never
   ○ Rarely
   ○ Occasionally
   ○ Nearly always
   ○ Not sure

8. How strongly do you agree or disagree with these statements?

| I am able to get to the destinations where I need to go. |
|-----------------|-----------------|-----------------|-----------------|-----------------|

Santa Clara County Transportation Needs Assessment

Demographics

The questions on the following page request information about who you are. Your answers are anonymous and will be used to ensure we hear from a wide range of County residents and the types of people eligible to use some of the transportation services that Santa Clara County provides, so your responses are greatly appreciated.

Your responses will be analyzed as part of all survey responses and will not identify any individual. The combined responses will be summarized and presented as part of the Santa Clara County Transportation Needs Assessment to improve services.

If you are not comfortable answering any of these questions, you may skip them. Thank you for participating!

11. What city do you live in?

12. What is your ZIP code?

13. How many people are in your household (including yourself)?

14. How old are you?
   - Under 18
   - 18-24
   - 25-59
   - 60-79
   - 80 or older
   - I prefer not to answer

15. Which of the following best describes your race/ethnicity? Check all that apply.
   - American Indian/Alaska Native
   - Asian
   - Asian Indian
   - Chinese
   - Filipino
   - Vietnamese
   - Black / African American
   - Latino / Hispanic
   - Pacific Islander
   - White
   - Don’t know/Not sure
   - I prefer not to answer
   - Other - Please specify
16. Which of the following best describes your gender/sex? Check all that apply.

☐ Man/Male
☐ Woman/Female
☐ Transgender or non-binary
☐ I prefer not to answer
☐ Other - Please specify

17. What language(s) do you speak at home or with your family? Check all that apply.

☐ English
☐ Spanish
☐ Chinese
☐ Vietnamese
☐ I prefer not to answer
☐ Other - Please specify

18. Are either or both of the following true? Check all that apply.

☐ I have a disability that limits my access to transportation
☐ I receive support from County services (e.g., Valley Medical Center, CalWORKS, BHS)
☐ Neither apply to me
☐ I prefer not to answer

19. Are any of the following true? Check all that apply.

In the past 5 years, I...

☐ I have been a victim of crime (e.g., assault, ○ None of these apply to me theft)
☐ I have been subpoenaed as a witness in a criminal court case
☐ I have been arrested, in County jail, and/or on probation or community supervision

20. Are either or both of the following true? Check all that apply.

I and/or members of my family or household...

☐ Have a serious medical condition and/or a serious mental illness
☐ Are (or have been) in foster care
☐ Neither apply to me or my family/household
☐ I prefer not to answer

Please click ’Done’ below so your responses are recorded.

THANK YOU FOR YOUR PARTICIPATION!

THANK YOU FOR YOUR PARTICIPATION!
1. En los últimos 7 días, cuáles de los siguientes modos de transporte ha utilizado? Marque todo lo que corresponda.

- Mi propio vehículo de motor (coche, camioneta o motocicleta)
- Mi propia bicicleta, patineta, scooter, etc.
- Caminar
- Silla de Ruedas
- Viajes de amigos o familiares
- Bus de VTA
- Tren de VTA
- Para transporte de VTA Access
- Taxi
- Lyft o Uber
- Programa de conductores voluntarios
- Bicicleta o scooter alquilada (por ejemplo, Ford GoBike, Lime, Bird)

2. ¿Cuáles son los 3 factores más importantes para usted cuando está decidiendo qué modo(s) de transporte va a utilizar para un viaje? Marque tres (3).

- Costo
- Tiempo total de viaje
- Número de transferencias
- Tiempo retenido para caminar (entre la parada de tránsito o lugar del estacionamiento y el destino)
- Seguridad
- Accesibilidad física (p. ej., rampa, ascensor, espacio para una silla de ruedas plegable)
- Flexibilidad (p. ej., puede solicitar un viaje el mismo día, autobús cada 20 minutos) NOTA: Las respuestas continúan en la siguiente página.

3. ¿Cuáles son los 3 principales retos de transporte para usted? Marque tres (3).

- Poder pagar el transporte
- Inaccesibilidad física del vehículo (p. ej., coche, tren ligero)
- Obstáculos físicos cerca del destino (p. ej., vehículos que bloquean la acera, falta de cortes de bordillo)
- Necesidad de hacer planes de transporte 1 día antes (o más de un día) de un viaje
- Hacer viajes durante el fin de semana
- Hacer viajes por la tarde
- Hacer viajes por la mañana

Dificultades con el idioma NOTA: Las respuestas continúan en la siguiente página.

4. ¿Cuál es el propósito de los viajes más frecuentes? Marque todo lo que corresponda.

- Viaje a/desde su trabajo
- Llevar a su(s) hijo(a)s a/desde la escuela o el cuidado de niños
- Viaje a/desde la escuela o clases de formación
- Visitar o reunirse con amigos o familiares
- Visitar un Centro Comunitario, Centro Para Adultos Mayores, Centro de Recursos Familiares

NOTA: Las respuestas continúan en la siguiente página.
1. De los lugares que necesita visitar al menos una vez al mes, ¿cuáles son los 5 más difíciles de llegar? Marque cinco (5).
   - Su lugar de trabajo
   - La escuela de su(s) hijo(s) o el lugar de cuidado de niños / guardería (NOTA: Las respuestas continúan en la siguiente página.)

7. En los últimos 12 meses, ¿con qué frecuencia ha perdido una cita debido al transporte? Marque una (1).
   - Nunca
   - Raramente
   - Casi siempre

8. ¿Qué tan de acuerdo está con las siguientes frases?
   a. Puedo llegar a los destinos a los que tengo que ir.
      - Muy de acuerdo
      - De acuerdo
      - Muy en desacuerdo
      - En desacuerdo
      - No se/ no aplica

9. ¿Cuáles de las frases siguientes se aplica a usted?
   a. Sé cómo enviar y recibir mensajes de texto en un teléfono celular.
      - Sí
      - No
   b. Sé cómo acceder al internet a través de un teléfono celular.
      - Sí
      - No
Las preguntas en la página siguiente solicitan información sobre usted. Sus respuestas son anónimas y se utilizarán para asegurarnos que hemos podido incluir las perspectivas de residentes diversas del condado y de personas elegibles para usar algunos de los servicios de transporte que el Condado de Santa Clara proporciona, por lo que sus respuestas son muy apreciadas. A la vez, si no se siente cómodo respondiendo a cualquiera de estas preguntas, puede pasarla. Las respuestas serán presentadas en resumen y ningún individuo se identificará. Las respuestas se informará la evaluación de necesidades de transporte del condado de Santa Clara para mejorar los servicios. ¡Gracias por participar!

1. 在過去7天內，您曾使用以下那種交通方式？請選取所有適用者。

- 個人汽車（房車、卡車、轎車或摩托車）
- 個人自行車、滑板、滑板車等
- 步行或騎腳踏車
- 朋友或家人提供之便車
- VTA公車
- VTA輕鐵
- VTA輔助運輸
- 計程車
- Lyft or Uber
- 義務計程車 （注：下一页的回答）

2. 行程之先，當您決定使用那種交通方式時，最重要之3個因素為何？請選取3項。

- 價錢
- 全程所需時間
- 中轉次數
- 所需步行走程（指中轉點或停車點與目的地間之行程）
- 安全性
- 導航可用性（例如：高速公路、高架橋、立體停車場）
- 需活躍性（例如：您可以在即日需求乘車，公車每20分鐘一班） （注：下一页的回答）

3. 您对本三項交通挑戰是什麼？請選取3項。

- 能夠負擔得起
- 購買不可使用之車（例如：房車、輕鐵）
- 目的地或起點附近之實質障礙（例如，高腳板人行道、沒有路緣切割位）
- 需要在行程前一天或以上預約
- 週末行程
- 晚間行程
- 話語障礙
- 公車路線與公共交通站／交通樞紐間之距離

（注：下一页的回答）

Focus Group Materials
Appendix F  Focus Group Materials

FOCUS GROUP SCRIPT

Hi everyone! My name is __________ , and I am working with the County Executive’s Office for Santa Clara County to help gather input about transportation needs for [depending on focus group, either name key population for focus group OR phrase as “key populations” but don’t specify] in the County.

This conversation will take approximately 1 hour. I’ll be asking you questions about your experiences with transportation services in Santa Clara County, as well as what you think are key challenges, opportunities, and priorities for local transportation services.

Some of the transportation services that the County supports are [only mention a few depending on key population in focus group]:

- Bus tokens for victims of crime getting to/from the District Attorney’s Offices.
- A monthly VTA bus/light rail pass for Probation clients who need short-term help with transportation to stay compliant with the terms of their probation.
- A taxi voucher for low-income adults released from County jail.
- Volunteer driver programs for older adults.

What you share today will help us identify 1) your critical transportation needs, 2) key barriers to consider removing, and 3) recommendations for transportation services in the County.

I also have a participant survey for everyone so we know a little more about you. This survey is also confidential, and you should NOT write your name on it (though if you do we will remove it). This information will let us make sure that we hear from the people we need to.

Before we begin, I’d like to discuss a few guidelines for our discussion.

- There are no right or wrong answers. We know that everyone’s experiences are different, so if you have an opinion or perspective that is different than what someone else says, please share what you think or have experienced!
- You don’t have to answer every question, but I do want to make sure we hear from everyone with us today. Please speak one at a time so I can capture what is said. I may need to interrupt you to make sure that everyone has a chance to speak or to get to all the questions.
- Everything you share here is strictly confidential. We will summarize what is said, but will not be sharing identifying information or attributing anything that is said to an individual. I also ask that each of you keep what is said here private and confidential— that means that no one should share what another participant says during this conversation.
- Finally, please let me know if you can’t hear me or anything I say is unclear or confusing.

How do these guidelines sound to everyone? Does anyone have any questions before we begin?

I would also like to record our conversation to make sure our notes are fully accurate. However, I will not be sharing the recording with anyone. Is that okay?

TRANSPORTATION EXPERIENCES

1. Can you describe a “typical” week for you related to your transportation needs and destinations?
2. (In other words, in a typical week where do you need to go and how do you get there?)
3. What has been your experience using public transportation?
4. How do you usually get where you need to go?
BARRIERS

5. What are the three most important factors you consider when you’re figuring out how to get somewhere?
(e.g., what will be the cheapest, what will take the least amount of time, safety, past experience/familiarity with a mode or route)

6. What challenges or barriers, if any, have you encountered in getting where you need to go?

7. What are the most difficult places for you to get to?

8. Can you explain briefly why it is difficult for you to get there?

OPPORTUNITIES

9. What are some opportunities to improve access to and use of public transit?
(Prompts: first/last mile, bike/ped, bike share connections, car share, shuttles)

PRIORITIES

10. What recommendations do you have to improve transportation services for yourself and others?

11. Thinking about all that we have talked about today, what are your top 2-3 transportation priorities to meet your needs?

CLOSING

12. Is there anything else you would like to share?
The County of Santa Clara has contracted with Raimi + Associates and Nelson\Nygaard Consulting Associates to conduct a transportation needs assessment focused on six key populations in the county:

1. Youth engaged in services through the Foster Care System,
2. Individuals with serious mental illnesses and/or medical conditions accessing County services,
3. Clients with serious medical and/or mental health conditions being released from County jail, County hospital, or community-based service programs,
4. Disabled adults and older adults meeting daily needs,
5. Non-risk criminal witnesses and victims of crime, and
6. Adults who are served by the Probation Department.

As part of this Transportation Needs Assessment, we are facilitating conversations (focus groups) with community members who are part of the six populations, conducting a survey of community members, and interviewing County employees who work with the six populations. The focus groups will be audio recorded for analysis and reporting purposes.

Raimi + Associates will summarize the community engagement data in a report, highlighting the unique transportation needs, barriers, and/or priorities for each population as well as similarities between two or more of the six key populations. The County will use the results of this assessment to inform how the Board and individual departments allocate resources and how programs or services are designed or delivered. Employees from the County Counsel’s Office and the Chief Privacy Officer will review the final report prior to publication to ensure that there is no risk of any participant being identified based on what is shared.

This conversation will last approximately 60 minutes. If you agree to participate in this focus group, we will ask you some questions about the following topics:

- \textbf{Your transportation experiences} (where you need to go and how you get there);
- \textbf{Challenges or barriers} to getting where you need to go (e.g., cost, time, safety, accessibility);
- \textbf{Opportunities to improve} access to/use of public transit and transportation services more broadly; and
- \textbf{Your priorities} for meeting your transportation needs.

The questions we will ask you are only about what you think and there are no right or wrong answers.

If you participate in the focus group, you will be given a $20 gift card for your participation and time.
COPY FOR PARTICIPANT TO KEEP (page 2 of 2)

By signing below, I agree that the following are all true.

I am eligible to participate.
- I am 18 years old or older.
- I live in Santa Clara County.

My participation is voluntary.
- I have read this form OR someone read it to me.
- I have received answers to any questions I have asked.
- I want to participate in the focus group. I understand that nobody will be upset if I do not want to be in the focus group.
- I understand that I can decide to stop participating in this conversation at any time. I understand that there are no right or wrong answers, and nobody will be upset if I decide to stop after we begin.
- I understand that I do not need to answer all the questions that are asked.
- I understand that I can ask questions about this focus group at any time.

I understand that all information that I share will be protected and kept anonymous.
- I understand that the answers I provide as part of this focus group will be used in a public report provided to the County. My personal information, such as my name and other identifying information, will not be revealed at any point during the data analysis, or included in any presentation and reporting.
- I understand that, after all participants have introduced themselves, the facilitator will audio record the focus group (so no names will be recorded). The audio recording will only be shared with our consultants, Raimi + Associates, for analysis and reporting purposes.

If you have any questions later that you did not think of now, you can call Kayla Cushing (Program Manager/Social Services Agency, County of Santa Clara) at (408) 755-7768.

I have read this form or someone read it to me. I have received answers to any questions I asked. I understand that I will be digitally recorded. I understand that the data collected will be used for the transportation needs assessment to improve services. By signing below, I agree to everything written here and agree to participate in the focus group.

Signing this form is completely up to you. It is your choice if you want to be in the focus group. If you do not want to participate, do not sign this paper.

Your printed name: ________________________________
If you could do anything to improve the way you get around...

What would it be?

Participate in a small group conversation (focus group) to share your experiences with transportation and recommend how the County might improve transportation services for adults with disabilities and older adults.

Wednesday, July 17th, 2019, 10:30 am-12:00 pm

Centennial Recreation/Senior Center, Activity Room 2
171 West Edmundson Avenue, Morgan Hill

Each participant will receive a $20 gift card. Light refreshments provided.

Conversation limited to 15 people!
RSVP to Paige at 508.333.3242 or email paige@raimiassociates.com.

Share: 1) your name, 2) that you want to participate in the transportation conversation in Morgan Hill, and 3) any accommodations you need to participate.
Figure F-2  Focus Group: Reentry Resource Center, July 18, 2019

If you could do anything to improve the way you get around...

What would it be?

Participate in a small group conversation (focus group) to share your experiences with transportation and recommend how the County might improve transportation services for adults in reentry and those accessing County services who have serious mental illness and/or medical conditions.

Thursday, July 18th, 2019, 10:00 am-11:30 pm

Reentry Resource Center – Wing B Library

151 West Mission Street, San Jose, CA 95110

Each participant will receive a $20 gift card. Light refreshments provided.

Conversation limited to 15 people!

Please RSVP to Barbara West or other staff at the Reentry Resource Center.
If you could do anything to improve the way you get around...

...What would it be?

Participate in a small group conversation (focus group) to share your experiences with transportation and recommend how the County might improve transportation services for foster youth.

Wednesday, July 17th, 2019, 3-4pm

The Hub: 591 North King Road, Suite #1, San Jose

Each participant will receive a $20 gift card. Light refreshments will be provided.

Conversation limited to 15 participants! Please RSVP to Marisela Martinez at The Hub OR email paige@raimiasociates.com or text 508.333.3242 with your initials and saying that you want to participate in the transportation conversation at the Hub.
Santa Clara County

TRANSPORTATION NEEDS ASSESSMENT

County Board of Supervisors

Recommended Improvements to Operations of Transportation Services

April 7, 2020

Richard Weiner
Kym Dorman
OVERVIEW AND KEY POPULATIONS

The Santa Clara County Transportation Needs Assessment:
- Determines the transportation needs of six vulnerable populations in the County
- Develops a comprehensive plan to implement strategies to address those transportation needs.

- Youth engaged in services through the Foster Care system
- Individuals with serious mental illnesses and/or medical conditions accessing County services
- Clients with serious medical and/or mental health conditions being released from County jail, County hospital, or community-based service programs
- Disabled adults and older adults meeting daily needs
- Non-risk criminal witnesses and victims of crime
- Adults on probation
PROJECT WORKFLOW

1. Prepare demographic profile of key populations
2. Evaluate VTA and other local transportation programs
3. Identify transportation gaps with community and stakeholder input
4. Prioritize strategies and develop implementation plan
5. Develop strategic recommendations to address gaps
6. Finalize implementation plan

We are here
EXISTING CONDITIONS ASSESSMENT

Qualitative and Quantitative Research

• Demographic profile of study communities, from Census and County agency-provided data
• Review of VTA services available to study’s communities of interest
• Review of other transportation services available to communities of interest, operated by:
  o County agencies
  o Municipalities
  o Non-profit human services providers
  o TMAs
  o For-profit providers
• Stakeholder interviews from County agencies (12)
• Focus groups for communities of interest (7)
• Community survey (795 respondents)
• Peer interviews of best practices from other agencies (9)
KEY FINDINGS FROM EXISTING CONDITIONS ASSESSMENT

Top Transportation Challenges

- Cost of transportation
- "First-mile / last-mile" dilemma
- Lack of same-day service with many programs (e.g. ADA paratransit)
- Travel outside of Santa Clara County
- Inaccessible vehicles or modes

Impacts

- Clients are unable to reach key destinations, such as:
  - Clinics or hospitals
  - Employment
  - Community, senior, and family resource centers
  - Counseling or substance abuse treatment
  - Social services or probation offices
- Missed appointments increase costs and lower productivity of County social services agencies
RECOMMENDED STRATEGIES
MULTIPRONGED APPROACH TO IMPLEMENTATION

Strategies organized by responsible agency

1. Strategies to be implemented by County departments

2. Strategies to be implemented by VTA + County departments

3. Strategies to be implemented by VTA

</table>
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Laurie Smith, Sheriff
SUBJECT: Full-Body Security Screeners - Jails

RECOMMENDED ACTION

Consider recommendations relating to the procurement of Full-Body Security Screener Technology for use in County custody facilities. (Office of the Sheriff)

Possible action:

b. Adopt finding that the benefits of the surveillance technology outweigh the costs pursuant to Section A40-4 of the Santa Clara County Ordinance Code.

c. Receive Proposed Surveillance Use Policy for use of Full-Body Security Screener Technology in County custody facilities, that has been reviewed and approved by County Counsel as to form and legality.

d. Approve Agreement with OD Security North America LLC relating to providing full body scanners and related maintenance and support services in an amount not to exceed $1,300,000 for period April 7, 2020 through April 6, 2026 with one six-year extension option, that has been reviewed and approved by County Counsel as to form and legality. An exception to Board of Supervisors Policy 5.4.5.4, Length of Term of Contacts, has been approved by the Office of Countywide Contracting Management.

FISCAL IMPLICATIONS

No negative impact to the County General Fund will result from approval of the recommended actions. Funding for acquiring and implementing body scanners was approved in the Department of Correction’s Fiscal Year 2019-20 recommended budget.

REASONS FOR RECOMMENDATION
Pursuant to Section A40-2(b) of the Santa Clara County Ordinance Code, the Sheriff’s Office is required to notify and obtain the approval of the Board of Supervisors at a properly-noticed public meeting on the regular calendar before acquiring new surveillance technology.

Two optional actions are included with Recommended Action c: “approve” or “receive” Surveillance Use Policy for use of Full-Body Security Screener Technology. These options are available for the Board of Supervisors (Board) to effectuate County Ordinance Code section A40-2(E), which states: “To the extent the Board … determines that … approving or denying the Surveillance Use Policy would unlawfully ‘obstruct’ the applicable function of the sheriff … under Government Code section 25303, the Board shall simply receive and discuss … the applicable Surveillance Use Policy at a properly-noticed public meeting, on the regular (non-consent) calendar.”

Since it is not clear at this time whether the Board of Supervisors approval process would unlawfully ‘obstruct’ the investigative function of the Sheriff, the recommended action provides the two alternatives, to approve, or to simply receive the Surveillance Use Policy. The Use Policy includes the information required by Section A40-7(E) of the Surveillance-Technology and Community Safety Ordinance.

Benefits Outweigh Costs and Concerns

Assembly Bill 1705, passed in August 2016, allows jails and prisons to use full-body security screener technology. As described in more detail in the Anticipated Impact Report, the use of full-body security screener technology instead of a physical strip search makes the security search of an individual much faster to complete, with each scan requiring approximately 8 to 15 seconds, and allows the individual subject to the search to remain completely or partially clothed. Full-body security screener technology will allow staff to see items concealed beneath clothing, without physically touching the individual being scanned, potentially reducing the number of grievances. By improving staff’s ability to complete security searches of all individuals moving through security entry points, full body scanners will reduce the amount of contraband (e.g., narcotics, guns, knives, electronics, etc.) entering the jail facilities. The benefits of the system outweigh the costs and any concerns because placing body scanners in the County’s custody facilities would enhance the security of the facilities and reduce the amount of contraband materials entering those facilities, thereby improving overall safety in the facilities.

The proposed Agreement with OD Security North America LLC would be effective through April 6, 2026, with one six-year extension option. The anticipated contract value of $1,300,000 includes installation at the Main Jail complex, Elmwood Correctional complex for male inmates and the separate facility for female inmates, along with projected spend through the end of the initial contract life on April 6, 2026.

CHILD IMPACT

The recommended action will have no/neutral impact on children and youth.

SENIOR IMPACT

The recommended action will have no/neutral impact on seniors.
SUSTAINABILITY IMPLICATIONS

The recommended action will have no/neutral sustainability implications.

BACKGROUND

As part of the Santa Clara County Fiscal Year 2017-18 budget process, funding to secure jail body scanners and corresponding personnel to operate the scanners was approved by the Board of Supervisors. The impetus to secure body scanners came by way of Assembly Bill 1705 that was passed in August of 2016, allowing jails and prisons to use full body scanners for the purpose of enhancing security. The Santa Clara County Office of the Sheriff also sees benefits to utilizing body scanners over performing physical strip searches. The following are two key efficiencies that are expected with the implementation of body scanners:

1) Use of a full body scanner makes the security search of an individual much faster to complete, with each scan requiring approximately 8 to 15 seconds, and

2) Individuals subjected to a full-body scan are not required to physically remove clothing

Full-body security screener technology will allow staff to "see" items concealed beneath clothing without physically touching the individual being scanned. Additionally, the full-body scan will benefit the Sheriff’s Office by reducing the number of potential grievances associated with strip searches, and simplifying compliance with State cross-gender search regulations.

In December 21, 2018, eRFP-PRC-FY19-0152 Full Body Scanner for Contraband Detection was published in BidSync. The eRFP closed on January 31, 2019 with the County receiving proposals from five vendors. The County received proposals from Adani, KPrime, NucTech, OD Security North America LLC (OD Security) and Tek84. A letter of recommendation was issued on April 29, 2019, recommending all five vendors be moved forward to Presentations and Demonstrations to provide a better understanding of the solution and services being proposed.

Presentations for each of the five proposers for the Full-Body Scanner for Contraband Detection project were conducted on May 15, 2019, May 16, 2019, May 22, 2019, and May 23, 2019, to demonstrate the scanning and image review capability of the respective units/scanners. On August 13, 2019, the Evaluation Committee submitted their findings and write-up for the evaluation process. The process comprised of a comprehensive evaluation of all written proposals as well as demos and presentations conducted by all proposers. The Evaluation Committee determined that OD Security’s proposed solution provides the best fit for the County’s requirements. Their demonstrated solution scored significantly higher due to better image quality presentation, secure encryption of data, and extensive references and installations throughout the United States. Through proposal reviews and product demonstrations, the Committee determined that OD Security enhances public safety and offered the best overall value to the County recommending that they move forward to the negotiations phase of the RFP process. The Procurement Officer then submitted a letter of recommendation on August 21, 2019, recommending OD Security move forward to the next phase of the RFP process.

Following a period of negotiations that involved pricing, term, service maintenance and
support with OD Security, the County successfully negotiated the following: a reduction in unit price from $101,750 to $95,000 for each unit to be purchased, an additional year of technical support and preventive maintenance services which equates to a total saving of $113,750, and four Americans with Disabilities Act (ADA)-approved ramps, each valued at $5,000 to be provided at no charge, for a total negotiated savings of $221,500. A letter of recommendation was submitted to the Director of Procurement for authorization to award a contract to OD Security North America for the Full Body Scanner for Contraband Detection and related maintenance, support and services, which was approved October 30, 2019.

In order to best leverage the negotiated savings and the additional year of support, a memo requesting permission to extend contract Beyond 5 Years was filed and approved by the Office of Countywide Contract Management on February 5, 2020.

**CONSEQUENCES OF NEGATIVE ACTION**

The Sheriff’s Office would be prevented from proceeding to obtain these technologies for use in the County’s custody facilities, and the County would lose the benefits of enhancing overall security and safety that would be accomplished by implementing full-body security screeners.

**STEPS FOLLOWING APPROVAL**

Please forward copy of the approved legislative file to Theresa Therilus with Procurement Department and Martin Coronel with the Office of the Sheriff.

**ATTACHMENTS:**

- Full Body Security Screener Technology Surveillance Use Policy
- Anticipated Surveillance Impact Report
- Agreement CW2234972 OD Security Signed (PDF)
- Approval Request for a Beyond Five Year Contract Term

- CW2234972 Full Body Scanner for Contraband Detection Agreement (PDF)
- B5Y-SHO-OD Security NA LLC (PDF)
1. **Purpose**

The OD Security SOTER RS (Full-Body Screener technology) is specially designed for use in airports, prisons, government buildings, as well as in all other locations that require a detailed examination of the abdominal cavity and natural cavities of the human body without employing specialized medical equipment. Unique technology embedded in the Full-Body Screener technology captures digital, full-body projection X-ray images. The Full-Body Security Screener technology shall be used to assist custody staff in providing safety and security for inmates, staff, and visitors throughout the correctional facilities. The SOTER RS is designed to assess potential threats (e.g., weapons, drugs, and other contraband) and identify locations upon an individual’s body where the threat may exist through non-invasive detection of items that pose a safety or security risk.

A total of eight Full-Body Security Screener devices will be placed in the Main Jail and Elmwood facilities. Initially, the Sheriff’s Office intends to place the devices within Main Jail at Men’s Intake, Women’s Intake, 2nd floor medical clinic area, and the tunnel leading to the Hall of Justice; and within Elmwood, at the Contact Visiting Room, Processing, Info Center, and the Correctional Center for Women (CCW).

Full-Body Security Screener technology may be permanently affixed to County Property or may be mobile based. Prior to use of the Full-Body Security Screener technology, staff shall inspect equipment for functionality. If the equipment is malfunctioning, the assigned staff shall contact appropriate personnel to have the equipment repaired or replaced.

2. **Authorized and Prohibited Uses**

A. Full-Body Security Screener technology shall be used to aid Sheriff’s Office personnel by identifying contraband, from head to toe, by highlighting on a computer image where a foreign item is located on/inside the person’s body.

B. The following shall be permitted uses of the Full-Body Security Screener technology:

   i. To aid Sheriff’s Office personnel with checkpoint inspections in areas that have a high potential for contraband introduction, such as ingress and egress points of the facilities for inmates.

   ii. To search inmates entering a jail facility or during movement within a jail facility.

   iii. To search inmates leaving the jail facility. Inmates are transported outside of the jail facility for a variety of reasons that may require a safety inspection, such as for Court, a medical appointment, or for transfer to another jail or prison facility outside of the Santa Clara County jail system.

   iv. To verify information received by Sheriff’s Office personnel regarding an inmate who is suspected of possessing a weapon or contraband.
v. To scan objects or physical items that may contain weapons or contraband.

vi. To aid with security or investigative applications related to inmates, not prohibited by law.

C. Full-Body Security Screeners shall not be used to harass, intimidate, or discriminate against any individual or group, and shall not be used for personal or non-security or non-law enforcement purposes.

3. Data Collection

Still X-ray images are generated and displayed on a monitor for each usage of the Full-Body Screener technology. For incidents where the still X-ray image depicts suspected weapons or contraband, the image shall be captured via flash drive or other electronic medium only for the purposes of facility security, or a criminal or administrative investigation, or for training purposes. Contraband includes illegal substances as well as legal items that are not allowed in the jail per Sheriff’s Office policy.

4. Data Access

A. Access to operate the live Full-Body Screener technology and to the associated X-ray image(s) shall be limited to custody staff operating the equipment and directly assigned to the post where the technology is being utilized, Sheriff’s Office supervisors responsible for care and safety of the facility, and Sheriff’s Office investigators performing a criminal or administrative investigation. The monitor displaying X-ray images shall be positioned so that it is not seen by other inmates or staff who are not directly assigned to work the equipment or monitor.

B. It shall be permissible for still images to be shared with training staff and those being trained, for training purposes only, and only when there is no identifying information of the individual associated with the image.

5. Data Protection

A. SOTER RS maintains encryption to ensure images sent to the display monitor cannot be intercepted or decoded. The monitor shall be positioned so that non-staff cannot see the display. The equipment itself shall also be utilized only within the jail facilities, which are controlled environments and provide another layer of protection for the data displayed on the monitor.

B. Still images retained for investigative purposes shall be stored only within a secure, locked facility.

C. Still images retained for training purposes shall be maintained only within a secure, locked facility, and identifying information regarding the individual associated with the image(s) shall be redacted before storage or training occurs.
D. Still images that are printed or stored on other electronic media or purposes other than training, such as for an ongoing investigation, shall be stored in a secure, locked facility and/or in an encrypted format.

6. Data Retention

A. Data collected by the SOTER RS is stored on an internal server and then shall be retained for at least 12 months and shall be deleted no longer than 13 months from the date of the recording. If a scan provides an image that appears abnormal, previously scanned images within the retention period from the same individual may be used for comparison to assist in determining whether the scan shows a suspicious abnormality for the particular individual. Still images may be retained longer as specified below if contraband is detected and an investigation is initiated.

B. Still images that are printed, saved to an electronic media storage device, or otherwise stored for purposes other than training shall be retained according to the applicable criminal case retention period, or long enough for the statute of limitations and appeals period for any criminal, administrative, or civil proceeding, whichever is later. Any images retained, including all copies, for such purposes shall be deleted within 30 days following the end of that retention period.

C. Still images retained for the purposes of training shall be kept only as long as deemed to have training value by the Sheriff’s Training unit. Once the Sheriff or the Sheriff’s written designee determines that the images no longer have training value, the images shall be promptly deleted.

7. Public Access

The public shall not have direct access to the X-ray images obtained through the Full-Body Security Screener technology. Images retained as part of a criminal or civil case may be made public during a jury trial or public hearing, likely at the discretion of a judge. For public requests for data, the Sheriff’s Office shall confer with County Counsel to determine whether the requested data is exempt from disclosure pursuant to the California Public Records Act (CPRA), or is legally required to be disclosed, and shall respond to requests in compliance with applicable law.

8. Third-Party Data-Sharing

It shall be permissible for data from Full Body Security Screener Technology to be shared with only the following:

A. District Attorney’s Office for use as evidence to aid in prosecution, in accordance with laws governing evidence;

B. Public Defender’s Office or defense attorney via the District Attorney’s Office in accordance with California discovery laws;
C. Other law enforcement agencies as part of a specific criminal or administrative investigation;

D. Parties to civil litigation, in response to a subpoena or civil discovery;

E. County Personnel Board, arbitrator, or Court regarding a County administrative action or litigation;

F. Other third parties, pursuant to a Court Order.

9. Training

A. Personnel assigned to utilize the Full-Body Security Screener technology and/or its data shall receive training regarding use of the equipment and of the requirements of this Policy.

B. Training shall include the proper handling of still images and ensuring the proper care and protection of such images that are retained for investigatory purposes.

10. Oversight

The Main Jail and Elmwood Facility Commanders shall be responsible to ensure appropriate supervision and use of Full Body Security Screener Technology in compliance with this Policy for all staff utilizing Full Body Security Screener technology. Periodic audits shall be conducted by the Facility Commanders as often as they deem it necessary, and at least annually, to ensure appropriate use of Full Body Security Screener technology and data from that technology. Sanctions for violations of this Policy may range from counseling to termination, and in more serious breaches, may result in criminal prosecution.

Approved as to Form and Legality

Rob Coelho  
Assistant County Counsel
Description of Surveillance Technology

The SOTER RS is specially designed for use in airports, jails, prisons, government buildings, as well as in all other locations which require a detailed examination of the abdominal cavity and natural cavities of the human body without employing specialized medical equipment.

Unique technology embedded in full body screening comprises capturing digital full-body projection X-ray images

- Formation of extremely narrow (1 mm) monochromatic X-ray beam via collimation and filtration system which allows for the lowest effective dose to be administered to the person being inspected;
- The person under inspection stands on a specially designed movement platform or conveyer, located between the collimators and the X-ray detectors, and being carried through the X-ray beams for security inspection purposes;
- A highly sensitive linear array of vertical semiconductor scintillating detectors used as X-ray detectors;
- The X-ray beam passes through the body being detected via X-ray detectors and forms a full body, two dimensional x-ray image displayed on a separate monitor.
- Radiation dose and system resolution ratio optimization depend on the nature of the system’s intended use. The system will have variable operating modes to match detection level to contraband risk.

Proposed Purpose for the Surveillance Technology

The SOTER RS is designed to assess potential threats and identify locations upon an individual’s body where the threat may exist. The SOTER RS allows the operator to obtain a projection X-ray image of the abdominopelvic cavity and the person under inspection to reveal what’s hidden under the clothes or inside the abdominopelvic cavity. Based on the info, staff will then investigate further to evaluate the risk the item(s) may pose for safety and security of the Facilities. The SOTER RS effectively detects the following items:

- Swallowed capsules, pills, containers with narcotics;
- Small metallic objects (razors);
- Precious stones and metals;
- Firearms and edged weapons;
- Unconventional weapons of non-typical materials such as plastics, wood, ceramics etc.;
- Explosives, detonators, wires etc.;
- Narcotics;
- Containers with biological or chemical materials;
- Electronic devices;
- Food and other objects prohibited for transportation;
It shall be permissible for still images to be shared with training staff and those being trained, for training purposes only, and only when there is no identifying information of the individual associated with the image.

Locations of Deployment

The devices will be placed in both the Main Jail and Elmwood facilities. At Main Jail, they will be placed at Men’s Intake, Women’s Intake, 2nd floor medical clinic area and the tunnel leading to the Hall of Justice.

At Elmwood, they will be placed at the Contact Visiting Room, Processing, Info Center, and the Correctional Center for Women (CCW).

Civil Liberties and Privacy Impact

The Sheriff’s Office is sensitive to civil liberty concerns. The Sheriff’s Office has the responsibility to provide safety and security for all inmates in custody, including a duty to prevent weapons and contraband from being brought into the jail facilities by inmates coming into custody or back into the facility from a Court appearance, hospital visit, contact visit, or any other matter held outside of the jail facilities. In addition to seeking to prevent inmates from bringing a weapon or contraband into any of the jail facilities, the Sheriff’s Office strives to locate weapons and contraband made or procured within the facility. To provide for the safety of all inmates, visitors, and staff, the Sheriff’s Office has a responsibility to monitor inmates' movements throughout jails, watch inmates in their cells, and conduct warrantless searches inside of the jails. In *Hudson v. Palmer* (1984), the United States Supreme Court ruled that inmates have no reasonable expectation of privacy in their jail cells entitling them to Fourth Amendment protections. To ensure safety and security within a jail facility, the Court has limited or no rights to privacy in order to allow prison authorities to have access to cells and inmates' personal belongings, to detect illegal activities that may be done by prisoners in custody, and to prevent possible accidents. Full-Body Security Screener technology will be used to detect weapons and contraband on inmates.

Further, the Courts have decided that a prisoners' right to privacy is not violated by inadvertent or infrequent observation of a nude inmate by correctional officers/deputies of the opposite sex. This technology does not allow the user to see the inmate naked, nor does it furnish colored nude images of the inmate. The technology provides a two-dimensional computer image of the person being scanned. With that in mind, and consistent with the Prison Rape Elimination Act (PREA), the Sheriff’s Office shall integrate necessary legal and technical safeguards to reasonably protect an inmate’s dignity when an inmate goes through the screener. Such safeguards include ensuring the monitor is positioned so that it is not seen by other inmates or staff not directly assigned to work the equipment or monitor. If a weapon or contraband is suspected, sworn sheriff’s staff will investigate further.

Information collected by the SOTER RS is stored on an internal server and then shall be retained for at least 12 months and shall be deleted no longer than 13 months from the date of the recording. If a scan provides an image that appears abnormal, previously scanned images within the retention period from the same individual may be used for comparison to assist in determining whether the scan shows a suspicious abnormality for the particular individual. However, still images may be exported and saved to an approved electronic storage medium.
only for the purposes of training or as part of a specific criminal, civil, or administrative investigation. Such data may be retained as long as there is training value or for the applicable retention period of the investigation to include allotment of time for the case, statute of limitations, and appeals process. When data is exported for such purposes, only the appropriate investigative (or training) unit shall have access to the data.

Agreement CW2234972
Between the County of Santa Clara and OD Security NA
EXHIBIT A
COUNTY OF SANTA CLARA
STANDARD TERMS AND CONDITIONS
FOR AGREEMENT FOR GOODS AND SERVICES

DEFINITIONS

1. “County Confidential Information” shall include all material, non-public information (including material, non-public County Data) appearing in any form (including, without limitation, written, oral or displayed), that is disclosed, directly or indirectly, through any means of communication by County, its agents or employees, to Contractor, its agents or employees, or any of its affiliates or representatives.

2. “County Data” shall mean data and information received by Contractor from County. County Data includes any information or data that is transported across a County network, or that resides in a County-owned information system, or on a network or system under the control and management of a contractor for use by County. As between Contractor and County, all County Data shall remain the property of County.

3. “Deliverables” means goods, services, software, hardware, information technology, telecommunications technology, enhancements, updates, new versions or releases, documentation, and any other items to be delivered pursuant to this Agreement, including any such items furnished incident to the provision of services.

4. "Documentation" means manuals and other printed materials (including updates and revisions) necessary or useful to the County in its use or maintenance of the Deliverables provided pursuant to this Agreement.

5. When used in this Agreement, “days” shall refer to calendar days unless stated otherwise.

1. NON-EXCLUSIVE AGREEMENT
The Agreement does not establish an exclusive contract between the County and the Contractor. The County expressly reserves rights to, without limitation, the following: the right to utilize others to provide products, support and services; the right to request proposals from others with or without requesting proposals from the Contractor; and the unrestricted right to bid any such product, support or service.

2. DELIVERABLES
Contractor agrees to provide the County all Deliverables on terms set forth in the Agreement, including all Exhibits that are attached to the Agreement and incorporated, as well as all necessary equipment and resources. However, this Agreement does not provide authority to ship Deliverables. That authority shall be established by contract release purchase orders placed by the County and sent to Contractor throughout the term of the Agreement. Each and every contract release purchase order shall incorporate all terms of this Agreement and this Agreement shall apply to same.

Any additional or different terms or qualifications sent by Contractor, including, without limitation, electronically or in mailings, attached to invoices or with any deliverables shipped, shall not become part of the contract between the parties. County’s acceptance of Contractor’s offer is expressly made conditional on this statement.

Contractor shall timely provide to the County, all documentation and manuals relevant to the Deliverables to be supplied, at no additional cost. Such documentation shall be delivered either in advance of the delivery of Deliverables or concurrently with the delivery of Deliverables.

Employees and agents of Contractor, shall, while on the premises of the County, comply with all rules and regulations of the premises, including, but not limited to, security requirements. If required,
Contractor shall be responsible for installation, training and knowledge transfer activities in relation to the Deliverables being supplied.

All equipment shall be delivered to a County site specified in the contract release purchase order, or if not so specified therein, in the Statement of Work/Specifications.

Contractor holds itself out as an expert in the subject matter of the Agreement. Contractor represents itself as being possessed of greater knowledge and skill in this area than the average person. Accordingly, Contractor is under a duty to exercise a skill greater than that of an ordinary person, and the manner in which performance is rendered will be evaluated in light of the Contractor’s superior skill. Contractor shall provide equipment and perform work in a professional manner consistent, at minimum, with industry standards.

Contractor represents that all prices, warranties, benefits and other terms being provided hereunder are fair, reasonable and commensurate with the terms otherwise being offered by Contractor to its current customers ordering comparable Deliverables and services. County does not guarantee any minimum orders.

3. NECESSARY ACTS AND FURTHER ASSURANCES
The Contractor shall at its own cost and expense execute and deliver such further documents and instruments and shall take such other actions as may be reasonably required or appropriate to evidence or carry out the intent and purposes of this Agreement.

4. COUNTING DAYS
Days are to be counted by excluding the first day and including the last day, unless the last day is a Saturday, a Sunday, or a legal holiday, and then it is to be excluded.

5. PRICING
Unless otherwise stated, prices shall be fixed for the term of the Agreement, including all extensions. If any product listed in this Agreement is discontinued or upgraded prior to delivery, Contractor shall extend the same pricing towards a comparable replacement which is functionally equivalent or an upgraded version.

Exhibit B of the Agreement is the basis for pricing and compensation throughout the term of the Agreement.

Notwithstanding the above, if at any time during the term of the Agreement the Contractor offers special, promotional or reduced pricing when compared with the price paid by the County, County shall benefit from that pricing, and that pricing shall apply to the County at the same time that is offered to other entities. Contractor is required, on an ongoing basis, to inform the County of any such special, promotional or reduced pricing.

6. MODIFICATION
This Agreement or any contract release purchase order may be supplemented, amended, or modified only by the mutual agreement of the parties. No supplement, amendment, or modification of this Agreement contract release purchase order will be binding on County unless it is in writing and signed by the County’s authorized representative.

7. TIME OF THE ESSENCE
Time is of the essence in the delivery of goods by Contractor under this Agreement and any contract release purchase order. If Contractor fails to deliver goods and/or services on time, the Contractor shall be liable for any costs incurred by the County because of Contractor’s delay. For instance, County may purchase or obtain the goods and/or services elsewhere and the Contractor shall be liable for the Agreement CW2234972.

Between the County of Santa Clara and OD Security NA
difference between the price in the Agreement and the cost to the County; or County may terminate on grounds of material and Contractor shall be liable for County’s damages.

The Contractor shall promptly reimburse the County for the full amount of its liability, or, at County’s option, the County may offset such liability from any payment due to the Contractor under any contract with the County.

The rights and remedies of County provided herein shall not be exclusive and are in addition to any other rights and remedies provided by law. The acceptance by County of late or partial performance with or without objection or reservation shall not waive the right to claim damage for such breach nor constitute a waiver of the rights or requirements for the complete and timely performance of any obligation remaining to be performed by the Contractor, or of any other claim, right or remedy of the County.

8. HAZARDOUS SUBSTANCES
If any product being offered, delivered or supplied to the County is listed in the Hazardous Substances List of the Regulations of the Director of Industrial Relations with the California Occupational Safety and Health Standards Board, or if the product presents a physical or health hazard as defined in the California Code of Regulations, General Industry Safety Order, Section 5194 (T8CCR), Hazard Communication, the Contractor must include a Material Safety Data Sheet (MSDS) with delivery, or shipment. Each MSDS must reference the contract/purchase order number, and identify the "Ship To Address". All shipments and containers must comply with the labeling requirements of Title 49, Code of Federal Regulations by identifying the hazardous substance, name and address of manufacturer, and appropriate hazard warning regarding potential physical safety and health hazard.

9. SHIPPING AND RISK OF LOSS
Goods shall be packaged, marked and otherwise prepared by Contractor in suitable containers in accordance with sound commercial practices. Contractor shall include an itemized packing list with each shipment and with each individual box or package shipped to the County. The packing list shall contain, without limitation, the applicable contract release purchase order number.

Unless otherwise specified in writing, all shipments by Contractor to County will be F.O.B. point of destination. Freight or handling charges are not billable unless such charges are referenced on the order. Transportation receipts, if required by contract release purchase order, must accompany invoice. Regardless of F.O.B. point, Contractor agrees to bear all risks of loss, injury, or destruction to goods and materials ordered herein which occur prior to delivery at County’s destination; and such loss, injury or destruction shall not release Contractor from any obligation hereunder.

Any shipments returned to the Contractor shall be delivered as F.O.B. shipping point.

10. INSPECTION AND RELATED RIGHTS
All goods and services are subject to inspection, testing, approval and acceptance by the County. Inspection shall be made within 60 days or a reasonable time after delivery, whichever period is longer. If the goods, services, or the tender of delivery fail in any respect to conform to the contract, the County may reject the entire tender, accept the entire tender, or, if the deliverables are commercially divisible, may, at its option, accept any commercial unit or units and reject the rest.

Contractor shall be responsible to reclaim and remove any rejected goods or items at its own expense. Should Contractor fail to reclaim or remove any rejected goods or items within a reasonable time, County shall, at its option dispose of such goods or items and require reimbursement from Contractor for any costs or expenses incurred.

In the event that the Contractor’s goods are not accepted by County, the Contractor shall be liable for any costs incurred by the County because of such failure by Contractor. For instance, County may
purchase or obtain the goods elsewhere and the Contractor shall be liable for the difference between the price in the Agreement and the cost to the County, and any other costs incurred; or County may terminate for cause on grounds of material breach and Contractor shall be liable for County’s damages.

The Contractor shall promptly reimburse the County for the full amount of its liability, or, at County’s option, the County may offset such liability from any payment due to the Contractor under any contract with the County.

The rights and remedies of County provided herein shall not be exclusive and are in addition to any other rights and remedies provided by law. The acceptance by County of late or partial performance with or without objection or reservation shall not waive the right to claim damage for such breach nor constitute a waiver of the rights or requirements for the complete and timely performance of any obligation remaining to be performed by the Contractor, or of any other claim, right or remedy of the County.

11. ADJUSTMENT BY COUNTY
The County reserves the right to waive a variation in specification of goods or services supplied by the Contractor. Contractor may request an equitable adjustment of payments to be made by County if County requires a change in the goods or services to be delivered. Any claim by the Contractor for resulting adjustment of payment must be asserted within 30 days from the date of receipt by the Contractor of the notification of change required by County; provided however, that the County’s authorized representative decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment made for goods and services supplied by Contractor. Where the cost of property made obsolete or excess as a result of a change is included in the Contractor’s claim for adjustment, the County’s authorized representative shall have the right to prescribe the manner of disposition of such property. Nothing in this clause shall excuse performance by Contractor.

12. INVOICING
Contractor shall invoice according to Exhibit B of the Agreement. Invoices shall be sent to the County customer or department referenced in the individual contract release purchase order. Invoices for goods or services not specifically listed in the Agreement will not be approved for payment. Invoices shall include: Contractor’s complete name and remit-to address; invoice date, invoice number, and payment term; County contract number; pricing per the Agreement; applicable taxes; and total cost. Contractor and County shall make reasonable efforts to resolve all invoicing disputes within seven (7) days.

13. PAYMENT
The County’s standard payment term shall be Net forty-five (45), unless otherwise agreed to by the parties. Payment shall be due Net forty-five (45) days from the date of receipt and approval of correct and proper invoices. Notwithstanding the standard payment term set forth above, the parties agree that the Payment Term for this Agreement shall be the term set forth in the Key Provisions section of the Agreement above. If the Payment Term is a prompt payment discount term, then payment shall be made accordingly. For example, if the Payment Term is 2.25% ten (10) Net forty-five (45), payment shall be due ten (10) days from the date the County receives and approves the correct and proper invoice, but no later than forty-five (45) days from that date, and the County would take a discount of 2.25% of the total amount of the invoice if the payment is made in ten (10) days. The parties also agree that notwithstanding the Payment Term set forth in the Key Provisions section of the Agreement, that at any time during the contract term, either party may initiate an early payment discount on an invoice-by-invoice basis utilizing the Dynamic Discounting functionality of the Ariba Network. Contractor must have a registered account on the Ariba Network to utilize this functionality.

Payment is deemed to have been made on the date the County mails the warrant or initiates the electronic fund transfer.

Agreement CW2234972
Between the County of Santa Clara and OD Security NA
14. OTHER PAYMENT PROVISIONS
Notwithstanding anything to the contrary, County shall not make payments absent successful installation and County approval and acceptance of the Deliverables. Unless specified in writing in an individual purchase order, the County will not accept partial delivery with respect to any purchase order. Any acceptance of partial delivery shall not waive any of County’s rights on an ongoing basis.

Sales tax shall be noted separately on every invoice. Items that are not subject to sales tax shall be clearly identified.

Contractor shall be responsible for payment of all state and federal taxes assessed on the compensation received under this Purchase Order and such payment shall be identified under the Contractor’s federal and state identification number(s).

The County does not pay Federal Excise Taxes (F.E.T). The County will furnish an exemption certificate in lieu of paying F.E.T. Federal registration for such transactions is: County #94730482K. Contractor shall not charge County for delivery, drayage, express, parcel post, packing, cartage, insurance, license fees, permits, cost of bonds, or for any other purpose, unless expressly authorized by the County.

15. LATE PAYMENT CHARGES OR FEES
The Contractor acknowledges and agrees that the County will not pay late payment charges.

16. DISALLOWANCE
In the event the Contractor receives payment for goods or services, which payment is later disallowed by the County or state or federal law or regulation, the Contractor shall promptly refund the disallowed amount to the County upon notification. At County’s option, the County may offset the amount disallowed from any payment due to the Contractor under any contract with the County.

17. TERMINATION FOR CONVENIENCE
The County may terminate this Agreement or any order at any time for the convenience of the County, specifying the effective date and scope of such termination.

In no event shall the County be liable for costs incurred by the Contractor as a result of the termination or any loss of profits on the resulting order or portion thereof so terminated. In the event of termination, all finished or unfinished documents, data, studies, maps, photographs, reports, and other materials (collectively referred to as “materials”) prepared by Contractor under this Agreement contract release purchase order shall become the property of the County and shall be promptly delivered to the County. Upon receipt of such materials, County shall pay the Contractor as full compensation for performance, the unit or pro rata price for the then-accepted portion of goods and/or services. If this Agreement is terminated, neither party may nullify obligations, if any, already incurred prior to the date of termination.

Termination for Convenience may be exercised anytime by and at the sole discretion of the County.

18. TERMINATION FOR CAUSE
County may terminate this Agreement or any order, in whole or in part, for cause upon thirty (30) days written notice to Contractor. For purposes of this Agreement, cause includes, but is not limited to, any of the following: (a) material breach of this Agreement or any contract release purchase order by Contractor, (b) violation by Contractor of any applicable laws or regulations; (c) assignment or delegation by Contractor of the rights or duties under this Agreement without the written consent of County or (d) less than perfect tender of delivery or performance by Contractor that is not in strict conformance with terms, conditions, specifications, covenants, representations, warranties or requirements in this Agreement or any order.
In the event County terminates for cause under this provision, the Contractor shall be liable for any costs incurred by the County because of Contractor's default. The Contractor shall promptly reimburse the County for the full amount of its liability, or, at County's option, the County may offset such liability from any payment due to the Contractor under any contract or order with the County.

If, after notice of termination under the provisions of this clause, it is determined for any reason that the Contractor was not in default under this provision of this clause, the County has the option to make its notice of termination pursuant to the Termination for Convenience clause and the rights and obligations of the parties would be in accordance with that provision.

In lieu of terminating immediately upon contractor's default, County may, at its option, provide written notice specifying the cause for termination and allow Contractor ten (10) days (or other specified time period by the County) to cure. If, within ten (10) days (or other specified time) after the County has given the Contractor such notice, Contractor has not cured to the satisfaction of the County, or if the default cannot be reasonably cured within that time period, County may terminate this Agreement at any time thereafter. County shall determine whether Contractor's actions constitute complete or partial cure. In the event of partial cure, County may, at its option, decide whether to (a) give Contractor additional time to cure while retaining the right to immediately terminate at any point thereafter for cause; or (b) terminate immediately for cause. If this Agreement is terminated, neither party may nullify obligations, if any, already incurred prior to the date of termination.

Notwithstanding any of the above, if County determines that any action by Contractor contributes to the curtailment of an essential service or pose an immediate threat to life, health, or property, County may terminate this Agreement effective immediately without penalty or opportunity to cure upon issuing either oral or written notice to the Contractor.

19. TERMINATION FOR BANKRUPTCY
If Contractor is adjudged to be bankrupt or should have a general assignment for the benefit of its creditors, or if a receiver should be appointed on account of Contractor's insolvency, the County may terminate this Agreement immediately without penalty. For the purpose of this Section, bankruptcy shall mean the filing of a voluntary or involuntary petition of bankruptcy or similar relief from creditors; insolvency; the appointment of a trustee or receiver, or any similar occurrence reasonably indicating an imminent inability to perform substantially all the party's duties under this Agreement. If this Agreement is terminated, neither party may nullify obligations, if any, already incurred prior to the date of termination.

20. BUDGETARY CONTINGENCY
Performance and/or payment by the County pursuant to this Agreement is contingent upon the appropriation by the County of sufficient funds for Deliverables covered by this Agreement. If funding is reduced or deleted by the County for services covered by this Agreement, the County may, at its option and without penalty or liability, terminate this Agreement or offer an amendment to this Agreement indicating the reduced amount.

21. DISENTANGLEMENT
Contractor shall cooperate with County and County's other contractors to ensure a smooth transition at the time of termination of this Agreement, regardless of the nature or timing of the termination. Contractor shall cooperate with County's efforts to ensure that there is no interruption of work required under the Agreement and no adverse impact on the supply of goods, provision of County services or the County activities. Contractor shall return to County all County assets or information in Contractor's possession.

For any software programs developed for use under the County's Agreement, Contractor shall provide a nonexclusive, nontransferable, fully-paid, perpetual, irrevocable, royalty-free worldwide license to the County, at no charge to County, to use, copy, and modify, all work or derivatives that would be needed in Agreement CW2234972.

Between the County of Santa Clara and OD Security NA
order to allow County to continue to perform for itself, or obtain from other providers, the services as the
same might exist at the time of termination.

County shall be entitled to purchase at net book value those Contractor assets used for the provision of
services to or for County, other than those assets expressly identified by the parties as not being subject
to this provision. Contractor shall promptly remove from County’s premises, or the site of the work being
performed by Contractor for County, any Contractor assets that County, or its designee, chooses not to
purchase under this provision.

Contractor shall deliver to County or its designee, at County’s request, all documentation and data
related to County, including, but not limited to, the County Data and client files, held by Contractor, within
sixty (60) days of the request, and after return of same, Contractor shall destroy all copies thereof not
turned over to County, all at no charge to County.

22. DISPUTES
Except as otherwise provided in this Agreement, any dispute arising under this contract that is not
disposed of by agreement shall be decided by the County’s authorized representative or designee, who
shall furnish the decision to the Contractor in writing. The decision of the County’s authorized
representative or designee shall be final and conclusive. The Contractor shall proceed diligently with the
performance of the contract pending the County’s authorized representative or designee’s decision. The
County’s authorized representative or designee shall not be required to decide issues that are legal or
beyond his or her scope of expertise.

23. ACCOUNTABILITY
Contractor will be the primary point of contact for the performance of any subcontractors and assume the
responsibility of all matters relating to the purchase of goods and/or services under this Agreement,
including payment issues. If such or similar issues arise, the Contractor must take immediate action to
correct or resolve the issues.

24. NO ASSIGNMENT, DELEGATION OR SUBCONTRACTING WITHOUT PRIOR
WRITTEN CONSENT
Contractor may not assign any of its rights, delegate any of its duties or subcontract any portion of its
work or business under this Agreement or any contract release purchase order without the prior written
consent of County. No assignment, delegation or subcontracting will release Contractor from any of its
obligations or alter any of its obligations to be performed under the Agreement. Any attempted
assignment, delegation or subcontracting in violation of this provision is voidable at the option of the
County and constitutes material breach by Contractor. As used in this provision, "assignment" and
"delegation" means any sale, gift, pledge, hypothecation, encumbrance, or other transfer of all or any
portion of the rights, obligations, or liabilities in or arising from this Agreement to any person or entity,
whether by operation of law or otherwise, and regardless of the legal form of the transaction in which the
attempted transfer occurs.

25. MERGER AND ACQUISITION
The terms of this Agreement will survive an acquisition, merger, divestiture or other transfer of rights
involving Contractor. In the event of an acquisition, merger, divestiture or other transfer of rights
Contractor must ensure that the acquiring entity or the new entity is legally required to:
(1) Honor all the terms negotiated in this Agreement and any pre-acquisition or pre-merger Agreement
    between Contractor and the County, including but not limited to a) established pricing and fees; b)
guaranteed product support until the contract term even if a new product is released; and c) no price
    escalation during the term of the contract.
(2) If applicable, provide the functionality of the software in a future, separate or renamed product, if the
    acquiring entity or the new entity reduces or replaces the functionality, or otherwise provide a
substantially similar functionality of the current licensed product. The County will not be required to pay any additional license or maintenance fee to an acquiring entity in order to continue with full use, benefit, and functionality of software licensed under this Agreement until expiration or termination.

(3) Give 30-days written notice to the County following the closing of an acquisition, merger, divestiture or other transfer of right involving Contractor.

26. COMPLIANCE WITH ALL LAWS & REGULATIONS APPLICABLE TO GOODS AND/OR SERVICES PROVIDED

Contractor shall comply with all laws, codes, regulations, rules and orders (collectively, "Regulations") applicable to the goods and/or services to be provided hereunder. Contractor's violation of this provision shall be deemed a material default by Contractor, giving County a right to terminate the contract. Examples of such Regulations include but are not limited to California Occupational Safety and Health Act of 1973, Labor Code §6300 et seq, the Fair Packaging and Labeling Act, and the standards and regulations issued there under. Contractor agrees to indemnify and hold harmless the County for any loss, damage, fine, penalty, or any expense whatsoever as a result of Contractor's failure to comply with any Regulation applicable to the goods and/or services to be provided hereunder.

27. FORCE MAJEURE

Neither party shall be liable for failure of performance, nor incur any liability to the other party on account of any loss or damage resulting from any delay or failure to perform all or any part of this Agreement if such delay or failure is caused by events, occurrences, or causes beyond the reasonable control and without negligence of the parties. Such events, occurrences, or causes will include acts of God/nature (including fire, flood, earthquake, storm, hurricane or other natural disaster), war, invasion, act of foreign enemies, hostilities (whether war is declared or not), civil war, riots, rebellion, revolution, insurrection, military or usurped power or confiscation, terrorist activities, nationalization, government sanction, lockout, blockage, embargo, labor dispute, strike, interruption or failure of electricity or telecommunication service ("Force Majeure Event").

Each party, as applicable, shall give the other party notice of its inability to perform and reasonable detail of the cause of the inability. Each party must use best efforts to remedy the situation and remove, as soon as practicable, the cause of its inability to perform or comply.

The party asserting a Force Majeure Event as a cause for non-performance shall have the burden of proving that reasonable steps were taken to minimize delay or damages caused by foreseeable events, that all non-excused obligations were substantially fulfilled, and that the other party was timely notified of the likelihood or actual occurrence which would justify such an assertion, so that other prudent precautions could be contemplated.

The County shall reserve the right to terminate this Agreement and/or any applicable order or contract release purchase order effective immediately, upon written notice, in the event of non-performance by Contractor because of a Force Majeure Event. The County shall reserve the right to extend the agreement and time for performance at its discretion.

28. INDEPENDENT CONTRACTOR

Contractor shall supply all goods and/or perform all services pursuant to this Agreement as an independent contractor and not as an officer, agent, or employee of County. Contractor shall be solely responsible for the acts and omissions of its officers, agents, employees, contractors, and subcontractors, if any. Nothing herein shall be considered as creating a partnership or joint venture between the County and Contractor. No person performing any services and/or supplying all goods shall be considered an officer, agent, or employee of County, nor shall any such person be entitled to any benefits available or granted solely to employees of the County.

Contractor is responsible for payment to sub-contractors and must monitor, evaluate, and account for the sub-contractor(s) services and operations.

Agreement CW2234972
Between the County of Santa Clara and OD Security NA
29. INSURANCE
Contractor shall maintain insurance coverage pursuant to the exhibit setting forth insurance requirements, if such exhibit is attached to the Agreement.

30. DAMAGE AND REPAIR BY CONTRACTOR
Any and all damages to County owned or leased property caused by Contractor’s negligence or operations shall be repaired, replaced or reimbursed by Contractor at no charge to the County. Repairs and replacements shall be completed within seventy-two (72) hours of the incident unless the County requests or agrees to an extension or another time frame. The cleanup of all damage related to accidental or intentional release of any/all non-hazardous or hazardous material (e.g. hydraulic fluid, fuel, grease, etc.) from Contractor’s vehicles or during performance shall be the responsibility of the Contractor. All materials must be cleaned up in a manner and time acceptable to County (completely and immediately to prevent potential as well as actual environmental damage). Contractor must immediately report each incident to the County’s Director of Procurement or designee. Damage observed by Contractor, whether or not resulting from Contractor’s operations or negligence shall be promptly reported by Contractor to County. County may, at its option, approve and/or dictate the actions that are in County’s best interests.

31. LIENS, CLAIMS, ENCUMBRANCES AND TITLE
The Contractor represents and warrants that all the goods and materials ordered and delivered are free and clear of all liens, claims or encumbrances of any kind. Title to the material and supplies purchased shall pass directly from Contractor to County at the F.O.B. point, subject to the right of County to reject upon inspection.

32. ASSIGNMENT OF CLAYTON ACT, CARTWRIGHT ACT CLAIMS
Contractor hereby assigns to the County all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by the Contractor for sale to the County pursuant to this Agreement.

33. INDEMNITY
Contractor shall indemnify, defend, and hold harmless the County, its officers, agents and employees from any claim, liability, loss, injury or damage arising out of, or in connection with, performance of this Agreement by Contractor and/or its agents, employees or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the County. It is the intent of the parties to this Agreement to provide the broadest possible coverage for the County. Contractor shall reimburse the County for all costs, attorneys’ fees, expenses and liabilities incurred with respect to any litigation in which Contractor contests its obligation to indemnify, defend and/or hold harmless the County under this Agreement and does not prevail in that contest.

34. INTELLECTUAL PROPERTY INDEMNITY
Contractor represents and warrants for the benefit of the County and its users that it is the exclusive owner of all rights, title and interest in the product or services to be supplied. Contractor shall, at its own expense, indemnify, defend, settle, and hold harmless the County and its employees, agents and assigns against any claim or potential claim that any good, (including software) and/or service, or County’s use of any good (including software) and/or service, provided under this Agreement infringes any patent, trademark, copyright or other proprietary rights, including trade secret rights. Contractor shall pay all costs, damages and attorneys’ fees that a court or other adjudicatory body awards as a result of any such claim.
35. WARRANTY
Any goods and/or services furnished under this Agreement shall be covered by the most favorable commercial warranties that Contractor gives to any of its customers for the same or substantially similar goods and/or services. Any warranties so provided shall supplement, and shall not limit or reduce, any rights afforded to County by any clause in this Agreement, any applicable Uniform Commercial Code warranties, including, without limitation, Implied Warranty of Merchantability and Implied Warranty of Fitness for a Particular Purpose as well as any other express warranty.

Contractor expressly warrants that all goods supplied shall be new, suitable for the use intended, of the grade and quality specified, free from all defects in design, material and workmanship, in conformance with all samples, drawings, descriptions and specifications furnished by the County, in compliance with all applicable federal, state and local laws and regulations and free of liens, claims and encumbrances. Contractor warrants that all services shall strictly conform to the County’s requirements.

Contractor shall immediately replace or repair any good not conforming to any warranty, or provide services to conform to County’s requirements. If after notice, Contractor fails to repair or replace goods, or to provide services to conform to County’s requirements, Contractor shall promptly refund to County the full purchase price paid by the County. This remedy is nonexclusive of other remedies and rights that may be exercised by the County. Claims for damages may include direct damages, such as cost to repair, as well as incidental and consequential damages.

During the provision of goods and services, Contractor may not disclaim any warranty, express or implied, and any such disclaimer shall be void. Additionally, the warranties above shall not be deemed to exclude Contractor’s standard warranties or other rights and warranties that the County may have or obtain.

36. COOPERATION WITH REVIEW
Contractor shall cooperate with County’s periodic review of Contractor’s performance.

Contractor shall make itself available onsite to review the progress of the project and Agreement, as requested by the County, upon reasonable advanced notice.

Contractor agrees to extend to the County or his/her designees and/or designated auditor of the County, the right to monitor or otherwise evaluate all work performed and all records, including service records and procedures to assure that the project is achieving its purpose, that all applicable County, State, and Federal regulations are met, and that adequate internal fiscal controls are maintained.

37. AUDIT RIGHTS
Pursuant to California Government Code Section 8546.7, the parties acknowledge and agree that every contract involving the expenditure of public funds in excess of $10,000 may be subject to audit by the State Auditor.

All payments made under this Agreement shall be subject to an audit at County’s option, and shall be adjusted in accordance with said audit. Adjustments that are found necessary as a result of auditing may be made from current billings.

The Contractor shall be responsible for receiving, replying to, and complying with any payment adjustments set forth in any County audits. The Contractor shall pay to County the full amount determined to be due as a result of a County audit. This provision is in addition to other inspection and access rights specified in this Agreement.
38. ACCESS AND RETENTION OF RECORDS AND PROVISION OF REPORTS
Contractor shall maintain financial records adequate to show that County funds paid were used for purposes consistent with the terms of the contract between Contractor and County. Records shall be maintained during the term of the Agreement and for a period of four (4) years from its termination, or until all claims have been resolved, whichever period is longer, unless a longer period is required under any contract or applicable law.

All books, records, reports, and accounts maintained pursuant to the Agreement, or related to the Contractor’s activities under the Agreement, shall be open to inspection, examination, and audit by County, federal and state regulatory agencies, and to parties whose Agreements with the County require such access. County shall have the right to obtain copies of any and all of the books and records maintained pursuant to the Agreement, upon the payment of reasonable charges for the copying of such records.

Contractor shall provide annual reports that include, at a minimum, (i) the total contract release purchase order value for the County as a whole and individual County departments, and (ii) the number of orders placed, the breakdown (by customer ID/department and County) of the quantity and dollar amount of each product and/or service ordered per year. Annual reports must be made available no later than 30 days of the contract anniversary date unless otherwise requested.

Contractor shall also provide quarterly reports to the County that show a breakdown by contract release purchase order (i) the order date (ii) ship date (iii) estimated arrival date (iv) actual arrival date (v) list of products, services and maintenance items and (vi) the number and details of problem/service calls and department name that each such call pertains to (including unresolved problems). Quarterly reports must be made available to the County in electronic format, two (2) business days after the end of each quarter unless otherwise requested.

39. ACCESS TO BOOKS AND RECORDS PURSUANT TO THE SOCIAL SECURITY ACT
Access to Books and Records: If and to the extent that, Section 1861 (v) (1) (1) of the Social Security Act (42 U.S.C. Section 1395x (v) (1) (1) is applicable, Contractor shall maintain such records and provide such information to County, to any payor which contracts with County and to applicable state and federal regulatory agencies, and shall permit such entities and agencies, at all reasonable times upon request, to access books, records and other papers relating to the Agreement hereunder, as may be required by applicable federal, state and local laws, regulations and ordinances. Contractor agrees to retain such books, records and information for a period of at least four (4) years from and after the termination of this Agreement. Furthermore, if Contractor carries out any of its duties hereunder, with a value or cost of Ten Thousand Dollars ($10,000) or more over a twelve (12) month period, through a subcontract with a related organization, such subcontract shall contain these same requirements. This provision shall survive the termination of this Agreement regardless of the reason for the termination.

40. COUNTY NO-SMOKING POLICY
Contractor and its employees, agents and subcontractors, shall comply with the County’s No Smoking Policy, as set forth in the Board of Supervisors Policy Manual section 3.47 (as amended from time to time), which prohibits smoking: (1) at the Santa Clara Valley Medical Center Campus and all County-owned and operated health facilities, (2) within thirty (30) feet surrounding County-owned buildings and leased buildings where the County is the sole occupant, and (3) in all County vehicles.

41. FOOD AND BEVERAGE STANDARDS
Except in the event of an emergency or medical necessity, the following nutritional standards shall apply to any foods and/or beverages purchased by Contractor with County funds for County-sponsored meetings or events.
If food is to be provided, healthier food options shall be offered. “Healthier food options” include (1) fruits, vegetables, whole grains, and low fat and low calorie foods; (2) minimally processed foods without added sugar and with low sodium; (3) foods prepared using healthy cooking techniques; and (4) foods with less than 0.5 grams of trans fat per serving. Whenever possible, Contractor shall (1) offer seasonal and local produce; (2) serve fruit instead of sugary, high calorie desserts; (3) attempt to accommodate special, dietary and cultural needs; and (4) post nutritional information and/or a list of ingredients for items served. If meals are to be provided, a vegetarian option shall be provided, and the Contractor should consider providing a vegan option. If pre-packaged snack foods are provided, the items shall contain: (1) no more than 35% of calories from fat, unless the snack food items consist solely of nuts or seeds; (2) no more than 10% of calories from saturated fat; (3) zero trans-fat; (4) no more than 35% of total weight from sugar and caloric sweeteners, except for fruits and vegetables with no added sweeteners or fats; and (5) no more than 360 mg of sodium per serving.

If beverages are to be provided, beverages that meet the County’s nutritional criteria are (1) water with no caloric sweeteners; (2) unsweetened coffee or tea, provided that sugar and sugar substitutes may be provided as condiments; (3) unsweetened, unflavored, reduced fat (either nonfat or 1% low fat) dairy milk; (4) plant-derived milk (e.g., soy milk, rice milk, and almond milk) with no more than 130 calories per 8 ounce serving; (5) 100% fruit or vegetable juice (limited to a maximum of 8 ounces per container); and (6) other low-calorie beverages (including tea and/or diet soda) that do not exceed 40 calories per 8 ounce serving. Sugar-sweetened beverages shall not be provided.

42. DEBARMENT
Contractor represents and warrants that it, its employees, contractors, subcontractors or agents (collectively “Contractor”) are not suspended, debarred, excluded, or ineligible for participation in Medicare, Medi-Cal or any other federal or state funded health care program, if applicable, or from receiving Federal funds as listed in the List of Parties Excluded from Federal Procurement or Non-procurement Programs issued by the Federal General Services Administration.

Contractor must within thirty (30) calendar days advise the County if, during the term of this Agreement, Contractor becomes suspended, debarred, excluded or ineligible for participation in Medicare, Medi-Cal or any other federal or state funded health care program, as defined by 42. U.S.C. 1320a-7b (f), or from receiving Federal funds as listed in the List of Parties Excluded from Federal Procurement or Non-procurement Programs issued by the Federal General Services Administration. Contractor will indemnify, defend and hold the County harmless for any loss or damage resulting from the conviction, debarment, exclusion or ineligibility of the Contractor.

43. CALIFORNIA PUBLIC RECORDS ACT
The County is a public agency subject to the disclosure requirements of the California Public Records Act (“CPRA”). If Contractor’s proprietary information is contained in documents or information submitted to County, and Contractor claims that such information falls within one or more CPRA exemptions, Contractor must clearly mark such information “CONFIDENTIAL AND PROPRIETARY,” and identify the specific lines containing the information. In the event of a request for such information, the County will make best efforts to provide notice to Contractor prior to such disclosure. If Contractor contends that any documents are exempt from the CPRA and wishes to prevent disclosure, it is required to obtain a protective order, injunctive relief or other appropriate remedy from a court of law in Santa Clara County before the County is required to respond to the CPRA request. If Contractor fails to obtain such remedy within the time the County is required to respond to the CPRA request, County may disclose the requested information.

Contractor further agrees that it shall defend, indemnify and hold County harmless against any claim, action or litigation (including but not limited to all judgments, costs, fees, and attorney’s fees) that may result from denial by County of a CPRA request for information arising from any representation, or any action (or inaction), by the Contractor.

Agreement CW2234972
Between the County of Santa Clara and OD Security NA
44. CONFLICT OF INTEREST; POLITICAL REFORM ACT DISCLOSURE REQUIREMENT

If applicable, Contractor shall comply with all applicable requirements governing avoidance of impermissible client conflicts; and federal, state and local conflict of interest laws and regulations including, without limitation, California Government Code section 1090 et seq., the California Political Reform Act (California Government Code section 87100 et seq.) and the regulations of the Fair Political Practices Commission concerning disclosure and disqualification (2 California Code of Regulations section 18700 et seq.). Failure to do so constitutes a material breach of this Agreement and is grounds for immediate termination of this Agreement by the County.

In accepting this Agreement, Contractor covenants that it presently has no interest, and will not acquire any interest, direct or indirect, financial or otherwise, which would conflict in any manner or degree with the performance of this Agreement. Contractor further covenants that, in the performance of this Agreement, it will not use any contractor or employ any person having such an interest. Contractor, including but not limited to contractor’s employees, may be subject to the disclosure and disqualification provisions of the California Political Reform Act of 1974 (the “Act”), that (1) requires such persons to disclose economic interests that may foreseeably be materially affected by the work performed under this Agreement, and (2) prohibits such persons from making or participating in making decisions that will foreseeably financially affect such interests.

Contractor, including but not limited to contractor’s employees and subcontractors, may be subject to the disclosure and disqualification provisions of the California Political Reform Act of 1974 (the “Act”), that (1) requires such persons to disclose economic interests that may foreseeably be materially affected by the work performed under the Agreement, and (2) prohibits such persons from making or participating in making decisions that will foreseeably financially affect such interests.

If the disclosure provisions of the Act are applicable to any individual providing service under the Agreement, Contractor shall, upon execution of the Agreement, provide the County with the names, description of individual duties to be performed, and email addresses of all individuals, including but not limited to Contractor’s employees, agents and subcontractors, that could be substantively involved in “making a governmental decision” or “serving in a staff capacity and in that capacity participating in making governmental decisions or performing duties that would be performed by an individual in a designated position,” as part of Contractor’s service to the County under the Agreement. Contractor shall ensure that such individuals file Statements of Economic Interests within 30 days of commencing service under the Contract, annually by April 1, and within 30 days of their termination of service under the Contract.

45. SEVERABILITY

Should any part of this Agreement between County and the Contractor or any individual contract release purchase order be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect the validity of the remainder of the Agreement or any individual contract release purchase order which shall continue in full force and effect, provided that such remainder can, absent the excised portion, be reasonably interpreted to give the effect to the intentions of the parties.

46. NON-WAIVER

No waiver of a breach, failure of any condition, or any right or remedy contained in or granted by the provisions of this Agreement will be effective unless it is in writing and signed by County. No waiver of any breach, failure, right, or remedy will be deemed a waiver of any other breach, failure, right, or remedy, whether similar or not, nor will any waiver constitute a continuing waiver unless the writing signed by the County so specifies.
47. USE OF COUNTY’S NAME FOR COMMERCIAL PURPOSES
Contractor may not use the name of the County or reference any endorsement from the County in any fashion for any purpose, without the prior express written consent of the County as provided by the County’s authorized representative, or designee.

48. HEADINGS AND TITLES
The titles and headings in this Agreement are included principally for convenience and do not by themselves affect the construction or interpretation of any provision in this Agreement, nor affect any of the rights or obligations of the parties to this Agreement.

49. HANDWRITTEN OR TYPED WORDS
Handwritten or typed words have no greater weight than printed words in the interpretation or construction of this Agreement.

50. AMBIGUITIES
Any rule of construction to the effect that ambiguities are to be resolved against the drafting party does not apply in interpreting this Agreement.

51. ENTIRE AGREEMENT; MERGER
This Agreement and its Exhibits and Attachments (if any) constitute the final, complete and exclusive statement of the terms of the agreement between the parties. It incorporates and supersedes all the agreements, covenants and understandings between the parties concerning the subject matter hereof, and all such agreements, covenants and understandings have been merged into this Agreement. No prior or contemporaneous agreement or understanding, verbal or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this Agreement.

52. EXECUTION AND COUNTERPARTS
This Agreement may be executed in one or more counterparts, each of which will be considered an original, but all of which together will constitute one and the same instrument. The parties agree that this Agreement, its amendments, and ancillary agreements to be entered into in connection with this Agreement will be considered signed when the signature of a party is delivered a method described herein.

Unless otherwise prohibited by law or County policy, the parties agree that an electronic copy of a signed contract, or an electronically signed contract, has the same force and legal effect as a contract executed with an original ink signature. The term “electronic copy of a signed contract” refers to a transmission by facsimile, electronic mail, or other electronic means of a copy of an original signed contract in a portable document format. The term “electronically signed contract” means a contract that is executed by applying an electronic signature using technology approved by the County.

53. NOTICES
All deliveries, notices, requests, demands or other communications provided for or required by this Agreement shall be in writing and shall be deemed to have been given when sent by registered or certified mail, return receipt requested; when sent by overnight carrier; or upon email confirmation to sender of receipt of a facsimile communication which is followed by a mailed hard copy from sender. Notices shall be addressed to the individuals identified in the Key Provisions of the Agreement as the County Contract Administrator and the Supplier Contact. Each party may designate a different person and address by sending written notice to the other party, to be effective no sooner than ten (10) days after the date of the notice.

54. ACCOUNT MANAGER
Contractor must assign an Account Manager to the County upon execution of the Agreement to facilitate the contractual relationship, be fully responsible and accountable for fulfilling the County’s requirements.

Agreement CW2234972
Between the County of Santa Clara and OD Security NA
Contractor represents and warrants that such person will ensure that the County receives adequate pre-
sales and post-sales support, problem resolution assistance and required information on a timely basis.

55. SURVIVAL
All representations, warranties, and covenants contained in this Agreement, or in any instrument,
certificate, exhibit, or other writing intended by the parties to survive this Agreement, will survive the
termination of this Agreement.

56. GOVERNING LAW, JURISDICTION AND VENUE
This Agreement shall be construed and interpreted according to the laws of the State of California,
excluding its conflict of law principles. Proper venue for legal actions shall be exclusively vested in state
court in the County of Santa Clara. The parties agree that subject matter and personal jurisdiction are
proper in state court in the County of Santa Clara, and waive all venue objections.

57. THIRD PARTY BENEFICIARIES
This Agreement does not, and is not intended to, confer any rights or remedies upon any person or entity
other than the parties

58. AUTHORITY
Each party executing the Agreement on behalf of such entity represents that he or she is duly authorized
to execute and deliver this Agreement on the entity’s behalf, including, as applicable, the Board of
Supervisors, the Board of Directors, or Executive Director. This Agreement shall not be effective or
binding unless it is in writing and approved by the County’s authorized representative, or authorized
designee, as evidenced by their signature as set forth in this Agreement.

59. LIVING WAGE
Unless otherwise exempted or prohibited by law or County policy, Contractors that contract with the
County to provide Direct Services, as defined in County of Santa Clara Ordinance Code Division B36
(“Division B36”) and Board Policy section 5.5.5.5 (“Living Wage Policy”), and their subcontractors,
where the contract value is $100,000 or more, must comply with Division B36 and the Living Wage
Policy and compensate their employees in accordance with Division B36 and the Living Wage Policy.
Compliance and compensation for purposes of this provision includes, but is not limited to, components
relating to fair compensation, earned sick leave, paid jury duty, fair workweek, worker retention, fair
chance hiring, targeted hiring, local hiring, protection from retaliation, and labor peace. If Contractor
and/or a subcontractor violate this provision, the Board of Supervisors or its designee may, at its sole
discretion, take responsive actions including, but not limited to, the following:
(1) Suspend, modify, or terminate the Direct Services Contract.
(2) Require the Contractor and/or Subcontractor to comply with an appropriate remediation plan
developed by the County.
(3) Waive all or part of Division B36 or the Living Wage Policy.

This provision shall not be construed to limit an employee’s rights to bring any legal action for violation
of the employee’s rights under Division B36 or any other applicable law. Further, this provision does
not confer any rights upon any person or entity other than the Board of Supervisors or its designee to
bring any action seeking the cancellation or suspension of a County contract. By entering into this
contract, Contractor certifies that it is currently complying with County Code Division B36 and the
County’s Living Wage Policy with respect to applicable contracts, and warrants that it will continue to
comply with County Code Division B36 and the County’s Living Wage Policy with respect to applicable
contracts.
60. CONTRACTING PRINCIPLES
All entities that contract with the County to provide services where the contract value is $100,000 or more per budget unit per fiscal year and/or as otherwise directed by the Board, shall be fiscally responsible entities and shall treat their employees fairly. To ensure compliance with these contracting principles, all contractors shall: (1) comply with all applicable federal, state and local rules, regulations and laws: (2) maintain financial records, and make those records available upon request; (3) provide to the County copies of any financial audits that have been completed during the term of the Agreement; (4) upon the County’s request, provide the County reasonable access, through representatives of the Contractor, to facilities, financial and employee records that are related to the purpose of the Agreement, except where prohibited by federal or state laws, regulations or rules.

61. CONTRACTOR TRAVEL EXPENSES
Contractor shall be solely responsible for any travel fees or out of pocket expenses.

62. INFORMATION SECURITY COMPLIANCE
For purposes of this Section 62 and Section 63 below, the following definitions shall apply:
1. “Breach” means unauthorized access to, or use of, County Data or information security networks or systems that compromises confidentiality, integrity, and/or availability those systems or County Data.
2. “Independent Penetration Testing,” or “pen testing,” means the County’s practice - by using an independent third party - of testing a computer system, network or web application to find security vulnerabilities that an attacker could exploit.
3. “Risk Assessment” means the process by which the County's Information Security Office (“ISO”) assesses (i) the Contractor's information security program, and related aspects, by identifying, analyzing, and understanding how the Contractor will store, process and transmit County Data; and (ii) the potential impact on the County of any security risks, weaknesses and threats related to safeguarding County assets and County Data. The Risk Assessment usually includes the ISO’s evaluation of documentation provided by the Contractor.

Contractor shall do all of the following:
(1) Maintain or improve upon its information security posture at the time of the County’s initial Risk Assessment as reasonably determined by the County. Contractor shall provide written notice to the County’s Information Security Office (“ISO”) of any changes or deficiencies to its information security posture.

(2) Protect the confidentiality, integrity, availability of the County’s data and comply with any information security requirements provided to Contractor by the ISO for the entire term of the Agreement.

(3) Follow any updated security requirements for the remaining term of the Agreement if the County re-evaluates the Risk Assessment, conducts periodic audits, and/or completes annual Independent Penetration Testing.

(4) Upon discovering any Breach that could impact the County, whether caused by Contractor, its officers, employees, contractors or agents or others, the Contractor shall notify the ISO at o365-iso-team@sccconnect.onmicrosoft.com within 24 hours. Contractor shall also comply with all of its other obligations in this Agreement relating to breaches and potential breaches.

63. COUNTY DATA
(1) Contractor shall not acquire any ownership interest in County Data (including County Confidential
As between Contractor and County, all County Confidential Information and/or County Data shall remain the property of the County. Contractor shall not, without County’s written permission, use or disclose County Data (including County Confidential Information) other than in the performance of its obligations under this Agreement.

(2) Contractor shall be responsible for establishing and maintaining an information security program that is designed to ensure the security and confidentiality of County Data, protect against any anticipated threats or hazards to the security or integrity of County Data, and protect against unauthorized access to or use of County Data that could result in substantial harm or inconvenience to County or any end users. Upon termination or expiration of this Agreement, Contractor shall seek and follow County’s direction regarding the proper disposition of County Data.

(3) Contractor shall take appropriate action to address any incident of unauthorized access to County Data, including addressing and/or remedying the issue that resulted in such unauthorized access, and notifying County by phone or in writing within 24 hours of any incident of unauthorized access to County Data, or any other breach in Contractor’s security that materially affects County or end users. If the initial notification is by phone, Contractor shall provide a written notice within 5 days of the incident. Contractor shall be responsible for ensuring compliance by its officers, employees, agents, and subcontractors with the confidentiality, privacy, and information security requirements of this Agreement. Should County Confidential Information and/or legally protected County Data be divulged to unauthorized third parties, Contractor shall comply with all applicable federal and state laws and regulations, including but not limited to California Civil Code sections 1798.29 and 1798.82 at Contractor’s sole expense. Contractor shall not charge County for any expenses associated with Contractor’s compliance with these obligations.

(4) Contractor shall defend, indemnify and hold County harmless against any claim, liability, loss, injury or damage arising out of, or in connection with, the unauthorized use, access, and/or disclosure of information by Contractor and/or its agents, employees or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the County.

64. ACCESS TO COMPETITIVELY BID AGREEMENTS
Where the contract award is a result of a formal competitive solicitation, Contractor may opt to permit the use of this Agreement by other political subdivisions, municipalities, tax supported agencies and non-profit entities in the United States. Such participating agencies shall make purchases in their own name, make payments directly to the Contractor and shall be liable directly to Contractor holding the County of Santa Clara harmless.

If applicable, Contractor shall be required to maintain a list of cooperative entities using this Agreement. The list shall report dollar volumes spent annually and shall be provided on an annual basis to the County, at the County’s request.

65. COMPLIANCE WITH ALL LAWS AND REGULATIONS INCLUDING NONDISCRIMINATION, EQUAL OPPORTUNITY, AND WAGE THEFT PREVENTION
Contractor’s violation of this provision shall be deemed a material default by Contractor, giving County a right to terminate the Agreement. Examples of such Regulations include but are not limited to California Occupational Safety and Health Act of 1973, Labor Code §6300 et seq. the Fair Packaging and Labeling Act. and the standards and regulations issued there under. Contractor agrees to indemnify and hold harmless the County for any loss, damage, fine, penalty, or any expense whatsoever as a result of Contractor’s failure to comply with the act and any standards or regulations issued there under.
Compliance with All Laws. Contractor shall comply with all applicable Federal, State, and local laws, regulations, rules, and policies (collectively, “Laws”), including but not limited to the non-discrimination, equal opportunity, and wage and hour Laws referenced in the paragraphs below.

Compliance with Non-Discrimination and Equal Opportunity Laws: Contractor shall comply with all applicable Laws concerning nondiscrimination and equal opportunity in employment and contracting, including but not limited to the following: Santa Clara County’s policies for contractors on nondiscrimination and equal opportunity; Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; the Age Discrimination in Employment Act of 1967; the Rehabilitation Act of 1973 (Sections 503 and 504); the Equal Pay Act of 1963; California Fair Employment and Housing Act (Government Code sections 12900 et seq.); California Labor Code sections 1101, 1102, and 1197.5; and the Genetic Information Nondiscrimination Act of 2008. In addition to the foregoing, Contractor shall not discriminate against any subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political belief, organizational affiliation, or marital status in the recruitment, selection for training (including but not limited to apprenticeship), hiring, employment, assignment, promotion, layoff, rates of pay or other forms of compensation. Nor shall Contractor discriminate in the provision of services provided under this contract because of age, race, color, national origin, ancestry, religion, sex, gender identity, gender expression, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status.

Compliance with Wage and Hour Laws: Contractor shall comply with all applicable wage and hour Laws, which may include but are not limited to, the Federal Fair Labor Standards Act, the California Labor Code, and, if applicable, any local Minimum Wage, Prevailing Wage, or Living Wage laws.

Definitions: For purposes of this Section, the following definitions shall apply. A “Final Judgment, Decision, Determination, or Order” shall mean a judgment, decision, determination, or order (a) which is issued by a court of law, an investigatory government agency authorized by law to enforce an applicable Law, an arbiter, or arbitration panel and (b) for which all appeals have been exhausted or the time period to appeal has expired. For pay equity Laws, relevant investigatory government agencies include the federal Equal Employment Opportunity Commission, the California Division of Labor Standards Enforcement, and the California Department of Fair Employment and Housing. Violation of a pay equity Law shall mean unlawful discrimination in compensation on the basis of an individual’s sex, gender, gender identity, gender expression, sexual orientation, race, color, ethnicity, or national origin under Title VII of the Civil Rights Act of 1964 as amended, the Equal Pay Act of 1963, California Fair Employment and Housing Act, or California Labor Code section 1197.5, as applicable. For wage and hour Laws, relevant investigatory government agencies include the federal Department of Labor, the California Division of Labor Standards Enforcement, and the City of San Jose’s Office of Equality Assurance.

Prior Judgments, Decisions or Orders against Contractor: By signing this Agreement, Contractor affirms that it has disclosed any final judgments, decisions, determinations, or orders that (a) were issued in the five years prior to executing this Agreement by a court or investigatory government agency and (b) found that Contractor violated an applicable wage and hour or pay equity law. Contractor further affirms that it has satisfied and complied with – or has reached agreement with the County regarding the manner in which it will satisfy – any such final judgments, decisions, determinations, or orders.

Violations of Wage and Hour Laws or Pay Equity Laws During Term of Agreement: If at any time during the term of this Agreement, Contractor receives a Final Judgment, Decision, Determination, or Order rendered against it for violation of an applicable wage and hour Law or pay equity Law, then Contractor shall promptly satisfy and comply with any such Final Judgment, Decision,
Determination or Order. Contractor shall inform the Office of the County Executive-Office of Countywide Contracting Management (OCCM) of any relevant Final Judgment, Decision, Determination, or Order against it within 30 days of the Final Judgment, Decision, Determination, or Order becoming final or of learning of the Final Judgment, Decision, Determination, or Order, whichever is later. Contractor shall also provide any documentary evidence of compliance with the Final Judgment, Decision, Determination, or Order within 5 days of satisfying the Final Judgment, Decision, Determination, or Order. Any notice required by this paragraph shall be addressed to the Office of the County Executive-OCCM at 70 W. Hedding Street, East Wing, 11th Floor, San José, CA 95110. Notice provisions in this paragraph are separate from any other notice provisions in this Agreement and, accordingly, only notice provided to the Office of the County Executive-OCCM satisfies the notice requirements in this paragraph.

(7) Access to Records Concerning Compliance with Pay Equity Laws: In addition to and notwithstanding any other provision of this Agreement concerning access to Contractor’s records, Contractor shall permit the County and/or its authorized representatives to audit and review records related to compliance with applicable pay equity Laws. Upon the County’s request, Contractor shall provide the County with access to any and all facilities and records, including but not limited to financial and employee records, that are related to the purpose of this Section, except where prohibited by federal or state laws, regulations or rules. County’s access to such records and facilities shall be permitted at any time during Contractor’s normal business hours upon no less than 10 business days’ advance notice.

(8) Pay Equity Notification: Contractor shall (1) directly provide each employee working in California and each person applying for a job in California with a written copy of any applicable pay equity Laws, or (2) electronically disseminate the text of applicable pay equity Laws to each California employee and job applicant, either directly or by posting a copy in conspicuous places available to employees and applicants. Such notification shall occur at least once during the term of this Agreement and, if this Agreement is a multi-year Agreement, at least annually thereafter.

(9) Material Breach: Failure to comply with any part of this Section shall constitute a material breach of this Agreement. In the event of such a breach, the County may, in its discretion, exercise any or all remedies available under this Agreement and/or at law. County may, among other things, take any or all of the following actions:
   (i) Suspend or terminate any or all parts of this Agreement.
   (ii) Withhold payment to Contractor until full satisfaction of a Final Judgment, Decision, Determination, or Order.
   (iii) Offer Contractor an opportunity to cure the breach.

(10) Subcontractors: Contractor shall impose all of the requirements set forth in this Section on any subcontractors permitted to perform work under this Agreement. This includes ensuring that any subcontractor receiving a Final Judgment, Decision, Determination, or Order for violation of an applicable wage and hour Law promptly satisfies and complies with such Final Judgment, Decision, Determination, or Order.

66. CLICK-THROUGH AGREEMENTS AND CONTRACTOR POLICIES

(1) No provisions of any shrink-wrap or any click-through agreement (or other form of “click to accept” agreement) that may routinely accompany any products or services acquired under this Agreement shall apply in place of, or serve to modify any provision of this Agreement, even if a user or authorized officer of County purports to have affirmatively accepted such shrink-wrap or click through provisions. Without limiting the foregoing, no “terms of use,” “privacy policy” or
other policy on Contractor’s website or application (collectively, “Policies”) or another website that may routinely accompany any products or services acquired under this Agreement shall apply in place of or serve to modify any provision of this Agreement.

(2) For the avoidance of doubt and without limiting the foregoing, in the event of a conflict between any such shrink-wrap, click-through provisions or Policies (irrespective of the products or services that such provisions attach to) and any term or condition of this Agreement, the relevant term or condition of this Agreement shall govern to the extent of any such conflict. Only the provisions of this Agreement as amended from time to time, and executed by the parties, shall apply to County and or authorized user.

(3) The parties acknowledge that the County and or authorized users may be required to click “Accept” as a routine condition of access to services through the Contractor’s website or other application. Such click-through provisions or Policies on Contractor’s website shall be null and void for County and/or each such authorized user and shall only serve as a mechanical means for accessing such services.

  o President

II. TECHNICAL REQUIREMENTS

A. Description of System and Services

1. Contractor shall provide a Full Turnkey Body Scanner Solution, SOTER RS Full-Body Scanner Systems as described herein.

The solution makes use of proprietary software applications (“Software”) running on each SOTER RS body scanner acquisition pc with all configuration, user profiles, client profiles and transaction data stored in a local SQL database (with standardized 2 x 1Tb drives, offline) on each scanner. All the data is replicated to the Central Server SQL database (with 6TB drive) and all scan images are saved to the Central Server, applying the 13-month data retention policy. Subject to the terms and conditions of this Agreement, Contractor hereby grants the County and County accepts a non-exclusive, worldwide limited license, including all updates issued during the term of this Agreement, to use the Software.

The Software provides the end user with the following:
- All Scan Manager data and reporting functionality is available across all SOTER RS Body Scanners and SOTER RS Tablets by users with the appropriate access rights.
- Scanned image can be recalled from any of the Operator Terminals or tablet.
- User profiles are shared across the solution. This allow for staff movement across facilities.
- Dose recorded consolidation across all body scanners ensuring the yearly 250 uS dose limit per person is automatically managed across the solution to meet or exceed current ANSI standards.
Figure 1 - SOTER RS Turnkey Solution:
The solution considers network connections failure. In this state, the system will still allow a scan transaction to be completed and all data and scan images for these transactions will be consolidated once network connection is established. See Fig 2. below.

Figure 2 - SOTER RS Network Solution:

2. SOTER RS Typical Workflow and Operator (User) Process
   i. Operator login with username and password or by fingerprint reader/
   ii. Operator will select scan Level if required (Default and recommended Level 2) and click the scan button.
iii. System will require the credentials of the client to be scanned.

iv. The client’s identity will be verified by unique ID, Fingerprint Reader or Barcode Scanner.

v. Credentials will be recalled from the local database 1st. If data is not available, the central database will be queried 2nd and if solution is integrated to a JMS, the web service will be queried as a 3rd level.

vi. If no data exists, the operator will be asked to create a new client.
vii. Scan button is now available for a scan transaction to be completed.

viii. Operator will instruct client to position themselves on the scanner platform and be still during the <10 sec scan time.

ix. Once scan is completed, the operator will use the available Image Analyzing Tools and full touch screen interface to evaluate the images.

x. If no contraband is detected, the operator will proceed with next scan as per point ii. Transaction and image are saved automatically as the default “Negative”.
xi. If contraband is detected in the scanned image, the operator can flag image as positive by clicking on “Result of Scan” and select the category from the menu that best fits the contraband detection and comments can be added. (Categories can be used in database search criteria).

xii. All transactional data is available through the Scan Manager depending on the Operator’s user rights.
xiii. No system updates required. OD Security North America is constantly developing new functionality in the SOTER RS solution. These software enhancements will be made available on a 6-month cycle.

B. Hardware and Software

1. OD Security North America to provide a complete turnkey solution that will consist of the following components:
   - 8 x SOTER RS Body Scanner
   - 8 x Wireless Barcode Scanner or Wired Fingerprint Readers
   - All WIFI and network switches required to allow connectivity to all SOTER RS Tablets (See Fig. 1)
   - 2 x SOTER RS Tablets (1 x Main Jail, 1 x Elwood Complex)
   - 1 x SOTER RS Central Server with 6Tb to accommodate for County 13-month data retention policy
   - All Software required for equipment listed

2. County to provide 120V 20Amp power and network connection at each installation site. The SOTER RS Central Server to be installed in the Main Jail.

C. Backup/Recovery

The SOTER RS turnkey solution provides the customer with a built-in Backup and Restore application. Backup can be done manually or scheduled and all backup file management can also be done from here.
D. **Network/Hardware**

- As per Fig. 1 & Fig. 2 (from above) OD Security North America proposes a segmented VLAN where the Body Scanner network is totally separated from any part of the County network.
- Contractor must comply to County CISO Standards.

E. **Storage**

1. Scan time per scan is < 10 sec.
2. Average data size per scan including the images is 6Mb.
3. The County expects to run 300 scans per station per day and has a 13-month data retention policy.
   - Each of the SOTER RS acquisition PCs come standard with 2 x 1 Tb drives (Offline use)
   - SOTER RS Central Server has 6 Tb of hard drive space that will allow for the 13-month data retention policy.

F. **Application Security Features**

1. Solution audits user access and privilege use and the information that is logged.
   - All transactional data is recorded to the SQL Database and can be recalled at any time through the Scan Manager. List of data logged:
     i. Time and Data Stamp
     ii. Operator
     iii. Client information
     iv. Gender
     v. Pos/Neg scan and comments
     vi. Dose
     vii. Reason for Scan
     viii. Result of Scan
     ix. Scan Orientation

2. Configure minimum password difficulty requirements, and password lockout policies
   - Password protocol can be directed by the County to ensure minimum password difficulty, or Biometric log-on option can be configured to remove password complexities.

3. Password expiration policy
   - System Administrators can set the password expiration term, and have full control over Password editing, or Biometric log-on option can be configured to remove password complexities.

4. Access privileges through an Authorization Matrix shown below:
   - User security levels is based on role(profile) that gets assigned at the point of user being created.
• “User inactivity timeout” is available in the Viewer Application and is set in seconds.
• Data is protected, including encryption over the network and at rest. The solution support, at a minimum, 256-bit encryption of data in transit and at rest.

G. Security Assurance - Assurance Artifact

1. Overview
   a. Application to process PII data, X-Ray image and transaction information (date, time, dose, operator, etc.)
   b. Data to be stored on local disk, local SQL database and central server storage and SQL server.
   c. VLAN to be configured for Body Scanner turnkey solution only. Once integration is required to planned JMS, data will be made available via web services.
   d. System to be wired, with point-to-point network connections.
   e. System must be capable of handling 432 Gb/month across all installed body scanners.
   f. Contractor to provide 52 end user licenses to be set up with initial install.
   g. Contractor to provide 20 DBA/Admin support licenses to be set up with initial install.
   h. Remote support shall utilize Cisco AnyConnect software with County network access to provide remote support services from within the US only.

2. Access Control
   a. Responsibility for provisioning of end user accounts shall be delegated to a trained administrator
   b. User profiles are controlled by database authorization to customized role access based on workflow.
   c. Access rights reporting to be available in user database and must be capable of export to .csv for further reporting.
   d. Contractor to provide a catalog of account roles for controlling access to database tables and stored procedures for querying, report execution, update and administrative purposes.
   e. Trained administrator to have access to edit user accounts as required for job change or employment termination.
   f. System to include a testing account for support, separate engineering user for system configuration and debug user for software engineering.
   g. Engineering user exclusively to have access to windows files, no access to any level of client profiles.
   h. Administrator passwords to require Contractor assistance in resetting.
   i. Default administrative account to be renamed if required by County.
   j. Session time-out for end users to be set in Viewer application after specified number of seconds.
   k. Wireless connectivity to be used only with tablet integration into system.
   l. Wireless authentication protocols to be set to accepted County standards.
   m. System to prohibit remote connection to central database. Only system tablets will have access.

3. Audit and Accountability
   a. System to log critical events for all critical systems and applications. Log to include user name, last login time of user, what records are accessed/viewed by the user, what records are modified by the user, user creating new record/table/database, and user copying/duplicating a table/database.
   b. System log also to be created for critical event.
   c. Application error codes to be generated and sent as a notification to designated users upon a process failure.
   d. All audit data to be stored in the SQL database locally and on central server.
   e. System to export audit log data using syslog format to .csv from scan manager.
4. **Configuration Management**
   a. Customized configuration to be limited to areas accessible based on user’s assigned role.
   b. If required, system to provide security authentication and authorization capabilities from management console.
   c. Contractor to provide documentation on recommended default security configuration for system.
   d. Complete backup of data and system configurations to be included in turnkey setup. Backup to include SQL database and scanned images.
   e. System to be capable of using NTP.
   f. Local devices that perform critical processes to have network names that conceal the function of the device or be capable of being renamed to conceal the function.
   g. Boot sequences to be set on the system to prohibit boot from external media or network.
   h. System network connectivity to comprise of VLAN network for Body Scanners with remote access through Cisco AnyConnect to all nodes on Body Scanner VLAN.
   i. All Body Scanner acquisition computers to run Windows embedded to ensure security configuration maintenance.
   j. Connections between Local SQL and Central SQL server to listen for connections and to be secured to industry standard including logging and audit.
   k. System to be capable of exiting on County domain and integrate with Active Directory.
   l. Contractor to supply County with an administrative password for the system for the purpose of periodic vulnerability scanning if required by County.
   m. System to be capable of supporting County’s established requirements for records and data retention along with records and data disposition.

5. **Identification and Authentication**
   a. System to utilize biometric log-on to alleviate password complexities.
   b. System to provide capability to notify end user upon logon of the date and time of the last logon.

6. **Maintenance**
   a. System to restrict the use of maintenance tools to authorized personnel only.

7. **Media Protection**
   a. All end nodes/terminals running system and server hard drives to be encrypted.
   b. Data shall not be cached on local machines accessing sensitive information.
   c. County to retain media (hard drives) from systems being retired, replaced or upgraded.

8. **System and Services Acquisition**
   a. Firmware updates to be performed onsite or via remote connection depending on update requirements.
   b. System to set up as a closed loop within an isolated VLAN environment to manage vulnerabilities.
   c. Contractor to provide source code in the event of dissolution of business.

9. **System and Communications Protection**
   a. System to support at minimum 256-bit encryption of data in transit, at rest, and within database.
   b. System to provide an administrative application program interface which can be used to terminate a user session from a County provided mechanism (console or rule based event trigger).
   c. System to enforce information-sharing decisions by authorized users based on access authorizations of sharing partners and access restrictions on information to be shared.
10. System and Information Integrity  
b. System to be fully updated with all certified service packs and patches prior to deployment.  
c. Contractor to disable unnecessary system applications not required for system operation for server and operating system hardening.  
d. All local data from Body Scanners to be replicated to the central server and shared across system as needed to avoid single points of failure.

OD Security North America is registered with the Federal E-Verify Program. Every employee has a detailed security vetting prior to recruitment. Contractor shall require all employees doing any work under this Agreement to have documented passing the security clearance requirements set forth by the Santa Clara County Sheriff’s Office, as set forth in Exhibit G of this Agreement.

H. Prison Rape Elimination Act (PREA)  
a. Contractor shall comply with the Office of the Sheriff’s zero-tolerance policy related to the sexual assault or rape of inmates, or sexual misconduct toward any inmate housed in any of its facilities or contracted venues. Sexual abuse and sexual harassment are prohibited by state and federal law.  
b. All of Contractor’s employees, agents, representatives and/or members of its Board of Directors, including volunteers, who have contact with Inmates, shall attend and successfully complete all staff training(s) related to PREA within ninety days of approval of any jail security clearance (initial PREA training) and at least every two years (refresher PREA trainings).  
c. The County shall provide the training(s) at no cost to the Contractor.  
d. Contractor shall be responsible for expenses incurred, including salary, benefits and/or transportation, in connection with the attendance of mandatory PREA training(s) by its employees, agents, representatives and/or members of its Board of Directors, including volunteers.  
e. The County will provide a document titled "Department PREA Policy & Acknowledge Statement" to Contractor’s employees, agents, representatives and/or members of its Board of Directors, including volunteers, who have contact with inmates. Everyone who receives the document shall sign the acknowledgment form. Signed forms will be retained by the DOC.

III. FUNCTIONAL REQUIREMENTS  
A. Product Specifications  
1. Provides Real-time scan of subjects for the presence of contraband items, such as, but not limited to drugs, weapons, explosives, components of blasting assemblies (i.e. wires, detonators, etc.), narcotics, electronic devices, precious stones and metals, chemical and biological materials, food and drinks, cell phones, any objects that can be considered as dangerous or researched for a particular use.  
2. Provides full body images of items both internal and external to the human body. Scanner has the capability of detecting and revealing contraband concealed externally and internally.

4. Delivers privacy software specifically designed to apply blurred overlays to sensitive areas of the body. This feature of applying overlays can be enabled and disabled.

5. In compliance with the Prison Rape Elimination Act (PREA) standards.

6. Provides early warning system of detection if someone is approaching the maximum scans allotted within a 12-month period.

7. Provides onboard remote diagnostic software to allow for the adjustment, troubleshooting, and overview of system operations.

8. Prevents exposure when system is not performing the scanning process or is in idle mode.

9. Provides no operator exposure.

10. Allows for saving scanned images via booking number or other identifying number where contraband is detected, to be used for evidentiary purposes.

11. Provides software upgrades for the life of the system.

12. The system stores, displays, and reports the total number of scans generated, and for operators to be provided with information sufficient to extract from this data the total number of scans daily, weekly or monthly.

13. Enables the operator to save images that are deemed positive for contraband separately from the total images folder, facilitating an understanding of the total number of positive scans for a specified period.

14. Each scanned file stores the scanned operator’s identification, such that performance metrics may be developed for operators of the scanner.

15. Saved images are in universally accepted formats, such as JPEG, BMP, and GIF, or can be easily converted and exported to universally accepted formats for viewing without the use of specialized software.

16. The system enables the County to handle storage and back-up of data. The system is configurable to meet the storage and backup retention period of no more than 13 months in compliance with the County Surveillance Ordinance as specified in the approved Body Scanner Use Policy presented to the County Board of Supervisors.

17. The scanner may be stored in the smallest area within the County Building to fit within approximately 8.75 feet (105 inches) x 10 feet with a height of 7.83 feet (94 inches). OD Security is responsible for any modification cost that may be associated with either the unit or of the building for the unit to fit in the County designated space.

18. The system shall be provided in brand new and unused condition.

19. Contractor shall supply, deliver and install the SOTER RS Full-Body Scanner Security System to the County Main Jail Complex and Elmwood/CCW Correctional Complex or any locations as needed.

20. Contractor will provide all installation, labor, and parts associated with the installation. The Contractor must provide any necessary protective coverings needed to protect existing adjacent finishes. Should damage occur, Contractor shall restore all existing adjacent finishes to their original pre-existing condition.

21. Contractor shall obtain any and all permits and/or certifications required by all applicable and/or legally required regulatory agencies for the work performed and for any equipment
installed. It is the Contractor’s responsibility to research permit requirements and to obtain any and all required permits, certifications or other regulatory approvals prior to installation of the equipment. This may include, but is not limited to, any engineered systems, building codes, construction permits and product warranties or certifications.

22. Products shall be supplied by manufacturer or manufacturer authorized dealer with full manufacturer’s guarantee.

B. Critical Product Specifications

1. Print feature must be restricted to County authorized personnel.
2. Enablement to Bar Code capabilities, with the option of adding RFID and Biometric integration capabilities.
3. The system shall have the integration capability to jail management software (JMS), Tribridge Offender360 Jail Management Software and compatible to the Windows Operating System.
4. Provides comprehensive reporting and searching technology and capabilities.

IV. IMPLEMENTATION, PROJECT MANAGEMENT, TRAINING AND ONGOING SUPPORT

A. Project Implementation Plan and SOW

Implementation Plan and Project Work Plan below can be adjusted and refined as agreed by the County and OD Security.
### Full Body Scanners for County Sheriff Custody Division Project Timeline

**B. Training and Certification**

1. **Contractor will provide Operator Training and Certification for at least 32 County employees.**

2. **Contractor will provide Train the Trainer training for up to 20 County employees.**

3. **The County staffs will be provided with a tailored Training Program for the SOTER RS, that will be specifically developed based on the nature of contraband risk experienced and discussed (and agreed) with County Senior Command Staff prior to commencement of training.**

4. **The Training Program will be designed with the following output-based objectives:**
   
   i. **Reduction of contraband entering County’s Facilities.**
   
   ii. **Reduction of incidents resulting from contraband entering County’s Facilities.**
   
   iii. **Reduction in the potential for injury or loss of life to Staff and Inmates.**
   
   iv. **Compliance with California State to qualify County personnel to obtain the necessary certification to operate the Systems within State Guidelines.**
5. Operator Manuals and Administrator Manuals will be produced specifically for County trainees and issued two weeks ahead of the scheduled installation dates to assist County Operator “familiarization”.

6. Contractor Senior Trainer, with State Registered Radiation Safety Officer, will deliver the Radiation Safety and SOTER RS Operator training on-site immediately following installation.

7. Contractor Senior Trainer will provide 2 days of Didactive and Realistic training with the Operator Teams including as a minimum:
   i. Pre-operational checks, operation of the system, subject positioning, interpretation of images, procedures to follow if the System is damaged or malfunctions; file storage and retrieval and reporting;
   ii. Familiarity with the information being provided to the inmate;
   iii. Operating and emergency procedures;
   iv. Security procedures to prevent unauthorized use or access;
   v. Operator awareness and control of inspection zones.
   vi. Radiation Safety training includes the following:
      a. Types of radiation;
      b. Sources and common exposures;
      c. Units of measurement;
      d. Time, distance and shielding;
      e. Concept of As Low as Reasonably Achievable (ALARA);
      f. Biological effects of radiation and radiation risks;
      g. Operating and Emergency procedures

8. The Realistic Training will be supported by the attendance of Contractor’s Member Client User Group (where Staff from OD Security’s current client base share their real experiences of operating the System).

9. A “Train the Trainer” program will be developed and delivered to the Administrator Teams during the week of installation/product training to empower County trainees for Operator staff changes.

C. Ongoing Technical Support and Service Requirements

1. Technical Support Service includes all service calls/repair work attributed to normal wear and tear, or breakdowns or faults on the body scanner system as part of normal use. For breakdowns not attributed to normal wear and tear, such as unforeseen circumstances not caused by the Contractor or the system, the Contractor will provide a written estimate to the County, which may require a written amendment to this Agreement, prior to commencing work to bring the system back to normal working condition.

2. Contractor Technicians/ FSE must meet the County’s Security Requirements – See Exhibits E, F, and G for Security Requirements of this Agreement.

3. Technical Support Services must be performed by factory-trained technicians/field service engineers for remote, phone-in and on-site support.

4. Upon initial call for support, Service Technicians and Field Service Engineers (FSE) will meet the following response times:
   - 2 hours, 24/7 for remote support, weekends and holidays included
   - 24 to 48-hours for on-site support, weekends and holidays included
D. **Ongoing Preventative Maintenance**

1. Contractor will provide Preventative Maintenance and Technical Service Support for the first 6 years from date of acceptance.

2. Contractor shall provide preventative maintenance, which includes all parts, labor, travel time, travel expenses, and freight/delivery.

3. Preventive on-site maintenance services must be performed as required 24/7, including weekends and holidays.

4. Preventative routine maintenance must be performed at least once a year.

5. Preventative Maintenance to the system shall include Complete Operational Testing, Calibration, Certification, Database backup testing, Operating System Updates and Security Patches of at least once per year.

6. Contractor shall perform Annual Radiation Survey, in writing on each body scan device to ensure no radiation exposure to County operators.

7. Preventative Maintenance must be performed by factory-trained technicians/field service engineers (FSF).
EXHIBIT D
INSURANCE REQUIREMENTS
FOR STANDARD CONTRACTS ABOVE $100,000

Indemnity

The Contractor shall indemnify, defend, and hold harmless the County of Santa Clara (hereinafter "County"), its officers, agents and employees from any claim, liability, loss, injury or damage arising out of, or in connection with, performance of this Agreement by Contractor and/or its agents, employees or sub-contractors, excepting only loss, injury or damage caused by the sole negligence or willful misconduct of personnel employed by the County. It is the intent of the parties to this Agreement to provide the broadest possible coverage for the County. The Contractor shall reimburse the County for all costs, attorneys' fees, expenses and liabilities incurred with respect to any litigation in which the Contractor contests its obligation to indemnify, defend and/or hold harmless the County under this Agreement and does not prevail in that contest.

Insurance

Without limiting the Contractor's indemnification of the County, the Contractor shall provide and maintain at its own expense, during the term of this Agreement, or as may be further required herein, the following insurance coverages and provisions:

A. Evidence of Coverage

Prior to commencement of this Agreement, the Contractor shall provide a Certificate of Insurance certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, a certified copy of the policy or policies shall be provided by the Contractor upon request.

This verification of coverage shall be sent to the requesting County department, unless otherwise directed. The Contractor shall not receive a Notice to Proceed with the work under the Agreement until it has obtained all insurance required and such insurance has been approved by the County. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

B. Qualifying Insurers

All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- V, according to the current Best's Key Rating Guide or a company of equal financial stability that is approved by the County's Insurance Manager.

C. Notice of Cancellation

All coverage as required herein shall not be canceled or changed so as to no longer meet the specified County insurance requirements without 30 days' prior written notice of such cancellation or change being delivered to the County of Santa Clara or their designated agent.
D. Insurance Required

1. Commercial General Liability Insurance - for bodily injury (including death) and property damage which provides limits as follows:
   a. Each occurrence - $1,000,000
   b. General aggregate - $2,000,000
   c. Products/Completed Operations aggregate - $2,000,000
   d. Personal Injury - $1,000,000

2. General liability coverage shall include:
   a. Premises and Operations
   b. Products/Completed
   c. Personal Injury liability
   d. Severability of interest

3. General liability coverage shall include the following endorsement, a copy of which shall be provided to the County:

   **Additional Insured Endorsement**, which shall read:

   “County of Santa Clara, and members of the Board of Supervisors of the County of Santa Clara, and the officers, agents, and employees of the County of Santa Clara, individually and collectively, as additional insureds.”

   Insurance afforded by the additional insured endorsement shall apply as primary insurance, and other insurance maintained by the County of Santa Clara, its officers, agents, and employees shall be excess only and not contributing with insurance provided under this policy. Public Entities may also be added to the additional insured endorsement as applicable and the contractor shall be notified by the contracting department of these requirements.

4. Automobile Liability Insurance

   For bodily injury (including death) and property damage which provides total limits of not less than one million dollars ($1,000,000) combined single limit per occurrence applicable to all owned, non-owned and hired vehicles.

4a. Aircraft/Watercraft Liability Insurance (Required if Contractor or any of its agents or subcontractors will operate aircraft or watercraft in the scope of the Agreement)
For bodily injury (including death) and property damage which provides total limits of not less than one million dollars ($1,000,000) combined single limit per occurrence applicable to all owned, non-owned and hired aircraft/watercraft.

5. Workers’ Compensation and Employer’s Liability Insurance
   a. Statutory California Workers’ Compensation coverage including broad form all-states coverage.
   b. Employer’s Liability coverage for not less than one million dollars ($1,000,000) per occurrence.

E. Special Provisions

The following provisions shall apply to this Agreement:

1. The foregoing requirements as to the types and limits of insurance coverage to be maintained by the Contractor and any approval of said insurance by the County or its insurance consultant(s) are not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to this Agreement, including but not limited to the provisions concerning indemnification.

2. The County acknowledges that some insurance requirements contained in this Agreement may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by the Contractor under this Agreement. Any self-insurance shall be approved in writing by the County upon satisfactory evidence of financial capacity. Contractors obligation hereunder may be satisfied in whole or in part by adequately funded self-insurance programs or self-insurance retentions.

3. Should any of the work under this Agreement be sublet, the Contractor shall require each of its subcontractors of any tier to carry the aforementioned coverages, or Contractor may insure subcontractors under its own policies.

4. The County reserves the right to withhold payments to the Contractor in the event of material noncompliance with the insurance requirements outlined above.

F. Fidelity Bonds (Required only if contractor will be receiving advanced funds or payments)

Before receiving compensation under this Agreement, Contractor will furnish County with evidence that all officials, employees, and agents handling or having access to funds received or disbursed under this Agreement, or authorized to sign or countersign checks, are covered by a BLANKET FIDELITY BOND in an amount of AT LEAST fifteen percent (15%) of the maximum financial obligation of the County cited herein. If such bond is canceled or reduced, Contractor will notify County immediately, and County may withhold further payment to Contractor until proper coverage has been obtained. Failure to give such notice may be cause for termination of this Agreement, at the option of County.
EXHIBIT E
VENDOR REMOTE ACCESS

1. Definitions
   (a) “Remote Access” is the act of accessing County Systems from a non-County network infrastructure.
   (b) “County Systems,” for purposes of this Exhibit, include but are not limited to, all County-owned, leased or managed servers, mainframe computers, desktop computers, laptop computers, handheld devices (including smart phones, wireless PDAs and Pocket PCs), equipment, networks, application systems, databases, software, phone systems, any device with network capabilities (e.g., a workstation with an attached modem, routers, switches, laptop computers, handheld devices), and any other system that stores, processes, and/or transmits County-owned information/data. These items are typically under the direct control and management of the County. “County Systems” also include these items when they are under the control and management of a service provider for use by County, as well as any personally-owned device that an individual has express written permission to use for County purposes.
   (c) “County-owned information/data,” for purposes of this Exhibit, is any information or data that is transported across a County network, or that resides in a County-owned information system, or on a network or system under the control and management of a service provider for use by County. This information/data is the exclusive property of County unless constitutional provision, State or Federal statute or case law provide otherwise. County-owned information/data does not include a User’s personal, non-County business information, communications, data, files and/or software transmitted by or stored on a personally-owned device if that information/data is not transported across a County network or does not reside in a County System or on a network or system under the control and management of a service provider for use by County.
   (d) “Contractor employees” includes Contractor’s employees, agents, representatives, contractors or subcontractors performing services under this Agreement.

2. Scope of Access
   (a) County grants Remote Access privileges (through the method described in section 9) for Contractor to access the following County Systems (collectively referred to as “Designated Systems”), in accordance with the terms of this Agreement:

   **County of Santa Clara Office of the Sheriff's Full-Body Scanner for Contraband Detection.**

   (b) All other forms of access to the Designated Systems, or to any County System that is not specifically named, is prohibited.
   (c) Remote Access is granted for the purpose of Contractor providing services and performing its obligations as set forth in this Agreement including, but not limited to, supporting Contractor-installed programs. Any access to the Designated Systems, County-owned information/data, or any other County System or asset that is not specifically authorized under the terms of this Agreement is prohibited and is a material breach that may result in immediate termination of this Agreement for cause and any penalty allowed by law. Contractor may only access the Designated Systems.
(d) County will review the scope of Contractor’s Remote Access rights periodically.

3. Security Requirements

(a) Contractor will not install any Remote Access capabilities on any County System unless such installation and configuration is approved by the County Information Security Office and meets or exceeds NIST 800-53 standards, or an equivalent industry standard.

(b) Contractor will only remotely access Designated Systems, including access initiated from a County System, if the following conditions are met:

(i) Upon request by an authorized County representative, Contractor will submit documentation verifying its own network security mechanisms to County for County’s review and approval. The County reserves the right to advanced written approval of Contractor’s security mechanisms prior to Contractor being granted Remote Access.

(ii) The Remote Access method agreed upon pursuant to paragraph 9 must include the following minimum control mechanisms:

(aa) Two-Factor Authentication: An authentication method that requires two of the following three factors to confirm the identity of the user attempting Remote Access. Those factors include: 1) something you possess (e.g., security token and/or smart card); 2) something you know (e.g., a personal identification number (PIN)); or 3) something you are (e.g., fingerprints, retina scan). The only exceptions are County approved County-site-to-Contractor-site Virtual Private Network (VPN) infrastructure.

(bb) County personnel will control authorizations (permissions) to specific systems or networks.

(cc) All Contractor systems used to remotely access County Systems must have industry-standard anti-virus and other security measures that might be required by the County (e.g., software firewall) installed, configured, and activated.

4. Monitoring/Audit

County will monitor access to, and activities on, County Systems, including all Remote Access attempts. Data on all activities will be logged on a County System and will include the date, time, and user identification.

5. Copying, Deleting or Modifying Data

Contractor is prohibited from copying, modifying, or deleting any data contained in or on any County System unless otherwise stated in this Agreement or unless Contractor receives prior written approval from County. This does not include data installed by the Contractor to fulfill its obligations as set forth in this Agreement.

6. Connections to Non-County Networks and/or Systems

Contractor agrees to make every effort to protect data contained on County Systems within Contractor’s control from unauthorized access. Prior written approval is required before Contractor may access County Systems from a non-designated system. Such access will use information security protocols that meet or exceed NIST 800-53 standards, or an equivalent industry standard. Remote Access must include the control mechanisms noted in Paragraph 3(b)(ii) above.
7. Remote Access Contacts

The following persons are points of contact for purposes of this Exhibit:

**Contractor:** John Shannon, President and Senior Engineer  
Mobile: (797) 777-1331; Email: John.Shannon@odsecurityna.com

**County:** Don Khowong, Sheriff’s Office IT Manager  
Office: (408) 808-4650; Email: Don.Khowong@shf.sccgov.org

Either party may change the aforementioned names by providing the other party with no less than three (3) business days prior written notice.

8. Additional Requirements

Contractor agrees to the following:

(a) Only Contractor employees providing services or fulfilling Contractor obligations under this Agreement will be given Remote Access rights.

(b) Any access to Designated Systems, other County Systems and/or County-owned information/data that is not specifically authorized under the terms of this Agreement is prohibited and is a material breach that may result in immediate termination of the Agreement for cause and any other penalty allowed by law.

(c) An encryption method that meets or exceeds Federal Information Processing Standard (FIPS) Publication 140-2 will be used.

(d) Contractor shall protect the integrity of County Systems and County-owned information/data while remotely accessing County resources, and shall report any suspected security incident or concern to the County TechLink Center within 24 hours. The TechLink Center’s contact information is (408) 918-7000, TLC@isd.sccgov.org.

(e) Contractor shall ensure compliance with the terms of this Exhibit and the Exhibit on County Information Technology User Responsibility Statement for Third Parties by all Contractor employees performing services under this Agreement.

(f) Contractor employees have no right, or expectation, of privacy when remotely accessing County Systems or County-owned information/data. County may use audit tools to create detailed records of all remote access attempts and remote access sessions, including User identifier, date, and time of each access attempt.

(g) Contractor employees that have been provided with a County-owned device intended for remote access use, such as a laptop or other Mobile Device, shall ensure that the device is protected from damage, access by third parties, loss, or theft. Contractor employees shall report loss or theft of such devices to the County TechLink Center within 24 hours. The TechLink Center’s contact information is (408) 918-7000, TLC@isd.sccgov.org.

9. Remote Access Methods

(a) All forms of Remote Access will be made in accordance with mutually agreed upon industry standard protocols and procedures, which must be approved in writing by the County. The remote access solution must conform to County policy and security requirements.
(b) Remote Access Back-Up Method may be used in the event that the primary method of Remote Access is inoperable.

(c) Contractor agrees to abide by the following provisions related to the Primary and (if applicable) Backup Remote Access Methods selected below. (Please mark appropriate box for each applicable Remote Access Method; if a method is not applicable, please check the button marked N/A).

(i) VPN Site-to-Site  
<table>
<thead>
<tr>
<th></th>
<th>Primary</th>
<th>Backup</th>
<th>N/A</th>
</tr>
</thead>
</table>
The VPN Site-to-Site method involves a VPN concentrator at both the Contractor site and at the County, with a secure “tunnel” opened between the two concentrators. If using the VPN Site-to-Site Method, Contractor support staff will have access to the Designated Systems from selected network-attached devices at the Contractor site.

(ii) VPN Client Access  
<table>
<thead>
<tr>
<th></th>
<th>Primary</th>
<th>Backup</th>
<th>N/A</th>
</tr>
</thead>
</table>
In the VPN Client Access method, a VPN Client (software) is installed on one or more specific devices at the Contractor site, with Remote Access to the County (via a County VPN concentrator) granted from those specific devices only.

An Authentication Token (a physical device or software token that an authorized remote access user is given for user authentication purposes, such as a CryptoCard, RSA token, SecureAuth IdP, Arcot software token, or other such one-time-password mechanism approved by the County Information Security Office) will be issued to the Contractor in order to authenticate Contractor staff when accessing County Designated Systems via this method. The Contractor agrees to the following when issued an Authentication Token:

a. Because the Authentication Token allows access to privileged or confidential information residing on the County’s Designated Systems, the Contractor agrees to treat the Authentication Token as it would a signature authorizing a financial commitment on the part of the Contractor.

b. A hardware Authentication Token is a County-owned physical device, and will be labeled as such. The label must remain attached at all times.

c. The Authentication Token is issued to an individual employee of the Contractor and may only be used by the designated individual.

d. The Authentication Token must be kept in the possession of the individual Contractor employee it was issued to or in a secured environment under the direct control of the Contractor, such as a locked office where public or other unauthorized access is not allowed.

e. If the Contractor’s remote access equipment is moved to a non-secured site, such as a repair location, the Authentication Token will be kept under Contractor control.

f. If the Authentication Token is misplaced, stolen, or damaged, the Contractor will notify the County TechLink Center by phone within 24 hours.

g. Contractor agrees to use the Authentication Token as part of its normal business operations and for legitimate business purposes only.

h. The Authentication Token will be issued to Contractor following execution of this Agreement. Hardware Authentication Tokens will be returned to the County’s Tech Link Center within five (5) business days following contract termination, or upon written request of the County for any reason.
i. Contractor will notify the County’s the County TechLink Center within one working day of any change in personnel affecting use and possession of the Authentication Token. The TechLink Center’s contact information is (408) 918-7000, TLC@isd.sccgov.org. Contractor will obtain the Authentication Token from any employee who no longer has a legitimate need to possess the Authentication Token. The County will recoup the cost of any lost or non-returned hardware Authentication.

j. Contractor will not store account or password documentation or PINs with Authentication Tokens.

k. Contractor will ensure all Contractor employees that are issued an Authentication Token will be made aware of and provided with a written copy of the requirements set forth in this Exhibit.

(iii) County-Controlled VPN Client Access

This form of Remote Access is similar to VPN Client access, except that the County will maintain control of the Authentication Token and a PIN number will be provided to the Contractor for use as identification for Remote Access purposes. When the Contractor needs to access County Designated Systems, the Contractor must first notify the County’s Remote Access Contact. The County’s TechLink Center will verify the PIN number provided by the Contractor. After verification of the PIN the County’s designee will give the Contractor a one-time password which will be used to authenticate Contractor when accessing the County’s Designated Systems. Contractor agrees to the following:

a. Because the PIN number allows access to privileged or confidential information residing on the County’s Designated Systems, the Contractor agrees to treat the PIN number as it would a signature authorizing a financial commitment on the part of the Contractor.

b. The PIN number is confidential, County-owned, and will be identified as such.

c. The PIN number must be kept in a secured environment under the direct control of the Contractor, such as a locked office where public or other unauthorized access is not allowed.

d. If the Contractor’s remote access equipment is moved to a non-secured site, such as a repair location, the PIN number will be kept under Contractor control.

e. The PIN number can only be released to an authorized employee of the Contractor and may only be used by the designated individual.

f. If the PIN number is compromised or misused, the Contractor will notify the County’s designee within one (1) business day.

g. Contractor will use the PIN number as part its normal business operations and for legitimate business purposes only. Any access to Designated Systems, other County Systems, and/or County-owned information/data that is not specifically authorized under the terms of this Agreement is prohibited and is a material breach that may result in immediate termination of the Agreement for cause and any other penalty allowed by law.

h. The PIN number will be issued to Contractor following execution of this Agreement.

i. The PIN number will be inactivated by the County’s designee within five (5) business days following contract termination, or as required by the County for any reason.
(iv) County-Controlled Enexity Access  ○ Primary  ○ Backup  ○ N/A

The County-Controlled Enexity Access method involves using Securelink’s Enexity tool installed in the County. County will establish a gateway where Contractor can access the Designated Systems from selected network-attached devices at the County site. County will control the access list for Contractors with access through Enexity gateways.

Signatures of Contractor Employees receiving Authentication Tokens (Only for VPN Client Access and if tokens issued by County):

EXHIBIT F
COUNTY INFORMATION TECHNOLOGY USER RESPONSIBILITY STATEMENT FOR THIRD PARTIES

1. DEFINITIONS

(a) “County Confidential Information” is all material non-public information, written or oral, disclosed, directly or indirectly, through any means of communication or observation by County to Contractor or any of its affiliates or representatives.

(b) “County Systems” include but are not limited to, all County-owned, leased or managed servers, mainframe computers, desktop computers, laptop computers, handheld devices (including smart phones, wireless PDAs and Pocket PCs), equipment, networks, application systems, databases, software, phone systems, any device with network capabilities (e.g., a workstation with an attached modem, routers, switches, laptop computers, handheld devices), and any other system that stores, processes, and/or transmits County-owned information/data. These items are typically under the direct control and management of the County. “County Systems” also include these items when they are under the control and management of a service provider for use by County, as well as any personally-owned device that an individual has express written permission to use for County purposes.

(c) “County-owned information/data,” for purposes of this Exhibit is any information or data that is transported across a County network, or that resides in a County-owned information system, or on a network or system under the control and management of a service provider for use by County. This information/data is the exclusive property of County unless constitutional provision, State or Federal statute or case law provide otherwise. County-owned information/data does not include a User’s personal, non-County business information, communications, data, files and/or software transmitted by or stored on a personally-owned device if that information/data is not transported across a County network or does not reside in a County System or on a network or system under the control and management of a service provider for use by County.

(d) “Mobile Device” is any portable computing device that fits one of the following categories: laptops, smartphones, or tablets. “Mobile Device” does not include devices that are used exclusively for the purpose of making telephone calls.

(e) “Users” include all employees, agents and/or representatives of Contractor performing services under this Agreement.

2. GENERAL REQUIREMENTS

(a) Contractor will provide Users with a written copy of this Exhibit and will ensure that Users know, understand and comply with the requirements of this Exhibit. Users allowed access to County resources shall sign the Acknowledgement and Receipt. In all cases, such access shall be subject to approval by an authorized County representative.

(b) Users are personally responsible for knowing and understanding these requirements, and are personally responsible for any actions they take that do not comply with County policies and standards. If a User is unclear as to requirements, User shall ask County for guidance.
(c) If a User is issued an account for a County System, User shall comply with the following County standards for password definition, use, and management:

(i) Minimum password length is 12 characters unless a particular County System has a different requirement or is not technically feasible.

(ii) The password must be high complexity (contains one of each, upper, lower, number, symbol).

(iii) The password must be rotated every 90 days.

(iv) User must not reuse the last 10 passwords.

(v) Access to County System is denied after 5 failed logon attempts.

(d) Only authorized County staff may attach any form of computer equipment to a County network or system. This includes, but is not limited to, attachment of such devices as mobile devices, peripherals (e.g., external hard drives, printers), and USB storage media. It excludes County wireless networks provided specifically for the use of guests or visitors to County facilities.

(e) User shall not use USB storage media on any County System. All such devices shall be County-owned, formally issued to User by County, and used only for legitimate County purposes.

(f) User shall not connect County-owned computing equipment, including USB storage media, to non-County systems or networks, unless County gives its express written permission. This formal approval process ensures that the non-County system or network in question has been evaluated for compliance with County security standards. An example of a permitted connection to a non-County system or network would be approved connection of a County issued laptop to a home network.

(g) User shall not install, configure, or use any device intended to provide connectivity to a non-County network or system (such as the Internet), on any County System, without County’s express written permission. If authorized to install, configure or use such a device, User shall comply with all applicable County standards designed to ensure the privacy and protection of data, and the safety and security of County Systems. Any allowed installation shall not be activated until it is reviewed and approved in writing by an authorized County representative.

(h) The unauthorized implementation or configuration of encryption, special passwords, biometric technologies, or any other methods to prevent access to County resources by those individuals who would otherwise be legitimately authorized to do so is prohibited.

(i) Users shall not attempt to elevate or enhance their assigned level of privileges unless County gives its express written permission. Users who have been granted enhanced privileges due to their specific roles, such as system or network administrators, shall not abuse these privileges and shall use such privileges only in the performance of appropriate, services performed under this Agreement.
(j) Users shall use County-approved authentication mechanisms when accessing County networks and systems, and shall not deactivate, disable, disrupt, or bypass (or attempt to deactivate, disable, disrupt, or bypass) any security measure or security configuration implemented by County.

(k) Users shall not circumvent, or attempt to circumvent, legal guidelines on software use and licensing. If a User is unclear as to whether a software program may be legitimately copied or installed, it is the responsibility of the User to check with County.

(l) All software on County Systems shall be installed by authorized County support staff except as provided in this Agreement. Users may not download or install software on any County system unless express written permission has been obtained from County such as in this Agreement.

(m) Users shall immediately report to the County TechLink Center the loss or theft of County-owned computer equipment, or of personally-owned computer equipment that has been approved for use in conducting County business or performing services under a Supplemental Agreement. The TechLink Center’s contact information is (408) 918-7000, TLC@isd.sccgov.org.

(n) Users must be aware of security issues and shall immediately report incidents to the County Information Security Office involving breaches of the security of County Systems or breaches of County-owned information/data, such as the installation of an unauthorized device, or a suspected software virus or other occurrences of malicious software or content. The Information Security Office’s contact information is o365-iso-team@sccconnect.onmicrosoft.com.

(o) Users shall respect the sensitivity, privacy and confidentiality aspects of all County-owned information. In particular:

(i) Users shall not access, or attempt to access, County Systems or County-owned information/data unless specifically authorized to do so by the terms of this Agreement.

(ii) If User is assigned a County account, User shall not allow unauthorized individuals to use their account; this includes the sharing of account passwords.

(iii) Users shall not without County’s written permission, use or disclose County-owned information/data other than in the performance of its obligations under this Agreement.

(iv) Users shall take every precaution to ensure that all confidential or restricted information is protected from disclosure to unauthorized individuals.

(v) Users shall not make or store paper or electronic copies of information unless required to provide services under this Agreement.

(vi) Users shall comply with all confidentiality requirements in Contractor’s Agreement with the County. Users shall not use or disclose County Confidential Information other than in the performance of its obligations for County. All County Confidential Information shall remain the property of the County. User shall not acquire any ownership interest in County Confidential Information.

(p) Users shall do all of the following:
(i) Users shall not change or delete County-owned information/data unless performing such changes is required to perform services under this Agreement.

(ii) Users shall avoid actions that might introduce malicious software, such as viruses or worms, onto any County system or network.

(iii) Upon termination or expiration of this Agreement, Users shall not retain, give away, or remove any County-owned information/data or document from any County System or County premises. Users shall return to County all County-owned assets, including hardware and data.

(q) Electronic information transported across any County network, or residing in any County System, is potentially subject to access by County technical support staff, other County personnel, and the general public. Users should not presume any level of privacy for data transmitted over a County network or stored on a County System.

(r) Users must protect, respect and not infringe upon all intellectual property rights, including but not limited to rights associated with patents, copyrights, trademarks, trade secrets, proprietary information, County Confidential Information, and confidential information belonging to any other third party.

(s) All information resources on any County System are the property of County and are therefore subject to County policies regarding acceptable use. No User may use any County System or County-owned information/data for the following purposes:

   (i) Personal profit, including commercial solicitation or conducting or pursuing their own business interests or those of another organization that are not related to the User conducting County business. This prohibition does not apply to User’s performance of contractual obligations for the County.

   (ii) Unlawful or illegal activities, including downloading licensed material without authorization, or downloading copyrighted material from the Internet without the publisher’s permission.

   (iii) To access, create, transmit, print, download or solicit material that is, or may be construed to be, harassing or demeaning toward any individual or group for any reason, including but not limited to on the basis of sex, age, race, color, national origin, creed, disability, political beliefs, organizational affiliation, or sexual orientation, unless doing so is legally permissible and necessary in the course of conducting County business.

   (iv) To access, create, transmit, print, download or solicit sexually-oriented messages or images, or other potentially offensive materials such as, but not limited to, violence, unless doing so is legally permissible and necessary in the course of conducting County business.

   (v) Knowingly propagating or downloading viruses or other malicious software.

   (vi) Disseminating hoaxes, chain letters, or advertisements.
3. INTERNET AND EMAIL

(a) Users shall not use County Systems for personal activities.

(b) When conducting County business or performing services under this Agreement, Users shall not configure, access, use, or participate in any Internet-based communication or data exchange service unless express written permission has been given by County. Such services include, but are not limited to, file sharing (such as Dropbox, Box, Google OneDrive), Instant Messaging (such as AOL IM), email services (such as Hotmail and Gmail), peer-to-peer networking services (such as Kazaa), and social networking services (such as blogs, Instagram, Snapchat, MySpace, Facebook and Twitter). If a User has received express written permission to access such services, User shall comply with all relevant County policies, procedures, and guidelines.

(c) Users assigned a County email account must comply with the County’s Records Retention and Destruction Policy.

(d) Users shall not use an internal County email account assigned to another individual to either send or receive email messages.

(e) Users shall not configure a County email account so that it automatically forwards messages to an external Internet email system unless County gives its express written permission.

4. REMOTE ACCESS

(a) Users are not permitted to implement, configure, or use any remote access mechanism unless the County has authorized the remote access mechanism.

(b) County may monitor and/or record remote access sessions, and complete information on the session logged and archived. Users have no right, or expectation, of privacy when remotely accessing County Systems or County-owned information/data. County may use audit tools to create detailed records of all remote access attempts and remote access sessions, including User identifier, date, and time of each access attempt.

(c) User shall configure all computer devices used to access County resources from a remote location according to NIST 800-53 standards, or an equivalent industry standard. These include approved, installed, active, and current: anti-virus software, software or hardware-based firewall, full hard drive encryption, and any other security software or security-related system configurations that are required and approved by County.

(d) Users that have been provided with a County-owned device intended for remote access use, such as a laptop or other Mobile Device, shall ensure that the device is protected from damage, access by third parties, loss, or theft. Users shall immediately report loss or theft of such devices to the County TechLink Center at (408) 918-7000, TLC@isd.sccgov.org.

(e) Users shall protect the integrity of County Systems and County-owned information/data while remotely accessing County resources, and shall immediately report any suspected security incident or concern to the County Information Security Office at o365-iso-team@sccconnect.onmicrosoft.com.
(f) Users shall comply with any additional remote access requirements in this Agreement such as an Exhibit on Remote Access.

5. THIRD PARTY-OWNED DEVICES

(a) This Section 5 applies if County permits Users to perform services under this Agreement with devices not owned by the County (“Third-party owned device”). Third-party owned devices include devices with email and/or data storage capability (such as laptops, iPhones, iPads, Android phones and tablets, BlackBerry and other “smart” devices).

(b) The third party-owned device in question shall use existing, County-approved and County-owned access/authentication systems when accessing County Systems.

(c) Users shall allow County to configure third party-owned devices as appropriate to meet security requirements, including the installation of specific security software mandated by County policy.

(d) Use of a third party-owned device shall comply with County policies and procedures for ensuring that software updates and patches are applied to the device according to a regular, periodic schedule on at least a monthly basis. County may verify software installations and updates.

(e) Users have no expectation of privacy with respect to any County-owned communications, information, or files on any third party-owned device. User agrees that, upon request, the County may immediately access any and all work-related or County-owned information/data stored on these devices, in order to ensure compliance with County policies.

(f) Users shall adhere to all relevant County security policies and standards, just as if the third party-owned device were County property. This includes, but is not limited to, policies regarding password construction and management, physical security of the device, device configuration including full storage encryption, and hard drive and/or storage sanitization prior to disposal.

(g) Users shall not make modifications of any kind to operating system configurations implemented by County on the device for security purposes, or to any hardware or software installed on the device by County.

(h) Users shall treat the contract-related or County-owned communications, information or files the third-party owned device contains as County property. User shall not allow access to or use of any work-related or County-owned communications, information, or files by individuals who have not been authorized by County to access or use that data.

(i) Users shall report immediately to the County Information Security Office, o365-iso-team@sccconnect.onmicrosoft.com, any incident or suspected incident of unauthorized access and/or disclosure of County resources, data, or networks that involve the third-party owned device, and shall report immediately to the Tech Link Center at (408) 918-7000, TLC@isd.sccgov.org, the loss or theft of the device.
6. ACKNOWLEDGEMENT AND RECEIPT

This Acknowledgement hereby incorporates the URS.

By signing below, I acknowledge that I have read and understand all sections of this URS. I also acknowledge that violation of any of its provisions may result in disciplinary action, up to and including termination of my relationship with County and/or criminal prosecution.

Have you been granted Remote Access   Yes   No

I have read and understand the contents of the URS regarding Remote Access and the Exhibit on Remote Access. I understand that violation of these provisions may result in disciplinary action, up to and including termination of my relationship with the County and/or criminal prosecution. I received approval from County for remote access for legitimate County business, as evidenced by the signatures below.

Requirements for Security Clearances:
1. No warrants.
2. Not currently on probation or parole.
3. Three (3) years since last MISDEMEANOR conviction.
4. No FELONY convictions.
5. You are not currently on bail and/or pending a criminal charge.
6. Any previous convictions for violence, assaultive behavior, sexual offenses or offenses committed while in custody may result in a denied status.
7. Any other factor that causes the Sheriff’s Office to deem imminent Security Clearance a risk to safety and security.

5.17.2019 AO Final

Agreement CW2234972
Between the County of Santa Clara and OD Security NA
SANTA CLARA COUNTY SHERIFF’S OFFICE
General Rules for all Facility Personnel, Sexual Harassment, PREA and CLETS Acknowledgement

GENERAL RULES FOR ALL FACILITY PERSONNEL:

1. All visitors, facility and volunteer programs personnel must conform to the dress code approved by the Sheriff’s Office.
2. No one under the age of 18 years of age will be admitted into any security area of any facility without prior authorization from the Division Captain or the Assistant Division Commander.
3. Bringing firearms, explosives, alcoholic beverages, narcotics, or any controlled substance, including marijuana, into any custody facility is a crime, and cause for arrest.
4. Umbrellas, pocketknives, scissors, metal nail files, or other objects that could be used as weapons are not allowed within any security area.
5. Tape recorders and cameras are not allowed within any custody facility without prior approval from the Division Captain or the Assistant Division Commander.
6. Employees or persons assigned to work within any custody facility shall not loan, exchange, borrow, do favors for, or enter into any business transaction with any inmate or prisoner.
7. Visitors, civilian employees and volunteer program personnel shall not bring anything into any custody facility to give to any inmate, nor will they take anything from any inmate without prior approval from a Custody Staff Supervisor. Exceptions: Written religious or educational material.
8. Any person entering any custody facility may be subject to search.
9. Visitors or civilian employees will proceed directly to their designated visiting or work area. Any visitor or civilian employee found loitering in any unauthorized area may be escorted from the facility and may have their security clearance revoked.
10. Visitors or facility employees under the influence of alcohol or drugs will not be allowed to enter any custody facility and may be subject to arrest.
11. All custody facilities are “NO HOSTAGE” FACILITIES. All attempts will be made to ensure the safe release of anyone held hostage; however, no inmate will be allowed to escape in exchange for the release of any hostage.
12. Employees, visitors and volunteers who possess a valid Sheriff’s Security Clearance, must immediately report any future arrests to the Sheriff’s Security Clearance Coordinator.
13. Violation of any facility rule, regulation, or procedure or any disruption of facility routine may result in the visitor or employee’s removal from the facility and denial of future access.

SEXUAL HARASSMENT:

The Sheriff’s Office recognizes and adopts the Santa Clara County Sexual Harassment Policy. The County Sexual Harassment Policy is incorporated into the Sheriff’s Custody Bureau Policy #1.35. Both policies are clear that sexual harassment and harassment of any kind WILL NOT BE TOLERATED.

SEXUAL HARASSMENT IS PROHIBITED

The Sheriff’s Office requires that employees treat inmates with respect, courtesy and firmness. The following are specifically prohibited:

1. Employees may not lay hands on an inmate except to defend themselves, to control or restrain the inmate, to prevent an escape, to prevent serious injury or damage to person or property, to quell a disturbance, to search an inmate, or to render medical aid. Only female officers may search female inmates, and female inmate’s cells will be entered only in the presence of a female officer except in an emergency.
2. Employees may not touch an inmate’s body for the purpose of sexual gratification.
3. Employees may not make a sexual advance, condition any benefit on agreeing to submit to sexual advances or punish inmates for refusing sexual advances.
4. Employees may not use profane, demeaning, insulting or threatening language.
Prison Rape Elimination Act of 2003 (PREA) Contractor and Volunteer Information Sheet

Key Points of PREA:
The law provides guidelines to detect, prevent, identify and deter incidents of sexual abuse and sexual assault in detention facilities. It also requires information and resources to protect individuals from sexual abuse and sexual assault in detention facilities.

- The Santa Clara County Sheriff’s Office has a ZERO-TOLERANCE POLICY relating to illegal sexual acts, sexual harassment or sexual misconduct in any of the detention facilities. This policy applies both to staff inmate as well as inmate-inmate sexual relationships.
- It is the responsibility of all staff, contractors and volunteers to take these matters seriously if they are brought to your attention and to act on them immediately.
- Provide a safe environment for inmates and staff free of sexual harassment, sexual abuse and retaliation.
- PREA applies to both males and females under correctional staff supervision and male and female staff members, both custodial and non-custodial.
- Sexual activities and sexual assaults between inmates and staff or between inmates is strictly prohibited by department policy.
- All allegations of sexual abuse are taken seriously and need to be documented and investigated.
- It is our agency’s responsibility to refer substantiated cases for prosecution.
- At a minimum, you are to make correctional staff aware of the situation IMMEDIATELY!

Staff Sexual Misconduct:
Staff sexual misconduct is defined as any behavior or act of a sexual nature directed toward an offender by personnel. Included behaviors are: romantic relationships between any personnel and offenders, completed, attempted, threatened or requested sexual acts, occurrences of indecent exposure, invasion of privacy or voyeurism.

Sexual Harassment:
Sexual harassment is repeated verbal statements or comments of a sexual nature to an offender by authorized personnel, including: demeaning references to gender, derogatory comments about body or clothing, profane or obscene language or gestures.

Avoid Inappropriate Relationships with Inmates:
- Be professional at all times
- Refrain from sexual conversations/jokes
- Be aware of the possibility of inmate con games
- Sexual contact between staff and inmates is NEVER considered to be consensual

Reporting Sexual Misconduct:
- The Santa Clara County Sheriff’s Office accepts reports verbally, written and via third-party.
- Take any allegation of sexual assault seriously and report it IMMEDIATELY!
- Notify appropriate personnel and ONLY appropriate personnel. Maintain confidentiality and do not discuss any allegations with anyone else.
- If you are uncertain or unsure how to report an incident, ask a correctional staff member.
Effective Communication with Victims:
Remain professional, remain objective, do not use derogatory language, avoid stereotyping, be aware of pronoun (he or she) usage, if LGBTQ, ask victim how they would like to be addressed, if you are uncomfortable or unsure what pronoun to use, address the victim by their last name

General Rules, Sexual Harassment and Prison Rape Elimination (PREA)
Acknowledgement

I have been provided with a handout titled “General Rules, Sexual Harassment and PREA information/acknowledgement” sheet. The handout explains the Sheriff’s Office General Rules, Zero-Tolerance policy, safety guidelines, reporting options, and PREA. I have read the handout and have had an opportunity to discuss and ask questions with the person listed below as the witness. I acknowledge that, should I engage in any activity constituting sexual abuse, sexual misconduct or sexual harassment of any inmate, I will be subject to discipline up to and including termination.

NO EMPLOYEE MAY RETALIATE AGAINST YOU IN ANY WAY FOR MAKING A COMPLAINT REGARDING ANY VIOLATION OF THESE RULES.

## SECTION IV continued

Provide BRIEF but CONCISE details to validate the EXCEPTION(S) selected above

On December 21, 2018, a Request for Proposal, RFP-PRC-FY19-00152 was issued by the Procurement Department to purchase initial 8 to maximum 13 Body Scanners for Contraband Detection for the Sheriff's Office.

The RFP was set with an intent of having a 5-year initial term for a resulting Agreement with an option to extend for another 5 years.

Procurement proceed to negotiate with the awardee among the items negotiated is the term of the Agreement. Procurement successfully negotiated as value add for an additional 6th year maintenance at no cost for services and support warranty. Total savings for the 6th year is at $113,750.00. This is a value that benefits the County. Procurement is seeking to memorialize. This benefits the County to have an initial 6-year term with the County's sole option to extend for an additional 6 years. Equipment warranty, technical services and preventive services will be provided to the County at no cost.
If relying upon Exception (10), the OCCM or the Director of Procurement, as applicable, has discretion to approve a contract term for more than five years. Provide a narrative explanation below:

A. BACKGROUND (Describe the good or service procured)

On December 21, 2018, a Request for Proposal, RFP-PRC-FY19-00152 was issued by the Procurement Department to purchase 13 Body Scanners for Contraband Detection for the Sheriff’s Office.

Full-body scanners will be housed in three County Facilities: the Main Jail complex in San Jose for male inmates; the Elmwood Correctional complex in Milpitas for male inmates and a separate facility at Elmwood for the female inmates.

This will be the first time the County will be purchasing and installing body scanners in the jail system. Other county location may be targeted.

B. CONTRACT HISTORY, if applicable. (How was the contract awarded? What were the events that occurred prior to the end of the contract term?)

N/A. This is a brand new agreement.
C. REASONS FOR CONTRACT TERM EXTENSION

The County would like to take advantage of "value add" services negotiated.

This is a capital investment for the County that will provide years of use. This is the type of equipment that is not typically refreshed within a few years. Approximate life-span is 10 years. A longer contract is typically put in place for this type of investment.

D. RECOMMENDATION PLAN TO CURE ISSUE(S) (If applicable)

**SECTION VIII**

**Office of Countywide Contracting Management/Procurement Department Signature**

Andrew Zawoyski  
Director, OCCM  
Date: 2/5/2020

Revision Date: August 2019
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Jeffrey D Draper, Director, Facilities and Fleet
       Doug Feliciano, Facilities Security Director
SUBJECT: Augment and Award Contract for Video Surveillance Upgrade Projects

RECOMMENDED ACTION

Held from February 25, 2020 (Item No. 71): Consider recommendations relating to Fiscal Year 2019-2020 Video Surveillance Upgrades (Project No. 263-CP20009). (Facilities and Fleet Department)

Possible action:

a. Receive Surveillance Impact Reports for Surveillance Cameras at Civic Center (70 West Hedding St, San Jose), Sheriff's Headquarters (50 West Younger Ave, San Jose), Sheriff's West Valley Division (1601 South De Anza Blvd, Cupertino), and County Communications (2700 Carol Drive, San Jose).

b. Approve the acquisition of new surveillance cameras for Civic Center, Sheriff's Headquarters, Sheriff's West Valley Division, and County Communications.

c. Adopt finding that the benefits of the surveillance technology outweigh the costs pursuant to Section A40-4 of the Santa Clara County Ordinance Code.

d. Approve the existing Surveillance Use Policies for the new surveillance cameras at Civic Center, Sheriff’s Headquarters, Sheriff’s West Valley Division, and County Communications.

e. Approve Request for Appropriation Modification No. 161 - $2,656,421 transferring funds within the Facilities and Fleet Department budget relating to Security Management Project 263-SM20009 "FY20 Video Surveillance Upgrades."

f. Award Contract to CelPlan Technologies, Inc., in the amount of $1,617,028 for projects SM19003, SM19005, SM19007, and SM19008 with a construction time of 300 calendar days.
g. Approve encumbrance of $181,500 as an allowance for the project at Medical Examiner/Coroner (MEC) Office (SM19004), which will be issued as a change order after the Video Camera policy for the MEC Office is approved.

h. Approve encumbrance of $350,000 as Supplemental Work Allowance for a total encumbered amount of $2,148,528.

i. Authorize the County Executive, or designee, as the Owner's Authorized Representative, with authority to issue Change Orders, as necessary, consistent with Public Contract Code section 20142.

j. Ratify Addendum to Bid Documents Nos. 1 through 5 which modified or clarified the Bid Documents in response to contractor questions.

**FISCAL IMPLICATIONS**

Funding for the project is available within existing projects as follows.

The following Security Projects are being combined for efficiency:

<table>
<thead>
<tr>
<th>PROJECT NUMBER</th>
<th>PROJECT NAME</th>

</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td></td>
<td><strong>$726,421</strong></td>
</tr>
</tbody>
</table>

**REASONS FOR RECOMMENDATION**

Benefits Outweigh Costs and Concerns
The surveillance system enables facilities at Civic Center, Sheriff's Headquarters, Sheriff's West Valley Division, and County Communications to operate with significantly fewer protective services personnel than would be physically required to monitor the identified areas. In addition, having a working system will help deter illegal activities.

The implementation and use of surveillance cameras will not pose a risk to civil liberties, as cameras will not be mounted in sensitive areas such as staff workspaces, restrooms, shower areas, or anywhere where there is a reasonable expectation of privacy. These systems are not intended, nor are they designed, for facial recognition, workforce oversight, license plate recognition, or any other intrusive or excessive purpose that could be considered a privacy violation.

The surveillance system will help protective services personnel to effectively, efficiently, and proactively monitor the site to maintain safe and secure environments for clients, visitors, and staff as well as County equipment, vehicles, and facilities.

Appropriation Modification

The total project cost is estimated to be $2,656,421 based on bids received, the Supplemental Work Allowance (SWA), construction management expenses, and other project soft costs. As indicated above, an appropriation modification is needed to combine and reallocate funds from a number of security projects to this one combined project effort.

Award Contract

On December 10, 2019, Item 91, the Board of Supervisors (Board) approved the contract documents and authorized advertisement for an invitation to bid for the Video Surveillance Upgrade Projects from three pre-qualified contractors. Two firms responded with bids by the submission deadline of January 16, 2020, as shown in the table below:

<table>
<thead>
<tr>
<th>Bidder</th>
<th>Bid</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 CelPlan Technologies, Inc. (CelPlan)</td>
<td>$1,798,528</td>
</tr>
<tr>
<td>2 Cornerstone Detention Products, Inc.</td>
<td>$1,896,977</td>
</tr>
<tr>
<td>Engineer’s Estimate</td>
<td>$1,600,000</td>
</tr>
</tbody>
</table>

Based on the bids received, FAF determined CelPlan Technologies Inc. to be the lowest responsive and responsible bidder and should therefore be awarded the contract.

CelPlan’s bid of $1,798,528 consists of work on five projects, but since the Surveillance Policy for the video cameras at the MEC Office has not yet been approved FAF recommends awarding a $1,617,028 contract to them for work on the four projects (SM19003, SM19005, SM19007, and SM19008) that are ready to begin now. FAF also recommends approving an encumbrance of $181,500 for project SM19004 as an allowance, which will be awarded as a change order after the Surveillance Policy for the MEC Office is approved.
SWA

Because the work will occur in five existing and occupied buildings there is a greater risk of encountering unforeseen conditions. FAF therefore recommends establishing an SWA of $336,920.

Designation and Authority

Designating the County Executive, or their designee, as the Owner’s Representative with the authority to issue change orders, as necessary, will streamline project management and minimize administrative delays and costs to the County.

Ratify Addenda

Five Addenda were issued during the bid period to address bidders’ questions. They incorporate revisions to drawings and specifications to provide a wide range of clarifications to various tasks.

FAF recommends that the five addenda be ratified by the Board to formally incorporate it into the bid documents. This addendum and the contract documents are on file and available for review in the Clerk of the Board’s Office.

CHILD IMPACT

This action has a positive impact on the Every Child Safe indicator. Installation of video surveillance in the Government Center, Sheriff's Headquarters, Sheriff West Valley Command, MEC, and County Communication Facilities will improve the safety and security for children or youth who receive services in these facilities.

SENIOR IMPACT

This action has positive impacts on seniors. Installation of video surveillance in the Government Center, Sheriff's Headquarters, Sheriff West Valley Command, MEC, and County Communication Facilities will improve the safety and security for seniors who receive services in these facilities.

SUSTAINABILITY IMPLICATIONS

This action will have no/neutral sustainability implications.

BACKGROUND

The advertisement of the pre-qualification package for the Video Surveillance Upgrade Projects was approved by the Board on October 8, 2019 (Item 78). The following three firms were prequalified to submit bids.

- Cornerstone Detention Products, Inc.
- CelPlan Technologies, Inc.
- Trofholz Technologies, Inc.
The Project consists of upgrading, replacing, or adding Video Surveillance Systems at the following locations:

- Civic Center (70 West Hedding, San Jose, CA 95110)
- Sheriff’s Headquarters (50 West Younger, San Jose, CA 95110)
- Sheriff’s West Valley Division (1601 South De Anza Blvd, Cupertino, CA 95014)
- Medical Examiner/Coroner Office (850 Thornton Way, San Jose, CA 95128)
- County Communications (2700 Carol Drive, San Jose, CA 95125)

**CONSEQUENCES OF NEGATIVE ACTION**

The Surveillance Impact Reports would not be received, the Surveillance Policies and the Appropriation Modification would not be approved, and the Contract would not be awarded at this time.

**STEPS FOLLOWING APPROVAL**

Assign a Contract Number immediately upon approval and notify Sherry Ferguson, Jingna Zhang, Aman Grewal, and Roger Soohoo of FAF.

ITB-FAF-FY19-0119
Surveillance Upgrade Project

The following revisions, additions, or corrections are made a part of ITB-FAF-FY20-0119 for the project named above.

1. DOCUMENT 00 11 00 NOTICE TO BIDDERS, ARTICLE 2, Section 2.07 PRE-BID CONFERENCE is hereby revised as follow:

2.07 PRE-BID CONFERENCE
.A. A mandatory Pre-Bid Conference/site visit will be held on December 17 at 10 AM at the reception area in the office of the Clerk of the Board of Supervisors, 10th Floor, East Wing of the County Government Center, 70 West Hedding Street, San Jose, CA, 95110.

All other terms and conditions of ITB-FAF-FY20-0119 remain unchanged.
ADDENDUM 3

ITB-FAF-FY19-0119
Surveillance Upgrade Project

The following revisions, additions, or corrections are made a part of ITB-FAF-FY20-0119 for the project named above.

1. Delete Document 00 52 00 in it entirety and replaced with Document 00 52 00.V1, Agreement which is attached hereto and become a part of ITB-FAF-FY20-0119:

All other terms and conditions of ITB-FAF-FY20-0119 remain unchanged.

Board of Supervisors: Mike Wasserman, Cindy Chavez, Dave Cortese, Susan Ellenberg, S. Joseph Simitian
County Executive: Jeffrey V. Smith
THIS AGREEMENT ("Agreement") is dated this _______ day of _____________, 20___ ("Contract Date"), and is by and between the County of Santa Clara, ("Owner") and [Insert Contractor's Name] ("Contractor"), whose place of business is located at [Insert Contractor’s Address].

NOW, THEREFORE, in consideration of the mutual covenants hereinafter set forth, Owner and Contractor agree as follows:

ARTICLE 1 — SCOPE OF WORK

1.01 County has awarded to Contractor the Contract for Construction of the Project known and described as:

   .A Project Name: Surveillance Upgrade Project
   .B Project Number: 263-SM19003, 19004, 19005, 19007, & 19008

1.02 Contractor shall perform and complete all Work specified or indicated in the Contract Documents, including without limitation, all materials, equipment, tools and labor necessary or reasonably inferable as necessary to complete the Work, or any phase of the Work, in accordance with the terms of the Contract Documents.

1.03 The Work includes compliance with all Codes and Laws and the requirements of the County’s Mandatory Policy Provisions stated below.

ARTICLE 2 — CONTRACT SUM

2.01 Owner shall pay Contractor as the “Contract Sum” for completion of Work in accordance with the Contract Documents, [Note to specifier, use one of the following:]

   .A [The total sum of $______ or
   .B [The amounts specified by Contractor on the Bid Form as follows: [Insert award sums, unit prices, or tables].
   .C [If a unit price contract, consider using separate tables or Contractor’s Bid.]

2.02 The Contract Documents define the composition and all-inclusive scope of the Contract Sum.

ARTICLE 3 — CONTRACT DOCUMENTS

3.01 The Contract Documents include the following Documents, Specifications and Drawings, generally described and referenced on Document 00 01 10 (Table of Contents):

   .A Division 00 of this Project Manual (excluding only Document Series 00 20 00 and Document Series 00 30 00);
   .B All Specifications (Divisions 01 through 48 or above if applicable) (no exclusions);
   .C All Drawings [Note to specifier -- provide title or drawing list of reference, if any materials are information only, please so identify or indicate the drawings will so identify];
   .D All Addenda issued to the above documents issued prior to Bid; and,
.E Any other document(s) specifically incorporated by reference into any of the foregoing Contract Documents that show the Work performed or to be performed by Contractor for the Contract Sum

3.02 There are no Contract Documents other than those listed in this Document 00 52 00. After execution of this Agreement, the Contract Documents may only be amended, modified or supplemented as provided in the Contract Documents.

3.03 Documents contained in the Project Manual within Series 00 20 00 (Solicitation) which provide procedures for bidding, and Documents within Series 00 30 00 (Available Information) which provide information on existing conditions, are Bidding Documents only and are not Contract Documents. For example, Document 01 21 13 (Instructions to Bidders) and Document 00 31 00 (Available Project Information) are not Contract Documents.

ARTICLE 4 — FORMATION OF CONTRACT

4.01 Formation of a contract between the parties requires accomplishment of the following: (1) execution of this Agreement by Contractor; (2) submission by Contractor and acceptance by Owner of all required bonds, insurance, certifications, documents and all other materials required by the Instructions to Bidders to the satisfaction of Owner; and (3) execution of this Agreement by Owner. No contract is formed until these three elements have been accomplished as indicated by Owner's execution of Agreement and delivery to Contractor of a mutually signed Agreement.

ARTICLE 5 — CONTRACT TIME; LIQUIDATED DAMAGES

5.01 Contract Times

.A Following formation of the Contract, Owner’s Authorized Representative will issue a Notice to Proceed with the Work that will state the first day charged to the Contract Time (Commencement Date).

.B Contractor shall achieve Substantial Completion of the entire Work no later than [270] Days from the Commencement Date.

.C Contractor shall achieve Final Completion of the entire Work no later than [300] Days from the Commencement Date.

.D Interim Milestones (if any). No Later than _________ Days from the Commencement Date, Contractor shall achieve Substantial Completion of Interim Milestones:

   i. Interim Milestone: ________________.

   ii. Interim Milestone: ________________.

   iii. Interim Milestone: ________________.

.E Article 9 of Document 00 72 00 (General Conditions) provides references and procedures to achieve Substantial Completion and Final Completion.

5.02 Liquidated Damages

.A All time limits for Milestones, if any, Substantial Completion, and Final Completion (collectively, the Contract Times), are of the essence of the Contract.
.B Owner and Contractor recognize and agree Owner will suffer financial loss if the Work is not completed within the Contract Times specified, taking into account any extensions thereof allowed in accordance with the Contract Documents.

.C Consistent with terms, conditions, stipulations and limitations in Document 00 72 00 (General Conditions) regarding liquidated damages, Contractor and Owner agree that because of the nature of the Project, it would be impractical or extremely difficult to fix the amount of actual damages incurred by Owner because of a delay in completion of the Work. Accordingly, in the event of delay in completion of the Work, or any phase or subproject, Owner and Contractor agree that Contractor shall pay Owner as liquidated damages the amounts provided below.

.1 As liquidated damages for delay Contractor shall pay to Owner three thousand dollars ($3,000) for each Day that expires after the time specified herein for Contractor to achieve Substantial Completion of the entire Work, until achieved.

.2 As liquidated damages for delay Contractor shall pay to Owner three thousand dollars ($3,000) for each Day that expires after the time specified herein for Contractor to achieve Final Completion of the entire Work, until achieved.

.D Measures of liquidated damages shall apply cumulatively. Limitations, definitions and stipulations regarding liquidated damages are set forth in Document 00 72 00 (General Conditions).

ARTICLE 6 ― WORKERS' COMPENSATION

6.01 By my signature hereunder, as Contractor, I certify and represent that I am aware of the provisions of Section 3700 of the Labor Code, which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the Work of this Contract.

ARTICLE 7 — CONTRACTOR'S LICENSE AND DIR REGISTRATION

7.01 Contractors and Subcontractors are required by law to be licensed and regulated by the Contractor's State License Board. Any questions concerning contractor licensing must be referred to the Registrar of the Contractor's State License Board at 1020 "N" Street, Sacramento, CA 95814. Contractor shall comply and cause its Subcontractors to comply with all requirements of the Contractor's License Law at all times applicable to the Work of the Contract.

7.02 No Contractor or Subcontractor may perform work on the Project without being registered with the Department of Industrial Relations (DIR). Contractor represents and warrants that it is registered with the DIR. Contractor shall maintain its registration with the DIR throughout the course of the Work. Contractor is responsible for verifying that each Subcontractor, including any Subcontractor not listed on the Bid proposal for the Project is registered with the DIR at the time the Subcontractor performs work on the Project. If any Subcontractor is not registered at the time the Subcontractor is to commence work, Contractor shall require the Subcontractor to register and may not permit the Subcontractor to commence work until the Subcontractor’s registration is complete.

.A Contractor's DIR Registration Number: ____________________

ARTICLE 8 – COUNTY'S MANDATORY POLICY PROVISIONS

8.01 Equal Opportunity/Nondiscrimination
Contractor shall comply with all applicable Federal, State, and local laws and regulations including Santa Clara County’s policies concerning nondiscrimination and equal opportunity in contracting. Such laws include but are not limited to the following: Title VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act of 1990; The Rehabilitation Act of 1973 (Sections 503 and 504); California Fair Employment and Housing Act (Government Code sections 12900 et seq.); and California Labor Code sections 1101 and 1102. Contractor shall not discriminate against any subcontractor, employee, or applicant for employment because of age, race, color, national origin, ancestry, religion, sex/gender, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status in the recruitment, selection for training including apprenticeship, hiring, employment, utilization, promotion, layoff, rates of pay or other forms of compensation. Nor shall Contractor discriminate in provision of services provided under this contract because of age, race, color, national origin, ancestry, religion, sex/gender, sexual orientation, mental disability, physical disability, medical condition, political beliefs, organizational affiliations, or marital status.

8.02 Beverage Nutritional Criteria
Except in the event of an emergency or medical necessity, the following nutritional standards shall apply to any foods and/or beverages purchased by Contractor with County funds for County-sponsored meetings or events. If food is to be provided, healthier food options shall be offered. “Healthier food options” include (1) fruits, vegetables, whole grains, and low fat and low calorie foods; (2) minimally processed foods without added sugar and with low sodium; (3) foods prepared using healthy cooking techniques; and (4) foods with less than 0.5 grams of trans fat per serving. Whenever possible, Contractor shall (1) offer seasonal and local produce; (2) serve fruit instead of sugary, high calorie desserts; (3) attempt to accommodate special, dietary and cultural needs; and (4) post nutritional information and/or a list of ingredients for items served. If meals are to be provided, a vegetarian option shall be provided, and the Contractor should consider providing a vegan option. If pre-packaged snack foods are provided, the items shall contain: (1) no more than 35% of calories from fat, unless the snack food items consist solely of nuts or seeds; (2) no more than 10% of calories from saturated fat; (3) zero trans fat; (4) no more than 35% of total weight from sugar and caloric sweeteners, except for fruits and vegetables with no added sweeteners or fats; and (5) no more than 360 mg of sodium per serving. If beverages are to be provided, beverages that meet the County’s nutritional criteria are (1) water with no caloric sweeteners; (2) unsweetened coffee or tea, provided that sugar and sugar substitutes may be provided as condiments; (3) unsweetened, unflavored, reduced fat (either nonfat or 1% low fat) dairy milk; (4) plant-derived milk (e.g., soy milk, rice milk, and almond milk) with no more than 130 calories per 8 ounce serving; (5) 100% fruit or vegetable juice (limited to a maximum of 8 ounces per container); and (6) other low-calorie beverages (including tea and/or diet soda) that do not exceed 40 calories per 8 ounce serving. Sugar-sweetened beverages shall not be provided.

8.03 No Smoking
Contractor and its employees, agents and subcontractors, shall comply with the County’s No-Smoking Policy, as set forth in the Board of Supervisors Policy Manual section 3.47 (as amended from time to time), which prohibits smoking: (1) at the Santa Clara Valley Medical Center Campus and all County-owned and operated health facilities, (2) within 30 feet surrounding County-owned buildings and leased buildings where the County is the sole occupant, and (3) in all County vehicles.

8.04 Wage Theft Prevention
(1) Compliance with Wage and Hour Laws: Contractor, and any subcontractor it employs to complete work under this Agreement, must comply with all applicable federal, state, and local wage and hour laws. Applicable laws may include, but are not limited to, the Federal Fair Labor...
Standards Act, the California Labor Code, and any local Minimum Wage Ordinance or Living Wage Ordinance.

(2) Final Judgments, Decisions, and Orders: For purposes of this Section, a “final judgment, decision, or order” refers to one for which all appeals have been exhausted. Relevant investigatory government agencies include: the federal Department of Labor, the California Division of Labor Standards Enforcement, a local enforcement agency, or any other government entity tasked with the investigation and enforcement of wage and hour laws.

(3) Prior Judgments against Contractor and/or its Subcontractors: BY SIGNING THIS AGREEMENT, CONTRACTOR AFFIRMS THAT IT HAS DISCLOSED ANY FINAL JUDGMENTS, DECISIONS, OR ORDERS FROM A COURT OR INVESTIGATORY GOVERNMENT AGENCY FINDING—IN THE FIVE YEARS PRIOR TO EXECUTING THIS AGREEMENT—that CONTRACTOR OR ITS SUBCONTRACTOR(S) HAS VIOLATED ANY APPLICABLE WAGE AND HOUR LAWS. CONTRACTOR FURTHER AFFIRMS THAT IT OR ITS SUBCONTRACTOR(S) HAS SATISFIED AND COMPLIED WITH—OR HAS REACHED AGREEMENT WITH THE COUNTY REGARDING THE MANNER IN WHICH IT WILL SATISFY—ANY SUCH JUDGMENTS, DECISIONS, OR ORDERS.

(4) Judgments During Term of Contract: If at any time during the term of this Agreement, a court or investigatory government agency issues a final judgment, decision, or order finding that Contractor or any subcontractor it employs to perform work under this Agreement has violated any applicable wage and hour law, or Contractor learns of such a judgment, decision, or order that was not previously disclosed, Contractor must inform the Office of the County Executive-Office of Countywide Contracting Management (OCCM), no more than 15 days after the judgment, decision, or order becomes final or of learning of the final judgment, decision, or order. Contractor and its subcontractors shall promptly satisfy and comply with any such judgment, decision, or order, and shall provide the Office of the County Executive-OCCM with documentary evidence of compliance with the final judgment, decision, or order within 5 days of satisfying the final judgment, decision, or order. The County reserves the right to require Contractor to enter into an agreement with the County regarding the manner in which any such final judgment, decision, or order will be satisfied.

(5) County’s Right to Withhold Payment: Where Contractor or any subcontractor it employs to perform work under this Agreement has been found in violation of any applicable wage and hour law by a final judgment, decision, or order of a court or government agency, the County reserves the right to withhold payment to Contractor until such judgment, decision, or order has been satisfied in full.

(6) Material Breach: Failure to comply with any part of this Section constitutes a material breach of this Agreement. Such breach may serve as a basis for termination of this Agreement and/or any other remedies available under this Agreement and/or law.

(7) Notice to County Related to Wage Theft Prevention: Notice provided to the Office of the County Executive as required under this Section shall be addressed to: Office of the County Executive—OCCM; 70 West Hedding Street; East Wing, 11th Floor; San José, CA 95110. The Notice provisions of this Section are separate from any other notice provisions in this Agreement and, accordingly, only notice provided to the above address satisfies the notice requirements in this Section.

8.05 Living Wage.

Unless otherwise exempted or prohibited by law or County policy, Contractors that contract with the County to provide Direct Services, as defined in County of Santa Clara Ordinance Code Division B36 (“Division B36”) and Board Policy section 5.5.5.5 (“Living Wage Policy”), and their Subcontractors, where the contract value is $100,000 or more, must comply with Division B36 and the Living Wage Policy. Compliance and compensation for purposes of this provision includes, but is not limited to, components relating to fair compensation, earned sick leave, paid jury duty, fair workweek, worker retention, fair chance hiring, targeted hiring, local hirelings, protection form
retaliation, and labor peace. If Contactor and/or a Subcontractor violates this provision, the Board of Supervisors or its designee may, at its sole discretion, take responsive actions, including, but not limited to, the following: (a) suspend, modify, or terminate the Direct Services Contract; (b) require the Contractor and/or Subcontractor to comply with an appropriate remediation plan developed by the County; (c) waive all or part of Division B36 or the Living Wage Policy. This provision shall not be construed to limit an employee’s rights under Division B36 or any other applicable law. Further, this provision does not confer any rights upon any person or entity other than the Board of Supervisors or its designee to bring any action seeking cancellation or suspension of a County contract. By entering into this contract, Contactor certifies that it is currently complying with Division B36 and the Living Wage Policy with respect to applicable contracts, and warrants that it will continue to comply with Division B36 and the Living Wage Policy with respect to applicable contracts. Nothing in this section is intended to be contrary to prevailing wage laws – and to the extent there is conflict, State prevailing wage laws shall govern and control this Contract.

8.06 Conflicts of Interest.

Contractor shall comply, and require its Subcontractors to comply, with all applicable (i) requirements governing impermissible client conflicts; and (ii) federal, state and local conflict of interest laws and regulations, including without limitation, California Government Code section 1090 et seq., the California Political Reform Act (California Government Code section 87100 et seq.) and the regulations of the Fair Political Practices Commission concerning disclosure and disqualification (2 California Code of Regulations section 18700 et seq.). Failure to do so constitutes a material breach of this Agreement and is grounds for immediate termination of this Agreement by Owner.

In accepting this Agreement, Contactor covenants and represents that it presently has no interest, and will not acquire any interest, direct or indirect, financial or otherwise, which would conflict in any manner or degree with the performance of this Agreement. Contactor further covenants that, in the performance of this Agreement, it will not employ any contractor or person having such an interest. Contactor, including but not limited to Contactor’s employees and Subcontractors, may be subject to the disclosure and disqualification provisions of the California Political Reform Act of 1974 (the “Act”), that (1) requires such persons to disclose economic interests that may foreseeably be materially affected by the work performed under this Agreement and (2) prohibits such persons from making or participating in making decisions that will foreseeably financially affect such interests.

If the disclosure provisions of the Political Reform Act are applicable to any individual providing service under this Agreement, Contactor shall, upon execution of this Agreement, provide the Owner with the names, description of individual duties to be performed, and email addresses of all individuals, including but not limited to Contactor’s employees, agents and subcontractors, that could be substantively involved in “making a governmental decision” or “serving in a staff capacity and in that capacity participating in making governmental decisions or performing duties that would be performed by an individual in a designated position,” (2 CCR 18701(a)(2)), as part of Contactor’s service to the Owner under this Agreement. Contactor shall immediately notify the Owner of the names and email addresses of any additional individuals later assigned to provide such service to the Owner under this Agreement in such a capacity. Contactor shall immediately notify the Owner of the names of individuals working in such a capacity who, during the course of the Agreement, end their service to the Owner.

If the disclosure provisions of the Political Reform Act are applicable to any individual providing service under this Agreement, Contactor shall ensure that all such individuals identified pursuant to this section understand that they are subject to the Act and shall conform to all requirements of the Act and other laws and regulations listed in subsection (A) including, as required, filing of Statements of Economic Interests within 30 days of commencing service pursuant to this
ARTICLE 9 – MISCELLANEOUS

9.01 Terms and abbreviations used in this Agreement are defined in Document 00 71 00 (Contracting Definitions) and Document 00 72 00 (General Conditions) and will have the meaning indicated therein. Prior to executing this Agreement, Contractor has performed all required pre-construction investigations required and described in the Bidding Documents and the Contract Documents, including without limitation, Document 00 21 13 (Instructions to Bidders) and Document 00 73 10 (Site Conditions).

9.02 All notices or demands to Owner or Contractor under the Contract Documents shall be in writing and directed to the other at the respective addresses identified under each party’s signatures below, or by hand delivery or to such other person(s) and address(es) as a party shall provide to another. Except as otherwise expressly provided herein, notices shall be dispatched by facsimile transmission, overnight delivery by reputable courier service and/or U.S. mail. Except as otherwise expressly provided herein, notices dispatched by facsimile or overnight delivery shall be deemed received on the business day following dispatch. Notices dispatched by U.S. mail shall be deemed received on the third business day following dispatch. Email transmission of PDF images shall be effective upon express acknowledgement of receipt by the Authorized Representative of the receiving party.

9.03 In order to induce Owner to enter into this Agreement, Contractor represents and warrants that at all time applicable to the performance of the Work of the Contract Documents, including submission of its Bid and execution of this Agreement, that the following is true and will remain true: Contractor is duly organized, existing and in good standing under applicable state law; is licensed to perform all aspects of the Work; will employ only persons and subcontractors having all required licenses and certifications to perform the Work; that Contractor is duly qualified to conduct business in the State of California; that Contractor has duly authorized the execution, delivery and performance of this Agreement, the other Contract Documents and the Work to be performed herein; and that the Contract Documents do not violate or create a default under any instrument, agreement, order or decree binding on Contractor.

9.04 Contractor shall not assign any portion of Contractor’s responsibilities under the Contract Documents without Owner’s express written consent.

9.05 Should any part, term or provision of this Agreement or any of the Contract Documents, or any document required herein or therein to be executed or delivered, be declared invalid, void or unenforceable, all remaining parts, terms and provisions shall remain in full force and effect and shall in no way be invalidated, impaired or affected thereby. If the provisions of any law causing such invalidity, illegality or unenforceability may be waived, they are hereby waived to the end that this Agreement and the Contract Documents may be deemed valid and binding agreements, enforceable in accordance with their terms to the greatest extent permitted by applicable law. In the event any provision not otherwise included in the Contract Documents is required to be included by any applicable law, that provision is deemed included herein by this reference (or, if such provision is required to be included in any particular portion of the Contract Documents, that provision is deemed included in that portion).

9.06 It is understood and agreed that in no instance are the persons signing this Agreement for or on behalf of Owner or acting as an employee, agent, or representative of Owner, liable on this Agreement or any of the Contract Documents, or upon any warranty of authority, or otherwise, and
it is further understood and agreed that liability of Owner is limited and confined to such liability as authorized or imposed by the Contract Documents or applicable law.

9.07 Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Contract, as determined by Director of the State of California Department of Industrial Relations, are deemed included in the Contract Documents and on file at Owner’s Office, and shall be made available to any interested party on request. Pursuant to California Labor Code Sections 1860 and 1861, in accordance with the provisions of Section 3700 of the Labor Code, every Contractor will be required to secure the payment of compensation to his employees. Contractor represents that it is aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers’ compensation or to undertake self-insurance in accordance with the provisions of that Code, and Contractor shall comply with such provisions before commencing the performance of the Work of the Contract Documents.

9.08 This Agreement and the Contract Documents shall be deemed to have been entered into in the County of Santa Clara, State of California, and governed in all respects by California law (excluding choice of law rules). The exclusive venue for all disputes or litigation hereunder shall be in the Superior Court for the County of Santa Clara.

9.09 In entering into this Agreement, Contractor warrants and represents that it and all Subcontractors were registered all with the Department of Industrial Relations when the Project was bid, and shall remain so registered through Completion. Failure to comply with this provision is material breach of this Agreement.

9.10 Unless otherwise prohibited by law or County policy, the parties agree that an electronic copy of a signed contract, or an electronically signed contract, has the same force and legal effect as a contract executed with an original ink signature. The term “electronic copy of a signed contract” refers to a transmission by facsimile, electronic mail, or other electronic means of a copy of an original signed contract in a portable document format. The term “electronically signed contract” means a contract that is executed by applying an electronic signature using technology approved by the County.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the (Day) day of (Month), (Year).

CONTRACTOR:

<tr>
<td>6</td>
<td>We question the accuracy of the plan scaling. There are several of these with 1”=30’ identified scale (ex: TY201-208 @ Civic Center) that appear to be incorrect. Please advice (Submitted: Dec 21, 2019 11:41:07 AM PST)</td>
<td>CORRECTIONS TO BE MADE TO DRAWINGS AND REISSUED AS ADDENDA.</td>
</tr>
<tr>
<td>7</td>
<td>Plan page TY502 for the Civic Center shows camera #45 as an alternate. Plan page TY203E also has note keynote #2 which also appears to indicate an alternate. The bid form does currently reflect. Please advise. (Submitted: Dec 22, 2019 12:15:23 PM PST)</td>
<td>REQUIREMENTS FOR AN ADD ALTERNATE TO BE REMOVED. CAMERA 45 TO BE PART OF BASE BID CONTRACT.</td>
</tr>
</tbody>
</table>
Plan page TY401, detail 1, for the Civic Center shows one (1) existing monitor and two (2) keyboard-mouse. Please advise what is to occur with these items. (Submitted: Dec 23, 2019 6:13:39 AM PST)

EXISTING (E) WORKSTATIONS TO REMAIN IN PLACE. CLARIFICATIONS TO BE MADE TO DRAWINGS AND REISSUED AS ADDENDA.

Plan page TY401, detail 1B for the Civic Center shows an option 2nd display but this does not appear to be addressed in the documents as to what is to occur with this item. Please advise. (Submitted: Dec 23, 2019 6:16:12 AM PST)

FUTURE SECOND DISPLAY ONLY, N.I.C. CLARIFICATION TO BE MADE TO DRAWING AND REISSUED AS ADDENDA.

Plan page TY301, detail 1 for the Civic Center shows a Bosch VSS workstation. Is this an error? (Submitted: Dec 23, 2019 6:59:15 AM PST)

CORRECT. VSS WORKSTATION NOT BOSCH. CLARIFICATION TO BE MADE TO DRAWING AND REISSUED AS ADDENDA.

Plan page TY001 legend for the Civic Center shows an intercom station with camera yet we do not see a camera identified on the schedule for the intercom. Please advise. (Submitted: Dec 23, 2019 7:27:37 AM PST)

INTERCOM CAMERA DOES NOT CONNECT TO VSS, IT IS STANDALONE WITH INTERCOM SYSTEM. CAMERA IS NOT ON VSS CAMERA SCHEDULE.

Plan page TY502, camera schedule for the Civic Center shows cameras #11 and #12 as mounting detail #3, which is a "low parapet roof mount", yet the mounting height is shown as 12” AFG. Is this correct? What floor are these cameras located? (Submitted: Dec 23, 2019 7:44:11 AM PST)

REVISED TO DETAIL 1. CLARIFICATION TO BE MADE TO DRAWING AND REISSUED AS ADDENDA.

Plan page TY200 for the Civic Center shows several cameras that according to the schedule on TY502 terminate at the 1st Floor Telecom. Is this correct? Please advise. (Submitted: Dec 23, 2019 7:46:55 AM PST)

SHEET TY200 CAMERAS TO TERMINATE IN BASEMENT MAIL ROOM. CONTRACTOR MAY PROPOSE ALTERNATE CAMERA TERMINATION LOCATIONS. CLARIFICATION TO BE MADE TO DRAWING AND REISSUED AS ADDENDA.

Specification section 282300 2.02 refers to camera types. Items D and E references "short" and "long". What does the short and long terms mean? (Submitted: Dec 23, 2019 8:13:35 AM PST)

SHORT REFERS TO TYPE 3 AND LONG REFERS TO TYPE 4 CAMERA AS A GENERAL REFERENCE.

Section 280502 3.03D1 states that the existing electric eye safety equipment for the Civic Center gate is to be replaced. Can more information be provided as to what is required, such as a detail as well as qtys and make and model of the equipment required? (Submitted: Dec 27, 2019 7:27:56 AM PST)

VEHICLE GATE BRAND UNKNOWN. CONTRACTOR TO FIELD INVESTIGATE AND REPAIR. FOR BID, PROVIDE SAFETY EYE TRANSMITTER/SENSOR UNIT WITH REFLECTOR AT 20 FEET AND FORM C DRY CONTACT FOR INTERFACE TO GATE CONTROLLER.

Plan risers show fiber optic connections between equipment rooms but fiber type, mm or sm, and number of strands are not shown nor specified at each equipment room location. Can more information be provided in order for us to price? (Submitted: Dec 27, 2019 7:50:28 AM PST)

SECTION 280513 2.03 F SPECIFIES 24 STRAND MM AND 2.03 G SPECIFIES 12 STRAND SM. DRAWINGS TO BE REVISED TO REQUIRE "6 STRAND MM OR SM MINIMUM". CABLE TYPE TO BE COMPATIBLE WITH DATA SWITCHES USED.
| 17 | Only minimal specifications have been provided for the network switches. Are there make and models desired? Or can more precise switch specifications be provided? (Submitted: Dec 27, 2019 7:53:13 AM PST) | 282300-1.05B-12 INDICATES A CISCO CATALYST SWITCH IS TO BE PROVIDED. THE COUNTY IS CURRENTLY STANDARDIZED ON CISCO CATALYST 9300 SERIES. PROVIDE SWITCHES TO MEET OR EXCEED SPECIFICATIONS (280513 2.07) AND BE COMPATIBLE WITH THE FIBER OPTIC CABLE USED FOR A COMPLETE AND OPERATIONAL SYSTEM (282300 1.04 A). |
| 18 | For the Sheriff's HQ building please advise if we are to reuse existing UPS. (Submitted: Dec 28, 2019 11:17:53 AM PST) | REUSE EXISTING UPS. CLARIFICATION TO BE MADE TO DRAWING AND REISSUED AS ADDENDA. |
| 19 | For the Sheriff's HQ building we see that we are to add in 16 existing cameras to the new video storage. Please advise the resolution of these cameras. (Submitted: Dec 28, 2019 11:19:30 AM PST) | EXISTING CAMERAS 1280x720 @ 24fps. 5 NEW CAMERAS CURRENTLY IN PROCESS OF BEING ADDED, FOR TOTAL OF 21 EXISTING CAMERAS. |
| 20 | It is unclear to us if we are reusing existing cabinets or supplying new for detail 3, TY401 (Civic Center). Please advise. (Submitted: Dec 29, 2019 11:25:48 AM PST) | RESUSE EXISTING SERVER ROOM RACK PER DETAIL 3C. |
| 21 | Revise question 20 - this should have read detail #2, TY401 (Civic Center). Question was: Are we to reuse existing cabinet or replace/add new. (Submitted: Dec 29, 2019 11:28:24 AM PST) | PROVIDE WALL MOUNTED LOCKABLE CABINET PER KEY NOTE 1 WHERE SHOWN ON EACH FLOOR. |
| 22 | Sheriff's HQ, plan page TY401, detail 3. Are we to reuse existing cabinet(s) or replace/add new? (Submitted: Dec 29, 2019 11:31:52 AM PST) | REUSE EXISTING RACK SPACE WHERE EXISTING EQUIPMENT IS BEING REMOVED PER DETAIL 3A. |
| 24 | Sheriff's HQ TY101 Site: For new camera 012 to be mounted to existing light pole (per schedule) are we to include a new conduit path back the building? (Submitted: Dec 29, 2019 11:54:54 AM PST) | SURFACE MOUNT CONDUIT ON EXISTING GATE POLE, TRENCH TO CARD READER OR GATE CONTROLLER, FOR EXISTING PATHWAY BACK. CLARIFICATION TO BE MADE TO DRAWING AND REISSUED AS ADDENDA. |
| 25 | Sheriff's West Valley, plan page TY401, detail 3 shows a new 42" monitor that doesn't appear on detail 3A, nor does it show on TY301 or TY201. Please advise if this monitor is to be included in our bid and if so, if it is an all in one and wall mounted. (Submitted: Dec 30, 2019 6:01:34 AM PST) | 42" MONITOR ON COLUMN TO BE REMOVED FROM DETAIL. CLARIFICATION TO BE MADE TO DRAWING AND REISSUED AS ADDENDA. |
| 26 | Sheriff's West Valley, plan page TY301 does not appear to correlate with TY401. Can this detail be revised to more accurately reflect what is required? TY401 shows existing monitors and a keyboard. Is there an existing PC that is to be reused? And what about the monitor outside Conference Room 125 | TY301 DETAIL 1, BLOCK DIAGRAM SHOWS SYSTEM REQUIREMENTS, THERE ARE NO CONNECTIONS TO EXISTING KEYBOARD AND MONITOR SHOWN ON TY401 DETAIL 3. TY401 DETAIL 3 SHOWS EXISTING EQUIPMENT TO BE LEFT IN

</table>
All other terms and conditions of ITB-FAF-FY20-0119 remain unchanged.
and other conditions that cannot be readily performed by test personnel. The test staff will record all suspected problems and provide these reports to the test committee.

3. The County’s Representative will make the final determination for all disputed problems.

4. System failure is defined as any portion of the system that fails to operate as intended and cannot be corrected within 24 hours of the failure. Individual device failure such as a single camera will not be a cause for system failure.

3.04 CLEANING

A. Comply with Division 1 requirements.

B. Protect equipment during installation against entry of foreign matter on the inside. Vacuum clean all equipment both inside and outside before testing, operating and painting. Clean electrical connections with a suitable solvent prior to assembly.

C. Remove from the premises and dispose of all packing material and debris on a daily basis.

D. Upon completion of the Work, remove excess debris, materials, equipment, apparatus, tools and the like and leave the premises clean, neat and orderly.

E. Thoroughly polish all bright metal or plated work and remove any pasted labels, dirt or stains from the equipment.

3.05 TRAINING

A. Provide on-site, project-specific, site-specific training sessions for system operations, maintenance, and programming with designated total hour as follows, with direction from County on number of sessions required at two hours minimum each:

<table>
<thead>
<tr>
<th>Operational</th>
<th>Maintenance</th>
<th>Programming</th>

<tr>
<td>1. Electronic Components</td>
<td>0</td>
<td>1</td>
</tr>
<tr>
<td>2. Video Surveillance System (VSS)</td>
<td>8</td>
<td>8</td>
</tr>
</tbody>
</table>

B. All classroom training is to occur on site at a location provided by the County.

C. All training is to review the existing systems as they apply to the equipment and systems provided under this contract.

D. Operational Training:

1. Train security staff in the operation of the System. Operational training shall include how to monitor and control the systems provided under this contract and how to respond to system events.

E. Maintenance Training:
SECTION 28 05 03
SHERIFF HEADQUARTERS SITE

PART 1 GENERAL

1.01 RELATED DOCUMENTS

A. Drawings and general provisions of the Contract, including General and Supplementary Conditions and other Division 1 Specifications, apply to this Section.

1.02 SUMMARY

A. Section Includes:

1. This section provides site specific information for the Sheriff Headquarters located at 50 West Younger St. San Jose CA 95110.
   a. This Site Consists of a 4-floor county building.
   b. This site will serve as the hub for all Sheriff video surveillance projects within its jurisdiction. All systems at this site will be designed to support current projects as well as expandability for future development.

2. Video Surveillance System (VSS) requirements.
   a. Integration of the existing Evidence VSS into the new Milestone VSS.

B. Related Sections:

1. 28 05 00 Common Work Results for Electronic Safety and Security
2. 28 05 02 Civic Center Site
3. 28 05 05 Sheriff West Valley Division Site
4. 28 05 13 Conductors and Cables
5. 28 05 14 Raceways and Boxes
6. 28 05 27 Cabinets, Enclosures and Racks
7. 28 09 00 Electronic Components
8. 28 23 00 Video Surveillance System (VSS)

1.03 SYSTEM DESCRIPTION

A. Provide new Milestone xProtect Corporate VMS and VSS core switch in Tele/Data room 273. The system will connect to the West Valley VSS project and future sites.
B. Provide new PoE network switches on each floor as shown on the drawings.

C. Provide new internal and external cameras as shown on the drawings.
   1. Removal of existing cameras and cables is required as shown on the drawings.
   2. Camera in parking lot may require wireless (RF) and trenching, as shown on the drawings.
   3. Automatic camera call-up to be provided at the Operation’s Desk when the parking lot motion is detected at the parking lot gates.

D. Provide new Network Video Recorder (NVR) for 12 months recording.
   1. Provide adequate storage space for recording both the Sheriff Headquarters and the Sheriff West Valley Division sites.

E. Integrate existing Evidence cameras into the new VSS.
   1. Existing Evidence system is on Milestone xProtect Professional+ 2019 R1.
   2. The existing Evidence cameras will remain in place and be incorporated into the new Milestone VSS.
   3. Existing Evidence recorded video will remain operational and available for one year.

F. Provide one video viewing workstation at the Operation’s Desk room 140.
   1. Provide new all-in-one CPU with 42” monitor, wall mount and wireless keyboard and mouse.

G. Provide one video viewing workstation at Captain’s Office room 175.
   1. Provide new all-in-one CPU with 42” Monitor, wall mount, and wireless keyboard and mouse.

H. Comply with Section 28 23 00.

1.04 SUBMITTALS

A. Comply with Section 28 05 00.

1.05 QUALITY ASSURANCE

A. Comply with Section 28 05 00.
ADDENDUM 5

PART 2 PRODUCTS

2.01 MANUFACTURERS
   A. Comply with Section 28 05 00 and 28 23 00.

PART 3 EXECUTION

3.01 APPLICATION
   A. Comply with Section 28 05 00.

3.02 INSTALLATION
   A. Comply with Section 28 05 00 and 28 23 00.

3.03 FIELD QUALITY CONTROL
   A. Comply with Section 28 05 00.

END OF SECTION
E. Type 4 Camera: Outdoor, Long
   1. Resolution, minimum: 5MP
   2. Lens: Varifocal 30-100 degrees
   3. Enclosure: Vandal resistant, IP66 rated minimum

F. Type 5 Camera: 180, Outdoor
   1. Resolution, minimum: 8+MP
   2. Lens: Varifocal 180 degrees
   3. Enclosure: Vandal resistant, IP66 rated minimum, with sun shield (for wall mounted only)

G. Type 6 Camera: 180, Indoor, Audio
   1. Resolution, minimum: 5MP
   2. Lens: Varifocal 180 degrees
   3. Enclosure: Vandal resistant
   4. Features: Built in microphone

H. Type 7 Camera: 360, Indoor/Outdoor
   1. Resolution, minimum: 4 Lenses, 2MP 8MP total
   2. Lens: 4 Lenses, Varifocal 54-108 degrees
   3. Enclosure: Vandal resistant, IP66 rated minimum
   4. Features: Adjustable head

I. Type 8 Camera: 360, Outdoor
   1. Resolution, minimum: 4 Lenses, 12MP total
   2. Lens: 4 Lenses, Varifocal 54-108 degrees
   3. Enclosure: Vandal resistant, IP66 rated minimum
   4. Features: Adjustable head

2.03 MOUNTS:
   A. Provide mounting hardware, as shown on the Drawings and described herein, and necessary accessories.

2.04 VIDEO MANAGEMENT SOFTWARE
   A. The product specified shall be a software program that provides the installation, administration, and operation of video surveillance systems using H.264/H.265 video compression technology via local networks. The software scans the network and displays all

County of Santa Clara
Communications Department Surveillance Use Policy

Video Cameras Used for Facility Security

This Surveillance Use Policy is for the sole use of the County Communications Department located at 2700 Carol Drive, San Jose, CA.

1. Purpose

The County Communications Department maintains and operates Axis models 1103 and 1140 security cameras at various public locations in and around the Department building and parking lot. The purpose of those security cameras shall be to create a safer environment for all those who visit and work at the Department and to safeguard critical public safety communications equipment at the facility, by having a camera presence on site and generating/recording video of what occurs in the areas the cameras monitor. The purpose shall also be to create images and video clips of potential suspicious or illegal activity, which may be provided to law enforcement personnel or investigative personnel in connection with specific administrative, civil, or criminal investigations (See Sections 2 and 8, below).

2. Authorized and Prohibited Uses

Security cameras shall only be used to monitor the Department lobby and other public areas in and near the Department building, including the parking lot. Video from those cameras shall be available for monitoring 24 hours a day by only Department staff members or authorized designees (see Sections 4 and 8, below), who may review real-time video images to observe traffic entering the facility parking lot and front lobby as well as what occurs in the parking lot and front lobby. During regular business hours Monday through Friday, Department Administration staff shall monitor security camera footage for facility access; at other times Department Dispatch Operations staff shall monitor footage.

Management shall review images or video footage to assist with the safety and security of employees, visitors, and communications systems. Management shall also review footage to assess or investigate unusual, suspicious, or illegal behavior or activities.

Images and video footage shall be used for administrative and law enforcement investigations, as well as to respond to law enforcement inquiries or provide other authorities with images or video clips of potential illegal or suspicious activity. (See Section 8 below).

The security cameras shall be operated in a manner that protects the reasonable privacy interests of employees and the public. To limit any expectation of privacy, a sign shall be posted on-site to indicate the presence of video monitoring. Video monitoring and security cameras shall not violate a reasonable expectation of privacy (e.g., by placing cameras to view up skirts or other clothing, or to look down shirts or other clothing); and shall not be used in areas where there is a reasonable expectation of privacy, such as restrooms, changing rooms, lactation accommodation.
rooms, showers, or other areas where an individual would reasonably expect not to be recorded despite signage on-site indicating the presence of video monitoring. Security cameras shall not be used for personal, non-County purposes.

3. Data Collection

The security cameras shall collect video images and footage of specific areas in and around the Department building and parking lot, including the lobby. The technology shall also collect the date and time associated with the footage.

4. Data Access

Access to the live video footage and images from the security cameras shall be restricted to:

- Communications Director;
- Deputy Director;
- Division Director, Engineering & Technical Services;
- Engineering Manager;
- Chief Dispatchers;
- Engineer and Systems Technicians (complete access), with approval from the Communications Director;
- Administrative staff and Dispatch Operations Supervisors and Seniors (limited access to real-time video footage);
- Other Communications Department positions/individuals designated by the individuals named above or his/her designee as having a County business need to access the information, in compliance with this policy;
- Other County personnel designated in writing by the Communications Director, Deputy Director or their designee if the Director, Deputy Director or designee determines that access is reasonably necessary for a specific criminal, civil, or administrative investigation or action;

All requests to access archived footage shall be approved in writing by only the Communications Director, Deputy Director, or their designees.

5. Data Protection

All recorded data (images/video footage) generated by the security cameras shall be stored in a secure location in the Department’s locked data center room, which shall be accessible to only authorized staff members and shall be configured to prevent unauthorized modification, duplication, or destruction of recorded images.

Access to archived video footage or information shall be limited to authorized individuals who have been granted data access in accordance with this Policy.

County of Santa Clara County Communications Department Surveillance Use Policy - Video Cameras Used for Facility Security  Page 2 of 4  September 2018
6. **Data Retention**

Based on data storage capacity and system requirements, the Department shall retain video data for up to 21 days, unless that video data is copied or otherwise retained relating to a specific administrative or criminal investigation, a Litigation Hold requirement, or another legal requirement to copy and/or retain the video data. At or near the end of the 21-day period, the original video files shall be over-written with the new video images or otherwise destroyed.

7. **Public Access**

The public shall not have direct access to any data captured by the security cameras. To the extent the Department receives a California Public Records Act (CPRA) request, subpoena, or court order for data from the security cameras, the data shall be made public or deemed exempt from public disclosure pursuant to state or federal law. Such requests shall be promptly submitted to the department’s CPRA Coordinator (for CPRA requests) and/or Communications Director or designee (for subpoenas and court orders) for handling in consultation with the Office of the County Counsel. Reasonable efforts shall be made to preserve the data requested until the request has been processed.

8. **Third-Party Data-Sharing**

Third-party data-sharing shall be limited to the following:

- Law enforcement personnel or investigative personnel in connection with a specific administrative, civil, or criminal investigation, with approval of the Communications Director, Deputy Director, or their designees.
- Other third parties as required by law.

For law enforcement agency requests for video footage for a criminal investigation, a written email or letter should be sent to the Communications Director or his/her designee.

To the extent an employee representative seeks video footage regarding a specific claim, allegations, or action against the employee, or a third-party seeks compliance with a court order or subpoena, the request shall be reviewed by the Communications Director or designee with the assistance of the Office of the County Counsel and, if applicable, the Labor Relations Department.

9. **Training**

Department personnel involved in video monitoring shall be appropriately trained and informed of this Surveillance Use Policy. Training on the use of the security camera system and software shall be provided by the Department’s Information Systems Technician or Communications Systems Technician as applicable, or another designee of the Communications Director or Deputy Director.
10. **Oversight**

The Communications Director and, as authorized, his/her designee(s) shall oversee the security camera system to ensure compliance with this Surveillance Use Policy, designate personnel who may access the system, and ensure that access to the video footage complies with authorized uses. The Engineering Manager or other designee of the Communications Director shall be assigned to ensure compliance with this Use Policy.

Any employees found to have violated this Surveillance Use Policy shall be subject to possible discipline. Violations of this Surveillance Use Policy shall be reviewed by the Communications Director, Deputy Director, and/or their designee(s), with the assistance of the Labor Relations Department and the Office of the County Counsel.

Approved as to Form and Legality

Office of the County Counsel
County Government Center
Security Camera Guidelines

2015

Santa Clara County
PURPOSE AND SCOPE

The County of Santa Clara operates a public safety camera system at the County Government Center for the purpose of creating a safer environment for all those who visit and work at county offices in a way that also protects their privacy. Information and images produced by the system are intended only: to assist in the identification and prevention of threats; to assist in identifying, apprehending and prosecuting offenders; to assist in gathering evidence for criminal actions; to help emergency services personnel respond to emergency events; to assist in resolving a citizen or employee complaint or an internal affairs or other county or law enforcement investigation.

Any other use of the data produced by the system is prohibited. This document provides specific guidelines for the operation of the cameras, the storage of captured images, and the dissemination of stored data.

The administration of the security cameras shall be shared by the District Attorney’s Office Bureau of Investigation and the Sheriff’s Office, working in consultation with the County Executive’s Office, individual departments, and the Facilities and Fleet Department (FAF). Both shall ensure that the security cameras are used in an effective, professional and lawful manner consistent with the guidelines contained in this document.
RESPONSIBILITY

Managing the public safety and security for the County Government Center campus is a responsibility that is shared among the County Executive’s Office, FAF, the Sheriff’s Office, and the District Attorney’s Office. The Sheriff’s Office has lead responsibility for the common hallways between the West and East Wing, the Board Chambers and the East Wing building. The District Attorney’s Office Bureau of Investigation has lead responsibility for the security of the West Wing building and parking lots.

The Security Cameras that record the interior of the West Wing of the County Government Building, the cameras that record the parking lots for the County Government Center, and the cameras that record the entrances to the West Wing of the County Government Building shall be under the administration and control of the District Attorney’s Office’s Chief of the Bureau of Investigation. These security cameras shall be referred to as the “District Attorney Security Cameras” in this document.

The remaining Security Cameras, including those that record the interior of the East Wing of the County Government Building, and the entrances and the exterior of the County Government Building, shall be under the administration and control of the Sheriff’s Office. These security cameras shall be referred to as the “County Government Center Security Cameras” in this document.

NOTICE

Appropriate notice must be provided for the use of County Government Center Security Cameras.

Visitors and employees must be made aware of these cameras & monitoring through such means as posting on emergency maps, or having signs posted at the main lobby that tell them security cameras are used on the site.

For new security camera monitoring, the locations, purpose, use of the recordings, and a contact for additional information, must be well communicated to employees in a general communication, unless used as part of a covert investigation.
With the exception of an approved covert investigation, cameras must be in a fixed and visible location.

If third parties will provide parts of the service, they must be bound through contractual privacy clauses.

**MONITORING AND REVIEWING**

The Chief of the Bureau of Investigation and his/her designees, and the Sheriff and his/her designees may administer and monitor the security camera system, grant access to monitor cameras, or review any recording made by the security cameras solely for the specified defined purposes listed below.

Designees will be limited to peace officers or Information Technology staff assigned specifically to this task. Every effort will be made to keep the total number of designees as low as possible within the constraints of ensuring that coverage by trained personnel can be provided for time off by other designees.

Access by designees is further defined as follows:

**Tier One Access** – A “System Administrator” (SA) that has complete access to the security camera system. The SA shall be responsible for system functionality, maintenance, software upgrades, coordination between the District Attorney’s Office and the Sheriff’s Department, and overall operational support for the system. The SA may be a civilian if so agreed upon by the District Attorney and the Sheriff and/or his/her executive management designee.

**Tier Two Access** – Identified staff with system permissions to review both live and historical events as required by one of the defined purposes set forth in these guidelines and with system permissions to download events to other digital medium when required by one of the defined purposes.

**Tier Three Access** – General “live” viewing access given to District Attorney Investigators and Sheriff Deputies for one of the defined purposes set forth below. Such access allows for selectively viewing an appropriate camera, to
adjust the camera to more effectively view a particular area and to view an event from beginning to end. Casual “live” viewing with no authorized purpose is prohibited.

Except for those persons identified in the “Tier 1 – Tier 3 Access”, no others may monitor the security cameras except in the case of an immediate emergency endangering the safety of employees or visitors of the County Government Center or members of the public or as required to maintain the system or train authorized persons. Additionally, District Attorney’s Chief of the Bureau of Investigation and Sheriff or his/her executive management designee may grant access to review historical video from any security camera recording for the specified defined purposes listed below.

**Defined Purposes**

Recorded images may be used for criminal investigations and monitoring of activity around high value or high threat areas. In addition, the public safety camera system may only be used for the following purposes:

a. To assist in the identification and prevention of threats  
b. To assist in identifying, apprehending and prosecuting offenders.  
c. To assist in gathering evidence for criminal court actions.  
d. To help emergency services personnel respond to emergency events.  
e. To assist in resolving a citizen or employee complaint or an internal affairs or other county or law enforcement investigation.  
f. As otherwise required by law.

**Training & Access**

Personnel involved in video monitoring will be appropriately trained, informed of the policies that affect their responsibility, and supervised. Monitors for viewing will be located in secured areas that prevent viewing by unauthorized staff. Periodic audits will be conducted to ensure that all employees are following the procedures and
limitations set forth in these guidelines. Any employees found to have accessed information to which they have not been granted access under these guidelines will be subject to discipline, up to and including termination.
MEDIA STORAGE GUIDELINES

All media will be stored in a secure area with access restricted to authorized persons.

Recordings made by the Security Cameras and not otherwise needed for official reasons and maintained in the normal course of business shall be retained for a period of, no more and no less, than one hundred days unless precluded by limitations of the system storage capacity or unless otherwise required by law. Notwithstanding this provision, recordings made of secured rooms in which contraband, evidence or firearms are located may be retained for a longer period of time.

The Chief of the Bureau of Investigation (for the District Attorney Security Cameras) and the Sheriff (for County Government Center Security Cameras) shall make all reasonable efforts to ensure that no recordings are purged or destroyed prior to this time, and that all recordings are purged or destroyed after this time with the exception of recordings that have been identified as evidence in an ongoing investigation or prosecution.

Recordings that are identified as evidence in an ongoing investigation or prosecution, or recordings of secured rooms in which contraband, evidence or firearms are located, shall be retained as outlined in the “Retention” section of this document. All other recordings shall be purged after one hundred days unless otherwise required by law.

RETENTION

Recordings not otherwise needed for official reasons and maintained in the normal course of business shall be retained for a period as detailed above. All reasonable efforts shall be taken to ensure that no recordings are purged or destroyed prior to this time, and that all recordings are purged or destroyed immediately upon the expiration of this period unless otherwise required by law with the exception of the
following recordings:

a. Any recordings needed as evidence in a criminal, civil or administrative proceeding shall be copied to a suitable medium and booked into evidence in accordance with current departmental evidence procedures (Government Code § 34090.6).

b. Security Camera recordings relating to potential criminal charges that are not filed shall be retained for at least one year after the statute of limitations has expired.

c. Security Camera recordings related to complaints of employee misconduct/Internal Affairs Complaints (whether externally or internally generated) shall be retained in accordance with Penal Code §832.5, or until the matter has been resolved, whichever is later.

d. Recordings made of secured rooms in which contraband, evidence or firearms are located may be retained for a longer period of time.

DISTRIBUTION AND DISCOVERY

Recordings from either District Attorney or County Government Building Security Cameras shall be treated as other forms of direct evidence and subject to discovery and disclosure in accordance with law.

a. No Security Camera Recordings shall be distributed other than indicated above in the absence of a valid court order or pursuant to the laws governing discovery in a criminal prosecution.

b. Due to the heightened privacy concerns associated with a video recording, when appropriate, court orders limiting the public dissemination of Security Camera recordings shall be secured prior to distribution.
PROHIBITED ACTIVITY

The use of security cameras will be conducted in a professional, ethical and legal manner. Security cameras will not be used in areas where there is a reasonable expectation of privacy. Video monitoring shall not be used to harass, intimidate, or discriminate against any individual or group.
Santa Clara County Office of the Sheriff
Surveillance Use Policy for Digital Cameras and Video

1. Purpose

Digital cameras and/or video shall be utilized by Sheriff’s Office personnel to photographically document the physical condition of people, and the physical condition of evidence, locations, or property. In designated areas of the Sheriff’s Office, video cameras are installed to monitor only ingress and egress.

2. Authorized and Prohibited Uses

County digital cameras and video cameras shall only be used for:
- Evidence Collection;
- Safety and security;
- Sheriff’s Office purposes if approved by the Sheriff or designee(s) (e.g., to record events significant to the Sheriff’s Office, such as Academy graduations and deputy-promotion events);
- Other law enforcement or first responder uses not prohibited by law.

County digital cameras and video cameras shall not be used for personal or other non-law enforcement purposes.

3. Data Collection

The following data may be obtained by the use of a digital camera and/or video:
- Digital still images;
- Video;
- Audio.

4. Data Access

Access to recorded data shall be limited to Sheriff’s Office personnel involved in the criminal or administrative investigation, including Sheriff’s Office Executive Command Staff members. As part of administrative cases, access to recordings may be provided to Labor Relations, County Counsel, and others who are authorized by the Sheriff or designee(s) to have access for a legal business reason.

The Sheriff or designee(s) may grant Sheriff’s Office personnel access to recordings of events significant to the Sheriff’s Office, such as Academy graduations and deputy-promotion events.
5. **Data Protection**

Data downloaded from digital cameras and videos shall be maintained in a secure, non-
public location, such as a location requiring security access or badge access.

6. **Data Retention**

Data may be downloaded onto an electronic storage device for purposes of documentation
or evidence in a criminal or administrative investigation. Downloaded, copied, and printed
data for such purposes shall be maintained in accordance with applicable state and federal
laws and Sheriff’s Office policies and procedures. The original data shall be deleted from
the equipment after download no later than 90 days after the original recording.

Data downloaded to document or memorialize significant events to the Sheriff’s Office or
for historical documentation purposes may be retained indefinitely at the discretion of the
Sheriff, and so long as it is not in violation of state or federal law.

7. **Public Access**

Criminal law enforcement videos, photographs and information, and other data from digital
cameras shall be made public or deemed exempt from public disclosure pursuant to state or
federal law. For public requests for data, the Sheriff’s Office shall confer with County
Counsel to determine whether the requested data is exempt from disclosure pursuant to the
California Public Records Act, or is legally required to be disclosed, and shall respond to
requests in compliance with applicable law.

8. **Third-Party Data-Sharing**

Data-sharing from this equipment shall be limited to only the following:

- District Attorney’s Office for use as evidence to aid in prosecution, in accordance with
  laws governing evidence;
- Public Defender’s Office or criminal defense attorney via the District Attorney’s
  Office in accordance with California discovery laws;
- Other law enforcement offices as part of a specific criminal or administrative
  investigation;
- Parties in a civil litigation involving the County, in response to a subpoena or civil
  discovery;
- County Personnel Board, arbitrator, or Court regarding a county administrative action or
  litigation;
- Other third parties, pursuant to a Court Order.

9. **Training**

Training for the operation of the digital camera and/or video cameras shall be provided
by Sheriff’s Office personnel. All Sheriff’s Office personnel with access to this
equipment shall be provided a copy of this Surveillance Use Policy.
10. **Oversight**

Division Commanders for divisions utilizing digital cameras and/or video cameras shall oversee compliance with this Surveillance Use Policy.

Approved as to Form and Legality

Rob Coelho
Office of the County Counsel
2020 Anticipated Impact Report
County of Santa Clara
County Communications
2700 Carol Drive, San Jose, CA
System Camera Additions

Description of Surveillance Technology
The County of Santa Clara Department of Facilities Security is recommending an increase of 5 digital security cameras at the County Communications property to enhance employee, visitor and equipment safety. This facility located on 2700 Carol Drive is an existing facility that currently has 9 working security cameras, all exterior. County Communications has a current approved Surveillance Policy. Cameras will be hardwired, fixed, cameras located on the property attached to the superstructure, parking lot light posts and tower facilities.

The existing Video Surveillance System (VSS) is to be replaced and expanded for better video quality and coverage of the facility’s outdoor areas specifically the communications tower where there are currently only 2 cameras viewing this crucial area. The existing cameras will be incorporated into the new VSS. Video recording will provide recorded video for 100 days.

The existing ExacqVision VSS will be removed and replaced with a Milestone Video Management System (VMS), 5 cameras and video storage. Category 6a data cable will be used to support the cameras. The VSS will be connected to the existing County Milestone Enterprise system maintained by TSS via CLARANET. The existing 9 cameras will remain in place and be incorporated into the new Milestone VMS. A new Network Video Recorder (NVR) will be added as well.

Recording will be 24 hours a day, 7 days a week, utilizing high quality video. The cameras can be viewed in “real time” such that there can be a camera operator observing the cameras. Cameras are currently viewed from the front desk computer stations (2). This will continue after the addition of the 5 new cameras. We will also be providing viewing access to the Dispatch Supervisor Desk, staffed 24/7, because the front desk staff go home at 5 PM.

To the extent motion-detection or event-based triggers are used, cameras will record with 30 seconds of pre- and post-recording. The camera speed will be 15 frames per second and resolution will be 1280p. The system will have a battery back-up, warranted for repairs, have a preventative maintenance program including software updates and will be compatible with County access control. The final prospective camera system and its
related software has been vetted by County TSS to insure the integrity of County servers or related equipment.

**Purpose for the Surveillance Technology**

This increase in cameras will enhance the ability to capture and accurately document incidents which may arise on the exterior. Additional security cameras will increase our awareness which will add to employee and visitor safety. The footage can also be reviewed for post-incident information and evidence gathering.

**Camera Locations**

The five proposed cameras are all exterior cameras and will cover the main entrance gate, the tower field area, the employee parking lot and northern facing perimeter of the actual structure.

**Civil Liberties and Privacy Impact**

The implementation and use of surveillance cameras will not pose a risk to civil liberties. The cameras will not utilize facial recognition nor record audio. The cameras will be lawfully monitored and used. Information collected by the surveillance cameras will be retained for up to 100 days per County requirements. The Director of Facilities Security, Chief Operating Officer and Director of County Communications may access and review recorded data for specific County investigative purposes and to process approved law enforcement requests. No data collected through surveillance cameras will be stored locally on facility computers. Data collected through surveillance cameras that is to be retained for specific investigative purposes will be transferred to an approved storage device immediately. This information will become part of the investigative file, subject to existing protocols for evidentiary retention.

**Fiscal Analysis**

- **Initial one-time purchase cost:** $90,000.00
- **Projected ongoing costs:** $2,000 - Annual preventative maintenance, repairs, software upgrades
- **Projected personnel cost:** $0: No new personnel required
- **Source of funding:** Fund 50. Capital project funding for physical security upgrades
2020 Anticipated Impact Report
County of Santa Clara, Government Center
A Multi-Departmental Facility
70 West Hedding Street, San Jose, CA
Video Surveillance System Security Upgrade

Description of Surveillance Technology

The County of Santa Clara Department of Facilities Security is recommending the use of digital security cameras at the Government Center to provide the most secure environment for our employees and visitors. This multi-departmental facility located on 70 West Hedding is an existing facility that currently has working security cameras on the 3rd, 4th and 5th Floors, Clerk Recorder lobby and walkways, the West Wing, front patio and back parking lot. The East Wing has existing but non-operable cameras that will be replaced. The proposed new system will be an internet protocol camera, or IP camera system. The IP camera system is a type of digital video camera commonly employed for surveillance and unlike analog closed-circuit television (CCVT) cameras, can send and receive data via a computer network. Cameras will be hardwired, fixed and attached to the superstructure. This facility has an approved Surveillance Policy.

The system will be connected to CLARANET for connectivity to the existing Milestone Video Management System (VMS) maintained by TSS and for connectivity to other sites. The existing East Wing Video Surveillance System (VSS) is to be replaced and expanded for better video quality and coverage of the facility’s East Wing 11 floors and outdoor areas. The existing Assessors’ Office (Floors 3, 4 and 5), Clerk Recorder and West Wing cameras will remain in place, and separate, as well as their respective VSS. These cameras were previously installed by the individual departments in prior years. Currently, these departments operate their cameras under their own surveillance policies.

The building’s old non-operable Video Management System (VMS) will be replaced with a Milestone Video Management System (VMS) and 80 cameras. All existing coaxial cable and camera power wiring will be removed and replaced with category 6a data cable to support the new IP based cameras.

Recording will be 24 hours a day, 7 days a week, utilizing high quality video. The cameras can be viewed in “real time” such that there can be a camera operator observing the East Wing cameras only, not the West Wing cameras. A Camera Monitoring Station (CMS) will be set up in the 1st Floor Information Booth. Here, the building assigned Santa Clara County Sheriff’s deputy can actively monitor the cameras or the Facilities
Security Director and Program Manager only. There will be no separate monitoring station for the cameras in the building.

To the extent motion-detection or event-based triggers are used, cameras will record with 30 seconds of pre- and post-recording. The camera speed will be 15 frames per second and resolution will be 1280p. The system will have a battery back-up, warranted for repairs, have a preventative maintenance program including software updates and will be compatible with County access control. The final prospective camera system and its related software has been vetted by County TSS to insure the integrity of County servers or related equipment.

**Purpose for the Surveillance Technology**

This system will enhance the ability to capture and accurately document incidents which arise. A security camera system will increase our awareness which will add to employee and visitor safety. The footage can also be reviewed for post-incident information and evidence gathering.

**Camera Locations**

Internal cameras will provide coverage of the main corridor, stairs, and elevator lobbies per floor. Cameras will not be placed to directly view staff work areas or workstations. The West Wing District Attorney’s Office will receive one new internal camera which will be added to the DA Victim Services lobby. No cameras will be placed in the elevators in the East or West Wings.

Outdoor cameras will provide coverage of the facility’s entrances, exits, stairs, loading dock, front plaza, cafeteria patio and Executive Parking Lot. One camera will be placed inside the parking arm check-in box that allows access to the loading dock. This camera will be able to see the vehicles and drivers entering or requesting entry to our building loading dock area. Existing outdoor cameras will be replaced with all new cameras.

**Civil Liberties and Privacy Impact**

The implementation and use of surveillance cameras will not pose a risk to civil liberties. The cameras will not utilize facial recognition nor record audio. The cameras will be lawfully monitored and used. Information collected by the surveillance cameras will be retained for up to 100 days per County requirements. The Director of Facilities Security, Facilities Program Manager, Chief Operating Officer and Director of Information Technology services may access and review recorded data for specific County investigative purposes and to process approved law enforcement requests. No data collected through surveillance cameras will be stored locally on facility computers. Data collected through surveillance cameras that is to be retained for specific investigative purposes will be transferred to an approved storage device immediately. This information will become part of the investigative file, subject to existing protocols for evidentiary retention.
Fiscal Analysis

Initial one-time purchase cost: $1,300,000.00

Projected ongoing costs: $2,000 - Annual preventative maintenance, repairs, software upgrades

Projected personnel cost: $0: No new personnel required

Source of funding: Fund 50. Capital project funding for physical security upgrades
2020 Anticipated Impact Report
County of Santa Clara
Sheriff’s Headquarters
50 West Younger, San Jose, CA
Sheriff’s West Valley Command
1601 S. DeAnza Blvd, Cupertino, CA
New Video Surveillance Systems

Description of Surveillance Technology

The County of Santa Clara Department of Facilities Security is recommending a new Video Security System at the Sheriff’s Office Headquarters and the Sheriff’s Office West Valley Command. These cameras will enhance deputy and visitor safety. These facilities are located on 50 West Younger, San Jose and 1601 South DeAnza Blvd, Cupertino. Sheriff’s Office has a current approved Surveillance Policy. Cameras will be hardwired and wireless. All cameras will be digital fixed and attached to the facilities superstructure, parking light posts and access control gate.

Sheriff’s Office Headquarters and Cameras Locations

The existing Sheriff’s Headquarters has two (2) existing Video Surveillance Systems (VSS) in-service: 1) Evidence Room and 2) a non-operable analog camera system for the exterior. The existing analog VSS is to be replaced and expanded for better video quality and coverage of the facility’s four floors and outdoor areas.

The existing analog VSS will be removed and replaced with a Milestone VMS, 32 cameras, and video storage. Most if not all existing coaxial cable and camera power wiring will be replaced with category 6a data cable to support the new IP based cameras.

Camera footage has been requested to be stored for 12 months.

Interior cameras will provide coverage of the main lobby, rear employee walk-up and elevator lobby areas. Cameras will not be placed to directly view staff work areas.

Outdoor cameras will provide coverage of the facility’s entrances, exits, employee drive up gate, employee personal vehicle and fleet parking lot and one PG&E. One new camera will be positioned at the face level so the Operations Desk deputy can see who is arriving and requesting entry. This will not be a facial recognition software activated
camera. Strictly, a camera that gets front vehicle and face-shots so the deputy knows who he or she is buzzing into the facility. Existing outdoor cameras will be replaced with all new cameras.

New video workstations will be provided at the Operations Desk and Captain’s Office, both located on the first floor.

**West Valley Command and Camera Locations**

West Valley does not have any current cameras. The facility is a leased facility. Sheriff’s have received approval to install cameras there. The project will utilize the Sheriff’s Headquarters VMS and video recording via the Sheriff’s network. The facility will be provided with approximately 6 new cameras. Category 6a data cable will be used to support the new IP based cameras.

Internal cameras will provide coverage of the main lobby area and rear entrance. Cameras will not be placed to directly view staff work areas.

Outdoor cameras will provide coverage of the facility’s parking area for patrol vehicles and employee’s personal vehicles. One camera in this area will be affixed to light posts and be wireless due to the inability for us to run cable or trench the parking lot. The wireless data network with solar panel and battery will power this camera.

The VSS data network will provide for both real-time viewing and incident review viewing. A new video workstation will be provided at the Administration Sergeant’s Desk located behind the front counters.

To the extent motion-detection or event-based triggers are used, cameras will record with 30 seconds of pre- and post-recording. The camera speed will be 15 frames per second and resolution will be 1280p. The system will have a battery back-up, warranted for repairs, have a preventative maintenance program including software updates and will be compatible with County access control. The final prospective camera system and its related software has been vetted by County TSS to insure the integrity of County servers or related equipment.

**Purpose for the Surveillance Technology**

These cameras installations will enhance the ability to capture and accurately document incidents which may arise at both properties as incident against law enforcement are on the rise. Security cameras will increase our awareness which will add to deputy and visitor safety. The footage can also be reviewed for post-incident information and evidence gathering.

**Civil Liberties and Privacy Impact**
The implementation and use of surveillance cameras will not pose a risk to civil liberties. The cameras will not utilize facial recognition nor record audio. The cameras will be lawfully monitored and used. Footage collected by the surveillance cameras is requested to be stored up to 12 months. The Sheriff of the County, Undersheriff, all three Assistant Sheriffs, Director of Facilities Security and Chief Operating Officer may access and review recorded data for specific County investigative purposes and to process approved law enforcement requests. No data collected through surveillance cameras will be stored locally on facility computers. Data collected through surveillance cameras that is to be retained for specific investigative purposes will be transferred to an approved storage device immediately. This information will become part of the investigative file, subject to existing protocols for evidentiary retention.

2. Pledge of Allegiance.

The Pledge of Allegiance was recited.

Ceremonial Presentations

3. Announce Adjournments in Memoriam. (See Item No. 23)

   a. Adjourn in honor and memory of Scott Ward. (Simitian) (ID# 100771)
The Adjournment was announced.

4. **Commendations and Proclamations. (See Item No. 74)**

No Commendations or Proclamations were presented.

### Public Issues

5. **Public Comment.** (ID# 100955)

Seven individuals addressed the Board.

6. **Approve Consent Calendar and changes to the Board of Supervisors' Agenda.** (ID# 100956)

Two individuals addressed the Board.

Item Nos. 50 and 55 were removed from the Consent Calendar. Item No. 41 was held to April 7, 2020. Item Nos. 81, 82, and 83 were held to April 21, 2020. Item No. 40 was held to date uncertain. Item Nos. 52 and 93 were deleted.

Requests were noted for Item Nos. 42 and 49.

A correction was noted for Item No. 16.

At the request of President Chavez, the Board directed Administration to report to the Board on April 7, 2020 relating to actions taken subsequent to closure of the Receiving, Assessment, and Intake Center.

On motion of Vice Chairperson Wasserman, seconded by Supervisor Ellenberg, the Board voted unanimously to approve the Consent Calendar as amended.

Following the recess after Item No. 14, President Chavez reconvened the meeting at 12:51 p.m. with all members present. On motion of Vice Chairperson Wasserman, seconded by Supervisor Cortese, the Board voted unanimously to reconsider the Consent Calendar.

Supervisor Cortese announced his recusal on Item No. 32.

On motion of Vice Chairperson Wasserman, seconded by Supervisor Ellenberg, the Board voted unanimously to approve the revised Consent Calendar as amended.

7. Approve referral to Administration to take all necessary actions to expeditiously allocate $2,000,000 to the Silicon Valley Community Foundation with equal matching funds from the City of San Jose to support the Santa Clara County COVID-19 Coronavirus Regional Response Fund. (Chavez/Cortese) (ID# 100880)

At the request of Supervisor Cortese, the Board directed Administration to appropriately track expenditures where feasible to maximize potential reimbursement from the Federal and State governments.

**7 RESULT:** APPROVED [UNANIMOUS]
**MOVER:** Dave Cortese, Supervisor
**SECONDER:** Cindy Chavez, President
**AYES:** Wasserman, Chavez, Cortese, Ellenberg, Simitian

8. Consider recommendations relating to the allocation of $1,000,000 to the Silicon Valley Community Foundation to support the COVID-19 Coronavirus Nonprofit Support Fund, and a temporary increase in indirect rates for all contracted nonprofit organizations. (Cortese/Chavez) (ID# 100886)

Possible action:

a. Approve referral to Administration to take all actions necessary to expeditiously allocate $1,000,000 to the Silicon Valley Community Foundation to support the Santa Clara/San Mateo County COVID-19 Coronavirus Nonprofit Support Fund.

b. Approve referral to Administration to report to the Board of Supervisors on April 7, 2020 with analysis and recommendations related to increasing the indirect rates of all nonprofit contracted agencies for a three-month or other temporary period.

Thirteen individuals addressed the Board.

At the request of Supervisor Cortese, the Board directed Administration to appropriately track expenditures where feasible to maximize potential reimbursement from the Federal and State governments.

**8 RESULT:** APPROVED [UNANIMOUS]
**MOVER:** Dave Cortese, Supervisor
**SECONDER:** Cindy Chavez, President
**AYES:** Wasserman, Chavez, Cortese, Ellenberg, Simitian

9. Approve referral to Administration to report to the Board on April 7, 2020 with the necessary actions to immediately allocate $1,000,000 in additional funding to the Santa Clara County Homelessness Prevention System to address the expected increase in at-risk families seeking temporary rent assistance due to the financial impacts of COVID-19. (Ellenberg) (ID# 100884)
9 RESULT: DELETED

10. Approve referral to Administration to report to the Board on May 12, 2020 (or as soon as practicable thereafter) with an update on: The status of the June 13, 2019, Notice of Violation issued to Lehigh Southwest Cement Company for failure to control sedimentation, and failure to comply with approved Reclamation Plan Conditions of Approval. (Simitian) (ID# 100797)

10 RESULT: APPROVED [UNANIMOUS]
MOVER: S. Joseph Simitian, Supervisor
SECONDER: Mike Wasserman, Vice President
AYES: Wasserman, Chavez, Cortese, Ellenberg, Simitian

11. Approve referral to Administration to report to the Board of Supervisors on May 5, 2020 (or as soon as practical thereafter) regarding options for a Community Health Worker program that would provide outreach to the Asian and Pacific Islander (API) community and reduce health disparities, especially for those experiencing significant barriers to receiving healthcare services. (Simitian) (ID# 100905)

One individual addressed the Board.

At the request of President Chavez and Supervisor Simitian, the Board directed Administration to partner with the Office of LGBTQ Affairs and other relevant County offices relating to effective messaging with the API community.

11 RESULT: APPROVED [UNANIMOUS]
MOVER: S. Joseph Simitian, Supervisor
SECONDER: Dave Cortese, Supervisor
AYES: Wasserman, Chavez, Cortese, Ellenberg, Simitian

12. Receive report from County Executive.

Jeffrey V. Smith, County Executive, provided information relating to the ongoing County response to COVID-19, including intra-County operations and coordination of resources and efforts with other local, state, and federal agencies. Mr. Smith noted challenges facing the County and community and expressed gratitude to the Board, volunteers, and employees, including emergency services personnel.

12 RESULT: RECEIVED

13. Receive report from Public Health Officer relating to COVID-19. (ID# 100930)

Three individuals addressed the Board.
Sara H. Cody, M.D., County Health Officer, provided information relating to COVID-19, including current statistics, importance of and challenges to testing, County priorities, and supportive action.

Ky Le, Director, Office of Supportive Housing, provided information relating to the framework and status of temporary shelters, other supportive activities, and priorities moving forward.

Mr. Smith provided information relating to an historical perspective of pandemics, challenges presented with COVID-19, and the County's local, state, and national leadership role, including the work of Dr. Cody.

Paul Lorenz, Chief Executive Officer, Santa Clara Valley Health and Hospital System, provided information relating to County and individual hospital surge capacity plans.

Supervisor Cortese requested that Administration report to the Board on date uncertain relating to COVID-19 test results, particularly as information becomes available as a result of the March 24, 2020 County Public Health Officer Order that requires laboratories testing for COVID-19 to report all test results, including positive, negative, and inconclusive; and, dashboards for distribution to the public that cross-reference the data for context, including future projections to the extent responsible information can be provided.

Supervisor Ellenberg requested that Administration report to the Board on date uncertain relating to disparities in the volume of testing conducted by the County of Santa Clara and the State of New York.

Supervisor Ellenberg requested that Administration provide an off-agenda report to the Board on date uncertain relating to the Food Task Force, including an overview of operations, capacity, and any unmet needs, including options to address unmet needs; and, messaging relating to volunteer recruitment, including the nature of the work and potential distribution of food within the community, eligibility, and precautionary measures for protecting volunteers.

President Chavez requested that Administration include the Board on distribution of newsletters relating to actions taken to protect the County workforce, and distribute press releases to the Board concurrent with press distribution; and, create a grid that demonstrates the capacity of all hospitals in the County, including the names of organizations with whom the County shares medical supplies.

President Chavez further requested that Administration provide a daily report to the Board relating to food distribution, food distribution center locations, and available resources; and, that Administration report to the Board by March 27, 2020 relating to all contracts to be signed during the shelter-in-place period, and requested that Administration consider contracts with third-party vendors who share the County's goal of preventing the spread of COVID-19.
14. Consider recommendations relating to the Valley Homeless Healthcare Program. (Ambulatory and Community Health Services, Santa Clara Valley Medical Center) (ID# 100758)

Possible action:

a. Approve operational report from Health Resources and Services Administration (HRSA) Project Director.

b. Approve quarterly update on VHHP activities and Homeless Patient and Family Advisory Team.

c. Approve Sliding Fee Discount Program Policy and Fee Schedule for Homeless Patients.

Three individuals addressed the Board.

President Chavez recessed the meeting at 12:35 p.m.

14 RESULT: APPROVED [UNANIMOUS]
MOVER: Susan Ellenberg, Supervisor
SECONDER: Dave Cortese, Supervisor
AYES: Wasserman, Chavez, Cortese, Ellenberg, Simitian

Taken out of order after Item No. 6 was reconsidered.

At the request of President Chavez, the Board directed Administration to consider other mechanisms and opportunities to fund the Child Advocacy Center (CAC), particularly ongoing federal funding; provide a work plan and timeline for the CAC, including information relating to challenges or barriers that need to be addressed; and, provide an off-agenda report to the Board as soon as practicable relating to a study of the Office of the District Attorney Victim Services Unit Program Manager position for the Child Advocacy Center.

15 RESULT: RECEIVED [UNANIMOUS]
MOVER: Susan Ellenberg, Supervisor
SECONDER: Dave Cortese, Supervisor
AYES: Wasserman, Chavez, Cortese, Ellenberg, Simitian
16. Adopt Urgency Ordinance No. NS-9.287 establishing a temporary moratorium on evictions resulting from the Novel Coronavirus (COVID-19) Emergency within Santa Clara County and declaring urgency thereof, to take effect immediately. The adoption of this ordinance is exempt from the California Environmental Quality Act pursuant to Sections 15060(c)(2) and 15378 of the CEQA Guidelines. (Urgency, Vote to waive reading, 4/5 Vote to adopt) (Office of the County Counsel) (ID# 100945)

This Urgency Ordinance imposes a temporary moratorium on evictions in Santa Clara County for non-payment of rent by residential and commercial real property tenants directly impacted by the COVID-19 pandemic and sets forth the facts constituting such urgency.

Sixteen individuals addressed the Board.

At the request of President Chavez, the Board directed County Counsel to collaborate with Administration to translate frequently asked questions regarding temporary moratorium on evictions into multiple languages as soon as possible.

At the request of President Chavez, the Board further directed Administration to determine the feasibility of enabling online dispute resolution services between landlord and tenant, and to consider partnering with the courts for possible mediation resolution if electronic dispute resolution services are not possible.

16 RESULT: ADOPTED [UNANIMOUS]
MOVER: S. Joseph Simitian, Supervisor
SECONDER: Mike Wasserman, Vice President
AYES: Wasserman, Chavez, Cortese, Ellenberg, Simitian

17. Consider recommendations relating to the Revised Fiscal Year 2020-2021 Budget process. (ID# 100889)

Possible action:

a. Approve Administration's recommendation to provide the Board of Supervisors with the Fiscal Year 2020-2021 Recommended Budget no later than June 15, 2020.

b. Approve Administration's recommendation to direct the Clerk of the Board to cancel the Budget Workshop and prepare for an expanded Budget Hearing during the week of August 17, 2020.

c. Approve the Revised Budget-related Request for Information Process.

Supervisor Ellenberg requested that the Board consider setting a cap on the maximum amount of inventory items per district. She further requested that each District submit a list of their top five policy priorities to the Finance and Government Operations Committee (FGOC) for review, and that the FGOC draft a single statement of goals for subsequent Board approval.
Supervisor Simitian requested that County Counsel provide an off-agenda report to the Board on date uncertain providing clarification of the requirements of the County Budget Act and the revisions to the milestone dates in the County’s budget adoption process, including the proposed action to accept the Recommended Budget in June 2020 versus the action to adopt the final budget in August 2020.

President Chavez requested that Administration identify a mechanism for the Board to hold a scaled-down budget hearing prior to June 23, 2020, and schedule a priority setting session in August or September 2020.

18. Held from March 10, 2020 (Item No. 44): Consider recommendations relating to leases at 333 and 373 West Julian Street, San Jose for tenant improvements. (Social Services Agency) (ID# 97734)

Possible action:

b. Approve the acquisition of new surveillance cameras for the Julian Street Campus and adopt finding that the benefits of the surveillance technology outweigh the costs pursuant to Section A40-4 of the Santa Clara County Ordinance Code.

c. Approve the Social Service Agency’s existing Surveillance Use Policy for the new surveillance cameras.

d. Approve Fourth Amendment to Lease Agreement with SI 42, LLC relating to providing tenant improvements to the premises located at 333 West Julian Street, increasing the maximum contract amount by $2,057,658 from $167,408,089 to $169,465,747, with no change to the term of the agreement, that has been reviewed and approved by County Counsel as to form and legality.

e. Approve Third Amendment to Agreement with SI 42, LLC relating to providing tenant improvements to the premises located at 373 West Julian Street, increasing the maximum contract amount by $1,677,550 from $167,842,728 to $169,520,278, with no change to the term of the agreement, that has been reviewed and approved by County Counsel as to form and legality.

f. Approve request for Appropriation Modification No. 64 - $3,700,000 transferring funds from the Social Services Agency budget to the Facilities and Fleet Department budget relating to improvement costs at 333 and 373 West Julian Street, San Jose. (4/5 Vote)
g. Approve delegation of authority to the County Executive, or designee, to manage the Leases, including extension options, and negotiation of the final scope and price with the Landlord for the tenant improvements, within the terms of the Lease as approved by the Board of Supervisors, following approval by County Counsel as to form and legality. Delegation of authority shall expire upon the latter of the expiration of the leases or July 31, 2041.

Three individuals addressed the Board.

**18 RESULT:** APPROVED [UNANIMOUS]
**MOVER:** Dave Cortese, Supervisor
**SECONDER:** Susan Ellenberg, Supervisor
**AYES:** Wasserman, Chavez, Cortese, Ellenberg, Simitian

19. Consider items previously removed from the Consent Calendar.

See Item Nos. 50 and 55.

20. Announcement prior to recess to closed session.

Two individuals addressed the Board.

James R. Williams, County Counsel, announced that the Board will meet in Closed Session to discuss Item Nos. 1 through 3, as listed on the Closed Session discussion agenda for the March 24, 2020 meeting.

Mr. Williams identified John P. Mills, Director of the Employee Services Agency, as the County's labor negotiations representative for Closed Session Item No. 2.

Mr. Williams asked if any Board Member had a conflict of interest with any item on the Closed Session agenda for which they needed to declare their recusal. No recusals were declared.

**Closed Session**

21. Closed Session Items. (ID# 100940)

The Board recessed to Closed Session at 3:32 p.m.

**Closing**

22. Receive report from County Counsel on legal issues and Closed Session.

President Chavez reconvened the meeting at 4:02 p.m. with all members present.

Mr. Williams stated that there were no reportable actions taken at the March 24, 2020 Closed Session meeting.

**22 RESULT:** RECEIVED
23. Adjourn. (See Item No. 3)

President Chavez adjourned the meeting at 4:03 p.m.

Consent Calendar - Items will be considered under Item No. 6. Items removed from the Consent Calendar will be considered at the end of the regular agenda.

24. Minutes Approval:

   a. Approve minutes of the March 9, 2020 Regular Meeting: Presentations and Closed Session.

   24.a RESULT: APPROVED [UNANIMOUS]
   MOVER: Mike Wasserman, Vice President
   SECONDER: Susan Ellenberg, Supervisor
   AYES: Wasserman, Chavez, Cortese, Ellenberg, Simitian

   b. Approve minutes of the March 10, 2020 Regular Meeting.

   24.b RESULT: APPROVED [UNANIMOUS]
   MOVER: Mike Wasserman, Vice President
   SECONDER: Susan Ellenberg, Supervisor
   AYES: Wasserman, Chavez, Cortese, Ellenberg, Simitian

Social Services Agency

25. Approve Request for Appropriation Modification No. 169 - $463,194 transferring funds within the Social Services Agency budget, relating to the Educational Opportunity and Attainment program. (ID# 100522)

Office of Supportive Housing

55. Under advisement from October 8, 2019 (Item No. 23): Consider recommendations relating to establishing a temporary shelter program at the Civic Center. (ID# 99112)

Possible action:

a. Approve Request for Appropriation Modification No. 171 - $2,815,250 transferring funds from the General Fund Contingency Reserve to the Office of Supportive Housing and the Facilities and Fleet Department budgets relating to temporary shelter for homeless people. (4/5 Vote)

b. Approve delegation of authority to the County Executive, or designee, to negotiate, execute, amend, or terminate agreement with Amigos de Guadalupe relating to providing a motel shelter program for homeless families with children in an amount not to exceed $2,544,000 and a contract term that starts no earlier than April 1, 2020 and ends no later than September 30, 2022, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on September 30, 2022.
c. Approve delegation of authority to the County Executive, or designee, to negotiate, execute, amend, or terminate a contract with Amigos de Guadalupe relating to providing supportive services and site operations management at the Civic Center site for unhoused adults in an amount not to exceed $1,226,250 and a contract term that starts no earlier than April 1, 2020 and ends no later than September 30, 2022, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on September 30, 2022.

d. Approve delegation of authority to the County Executive, or designee, to negotiate, execute, amend, or terminate a contract with Pallet relating to purchase of shelter structures in an amount not to exceed $250,000 and a contract term that starts no earlier than April 1, 2020 and ends no later than March 31, 2021, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on March 31, 2021.

e. Approve delegation of authority to the County Executive, or designee, to negotiate, execute, amend, or terminate a contract with Project WeHope relating to provision of program hygiene services in an amount not to exceed $440,000 and a contract term that starts no earlier than April 1, 2020 and ends no later than September 30, 2022, following approval by County Counsel as to form and legality, and approval by the Office of the County Executive. Delegation of authority shall expire on September 30, 2022.

f. Approve establishment of Capital Project 263-CP20017 "Temporary Shelter at Civic Center."

g. Pursuant to County Ordinance Code section C22-7, grant a waiver of the toilet and bathing facilities requirements in County Ordinance Code section C22-3(7) for the temporary shelter program at the Civic Center after finding that, under the circumstances, compliance with the modified requirements will adequately provide for the health and safety of the shelter residents and the public.

Removed from the Consent Calendar at the request of President Chavez.

Three individuals addressed the Board.

At the request of Supervisor Cortese, the Board directed Administration to report to the Board on date uncertain relating to a program that will provide assistance for individuals without a referral from the Office of Supportive Housing, and further evaluation of the Thompson Court facility in Milpitas as a possible shelter site.

The Board approved the item, excluding certain portions specific to the Civic Center site.

At the request of Supervisor Chavez, the Board directed Administration to proceed with housing homeless families in motels and report to the Board on April 7, 2020 with
options for a less costly temporary shelter for families at the Civic Center, including optional sources of electricity.

Attest:

_______________________________
Megan Doyle, Clerk
Board of Supervisors
(pd/fs/ng)
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Robert Menicocci, Social Services Agency Director
SUBJECT: First Amendment - Alum Rock Counseling Center - Parent Advocate Services

RECOMMENDED ACTION
Approve First Amendment to Agreement with Alum Rock Counseling Center relating to providing Parent Advocate Services increasing the maximum contract amount by $70,050 from $280,198 to $350,248 with no change to the term of the Agreement, that has been reviewed and approved by County Counsel as to form and legality.

FISCAL IMPLICATIONS
There is no negative impact to the County General Fund as a result of the Recommended Action. The funding for the Recommended Action is included in the Agency’s Fiscal Year (FY) 2019-2020 Adopted Budget. No additional revenue or expenditure appropriation is needed.

CONTRACT HISTORY
On November 15, 2018, the Social Services Agency (SSA) released a Request for Proposal (RFP) for Parent Advocate Services (RFP-SSA-FY19-0011). Alum Rock Counseling Center was selected for the contract award.

On May 21, 2019, the Board of Supervisors (Board) approved the original Agreement between SSA and Alum Rock Counseling Center for the provision of Parent Advocate Services in the amount of $280,198 for period July 1, 2019, to June 30, 2020, with the option of four additional one-year terms.

REASONS FOR RECOMMENDATION
The mission of SSA is to provide resources and opportunities in a culturally responsive manner to enhance the quality of life in our community by protecting, educating, and empowering individuals and families. In alignment with this mission, Parent Advocate Services provides individualized advocacy and mentoring to support parents in family reunification and family maintenance to foster hope during an often overwhelming, painful, and confusing process.
In accordance with Board Policy 5.3.5.1, the Board is the only body with the authority to enter into contracts and issue solicitations on behalf of the County, unless contracting authority has been specifically delegated to someone other than the Board pursuant to State law, County Ordinance Code, resolution or express action of the Board.

SSA is requesting approval of the First Amendment to this Agreement with Alum Rock Counseling Center to provide Parent Advocate Services. This Amendment will increase the maximum contract amount by $70,050 from $280,198 to $350,248 with no change to the term of the Agreement.

**CHILD IMPACT**

The recommended action will have a positive impact on the Safe and Stable Families indicator by providing a Parent Advocate to parents struggling with the child welfare system.

**SENIOR IMPACT**

The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

Parent Advocate Services provides support and information to parents, to help them understand the child welfare system and cope with crises concerning child abuse and neglect. Having successfully navigated the Department of Family and Children’s Services (DFCS) Child Welfare System, the Parent Advocate Services provides individualized advocacy mentoring for families while they are receiving child welfare services, both in family reunification and family maintenance.

Parent Advocates support parents by serving as advocates and mentors to families dealing with family disruption and turmoil. Working collaboratively with the family’s social worker, they assess families for referrals to community resources and programs, assist the families in accessing services by providing transportation and linguistic services, and support parents during transition of children back into the home. Contract provisions extend services for a maximum of 18 months.

**CONSEQUENCES OF NEGATIVE ACTION**

The Department of Family Children Services will not amend the contract to provide individualized advocacy and mentoring to support parents in family reunification and family maintenance through Parent Advocate Services.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board will notify Jorge Montes, Alana Rainville, and Nancy Tran from the SSA following the processing of the legislative file.

FIRST AMENDMENT TO THE CONTRACT BETWEEN THE COUNTY OF SANTA CLARA AND ALUM ROCK COUNSELING CENTER

This is the First Amendment to the Contract between the County of Santa Clara (COUNTY) and Alum Rock Counseling Center (CONTRACTOR) entered into on July 1, 2019, for the provision of Parent Advocate Services. The original contract was approved by the Board on May 21, 2019.

This Contract is amended as follows:
Effective April 7, 2020, the parties agree to comply with the provisions contained in the following exhibits, which are attached hereto and made a part of the Contract.

1. Replace Article IV, #14. COUNTY DATA AND COUNTY CONFIDENTIAL INFORMATION, which is attached hereto and incorporated herein by this reference.
2. Replace Exhibit A: Program Provisions with Exhibit A-1: Program Provisions, which is attached hereto and incorporated by this reference.
3. Replace Exhibit B: Work Plan – Logic Model with Exhibit B-1: Work Plan – Logic Model, which is attached hereto and incorporated by this reference.
4. Replace Exhibit C: Budget with Exhibit C-1: Budget, which is attached hereto and incorporated herein by this reference.
5. Replace Exhibit D: Scope of Service – Staffing with Exhibit D-1: Scope of Service, which is attached hereto and incorporated herein by this reference.

All other terms and conditions of the Contract remain in full force and effect. In the event of a conflict between the original Contract and this Amendment, this Amendment controls.

IN WITNESS WHEREOF, COUNTY and CONTRACTOR hereby agree to the terms of this Amendment to the Contract.

COUNTY OF SANTA CLARA

Contract General Terms and Conditions

Article IV
Statutes, Regulations, and Policies

14. COUNTY DATA & COUNTY CONFIDENTIAL INFORMATION

a. “County Confidential Information” shall include all material, non-public information (including material, non-public County Data) appearing in any form (including, without limitation, written, oral or displayed), that is disclosed, directly or indirectly, through any means of communication by County, its agents or employees, to Contractor, its agents or employees, or any of its affiliates or representatives.

b. “County Data” shall mean data and information received by CONTRACTOR from the County. County Data includes any information or data that is transported across a County network, or that resides in a County-owned information system, or on a network or system under the control and management of a contractor for use by County. As between CONTRACTOR and County, all County Data shall remain the property of the County.

c. CONTRACTOR shall not acquire any ownership interest in the County Data or County Confidential Information. CONTRACTOR shall not, without the County’s written permission consent, use or disclose the County Data other than in performance of its obligations under this MOU.

d. CONTRACTOR shall be responsible for establishing and maintaining an information security program that is designed to ensure the security and confidentiality of County Data; protect against any anticipated threats or hazards to the security or integrity of County Data, protect against unauthorized access to or use of County Data that could result in substantial harm or inconvenience to the County or any end user. Upon termination or expiration of this Agreement, Contractor shall seek and follow County’s direction regarding the proper disposition of County Data and County Confidential Information.

e. CONTRACTOR shall take appropriate action to address any incident or unauthorized access to County Data, including addressing and/or remedying the issue that result in such unauthorized access, notifying the County as soon as possible, and no later than 24 hours, of any incident of unauthorized access to County Data, or any other breach in CONTRACTOR’s security that materially affects the County or end uses; and be responsible for ensuring compliance by its officers, employees, agents, and subcontractors with the confidentiality provisions herein. Upon discovering any breach or incident that could impact the County, whether caused by Contractor, its officers, employees, contractors or agents or others, the Contractor shall notify the ISO at o365-iso-team@sccconnect.onmicrosoft.com within 24 hours. Contractor shall also comply with all of its other obligations in this Agreement. Should confidential and/or legally protected County Data be divulged to unauthorized third parties, CONTRACTOR shall comply with all applicable federal and state laws and regulations, including but not limited to California Civil Code Sections 1798.29 and 1798.82 at
CONTRACTOR’s sole expense (if applicable). CONTRACTOR shall not charge the County for any expense associated with CONTRACTOR’s compliance with the obligations set forth in this section.

f. CONTRACTOR must require its employees and all persons performing services at its direction to comply with all applicable privacy laws and regulations, including but not limited to the provisions of Sections 827 and 10850 et seq. of the Welfare and Institutions Code (WIC) and California Department of Social Services (CDSS) Manual of Policies and Procedures, Division 19 Regulations.

g. Upon the disclosure of confidential information, inadvertent or otherwise, the COUNTY may terminate this MOU immediately and take legal action against CONTRACTOR. Any person who knowingly and intentionally violates the provisions Stated above is guilty of a misdemeanor and the COUNTY intends to prosecute such violators to the full extent of the law.

h. CONTRACTOR will inform all employees, agents, officers, and all persons performing services at its direction of the above provisions. All provisions of Article IV, Section 4 survive the termination of this MOU.
CONTRACTOR: Alum Rock Counseling Center

PROGRAM/PROJECT NAME: Parent Advocate Services

1. SCOPE OF WORK
CONTRACTOR will provide Parent Advocate Services to support parents in family reunification and family maintenance. CONTRACTOR will assign a Parent Advocate to clients referred from the Department of Family and Children's Services (DFCS). Parent Advocates must meet the qualifications listed in this contract. Clients may receive services for a maximum of 18 months. Exhibit B-1: Work Plan – Logic Model and Exhibit D-1: Scope of Service included with this Contract provides additional information and data pertaining to program activities and services, program goals, outcomes, and performance measures.

2. DELIVERABLES
a. Invoices
CONTRACTOR will submit invoices in a format approved by COUNTY and as outlined in Section 6 of this Exhibit. Invoices must be signed by the CONTRACTOR.

If CONTRACTOR does not provide any services for any month(s) during the term of this Contract, CONTRACTOR will submit a zero claim on the COUNTY’s designated invoice form.

b. SSA Outcome Measurement Reporting
CONTRACTOR will submit a quarterly report as outlined in Section 7 of this Exhibit and Exhibit B-1: Work Plan – Logic Model.

3. TERM OF CONTRACT
The term begins on July 1, 2019, and expires on June 30, 2020, unless terminated earlier or otherwise amended; with four one-year extension options.

4. MAXIMUM FINANCIAL OBLIGATION
COUNTY will reimburse CONTRACTOR actual allowable expenditures subject to the provisions of this Contract, for a total not to exceed $350,248 for Fiscal Year 2020.

5. BUDGET CONTINGENCY
This Contract is contingent upon the appropriation of sufficient funding by the County for the services covered by this Contract. Notwithstanding the termination provisions set forth herein, if funding is reduced or depleted by the County for services covered by this Contract, the County has the option to either terminate this Contract without notice (except that necessary to transition clients in the discretion of the County) and with no liability occurring to the County, or to offer an amendment to this Contract indicating the reduced amount.
6. **COMPENSATION TO CONTRACTOR**
   
a. **Cost Reimbursement Contract**
   
   CONTRACTOR will be reimbursed by COUNTY for its actual, reasonable, necessary, and allowable costs incurred up to the maximum compensation, for the performance of services as specified in this contract. These costs will also be in accordance with current cost principles and with all other requirements of this contract:
   
   1. For Non-Profit Agencies, OMB Circular A-122.
   2. For Local Governments, OMB Circular A-87.
   
   (i) If CONTRACTOR provides any tasks, deliverables, goods, services, or other work, other than as specified in this contract, the same will be deemed to be a gratuitous effort on the part of the CONTRACTOR, and the CONTRACTOR will have no claim whatsoever against COUNTY.
   
b. **Cost Reimbursement Claim**
   
   CONTRACTOR must submit to COUNTY a cost reimbursement claim in a form approved by COUNTY, by the tenth (10th) working day of each month for services performed during the preceding month.
   
   (i) Prior to submittal, cost reimbursement claims must be certified and signed by a responsible officer of CONTRACTOR with authority to certify that the information submitted by CONTRACTOR is accurate and CONTRACTOR is entitled to payment under the terms of the contract. COUNTY may rely on said certification in making payment, but this payment will not constitute a waiver of any of COUNTY’s legal rights or objections.
   
   (ii) If the cost reimbursement claim is in proper form and the items billed are payable under this contract, COUNTY will make payment to CONTRACTOR within twenty-one (21) working days after receipt of the cost reimbursement claim.
   
   (iii) COUNTY will not be required to make payment if the amount claimed is not in accordance with the provisions of this contract. All payments under this contract will be made directly to CONTRACTOR as a corporate entity. Under no circumstances will COUNTY be required to make payments in any amount pursuant to this contract to any other parties, including individual employees or creditors of CONTRACTOR.
   
   (iv) COUNTY is not obligated to reimburse CONTRACTOR for any expenditure not reported to COUNTY within sixty (60) calendar days after the end of the last month of the contract term.
   
7. **OUTCOME MEASUREMENT REPORTING**
   
   This contract requires SSA’s performance and outcome measurement reporting in order to demonstrate the impact of services on client populations. CONTRACTOR shall monitor, measure and report on the service outputs and outcomes outlined in
Exhibit A-1: Program Provisions

Exhibit B-1: Work Plan – Logic Model.

CONTRACTOR must submit to COUNTY a quarterly report using the form provided by the COUNTY. Instructions and training to complete the form can be found on https://www.sccgov.org/sites/ssa/dfcs/Pages/partners_training.aspx.

CONTRACTOR must submit the report by the tenth (10th) working day after each quarter for services performed during the preceding quarter.

Quarterly Program Reports

CONTRACTOR will submit Quarterly Program Reports no later than the following dates:

1. October 15, 2019
2. January 15, 2020
3. April 15, 2020
4. July 15, 2020

8. SERVICE PROVIDED
   a. CONTRACTOR must inform COUNTY of services and activities performed under this Contract and accept appropriately referred clients from the COUNTY for contract services as part of CONTRACTOR’s client base.
   
   b. CONTRACTOR must coordinate services with other organizations providing similar services in order to foster community cooperation and avoid unnecessary duplication of services.

9. CONTRACT REPRESENTATIVES
   a. CONTRACTOR designates Steve Eckert, Chief Executive Officer, as CONTRACTOR’s representative for the purpose of performing the services as required by this Contract. Unless otherwise indicated in writing, the above named person has the primary authority and responsibility to carry out this Contract.
   
   b. COUNTY designates the Director of Social Services Agency, or designee, as its representative for the purpose of managing the services performed pursuant to this Contract.

10. NOTICES
    All notices prescribed by this Contract will be in writing and deemed effective if sent by certified mail or registered mail and properly deposited with the United States Postal Service, postage prepaid with return receipt requested and addressed as follows:

    a. To COUNTY:
       Social Services Agency
       Office of Contracts Management
       333 West Julian Street
       San Jose, California 95110-2335
b. To CONTRACTOR: Alum Rock Counseling Center  
Steve Eckert, Chief Executive Officer  
777 N. First Street, Suite 444  
San Jose, CA 95112

11. **COUNTY’S CONTRACT TRANSITION PROCESS**  
CONTRACTOR agrees to provide all information deemed necessary by the County for use in subsequent procurement cycles.
## Logic Model - Parent Advocate Services

**A. Contract Goal:**
Parent Advocates will provide crisis and on-going, time limited, support and information to DFCS referred clients; Parent Advocates will help parents as they navigate through the child welfare system.

### B. Situation
Placement stability and safety of children in the care of the parent(s) should be improved by providing the parent(s) with services designed to assist them in their reunification efforts. With Parent Advocate support the parent(s) should increase understanding of various assessments and case planned activities, attending support groups, providing mentoring services, and providing referrals to community programs.

### C. Activities/Services
- **Intake (Consents, Agreement to Services, & Review of Court Ordered Plan):**
  - 150 Clients
  - 150 Sessions

- **Individual Service Plan:**
  - 113 Clients
  - 113 Sessions

- **Case Management, Case Plan Support, Linkage and Referrals:**
  - 113 Clients
  - 2,700 Sessions

- **Child Family Team Meetings & Social Worker support meetings:**
  - 113 Clients
  - 226 Sessions

### D. Output

<table>
<thead>
<tr>
<th>D1. # of unduplicated clients/families served per FY</th>
<th>D2. # of Outputs per FY</th>

</tr>
</tbody>
</table>

### E. Short/Long Term Outcome Measures

- **75% of clients who accept services will be enrolled within 14 days of receipt of referral from DFCS Contract Monitor.**
- **75% of clients who discharge from the program will report on the Parent Advocate Supplemental Questionnaire agreement in having the ability to navigate and access resources as a result of participation in the program.**
- **75% of clients who discharge from the program report on the Parent Advocate Supplemental Questionnaire agreement in having the tools and resources to maintain their child’s safety and prevent re-entry to DFCS as a result of participation in the program.**
- **60% of clients will successfully complete the program by reunifying with the families by program completion.**
**Agency Name:** Alum Rock Counseling Center  
**Contract Period:** July 1, 2019 - June 30, 2020  
**Project Name:** Parent Advocate Services

*Direct Costs* are those costs for activities or services that benefit “specific projects” and are usually charged directly to projects on an item-by-item basis.

**These expense accounts are examples only. Vendors are not required to use these.

***Indirect Costs** are costs incurred for a common or joint purpose benefiting more than one cost objective and are not readily identified with a particular grant, contract, project function or activity. Enter only total amount under the Administrative Overhead.

****The Grand Total for Column "D" should equal Total Funding Resources of Column "B" in the Resource Table.

If there are any budget changes in certain line item expenses during the course of FY, contractor must submit to the County a budget revision request form.

CONTRACTOR: Alum Rock Counseling Center

PROGRAM/PROJECT NAME: Parent Advocate Services

1. SERVICE DESCRIPTION
CONTRACTOR will provide Parent Advocate Services (PAS) to support parents referred by the Department of Family and Children's Services (DFCS) in family reunification and family maintenance. CONTRACTOR will assign a Parent Advocate to referred clients. Each Parent Advocate must meet the qualifications listed in this contract. Clients may receive services for a maximum of 18 months.

2. SERVICE ACTIVITIES
Parent Advocates assist families working towards reunification and to assure maximum responsibility for their own well-being, by directly interacting with family members individually or in a group setting. Services can also be provided to the children whose parents are in time-limited reunification. Services may only be provided for up to a maximum of 18 months from the time of the child’s removal from the family. Court Ordered Individual Service Plans (case plan) will state the maximum time-period allowed for services and amount of time service has been provided to client.

Service activities for Parent Advocates include, but are not limited to the following:

a. Contact clients to complete an intake, sending completed intake forms to DFCS Contract Monitor to ensure assigned Social Worker also receives a copy;

b. Meet with clients, at a minimum of one (1) time per month, to develop and document a needs assessment and individual service plan (based on court ordered case plan), identify achievements, and create, update, or acknowledge successfully completed court-ordered requirements;

c. Serve as a family advocate and provide clients with individualized advocacy and mentoring for families who are receiving child welfare services in the Family Reunification Program and with the transition of children’s return home;

d. Assist in coordination of services and work collaboratively through duration of services with the designated Social Worker, Social Worker Supervisor, and Program Manager or their designee:
   1. Must not lead in the development of services or function independently in the provision of services,
   2. Must provide services as part of the client’s team and support client in completing activities in client’s case plan,
   3. Consult and meet regularly with DFCS Social Workers for assigned clients to discuss family’s progress or concerns and provide written/verbal updates with the delivery of services that support a client’s case plan, and

e. Assist parents/caregivers on the following topics, which include but are not limited to, navigating the Child Welfare system, effectively resolve conflicts, and advocating for identified needs and articulate their concerns;

f. Assist clients, families, and caregivers with services that support DFCS and/or Court Ordered case plan;
1. Provide clients with services which include, but are not limited to, transportation, translation and interpretation, housing search, and application assistance; and
2. Provide clients with referrals and linkage to relevant community-based resources based on assessed needs, including emergency assistance, substance abuse prevention services, and assistance to address domestic violence with linguistic and culturally competent services.

g. Support clients in Court, but Parent Advocates shall not participate in Court proceedings or adversarial litigation unless responding to a lawful subpoena or at the direction of counsel for DFCS
   1. Parent Advocates shall not respond to any inquiries or requests for information from the parent’s or minor’s attorneys, or any representatives of those offices. If an advocate is contacted by either of those persons, the advocate shall consult with the DFCS monitor and assigned DFCS Social Worker. The DFCS Social Worker will inquire with County Counsel’s Office before any response is provided.

h. Co-facilitate Women’s Domestic Violence support groups in South County; and
i. Attend and participate in Child Family Team Meetings and Parent Orientation classes as requested by DFCS and relevant trainings/meetings as assigned by DFCS.

3. SERVICE REFERRAL PROCESS
CONTRACTOR will receive referrals from the DFCS through the following referral process:

a. DFCS Contract Monitor receives the referral (SCZ189) for access to Parent Advocate Services from the following individuals:
   1. Parent Advocate(s) upon attending DFCS Parent Orientations within 24 hours,
   2. Joint Decision Making (JDM) Facilitator upon participating in a Child Family Team Meeting,
   3. Assigned Dependency Investigations (DI) Worker via the DFCS 300 petition at time of jurisdiction in preparation for the Initial Hearing.

b. DFCS Contract Monitor reviews referral and identifies whether referral is appropriate for PAS by evaluating the following factors within 24 hours:
   1. Case Status: Family Reunification, Family Maintenance, or Pre-Disposition;
   2. Case Plan: CW/CMS accessible, or in progress within 10 days of referral; and
   3. Availability of parent contact information necessary to schedule PAS intake.
   Referrals that meet the above criteria, but have a case deemed by the worker as litigious or potentially can go to bypass will not be referred to PAS.

c. CONTRACTOR receives referrals that are deemed appropriate and Court Ordered Case Plans for each referral from DFCS Contract Monitor.

d. CONTRACTOR screens received referrals and must assign referral to Parent Advocate within three (3) business days of receipt of referral.

e. CONTRACTOR contacts client within five (5) business days of receipt of referral from DFCS Contract Monitor.

f. DFCS Contract Monitor will send Referral Acceptance form to client via assigned DFCS Social Worker (confirmed through CW/CMS).

g. The PAS Program Manager will provide copies of completed intakes to the DFCS Contract Monitor within three (3) business days from completion of intake. Upon
receipt of completed intakes, the DFCS Contract Monitor will inform clients’ assigned social workers of their enrollment in the program.

h. CONTRACTOR must communicate and respond timely to requests by DFCS Contract Monitor regarding service implementation and delivery.

i. CONTRACTOR must notify DFCS Contract Monitor within three (3) business days if Parent Advocate no longer meets qualifications required in contract.

j. CONTRACTOR must notify DFCS Contract Monitor and provide discharge forms within three (3) business days of closure of services for each client.

4. ADDITIONAL SERVICE REQUIREMENTS

Services must be delivered in compliance with the following requirements:

a. **Staffing Qualifications**
   
   CONTRACTOR must ensure that Parent Advocates meet the following staffing qualifications:
   
   i. Pass a background check and be fingerprinted by DFCS prior to beginning services,
   
   ii. Have experience facilitating or co-facilitating support groups and/or classes,
   
   iii. Have experience working with the community,
   
   iv. Have experience public speaking,
   
   v. Be certified in First Aid and CPR,
   
   vi. Possess a valid California Driver’s License, reliable transportation, and proof of insurance, and
   
   vii. Have successfully navigated the Santa Clara County Child Welfare System as a client and the Parent Advocate’s case must have been closed no less than one year prior to their date of hire.
   
    viii. If a Child Welfare referral is open on a Parent Advocate at any time during his/her employment, the Parent Advocate will not have any clients while the referral is open.
   
     ix. A Parent Advocate cannot be employed in the capacity of a Parent Advocate if he/she has a case open in the Child Welfare System at any time during his/her employment.

b. **Parent Advocate Supervision**

   i. PAS Program Manager must be stationed at the County Family Resource Center for at least one (1) day per week and at the Gilroy Family Resource Center at least (1) day per week.

   ii. Schedule of hours of Parent Advocates and PAS Program Manager must be posted at DFCS work area for questions and consultation with DFCS Social Workers.

   iii. DFCS will provide workspace at Family Resource Centers, which will be coordinated by DFCS Contract Monitor and DFCS Office Management Coordinator, to include desk, chair, telephone, computer, access to printer, conference rooms, and supplies, for Parent Advocates

   c. **Program Reporting Lines**

   CONTRACTOR must ensure timely communication with DFCS regarding service delivery by complying with the following reporting requirements:
i. Parent Advocates report to CONTRACTOR’s assigned PAS Program Manager.

ii. DFCS provides Contract Monitor for consultation.

iii. DFCS Contract Monitor and CONTRACTOR’s PAS Program Manager will meet regularly, in accordance to an agreed upon schedule, to discuss program implementation and ongoing service delivery.

iv. Notify DFCS regarding issues of concern, including child and parent safety within 24 hours.

d. Service Documentation and Client Files
CONTRACTOR must ensure that all documentation is retained for client files and comply with the following service documentation requirements:

i. Individual Service Plans will be provided to clients and social worker on a monthly basis.

ii. Individual Service Plan must include a needs assessment and service plan that support the goals and objectives for each client’s DFCS case plan.

iii. Individual Service Plan must include one or more activities from client’s DFCS case plan or an activity that the client decides is important and in relation to activities in the client’s DFCS case plan supporting reunification efforts or family stability.

iv. CONTRACTOR will provide an Individual Service Plan Completion summary to the DFCS Contract Monitor at the time of case closure or at the completion of 18 months of service provided, whichever arrives first.

e. Monthly Reporting Requirements
CONTRACTOR must submit monthly reports to DFCS Contract Monitor by the 10th working day of each month for services performed in the preceding month. Each monthly report must include the following information, which may be subject to change:

i. Client name,

ii. Date Referral Received,

iii. Date Parent Advocate Assigned,

iv. Assigned Parent Advocate;

v. Date Opened,

vi. Number of parents/caregivers,

vii. Ethnicity,

viii. Number of Children,

ix. Number of Children with disabilities,

x. Number of Parents with disabilities,

xi. Preferred Language,

xii. Geographical Service Area,

xiii. Discharge Date, and

xiv. Discharge Reason.
Provide the following information for each staff member who would be assigned to fulfill the terms of contract, if awarded, as a result of this solicitation process.

</table>
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John Cookingham, Chief Financial Officer, SCVHHS
SUBJECT: Transfer of Nuclear Medicine Position Between SCVMC Funds

RECOMMENDED ACTION
Ratify the administrative transfer between funds of one Nuclear Medicine Technologist position from the Saint Louise Regional Hospital Enterprise Fund to the O’Connor Hospital Enterprise Fund.

FISCAL IMPLICATIONS
The recommended action would have no net fiscal impact to the Santa Clara Valley Medical Center Hospitals and Clinics (SCVMC) budget. The add/delete between hospitals does not require an appropriation modification. The FY 19-20 costs and savings will be absorbed within the existing payroll budgets for each hospital.

The recommended action would result in an ongoing salaries and benefits cost increase of approximately $204,289 at O’Connor Hospital (VMC-O’Connor), and an ongoing cost reduction of approximately $198,527 at Saint Louise Regional Hospital (VMC-Saint Louise). The ongoing net cost of $5,762 will be offset by reduction in Services and Supplies at VMC-O’Connor.

CONTRACT HISTORY
Not applicable.

REASONS FOR RECOMMENDATION
SCVMC submitted an urgent add/delete request for the addition of 1.0 FTE Nuclear Medicine Technician position at VMC-O’Connor and the deletion of 1.0 FTE Supervising Clinical Lab Scientist at VMC-Saint Louise effective March 9, 2020. Board of Supervisors approval is required for add/delete requests between funds. Both Hospitals are under Budget Unit 921 but VMC-O’Connor positions are in Fund 62 (O’Connor Enterprise Fund) while
VMC-Saint Louise positions are in Fund 63 (Saint Louise Regional Hospital Enterprise Fund).

The Nuclear Medicine Technologist position was urgently needed in the Nuclear Medicine Department at VMC-O’Connor to provide complete coverage for imaging studies. Prior to the move, the department was staffed with only a single Nuclear Medicine Technologist position, which was insufficient to provide full-time coverage. At the time of the County’s acquisition of the Verity hospitals, VMC-O’Connor had only a single filled Nuclear Medicine Technologist, and since the County only created positions for existing and filled Verity employees, only one Nuclear Medicine Technologist position was created. The hospital system has relied on temporary staffing to provide coverage since the acquisition but needed a second position to ensure consistent coverage by well-qualified staff. The situation became urgent once the extra help employee who provided necessary coverage reached their maximum hours and was no longer available.

In anticipation of this, the Nuclear Medicine department and hospital leadership at VMC-O’Connor had made every effort to identify a position within VMC-O’Connor to delete and use for the administrative add/delete that would create the needed Nuclear Medicine Technologist position. Unfortunately, the past few months were marked by extensive changes to positions across all three hospitals as the system has strategically deleted positions to offset additions made in previous salary ordinances and realigned positions among hospitals and their departments to meet urgent operational needs. Because of all these changes, VMC-O’Connor was unable to find a position to swap for a Nuclear Medicine Technologist before their extra help staff reached the maximum hours limit. In order to avoid interruption to services, SCVMC leadership decided to shift a position from VMC-Saint Louise to meet the need. A vacant Supervising Clinical Lab Scientist was identified for the deletion.

The recommended action would grant retroactive approval for this add/delete which became effective March 9, 2020.

**CHILD IMPACT**

The recommended action would have a positive impact on children by continuing to provide the same level of service in the Nuclear Medicine Department at VMC-O’Connor.

**SENIOR IMPACT**

The recommended action would have a positive impact on seniors by continuing to provide the same level of service in the Nuclear Medicine Department at VMC-O’Connor.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

The Nuclear Medicine Department utilizes two gamma cameras and one DEXA bone density machine and provides comprehensive services including nuclear cardiac stress imaging studies. In order to provide coverage into the evening hours, and on weekends, an additional Nuclear Medicine Technologist position was required.
CONSEQUENCES OF NEGATIVE ACTION

Failure to approve the recommended action would result in an inability to provide the necessary coverage for imaging studies provided by the Nuclear Medicine Technologist. Studies would be unavailable at certain times and service would be delayed or will require transportation to the VMC at Bascom campus.

STEPS FOLLOWING APPROVAL

Please send notification to Meenesh Bhimani, MD.
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John Cookinham, Chief Financial Officer, SCVHHS
SUBJECT: Salary Ordinance Amendment related to positions in SCVMC Finance

RECOMMENDED ACTION
Adoption of Salary Ordinance No. NS-5.20.109 amending Santa Clara County Salary Ordinance No. NS-5.20 relating to compensation of employees deleting one Application Administrator position and adding one Senior Management Analyst or Management Analyst position in Santa Clara Valley Medical Center.

- Introduce, waive reading, and preliminarily adopt on April 7, 2020.
- Adopt (Final) on April 21, 2020.

FISCAL IMPLICATIONS
Approval of the recommended action will not require modification to the Fiscal Year (FY) 2020 Adopted Budget for Santa Clara Valley Medical Center (VMC at Bascom). The proposed action would increase the FY 2020 salaries and benefits budget for VMC at Bascom by approximately $2,347. The ongoing FY 2021 salaries and benefits budget increase would be $17,421. The net cost increase in payroll would be offset by a reduction in the services and supplies budget by the same amount.

CONTRACT HISTORY
Not applicable.

REASONS FOR RECOMMENDATION
Board of Supervisors’ approval is necessary for this add/delete request, because the classification of the position to be deleted (SEIU) and the classification of the position to be added (CEMA) are represented by different bargaining units.

VMC at Bascom requests the deletion of one Application Administrator position and the addition of one alternately staffed Senior Management Analyst/Management Analyst position. The knowledge and skillset required to perform healthcare analytic tasks are best
met by the qualifications of an alternately staffed Senior Management Analyst/Management Analyst position.

Healthcare financial accounting, budgeting, and reporting for the County of Santa Clara Health System (Health System) is highly specialized. The Health System generates monthly interim financial statements based on accrual accounting principles. These statements are submitted to the Board’s Health and Hospital Committee (HHC) on a monthly basis for all three hospitals. The hospitals also use comprehensive performance management (CPM) tools to routinely monitor the financial and operational performance of their departments. This performance monitoring assumes the ability to conduct financial analyses of budget variances, follow up with cost center managers on significant variances, and report to management any action undertaken to control those variances.

**CHILD IMPACT**
The recommended action will have no/neutral impact on children.

**SENIOR IMPACT**
The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**
The recommended action will have no/neutral sustainability implications.

**BACKGROUND**
The County Health System includes three public hospitals: Santa Clara Valley Medical Center (VMC-Bascom), O’Connor Hospital (VMC-O’Connor), and Saint Louise Regional Hospital (VMC-Saint Louise), in addition to several General Fund health departments (Public Health, Behavioral Health, Custody Health, Community Health, and Emergency Medical Services) that serve county residents.

The Health System Chief Financial Officer/Controller needs periodic reporting of “planned versus actual” variance analyses at cost center levels and seeks explanations from responsible managers for major variances. An alternately staffed Senior Management Analyst (B1N)/Management Analyst (B1P) position would be suitable to meet these needs of the Health System.

The Application Administrator position to be deleted is in an SEIU Local 521-represented classification, while the position to be added, Senior Management Analyst/Management Analyst, is in a CEMA-represented classification. The chronology of the communication of the proposed action with the relevant labor organizations is as follows:

- SEIU was duly notified of the potential action via registered mail and email on September 13, 2019, and then again via registered mail and email on March 11, 2020. To date, no response has been received from SEIU.
- CEMA was duly notified of the potential action via registered mail and email on March 11, 2020. CEMA has concurred with the recommended action.

The Technology Services and Solutions (TSS) Department and the Employee Services Agency (ESA) support the recommended action.
CONSEQUENCES OF NEGATIVE ACTION

Failure to approve the recommended action will negatively affect SCVMC’s ability to shift focus to address its current business needs.

STEPS FOLLOWING APPROVAL

The Clerk of the Board of Supervisors is requested to send notification to the SCVHHS Chief Financial Officer, John Cookinham.

ATTACHMENTS:

- NS-5.20.109 – VMC – Delete one Application Administrator and add one Sr. Mgmt. Analyst or Mgmt. Analyst (PDF)
ORDINANCE NO. NS-5.20.109

AN ORDINANCE AMENDING SANTA CLARA COUNTY ORDINANCE NO. NS-5.20 RELATING TO THE COMPENSATION OF EMPLOYEES

The Board of Supervisors of the County of Santa Clara ordains as follows:

SECTION 1:

In SECTION 51 – SANTA CLARA VALLEY MEDICAL CENTER– BU 921 the following shall be deleted:

1. G1D Application Administrator

SECTION 2:

In SECTION 51 – SANTA CLARA VALLEY MEDICAL CENTER– BU 921 the following shall be added:

1. B1N Senior Management Analyst
   OR B1P Management Analyst

SECTION 3:

This Ordinance shall take effect April 21, 2020. This Ordinance shall be implemented on May 4, 2020.

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on _______________________ by the following vote:

AYES: Supervisors,
NOES: Supervisors,
ABSENT: Supervisors,

______________________________________
Cindy Chavez, President
Board of Supervisors

Signed and Certified that a copy of this document has been delivered by electronic or other means to the President, Board of Supervisors.

Attest:

______________________________________
Megan Doyle
Clerk of the Board of Supervisors

BO-4/7/2020

Form Approved by County Counsel 10/07
DATE: April 7, 2020
TO: Board of Supervisors
FROM: Laura E. Rosas, Chief Executive Officer - VHP
SUBJECT: Appropriation Modification for Valley Health Plan Position Adds and Deletes

RECOMMENDED ACTION

Approve Request for Appropriation Modification No. 175 - $1,003,808 transferring funds within the Valley Health Plan budget relating to position adjustments due to increased enrollment and projected expansion of services.

FISCAL IMPLICATIONS

There will be no impact to the County General Fund as a result of the recommended action. Funds for Fiscal Year (FY) 2020, in the amount of $1,003,808, and ongoing funds of $6,467,604 are necessary to support the positions being added and are available in the existing VHP budget.

The F-85 will reduce Object 2 expenses in the current and ongoing budget for VHP to support the additional resources in the recommended action. In FY 2020, during the Mid-Year Budget Review, VHP adjusted revenues and expenses as a result of enrollment and revenue increases. This action increased the VHP operational expense budget by $4,697,646 for the current year with a corresponding ongoing adjustment. The additional operational expense will be used to partially offset the increase of adding these additional resources. The remaining amount to be offset would be the reduction of the department’s Object 2 budget for services and supplies with no General Fund impact.

REASONS FOR RECOMMENDATION

VHP is working on an urgent staffing augmentation plan to appropriately staff current growing and evolving VHP health plan operations to better serve the membership, the provider network, and overall operations within the department.

PHARMACY SERVICES

Since 2016, VHP membership has increased by 49% and the pharmacy drug budget has grown by 32%. The VHP Pharmacy Services unit requires additional staffing resources to support current and ongoing program growth and development that include new strategies for Pharmacy Services to perform management of a medical drugs program. A medical drug is
defined as a physician administered drug (PAD) that generally belongs in the health plan medical benefit (with some exception) and is appropriate for provider and member. Aside from additional members and growth in the pharmacy drug budget, VHP has additional pharmacy regulatory requirements that involve significant in-depth analysis to ensure regulatory compliance and upcoming procurement/solicitations for contracts that support the pharmacy services program and benefit.

Pharmacy Services has been successful in managing the pharmacy benefit, and VHP would like to expand the medical drugs in the medical benefit and to enhance the current process. The infrastructure will mirror Pharmacy Services management of the pharmacy benefit and allow Pharmacy Services to expand to PADs by performing the following:

1. Staying on top of new drug development, evaluating the risk to the plan, and developing strategies to manage new drugs;
2. Evaluating the current landscape of PADs to develop a methodical approach with strategies for the management of PADs that would ensure rational, clinically appropriate, safe, and cost-effective drug therapy; and
3. Continuing to expand, develop, and implement strategies over time.

The developments in the drug market are never ending and cannot be ignored. As VHP sees more drug developments move into the medical benefit space, VHP needs to evaluate and monitor the expenditure more closely.

Add 1.0 FTE Pharmacist Specialist position to participate in the coverage determination (Certification, Prior Authorization, Medical Exception, and Exception to Coverage) process by reviewing all requests against approvable medical criteria and presenting all coverage denial recommendations as necessary to the Medical Doctor for final decision. Additionally, this position would: monitor the quality and efficiency of the coverage determination process, including coverage criteria, denial language, and communication with prescribers; assist with preparing Pharmacy and Therapeutics (P&T) material for medical drugs; and develop, conduct, and prepare reports on activities for drug utilization as well as identify trends, problems, or other matters affecting the health plan.

Add 1.0 FTE Pharmacist Data Specialist-VHP position to assist with data entering, monitoring and researching member profiles for prior authorization requests, and ad hoc reports. This position would also review clinical documentation against applicable criteria submitted by physicians and pharmacists and determine approval or denial of request for prior authorization. Additionally, this position would document drug referral/authorization, conduct patient claims review, enter operational pharmacy overrides, and check quality to ensure compliance.

Add 1.0 FTE alternately staffed Management Analyst or Associate Management Analyst position to create a new process flow and maintain consistency relating to the new pharmacy regulatory requirements, such as the SB 1052 Standard Formulary Template, SB 17 Drug Transparency, MetaStar Initial Validation Audit, AB 315 Pharmacy Benefits Management (PBM) Registration, and SB 1048 CII Partial Fill. Additionally, this position would develop policies and procedures, maintain oversight of regulations standards, and
provide in-depth analysis on performance of claims data/reports from different regulatory bodies.

**UTILIZATION MANAGEMENT**

The VHP membership has dramatically increased, and the Utilization Management (UM) unit is experiencing a corresponding increase in the number of authorization/referral requests assigned to VHP Utilization Review Coordinators (URCs) or registered nurse staff, which requires essential changes in review processes and workflows that contribute to increased time nurses spend on each request. The review processes and workflows include the increased number of medical-necessity denial reviews by both the VHP-URCs and the medical doctors as required by state and federal regulations as well as ongoing improvement of thorough documentation in the review process and application of new practices, including letters of agreement, delay, and modified denials. The changes implemented are vital to ensure quality reviews, consistent decision making across staff, and regulatory compliance. The UM unit is undertaking several innovations; for example: a new IT tool to support Case Management, population health, UM, HEDIS, and other regulatory and healthcare requirements. While these innovations will achieve greater efficiencies, the health plan will be growing to address the regulatory and operational requirements of California Advancing and Innovating Medi-Cal (CalAIM). CalAIM is a multi-year initiative by the Department of Health Care Services (DHCS) to improve quality of life and health outcomes for the California population by implementing broad delivery system, program, and payment reform across the Medi-Cal program. In addition, COVID-19 is expected to impact UM resources. Utilization of in-hospital and outpatient goods and services is expected to increase as a result of COVID-19, the duration of which is uncertain. The additional VHP-URCs also would better prepare VHP for any future epidemic.

In addition, UM is requesting additional resources to assure timely authorization processing, auditing, and oversight to address recent Department of Managed Health Care (DMHC) findings. UM plans to segment the current structure into four distinct groups: Intake, Prior Authorization, Concurrent Review, and Case Management. This change is in line with industry standards and would improve employee efficiency, skill-set mastery, and job satisfaction. These distinct groups are also in the best interest of members. In the current model, VHP-URCs are tasked in all areas and act as generalists, which makes for a more complicated workday and assignment, as well as duplicative work and high workloads. The post-stabilization repatriation process also needs to be improved and expanded, which requires significant time and resources. With specialization, VHP-URCs will be able to process their unique authorization types faster as there will be subject matter experts. Cross training will allow VHP-URCs to grow in their fields as well as allow for alternate coverage when there is a need.

Add **7.0 FTE Utilization Review Coordinator - VHP positions** to perform UM responsibilities for all contracted and non-contracted facilities as described above, which includes but is not limited to utilization review, discharge planning, outpatient referrals, after-care, and case management. Additionally, these positions would review cases per established medical criteria.
CASE MANAGEMENT

The Case Management (CM) unit provides case management programs (one-on-one advocacy support and care, care coordination, and patient education)—including complex case management and condition case management—for members identified with chronic, complex, or high-risk health conditions and those with care gaps. Members have access to comprehensive programs, including Complex Case Management, Condition Case Management, and Autism Spectrum Disorder (ASD) Case Management. This work will expand significantly under CalAIM. In addition, VHP currently outsources many of these functions to a vendor that has not met the expectations of VHP and does not position VHP to be able to achieve National Committee for Quality Assurance (NCQA) accreditation under CalAIM. As this contract currently contains an MFO of approximately $6 million, the elimination of this contract will more than fund the increase in staff resources. In addition, this aligns the County’s commitment to prioritize County staffing over vendor procurement.

CM is requesting additional resources based on the following factors:

• Per the California Department of Managed Health Care (DMHC), VHP must provide information in its “threshold” languages—English, Spanish, and Vietnamese. Currently, CM does not have enough language and culturally appropriate resources on the team.

• CM plans to expand its concurrent review onsite at in-network facilities.

• VHP has projects/interventions, such as partnering with Santa Clara Family Health Plan (SCFHP) on using the Health Information Form/Member Evaluation Tool (HIL/MET), to target the senior persons with disabilities (SPD) population. These projects/interventions require additional staffing resources.

• VHP plans to progressively hire more CM staff, including additional VHP Utilization Review Coordinators, to bring the Medi-Cal program in-house.

Add 1.0 FTE alternately staffed Medical Social Worker II or Medical Social Worker I position to conduct comprehensive assessment through the high-risk assessment (HRA) process; identify barriers; and coordinate care among members, caregivers, and providers to reach good quality of care outcomes. This position would provide social work services to health plan members with complex bio-psycho-social adjustment issues and their families. This position would also develop appropriate intervention plans with members and their families based on careful assessment of situational bio-psycho-social factors. Additionally, this position would interpret and communicate relevant bio-psycho-social, emotional, and economic factors to health care staff.

Add 1.0 FTE Community Outreach Specialist position to assist clinical/behavioral case managers with: comprehensive assessment through the high-risk assessment (HRA) process; locating designated populations; and providing preventive education, referrals, and paraprofessional counseling. Additionally, this position would develop and maintain cooperative working relationships with all community agencies and groups providing services relevant to assigned populations. This position would also provide information to community agencies and groups on programs and services offered by the department and
other agencies as well as on related laws and regulations.

**MEMBER SERVICES**

VHP is expected to assume full responsibility of the Covered California (CoCA) member services call center by the end of Q1 2021, at which time the business management solutions (BMS) statement of work currently with Cognizant will expire. Currently, VHP is working on an initiative to in-source CoCA member calls and provider claims inquiries in-house. Phase One was the integration of all claims payment activities for CoCA. Completion of this initiative would afford VHP the ability to better control and improve the quality of member/provider interactions and enhance member/provider satisfaction and retention. Phase Two includes in-sourcing all member services activities currently being conducted by Cognizant. Reducing VHP’s annual expenses to Cognizant is consistent with the County’s stated goal of not using non-County resources to support on-going operations.

**Add 1.0 FTE Program Manager II position** to design and implement a VHP member outreach and engagement program aligned with CalAIM. This position would support outreach activities to members to improve VHP’s HEDIS scores, ensuring members receive preventative services in accordance with national preventative standards. This position would also complete health risk assessments to support the stratification of members in cohorts to be managed by Case Management, for conditions such as diabetes, obesity, COPD, CHF, and other chronic health conditions.

**Add 4.0 FTE VHP Member Services Representative positions** to answer phones as well as screen and refer CoCA member calls. These positions would provide members and providers with information about the VHP network, health plan options, and benefits. Additionally, these positions would sustain the growth of the membership to meet the demands of VHP members for all lines of business (LOB).

A robust analysis using the Erlang calculator and trending annual membership growth of 20-25% identifies that VHP needs to increase its Member Service Representative staff to ensure quality and efficiency when supporting the demands of VHP members. Currently, Cognizant employs nine (9) full-time employees for the current phone center support of 16,000 CoCA members. Without the increase of requested staff, VHP is at high risk of not meeting regulator and organizational demands for all LOB, which would impact customer satisfaction scores.

**PROVIDER CONTRACTS ADMINISTRATION and PROVIDER NETWORK DEVELOPMENT**

The Provider Contracts Administration (PCA) and Provider Network Development (PND) units require additional staffing resources to sustain the strategic initiatives and membership growth of VHP, which are dependent upon VHP’s ability to develop and maintain an adequate network of contracted providers as described in Health and Safety Code sections 1367.03 and 1367.035 as well as Title 28 of the California Code of Regulations, Section 1300.67.2.2. PCA focuses on maintaining the existing provider network as well as the ongoing maintenance, structure, and organization of all managed care contracting activities, whereas PND focuses on establishing new provider relations, network expansion, continued
development, and strategic initiatives.

Historically, VHP has marketed and maintained a contracted network of providers, who provide care and services to VHP’s membership within the County’s geographic region. As VHP looks to expand its existing product lines and grow via product and geographic expansion, VHP must develop and maintain a provider network suited to meet California Department of Managed Health Care (DMHC) regulatory requirements and Covered California demands for a provider network that is sought after by commercial and government shoppers (potential members).

**Provider Contracts Administration and Provider Network Development**

**Add 1.0 FTE Program Manager III position** for the strategic planning and execution of all provider contracts and network development. Core duties include management and leadership of processes for continuous improvement of provider contract execution and renewal. The PCA & PND Program Manager III would manage existing PCA and PND staff. The units would focus on renewing contracts with existing provider networks covering both Region 7 and potential future geographic expansion efforts. This position would also be responsible for the recruitment and training of new PCA and PND staff as well as leading the implementation of complex contracts. Additionally, this position would lead and oversee negotiations with provider organizations who convert from fee-for-service to primary care or full professional capitation, including contract installation and ensuring that VHP’s core systems are appropriately configured. The financial value of the contract portfolio managed by this position exceeds $300 million.

VHP requires an individual with extensive managed care knowledge and plan-to-plan delegation contract completion experience, including the delegation of financial responsibility (DOFR), the delegation of administrative responsibilities (DOAR). In addition, the individual must and have previously led financial and contract language negotiations. This position would oversee the implementation of the analytic tools necessary to evaluate unit price and project inflationary trends or rate increases overtime, as well as annually review and adjust, as necessary, contracted rates to align with VHP’s financial requirements. Additionally, this position would be responsible for conducting an annual evaluation of all material provider contracts to ensure they are performing in accordance with VHP’s expectations. As VHP and the County grow into additional product offerings and regions, having an effective leader in this position would derive benefits for members and providers as better support and oversight on provider contracts and network will be achieved.

**Network Development Geographic Expansion**

**Add 1.0 FTE Health Care Services Business Development Analyst (HCSBDA) position** for negotiation efforts pertaining to VHP’s professional providers program to secure agreements with professional providers supporting the targeted efforts of contracting around the referral patterns associated with six new targeted hospitals. These professional provider services agreements (e.g., with hospital-based physicians, ancillary providers, or other small group medical professionals) will be from moderate to high complexity, involving the development of direct plan/provider relationships that expand the network of providers available to render services for VHP members. Additionally, this position is responsible for
the implementation, control, monitoring, and evaluation of managed care contracting services to ensure compliance with contract terms and regulations for assigned portfolio of contracts.

Add 2.0 FTE HCSBDA positions responsible for a more complex designated area of focus to support necessary negotiation efforts and secure agreements for network development of behavioral health provider groups and facilities, the six (6) new hospitals, and post-acute care facilities. The HCSBDAs would act as primary contact/liaison during the contract implementation process between VHP and providers as well as for any operational establishment processes within the health plan. Additionally, the HCSBDAs would review contracts from multiple providers desiring to contract with the health plan to provide services for VHP members.

Add 1.0 FTE alternately staffed Management Analyst or Associate Management Analyst position to focus on negotiation efforts pertaining to VHP’s professional provider network expansion efforts with an area of focus to support individual physician and practitioner contracting. These professional provider services agreements of low or moderate complexity involve the development of direct plan/provider relationships that expand the network of providers available to render services for VHP members. This position would ensure the managed care contracts meet network development initiatives as well as regulatory, accrediting agency, and/or all County requirements. An existing budgeted position would support the medical groups and independent physician associations (IPAs) referring to the hospitals and hospital-based providers.

Network Development – Region 7 Enhancement and Maintenance

Add 2.0 FTE HCSBDA positions responsible for more complex network development negotiation efforts to enhance and maintain VHP’s current network of five participating hospitals—plus the addition of two (2) other hospitals that are currently non-participating—and the development of an expanded behavioral health network to support the growing needs of VHP members. The HCSBDAs would perform cost and utilization analysis of inpatient, outpatient, participating, non-participating, professional, and institutional provider services.

Network Development – Ancillary Provider Groups/Organizations

Add 1.0 FTE HCSBDA position responsible for network expansion efforts focused on ancillary provider groups/organizations (e.g., laboratories, durable medical equipment and supplies, orthotics, and prosthetics). The HCSBDA would develop and negotiate managed care contracts with providers to participate in Commercial Employer Group, Covered California, and Medi-Cal Managed Care provider networks.

The PCA unit would undertake the single case letters of agreement (LOA) process, including managing, overseeing, negotiating, and executing the LOA. The current PCA Program Manager II position would be responsible for the ongoing maintenance and updates of all the contract templates to maintain compliance with County standards, regulatory requirements, and accrediting agency requirements. One (1) existing PCA analyst would be redirected to focus on provider contract performance analysis and become a resource in contract modeling to enhance the negotiation techniques for PCA and PND. A second existing PCA analyst would be redirected to focus on the acquisition, implementation, and development of a
Contract Management Solution, envisioned to replace the existing contract database and become the centralized repository of contracts and the exception approval process. This solution would also house a library of alternate approved contractual terms for PCA to use as a resource during contract negotiations. In addition, PCA would be focused on the enhanced development of individually contracted physicians and practitioners, while the Provider Relations (PR) unit maintains and renews standard template agreements with existing providers given a defined set of parameters. Providers requesting terms, conditions, or rates outside the parameters would be directed back to PCA.

The eight (8) additional positions requested would provide the internal structure necessary to develop and sustain a contracted provider network that supports VHP’s strategic initiatives and trending annual membership growth. In addition, these staffing resources would allow the existing PCA and PND staff to focus efforts on the continued maintenance and expansion of institutional ancillary providers, including: laboratories and durable medical equipment, orthotics, prosthetics, and supplies (DMEOPS); non-hospital facilities, including skilled nursing facilities (SNF), sub-acute (SA) infusion centers, long-term acute care (LTAC) facilities, dialysis centers, urgent care centers, and behavioral health facilities; and medical groups and independent physician association (IPA). Existing staff would also focus on LOAs, the development of new industry standard managed care template agreements, and contract modeling and system analysis. Lastly, the additional resources would improve the timeliness of executing contract renewals, and an enhanced network of contracted providers would reduce the volume of out-of-network LOA requests—supporting the timely access and geographic delivery of medically necessary services for VHP members.

**PROVIDER DATA MANAGEMENT**

As VHP continues to grow and evolve, the increasing number of provider group/provider networks and contracts are creating a more complex configuration and increased workload for the Provider Data Management (PDM) unit. PDM is currently understaffed to manage the significant and growing volume of work that is necessary to maintain the current business and meet projected growth. The provider not found (PNF) claims are currently at one of the highest levels the health plan has experienced in the last several years. As of November 25, 2019, the current on-hand inventory is 7,400 claims (average age of claim is 39.3 days), which accounts for 29% of the current claims inventory. At the beginning of 2020, the inventory was under 2,000 claims and the average age was under 20 days. PDM has partnered with VHP Claims to continue process improvements and address the growing inventory issue. With the current processes in place, PDM is required to research these claims prior to sending them to VHP Claims for processing (to pay or deny), which consumes almost 50% of the QNXT team’s daily time to work with these claims/providers.

**Add 1.0 FTE alternately staffed Senior Management Analyst or Management Analyst position** for preparing all the provider data required for regulatory network filings, timely access reporting, and the provider survey in addition to providing the monthly network submission to Covered California (CoCA). PDM would be provided with the checks and balances it needs to ensure accurate data is provided to the various regulatory agencies. PDM would create a standard work intake process where PDM can track all work received,
completed, and outstanding. Additionally, this position would also distribute work to appropriate team members as well as ensure work is completed on time and, if necessary, reassess and redistribute work to ensure timeliness. This intake process includes claims assignments, rosters, and inquiries from internal or external units/departments. This position also captures key metrics from the work intake process, which provides overall visibility of current on-hand inventory.

**Add 3.0 FTE alternately staffed Business Configuration Analyst or Associate Business Configuration Analyst positions** to document business requirements, develop configuration requirements, and maintain detailed documentation for each type of provider as well as the different lines of business. Additionally, these positions would maintain the current provider data, compare the rosters against QNXT, and create the files for the automated load process into QNXT. They would also work with the Provider Credentialing unit to review their data and ensure accuracy prior to being loaded into QNXT; otherwise, data becomes difficult to correct later and can cause errors with claims processing.

PDM is requesting additional staffing resources based on several factors:

- **Claims Workflow:** With the upgrade of QNXT and the implementation of a claims workflow module in April 2020, the current plan is for PDM to take on a frontline responsibility for some specific provider claims edits. This plan will significantly increase the workload needed to review the PNF claims, strategize for the next steps, and route to VHP Claims for further processing once resolved.

- **Santa Clara Family Health Plan (SCFHP) – Out of Area Claims:** Under the new agreement with SCFHP, VHP assumed responsibility for out of area claims effective January 1, 2019. The need to deny claims for tax forms has significantly increased and affected the overall inventory of PNF claims as VHP has not dealt with many of these providers before the new agreement. Due to the size of the membership, this will continue to generate a similar volume of PNF claims inventory.

- **Mid-Level Providers:** PDM is implementing the newer guidelines for payment of mid-level providers, which includes certified and licensed nurse practitioners, midwives, and nurse anesthetists. Historically, these mid-level providers have not been loaded into QNXT. As part of the provider data centralization project, mid-level providers must be built in QNXT to support reporting, rosters, etc. Additionally, these mid-level providers can bill and be reimbursed under their own National Provider Identifier (NPI), independent of a supervising physician, per regulatory guidelines. PDM must load each of these providers with their supervising physician contract resubmittal that will generate the notice for subsequent claims.

- **Integrated Healthcare Association (IHA) – Statewide Provider Directory:** VHP’s CoCA agreement requires the health plan to participate in the IHA statewide directory. The initial part of this process will replace VHP’s current monthly CoCA provider network submission. However, a new process where return file with provider data corrections will need to be addressed and the data updated in QNXT and the credentialing system.
• Network/Provider Redesign: The upcoming network/provider set-up redesign will increase the level of complexity in the provider set-up and require additional staffing resources to maintain the new set-up. Under this provider configuration, providers can be under different provider groups by lines of business (LOB). Additionally, this configuration requires significant attention to each individual provider, their provider groups, credentialing status, and LOB.

If these staffing resource requests are not approved, the PDM unit would be unable to keep up with the volume of providers that need to be maintained in the system and the claims inventory will grow and impact the regulatory required claims payment timelines. Also, the current plans to reconfigure the provider set-up will be significantly delayed.

FINANCE

Broker Commission Payment Analytics

Add 1.0 FTE alternately staffed Management Analyst or Associate Management Analyst position to perform operational oversight, business oversight, and analytical duties associated with the broker commission payments and payment system. Additionally, this position would conduct studies, develop procedures, and determine budgetary requirements on the development of the broker commission process.

In FY 2021, a sales automation tool will be implemented which contains a module to calculate commission payments to brokers. This position would oversee the process end-to-end from system-to-system to ensure proper, accurate, and timely payments are made. This position would also be responsible for a growing range of duties including working with accounting staff to coordinate the timing of quarterly payments. Additionally, this position would assume other duties which are more analytical in nature for process coordination and fiscal related communications as well as dispersal of information to VHP management related to budget process, department unit budget monthly reporting, and development of Finance’s data lost preventions (DLPs) coordination.

VHP is in contract with approximately 1,000 different brokers and broker entities who have been certified to sell VHP products to the community. Brokers are integral to VHP’s individual lines of business (Covered CA and the Individual & Family Plan) as they represent to the community a basis of information about the products VHP offers and are given a forum to present products and sell them. They are the first line of defense for the community seeking enrollment to VHP. The broker community earns commission payments based on the number of enrollees they bring to VHP. VHP is responsible for tracking membership against the brokers and whether members are actively paying their premiums on time. Each timely payment equates to a commission payment to the responsible broker. Brokers bring in approximately 60% of the individual membership to VHP, so it is a vital operation to keep commission payments accurate and timely. This position would be vital to the overall process of commission payments and function as the subject matter expert (SME) on the system and the business owner/contact for all the components of connection to the sales/commission system, including file interface relations with SAP and QNXT and business counterparts. From an analytics perspective, this position would also be responsible for analytical data required for reporting to executive leadership and the Board.
As the Finance unit assumes additional work processes due to growth, new regulatory oversight, and new systems/products management, the gap among operational process, management coordination, and communication has been expanding with existing staff, who are consumed in project development duties, serving as SMEs and advisors on projects and implementation of systems. To close the gap, this position would analyze methods for Finance to better serve the internal clients at VHP by becoming a conduit of information and communication.

**Broker Sales Automation Tool and AutoPay Accounting**

**Add 1.0 FTE alternately staffed Accountant III or Accountant II position** to support new programs that Finance will acquire in FY 2021. Two (2) notable acquisitions are the development of a broker sales automation tool—which would bring the commission calculations and payments to Finance—and an autopay feature available to individual members starting in year 2020. These new acquisitions would create additional accounting work that is needed for oversight management reporting and regulatory reporting as well as financial audits and programs status updates.

Additionally, existing processes have been identified to transition to Finance as it presents a reliable fiscal support environment for processes, such as payroll and refund processing. Finance currently has no vacancies to serve these programs and other programs that Finance may acquire. This is a step toward Finance’s effort to establish a well-rounded, accounting-based infrastructure to better serve the needs of the growing department and membership.

**BILLING & ENROLLMENT**

The Billing & Enrollment unit is currently at the midpoint of a phased process for creating and building up its two teams: enrollment and billing. The enrollment side has phased in the positions necessary to support VHP’s enrollment and eligibility functions. In any health plan, the accuracy and timeliness of enrollment data is vital to the plan operations as enrollment is the foundation of all services. Now that the enrollment side been established, the billing side will begin the second phase of the build out. Billing services have been handled by the business management solutions (BMS) contract as part of the current vendor agreement between VHP and Cognizant for the VHP core system. The BMS agreement is set to expire in August 2020 and will leave a gap in the operations of VHP. There are currently three (3) vacancies in Billing & Enrollment that will be going into active recruitment to fill this gap.

**Add 1.0 FTE alternately staffed Management Analyst or Associate Management Analyst position** to conduct systems and analytical studies on organizational, procedural, and budgetary requirements for the development of the billing and enrollment processes and other processes as directed. Additionally, this position would leverage a variety of information applications and databases—including QNXT, MedInsight, and other systems—to collect, analyze, and prepare reports as well as develop communication plans to disperse the updated enrollment information to department units and senior staff. Lastly, Billing & Enrollment is working toward building an infrastructure that includes communication and reporting metrics. This position would understand and evaluate current processes and make recommendations on process improvements. Documentation of all work processes and
establishing training programs are also a priority to maintain compliance standards for accreditation requirements.

Billing & Enrollment is requesting an additional position based on several factors:

- Additional manual workarounds due to growth of membership and increased volume of fall-out enrollments. The enrollment file automation requires additional oversight due to conversion from flat file transfer to standard 834 electronic data interchange (EDI) transfer, which includes daily review of enrollment numbers and any manual manipulation required due to errors, fall-outs, and outliers.

- Multiple system and trading partner implementations involving file reliability and EDI process flow oversight. Frequently, the enrollment team is the first to be informed of any errors from file loads, which is vital to maintaining uninterrupted service levels to both members and clinical providers that have a direct patient impact due to unreliable eligibility data. Billing & Enrollment is also the liaison for all partners that transfer eligibility data for business operations.

**SALES & BROKER RELATIONS**

The Sales & Broker Relations unit focuses on educating the community, shoppers (potential members), and appointed brokers on the benefits that VHP offers. The Sales & Broker Relations unit is expected to tailor VHP’s sales strategy and educational materials for each target population group. As plan-based enrollers, the sales team provides direct enrollment assistance to shoppers for the specific individual and off-exchange products that VHP offers. The team must keep abreast of year-to-year procedures, requirements, limitations, patient-centered benefit design, medical cost-shares, and percentage of coverage for each benefit rate as well as deadlines, and plan and metal-level details.

The analysts in Sales & Broker Relations also validate, test, and reconcile broker of record and commission data to ensure that the brokers are paid correctly based on VHP business logic and tier-based commission structure. As VHP continues to expand and implement automated solutions, the analysts would manage multiple data sources and compare and analyze eligibility and broker of record data. For instance, they would validate the broker of record inputs from VHP’s core systems against the inbound data coming from Covered CA (CoCA). The analysts would identify data script errors, conduct manual updates/revisions, and develop root-cause analysis for larger data integrity issues. The analysts would also maintain and validate an accurate book of business for each broker and process agent/agency broker agreements to appoint brokers as VHP agents. The Sales & Broker Relations analysts track enrollment/retention data for broker-assisted enrollments, the number of appointed agents, percentage of members who paid their premium payments on time, and the number of brokers who are complaint versus noncompliant per Broker agreements.

*Data-Focused*

The Sales & Broker Relations unit is currently facing many data-integrity issues due to the lack of an automated reconciliation process to validate broker of record data in QNXT. As broker enrollments continue to grow, VHP needs to validate the data accurately and timely to avoid commission-related issues for brokers. Currently, almost 60% of all enrollments are
broker-assisted for the CoCA and Individual & Family Plan (IFP) lines of business and 10,000 VHP members rely on brokers to enroll or maintain their plan. The Sales & Broker Relations unit is also working on implementing a sales automation solution that will allow individuals and brokers the ability to use a “shop, quote, and enroll” tool as well as offering a broker portal that will require an interface with QNXT. The Sales & Broker Relations unit needs to ensure that all broker or record data in QNXT is correct and reconciled against CalHEERS data before the data is inputted into the new sales automation solution.

**Add 1.0 FTE alternately staffed Senior Management Analyst or Management Analyst position** to perform data reconciliation, track manual updates, maintain broker of record data, and ensure that all broker of record data in QNXT is validated before integrating QNXT with a sales automation solution. Additionally, this position would audit broker of record data and reconcile data among the VHP core system, QNXT, and CalHEERS. The broker relations side must be adequately staffed to focus on sales strategies, maintain broker of record data accuracy, and ensure regulatory compliance.

**Spanish-Speaking**

The Sales & Broker Relations unit recognizes the need to increase engagement and support for brokers/agents in Region 7 and potential geographic expansions. Brokers/agents are currently responsible for 59% of all CoCA and Individual & Family Plan (IFP) enrollments. Increased sales strategies and alignment with marketing tactics are vital to the success of future enrollment periods, including member retention. Currently, VHP does not have a Spanish-speaking analyst/representative on the sales team, yet almost 40% of all calls to Sales & Broker Relations are from Spanish-speaking shoppers, and this percentage expected to increase as VHP expands. According to the U.S. Census, 26% of residents in Santa Clara County are Latino. Having an in-house Spanish-speaking staff resource would allow the sales side to better engage with and reach out to the Spanish-speaking residents in VHP’s market areas.

**Add 1.0 FTE alternately staffed Senior Management Analyst or Management Analyst (Spanish-Speaking) position** to educate shoppers, appointed brokers, CoCA navigators, and community enrollers about VHP’s procedures, requirements, limitations, patient-centered benefit design, medical cost-shares, and percentage of coverage rates as well as deadlines and plan and metal-level details in English and Spanish. This position would be trained to support all Spanish-speaking clients and prospective members and provide direct enrollment assistance, in Spanish, as clients navigate the CoCA portal, online application and its requirements, as well as the VHP off-exchange IFP application. Currently, these efforts can take from 45 minutes to two (2) hours due to barriers using the translation service and their lack of knowledge of Spanish health insurance key terms. This position would be especially important since VHP anticipates an increased growth in membership from the Latino communities in VHP’s expansion regions.

There is an increased need for VHP to be involved in more broker-related events to improve broker satisfaction and support, and VHP could engage community enrollers and CoCA navigators who connect with VHP’s target population. As Marketing & Communications increases engagement opportunities with community outreach events, VHP is receiving more
shopper calls and visits, many from Spanish-speaking individuals, to the sales team. There is a need to hire a sales representative who is culturally and linguistically suitable to support the County’s Latino-based community as reaching out to the Latino population is an area for potential growth for VHP. By adding a Spanish-speaking sales resource, VHP would provide better service to Spanish-speaking shoppers as communication would be channeled appropriately through a resource who speaks their respective language.

MARKETING & COMMUNICATIONS

The Marketing & Communications (M&C) unit has been tasked with two major initiatives: Customer Acquisition and Customer Retention. The success of both initiatives hinge on the creation of a positive user experience across multiple digital channels. Both potential and existing customers demand a logical web design, swift and accessible communication through social media channels, and the ability to have a consistent customer experience across multiple platforms.

Add 1.0 FTE Social Media/Internet Communications Specialist position to support the development and execution of strategic marketing campaigns for new member enrollment and retention. Additionally, this position would create, implement, and maintain a public communication internet presence and broad-based social media strategies as well as represent VHP’s public and media outreach efforts across social, internet, and emerging media.

With VHP’s transition to a public facing health plan, M&C has an increased expectation to have an active presence on appropriate social media and digital platforms. Additionally, the County has emphasized social media and digital engagement as priority communication formats for all departments. To meet these new demands and align more closely with County priorities, M&C needs additional staffing. This position would establish a level of engagement, knowledge, and skill in internet etiquette, response time, social media platform appropriateness, social media campaign development, and web management necessary to address the growing genre of social media and web-related avenues of the community. The cost of poor web design and implementation and inconsistent or non-responsive social media interactions is a significant contributor to the loss of customer loyalty.

ADMINISTRATION & HUMAN RESOURCES

Add 1.0 FTE alternately staffed Senior Management Analyst or Management Analyst position to lead VHP’s dynamic recruitment and personnel management (workforce planning) team, which includes but is not limited to the management of a managed care professional network marketing program, the coordination of Accreditation Association for Ambulatory Health Care (AAAHC) and National Committee for Quality Assurance (NCQA) accreditation standards for new hire onboarding for over two dozen department sub-units, and the development and management of HR business contracts. Additionally, this position would assist the VHP executive team in its organizational development plans and activities. Finally, this position would collaborate with the Employee Services Agency on a long-term department-wide class study with a focus on right-sizing current classifications to the appropriate managed care specific classifications with the additional goal of creating new classification series for staff career advancement opportunities.
The Administration & HR unit provides centralized administrative support to VHP leadership/management, employees, candidates (potential employees), members, and shoppers (potential members), with employee relations, recruitment and hiring, training and development, budget, and other administrative (including front desk, clerical, and communication) functions. The recruitment and personnel management (workforce planning) team is currently led by an Unclassified Senior Management Analyst, whose term will end in October 2020. With over 241 positions and 66 vacancies, VHP is in urgent need of a full-time classified position to lead its workforce planning efforts.

ACCREDITATION

National Committee for Quality Assurance (NCQA) Health Plan Accreditation (HPA) will be a requirement in the next two (2) to five (5) years, mandated by both Covered California and the California Department of Managed Health Care (DMHC). Building an NCQA accredited organization requires a full-time Program Manager III to interpret regulations, lead special projects, and build the structure to support the leadership team. When VHP previously had NCQA accreditation, much of the work was done by consultants. NCQA accreditation necessitates dedicated staff and a sophisticated level of analysis and report writing.

Add 1.0 FTE Program Manager III position responsible for managing the efforts of VHP in attaining and maintaining accreditation through NCQA. As part of VHP’s senior management team, this position would oversee the accreditation process, which includes working closely with all managers and stakeholders in establishing and refining accreditation policies and procedures—such as for data collection and surveys—as well as conducting pre-audits to review the quality and completeness of performance analysis. Additionally, this position would conduct gap analysis and facilitate stakeholder collaboration for all projects assigned, including ongoing work stream facilitation in support of NCQA accreditation survey readiness. This position would also create, monitor, and execute project work plans and deliverables, including working with the Quality Improvement Manager with ongoing NCQA program planning and management. Moreover, this position would manage the Accreditation staff.

The current Accreditation unit, which comprises of one coded Program Manager I and one coded Management Analyst, is currently managing the Accreditation Association for Ambulatory Health Care (AAAHC) program. They are responsible for ensuring VHP maintains AAAHC accreditation while the NCQA accreditation program is established. The Program Manager III position would enable operational improvement within the Accreditation unit, which is necessary to meet VHP’s NCQA accreditation and other organizational goals. The Program Manager III would serve as resource manager, auditor, organizer, planner, problem-solver, facilitator, and ambassador, both internally and externally. In effect, the Program Manager III would manage all aspects of the accreditation processes, ensuring that appropriate phases are defined, interdepartmental deliverables are coordinated, and reports are properly analyzed—and, most importantly, bring NCQA accreditation a step closer to fruition.

VHP is currently experiencing significant challenges meeting new and existing standards and guidelines for AAAHC and NCQA. Limited resources for the Accreditation unit has been a
critical factor; as a result, scope of work has been restricted and in-depth improvement analysis required by the accreditation bodies, Health Effectiveness Data and Information Set (HEDIS) performance measures, and Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey needs to be completed. If this position is not filled, VHP would be at risk of being out of compliance with Covered California and Santa Clara Family Health Plan (SCFHP) contracts.

**BUSINESS CONFIGURATION**

**Add 1.0 FTE Program Manager II position** responsible for managing the configuration, design, and maintenance of the core claims administration system (i.e., QNXT) for VHP. As part of VHP’s senior management team, this position would work closely with all stakeholders in developing and overseeing workflow improvements. Business processes include claims adjudication; creating and running queries using MS Access and SQL for the purpose of system validations and audits related to claims, benefits, and contracts; maintenance of the Covered California line of business (e.g., provider data, contracts, benefits, pricing, etc.); analyzing new provider contracts for coverage, policy, reimbursement development, and implications for system edits; reviewing, designing, and configuring provider contracts in the claims system; collaborating with the Provider Contracts Administration (PCA) unit to ensure compliant and accurate configuration and maximize claims auto adjudication; loading all code sets into the claims system (e.g., CPT, HCPCS, Revenue, Modifiers, UB04 Data, etc.); ensuring that all updates made will not negatively impact the organization; making recommendations regarding configuration changes to benefits, contracts, Utilization Management (UM) documents, and service group additions for new or changed codes; loading and maintaining all fee schedules for claims processing (e.g., Medi-Cal and CMS fee sets), including ASP, DME, CLIA LAB, RBRVS, APC, DRG, etc.; maintaining custom fee schedules specific to contracts; performing pre-adjudication claims reviews (configuration testing) to ensure proper configuration of contracts, benefits, and authorizations; and unit testing as well as assisting with documentation of test scenarios for implementation of new business and system upgrades.

The Business Configuration unit currently lacks a full-time manager position, which is being filled with an external consultant. The Program Manager II position would hire, train, supervise, and validate the work of two (2) Business Configuration Analyst positions, one (1) Unclassified Senior Management Analyst position, and one (1) Management Analyst position. Reporting to the VHP-Chief Operations Officer, this position would work collaboratively with the Senior Business Configuration Analyst, who serves as a subject matter expert (SME). If this position is not established, VHP would not be able to complete necessary work to support regional/network provider expansion and the increase in membership.

**CLAIMS**

**Add 1.0 FTE Professional Coding Analyst position** in Claims. This position would possess the coding certification necessary to serve as a subject matter expert (SME), review medical records documentation, audit billing information, and ensure billed charges are accurate. This position would also fill in the current gap of coding expertise for VHP and...
conduct studies and reviews of coding issues related to high dollar claims. High dollar claims are claims billed amounts of more than $100,000. Currently, VHP is not reviewing high dollar claims as VHP has a structure and process arranged through a vendor to review high dollar claims. The total actual savings with the vendor’s (Zelis) review for the past two (2) years was more than $4 million. If this position conducts studies and reviews of coding issues, the return on investment should parallel the same trajectory as the vendor’s review of high dollar claims. Additionally, this position would perform analysis and carry out projects that require coordination with multiple departments and units for the implementation of coding educational materials for external providers and VHP internal staff.

**Delete 1.0 FTE vacant alternately staffed Coder II or Coder I position** in Claims. While the Coder II or Coder I position has the same certification requirement as a Professional Coding Analyst position, the required knowledge, ability, and typical tasks set the two classifications apart. The Claims unit requires the Professional Coder Analyst position instead of the vacant alternately staffed Coder II or Coder I because the Professional Coding Analyst position responsibilities align more closely with VHP’s current operational needs. For example, the Coding analyst job specifications go beyond those of the Coder II or Coder I and better align with and enhance VHP operations in the following ways:

- The Professional Coding Analyst would query and request for any missing, unclear, or conflicting documentation related to International Classification of Diseases (ICD) and current procedural terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) codes from providers.

- The Professional Coding Analyst would conduct coding reviews and recommend workflow changes to maximize coding and charges accuracy.

- The Professional Coding Analyst would be expected to escalate, when needed, charge errors and/or coding discrepancies to Compliance for review at the Fraud and Waste Committee.

- The Professional Coding Analyst would educate and guide providers to capture revenue accurately instead of the Coder II’s responsibility of obtaining account clarification and corrections from providers.

- The Professional Coding Analyst would provide professional fee coding expertise to department managers, nurses, physicians, and claims examiners.

- The Professional Coding Analyst would serve as the institutional SME and resource for interpretation and application of coding rules and regulations pertaining to professional services.

Although the Coder III is a higher-level position than the current vacant Coder II position, the Professional Coding Analyst position differs from the Coder III position as the Coder III’s duties are coding and abstracting of nature, whereas the Professional Coding Analyst’s capacity involves performing analytic studies and preparing reports on coding and accuracy of provider submitted procedure codes. The Professional Coding Analyst would also fill in the missing gap for development of provider education curriculum and training materials of correct coding guidelines. A key difference between the two classifications is the
Professional Coding Analyst would have extensive and continuous interaction with the Information Services unit to assist with resolving problematic configuration settings and computer system issues related to coding. Currently, VHP does not have any full-time certified coders supporting units, such as Claims, Utilization Management, and Appeals & Grievances. The Professional Coding Analyst would be the knowledge powerhouse with an extensive understanding of medical records and ability to conduct analytical studies related to the accuracy of billing and coding to achieve revenue control and prevent payment of incorrectly coded claims.

The Professional Coding Analyst position would not only fill in the coding expertise gap but also educate and guide VHP Claims, Utilization Management, Appeals & Grievances, and Configuration with the coding guidelines as updates and changes are continuous from the National Correct Coding Initiative Edits (NCCI). Additionally, the opportunities are far reaching for external provider and internal staffing education as an incumbent with the certification from the American Academy of Professional Coders (AAPC) or the American Health Information Management Association (AHIMA) would be able to produce materials to support the correct coding conventions for accurate claims reimbursement. The additional staff resource would allow for the ability of VHP Claims to provide insurance claims analysis, resolution of claims issues, and implementation of coding educational materials.

VHP initially attempted an administrative add and delete request action of deleting the one vacant alternately staffed Coder II or Coder I position and adding the one Professional Coding Analyst position. Since the Coder classification series are represented by the bargaining unit SEIU 521, VHP needs concurrence from SEIU 521 to move forward with the proposed administrative add and delete request action. In August 2019, VHP sent SEIU 521 a notice of the proposed add and delete action. SEIU 521 did not concur with such action and requested to meet with VHP. In November 2019, VHP and SEIU 521 met and discussed the action further; however, no agreement was reached.

The Employee Services Agency supports the recommended action.

**CHILD IMPACT**

The recommended action will have no/neutral impact on children.

**SENIOR IMPACT**

The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**

The recommended action will have no/neutral sustainability implications.

**BACKGROUND**

Valley Health Plan (VHP) is a Knox-Keene licensed health maintenance organization (HMO) owned and operated by the County of Santa Clara. VHP has received accreditation from the Accreditation Association for Ambulatory Health Care (AAAHC) and is a Qualified Health Plan (QHP) for Covered California and the California Health Benefit Exchange. VHP is committed to promoting managed care principals, such as paneled physician practices, health education, disease management, preventative care, utilization management, and community
outreach to improve the health and well-being of its members. The plan administrative performance is regulated by the State of California through the Department of Managed Health Care (DMHC) for both financial and medical operations. The ongoing successful operation of VHP contributes to the financial viability of the County.

With over 241 positions and 66 vacancies, VHP’s current strategy to enhance its recruitment efforts includes but is not limited to: marketing VHP as an employer of choice through social media platforms such as LinkedIn; promoting VHP’s vacant positions in professional networks such as Health Plan Alliance, California Health Facts, and the California Association of Health Plan; and utilizing professional outreach services to attract managed care talent. VHP is also allocating in-house resources, such as a dedicated website, recruitment email, and phoneline, to streamline VHP recruitment services.

**CONSEQUENCES OF NEGATIVE ACTION**

Valley Health Plan (VHP) would not be adequately staffed/supported to move toward the desired self-sustaining organizational model to provide the services essential for VHP business operations, would be at risk of incurring significant fines and penalties, and would be non-compliant with the Department of Managed Health Care (DMHC) regulations.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board of Supervisors will notify Daryl Ricasa, Stacy Burnell, and Kevin Luu at Valley Health Plan via email at daryl.ricasa@vhp.sccgov.org, stacy.burnell@vhp.sccgov.org, and kevin.luu@vhp.sccgov.org upon completed processing.

Megan Doyle
Clerk of the Board of Supervisors
DATE: April 7, 2020

TO: Board of Supervisors

FROM: John P. Mills, Director, Employee Services Agency

SUBJECT: New Classification - Traffic Signal Systems Supervisor

RECOMMENDED ACTION

Approve job specification and amend Classification Plan to add classification of Traffic Signal Systems Supervisor.

FISCAL IMPLICATIONS

The cost of the two (2) new of Traffic Signal Systems Supervisor positions within the Roads and Airports Department for the remainder of FY 2019-20 is approximately $30,000 and will be absorbed within Roads and Airports’ existing appropriations. The annualized cost of adding these new positions is approximately $185,000.

CONTRACT HISTORY

Not applicable.

REASONS FOR RECOMMENDATION

The Roads Department maintains and operates approximately 632 miles of urban and rural roadways and expressways in the unincorporated areas of Santa Clara County. The County of Santa Clara is the only county in California that maintains its own expressway system.

It was determined that, to best serve the needs of the County, there should be two distinct sides to the Signal and Electrical Operations group. The Inspection and Maintenance side will have responsibility for the inspection and maintenance of the equipment and facilities used in Traffic Signal Operations, and the Signal Operations side will focus on the repair and maintenance of the actual traffic signal systems themselves. Each of these areas will be supervised by the proposed new classification of Traffic Signal Systems Supervisor. This classification will be responsible for providing insight and information to the Principal Civil Engineer and be able to serve as a Subject Matter Expert on the traffic signal systems, a critical link between the engineering side and the field side. The new classification contains the appropriate definition, typical tasks, employment standards, and compensation to perform the duties to be assigned. Additionally, it is recommended to abolish the Electronic Systems Supervisor classification, as it is no longer being utilized.
CHILD IMPACT
The recommended action will have no/neutral impact on children.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
Roads and Airports Department management identified a need for a position to work in collaboration with the Traffic Operations Group, and to oversee and supervise the Traffic Operations Center. Employee Services Agency – Human Resources (ESA-HR) accepted the study to identify and create a new classification.

The proposed Traffic Signal Systems Supervisor classification will oversee the critical operations of the Traffic Operations Center, which includes the supervision of all staff assigned to the installation, operation, inspection, maintenance, repair, and modification of traffic signal systems, lighting, and electrical/electronic systems. This classification will be responsible for receiving trouble calls, investigating alarms at signalized intersections and pump stations, and taking immediate and appropriate action. In addition, this new classification will supervise all Senior Electrical/Electronic Technicians, Electrical/Electronic Technicians, and Electrical/Electronic Assistants, who are assigned to maintain signalized traffic intersections. The proposed Traffic Signal Systems Supervisor classification will be an integral part of the Signal Operations Unit and will focus on Signal Operations and Inspection and Maintenance, and will report to a Principal Civil Engineer, responsible for the oversight of the two closely related Traffic Engineering and Signal Operations groups.

The Traffic Signal Systems Supervisor will have expertise in the electrical and electronic systems that form the foundation of the County-wide traffic signal system. This classification will be responsible for providing insight and information to the Principal Civil Engineer and be able to serve as a Subject Matter Expert on the traffic signal systems. Due to the large geographic area that Santa Clara County covers, it is appropriate to have two (2) positions in the new classification. One (1) position will oversee the Signal Operations side and one (1) position will oversee the Inspection and Maintenance side of Signal & Electrical Operations. Additionally, having two (2) Traffic Signal Systems Supervisor positions allows the Roads Department to better plan for the workloads of their respective areas and provides each Traffic Signal Systems Supervisor with the ability to gain a deeper understanding of the required areas. This increased knowledge will allow each Traffic Signal Systems Supervisor to make responsible recommendations about technological changes and developments affecting the County-wide signal systems.

The original salary survey required looking outside of the comparable jurisdictions, as there was only one comparable classification within the five (5) comparable counties. Many local jurisdictions utilize their own classifications for work done in and around their area. Two (2) jurisdictions, the Municipal Transit Authority and the City of San Jose, had specifications
that were sufficiently similar that they could be considered as comparable. Including these comparable classifications in the salary survey increased the average significantly and showed the recommended salary of the proposed Traffic Signal Systems Supervisor to be 10.2% below the average. While the employment standards for the two (2) classifications added to the salary survey are slightly higher, it is not recommended to increase the employment standards of the Traffic Signal Systems Supervisor. The County of Santa Clara strives to attract qualified employees to work in the County, and based upon the amended salary survey, it is recommended that the salary of the Traffic Signal Systems Supervisor be placed at an hourly rate of $49.28 – $59.90. This salary, while approximately 0.8% under the average, supports the slightly lower employment standards, while still providing a competitive wage in the current market, allowing the County to attract and retain highly qualified applicants.

County Employees’ Management Association (CEMA) concurs with the recommended actions.

CONSEQUENCES OF NEGATIVE ACTION
The department will be hindered in its ability to efficiently maintain the traffic controls for over 600+ miles of roadway.

STEPS FOLLOWING APPROVAL
The Clerk of the Board of Supervisors is requested to notify the ESA Agenda coordinators of completed processing.

CLASSIFICATION REPORT

Date: February 27, 2020

To: Harry Freitas, Director
Roads and Airports Department

Fattima Contreras, Senior Human Resources Analyst

From: Employee Services Agency – Human Resources

Reviewed by: Anita Asher, Human Resources Manager

Subject: Classification Report – Traffic Signal Systems Supervisor

Background
The Roads and Airports Department management identified a need for a position to work in collaboration with the Traffic Operations Group, and to oversee and supervise the Traffic Operations Center. Employee Services Agency – Human Resources (ESA-HR) accepted the study to identify and create a new classification.

Organization:
The Roads Department maintains and operates approximately 632 miles of urban and rural roadways and expressways, in the unincorporated areas of Santa Clara County; it is the only county in California that maintains its own expressway system. The Department’s mission is to maintain, operate, and enhance the County’s roadways, as well as sustain a high quality of living by ensuring the safety of the traveling public and accommodating road travelers. The Roads Department achieves this mission through three functional areas: traffic management, infrastructure development, and property management.

Road Maintenance and Signal Operations is comprised of six units: Administration; East, West and South Road Maintenance yards; Roads Engineering; and Traffic Engineering and Signal Operations.

Board of Supervisors: Mike Wasserman, Cindy Chavez, Dave Cortese, Susan Ellenberg, S. Joseph Simitian
County Executive: Jeffrey V. Smith
Findings/Analysis:
It was determined that, to best serve the needs of the County, there should be two
distinct sides to the Signal and Electrical Operations group. The Inspection and
Maintenance side will have responsibility for the inspection and maintenance of the
equipment and facilities used in Traffic Signal Operations, and the Signal Operations
side will focus on the repair and maintenance of the actual traffic signal systems. Each
of these areas will be supervised by the proposed new classification of Traffic Signal
Systems Supervisor.

The proposed Traffic Signal Systems Supervisor classification will oversee the critical
operations of the Traffic Operations Center, which includes the supervision of all staff
assigned to the installation, operation, inspection, maintenance, repair, and modification
of traffic signal systems, lighting, and electrical/electronic systems. This classification
will be responsible for receiving trouble calls, investigating alarms at signalized
intersections and pump stations, and taking immediate and appropriate action. In
addition, this new classification will supervise all Senior Electrical/Electronic
Technicians, Electrical/Electronic Technicians, and Electrical/ Electronic Assistants,
who are assigned to maintain signalized traffic intersections. The proposed Traffic
Signal Systems Supervisor classification will be an integral part of the Signal
Operations Unit and will focus on Signal Operations and Inspection and Maintenance,
and will report to a Principal Civil Engineer, responsible for the oversight of the two
closely related Traffic Engineering and Signal Operations groups.

The Traffic Signal Systems Supervisor will have expertise in the electrical and
electronic systems that form the foundation of the County-wide traffic signal system.
This classification will be responsible for providing insight and information to the
Principal Civil Engineer and be able to serve as a Subject Matter Expert on the traffic
signal systems.

The definition of the Traffic Signal Systems Supervisor is: “Under direction, to
supervise the installation, operation, inspection, maintenance, repair, and modification
of traffic signal systems, lighting, electrical/electronic systems and components, and
signal lighting facilities, and has overall responsibility for the Traffic Operations
Center.”

Examples of the typical tasks performed by the Traffic Signal Systems Supervisor
include:
• Supervises the Traffic Operations Center, including the installation, operation, inspection, maintenance, repair, and modification of traffic signal systems, lighting and electrical/electronic systems;
• Plans, assigns, trains, supervises, counsels, and reviews the daily work of traffic signal staff;
• Interviews and selects or recommends selection of new staff;
• Coordinates and oversees emergency repairs and other electrical work as needed;
• Operates and maintains the Traffic Operations Center and monitors Traffic Management System alarms;
• Adjusts or supervises adjustment of traffic signal timing for planned or unplanned incidents; ensures proper and safe operation of traffic signals;
• Develops and implements diagnostic techniques for traffic signal systems, controllers, and other electrical systems;
• Develops and maintains a schedule for preventive maintenance programs, and oversees and provides assistance as needed to perform scheduled maintenance;
• Supervises the investigation of complaints and responds to concerns related to traffic signal lighting and related equipment malfunctions;
• Coordinates with other public jurisdictions that interface with traffic control, signals, and related systems;
• Estimates time and material costs for various traffic signal projects;
• Maintains knowledge of current technology and vendor equipment; trains and provides relevant technical support to staff on traffic signal computer programs and peripheral equipment;
• Reviews design plans and specifications and makes recommendations concerning constructability, installation, and modifications of proposed traffic signal or lighting systems, and coordinates and communicates with engineering staff.

The employment standards include the following training and experience note that specifies the most typical way to obtain required knowledge and abilities:

The required knowledge and abilities are attained through possession of a high school diploma or equivalent,

and

Three (3) years of experience in the electrical/electronic field, which must have included work on traffic signals and systems, and two (2) years of experience comparable to the
Senior Electrical/Electronic Technician in the County of Santa Clara, which must include lead or supervisory duties.

Completion of an approved four (4) year electrical apprenticeship may substitute for two (2) years of the required work experience, but cannot be substituted for the lead or supervisory experience.

**Salary Analysis**

A review of the five comparable counties, including Alameda, Contra Costa, San Mateo, Santa Cruz and the City and County of San Francisco, was conducted. However, there was not a comparable classification found in four of the five local jurisdictions. Only Alameda County was found to have a classification with a comparable definition, tasks, and employment standards to the proposed Traffic Signal Systems Supervisor. Additional research found comparable classifications in Sacramento County and the City of Campbell. The average top hourly rate for this classification in these jurisdictions was $48.79 hourly.

In the County of Santa Clara, the Traffic Signal Systems Supervisor will have supervision over the Senior Electrical/Electronic Technician classification, among others, which is paid $49.02 hourly at top step, therefore; it is recommended that the salary for the Traffic Signal Systems Supervisor be $44.34 – $53.90 hourly. This is approximately 9% above the market average, making it competitive in the local job market and allowing for a 10% difference between the Supervisory class and the salary of the highest subordinate classification supervised, the Senior Electrical/Electronic Technician.

Due to the large geographic area that Santa Cara County covers, it is appropriate to have two (2) positions in the new classification. One (1) position will oversee the Signal Operations side and one (1) position will oversee the Inspection and Maintenance side of Signal & Electrical Operations. Additionally, having two (2) Traffic Signal Systems Supervisor positions allows the Roads Department to better plan for the workloads of their respective areas and provides each Traffic Signal Systems Supervisor with the ability to gain a deeper understanding of the required areas. This increased knowledge will allow each Traffic Signal Systems Supervisor to make responsible recommendations about technological changes and developments affecting the County-wide signal systems.
Addenda
A meet and confer was held with CEMA on January 28, 2020, at which time CEMA presented several class specifications from other jurisdictions to consider an increase to the salary recommendation of the new classification.

The original salary survey required looking outside of the comparable jurisdictions, as there was only one comparable classification within the five (5) comparable counties. Many local jurisdictions utilize their own classifications for work done in and around their area. Two (2) jurisdictions, the Municipal Transit Authority and the City of San Jose, had specifications that were similar enough that they could be considered as comparable. Including these comparable classifications in the salary survey increased the average significantly and showed the recommended salary of the proposed Traffic Signal Systems Supervisor to be 10.2% below average. While the employment standards for the two (2) classifications added to the salary survey are slightly higher, it is not recommended to increase the employment standards to the TSSS. The County of Santa Clara strives to attract qualified employees to work in the County, and based upon the amended salary survey, it is recommended that the salary of the TSSS be increased to $49.28 – $59.40. This 10.2% increase will provide a competitive wage in the current market, allowing us to attract and retain highly qualified applicants.

Recommendations
1. Adopt the new classification of Traffic Signal Systems Supervisor and compensate it at $49.28 – $59.40 hourly.
2. Add two (2) Traffic Signal Systems Supervisor positions in BU 603.
3. Delete one (1) vacant Electrical Systems Supervisor position in BU 603.

Fiscal Implications
The annual cost to add two Traffic Signal Systems Supervisor positions is approximately $233,334.

Traffic Signal Systems Supervisor

Definition
Under direction, to supervise the installation, operation, inspection, maintenance, repair, and modification of traffic signal systems, lighting, electrical/electronic systems and components, and signal lighting facilities, and has overall responsibility for the Traffic Operations Center.

Distinguishing Characteristics
The Traffic Signal Systems Supervisor supervises technical staff and performs, or assists in performing, the most difficult inspection, repair, and testing of electrical/electronic traffic signal systems and components. This classification serves as a specialist in traffic signal system technology, such as traffic signal synchronization, computerization, and equipment. The Traffic Signal Systems Supervisor makes recommendations and advises on impacts to the County-wide signal system.

The Traffic Signal Systems Supervisor classification is distinguished from the Principal Civil Engineer – Roads and Airports classification in that the Principal Civil Engineer – Roads and Airports is a management-level classification with responsibility for the activities of the Engineering and Operations divisions, including oversight of the Traffic Engineering and Signal Operations groups, whereas the Traffic Signal Systems Supervisor has responsibility for the direct supervision of staff assigned to the installation, operation, inspection, maintenance, repair, and modification of traffic signals and related equipment.

The Traffic Signal Systems Supervisor classification is distinguished from the Senior Electrical/Electronic Technician classification in that the Senior Electrical/Electronic Technician independently performs construction inspection, the more complex maintenance and repair of traffic signals, lighting, voice and data cabling, telecommunications equipment, electrical/electronic systems and related equipment, and acts in a lead capacity over the Electrical/Electronic Assistants and Technicians, whereas the Traffic Signal Systems Supervisor has full supervisory responsibility over the Traffic Operations Center staff.
Typical Tasks

- Supervises the Traffic Operations Center, including the installation, operation, inspection, maintenance, repair, and modification of traffic signal systems, lighting and electrical/electronic systems;
- Plans, assigns, trains, supervises, counsels, and reviews the daily work of traffic signal staff;
- Interviews and selects or recommends selection of new staff;
- Coordinates and oversees emergency repairs and other electrical work as needed;
- Operates and maintains the Traffic Operations Center and monitors Traffic Management System alarms;
- Adjusts or supervises adjustment of traffic signal timing for planned or unplanned incidents; ensures proper and safe operation of traffic signals;
- Develops and implements diagnostic techniques for traffic signal systems, controllers, and other electrical systems;
- Develops and maintains a schedule for preventive maintenance programs, and oversees and provides assistance as needed to perform scheduled maintenance;
- Supervises the investigation of complaints and responds to concerns related to traffic signal lighting and related equipment malfunctions;
- Coordinates with other public jurisdictions that interface with traffic control, signals, and related systems;
- Estimates time and material costs for various traffic signal projects;
- Maintains knowledge of current technology and vendor equipment; trains and provides relevant technical support to staff on traffic signal computer programs and peripheral equipment;
- Reviews design plans and specifications and makes recommendations concerning constructability, installation, and modifications of proposed traffic signal or lighting systems, and coordinates and communicates with engineering staff;
- Reviews purchase orders, payments, and charges for signal and lighting installations and communication utility service charges;
- Prepares written reports on operations, equipment evaluation, maintenance, and measures of effectiveness;
- Assists with budget preparations;
• Serves as liaison with other County operations and outside agencies relative to the work and responsibilities of the Traffic Operations Center;
• May be assigned as a Disaster Service Worker, as required;
• Performs other related duties, as required.

Employment Standards
Sufficient education, training, and experience to demonstrate the possession and direct application of the following knowledge and abilities.

Training and Experience Note: The required knowledge and abilities are attained through possession of a high school diploma or equivalent, and

Three (3) years of experience in the electrical/electronic field, which must have included work on traffic signals and systems, and two (2) years of experience comparable to the Senior Electrical/Electronic Technician in the County of Santa Clara, which must include lead or supervisory duties.

Completion of an approved four (4) year electrical apprenticeship may substitute for two (2) years of the required work experience, but cannot be substituted for the lead or supervisory experience.

Special Requirements:
• Ability to travel to alternate locations in the course of work. If driving, possession of a valid California Driver's License prior to appointment and the ability to qualify for and maintain a County driver authorization.

Knowledge of:
• Methods and procedures used to operate, repair and maintain traffic signal control systems, lighting systems, and various electronic control systems;
• Principles and practices of training, supervision, and effective discipline;
• Theory and principles of electrical and electronic equipment and circuits, including the operation, maintenance and installation of digital and analog electronic systems;
• Laws, ordinances, and regulations governing electrical construction;
• Computer systems operation, maintenance, and installation;
• Principles and practices of traffic engineering;
• Occupational hazards and safety precautions;
• Computer use and common applications, such as word processing, spreadsheet, databases and e-mail applications.

**Ability to:**

• Plan, assign, train, supervise, and counsel staff;
• Read and interpret construction plans, specifications, electronic schematics, and diagrams;
• Develop procedures for preventive maintenance programs;
• Estimate time and material costs for electrical construction;
• Write clearly and concisely and prepare a variety of reports with recommendations;
• Develop and implement traffic signal timing plans and coordination plans;
• Operate computer-based traffic signal equipment and systems;
• Mitigate complaints related to traffic signal malfunctions;
• Develop and maintain effective working relationships with contractors, public safety personnel, staff, co-workers, and the general public;
• Operate a variety of office software and equipment.

**Physical Requirements:**

• Required to work on-call on a rotational basis and may be required to work after hours and on weekends in the event of emergencies.

Megan Doyle
Clerk of the Board of Supervisors
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John P. Mills, Director, Employee Services Agency
SUBJECT: New Executive Leadership Classification - California Children's Services Medical Director

RECOMMENDED ACTION
Approve job specification and amend Classification Plan to add classification of California Children's Services Medical Director.

FISCAL IMPLICATIONS
Please see Legislative File #100949.

CONTRACT HISTORY
Not applicable.

REASONS FOR RECOMMENDATION
The County needs a physician classification that is fully dedicated to providing proper medical oversight, guidance, and direction for the California Children’s Services (CCS) Program. Approval of the proposed job specification and linked Executive Leadership Salary Ordinance Amendment is necessary to specify the typical tasks, employment standards, and compensation for the required duties to be performed by the position.

CHILD IMPACT
The recommended action will have a positive impact on children as this position will provide medical leadership and oversight for local programs, policy development, and implementation of coordinated services for children with special healthcare needs.

SENIOR IMPACT
The recommended action will have no/neutral impact on seniors.

SUSTAINABILITY IMPLICATIONS
The recommended action will have no/neutral sustainability implications.

BACKGROUND
The Employee Services Agency (ESA), in conjunction with Public Health Department leadership, reviewed the current demands and future expectations for the CCS Program. In an effort to provide critical infrastructure for the implementation of key operational priorities for the CCS Program, a classification review was completed and identified that a fully focused medical leadership position was necessary.

Since 2002, the CCS Medical Director (Class Code-P04 Assistant Public Health Officer) has been a multi-functional position that has included (1) the primary role of providing medical direction for the CCS Program, (2) the secondary role of providing medical direction for the Child Health and Disability Program and other programs within the Maternal, Child, and Family Health Branch of the Public Health Department, and (3) the Assistant Public Health Officer role, which includes disaster/emergency response and 24/7 after-hours on-call responsibilities. Due to the complex nature of the CCS Program and the broader healthcare context, there has been increasing demand for the CCS Medical Director to focus time and expertise solely on that program. Furthermore, there has been a decline in medical guidance for CCS at the state level, placing more demands on the local CCS Medical Director.

Currently, there is no full-time dedicated position to provide proper guidance and direction for the CCS Program within the Public Health Department. Given the level of expertise and specialization required for the CCS Medical Director, as well as the current salary for the Assistant Public Health Officer classification, it has consistently been a challenge to recruit and retain employees in this role. Over the past six years, the department has had to recruit for CCS Medical Director twice. Both times, hiring was a challenge, taking more than six months to hire, with few candidates applying that met employment standards. In reviewing the compensation for this position, it was determined that the County is below the market average. Therefore, ESA recommends an increase in salary to be more competitive with surrounding Bay Area counties. The comparable counties used in the salary survey were the City and County of San Francisco, Alameda County, and San Mateo County.

After assessing the duties to be assigned, it was concluded that the Assistant Public Health Officer classification does not appropriately reflect the current role and level of responsibility needed, so ESA is recommending that the CCS Medical Director classification be created.

ESA will return to the Board in June 2020 with an amendment to the Executive Leadership Salary Ordinance to delete the Assistant Public Health Officer position responsible for the CCS Program to off-set the cost associated with the addition of the CCS Medical Director position.

In order to recruit individuals who will be successful in the position and to provide the highest quality of leadership, it is necessary to establish the appropriate classification that is reflective of the duties and typical tasks to be performed, and that specifies the knowledge, skills, abilities, and employment standards required. The recommended salary for the new classification of California Children’s Services Medical Director will ensure a competitive compensation package for recruitment and retention of individuals whose background and experience match the needs of this critical position.

It is recommended that the Board of Supervisors approve the creation of this new classification, along with the addition of the position, and that this classification be
established as an Executive Leadership classification, in the same manner as other Medical Director classifications.

**CONSEQUENCES OF NEGATIVE ACTION**

The Public Health Department would not have a fully dedicated executive leadership position for the successful medical guidance and direction of the California Children’s Services Program.

**STEPS FOLLOWING APPROVAL**

The Clerk of the Board of Supervisors is requested to send MinuteTraq notification of completed processing to Patricia Carrillo, Director, Executive Services, Employee Services Agency; Jennifer Paredes-Fricano, Agenda Coordinator, Human Resources Department, Employee Services Agency; and Sara Cody, Public Health Officer and Public Health Director, Public Health Department.

- California Children's Services Medical Director Job Specification (PDF)
California Children’s Services (CCS) Medical Director

THE POSITION

Under general direction, the Medical Director for the California Children’s Services (CCS) program provides medical direction and leadership for the program. This position determines medical eligibility for CCS services and provides medical oversight in the provision of care coordination and case management by registered nurses and provides consultation to the Chief occupational/physical therapist, and social workers. This position may act as the Director of the program as deemed necessary, and reports to the Public Health Officer.

TYPICAL TASKS

- Oversees all determinations of medical eligibility, medical benefits, and medical necessity for CCS Clients, which may include the supervision of eligibility/authorizations of nurse case managers.

- Provides oversight of quality of care and the continual improvement of services and medical outcomes, including participation in MTU Utilization Review.

- Addresses authorization denial and appeals; and participates in Fair Hearings.

- Monitors hospital adherence to CCS standards for Specialty Care Centers, including meeting and conferring with noncompliant providers.

- Provides leadership in policy development and implementation regarding coordination of services for children with special health care needs, and in the provision of optimal pediatric care in collaboration with all relevant agencies.

- Represents the County and CCS Program at regional and state CCS committees and convenings.

- Oversees provider relations activities, including provider communications, technical assistance to CCS providers regarding State policy, and training and information about CCS program.
• Provides medical oversight and education to the CCS Medical Therapy Program and its physicians,

• Collaborates with local health plans to ensure coordination and continuity of care and attends quarterly MOU meetings with health plans.

• Oversees CCS Medical Therapy conference team.

• Assists with recruitment of pediatricians and pediatric sub-specialists for CCS paneling.

• Participates in recruiting, selecting, onboarding and supervision of CCS clinical managers; and Chief (CCS) Therapist.

• Coordinates with CCS Administrator to provide daily support and appropriate direction to staff on issues pertaining to CCS eligibility, authorizations, and case management.

• Collaborates with the Director of Public Health Nursing Services for nurse practice policies and protocols.

• Ensure compliance with all CCS State policies and regulations.

• During a public health emergency, share 24/7 after-hours night and weekend call with other public health physicians for public health related issues.

• May be assigned as a Disaster Service Worker, as required; and

• Performs related duties, as required.
EMPLOYMENT STANDARDS

Considerable education, significant training and experience to demonstrate the ability to perform the above tasks and possession and application of the knowledge and abilities listed below:

Must be a licensed Physician in California.

The successful candidate will have at least (5) five years’ experience as a licensed physician, including (2) years of management experience in the planning, organization, and coordination of a local government and/or community based public health program, that includes (1) year experience in administrative or supervisory position.

Board Certified or Eligible in Pediatrics, or a related specialty is required. Board Certified or Eligible in a pediatric subspecialty is highly desired.

Knowledge of:

- Children with special health care needs and the California Code of Regulations governing CCS eligibility standards.
- Clinical medicine, public health and health care, management and administration.
- Federal, state and local laws governing public health programs for children with special health care needs.
- Principles and procedures of program development, implementation, evaluation and quality assurance/improvement.
- Principles of governmental organization, public financing and budgeting; and
- Current developments in local public health programs.

Ability to:

- Serve as the Public Health liaison to the local medical community and County medical association.
- Understand, interpret and apply provisions of federal, state and local legislation, rules
and regulations pertinent to the administration of appropriate programs.

- Facilitate interaction and collaboration among a complex mix of public agencies and community-based organizations.

- Speak before professional and community groups.

- Assist in the preparation and implementation of a comprehensive budget for CCS and other relative program(s) and assist in the control of expenditures; and

- Effectively plan, direct, supervise and evaluate work of subordinate staff.
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John P. Mills, Director, Employee Services Agency
SUBJECT: Salary Ordinance Amendment related to California Children's Services Medical Director

RECOMMENDED ACTION
Adoption of Executive Leadership Salary Ordinance No. NS-20.19.05 amending Santa Clara County Executive Leadership Salary Ordinance No. NS-20.19 relating to compensation of employees adding one California Children's Services Medical Director position in the Santa Clara Valley Health and Hospital System, Public Health Department, and amending Exhibit A of Executive Leadership Salary Ordinance No. NS-20.19 to add the classification of California Children's Services Medical Director.

- Introduce, waive reading, and preliminarily adopt on April 7, 2020.
- Adopt (Final) on April 21, 2020.

FISCAL IMPLICATIONS
The cost to implement the recommended action is approximately $64,500 for Fiscal Year (FY) 2019-20, and will be absorbed by the Public Health Department’s existing appropriations. The ongoing impact for FY 2020-21 is approximately $382,000, which will be offset by the future deletion of a vacant Assistant Public Officer position and an increase in the County’s allocation under the State of California Children’s Services program.

QT 4/21/2020

Form Approved by County Counsel 7/19/2019
DATE: April 7, 2020
TO: Board of Supervisors
FROM: John P. Mills, Director, Employee Services Agency
SUBJECT: Approve Tentative Agreement with the County Employees Management Association

RECOMMENDED ACTION
Approve Tentative Agreement with the County Employees Management Association, Operating Engineers Local No. 3, American Federation of Labor - Congress of Industrial Organizations for a Successor Labor Agreement for period April 6, 2020 through June 23, 2024, including equivalent applicable terms for unrepresented confidential administrative employees and related coded and uncoded classifications.

FISCAL IMPLICATIONS
The Tentative Agreement provides for a three percent (3%) general wage increase for CEMA-represented employees after ratification and upon implementation of the first wage increase, except for CEMA-represented nursing-related classifications. The Tentative Agreement also provides for a three percent (3%) general wage increase in each succeeding contract year for the remaining four years of the labor contract, except for CEMA-represented nursing-related classifications. The Tentative Agreement also provides for continuing the historical tie of the wage rate of employees in CEMA-represented nursing-related classifications identified in Section 2.6 with general wage increases implemented for the Registered Nurses Professional Association (“RNPA”). The CEMA-represented nursing-related classifications identified in Section 2.6 will receive general wage increases tied to any increases for RNPA over the next four years, through June 23, 2024. The cost to implement the general wage increase for employees in classifications represented by CEMA for the remainder of Fiscal Year 2020 is approximately $3,628,979, and the annualized cost is approximately $14,717,527.

The Tentative Agreement also provides for a reduction in the employee’s contribution to the Employer’s share of CalPERS. CEMA-represented employees in the Classic CalPERS retirement tier will receive a three percent (3%) reduction in their contribution of PERSable wages to the Employer’s CalPERS share after ratification and upon implementation of the
first reduction; the Classic employees will receive an additional reduction of two percent (2%) in Fiscal Year 2021. CEMA-represented employees in the PEPRA CalPERS retirement tier will receive a three percent (3%) reduction in their contribution of PERSable wages to the Employer’s CalPERS share after ratification and upon implementation of the first reduction; the PEPRA employees will receive an additional reduction of two and one-quarter percent (2.25%) in Fiscal Year 2021. The cost to implement this reduction for the remainder of Fiscal Year 2020 is approximately $3,103,327, and the annualized cost is approximately $12,585,714.

The Tentative Agreement also provides for salary realignments of varying percentages for several CEMA-represented classifications. The cost to implement the salary realignments for the remainder of Fiscal Year 2020 is approximately $503,859, and the annualized cost is approximately $2,043,428.

The Tentative Agreement also provides for a one-time, non-PERSable, lump-sum contract signing bonus. The cost to implement the contract signing bonus for Fiscal Year 2020 is approximately $9,010,966. As this is a one-time cost, there is no associated annualized cost.

Because the unrepresented confidential administrative classifications and related coded and uncoded classifications historically receive the same equivalent applicable terms as CEMA, such as general wage increases and cost-sharing of medical premiums and OPEB contribution rates, it is necessary to provide the equivalent applicable terms implemented for CEMA’s successor labor agreement to the unrepresented confidential administrative classifications and related coded and uncoded classifications.

The total cost to implement the Tentative Agreement for CEMA for the remainder of Fiscal Year 2020 is approximately $16,271,411, and the annualized cost is approximately $29,795,138.

**CONTRACT HISTORY**

Not applicable.

**REASONS FOR RECOMMENDATION**

The terms and conditions of the June 23, 2014-June 23, 2019 Summary of Changes to the 2013-2014 Memorandum of Agreement between the County and CEMA, approved by the Board of Supervisors on October 7, 2014, were extended through March 22, 2020. The recommended action is needed to implement the Tentative Agreement for a successor labor agreement, effective April 6, 2020 through June 23, 2024.

**CHILD IMPACT**

Board of Supervisors: Mike Wasserman, Cindy Chavez, Dave Cortese, Susan Ellenberg, S. Joseph Simitian
County Executive: Jeffrey V. Smith
Agenda Date: April 7, 2020
The recommended action will have no/neutral impact on children and youth.

**SENIOR IMPACT**
The recommended action will have no/neutral impact on seniors.

**SUSTAINABILITY IMPLICATIONS**
The recommended action will have no/neutral sustainability implications.

**BACKGROUND**
Representatives from the County began negotiating with representatives from CEMA, pursuant to direction provided by the Board of Supervisors in Closed Session, on April 26, 2019. On March 24, 2020, negotiations between the County and CEMA resulted in a Tentative Agreement for a five-year labor agreement, for the period from April 6, 2020 through June 23, 2024. CEMA submitted the Tentative Agreement to their membership for ratification. CEMA anticipates ratification of the Tentative Agreement by its membership on April 6, 2020.

The following are highlights of the Tentative Agreement:

* Term of Agreement - April 6, 2020 through June 23, 2024;
* Three percent (3%) general wage increase in each contract year;
* One-time, non-PERSable, lump-sum contract signing bonus;
* Reduce employee contribution to Employer’s CalPERS share;
* Continue the tie of future general wage increases for the CEMA-represented nursing-related, classifications to future general wage increases as negotiated by RNPA;
* Employees will contribute $15.00 per pay period to OPEB;
* Discuss the feasibility of adding a Retiree Health Reimbursement Account;
* Increase the annual Professional Development Allowance to $350,000;
* Increase bilingual differential to $200 per month;
* Eliminate the “first day sick” provision;
* Eliminate the “compaction” provision;
* Implement a “no strike/no lockout” provision.

**CONSEQUENCES OF NEGATIVE ACTION**
The County will be unable to implement the Tentative Agreement reached with CEMA.

**STEPS FOLLOWING APPROVAL**
The Clerk of the Board of Supervisors is requested to send MinuteTraq notification of completed processing to Jennifer Paredes-Fricano, Employee Services Agency, Human Resources Department.

ADMINISTRATIVE LEAVE LETTER
MEMORANDUM OF UNDERSTANDING

This is a Memorandum of Understanding between the County of Santa Clara (County) and the County Employees Management Association (CEMA) a California Corporation, which is affiliated with Operating Engineers, Local Union #3, AFL-CIO.

This Memorandum is the result of both parties meeting and conferring in good faith. The parties agree that the rates of pay contained herein comply with Section 709 of the Charter of the County of Santa Clara for the full term of this Agreement, which is June 23, 2014 April 6, 2020 through June 23, 2024.
ARTICLE 1 – RECOGNITION

Section 1.1 – Exclusive Bargaining Representative
The County recognizes County Employees Management Association (CEMA) as exclusive bargaining representative for all classified and unclassified employees in coded classifications within the Supervisory-Administrative bargaining unit.

For the purposes of this Agreement, an employee shall be defined as a person employed in a coded classification in the bargaining unit covered by this Agreement.

These employees are considered management employees and are expected to perform the duties and responsibilities required to accomplish their job. Premium pay and other special compensation are inapplicable to CEMA represented employees (except for cash overtime or compensatory time off for those classifications designated by the County as non-exempt under the Fair Labor Standards Act, and except for bilingual pay, uniform allowance, night shift differential, pest advisory differential and vacation add-back as provided in this Agreement).

Employees who are designated as exempt under FLSA in this Unit are considered salaried. The rates of pay shown in the Appendices reflect the appropriate salary which is due to the level of responsibility and the inapplicability of the various forms of premium pay and special compensations.

The County has designated the following classifications to be non-exempt under the provisions of the Fair Labor Standards Act:

B1T  Associate Management Analyst A
B1R  Associate Management Analyst B
J30  Credentials Specialist
B9C  Health Care Financial Analyst Associate
B5Y  Health Care Program Analyst I
B5Z  Health Care Program Analyst Associate
B18  Human Relations Coordinator I
B95  Liability Claims Adjuster I
B1W  Management Aide
X20  Supervising Probation Counselor
T29  Park Ranger Supervisor

Employees in the above classifications shall receive overtime pay in accordance with FLSA.

For non-exempt employees who do not meet the FLSA criteria for different work periods, overtime is defined as time worked beyond forty (40) hours in any seven (7) consecutive day work period or eight (8) hours in any one day (twenty-four hours) period. Non-exempt employees assigned under FLSA to work periods other than seven (7) or fourteen (14) consecutive day work periods, shall have work periods and daily overtime defined accordingly.

New language is underlined.
Deleted language is struck through.
As allowed by the 7k exemption for law enforcement employees, the County has designated a fourteen day work period. Overtime is defined as time worked beyond eighty (80) hours in a fourteen consecutive day work period or a regular scheduled shift duration in any workday.

Time for which pay is received but not worked, such as holiday, STO, sick leave, and authorized compensatory time off, is counted towards the base period. Employees shall not be assigned irregular work hours to avoid the payment of overtime. The County Executive shall determine by administrative order those classes and positions which shall be eligible for overtime work and for cash payment.

When overtime work is assigned and is authorized by an appointing authority to be worked, compensation for such time worked by non-exempt employees shall be time off with pay computed at the rate of one and one-half (1 1/2) hours off for every hour of overtime worked, except that such overtime work shall be paid in cash at the rate of one and one-half (1 1/2) times the regular hourly rate when specifically authorized by administrative order of the County Executive. Compensatory time off accruals/balance shall be limited to a maximum of two hundred and forty (240) hours.

All compensatory time off must be taken within twelve (12) months of the date the overtime was worked. Any balance remaining after twelve (12) months shall be paid in cash at the regular rate. Compensatory time balances shall be paid in cash on separation. An employee may elect in advance to receive compensatory time off credit in lieu of cash compensation for overtime where compensatory time off is allowed, if the appointing authority agrees.

**Section 1.2 – Workload**

Most employees in CEMA represented classifications are salaried employees who work the necessary hours to fulfill the duties of the position without overtime pay. Depending on the circumstances employees may work more or less than 40 hours in a particular work week. The County acknowledges that consistently working excess hours beyond a 40 hour work week may not be in the interest of employees or the County. If an employee thinks they are working excessive hours on a regular basis, they can request that CEMA and the County evaluate the impact of the workload on the employee.

The County and CEMA agree to jointly develop and offer to employees in CEMA represented classifications and Executive Managers training that would facilitate workload evaluation discussions including the following components:

- a) Communication skills between employee and employer,
- b) Reaffirmation and identification of priorities,
- c) Time management and its impact on workload,
- d) How to rebalance workload,
- e) Other issues as applicable.

**Section 1.3 Documents Sent Electronically via E-Mail**

The parties agree that documents sent electronically via e-mail are an acceptable form of communication and proof of service for timeline requirements and is allowed specifically in place of Certified U.S. Mail, wherever required in the labor contract. The “timestamp” of the e-mail by
the receiving party is controlling. If there is a dispute, the sending party’s e-mail record may be used to assist in resolving any timeline requirements. Still unresolved timeline requirements may be items of further dispute relative to the subject matter at hand. Items sent by Certified U.S. mail will still be acceptable, but not required.

The parties may designate which type of document will go to a specific e-mail address. Each party will give the other party the name or names of persons and their e-mail address as official recipient of such documents. Evidence of “full” mailboxes resulting in non-acceptance by the receiving party, or evidence or receiving party e-mail system malfunction experienced by the sending party automatically extends the timeline by one full County business day.

Section 1.4
The County shall send CEMA a courtesy copy of all Recommended Disciplinary Actions and Final Disciplinary Actions issued to CEMA represented employees. The form of delivery shall be via electronic mail. The courtesy copy shall be sent to CEMA’s designated point-of-contact within one (1) business day of issuing the Recommended Disciplinary Action or Final Disciplinary Action to the employee. For purposes of appeal, it shall be the employee’s responsibility to adhere contractual timelines. CEMA agrees to indemnify the County for any claims alleging breach of privacy resulting from CEMA receiving courtesy copies of the Recommended Disciplinary Actions and Final Disciplinary Actions for CEMA represented employees who are not CEMA members.

Employees subject to the Public Safety Officers Procedural Bill of Rights Act (“POBAR”) of 1974 are excluded from this section.
ARTICLE 2 – SALARIES AND OTHER COMPENSATION

Section 2.1 – Basic Wage
Salaries for the term of the agreement for represented classifications are contained in Appendix B.

2% Wage Increase for Structural Changes:
For the period between December 23, 2013 and June 22, 2014 the County provided 4% wage increase (equivalent to a 2% annual wage increase) in exchange for structural changes made herein. Effective June 22, 2014, at 11:59 p.m. the wage increase amount shall decrease from approximately 4% to 2%.

General Wage Increases:
Effective May 4, 2020 the County shall provide a 3% general wage increase for all employees in the bargaining unit, except for those employees in the classifications listed in Section 2.6 below, who shall not receive the 3% general wage increase.

Effective Pay Period 20/14, June 15, 2020 June 23, 2014, the County will provide a 3% wage increase for all employees in the bargaining unit, except for those employees in those classifications listed in Section 2.6 below, who shall not receive the 3% general wage increase.

Effective Pay Period 21/14, June 28, 2021 June 22, 2015, the County will provide a 3.25% general wage increase for all employees in the bargaining unit, that will be combined with 6.21% self-funded wage for a total of 9.46%, except for those employees in those classifications listed in Section 2.6 below, who shall not receive the 3.0% general wage increase.

Effective Pay Period 16/22/14, June 27, 2016, the County will provide a 3.0% general wage increase for all classifications in the bargaining unit except for those employees in those classifications listed in Section 2.6 below, who shall not receive the 3.0% general wage increase.

Effective Pay Period 18/14, June 25, 2018, the County will provide a 3.0% general wage increase for all classifications in the bargaining unit except for those employees in those classifications listed in Section 2.6 below.

Self-Funded Raise (June 24, 2013 through August 18, 2013):
For the period of June 24, 2013, through August 18, 2013, the County provided a self-funded 4.581% wage increase for “classic” employees who paid 5.08% towards the employer PERS share.

Self-Funded Raise Effective August 19, 2013:
Classic Miscellaneous Employees

New language is underlined.
Deleted language is struck through.
The employee shall continue to pay towards employer PERS share a total of 8.011% (contribution of 5.08% plus existing contribution 2.931%). In addition, the employee will continue to pay a total of 1% on the employee’s PERS share. Total employee paid contribution for PERS is 9.011%. In return for the ongoing payment of 5.08% towards the employer PERS share, the County provided equivalent self-funded wage increase which is approximately 4.581%.

**Self-Funded Raise Effective June 22, 2015**

Effective June 22, 2015, employees in the Classic Miscellaneous tier, except those employees in classifications tied to another bargaining unit listed in Section 2.6, shall contribute an additional amount equal to 7% of PERSable wages to the Member (employee) contribution to PERS in exchange for the 6.21% self-funded wage increase as described in Section 2.1 above. This is in addition to any PERS contribution amount paid by the employee for the previous self-funded increase of August 19, 2013.

**Classic Safety Employees**

The employee will continue to contribute 5.08% towards employer PERS share in addition to the existing contribution the employee makes to the employee/member share. In return for the ongoing payment of 5.08% towards the employer PERS share, the County will provide equivalent self-funded wage increase which is approximately 4.581%.

Effective June 22, 2015, employees in the Classic safety tier classifications of X44 Probation Manager and X20 Supervising Probation Counselors shall contribute an additional 7% of PERSable wages to the Member (employee) contribution to PERS in exchange for the 6.21% self-funded wage increase as described in Section 2.1 above. This is in addition to any PERS contribution amount paid by the employee for the previous self-funded increase of August 19, 2013.

Effective June 22, 2015, Employees in the Classic safety tier classifications of T29 Park Ranger Supervisor and B6K Manager of Park Ranger Operations shall contribute additional 2% of PERSable wages to the Member (employee) contribution to PERS in exchange and additional 5% to the Employer contribution to PERS for the 6.21% self-funded wage increase as described in Section 2.1 above. This is in addition to any PERS contribution amount paid by the employee for the previous self-funded increase of August 19, 2013.

**Public Employee Pension Reform Act (PEPRA) Miscellaneous Employees**

New language is underlined.
Deleted language is struck through.
These employees shall contribute no less than that paid to PERS by the classic miscellaneous employees (this includes amounts for both employer and employee share). In return the County will provide equivalent self-funded wage increase which is approximately 4.581%.

Effective June 22, 2015, employees in the PEPRA Miscellaneous tier shall contribute an additional 7% of PERSable wages to the Employer’s contribution to PERS in exchange for the 6.21% self-funded wage increase as described above. This is in addition to any PERS contribution amount paid by the employee for the previous self-funded increase of August 19, 2013.

**Public Employee Pension Reform Act (PEPRA) Safety Employees**

These employees shall contribute no less than that paid to PERS by the classic safety employees (This includes amounts for both employer and employee share). In return the County will provide equivalent self-funded wage increase which is approximately 4.581%.

Effective June 22, 2015, employees in the PEPRA Safety tier shall contribute an additional 7% of PERSable wages to the Employer’s contribution to PERS in exchange for the 6.21% self-funded wage increase as described in Section 2.1 above. This is in addition to any PERS contribution amount paid by the employee for the previous self-funded increase of August 19, 2013.

| Park 10.75% | 12.08%(1.33 + 7.0) | 12.08% 19.07% |

**Self-Funded Raise Effective November 9, 2015 for Classifications in Section 2.6**

Effective November 9, 2015, classifications listed in Section 2.6, shall contribute an additional amount equal to 7% of PERSable wages to the Member (employee) contribution to PERS in exchange for the 6.21% self-funded wage increase as described in Section 2.1 above. This is in addition to any PERS contribution amount paid by the employee for the previous self-funded increase of August 19, 2013.

**Section 2.2 – Evening/Night Shift for Certain Nurse Classifications and Computer Operations Shift Supervisor**

a) The following classifications, when assigned to work evening shifts on a regular, ongoing basis, shall receive an additional $320.00 biweekly. Evening shift shall be defined as any
scheduled shift of at least eight hours beginning on or after 2:00 p.m. and ending on or before 2:00 a.m.

S80 Admin Nurse II
S12 Utilization Review Coordinator

b) The following classifications, when assigned to work night shifts on a regular, ongoing basis, shall receive an additional $580.00 biweekly. Night shift shall be defined as any scheduled shift of at least eight hours beginning on or after 10:00 p.m. and ending on or before 10:00 a.m.

S80 Admin Nurse II
S12 Utilization Review Coordinator

c) Effective October 13, 2014 May 4, 2020, the following classifications, when assigned and approved by an executive manager to work evening shifts on a regular, ongoing basis shall receive an additional $212.00 - 250.00 biweekly. Evening shift shall be defined as any scheduled shift of at least eight hours beginning on or after 2:00 pm and ending on or before 2:00 a.m.

One (1) G24 Computer Operations Shift Supervisor position
Two (2) D41 Law Enforcement Records Supervisor positions
Two (2) G70 Custody Support Assistance Supervisor positions
One (1) X20 Supervising Probation Counselors position
One (1) G91 Supervising Communications Dispatcher position
Two (2) H12 Janitor Supervisor positions
One (1) U9D Supervising Protective Services Officer position
One (1) C84 Health Care Program Manager position
One (1) Y32 Social Services Program Manager I DFCS position
One (1) M21 Fleet Maintenance Supervisor position

During the term of this agreement, the County may authorize additional classification(s) to be included in this section which may be assigned to an evening shift. If such an assignment is made, the evening shift differential will be $250.00 paid bi-weekly.

Should an FLSA non-exempt CEMA represented classification be added to this section, the evening shift differential shall be $3.12 per hour. The evening shift differential shall be paid for each hour worked during the qualifying hours stated in this section.
d) Effective October 13, 2014-May 4, 2020 the following classifications, when assigned and approved by an executive manager to work night shifts on a regular, ongoing basis shall receive an additional $264.00-300.00 biweekly. Night shift shall be defined as any scheduled shift of at least eight hours beginning on or after 10:00 p.m. and ending on or before 10:00 a.m.

   One (1) Computer Operations Shift Supervisor position

   One (1) D41 Law Enforcement Records Supervisor position

   One (1) X20 Supervising Probation Counselor position

   One (1) G91 Supervising Communications Dispatcher position

   Two (2) H12 Janitor Supervisor positions

   Two (2) U9D Supervising Protective Services Officer positions

During the term of this agreement, the County may authorize additional classification(s) to be included in this section which may be assigned to a night shift. If such an assignment is made, the evening shift differential will be $300.00 paid bi-weekly.

Should an FLSA non-exempt CEMA represented classification be added to this section, the night shift differential shall be $3.75 per hour. The night shift differential shall be paid for each hour worked during the qualifying hours stated in this section.

e) Effective May 4, 2020 the midnight shift differential shall be $3.75 per hour for Supervising Probation Counselors assigned to a Modified 12 Plan. The midnight shift differential shall be payable to Supervising Probation Counselors for each hour worked after 6:00pm and before 6:00am or after 10:00pm and before 6:00am when the Supervising Probation Counselor is regularly assigned to a Modified 12 Plan.

Section 2.3 – Pest Advisory Differential
A Park Field Support Manager who obtains and maintains a valid Agricultural Pest Control Advisor License issued by the State of California and is assigned to perform pest control advisory functions shall be compensated at a range approximately seven and a half percent (7.5%) higher than that specified for regular positions in this classification. This differential shall be limited to one position in Parks.

Section 2.4 – Bilingual Differential
CEMA represented employees who meet the requirements set forth in Section 52: Special Compensation F. Language Translations Differential of the Salary Ordinance shall continue to be eligible for bilingual pay. Effective August 14, 2008-May 4, 2020, such bilingual pay shall be one-two hundred fifty-dollars ($150-200) per month.
Section 2.5 – Nurse Longevity Pay

a) Incumbents in these nursing-related classifications and any new or successor classifications, as determined by ESA/HR that are related to a nursing classification and allocated to CEMA shall be eligible for salary step six after accumulation of thirty-six (36) months of competent service at the fifth step of the current classification.

Incumbents in these nursing-related classifications shall be eligible for compensation at a rate five percent (5%) higher than Step 5 after accumulation of thirty-six (36) months of competent service at the fifth step of the current classification.

b) Incumbents in these nursing-related classifications shall be eligible for up to an additional 5% pay above the established maximum in the broad range after accumulation of thirty-six (36) months of competent service at the top of the salary range in the current classification.
Section 2.6 – Nurse Realignments

a) The following classifications and any new or successor classifications, as determined by ESA/HR that are related to a nursing classification and allocated to CEMA, during the term of this Agreement, shall be aligned with the appropriate classes in RNPA:

S80 Administrative Nurse II
B56 Clinical Risk Prevention Prog Mgr
B05 Director of Cardiovascular Svcs
S03 Infection Control Nurse Supervisor
**S56 Infection Control Nurse Manager**
B6F Manager, Adult Custody Mental Health Services
S66 Nurse Manager Artificial Kidney Unit
S43 Nurse Manager Burn Center
S31 Nurse Manager Children Shelter Custody Health
S42 Nurse Manager Critical Care
S53 Nurse Manager Emergency Department
S65 Nurse Manager Labor Del Pernl Evl Prd
S63 Nurse Manager Medical Surgical Nursing
S84 Nurse Manager Mental Health Nursing
S64 Nurse Manager Mother Infant Care Center
S81 Nurse Manager Neonatal ICU
S55 Nurse Manager Operating Room Services
S67 Nurse Manager Pediatrics-ICU
S61 Nurse Manager Post Anesthesia Care Unit
S62 Nurse Manager Rehabilitation
P70 Nursing Info Systems Mgr
S18 Patient Services Case Coord

S69 Quality Improvement Manager Inpt Nursing
S13 Quality Improvement Manager - MH Ops
S72 Quality Improvement Manager - A P SV
P62 Specialty Programs Nurse Coordinator
S71 Trauma Program Coordinator
B12 Utilization Management QA Mgr
S12 Utilization Review Coordinator
S19 Utilization Review Coordinator - VHP
S10 Utilization Review Supervisor
H55 DIR Q&U Amb & Comm Hlth/Mng Cr

New language is underlined.
Deleted language is struck through.
b) CEMA nursing related classifications listed in Section 2.6 shall not be subject to the wage reduction of 2% on June 22, 2014. Should RNPA negotiate a general wage increase during Fiscal Year 2015, the wage of CEMA nursing managers shall be reduced by 2% and then the wage increase equivalent to the wage increase negotiated by RNPA shall be added to the CEMA nursing manager wage.

Section 2.7 — Compensation Compaction Review Process and Outcomes

a) Definition

Compensation compaction exists when there is an insufficient difference in the compensation between a supervisory classification/position and its subordinate classification(s)/position(s). Compensation compaction becomes an issue for the County when the County’s Employee Services Agency (ESA) determines that a supervisor or manager is not compensated appropriately above subordinates for performance of supervisory duties and/or when it is difficult to recruit for a supervisory or management position because lower-level qualified employees believe that the added responsibility of a promotion is not worth the small difference in salary.

Compaction can result from a classification study that increased the salary for a subordinate classification or from contract negotiations that afforded the lower classification a significant realignment. Another factor found to contribute to compaction includes pay differentials that are available to the subordinate class but not to the supervisory classification. Even though the County does not have a policy stating a minimum percentage of salary difference between a supervisor and a subordinate classification, general compensation principles indicate that a supervisor with the same skill-set as a subordinate should earn more than the subordinate.

b) Review Process — Below is the process that an employee in a CEMA represented classification may undertake to ensure that the employee’s position is properly compensated in relation to the position(s) supervised.

1) Employee

If an employee believes that there is insufficient difference in compensation between the employee’s position and one or more subordinate positions, the employee will complete the Compensation Compaction Review Request Form. The employee will forward the form to his/her immediate supervisor/manager and request to meet to discuss the information provided.

2) Supervisor

Within ten County business days of receiving the form, the immediate supervisor/manager will review the form for accuracy of the reporting relationship
identified, attach an organizational chart to the form and schedule a meeting with the employee to discuss the request. After the immediate supervisor/manager meets with the employee, the immediate supervisor/manager will send the form to the Department Head with comments, including possible solutions if ESA determines that compaction exists.

3) **Department Head**
The Department Head will review the form and organizational chart, make comments and send the completed form to ESA for a determination of whether compaction exists. A copy of the completed form shall be provided to the employee. The Department Head may take interim action(s) within existing management authority to address the possible compaction pending the decision from ESA. The Department shall notify CEMA of the interim action(s) and meet and confer upon request.

4) **Review of Submitted Requests**
Either party can request a meeting to determine the order in which requests will be evaluated. Consideration will be given to the order in which the request was submitted, severity of the compaction, ease of solution, duration of compaction and the County’s resources and business needs.

5) **ESA**
ESA will review the request and verify the accuracy of the salary data, taking into consideration the factors that create compaction, and determine whether there is an insufficient difference in compensation between the positions under review. ESA will confer with the Department and develop a final recommendation.

ESA will send CEMA the findings and recommendation(s) and the basis for its findings. CEMA will have ten (10) County business days to review and request a meet and confer with the County over the results of its review. CEMA will provide the findings and recommendations to the employee.

If ESA finds that the position may not be appropriately classified, the employee will complete a Position Description Questionnaire and the position will be studied. ESA’s findings as a result of the study will be posted to CEMA. CEMA will have ten (10) County business days to review and request to meet and confer with the County over the results of the study.

e) **Outcomes of the Review Process**
The County has the ability to address compaction administratively by reassigning supervisory responsibilities or reorganizing reporting relationships, as examples.

If administrative solutions are not practicable and ESA has determined that compaction exists, a future compensation adjustment is warranted. Even if there is a finding of compaction, the employee will not be eligible for an adjustment in compensation during the term of this agreement.
Below is a solution that allows the County to address compaction for a specific position within a classification without adjusting the salary for the classification.

Compaction Compensation for a Single Position within a Classification:
When compensation compaction exists between a supervisory position (as compared to a classification) represented by CEMA and that position’s subordinate(s), the County may compensate the supervisor up to ten (10) percent above the supervisor’s step. That compaction compensation shall be subject to the approval of the Personnel Director based on the ongoing, regular assignment to supervise such positions in accordance with Merit System Rules A25-347—“Supervisory employee” defined.

The County shall review positions receiving this compaction compensation not less than annually to ensure that the compensation continues to be warranted. Should it be determined that such compensation is no longer warranted, this compaction compensation shall cease.

d) General Terms
If there is a finding that compensation compaction does not exist, a request for compaction review of the position may not be re-submitted unless there are changes in circumstances related to the position, including but not limited to the following: a reorganization, reclassification or realignment of subordinate classes, or changes that result from contract negotiations.

Requests for review will be included on the quarterly classification study report and reviews will be completed within a year of the compaction review request. If the review cannot be completed within one year, ESA will notify CEMA. If a classification study is conducted the parties will agree on a reasonable completion date.

The Compensation Compaction Review Process and Outcomes is not subject to the grievance procedure.

Section 2.7 – Classification Study
With the exception of calendar year 2020, workers may request a classification study during the month of March, or such time as designated by the Director of Personnel, but in any event no less than one (1) month per calendar year. Requests shall be submitted to ESA-Human Resources (ESA-HR) on the authorized online request form.

A Committee, made up of representatives from ESA-HR and the Union, will meet annually one (1) month after the close of the window, to determine which submitted requests will be accepted for study, which requests will be placed in a deferred status, and which requests will be denied. The Committee will base their consideration on a number of factors, which may include classification levels, compaction, recruitment or retention difficulties, fiscal impact, and new responsibilities assigned but not covered on existing job specifications. The Committee will finalize the list and the scope of each study (i.e. full classification study, job specification revision, salary review, etc.) within three (3) months after the first meeting. The maximum number of requests accepted by the committee for study shall be capped at thirty (30) per year, but upon completion of the accepted studies, ESA-HR may continue to work studies in the deferred status. Requests in the deferred status not initiated for study by ESA-HR before the next
window may be considered by the committee without requiring a new request, however, an updated PCQ and job application may be requested.

If the request is incomplete, ESA-HR will notify the worker to complete the request, along with a due date for completing the request.

ESA-HR will notify workers of the status of their request (i.e. accepted, deferred, or denied) and the scope where appropriate.

Workers who are under study shall not be permitted to submit a request. Workers whose classification study was denied shall not be permitted to request another classification study until one additional window has passed.

If the study is denied, the worker may appeal to the Director of Personnel. The appeal shall be submitted in writing within ten (10) working days of the receipt of the denial. The Director of Personnel shall determine the procedure of the appeal. The Director shall provide the Union with the list of the appeal decisions.

The Director will provide a list of accepted studies, including those accepted on appeal, and the expected completion date.

If ESA-HR determines some assigned duties fall outside of the worker’s classification, ESA-HR will notify the appointing authority to remove such duties within ten (10) working days of that determination.

Any duties performed at a higher-level while receiving work-out-of-class pay will not be considered.

If a study is accepted or approved on appeal, the completed study shall be posted to the Union no later than 12 months after the date of acceptance or favorable appeal determination, unless otherwise agreed to by both parties.

If it is recommended that the worker be reclassified, all Merit System Rules that apply to regular classification studies, such as test requirements, meeting the employment standards, serving a new probation period, etc. shall apply.

Section 2.8 – Automatic Check Deposit

All employees hired after the effective date of this agreement shall be paid by automatic check deposit. By January 2007 all employees hired prior to the effective date of this agreement shall be paid by automatic check deposit.

Section 2.9-Side Letter on 24-hour Differential for Special Duties

24 hour differential for Certain Exempt Employee

a) Employees in the Supervisory-Administrative bargaining unit who are exempt from FLSA overtime are, and shall continue to be, expected to perform required duties without additional compensation regardless of the number of hours worked. There may be a limited number of
unique, exempt positions that have been authorized in advance by the County Executive or his/her designee where an employee may be required to perform duties or to remain available to perform duties at any time over a continuous 24 hour period. No employee shall receive this differential for work in a position that has not been authorized in advance to receive this differential, or for performing duties or remaining available to perform duties for less than 24 continuous hours. No employee who is eligible for overtime pay, either under the FLSA or by the terms of the Memorandum of Agreement (MOA) between County of Santa Clara and County Employees Management Association, shall be eligible for this differential. Employees who are on an approved Voluntary Reduced Work Hour (VRWH) agreement shall not be eligible for this differential. CEMA may recommend positions for the County Executive to consider authorizing for this differential, but the decision on eligible positions will be made solely by the County Executive or his/her designee, in writing.

The purpose of this Side Letter section is to establish a differential for employees in authorized positions who are required in writing, by an Executive Manager, to be available for a continuous 24 hours of duty. The 24 hours may or may not include some of the employee's regular core hours. It is the sole discretion of the County to determine the need for or to assign an individual employee to these 24 hour assignments.

Assignments eligible for compensation shall be for one or more days, and an employee who is assigned pursuant to this Side Letter section shall receive three hundred twenty dollars ($320) four hundred and forty eight dollars ($448) when assigned for a full pay period. Such assignments shall be solely at the discretion of the County Executive or his/her designee. Employees assigned for less than a full pay period shall receive thirty-two dollars ($32) for each assigned day, up to a maximum of three hundred twenty dollars ($320) four hundred and forty eight dollars ($448) per pay period. Assignments to authorized positions may be made to one employee, or rotated among two or more employees, at the Executive Manager's sole discretion. Assignments are based on specific individual responsibilities and business need, and therefore duties may be added, at management's discretion. Duties required while assigned to a 24-hour special assignment covered by this Side Letter section shall be limited to duties within the scope of the job specification of the employee assigned.

Employees assigned to a qualifying assignment on a continuous and on-going basis shall be authorized to receive the 24-hour Differential for Special Duties prior to commencing the assignment. Employees assigned to a qualifying assignment on an intermittent or short term basis are excluded from this section.

b) Employees exempt from FLSA overtime eligibility may continue to be required to work beyond 40 hours in a workweek with no additional compensation, except as specifically provided in this Side Letter section. The County will continue to expect-and may require-exempt employees, whether directed in writing or not, to perform tasks outside of the employee's regular core hours, without additional compensation.

c) When assigned to 24-hour Special Duties, the employee must remain reachable by phone and email, and cannot engage in any conduct that could impair the employee's ability to perform his/her job duties, including physically returning to a work site, decision making or completing required job tasks.
d) Employees in positions assigned to work Special Duties as described in this Side Lettersection, may request not to be assigned for any reason. The Executive Manager shall consider the request for either temporary or permanent exemption from assignment to 24-hour duties covered by this Side Lettersection, but the decision to grant the request shall be within the County's sole discretion and shall not be subject to the grievance procedure.

e) An employee exempt from FLSA overtime eligibility who has been assigned 24-hour duty on a continuous basis for six months or more may request not to be assigned 24-hour duty for a four month period. Approved paid or unpaid absences of one pay period or less shall not be considered a break in a continuous assignment of 24-hour duty. The employee's request must be in writing and must be provided to the employee's Executive Manager at least thirty (30) calendar days before the time requested for relief from 24-hour duty. The Executive Manager shall grant the request when possible. If the employee's request is not, the rate of compensation for 24-hour duty for that employee shall be increased beginning with the date that the requested relief would have begun, to forty-eight dollars ($48) for each assigned day, up to a maximum of four six hundred and eighty-seventy two dollars ($480672) per pay period; and this increased rate will continue for each 24-hour duty period the employee is assigned to work, until the employee has not been assigned 24-hour duty for at least four consecutive pay periods.

f) Only the provisions of this Side Lettersection related to determinations of "continuous basis of an assignment," "relief from 24-hour duty," or "correct payment of differential pay" may be grieved; and such grievances shall be in accordance with the provisions of Section 16.2 Grievance Presentation a) Informal Resolution, and b) Formal Grievance 1) Step One, and shall not be subject to arbitration or the arbitration process in the MOA, or to any other appeals. No other provisions of this Side Lettersection may be grieved.

g) This Side Letter shall become effective at the beginning of the first pay period that is 90 days following ratification by the Board of Supervisors, and shall expire on June 23, 2019.

g) The Department shall request from ESA authorization for 24 Hour Differential qualifying assignment(s) based on operational needs. Once ESA authorizes the request, the Department, at its sole discretion, shall assign and/or unassign the 24 Hour Differential assignment(s) to specific employee(s). The Department shall notify payroll of specific employee(s) who have been assigned and/or unassigned the 24 Hour Differential. ESA may conduct an annual review of the 24 Hour Differential qualifying assignments allocated to each department and renew or modify the number of assignments allocated to a specific department.

Section 2.10-Notary Public Differential
Effective May 4, 2020, Notary Public differential of $60 per biweekly pay period shall be paid to CEMA represented employees who are duly authorized Notary Publics and are assigned by an executive manager to perform the function of a Notary Public on behalf of the County.

Section 2.11 Career Incentive Program

New language is underlined.
Deleted language is struck through.
Effective May 4, 2020, employees in the classification of Supervising Public Defender Investigator (V96) who meet the Public Defender Investigation Career Incentive Program requirements shall be paid a biweekly rate as follows:

Basic: 2.5% of base salary;
Intermediate: 5% of base salary;
Advanced: 7.5% of base salary.

Section 2.12 Lump Sum Payments
Effective May 4, 2020 current employees at time of signing of the successor contract who are in CEMA-represented classifications shall receive a one-time, non-PERSable, lump-sum contract signing bonus prorated for code status.

CEMA-represented employees will be categorized into three tiers based on their base salary falling between the minimum and maximum amount of the tier. CEMA-represented employees will receive the one-time, non-PERSable, lump sum bonus based on the tier that corresponds to their hourly rate. The three tiers will be as follows:

<table>
<thead>
<tr>
<th>Tier</th>
<th>Minimum</th>
<th>Maximum</th>
<th>Bonus Hourly Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tier One</td>
<td>$29.40-$66.68</td>
<td></td>
<td>$2,575</td>
</tr>
<tr>
<td>Tier Two</td>
<td>$66.69-$103.98</td>
<td></td>
<td>$4,300</td>
</tr>
<tr>
<td>Tier Three</td>
<td>$103.99-$141.27</td>
<td></td>
<td>$6,180</td>
</tr>
</tbody>
</table>

The one-time, non-PERSable, lump sum bonus will be subject to the customary withholdings and deductions and will be paid in compliance with the Public Employees Pension Reform Act of 2013.

Section 2.13 Realignments
Effective May 4, 2020 the following classifications shall receive the corresponding salary realignment:

new section: Wage Realignment

By November 3, 2014, CEMA shall provide the County with a list of classifications for wage realignment review.

The County and CEMA both understand that the wage realignment review process outcome shall be governed by the procedures below and shall not set precedent for future wage realignment negotiations. Downward realignments are prohibited under this agreement.

Neither the provisions of this side letter or results of the realignment process are subject to the grievance procedure.

The County and CEMA agree to meet on the criteria used to evaluate realignments and timelines for the review process. Should there not be agreement on the criteria, the County shall make the final determination. In the first contract year, the County shall provide an amount that would result in a total increased annual budget that equals up to 0.5% (no more than $1,041,765) of the bargaining unit wage cost (including wage driven cost as in retirement, workers compensation, unemployment insurance, FICA/Medicare) for wage realignment for unspecified job classes to be agreed upon by the parties and shift differential for classifications added to Article 2.2 (c) and (d). The 0.5% cap will be reduced by approximately $80,000 for the annualized cost of adding the eligible classifications to the evening and night differential.

Following the realignment review, the County agrees to notify CEMA of the results with the amount of wage realignment, if any and to meet if requested.

The realignment adjustments shall be consistent with the process used for the 2014 SEIU realignments.

It is anticipated that the County will make a recommendation to the Board of Supervisors by the Mid-Year budget time frame with an effective date of June 23, 2014 for any approved wage adjustments. Such recommendation shall include a statement of concurrence, or non-concurrence by the CEMA.

All Other Sideletters, including the Health care Assistance Sideletter and the “Administrative Leave Letter” continue for the term of this agreement.
ARTICLE 3 – RETIREMENT

Effective June 22, 1992, (pay period 92/14), employees in the California Pension Retirement System (CalPERS or PERS) miscellaneous retirement system shall be eligible for the 2% at 55 Retirement Plan. The County of Santa Clara’s increased contribution to PERS as a result of implementation of the 2% at 55 Retirement Plan, as well as existing Employer payment of Employee PERS contribution (‘EPMC’), shall be reflected as part of the effective wages.

The County will increase-maintain the lump sum death benefit to $5,000 and will continue to implement the pre-retirement optional settlement 2 death benefits.

The County shall continue to pay on behalf of all employees covered under Public Employees’ Retirement System (PERS) Miscellaneous seven percent (7%) member contribution to PERS as well as an additional 0.49% which is attributable to reporting Employer Paid member Contribution (EPMC) as special compensation.

Effective December 17, 2007, the County amended its contract with PERS for a 2.5% at 55 Plan for Miscellaneous employees. In consideration for this amendment, the County and CEMA agreed for each employee covered under this enhanced benefit plan, the employee would contribute to PERS, through payroll deduction effective December 17, 2007, an amount equal to 2.931% of PERS reportable wages towards the employer’s PERS share. The County and CEMA further agreed to eliminate all of the EPMC.

Classic miscellaneous employees shall refer to those employees who are eligible for and are placed in the 2.5% at age 55 retirement tier. Classic safety employees shall refer to those employees who are eligible for and are placed in the 3% at age 50 retirement tier. Public Employee Pension Reform Act (PEPRA) miscellaneous employees shall refer to those employees who are eligible for and placed in the 2% at age 62 retirement plan. PEPRA safety employees shall refer to those employees who are eligible for and are placed in the 2.7% at age 57 retirement tier.

**PERS Contribution Amounts**

**Classic Miscellaneous:**

Effective May 4, 2020, Classic Miscellaneous employees shall receive a 3% reduction to their PERS contribution rate, from 16.011% to 13.011%. The employee shall pay the 13.011% PERS contribution rate. This rate is based on the following: 8.0% employee share, 2.931% employer share for the 2.5% at 55 enhancement to the Retirement Plan, and 2.08% employer share for the self-funded wage increase.

Effective Pay Period 20/14 (June 15, 2020), Classic Miscellaneous employees shall receive a 2% reduction to their PERS contribution rate, from 13.011% to 11.011%. This 11.011% PERS contribution rate represents the following: 8.0% employee share, 2.931% employer share for the 2.5 at 55 enhancement to the Retirement Plan, and 0.08% employer share for the self-funded wage increase. Effective June 15, 2020 the employee shall pay 3.011% of PERS reportable wages to the employer’s PERS share and shall continue to pay the required 8.0% of PERS reportable wages.
to the employee’s PERS share for a combined total of 11.011% of PERS reportable wages paid to PERS.

During the remainder of the term of the MOA, Classic Miscellaneous employees shall continue to contribute 11.011%.

**Classic Safety Probation:**

Effective May 4, 2020, Classic Safety employees in the classifications of Probation Division Manager (X44) and Supervising Probation Counselor (X20) shall receive a 3% reduction to their PERS contribution rate, from 14.08% to 11.08%. This 11.08% PERS contribution rate represents the following: 9.0% employee share and 2.08% employer share for the self-funded wage increase. Effective May 4, 2020, the employee shall pay 2.08% of PERS reportable wages to the employer’s PERS share and shall continue to pay the required 9.0% of PERS reportable wages to the employee’s PERS share for a combined total of 11.08% of PERS reportable wages paid to PERS.

Effective Pay Period 20/14 (June 15, 2020), Classic Safety employees in the classifications of Probation Division Manager (X44) and Supervising Probation Counselor (X20) shall receive a 2% reduction to their PERS contribution rate, from 11.08% to 9.08%. This 9.08% PERS contribution rate represents the following: 9.0% to employee share and 0.08% employer share for the self-funded wage increase. Effective May 4, 2020, the employee shall pay 0.08% of PERS reportable wages to the employer’s PERS share and shall continue to pay the required 9.0% of PERS reportable wages to the employee’s PERS share for a combined total of 9.08% of PERS reportable wages paid to PERS.

During the remainder of the term of the MOA, Classic Safety Probation employees shall continue to contribute 9.08%.

**Classic Safety Parks:**

Effective May 4, 2020, Classic Safety employees in the classifications of Manager of Park Ranger Operations (B6K) and Park Ranger Supervisor (T29) shall receive a 3% reduction to their PERS contribution rate, from 19.08% to 16.08%. This 16.08% PERS contribution rate represents the following: 9.0% employee share and 7.08% employer share for the self-funded wage increase. Effective May 4, 2020, the employee shall pay 7.08% of PERS reportable wages to the employer’s PERS share and shall continue to pay the required 9.0% of PERS reportable wages to the employee’s PERS share for a combined total of 16.08% of PERS reportable wages paid to PERS.

Effective Pay Period 20/14 (June 15, 2020), Classic Safety employees in the classifications of Manager of Park Ranger Operations (B6K) and Park Ranger Supervisor (T29) shall receive a 2% reduction to their PERS contribution rate, from 16.08% to 14.08%. This 14.08% PERS contribution rate represents the following: 9.0% employee share and 5.08% employer share for the self-funded wage increase. Effective June 15, 2020, the employee shall pay 5.08% of PERS reportable wages to the employer’s PERS share and shall continue to pay the required 9.0% of PERS reportable wages to the employee’s PERS share for a combined total of 14.08% of PERS reportable wages paid to PERS.
During the remainder of the term of the MOA, Classic Safety Parks employees shall continue to contribute 14.08%.

**PEPRA Miscellaneous:**

Effective May 4, 2020, PEPRA Miscellaneous employees shall receive a 3% reduction to the portion of their PERS contribution rate that represents earlier self-funded wage increases, from 9.511% to 6.511%. This 6.511% is a fixed amount which will not fluctuate. The remainder and additional amount of the PERS contribution rate to be paid by PEPRA Miscellaneous employees will be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013. Currently this rate, the “half the normal rate,” is 6.75%, which would be a total employee contribution rate of 13.261%. This combined percentage amount may fluctuate based only on the “half the normal rate,” as set forth immediately above.

Effective Pay Period 20/14 (June 15, 2020), PEPRA Miscellaneous employees shall receive a 2.25% reduction to the portion of their PERS contribution rate that represents earlier self-funded wage increases, from 6.511% to 4.261%. This 4.261% is a fixed amount which will not fluctuate. The remainder and additional amount of the PERS contribution rate to be paid by PEPRA Miscellaneous employees will be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013. Currently this rate, the “half the normal rate,” is 6.75%. This percentage amount may fluctuate as set forth immediately above.

During the remainder of the term of the MOA, PEPRA Miscellaneous employees shall continue to contribute 4.261% to this portion of the PERS contribution rate that represents earlier self-funded wage increases. The remainder of their PERS contribution rate for PEPRA Miscellaneous employees shall be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013.

**PEPRA Safety:**

Effective May 4, 2020, PEPRA Safety employees shall receive a 3% reduction to the portion of their PERS contribution rate that represents earlier self-funded wage increases, from 8.330% to 5.330%. This 5.330% is a fixed amount which will not fluctuate. The remainder and additional amount of the PERS contribution rate to be paid by PEPRA Miscellaneous employees will be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013. Currently this rate, the “half the normal rate,” is 11.250%. This percentage amount may fluctuate as set forth immediately above.

Effective Pay Period 20/14 (June 15, 2020), PEPRA Safety employees shall receive a 2.25% reduction to the portion of their PERS contribution rate that represents earlier self-funded wage increases, from 5.330% to 3.08%. This 3.08% is a fixed amount which will not fluctuate. The remainder and additional amount of the PERS contribution rate to be paid by PEPRA Miscellaneous employees will be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013. Currently this rate, the “half the normal rate,” is 11.250%. This percentage amount may fluctuate as set forth immediately above.

During the remainder of the term of the MOA, PEPRA Safety employees shall continue to contribute 3.08% to this portion of the PERS contribution rate that represents earlier self-funded
wage increases. The remainder of their PERS contribution rate for PEPRA Safety employees shall be determined by CalPERS actuaries each fiscal year pursuant to the Public Employees’ Pension Reform Act of 2013.

**Probation Manager and Supervising Probation Counselor (Classic Safety)**
The County shall continue to pay on behalf of employees in the classifications of Probation Manager and Supervising Probation Counselor seven percent (7%) within the required nine percent (9%) member contribution to PERS as well as an additional forty-nine one hundredth percent (0.49%) which is attributable to reporting EPMC as special compensation. The employee shall continue to pay towards employer PERS contribution share of 5.08% (plus existing contribution 2% towards the employee share). Total employee paid contribution for PERS is 7.08%.

**Park Ranger Supervisor and Park Ranger Operations Manager (Classic Safety)**
The County shall contribute two percent (2%) within the nine percent (9%) of the required member contribution to PERS for the classifications of Supervising Park Ranger and Manager, Park Ranger Operations as well as an additional four one hundredth percent (0.04%) which is attributable to reporting EPMC as special compensation. The employee shall continue to pay towards employer PERS contribution share of 5.08% (plus existing contribution 7% towards the employee share). Total employee paid contribution for PERS is 12.08%.

In accordance with Section 20636, subsection (c)(4) of the California Public Employee Retirement Law, the County and CEMA agree that the full monetary value of the Employer Paid Member Contribution (EPMC) will continue to be reported to PERS as special compensation. Taking into consideration of the reporting of EPMC as special compensation the County is entitled to add the additional percentage amount which is attributable to this optional contribution to the base wage for effective wage.

The County further agrees to amend its contract with PERS effective December 17, 2007 for the 2.5% at 55 Plan for Miscellaneous employees. In consideration for this amendment the Union agrees for each employee covered under this benefit to contribute to PERS, through payroll deduction effective December 17, 2007, an amount equal to 3.931% of PERS reportable gross pay for the duration of this Agreement.

**Classic Miscellaneous Employees**
The employee’s contribution toward employer PERS contribution shall be at total of 8.011% (new contribution 5.08% and existing contribution 2.931%). In addition, the employee will continue to pay a total of 1% on the employee’s PERS contribution share. Total CEMA employee paid contribution for PERS is 9.011%.

**PEPRA Miscellaneous Employees**
These employees shall contribute no less than that paid to PERS by the classic miscellaneous employees (this includes amounts for both employer and employee share).

**PEPRA Safety**
These employees shall contribute no less than that paid to PERS by the classic safety employees (this includes amounts for both employer and employee share).
ARTICLE 4 – SHIFT ROTATION

For employees in this unit, who are assigned shift work, the matter of shift rotation is a proper subject for discussion with their manager. If the manner in which shifts are assigned is not agreeable to a majority of the employees, or if CEMA requests, a meeting shall be held with an executive level manager of that area. If, following this meeting, issues still remain for discussion, upon request, CEMA may meet with the appropriate department/agency head and the Department of Labor Relations. The department/agency head will make the final decision on all unresolved issues.
ARTICLE 5 – INSURANCE PREMIUMS

Section 5.1 – Medical Insurance

The County and covered employees shall share in the cost of medical plan premiums. The County, in order to provide one health plan where there is not premium sharing, shall continue to offer Valley Health Plan without premium sharing. The County will pay the cost of any premiums for “employee only” and the County portion of premiums on tiers with employee premium sharing that is not covered by the employees’ share of the premium.

For the 2014-15 plan year, the employee share per pay period shall be as follows:

Valley Health Plan (VHP) $0 Employee only, $0 Employee and Adult; $0 Employee and child(ren), $0 Family

HMO (currently Kaiser) plan $6.73 of the cost of the medical plan premium for Employee only, $12.12 of the cost of the medical plan premium for Employee and child(ren), $14.14 of the cost of the medical plan premium for Employee and Adult, $19.52 of the cost of the medical plan premium for Family

Point of Service (currently HealthNet) Plan $12.85 of the cost of the medical plan premium for Single, $27.21 of the cost of the medical plan premium for Family (which may be adjusted based on the formula outlined in the sideletter agreement titled Health Care Assistance for Health Net family coverage) through December 21, 2014. Effective December 22, 2014 the employee share of the Point of Service for family will be $52.83.

In each year after the 2014-2015 plan year, for tiers with dependent coverage in the non-VHP HMO or the POS plan, the employee share of premiums shall increase by 10% of the increase in premiums for those tiers.

For County employees occupying permanent part-time positions who work a minimum of 40 hours per pay period, the County will pay a prorated portion of the medical plan premiums described above based upon the covered worker’s standard hours.

The HMO plan design shall be:

- $10 co-payment for office visits,
- $35 co-payment for emergency room visits,
- $5-$10 co-payment for prescriptions (30-day supply)
- $10-$20 co-payment for prescriptions (100-day supply)
- $100 co-payment for hospital admission

The Point of Service Plan design shall be:

- $15/$20/30% (Tiers 1/2/3) co-payment for office visits
- $50/$75/30% co-payment for emergency room visits
- $5/$15/$30 (generic/brand/formulary) co-payment for prescription (30-day supply)
- $10/$30/$60 co-payment for prescription (90-day supply).
Hearing aid coverage shall be continued in all health plans.

Effective June 23, 2014, the County will pay the total premium for the employee-only premium while on medical, maternity or industrial injury leave of absence up to thirteen (13) pay periods.

Upon request, the parties agree to meet to discuss the possibility of modifying VHP into two separate plan designs. No change to the plan designs listed above may occur except by mutual agreement of the parties.

**High Deductible Health Plan (HDHP)**

The parties agree to investigate the feasibility of adding by mutual agreement a High Deductible Health Plan (HDHP) with or without Health Savings Account (HSA) or Health Reimbursement Account (HRA) as and an option to current health plans.

**Section 5.2 – Dental Insurance**

The County agrees to contribute the amount of the current monthly insurance premium for dental coverage to cover the employee and full dependent contribution. The existing Delta Dental Plan coverage will be continued in accordance with the following schedule:

- Basic and Prosthodontics: 75-25 - no deductible. $2,000 maximum per patient per calendar year.
- Orthodontics: 60-40 - no deductible. $2,000 lifetime maximum per patient (no age limit).

The County will pick up inflationary costs for the term of the agreement.

The County will continue to provide an alternative dental plan. The current alternative dental plan is Liberty Dental. The County will contribute up to the same dollar amount to this alternative dental plan premium as is paid to the Delta Dental Plan.

**Section 5.3 – Life Insurance**

The County agrees to provide the same Basic Group Life Insurance Plan for the term of the Agreement as is provided under agreements with other bargaining units. The present policy is $50,000 per employee.

**Section 5.4 – Vision Care Plan**

The County agrees to provide a Vision Care Plan for all employees and dependents. The Plan will be the Vision Service Plan - Plan A with benefits at 12/12/24 month intervals with twenty dollar ($20.00) deductible for examinations and twenty dollar ($20.00) deductible for materials. The County will fully pay the monthly premium for employee and dependents and pick up inflationary costs during the term of this agreement.

**Section 5.5 – County-wide Benefits**

The parties agree that, during the term of this Agreement, County-wide changes in benefits, such as medical, dental, life insurance, vacation, sick leave, holidays, or retirement, shall be applied to employees in this unit.
Section 5.6 – Medical Benefits for Retirees

a) For employees hired on or after August 12, 1996.

The County shall contribute an amount equal to the cost of Kaiser retiree-only medical plan premium to the cost of the medical plan of employees who have completed eight (8) years of service (2088 days of accrued service) or more with the County and who retire on PERS directly from the County. Retirees over 65 or otherwise eligible for Medicare Part B must be enrolled in such a plan, and the County shall reimburse the retiree for the cost of Medicare part B premium on a quarterly basis. This reimbursement is subject to the maximum County contribution for retiree medical. The surviving spouse or domestic partner (as defined in the Domestic Partner section of this Agreement) of an employee eligible for retiree medical benefits may continue to purchase medical coverage after the death of the retiree.

b) For employees hired on or after June 19, 2006.

The County shall contribute an amount equal to the cost of Kaiser retiree-only medical plan premium to the cost of the medical plan of employees who have completed ten (10) years of service (2610 days of accrued service) or more with the County and who retire on PERS directly from the County. Retirees over 65 or otherwise eligible for Medicare Part B must be enrolled in such a plan, and the County shall reimburse the retiree for the cost of Medicare part B premium on a quarterly basis. This reimbursement is subject to the maximum County contribution for retiree medical. The surviving spouse or domestic partner (as defined in the Domestic Partner section of this Agreement) of an employee eligible for retiree medical benefits may continue to purchase medical coverage after the death of the retiree.

c) For employees hired on or after August 19, 2013.

The County shall contribute an amount equal to the cost of Kaiser retiree-only medical plan premium to the cost of the medical plan of employees who have completed fifteen (15) years of service (3,915 days of accrued service) or more with the County and who retire on PERS directly from the County. Retirees over 65 or otherwise eligible for Medicare Part B must be enrolled in such a plan, and the County shall reimburse the retiree for the cost of Medicare part B premium on a quarterly basis. This reimbursement is subject to the maximum County contribution for retiree medical. The surviving spouse or domestic partner (as defined in the Domestic Partner section of this Agreement) of an employee eligible for retiree medical benefits may continue to purchase medical coverage after the death of the retiree.

d) Such years of service expressed in a), b) and c) above must be continuous service with the County and shall have been completed immediately preceding retirement directly on PERS from the County.

e) Employee Contribution Toward Retiree Medical Obligation Unfunded Liability.

The current OPEB contribution shall be suspended from June 24, 2013 to June 8, 2014. Effective June 9, 2014, all coded employees shall contribute on a biweekly basis an amount of $13,5915.00. Such contributions are to be made on an after-tax basis and employees shall have no vested right to the contributions made by the employees. Such contributions shall be used by the County exclusively to offset a portion of the County’s annual required contribution.
amount to the California Employers Retirement Benefit Trust established for the express purpose of meeting the County’s other post employment benefits (OPEB) obligations and shall not be used for any other purpose.

The County will rebate to employees $13.50, the OPEB contribution made during the period between June 24, 2013 to August 18, 2013, subject to standard payroll deductions.

Section 5.7 Retiree Health Reimbursement Account Reopener

During the month of July 2022 (Year 3 of the contract), Union and the County agree to open discussions on a Retiree Health Reimbursement Account or equivalent. The County and Union agree that no implementation of a Retiree Health Reimbursement Account or equivalent shall occur except upon mutual agreement.

During the month of July 2022, the County and Union further agree to identify certain items, if any, that will only be reopened by written mutual agreement. The items to be considered for reopening will not include salary, benefit contribution and pension contributions. The County and Union will meet and confer if an item is reopened by mutual agreement.

This section is only valid during the term of this agreement.
ARTICLE 6 – DOMESTIC PARTNERS

Registered Domestic Partners
County employees who have filed a Declaration of Registered Domestic Partnership in accordance with the provisions of Family Code 297-297.5 shall have the same rights, and shall be subject to the same responsibilities, obligations as are granted to and imposed upon spouses. The terms spouse in this contract shall apply to Registered Domestic Partners.

Tax Liability
Employees are solely responsible for paying any tax liability resulting from benefits provided as a result of their domestic partnership.

ARTICLE 7 – STATE DISABILITY INSURANCE (SDI)

The County and CEMA agree as follows regarding coverage of the Supervisory-Administrative Unit by the State Disability Insurance plan (SDI):

a) The County will continue registration of the Supervisory-Administrative Unit with the director of Employment Development Department for the purposes of SDI coverage for represented employees.

b) The Controller’s Office shall withhold wage earner contributions each pay period at the rate set pursuant to the Unemployment Insurance Code and forward the funds to the State Disability Fund.

c) Within one week of being disabled from work, the employee or his/her representative must contact the office designated by the County to provide information on the following:

1. The date the disability/illness commenced;
2. The estimated duration of the disability
3. A phone number where the employee can be reached;
4. The election of sick leave/scheduled time off usage during the first week of disability;
5. Whether or not the employee is planning to file for SDI;
6. The election to integrate sick leave and scheduled time off pay with SDI benefits.

d) An employee who is determined to be eligible to receive SDI benefits and who has made timely election to integrate shall be paid a biweekly amount (sick leave/scheduled time off) which, when added to SDI benefits, shall approximately equal his/her normal biweekly net pay after taxes. Such warrants will be issued on normal County paydays.

If notification is not received, no integration of sick leave or scheduled time off will be effected. However, one time only, the employee may elect integration and it shall be implemented at the start of the next pay period. In such case, integration payments shall be made prospective only.

The employee will have the responsibility to notify the office designated by the County of any change in status (either health or length of disability) that may affect his/her return to County employment.
ARTICLE 8 – PROFESSIONAL DEVELOPMENT ALLOWANCE AND EDUCATIONAL LEAVE

Effective May 4, 2020, the County will fund a Tuition Reimbursement Program and a Professional Development Program. The maximum County expenditures for these programs shall not exceed two-three hundred fifty thousand dollars ($200,000($350,000)) per fiscal year during the term of this Agreement. The amount will be rolled over from year to year during the term of the agreement. The County shall provide an accounting of funds on a quarterly basis.

Employees in CEMA represented classifications shall not be required to utilize professional development or tuition reimbursement for County mandated training.

Section 8.1 – Tuition Reimbursement Program
The training undertaken must be related to the employee's occupational area or have demonstrated value to the County. Total reimbursement shall be limited to One-three thousand five hundred dollars ($1,5003.000) during fiscal year 2015. If authorized courses are only available during working hours the employee must make up 25% of the time away from the job. All requests regardless of their status (approved/denied by the supervisor) shall be forwarded within ten business days to Learning and Employee Development for review. The County will notify CEMA of the denied requests. Specifics of the program will be set by the CEMA/County committee listed in Section 8.2.

Below are additional expenses eligible for reimbursement under this section which must be professionally related in the employee’s occupational area:

- Online courses
- Digital media courses and materials
- Digital or Print Professional journals, magazine subscriptions and/or books

Section 8.2 – Professional Development Program
This fund shall cover group and individual programs and one annual individual professional membership or professional forum on a matching basis. The matching expenses shall be on a 50/50 basis for individual programs and 25/75 CEMA/County basis for group programs. The maximum draw per employee per fiscal year is limited to one-three thousand five hundred dollars ($1,5003.000). All requests regardless of their status (approved/denied by the supervisor) shall be forwarded within ten business days to Learning and Employee Development for review. The County will notify CEMA of the denied requests. Individual and group programs are subject to approval by a County/CEMA committee which administers the programs, including the selection of group programs and approval of programs selected by individuals.
ARTICLE 9 – TRAINING FUND

The County has established a Manager/Supervisor Program for the purpose of training all managerial and administrative professional staff. All CEMA represented employees will have an opportunity to attend the Manager/Supervisor Program courses.

The County has set aside eighty five thousand dollars ($85,000) per fiscal year during the term of this Agreement to conduct this training program for all CEMA represented employees. The County shall maintain control of program design, and funds not expended shall be rolled over from year to year during the term of the Agreement. Specifics of any program beyond the Manager/Supervisor Program will be set by the CEMA/County committee listed in section 8.2 - Professional Development Program.

The County shall provide an accounting of the funds on a semi-annual basis to CEMA. The County agrees to meet no less than quarterly with the CEMA Professional Development Committee to discuss input to the training program.
ARTICLE 10 – UNIFORM ALLOWANCE

Effective May 4, 2020, a yearly uniform allowance of Five Hundred and Fifty Dollars ($500.00) shall be payable quarterly to the following eligible employees: Park Maintenance Supervisor, Supervising Custody Support Assistant, Supervising Protective Services Officer, Emergency Medical Services Specialist, Law Enforcement Records Manager and Law Enforcement Records Supervisor. The following safety employees shall receive Eight Hundred Fifty dollars ($850) annually, to be paid quarterly: Manager of Park Ranger Operations and Park Ranger Supervisor. Said uniform allowances shall be payable the first pay period of February, May, August and November as follows during the term of the Memorandum of Understanding Agreement.

The uniform allowance ($500 or $850) shall be divided by the number of pay periods in the payroll calendar year (26 or 27 pay periods depending on payroll calendar year) and the quotient shall be paid to the employee each pay period.

The uniform allowance shall not be paid for any pay periods in which the employee is in an unpaid status for the complete pay period. The uniform allowance shall be prorated for code status (full time employee or part time employee).

Newly hired employees shall receive the uniform allowance beginning on their pay period of hire. Newly hired employees shall not be paid the uniform allowance retroactively to the first pay period of the payroll calendar year.

Effective May 4, 2020, Supervising Probation Counselors shall receive an annual uniform allowance in the form of a Five Hundred and Fifty Dollar ($550) voucher.

During the term of this agreement, the County may designate specific classification(s) which may be required to wear a standardized uniform or standardized uniform items for business purposes. If such a designation is made, the union shall be afforded an opportunity to meet and confer with the County over the amount of the annual uniform allowance, which will not exceed Eight Hundred Fifty Dollars ($850) annually. The meet and confer process shall not be subject to impasse procedures or fact finding.
ARTICLE 11 – **FEDERAL, STATE and/or COUNTY MANDATED LICENSURE/CERTIFICATION FUND**

Effective May 4, 2020, the County shall establish a fund of seven thousand five hundred ($7,500) for each year of the term of this Agreement, to be administered at a County-wide level. The purpose of the fund will be to provide, within the allowable total, up to one hundred percent (100%) reimbursement to all CEMA represented employees for the cost of Federal, State and/or County mandated license(s) and/or certificate(s) (excluding driver licenses) that are required pursuant to the employment standards stated in the job specifications, incurred between June 24, 2013 and June 22, 2014. The County shall provide an accounting of funds on a quarterly basis.

Section 11.1 – General Provisions

a) Only employees in classifications as listed in this section are eligible for reimbursement of costs of State required licenses in accordance with the provisions of this fund.

b) Employees shall not lose any rights to this fund reimbursement due to reclassification or retitling of a classification as long as provided that the new classification also has a continues to require Federal, State or County required-mandated license(s) and/or certificate(s) pursuant to the job specification employment standards.

c) During the term of this Agreement, should Federal, State and/or County Legislation be passed mandating licensure for additional classifications represented by CEMA, or modifying existing mandated licensure for any of the classes listed in this section represented by CEMA, the County and CEMA shall meet and confer over their inclusions in this provision.

d) These funds reimbursement shall apply to all employees in classifications noted in this section represented by CEMA effective May 4, 2020, who are required by the Federal, State or County to pay required licensure/certification fees which are required pursuant to the employment standards stated in the job specification. Eligible employees may only apply for license/certification reimbursement once per annum during the term of this Agreement.

e) Total reimbursement for each eligible employee in this program will not exceed one hundred percent (100%).

Section 11.2 – **Federal, State and/or County** Mandated License and Certification Fee Reimbursement

a) During the term of this Agreement, all eligible employees whose Federal, State and/or County mandated license/certificate expires between June 23, 2014 and June 23, 2019 during the term of this Agreement, must present a receipt showing proof of payment and/or the renewed license/certificate within thirty (30) working days after the expiration of the license/certificate to receive reimbursement.

b) Requests for reimbursement are to be submitted on the form provided by the County.

Section 11.3 – Reasons for Denial

Management may disapprove an application for reimbursement under this provision under the following circumstances:
a) There are not sufficient funds available in the program.

b) The employee has already received the maximum allowed under this program.

Section 11.4—Eligible Classifications

Only employees in the classifications listed in Appendix A are eligible for reimbursement of costs of a State required license in accordance with the provision of this fund.
ARTICLE 12 – TEMPORARY ASSIGNMENT RESPONSIBILITY DIFFERENTIAL (TARD) WORK OUT OF CLASSIFICATION (WOOC)

Employees within the bargaining unit will receive compensation for additional higher level duties assigned and performed during the temporary absence of an incumbent in a higher classification. The temporary absence may be the result of the higher level employee being absent from duty or as a result of the higher level employee being temporarily re-assigned to perform a special assignment. Such payment will be made consistent with the promotional pay procedures under the Merit System Rules and will only apply where the assignment is made for a period of one (1) working day or more.

Employees on an approved vacation are excluded from receiving WOOC pay. When such pay for higher-level duties is appropriate under these terms and conditions, it will commence on the first day of the assignment and continue throughout the duration thereof. Application of TARD-WOOC as a result of the higher classification’s incumbent’s reassignment requires the approval of the County Executive. It shall be the responsibility of the appointing authority to ensure that there are sufficient appropriations for the TARD-WOOC assignment. No TARD-WOOC assignment may be made to a position for longer than twenty-six pay periods.

Application of TARD-WOOC may be extended to vacancies only upon the approval of the County Executive. The provisions described above are also applicable to TARD-WOOC coverage for vacant positions. An employee assigned TARD-WOOC to a fill a vacant must meet the minimum qualifications for the higher-level position.
ARTICLE 13 – LATERAL TRANSFER

When making a lateral transfer or demotion to another class, an application review by the Personnel Director shall be deemed an appropriate qualifying examination for CEMA employees in instances where a qualifying examination is required. If otherwise qualified under this provision and the only prohibition to lateral transfer is the salary of the new class, it shall be deemed to be a lateral transfer if the move from one classification to another does not exceed fifteen percent (15%) upward range movement.
ARTICLE 14 – STO AND SICK LEAVE

Section 14.1 – Scheduled Time Off

The parties have agreed to a Scheduled Time Off (STO) program which covers all former paid leave.

a) STO Bank Accrual

Each employee shall be entitled to annual Scheduled Time Off. Scheduled time off is earned on an hourly basis. For purposes of this section, a day is defined as eight (8) work hours. Effective the first pay period following Labor Day, September 4, 2006 holidays shall be separated from STO and paid as they are observed. If an employee is required to or assigned to work a holiday, he/she shall have the option of taking an alternate day off at a time mutually agreed upon by the appropriate supervisor or receiving an STO add-back of one day. The accrual schedule shall be as follows:

<table>
<thead>
<tr>
<th>Total Service Years &amp; Work Day Equivalent</th>
<th>Yearly Accrual in Work Days</th>
<th>Accrual Factor Per Hour</th>
<th>Accrual Factor Per PP</th>
<th>Maximum* Allowable Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st year 1st through 261 days</td>
<td>19</td>
<td>.073075</td>
<td>5.846</td>
<td>57 work days (456 hours)</td>
</tr>
<tr>
<td>2nd through 4th year 262 through 1044 days</td>
<td>21</td>
<td>.080769</td>
<td>6.461</td>
<td>63 work days (504 hours)</td>
</tr>
<tr>
<td>5th through 9th year 1045 through 2349 days</td>
<td>25</td>
<td>.096153</td>
<td>7.692</td>
<td>75 work days (600 hours)</td>
</tr>
<tr>
<td>10th through 14th year 2350 through 3654 days</td>
<td>27</td>
<td>.103846</td>
<td>8.307</td>
<td>81 work days (648 hours)</td>
</tr>
<tr>
<td>15th through 19th year 3655 through 4959 days</td>
<td>29</td>

<td>8.923</td>
<td>87 work days (696 hours)</td>
</tr>
<tr>
<td>20th and thereafter 4960 days</td>
<td>31</td>
<td>.119230</td>
<td>9.538</td>
<td>93 work days (744 hours)</td>
</tr>
</tbody>
</table>

*Base (includes one additional day).

b) Separate STO Bank

Any STO hours that exceed the cap when it is lowered, will be placed into a separate leave bank and the hours will be available to be used as STO. The separate leave bank will have a “sunset” date in twenty (20) years (from June 25, 2012); however, unused hours in the bank cannot be lost. Excess hours and a few additional hours will be moved into the separate leave bank so that employees who are very near, but not over, the reduced cap will not immediately be at the cap in the first pay period.

c) Pre-Scheduled Usage

Scheduled Time Off may be used for any lawful purpose by the employee; the time requested shall require the approval of management with due consideration of employee convenience and administrative requirements.

d) Scheduled Time Off Bank Carry Over
In the event the employee does not take all the scheduled time off to which entitled in the succeeding twenty-six (26) pay periods, the employee shall be allowed to carry over the unused portion, provided that the employee may not accumulate more than three (3) years’ earnings except:

1. When absent on full salary due to work-related compensation injury which prevents the employee reducing credits to the maximum allowable amount, or

2. In the case of inability to take paid time off because of extreme emergency, such as fire, flood or other similar disaster, an additional accumulation may be approved by the County Executive.

If the appointing authority does not provide vacation for an employee sufficient to reduce accumulated STO balance to the maximum allowable balance permitted, the employee may take vacation as a matter of right immediately before the end of the pay period in which the STO would be lost.

e) Scheduled Time Off Bank Pay-Off
Upon termination of employment an employee shall be paid the monetary value of the earned Scheduled Time Off balance as of the actual date of termination of employment.

Section 14.2 – Sick Leave Bank Accrual

a) Sick leave Bank Accrual
Each employee shall be entitled to an annual sick leave bank accrual. Sick leave is accrued on an hourly basis and computed at the rate of sixty-four (64) hours per year and may be accrued without limitation. The accrual factor per hour is .030769 and the accrual factor per full pay period is 2.462.

b) First Day Usage Prior Contract History
Prior Contract History: Four days (32 hours) of sick leave were converted into the STO accrual leaving employees to accrue 8 days (64 hours) of sick leave instead of 12 days (96 hours). These additional four days of STO were integrated into the STO yearly accrual rate (Section 14.1 a).

To allow more flexibility in the use of an employee’s accrued leave banks while maintaining the eligibility for cash out, the following terms shall apply:

During each payroll calendar year employees may use up to a maximum of 32 hours of STO for absences due to personal illness or any other absences which are chargeable to sick leave in accordance with the following terms:

- For the purpose of first day usage, a day is defined as 8 hours.
- For employees who work less than full time, the first day STO and the requirement of 32 hours of STO usage would be prorated.
- The first 8 hours of such absences shall be charged to STO.
- Employees working longer shifts have the option of using STO or sick leave for the remainder of the shift.
• If the STO bank is exhausted, the first 8 hours shall be Leave Without Pay.
• Such absences beyond the first 8 hours shall be charged to sick leave unless the employee requests to use STO up to a maximum of 32 hours.
• After using 32 hours of STO for such absences within each payroll calendar year, subsequent absences shall be charged to sick leave including the first day.
• For the purpose of this section 14.2 b, absences chargeable to sick leave include but are not limited to family care usage and bereavement leave.
• For employees who are hired into the bargaining unit after the beginning of the payroll calendar year, the requirement to use 32 hours of STO shall not be prorated.

Notwithstanding the above, an employee who experiences a continuation of a verified personal illness or that of a member of the immediate family within 14 calendar days of her/his original return to work, may charge the renewed absence directly to accumulated sick leave balance but subject to any restrictions in Section 14.2.c).

Exceptions may be granted for absences due to life threatening illness requiring ongoing treatment beyond four incidents of absence in a calendar year upon review and approval of an executive manager.

c) Family Care Usage
An employee is entitled to use one-half (1/2) of his/her annual accrued leave in order to care for a sick or injured member of the employee's immediate family requiring care. The initial period of time granted, up to one full day, must be charged to the STO bank unless the employee has used 32 hours of STO for absences outlined in 14.2 b in which case the leave is charged to the sick leave, not STO. "Immediate family" shall mean the mother, father, grandmother, grandfather of the employee or of the spouse of the employee and the spouse, son, son-in-law, daughter, daughter-in-law, the employee’s brother or sister, or any other person living in the immediate household of the employee.

d) Doctor's Notes
Request for sick leave with pay in excess of three (3) working days must be supported by a statement from an accredited physician. Management may require such a supporting statement for absences less than three (3) days.

e) Bereavement Leave
Leaves of absence with pay shall be granted employees in order that they may discharge the customary obligations arising from the death of a member of their immediate family. "Immediate family" shall mean the mother, father, grandmother, grandfather of the employee or of the spouse of the employee and the spouse, son, son-in-law, daughter, daughter-in-law, brother, sister, brother-in-law, sister-in-law, or grandchild of the employee or any person living in the immediate household of the employee. Up to five (5) days with pay shall be granted. The first two (2) days shall not be charged to any employee bank. If necessary, the third day shall be charged to the STO bank unless the employee has used 32 hours of STO for absences outlined in 14.2 b in which case the leave is charged to the sick leave, not STO. The fourth and fifth days shall be charged to the sick leave bank unless the employee requests to use STO. Up to an additional three days, two of which are chargeable to sick leave and the third day not charged to any accumulated balance, is authorized if out-of-state travel is required.
f) **Sick Leave Bank Pay Off**

Upon death, retirement or resignation in good standing, an employee shall be paid for any balance in the sick leave bank at the following rate.

<table>
<thead>
<tr>
<th>Days of Service</th>
<th>% Paid at</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

**g) Reinstatement Pay Back**

Employees receiving a sick leave bank payoff in accordance with Section f) may, if reinstated within one (1) year, repay the full amount of sick leave bank payoff received and have the former sick leave bank balance restored. Repayment in full must be made prior to reinstatement.

**h) STO Cash Out**

Employees who use no sick leave for a period of one year beginning pay period 1/01 December 23, 2014, through pay period 14/26 December 21, 2014, shall be allowed to cash out forty (40) hours of STO with an option to cash out an additional forty (40) hours of STO.

Employees who use no more than 46-24 hours of sick leave for a period of one year beginning pay period 14/01 December 23, 201419/01 December 17, 2018 through pay period, 14/26 December 21, 201419/26 December 15, 2019, and each December to December period thereafter during the term of this agreement, June 23, 2014May 4, 2020 through June 23, 20142024, shall be allowed to cash out forty (40) or eighty (80) hours of STO (for no more than a total of 80 hours). Those employees who use no sick leave during that period have an option to cash out an additional 40 hours of STO (for a total of 80 hours). Eligible employees shall submit their request to ESA Human Resources during the month of January and payment shall be made during the month of February.

Sick leave charged for any purpose (i.e., bereavement leave) is used to determine STO cash out eligibility.
Section 14.3 – Administrative Leave

a) The County will supply the Union with a list of represented employees who are on administrative leave on a monthly basis. The list will include the type of administrative leave and current status. The list will be supplied via e-mail to cemanotifications@sccema.org.

b) The County will make reasonable efforts to limit the length of time that employees are placed on paid administrative leave to twenty-six (26) pay periods or less. The County and the Union recognize that there may be circumstances warranting paid administrative leave for a period of time greater than 26 pay periods. Such circumstances include, but are not limited to, Equal Opportunity Department investigation, Fitness for Duty, law enforcement investigation, adjudication of Civil or Criminal trials or investigations involving outside agencies such as EEOC or DFEH. The Appointing Authority (or designee) may use an extra help assignment or a WOOC assignment to perform the work of the employee(s) placed on paid administrative leave. If such an assignment is made, it shall be made in compliance with MOA Article 12 or Ordinance Section A25-188.

Employees subject to the Public Safety Officers Procedural Bill of Rights Act (“POBAR”) of 1974 are excluded from this section.

Section 14.4 – Administrative Time Off (ATO) and FLSA – Exempt Employees

Most CEMA represented employees are designated by the County as “exempt” employees under the Fair Labor Standards Act (FSLA). Employees who are designated as “exempt” are salaried employees who are expected to work the number of hours necessary to fulfill the duties of the position without overtime pay. Depending on the circumstances, employees may work more or less than forty (40) hours in any particular week.

a) ATO Defined
Recognizing the above, FLSA-exempt employees may be granted ATO without charge to any leave bank. ATO may be granted regardless of hours worked from their regular schedule.

b) ATO Requests
An employee may request ATO for any purpose without the necessity to state a reason. Employees shall request ATO in advance when possible. ATO is typically in increments of less than one day. For a full day’s absence under ATO an executive manager’s approval is required. The County should not deny an individual request for ATO absent a legitimate business reason. The County may temporarily issue a blanket ATO usage denial for a legitimate business reason.
ARTICLE 15 – LAYOFF PROCEDURES

When the County determines that a layoff is imminent within the bargaining unit, it shall give the Union such advance notice as is reasonable under the circumstances. Such notice shall describe the general areas which may be affected and the circumstances requiring the layoff. Upon request, the Union shall be afforded the opportunity to meet with the County to discuss these matters and any proposed alternatives.

Section 15.1 – Seniority Defined
Except as otherwise provided in Section 15.2, seniority is defined as days of accrued service within any coded classification with the County. For layoff purposes all time on Worker's Compensation and Military Leave shall be added to this computation.

Section 15.2 – Transfer of Prior Agency Service
If a function of another agency is transferred to the County, the seniority of employees who transfer with the function shall be computed based upon application of the definition of Section 15.1, to each employee's prior service with the other agency.

Section 15.3 – Changes to Classes
To the extent possible, employees should not lose their rights under this article because classes have been revised, established, abolished or retitled.

Section 15.4 – Order of Layoff
a) Bilingual Designation - The department shall at least annually determine the number of positions in each classification that require a specific skill paid for through a differential. The number of such positions must be approved by the Director of Personnel. In all cases the employees in the department certified in that skill shall be retained in order of seniority until the requisite number of skill-positions are filled. The parties agree that the term "skill" as used in this section relates to bilingual skills.

b) Special Skills – Before each layoff, the department may identify one or more position(s) that require one or more special skills, abilities or knowledge areas (for simplicity “skills”) that it believes must be retained. The list of criteria below is not an exhaustive list, and management may provide other criteria if it can demonstrate the operational need for the particular skills(s).

1) Cannot perform the work without the special skill as determined by an outside entity (e.g., legal, regulatory, certification).

2) The skill is tied to grant funding.

3) The skill is required and/or was recruited for as part of selective certification or the recruitment process when the position was last filled.

4) The position has previously been designated as requiring a special skill and the underlying conditions remain the same.
ESA will review the request to retain the position that requires the special skill(s) and send the recommendation to retain the position to CEMA. CEMA will have ten (10) County business days to review the recommendation and request to meet and confer. If there is no agreement, the employee shall remain in seniority order for the purposes of the layoff.

If the parties agree that the skill(s) required to perform the duties of the position are to be retained, there shall be a determination of which employees within the classification possess the required skills. This may result in an employee, with the skill(s), being retained out of seniority order.

If there is more than one employee within the classification who possesses the skill(s), and is subject to layoff, then seniority as defined under section 15.1 and order of layoff outlined in section 15.4 c) will determine the lay off between the employees who possess the skills.

If a less-senior employee’s layoff notice is rescinded, and the less-senior employee is recalled due to the special skill and in that process the employee with more seniority is bypassed and laid off from the classification, then the more-senior affected employee will be placed on the re-employment list.

In addition, the more senior affected employee shall be eligible for additional consideration in the layoff and re-employment process:

1. Inplacement – The employee can elect to be considered for in-placement instead of returning to former class.
2. Second-Inplacement – The employee may be considered for another inplacement if the first inplacement was not a good fit as determined by ESA and CEMA.
3. Probationary Period – The parties may mutually agree to extend the probationary period for the inplacement.
4. Re-employment List – The affected employee will remain on the re-employment list until re-employed, provided the employee has not declined two offers of re-employment within the same classification or equivalent classification. Refusal to accept one of the two offers of re-employment shall cause the name of the person to be dropped from the re-employment list.
5. Training – ESA will make every effort to work with the Department to develop a training plan to assist the employee in the new inplacement position.

c) Except as set forth earlier, in this section regarding special skills and bilingual designation, when one (1) or more employees performing in the same class in a County department/agency are to be laid off, the order of layoff in the affected department/agency shall be as follows:

1. Provisional employees in inverse order of seniority.
2. Probationary employees in inverse order of seniority.
3. Permanent employees in inverse order of seniority.
Section 15.5 – Notice of Layoff

Employees subject to the provisions of this article shall be given at least twenty (20) working days written notice prior to the effective date of layoff. The procedures listed below shall be applied prior to the effective date of the layoff.

Section 15.6 – Reassignment in Lieu of Layoff

a) Vacant Code in County

In the event of notice of layoff, any employee so affected will be allowed to transfer to a vacant position the County has determined to be filled in the same classification in any County department/agency.

b) Former Classification

In the event there are no vacancies as listed in a) above, an employee will be offered a vacant position in any classification at the same level in which permanent status had formerly been held, first in the affected department/agency and then County-wide.

c) Displacement

In the event there are no vacancies as listed in a) or b) above, the employee shall have the right, upon request, to be returned to any classification in the department/agency at the same level in which permanent status had formerly been held and the regular layoff procedure in that same level shall apply.

d) Lower Level Classifications

In the event that an employee does not have enough seniority to claim a position under b) or c) above, those sections shall be applied to each subsequent lower level classification in which permanent status had formerly been held.

Section 15.7 – Layoff

In the event that an employee is not reassigned in lieu of layoff as in Section 15.6 above, the employee shall be laid off. If an employee elects not to exercise the rights in Section 15.6(c) he/she may be deemed to have been offered and to have declined such work.

Section 15.8 – Inplacement

If an employee has been issued a layoff notice pursuant to Section 15.5, Notice of Layoff, and has no reassignment in lieu of layoff rights pursuant to Section 15.6 or 15.7 then that employee shall be considered for inplacement.

Inplacement is an offer of transfer (within specific wage bands) or demotion to an employee with a layoff notice to a vacant position which the County intends to fill during the layoff notice period.

The following conditions apply to the inplacement process:

a) An employee must be qualified to transfer or demote. The Personnel Director shall determine qualifications

1. Testing requirements will be the same as if the employee had been reclassified.
2. In determining qualifications and possible positions, transfers and demotions to both related and non-related classes may be considered.

b) Transfer will be deemed a "lateral transfer" if movement from one class to another does not exceed an upward salary change of twelve-fifteen percent (\(12\% - 15\%\)).

c) Normal transfer (ordinance code) rules apply (i.e.: the employee can be taken on a permanent or probationary basis at the discretion of the appointing authority). If an employee has underlying permanent status the probationary period following the transfer shall be considered a subsequent probation. Consistent with this status, the employee on a subsequent probation with underlying permanent status, has Personnel Board appeal rights.

d) The employee may express a preference for certain occupational fields, appointments or departments. However, the employee has no right to claim any position nor is the County required to offer inplacement.

e) The position shall not be considered "vacant" for inplacement purposes if the position has been identified as claimable under Section 15.6(a), or (c) by another employee who has been issued a layoff notice under Section 15.5, Notice of Layoff, or by an employee on a re-employment list established pursuant to Section 15.9., Re-employment List.

f) An employee who is placed under this inplacement section or laid off under Section 15.7 shall have his/her name placed on all re-employment lists pursuant to the appropriate classification.

g) In determining placement offers, CEMA and the County, on a case by case basis, may by mutual agreement include as part of the placement offer:
   1. basic skill competency training and/or;
   2. literacy training and/or;
   3. other methods (other than transfer or demotion) of filling vacant positions that do not violate Merit System principles or County Ordinance Code provisions.

h) All inplacement offers must be made and accepted or rejected prior to the effective date of the layoff notice. Time permitting, the Personnel Department may assist employees on the re-employment list in addition to those workers with layoff notices. Such employees shall be entitled to all provisions of this Agreement.

i) If an employee is not placed by the effective date of the layoff notice, he/she shall be laid off under the provisions of the layoff notice.
Section 15.9 – Re-employment List
a) The names of such probationary and permanent employees reassigned or laid off in accordance with Section 15.6(b), (c), or Section 15.7 of this article shall be entered upon a re-employment list in inverse order as specified under Section 15.4. Upon certification of the re-employment list to the appointing authority, the person standing highest on a re-employment list for a particular classification when a vacancy exists in that classification in any department/agency shall be offered the appointment. Employees on re-employment lists shall retain the right to take promotional exams and/or receive promotional preference on exams. The re-employment lists shall take precedence over all other methods of appointment.

b) When required by the needs of the department and approved by the Director of Personnel, selective certification may be utilized to re-employ employees with particular skills as listed in Section 15.4.

Section 15.10 – Temporary Work for Laid Off Employees
Interested employees who are placed upon the re-employment list due to layoff and who elect to be available for temporary work shall be given preference for such work in their former department/agency in the classification from which they were laid off. The election to be available for temporary work must be made at the time of layoff. Employees may decline to be available for temporary work or may decline such work itself without affecting any rights under this article.

Section 15.11 – Names Dropped from Re-employment List
No name shall be carried on a re-employment list for a period longer than two (2) years, and the names of persons re-employed in a permanent position within the same classification shall, upon re-employment, be dropped from the list. Refusal to accept the one of two offers of re-employment within the same classification, shall cause the name of the person to be dropped from the re-employment list.

Section 15.12 – Rights Restored
Upon re-employment of an employee from a re-employment list, all rights acquired by an employee prior to his/her placement on such list shall be restored.
ARTICLE 16 – GRIEVANCE PROCEDURE

Section 16.1 – Grievance Defined

a) Definition
A grievance is defined as an alleged violation, misinterpretation or misapplication of the provisions of this Memorandum of Agreement, Merit System Rules, or other County ordinances, except as excluded under b) below.

b) Matters Excluded From Consideration Under the Grievance Procedure
1. Performance Evaluations/Management Planning and Appraisal Report
2. Probationary release of employees
3. Position Classification
4. Workload/Caseload
5. Merit System Examinations
6. Items requiring capital expenditures
7. Items within the scope of representation and subject to the meet and confer process
8. Disciplinary Actions taken under Section 708 of the Charter
9. Denials of Alternate Work Schedules and Telework
10. Compaction Review Process and Outcomes
11. Workload

Section 16.2 – Grievance Presentation

a) Informal Resolution
The employee(s) shall discuss the grievance with his/her immediate supervisor within ten (10) working days of the occurrence or discovery of an alleged grievance. Within ten (10) working days, the supervisor shall give his/her decision to the employee. A group grievance shall proceed in the same manner.

b) Formal Grievance
1) Step One - Within ten (10) working days if the employee is not satisfied with the response from the supervisor or the employee has not received a response within the ten (10) working day limit, the employee or CEMA may present the grievance in writing to the Office of Labor Relations. The grievance form shall contain information which:

a. Identifies the aggrieved;

b. The specific nature of the grievance;

c. The time or place of its occurrence;

d. The section of the MOU or other sections identified in Section 16.1 alleged to have been violated, improperly interpreted, applied or misapplied;

e. The consideration given or steps taken to secure informal resolution;

f. The corrective action desired; and,
g. The name of any person or representative chosen by the employee to file the grievance on his/her behalf.

2) Step One - Decision
   a. A decision shall be made by Labor Relations in writing within twenty (20) working days of receipt of the grievance. A copy shall be sent to CEMA and this copy shall dictate the time limits.

   b. At the request of either party, a meeting will be held within twenty (20) working days of receiving the grievance, for the purpose of a mutual exchange of information. If such a meeting is requested, the decision shall be due twenty (20) working days from the date of the meeting.

   c. Existing grievances shall not be amended to include additional alleged violations.

3) Step Two - If the aggrieved continues to be dissatisfied, CEMA may, within twenty (20) working days after receipt of the Step One Decision, request that the grievance be referred to an impartial arbitrator mutually agreed upon or jointly selected from a panel provided in section 16.4. The arbitrator's compensation and expenses shall be borne equally by the Union and the County.

   The decision made by the arbitrator shall be final and binding.

Section 16.3 – Pre-Arbitration
All parties will attempt to stipulate or agree on the issue(s)/question(s) to be submitted to an arbitrator.

The Arbitrator shall be advised of and agree to the following provisions:

1. Within twenty (20) working days of receipt of the grievance at Step Two, one (1) arbitrator shall be selected from the panel and the parties shall use their best efforts to schedule a hearing within thirty (30) calendar days. At this time the parties will stipulate whether to provide pre-hearing briefs.

2. If the selected arbitrator cannot be scheduled within one hundred twenty (120) calendar days, the parties will mutually agree to either another arbitrator or extend the time limits for the hearing.

3. Arbitration proceedings shall be recorded but not transcribed except at the request of either party or the arbitrator. If a transcript is prepared, the parties shall share equally in the cost. Upon mutual agreement, the County and the Union may submit written briefs to the arbitrator for decision in lieu of the hearing. The parties may submit pre- and post-hearing briefs to the arbitrator and provide copies to the parties. Pre-hearing briefs shall be submitted thirty (30) calendar days in advance of the hearing.
4. No issue that was not specified in the grievance may be raised in the arbitration. This memorandum of agreement shall be submitted as a joint exhibit. Nothing in the agreement shall be construed to empower any arbitrator to change, modify or amend any of its provisions.

Section 16.4 – Arbitration Panel
Unless mutually agreed, for the term of this agreement the County and the CEMA shall use the following panel:

Morris Davis  Paul D. Roose
John Kagel      Christopher Burdick
Norman Brand    Alexander Cohn
Catherine Harris  Carol Vendrillo

The parties may also mutually agree to choose another arbitrator not on the above list.

Section 16.5 – Arbitration Release Time
The following statement on employee participation in grievance arbitration hearings is agreed to:

a) The employee on whose behalf the grievance has been filed will be granted release time for the entire hearing. Release time to serve as a witness will be granted on a scheduled basis, i.e., when the employee is scheduled to appear. In the case of a group grievance, release time will be granted for the designated spokesperson for the entire hearing.

b) Other requests for leave for the purpose of defending the grievance in the arbitration hearing will also be granted provided the absence does not unduly interfere with the performance of service.
ARTICLE 17 – LETTER OF REPRIMAND

A letter of reprimand shall be retained in an employee’s personnel file for a period of two (2) years from the date of issue. At the end of the two (2) year period, it shall be removed from the personnel file provided that no related disciplinary action or letter of reprimand has been issued during the intervening period.
ARTICLE 18 – PERFORMANCE APPRAISAL AND DEVELOPMENT PROCESS

Performance appraisals shall be completed annually by the employee’s immediate Supervisor /Manager on ESA-approved forms. A copy of the completed appraisal shall be retained in the employee’s personnel file.

An employee who is dissatisfied with his/her appraisal may request and receive a review from the next highest level manager. This request must be received in writing within twenty (20) working days of the receipt of the completed of the appraisal. If still dissatisfied, the employee may request a further review from the Department/Agency Head. If the employee reports directly to the Department Head, the employee may request a further review from the next highest level person. Changes made as a result of the review process will be included in the appraisal document.

The performance appraisal document may be used by either party in the transfer and promotion process but may not be used in the disciplinary process, the oral board process or in a probationary release.

Only the mutually agreed upon employee evaluation process may be used which is listed on the County Website. The County and CEMA agree to meet and discuss no earlier than 12 months after May 4, 2020 in order to meet and discuss modifying the employee evaluation process. Modifications, if any, to the employee evaluation process must be mutually agreed upon in writing. The County and CEMA agree that the meet and discussions will conclude within six months of commencing the meet and discussions. If no mutual agreement is reached, the employee evaluation process listed on the County Website shall be the operative process. These discussions are excluded from the grievance procedure.
ARTICLE 19 – ALTERNATE WORK SCHEDULES AND TELEWORKING

The County of Santa Clara recognizes that flexible work arrangements and reduced commutes can benefit the employee, the department and the public by making the most efficient use of staff time.

The County shall provide alternate work schedules and telework opportunities to CEMA represented classifications. Eligibility for these opportunities shall be in accordance with the County of Santa Clara Alternate Work Schedule Policy or Teleworking Policy for CEMA represented classifications.

This section is not subject to the grievance procedure.
ARTICLE 20 – SAFETY SHOES

County Employees Management Association (CEMA) represented employees shall be eligible for County approved safety shoes, as authorized and approved by the County Executive, in accordance with the Protective Footwear Policy and Safety Shoes Reimbursement Program. Classification eligibility shall be determined by review/approval of the Agency/Department Head, Employee Services Agency (ESA) Insurance Division and the Office of Labor Relations. Employees may appeal denials through the County-wide Safety Committee. The decision of the Committee is final.

Supervising Probation Counselors shall receive an annual safety shoe allowance in the form of a Two Hundred Fifty Dollar ($250) voucher.
ARTICLE 21 – PROBATIONARY PERIOD

1. Original probationary period for employees shall be nine (9) months to be counted by pay periods. The ending date shall be counted as nine (9) calendar months moved to the beginning of the next pay period.

2. Subsequent probationary period for employees shall be six (6) months, to be counted by pay periods. The ending date shall be counted as six (6) calendar months moved to the beginning of the next pay period.
ARTICLE 22 – FAIR LABOR STANDARDS ACT

The County and Union will comply with FLSA provisions with regards to discipline for FLSA exempt employees.

The County and Union will meet to develop the guidelines to implement the exceptions of disciplining for less than one work week.
ARTICLE 23 – LABOR MANAGEMENT COLLABORATION

The County and CEMA agree to establish regular labor-management meetings as often as necessary to address needs in a timely way, but no less than twice a year. The purpose of the meetings between CEMA business representatives, including liaisons, and County department management is to proactively address mutually agreed upon agenda items, which may include:

1. Strategic Planning,
2. Initiatives,
3. Budget,
4. External legislative regulatory updates,
5. Staffing issues and trends,
6. Discussion of classifications/individuals consistently working excess hours beyond a 40 hour work week,
7. Other items.

CEMA business representatives and liaisons shall be invited to meetings that any other bargaining groups are invited to when the outcome could impact CEMA represented employees.
ARTICLE 24 – CONTRACTING OUT

Section 24.1 – Notice to the Union
The County shall give the Union prior written notice of all new proposed contracts valued at $100,000 or more per fiscal year between the County and private third parties that are required to be presented to the Board of Supervisors for acceptance and/or approval for work currently being done by classifications represented by the bargaining unit.

Section 24.2 – Response to Notice
Notice from County as described in Section 24.1 is to be given to the Union by electronic mail. To request a meeting regarding the impact to the bargaining unit, the Union shall respond by electronic mail within five (5) working days from date of receipt of the County’s notice, with a request to meet on the impact to the bargaining unit.

Section 24.3 – Meeting
The County and the Union shall meet on the impact for not more than twenty (20) working days from receipt of written request from the Union. If concerns are not alleviated or agreement is not reached, the County may proceed.

The Board of Supervisors may proceed without giving prior written notice if it determines circumstances exist or will exist that justify urgency action. Reasonable advance written notice of intention to proceed on such a basis shall be provided the Union prior to the Board meeting to accept and/or approve the County’s contract with the third party; but nothing herein shall hamper the Board's lawful exercise of authority under state law in emergency situations.
ARTICLE 25 – STRIKES AND LOCKOUTS

During the term of this Agreement the County will not lock out the employees who are covered by this Agreement. The Association and Association-represented employees, both individually and collectively, shall not organize, carryout, cause, encourage, or condone any job actions, such as strikes, work stoppages, slowdowns, blue flu, sickouts, work-to-rule, sit-ins/sit-downs, intermittent strikes, partial strikes, sympathy strikes, or secondary actions such as refusing to cross picket lines or any other individual or concerted refusal to render services (including refusal to work overtime or any other curtailment or restriction of work at any time) or to obstruct efficient operations of the County, collectively (“Strike Activity”) by Association-represented employees during the term of this Agreement.

If the Association learns that bargaining unit employees intend to engage in Strike Activity, either through notice from the County or through other means, the Association will send a notice to all bargaining unit employees, with a copy to the Labor Relations Director, indicating: (1) the Strike Activity is not authorized or supported by the Association; and (2) Strike Activity may violate County or Departmental rules and result in disciplinary action. The Association shall take all other steps reasonably necessary to induce employees to cease any and all Strike Activity.
ARTICLE 25-26 – FULL AGREEMENT

It is understood this Agreement represents a complete and final understanding on all negotiable issues between the County and its Departments and CEMA. This Agreement supersedes all previous memoranda of understanding or memoranda of agreement between the County and its Departments and CEMA except as specifically referred to in this Agreement. All ordinances or rules covering any practice, subject or matter not specifically referred to in this Agreement shall not be superseded, modified or repealed by implication or otherwise by the provisions hereof. The parties, for the term of this Agreement, voluntarily and unqualifiedly agree to waive the obligation to negotiate with respect to any practice, subject or matter not specifically referred to or covered in this Agreement even though such practice, subject or matter may not have been within the knowledge of the parties at the time this Agreement was negotiated and signed. In the event any new practice, subject or matter arises during the term of this Agreement and an action is proposed by the County, CEMA shall be afforded all possible notice and shall have the right to meet and confer upon request. In the absence of agreement on such a proposed action, the County reserves the right to take necessary action by Management direction.
ARTICLE 26-27 – SAVINGS CLAUSE

If any provision of this Agreement should be held invalid by operation of law or by any court of competent jurisdiction, or if compliance with or enforcement of any provision should be restrained by any tribunal, the remainder of this Agreement shall not be affected thereby, and the parties shall enter into negotiations for the sole purpose of arriving at a mutually satisfactory replacement for such provision.

If the State of California notifies the County of Santa Clara that legislation has been implemented which assesses monetary penalties to local governments which settle wages and/or benefits with increases in excess of certain limits (such legislation currently pending is titled AB 1040), those benefits and/or wages shall not be implemented or continue to be paid. The parties shall immediately enter into negotiations for the sole purpose of arriving at a mutually agreed upon alternative.

The County reserves the right to cease payment or seek repayment of wages and/or benefits upon which the State of California is basing the monetary penalty. The County Employees Management Association reserves the right to contest the legality of the payment cessation or repayment.

It is understood that the purpose of this Section is to ensure that the County does not incur any liability or penalties on either the original agreement provisions, or the negotiated alternate provisions.
ARTICLE 27-28 – TERM OF AGREEMENT

This Agreement shall become effective only upon ratification by CEMA and approval by the Board of Supervisors and shall remain in full force and effect to and including June 23, 2014, April 6, 2020, through June 23, 2019-2024 and from year to year thereafter; provided, however, that either party may serve written notice on the other at least sixty (60) days prior to June 23, 2019-2024 or any subsequent June 23rd of its desire to terminate this Agreement or amend any provision thereof.

Upon request of either party, the parties shall commence negotiations for the successor agreement no later than 120 days prior to the expiration of this agreement.

County of Santa Clara
CEMA, Affiliated with Operating Engineers, Local Union #3, AFL-CIO
SIDELETTER OF AGREEMENT — Health Care Assistance
between
County of Santa Clara
and
County Employees Management Association (CEMA)

A cap for premium contribution for employee with Health Net family coverage is established effective after the September 1999 open enrollment window. This cap is built from the current employee contribution rate of $32.31 with an escalator based on subsequent Health Net percentage premium increases by applying that premium increase factor at each new plan year. This escalator is to be adjusted based on a review of Kaiser rate increases.

During the term of the agreement employees will continue the current contribution of $42.83 (which may be adjusted based on the formula outlined above).

Both parties agree to delete the sideletter on June 22, 2014.

Date: Sept 23, 2013

SIDELETTER OF AGREEMENT — “ME TOO”
BETWEEN
COUNTY OF SANTA CLARA
AND
COUNTY EMPLOYEES MANAGEMENT ASSOCIATION (CEMA)

During Fiscal Year 2014 should a majority of employees receive a wage increase paid as incentive for structural changes that is greater than CEMA’s, CEMA will also receive the same wage increase.

Any self-funded wage increase shall be excluded. Any realignments provided for specifically in the contracts of the majority shall be considered as part of the incentive pay for structural changes.

SIDELETTER OF AGREEMENT – Cross Departmental Opportunity Pilot Program
BETWEEN
COUNTY OF SANTA CLARA
AND
COUNTY EMPLOYEES MANAGEMENT ASSOCIATION (CEMA)

The County is offering selected employees in CEMA represented classifications an opportunity to gain valuable experience by working on a limited basis on an activity or project outside the employees’ current job. Each selected employee would spend no more than 10% of working time (not to exceed 6 months) in another department within the Agency or across the County for a specified period of time as agreed upon by the employee’s supervisor and the receiving supervisor. The employee would remain in the employee’s current classification. This side letter is not grievable.

The goal is to maximize the interest and experiences of selected employees in CEMA represented classifications by providing opportunities to work on short-term projects in departments across the County and to leverage and/or develop the talent and expertise of represented employees for effective County operations.

The Employee Services Agency (ESA) shall oversee this pilot program and collaborate with CEMA to evaluate it.

Participation in this pilot program requires management approval before applying. The experience gained by this opportunity can be included on future job applications and resumes. Temporary Assignment Responsibility Differential (TARD)Work Out of Classification (WOOC) does not apply to those who participate in this pilot program.

The estimated duration and time commitment for an activity or project opportunity shall be discussed with all impacted departments and shall be agreed upon by the employee and the sending and receiving departments before the start of the project. Estimated duties or time commitment may be changed by agreement by the employee and the sending and receiving departments. Opportunities can be initiated by employees and/or departments. The department receiving the employee shall be responsible for training, supervising, developing a work plan, and providing feedback to the employee. Duties of the activity or project opportunity are generally within the selected employee’s current classification. It is recommended that the employee have an assigned work location in the receiving office. The selected employee may be allowed and encouraged to participate in regular functions of the receiving department such as staff meetings, within the 10% assignment as needed.

The selected employee and the work unit would work out details including the following.

Side Letter on 24-hour Differential for Special Duties

24-hour differential for Certain Exempt Employee

b) Employees in the Supervisory-Administrative bargaining unit who are exempt from FLSA overtime are, and shall continue to be, expected to perform required duties without additional compensation regardless of the number of hours worked. There may be a limited number of unique, exempt positions that have been authorized in advance by the County Executive or his/her designee where an employee may be required to perform duties or to remain available to perform duties at any time over a continuous 24-hour period. No employee shall receive this differential for work in a position that has not been authorized in advance to receive this differential, or for performing duties or remaining available to perform duties for less than 24 continuous hours. No employee who is eligible for overtime pay, either under the FLSA or by the terms of the Memorandum of Agreement (MOA) between County of Santa Clara and County Employees Management Association, shall be eligible for this differential. Employees who are on an approved Voluntary Reduced Work Hour (VRWH) agreement shall not be eligible for this differential. CEMA may recommend positions for the County Executive to consider authorizing for this differential, but the decision on eligible positions will be made solely by the County Executive or his/her designee, in writing.

The purpose of this Side Letter is to establish a differential for employees in authorized positions who are required in writing by an Executive Manager, to be available for a continuous 24 hours of duty. The 24 hours may or may not include some of the employee's regular core hours. It is the sole discretion of the County to determine the need for or to assign an individual employee to these 24-hour assignments.

Assignments eligible for compensation shall be for one or more days, and an employee who is assigned pursuant to this Side Letter shall receive three hundred twenty dollars ($320) when assigned for a full pay period. Such assignments shall be solely at the discretion of the County Executive or his/her designee. Employees assigned for less than a full pay period shall receive thirty-two dollars ($32) for each assigned day, up to a maximum of three hundred twenty dollars ($320) per pay period. Assignments to authorized positions may be made to one employee, or rotated among two or more employees, at the Executive Manager's sole discretion. Assignments are based on specific individual responsibilities and business need, and therefore duties may be added, at management's discretion. Duties required while assigned to a 24-hour special assignment covered by this Side Letter shall be limited to duties within the scope of the job specification of the employee assigned.

i) Employees exempt from FLSA overtime eligibility may continue to be required to work beyond 40 hours in a workweek with no additional compensation, except as specifically provided in this Side Letter. The County will continue to expect and may require exempt employees, whether directed in writing or not, to perform tasks outside of the employee's regular core hours, without additional compensation.

j) When assigned to 24-hour Special Duties, the employee must remain reachable by phone and email, and cannot engage in any conduct that could impair the employee's ability to perform

New language is underlined.
Deleted language is struck through.
his/her job duties, including physically returning to a work site, decision making or completing required job tasks.

k) Employees in positions assigned to work Special Duties as described in this Side Letter, may request not to be assigned for any reason. The Executive Manager shall consider the request for either temporary or permanent exemption from assignment to 24-hour duties covered by this Side Letter, but the decision to grant the request shall be within the County's sole discretion and shall not be subject to the grievance procedure.

l) An employee exempt from FLSA overtime eligibility who has been assigned 24-hour duty on a continuous basis for six months or more may request not to be assigned 24-hour duty for a four month period. Approved paid or unpaid absences of one pay period or less shall not be considered a break in a continuous assignment of 24-hour duty. The employee's request must be in writing and must be provided to the employee's Executive Manager at least thirty (30) calendar days before the time requested for relief from 24-hour duty. The Executive Manager shall grant the request when possible. If the employee's request is not granted, the rate of compensation for 24-hour duty for that employee shall be increased beginning with the date that the requested relief would have begun, to forty-eight dollars ($48) for each assigned day, up to a maximum of four hundred and eighty dollars ($480) per pay period; and this increased rate will continue for each 24-hour duty period the employee is assigned to work, until the employee has not been assigned 24-hour duty for at least four consecutive pay periods.

m) Only the provisions of this Side Letter related to determinations of "continuous basis of an assignment," "relief from 24-hour duty," or "correct payment of differential pay" may be grieved; and such grievances shall be in accordance with the provisions of Section 16.2 Grievance Presentation a) Informal Resolution, and b) Formal Grievance 1) Step One, and shall not be subject to arbitration or the arbitration process in the MOA, or to any other appeals. No other provisions of this Side Letter may be grieved.

n) This Side Letter shall become effective at the beginning of the first pay period that is 90 days following ratification by the Board of Supervisors, and shall expire on June 23, 2019.
